\section*{Orange-Pitt game}

\section*{Syracuse in Pitt;} Panthers no kitten's

\section*{By Mike McAlary}

Pitt is it.
After foun years of mostly frustrating, sometimes rewar ding football, Frank Maloney is readying his team for the came.

The seniors know it and Maloney knows it. This is their last chance to knock off a top-ranked powerhouse.

Forget last year's Pitt game. Forget last week's Penn State game. They're all part of a painful history now. This is the game that matters.

That's the way I've tried to present it to the team," Maloney said. "I know we have to beat them. I think we can." Unfortunately, it won't be easy.
The Panthers (4-1-1) are a more explosive team than Penn State and have a defensive secondary that ranks with the best in the nation. Quite
"I think they're probably the best defensive backfield in the country," Maloney said. "It's unrealistic to think that we'll throw the ball 36 times (as Hurley did last week) but we'l have a balanced attack.'

The attack the Orangemen will be facing Saturday in Pittsburgh will be just as balanced.

Pitt quarterback Mark Cavanaugh, thought by many originally to be the best quarterback in the East, mounts a passing attack to Gordon Jones, a junior, who has made 18 receptions for four touchdowns. That is spec tacular.
"He (Jones) is a
super
natural athlete. It's amazing how he runs with the footbail after he catches it. He's just so explosive. He reminds me of Gale Sayers," continued Maloney. "Cavanaugh is good, but he's no Hurley."
The Fitt rumning game, led last year by the urisinkable and unstoppable Tony Dorsett, is led by two very capable backs in Elliot Walker and Fred Jacobs. Walker has rushed for 610 yards while Jacobs has galloped for 437 . Both are averaging over six yards a carry. Opening holes for the two speedy Panthers is for the two speedy Panthers is tive All-American at conter
On defense, the Panthers On defersse, the Panthers are no pussycats. Bob Jury another prospective All American, While Randy Hollaway, an All American last year, leads the line charge.
Pitt coach_Jackie Sherrill is justifably wary of the Orange as well. Especially one man in particular.
"I'm very impressed with Bill Hurley. He candeliver and he's an outstanding passer," remarked Sherill after watching Hurley's performance against Penn State on film.

There isn't one better quarterback in the country," Maloney said. "He's not a beautiful passer, but he gets the job done. The thing that makes Hurley so great is his competitive instinct and his mental football ability Hell if he could put that ability into the classroom he'd be Phi Beta Kappa.
"I can usually tell when he's
gonna play well," continued

\section*{Drive defensively}

Syracuse takes to the road tomorrow for a game with the Pitt Panthers. The Orangeman (2-4) and Pitt (4-1-1) plaved in an exciting and controversial game last season with the Panthers prevailing 23 13 and going on to win the national championship. Syracuse is coming off an emotional loss to Pann State while Pitt defeated Navy 34-17 last Saturday. The game can be heard on WSYR-AM 570 and WAER-FM 88 beginning at 1:30 p.m.

Maloney of his quarterback
"He'll play well this week:"
The question remains if the rest of the Orangemen will do the job.
I told them not to be satisfied with last week's game They have to commit themselves. They know what they have to do. They'll come through," Maloney eaid.

Receiving feedback
Echoing that confidence in Hurley are his receivers Rich Rosen and Bruce Semall.

We can throw against anyone" Semall said. "When you throw that means you can run and if we can do both, we'll win."
"Bill can do the job," stated Rosen simply.
"We'll be ready," added middle guard Willie McCullough. After last year's 23-13 defeat, many of the Orangemen don't need much more to get psyched for the game.
Trailing by seven points late in the game, the Orange were deep in Pitt territory and needed just over a yard for the first down. After two off-tackle dives by Jim Seasler, the Orange failed to make the first - or so the referees said.
"This is my last chance," Rosen said. "I busted my ass on that play last year. They
ran the ball between me and Jose (St. Victor). I saw it as clear as I see you. I was there. He made it," remembered Rosen.
You can bet that all 17 returming SU seniors, Maloney's firat class to graduate, will remember the plays just as well as Rosen.
"All we need is one break," Semall said.
"This team has established personality" Maloney tated. "They're fighters.
They had better be this week.

\section*{Soccer team falls in defensive effort}

\section*{By Patti Orsini}

The Syracuse University soccer team set a new record Thursday night against Oneonta State. But it wasn't for what they did, it was for what they didn't do.

Score.
Since 1950 the record has been six shutouts, but that changed Thursday when the Syracuse Orangemen suffered a 4-0 defeat, their seventh shutout of the season. The loss brought the team's record to 1-10.
SU's strategy, according to coach Bill Goettel, wasn't to score. "With the past record (of SU's goal production), we couldn't hope to score," he said. "Instead, we played a strictly defensive game he fast break."
Goettel's strategy put two players on the offensive line, with four halfbacks and four fullbacks playing close to the SU goal.
Brian Feeny and John Springer were the only attackers. Feeny thought the strategy a good one. "If we hadn't done that; eeny thought the strategy apart," he said.
SU goalie Mike Westcott, who played an excellent game, according to Goettel, agreed with Feeny, although, he said, "The strategy didn't work as well as it could have. It was kind of confusing with so many defensemen on the ball, and I didn't even see the first goal come at me."

That first goal was scored 19 minutes into the first half, by Oneonta's leading scorer. Keith Tozer- His eighth goal of the season came from 25 yards out, where Tozer got the shot off despite being surrounded by Syracuse defenders.
At the end of the first half Oneonta had outshot Syracuse 20-1, but led onily 10. The only SU shot on goal was taken by reserve forward Tom Case with 30 seconds left to play.

SU assistant coach John Bluhm said holding Oneonta to one goal in the first half was an accomplishment, considering their gtrength. "They are third in the state; so we played the defengive, game to hold the scoring, and we achieved that in the firsthalf," he said:
In the second half the defense let down as Oneonta acored three
The goals. Oneonta goal came at 4:47 of the half on a shot by Owen Rose. The goal was preceded by three other attempts to put the ball into the SU net. Westcott pushed, then kicked the ball out
Daze end

The seven catches he mede Saturday forgotten, SU tight end Bruce Sernall gtands gturnied ont the sidelines, contemplating the one he miswed in the waning-morsvents of the SU-Perin stait gaine. (Photo by John Wright.)
of the Eoal area, until Roae got his foot on it and acored.
Three minutes later Oscar Barringa sent a grounder into the left corner of the goal, maling the score 3o. But Barringa dion' stop there and at 21:09 of the aecond half he acored his aecond goal of the night, sending the ball into the xight side of the goal.
The final score was 4-0 and the Orangemen hadachieved what they wanted-a E -
phas in order to win a team must score as well as keepthe ball out of their own gopl.

\section*{UU calls SU policy 'ridiculous'}

By Mike Maynard
Univeraity Union can save a "substantial" amount of mones on its printing costs by hixing an off-campus printer to do its posters and flyers, but it in penalized fordoing so, according to Martin N. Grant. UU external chairperson.
According to a university policy. Whenever UU elects to ase an offcempus printer. it must pay Syracuse Uni versity Frinting Services \(\overline{5}\) per cent of the printer's fee.
The off-campus printer's fee, plus the万per cent charge, is atill considerably less than the fee charged UU to contrnct through SU Printing Services. Eract erid.
Grant called the policy "ridiculous" and "a waste of money
Posters and flyers, Grant said, are boed moat extennively by einema board. According to Cinema Board Coordinator Steve Kunin, the board han been payime Film Forum about

\section*{Students still encounter voting problems}

By- Kich I.uris
Local electiona for mayor. the Syracme City Cominil sind some county legislature eleats will ba heid this Nov. B, but the races will be decided with almost no votes from Syracuse students.
"It"e all in the interpretation of that statate," mecording to Richard Romeo, cornmissioner of the Onandaga County Board of Elections.
"That statute," section 151 of the state election laws, states that a person shall "neither gain nor lose" a
residency when he lives at a residency when he lives at a
school or military installation. Hecause of this law, countless Syracuse University students have been denied the right to vote in Omondaga County.
A Syracuse attorney, Richard Brick wedde, said he
has aought to have Section 151 declared unconatitutional because it is unfair to college students who wish to consider their sichool's county as their home.

Last year Brickwedde accused the board of election of setting "roadblocks" in the paths of SU students who applied to vote in this county. Brickwedde claimed that if the board of elections could force students to go to court to gain voting rights, they would discourage many gtudents from irying to register.
Brickwedde specalated that a large \(S U\) voting bloc could have affected the reaults of last year's elections in the county.

Brickwedde said Saturday it would talce few weeks to determine whether the board of elections is continuing its of elections is con
previous practicea.

Romeo baid a student applicant must fill out a questionnaire "approved by the state* asking him questiona to decide whether he is a resident of thit county, such ms whether he but a car regintered herw. Bared on thit quemtionnaire, the board of dection mines it dection Deniflle che be
appealed in court, Horneo said.
Romeo claimed moststudent applications are accepted bythe bowrd of elections. Approximately 15 per cent of these applications are denied. So far thit year, only one student has gone to court to challenge a board of elections
decision. Last July Ilavid berman, a genior at SU. won hie-rappeat before the-btite Sitpreme Court the lowest conrt in the state). Brickwedde served as his counsel.
Brickwedde said in the Berman case the board of elec. tions used a new ques.
tionn aire. Hrickwedde chnimed the new survey was "unconstitutional". "umd. "hvers more obnsxious than the first.
Berman suid the questionnaire awked him permonal questions, such as how much rent he pays and when he last
isited his parents home.
However, Jidge Edward Mcilothbin ruled, withont a formal hearing, that the board of election'e practices were all constitutional, according to Brickwedde. Brickwedde waid Mchilsthlin's decision is now continued on page two

\section*{Study reports Hudson pollution}

H3y IHick sitirha Over lisu,b00 New Yorkers who drink water drawn from the Hudteon Riverare expoging themselves to a variety of toxic and posaibly cancer-causing chemicals, according to a study released last month by the Environmental Defenise

Furnd and the New York Public hazardous chemicals, Interest Hesearch Group (NYYiNG).

A similar study of Lake \(\mathrm{On}_{n}\). tario, which provides drinking water for the city of Syracuse, is expected to reveal widespread contamination of the pread by a similar variety of
cording to NYMIRG.
The 20 -month atudy of water pollution in the Hirdson Kiver drainage basin cites state and federai regulatory agencies for their failure to control, or monitor, the discharge of toxic subatances in the river.

Waiter Hang

In an interview Friday. Walter Hang. molecular biologist, staff scientist for NYPLKG and coauthor of the study, said hundreds of industries discharge chemicals "carte blanche" into the Hudson.

The U.S. Enviornmentat Protection Agency (EPA) has ignored the mandate it recerved Wander Water Pollution ConFederal Water Rollution Con-
trol Act for control of toxic ubstances, Hang said.
Hang charged the EPA with ignoring the pregence of toxic aubatances in drinking water. While it is well known that the Hudson is contaminated with over 450,000 pounds of extremely hazardoua PCBA (polychlorinated biphenyls) Hang said the study reveals the presence of a "wide spec trum" of other substances suspected of causing cancer.
Current water purification procedures do not adequately remove toxic contaminanta from drinking water, Hang said. Water thet appeare to he dean may contein odorleas and tasteles chemcials, that canee cancrar, he ataid.
Hang said theare are indicetions thit mesidente in

Poughkeepsie, a city which depends on the Hudion for drinkimg water, have shown an "alarmingly high" colonrectum cancer death rate.

Investigations in New Orleans and Cincinmati have indicated "a significantly increased cancor mortality rate associated with ingestion of carcinogens (cancer-causing agents) in drinking water," according to the study.

Hans called for an "argressive stance" by the EPA against toxic discharges. He said NYPIRG and the defense fund hope to create a dialogue with the agency.
"We are going to help write the etrategy on handling toxic the strategy on handling
discharges," Hang said.

Among the proposals mad by the study are the establishment of a com prehensive monitoring program of industrial effiuents into the river, and the creation of an effective treatment technology to gradually eliminate such discharges.
The EPA has the resources to do the job, Hang said, but it has been "delaying and arguing" and making little headway against the growing problem of toxic pollutants. Hant inid the NYPIRG/EDF study, which has received widespread medis coverage, follown the media coverage, follow the "claksic Nader model:" objed tive in-derpth etudy of the water problem, "Innfare" surroun ding the rolense of the report and a follow-ap.

\section*{GSO funding surplus exceeds expectations}

By Daniel F. Brown The Graduate Student Organization has received \(\$ 1,510\) more in carry-over
funds from its 1976 - 77 budget funds from its 1976 -" 77 budget than had been anticipated, according to
Eric Boyer. has a aurplus of \(\$ 2,100\) in unallocated funds from 1976-'77, Boyer said. Apparently GSO should beable to cover any shortages resulting from the miscalculations in the 1977-'78 GSO budget which were reported last week.
According to the GSO summary of expenditures for the third quarter of 1977 released by Boyer at Thursday night's GSO Senate meeting, the Office of Student Affairs' final
determination of GSO \(1976-{ }^{-1} 77\) income was \(\$ 96,267\), or \(\$ 4,000\) more than budgeted expenditures.
Boyer said graduate enrollment was higher last year than the university, expected, so the amount received from student fees was underes timated.
\({ }^{\text {"The Office of Student Af- }}\) fairs figured our actual carryover to be about \(\$ 3,9339\) but they decided to throw in an extra \(\$ 64\) to make it. \(\$ 4,000\),: Boyer said. "I don't know if this is just because they like to deal with round figures or because they still aren't sure exaictly how many grad students there were last year." According to Boyer, GSO an-

\section*{Outlaws cancel concert}

The Outlaws, whoge first concert was as a warm-up aet for the Lynyrd Skynyrd band, canceled a concert scheduled at SUL last Friday, following the deaths of three members of the Skynyrd band in a plane crash Thursday afternoon.
Rob Light, coordinator of the University Union Concert Board, which was sponsoring the Uutlaws, said he hopes to reschedule the concert for late November or early l Jecember.
licketholders for Friday's concert who do not wish to go to the rescheduled concert can ohtain refunds from 9 a.m. to 5 p.m., starting tomorrow, at the UU ticket window in Watson Theatre. All of the Outiaws' concerts for the next week have been canceled.
ticipated approximately from 1976 in carry-over funds from 1976-"77 and portions of this money had already been allocated.

Eight departmental groups receiving allocations in the 1977-78 GSO budget have still not completed the necessary forms to activate their GSOaccounts, according to GisU Fresident Ross Burke.

Departmental groups in adult education, economics, fim; international relations, material science and physics have not made any attempts to activate their accounts, Burke said. The television-radio graduate group had activated its mccount, but must repeat the process, at the account representative left the university. The Public Administration propram is in the process of completing the forms, Burke said.
-1t seemes strange to me that these groups would wo throuigh the process of mequesting that the money be allocated, but not bother to activate the account for expenditures," Burke said.
Money in unactivated acounts may be reallocated if the eroups involved do nost take some action, according in

Burke.
Tithe
The senate passed a resolution Thursday night to increase the annual stipend for the editor of its newsletter, the Tumbrel, from \$2833.33 to 5600 . The earlier figure was determined by the Finance Tommittee to be inadequate.
The senate also passed a resolution of support for the Hemmingsen report which recommerids a 50 per cent imcrease in library spending, the hiring of additional library personnel and calls for the

\section*{university to dedicate itself to \\ Geologist discusses search for energy Court of Appeals.}

Hy Steve siaylest Geologists will play an important role in the United: States' search for new sources. of energy, according to New York State Chief Geologist Jarnes F. Davis.
Davis, an adviser to the President's Office of science and Technological Policy, discussed geology and energy Thursday night at Heroy
increaging the library's research capabilities.
The report was prepared by nembers of the University Senate's academic affairs and Sbraries committees.
Senators Ned Har
Senatorg Ned Harris and Lana J. Plude were elected to fill vacancies on the Finance Committee and Douglas Fenster was elected to the University Parking Advisory Committee, Earves Kahn and Kobert McGowan were chosen as GSO nominees forpositions as justices on the Graduate

Auditorium.
Greater use of coal and new oil reserves will demand up-todate geological information. he said, and nuclear power, especially, presents major questions with which geologists can deal.

Nuclear energy is anticipated to have the biggest growth" as a supplier of electricity. Davis said. "We now have 63 plants licensed to operate in the U.S., most of Which are in the Elast, which is energy-poor."

Davis said between 75 and 100 more nuclear plants will be needed to keep up with the expected growth of electrical consumption.

Implementing nuclear power, Davis said, will require geological assistance in three areas: finding uranium (the power source), planning plants that resist tremors in the earth and disposing nuclear waste.
In the late 1950 s . planning began for a plant on the Kamapo Fault north of New York City, he said. "The original design called for a plant essentially in an area of no seismic risks (earthquakes). Several planta were constructed in the 1960 s based on 10-year-old data before it was learned the area is relatively high in seismic activity, Davis explained.
As a result, one plant has been shut down and the others are being studied, he said.
Disposal of nuclear waste is also a serious matter, but current geological data shows subterranean areas sealed off from the surface, which can be used for nuclear waste disposal, Davis said.
The idea, he said, is to be sure there is no underground water that will carry the dangerous waste away.
Davis pointed out that Duclear plants nowin use will nuclear plants now after 40 years of operation because "present technology will be antique by techno
Other considerations in storing spent nuclear fuel rods include safe transportation to the disposal sites and leakproof shafts leading to the subsurface repositories.
Davis' appearance was sponsored by hecrab as part of its speaker series.

\section*{\(\star\) Voting}
being appiealed.
Herman said he still does not know why his application was rejected. Although the board of elections is required to explain to all applicants in writing why. they were rejected; Berman said the letter be xeceived only contrained the numbers of the questions he answered unsatisfactorily. with no further explanation.

\section*{Answering our mail:}

De-emphasizing stipends

University Union's Concert Board and Cinema Board coordinatora are asking thie SA Asgembly for 100 per cent stipend increases at tonight's meeting The assembly should turn down the re cuest.
Concert coordinator thob Light and film coordinator Steye. Kunin argued in

 year's budget hearing. This does not necessarily mean the stipends werecut unfairly \({ }^{\prime \prime}\) hatatyerr's cinema coordiafor earred \(\$ 1,300\), white two years ago the concert coordinator received \(\$ 2,200\) and free tuition. Both of theat alaries are excessive, the latter to the point of being crimingl. The coondinatora' stipend cuts were deeper than most, but only because the previous salaries were so high.
- Rumin and Light argue that they would have requested higher stipends during the budget hearings but they felt the money would be allocated -as it'had been in the past - from The practice of granting stipend in-
creases through generated incoine is just a shade short of stealing. its funding from thestudent fee. Yrofits from UU events should beputinto UU programs or UU facilities

One of the most intelligent moves made by last year's SA Finance Hoard Was, to "de eraphasize" the use of otipends to encourage voluntary parkicipation. if the assembly moves to raipe the stipends of Light and Rumin it would be contradicting that rationale It would also be an obstacle toward future deemphasization of stipend.
A atipend is nota salary. It is not supposed to conform to any minimum wage acale, noris it supposed to attract students who afe primarily interested in monev to a job.

If Rob light and Steve Hunin felt their stipends cuts were unfair they should have protested, rather than depending on an uniust system of inhouse allocations to. "rectify" the situation.
Jim Naughton for The Daily Orange

creating a bigker problem.

The limited number of spaces in
medical bchools should be reserved for the qualified ctudents of all races. I agree that minority races should be represented in the medical profession, but medical schoal should not aerve as a place for equalization of students. Our efforts should concentrate on better preparation of minority students 80 they can earn acceptance without a cuota gyatem. Would you want to be operated on by someone who was on academic probation?

Jeffrey Lloyd Katzel

\section*{To the editor.}

The more I think about it, the more enraged I become. Two wronge do not make a right, Mr. Naughton, but maybe you never heard. Why should non-minority students step aside and passively watch as lesser qualified minorities parade through the admissions office of every medical school in this country? Medical achool is not the place for sympathy -or guilt. Any compen aation for the underprivileged thould take place in grades one through 12 . It is hard enough to be qualified for and be accepted into medical achool as it is without hav ing to worry if one's "roots" are interesting enough. Don't apeak to us about American Dreams, Mr. Naughton. Please just recognize that admission quotas are no solution. Good grades and ambition should be the only parameters. Rebeica Gomez

\section*{SU printing policy: paying something for nothing}

A university policy requiring that 5 per cent of the cost of off-campusprinting orders be paid to Syracuse University Frinting Services discourages both economy and efficiency posters and fliers.
UU External Chairperson : Martin Grant called the policy "ridiculous." Cinema Board Coorrinator: Steve Kunin said it was a wate of money and
a thassle."

We agree.

Ofecampus printers can take orders in less time, and fill them for less cost, than university printing aervices. Why should university organizations pay more for less: Cinema Board; which uses most posters and fiera, is paying \(\$ 1,500\) a semester to F'ilm Forum (a university affiliated service) for orders that would cost \(\$ 650\) off-campus. Film Forum requirea orders one week in advance, while the off-campus printers need only a few hours notice.
By switching to the off-campus printer, the board would save \$w50 -
but the university would penalize this wise decision \(\$ 52.50\), to be paid to SU Printing Services, for not usink their services. That's \(\$ 452.5 x\) in student fee money which buys absolutely nothing. Hecause university policy requires it. if seems the university is intent on wasting utudent fee money one way or another. The policy offers a choice another. the policy offers a choice using their silowier, more eostly servicus or paying the university 5 percent for services not rendered.

We suggest that the university reevaluate the policy used to nugrment weighe of its own printing services by vantarg it against and efficiency offered by offcampus services. We believe the policy should be dropped.
Students are willing to pay for berviees funded by the student fee. They should not be forced to pay mamething for nothing.

Sy Montgomery for The Daily Orange.

\section*{Report: press freedom vs. fiscal dependence}

I would like to see it become independent so we aren't so tempted to censor what it says. The temptation is there because we do control the funds." -Keith Hutchings, SA Assembly parliamentarian
"It's not like they're supporting themselves and can do whatever they want to do."
-Rob Light, SA Assembly member
Report newsmagazine has a problem.
It's a problem that has gotten considerable attention lately. It may go away - for now. It won't disappear completely until something is done to resolve it.
The problem is reconciling critical coverage of university groups, and free expression of political cpmment, with constant financial dependence on Student Associntion.
Gontripuersy over the latefs issue of Report has brought this problem to thontifface. Recent díftussion of the issue has included talk of freezing funds, cutting off all SA all \({ }^{\text {ta }}\) cations to Report, holding a referendum to decide on independent fundikg of the newsmagazine-or requiring the staff to preserat the assembly wits "\& statement of purpose."
The-controversy occuirrin over this particular issue is not merely a question of taste. Certainlyforme of Repport's critics are annoyed by the freewheeling style of the publication. It is curiows those critics were not so vocal during laist year's' dificussion of allocations for Report, since the magazine has atways had 4 loose style, of preverting its coverage and coinnient Its motio wes atillt mad dog of the media" when a docile assem-

upon all aspects of the university without interference from Student Association. Having funded Report as such a publication last spring we believe the assembly should accept the obligation not to interfere with its editorial content.
In the future we suggest this as a rationale to be used in funding student publications. The assembly should either fund publications and give them complete editorial and financial independence (short of gross misuse such as personal use of funds), or elsenot fund them at all. To fund publications, and then use the funding power as a means of coercing change in editorial policies or content, makes a mockery of the press freedom for which SA officials eo frequently claim to have great respect.

It has been suggeated that the whole problem conld be alleviated if a referendum were held to make Report's funding independent, like that of The Daily Orange. We see two probleme in this approach. First, a strong possibility exists that Report would lose the referendum, and the major alternative source of news and comment to the DO would be lost. Second, euch referenduim would establish the basia for referenda on all etudent publications. Many which primarily serve a minority of the community, such as the Black Voice or Que Pasa, would lack majority support and probably lose their funding.

The probable result would be a monopoly held by one or two campis media, which we think an undesirable situation for any university community.

The problem of reconciling press freedom whith atudent government subsidization of the campus media may never be completely alloviated. But resistance by SA of the temptation to censor media supported by the studert fee will go a long way to protecting that freedoma.

By David W. Koeller He did not look like the typical concert pianist His in contrast to the long blond in contrast to the long blond hair of the cond welor who an ductorlet loose his enthusiasm in violent gestures, the pianist was restrained, refusing to was restrained, refusingengage in those wouches expects showmanship one expects fromaconcert arcist. Yetwhen
these two contrasting these two contrasting personalities were combined with a great piece of music, the-
result was music of beauty and result
force.
The pianist was Alexis

Weissenburg, the conductor was Christopher Keene and the music was the thirc Rachmaninoff Piano
Born in
Born in Bulgaria, Weigeen: burg etudied in Israel and,at the Julliard School. of Music. He has made successfu concert tours of Europe, North and South America and the Near East. Many of his recorcingsare with some of the world's most prestigious orchestras such as the Orchestra of Paris, the Chicago Symphony, the Berlin Philharmonic and the London Symphony.
Weissenbury has a long and affectionate history with this piano concerto. When he opened his first American concert tour, he played it with Eugene- Ormandy and the Philadelphia Orchestra. When he returned to the concert. stage in 1966 after a 10 year sabbatical, he performed this work with the New York Philharmonic.
This affection was clearly evident in the Syracuse Symphony Orcheatra performance Friday at the Pervic Center. The music is in the great trafdition of Russian the great tradition of Russian Romanticism, with sweeping
melodies, powerful rhythms melodies, powerfu.
The opening movement is full of reflective melancholy. which Weissenburg played marvelously. In the soft passages he was often barely audible, which contrasted nicely with the loud passages, especially the climaxes at the end of that movement. But at all times there was a feeling of pent-up energy

It was not unt
It was not until the end of the final movement, in a long and difficult section, that this energy was released. He played with great technical facility, letting the piece end in glorious triumph.
Also on the program was lgor Stravinsky's "The Kite of Spring." Although it appeared just four years after the Rachmaninoff. it is years apart in terms of style and temperament.

The piece was written for a: ballet about an ancient rite in which a secrificial virgin dances herself to death in order to appease the gods of: spring.
Although the setting is savage, the music is far from primitive. In this complicated - and demanding piece, Stravinsky uses clashing chords superimposed on one another with violent, jagged. rhythms and varied timestruc-- tures.

While these innovations have become staples of modern music, when they were introduced they were termed revolutionary. At its premiere the atidience erupted into a riot The boos. and hisses became so loud that the musicCould not be heard. People: threw food at the performers. Fist fights even broke out.
Keepe's rendition hed all of the elements needed for a spectacular: performance. Each; inetrumental line had amaz-s ring. clarity. The contrast Fthetween the loud and soft passages was incredible, riespecially between the secfi tionis titled "Adoration of Earth,": "Dance of the Earth" and all through the finals "Sacrificial Dance." Keene also made excellent use of acconts. He was never a fraid of \({ }^{2}\) offending anyoné Witrouthitsh offending anyone wite aburah dissonance, letting eschcomez
thrount with preat encropyng clarity

\section*{Contests, parties highlight Greek Weekend}

By Jon Rabiroff
This was Greek Weekend, a time in which fraternities and sororities gathered for virtual non-stop athletic events, beer drinking and togetherness.

When asked what Greek Weekend meant to him. Master of Ceremonies Mike Little, replied, "It brings back the old high school days." Kim

\section*{}

\section*{Continued from page one} \(\$ 1,500\) a semester to print. posters for upcoming films. Runin said cimerma board is not violating the university policy because Film Forum is \(n\) university-affiliated organzation.
By contracting off-campus or printing, Iumin eaid, cinema board would be paying only \(\$ 650\) on posters and flyers a semeater. SU Frinting Services would receive \(\$ 32.50\) as ita fee.

Morton, social chairperson of the Hanhellenic Council. said, IIt's a time for the individua houses to compete together and have fun.
The weekend began on Friday night with countless parties to prepare the combatants for the big day ahead. These ran deep into the niph with several fraternities and

\section*{sororities} parties.

Saturd Gaceurday began with chariot races in which fraternity brothers were turned into tem porary horses pulling around heavy, occupied chariots. The races were something Hen. Hur would have been proud of:
The rest of the day featured an assortment of crazy events Among the most colorful of these was the dirty sons contest, in which such classics as "Hock Around the pr\&** and rock Around the + !ac and I Could Have \#! \& All Nifrt were sunp with "slightly" moderated lyrics. One sorority sister, after a stirring rendition of a Mary Poppins' hit, said with a srin. "l'm glad my parents* aren"t here to see this.

Heerchugging, anevent that
has been prarticed every weekend since school beran, Was next on the hill. Fraternity brothers, in true Milwaukee spirit. downed cups of berer in the name of victory. Ithe only problem was the most of the beter ended up rumming down the competitors necks and onto their shirts
Sororities took part in un ear-shattering screaming Contest. The participants stomd severai leet away from a microphone and let loose with the loudest scream they could put forth. 'the winners were then chosen through the use of sound meters

Another sorority event was bed-making. The victors were thase whe made their beds the fastest. Ithis inspired onn' Iraternity brother to remark,
"lheyre always doing something that involves a led."
Kounding out the day were such normal activities as tugo war and relay races. Both proved that although everyone can't be a great athlete, they can have fun losing.
The only damper on the day was a strange little man who wats throwing rabber balls arainst Hendricks Chapel and running around from bush to bush partially undressed. His antics continued until campus security suards scared him away.
Perhaps the hightight of the day came after the events, when everyone retired to their raspective houses for parties that lasted the remainder of the weekend.

Puffy's fully foam insulared padding \& their crepe soles add up to toasty warm cornfort. All leather uppers - in natural and chocolate.

\section*{Winters eyes stadium}

\section*{SU can't do it alone}

By Bruce Levine
Building a stadium is "not Clifford L. Winters Jr. does the kind of thing we can do all not like to talk about hypotheticals.
As vice chancellor for administrative operations, Winters deals with the fimancial base of the university and by ourselves," he said.

The university would use the stadium at least six times a year for football games and other events, Winters said.
"It could be used for a whole

\section*{'we ought to look at the community'}

\section*{SU lacks the 'financial capability.'}
its long-term'planning, As one of the university's two representatives to the Onondaga County Stadium Commission, Winters will. be evaluating the need for \(a\) stadium, possible sites and funding plans for such a facility.
'It's not useful to talk about what might be done - it raises all the wrong questions," he said about the possibilities of SU building jts own stadium if the county legislature should decide not to undertake construction.
He also said it would not matter if the commission was able to make recommendations to the lefislature betore February. The legrislators will become lameducks after next month's clections, and would not feel able to act, Winters said.
"The university couldr't build its own stadium, it does not have the financial capability," Winters said. Very few private or public universities have built their own stadiums since the lixte 1950 s , he continued.

Eiven though silis budgret has balanced for the past five years and there was nos shortterm borrowing last yoar for the first time since 1967, Winters said the university's financial standing is not better than it was in 15967 . "We haven't met all of our capitul needs," he noted. Included in those needs are major those needs are mations of the Hall of Lantuages and other buildings, along with fundraisings for ang student union building.

\section*{range of activities for other purposes," he noted, including concerts and sports than foot-} ball.
"Good planning would say we ought to look at the community (to build thestadium)." he said. "SU. Syracuse, Onondaga County, upstate New York need a major sports arena.

And, he said, there is "a lot of interest out there (among alumni, students, the university and members of the community) in a county stadium which would incidentally provide a new homa. for Syracuse University foothall team.
\(\because\) If Notre I Jame were to build a stidium, they would have one to serve the community of South Send (Indiana).
What would happen to : \(\boldsymbol{t}\) it foothall was eliminated?

Any major sports program is built around football and busketball. Winters said. "No university can afford to dean iramural subsidization ot insports programs out of tuition. lt isecomes very difficult, if not impossible.

13ut the ponsibibility of losing the stadium and forstiball does not make it the university"s number one priority. There are at number of ways to set priorities. Winters explained. priorities, winters explatind. is: the need: to what do people is the neced: to what do people things can be self-supporting Things can be self-
after construction.

The university ciln work on potential donors for different potential danors for different tome people are concerned
with the arts, some with sports, and gome with saving the oldest building on campus," Winters said. "Ihere are not very many who want to give to all of these," he said.

Winters said he did not know haw many people will have to use the stadium to make it selfsupporting. It will depend on what kind of stadium and stadium site are finally decided upon.
While Winters said, the proposed Skytopsite, which he estimated to be worth \(\$ 1.5\) million, was indicative of SU's commitment to a new stadium, "the university can't do it all."

Clifford L. Winters Jr.

\section*{SU football: on the line}

The future of fontball at Syracuse University is, for the time being, in the hands of the Unondage County Stadium Commission. The commission will study the feasibility of building a stadium on \(S U\) property and make a report to the county legislature.
A stadium proposal will be presented tomorrow to the commission by the Frank Briscoe Construction Cio. of New Jersey. It will cite a \(\$ 7\) to \(\$ 8\) million construction cost for a
\(48,(10)\) seat stadium on
university property near Skytop. The seven-member com: mission, headed by architect David Chase, has two representatives each rom the university, the Metropolitan Development Association and the Onon daga County Legislature.
The commission has been charged by the county legislature with:
oconomic formining the economic fasibility and the economic impact of a multipurpose stadium in the County of Unondaga.
- determining if the stadium would be self-supporting.
- taking other Épecific directions from the Ways and Means Committee of the county legislature during the course of the study. In a two-part series, the Daily Orange will look at the seven members of the commission. Today's stories will profile Clifford L. Winters Jr. and Joseph V. Julian of SU, and Carter \(B\). Chase and Kobert L. Wehrle from the Metropolitan Wevelopment Association.

\section*{Julian: SU football won't exist without stadium construction}

Hy Howard Mansifield
It's safe to say that football won't exist at Syracuse University" if a new stadium is not built. according to oseph for Julian, vice president for public affairs at Syracuse University.

Julian said a new stadium would draw larger crowds, particularly with good access and sufficient parking. SU is in a good position to draw lirre crowds because it has the large crowds because it has the only major college football centrally located, he said.
In response to the claim that SU is too far from a major city to attract a large attendance, Julian said, "Penn State is also isolated from major population centers and attracts. 60,000 people to a game."

County support for the stadium is possible, according to Julian, although it will depend on the findings of the commission, the commission's 'recommendations can focus solely on the stadium or on necessary support

\section*{'Hopefully, a variety of sources' of funding will be found.}

\footnotetext{
services," such as sew
Julian predicts outside funds will be used to build the atadium. *Hopefully" \({ }^{7}\) he asid ata variety of sourcest alums. benefactors, sale of the benefactors, sale, of the Oranice Club and of icoturiee, if at all possible, pultictiands." Jnlians anid the iderathnt the
}
\(\$ 4\) million renovation of the Hall of Languages at the same ume as the stadium construc-
tion would be a financial strain on the university "presupposes SU would as presupposes \(S\). Would asofficial position of the oficial \({ }^{\text {university. }}\)
university. Julian was not prepared to comment on whether the university would take out loan:
NThe commission has not yet

\section*{Joseph V. Julian}
seen the Briscoe Company's \(\$ 7.5\) million stadium proposal. We all want to look at it," he said. The commission will ex amine the company's record of meeting cost estimates and ime schedules of past projects. They are very relimble from what I hear." he said.
Julian said the commission was intereated in-looking at sites other than the one at Skytop::
The construction of a stadium wourd not delay the conatruction of a umion- Mhey are not neqeas sarily excludive," he araid. "It is a mattier of finding beniefactors to support projects that are worthwhile.?

Chase: strong link in fates of SU city

By Tim Wendel A lawyer with glasses and a receding hairline, Carter \(B\). Chase, has been a key member of the Metropolitan Development Association (MDA) and the County Rlanning Board over the past five years. Him new role is with the Onondagra County Stadium Commimaion. Chase believes

\section*{Chase}
there is a strong link between the city and university. and that the problems of one affect the other.
-Eventhough SU had a balanced budget the last few yeare, their tuition continues to cost an arm and leg, and it is becoming increasingly difficult for the university to compete with the state Echoola," he said. "One of the ways to finance a private institution is with a top-ranked football teram. It would make Syracuse something on the roap and provide the city with needed advertising exposure.'

However. Chase said, a raediocre football team would do SUl and the city little good.
*We used to occasionally
have 35,000 in Archbold when
the team was good," he said. But a team that in not a winner would not fill a new stadium. We are in a chicken and egg situation. The team recruiting showcase for secruiting, and canot live without a crap of good recruits to bring lange crowds. In other words neither can . In other words, neither can exist without the

Chase asid the new stadium should be constructed "right next to the campus." He said that Archbold is probably the best location, except for the lack of parking space. "And lack of parking space. And parking is one of your chiet revenue makers
stadium," he noted.

The lack of federal and state help is another problem that has hampered stadium progress, Chase said. There have been no federal funds made available for building. made available for building. state are for matching federal funds.
-You have a structure that is going to cost anywhere between \(\$ 7\) miltion and \(\$ 20\) million to build and no economic plan for it yet," Chase said "I think the county is in favor of a stadium asiong
as the burden is a responsible as the burden is a responsible
tax rate increase, whatever tax rate
that is."

Chase said the major reason for a new stadium is that it will create jobs in the Central New York area. He added this issue is what the commission is currenely studying.
-The university has said to the county, we are a big factor in each other's future. We cannot ask you to help build dormitories or libraries, but a county stadium would be a beneñt to both of us. Could you please help us?" So far, the county has said 'Mr. University, we don't know. That is what the commission is nupposed to answer."

\section*{Wehrle: assistance} from county a must

Hoard of Lirectors of the Metropolitan Development Association (MDA) and one of two MDA representatives on the commission.
A new football stadium would be a "good thing for the county," Wehrle aaid.
"The county should support the stadium with some support from the univeraity." Wehrle said. This support might be "in kaid. , his supporimighibe it kind," such as the university providing the hand for the Ladium.
More people would be drawn to a larger stadium "with the appropriate caliber football cam - we're well on the way to haviag it, the university has a commitment to it,". Wehrie said.
The interest in the Penn State game two weeks ago was 00 strong. people could have alled a learger stadium, he eaid. A bigger stadium draws quality teams because the grate receipt the teams split. is bigger, he said. For example. Wehrle maid, two teams had requested to play Michigan at quested college's btadium, rather that play at their home han play at their home stadiumus, because
Wechate waid be would bring financial objectivity" to the comminision.

\section*{TO ALL OUTLAW TICKET HOLDERS,}

We are sorry that the Outlaws Concert scheduled for last Friday was postponed. It was a result of the tragic plane crash which took the lives of the Lynrd Skynrd Band. At this time we are trying to reschedule the date for late November or early December. An announcement will be made in this paper and on WAER as soon as possible.

Tickets for the October 21st show will be good for the new date.

Refunds will start on Tuesday, October 25th. All refunds must be picked up at the U.U. ticket window in Watson Theater between 9-5 pm.

We apologize for any inconveniences caused by the postponment. Sincerely, U.U. CONGERT BOARD

\section*{SYRACLSE LNIVERGTY BOOKGTORCS}

\section*{This is the semester to get your programmable.}

The TI-57. Its self-teaching system gets you programming fast.

TI Programmable 57. The powerful superslide rule calculator you can program right from the keyboard. Comes with an easy-to-follow, self-teaching learning guide-over zoo pages of step-by-step instructions and examples. Quickly learn the value of making repetitive calculations at the touch of a key. Recall entire instruction sequences. Display tion. Eight multi-use memories provide addressable locations to store and recall data. Program memory stores up to 150 keystrokes ( 50 program steps). Editing too: Singlestep. Backstep. Insert or delete at
any point in a program. Also a powerfut slide rule calculator with logs, trig func-
tions and advanced statistics routines.

The T1-58 and Tl-59 combine three major innovations to bring the power of programming to you-even if you've never programmed before:
1. Extraordinarily powerful-at remarkable low prices.
2. Revolutionary plug-in modules put complex formulas to work at the touch of a key.
3. Step-by-step learning guide that takes you from the basics of programming through advanced programmings-language you can understand.

TI Programmable 58. Up to 480 program steps. or up to 60 memories. Master Library module contains 25 prewritten programs in math, engineering. statistics and tinance. Also increases number of steps - up to 5000 . Library programs may also be addressed from the keyboard or inserted as subroutines. Can also be used with TI's new PC-100A printer/plotter. it lets you plot. print headings and prompt-messages.

\section*{\$11500}

TI Progirammable 59. More powerful than the TI-58. Up to 960 program steps or up to 100 memories. Magnetic cards store up to 960 steps. And, record and protect custom programs. Also 10 user flags. 6 levels of subroutines. 4 types of branches.
Optlonal Libraries. Applied Statistics, Surveying, Real Estate/Finance, Aviation, Marine Navigation. \(\$ 35.00^{*}\) each.

When you buy a TI Programmable 58 or 59 you can get this 19-program Leisure Library. A \(\$ 35.00\) value if you act now.

\title{
Look out Watkins Glen: here come the go-karts
}

By Norm Mayar
Hiscos are a drag. Fioor parties are beat. The next time you need a release from Since the beginning.
Since the beginning of University students have been University students have been heading down to Erie Now York's anzwer to the West New Xork's anzwer to the Wes Coast's surfin safaris: Go Kart Fun.
For m measiy buck anyone can be Mario Andrettior Janet Guthrie (at least for 10 laps around the one-tenth mileova track). And although Go-Kart F'm is no Watkins Glen, it is enough of a rukh to bring out The Waiter Mitty in anyone.
Driving the karts is simple Owner/manager Gene Hobin onn or one of his aides will direct you to a kart, get you seated and start your engine. They will give you a push to get the kart moving, and then all you do is steer and brake.
There are no gears to grind and the kares can only do 25 miles per hour. There is one hairpin turn thatsounds quite a bit more ominous than it
really is) and one very wide turn thames Hunt would give anything for such diversity). Go-Kart Fun opened in May. For Robinson, this is his first For Robinson, this is his first association with go-karts. Although business has slacked off aince area children have gone back to school. Robinson said his track would stayं open until people stopped coming completely or it starts snowing.

According to ktobingon, anyone can ride the kares ("ifa kid cant reach the pedals") and almost everyone enjoys it. He said his customers are mostly young people (40 per cent female) who "occasionally intluence parents to come back to ride."
Although Gomkart Fun is supposed to be family entertainment, Hobinsonsaid. "Ihere's always somebody who thinks his dollar entitles him to wreck a kart." I'hese types are chamed away as quic. kly as possible.

Greg Clarke, an SU student who has driven the karts twice. Baid, "People go nuts when they get on those things."

\section*{PUMPKIN SALE}

Sponsored by Hendricks Chapel Choir
Detolber 24-28
Hendricks
Chapel
Steps
Prices from 250: 82.00

Despite the occasional presence of these kamikazes, Robinson asid no one has ever been hurt while driving the karts. The infleld and the out with of the track are littered wirch old aucomobile cires. The tain are hard enough to conLain wayward karts and sort enough to cushion agrininst. Droken bones.
Another reason the ride is so safe is the karts themselves. They areso wide and low to the ground that it is impossible to flip them. Whe frames are sturdy, so if any karts collide (four karts rident a time) there is rarely any damake done.
Damaged or not, the karts get tuned upevery day. Rohinwon said he has a mechnvic who works on the fourhorsepower engines. They are made by Kohler and. nccordinty to Hobinson, were originally built to run 24 hours at a time for farmers.
The equipment is ciependable and the price is right, so the next time you are looking for a release, cruise down to Go-Kart Fun. Erie Boulevard may not be as pretty as the Glen this time of year, but it is as close as most of us will ever get to seeing a checkered flak waved in our direction.

\section*{Help from above?}

\section*{Hoping God's an SU fan}

Hy Givg Hu-kentumgh
Father Charles 1. Boryognoni hat seen many great grmes un well un
many great stars since \(196 ;\), when he became chaplain of the Urange basketball and football teams.

My aervices begin during give a little talk at dinners we have for the athletes, and try to stress the opportunities of Syracuse. I don thenk badly of other schools, but i mention
the benefits of a large, private university like Syracuse."
Borgognoni said, "There
spiritual outlook to my joh as well. I visit the practice field once or twice a week. I know all the team members in a personal way, and 1 encourage them to aik with me about any problents they cach game.
Although football and relipion seem o conflict, Borgognoni still advocatea the sport.

They don't try to maim people - it's a game of intellect an well as physical strength," he said. "Good sportsmanhip is invoived and a learning of lessons about such things as discipline Football players are not jocks. I take exceotban to that term.'
Borgognoni has a great deal of SU sport memories. "I didn't really have a favorite player, even though the stars
like Csonka and Little stand out. like Csonka and Little stand out. People who never started were good
solid people as well as the stars. All in all, the class of athletes seems to me to be very impressive," Borgognoni said.

I remember during Floyd Little's senior year that he was hurt for much of the season. He also worried that he had the same dizease that killed Ernie Davis. All year, he had been playing gingerly. game the offensive captenin State-SU supposed to pive captain (aittie) was past, he had passed up this opportunity, but he didn't on this day." he continued.

He got up and called his teammates every name in the book. A man who
never awore was doing thid! Well, the neam got modider thman heck at liftle,
but they went and took this anger out on Penn state. and we pulled offa \(12-10\) upset:

Immediately after the first series of plays, Little ran up to me and krabbed und aaid thathers. forgive me for swearing." Hogognoni said.

Little was a gentleman as well as an athlete. He wanted zo win the Rame for che SU fans because, as he putit: Id be astumblebum without football. Yes. certainiy
memories.

From the past. Borzognoni went to the future. Our babketball chances this year look excellent. I look for us 49 go even further in the NCAA playoffs." Horgognoni said.
"As far as football koes, if we get a new stadium, we'll get good players to come here. Hig crowds attract koid players," Borgognoni added.
Father Charles, as he calls himself, is indeed an exuberantman. For 14 years he has been the No. 1 cheerleader for teams.

Already he has seen the Syracuse basketball program emexge into the his is a good sion for the reemergence of the \(S U\) football program.

Father Charles

\section*{Lose another close one}

\section*{Orange heartbroken after Pitt comeback}

\section*{Hy Mike MeAlary}

PITTSBURGH - As they moved off the field here Saturday toward the sanctuary of their locker room, they did so with emotion. The Orange had played in another football game. Some were walking hard with their heads held high while others kicked and shuffled slong the Astroturf with hung heads. Some were wiping tears from their eyes, while others sobbed openly.

As if once was not enough.
For the second time in as many weeks, the Syracuse University Orangemen played a highly ranked collegiate team only to lose dramnatically in the waning momente
of the game. for the second year in \(a\) row the Syracuse football tearn had the national Champion Pittaburgh Panthers on the ropes only to be knocked out of the ring in a 15 round slugfest. Fitt was just barely it 28-21.
After leading by at least three points pambled unguccessfully on two plays. One turned to tragedy.
With the game tied at 21, on fourth and naloney decided for the seach time in the quarter not to hike the ball.

Kickntrix
In a play from the pitt 30 yard line, degigned to draw the Yanthers offside and enable dill Maloney sen possession of the ball, Maloney sent Dave lacobs in to kick a 47-yard field goal. The Orange set up, then shifted midway through theplay in an eftort to
draw a Panther acroas the line. The draw a Panther acroas the hine. The ball, as planned, was never hiked. The
Fitt defense stayed set; that was not Pitt defen

Forced back five yards with a penalty for delay of game, the Jacobs 52 -yard attempt was blocked. Pitt was in good field position at the Syracu 38 . The Pitt fans were in hysteria
Two minutes and 53 seconds later, Panther quarterback Matt Cavanaugh cut inside the right tackle for the game deciding score.

In less then a minute it was over. "Obvioumly 1 was wrong." said an emotionally drained Maloney after the game." It was a 99 per cent thing. It was worth the gamble. The kid was corning. he just didn't get there in time

It was a great, great football game
I don't know what else to say.
"This is a lot different than last "We had them the whole game. Then we let them get off."
In the first period, both teams played like rejects from the Tampa Bay Buc caneers football team. Matt his wrist, fumbled the balf the first three times he touched it
- It was a mental thing (the fumbles); There's nothing wrong with the wrist," explained Cavanaugh. He fumbled the ball nine times in the game, which is pretty heady stuff.
In the second period, with the score tied at three all, the Orange started rolling. On a third and eight play from the Syracuae 22 , Hurley hit Art Monk coming out of the backfield for a 17 . coming out of the backifid fain. On the next play he rolled yight side for six yards.
pitch catcher
On third and four, he rolled right with Dennis Hartman trailing. picked up the first down, and pitched the ball baci to Hartman justas Pitt's Bob Jury tackled the SU quarterback. There was no.hitch with the pitch. Hartman raced 52 yards up the sideline before being knocked out of bounds on the 3 yard line. Avery scored on the next play and SU led 104

Pitt'e. Cavanaugh; who puesed for 333 yarde on the dey, mtopped dribbling the ball in his backireld and threw three passes that culmanated in a 19 yard tonchdoyn pase to Ianker Willie Taylor-Doublo-teamed by. Syzecuaci's Terry O'Leary and Warrerr Hervey.

Taylor went up for the ball right on the goal line. The three players collided in midair. Taylor came down with the ball, and landed unconscious. He never let go of the ball. Pitt took the lead with a two-point conversion.
Hurley returned the gesture with three passes in a row to Mike Jones. Monk and Bruce Semall. That brought the ball from the Syracuse 20 to the Pitit two. Avery scored two plays later. Syracuse converted on the two-point conversion in the form of a Hurley pass to Jones.
Just before the half, Hitt ecored again with less then a minute to play on a 41 with less then a minute toplay on a 41 -
yard field goal of the foot of Mark

\section*{'I told them, here we are again. It's \\ just so close.}

\section*{You can win it.}

Shubert. Syracuse left the field and a Shubert. Syracuse lef the field and a at the half.
\(\cdots\) told the
juat en cione Youre we are again. It'g jupt so close. You can win it," "Maloney said of his halftime remarks to his team.

Midway through the third period Hurley rolled around the right side, faked the pass and raced 38 yards up the sidelime for a tonchdown - sort of and ane referee aigmaled a touchdown and another marked Hurkey oat of bounds at the \(26-\) yard line. Bill Hurley just shook his hesd.
"I didn't think rematik
"I didn't think I was out," grambled Hurley. "I asked Bob Avery, who was ranning befimg mo and he said I hadn't" Syracuse had to settle for a 41 yard Jacobe field goal.
On the mext series of downs Jerry Martin intercepted a Ciavanaugh pass and Syracuse was on the move again deep in Pitt territory at the start of the final period. A pass to Hruce Semall gave Syracase a firat and 10 from the Pitt 14 -yard line. Hurley molled lef and threw an incomplete prise intended for Monk He dropped straight back; to past again and Kandy. Hollaway dumped him 15 yardis behind the line. Fitt Stadiam was delirious. Hurley picked up nine yards on third down. On fourth down Jacobe miseed a 37-yard field goal attempt. The tide . Was On SU's next series of downe, Monk drove over the right side. twirled around after gaining about sux yards. and furabled the bail. Hiti recoveredik. were grabbing for the ball "Monk said were graboing for the costly fumble. "It seems like very time 1 make a mistsike the other teatr scores" cann scores
Iwo plays later, Nittsburgh tied the game up on a short patas over the middie to Fred Jacobs who galloped \(5 d\) yards up the right sideline for 9 conchaownim was ince a bomb wen off in Pittsburgh.
Both teams were etopped on their next series of downs, then Syracuse s infamous field-goal attempt by Jacobs,

After racovery of that bloclred kick. Cavanaugh. on a second and 10 situation, passed the ball 45 yards to Jones, who was tackled by Larry King
on the one. Three plays later On the one. Three plays later Cavanaugh acored and well. . . the rest history.
"I'blew the game." said L-arry King. who way burnt by fonew on chas play.
"We were blitring and the cowerage got maxed up" explained Maladey,*"I was lucker tham bell to evon gets the pass off" said Cavianagig.
Once agrain, they she wroderdograzad keen in it till ths enal only to rase dramatieally to hearthene If the Alemo ovar bad at foothell feand, Syrace propish it

\section*{SA assembly rejects investigation motion \\ \section*{By Marsha Eppolito}}

After a short but raucous debate, the Student Assoication Assembly last night voted againat an investigation of alleged bylaw violationn on the part of Paula Stowell, vice-preaident of acadernic affairs.
Charging a "blatant violation" of an SA bylaw requiring a monthly handwritten committee report from each vice-president, SA Assembly member Arnie Wolsky proposed a motion that the alleged violation beinveatigated by the asaembly credentials committee.

Despite the rejection of Wolnky's motion, Stowell's case will be discussed by the committee this afternoon because of individual requests from assernbly members. Keith Hutchings. SA parliamentarian and a member of the credentials committee, said the committee "will hold a hearing if we fommaittee grounds."
Stowell said the only thing accomplished this semester by the acadernic affairs division of SA has been the election of subcommittee chairpersons. "Reading a list of names is not a valid use of the assembly's time," she said. Stowell said shedid not intend night.
Stowell said the subcommittee chaipperaons had just been elected and they had not had time to do anything The other thrse vice-presidenta, however, dimplayed written reports at the meeting.

After the meeting. Stowell called the bylaw "stupid" and "ridiculons," any ing "it's a matter of opinion" whether she violated the bylaw.

Despite expectations of a heated debate over Report newsmagazine, discussion on the matter was closed after assembly member Vincent Fyynn asid "the whole thing in absurd." Members of the assembly applaxded his remark which ended five minutes of diacussion.
The bi-wreekly newsmagranine had been criticized for its use of obscenities in its Oct. 10 cover photo of Chancellox Melvin A. Eggers with a safety pin and chain. ornaments of punk rock. superimposed on bis face. Assembly, member Rob Light requested Oct. 12 that Report be discussed in light of student complaints.
In other assembly business, requesta by Light, Univeraity Union Coneert Coordinator, and Steve Runin, UU
their \(\$ 500\) stipends were defeated. The finance board denied their requeats over a week ago but the absembly must decide finance board recommen-

\section*{diations.}
"In previous years UU chairpernons were allowed to change line items internally." Light gaid. He aaid the money for the stipends would come out of UU's generated income. When ques tioned whether this was againgt the rules Light said, "The board always votes chairpersons increases. I don't know if it's against the rules. It's just always been done."

A proposal by SA President Rich Crowell to establiah a Student As sociation Information Service (SAIS) was passed by the assembly. SAIS would bean information center on cam pus providing research materials, a resource file, a student governmaent communications center as an an-going mailing bystem also handling advertising, and a hotline.
Two resolutions concerning Kent State were passed. A resolution was passed to aend a letter to the Kent State University Board of Trustees condemning their actions this past summer for beginning constraction of an athletic facility near the site where four students were killed during an anti-war demonstration May 4, 1970.
The other resolution passed was to send a lettar to Sen. James Abourezk from South Dakota endarsing his bill to establish a national historical site on the grounds where the students were killed.

A report on the National Student Association Congress, attended by five SA officials this summer, was given by Kathy Spagnoli, an NSA represertative.

A resolution proposed by Scott Klein, vice-president of university/community relations, to insist on the placement of traffic lights at the intersections of Waverly and University Avenues and Waveriy and South Crouse Avenues was passed.
Fick Margolius, vice-president of atudent programs, announced that fireacial aid hearings will be held Wedncaday. Stadenta with comments, suggestions or problems concerning financial aid are urged to come to the hearings. Margolins said the bookstore committee will meet with Diann Straus \({ }_{\text {t }}\) director of the SU Booketores, to discuss the bookstores' budget.

Charging a "blatent violation" of a Studant Aasociation bylaw, aesembly mamber Arnie wotsky calis for an investigntion of vice-President of Academic Affairs Paula Stoweil's failure to submit a written roport on her committee's work. (Photo by Rick Massey.)

\section*{Rabbi pushes letter drive for Rosh Hashanah holiday}

By Mike Terpin

\section*{and Martha Vickery}

A letter mailea laist week by Hiliel, gigned by Hillel advisor Rabbi Milton H. Elefant, urged parents of all Jewith atuders to to write to "the chancellor and the Parents Office to cancel classes on Roah Hashanah.

The letter was sent to parente of all Jewish Syracuse Univergity students, as determained by a religicus identification forms.
Elefant wrote, "Our atudents have requested that I ask you to help in their drive for freedom of religious expression."
The letter on Hillel stationery, had The Daily Orange headlines "Students rally to protest alleged DO antiSemitism" and Hillel urges boycott over holiday classes" printed above and beiow Elefant's message.
Susan Schneider. Hillel president: said that althongh ahe knew the letter was being written; she had not seen it and was nnaware of its details.
She said she did not know the source of funds for the mailing. Lauren. Hochstadt, Fiflel treasurer, said she had not heard about the letter.
"Only certain people know certain things," Schneidex remarked:

Hillel had been under the impression that Chancellor Melvin A. Eggers was in charge of changing the university academic calendar, Schneider said.
In fact, the Calendar Review Committee, comprosed of eleven students and administrators who worked during the 1974-'75 academic year to modify the calendar for a five-year period, is responsible for changes in the calendar.
Registrar Carole Barone, Calendar Review Committee chairperson, aaid ahe has received no communication from Hillel or Rabbi Elefant concerning the isaue.
John H. McCombe, Hendricks Chapel dean, had no comment last night on the letter, but said he would bring up the subject of the letter before the Council of Chaplains of Hendricks Council
"Changing the academic calendar would cause disruptions on campus,' according to Barone. She explained the Board of Regente required a certain amonnt of ciass time each semester to comply with state law.
Adding holiday, she said, would mean charging students for extra nonacademic day.

\title{
SU vice chancellor terms A\&S overspending routine
}

By Dick Stirba
Departmental overexpenditures in the College of Arta and Sciences (ARS) were termed "fairly routine" yestexday by .Clifford \(\mathrm{L}_{\text {. Winters }} \mathrm{J}_{\mathrm{L}}\)., vice chancellor for administrative operations.
Winters said the administrative data processing office at Skytop reporta to him weekly on the state of the budget and notes projections which indicste overexpenciture.
Maric Brown, aseistant dean of the college, Eaid he has noticed an increase in the number of overempenditurne warninge for muphly and equipment ac cotunta from the accounting office to A 8 S deppartanent.

There hat bean no such increase in Witrixpat, aceording to Winters, bot
revised budget mechanisms has gllowed "morecapability to give earlier warninge to collegea
"The better you understand where you are (in the budget). the better equipped you are to take appropriate action," Winters ssid.
Since the computerization of the university's accounting department about five years ago, Winters said, there, han been 'a fantastic im provernent" in accuracy of budget projections.
In cases of oyerspending, deans are expected to hold the departments involved responaible, Winterre said.
If a dopartment ends the fiseal year with overdrafts on its office supply accoumt, the debt is paid ofir by deducting the ovendrgit frome the narit year'a allocetion, Winters and

GHarcis never did anything wrong in his lifie. As a child, he never got hil clothes dirty while playing with his friends, When he became a teenager; he alivayt had hila datehome by midnight. He got a 4.0 in college.
. Upon graduation, he enlipted in the army. He rose to the rank of eergeant

\section*{Tom Coffey}
and received an hongrable discharge. Them he landed a good job, got married, moved to the auburbs, and had - 2.8 children.
Harris gave money to his favorite charities, his church and the college of his choice. He didn't smoke, drink or fool around with women. And, amaringly, he didn't cheat on his tax-
Harris was a model to his commanity.
It was the last point that rot him in trouble with the government. One year, he IRS put IKarsia through a routine andit. Their accountanta trere stunned when they found he had legally accounted for every penny of his income on his tax return. 'Therefore they decided to audit his tan returas for every year, and on every return they
found the samething - Harris' returns

After 10 years of perfection, the IRS had had enough.
Two.days later, Ifarris received a letter from the IRS ngking him to come to their office. Humble and obedient citizen that he was, he obeyed.
"Why have you called me down here?" Harris gaid as the meeting began. "I don't think I've done menything wrong, \({ }^{*}\)
remponded sharpoint '" the IRS agent remponded sharply. You've agever
done andthing wrong. We've been done anything wrong. We've been
auditing your returas for 10 years and found nothing. We had the FBI do a background check on you. According to them, you're perfect." The InS agent paused. "There's somiething wrong pith you."

\section*{Harris was stunned.}
"Maybe you're a Commie," the agent continued.
"But I'm a Republican," Harris countered.
"That's what they all say." The agent amiled." "Look. 1 don't really ing that to a Commie. I was just saying that to scare you. Part of the job you know. But really, in this day and age nobody is gupposed to lead a moral. upstanding life. Anyone who does isn't normal. For example, the FBI

found that all your neighbors hate ycar guts.'
Harris thought for minute, "What do you suggest I do?"
"Start drinking," the agent said quic kly. "Cheat on your wife. Cut people down at your job. Falsify your tax returns. Every body does theas thinge.
and I'm sure you don't want to be the exception.'
That night, Harris went to a bar and got very drunk. He seduced his secretary the next day. The government approved.
Harris is not a model to his community.
Harris leada normal life.

\section*{Letters}

\section*{slanting}

To the editor,
We would like to express our disap. pointment in the rather shallow and gelective representation of the Greek Week events deacribed in your article (Oct. 24). We know the article was erroneous in many instances and we feel the'article wass alanted in its representation of the Creeks.

Specifically, beer chugging has not been practiced every week since the beginning of school; the bed making conteat and acreaming contest were canceled due to the large number of participating Greek howers. This candes us to wonder about the source of the inspired comment in reference to the bedmaking contert made by an alleged fraternity brother.

Unfortanately, because of this article's selective approach to Greek Week, many events were omitted. Not only did the Greeks raise
\(\$ 19,200\) for a volunteer Syracuse University phoneanthon, but the week also offered opportunities in week aiso offered opportunities in
leadership training at a workshop leadership training at a workshop and brought alumni and students Sogether at an alumni brunch on Saturciay.

We would like to emphatize that while Greelcs do their share of partying, they do study and offer a variety of inspiring acholastic and enriching programs
It is our wiah that the DO and its readers take the time to look beyond the social aspects of Greek life and try to recognize the many additional
rewarding opportunities available Also, we would hope that in the future the DO gives more care to as sure suthenticity of its coverage.

Thomas Ogden
Nancy Grady
Thomas Ogden is president of Interfraternity Council and Nancy Grady is president of Panhellenic Association.

\section*{extremes}

To the editor,
How unfortunate it is that we are turning the Allan Bakke case into a racial issue. Maybe this is inherent in a iproblem such as this, but our nation is being divided into black and white alliances.
It is absurd to argue against what affirmative action has done. These programs have markedly helped correct past wrongs. Of course, we can never totally eliminate racism and there will be people who will and there will be people who will other side, there are those who would other side, thereare those who would have us believe that if any individual is amember of a minority, he should be given special con-
sideration for a position anywhere. sideration for a position anywhere.
Thinking individuals should not listen to either of these extremes; the question is not whether affirmative action programs are defensible. The question is if they are still defensible.
Do we still need these special programs? Have we gone too far with them? Have we succeeded in
creating the "fair" society af firmative action was debigned for? Is true fairness possible when deal. ing with a minority and majority concurrently?
These arequestions all Americans must consider if we are to keep the Bakke case from becoming overtly racial.
There are strong arguments on both sides of this issue, but it would be wrong for the Supreme Court to decide this case on the opinions of groups such as the KKK, B'nai B'rith and NAACP.

Doc Costantini

\section*{limitations}

\section*{To the editor.}

Reform of the Student Association constitution has long been a subject evoking an apathetic response from the student body. Last year during the election of student senators, not even 5 per cent of the students took the troubie to vote on the packet of reforms that were offered.
Clearly, some things in the constitution need to be changed. The hard to enforce and therefore seldom hara to enforce
However, in the push for reform, it is important not to reform form, it is important not to reform for the sake of change. I am here thinking
apecifically of a proposal that would apecifically of a proposal that would
make it mandatory for all vicemake it mandatory for all vicepresidents and the assistant comptrolier to be selected from I can think of many reasons why
this limitation would be harmful, but twa come to mind immediately. They are Rick Margolius and Paul Czepiga.
Rick Margolius has been the most effective leader in SA this year. His work with the athletic department has helped keep down the price of the Athletic Activity Card, helped to maintain the Man ley Zoo and gotten those Food Service coupons that are almost impossible to use up in a year accepted at sporting events conces sion stands. He has worked with Food Service, the Office of Residen tial Life and the senate committee on tenure. SA would have been a great deal worse this year without his efforts.
Paul Czepiga's work is better known to the members of the Finance Board who were privileged to work with him this session. His thorough research and ability to deal with touchy situations made the job of the board and ultimately the assembly much easier.
Why limit ourselves to the 100 or so assembly mernbers in the search so assembly mernbers in the search
for effective SA leaders when people such as these can be found outside such as these can be found outside its mernbership? I hope the committee members proposing this ad
dition to the constitution reconsider dition to the constitution reconsider
what must be seen by the student What must be seen by the student
body as an elitiat attitude. forwarded by a self-serving assembly.
- Jamer Keeney

James Keeney is a member of the Student Association Assembly and the SA Finance Board.

\section*{Film finger lickin' good}

FILDA OFH-CAMPUS: "Ken tucky FHed Mowie," Penn Can Mall, and Mini-1.

By Daniel Frank
Ever since the implementation of the film rating system, the art of satire has expanded and formed new genre. The new gente has taken material that would normally not be permissible in any other medium and achieved an Firating or Xrrating with it. Such is the genre that now features "Kentucky Hried Movie," an especially irreverent and very fumny comedy.
"Kentucky Fried Movie" follows in the vein of "The Groove Tube', and Tunnelvision, comedies though both differ greatly in though both difier greaky in guality. Laced with mome good. satirical filme epoofany visual sacincaltionsaporfany visual conventionor the 20 th century. near Groove rabe, released nearly five years ago, featured a good deal of originality within its context of quick sketches, sandwiched between a
few
longer
skits. "Tunnelvision" depicted bits and prece: of a day's viewing on the newest network of the future.
"Kentucky Fried. Movie" conforms to the aame mold featured in these two firma. In fact, "Kentucky Fried Movie" is sometimes so closely patterned after its predecessors that its version of a beer commercial is reminiscent of the Butz beer spot in "The Groove Tube." Thenew film is willing to fall back on old conventions to get laughs convertions to toret laughs, oricinality. The flm some however maintain consistent laughe unlike the other two satirical movies.
Writers
Writers Tom Abrahams and Jerry and David Zucker have been wise enough to use some unning gags, including a Slade, whock named Big Jim underwear. They also inght red underwear. They also combine action, violence and even some guest stars, such as Henry Gibson, Donald Sutherland, rocksinger Stephen Hishop, and one of the original members of television's "Leave it to

Beaver," Tony Dow.
The filra begins with bright aatire on NBC's "Today Show and ABC's "Good Morning, America," and enda nearly 90 minutea later with an untimely bang. The acenea reel off like the skits on "Satur" day Night Live." quickly paced, so if one fails there's always relief in sight.
The skits range from a commercial for the United Appeal for the Dead, or how to help a dead member of the family remain useful to courtroom scene that is concerned with the most ab surd puns tiaginable Itisone of the funniest courtrom se fune quences since the trial scene in
The film ts broken up b
The flim is broken up by a rather long parody of Brace Pe filma, called A Fibtful of Yen.- Running nearly half an hour. the sequence is well. constructed and rather funny, but divides the film. dirminish. ing the effect of the firat half hour's kags. Considering the obviousily low-budget limitations of the film. "A Fistful. of Yen" is often remarkably slick. It also features a good imitation of Lee, who sounds like Elmer Fudid.
So iffrying acatin pure Wesson Oil or previews for the next disaster film, "it's Armageddeon," is your idea of entertainment, you can get them, and more, in "Kentucky Fried Movie.

If you are a college student preparing for a career in the visual or performing arts, here is a unique opportunity to earn 12 credits while gaining practical work experience as an apprentice to a distinguished New York professional. Join students from over 25 states and 45 colleges who have found the Arts Apprenticeship Program a most enriching and valuable experience. Apprenticeships can be arranged based on individual experience and interest and include:

> PAINTING/SCULPTURE/PRINTMAKING/CINEMA GRAPHIC DESIGN/PHOTOGRAPHY/VIDEO-TELEVISION MUSEUM-GALLERY WORK/INTERIOR DESIGN/THEATRE
- Discover, up front, how successful professionals iunction in the most competitive and provocative city in the world.
- Venture beyond the classroom environment to preview your fiejd by actually working in a demanding professional environment.
- Enjoy an exciting semester in New York - ants and communications capital of the world - with its museums, galleries, cinema, theatres.
- Audit, free, Iwo courses from among the more than 1,000 offered by Parsons and the New School, whose faculties include an impressive roster of New York's top professionals. (Except summer.)
Tuition: \(\$ 1,250\) for \(\mathbf{1 2}\) credit hours in fall and spring;
\(\$ 750\) for 6 credit hours in summer.

\section*{Hobbled harriers halted; legmen lose lopsidely}

With injuries and innexperience coach Andy Jugan's only "assets" this season, even the Worst of gypsies could have predicted the Syracuse University, cross-country team's
finish at the Lehigh Invitational Saturday... finish at the Lehigh Invitational Saturday...
You guessed it, Swaini - 15 th out of a field of 15 teagne.
"It's similar to soccer," Jugan said. "When things are going bad, everything goes wrong. Six of our top seven runners are either gone or
out for the season. I know there's not a team in out for the season. I know theres not a team in
the country that could successfully compete without six of their top runners.

One man out is bad." Jugan continued. Thwo men out on a cross-country team is unrebuilding. We don't have the depth to absorb those six losses.'
The six mising harriers are Mark Stauffer, out for the season with a broken leg: Frank Lowry, out with a streas fracture on his right
foot: Chris Carroll, co-captain, didn't come back
to school this year; Joe Hrett, quit the team; Brian Trippany, hampered with Achilles ten-
donitis all season: and now Neil Rosenblad, out donitis all season: and now Neil Kosen
for the geason with a stress fracture.
"We're just about down to rumming our JVs ," Jugan said. "They should normally be at the tail end of our varsity."

The Orangemen (still \(3-7\), as this meet did not count in the standings) finished the race with 367 points. The top rumner for SU was, fittingly in the context of this aeason, a half-miler from the track team, Ken Heinrich (56th). Brian Trippany dropped out of the race after about a mion showed up agrain. Mike Sayers dropped out of the race after three miles for no apparent reason.
The Athletic Attic, a New Jersey team sponsored by a sporting goods store and founded by Olympians Marty Liquori and Frank Shorter,
won the race. AKenyan, Hifary Tuwei, from the

University of Richmond, took first in the race, finishing two minutes under the course record. Cornell, which beat SU earlier this season finished sixth. The Rochester Track Club. which SU faces in two weeks, finished fourth, and East Stroudsburg State, SU's opponent this Saturday at Drumalins, finished ninth.
"We could have beaten any of the teams that Finished eighth down," Jugan said. "It ahould be an interesting race Saturday. Our top two runners were about even with East Stroudsburg's top two runners throughout the race. If Trip gets better and Sayers runs, we have a good chance of beating them.'
But even if SU does beat East Stroudshurg and the Rochester Track Club next week, the Orangemen will by no means be ready for postseason competition.
"l can't see taking this team to the IC4As," Jugan said. "We're in the championshipsection and are by far the weakest team in that division There's no sense in going down there and prov. ing it."

\section*{Jamie Molloy: lax insanity in the crease \\ great sense of where he in on the field,"}

\section*{By Dave Stern}

One might think that a lacrosse goalie has to be slightly crazy to stand in front of a solid zubber ball traveling at about 90 miles an hour. Syracuse's Jamie Molloy isn't the most sane athlete on campus, but he is becoming "a little less crazy every year."
Molloy, a 5-foot-7. 128-pound
sophomore from Long Island's sophomore from long Island's Manhasset High School, has been playing lacrosse for 13 years. "He is a free-spirited, redheaded Irishman, who plays with a lack of fear," said Syracuse coach Roy Simmons.
Molloy loves to talk about lacrosse and is very serious and knowledgeable about his place on the field. "Goalie is a very personal position," he said. "You really have to concentrate and verbally coordinate the defense.
Before each garae, Molloy reviews a checklist of tips that was written by Bob Scott, coach of the Johns Hopkins University lacrosse team. He has also been inlluenced by formaer All. American goalie Bob Rule from Cormell, who coached him at Manhasset.

Molloy's atyle of play is an indication of the able coaching he has rectived plus his experience. He plays a dieciplined atyle of lacrosse compared with the freewheeling attitude of the team. Howéver, these atyles comr pliment each other more each game.
"Ele is very quick of hand and hae a'

Simmons aaid. "He doesn't waste any motion and is a great competitor." Simmons also described Molloy as being very easy going and bright. "He has fine second guess ability and an amazing amount of resiliency. He isn't afraid to mix it up with a 200 -pounder and he knows how to rattle you," Simmons added.
Jamie isn't the frrat Molloy to make his mark on Syracuse lacrosse. Kenneth Molloy, Jamie's father, was an SU All-American letterman from the class of 1942. He is a dedicated al umnus who was partially responsible for sending Jim Brown to Syracuse. Kenneth Molloy Jr., Jamie's brother was an outatanding attackman during his sophomore season in 1970. He was leading the nation in scoring after a few games when he was forced to quit because of health problems.

Jamie atarted for the laxmen lasz season and played very capably as the tearn finished 17 th in the nation. This eeason he has averaged about 18 gaves a game.
And Molloy believès that he is getting better every game. "I play well against the good tenms because my style is He theirs," he-said. "Moet of my best efforts have been diminglosseas. to the tough teamis whan I havegottea boout 30 arven."
Ho credif; neve ansimant conach Jay:

Gallagher with some of his improvement this season. Gallagher played on a national championship team at Cormell and was an assistant coach at the University of North Carolina at Chapel Hill. He knows how to teach skills," Molloy eaid. "He
develops pride for our defense.
You dan't have to be crany to be a lacrosse \&calie. A player who stands in front of the ball and doesn't know how to etop it might be crazy, However Janie Molloy does not fit into that category.

\section*{SPORTSHORTS}

The Daily Orange \\ Stadium plan places cost under \(\mathbf{\$ 1 0}\) million
}

An-aerial viow of the propozed now Syracuse titedium. The stadium resernbles Schaeffor Stadium in Foxboro, Massachuserts, home of the New England Patriots. (Photo by Glen Ellman)

By Tim Wendel
A new stadium proposal with a guaranteed cost of under \(\$ 10\) million - was submitted yesterday to university sports officials by the Frank Briscoe Co. of East Orange, N.J.
The Briscoe Co. built the Meadowlands complex in East Hutherford, NJ. and was asked by Syracuse University's Orange Pack to deaign a proposal.
The proposed stadium would have a "fixed price" between \(\$ 8,887,125\) and \(\$ 9,915,756\), according to Charles \(J\). Callaghan \(J r\). of the architectural tirm Bellante, Clanes, Miller and Partners (BCMP), of Scranton, Pa. The firm has been hired by the Briscoe Co. general contracters, to design the stadium. We find this a cost we could live with," eaid Callaghan, and we fign the contract night now. varying cost. They are: arying cost They are:
poured concretelower stands with structural steel frame and bracing alnminum closed deck for upper tands, costing \(\$ 8,877,125\);
- poured concrete lower stands with precast con rete frame and deck for upper atands, \(\$ 9,036,713\);
- btructural steel frame and bracing aluminum losed deck for lower and upper stands, \(\$ 9,582,240\); - precast concrete frame and deck for lower and pper stands, \(\$ 9,915,756\).
Each option includes the cost of two access roade to the Skytop aite on Syracuge University'a South Cam pus, overlooking Drumlins. The proposal calls for widening Sikytop Road to four lanes and opening a south access road to Jamesville Avenue and Interstate 81. The proposal also inciudes parking apace for approximately 6,000 cars.
The stadium would be a two-tier structure. with 26,000 capacity in the lower bowl and 23,000 in the upper deck. There would be no end zone aeating. The field would be natural turf and would run in a northsouth direction. Two scoreboards would be on the upper deck railings at the 50-yard lige. There are 10 entrances to the proposed stadium.
Both Clifford L. Winters Jr, SU vice chancellor for administrative operations, and David E. Chase of the Onondaga County Stadium Commizsion, Baid they were anxious to review the Briscoe proposal;

It is a fine stadium plan for about \(\$ 9\) million,* baid

\section*{Annual report shows strong financial position}

\section*{By Bruce Levine}

Last year marked Syracuse University's bert fiacal position since 1969 and the largest undergraduate enrollinent on the main campus in 30 years, according to SU's annuial report for the fiscul year ending June \(30,197 \%\),
The report will be presented to the SU Board of Trustees. Friday and diotributed soon.

SU balanced its budget for the fifth consectutive year and required no shortterm borrowing last year.
tract a quality student body of approximately 10,500 undergraduates and 4,500 graduate students which is the optimal enrollment for the faculty resources and physical plant," the report says.
In his messape this year to the board of trustees included in the report, the of trustees incruded in the report, the chancellor said the universitys aconomic intrength win benent ins academic interests. Fiscal soundness
allows ng to pursue the academic features of the university with the aame
zeal we exert on the business side. Among academic improvements made, the report lists adoption of a new College of Arts and Sciences cur riculum plan (the Standard Plan), ex pansion of the Honors Program to all university esztus, rification of cur pliculam" and "recruitrneat of exceptional faculty members."
In addition to a better faculty, "Syracuge is attracting more, better quality students.'
Last fall's undergraduate enrollment reached 10,800, an increase of 4 per cent ( 434 students) over the previous year. More than 70 per cent of students ad. mitted were in the top 40 per cent of their high achool classes.
The L.C. Smith College of Engineeringe enrollment experienced the largest increase, which the report calls "the greatest upswing in

\section*{Annual report} changes its format.
See story on page 6.
engineering since the late 1900 s. The atrong employment market for mollment in reflected in large enrolliment increasers."

The reprort predicts the school's nnciexgraduate entrollment to be abovi 100 thadents this mernenter, which is meariy oppimal enrollment. Actaral en mollowent firaxe have not yet been relemaned.

\section*{War and Peace - take once every four hours}

A despondent sigh is usually thereaction when one conaiders undertaking large amonnts of reading auch as reading all the bools ever published, or a bit more modeatly, an entine Sunday New York Times. You're hopelessly caught between the denire to absorb volumea of useful information and the digillusioning fact that you can't do it fast enough.
However, if Dr. Langston Hobotnik's work in the obscure field of etymosymthesis is aniy indication, we may soon be able to eye a shelf full of books with coinfidence and enthusiasm rather than hesitation and deepair:

\section*{Richard Amdur}

Lat week I had the opportanity to visit the doctor's secluded laboratory in New Jersey, where he is on the verge of capsulizing an entire edition of the Times haven't finished yet is that I'm having trouble with the crossword puzzle," he said.
Dr. Hobotnik is attempting to transilate printed input and stimuli into chemicals which will imbed the information, fiction or photograph into a person's mind and trigger the identical reactions a person would experience if he were to read the material. In other words, the contents (in pill form) are being made part of a person's conscious and unconscious mind without any readimg or studying.
Hobotnik, now Sl, has been a pioneer in this field, Which was until recently a remote and seldom ex. with chemistry since the age of 12, when his pet
poodle turned into a hot bubbling pudde after lapping up a solution he had rasde from his "Dazrie'en" Aome chemistry kit "I etill don't get it, "he shrugged. Althoagh as yet unfinished, Dr. Hobotaik's work has wideranging implications. The future of the
printed wond awirls in his tent tubes. Daily printed wond awirls in his teat: tubes. Daily yearbroks might end up as capeules. Dr. Hobotnik stated, "Spectilation is fine and dandy, but of course we'll have to apeed the process upia bit T mean, even at the feveriah pace r'ye worked it's atill beer five Years, and I'ma not done with the Times' coverage of Nixon's reeléction. I'm optimistic, though. I just heard fropi a friend in Utah who's almopt completed Nixom's résignation!"
It should be noted this pill is not an autoritic genius-producex, rather, it simply facilitates the atbsorption of large amounts of information into the brain- The mind will still have to do intile forit.
Some tangible problems with etymasyinthicis could doon develop. Doctors worried ahopat possilic overdoses have suggested that the pills-te triatted with warnings prescribing how much the brain cin take atonce. For example, it might bo wise ta take dive volume of the World Book Encyclopedia per: weel. rather than all at once. Likewise, a; Hovel like. War and Peace" could be divided into morsiels to be taken once every four hours.
Consumer spokeamen have also, viced ooncerns about bastardizations of the ciassics and bootleg: versions containing illicit hallucinogens and other behavior-inhuencing chemicals, but no solutions

Mean while, Dr. Hobotnik continues his wor amidat the controver*y. eI think everyono, has jumped the gun on this thing. I haven't even finished yet, much less worked out a suitable marketing. motion is giving me a migraine. I need come anpain.:

\section*{Traditions: wrongs and reasons}

To the editor,
In an editorial which appeared in last Wednesday's edition of The Daily Orange, Jim Naughton and Howard Mansfield seek to focus attention upon tradition and the role it has played in the lives of three different generations of college students.
By comparing the difference in emphasis placed upon tradition (and acts manifesting that tradition) by geudents of the' 50 s and '60s, a difference which may be attributed largely to eoomomic factors such as unemployment and inflation, Naughton and Mansfield Conclude that, in their diversionary use of campus tradition, today's
students have lost sight of the students have lost sight of the idealistic goals which such traditions were designed to promote. I agree. However, I believe it is both unreagonable and anfair to attempt
to attribute this apparent shift in orientation to a rejection of social responsibility in favor of a "pragmatic materialism" without understand and explain the underlying causea seaponnible for tho adoption of this attitude.
In support of their thesis, Naughton and Manafield cite the ex: ample of the rebeliipus atudentie of of tradition, demonstrated their disof tradition, demonstrated their dismind its timperislist" policies by and its fimperialist policies by
tlegrounds. The heroicimage drawn of the socially concerned student is placed in diametric opposition to that of his apathetic, moneyoriented contemporary.
The intended effect of this incongruous juxtaposition is to
facilitate expansion of the social fansciousness of the latter throcial anticipated ideological idenanticapated ideological iden-
tification with the former. However, what Naughton and Mansfield fail What Naughton and Mansfield fail
to realize is that the opportunities for economic advancement present at the time of the Vietnam War, opat the time of the Vietnam War, opportunities anbaequently taken ad
vantage of and capitalized upon by vantage of and capitalized upon by emulate, no longer exist for the emulate, nio longer exist for the
overwhelming majority of today's overwhemming mas.
If anything, it is lack of economic opportunity, not social concern, that climate of fear and apprehenaion in climate of fear and apprehenmon in The deaire to revive the traditionse of the past, and to recreate the economicconditions whichataverise to them, are merely reflections of this concern. I can see no valid reason to summarily condemn the peasmon to sum harily condemn the permply becaume the minnuor in which they choope to express them differi they choose thexprese them dithers predecessors or prescribed by their. contemporaries.

Thomas 3. Epponile

\section*{A cry for dignity}

To the editor,
A perople cry for their dignity. earning, where one is irsulated frommany things, the cry should be more clearly heard. It should resound and echo amonget the halls, drawing the attention of the students from musty volumea and restiegs pens.
What manner of person would willingly detract from a noble and proud people? The idea of a wild, seeking to do ill will native others in grossly unfair and historically incorrect. The iden of a wild native clothed in a manner that detracta from the original purpose of the from the original purpose of the regalia is todoa grievous injustice to the honor of the peopleit
The native peoples. ask for their dignity. They, of all people, realize the importance of tradition, eapeciany rradiciona that are the recipient of deep feelings and warm sentimentality. Yet they recognize is not an honorable tradition but a is not an honorable tradition but a veasel ofignorancennd
it attemapts to portray- A people have valiantly keptalive A people have valiantly keptalive
a amall light of hope and dignity a amall light of hope and dignity
during a long period of darkneas. Perhaps here, in this generation, the truth they have atriven to keep alive

\section*{Tired of}

\section*{To the editor.}

If nothing olge, the Brike case is a perfect example that pursuing the sidered the privilege of a few and not the right of all Americans.
In recent \(D O\) lettera to the editor. students have voiced their opposition to affirmative action. quotas and specisl programs for minorities who have been and continue to be institutionally and systematically discriminated against. This opposition has been based on the principle that "reverae" discrimination is still discrimination which we should be society. This, like most American ociels is admirnble on paper, but lawed in practice.
I think Jeffrey Lloyd Kaizell and Rebeka Gomez should be applanded for believing that people ahould be treated equally. However; I doubt their sincerity.

Until the Bakle case, editorinis, letter to thi editor and articlea ex. pomndin on the infuisticen of eppecial istent No one elemind to mind the

will find a home. Perhaps here their voices will be heard.

But not until the mytha have died. Not until the bruised exos have given their pain to correcting a wrong. Not pantil the wild Indian here at Syracuse has departed to the same place as the infamous "happy bunting grounds."
What then do we ask? We ask that the "Indian" used at the various athletic games be removed. We ask that the cartoons of the "Indian" in the DO: be remnovediciandithot hasy,
reference to this "Indian" ontpostere reference to this indian onpo

We ask that the administration begin to work immediately on providing programs and courses that will provide a realistic picture of native people. We ask for more emphasis on native recruitment and the hiring of native counselors, We ask to be treated as the black otudents are, with reapect for a distinct culture that has, up to this point, been inexcusably ignored by Syracuse University.
These stepa will not eradicate the many wrongs committed againat native people, and for that matter that are still being committed definite and noteworthy beginning.

ONK WEHONWNEHA

\section*{Want to be heard? Here's two chances}

\section*{The open forum}

The faintasy: a five-minute opportumity to talk face-to-face with Chancellor Melvin A. Eggers, to tell him exactly what is wrong with Syracuse University, what needs changing, what needs improving, what needs to be done
The reality: the open forum at the University Senate.
This afternoon at 4:15 p.m. in Stolkin Auditorium, Chancellor Eggers will again hold an open forum at the meeting of the University Senate. The form is open to anyone in the umiversity community, und presents that rare opportunity to express opinions or feelings on the university directly to its highest administrative official.
The opportunity comes only once each semester, and far more people gripe about the inaccessibility of SU than take advantage of the infrequent chances to have access to that administration.

If you have a question, go to the open foruma. Ask the chancellor.
If you have a complaint-about anything - financial aid or tenure, board plans or the heat in your dormitory - go to the open forum. Tell the chancellor. Ask bim what the university can do about it.

All-night bull bessions in dorm roome or apartments, and grumbing over brealfast in the dining hall are fine - but nobody with any real influence in the university can hear any of that. What you say at the open forum will be heard.

The Daily Orange

\section*{Financial aid hearings \\ Nobody showed up.}

Does anyone out there caire about anything thene days?
This is the "70s, the decade to widely touted as one of student apathy a American colleges and universities. We aren't sarprised, then, that etudentis don't care very milch about foreign policy or welfare reform or any of the dozens of social and political issuem still placring mociety.
It ien't even murprioing that etudente don't isoum: too concerrod-above actademic igsues like tenure or the quality of the comese they take.

But we thought at loast, in this supposedily nltraprasmatic ecras atudants would care abont finvincial aid, the pecuminy fifebloot of their eximetenes at

\section*{They shoot trees, don't they ?}

Upon loohing at the bandayee on my head, people sal ma, "What happerned to your head?" whot I tell them, they crack up langhine, followed by remaxks utuch ene "Drunk agroin, hul Don?" or "Whare do yon ret your diopes, it muat be greme.
At parties I've suddenly gained notorioty. When in wilk into them \(=\) friend Fells out " Horsis Don. He. willced into a troe the other day." Then overribody langhs hystorically, choking ap beer and choling on their cigarntie smoke.
The sacd trath is I wallsed into the same tree two yearw aro. At that time it was not at biy and I oniy muftexed a light bruise. I had frecuently walked under this tree on may way to the bank. But most of tha tume in wat aviake of the timb which stretched acrome my path about head high. This lant time I was watching the groand, deep in thought, when I came upon it.

The sccident
Wham, bagn, slam, I was on my bacik tryine to avallow a screatr and frantically clutching my head. I lay there rolling back and forth waiting for the pain to subeide. Ithen began checking the bruise for blood. There it wato on the end of my furgecs. (That meant that I was hurt)

\section*{Don Salkaln}

Blood was still showing up from my nngertipe and thoughte came to me of a hometowa boy who got hit on the head by a high fly in a little lague baseball game. He dropped dead two days later because he neglected to receive professional examination.

So, I decided that I had better make my way to the Syracuse University Health Service.

The infirmary
By the time I walked into the infirmary I felt fine. I began to wonder about the need for an examination. I was due at a cless.ghortly, and upon glancing at the large crowd gatheredin the waiting area I just about turned around. I didn't really walk into the tree very hard, did I? But the viaion of the little baseball player came to mind and I walked up to the receptionist. I went through the 10 -minute process of paper work, ID checks and crose-exthis ritual she said:
"O.K., Don, please take a seat in the waiting room until your name is called."
I glanced over at all the sick people wearily looking at each other. I hesitated walking over and wiped some sweat from my temple. The receptionist looked at me with renewed interest.
"Anything wrong?" she asked:
"Ynything wrong? she ave a headache."
"A cold ageain?"
"No, about a half an hour ago, I slammed my head againat a tree.

The examination
I immediately had anice pack draped ver my ears and I was practically caz ried into the examination room. Within no time one nurse was cleaning the cuts on my head, another was taking my blood pressure and a doctor was asking
whether If felt nazaeated. Fis questions whether If felt nauseated. His questions gave way to hammerhitting reflex teste on my knees, a booster tetanus shot in my arm and the ahaving of a large portion of my scalp.

It soenned that nyy ixjuxy had caused a great amount of commotion in the ofcice I becrum concerned with what would happen to me next. I formd on very quiclily. The doctor told me I had to stas overnight for obearvation. It was an order.

\section*{Obecrvation?}

As the nuxsen forced me into whoal chair and certed me off to the bed I asked her what exactily obmervation matant
*Well, today, tonicht and tomorrow we'll be making continual checkupt on Four blood prossure, your dilating pupils and youx generai health. We'l be looking for conctusion symptoms Bealdea that, youll be \(x\)-rayed toyen the skull is fractured in any way.
At that she wheeled me into a room that I'll never forget. . there was har dif a thing to remember. Two beds and bed tables, two bureaux, a bathroom door, a window and a radiator.

She continued. "Being the only patient that we have here overnight you can have your choice of beds.
"I'll take the one next to the window," I responded. . and thus began the many hours of observations. I doubt their observations were the same doubtine.

\section*{Observations}

3:45 p.m.: I go to the bathroom.
4:45 p.m.: I go to the bathroom. with salade, soups, hot turkey and peas, meatioaf with mashed potatoes aliced ham with macaroni-and-cheese with ice cream or pie for dessert Sincel am starving, I am overjoyed with these choicea. Dinner at 6:00.
4:15: Two nurses rush in, one car rying a paper cup, and explain that they forget to take urine annalysis and could I try to go again. The lab in clos ing in five minutes. I try but cannot.
4:25: Nurse informa me I am on a strict liquid diet and have to disregard menu. For dinner 1 have choice of ginger ale or broth. I choose the broth.
4:35: Finally find some written material in the other bed table and began to read. It is a Bible.
5:45: Nurae inquirea if I've had my \(x\) rays taken yet. Of course I haven't. She acts eurprised running out of the room. 6:00 Nurse tells me that they could'n't find any broth and aska if I would gettle for ginger ale. I don't like ginger ale but did.
6:15: From this time every 15 minutes the nurse comea to check my pulse. blood pressure and pupils
10:00: Lights go out and I soon fall asleep.
9:00 a.m.: I wake up. Dactor is expected soon. My x-raye are taken.
9:30: Nurses say doctor to come in
10:00: Nurses say doctor's car has broken down and will be late.
11:00: After much dispute I have a new doctor on my case. He checks the \(x\) rays and looks me over.
11:15: He says I am healthy. I ask him if it would be allright to play tennis and he says yes

11:16: I drese and leave.
12:00: Arrive at bank, only to find account empty.
1 soon realized that if the nurges hadn't been so nice and aincere, in a fit of aggravation I would have rammed my head againgt another tree.

\section*{Winter approaches; so does salt season}

By Bre Ferath

\section*{Indian author's talk describes} similarities of various religions

By Joyce Mirabile
"Hinduism is the mother of all religion in the world," Sohan Lal Sharmo, an EastIndian author and educator; told an audience at Community an audience at
House Monday.
Just as all languages are similar to a degree in the simuar to a degrerds, such as "mother." so religions have as mother, so religions have in India are getting their in India are getting their energies from
The main teaching of Hinduism is the belief in one God. Within the religion, Sharma said, there is freedom for differing views.
"For instance, Nera didn't even believe in God, while Mohatma Ghandi did," he said. "Yet both were Hindus." Sharma began his lecture by praising God.
GGod, may you bestow upon all of us what is good and auspicious ... lead us toward knowledge and away from
ignorance, from death to inmortality."
- Forgiveness, he said, is a part of all religions and religion is essential to control the mind.
Sharma said that the Indianis practice forgiveness and humbleness, but that "here everybody wants to propagate

Sales show trend toward escapist reading material
}
. \(\mathrm{By}_{\mathrm{y}}\) Ira Chineson
Mont of what people are Thistrather blunt view came from Mary Gadi view came ployee in the trade fon of the Syracue Univec sity Bookstare (SUTB)
ity Booastore (SUB)
Anthoryy, Proe, chief buyer for: SUB's non-textbook material, is a littie. more cantious in deacribing reading habita on campus. "It'e a slow gesaon and I'm having a hard time discovering any new reading trends** he said. Me has noticed some patterns, thongh.
"Right now we're selling a cot-of historical nomance and Gothic thrillers, real escapist literature," Proe said.
According to Proe, novelists Mary Stewart and Rasemary Rodgers, both auperstars of the stupermacket paperback achool of fiction, are balling well.

WWe're also doing pretty well with television tie-in books like Washington: Behind Closed Doors," Proe said.

Other big sellers include self. help or pop psychology books like "Your Erroneous Zones" and "Looking Out for Number One." The humorous cartoons of:B. Kliban are also popular. So if romance, television self-help and cartoons are sell ng wen, what has happened to the more traditional university fare?
"Philosophy is "dead," Gaddy declared half-jokingly. "History, political science and paychology books have reaily dropped in sales," Proe said. "It's not like the "60s when people, were asking for heavy stuff."

Weivet don'tshelve some of tie books because there is not gnough of a demand for them," Gaddy said about some

"to support the overhead of Printing Services," Domald H. Perricone, director of Syxacuse University Printing Services, said yesterday.
\({ }^{*}\) I operate Printing Services within the framework of the university," Perricone aaikl. "We don't make policy, we im plement it.
Perricone was responding to a charge by Martin N. Grant

cholariy titles
Proe remsins philosophical about the ahift toward more light weight literature. "You have to accept the fact that the media is changing. TV and movies are infinencing book publishing to a much greater degree than before;" he said. It's just another development in thie culture and it is not necezsarily bad. Thinges
change. After all we're not change. After all we're not writing on stone tablets
anymore.
At the Syracuse Book Center on Marahall Street, there are no stome tablets in sight, but accorting to clerk. Achilles Nicklos. there is a brisk trade
in "quality" books.
"Bespides the obvious best sellert IIke "Erroneoun Zones" and "Trinity,"" he said, "there"s been a demand forclassics and poetry." According to Nickles. the recent death of poet Robert Lowell has caused sales of Lowell's poetry, especially his latest book, "Day by Day," to rise.

The current best seller at the Book Center and SUB is "The Silmarillion,** by J.K.R. Tolkien: That's one of the few things the two stores have in common.
While the Book Center caters to a more ellite college audience, \(S U B\) is interested in hixh-volume sales. SUB must be genaitive to an ever-chang be senaitive to an ever-changworld of book publishing What'a not an easy task.
thata not an easy task. what
proe recalled what
happened torecent publishing trends. "So many once-popular areas have been beaten to death. Black atudies booka are slipping. Women's liberation books are doing poorly and art books aren't gelling because
the grood ones are too expensive," he said.
-Rooks, of course, are not the only Thedium for spare-time reading. But if you're hoping that atudents are leading consumers of academic journals, forget it.
According to Gloria Delcioppo. manager of the magazine reck atSUB, most students are interested in entertainment. faghion and sex magazines. Delcioppo gave a rapid commentary on magarinebuy ing at SU. "We have the New Timea, Saturdiy pevievir and U.S. News and World Report U.S. News and World Report and none of them sell. Politics don"t bell. I guesp nobody wants to know what is going on, Bhe said. "Mad, National Lampoon and Folling Stone usually sell out," the added.
'I sell at least one copy a week of an \(\$ 11\) French Vogue annual, but Ms. magazine is a lousy geller," she said, naming Wornen'a magazines.
"We can't keap enough copies of Cosmopolitan stocked. People are always asking for it after weare sold out, yet 1 can't get them to send more than 50 copies a month. As for the men's magaxines like Penthouse and Oui. Delcioppo offers this bit of news: "I find that people buy them the first few days after a new issue arrives. After that. sales go down and the guys just stand around in the store looking at the pictares. You can tell which ones they look at because the covers are bent."

\title{
with Latin-American beat
}

\section*{By Larry Grant} Tenor sax player Gato commitment to third world music, and his new release Ruby, Ruby pulsates with the up-tempo force of LatinAmerican' percussion.
This highly commercial album is produced by Herb Included in the personnel are Lenny White, jazz drummer with Chick. Corea, and guitarist David Spinozza, a studio musician appearing on Carole King and James Taylor albume.
Like many jazz artists who are beginning to make it monetarily, Barbieri has been playing for some 20 years.
German
garde jazz musicians like Ornette Coleman and Don Cherry. Barbieri has gone back to the simple roots of his birthplace, Argentina, and is putting out tasteful arrangements of simple melodies.
The highlights of the album are "Sunride," written by Barbieri, and Stevie Wonderg "Suntide" Ams Singing." effects of the wind swishing by, conveying the feeling of ang early morning sunrise. The early morning sunnise. The tune then breaks into a good Back nieri laying down a strong melodic hine.
"I Am Singing" is a quick, jazzy version of the Wonder song. Barbieri's playing is
clean and gutsy throughout. The background musanc includes a horn and string secpeon, synthesizer, and two poople playing percussion.
With distinct improvisatio. style and startling simple melodies Barbieri catches the mear of the listener. "Ox Midnight Tanso" he opens upthe cound of hif horn in the loose ballad style of Pharoab Saliad atyle of Pharoah playing in a Rocky Mountain valley, letting his soul sing out There is a raw, earthy quality to his playing.

If you would like to heax some positive, refreshing some positive, refreshing
music. put Barbieri on in the morning or between classes. He will lighten up your day.

\section*{SA to hear charge VP violated bylaw}

\section*{By Marsha Eppolito}

An informal hearing to discuss an alleged bylaw wiolation by Paula Stowell, Student Association vice-president of academic affairs, will be held tonight by the SA credentials committee. whether Stowell was in violation of a bylaw requiring a written committee report, why her committee had nothing to report and what a credentials committee member called her 'insulting' atWhat a credentals committee member called her inswing atmeeting.

According to Jordan Dale, credentials committee chairperson, the committee will "determine a course of action"' on the basis of the hearing. Action could range from censure by the committer to impeachment proceedings being initiated. Dale said a special asembly meeting might be called Mondey night if action is necessary.

Stowell could not be reached for comment.
Arnie Wolsiky, an assembly, member, said, "They (vicepreaidents) were all fully aware" reports had to be submitted to the assembly. Wolsky said written reports are "one way of keeping people acconntable."
He said he had been told that Stowell's academic affairs committee did talke action other than the election of subcommittee chairpersons.
Stowell said Monday night that nothing was accomplished this semester by her committee except the election.
Monday night Wolaky charged a "blatant violation" of the bylaw and proposed an investigation of Stowell by the credentials committee to the asaembly.

Stowell said Monday night the bylaw was "satupid", and idiculona.
Keith Hutchinga, parliamentarian, yesterday requested the credentiall committoe to take action becauge of Stowell's a attitude toward the agsembly. "It was insulting to the asisembly," Hutchinge said.
Mornday pight Stowell held up a sign saying "Nothing to report" when presaured to aubmit her written xeport.
The hearing will be in the SA building. 821 University Ave., at 8:30 p.m. It is open to the pablic.

\section*{By Mike Collier} The West. German government "should not have stormed an airliner which it been hijacked Oct. 13, gaid Ween hijacked Oct. \(13^{\prime}\) gaid pondent for Weat Germany's North German Radio.
Spealing Monday afternoon in Maxwell Auditozium, Hill criticized the raidon" He ane the West German government was, in effect, declaxing waron terrorism.
"Using warlike means (to combat terrorimm) in peaceful times is unnecessary.' The government could have
released the terrorists and begun the fight againgt terbegum the fight against ter-
rorism afterward, Mill said.
Hill conceded that there was
"Hill conceded that there was rorists, who demanded \(\$ 15\) million ransom and the release of 11 prisoners in Weat German and Turkish jails, would have kept their word and released the hostages if demands were met.
The imprisoned terrorists committed suicide in theircells at Stuttgart Prison following the storming of the plave.
"The terrorists are more dangerous dead than alive." becaurse of the "animating effect"' of the prisoners
suicides Hill said. While the terrorists they posed no danger to society, but the suicides were committed in "auch a satanic way" peoplơ might believe the terroriats were murdered, the said.
Hill also discussed the circumstances which made Weat Garmany a target for ter"chasm" which exists between the post-war and the current generations. He. said that many of the youth feel reforms come about too slowly, or are insufficient. They do not understand that the pariamentary process moves slowly," he said

Faculty members' reactions to the speech differed.

Frederick. Marquardt, en sistant professor of mistory, Band Efill is perhape "too wor ried about the genernal reaction of society to terroriam."

Marquardt said hi disagreee because "terrorists will con especially when released from еяресіа.

Murray Miron profeasor of paycholody, enid that Fill's riewpoinit "noeds to be expressed becanse it is important that wedo not macrifice democracy in the fight arminst terrorim.- Buts- he molded. *hare in: odanger thet thie:
zealousness to guard democracy may be inviting authoritarianism."
The speech was the first that Hill had ever given in English. He is ataying in Syracuse as the guest of Erma Rubinstein, one of three teachers of a one of three teachers of a course in Non-Violent Confict and Change on the Holocanst and the kesistance. Hill will
fly to Sun City, Ariz., on Thurg-

\section*{Man fails to appear \\ to answer charges}

By Drew McKinney
The man who drove a car involved in a traffic accident Sunday that killed a 23 -yearold medical student was arreated by Liverpool Village police Monday after he failed to show up in court to answer four other unrelated charges.

Joseph Epolito was charged this week with reckleas driving and driving while intoxicated (DW1) after the accident
According to Liverpool police, Epolito, 126 Jasper St, was atopped July-24 and ing with a revolked Hicense, driving an uninspected car and driving a car with switched license plates. Police arid Epolito was supposed to show up in Liverpool Village court on Aug. 3, but failed to appear. He is now. being held in the Public Safety Building jail in Hieu of \(\$ 1,000\) bsil, pending his appearance in Liverpool court today.

Epolito will appear again in court tomorrow in connection with Sunday's accident on the liverpool Parkway Acconding to police, a pickup track driven by Epolito struck a car driven by Syrracuse Univeraity law student Picksurd Losier, 437 Columbus Ave, cansing it to roll over several times. Mionica Brown, 175 Elizabeth Blackwoll St, a paisenger in Losier's car, was killed in the accident. Losier and another passenger, 22 -year-old Chery Cottrol, 1540 E. Geneere' St. were injured.
A spokesman for the hheriffes department said Epolito could be sentenced in o a yesar in jail or fined \(\$ 1,000\) If he is convicted on the DWI, reckleas driving and driving with a revolced Hicansecharges, all misdemeanors:
The speeding, driving an car writh switched plates charges are all violations of the state traffic law.

\section*{Budget report uses new,cheaper format \\ By Brouber Yevine}

The University annusi budiget report tools on a new look this year, changing from a miniature magazine to a tabloid aewspaper:

Less expensive to produce than past editions, the latest report is printedi on heavy stock paper with no formal cover. Unlike the reports of the last two sraars; which had muchitooser formatis and made great noe of graphics, the new report in more structured; conforming to the newrepaper format
The eight-pase paper is divided into five sectionin tront page news, editoxial, fipance, inside news andimports. The finnaniop seo tion, a four-page pull-ont, is the largeat éction with lare type for Althone

There is such a paradox in the seasonal worlds of the fall and aports.

Bodies leap and arms reach into the heavens at the same time leaves fall helplessly to the ground. The chill of impending winter ctitsinto the body at the same time a vital athleticexcitement escapes it. Seemingly diurnal rains dampen the spirit. Competition gives strength to the goul.

The color and annual pageantry of a dying world comes in complete contrast with the exuberant pursuit of athletic achieverment. There is a life in death motif here.

Nature itselfis not the best of hosts for seasonal sports antics. Rains, mud and wind becorne an almost insurmountable opponent in themselves. Mud tackles the rugby player, wind and a ubiquitous chill slow down the crew boat, just as a steady drizzle comes as little aid to a slipping football team.

Yet the games are almost always completed.

Man and the elements, two worlds in seasonal conflict without a victor. Mike McAlary

\section*{Eggers to seek input on stadium \\ By Scott Róhřer}

Chancellor Meivin A. Eggers said yesterday he will seek cam-pu*-wide input before a decision is reached on building the proposed stadium.
He reassured an audience of about is at the University Senate Open Forum yesterday that the senate and other groups will get a chance to discuss the stadium proposal.
-A full discussion is in order. Hut it is not a decision that can be made at a town meeting of 15,000, " nor without outside input. Eggers said.
"What we have to do is work in between there.
In reaponse to a question that building the \(\$ 9\) million dollar stadium may affect taition and aalazies. Eggers anid there is some risk involved. but that the stadium wili not be funded from current funda. natead, private donors, public aupport and funds from the operation of the stadium will pay for
The stadium would not be buitit at the expense of a student Uhe stadium would not be built at the expense of a Student union is finaricial, but funds are "atill being purzued aggressively," he said.
Asked if the administration will threaten student publication funding if controversial matter is printed, Eggers replied that it will under certain circumstances. He said that if what is printed is krossly offensive, the university will not advertise in that publication because suchadvertising would damage SU's image.
After the forum, Eggers distinguished between not advertising in offensive publications and withdrawing student government funding.
"I would be very reluctant to reconsider student support," he

\section*{Cheerleaders may not perform after theft}

AA thef of a Reveral Syracuse Univer* A theft of aeveral Syracuse Univermay lead to the squad not performing: at Saturday's SU-University of Virginia home football game.
Stacie Harris, who has been acting as a spokesperson for the eight-man, eight-woman squad, suid yeaterday that something is being done" to meeta list of requests presented to members of the athletic department and Office of Student Affairs (OSA) earlier this
week, the cheerleaders may not par ticipate in any more sports.
The squad comes under the juris: diction of OSA.
The theft
cheerleaders' clothes oived eight and other belongings valued at \(\$ 1,500\) stoler Saturday from the squad's rented van, parked on a public atreet near the Hitt atadium, while the pame was in progress.
Harris said, "If Student Affairs had made arrangements for parking this wouldn't have happened." Shesaid she
held OSA responsible for the theft and thought that office should cover the loss of goods.
Sevaral cheerleaders met IUesday with Peter Baigent, director of student affairg, concerning the thefts. Baigent univeraity's insurance but would tell the sraup by yesterday, which hefailed to do, Harris reported.
Squad captain Sharon Barner said yesterday that she contacted Kick Margolius, Student Association vicepresident of student programs, wo clear up the "run-around" Baigent has given the cheerleaders about the theft insurance. Margolius said last night that he would pursue the matter this morning.
Haigent could not be reached for comment yesterday.
In addition to Baigent, copies of the list of requests were presented to Lester H. Dye, director of athletics, Richard \(P\). Gibney. assiatanit director of athletics and promotion man Joe Gallagher.
The major complaints of the cheerleadera, as explained by Harris
and written in the letter, concerned the
squad's budget.
Harris said the budget increased from \(\$ 5,400\) last year to \(\$ 6,000\) thia year while the squad jumped from 11 to 16 members, "and it wasn't sufficient (funding) last year.

Included in the budget provisions are travel arrangements, accommodations and uriforms.
All this season, the cheerleaders have driven to the games instead of traveling with the team, which the squad would prefer. In the past, the letter states, hights such as for last year's NCAA playoff basketball game at Baton Louge, La., have involved long layovers for connecting fights, and driving is both time-consuming and unsafe.

Other requests of the squad includea coach. inclusion in cheerleading campa such as the one SU sponsors during the nummer, several changes of uniform. practice time and space, formal recognition by the athletic department and "an advisor who will take responsibility for and work directly with our administrative problems."

\section*{SA fails to reach decision on possible bylaw violation}

\section*{By Marsha Eppolito}

Shortly paet 1 a.m. today, after two hours of deliberration, the Student Association credentials committee had not reached a decision on whether SA vice-preaident Paula Stowell had violated an serembly byluw in failing to aubmit a committee report Mondiay, and why her academic mffairs commattee had nothing to report.
Joxdan Dale, exedentials committee echmirperson, enid duxing a midnight gicens of the committer,- It in very untitoly wo will reach a decision tonight" Dale taid there was no decision becinge "Mhers wre lot of thing involved: There is monerh involved to" werrant mone delibectit tioms?
At Monday nicht's emembly xapotins Armic Woimbrime membly
of the bylaw. Wolsky proposed an inveatigation by the credeatials committee into whether the bylaw was violated. , but the proposel was defeated.
Opinions varied on whether the credentiale committee was within its bounds to hold the hearing despite the assembly's defeat of Wolsky's propoasal.
In the opening statement, Dale asid, "We foel that curtain factse preaented to us call for un to inventigete."
Before the hearing, Stowell oubcoitted a letter to Dals, saying, firmly believe that preseage of the anocmbly bylaw relating to written reporte' wies furrounded byt an mure of contamion . - I do not feel theme are enorinde for inventimetione-

\title{
Library program to \\ By John Barrown
} A series of aeasions desigued to help foreign ptadents cope with the Syracuse University libraxy aystem will begin in the College of Human Development next week, accoraing to Eeasie Hann department director of the Science and Technology Libraries. will be held in the 1916 Room in Bird Library. The woxkshop is sell the idea of foreign studenta having some kind of help in this sell the fuea of roreign stun
"During the regular orientation, atudenta are just walked through the library," said Hahn. The seg'sions should "ease the confurion of studying and research" and allow foreign atudenta to "learn of the various resources the SU library'system offers. For example, very few students, foreign or American, seem to be aware that there are five science litrraries."
The next session, plamned for late November or early Deceraber, will be for foreign students in the School of Management. "The approach we are taling," asid Hahn, "is to work with the students according to their major, as opposed to nationality, since most of their library needs will be gimilar."
The sessions are not structurally different from the library orientation seminars held by the library staff on request from faculty members for their classes.
The library staff is also coordinating a program to inform foreign students of librarians who can speak their language. The backgrounds of the staff members who have volunteered include Russian, Chinese and some African languages, according to Hahn.

\section*{Interested persons to hold meeting} to form handicapped students group

Hyde said all students are welcome to the meeting- "The problem in dealing with handicapped students,' she said, "is that one can't tell who they are" in most cases.

Some of the services available to handicapped students, according to Hyde, are special parking, meal and are special parking, meal and help, equipment repairs and help, equipment repairs and hepildinge.

Jay Levanthal, a student who is interested in forming
the handicapped group; said the purpose of the meeting was to "find out about some other students and their needs."

The Rehabilitation Act of 1973 (amended in 1974) re quires "all institutions to adapt to the needs of the handicapped within three years."

Steven Schroeder, coordinator of barrier-free design, will be at the meetings with \(a\) questionnaire: designed - , to find out students needs and where handicapped students are having problems with buildings and site condition.

Two meetings for students interested in forming a handicapped students association will be held Wednesday and Thursday. The meetings will also give information about -services for disabled students.
dane Hyde, campus coordinator of services to handicapped students, will be in the lounge of the Student Center, 310 Walnut Place, from 2 to 4 p.m. on Wednesday and from 9 to \(11 \mathrm{a} . \mathrm{m}\). on Thursday. Several students interested in forming an organization will also be present.

\section*{SA seeks: nominees for \\ trustee seats}

Nominees for student representatives to the board of trustees are being sought by Student Association.

An election for the two undergraduate seath, will be held at the SA Anserably meeting Nov. 7: Elected representatives must be juniors and Will attend meetingson a rotating basis:

Nominations are being sovght fróm campns organizations as well as in--dividual students. If an organization is intereated in sponsoring, a nominee, it ghould contact SA; 821 University Ave., by Oct. 31.

An approved list of nominees will be presented to the assembly on Nov. 7.

Monopoly: do not pass go
}

UU is seeking to control the ordering of all films on campus. In doing so UU would be forcing Film Foram out of business.

In a letter printed on today's editorial page, Steve Runin, UU film coordinator, says they should controi film scheduling because Film Forum does not involve stadents in its programming.

We. feel that student involvement is not the only, nor the most important, justification for a film group. Film Forum benefits students without direct student involvement in prosramming: students obviously attend the films due to diverse content, convenient location and reduced price. Eliminating Film Forum would limit the variety of films shown on campus, and force atudants to frequent more expensive off-campus campus, and force students to frequent more expensive off-campus groups.

In the letter, Film Forum is criticized because it competes with student film groups since it alone can show films three days in a row, and film distributors give preference to groups with such a schedule. However, this three-day run provides added convenience for its audience. This allows students added choice to see desired films on dates that conform to their schedules.

Unlike Film Forum, student film groups have the advantage of providing atudents with a chance for expenience in planning their owr film programs. However, if UU were to order films for independent firm groxpis, as Runin proposes, this would eliminate the present student contact and experience with film distributors outside of UU. Centralizing the ordering of fims in UU would greatly reduce the independence of such film groups, making them not much more than a aubsidiary of UU.
The UU Cinema Board was formed to lend diversity to the films shown originally only by Film Forum. Centralizing the ordering of films in UU would be going back in the same direction that it sought to avoid - a monopoly of all campus films.

Sy Montgomery for The Daily Orange

Letters
\(\because\) Clarifying misconceptions

\section*{To the editor,}

In an article in Wednesday's DO (Keim: UU meek film monopoly), several otatementis were reported in: correctly and several min. conceptions were perpetratedi. We would like to correct the record.
First of all, University Union is not trying to get control of all campus programming efforts. It roukd trying - the logistics are simply too great to overcome. However, at last great to overcome. However, at last programming budget hearingn, programming monies were cut back organizations. These organizations organizations. These organizations Were told to go to UU for funding for programa that would appeal to or serve the campus community as a whole. Thus. UU has now been given a greater responsibility to provide the bulk of the program-
ming on campua, but not all ming on campua, but not all programming.
Secondly, UU Cinemas is not seeking to control all films on campus. Independent student fim groups such as Nickelodeon, NVS and Hillel are necessary counterpoints to UU. They exhibit certain types of films in order to either make a statement or fill gaps that UU cannot fill, or both. We try to leasen competition with those groups as much as possible by trying not to book films that those groups would tend to show, and by checking to make sure we are not showing the same filme as other groups in the same semester.
However, UU doee not feel that Film Forum fits into the category of independent atudent film group. In fact, it is far from it. Film Foram is a private, non-profit corporation which has a contract with Syracuse prograks content is controlled by the program content is controlled by the his board of directors. Student involvement is limited to tearing tickets at the door. The student film groups, on the other hand, give groups, on the other hand, give distributors, plan their own film programars, pland receive experience in program and receive
The contract with the univeraity allows Film Forum to exhibit on
camptin only on wealidays in ordere to lesmen its competition with student film groape operating on weekende Nom Eilheiess, Elim Fornm romains in competition with all student film croupe becaree only Film Foram can hhow a film three days in a row in the same anditorium. Film distributorib will give preference to a group that can guarantee a threeday Fun.
Film Formm's contention that it has expertise in dealing with 35 mini distributors is a moot point. Aside from Film Forum, no other group on campus, except UU on occasion, eampus, except to the sreater expenie Thns it wotild he greater expenae. Thas, it would aeern hat Filn Forzmo expertise is hanecued and the ability to do the same if has th
Before the UUT Cinema Board was organized over four years ago to give direction to UU's 10 -year-old \(\overline{1}\) Im programming effort, Film Fortm was the dominant force in films on campus. It provided an excelient program of first-run features at a cime when no one else conla provide it. Today, UU does all that Film Forum did then and does more of it. better UU Cinemas is now among the five latgest flm groupe in the country and only took four years to achieve this status. Can Rev. Keim. over Film Forum's 10 years of existence, show the same fate of growth, leadership and quality that UU has exhibited in these past four years? Perhapa it is time that Eilm Forum gobaci to operating the Film Study Center that it was created to run and leave the film programming at SU to the students.
Student Affairs feels that UU ohould eventwally order films for all film groups on campus. SA feels the same ag far an SA-funded cronpsare same as far aisiA-rundedgronps are concerned. If an edict should ever hould hapen we foel stronely the Bhould happen, we feelstrongly that the independent film groups should ontinue to get their film bchedutes independently.

Steven E. Runin
Steve Runin is University Union film coordinetor.

Lefticrs to the edition should be typewritten, wouble-or triph-spaced on a 57 character line, prefernbly not an eratable bond paper. We renerbe the ripht to edit for usate, brevity, clarity and tapte, Letters ghowld be mailed or delivered to The Daily Orange, IIOI E. Adame St., Syrackie, N.Y. 13210 .

Comedian Jerry Lewis receives a donation to help fight muiscular dystrophy. The organizers of the SU Dance Marathon are mlreadyplanning to raisemoney. (Photo courtesy of A. Vigliotti.)

\section*{SU contribution highlights annual convention for MD}

By Missy Cid,
Syracuse University's fund raising success was the highlight of a national convention for Musculax Dystrophy this month, according to Angela Vigliotti, an SU representative to the convention. Last year Syracuse and Syracuse University were the biggest donors to the MD campaign, giving \(\$ 43,383\).
The second annual Muscular Dystrophy Nátional Youth Conference was held Oct. 14 through 17, in Hollywood, Fla. Jay Sanderson and Angela Viglioti represented SU at the conven-

tion. The conference was called "A Place in the Sun" and was attended by 350 high school and college students from all over the United States.
The conference consisted of workshops, films and exercises to help students become moқe successful in raising money for MD, Angela Vigliotti said SU's program was stressed at the convention. This publicity is good for the university, Vigliotti said. "Other students hear about SU, and we're their goal, their figurehead."
SU also received a challenge at the convention. Last year, the University of Texas, with an enrollment of about 40,000

break it off, reel in, tie on a new weighted treble hook and begin again. A half-dowen begin again. A haif-dozan hour.

For proof that the salmon are there, visit the New York are there, viait the Nevr York
State Department. of EriState Department. of EriVrommental Conservation (DEC) Weir. The weir.has an elaborate fish trap where the salmon are collected by DEC personnel, talleyed, measured, Fin-clipped and sent down an vimminam shoot back to the river. In a recent twoday coun. ting session a record 1,109 salmon were marked.
"Poaching could be a problem," saye a DEC worker, "but not too many fieh are taken from the trapa. I admit the temptation is there. though."
Pulaski residents welcome the yearly inflix of vimitora. There is ample parking by the weir and there are many good restauranta and reasonably priced .motels in town and
nearby. Thers are private campernounds for the carapers camperrounds for the carapers Who can brave chilly nights.

The question of Mirex, mer. cury and PCB: (polychlorinated biphenyls) has not yet been resolved. Large fikh like thone typically taken in the Salmon Rivermay have contaminants that exhave contaminants that exlevels set by the U.S. Food and Drag Administration.

The New York Stete Department of Health advises that you consume no more than one meal a week of fish caught in New York State.

Back on the river the weather is getting gloomy but the fiahermen are not. A man is walking back to his pickup is walding a bright maie trout holding a bright male trou that weighs over 10 pounds. "Where else can you catch a rainbow?"

\section*{SUhosts second annual career exploration group}

The programs, arranged by the SU math department, will feature a.series of lectures, mostiy by SU professors, sbout the job opportnnities in mathematica-related fields.
Students in high school last apring answered a survey given by the Explorer Scouts asking them about their career interests. About 500 studenta in the Central New York area who indicated an interest in math were sent a letter inviting them to the series of lectures. About 50 attended the first meeting.
Hemmaingsen stressed that "getting people interested in SU is not our principal task." Many of the students attending were not seniora." If 1 were to use this as a sales pitch for Syracuse, I think they :would be offended."

\section*{Court rules} bond issue unconstitutional

\section*{By Ariane Sains}

As a result of a suit brought by the New York Public Interest Group (NYPIRG), the State Appellate Division yesterday upheld a lower̃ court ruling that Gov. Hugh Carey's proposed bond issue violates Ghe state conatitation.

NYPIRG, statewide reaearch and advocacy group, is anpported in part by an annual contribution of \(\$ 3\) from each Syracuae University studen't's activity fee.
The State Supreme Court ruled everal weeks ago that the economic bond issue failed to meet the single purpose requirements established under article 7, section 11 of the state constitution.
Bernand
C. Melewski, NYPIRGIegional coordinator: said that NYP1RG brought the suit because "it was not fair to the voters to have to try to decide between . . . What were basically four projects. in volved in the bond issue."

The court found that the bond isene had at lesiat four separste purposezs conservation, tramsportation, necreation and community developmenit:-

Thi bond proporal called for ubout \(\$ 760\) miltion for local projecta which, Melewshi said, projectarnich, Melewshisaid, willion put dore itate abouta wonld take about ;op years to repay."

NYPIRG argued ithat Caver a propoasi world hive created an "ail or nothing". eiturition for vacers willing to pay thigher tarna to finarice community dovalopmeititify example but timilling to finiance the other proxts of the proporal.

Students coming to the first meeting expressed interest in what it had to offer them.
"I'm at the age where 1 'm starting to get concerned about what I want for a career," eaid Milco Kohlbremaer of vairmont, and I thought this would be beneficial to me. I'm fairly interested in Syracuse and this program may helpme to make up my mind about it."
Sam Keller said this "may affect my. deciaion" about Syracuse but stressed that this wam not the main reason he came to the meeting. He said he is more interested in math and the Explorer Scouts.
Until the program ends on Dec. 5, participants will hear lectures concerning the buainess management, engineering, geology and computer science fields. They will learn what jobs are like in hese for chances for success are.

\section*{EARN OVER \({ }^{\text {s } 600 ~ A ~ M O N T H ~}\) FOR THE REST OF YOUR SENIOR YEAR.}

If you are interested in math, physics or engineering, the Navy has a program you should know about.

It's called the NUPOC-Collegiate Program (NUPOC is short for Nuclear Propulsion Officer Candidate), and if you qualify it can pay you as much as \(\$ 611\) a month for the remainder of your senior year. Then after 16 weeks of Officer Candidate School, you will receive an additional year of advanced technical education, education that would cost thousands in a civilian school, but in the Navy we pay you. And at the end of the year of training, you'll receive a \(\$ 3,000\) cash bonus.

It isn't easy. Only one of every six applicants will be selected, and there are fewer than 300 openings. But those who make it find themselves in one of the most elite engineering training programs anywhere. With unequalled hands-on responsibility, a \(\$ 24,000\) salary in four years, plus travel, medical benefits and education opportunities.

For more details on this program, ask your placement officer when a Navy representative will be on campus, or call the Officer Program Office listed below; or send your résumé to Navy Nuclear Officer Program, Code 312, 4015 Wilson Blvd., Arlington, Va. 22203. The NUPOC-Collegiate Program. It can do more than help you finish college; it can lead to an exciting opportunity. OFFICER PROGRAMS OFFICE, NAVY RECRUITING DISTRICT, 315-423-5490

\title{
'Aja' continues mystique of esoteric Steely sound
}

\section*{By Mike Collier}

For the duration of their fiveyear recording career, Steely Dan has been able to retain a mystique that is umusual among rock groaps today. Their latest release, Aja, continues that mystique as wellas furthering their own music and lyrics.

The band's career beganinnocently enough when Can't Buy A Thrill was released in 1972 hit singles, and the expec tation that their follow-up albums would contain the amme kind of easygoin the same kina of easygoing pop songs they had

But exactly the opposite happened. The second album, Countdown to Ecstasy, began a tradition of lyrical crypticness which has since become one of the band's trade marks." "Count down to Ecatasy" continues to be Steely Dan's most controversial album.

A brief return to the popular style of their first album was evident in parta of Pretzel Logic and Katy Lied, but was.
offeret by a return to subtlety cynicism in last summer's The Royal Scam. By thia time the hand's peraonnel had dwindied to consist only of the two songwriters, Walter Becker and Donald Fagen. As a result their songs dominate this album, which include lyrice that are sarcastic ("Kid Charlemagne'). humorous ("Haitian Divorce*) and hopeless ("The Royal Scam").

However. "Aja" is a little different. With typical derision, songwriter Fagen was recently quoted as asying that "people today watch too much television, Bo we've had to airnplify our songwriting". So what this amounts to is a shift in emphasis from camplex lyrics to more music.

On their lateat release Becker and Fagen have recruited a fine assortment of musicians to back them up. Among these are Wayne Shorter on tenor sax, Larfy Cariton on graitar and Jim Keltner on drumas. LA Express leader Tom Scott also provides the horn arrangements

The seven songs on this album are longer than usual
for Steely Dan. The musicians take full advantage of the long. take frill advantage of the long. instrumental breaks. Shorter's solo on the title curt Shorter's solo on the ritle cut and Pete Christieb's sax work on "Deacon Blues

The rest of the album continues the assortment of musical styles that Steely Dan has always used like funk on "Black Cow", and simple pop structure on "Home At Last." But they break some new ground as well. Their gift for parody hows throughout their interpretation of punk rock on "Josie."
"Rich with images of random violence, drug, abuse, loitering with intent and other misdemearors. this sociopathic jump turse is aure to become a classic zebrain the annals of Punkadelia.

Well, let's hope this isn't a portent of things to come from this group. Steely Dan has arovided consistently good music during the past five years, and will probably continue to do so until the punks take over completely.

On bák at Spectrum. Jab. - and IVatson Thcatre

\section*{Syracuse's bomb squad \\ Semall wan a rumning back-out-of-the}

Syracuse football fans might confuse Archbold Stadium with Hancock Air Force Base this Saturday as commander Bill Harley leads his Aying circus against the Virginia Cavaliern.

The SU receiving corps has shined the last wo games as the Orangemen have taken to the air. Hurley has led this charge with his leadership and accurate bombarding, but a great deal

The fact that past opponents Pittsburgh and Penn State were more vulnerable against the pasa than the ruah could account for the budden Aurry of passes. However, Bill Spencer, SU's receiver canch, doesn't believe that many adustraente were made.
"Our offense is basically no different than before," Spencer said, "except that now we are taking advantage of weaknesses in our-opponents' defense.'

The receivers who have blassomed recently re tight end Bruce Semall and halfoack Art Monk. Fich Rosen and Mike Jones have also been worthy targets.
Monk, m 6-foot-2, 201 pound sophomore sprinter, has been a very effective receiver coming out of the backfield. He has caught 15 passes for 243 yards thus far this season. He enjoys his new role.

No previous experience
I didn't do it in high school," Monk said. Now, I like it because I like being a receiver."
Monk says that deception is the key to his Monk says that deception is the key to his
patterns out of the backfield. "I'm open becauace patterns out of the backfield. 'I'm open because to do," he said.
Bruce Semall, the 6 -foot- 2,235 pound 2xi3 yards). "We have alwave had faith in Bruce," Sponcer said. backfield type of receiver at Maple Heights High School in Ohio. His audden succese is becatuse he hae been thrown to more oflen, and he hat held onto the ball.

With a quarterback bike Hurley, Semall aays that the offence will try and flood one part of the zone. The quarterback forces the defense to move and he decidee when to throw or run," Semall said. Then we wrill have one more receiver than defender

I have been cetting open because the defense has been keying on Art and Billy." Semall said.

\section*{A job well done}

Roeen and Jones have also done a fine job," Spencer gaid. Rosen, the 6-3, 242 pound senior tight end, has caught eight passes for 119 yards. Jones, a 6 - 12 , 204 -pound junior splitend, has pulled in 12 passes for 144 yards. Mike has on the deep pass." said, "but he still need work on the deep pass."

Some SU reserve recaivers have been innpressive in practice and during short stints in games. Greg Williams and Dave Farneaki appear to be fine future targets for Hurley"Greg has shown great ability," Spencer said. "He has sure hands." Farneaki came off the bench to catch a key pass against Penn State
Spencer isn't sure if the passing trend will continue, but he knows that Hurley will always pressure the defense.
"Hurley's ability to run has opened upa great deal of our passing game," Spencer said.

Hurley has already passed for 907 yardis this year as Syracuse fans are being treated to a more wide-open brand of football. Whether this atyle of football will continue to be employed by Syracuse will probably depend upon the atyleot the opponents' defenses. However, all opsquadron are ready for takeoff at any time.

\section*{New York's No.}

By Joel Stashenko For two years Syracuse University s women s ten nis coach Brigita Warbach has been telling people just
how good her No. 1 singles how good her No. 1 singl
player Betsy Gottieb is.
player Betsy Gotileb is.
Monday ahe let Betsy and her racket do the talking as Gottlieb won the New York State intercollegiate aingles title in Binghamton. The rest of the Orangewomen were nearly as good, givina SU second place in the field of 36 schools.

I was pleased with the way everyone played,"
Warbach gaid, "but I was some what surprised by the way Betsy played and the ease in which she won the tournament."

Eare" is the right word. Gottlieb dropped only 12 games over six matches in a
field Warbach termed "very neld Warbach termed "very
representative"
The Brooklyn native defeated Anne d'Adesky of Garnard in the eemi-finals 6-3, 6-1 to set up the finala match with Helen Johnson of Cornell. Earlier, Johnaon had upset the toumament's
No. I seed Anne Ayers of Colgate.

But No. 2 seed Gottlieb seemed unimpressed as she easily defeated Johnson 6-2, 6-1 to win the title.
Helping to account for SU's high team finith was the doubles team of Joni Aronson and Betsy
Malkovsky, who finished Malkovsky, who finished
third in the doubles phase of third in the doubles phase of
the tournament. They were eventually defeated in the semi-finals by Colgate's No. 1 doubles team of Jean Gengler and Amy Lockwood before coming back to defeat a team from

Betsy Gottileb

Cortland to claim third place,
SUa No. 2 singles player Abbe Seldin advanced to the third round of the tour nament before losing to a player from C. W. Poet. laim. W. Post team also claimed SU's other doubles tandum, Leona Bush and Kathy Walsh- twice. In the second round of cham pionship play thetwolast to C. W. Port's doubles team and then after Bush and Walsh won three times in the consolation round they agrain met. and loest to the team from long laland.

Overall, the level of play in the cournament was remarkably improved, Warbach said. "There wert strong teama there that weren't ever strong before. C. W. Post is one of those teams which played well."

Colgate won the team titie for the third year in a row with 36 points, while 5 U was second with \(271 / 2\) and \((\). W. Post finished third with \(22^{1 / 4}\) pioints.

But the big winner; at leats from SU'a atandpoint was Gottlieb, whoee high level of play has Yarbach marveling.

You could see her in prove even thronghopt the tournament," the SU, coach said "She was hittingshots right into her oppopents rackets. but she was hitting them so hard
return the ball

Praise (and play) like that inevitably bring up the question of whether Got lijeb is destined for more royal tenniz courts.
"The ultimate soal in to turn professional since that is the highest form of excellence an athlete can schieve:". Warbach enaid. "She hat the potentint and the will to practice the Long hours it talter.?

\section*{S-ball champ named}

\section*{By Brad Bierman}

The first intramural team champign of the year was crowned last week as Out of the Blue won Espetgrfall-university softhall title by beating Phi Delta Theta 3 - 2 in eight inning*. The champions reached the finals by crushing Marion One, the livingcenter champion, while Phi Delta Theta defeated Pai Upsilon to center champion, while Fhimela at the title. Standouts for the championship teams earn a shot at the tite. Standouts for the championship teans were the following: Marty Byrnes, Bob Hiton and d arome Shier
(Out of the Blue); \(d\) Weil, Dave Bohman and Steve Culhane (Phi (Out of the Blue); Ed Wei, Dave Bohman and Steve Culhane Phi Delta Theta); Bnd

Another independent team won an all-university tille as Varsity Fizza won the crome-conntry race last Saturday on the 1.8 mile ccorge at Tecumseh Golf Club. Paul Gulamerian paced the team as he won the independent race in a tikn of 13:13. One point back was Backrow, led by Bob Rabin, and the Wankers, led by
John Malloy. Kappa Phi Delta took the fraternity titie and placed five of their men among the top seven finishers. Dan Schiffhauer led the way with a time of \(10: 55\). Brewater One won the living-center title but had competition from only one other team, Marion Three. John Schock paced Brewster with a 11:03 time.
In team golf resulta held at Drumlina, Lawrinson Eighteen won the living-center crown and beat Phi Delta Theta, the fraternity champion, to move into the all-university final againat the independent winner Backrow. That match will be played next week.
BIERMAN'S BITS: David Brofsky and Sheri Ross defeated last year's champions Barb Shapiro and Dave Levitt in the co-rec mixed tennis doubles final 7-6, 6-0., League winners in team tennis were Day Six (iving-center), SigmaAlpha Ma (fraternity) and Varsity Pizara (independent). :Campur Recreation Difector Nick Wetter finished ninth in the independent croas-country race
with a reapectable \(\mathbf{1 2 : 0 9}\) time.. Touch football playoffs-begin next week. Floor hockey action much quiteter this year. Not too many fights, according to Wetter. . .Coming up next is indoor soccer.

A delicate balance: AGS and the Standard Plan
}

Stading today, the DO will bepresenting the views hat: variouis Deanis, facrity and student have of their, tchool: Wer thank: the Deary, who have resand replies to thesearticles as well as the viewpoints of oeher dieans, faculty and students.

Vixtually every mivermity has an "arts college" at itt cerrter. At Syracuse it is called the Collegre of Arte and Sminncob. By whatever names, at the heart of bodies the fielde of basic mnowledise - the "hest that

\section*{Guest Comment: Kenneth Goodrich}
man has "thought and done," the fundamental dieciptimen in the wozid of inquiry - and which is dedicated to advancing buman naderstanding in it dornain and providing a liberal arts education to its students:
The modern college of arts and sciences han a venerable hineage. Here as in other realmas we orpe much to the nncient Greeks. Our more recent. forebearers were the "Oxfridge colleges" of England, dedicated to educating the minds and seneibilities of. tomorrow's leaders, and the new German naiversity, of the 19 th century; dediciated to specialized ecientinc: ceberarch. Since the aitiv́al iń Americe of the Gerinan model, a continuing debate has faken place concerning teaching and rebeareh; "general reciucation and specialized education, education for life and education for profeasion, etc. The modern college of arth znd sciences is a hind of creative compromise, an American adaptation of traditions not fully apOnobe dimension of this cor
docating for both "bread compromise is our goal of edqeating for both "breadth" and "depth." The latter is effected, of course, by the "major." the area into which the student chooses to dig deeply. The formeris the province of the "gromp requirements," the longstanding Syracuse system of assuring breadth of learming by requiring a apread of courges over several croups of fields.
The college is organized by departments, each an academic unit comprised of faculty with advanced

training in some discipline. The department, lilke the major, comes largely from the German univeraity partiof our ancestry. Intereatingly, we derive much of our breadth-of-education goal from our English atock dut ask that it be carried out by our German-derived departwents. On the whole this has worked out fairly well, but from time to time it is argued that breadth of learming should be more than several small epeciainzations; that department-oriented lower-
division courses do not necessarily a general division coursea

At this moment we are in the procets of responding imaginatively to the above complaint - to the claim that more integration is needed in the general education part of our curriculum. Last apring the faculty of the college adopted an alternative to the Eroup requirerrents the to-called Standard Plan. The plan hns two distinctive features. Firat is the

\section*{3 BCENTR \\ Letters}

\section*{Centro student service: Not worth waiting for}

The free Centro bus service provided by the university is necessary for students living on South Campus to get back and forth from main campus.
However, from 5:30 p.m. on, the bus service does not mneet the needs of the people it is supposed to be serving. After 5:30 p.m. buses run approximately every 25 or 35 minutes (with the exception of one express bus) and are always overcrowded. The number of people using the library merits more buses running at more frequent intervals.
Both students with and without cars take the buses. Inadequate parking space on and near campus influences drivers to leave their cars at home, and this contributes to the heavy passenger load on the buses.
Midterm season is here, and finals will soon follow. Schedules are tight and the loss of time spent waiting for a bus becomes a real
problem. Also, students who do not normally use the library do so at this time, and also increase the passenger load on the buses. Many of these students are from South Campus. It is unfair to penalize students who chose to live far from campus, or who are forced to do so because of the overcrowding on the main carapus, by making it difmain campis, by making
ficult for them to commute.

Living preference should be determined on the basis of where one feels most comfortable, not on the basia of the ease or difficulty of getting to classes and the library.

If the university provides housing which is far from the main caming which is far from the main campus, then it must also provide a bus
system which is con venient for the system which is convenient forthe
residents of that housing. Buses which run infrequently and necessitate long waits do not fulfill that requirement.

\section*{The plea}

Below is a letter sent to an alum: inter-soliciting donations for \(S U\) 's Annual Giving Pro
Dear Mr. Boyce:

While you were an undergraduate. alumai gifts were quietly at work to alumani gifts were quietly at work to
make Syracuse University a good make Syracuse University a goo
place in which o ive and learn, years of Syracuse. Each generation of alumni has helped to make a fine education possible for the next one.
Thia unbroken chain of loyalty is one of Syracuse's great streagtha, Very few private univeraitief can
equal its alumai participation in the equad its Glumai participa
No Syracusan ever need feel that he or sho must be a big giver to par: ticipate significantly. Many alumni aend gifts in the range of \(\$ 10\), \(\$ 15\), \(\$ 25\) and more. Every gift is im portant and is needed.
Thia year I hope you will contribute, too. By sending a giftyou
will ensure that Syracuge is a finer will ensure that Syracuse is a finer institution tomorrow than today, for the benefit of all studenta who follow
after the Clase of 1977 .

Melvin A. Egrers
Chancellor

\section*{The reply}

This letter was written to Chancellor Meluin Eggers and submitted to the Daily Orange.

Dear Mr. Egerers:
While I was an undergraduate, alummi throughout the conntry were quietly being peatered with subtleinquitations to contribute to making Syracuse University a good place to live sund learn.
So it has been aince the earliest years of Syracuse. Each generation Of aluman has been milted by a combination of plays upon their guilt and fantastic low-priced junkets to Tahiti, under the rationalization that they werve making a, Fro education possible for the next one. zenerations were fortunate enough genarations were fortunate enough
to be able to contribute to the samae
project: the atudent union that none of them would ever see.
- No Syracusan ever need feel that he or she must be a big giver to participate significantly, for they have paid in full as undergraduates covering the costs of tuition, overpriced housing, under-staffed health sexvices, and overestimated quality of education.
This year my gift will ensure that Syracuse is a finer institation tomorrow than today, for I send nothing more than the opinions of the unvoiced graduates who do not contribute: who threaten to break "the unbroken chain of loyalty (that) is one of Syracuse's great etrengetha."
When we were under the tyranical rule of the university, standing on rule of the university, standing on
line to complain only to be ignored, line to complain only to be ignored, no one extiting turted on whe vollowed us, berefiting etudents who followed us,
because our money was in the bag. because our money was in the bag.
But now, all the fine stationery and But now, all the fine stationery and personally addressed form letters in Syracuse will nat entice the majority of us to turn the other cheek. In the
final analysis, it is you whoowe 48.
F. Alan Boyce

\section*{Unfounded}

\section*{Credentials committee cannot rule}

By Marsha Eppolito The Student Association credentials committee decided shortly after 3 a.m. yesterday it could not rule on whether Paula Stowell, vice-president of macedemto Mifaims:-had violated a bylaw, because of the bylaw's ambiguity.

The committee investigated why Stowell's acadernic affaire committee had nothing to report at the Monday night report at the Monday might
assembly meeting. It conassembly meeting. tivitien did in fact take place. bivitien did in fact take place, but that Stowell decided those activities were not substantial enough to take up the assembly's time.
"It was a fair decision," Stowell said yeaterday.

The bylaw in question requires that written reports of each committee be submitted to the assembly each month.

The bylaws ane the rules governing the assembly and its activities.
The
committee reconamended to the ansembly an amendment to the bylaws to clarify what a "written report" entails.

The committee urged Stowell to submit a written report of academic affairs activities this semester at the next assembly meeting. Stowell said ahe will submit tha report:
The committee anid that Stowell had "clearly treated her responsibility to the SA Assembly too lightly." Stowell's aftitude was Stowells attitude was "inappropriate conducs-by"a viceppropiate
The committee also ssuid that. in the futurg vice-presidents should respect the right of any asaembly: member or conititient:ofisA to question their performanice in office.

The decinions of the committee will not be official until thie last of aoven membersapproves the teati Dale said it is highly urififity \({ }^{\text {en }}\) the text will be changed?

\section*{Gallery exhibits variety of local works}

By Lisa E. Freedman
If the latre, impersondal atmosphere of SU is often cold and intimidating. the village of Fayetteville may have just the ideal retreat for you. Located just two blocks past the Fayetteville Mall, on 304 E . Genesee St. The Asacciated Artists Gaillery is a charming stone atructure of the past, with open doors to stadents, professors, residents, and other appreciators of the arts.

Upon entering this renovated chur ch, one feels a mystical spirituality plants in the entrance foyer emit a warm invitation, and the classical music in the backeground lures one in through the passageway.

Intricately designed stained giass vindows reflect the sunlight in
off the criap white walls of the gallery's interior. The high ceilings allow an interplay of light, flling the room with the warmith of an ancient era.

Only the paintinges on the wall remind you that this is the 20 th century. Selected for their first-rate quality, the gallery exhibits works in a variety of media and atyles produced by local artists and members. Ex. hibitions are featured every three weeks in a diversity of themes at tracting varied individual interests. Works are moderately piriced and for sale to the general publie.
Dated back to 1926, Associated Artists is one of the first historical organizations of its find in the prising over 350 members, the organization maintains the gallery in

\section*{Santana's new album strikes like a cobra}

The new Tim Wendel Tower newnes at you like, Moon Slowly swaying back and forth to a hypnotic beat, it first relaxes, then coils hypnotic beat, it first relaxes, then coils
and strikes. Lead by guitarist Devadip Carlos Santana, the.group offers rock, Carlos Santana, the.group offers rock, served up with a simple Lat devour.
After experimenting with offbeat, more complex rhythms on their Fes tival, last album, Santana is back to basics on the new LP. The highlights of the album are a series of live tracks recorded in Munich, Paris and London during Santana's last European tour.
Many of Santana's favorites are per formed in a live environment. Numbers like "Black Magic Woman," "Dance Sister Dance (Baila Mihermana) "and "Europa (Earth's Cry Heaven's Smile)" take on an added dimension of raw intensity when played on-stage before several thousand crazy fans.
The performance of lead guitarist Carlos Santana is impressive, Europe" he builds the song by his use
of forceful chords that are reminiscent of Jeff Beck's "Darkness in Search of a sun."

The rhythm section of drummer Graham Lear, Jose "Chepito" Areas, and kaul kekow are the heart of the band. Lear plays an excellent drum solo entitled "Head, Hands \& Feet" in the middle of the song "Soul Sacrifice." Areas and Rekow, also give an inspired effort on the congas and bongos.
The relaxed vocals of Greg Walker are a needed relief for the album. His warm vocals on "Trangcendence" and "She's Not There" engulf the listener.
The double-album also includes nine new songs, such as "I'll Be Waiting and the title cut. Recorded in a San Francisco studio, the majority of the new works, were written by Santana and the group's keyboard player, Tom Coster:
"Moonflower" shoves Santana back' in the mainstream of contemporary music, position that after the release of the obscure "Festival" album seemed more than a step away.

Fayetteville and sporfors epecial programs dedicated to its original purposeo of promoting a better appreciation of the arts. Programe inclade. life drawing esessions, films, lectures, axt fairs, mall exhibitions and field excur sions. A monthly calendar of events keaps meinbers and the public announcement esections of local newspapers poated on current exhibitions and gallery-Bponsored affairs.
Betty Munro's one-woman show, "The Syracuse Galaxy"," will be on ex hibit through Nov. 11. Munro is a local artist apecializing in painting large, expressive watercolor landscapes on location. In her show she has effec tively portrayed her perceptions of
landinarks in the metropolitan Syracuse area.

Meimbership is open to anyone with an interest in the arts. Members areentitled to exhibition privileges, dircounts on gallery-sponsored events, and a monthly newaletter and calendar of events.
Membership dues ara \(\$ 15\) anninally, \(\$ 5\) for stadents. The grillery is open Tuesdays through Saturdays from 11 a.m. to 4 p.m., and on Surdays from 2 to 5 p.m. You needn't be a member to atroll in at your leisure and take advantage of selected gallery-sponsored events. For more information about Associated Axtists, contact the gallery at 637:5285.

Carlos Santana

\section*{Auto mechanic tunes}

By Mark Sullivan Several years ago Graham Parker was appearing in small English taverns, often performing tributes to LSD and mescaline. Eventually Parker left the pub scene and began working asan auto mechanic. While he was working in a gas gtation he put together a "demo" tape of rock-oriented songs and sent it to Mercury Records.
The folks at Mercury enjoyed the tape so much they hooked Parker up with one of the best British pub bands, the Rumour, and invited him to record an album called Howlin' Wind.
Later in 1976, Parker and his newfound backup band recorded Heat Treatment. Both albums werecritically acclaimed. In fact, the Village Voice's yearly critics poll ranked Parker higher in total points than any other artist. with the exception of Steve Wonder. Parker went from a gas station attendant to a rock ' \(n\) ' roll star in the space of nine months.
Parker's songs are usually short, upbeat and carry a strong "hook," or melody line. Parker, like many other songwriters of the 70 s , was influenced chers and black rhythm and blues archers and black rhythm and blues ar-
tists. Comparisons with Bruce Springsteen are inevitable, since aside from sharing similar songwriting roots, both sing in strong, throaty voices.
They also rely on tight, powerful bands as a vehicle for their music. The Rumour, with Brinsley Schwarz on lead guitar and Bob Andrews on keyboards, is an extremely capable band which has recently released an album of its own. On stage, they contrast sharply with Parker, as they remain sedate and immobile, while Parker careens around the starge, seemingly oblivious to his band and the audience.

During the past year Parker and the Rumour have been rather quiet. They released one single, "Hold Back the Night," which was initially pressed in ed vinyl, therefore being appropriately referred to as the "Pink Arker."
However, with two strong albums in one year and rave reviews on his live performances, the pressure was on Parker to produce.

His response to the pressure was Stick to Me, a collection of short, harddriving rhythm and blues influenced tunes, similar to his first two alburns. Where the first two records drew comsparisons to other artists, "Stick to Me". offers a sound that is distinetly Parker's own
Parker's music jumps out and grabs the listener. He wastes no time on ornate musical introductions or long

solos. His music is blunt and to the point, containing all the subtlety of a jackhammer. Songs like "New York high gear and build to incredible energy peaks.

Like other hard rockers, Parker sometimes has trouble capturing the energy and excitement of his music in the studio, and that problem is eviden on his newest release. Even so, "Stick to Me" contains more energy in one \(31 / 2\) minute song than most albums do in two sidee.:

An interesting facet of Parker's music is the reggae elements that are present in "Problem Child" and "Just Sresent in Problem Going and Jhough." Parker speeds up the reggae tempo just a bitmaking for an excellent end effect.

In his songwriting. Parker approaches serious subjects with the attitude of the British working class. He door love and tearing down playhouses with a black humor feel.

Parker is an unlikely rock hero, with his pallid complexion, over-sized sunglasses and manic on-stage movernents. Yet, somehow he makes it work.

Though "Stick to Me"'isnot as strong as "Heat Treatment" or. "Howlin" Wind.". Parker is an artist on the way up. He is currently touring the states as the opening act for Thin Lizzy, thus gaining exposure to a younger nock audience.

All the ingredients for standom are there. With a hit single or a break of any hind, Parker appoars to be haaded for the top of the rock pile. It's not a matter of talent, but timply a matter of time.

\section*{'Rocky Horror' show parodies science fiction}

By Marie Bcuderi
In London, "The Rocky Horror Show," now well intoits firth season on stage, still packs a full honse into the King's RoadTheatre each night. When the show opened in 1973, everyone from Mici. Jagger to Princess Maxganet went to the science fiction spoof. The show received scones of rave reviews. It was then that London critics named "The Rocky Horror Show" best musical of the year.

Its success in the United Kingdom prompted a profitable nine-month run in Los Angeles and a one montris atay on Broadway. Producer Lou Adler, seeing great economic potential in marketing the show, proceeded to make arrangements for a movie version of the British hit. So the cast returned to England with a 20 th Century Fox Film crew and "The Rocky Horror Picture Show" was borm.

The plot of the story is typical of many classic horror movie themes. One stormy night, not so long ago, Brad Majors and his fiancee Janet Weiss got a flat tire while out for a late night drive in the country. Luclate night they found a castle on that deserted road and approached it in deserted of using the telephone. Instead of encountering the conventional gruesomelooking mad scientist found in most Frankenstein tist fonnd in most Frankenstein Dr. Frank N. Furter at this castle.
Frank N. Furter is not your ordinary evil doctor in black tie and tails. His attire is of a more "casual" nature: high-heels, torn fish-net stockings and: a sequined corset. With today's popularity of the punk rock style of dress, it is worth while to note that with his black leather jacket, whip, and torn, gartered hose, Frank X. Furter pre-dates the
new wavers by a few yeara.
Dr. Furter is about to create a monster. From his Iaboratory that night emerges his creation, Rocky Horror. But instead of having a flat skull, clubbed feet and green complexion, Rocky is young, muscular and blond, which is much to the lik ing of Dr. Furter.
Portraying Dr. Furter is British actor Tima Curzy. Up until the time of "The Rocky Horror Show," Curry was barically a classical repertory acrox with such notable groups as the Royal Shakespeare Company and Glaggow's Citizen's Theatre.
Althongh Rocky Horror's outrageous nature was a change for him, the reason for the show: success must be attributed to the theatrical and mustical talents of Curry. His powerful vocals give substance
style score.
Richard O'Brien, author of the book, music and lyrics of "The Rucky Horror Show?' also portrays Riff Raff, the hunchbacked butler of the Frank Furter home. Barry Bostwick and Susan Sarandon are the unsuspecting Brad and Janet.

Recently, in "Us" Magazine, "The Rocky Horror Picture Show" was reported as a "hit" that was quietly building for 20th Century Fox. "Every large city in the United States is growing its own Hocky Show cult," it said.

The Waverly Theater in Greenwich Village has been show ing "The Flocky Horror Picture Show' twice each week since its release in 1975. In Toronto, Canade, at least one theater a week shows the film to capacity audiences. With the movie playing the collegecircuit this fall, The Rocky Horror following is expected to reach new heights.

\section*{Frank N. Furter and friend}

\section*{Plays present comic contrasts}

\section*{By Chris Negus}

Obscenities fly, egga break and chairs smash as one-act comedies, "Lovers \& Other Strangers" and "Action." invade the Regent Theatre complex Saturday evening at 8 .
plexis production, the firat of the newly re-formed Boar's Head Drama newly re-formed Boar's Head Drama Club,
"Lovers \& Other Strangers," directed by senior directing major Heidi Van De Carr, takes a light-hearted look at the widening generation gap. Divorce and its consequences provide a center for comic controversy.
\(A\) middle-aged couple frantically fight to keep their son and daughter-inlaw's marriage intact. They tell the young married couple to forget thoughts of love, happiness and understanding, and think about what
the neighbors would say.
Completing the bill is "Action," by one of America's foremost contemporary playwrights, Sam Shepard. This absurdist play is directed by Syracuse Stage apprentice Odie Snell.

Action" focuses on four young social outcasts cut off from the outside world. Their time is spent performing perverse antics for each other to vent the frustrations caused by an inability to cope with their ascribed roles in society.

Unlike "Lovers," "Action" relies on maladaptive behavior and violent outbursts rather than whimsical wit to emphasize tragic humor in the American ifesytle.
Next weekend the production moves to Watson Theatre for performances Friday and Saturday nights at 8.

HTLM ON CAMPUS: "The Pictare of Dorian Grey," Kittredge, 7 and 10 p.m. \(\$ 1\)

By Daniel Frank
Whth Halloween close at hand, it seems appropriately macabre to present the 1945 film version or Owcer. Wilde's "The Picture of Dorian Gildey." A guperficial horror tale, with A superficial horror tale, with peychological and moral implications, it is one of the most
fascinating ideas for a story fascinating idean for a story,
ever concocted. But when M-G. Mer concocted. But when M-G M dexided to make a fim of it
they were never sure which they were never sure which theme to concentrate upon. Thus, the film rarely m.

Dorian Crey is a rich. dashingly handsome young man-about-London in 1886. When introduced, he is in the final sitting for his portrait. Upon completion, the painting brings about a gtarting realization in Grey. Confronted with hit image of youthfulness, he wishes to. stay forever young and let the marks of age become part of the painting. becom.
What could have been ironic and tragic on film is handled with stem seriousness by director and writer Albert Lewin. The evil that Grey enacts takes on the air of a mybtery film: The fear that underlies all of Grey's life gives the film an enter. tainingly devious mood. The rather nbsurd clues concerning Egyptian cats and quotes from Omar Khayyam even mix in helpfully. Yet the cryptic mastery surrounding the film isn't enough, considering the audience can foresee, the consequences of Grey's misdeedsions' \({ }^{\prime}\), George Sanders, as Lord Henry Wotton, is meant togive the proceedings some added intellectual importance. The always suave Sanders has lightened up many a film, like his portrayal of theater critic Addison DeWitt in "All About Eve."
Sandera may not add much significance to this tale, but when he philosophizes with such dramatic lines as."When one lases youth, one loses everything." he gives a perfect air of cynicism to the film.
The nif between the firm: themes may have been solved by the casting of a etrong actor in the role of Grey. But the presence of actor Hurd Hat field is undeniably a blunder. He -is youthful and goodlookinis, but the filmmaker look like they meared cold cream on his face and placed cream on his face and placed a ik The 1
The narration that runa through many of Grey's sicenea and supplants his dialogue goes to show the production's faith in Hatfield's ability to act.
It's possible this 酉im could have been more than mediocre if it had made fewer ascrifices to melodrama. As, it is, "The Picture of Dorian Grey" is part of Hollywoodte '40s chemistry for dilutipg good literature.

\section*{By Mike McAlary}

\section*{The new student union}

As a sports writer 1 am often asked to profess my well-thought-out ideotogies on a wide varietyof subjects. Forexample, what do I think of the Bakke case? Do I think that the SSI landing is tair to Long lslanders? i'm asked if 1 think Billy Carter has, a drinking problem, or if I am in favor of "Son of Sam." All these questions are, of course,
mindlessly academic, and because of that it refuse to mindlessly aca
answer them.

1 also refuse to answer them on the grounds that 1 know nothing about them.
What 1 am qualified and ready to write about is Archbold Stadium, something else \(f\), like the administration, know nothing about. Now before you hand this and the paper it's printed on to your puppy to practice. his potty training, let me assure you this is not another stadium melodrama piece.

I'here is, unfortunately, acrucial question which has not been answered in regards to getting a new stadium.
Namely, what do wedo with the old one?'lhat's right, what about crumbling, old, deteriorating, rustic, disgusting, not about crumbling, old, deteriorating, rustic, disgusting

If you will be so kind as to letme offer some well-thoughtout suggestions on what alternatives Archbold has to offer.

For instance, why not put a cover on the top and call it the "Student Union?"

Why not have the Outlaws, Jimmy Breslin and Alex Haley all come there on the same day, and none of us show up*?

Why not use if for extended housing next year?
Why mot have the university send all professors over the age of 65 out to pasture in it?
Why not mail it to the university's other school, Utica College?
Why not put a fancy glass dome (which doesn't leak) on it and call it Newhouse II?
Why not save the county a headache and turn it into \(a\) sewage treatment plant?

Why not let it crumble and move 'l'roy N.Y. into it'?
Why not have the Orange Girls challenge the rest of the campus to a baton dropping marathon it it?
Why not put a roof on it and call it the management school?

Why not let the forestry school grow trees in it?
Why not use it forstanding-room-only crowds at Manley basketball games?

Why not make it into a nuclear plant?
Why not make it into a parking lot so that more people can come see games in it?

Why not have the COM 107 , Keligion 105 and Biology 121 lectures in it?

Why not let grass grow in it an we can hay it?
Why not let SU Security get ready for the "big time" by practicing towing and ticketing cars in it?

Why not have Harry Chapin come sing to save it;
Why not put alleys in it and call it Archi-Howl?
Why not just leave it like it is so people can argue over it and write ridiculous columns like this about it?

In the meantime, why don't we just beat Virginia it it?

The Syracuse Orangerrien will try to be congenial but victorious hosts tomorrow when they fece the Cavaliers of Virginia in Archbold Stadium. Virginia is a weak 1-5-1 this season as the Cave have managed to score only 33 points in 28 quarters of play. \(\mathbf{S U}\). now 2-5, is coming off two toigghtornats to Pann State and Pittsburgh: Game time is \(1: 30\) p.m.

\section*{Orange face Cavaliers}

\section*{Yes, Virginia is a football team \\ "The strength of Virginia is in their defenge,"}

Former pro wide receiver Sonny Kandle left the Virginia coaching staff after the 1975 season. When he departed, UVA's football program appeared in trouble. What is really inprogram appeared in trouble. What is realy incredibl

This is not totally the fault of present head coach Dick Bestwick.
"Our situation has proved to be more difficult than 1 had anticipated it would be," Bestwick said before the season. Five losses (four shutouts) later, it would appear he was right.

The Cavaliers have amassed a total of 33 points this year while compiling a \(1-5-1\) record. Last week they upset Wake Forest \(12-10\) as kicker Kuss Henderson hit four field goals. Henderson was due to have a good game, since
those were the first tield goals he attempted all those

Despite this sorry story, SU coach Frank Maloney is not rubbing his hands in -amticipation of the Cavs. "Fractice this week hes been fair at best," Maloney said. 'The SU coach indicated his team may be emotionally down after tough losses to Pitt and Yenn State. "Fhat bothers me," Maloney added, "because we're not good enough a football team to take anyone lightly:"

But if any team in the Liast is to be taiken lightly, Virginia is a good candidate.

Weak running
The Cava top rusher, tailback Hilly Hariss, has gained 233 yards in 77 attempts for a 3.3 yard average. He has also scored a touchdown, one of three put on the board by.UVA all year.

Maloney explained. "They are better defen sively than some of the teams we've played this year."
But, Maloney indicated, Virginia's defensive secondary is not as good as either Penn State or Hittsburgh. Since the Orange were able to pass well against these two Eastern powers, shouldn't they fill the air with footballs against an apparent doormat like Virginia?

Not necessarily.
"The element of surprise helped us against those two (Hitt and Penn State) and they were also very tough to run against But there is no doubt we will continue to pass the ball.

One potential target could ber running back Art Monk. In last week's close call with Pitt Monk set an SU singlegame record with eight receptions. "He's an excellent receiver and we're trying to take advarztage of his talent.' Maloney said.

Once is not envugh
This will be the second meeting between UVA and Syracuse. The Grange won the first meeting \(37-0\) at Charlottesville in 1975. sU kicker Dave Jacobs scored seven points in that one, and is the only player still on the team who tallied in that game. However, Jacobs also mised the only poitat after touchdown of his SU career in that game.
In last week's upset of Wake Forest, the Cavs were tough defensively and, according to Bestwick, inside linebacker Sam Pfabe played his beat game ever for Virginia. Habe, a threeyear statter, made or assisted in 24 tackles.
Despite a resilient defense, the UVA offense has gained only 1,167 total yards, less than half that gained by their opponents. Starting quarterback Chip Mark has completed 20 of 34 pasees for a total of 231 yards. Eight completions were to split end Greg Taylor for 67 yards. Suffering from an ankie injury in las week's victory, Taylor is a doubtful starter and may be replaced by-Ted Marchibroda, son of the Balkimore Colts head coach.
All things considered, this game could be the easiest Eame for the Orange Bince guessed it - the last game against Virginia.

\section*{Intertwine seeks SA funding to serve entire SU campus from the very start. The}

\section*{By Bruce Levine}
and Cheryl Bernstein
Intertwine, the internationa. Istudent newsmagrazine, is trying to serve the whole campus but says it does not have the budget to do 80 .

At \(\$ 500\) an issue, the publication's \(\$ 1,700\) funding from Student Association and the Graduate Student Organization may be stretched to two issues each semester with the heip of advertising revenues. revenues.

According to Amy Snyder. airt-and advertising manager, there has been no consideration of cutting the \(5,000-\) copy circulation to be more in line with the popuiation of 1;200 international students. When a South African btudent Writes an article, it is for the Americans, not the South Africsint, the explained. "We're trying to serve the whole campus."

The magrazine started as Orange. International newsletter five years ago and it was replaced durin, whon It was rephaced doring the a 1,200 circulation for its firin a 1,200 circulation for itse firm iend of the by the fourth at the and of the epring sernewber, hand prown to 3,000 copries, Snyder 3
 -atsi bloteracime
from ad sales for the first issue, which was distributed last week. Snyder said. She said she hopes to produce \(\$ 75\) in net ad revenues for future issues.
The International Students Association is Intertwine's Assoct source of fundingdirect source to ISA by GisO Money is paid to ISA by GSO and SA. ISA then presents the penses.
penses.
ISA receives \(\$ 2,000\) from GSO and, in turn, gave the magazine \(\$ 500\). The SA allocation of \(\$ 1,200\) was specifically for Intertwine.
"The SA is just not encouraging new publications. The paper needs money now. It does not matter if it is the SA that pays it, but we are hoping for this," said Hemant Pendse, ISA chairman.

Snyder noted that during the uadergraduste student fee hearings last spring some people said they had not even peon the publication. As a result, Intertwine wants to keep a large circulation. "If the magrazine is not seen by magazine is not seen important people (SA inance memberis):" she said;

She said thervis still monney In the turdent fion comting taicy fund which conld tion uged Bots

\section*{MacNiven gives reasons for resignation from SA}

By Marsha Eppolito "I was no longer willing to be a part of a great lie down there (at Student Association)," said Hugh MacNiven former vice president for administrative operations.
MacNiven resigned Thursday.
Citing the lie" as one of his reasona for regigning,
MacNiven added,

\section*{see MacNiven's statement, \\ page 6}
covered up, there's a lot of covering other people's asses down there, there are a lot of people doing very little. I was either going to fight or quit. \({ }^{-1}\) will not cheat the stu dents," MacNiven aaid. "The atmosphere down there is poison. It has been for a while. A lot of mistrust, a lot of doing things behind other people's backs, very little consultation request foradvice from below." He added, "From the very beginning he (SA President bich Crowell) has said openly, 'L will tell you as much as you need to know.' That is not nemething that breeds trust something

There*s a lack of communication and what that means is that there are a lot of people who don't trust each other who aren't speaking to each other. It's been that way
mutual respect and trast which ahould have been there was never implemented." MacNiven said.

Alluding to the lack of Communication, MacNiven said that "most of the positive resultes that Rick Margolius (vice president of student programs) has achieved have been done in spite of Rich Growell.'
MacNiven said he stayed with the Crowell administration because "I felt I could get around the fact that he (Crowell) wasn't giving me much information

\section*{Heferring to the job Crowell \\ Renewal of license sought by WAER convinued on pege min}

\section*{Hy Kevin Haynes}

WAEK-FM, Siyracuse University's student radio station, has until June ito apply for renewal of its broadcasting license with the Federal Communications Commission (FCC).
To obtain a license renewal, the station must prove it has served in the public interest by broadcasting programs that renect the community's needs.

According to Rick Wright, WAEL faculty adviser, the station will receivea renewal package from the FCC shortly. Among the items that must be submitted to the FCC are lists detailing the organization and administration of the station, a composite log for seven days of programaming and exhibits which demonstrate its service to the listening community.
Wright said the FCC has begun "cracking down" on noncommercial stations such as WALK by keeping close tabs to be sure that such stations are folfilling their braodcasting objectives.
He cited the recent case of WXPN.FM in Philadelphia, the stu-
ent dentatation of the University of Pennaylvania, which was Ened \(\$ 2,000\) early last year by the FCC for broadcasting "obscene" and "indecent" language.
Wright said that a station must prepare for renewal from the day it gets its license- "It's an on-going process." he commented. "There's no room for new stations since all available frequency space is occupied." He cited this as the reason for the "crackdown" on non-commercial stations.
has done, MacNiven said, "I can't judge. The job is very nexible. But one job of the president is to give direction to his vice presidents. That I will fault him on. That has not been done."
On the executive branch, MacNiven said, "I haye respect for. two people in the jobs - Bob Valeri (comptro Her) and Rick Margolius. have personal trust in only one, and that's Rick.
"Becauste of the atmosphere down there I felt it wasn't worth it anymore. When I ba-

WAER Promotion Virector Pamela Blake said each licensing process beging with the station taking a survey of its audience to find the 10 most important problems of the community. Then, she sdded. "We must gear our programming to the needs of the publie."
"We find out what they want to hear and prove to the FCC that we do it," she said. She cited current WAER programs "Working Together" (for women) and "Heading Eiast" (for Far-Eagtern students at SUy as examples of "different shows aimed at different audiences.
Ed Levine, WAEK program director, said the problems WAER has attempted to deal with range from the Syracuse educational systern to the economic prablems of the Syracuse area. "But," he said, "il thing AER has more than served its requirements (for license renewal).
Although WA:K has already begun preparing internally for the renewal process, in January or February announcements wiII be made regularly over the air asking for listener comments on WAER's license renewal request.
Approval of that request by the FCC will allow WAER to continue broadcasting at an assigned frequency of 88.3 megahertz (FM) for the next three years.

\section*{Man to face four charges}

\section*{By Drew McKinney}

An arrest warrant for Joseph Epolito, who was involved in an Oct. 23 traffic accident that killed a student at Upatate Medical Center and who had failed to anywer four frafncecharges he received in Iiverpool July 24, was not issued until Oct 12.
According to Liverpool police, Epolito, 21. Fas topped inly 24 and charged with mpeeding: driving an umerietered vehicie, driving a vehicWith :witched plates and driving with a Truerpod Vine

dered to appear in court to answer the four charges Aug. 3. When he failed to appear, his case was delayed until Sept. 14 and Harding's aecretary sent Epolito a letter advising him to appear. When Epolito agrin did not appear in court, a gecond letter was sant to him, rescheduling his case for Oct. 12 and informine Epolito that a bench warrant would be isaued if he failed to whow up.
Haxdins aaid the system of allowing defendent charged with minor violationg, such mpolito, to mils three court appointment

d. Which makes recommen dacions onallocations, 'have a fand us.'

According to Snyder, last year's editor decided at the last minute to put out another issue for it. As a reault he ran papa for it. As a result, he ran up a
\(\$ 500\) deficit and did it "full well knowing" someone else would have to cover the expenise.
She aaid the finance board also feels that most of the foreign students are graduate stidents and therefore lntertwine should look to GisO for funding.
No spokebman from GSO could be reached for comment yeaterday.

\section*{Student examines area parking ordinance \\ pariced cer belongedtor an SU \\ Fidibility of both the driver and \\ effect, and that he has stated}

He wonn Barrown aricing tigns on the streets of Ostrom, Sumner and Livingeton Avenues have been the subject of a atody by a thir-d-year law tudent, who has turned up sore possible contradictions in thoge laws.
The ides of the study came
bout a year ago, when Steve Porten received' a ticket for Porten received a haket for
Porten challenged the ticket
Porten challenged the ticket because no-parking signa are required by the city 300 feet cobart no more than 300 feet apart, and, after meas uring them, Porten found hey were approximately 350 feet apart. The presiding judge refused to isaue a ruling on the signs' legality, but he did excuse Porten from paying the
\(\$ 10\) fine.
The study was conducted for a "LLaw and Society" seminar. Porten's inveatigation showed thít the restriction ion parking on Ostrom Ave. barking on 7 and 6 was originelly the result of a petition the result of a petition presented in 1972 to City MeCarthy by the reaidente of Necarthy by the reardeate of
that street. MrCarthy presented the petition to the presented the petition to the thef figns pomissioner, who had the signs posted.
The area around Ostrom and Livingeton is a favorite place for studients to park, though it is frequently patrolled by police, and cars are consistently ticketed.

Porten, in canvassing the people who park on Ostrom found almost every illegally
student, most of whom felt that they didn't need to paris on or near campus enough to warrant payimg the fee for \(a\) warrant paying the fee for a sticker. ABo, police do not weeks of the school year and Weeks of the achool year, and the lawis nothenvily enforced according to Eorten.

Portem also questioned the neighborhood residents, interviewing one person from each house on Ostrom. He found that the residents. to whom he apoke were almont all either mendents or employees of either atudents or employees of Syracuse University, Two-toone, they felt that the odareven sybtem. of pariang all.

The odd-even parking system requires divers to park their cars on altemate gides of the street, depending on whether the day of the month is odd or even numbered.

Pat Tinto. president of the Southeast University Neighborhood Associstion (SUNA), feels that this tenant opposition to no-parking restrictions is due to the tuminover of ienants and SUNA's inability to inform new temants of their aims and objectives this early in the year.

SUNA supports the no-parking restrictions because Ostrom is a frequently trave lled route for sehoolchildren.

There has been one serious accident on Livingeton Avenue, where a child coming out from between two parked cars was struck by a moving car. The injury of the child might have been prevented had parking restrictions then beer in effect. If they had been. there would not have been cars on the street impairing the the child.
Rinto also said that care park across driveways, and dangerously cloge to top signe. She thinks other neifhborkoods will. follow SUNA in prohibiting parking. Degpite the traffic judge te ling Porten he would have the gituation regarding the placement of the signe looked
nto, nothing was done.
Porten sent a letter to the editor of the Syracuse HeraldAmprican, dated October 16, 1975, axplaining his comp laint. The letter, under the heading "Do We Have Equal Justice?", drew attention to the area involved, nand his previous experience with the judge. The letter asked why the area is so heavily patrolled. and why the commaissioner aad not done anything about the migns.
Ray Storto, the present city commasmonter of traffic, said that he was not in office when

\section*{the restrictions went into \\ UJB hears theft cases}

Two students were placed on' diaciplinary probatian by the University Judicial Board (U. IB) Tuetriay nieht for ahoplifting in the SU bookstore.
U.1B heand four cases, two of which were closed hearings. The fret open case delt with a freshman charged with stealing a \(\$ 1.49\) tube of Clearasil ang a after purchasing several gecurity guards the defendant security guards the

The board adminigtered dis-
ciplinary probation through the student's jumior year The student may continue classes, but if he is, mocuaed of further misconduct he most show cavse to the board why be should not be diamissed from the aniveristy.

od for week, we at Syractuse Univexsity havo the goodir mide to have a distinguished visitias echolar in lnown for his book, The New Science of Politics,"

\section*{Guest comment: John McCombe and Darrell Fasching}
though his most imprestive work is his tive-volume project Order and zistony. \({ }^{\text {"F }}\) His presence is our \(g\) ood fortune becauge heis a man who has wigely auggested that the nmiverwity could beetiberve in the recovery of the moral hife by recovering ite own vocation to a sto dy of -inan in the "classical" seinse.

Ve would like to suggest what this could mean by Etinis a recent isgue of The Chronicle of Higher Education (Oct. 3, 1977). Susain Remneck Parr (profeasor of English at Ithaca (Vollege) reported that students, when confironted with cases of violence and injustice, tended to blame not the individual but the corrtption of society as the problem. She cites as an example of their attitude the incident in-*A Streetcar Named Desire" where Stanley rapes his sister-in-Law Blanche Staniey d wife, Stella, agrees to have Blamehecommitted to an ingane asylam rather than believe that ghe has been raped. Nearly half of Ma Parr's clasa (for two yeara in a row) felt Blanche shou d have been commotted because she was -weird etrange, kooly, and an imconvenience." The decision, they argued, "was purely practical and thus justifiable"

What these atudents evidenced little sense of personal responsibility, tending to blame everything on society, is, we think simply a reflection of an all simply become extensions of society. There remains so inner sense of self as sutonomous from and in ao inner sense of ae as auth in tension with society, without which it is dificult to

Eric Voogetin, win mppear tet daty colleaufin with faculy and atudencs from 3 p.m. to 6 p.m. todary with the religion end ciastics copartmemte in 356 Link. tomorrow. with the political sciences and political phitomophy ctepartments in the Maxwell conference roorn and Wednesciay with the efows cultufal gtudy in the social sciences department in the Miaxwell conferrence room. He will also deniver be saries of public lecturas in Hendricks Chapel at each evening
suggested by her observations is the pervasive co llapee of the innex Iife, tin absence of vocabulary for the experiences of the gelf in the classical sense of "sonl.' or "psyche." These students are simply minroring the society at large in which the individual has lost any sense of uniqueness independent of the world that bhapes him or her. The individual has aimply become "society writ small." If these students blame society it is because it is the only gelf they have.

Eric Voegelin has suggested in his echolarly work nzt the Socratic-Matonic discovery of the soul as the "sernsorium of transcendence" through' which man

Crderred his life on the "umacen measmre" made it possible for man to meparate himalf out from the coIlective order of society ard extrcige his infuence on society: through the art of politics as perpuagion ("Apeitho"). This Socratic-Platonic achievement triade it porsible for man to find another source of authonty upon which to engage in action in tension with the sociai order: This authority was the discovery of the "good" as beyond society but experienced through the inner life, the roul, as the "unween meamure" of man's hivanmity. It vras an experiemco of the thiais theoreticas" the contemplative life, as the root of the intellectanilife. It was the happy conjoining of these intelectaninfe. It was she happy conjoining of uncas
two that made it possible for Plato to invent a language of the soul with its differentiation of the appetitive, opiritual and rational elementa. This appetrave, epritual and rational elementi.
language of the soul, if Voegelin is correct, made the language of the eow, if Voegelin is correct, made the pression in politics, a concern for the grod of the city, pression in politics, a concern for the good of the city, the ordering of the city
"man "man writ large" where
is himself ordered to the "unseen meagure."
Tonay it is an embarrassment to thesophistication of the modern university to have anyone speak of the Iife of the boulinamything other than historical termg antiquated opinion of can from the post (before antiquated opinion of cama from the past (before acience enlightened ts). The cure for oum aitaration is not the invention of another - we are presently drowning in morality - but the recovering of the ininer life as the capacity to suffer; to suffer both the conflict of ininex torment that comes about when the gelf is other than society and must find a way of mediation, and the suffering that comes from being able to imagine the life of the other and participate in it through the depthe of one's own soul. It would mean recovering a different style of life, at once both contemplative and intellectual wherein the life of reason is as much a process of imagination as of ratiocination which could give birth to a new language of the soul. The moral question that academia faces is whether or not to readmit the study of man, in its classical sense, back in the university. T'his readmission could serve to halt the collapse of the inner life and open up the recovery of our humanity

John McC'ombe is dean and Darrell Foshing is assistant dean of Hendricks Chapel.

\section*{A Halloween warning: they move}

This story may strain my credibility as a journalist. The news editor wouldn't take it. The Focus editor laughed:
I snuck it onto this page while the I anuck it onto this page while the you, my doubting reader, dismiss this entire tale as an hallucination, heed these words: don't go out on to the Gquad tonight, they move.

Last year, Halloween night was like last Friday night, and like it will probably be tonight. A heavy fog had

\section*{Tod Porter}
rolled in, obscuring the sharp lines and details of the buildings. They stood like dark giant shadows against the aky with only a few lighted windows pok ing through the darkneses:

I was still among the trees as I walked down from the Mount after a party about 3 a.m. Suddenly, I héard loud cracking and bucking sounds, and the sound of concrete, earth and stcel being separsted.

Then, and my memory aboizt this is clear, I could gee Carnegie Library move a few feet offits foundation, arch upward in the middie, (as if it were
stretching), and settle back. down on

\section*{Text of Hugh MacNiven's resignation statement}

Following is Hugh MacNiven's statement upon his resignation as Student Association vice president of administrative operations.

1 resign my post as vice president for various reasons, both related to the office and very pertonal in nature.

I have watched for a long time now a general contempt for the assembly, its members and its actions by elected and eppointed officials: Lack of serioun concern has at times gone so far as to include honesty and service to the atudent body itself.

Most recently, this can be seen in the presidert's written threat to the credentials committee to take it to the UJB (University Judicial Board) if it didn't gtop an invegtigation
which wras clearly within its jurisadiction.
Aso, tecions, important questions have arisen recentiy as to how well vacious SA oficials have been doing their jobs. For the most part, theise cluanges have been met with countercharges, not aound evidence of effactive work on important isones.
Finally - myself. I nolongex feel that what I get out of SA is in any way commenourate with the time and effort I have to put in. It ism't the recognition from outside that I'm talking about; it's the lack of gratitude - and even acknowledgement - from colleagues within theit's been disappointing.

I just don't feel, with Eraduate school; midterman and classes in my immediate future, that SA and the Crownll administration show enough of a challenge to merit my continued involvement.
anced it - whint I wathethins out of it and whict I Wran pation into it-I wris getion lessprad leas gratification and getting more and more nggravationt? MacNiven maid:
He added, THe reant, pas that the balance shifted \(\mathrm{I}_{\mathrm{m}}\) fally connident 1 havemadiethe. right demision. 1 coveld not lest agnother day.*

\section*{SA program develops}

The Student Association's sponsorship program, which was just an idea earlier this year, is "slowly but surely ecoming more than that.
Letters are now being aent to both' sponsors and students, informing them with whom they have been matched.
Accarding to Scott Klein, SA vice president of university/community relations, the letter extend gratitude to the students and sponsors for theirinvolvernent
in the program,
Although there are not yet enough sponsors for the \(2-1\) student-tomponsor ratio hoper for at the beginning of the program, a letter written by bohn J. Prucha, vice chance llor for academic affairs, and Klein will be mailed next week Klein will be mailed next week to attract moreaponsors. Klein
said he isexpecting an "immesaid he isexpecting an "imme-
diate response," based on the diate response," based on the quick response to th
request for sponsors.

*It is one of the most beautiful cormpensations of this life that no one can sincerely try to help another without helping themselves."

Bouncy, bizarre songs delight enthusiastic fans

7y Sy Montigomery I'm going to aee Dean Friedman Thurwiay night!"
"Oh yeah? What school's he dean or?
Contrary to this popular miaconception, Dean Frie dman is a warm and human singer/composer - a fact amply demonstrated before the enthusiastic crowd at his concert at Jabberwocky last Thuxaday night
The 22 -year-old native New Jersian made hia debut on the pop charts with "Ariel," a light, happy song with a piano bese that makes it hard to listen to sitting still. As his clowing number at the concert, "Ariel" brought on a standing ovation, punctuated: with shouts" of "encorel more, morel" from the crowd.

The bouncy song relatea the story of his love affair with a girl from Paramus Park, filled with the significantly "insignificant detaila" of his first date (ahe ordered onion rings and a pickle at Dairy Queen) and the sights and gounds of New Jersey.
New Jersey and his hometown enter into many of his songs, which sparkle with his personality. "1 come from this funny-looking little town, this funny-looking little town, Paramus." he said before his
first song at the concert. first song at the concert. "Peopl
He opened the concert with "Company," the first song on his debut album, Dean Frie. drrar. Although he delighted fans with many of the songs from his first album ("I May Be Young." "Humor Me," "Woman of Mine" and others), he also had surprises in store from his second album,
which will be released in him, reanarring him that It's February.
Some of them are pretty bizarre. "Kids come in all shapes and sizes," he introduced one such tune, and they're all cute. And i hate
them.
"Baby-Sitter Blues* ahame lesaly proclains the inner wishes which every sitter toys with at least once in a while. If I were a crocodile. .. I'd' take a bite of your ligg. He threatens. If I were a python I'd squeezeyou till you turned three shades of blue, and then I'd never babysit for you, itll never baby-sit for you again.

Another one of his atranger numbers was written "for all you perverts - 1 know there's at least two out there," he anmounced, , he went into a song inviting a (hopefully fictitious) pal to tap dance on my belly, among other things. The refrain weat, You can't hurt me. 'The audience loved it.
Friedman taught himself to play acoustic guitar and piano. Although he admitted guitar is his "main instrument," he often went out of his way to play a piano. In Haltimore, where he boarded in high school, he used to climb through the skylight in the gymnasium in order to practice on the piano there.

Ylaying the piano is when Friedman is most visibly "into" his songs. He's adeptat dancing sitting down, as was seen as he played the electric piano to"Funny papers," from his tirst album. His head all but danced as he played another song about a guy who's really depressed until his furniture starts talking to
gornax be all right.
Friedman's gritar and piano dominate as accompaniments to the songs on his first album. But at the concert he made more use of his excellent backup band, as he plana to do on his tecond album.

Friedman anticipated enjoying himself at Jab, simce he liteg the "warm feeling you get from a small place, the intimacy with the audience." With a college audience "you can do stuff you really can't do" in ather situations. After the requested encore at the end of his last performance he concluded with a warm, bear ded grin, "You can all come back to aur house later.

\section*{Studies haunt some students on Halloween}

By Diane Lesniewiski In America, Halloween has been celebrated since the latter half of the 19th century when lrish immigrants brought customs that originated in the British Isles.
"Trick or treating" has evolved from the lrish custom of begging food for All Hallows Were festivities. Those who were geaerous would have a prosperous year and those who were not would suffer.

Wearing costumes while begging from door to door came from the British. Boys and girls would swap clothes and wear masks as they made their rounds.
Today, young ghosts and goblins roam the streets and ring neighbor's doorbells in the pursuit of candy bars and bubble sum. Costumes are planned days in advance as children compete to see who will be the scariest creature on the block.

But for sorne Syracuse University students, it appears that Halloween will be an uneventiul day. In an informal survey of 30 SU students, 16 said they do not have special plans for Halloween.

Some SU students cannot join in the fun of Halloween due to study schedules."I have six hours of classes next Monday. The house 1 live in buys don't think I'll be at home." said a graduate student. A junior from Lawrinson said he would celebrate Halloween by studying, and would diress up "as a student."

But not.all Syracuse students will spend Halloween studying. Some will go to parties, dress up and get into the spirit of the holiday. Many Halloween parties have been scheduled both on and off campus.
"I got tickets to a Frank Zappa concert in Manhattan. Frank Zappa exemplifies the spirit of Halloween." said a sophomore from Dell Plain.
SU students do not lack creativity. One DellPlain sophomore told of his unique costume. "I'm dressing upasa Gucci pocketbook. I want it to be typical of Syracuse University, to express the feeling of the students that go here."
l was thinking of putting on everything inside out, including my underwear outside my clothes," said a juniór liv. ing at Lehman. A sophomore has decided to attend a Hahas decided to attend a Ha-
Hoween party dressed as Charloween party
lie Chaplin.
Some Syracuse students may not have plans for HaHoween, but children are still excited about the holiday. A librarian at Solvay Elementary school said the children are "very excited.

I'm putting up decorations in the library. I'm also getting treats ready for the trick-ortreaters.
She added that she is also making costumes for her two children. "Une's going to be a pirate." For thesechildren, Hafloween is still an eagerly awaited holiday.

\section*{Skybarn offers programs for SU students, children \\ \section*{Hy larry firant} \\ separate condominium units}

Syracuse University now has a facility that caters to the needs of married students with chindren: Skybarn, on Farm Acre Road on South Campus,
is offering a number of healeh is of fering a number of health
and recreation programs for and recreation programs for
children of \(S U\) students this fachi.
II. For children who are sick or need shots, there is a free clinic the second Monday of every month run by the Unondaga County Health Department. Administered at the Skybarn. the clinic offers medical advice, shots and general checkups for babies up to 2 years old.

For children 5 to 10 years old there is recreation and arts and crafts instruction offered every Friday afternoon. The program includes special events like Easter egr hunts and field trips.
Skybarn, the "student union" of South Campus, is catering to 'juniors, seniors, grad students and married students with children. Skybarn is designed to be a place where the residents of South Campus suburbia can get together. There is a tendency for people to become isolated in their
and it is hoped Skybarn will become the community place. According to Rick Monald, director of Skybarn, usp to this point all its been used for is people doing their wash. The reason for this is that Skybarn is a new facility. and most people are unaware that Skybarn offers more than laundry machines.
Beer is now being served at the snack bar, available fresh on tap and in cases and sixpacks to go. There are also subs, hamburgers, popcorn and all the essentials for a decent dinner or a late-night snack.

Skybarn also offers a cotfeehouse every l'riday night with live entertainment as well as movies shown once a week. There will also be \(a\) special event once a month with live entertainment, refreshments and dancing. Coming up is a dance Saturday, Nov. 12 with the Alligators, a popular Syracuse rock ' \(n\) ' roll group.
Offering a variety of services and entertainment, Skybarn promises to be a major source of unity and fun. It is easy to get there by bus, by car or even by foot, and it is worth the effort.

Frank Maloney reached down and took his wallet off the locker room floor, shoved it back in his pocket and continued with his postgame press conference. Moments later the billfold was once more falten to the floor and, with a perplexed look, Maloney again retrieved it.

The wallet was the Syracuse head coach's second annoyance of the afternoon. For the previous \(21 / 2\) hours, Maloney's Urangemen often had the Cavaliers of Virginia in their pocket, only to have the visitors jump out and cause more trouble.
"l'm just tickled to pull these garnes out," said a relieved Maloney after the 6-3 SU victory-

We had numerous opportunities all afternoon," he added. "But
we weren't sharp all week we weren't sharp all week
(in practice) and we weren't sharp today."

The Orangemen outgained the Cavaliers by nearly 200 yards, 443 to 247. They also had 28 first downs to had difficulty moving the ball in the shadow of the goalposts.
'From the 20 to the 20 -yard ball," Maloney said. "but when we got close we killed ourselves with mistakes."

The first half ended in a (0) tie, with most of the excitement. being generated by the kickerb. and moved to the Virginia 42 , where Dave Jacobs 60 -yard field goal attempt fell just short.

1 should have actually hit it harder, but 1 was concentratthrough," Jacobs said. "As with any soccer-style kicker 1
tend to lose a little distance kicking from the left hash mark, but when 1 hit it 1 thought I had made it
On their second offensive again movin sthe ball, but this time the drive was stopped when Virginia defensive back Berrick Glasper intercepted intended for Bruce Semall, and returned it to the SU 34 .
- Bill (Hurley) was not having one of his best days \({ }^{-M y}\) My performance really came down over what I did the past few weeks," Hurley said. for granted."

The Cavaliers made only six yards in three downs and had to punt. Enter Russ Henderson, the fourth best punter in the nation, who nailed the Orangemen deep in their own territory with a kick that was downed on the SU one-yard line.

Neither team could generate any offensive fireworks on their next series of downs, and the Orancemen back on their 15-yand Itne.

Six plays later SU had marched down to che Virginia 37 but were stilled by another Histake. Arver colliding with Hurley in the backfield, rumn ing back Bob Avery fumbled the ball and the Cavaliers recovered.

There was poor blocking on the play," said Maloney. Their lineman shot right (Avery) got the ball he was After
Orangernen stopping the play on the Cavalier 25 Virginia drove to the SU fouryard line. There Cavaliers' quarterback Chip Mark's pass was intercepted.

Mark had rolled to his right and had running back Tom Vigorito momentarily open in the end zone, but his pass was delivered late and SU defensive back Warren Harvey returned the interception to the returned
\(5 U: 37\).

The Cavaliers received the econd half kickoft and promptly fumbled the ball on heir first play from scrimmage. SUdefensivetackUe Bernie Winters and the cellent opportunity, but could only losedive yards and had to punt.
Un its next series, su went

Syracuse middle guárd ẂWillie McCullough moves to tackle Virginia's Tom Vigorito, whe moves so take the hand off from quarterback Chip Mark. The Orange had little trouble moving the ball against Virginia on Saturday, but had trouble moving the ball into the end zone. (Photo by Bruce Johnaon).

53 yards in 12 plays to the Virginia five-yard line, but the Cavaliers defense rose up on a fourth down play and stopped SU's Jim Sessler short of the soal.

Virginia just doesn't do things. like that," said a shocked Virginia writer.

Southern staff
Virginia could not gain a first down and Henderson's punt was returned 17 yards by Art Monk to the 28 -yard line. The Orangemen moved to the Virginia six, where Jacobs kicked a 24 -yard field goal with \(1: 59\) left in the third quarter to
put SU ahead 3-0.
The Cavaliers struck back with a 42-yard pass play from Mark to fullback Tom Champlin. The Orangemen were caught blitzing on the play, and Champlin inad to be dragged down from behind by Warren Harvey and Larry King. Henderson's 29 -yard fied goal tied the score.
The Orangemen took the ensuing kickoff and marched 68 yards in nine plays (only one a passing attempt) for the winning score. With third down and four on the Virgitia four-yard line, Hurley had

Mike Jones open in the end zone, and a clear path to six points, but hesitated and was sacked for a four-yard loss. Jacobs' 25 -yard field goal was good and SU stayed awake long enough to win \(6-3\).
'It just wasn't an exciting garne, Maloney said
TIM"S TKJVIA - A Parents' Weekend crowd of '20,859 attended Saturday's game. Jacobs made only two of five attempts, but all his misses punter ber 45 yards. Virginia punter Henderson, helped by a boot of 74 yards, averaged 40 yards a kick.

\section*{Neither defense was offensive}

Hy Barry lambergman.
The fact that both teams were wearing orange helmets beemed to have confused many of the players Saturday. Those wearing Syracuse University blue played like they were clan in Virginia uniforms, while the Cavaliers played like Orangemen.

Usually it's Syracuse that plays the part of the underdog. nearly upsetting teams like Penn State and Fittsburgh. But Saturday the Urangemen They were an 18 point favorite against a team that was shut
out in four of its first five out in four of th first five Hames this year. But this time were nearly shut out.
-It was just a lack of
intensity." said coach Frank but we screwed up when we got Maloney. "To stay up especially after our last three. is impossible.
Still, it took the Orangemen nearly three full quarters before they scored even a field goal. Mouchdowns? here were three against fenn state; two against littsburgh. "And then there were none against a team that had given up 181 game.
"We all know the offense is better than that," Maloney said. "It looked like Bill (Hurley) wasn't having one of his better games in the first half, so we games in the irst ham, bo we had to run more. We moved the

\section*{down close.}

Art Monk (89 yards rushing and five catches for 62 yards), who is. becoming a Lydel Mitchell out of the backfield, said, "Virginia played the screen better than Penn State They were more aggressive. Today our passing wasn't going too good, so we were forced to run
And run they did. SU outran Virginia 332 yards to 96 as Bob Avery (106 yards in 19 carries) passed the century mark whle 76 ( 89 yards) and Hurley surprisingly enough, the "air scare" was on the side of the Cave as junior quarterback Chip Mark was 12 of 23 for 151
yards, including a 58 -yard conncction with junior flanker Tom Champlin. But Cay coaen Dick Bestwick said the fact that Champlin was playing
was the key to the loss. was the key to the loss.
"Our regular tilanker is Greg Taylor. He runis a 4.5 forty. Champlin runs it in 4.8. On the 58-yard pass play, that extra speed would have been the difference between being tackled at the eight and a touchdown," Hestwick said.

Anotherkey to the Cav's loss occurred when Mark didn't hit his mark in the gecond quarter in tharren Harvey incerce and goal from the SU four
"Mark just didn't have enough stuff on the ball," Bestwick said. "He threw a rainbow instead of a blue darter."
But defensively the Cavaliers played with true chivalry. This was a great effort against a team that did very well against Penn State and Pittsburgh," Bestwick said. the goal hine were just plain courage.
"We defended well against the things Hurley does well," he continued, "but the real difference in the game today was Monk, because he came up with big third-down plays when they needed them.

As far as rating his defense with Penn State's, Bestwick said, "Today our's was better. It's just that man-to-man, Penn State has all those 'allworld' players.'

I'd rather play 10 games like this," Maloney said, "than 10 like the game againt Penn State: Virginia has a long way to fo as an offensive team, but after what - so through the past three weelch, any win is a greatione asisfar as I'm concermed
But this orporagainat Nowy however, gid Mill have to play

\section*{Cracking down at Bird}

To the editor,
O the editor,
Misuse of Xird Library is at an intolerable level. An announcement of library policy hass been posted throughout the library and with the aid of university Security we intend to enforce it.
The thoughtless, excessive talking is disturbing to the vast majority who are engagred in serious academic work.

Srmoking in unawthorized areas is not only annoying to many people not oniy annoying to many peopie There are areas in Hird where smokThere are areas in Bird where smok ing is permitted. Any gmoking in
other unauehorized areas is in

Violation of New York sitate Law, Shapter 80, Article 13-E, Laws of the State of New York. A copy of this article is posted.

Eating and drimbing cause numerous problems of cleanup and accidental spilling on library materiala- The remaining residue is an invitation to vermin and rodenta.

We ask your cooperation and if it is not, forthcoming, offending persons will be subject to dispersons wimary action. I).
ciplinald (. Anthony Uonald C: Anthony is director of libraries for Syracuse Universily.

\section*{Alumni and students: acknowledging the debt}

To the exditor.
I'here were two letters printed in last Friday'f llaily Urange having lagt Friday daity Orange having
to do with alumni annual giving to to do with alum
the University.
The Unversity. written by the charncellor extending an invitation to alumni tos contribute o their alma mater.

There aliso was thetter from a recent graduate, Nir. F. Alan Buyce. in responit, expresssing various dis satisfactions and explianimg why he will not contribute. Mr. Hoyce con cluded his letter with the senternce, "In the final analysis, it is you who owe us.
I ayree with Mr. Boyce. It is the inculty and administrators of Syracuse University who owe the students and alumani.
It would be possible to take exception to what 1 take to be the tion to what indake to be the intemperance and inaccuracy of
some of Mr. Hoyce's comments, such some of Mr. Hoyce'scomments, such
as his statement that students as as his statement that students as
undergraduates pay in full the costs undergraduates pay in full the costs
of their education. Students, or their parents, do pay very heavily for their education at Syracuse. But do they pay for the difference between tuition income and the yearly budget for the undiversity? No they pay for scholarships'? llo they pay for the buildimgs, laboratory equipment, libraxy materials, etc.
billion dollars? Most of all, how does one calculate "payine" for the dedicated work of research scholars. for the efforts of professors who care deeply about their teaching effectiveness, and for the contributors of stafi who are not in the high income category but who are dedicated to the welfare of the university. Butitis not my purpose here to debate the "facts" that Mr. Hoyce advances to support his conclusion even thourh 1 may question thum, for I agree with his summary that "it is you whoowe us."
Wo owe students and young alumni for their ferce idealism and critical spirit and their unwillingneas to "put up with things
some of us get used to." some of us get used to."
We owe them because they remind us that we must work even harder and avoid the pitfalls of bureaucracy and an impersonal approach.
We owe them because they provide us the opportunity and joy of working with the younge in their education. which task is a delight atthough not always immediately successful, as illustrated by Mr. Boyce's letter.

Michnet (), Suwyer Michaet 0 . Sawyer is vice chancellor for university relations and a professor of political science.

\section*{Film folly}

To the editor
Judging from past performance, 1 think it would bea disaster formovie. fank if UU gets control of campus fans if Uu gets control of campus
ghowings. They have consistently showings. They have consistently
chosen the most pedestrian of chosen the most pedestrian of
"downtown" movies. 99 per cent "downtown" movies, 99 per cent American (so no one will have to read subtitles). If that is what a large number of atuderats want (and I am notat all certain that it is), OK, they can certainly have it. It should not deprive thoge who want to gee something different of the oniy serious series, namely Film Forum, NVS and Nickelodeon.

If a small group of students whose movie interesta run from
"Rollerbail" to "pr, No"controlfim showing, movies on campurs will go the way of WABR.

Winlitam Mangin

Tne the editar. The Uct. 21 issue of the I aily Orange carried an editorial titied "reaching and Ten ure: Studentsare the Experts." 'Ihe purpose of this the Experts.
letter is to react to phat assertion.
etter is to react to that assertion. issues are involved. One is whether issues are involved. One is whether
or not student opinion should inor not student opinion should intluence tenure decisions, and that is
a political issue. Students do have a a political issue. Students do have a
unique perspective on teaching and unique perspective on teaching and However, that isbue is separate from students being experts on teaching effectiveness, the issue I wish to react to here. The intencled effect of the reaction is to create a wareneas of some factors which \(L\) believe the authors of the editorial may have overlooked.

First, acceptance of the assertion that students are experts on teaching effectiveness rests on the asing. efrectiveness rests on the assumption hiat it is a iact inat all
students would agree in their students would agree in their evaluation of any given teacher. Whe evitience to support this fact.
A second factor concerns what is described, by "teaching effec tiveness." is it a person or a performance? Which should it be'? Is a teacher appropriately described as effective much as he might be described as generous? Or is effec tiveness a more appropriate des cription of a performance? Serious
succeed. The DO can perform a
valuable eervice for the community if it sponsors meveral sessions of an institute or workshop or beminar on this subject.
From the response we may learn aleo just how many students really desive to participate in decisions on promotion and tenure
promotion and tenume. Mriedman fulian \(k\). Friedman is a professor of political science at Syracuse University.

Editor's Note The Dally Orarige did not contersd in its Uct 21 editorial that students are experts. on teaching, but rather that they are experts on teaching effectiveness. We thimk it self-evident that if teaching does not conimunicate its message to students it is not effectiveteaching - and no one is better atvare than students of how well that message is communicated.

To the editor,
I firmly believe in the need for authentic atudent input into promotion and tenure decisions. To state it more atrongly, in my opinion it is a duty of atudents to participate actively, intelligently and justly. In deep obliggation to adhere to the canons of academic excellence rather than the rules, of consumerism.
tudente anusory to imagine SU dimension. Where is the evidence of the student expertise that you claim (DO editgrial, Oct 21)? Based on my service as chairpergon of the University Senate Appointments and Promotions Committee, and discusarions at department meetings, I
know that most are not. They, like know that most are not. They, like most faculty, must make an effort to ing if a participatory system is to

\section*{Are students the experts on teaching effectiveness?}

consideration of teaching effec tiveness needs to address these questions. Further, whatever is being described, how can it be recognized? described, how can it be recognized? Without
vague.
A third tactor which affects the acceptability of the assertion is it acceptability of the assertion is it
seems intended to render faculty expeemsince and education of no conseperience and education of no conse in the process of making tenure decisions have considerable postsecondary teaching experience, and some have become competent students of their own teaching. Still other facalty members have taken the stady of teaching to be their profes*ional or academic specialty. Students are not generally found in cither of these groups. It geems unlikely judgments abous teaching unfectiveness could be expert without these perspectives.

Let me conclude wish an observation related to the first issue, which 1 have notaddressed in detail. Even as a nation, we Beem increasingly to seek political solutions for very many problems with littie consideration for whether the source of the problems is politicat. I don't know of any reason for believing that a political action can resolve a problem of teaching excellence.

The Kent State gym: a dissenting voice

The following is a letter sent to the Board of Trustees of Kent State University, Kent, Ohio, Uct. 31.

Dear Sirs,
Contrary to the two resolutions Kent State Athletic Facility passed by the Syracuse University Student Association (as reported by The
Daily Orange Oct. 25,1977 ), I support the action of the Kent State University board of trustees to continue construction of the athletic represents an attempt at constructive improvement of man spiritually. if feel terminating the construction would defeat the basic
purpose of the Kent State protests: to stop destruction of man, i.e. the VietWar.
Unfortunately, the situation at Kent State became violent; a town Was ransacked, rocks were thrown,
buildings seized, guns fired and, as in most acts of violence, innocent people were the victims. "Violenceis the last refuge of the incompetent facility would provide opportunities for individuals to better themselves, to strive towards competence" to avert violence. The facility will be a dynamic action instead of a static memory of past violence. What better memorial dynamic action to better man? Linda Proctor
lines
Cowardice, as distinguished from panic, is almost always simply a lack of ability to suspend the functioning of the imagination.

Me? Survive? Ma.. Im doing just fine.

Eric Voegelin:

Bric Voegelin, we would venture, is a name not known to many Syracuse University students. The 76 -year-old scholar is a leading proponent and neglected discipline: classical studies.

That title is sure to conjure up sicenes of bearded Greek men discussing the
good life around a crumbling temple or,
perhaps, a laürel-crowned Homan emperor, wrapped in a snow-white toga, strolling through the halls of his ormate palace, sipping from a wine goblet and reading esoteric poetry:

The ancients, some have come to beliove, have nothing to teach us. They are from an age long passed which knew nothing of organizational
management techniques, the use of

video typesetters, recent advancements in civil engineering or the uss of machines in the pulp paper industry. We have concerned our universities with how to move society. but we have lost track of the in-
divid uals who must move within that society.

Students come to universities seeking professional training and universities reply by shifting resources away from the pursuit of knowledge of be filled beyond capacity and our communications achool may be one of the most popular in the country, but there are only four professors in the classics department - and that means something is wrong.

The reason most frequently cited for lack of intereat in classics - and arts and siciences in general-is that there are no jobs in the field. No one is asking students to devote their hives to clascharacter of humans who lived before us can add a new dimension to the in dividual with a professional education.
new dimension than while Voegelin is on campus. Tonight in Hendricks Chapel Voegelin will lecture on "The Truth of Vision" in Hendricks Chapel. Wednesday he will speak on "The
Beginning and Beyond"at 8 p.m. in the same building.

The visit of such a respected scholar is an invitation for the university to study itself. More significantly, it is an invitation for each individual to listen the value of each of our lives.

One other thing can be learned from Voegelin's visit. This well-known intellectual, who some. Syracuse faculty members have hailed as one of old. This means, though his visit is touted as a major academic event, that due to SU's policy of mandatory retirement at 65 policy he could not
teach here. If Chancellor Egers, Vice teach here. If Chancellor Eggers, Vice of the university community would care to explain the wisdom of that policy to us, we would be happy to listen.

\section*{Proet 4} Workshop offers

We want to provide a place for minority women on campus to come together." says Evelyn Walker about the new minority affairs workshops. (Photo by Aotin Lazarus)

thernsel ves, and people they feel comfortable with.

Every effort is made to help participants feel comfortable. Sessions are well thought out and plamned in advance. Both Walker and Hines agree that they have no problems getting participants to open up.
They are really in touch with their feelings, it's just that, until now, there's been no appropriate place to air them," says Hines.
Participants are asked to keep confidential who they see and what they hear. at the workshop. They can discuss what they may have learned but all participants agree no to discuss others opinions or experiences.
Immediate feedback on the success of the seasion is furnished by an evaluation conducted at the close of each session. This is an ex periment.". Hines explains "We want to know if weare filling people's needs, or what areas we are lacking in."
If the program continues to be successful and if it is desired, the workshop may be repeated, or could even move into the dorms by next into the corms by next In addition to providing emotional support inemotional sompporion is exchanged. "We wamt to dispell the myths and misconceptions: and give out concrete facts,: says WalkerThere are a lot of adjustments There are a lot of adack women must make. Walker explains
that while most bleck women grew up in urban areas, the available jobs are in somaller communities with faper blacks and, pechape, more discrimination.
*We can't solve every problem," says Walker, "but We can give guidelines." Hines points out, "We can show hem how to take responsibility for their actions and give them the insight to solve their problems. It should be pointed out than the people attending the workshops do not have unusual problems. *Mont people go through college with questions that are never andwered," says Walker. "and the problema of minorities are doubled." The seriousness of the problem is illustrated by the sharp rise in the number of suicides among black professional women. Part of this rise s due to their incteasing nurnbers. but it also reffects he pressures placed on profesional black women entering the job market.
Workshop sessions. meet every other Sunday afternoon from 3 to 5 p.m. at the Cuitural Center, 104 Walnut Flace. Remaining topies include Interperbonas Nelationbhips" Nov 6-*以ine On ships, Nov. 6: Wre on One interpersonal Kelationships between Black Nernales and

\section*{Continued trom poge one}
of the study is to see if urban forests can be manarged to reduce energy consumption. We want to discover the relationship between urban forests and planning and then manipulate it:" he said.
Uf special interest to Syracuse are studies being conducted on the diseases of the elm and the maple.

In the past 15 to 20 years the American elm has beert almost completely eliminated from the Northeast
Gerald Lanier and Hobert Silverstein received a \(\$ 44,000\) crant for basic research on Dutch elm disease from the Univergity of Minnesota.
"We have succeeded in isolatiag the pheromone (sexunat attractant) of the elmbark tisease fungus. This allowg wa to trap the beetle on oversized fly-paper traps-we Wrap around the tree. We are also investipating the use of in-
jected fungicides to make the tree immune," Lanier said.

While elms were being owept from Euclid Avenne and dying all along the elm shaded walks of Syracuse University in the late 'bus, the maple suffered too
Fredrick Valentine, in company with Paul Manion and Hobert Wextall, received a grant of \(\$ 1 \$, 500\) to study "Establishment of Urban Tree Progeny Teat Yopulations - A Hase for Breeding Norway and Sugar Maple."
"Hhe mortality rate of the sugar maple doubled during the anme time the elm was being eliminated. In this study we are selecting genetically superior trees trom urban areas in the same climatic range as Syracuste

We then hope to produce nursery stock better adapted to harsh city conditions. This is estential if street trees are to continue as prominent features of the urban landscape," Valentine said.

Away from his lov̈er crid all that theyhave.
they have After this Hobin immediately follows with "New York Country Song," a sof-rock number that gets the crowd ctapping and which describes Upstate New York, where Hobin has lived most of his life.

And just like the feeling of satis faction Montcrieff and Fowler fel While performing their eong. Hobin musical performer. Whether the

\section*{'I've got what I want. I have what}

\section*{is important. My family, my friends}

\section*{and my music, this is what matters:}

The hall rings as the guitarist replies with a high-pitched laugh. The instruments are all tuned, the oound has been monitored and the lights are accurately aimed. The five musicians climb into position and make last-minute adjustments. Hobin etands in the middle of the atage but nolonger appears so mildmannered.
"My name is Todd Hobin," he Gays sharply."And this is the Todd hand lannches And with that. che that many recognize.
With the addition of the band, the circles in the hall change. Like a chemical catalyst, the band bas upset the stability of the scene. Tall girls lead boys by the hands to the dance floor. Some stand motionlesdyy by theatage anif deep in thought. They look like they are watching a fixhbowl, atudying every movement the door stop lissing lonk enough to dance, both making forced sensmal movernenta along with the music. They all want to belong to the community of the dancef.
After less than an hour. the room is buzzing. Hobin is jumping up and down on the stage, his face becoming more exprestive coaring and ahaping the words. Monterieff exhibits an evil grin on a choir boy face at the height of the gaitar molo.
Drumener Shawn Hobin is imDrisomed by a cage of microphone
crowd is listening quiety or dancing in a frenzy, they are moved by the power of his words and his music. There is a part of Todd Hobin in veryone in the hall.
The dance goes into its fourth hour. More beer, more far-away amiles, more aweaty facea. The band is preparing for the final push. Hy now most of the dancing has topped as the crowd faces the stege clapping their hands. Directly following a Jethro Tull favorite, the band breaks into "I Hate You,"their best known original song.
The crowd sings back. "I Hate You" in unison with the band and Hobin and Monterieff give their most apirited guitar solo. In one acrobatic leap, Hobin cuts off the final chord and the band climbs down, exhausted, excited, ready to meet the fans who want to talk.
They are waiting. Hrom the boys who want to hear of the value of the amplifiers to the girla wha have the potential of authentic groupies someday, the band mits and talks. Toweling off, they listen and answer questions.
The boys ohate their hands and the girls kiss them goodbye. When the students return to their friends. everyone will want to know what the Todd Hobin Band zaid. The students walk out of the hall knowing that for a night they will be heroes. Hobin changen quickly, maken

money the band makes. He speaks of how one member of the road crew was arrested and had to be bailed A girl asks if he has ever missed a concert. He tells of a night two years ago when he and Montcrieff were wagon on their way to 1969 Chry station fagon on their way to a job in Buffalo. As they were nearing the aipport they suddenly felt the rear half of the car drop down. The rear axle had broken. As the axle collapsed, the right wheel came off and the car burst into flames,
"It was like a Joe Mannix acene," Hobin tells them.
Abandoning the equipment in the back seat, the two musicians ran. The car was a total loss. Hobin and Montcrieff stood by as they watched their guitars and other instruments burn.
"We were half an hour late, but we played that gig," he says with unmistakable pride. "We had to borrow another band's instruments but we were on stage that night""
"There was one other job I missed," he says. "It was when I was in the delivery room hospital helping to deliver Shana.
As the rapport builds, as the

But when we play, it's a feeling of making someone have a good time; to smile and see someone smile back. It's so much better than what you usually see.
Perhaps Desnoyers sees it in the most concrete terms.
"We'd be kidding if we didn't say much of the motivation is in the chance for advancement. I would rather drive a truck than teach geventh-grade music, but when you do something over and over it gets boring. The answer is not to take yourself so seriously.
The pay is marginal, the energy demands exhausting and the uncertainty great. Life is full of rejections from record companies as the band tries to land a national recording contract. The band's future depends on producing the single hit that convinces the promoters that their music, is

I want to give it 100 per cent and say that I tried my hardest.'
Hobin, though, seems somehow detached from this. The hype and dhe adherence to another man's standards only affect him as far as he needs money to live. He does not seem anxious to leave his present life. Unlike so many other aspiring musicians, he is not living in limbo, waiting to be thrust into some better life. He talks about how heis happy with his life and everything about him. His consiatency, his even temperament, his instinet to trust the right people, seem to indicate he is telling the truth
"I've got what I want," he says. "I have what is important. My family, have what is importank My family, what matters."

Nevertheless, as a musician, he wants to bring his music to more and more people and is always making

Later that night, Hobin and his wife relax at home. He takes Shana for a walk and shops for his wife. After a couple of hours he walks into his garage to begin a rehearsal with is group.
While the other members do not share Hobin's unflinching optimism about the rock band scene, a strong consistency of values comes through.

Montcrieff, who majored in trumpet at Potsdam, talks about an episode in college when the conducting teacher verbally assaulted him in front of the class trying to make an example of him. "There was no justice in this," he said.
But is there justice in the volatile world of pop music where success is based on so much more than talent?
"Yes, because i get personal
"Yes, because I get personal rewards by playing every night."
Shawn Hobin, with a personality combining some pessimism with outgoing sensitivity speaks.
"I enjoy this more than anything I have ever done." he says in his resonant voice. "When you pass people on the streets, you catch their eye and they look away. There's such garbage on their faces.

\section*{'Now I've got to go jump around}
like a crazy man."
marketable. And that single comes from establishing a distinctive from establishing a distinctive musical style. On Hobin's desk are letters from recording companies replies. "Sorry. That's not it. Try replies.;
What do they want?
What do they want? says, and half-kidding half Shawn says, and half-kidding, half-serious, There are long van rides between cities and there is anxious waiting. Dinner is a roast beef and lettuce sandwich in one hand while trying to stay on the right side of Route 81 . Mis the glamorous life of finding a Midingal \(s\) open after a concert and attendant at the toll booths. The exattendant at the toll booths. The excitement of performance is always shadowed by the drone of a repetitive rock beat.
up their philosophy Montcrieff sums up their philosophy.
plans, always tooking to be bigger. And a major recording contract and national recognition goes along with the hobin plan. In a cool, shrewd way, Hobin has not lost sight of the goal of every little boy who wants to be the best at what he does.
"My band is exceptional," he says. "We have three guitarists who could play lead in any band. We have two keyboard players. We have four lead vocalists. Our community right down to our road crew is thoroughly professional.
Welding his thumb and fay," he says. holding his thumb and forefinger a quarter inch apart. "I'm ready. Our time has come.'

Editors' note: The Todd Hobin Band will appear Friday night on thesUcampusat Drumlins Country
Clubat 9 . C'lub at 9 .

\section*{University information's got your number}

Hy Ellen seebold
-1nfo! Dellphain Main Desk'? That's a piece of cake!" Sound familiar? Such are the bits of wit uttered by the Syracuse Dniversity iniormation operators. Deep in the catacombs of Sins Hall, among huge heating pipes operators sit by their phones anxiousily operators sit by their phones anxiousiy
awaiting demands for every and any
telephone number on campus.
elephone number on campuas.
Most of the night-shift operators are students on work-study. They spend 10 to 20 hours a week, usually in four hour shifts, sitting at their desks with huge circular racks of sheets with telephone numbers that they flip through as if buying a poster.

The setting may be dull but the job never is. When the littie lights blink (ringing would drive the operators crazy) they answer the phone and never know what to expect. One male caller sang a complete version of "You Are the Sunshine of My Life." Another woman called and proceeded to seriously , proposition one of the operators complete with description of herself and phone number.

They have been asked for instrue. tions on how to tie shoes, whether school is cancelled or not. the area of a circle, the tirne and the weather. They have received calls from England. Spain and irate mothers. Une mother called at irate mothers. called at 8 a.m. for her daughters number who happened to ive in Haven. Arter being given the number the lady called back screamink ald the operators because a ruy answered the phone.

Haven is one of the most requested numbers, along with security, the menu tape and the events tape. The operators al ways know where the noo parties are because people constantly request the number for that floor. They know all the popular girls too.

Otten someone will call and say. Can 1 have a number?'"'l'he answer in
"Sure," then the operator proceeda to apout off any old number, the peraon of there's a footbaill game. Hookies call
from all over the country for apdates on the score.
The operators say they are sick of rude people and they are sick of being asked for off-campus numbers.

"Sounde like a job for MaHell" means "call city information."
Speaking of poptilar numbers, the operators have their own tpecial awards. "Often the Nerd Award is hard to tive out becanse there are no many," mayba nameless operator. The biggest awards are the Sweetie Pie Voice Award and the Henrietta Smallworth Award, yet the criteria for winning these remain known only to the, operators.
While the operators may often complain about the people who call in, every once in a while the operators alip up. Once operator Tony Rizzo picked up the phone after some complicated philosophy reading and answered with the last words he'd read - "Existence of God."

\section*{University} to students: drop deadline

Friday is the last day to drop a regular course without a recorded regular course
studaw grade.
Students who drop a courge before Nov. 4 will not have that course Written on their record. After the deadline, dropped coursen will be Listed on the record as either a "Wis" or "Wl" (withdraw-pass or
withdraw-fail) or a "WD"* (withdraw-no credit), depending on the individuat college policy.

Since the last day for tuition refund for a dropped course was September 30 , no more refunds will be given for courses dropped.

\section*{Native Americans protest stereotypes}

By Brian O'Neili
"Why do Indiana have to be symbola? Why can't they just be? I'm not a symbol. Getitout of there?"
"It" is the Lamba Chi Alpha "Indian" who dances at SU football and baskethall games. Danny Honyoust made the atatement at a meeting of Native American students in a Boland Hall room last night. The students, members of a Native American group, Onkwehonwneha (ong-wa-ho: wa-na-ha) want the "Indian" dance to be abolished. They see itas perpetuating a derogatory it as perpetu
stereotype.
He just paints his face and jumps around on the field," aid one disgusted member-
The group is stillin its beginning. stages. Any Native American on campus is automatically considered a member of the group.
Onkwehonwneha hopes to recruit more Native Americans to SU , to institute native studies course, and to give Native Americans a place to go on campus.
Although only eight su students attended the meeting; "the unofficial secretary"" Wendy Huff, said 15 Native Americans have expressed an interest in the group. Onkwehonwneha presently has the names of 22 students, and will soon have a computer printout of the entire population.
Itwo representatives of the group, Gerry Muskrat, a visiting law professor from the University of Oklahoma, and Judy Maggesto, a third-year SU law student, met with Vice President for Student Affairs, Melvin Mounts recently to discuss the Saltine Warrior as a symbol of Syracuse University.
According to Muskrat. Mounts wanted to know whether the group objected to the symbol itself; or the way the Indian was portrayed at how an Indian symbol could be how an indian symbol couta be used in a dignified and authen-
tic manner, and no one wanted tic manner, and no one wanted, to be thought of as a
noble" or otherwise. concern that the university would try to find a token Native American on the Onondaga reservation and one in the university who would not find the symbol offensive. Dave Watterman volunteered
to sound out the Unondagans to sound out the Unondagans and said he was confident that he could get "very influential upport" from thern.
Doug George said an Onkwehonwneha budget committee will haveits SA funding requests decided within a week. He estimated they would ask for between \(\$ 3,000\) and of this would be allotted for guest speakers. Cieorge also had hopes of organizing a two-

\section*{Restoration} talk slated

Home - reptir frestoration and rehabilitation will be discusised Thuraday by Dick Paccone of Plant Build, Ince, anonprofit architectnral Group, and Depertrient of Erilditice and Property Condervation. or three-day session on the Native American culture, featuring speakers and films. Onkwehonwneha has no of ficers". Watterman said, because in the Native American culture everyone is on the same level. SA requires a funded group to have a a funded group to have a group will appoint one, but the members were careful to ex plain that this would be merely plain that this would be merely a figurehead position to appease SA.
Amecruitment of Native Americans to SU was given a high priority by the group. Watterman said the Higher Education Upportunity Program (HEOP) was not doing its job in bringing in Native Americans, and was concentrating on the blacks and the Hispanics in the inner city rather than on Indians on the reservation. Although he had no official figures, Watterman claimed that HEOP has broughtinonly two or three American Indians in the last four years.
Huff noted that SU is in an ideallocation for the American Indian student, ds it is located between several reservations. Among them are the Clattaraugus (Seneca) to the west the Saint Regis (Mohawk) to the north and the Unondaga. Six high school students from the Onondaga reservation were at the meeting.
Onkwehonwneha would like a Native American, Giadys Little Bear, to get the position of minority counselor in the Uffice of Minority Affairs. 'This, it is felt, would aid in both recruitment and in keeping the American Inctian at SU, the group said.
Watterman, an SU lacrosse player, said he has known mayer, Native Arnericans here on lacrosse scholarships who went home to their reservations on the weekends reservations on the weekends interest to them at SU. Conseinterest to them at su. Consequentiy, many of them neglected their studies, lost
interest in school, and dropped inter out.
If it receives enough funding, Unkwehonwneha will organize dances and other social events for the Native American students. It hopes that these and cultural eventa will not only keep the students on campus, but will attract new students as well.
A previous Native American group, Native Americans at 514 , had a \(\$ 645\) budget in 1975 , but it folded after that year.

Honyoust, who wrote the bylaws for that group, said the group disbanded because of apathy among the members.

A tree grows in Syracuse
This \(\mathbf{1 8}\)-foot litte-leaf linden tree was planted yesterday near Hendricks Chapel in memory of Francis \(A\). Wingate, former vice president and treasurer of the university, who died March 7 at the age of 67

Chancellor Melvin A. Eggers was accompanied by Chancellor Emeritus William P. Tolfey (far Iaft) at the dedication ceremony.

\section*{Season ends \\ SU club team puts sticks aside}

\section*{By Audrey H. Lipford}

The 1977 Syracuse University women's field hockey season is done, but certainly not forgotten.
Though Muriel Smith's troops did not make this year's atate tournament, they closed their 7-242 season with strong victories against the University of Buffalo and SUNY Oswego, a tie with Mohawk Valley and a commendable performance at Oneonta. We challenged them as much as they challenged us, Coach
Smith said of the \(1-0\) Oneonta loss. The team played well, she added, and 'it was a good, even game.
Oneonta was a crucial step in the ladder to the tournament, and the Orangewomen travelled to Oneonta in top form,
determined to win. The loss (an Oneontagoal scored in the lagt determined to win. The loss (an Uneonta goal scored in the last two minutes. of the game) was a disappointment, but SU took York State. Onconta was seeded seventh in the state cournament.
Along with the club's impressive showing at Oneonta, Smith was enthusiastic about the team's \(6-0\) trouncing of the Urange displayed excellent teamwork. Bcoring five goals in the tirst half alone.

It was pretty to watch." Smith said. "The good field allowed for some good drives, which opened the kame up."

Senior Betsy Altmeter, in her final SU game, played particularly well against Huffalo, driving through three defenve opponents for a score-
Betay showed some fancy stickwork." Smith said. "She'e unbelievable to watch - she can do some marvelous things with flat field.
Five of Altmeter's team members followed her example, making life rather unpleasant for the suffalo goalie: genior Heidi Mahler, sophomores Kegina "Kocky" Watson and Mary Beth Kusso, freshman Cathy Cohen and junior Claire Belser, Belseris
the team's all-time high scorer, boasting 10 goals for the \(77+7 \%\) season.

Field problems hindered SU's game at Mohawk Valley.
"It wasn't the greatest game in the world "'Smith said of the tie (i-1) match. They Mohawk. Valley) didn't want to play on their lield, so we played on a high school field. "The grass had been cut. but it wasn't raked.:
Such obstructions stow the movement of the ball, preventing long drives. "This stops a Rame from being spread out." Smith suid.
Smith also noted that her club's home fietd, in fromt of the Women's Building. is ofter "too lumpy.

It's hard to gain control on a lumpy fjeld. especially for the more skilltul people, she added.
Oswego sported a smooth, well-clipped diry field, and the Urangewomen reaponded with a atrong i3-1 victory.
The state Selection Committee seeds the top seven tearns in the state tournament according to strength, with the eighth position going to the host team or the tournament. Could SU ever be the site for a state tournament?
"With one good field, we could run the toumament." Smith said. "You need two fields - at least one mood one - to hold thes tournament." Smith added that the lawrinson field, once her clubls home playing tield, could be used as a second field should sU be the host of such a tournament. A future posssibility?

\section*{Were anking." Smith said.}

After losing just one senior starter tograduation, Couch Sirnith optimistic about next season. would think the team would stronger." she said.

Athough uninvited to the New York State collegiake tournament members of the SU women's field hockey team (in whitel were pleasad with the outcome of their measeon. The stiekwomen figished the year with a strong \(7-2-2\) record. (Photo by Karen Kitganal)

\section*{X-country team gets sidetracked}
"Whey were very fired up, they came to run and they stuck it to 18 pretty good.
So said Dick Fisher. Syracuse's assiatant cross-country coach, on the 2i3-34 defeat East Stroudsberg handed the Orange last Saturday at Drumlins.
Despite the loss, Fisher expressed satisaction with the times of his rumners.

All things considered we ran pretty good." Fisher said. "Our top three runners didn't run too badly but our funners at the end were weak because of our injury problems.
Sophomore Brian TYippany, was the top Orange rumner, finighing fourth and running the course in \(28-20\), only a few seconds offthis best time on the course.
Sophomore Jerry Joselyn finished sixth in
\(28-23\), beating his previous best time at Urumbins by 15 seconds. Freshman Mike Gayers ran his best time on the courae, finishing geventh in 28:40. Janiors John Buckley and Ken Heinrich finished ninth and 1zth respectively, in times of \(23: 53\) and \(29: 30\).
The team, now \(3-3\) on the season, closes its season this. Saturday against the Greater Hochester Track Club.
Fisher evaluated the year. "lit's never a good season when you're 3-8," he said. "We've been Laking onr lumps and the gays are pretty down about it but we'll bounce back from it next year.
"The runners are looking forward to the end of the segson so they can take a well-demerved break afioer a tough steasion," he added.

The break will be short. though, as indoor track practice begins soon.

\section*{New tenant under Manley dome}

Hy Gienoff Hapbsorn
The Syracuse University basketball team will helpbaptize newly renovated Manley Field House when they host the first toumament in their history on Dee. 2 and 3 .
The toumament, called the Carrier Classic, is sponsored by the Carrier Corp. of Syracuse and will feature the Orange tranked as high as 10th nationally in some preseaton polls), LeMoyne, Hhode

Island and Michigan State.
We felt the tournament was a good idea mainly because it gave us the opportunity to gehedule two more horne games and to attract quality competition to Syracuse," said Joe Szombathy, assistant to SU athletic director Les Dye and director of the tournament.

Everyone involved in the tournament is working very hard to make this a classy classic." Szombathy said. "We have signed a threeyear contract with Carrier and we are looking for this to become an annual thing.
On Friday, Vec 2, Syracuse will open play at 7 p.m. against Lemoyne, while at 9 p.m. Rhode Island and Michigan State will take the floor.
The losers will play the following night at 7 , while the championship will start at 9 .

Our ultimate goal is to attract a national power such as a UCLA or Notre Dame," Szombathy said.

It is very commonplace to host a, tournament nowadays," Dye said. "I believe it will have a great imo pact on the team, the commanity and theinstitution and we are fortunate to have a 8ponsox such as Carrier so supportive.
SU basketball conch Jim Boeheim . is also: looking forwiard to the tournamient.
"The major thing about the tournament is it is another positive step in the expantion af our prgap in and it will lume competitive teams here;" Boeheing said.
Boeheim thinks the competition of the 77 ellasmic in bough and he caet 7 majap perohnive eye, particulariy, Ptite 1 Skite.

They have four starters returning and they also haye the top high-school player in the country from last year in Ervin Johnson from Detroit." Hoeheim said. "They are going to be a major factor in the Big Ten race and 1 feel they can beat anyone in the country."
Rhode laland and LeMoyne are not to be taken lightly either, according to the secondyear coach.

Hhode Laland has Sly Williarms, one of the top guards in the East, and they always have a fine club," Boeheim said. *Even though LeMoyne is a small school, they have played against Livision I teams before.
Hoeheim thinks the Carrier will play an important role in SU's season.
"If we do well in the tourney. 1 think it could set a tone and be a major key to pur season," he said.
Co-captain Marty Byrnea hopes the Orange can braak their tournament drought in the Carier.

We haven't won a coumament eince I've been here and, aince we have onily loat twice in the last, three years at Manley, we've got a
good chance in it, Byrnes said
"It's albo nice not having to travel far, away for a tournament and I know the fans and community will sup port us all the way," he added.
All ticketa for tho tournament are reserved, evep for activity atadenter, although thoy will not be able to greti in with their athletic cands But perhiaps Job Sgoribathy zumaned it up bett when \(b\) satid, Whe fans will eoe Kine

Severe Syracuse weather has caused the mortar holding up Ben Shahn's Sacco and Vanzetti mural to crack, Susan Blackney, an art conservator from the West Lake Studio, Skaneateles, makesa close analysis of the mortar holding up the artwork on the side of HBC. If Blackney's effort fails to preserve the mosaic. there are thoughts of enciosing it in glass. (Photo by Bob Wickiay)

\section*{MacNiven: SA officials considered vote fraud}

By David Abernethy
Four Student Association officials agreed to release a fraudulent vote count in last spring's referendum on constitutional reform, according to Hugh MacNiven, former SA vice president for administrative operations, who resigned Thursday.

MacNiven said he was not sure if the suggestion was made seriously, but there was sufficient doubt in his mind to cause him to remove the ballots and take them to the offices of The Daily Orange to be recounted.
MacNiven made the comments on WAER's Orange Perspective show last night.

MacNiven said he told Rich Crowell, SA president, Bob Valeri, comptroller, Paula Stowell, vice president for academicaffairs, and Brian Spector, then special adviser to the president, that the original count on the referendum was in error, and the five per cent voter turnout required to validate the election had not been reached. MacNiven said one of the four suggested the incorrect count which was three votes over the five per cent required, be certified with fraudulent ballots, though MacNiven refused to identify the individual. The others then agreed to the suggestion, he said.
MacNiven said during the broadeast that he took the ballots to the offices of the \(\mathrm{DO}, 1101 \mathrm{E}\). Adams St., where he recounted them with the assistance of Jim Naughton, \(D\) O editorin chicf, Irwin Fisch, news editor, and Tod Porter, then production manager.
Naughton said Kichard Schiefer, then assistant copy editor, and Howard Mansfield. managing editor, also participated in the counting. Bruce Levine, assistant news editor, was prosent worling on the election story.

MacNiven said the original discrepancy in the vote total, which was released at a press conference, was discovered by a Daily Orange reporter who informed him the count was incorrect.
Stowell said the comment was made by Spector, adding that it was made "in a spirit of extreme joking. I would never have gone along with it," she said.
"Hugh was taking that much too seriously," Stowell added.
"I don't remember back to last semester," Spector said. "I'm not trying to hide guilt, I really couldn't give a shit about saying it.
"I don't remember if I was even there," he added.
Spector told The Daily Orange later last night he was present but did not remember if he made the suggestion. "If I said something like that it was said completely in jest," he said, adding he thought MacNiven was "disappointed" that the turnout was insufficient and that might have caused him to take jesting comments seriously.
Crowell said it was not seriously suggested that a fraudulent count by certified. "I think it was made in the line of jest,' he said.
Headded, "You have to remember at this time Hugh was not in very good shape. He was very disappointed, very low. He consumed three sixpacks of beer that evening."

MacNiven said of Crowell's comments, "I won't even grace that kind of comment with a response."

Valeri, asked if MacNiven had drunk three six-packs of beer, said "of course not." Valexi saw MacNiven at the SA building after the counting error was discovered.
corthus on perered.

\section*{Grade inflation slows in past three years}

By Tod Porter
In 1968 a liberal arts senior with a 3.2 grade average at Syracuse University would have been graduated cum laude and in the top 10 per cent of his class.
A liberal arts senior graduating from Syracuse this year with a 3.2 average would not be graduated with honors and would probably not be in the top fifth of his class.
No one hriows what grades think \(C\) is a failing gradeand a B is satisfactory" said. T. William Hall, director of the university's Honors Program.:
A poll of SU Arts and
half thought grade inflation a steady rise in the ayerage grade - wras a problem in that college.-Howevar, the poll and other gigns suggest that grade inflation may have leveled off. Fifty : of the 351 permanent full-time : Arta and Sciences faculty members were polled. Many professors said they thought gradea had stayed the same in the last three years.
The-poll, which was taken from April' 22 to 27 , asked, "In the last three years to you think the average grade has: risen, declined or stayed the same?
Thirty-two per cent of the facuity gid grades had risen, 10 per cent said grades had
declined, 34 per cent aaid they
stayed the same and 20 per cent eaid they didn't know per
Only six per cent of the professors contacted refused to aniswer questions. The sampling error of the poll, which was done by random telephone interviews; is representative of the Arts and Science faculty within 12 per cent.
The percentage of Arts and Sciences students with. straight As was the same the last two fall semeaters - 1.9 per cent. In 1973 and 1974 the percentage of students with perfect averages in the fall reached a peak of 2.4 per cent. The Dean's List has also held relatively steady the last
three years. After hitting a
peak in 1971 , when 43.5 per peak in 1971 , when 43.5 per
cent of all liberal art students cent of all liberal art atudents made the Dean's List, the perc cent in the fall of 1973 .
In 1974 the requirements for making the Dean's List were
raised from a 3.0 grade
average to a 3.4 average. In the fall of \(1974,17.3\) per cent of the liberal arts students made the list, 15.3 per cent made it in 1975 and 17 per cent were on the list in the fall of 1976. The requirements for graduation cum laude were also raised. comtinued on pepefour

\section*{Letters to the editor}

\section*{AEPS: decline but not fall}

To the editor
Sharing the DO's interest in reporting as fully and accurately as possible on the academic programs of the university, I want to command the DO on their interest and to correct some inaccursciesin the Oct. 21 issue in its article titled "AksS observes loss of students."
The decline in enrolled students is real, but its interpretation is difficult. (Incidentally, the number of students we teach, in contrast to students we teach, in contrasined those we enrol, has remained remarkably constant over the hast five years.) Some of the decine probably is the result of student
worries about getting a job; professional programs at SU and elsewhere seem to promise more than do the liberal arts and aciences in this regard. But some of the
decline is an artifact of SU'e counting methods as policies have changed over the years. The DU mentinoed two examples, but the details were not quite correct. Stated accurately and briefly: bocial work majors once "counted" for four years in A\&S, but now "count" in the School of Social Work for two of the four; elementary education etudents once "counted" for two years in ABes, but now "count" all four years in education.
Gne final point: contrary to a statement in phe article, we have added several majors in recent added several majors in recent
years, including majors in what the years, including majors in what the 1OU described as "new areas of study."

Kemneth I. Gusdrich
Kenneth H.Goodrich is dean of the College of Arts and Sciences.

\section*{Kent State University:}

\section*{condemned to death}

To the editer.
Every time I read the words Kent State University on the pages of the Daily Orange, 1 am disgusted over the support the students of this university have given the groups university have given the groups blocking the construction of a gymnasium on the site of the student killings.
1 attender Kent State for a sernester last year and found it to be a institution condemned to death by the events of one spring afternoon some \(71 / 2\) years ago.

The arguments given by those who wish to build asym in Kent are almost exactly the arguments fiven by the people who wish to build a football stadium here at Syracuse.

The sight of the proposed Kent gym, next to the Taylor Arts building, is ideal for a sports arena.
But more important is that every ounce of support given to the antigym groups is helping them nail the coffin on Kent State even tighter. Every time these groups make the media, the chances of Kent returnmedia, the chances of Kent returnreduced. preshooting statuocate forgetting reduced. Ido not advocate forgetting the events of May 4,1970 , but as one
whose seen the effects years later. would wish the incident put behind \(\mathrm{us}_{\mathrm{i}}\)
The first time 1 passed the memoriat to the four people who died, 1 realized that it was not a memorial to four protesters of the

Vietnam War. Rather, it in a grave fite of a large educational body doomed to die.
The building of the myms on that site will not erase the memory of the four dead people, but it would provide a necespary facility to a gchool trying to fametion normally. Making the gite anational historical site would only do the school even

\section*{Painful putdowns}

Tot the edition
For the past three years, i have read the 10 and taken most of what was written there with the proverbial "graim of sait." However, proverbial graim of salt However, the, editorial Generalizations that are ever-present, especially those about the student body and stadent apathy, are annoying and gross exaggerations to say the least. A case in paint was the editorial in the Gct. 25 issue: "Gietting involved: For Your F'uture's Sake.
The people 1 have met at \(S U\) are not people in a "plastic bubble." I will admit that these people are concerned with parsing an course or what to do on the weekend, but these are not the driving forces of their lives.

The people I've met at SU are concerned with being happy. They are concerned with matinig the mont of the four years they spend here. and enjoying it'as well.
The type of student which your The type of student which your
editorial staff gesms to feelis an *ineditorial staff seemsto feelis an "inn-
volved" stadent is the atereotypical volved" student is the atereotypical "student of the '60s." The DU staff implies that an involved student body is a student body which behaves as one unit. Wake up, DU!

\section*{Tradition and the contemporary challenge}

Uuring the last year, I've written and talked so minch about the most and Education that I must work hard to neither parrot myself nor gtrain to say something different and distort what I believe. Now that I've confested those worries; P'll add this confesaion that is sure to please some colleagues and students and annoy others: The most cents and annoy others; The most conportant aspects of our school are connected with the cultivation of

\section*{Guest Comment: Burton Blatt}

That's the concern, but why we engage in one area of investigation rather than another or why a professor writes a certain book rather than another has to do with the sense of urgency and concern felt here about the fate of this world. Therefore, perhaps I ghould say
something about some of the ways in something about some of the ways in which the School of. Education is dition to contemporary challenges
We sponsor a number of important larger community, some of these serv.

\section*{Burton Blatt}
and as primary commanity resoncees, developed. as to attract mational interest. Examples of such involvements include: the Learning Place, an open integrated achool for typical children as well as those with very special needs; Skytop-on-Campua; a special needs; sisytop-on-Campus, a puniversity and the city, serving chidren whose needs are such that they require individualized programs in a require individualized programs in a carefuly desigmed special school environment, with eventual return to
regular schools and ciasses; awardregular schools and classes; awardWinning Teaching Centers are located in the Syracuse city schools and the Jamesvilie-DeWitt and West Genesee school districts; Teacher Corps, a federally sponsored program designed to prepare pre-service and in-Bervice teachers for work in trban educational programs; Gebbie Clinic, a multidisciplinary program which includes a communicative disorders: clinic, peychoeducational clinic, and a prograrn for infants with special needs. In terms of our energies and resources, the School of Education has invested heavily. in training and research efforts that seek to prepare society to change in important ways For example, the Center on Human Fo licy is now internationally respected for its work on deinstitutionalization its efforts on behalf of parents and other consumers, of educational and mental health services, and for its leadership in supporting legislation that would offer more equitable opportunities to the handicapped. The School of Education supports other programs on civic literacy, community education, human service planning and dissemination of technical and other pror
education.
Our school is becoming increasingly involved in collaborations with involved in collaborations with developing nations. Led by efforts in
the area of instructional technology, the area of instructional techmology, are bringing systems for educating large numbers of people to nations that are now just beginning to do something about widespread illiteracy.

\section*{The midterm drop trap}

The course is great, a real chalienge. Maybe too much of a challenge, in fact, as demonstrated by the midterm. You're not taking it for a grade, but you have to pass it. The midterm Monday will determine your chances.
The course is horrendous, but required. You've suffered through two months of agony to get it over with one semester in advance. You'vegot to get a \(B\) to keep up your average; right now you'vegot a D. It all rests on the midterm, and results come back Tuesday.

But the last chance to drop a course is this Friday.
The option of dropping a course was created so students could save their ailing grade point averages. If grades fail below the student (or parent) tolerance level, the course can be dropped. The main indicator of grade standing is the midterm - in many cases, the only indicator, and thus a major criterion for many students who are considering dropping a course. But many students don't have this criterion to go on.
While the deadline for dropping a course is Friday, midterm exam schedules linger on for weeks afterward. And results are.even slower in coming back. Many students have to second-guess their chances for a decent grade to make their decision. If they guess wrong, they're either stuck with a course they can't handle or minus a potential learning experience, ymming scared from the threat of a bad grade.
There are two same and simple alternatives to this situation. Either: midterm exams should be given and graded earlier, or the course-drop deadline should be pushed back later. In either case, a policy should be instated and followed so that the former always precede the latter.
Dropping - or retaining - a course is an important decision. Students need definite evidence to base it on.

Sy Montgonery for The Daily Orange

\section*{The Daily Orange}

Use of the Saltine Werrior as a mtascot for Syracuse Univeraity has resulted in protest from some native Ameriean students.

\section*{A question of pride}

To the editor,
It is that time of year again. We are struggling: as have countless numbers before us, through another academic year. It is a year similar to previous ones with exams, parties and a losing footbali team, yet one thing has begun to distinguish this one from the rest - pride! Despite a \(2-5\) football squad, no one is prouder of its team than the student body at Syracuse University and I'm sure that come basketball season there will be an excitement never ex perienced here before. But amid all of this furor, there stands a lone of this furor, there stands a lone ngure, the Syracuse indian, and is being attacked as a social injus is be

After reading the letter, "A Cry for Wignity." which appeared in last Wednesday's Daily Orange, my hopes and expectations of the SU "Indian" have been shattered. In front of my very eyes I am told that our mascot is nothing more than a tomahawk-wielding, bloodthirsty animal, undeserving of human respect. 'Ho top it off, the letter wa written by some of our fellow Native American studenta. It's too bad that the Native Americam's opinion of their own heritage is not the same as
We see our "Indian" as an

\section*{Ad-op's resignation regrets}
"'o the editor
The administrative operations committee wishes to express its regret at the untimely resignation of Vice President Hugh MacNiven. His leadership will be sorely missed by this committee. We recognize the basic policy differences between the current administration and Hugh, We will continue the same activist policy which Hugh MacNiven pursued.
We congratulate Hugh on the fine job he did while in office. It is unforturate that justly deserved recogrition occurred only when something went awry. SA is
indebted to him for the manmer in

\section*{Representing disadvantaged}

To the editor,
It is unfortunate that the Bakke case in particular was "chosen" to represent all cases of reverse disCrimination in the Supreme Court. Although Bakke as an individual
may have been unfairly treated by may have been unfairly treated by gituation is not representative of the real paradox of reverse discrimination.
Rita Greenwald Clancy was born in Russia, to Nazi concentration camp enrvivors. fer family emigrated to the United States when Ghe was 14, where ahe had to learn English from television and "Nancy Drawi" books. Shortly after her family's arrival in the United States, her father, who had been an accountant, had to undergo brain surtery and was no longer able to
work after the operation. Her family
which he conducted this fall's assembly elections, for his help with the recent credentials committee hearings, and in general, for the exemplary was in which he conducted this committee.
- We strongly urge the new vice president be chosen from the current membership of the administrative operations committee, preferably someone with at least a semester's experience in SA, and not interested experience in SA, and notint

\section*{Nowember 21977}

\section*{}
from 32 to 3.4 in 1976. Lowell E. Davis, associate in academic affairs, said he thought stadianta were in larke part respongible for
in grade inflatiom.
\({ }^{-T n}\) In their individual efforts in talling to professors, to colleagues, they had an effect. They atsked why ghould they work harder for a grade when they knew other tudents were not working hard and getting good marks," Davis said.
"My impression is that there is a minor backlash againet the upveard trend, "said Maniel S. Willett, assistant dean of the College of Arts and Sciences. "I know we have held steady with the number of people on probation (less than a 2.0 grade average) the last few years. It has held about the same 20 per cent.'

Syracuse's problems with grade inflation are not unique According to 1974 articles in Time and Newsweek magazine, grades have risen dramatically at some of the nation's most prestigious universities.
- In 1961 about half of the seniors at Harvard College seniors at Harvard College
graduated. with homors. In 197482 per cent received cum laude (honors) or better.

At Yale, 42 per cent or all undergraduate grades were Ans and 46 per cent of the wenior class graduated with honors in 1973.
- The average grade at the University of Wiscomsin rose from \(\mathrm{C}^{+}\)to \(\mathrm{B}+\) between \(196 ;\) and 1974 .
- Stanford undergraduates had an average of 3.4 out of 4.0 in 1974.
Grade inflation may aleo have begun to stop nationally. In 197643 per cent of all undergraduate grades at Yale were As, only a one per cent rise from 1973.
7he poll also indicated that professors in the humanities añ social sciances departments thought grade infiation was more of a problem than faculty teaching the natural sciences.
The poll asked, "In' your department doyon think grade infation is: a serious probiem, a moderately serious problem or not a problem?
Of the professors in natural science departments, five per cent said there was a serious problem, 19 per cent said moderately sevions, 67 percent said there was not a problem and 10 per cent gaid they didn't know.

The angwers of the faculty
are anpported by a report by the Axts and Sciences dean's office. The report ahows grades in arean like economics and tine arts rose faster than grades in chemistry or mathematics.
In 196313.5 per cent of the grades given by the economics grades given by the economics
department wrere As. By 1971 24.8 per cent of all economics 24.8 per cent of
grades wrere As.
rades were As
In the fine arts department 11 per cent of all graden were As in 1968. By 1971 the percentage of As jumped to 34.3 per cent.
The largest jump in grades of all, bowever, came in the political science department. From 196s to 1971 the percentage of An rome from 23.0 per cent- to 46.9 per cent.
In the chemistry department the percentage of As fell. In 196824.4 per cent of the grades were As while in 1971 the percentage of As was 22.8 .
The percentage of As rose from 25.6 to 30.4 between 1958 and 1471 in the mathematics department.
The poll of Arta and Sciences faculty also asked professors which prade they professors Which Grade they gave most
often. IWenty per cent of the often. IWenty per cent of the natural sciences faculty said cent said they gave an equal
number of Beand (ie and 45 per cent faid they arave moatly per
Seven per cent of the humamicien and sociat mociencet faculty said they gave mostly As, \(2 s\) per cent and they gave mostly \(1 \mathrm{Be}, 28\) per cent said they gave an equal number of He and Cs and 38 per cent baid they gave moatly An

An equal number of professors in both caterories (five) baid they taught graduate students, which pughes the level of grades higher.

You never give al \(F\) or 13 to a graduate atudent." one economics professor said. "C"is practically a failing grade for them and they get very upset pver it."
Most professors and writers trace the beginning of grade inflation to the 1960 s. "I rather think the infiation of grades came about during the student protests in the 1960 a when the protests in the 190 and when the runnimg the college and were basically anti-egtabliohment basically anced some teachers to let ther grade themencher: taid Hall.
Willett said he thought career pressures and changes career pressures and changes facuity and stuclents" had
tome effect. Hetarid profeumort nome effect. Hepaid profesport may -have" become "lless
judgmental." judgmental.
. 1974 Newroweek articie commented, "It was then (the Chas, many profeamors admit, that they atarted to sive higher grades than their Btudents deserved for-fear that low marics might drop them out of school - and into the jungles of Vietnam. It was then, too, that many colleges adopted pass-fail systems under which students could opt for traditional grades, neutral evaluationa or both."

Students from schools with non-traditional grading, however, sometimes had di ficulty after graduation
"We"ve had a few cabea where the kids lived up to their ideals and got kicked in the teeth by thegraduate schools," said an assigtant dean at Colorado College, where all courses can betaken pass-fail. Yale ran into a similar problem when it changed the traditional grading syetem by dropping the firom public transcript for four yeara.

A 1976. Newsweek article reported, "Jaroslave Helilcan, dean of the Yale Giraduate School, discovered that Yale transcripte had become less credible among his colleagres at comparable schools, since all of them knew that Yale failures aimply were not listed."
In addition, a faculty report noted, "The ipresent sygtem han produced the absurd situation in which a failing grade (since it was not recorded) is more desirable than a \(D\) or even a C:*

While some non-traditional grading eystem are im* practca, 'acmaniatratora, ink they should eolve the problem by telling the faculty to change by teing the zaculty to change its grading habits.
-Saying that grade inflation is a problem is saying that some of those Erades are wrong and no one can say that except the profesisor," Willett said.
"We adjust to it by raising the requirements for the Dean's List, by our honors program, by raísing our level of expectations," he said.
Davis said, "The central administration cinnot tell a facuity member 'you're going too far; there's grade inflation, cut it short." That is an infringement of academic freedom."

While Davis said he thought grade inflation was over and grades are on their way down. Hall warned, "I think in time what it means is that we"d have to get rid of the entive hrading gyztem. If everybody got As it wouldn't help angbody."

George Will wrote in a - bmary 1976 : iatur of February: 1976: iasue of Newswresis that acadennic life mary come to tesemble the the Dodo to Alied in Womperdand.

Court sets tentative date for SU parking suit trial
}

By Walecia-Konrad and Claudia Estelle A tentative court date of Nov. 21 has been set for Syracuse University to defend itself against a lawsuit brought by a student charging that SU has no right to ticket or tow cars on campus.
However, that date may be However,
changed. Birnbacich, a secondyear law student representing himself in the dispute, said because he is serving Tamblin's Garage, 4101 S. Salina St., with a summons for towing his car Sept. 13, the court date may be set back in order to give Tamblin's adequate time to prepare its case. Tamblin's will be served a summons "first thing in the morning," Birnbach said.
Birnbach made his remarks before the Pre-Law Society Monday night.
Birnbach said,
have a thood chance to wink if I hargue the case as it is and behave in a .professional manner.
H. Dean Heberlig, of the Syracuse law firm Hond, Schoeneck and King, is defen-
ding Syracuse University. They (Bond, Schoeneck and King) are not overly impresaive in their legal skilla, Birnbach said. "We both have access to the same laws and law books."
When one student asked if Birnbach was aware that the university may never have lost a case, Birnbach replied. "I've never lost a case either.
"The only way 1 would ever settle out of court," he commented, "is if, SU stops towing cars away.
One of Birnbach's. main defenses is his opinion that ooly the state has the right to levy fines. He also contends that towing cars from campus without the owner's knowledge and at his expense is a violation of thedueprocess laws.

The university argues that once a student registers, he is in effect signing a contract with SU agreeing to abide by its rules and regulations, Heberlig said.
In the universiy's pamphlet on parking rules, SU "reserves the right to have the vehicle of any person physically

\section*{Seminar gets budget approval \\ Minority Leader John J. Rhodes, and journalists such as Martin Agronsky of the Public Broadcasting Service. Schmidt said the program has lost money in only three has lost money in only three years of its 20 -year existence. "In the long run it has been a profitable program," he said. \\ "lhe program has a good reputation in Washington,: Schmidt Edded: "It's' very rewarding to be invited back year after year by people we have interviewed, and the experience it provides students is" invaluable Many of our students get jobs working in Washington after they graduate based on the contacts they've made during the
course. course." \\ The continuation of Political Science 401, "Washington Seminar," received tentative approval yesterday at the Summer Sessions budget hearing. \\ The final decision, scheduled for Nov. 15, is subject to the approval from Dean Guthrie S. Bickbead of the Maxwell Graduate School of Citizenship and Public AfManwaring of Summer Sessions. \\ The program, sponsored by the Maxwell school under the supervision of Karl M. losing university funding due \\ to waning student enrollment the past few years. \\ "We try to get about 20 to 30 students every summer," said Schraidt, "but last summer only 17 students went." \\ Seminar members spend three weeks of the summer under an intensive interview schedule with top Washington administration officials, congressmen and media praduate students are eligible to apply, regardless of their major or school of enrollment. \\ Officials who have been interviewed in recent years include former Treasury Secretary William E. Simon, Sen. Hubert Humphrey, House}
removed (TOWED) from its campuses at the owner's excampus
pensez Birnbach said he couid encounter problems with his suit counter problems with his suit if it continued into next
semester and the university
refused to let him register for refused to let him register for classes in January due to his outstanding debts for the traf fic tickets. He said if SU brought suit to prevent him from registering, he believed a judge would accept his petition for a delay since his present case would be pending. But; he noted, if the judge does not accept this, and he is forced to pay the fines, his suit against the university could be ruled moot by the court.
Birnbach also gaid he would eventually like to sue the Educational Testing Service, which writes the Scholastic Aptitude Test (SAT), the Achievement Tests, the American College Test (ACT) and the Law Scholastic Aptitude Test (LSAT). "They have a monopoly on people's livelihood," Birnbach said. "They make up exams and think they can determine what intelligence is."

\section*{SU graffiti really tells it like it-is}

By Wendy d. Sherman suppose someone wrote an orientation booklet describing Syracuse University as it really is. Don't laugh, auch a brochure exists. Entries for this work were submitted by actual university students. However, they've yet to find a publisher, so their articies remain strewn across campus - in bathrooms, on walls, on roofs and on staircases. The budget allows only chalk charcoal and crayon entries. Charcoal anticlea are scratched on wooden bannisters.
because of their crude appearance, an overzealous psychology ranajor once labeled these articles "graffiti." How could anyone call Marijuana the smart man's smoke' mere graffiti! Clearly, thege articles are meant to clarify current SU traditions.

Though the brochure lacks: binding, revisions have already been made. "Life is a bitch," one. slogan says. Beneath it, a contributor added, "no, she's only a tease." Still another portion reads \(\because\) Life is but a poor represen tation of the cinema." So what is life? Editors will have to is cife? this point before publication.

The booklet also contains academic building des criptions. Bewildered students wondering about the. Hall of Languages find comfort in: "I was here/ but now I'm gone, I left my name to carry on Those who use it, use it well/ Those who don't can go to H1," Who
For the lonely, homesick freshmen, one stanza reads, "Yea you, for only \(\$ 5\), you can be recognized! Feeling frien dless\% Give us your nsme name of your beat friend and fometown and we'll have complete stranger act like he. knows you.

\section*{Cadavers teach students in Gross Anatomy class}

The room is emall－about half the size of a basketball court．Inside there are some 40 tables；with something covered by a red vinyl sheet retting on each one．

Even though the student has prepared himself and knows exactly what it is heisgoing to do，he may still be apprehensive as he walks into the room and atands before one of the tables．
The student is a first－year medical atudent taking a course called Gross Anatomv，Under the red cover lies a humana cadaver，which he must dissect．
＇For me，it＇s an eerie feeling．．．．it＇s kind of like sacred，＂says first－year med student John Fragola．＂I thought Jeez，what if it was me？＂＂
＇ragola．worgt thing is taking off the cover；＇said another medical student，recalling his first ex－ periences in the class．
Students are prepared for the dissection by be－ ing shown a film which explains the procedure． They come to class equipped owith tools，a disee－ ting manual and Grant＇s Atias．

Four students are assigned to each cadaver． They have class five days a wreek．and spend about three hours a day in dissection．
＂Sometimes it gets very hard to go to lab，＂ says Fragola．＂I try to think of it as just an en－ tity．Some people think of it as just a piece of meat．

Freshman med student bill Faloom felt that he，and the majority of the students，were ready to deal with the dissecting of a human cadaver． －It doesn＇t bother me，＂he says．＂I was sort of prepared for it．＂

The impersonalization of dissecting what was once a living，breathing human being，who had friends and a personality of his own is something that may upset a student．

It＇s not a matter of dealing with death，＂ex－ plains Fragola．＂It＇s the impersonalization．

The actual cutting doesn＇\(t\) bother you，but the fact that it was a person at one time．＂
Students may learn the age and cauge of denth of the cadaver that they are working on， but the identity is never revealed．Sometimes students will coin their own names for the
cadaver，such as＂Herbie＂or＂Harry＂or，for the more literary minded，＂Yevteshenko．
Dr．Camillo A．Benzel，abacciate professor of the anatomy department at Upstate Medical Center，suggested that students are＂covering for a basic fear in naming cadavers．A couple just can＇t cope with death．＂
Faloom disagrees，and thinks that the nam－ ing of cadavers has something to do with rejec－ ting the impersonalization of the whole thing． ＂At one time it was just like ine＂，he says，and feels that in naming it＂you give itsome human characteristics．＂
One rule in handling the cadavers is that it is strictly forbidden to take cadavers，or any portion of them，outside the classroom．The potential for pranks that could occur is endless－
Dr．Benzel says that there is an emphasis on decorum in the handling of cadavers，a respect for what the person was and for the fact that he had donated his body for use by the students．
According to Vr．Benzel，there has been a shortage of cadavers for medical students to work with in recent years．Formerly，unclaimed bodies nt the morgue had been the main source of corpses，but the supply has dwindled，and now the anatomy department must depend almost solely on．donations．
Once the initial period of nervousness on the part of students has passed，they begin to loosen up and，as one student auggested，＂become im－ mune to it．＂
Occasionally，an otherwise dull class may be enlivened by such scenes as the discovery of two cadavers lying side by side，holding hands．A perhaps not so innocuous prank is when a person determined to put a new twiston the old fake handshake routine does－with a fake hand！ Although working with dead patients as op posed to living ones may not be the most pleasant thought for a future doctor，it does have certain advantages．For one thing，＂there s no backtalk，＂said one student．
Putting aside the macabre feelings that the use of human cadavera may cause，it should be recognized that people who donate their bodies to medicine are aetually helping in the training of future doctors．

Eric Voegelin

\section*{Visiting scholar talks on knowledge, technology}

Hy 1)avid Okun
To Eric Voegelin, society today is filled with an enormous expanse of knowledge, the ma jority of which is accepted but not digested. A concern with technology has profoundly affected the lifestyles in both the United States and other non-totalitarian societies.

Voegelin, a distinguished scholar and world renowned political philosopher, spoke Monday night to about 60 persons in Hendricks Chapel about "Ihe Truth of Heason."

In the first of a series of evening lectures, the former Harvard, Bennington and Uni versity of Alabama professor stressed the importance of "wondering." Only by asking questions and professing an honest desire to know can man
realize and escape his state of ignorance, Voegelin said.

Stressing Aristotle's description of the contemplative life of reason, "bios theoritikos," Voegelin discarded limited procedures which make rational investigations all but impossible. Citing anciety as the refusal of the life of reason Voegelin urged turning backward to the reason, Voegelin urged turning backward to the phasizing these writings according to Voaseling these whinge, accinding boegel in feelinge that common today bating the foeings that com ,
Voegelin will conclude his. threeday symposium tonight. His discussion, entitled "The Beginning and The Beyond," will take place at 8 p.m. in Hendricks Chapel.

had been guaranteed for 30 days at \(\$ 8,887,125\) to
\(\$ 9,915,756\) Whether that \(\$ 9,915,756\). Whether that period could be extended to the requested 90 days is dependent on how much the price would rise.
"SU threw us a bit of a curve." said Charles J. Gallaghan Jr. of Bellante, Clauss, Nolan, Miller and partners architectural firm of Scranton, Fa. Callaghan agid he was not told public funding
was being sought by the was being sought by the university, but his company
would work with the plan in would work with the \(p\)
whatever form it takes.
Callaghan added that if the plan involves SU constructing a stadium and Onondaga County building access roads and a sewagesysterns, it would be an acceptably "logical be an acceptably.
He said such a division is similar to that made in construction of Giants Stadium in New of Giante his firm constructed.

Ryan explained that although the Briscoe plan included widening Skytop Road and opening an access road to Interstate 81, only the state can build exit and access rampe.
"Ramps and bridges are what cost the money," noted Ryan. They are ten times more expensive to build than equivalent lengths of regular highway, he said.
But unlike the university, Ryan would like the public's financial involvement in the stadium construction to end there.
\({ }^{4}\) I'd like the university to take the ball and run with it and build the stadium." He was skeptical, however, that if the commission delays its the commission delays its produce the \(\$ 4\) million to \(\$ 5\) produce the \(\$ 4\) million to \(\$ 5\) million backing it has promised.
If the university builds the stadium alone, said Kyan, it could do "a very adequate job.

\section*{Avery, Hurley and Monk-- Syracuse triple option threat}

Although most of SU's memorabie plays this season have been through the ait, the Orangeman have also amerged with an improssive runnimg attack of ate. Directing the charge, as atways. is Oranga quarterback Bill Huriey (center) who
mates had even more success. Bob Avery (idfi) raared for 106 yerds in 19 carrias and Art Monk (right) was 12 for 89 . SU will probably nead all ite running and passing when it travets to Anriapolis. Ma. Saturday to face Mavy. (Photos by John Tamer (left) and \#ruce Johnson (middle and zight)).

\section*{The Syracuse icemen club returneth}

\section*{6y Alian Frtedau}

Next week, the Syracuse University Hockey Club begins its woth teason. The defending kinger lakeg begins its erh season. The detending rimger lakes
Collegiate Hockey League (FUHL) champs held Cryouts last, week in preparation for the season opener tryouts last, week in preparation forthe season opener
against St. John Fisher in hochester on Sunday.
About 50 students laced theix skates in an attermpt
to make the final cut of 21 players, according to Jeft to make the tinal cut of 21 players, according to Jeti
Harris. Also one of the team's defensemen, Hamis isHarris. Also one of the team's defensemen, Harfisis-
wearing another title this year, that of FCHL president.
However, Hafris will relinquish coaching choreshe heid last year. Leading the team this winter is alohn Gioodman, a resident of Manlius, whose son Peter plays on the club. Goodman is president of the Midstate Youth Hockey Association and is the regional head of the Amateur Hockey Association of the United States.
He is coaching SU in his spare time without pay. He (Goodman) is the biggest asset we will have this year," Harris said. "He's doing this on his own because he wants to aee hockey become a varsity sport at Syracuse.

Goodman will have a wealtin of retuming talent to work with. Back from last year's championshipelub
is the tirst line of jumior right wing Hardy Green and seniors Mill Giruber and Neil Kovanat.
The team captain, Kovnat, is switching to center atter playing the right side last year. The second unit will teature returning center Mike Mc' 1 igue between left winger Dave Moser and Mete Goodman.
Last season's playoff MVY. Vic DiMaria, is the only player clefinitely alated for the third line \(s 0\) far, according to Harris. Others batiling for spots are Peter Lyon and new sophomores Jimmy Richmond and Blaise Scioli.
The Orange are solid on defense as Harris joins returning sophomore Ken heiff to form one defensive pait. The other twosome features jumior Larry Lubonty and hard-hitcing Van Bockus. Shoring up the SU backliners this winter will be sophomore transfer Peter Bliven. Bliven played Division II NCAA hockey at New England College in New Hampahire last year. "Oux defense will be the strongest part of our game" Hatris axaid.
Manning the nets will be Haul Merrell, one of only four seniors on the club. Merrell will be entering his third season in the su cage. Challenging Merrell will be sophomore sob Ghani.
the team is slated to play 17 games, though Harris is trying to schedule more. The Urangewill face each
team in the FCHL twice on a homeand-home basis. FCHL members include Hobart. Colgate JV. Hamilton JV, LeMoyne, SUNY Binghameon, and Broome Community College.
After the opener at St . John Fisher, SU will face another exhibition opponent; Niagara, at home on Nov. 9 . This and other homen matchom will be held at the New York State Fairgrounds Colisewm off lnterstate 81 in Solvay. But Harris is in the midist of further negotiations to secure use of the War Memorial for home garnes.

One tentative diate has been scheduled. Lec. 15 ggainst Hobart. lce time at the War Memorial could become more available, since the Syracuse slazers and the North Americain Hockey League are no longer in operation due to financial problems.

The SU skaters get their finances from their own pockets, Student Association and Club Sports Association. According to Marris, the players pitch in about 40 per cent of the cost of running the ciub.
However, the biggest price the players are paying at the moment is that of nounding into shape. "Ony coach (Goodman) is stressing conditioning right skating game against most teams, which requires good conditioning.

\section*{SPDRTSHDRTS}

Friday is the last day to sign up for the intramural handbail tournament. Interested persons should go to Archbold Gym'sintramural office to register for the tournament.

Today is the last day to try out for the women's varsity basketball team. Any interested SU women should report to Gym 3 of the Women's Building today at 4 p.m. For further information call the Women's Athletic Uffice at 42:3-250

Nov. 11 is the last day to aign up for the intramural individual wregtling tournament. All interested persons ohould sign up for the tournament at Archbold Gym's intramural office. For more information call Chris Cordes at 4780450 .

The women's volleyball team will be in action tomorrow night in Gym A of the Wormen'a Building. Colgate and Wells College provide the opposition for the Orangewomen beginning at \(7 \mathrm{p} . \mathrm{m}\). - -

Last Thursday's intramural article had two factual errors. In the fraternity-living center division of the cross country race, Dan Schiffiaver won in a time of \(9: 55\). The all-aniveraity titie was won by a team from Kappa Yhi Delta:

\section*{Teaching, research: what's the balance?}

By Steve Saylar
How profersors divide their time between writing, research works and teaching has been a pergiatent quesfion at laxge universities.
At Syracuse University emphasis is placed on both faculty nctivities, but placed on both iacaity metivities, but there is disagreement over the connec* tion bet
ability:
At big nniverbities, professors are pressured to write and respearch in addition to teaching well, according to Guthrie Birichead, dean of the Maxpell gradrate School of Citizenship and Public Affairs:
Dean Burtion Elatt of the School of Edncation said he sees research and writing as intrinaicin a university. "It is the responaibility of a university profespor," he asid. "It's part of the tradition and ethous of a university."
According to Blatt, emrly German universities operated solely as research centers and admitted stardents only to relieve the costs of research.
Mark A. Brown, an assistant dean of the College of Arts and. Sciences, pointed ont that promotion and tenure at \(S U\) zest on three criteria: teaching. research and service.

The word (research) can be construed broadiy here. It is different in different achoolw," but professors are in different achoola, but professors are expection to maike an to progress in the teld." Brown said.

The question is how much importance to place on research in relation to teaching
"We're pretty straightforward. We're interested in both good teachers and good scholars. Wetry to find both in the same individral," Birkitead maid.
"There is no doubt in my mind that the best teachers are those who are up on top of their subject matter." he anid. According to \&iatt, a 1960 study at Tufts. University revealed i close relationship between fenching and respearch , Ghe best scholars ar vesearch
Stat an survey of stradies by Joan Stark, chairpexson of the higher edacation department of the Schoal of Education, indicates there is no firm relationship.
"The bulk of research indicates there is not a correlation between good research and good teaching," she said. The survey does point out, however, that "professors who do more research tend to teach more difficult courses and requize more of their atudents."
According to Stark, because research-ariented professors tend to be as good at teaching as those not as active in research, a university may well benefit by hiring researchers.

Ronald McDonald, chairman of the Maxwell School's political ecience depprtmenti, said, " Most departments Continusion enat two

Drawing by Mancy Markas.

"The United Statest is an energy pig." apserts an SU student. For mon commente and stories conceming the emergy situation, seet the specinl four-page supplement beginning on page 7. (Dr wwing by Troy Friedman)

\section*{New law may affect SU Marching Band}

Wy Minny (tid
A change in the federal copyright daw, requiring colleges and universities to pay composera for the use of their to pay composera for the use of their songs, could cost Syracuse University
\(\$ 5,600\) in royalties for the music played \(\$ 5,600\) in royalties for the music
The rule, which would take effect Jan. 1, 1978, is being challenged by higher education institutions.
Norbert \(J\). Buskey, director of the \(S U\) Marching Band, ssid the rule would have a "tremendous budgeting effect on us."

Since the rule takes effect in the middie of the college fiscal year, it in likely
the university budget does not include allowances for the payment of music royalties.

Buskey said the law would"certainly affect every university's band budget across the nation."

Ore way to raise money for royalties, Busikey said, would be to allocate 3.5 per cent of each football ticket's price.
This month, wisic-icensing agencies will meet with college representatives and lawyers to agree on a model licenging policy. It will include all types of non-excmpt musical performances. In some cages, the licensing fee might be half of the total budget for student activities.

\section*{SU to apply for wage}
increase

By Martia Rose
Syracuse University will apply for excmption from the minimum wage hike approved yeenterday by Fresident \(J i m m y\) Carter Theincreabe, from \(\$ 2-30\) to \$2.65 an hour, will take effect nationally on Jani 1,1978.
Alhis increase whe rather abrupt. Althoagh an increase in minimum wage whe anticipated, no one knew exactly when to expect it," said Arthur J. Frita, director of financiait aid. Since work-etudy funds are eatablished every spring, no additional funds have been allocated to assist or meet the minimum ware for next year.
Seventy-eight per cent of all colleges and:maiveraities use the subminimum wage policy, according to the National Associntion of Student Financial Aid Adrainistrators (NASFAA). However. the provision requires 75 per cent of the minimnm,wage be paid.
 jminimonim wage would mean mtudents ? work fower hour to reach the work
study limits. They would also be terminated earlier, meaning termination of services, and departments do not have the funds for hiring replacements.
"Also, the SU payroll sysotem accomodates the wtandard 70/30 split in federal employer funds. Thia would not allow th to ask departmental employees to assume responsibility for a arger share.
Out of fairness to all student em-
ployeen, wage adjustmente would have to be made at all levels of the pay scale, Hriti said. This, in the long run, would be a far more costly increase than merely adjusting the lower levels of the pay acale.
Fritz also said there may not be enough work-study funds for the summer. Prediction for the summer work-atudy program do not prove to be too reliable, since summer funds are taken from whatever is left over from

\section*{State bond issue remains}
brought by the New York Public Interest Group (NXPIRG), a statewide student-aupported organization. student-aupported organizalion. Yowerdey s rohing overturned two bond issue violated the state condtitution. violated be skate Agsociatio Judge Sol Watchler aaid hhit for the court to rule on the issue

the previous academic year. "My beat prediction for the summer is that there will be no funds available at all," Fritz commented. "However. I like to say that because I always like to be proven wrong."
According to Roger Casanova, director of personnel wages and salaries, the only people on campus who will be affected by the new minimum wage law SU Boolsstores employees.

\section*{Parents Weekènd pessimism}

To the editor
In reaponte: to Ariane Sairis editorial about Parents Weelrend (DO, Oct. 31) I would like to express a more enthasiantic vermion. Although it in agreed that there was a lot of "politics" exinting, it was a lot of politics" exinting, it was also a very meanixagful weekend for many parents and students.
It is important to note that a xalajority of parents who visited were parents of freshmen. I am sure that upperclassmen can remember that long period between opening day and Thankogiving recess. It was a time of emotional instability, loneliness and confusion. Parents Weekend came as a blessing for students who were struggling through the transition from home to independence.

Although my parents were unable to visit this year, it was a great feeling to seesmilea, laughter, hugs and kispes. Parents Weekend is a time whens students are able to spend
precioun time with the ones they love so deariy (time they may never eppreciata at homo). Activities inch as the SU Jazz Concert, parenta' dance the SU Jazt Concert, prarenta dance at Archbold, the foothallgame, tours
of individual schools and all of the others is an occastion when two generationa become one. It is exalting to see that this is still posaible.

Finally, it is important to realize that the majority of parents do not come to Syracuse to be impressed (they have already ahelled out the money). Parents come to SU on Parents Weekend to show their interent, concern and most of all their love for their sons and daughters. I would auggeat that wo spend a little more time on the good sude of Syracuse University than on pessimism towand it

\section*{Academic cynicism}

To the editor.
The argument forwarded by Sy Montgomery on the editorial page of your publication yesterday ("The Midterm Drop Trap") is another instance of reductio ad absurdam in The Daily Orange.

From Ms. Montgomery's perspective, it appears that atudents in thit institution are interested not in the process of learning, but in the process of graduating. I am struck by the similarity of this situation and the one described recently by Dr. John Raven, a guest lecturer in the School of Education this week. It is his opinion that the syatem of social incentives has replaced the principal function of education in pringipai function of education of Eunope. Namely, the certificate is more ime. portant than the knowledge which it portant than the knowl
If Ms. Montgomery had her way the univeraity might well adopt the policies of a publicly-adrainistered policies of a pubicly-administered
two-year institution in this city and
let students drop a course on the last day of classes with impunity. After all, a student would have a great deal of "definite evidence" on which to base his decision regarding the dilemma to drop. If the professor were kind enough, he might even let the student have a peek at his final grade so that the gtudent world then know for certain whether he wishes to retain the course on his transcript.
Would Onondage County Com munity College's system be preferable to the one now in practice at Syracuse? It would certainly permit the "student" to maximize his apportunity to manipulate the system to his best advancage After all the grade is infinitelyge. At portant than in ining more im portant than anything which may during your days in the university.

James S. O'Rourke Capt Jomes S. O'Rourke is an as sistant professor of aerospace

Letters to the editor should be typewritten. double-ortriple-spacedun a \(57-\) character line, preferably not on erasable bond paper. We reserve the right to edit for usage, brevity, clarity and taste. Letters should be mailed or delivered to. The Daily Orange. 1101 E. Adams St., Syracuse, N. Y. 13210.

In the 1950s, historian David Potter wrote a book called "TThe People of Plenty." The title describes exactiy what Potter hiad to say about the American sociaty of that time. We were the "people of plenty" the society with limitless resources, limitless, wealth, limitless capacity for growth in "the good life."
This decade might be moreaptly characterized by the report of the Club of Rome, titled "The Limits to Growth:" Our national horizons, political and especially economic; have become finite. The presisures those limits put on us are felt in few areas an acutely as they are in the problem posed by limited supplies of energy.
Everane knew that, of course, in
those cold winters a few years back when every gas station on every street; cornier looked like a uged car lot without any salesmen. It may be atating the obvious to suggest that people dan't know the extent of the crisis as well as they did when thiey couldn't get any:gasoline; but the gense of immediacy seems to have gone outof affortspat eonservation.

To' paraphrase a 'famous editorial: yes, Virginia, "there is an energy crisis. It is a serious crisis affecting our economy and lifes tyle. And it is with us right now.
Syracuse University has made numerous efforts to conserve energy since the crisis firgt became acute: catting temperatures in dorm roonss to 65 degrees (in eome rooms they dipped much lower),

\section*{The Danly Oramge}

reducing use of lighting in Bird Library and publicizing the need for conservation.

Nonetheless, the university's energy bills have skyrocketed, from \(\$ 2,243,000\) in fiscal \(1973-74\) to over \$5:-million this past year. Severe shortages of natural gas required the university to convert to oil to provide heat for the campus last winter.

There is a great temptation to look at the comprehensive and complex energy legislation package proposed by President Carter, or at the raging debates in Congress over deregulation of gas prices, and dismiss the crisis as a political problem for politicians to axgue over.
But the keystone of any successful effort to beat the energy crisis - or at least live with it -is a common effort at conservation. The political debates may go on and on, but none of that will change or reduce the need for everyone to conserve energy.

The people of plenty are gone. They have been supplanted by a people facing shortage, a people who must become a people of caution and conservation - or a people whoee way of affiment life people whoee way of alisappear completaly.

David Abernethy for The Dally

\section*{Rats overrün SU laboratories \\ By Rich Amdur \\ of messages from nerve cell to}

Close to 18 million rats will be used in medical and peychological studies in the United States this year. Since rata have many brain and body structures analogous to man's- they can prove beneficial for scientific studies in a wide range of areas. Using rats and other animals, such things as the influences of high blood preasureand eating and drinking behavior are being studied in Syracuse University area laboratories.

One of the prominent animal laboratories in the world is located on University Avenue and is run by Matthew Wayner, a specialist in brain research and a profersor in the paychology department pocusing primarily on eating and drinking behavior current experiments include current to develop an animal attempts to develop an anima model to alcohol and calre, a andy of a chemical called serotonin
be directly applicable to man, nerve cell; and the effects of electrical atimulation of different areas of the brain.

In a beldom visited region of Archbold Stadium, James Sutterer of the psychology department is currently study ing the effects of stress on the development of high blood pressure in rats. Using food deprivation as a form of stress, he wonders whether this causes the heart to pamp out more blood than is needed for the rat's syatem.
Because this could have dire consequences for the systern. Sutterer is trying to developan animal model from which he can determine what it is about stress that creates the problem, and then pertuaps proberalize and then pertaps generalize his findings to humans.

At Skytop lab. Charles Kutscher is also studying high blood pressure, but he is em phasizing the, iffecte of hormones. This research car

he said. He explained that many humans of about age 45 many humang of about age 45 experience a rise in blood pressure that is as yet unexplained in full.

Using mice, Kutscher has found that when the sex organs are removed, there is no effect on the female's blood pressure, but that the make's blood prensare goes down. Furthermore, when the mate is then injected with the male sex hormone testosterone- the blood prestosterone, the blood pressure riges; eemingly indicating a elationship between the cormone and high blood pressure. Kutscher feels that this reseaccla has to be done with other animala before generalizing the findings to humans.
Animal research at Syracuse was started about 1930 by Reginald Manwell. professor emeritus in the biology department. He used canaries to study malaria. Most of the animal research done in subsequent years was in the zoology botany, in thacteriology or biology chacterioiogy
warmenss.
When the medical school moved from SU to the State University of New York, many of the scientists doing animal
research moved there too creating a lull in the animal studies done at SU. Then, in 1953. Wayner came to Syracuse and atarted behaviorial and physiological research on rats and other animals such as the earthworm, sparking an expansion of animal remearch on campus.
Much of the research done on animala grows out of problems seen in huxnans, as evidenced in Kutsēher's

The faculty of the College of Arts and Sciences will begin consideration on Monday of "a method for initial im. plementation of the Standard Plan" detailed in a 16-page report released yesterday by the faculty council of the college.
The Standard Plan, the first revision of curriculum re quirements in the school in over 30 years, was approved in outiline form by the faculty last April.
The faculty will be presented with 32 separate motiona which deal with various aspects of the revised curricular requirements. The currie number of individual motions will facilitate debate and discussion on specific and dists of the plan aci cording to Assistant Dean Mark Brown

One innovation introduced by the. Standard Plan is the divisional ciuster, a set of four courses related by a certain discipline or theme, required for fulfilment of distribution requirements.
Among the items at issue in the faculty council's recommendation are the definition of the three new curricular divisions, procedures for proposing, reviewing and approving ciusters and criteria for courses comprising the basic skills.

\title{
College faculty to discuss A\&S plan implementation
}

It is expected that the report es introduced will require exensive discusion and mendmemt befoxe it is voted on by the faculty.
The present report by the
fneulty coumcil represente about two months of dis cuasion and revision of initial recommendations made by three committees which deliberated over the summer.

\section*{S.A. President - Comptroller You Think You Can Do Better? Then Give It A Try!}

Petitions And Rules Are Now Available For The Positions Of:

\section*{-S.A. President S.A. Comptroller} - Umiveirgity Union Imternal Chaipperson - University Union Exterinal Chairpergolin

As the fateful year approaches, an entire culture which absorbed George Owwell's novel sighs with relief " 1984 " aignifies to two generations more than one year out of thonsands: it represents a horrifying, mind-manipulated worla of control aided by electronic surveillance.

The world-watchers of the next few years will argue, perhaps justifiably, that the world por trayed by Orwell is not as farremoved from this one as it would seem. Few, though, would axgue that Orwell's phenomenon of Big Brother exista on a world wide basis today.

However, many have and will continue to praise Orwell for foretelling a world where television screens prevail, where national alliances can change at a politician's whim and where computerization has become a staple of the mechanized world's diet.

But, like so many of his generation, Orwell, despite his visionary talent, found it difficult to envision a Betting in which man would eventually destroy himself and his world, due not to the perfection of mind manipulation, but through depletion of the world's resources.

Unilike Orwell's menace, resource depletion- energy crisis, environmental imbalance, whatever the term-is a real and imminent one.

World-wide concern with energy and natural resource depletion has shifted in emphasis from economics to conservation. The world's priorities have changed, for while the cont of purchasing and producing energy has always been considered, people are now recognizing that money is insignificant when there is nothing left to buy.

The infamous energy crisis of 1973, best remembered for its long lines at gas stations, was the catalyst which prompted a push for a national energy program in the United States. All phases of President Jimmy Carter's ensuing energy plan, however, have been variously politicized, dissected, disputed, protested, filibustered, approved or even ignored.

As a result, state and local governments have attempted to organize their own energy programs, although; as Onondaga County Executive John H. Mulroy recently pointed out, many of these programs are still dependent upon federal action.

Consumer groups in the city of Syracuse, such as the New York Public Interest Research Group, the League of Women Voters and the Office of Consmmer Affairs, have each instituted their own public education campaigns on the topic of energy.

At Syracuse University, energy. no longer appears to be the prerogative of atudent activism. Rather, concern has shifted from individual or group efforts to administrative or academic action.
This supplement is a comprehensive review of those administrative and academic actions, as well as presenting steps which individuals can take to conserve energy.
Read it. Unlike Big Brother, resource depletion and its ensuing crisis in energy is a threatening reality which cannot be ignored.

Laurie A. Nikolski

\section*{Concern with SU energy savings dates back to 1973}

By Glenn Nedel, Hrances Casey and Vishma Dutt By the time you are leering at travel catalogy for the next might out to Florida for Christmas break, you may have realized that Syracuse University students arenotexempt from the world's four-year-old energy crinis.

One of the reanons tuition is continually increasing is becanae of SU's own energy Crisis The univeraity's cotal utility budget ex.- eluding water - has more than dombled nince more than aitumtion reached metiongl prominisnce four years afo, ae conding to university ach ministratorn.
During tiscal year 1973-74. SU-wes pariag \(-2243,000\) in
energy bills. Now the school's adminiatration is writing checks for energy which total \(\$ 5,0640,000\).

As in the case of the rest of the amtion just a few yearsago SU's concern for energy conservation was virtualiy non-existent, and was aimed more towards financial concerng. It wann't untill that memorable winter of lone lines at the gas station (197t-74) that the aniversity foumd itself mabmerged in the depths of a financial energy crisis.
An article in The Daily Orange on Dec The Daily reported on Dec , 4 , i973. Melvin Derevis hod formed an Meivin Squers had formed an minerty comearvation com-
 thensy cutbacia ar \(S U_{0}\)
per cent. 'This marked the university's first all-out effort to curb campus energy uange. The cammittee took ateps to reduce energy costs by lowering temperatures in classes, offices and living areas to 68 degrees Fahrenheit and 50 degrees when not in use. Lighting was also reduced in the same aceas by one-third to half of ite former power.
Students were agked to join the university in ita energy effort when they were requested to cut the use of their atereos and television sets during the peak demand hours of 4 to 8 p.m.

The first positive rasulta reflected in the university' statiatios howred that fuel oil oriecre tropped 63.000 emilion between the winterw of 1972 -73
and 1973-74.
At this time, the university's Space and Yacilities Administration Office set out with two goals in mind: reducing the cobt of energy and improving environmental conditions. according to Harvey Kaiber, vice president of the ofIice.
In 1972, the office outlined ts priorities, which included concern over health and gafety, protecting bailding exteriors to offest further detarioration. aesthetics (beildina beautification) and emergy. During energy
2973 was bought anving equipment was bought They insert into wisting sybtems. invertmenta to gain quick respoges: Kaimer gaid. This in-
eluded installation of atorm windows and insulation in several dormitories.

Then, in the later part of the winter of ' 73 , things began to cool off in dorms as well. The univeraity implemented heating cutbacks, dropping temperatures in dorm rooms to ©s degrees \(F\).
However. due to ixregular heatimg patterns in many of the dorms, a meter which read 65 degrees was not alwaye in dicative of true temperature in all the rooma. In certain eections of some dorms - motably the top floor of Latwinion Hall - stadents bundled apin parkas in their rooms, as temperatures rooms, as coinetimes drop 30 to 40 dempres.

Cminct mem

\title{
ENFRGY \\ SU students: views on energy
}

\section*{By Nancy Donovan \\ Steven MoNally}
and Bruce Adams If "we are to be responsible for future generations, then we nuust cansider the current energy situation a crisis" and "radically reduce our energy appetite." Jeff
Hughes said. Hughes said. "The United States is an energy
pig." asserted Jim Harkin. "A fundamental redefinition of how fun organize our lives is necessary.
Such are two of the comments from a group of 30 Syracuse University students recently interviewed concerning she energyple of graduate and undergraduate students who were questioned if crisis and, if so, what they were doing about it.

Fifteen of the students surveyed who pay directly for the amount of energy they use said they doattempt to conserve energy and that student decision. But what about atudents who don't have to pay directiy for the armount of energy used in their energy:

The evidence says that many
on't. When askedifthey weredoiny don'. When asked if they weredoing

When arked what is the best way for such students to conserve energy. Kaiser said that students could keep from opening their windows urnecessarily. Yet not one of the nine "non-paying" students who said they were taking measures to conserve energy said they were doing this.

Howard Bush, of Alpha Chi kho explained his fraternity decision to焦t the thermoatat at 64 degrees Fo ahrenheilh to keep this house zoing, it costs me (as president) more money." Bush's car also stays home more often, he said, because "it's too expensive to drive.
By reducing Alpha Chi Kho's heal from 70 to 64 degrees last winter fraternity members kept fuel bills down to 1975 levels. This year the iraternity plans to reinsulate the at
tic. ingtall storm windows and tic. install storm windows and
overhaul the furnace. Alpha Gämma Lelt
Alpha Gamma Lelta's president, Mariaxn Elbidi, said her Boroxity's energy-saving stepa include turning
on the house's furnace no earlier on the house s furnace no earlier chan Oct. 15, and then keeping lower for the winter.
Most of the interviewees thought it was "okay" to have the winter dayime temperature in the
univergity buildings at 65 degrees.
After leaving Europe, 'I found ryyself
compulsively turning off lights.
anything to conserve energy, only nine of 15 such students said that they were.
In fact, Harvey Kmiser, vice president for facilities ad Ministration, said that Skytop Phase 1 and 2, where students have thermostats but don't have to pay according to cmount of energy used, showed an increase in energy used last term as compared to the 1975-76 term. Skytop thase and 2 , he said, were the only buidings

In fact, Dawn Hill, a senior majoring in political acience, who has travelled abroad, said she believed domestic atudent averaion to cold classrooms was urreasonable. the lack of water and the cold in the lack of water and the cold in came home 1 found myself compulsively turning off lights after pulsively turning off lights after 1 lett a room, she said.
Some people object to the Kadis, a student living in Wellplain

Hall, said that the temperature the gym at olow times, phortening should be 70 degrees. That food service hours, lowering ligh temperature is necesaary in onder to ceilings, insulating more ade atudy, he said. Heferring to the quately, addingstorm windows and buildinge last year the called it university to crentepedestrian mal buildingg last year, he called it unoearable.
Another policy that came under attack was the use of cold water in campus washing machines Graduate student Kudi Mapini said he doesn't think cold-water washing machines save a significant amount of energy.
Apparently there have been nosu studies to determine how much energy is being saved by the converaion of 200 campus washing machines from hot water to cold water. Kaiser said he knew of no the Office of Itesidential Life also responded: negatively . When questioned.
Looking to the university for Euidelines in energy conservation of their own sugrestions as to pos sile solutions. Cuttine dorm on pos sile a ibreryions. Cuating down on Birc bus service to a minimnm, closing
casing out trafne aromind the whiversity to create pede

Chris Lalla. a senior majoring in chemical engineering, however, emphasized that individuals' steps are just as important. Whe part of society not doing their part is individuals. 1 feel the university has taken steps attempting to reduce its energy bsage, in accordance
\[
\begin{aligned}
& \text { 1acional guideines, she said. } \\
& \text { "Students should form car mo }
\end{aligned}
\]
"Students should form car pools. ride the bus, and wse less energy in the home" she said. She also stressed the need-for a national policy, Baying: "The question is not what the university can do, but what the mation can do. The problem ex ists here only a micro-acale.
However for student Amy Fishman and het roommates living on Walnut Ylace, the problem does not exist on a micro-scale. After February, they decided to lower their thermostat. Said Fishman. "1hat kind of bill cramps wny atyle.

Last night it was so-0-0-0 old in my room.
Sound famailiar? It should now. But it won't be as familiar to incoming Syracuse University atudents.
At least, it ought not to be after SU's planned energy-gaving measures have been insplemented.
These measures will be funded by \$1.6million federal Housing and Urban Development (HUD) loan which SU recently applied for and was granted, according to Harvey k. Kaiaer. vice president for space and facilities administration-
The purpose of the

The purpose of the HUU housing loan program is "to assist institutions of higher
education in the ameas of education in the ameas of energy conservation and reduction of maintenance
costs, Kauser explained.
Bleven buildings will be afiected, be paid. They are Haven, Kimmel, Marion, Gaven, Kimmel, Marion and Graham Dinine Hall nd Graham Dining Hall.
According to Kaiser, these they met the HUD criterion for funding that is, they were built with money borrowed from the agency

Scape stepe had been taiken in the gatst to conserve energy accionding to Khtieer.
cluded conversures have incold water ins to the use of washing mackines last winter installation of less water-consuming shower heads and of storm windows, the decrease in temperature to 65 degrees Fahrenheit in academic and housing units and reductionin tighting levels.
Most of the remaining work involves jarge scale renovations requiring capital investment, aceording to Molly Corbiett Broad, special assistant to the chancellor for government relations.

This aummer, architects and engineera from the university's facilities planming office reviewed the buildinge to determine what wark needed to be done.

The two measures which wil aave the greateat amount of enercy are roof and window replacements due to the Exea reduction in heat loss, Kaimer explained

Ohber items inciude the reviaion and upgradiag of the elimimation of dinparities in from temprature; the reduction in firitines levels rediction in hours of ues;- and the ingallation of incialation nromand pipes in domm sooms Kaiser said.

Every hall will not undergo all these improvements rether, the nimber - of mether, the timmber in of
vary according to the needs of ach buiding. he continued. According to John L . for main, associate professor oncimechanical \& aerospace congineering, SU' energy ing in the rightromam is ing in the right direction. tepa in then bigninicant However the area, he aaid. been severely limited in the past by lack of funds. The Ioan will help.'
Although it is not yet known
when the monien will be received, the work is projected to take place over the next two summers, to be completed by Sept 1. 1979. Kniser naid. Weather conditions precinde explained.
According to Hroad, the work may cost more than the original estimate.
urprieed if it be the least sutprised if it exceseds \(\$ 1.6\) cases, federal funds provide
leverage and rarely the entire plained.
Kaiser said the loan is "very dvantagreous" since it is love interest (3 par cant) and long term (the university has 40 years to repay the loan).
Although the meastures which the university is currentiy mindertalking do indeed apre energy, stadent and faculty nore, important, according to LaGrafi.

\section*{Institute encourages research}

By Carol McCormick
and Karlene Lakovitz
By 1978 there may be an ad ditional river 30 miles north of Syracuse wh

The new river woald be created by a wind turbine next to Niagara Mohewk's hydroelectric plant. The turbine would pump used water back into the plant, thereby creating, in effect, a new river and a new source of energy.
If this experimental turbine is successful, wind turbines may be built next to some 75 Niagara Mohawk hydroelec tric plants on
throughout the state.
This wind turbine is one project carried out by members of the Syracuse University matitute ior Energy rusearch Weiss, professor of materials science.

SU provides the institute with about \(\$ 40,000\) a year for its activities, which Weiss said include sponsoring lectures. coordinating energy courses and providink seed money for some faculty to start pro jects. However. government
agencies and private inagencies and private in-
dustries, through contracts dustries, through contracts
and grants, pump 10 times this and grants, pump 10 tirnes this
amount into the institure's major research projects.

Whilip A. Mice, protesaor of chemical enkineering. is work recovery system with money from Niagara Mohawk. The amount allocated by Niagara Mohawk to members of the institute totaled \(\$ 414.1: 35\), to be used over periods ranging from two days to shree yeurs.
according to theinstitute an
nual report.

The power company aleo is funding the wind turbine research project on the Salmon River, co-directed by Salamon Eskinazi, profestor of mechanical \& aerospace engineering, and Y'aul J. Bren-
nan, professor of civil nan, profe
Of what use are storage systems and wind turbines to a company which heats homes? Hice's project, which can be used in conjunction with a aolar collector or an electric generator, could store heat energy produced during low consumption periods for use at later peak periods. Such storage would reduce atrain on the power bource and lessen the possibility of brownoute and blackouts.
Approximately 50 faculty members, including such strange bedfellows as professors of materials science and Einglish, conduct research on problems ranging from hydrogen corrosion to the social impact of technolorical progress

This interdisciplinary faculty is under the direction of Weise as well as advisory and executive boards, made up of institute members. Besides the faculty, the membership consists of all companies and organizations which sponsor research with or issue grants to the institute.
Syracuse University also reaps benetits. although not 80 obviously. from the energy institute. By forming the institute, SU has increased the visibility of its researchers according to Drucker. Dhis to get funds from outside sources - funds which "pay it

\section*{Architecture joins engineering in energy conservation program}

\section*{By Marge Hrowne}

The schools of architecture and engineering at Syracuse University have joined forces this fall in a program em phasizing the need for energy
"We talked about forming a bridge," said Manus Ucar of the L. C. Smith College of Engineernng, "and I guess \({ }^{1}\) am that bndge. Ucaristeach ing an architecture course en titled "Heating, Ventilation. Air-cond

Although the course is a requirement and has been offered in the past, the content has changed drastically to permit erpphasis on new Unergy.

This year'a course syllabus indicates heavy emphasis on such subjects as interior climate control, heat pump systems and computer predic tions of energy use. "You have to know what's being used before you can conserve.: Ucar explained.
ralking about heat pumps, which "pump the warm air ou to cool a room and pump the warm air in to heat one," Ucar called them "more versatile symtems" and said they can be installed and make a much more efficient use of energy.
Ucaris also teaching a series
I three mini-courses on energy conservation as related to architecture with John LaGraff of the college of enpineering of thege mini ine topicm of these mini courseatore in Hesidential Buildings, "in teandental Conservazion in Large Honservazion in Large

Energy Systems.
While the "sharing" of Ucar between the achools of architecture and engineering has caused certain bureaucratic problems for him it is seen by him and by Associate Dean 3 ulio M. San abse of the school of Architecturesas a good step. However, neither of them views it as the beginning of a serias of sua
Ucar pointed out that there are certain difficulties in arranging and scheduling
coursea which apan the gap courses which apan the gap between the two schools. Nor
one thing. he said, it is difficult one thing. he said, itis dificuit separate disciplines have com parable backgrounds in the field being tanght.
San Jose gave another the for the minor changes in the architecture school to ac commodate the rising interest n the energy crisis. Anylung wore than limited change is the achool has always been concerned with energy planning and efficiency.
An 18 eredir hour sequence in environmental controls is required of all students within the school. The requirement hasn't changed due to the societal emphasis on energy, according to san sose. and concern may be growing.
\({ }^{4}\) No matter what you do, it's "matter of taste," said San Jose "You bave to Fo the way dine economy goes, hesaid, ad ding that people will ape
their monoy an they, wioh.
fointing out the neceanity of woiding ithat a civentinan vome desigried with the mishea of the
client in mind, and that heating and cooling systems must wo work into the building plans.
According to architecture student Sheila Weed. there is an emphasis on energy syatems and conservation. A student in Ucar's heating and ventilation course, she said an emphasis is also placed on energy in derign course, where be says students are expected o incorporate the most feasible type of energy sybtems nto their designs.
Uear, Apeaking ofthe energy systems currently in use around the campas, said, What we have hereis amess."
The emphasis placed on designing new types of energy gyatems is pomewhat innited, however, according to fifth year student Mark Winkleman, who described the school as conservative. Winkleman did research last year in the area of bolar energy in preparation for designing a solar house. That research, he said pointed out sonse advantages, montly economic, to solar energy syytema.

Interest in the energy crisis does seem to be. baving its efrect students. And while emphasis on alternate energy syotemas is the exception in many cases, andividusl student interes: and concerre in the area con tinue to rise. a ntory on th haremyear project involving the winteriving of low-income mppear in tomorrow's iseue of The Datly Oentio

"The Golden Age of Leather," which starts out painfully as a parody of an anthem, again echoes the major Haw of "Spectres." The remainder of the side only adids to the carnage as "Searchin' for Celine," "Death Valley Night*'* and "Fireworks" are all lifeless tunes, moved only by the occasional bursts of musicianbhip that end up wasted and formotten.
Side two manages to restore some of the snap in the Cult's mome of but the effects are not of a totally redeeming quality. Unburdened by trite arrangements and clumsy. overbearing thythms, the songs here are all able to reproduce the frenzy of the Cult's heavy metal sound as well as the professional slickness of their more mellow material. But side two does not compensate for the inadequacy of side one.
"R U Ready 2 Rock" is a smoothly constracted hard rociter that is paced well and is shighty reminiscent of early Led Zeppelin. Kept under conLed Zeppelin. Kept under con-
trol by rhythm guitarigt trol by rhythm guitarist Donald Roeser, it is a
showcase for him and the showcase for him and the
talents of lead guitarigt Eric Bloom. The tandem was responaible for the intertwining ponaible for the intertwining
guitara on "Don't Fear the guitara on "Don't Fear the
Reaper." This gong features a Reaper." This song features a
punchy trade-off in leads punchy trade-off in leads
between Roeser and Bloom between Roeser and Bloom
that exemplifies the vitality of that exemplifies the vitality of
The eong. "I Love the Night" strices as being the product of a concentrated effort by the band. Bearing just a subtle hint of Al Stewart guitar, the number in a mellow rocker that moves slickly, almost sexily across the vinyl. Tasteful and timely leads, woven around a steady rhythm and boss line, make this song one of the most melodically captivating on "Spectrea."

Conflicting valuea may have been responsible for such an erratic record. Perhape excited
by -the effects of their first by - the effects of their first celebrated gold albun, the Cult went into the atudio trying to repeat themselves both commercially and artiatically, and achieved neither. Whatever the reason, the preponderence of bad material on "Spectres" deals a fatal blow to the good.

\section*{Once charred, backfield is burning to improve}
"Experience is a hard teacher because she gives the tést first, the lesson afterteards.
- Vermon Sanders* law By Drew Śshwartz Youth and inexperierice on a football geld often produce the same resuit as a Keystone Kop attempting to solv
crime; both are not victory prone. Therefore, the lack of experienced defensive backs has been a major concern of the Syracuse football coaches this season. The secondary is the moat inexperienced part of our
defense," Coach Frank Maloney addefense" Coach Frank Maloney admitted. "Teams have tried to exploit us
through the air as a result." ponents that did pass against Syracuse ponents that did pass against Syracuse
found it to be a very successful means of moving the football. Vuring this of moving the football. Kuring thio span, opponents not known for
dominant passing attacks had acdominant
cumalated
40 yardage through the friendly Syracuse skies.
The success of opponents' aerial assaults couldn't be blamed entirely on the defensive secondary, however. An effective pass rush and close coverage by the linebackers are also essential components in a good pass defense. "A good pass defense is a com-
bination of a lot of factors." Maloney said.
An inexperienced defensive
backheld - with thenotable exception backtield - with the notable exception
of senior Larry King - delayed finding the factors for a good pass defense.

Common caluse
There is no subsitute for experience and age, especially in the defensive backineld," said secondary coach Dave Zuccarelli. "Eiveryhody suffers with young kids" mistakes."
A pair of defensive backs experienced additional suffering when sidelines for the rest of the season.
sidelines for the rest of the senson.
"Brian Ishman and DeShawn Hawkins could have tigured into our
 plans," Zuccarelli said. "Afterwards, we had to ind our top four performers and figure out where they would be
most effective. If it weren't for injuries most effective. If it weren't for injuries
we might have come to a set combination sooner.

After the fourth game, Zuccarelli had come up with the best combination. He shifted King to his previous warriorback position, Terry cornerback) and John Patterson was inserted as a comerback. Warren Harvey remained at his cornerback slot.

After the unit had practiced together for a week, a dramatic improvement oc-
curred in the Maryland game. Syracuse curred in the Maryland game. Syracuse
allowed 186 passing yards to a team allowed 186 passing yards to a team that had averaged 215.
Ferhaps the key reason for the imsproverment was the return of King to his original position. 1 enjoyed playing satety because it was a new role and a
challenge, King said. "The awitch to

\section*{The}

Fantastic
Four?

Alzhough they were as penetrable as a sieva in the eartier part of the year. the Syracuse defencive backffeld has shown a vast improvement of tate. Warren Harvey (3) and Larry King (19) have each picked off a pass this year. Harvey Lavry king (19) have each picked ofi a pass this year. Harvey
warriorback wasn't that hard because was more familiar with it," King gaid.
The switch let the Orangemen better use King's tackling abilities. "Now we have more strength in the middle of the field," Kuccarelli said. "As the warrior I have to be more physical whereas playing safety involves a lot more finesse, King andded:

The safety position is now manned by Terry O'Leary. Olieary prefers safety over cornerback. perhaps because he was Tim Moresco's (last year's starting safety) understudy.

Free spirit
It's more my type of position." the junior said. "You're not isolated like a cornerback and you get a better read on the ball. I also like the challenge of being the last line of defense.
Like O'Leary, John Patterson didn'L want to be a cornerback. "Last spring Coach Maloney asked me whether 1 wanted to play offense or defense my next two years, and I chose offense,' Patterson said.
However, when injuries depleted the depth of the defensive backireld Patterson suddenly became a cornerback. It wasn't a difficult transition for Fatterson to make since he had been a regerve cornerback his first two years. The change has helped
strengthen the secondary and Patterson "likes defense better because I am playing more."
Similarly, Warren Harvey didn't want to play defense because he felt he was too small. Harvey now realizes cornerback gives him the opportunity to be a starter and accepts his role.

There are a couple of things I like about defense, said the swift cornerback " 1 don't get hit that much and its easier to get accustomed to than a whole lot of offensive plays."

Also easing his transition was a key interception in the Virginia game "It gives mea lot of confidence. I'm getting there gane by game," Harvey said.

Harvey's development, is a mirror Thage of the entire defensive backfield. They have exhibited continucus improvement each week bince the fourth game: 7his ia because mistakes pointed out in practice usually do not rearurface the following gaxne.

Malignant srowth
We have gone through growing pains," Zuccarelli said, "especially during the first part of the year. The secondary will continue to improve as they become more experienced.

One of the things experience teaches A detensive back, no matter how good
burned by a receiver. "You bave to gel used to being beat and getting your mind ready to come back for the next play,ㅁ. Harveysadid "If you feel sorry or youradity pialit get beat all day.
Anothit reation why the secondary has improved is that they axe more familiar with individual strengths and weaknesies.

We're really playing like a unit," 'attersonssid. -We communicate very well on defense and know what each one of us cando
The experienced King is the acknowledged leader of the becondaryWhen you've got a guy playing back there who knows what it's all about, he breedt confidence in the other players. He is an example on the field of how things should be done," Zuccarelli said "He tells us to look for a certain play," added Patterson
"The best teacher is experience;" King baid. "Although teams have been hurting us pass-wiae we're playing the pass better and better.'

The upcoming Navy game will certainly be an aceurate gange of how far the defensive backs have progressed. "Navy throws about 25 to 30 pabsea a game," Yatterson".. said
"Our becondary will be teated. Two week late for a mid-term.

\section*{Wand-wielding women finish magic season}

\section*{By Craig Weinstein}

It's a tremendous thing to have a great player," suid women's tennis coach Birgitta Warbach of state singles champion Betsy Giotthieb. "But, every match counts as one point" Warbach is extremely pleased with the recently concluded aeason in which the rennis team finished second in the state tournament.
"The fact that Syracuse came in aecond is just as important as an individual winning a title," Warbach axid.' Our finishing second is also due to the great performance of Joan Arronson and Betsy Malkovsky, first doubles, Leona Bush and Kathy Walsh, gecond doubles, and Abbe Seldon, becond singles.'

Next up for the team is the qualifying tournament at the end of April for the nationals, at Salisbury, Md.

Orficially there is nothing schediled until next fall," Warbach said. "There is no budgeting for off-season events. But, last year the girls went to the Middle States tourmament on theirown. They paid for transportaion, heals and housing. The omly thing the school paid for was Warbach fee.
Warbach has been very strong feelings about the short tennis. season. More and more
didn't have much time to spend with the team, because the season is too short."

You can't talk about exercise," said Warbach, the New Yoris State Covered Court Champion in 1975 and 1976, and formerly a mamber of Einiand's Women's National Tennit Team. -You have to do it. The girls have im:proved their footwork a great deal. kispecially provedinglea players."
Warbach added that "you can't remain good without competitive play. You can't improve by just practicing, you must play.
Warbach isn't aurprised at the way things turned out this beason. "We came in eecond last year also. The big queation going into the cournament was whether we could do better against Colgate. Last year when we played Colgate we lost 7-0. This year we lost \(5-2\). Colgate wasn't the main obstacle in this year's tournament, even thongh they won the ournament: The second doubles team won one match before they lont to C.W. Yost Abbe Seldon lost to a player from C.W. Post in the regular draw. In the consolation tournament, Ahe also loat to another player from CC. W. Rost. Altogether the team low fomr inatches to C.W.
Post Their only other loss wras to the first Post Their only other loss
doubles team from Colyate.

Warbach speaks very highly of her players. "Abbe Seldon, a senior, and our first scholarship recipient, was the only undofeated player during the regular season, with a record of \(11-0\)."
The women's athlede deparment at SU is growing, according to Warbach. "We offer thingsia lot of achools don't have. The proegram in itself. is quite good, with full trition acholarahips. However, in terms of temnis," Warbach added, "We still have a long way to go.
She was roferring to the lack of facilities at SU, something that bothers her greatly: "You must provide the girla with something 80 they can grow and develop as players. We have imited indoor practice. More and more es hools are building indoor facilitias," she added.
The team genarally practices twice a week during the ofreseamon, when the Women abbuiding becomes available.
but it's very limited of onca a wrek in the gym. but it s very imnita what you can do. she gaid. You can't practice all of your whote.
Trome waiverity ovenh four indoar courts at: Druminio; bowever, thit teami has no accest, to the courts. We got botter deals at other indoore corather Wartach added.

It was a beautiful day yesterdäy, no Jose Kamirez decided to take Cleo for a stroll on the Quad. Cleo is Kamikez's four foot nine boa constrictor. Ramirez said he bought the 4-year-old snake a few weeks ago because he always wanted a snake and his mother would never let him have one. Since he lives in university houaing, Ramirer has had to keep the pet at a friend's house, he said. (Photoby Scott Ainbingter).

\section*{SU winterization to protect elderly}

By Maryanin Buckanin
it's not the Avon lady who's been ringing doorbells at about 200 momes in the yracuse area.

Drucker said the purpose of the program is to investigate the efficiency of certain

\section*{Moynihan worried of alleged illegalities \\ Hy Tod porter \\ II feel sure you will want to}

A Syracuse University professor emeritus has attempted to warn Senator Daniel P. Moymihan not to attend a Democratic rally in Syracuse this Saturday because he would be em barrassed by alleged illegalities in Mayor Lee Alexander's administration.

Jay B. Westcott, profeasor emeritur of Political Science and Public Adminintration said he read a letter, stating -Before you come to Syracuse for the projected Democratic Party rally Spturday, Nov. 5, 1 think yon will wish to be aware of eviderce: concerning illegalities in the une of puiblic funding and in the city's alec trical code.
Westcott said he sent Moynihan three recent-gnm miaries: on mieme of federal funding.
be of assistance as this matter affecting the federal government unfolds," the statement baid.
Westeott charged that the Syracuse electrical code, which Alexander is required to update by law as mayor, is illegal He said that the Syracuse electrical code ia in conflict with the state electrical code, which supercedes be local code.
Westcott claimed that in least one instance a city af ficial epproved fraudulant repairs for the home of an elderly widow. The repairs inclucied a stair rail to the atticin a hotise wheh has no attic or attic stefirs. the repsir of broken windows which weve not broken, and the installation of awitchet and wall pluyty which the widow did not wint.

\section*{Centrex users still cannot own phones \\ By Andrea Abrahams}

The Syracuse University Centrex phone system is exempted from a recent Public Service Commission order allowing telephone users to buy and install their own telephones.

A ruling on whether privately owned phones can be used within the Centrex system is expected from the Federal Communications Commission (FeC) in January, according to Howard Williams, a spokesperson for the Syracuse office of the New York Telephone Company.

Students not using the SU Centrex ByBtem may purchase their own phones if there is an FCC registration number on the phone at the time of purchase, or if the phone is approved by the telephone company. This would apply to students living off-campus.

The vSC's order will force New York State telephone com panies to make many changes in their billing processes. It is unclear whether the changes will result in a savings for the student, because of maintenance charges and service fees when the phone is removed.

For the student who can afford these expenees, a vaxiety of novelties such as Mickey Monse and circular Ahaped phones are available for purchase.

The "Paint Me" aign hanging from the pecond tioor ot Finket Cottioge 施 reflective of all the things that need to be done in the cottage, according to Steve wierzbicki, a resident of ano catage.

\section*{Our disappearing classics \\ An ado}

Referring to the editorial in the Nov. 1 Resme of the Daily Orange by Jixn Nanghton. concerning the loss of interest in the claspic among college studients, I couldn't aigree more. Statistics do point to a declining enroliment in liberat arts and the tremendous inhux of stadents into professional schools.

\section*{In reply: \\ Martta Rose}

Granted thare is nothing horrid about professionial schools. It is onily when this influx is paired with a waning interest and concern for coltare and aesthetics that is a negative trend. It is aloin to anindugtial revolution which overriden the education of the people. As in Newforndrand, Canada, San Juan. Puerto Rico, and to some exterit the U.S., industry has become a big toy to play with, without realizing any of the consequences that are inevitable with arnd kind of change.

Look' at where the majority of this country's priorities lie. Cutbacks in education. Kids graduating from high achool who can't read. Our priorities lie elsewhere, primarily how to make bigger bucks at a faster and faster pace.

Years ago, pertaining to the corny in quiry, "If you're so gmaxt, why ain't you rich?" people were encouraged to do well in school because it would some day pay off, literally. They were sent to collegie figuring that a degree meant hetter jobs more money. After a few decader of pursuing this idolized decades of pursuing this idolized colleges no loager stood fors the pursuit of knowledge and engod for the pursuit became status symbols of thementives
Human nature has alweys sought Human hats. Stince the bays sough out shortcuts. Since the big goal has hecome twisted into "big bucke"' why not a direct beeline to that goal? Bypass all that "education" jazz. It doesmit even apply anymore to the real world ont there Face the facts: ducation aesthetical cuiture never put bread on the table. Go straight for the pot of gold. Never mind if you don't to cone now. It will grow on you in yeark ocrne.
Aesthetics, culture, learning for in the 1970 gake are taking a back seat in the \(1970^{\prime}\) s. How many philosophy maiors do you know? What can one do with it today mayway? lit says a lot about where our culture is at and where it is headed. And there's no turning back with this attitude. How can you turn back when you've never been there?'

University

Within the College of Axts and Sciences there is always much criticism concerning the lack of interaction between atudents, faculty and administrators. It is inevitable that at any large institution a studend may go through four yeara without ever havis with focultion ship with faculty outaide of the clasbroorn, with academic advisers or even with fellow classmates beyond small

\section*{Marc Hirschfeld and Jim Sartori}

Here at Syracuse, the blame for this rested solely on the college administrators who, up until recently. have choaen not to commit any time, effort or financial support to reaolve thia
problem. Faculty, in general, have been aupportive of student-faculty interaction but have never had an opportunity to do this on more than an individual basis. Finally, the dean of the College problem by supporting a program Which will bring together faculty, ad. ministrators and freshmen, socially. The College of Arts and Sciences student advising program, created three years ago, was initially established to deal with the zcademic concerns of incoming freshmen. Since its inception, the studenta involved in the scope of freahman advising. It is the scope of freahman advising. it is programe has taken this reaponaibility program has taken chis responaibinity in a position to act have neglected to do so.

This Sunday, the dean's office and the Arts and sciences advising program are going out on a limbto plan and finance a Dean's feception for the Class of 1981 . The event is to be held at Dramlins at 3 p.m. and free bus service from the dorms is being provided. This is a chance for freshmen to become acquainted with the people they will be dealing with over the next four years. The student advisers have voiced their complaints. The administration has responded favorably. It is now up to the Class of 1941. With their support, the Dean's Heception will mark the beginning of a trend toward better faculty-student relations.
Mare Hirschfeld and fim Sartori are co-chairmen of the student advising program for the College of Arts of Sciences.

\section*{Letters}

\section*{Orange offense}

To the editor
In Francis Sheflin'a letter (DO, Nov. 2) he tailss about Syracuse University pride and how it is represented by an Indian, the Saltine Warsior, "an honorable, not disgraceful, figure, ready to uphold the dignity of Syracuse University and all who go here." Who is going to tuphold the digaity; of the Native Ammerican students? Certainly not the fool in the war bonnet who cuns around during the football games like his bucksicins were on fixe.
What if SU's symbol was the "Saltine Negro," a student in blackface who tep danced, srimned,
and rolled his eyes at all the football games? Is this a symbol black students could be proud of'N No. The idea of that kind of symbol is tastelesa and offensive. The "Saltine Warrior" symbol is equally tasteless and offensive, for the exact same reasons.
If Sheflin's pride would be dismished by Syracuse University changing its mascot from an insulting mock-Indian to a bilious looking orange with arms and lega looking orange with arms and lega
(and a navel?), then maybe he (and a navel?, then maybe he toesn t have win with.

Tim Hernasa

\section*{Where's our pigbook?}

To the editor.
Gover-ups, ineptitute and diatrust. at our Student Association? What a shocker! Well, not really. Hugh MacNiven's post-resignation comments (DO, Oct 31) should come as no surprise. Three weeks ago a similar picture of SA was painted in heport newsmagazine. How could you misg newsmagazine. How could you miss cover'and a couple of headitines were cover and a couple of headintes were enough to cause a threat to Report's Inancing; but not one public heard.
It-may be too late to do anything abont Nich Crowell's ad-
ministration, but MacNiven's
resignation thould serve to open a few rainda: instead of looking at picturea look at substance! Another article in that same Report pointed out that SU's "first publication on campus" hadn't yet been published as lateas Gct. 10 . Now it's November and i, for one, have still not heard a word about "Orange Aid."

A suggestion to Rob Light: at the next assembly meeting, instead of asking for more money for youraelf and a discussion on Report, ask where the "pig book" is. At least we'll know you can do more than look at pictures and dixty words.

Bud Walker

\section*{Memo to}

The chancellor benda memoran dums to people all over the university every day, and most are pretty routine staff.
However, one that he sent to deans of the university's various schools and directors of acaderinic programs Nov. 3 strikes us as intereating Nov, and inconses ustent.

\section*{the chancel}

The memo urges deans and directors to "encourage nembers of the faculty to help black students make up whatever (work) may be naigeed by their not attending classes" on Elack Solidarity Day, Nov. 7.

On its own merits, gending the memo is a very Iaudable action on the chancellor'spart, inasmuch as
it reminds the academic community of its obligation to respect the rights of a group of atudents with strong cultural identity and heritage to observe special oc casions related to that heritage.
What bothers us is the in consistency of the chancellor's action. This September, when Jewish students boycotted classes in aubstantial pumbers on fosh Hashanal (the high holy days of that religious faith) no mersos were sent:- The chancellor's office contended at that time that the coniversity had a lond hestanding univeranty had a longreanding policy respecting student rights in
this area, so no announcernent was necessary.

Meanwhile, a number of inuidients were neported in whieh ftudents were faced with missing
in a particular course by observing the holiday and not attending classes.

If the chancellor's memo of Nov. 3 represents a first step toward making a coherent and fair policy on respecting the rights of religious or respectial groups to celebrate days. or racial groupes to celebratural or religious heritage, we support it. But if it is an isolated action on the chancellor's part, we suggest he is favoring a single group's desire for respect at the expense of other groups.
Our viewpoint has not changed since the Rosh Hashanah boycott: since the Rosh Hashanah boycott:
SU needs a fair, cleariy worded and SU needs a fair, cleariy wordedand holidays not on the university calendar.
David Aberneithy for The Daily

make the actmal repairm. A.ccordiag to Peter Cardiner, energy coordinator for PEACE, his people bought materials and did actual woris on about eight houges. He shid their work with the university constitutes a small part of cheir entire program at PEACE.
Gardnex did any that they: Would increase the number of homes that they. would fix by about five or six times this coming year. Drucker also shid. that some people became interested in the project, carae to them for advice and did their own improvernents.
The two graduate atudents who are working with Vrucker. on this project are Ken Kazmer and James Rosa.
Kazmer, who has been working on the project singe-June, said HEACE had certain guidelines to follow. such as coing weatherstripping and caulking along with suggested improvements. He said this "threw off results" for the study. But PEACE is still in volved in installing storm windows for the project, said Kazmer, So pEACE in volvement is a small part of the total project.

Kazraer explained the three categories of homes used in the study. 'l'he first, the homes SU solicited, has about 198 homes in it. A second category is one where people came for advice and did the irnprovements themselves. The last category is where homes had work done on them and people called and asked if they could be part of the study. *The bulk of the study is taken from homes solicited by us," said Kazmer.

Kazmer said they cannot in sufate all the homes - they have to be gelective on which homes would suit the project. "We'd like to insulate all the homes" but they are limited in the amount of money they can spend.

The two Etudents must look for specific types of homes and try "dipiomatically explaining to people why-their house cannot be used in the study.
Kazmer and Hosa's duties
are to measure the area of

houses and framacers, releaso the information, make bugges. tions and keep in contact with the reaicients:
Kazmer, public administration atasdent, and Rosa, a mechanical engineering atudent, work together on the project Kazmer is reg. pongible for administering the grant and together they figure the calculations and viait homes. "As a learaing ex: perience it is sreat," said Kammer.
"Most of the people we go see are living alone," baid Rosa, who began work on the project this fall. "They areover 65 and talk to no one else," he said. "We give help with their homes and we talk to them.
Kazmer said the people have been very grateful for the work that has been done. He said they are concerned people and interesting to talk to and very polite." He said there are some 'heartbreak' cases, and many of the residents are widows who live alone. Kazmer said one had to understand that if Havings were notmade on their utility bill, that would mean that much less money would go to some other necessity such as food.

The public administration student said that \(N M\) will "get tirst crack at the data results." He said that without NM, the study couid not be done because it is necessary to ob tain the utility bills and money is needed to make improvements.
"Hopefully we'll have significant results; at the end of the three years, said Kazmer. "I think there will be," he added.

He said the program is important not only "because of the social need for it' but also "because of the hard scientific data'rthat'is produced.

Drucker said SU sent out about 2,000 inquiries ta persoms who qualified to participate in the aurvey. He said "about 8 or 10 per cent of the peaple replied.
Research associate Manas Ucar, who is assisting Drucker with the projecti said the elderly "get good advice, free

work and suppliess and they get good woric done." He said he felt the lack of public intereat was becrane the elderly may have been sue picions of the project and have not thought it worthwhile.
Lavranchak agreed. with
Ucar that peopleanight be sugpicioua, and added they may have been skeptical over, the legitimacy of the program egutious over NM'a and su's intentions, or did not want to accept help because they viewed it as a handout.
Results have varied for the first year in energy, sasinge, said Lavranchok. These resulte will provide in-
formation to the government on the effects of winterizing homes. Kazmer said ithere has been nothing finalized yet" in the way of data.
Dracker. Lavranchuk and Gardner said there has been great response to the program and for the most part it has been very favorable.
Lavranchuk said there was an unusual yet important complaint. He said a blind person who greatly appreciated the who greatiy appreciated the
gavings he got from wald inGilation was prevented from gearing neighborhood sounds which enabled him to move around his house. Admitting that they made a mistake. Lavranchuk said they did not think that insulation would pose that problem.
Lavranchak said that setback thermostats at night could cause a reduction in the energy bill. But he said there was about 100 per cent refuaal to have theminstalled because older people were afraid they would not work and that they would wake up cold in the morning. Lavranchuk said "an educational process" is needed.

Drucker antd there'IG great potential for energy savinge in many area homes, not just the older, inner-city ones. He.gaid even in well-built homes there was considerable room for improwement. Dracker eaid if correct improvements were made in the gas-run houses in the city, there could be savings of 30 per cent in gas usage. He said that even a 20 per cent decrease in gas usage would mean a lot to a city the aize of Syracuse.
Research associate Ucar said engineers at other schools would probably consider this type of research "murndane." Hut Ucar and those involved feel it it is a very worthwhile project which saves dollars along with energy.

\title{
Local garage served summons in lawsuit over campus parking
}

Tamblin'z Garaze, 4101 s Salina St, Wedaesday became the fourth respondent to be eierved, a summons in the lawsuit challenging Syracuse University's right to ticket and tow cars on campus.
Tamblin's has until Nov, 21 to reply to the summons.
Howard Birnbach, a вecondyear SU law student who is representing himselfin the dispute, had his car towed from university property by the garage, Sept. 13. He claimed the car the next day after paying a \(\$ 19.26\) towing charge. Summonses in the case have been served on Chancellor Melvin A. Eggers; John C. Zrebiec, director of safety and security; and Thomas L. Lipa, director of real eatate, parking and tranoportation. The university is represented by Bond, Schoeneck and King, a Syracuse law firm.
Birnbach asid yesterday all papers concerning his case will be filed in court by Monday at the latest. Both parties in the suit plan to ask for ummary judgment, Nov. 21 which would settle ine mat. ter immediatmly, without a trial.

Summary judgment is requested when a case is a question of interpretation of the law and no facts are in dispute, according to H Dean Hebertis. who will reprentst in court
"At this point, I believe there is significant chance for summary judgment on Nov. 21," Birnbach said yesterday.
Aithough he is "highly optimistic" about the outcome of the case, he said he expects it to be challenging. "Bond, Schoeneck and king are more than worthy adversaries, he will be queaton remains will be, a worthy adversary or them.

\section*{Solidarity Day}

A memo urging deans and directors to encourage the faculty to help black stadents make up class work missed on Black Solidarity Day, Monday, was circulated yeaterday by Chancellor Melvin A. Eggers.
"1 know this notice will arrive quite late," the memo states. "Nevertheless. I ask you to do what you can.
Black Solidarity Lay is an annual observation of black heritage, promoting black awareness and unity.

The memo was written at the request of Bill Simmons, administrative operations chairperson of the Student ArroAmerican Society, and Robert Hill, special assistant to the chancellor for at. firmative action, according to Simmons.

\section*{Students sook board seats}

ORL official terms poll 'too vague'

By Walecia Konrad
The director of the Office of Residential Life (ORL) said yesterday that ire is interested in the problems and questions raised by a eurvey of married South Campus tenants thin summer, but that "as it is, the survey is much too vague.
I have to know exactly who is complaining about what. As it is, the survey is much too vague," ORL Director James H. Morgan said.

The survey, written and distributed by the South Campus Tenants Organization (SCTU) and the Graduate Student Organization, produced complaints about cold water laundry facilities, snow removal and Centro bus aervice during the school year.
GSO President. Hoss Burke maid he planned to meet with Morgan zind Carol Heagerty, vice président for institutional services, to discuss the survey.
"Most of these complaints deal indirectly with ORL," Morgan said. Whese services are performed by other organizations auch as Hhysical Llant."
\(\rightarrow\) It is difficult to interpret whether some of the regults of the survey are negative or positive," Morgan added.
Acsitive, Morgan added. nual quality of life survey disnual quality of life survey dis*
tributed during the school year, will this year include Soar, Will this year inciuve more specific than the gummer questionnaire. 'lhe quality of life survey was started two years ago for North Cianpus residents by OHI.
Morgan was unzure when the quality of liffesurvey will be distributed. He explained that any overwhelming positive or negative responses will be looked into immediatelly but we already have a good idea of our strengths and weakniesses.'

\section*{Deadline today to drop course without grade}

Al Pacino. Iour times an Academy Award nominee, driver who meets up with Marthe Keller in the movie stars in his first romantic film role as a Grand Prix racing "Robby Doerfield."

\section*{Excessive violence and poor plot detract from intriguing Nazi film}
 Man." University Union Ginema. tonight, 6, Basd and it p.m., Gifford
Auditorium, \(\$ 1.50\).

By Ihavid Absernethy
Marathon Man" is a good film whose aspirations to greatness are mystery-thriller, its plotberomes too convoluted, too mysterious for the viewer to keep track of what s goins on. An often exciting action film, its violence is carried to an extent where it finally becomes repulsive and jaded instead of building tension in the film
The film is about a doctoral can didate in history at Columbia University (Dustin Hoffrman) with an unuaual background: his father. a distinguished historian, was des royed by Mcliarthyism and com mitted suicide, his brother Doc (Roy chieder) fronts as an oil executive out actually works for an ultrasecret which is never revealed.

Schieder is murdered by the film's villain. Christian Szell, a Nazi war ciminal bralliantly played by Sir Laurence Olivier. Ine Naza comes out of hiding in a steamy Argenbrother, who has the only key to a safety deposit box full of diamonds, is killed in an auto accident in New York.

Olivier and hia thuge kadnap Hoffman and . . . the plot summary could go on and on without cleary explaining the film's plot - and therein lies "Marathon Man's" greatest weakness. When one views two-thirds of the firm and still coes not understand exacty what is go ing on, one gets the impression William Goldman'a screenplay is a bit too complex.

The confusion in the plot may in part be the result of a flaw in the part be the result of a flaw in the screenplay: there are lots of loose
ends. The identity and purpose of the government agency Doc works the government agency Doc works acript reveal exactly what Marthe Keller is doing in the film at all, besides lending it an \(H\) rating.
The fim's violence initially jolts the viewer, but ahortiy one becomes irsit bored, then confused by the profusions of beatings, stabbings and shootings tnot to mention dental torture performed on Hoffman by Olivier). Scheider spends one quarter of the film in tailored suits one quarter swimming in fake blood and the last half dead
One scene typifies the film's overkill" of violence: there are five characters present, but within two minutes four of them are dead, and bullets fly so thick and fast the poor vewer doesn't know who whom, let alone why

The film is partially redeemed by taut and efrocive performancea Hoftman as atudent who is forced to struggle to survive a birarre zand confuging violent sitantion. William Devane is also excellent as Scheider's cymical and tmiline collengue in the agency, a man with no ethics or principles - just an ob jective.

The filn is not totally without wry humor. At one point Hoffman, who is being pursued by Devane and his goons, successfuly recraits al Herto Rican gang who live in Horman'a apartment building to break into hia apartment and get him clothing and a gun so he can escape.

Marathon Man is a film which succeeds in spite of its excesses Though the plot sometimes drage and frequently confuses. plus being
burdened ty a much too freewheel ing approach to violence, the film has approants, eapecially at the end, where it is entertaining and exciting.

Pacino love st avoids melodr
}

HLLM OFF CAMPOUS: "Bobby

\section*{By Peter A. Casella}

A screen love story in which one of the star-crossed lovers exits via the deathbed is nothing new, but when Al Pacino is half of that couple, the unexpected is the regult.
"Bobly Deerfielic". contains much of the unavoidable schlock of a boy meets girl; zjy catches girl, girl dies Elinn. Much of the stamdard sentimentality, however, is avoided. "Bobby Deerfield" stays away from attempts to savcced on \(a\) higher level: it al to succeed

What pulls the film through is Yacino. He is the unexpected factor in "Bobby Deerfield." It"s his first true love story and the firat time hia character tries to reveal a piece of bimself. Ironically, the audience leaves knowing less about this character than when Hacino tries to hide his motivations from his fellow players.
Pacino plays Deerfield, a auccessful Grand Prix driver, who meets his female copnterpart while visiting a banged-up oomrade en the hospital. Lillian (Marthe Keller) Virtually attacks Bobby witn all the subtiety of the German bintzineig. Sterfires question ancer question ah an evasive sidestep.
Bobby and Lillian face death in their own, very different ways

\section*{Sex Pistols bring life to rock scene}

By Diande Lesniewski
On Oct. 28, area record storef were alled with activity. Prospective record buyers literally were waiting around the stores, waiting for an import album that would arrive at any minute. Excitement filled the air as new wave admirers called friends to alert them of the album"a arrival. "Guess what? Record Theatre's sot 'The Sex Pistols album!
Never Mind The Bollocks, Here's The Sex Pastols on the Vingin label wiat supposed to have been released in July.-The London assaultson lead sincer Iohnay Rotten and drummer Paut Cook delayed the album's relase. The demand for the aibum

\section*{New LP: save your bucks}

Dave Laggins: Ore Way Ticket to Paradise (Epic).

This is a pleasant if not distingaished album, but it lacks in consistency: side one is quite appesling. while side two is not worth more than a first listen. Lotgeins songs are mildly
melodies toward boredom and his lyrics toward banality.
Certainly there is nothing on this album to measure up to "Hlease Come to Boston." The first two racks on aide one, and possibly the title track, stand out as the best
inn this LiP.

David Ahernethy
grew with every passing month This debut album of The sex Pis tols is not only worth the wait but also establishes the band as one of the finest rock ' \(n\) ' roll bands of our time. The music rocks relentlessly with a style äll ita own.
Nine of the il Bongs on "Never Mind The Bollocks" were co-written by former bassist. Gien Matlock. Matlock left the band in early March, and has formed a band called The Rich Kids that has yet to record. Sid Vicious, inventor of the hopping Pogo dance currently sweeping London and old friend of Rottens, took over as bassist.

The songs on the album fall into two categories. Some, such as "No Feelings" and "Problems," deal with the personal world of ine Sex and "God Save The Queen," are social commentaries on the world as he group sees it.
One of the socially-conscious numbers, "Bodies," is bound to canse a great deal of controversy. its graphic lyrics about abortion ar enough to make women's libbers angry and right-to-lifers ill. "But it' agood song," according to some Pis ols fane. Those uncomfortable with the subject matter will not listen to it, no matter how distinctive the melody line or how effective the singing.

Mi" is one of the most effective songs on the aibum. Written afte The Sex Fistols were thrown off the British record label, it features an appropriately sarcastic vocal by Rotten and, blistering guitar work by guitariat Steve Jonea. The number' also gives Rotten a chance to thumb his nope at ABAM Hecords. to whom the Pistols were signed for four hectic days last March.
Just in case any of you were begin ning to think Johnny Kottern is really a lovable kid, "No Feelinga" is his attempt to prove you wrong hotten singes hes got no feelings. 'For anybody else/Eixcept for myself/im beautiful selfish." In 'Problems' the colorful singer ooints his finger at another and tells hem "2he problem is you.
Technically. Rotten is not an ex-

\section*{Jazz musician Mangione to appear tomorrow night \\ Chuck'Mangione, jazz performer \\ Where the Lord Hides." "Land of}
and master of the fiugelhora, will perform Saturday night at 8 in Archbold Gym. The show will feature Mangiane's new jazz quartet.
Tickets are \(\$ 4.50\) for Syracase University students and \(\$ 6\) for all others and at the door. According to Rob Light, University Union concert coordinator, the concert will mark the first time an Archbold Gym audience win be seated in chairs- In the past, the crowd has had to find places on the floor to
a perfornance.
A native of Rochester, Mangione
ceptional minger. However, he can get his point across more effectively than nearly any other singer in rock today. His use of saxcasm in numbers such an New York and vocal trademarks he has eatablished such as trilled \(r\) 's and laughing between choruses.

Guitarist Jones proves himself to be nothing short of extraordinary on "Never Mind The Bollocks." His guitar work wails, it slashes, it charges through a number with ferocity and atrength. Cook and tionous provide a solid nat felps propel the music to a intigh level of energy. From the tenaign of the opening bars of "hiar" to sipn of the opening bars of har to the angry suitax work of "Anarchy inirably throughout the album.

Critics of The Sex Pistols and the entire new wave acene often call it ugly and negative. The Sex Histols music is not pretty and soothing to the nerves. It is powerful and nervejarring. Yet is is also a joyous. energetic music that comes from being alive, young and involved.
Even if'The Sex Pistols were to disband tomorrow, they have accomplished a purpose. They, along with fine bands like the Clash and the Rods, have provided rock with a shot of badly-needed adrenalin. Young bands are important again. The fans are important again. Fock is once more by the people and for the people. And a good time is guaranteed for all.

\section*{WFIKEND CINEMA} Make-Believe", and "Chase the Clouds Away." He won a Girammy Award for the song *Bellavia,
hich was dedicated to his mother.
Members of Mangione's new Guartet are Guitarist Cirant Geissman, reed player Chris Vadala, bassist Charles Meek, and James Bradley Jr- on drums. Their latest release, Feels So Good, is the first Mangione recording to feature his new group.

Mangione'smusic is influenced by "50g bop, "30s swing, Alfred Newman's classical film scores and the symphonic training he received

\section*{Eastwood's machismo highlights western drama}

FILM ON CAMPUS: "The Outlaw Josey Wales." Brockway Cinema, Brockway Events Hoom, tomight and tomorrow, 6:30, 9, and \(11: 30\) p.m. 51.25 .

\section*{By Stewen Titch}
"Ihe Outiaw Josey Wales* is not only Clin Gastwood's heat western to date, but also one of the best films of 1975 , the year it was released. It is a bit different from Eastwood"s past westerns of the 'GOs ("The Good, the Bad, and
the Ugly," A tistfal of Dollaza") in thatitisn't the Ugiy," "A Ehstful of Dollarg") in that itisn't all that high-strung dramatically. Instead While retaining the macho character Lastwood has been identified with over the years, "Josey Wales" places its emphasis on entertainment. The plot is episodic, following Josey's various exploits, The movie begins during the Civil War Union soldiers burn Josey's Missourifarm and kill his wife and son
dosey joins a band of renegades and they ride throughout the state killing anyone and destroying anything having to do with the United renegade America. When the war ends. che vinces all but josey to surrender to the Union Ances all but Josey to surrender to the Union Army, where they are promised to be treated Union officer and a cormupt \(s\) sentor is Union affed tricked and the renegades are ahot.
Alver avenging in comrades deaths in a heads toward Texas with y young camp, wales headived the masancre.
Though he has beer
wal outiaw, Wales really is not. He s more or less a haven from the bounty hunters and Union Hedleys. As be travele he atops to defend vic timized gouls and allows weary travellers tojoin him. Ch.
Chief Dan George appears in the most colorful supporting role as the "civilized" Cherokee. He terms himself that because he has gotten so used to the whiteman's civilized ways he has lost many of his Indian ways.

George, as he has done in other films, makes humorous, but very true, philosophical quips concerning the Indian in relation to the white man. The screenplay by Phil Kaufman and Sonia Chernus gives him some outright genis:
Enstwood is good in the title role. Not only does he perfectly incarnate the sweaty, unshaven, tobacco-chewing Wales, but he goes beyond the surface machismo and adds a third dimension to the character. Even though Wales is coldly cynical most of the time, there are

Mean and angry Clint Eastwood stars as the revenging loner in "The Outtaw Josey Wales." Brockway Cinema. tonight amd tormorrow evening.
points when sensitivity is apparent in his character. Eastwood, who also directed, reminds the audience through quick flashbacks hat Josey was, once, a huaband and father.

Most of the action in "Jorey Wales" tate place in the out-af-doors. Themoviewasthoton location in Arizona, Utah and northern California, and the photography by Bruce Surtees provides aome beautiful panoraman of the Southwest.
The film's only flaw is that it is a bit too long t. tends to drag before the climactic shootout between Wales and a gang of bounty hunters. However, once the action starts, the slowermoving sequences are forgotien.

\section*{Proe 12 \\ Royal Gambit' succeeds in SU drama production}

By Chris Nequs "Royal Gambit," which Thened last night at the Regent Theatre, is presented with the professionalism and polish found in mont Syracuse Univergity Drama Department productions. Con aspects make it a memorable theatrical experience.
The play focuses on King Hexry VIII's defiance of the world and his changing code of ethics to suit his marriage bed.
He denounces the komat Catholic Chureh when it nulment of his first marriage. He has his second wife put to He has his second wife put to death on faltery when whe does not bear him ason. He hashisfifth bear himason. He has his irinh his philosophy that women his philosophy that women
should freely give of their should
Thes story leads you through his six marriages as Henry changes from a young, virile leader to a gout-stricken old nan.
Only aeven characters, Henry and his six wives, appear in the show, Some historical liberties have been taken by the playwright. Hermann Gressiker, to allow the wives situations to intertwine, making secondary characters unnecessary.

Portraying Henry is drama department genior John Ahlin. A veteran of the department Ahlin displays a consistency of character rare for an actor his age. His strong stage presence and hia reatmblance to the legendary king make his performance all the more impressive.

Henry's firat wife, Catherine, is sensitively portrayed by Shawn Hoakina. Hoskins shows the objective. detached side of Catherine. without losing aight of her undying love for Henry
Another gtandout performance is given by Lori Putnam in the part of Kathryn Howard. As a woman torn by the need to a woman Lorn by past sexual pergiven for her past sexual permissiveness, that is pelievable sincerity that is believable from the Rou
Kounding out the cast are Boleyn, Lopinto as Anne Boleyn, Ho Slack As Jane Seymour, Kobin Kuinsky as Annn of Cleves and Meryl Schafter as Kate Parr
The scenic and lighting designs, done by William Adams, keep well with the direct. unobtrusive style of the play. The set is a series of levels and doorways, making it versatile for the many different scenes to be without distraction. The lighting is
generally. cold and well defined. except for an occamionat beam of red light for symbolic effect.

Directing the show is Lr. Beverly Bluem, an associate profestor in the drama department. Dr. Hiuem's *tag' ing is simple, but effective. What was lacking throughout however, was the strength of conviction necessary to make this a great production, rather than a good one.
In Henry, we do not see the strength of a raler whose impulse for a woman could cause him to break tiea with the Koman Catholic Church or risk an international incident We see a rather off-handed dis missal of the obstacle in his mayal of the obstacle in his Nay.
Neither do we see in Henry a strong charismatic charm that would cauge 80 many women to want to devote their lives to hims.
For these reasons one leaves the theater with a feeling that it was just an enjoyable evening of theater, rather than a meaningful one.

\section*{\(\star\) A\&S to boost doctoral programs}

Cominued fromy pege orem first visit lyan gaid the department's doctoral program has not officially received a rating, but has been urged to hire two or three arged taculty who have produced "extensive and infuential" work
At the present time, the philosphy department ham iv full-time faculty. more than half of whora are senior members. Thau said junior faculty appointments to the department in the recent past have been predomimant.
As a point of comparison, Than maid that of the 14 philosophy Ph.D. programs reviewed by the Board of Hegents, five programs were
given an acceptable rating and Give were denied accreditation with unacceptable ratings.
Among the schools with programs that mwon't have to change" were Cornell, Colum-

\section*{Can the Opngemen sink the Navy? \\ By Foel Stashenko}

The Syracuse Orangemen and the Midshipmen of Navy play a game one between two mediocre teams with mediocre records, played on a mediocre field on what will probably be a leld on what Now' the ti
Now sthe time of the college football seabon when teams such as SU (3-5) and Navy (4-4)must reach back and get that something extra to keep them season, to keep them from being mired in mediocrity.

For Navy, there is always the season ending Arrmy game, when the two worst major college teams to be nationally televised all year square off their annual military maneuver

But for Syracuse the problem is more acute. What does a \(3-5\) team play for'? A winning season," said SU defensive back Larry King. "We ve been playing good but we've come up short We know we can take the last three games. We can't let down and quit." Last year the team did let down After seven weeks of the season, \(\mathrm{S} U\) was \(3-4\) but during the last four games the team collapsed faster than the Arizona at P'earl Harbor. SU finished at 3-8.

Last year there were players who mellowed out the last half of the season, King said. "But this team is like night and day. It's a different teann
and I don't think it will happen again." and idon't thinkitwill happen again." season occurred in the Navy game at Archbold as the Midshipmen torpedoed SU \(27-10\), completely dominating the flat Orange.
"Last year they were a \(1-5\) team." King said, "and they blew us out. 'They kicked our asses bad. We just weren't ready but there was no way they should have beaten us."

But beat SU they did, and it was more than bad. The Midshipmen outgained SU 487 yards to 144 , out passed them 169 to 20 and made 23 more first downs than SU.

A lot of this game has to do with the revenge factor," said SU coach Frank noses in the dirt Jast year. I'd just like to pay them back for it."

Yet payments on the Midshipmen installment plan might not be enough to avenge the loss.

The Midshipmen feature a tough running attack. a potent passing attack and the traditionally high instinct to attack which service academy teams always muster.
They are led by tuilback Joe Gattuso. who ran over SU last year for rys yards. This season the 5 -foot-11. 190) pound back has gained \(88 \$\) yards in 175 attempts. He is joined by the Hay City (Mich.) roller, fullback Larry Klawinski, who has run for \(\mathbf{\$ 4} \mathbf{4}\) yards this season on 91 carries.

But despite this potent running game, Maloney does not see Gattuso and Klawinski as the key to the game.

Gattuso's a very good back, he's got great balance," Maloney said. "But We've got to stop (quarterback Bob Leszczynski. He g got a great arm. He s already a major league quarterback." eszczynski has thrown for 1,02 ti yards this year on 77 completions in

The Midshipmen of Navy, 4-4 this season, face the 3-5 Syrascuse Orangemen tomorrow in Annapolis, Md. Navy has defeated Connecticut. Air Force. The Citadel and William and Mary this season while SU has beaten teams
from Washington, Illinois and. Virginia. Game Enthefrom the Navy-Marine Corps Memorial Stadium in Annapotis is 1:30 p.m. The game can be heard on WSYR-AM 570 and WAER-FMA 88

159 attempts and seven touchdowns.
His favorite receiver is split end Phil McConkey, who has gained 444 yards on 25 catches.
While Maloney and SU remain wary of Navy, the Midshipmen are also suspicious of the deceptive \(3-5\) Orangemen.

In looking at Syracuse, it's hard to figure how they've lost five games," said Navy coach George Welsh. "They certainly gave Penn State and pittsburgh batties. Their offense is opened up more this year. We'll have to Hurley. He didn't play against us last Hurley. He didn't play aga.

Part of the reason for SU's futility in last season's Navy game was a shoulder injury to the Orange quarterback which kept him out of all but two plays.
This season

This season, however. Hurley has been healthy and so are his statistics. The junior is now ninth in the country in total offense with 189.5 yards per game. He has run for 448 total yards in 158 carries.
Hut Hurley alone cannot carry or throw the Orangemen to victory.
"In all honesty this will be a much tougher challenge than last week, Maloney said. "But we"ve been better each week, and we can meet each challenge better."

With three weeks to go in the Urangemen's season the challenges come from both the Midshipmen and the throws of mediocrity.

By Mike McAlary

\section*{The warrior speaks}

Editors note: Guest writing for Mr. McAlary, who is still in hiding after last week's column. is the Saltine Warrior.

A lot of people have been getting me upset lately and they're not all members of the football team. Heck, the team's OK, not great, but not bad either. As a matter of fact, the blue paint I got doused with before the Penn State game wasn't even that upsetting. Heck, I've been doused with more pungent liquids than blue paint by more than one inebriated fraternity member seeking a social release.

What does bother me is all this talk about sending me to the happy hanting grounds. I'll admit that I may seem a bit snobbish with my nose up in the air all the time, but I'm really not as bad as a lot of other people I see around here. 1 had no choice about the heavy blue makeup and my dress may be a bit exotic but you don't see me toting a Gucci bag around - well, that's not what I wanted to talk about today anyway.
So you wanna dump me, huh? Well what are you gonna get in my place? A Southern Saltine cracker or the real citadel of Urange pride, Anita Bryant? Then again, we could always go back to our old colors, pink and blue, and call ourselves the Finkmen and have a giant grapefruit on the Quad. On second thought, maybe that isn't such a good idea. Anita would never \({ }^{\prime}\) upport a group called the Pinkmen
Now l'm laying it on the linehere, maybe thereis another alternative for a mascot besides me. How about stealing part of Notre Dame's and calling ourselves " The Drinking Irish." Maybe you'd like to be known as the Syracuse Snownen or the Zerocuse Zipperheads. Maybe we could appease the Jewish population of the school and call ourselves the Syracuse Wanderers. Or we could appease both the Christian sector and Frank Perdue chicken lovers by calling ourselves the Friars. We could allude to the administration and call ourselves the Syracuse Steplers.
The alternatives are limitless and insane. .. Only, I belong.
1 was here before any of you. I was here with the Onadagas when we were a member of the mighty and powerful Iroquois Six nations. We roamed this area from Uticn to Bufialo and we were mighty and feared. We were apower in the blast. This was before Penn State.

Our greatest chief was Tadodaho, who became the legendary leader of the Six Nations after defeating the Cayugas, Oneidas and Mohawks.ile at furs refused to join the Iroquois mation and becane known as "Hewho blocks the path" but later with the mighty Onadagans he made the Iroquois nation proud and mighty race of people. This was before Joe Paterno:

Now we reside on the regervation, but we are not a fallen people. We are proud and noble and many ery for dignity. Just like the football team:

Long before any of you knew about Syractse, I was Syiacuge I watched. Jim Brown walk by me. Brnie Davis often stoped to lookup to me, and FloydLittle, the gentle warrior, took pride in me. Many people tell methat i. represent too much pride io mascot the Leana what play in Arehbod novir. diasgree. They have the aame noble spirit as I. They play and battle in miye name. We have a tractition in common, yon and I, Syractrae. We have atruggled together long you and-L I am an Onandegan and we axetthe Eiremalkers. I have long ingtilled the fire in you. A-fire in spiritcletimecong timue. I beloing.
 back Joe Gattuso (left). defensive beck John Sturges (middie) End safety Mike Galpin (right). Gattuso tubt run for 888
made 36 tackles.

\section*{SA officials say Crowell altered 'drunk VP' story \\ By Marsha Eppolito \\ According to Dale, Crowell \\ Crowell's most recent ex-}

Wo SA oincials have charged that Rich Crowell, SA president, changed his story on the alleged drunkenneat of Hugh MacNiven, then vice president for administrative operations, on the night of hast spring's constitutional referentiom
Crowell and Friday he knew MacNiven was drunk that night because two Daily Orange reporters called him the next day and told him. Crowell refused to identify the reporters.
Jordan Dale, and Hick Margolius, vice president of studeat programs, said Crowell has changed his story and has not produced any evidence to back uphis present explaniation.
Crowell said the reporters told him MacNiven got drunk at the SA building. 821 University Ave., after he had finighed counting the ballots at The Daily Orange office,
1101 E. Adams St. Hie (MacNiven) Adams St. he (Macpacks of beer that evening," Crowell asid Tuesday nigint.
On WAER's Orange Perspective Tuesday night, MacNiven anid foar SA of ficials apoke of releaining a fraudulent vote count on the referendum and that there was sufficient doubt in his mind to remove the ballots and talce them to the DO office to be recounted.
Dale said Crowell alno told him Friday the reason he knew MacNiven was drunk was the reporters' call.

However, the day before, Crowell gave Dale a different atory on how he late Mia Niven was drunk, Dale said. said he saw empty beer cans and blank ballots "all over the place" when he let the janitor in the next morning, and that MacNiven was the only one with a key to the building. Dale said be understood Crowell to be referring to MacNiven's office.
Dalé added that Crowell told him he also knew MacNiven was drunk because Crowell called MacNiven the next morning and MacNiven said he was sick and had been drinling the night before.

\section*{Code may be illegal}

By Tod Porter
and Sy Montgomery The electrical code for the City of Syracuse may beillegal because it conflicts with the state electrical code, according
to Jay \(\mathbf{B}\). Westcott, a former to Jay B. Westcott, a former Bor.
Westcott, professor emeritus of political science and public administration, said Syracuse requires that electrical wiring be run through metal conduita in the basement of homes. The state electrical code requires only that the wire be inmulated by plastic. Westcott said using conduit is mone costly and possibly more dangerous.
A conduit is a métal pipe used to protect electrical wiring. Weatcott said the conduit may be more dangerous than plastic covering because if the ineulation on the wireinside the conduit is brokerr the current can pass through the entire conduit.
Last Fridsy night Westcott said he had read a ligt of
plamation is that one of the reportera was coming out of Jreck Sub shop, 175 Marahall St , that night when he saw MacNiven with a ballot box walking down University Avenue in the direction of the DO offices.
MacNiven said he did not walk down University Avenue that night, adding that he deliberately walked three blocks out of his way so no one would know he way going to the DO.
charges of illegalities in Mayor Lee Alexander's administration to a staff member of Sen. Daniel Y. Moynihan's of Sen. Daniel P. Moynihans Moynihan not to apdeak at a Moyniham not to apeak at a
rally for Alexander Saturday.

\section*{Hy Tim Wendel}

Federal matching funds to save Loew's State Theatre from the wrecker's ball have been promised by the deputy state parks commisaioner for historic preservation.
Frederick Rath Jr. announced his recommendations Friday to members of the Syracuse Area Landmark Theater (SALT) at a meeting in the upatairs lobby of the south Salina Street theater.
Once the spplication for federal funds has been furnished, Haumsaid, SAL'T' will "expect the funds by the end of the week.'
According to Peter Banm, SALT vice president, Rath said the theater would be immediately eligible for up to Si35,000 in federal matching funds.

The funding will come from the U.S. National Park

\section*{Coalition lobbies for students}

By Jamet Penmington
Abany is not just the atate capitol, it is also the home of the Independent Student Coatition. (ISC) - a lobbying group that helpe atudents (1SC) - a lobbying group that helps atudents with financial assistan
and housing problems.
Organized: in April 1976, ISC xepresents atudents attending private univeraities and collegea across New York State.
When the group was formed, only about ten schools were ISC naembers, butfrom Septernber 1976 to January is77, membership grew to 73 schools.
According to Barry Fleishman, IsC director of operations, the key to 1 NC 's success is representation.
The more students ISC representa, the more power it has, he said. If the 300 -plus schools throughout the state belonged to ISC, it would represent 220,000 students.
One of the most difficult parts of lobbying in the legislature is fighting the stereotypes about private universities, Heishman said. Most people believe all students attending private schools are rich. and this is false, hesaid. State and private schools enroll the same type of and private schools enroil the same type of student, Studies show that economically points atudents
different.

ISC is voluntarily funded by a part of each member achools' student activity budget. A member school contributes 50 cente for each full-time student enrolled in the school.

Last year, ISC lobbied against Gov. Hugh Carey's propoted \(\$ 40\) miltion reduction in the Careys proposed awards were only reduced by \(\$ 10\) million. They also succeeded in getting legislation mandating the commissioner of education to specify and regulate what information must be contained in New York State college catalogs.

This year ISC is lobbying for:
the elimination of the automatic \(\$ 200\) reduc tion in TAP awards to students who have received four or more award payments.
= the implementation of an award schedule for part-time students.
- an increase in the maximum TAP award from \(\$ 2,000\) to \(\$ 5,000\).
- the elimination of the separate award schedule for single, independent students.

Amy Cario, director of external affairs. suggested that any student, with financial aid problems should contact isc. in most cases we
Carlo also urged students to get invol ved with isc: .We need the force of numbers to take with us to Albany, *he said.

Fluglehorn magic
The Chuck Mangione Oumrtet enchanted a mellout crowd at Archbold Gym Smeurdey Night. Bee review on pege E. (Ptiotoe by Stepiten withere).

"Nothing can melt human and social needs faster than the willingness of one individual to involve himself voluntarily in helping another individual overcome his problems."

In a foot
In a foctnote to Article 18 , section \(374-\mathrm{a}\) of the state building code, Syracuse is listed amang the cities which accepted the entire atate Build ing Construction Code.
Ohe Syracuse Common Council adopted the use of the state electrical code on Sept. 27. 1971, according to the proceedings account of the meeting. The ordinance was passed by a 5-4 vote, and took effect Jan. 1 , 1972.
Daniel Sowa, asaistant busineas manager for Local 43 of the International Brotherhood of Electrical Workers, said the cost of the conduit and the plastic (Homex) cable are about the same. "We are fully supportive of the conduit. Kafety-wise there can be no comparison," Bova said.
bova said it is not as ensy to damage a wire protected by conduit. He called the danger of tire caused by electrical wiring "one-tenth percent" compared to Komex cable.
W. Howard Ciard, associate professor of electrical and computer engineering, aizid there is no evidence that conduits are safer for wiring in normal thousing. Card said that because of added costs of materials-and especially labor costs of installation, concluits cost about 50 percent more than Homex.

Using non-metalitic sheath cable, the conductors are enclosed in one covering. It"s simply a matter of nailing or etapling it to the building." Card said.
However, conduit insulation s a two-step process, he said. Finst, the pipe must be cast to size, bent and fastened to the buiding. 'han the wires have to be pulled through the conduit. Card said the costs would be expecially high when corduit is added to older duit is added to older
David s. Michel; Commissioner of urban renewal for Syracuse, said he was ambivalent about the use of conduits. He said Fire Chief Thomas Hanton mentioned in a tire, the Homex cable a fire, the komex cable
released noxious gas, but released nomious gas, but added co
Mensive. said Common Coun cil passed legislation to form a codes review committee about three weeks ago. The committee is scheduled to mee within week, he said. Union members, electrical experts engineers and congumers wil be tepresented on the com mittee, Michel said.

\section*{Rich Crowell should resign}

Kich Crowell should resign.
The Student Association president has no credibility. He has made vicious and untrue accusations against an SA official whose sin was to resign and criticize the president. Then, as if libeling Hugh MacNiven was not enough, he attempted to discredit Jordan Dale, speaker of the SA Assembly, when Dale made an effort to find out what actually happened the night ballots were counted last spring.

Crowell has chanked his story about what happened that night numexous times, basing his assertations on phone calls and other sources he refused to name. One thing has been consistant about Crowell's account, however: it has never been true.

The Student Association president is ineffective.
This is a man who went on the radio earlier this semester and said the high point of his administration was getting elected.

Even when he had assembly support, Crowell's idea of executive leadership was to create a larger bureaucracy, as with the Living Center Advisory Council and the newly adopted Student Association Informative Service. LCAC is poorly run and sparsely attended while SAIS, a throwback to the Student Association Public Relation Organization, is nothing more than a glorified filing cabinet.

Moreover, Crowell no longer has assembly support.
Noreover, Crowell no longer has assembly support.
He wrote a threatening letter to the SA credentials committee, waming it not to delve too deeply into charges that one of his vice presidents, Paula Stowell, violated an SA bylaw. The letter alienated many committee members, including Parliamentarian Keith Hutchings, Speaker Jordan Dale and 'Tom Hoffman, a key member of the administrative operations committee

A survey of assembly members conducted by Heport newsmagazine reveals 28 assembly membess disapprove of Crowell's performanceas SA president, 20 don't know and 29 approve - an approval rating of under 38 per cent. The same survey shows 43 members think communication between the assembly and executive branch is inadequate, and only 29 think it adequate.

The Student Association president has encouraged contempt for the rules which govern Student Association. Hy supressing the Paula Stowell investigation he encouraged contempt for the bylaws which supposedly make vice presidents responsible to the assembly. By glossing over the vote fraud incident as just a joke, and going out of his way to discredit individuals who raised it publicly, he encouraged contempt for the rules which supposedly promote honest SA elections.

He has also allowed his vice presidents to attack assembly members in the press, thus discouraging assembly attempts to keep the executive branch of the government honest.
kich Crowell should resign.
Crowell's resignation would present a major problem in terms of
who will constitutionally succeed him. The vice president for administrative operations is first in line; however, the position is now vacant and even if it were to be filled before Crowell's resignation it would be unwige to thrust the new appointee into what would be an extremely difficult situation.

If the vice presidency of administrative operations is not filled, Paula Stowell, vice president of academic affairs, would be next in line.

We see several reasons why Stowell should decline.
Because of the controversy over her alleged bylaw violation - and Crowell's suppression of inquiry - she has insufficient credibility within the assembly to make her a tenable choice for president. Her competence for her present position is open to question; to advance such an individual to SA's highest office would be ridiculous.

Moreover, Stowell is not only a vice president but also a university senator, and has already conceded her occupation of the latter office limits the time she can devote to'SA. During a difficult transition SA would need a candidate who could devote full time to restoring the organization's tattered credibility.
That leaves two vice presidents: Scott Klein in university/community relations and Hick Margolius in student programs. Klein is already using the assembly as a forum for his as yet undeclared presidential campaign; to place him in the office of president would inevitably bias the upcoming election.

That leaves only Margolius. Margolius is a clearly acceptable candidate, since he has credibility and respect within the assembly and a solid record of tangible achievement in student programs including some successful changes in Food Service. The Report survey shows, of 30 student programs committee members, 19 think his performance excellent, 11 good.

Margolius would inevitably be hampered by the extensive hostility felt toward him within the executive branch; but what happens in the executive branch is less important, in these last weeks, than maintaining the positive inroads made this semester in assembly attendance and attitude. Margolius could do that.

Hich Crowell is not a credible figure. He is not effective. He lacks the support of the assembly. If he limps through the balance of his term under such circumstances, he will do more than waste a few weeks. He will destroy the credibility of the presidency and hamper the effectiveness of future presidents and assemblies.

Kich Crowell should resign.
David Abernethy and Jim Naughton for The Daily Orange

\section*{Loew's survival: the community must give}

Members of Syracuse Area Laridmark Theatre (SALI') were breathing sighe of relief Saturday at Loew's Staite Theatre. From over the horizon the cavalry (in the form of Frederick Keath Jr., deputy state parks commissioner of historic preservation) had saved the day by promising federal matching funds. The funds will save the theater from being demolished. the theate

While the theater again had a vibrant air about it, the struggle in the
upcoming year to restore Loew's will be just as difficult as the fund drive to purchase the landmark.
In the past, such stars as Henry Fonda, Milton Berle and Al Jolsen entertained on the Loew's stage. Hut for the theater to again attract topquality performers will take more effort, work and money than this community seems to realize.
Estimates range from \(\$ 100,000\) to \(\$ 400,000\) on the sum needed to restore the theater. The possibility of future
government funds depends upon how couch progress restoration makes on a local level. If SALT makes littie finamcial headway they will receive a minimum of help from the atate and federal government, and could agaim face dernolition.

For every dollar you give we can receive one more from the governmer tells his Saturday tour Sroup member, tellis his Saturday tourgroups.
Continuing to give is what the community and Syracuse University must munity and Syracuse Uni
do if loew's is to survive.

I If loew's is to survive.
"We received some of
We received some of our greatest aupport, in terms of time and money. from the university," said Yeter Baum, SAL'I' vice president. "If you have a opecial skill like electrical wozk or just want to help out, come on down. Just because we are now able to purchase the theater does not mean we do not need further help."
A full-time director and staff must be hired so the theater can begin normal operations. This requires cash. Much of the theater's interior must be cleaned and hand-rafted antiquen munt berestored. Ihis requires the time of many volunteers.
Although there is a separation between the community and university in the city of Syracuse, low fs represenva a common goal for each
alongside a member of the community scrubbing imported tile, or replacing the houke lights while hanging from the catwaik above the theater's suspended ceiling.

Loew'a has been saved for now. Hutit can only continue

\section*{Arena could help admissions}

Hy Martha Vickery
"Any way that greater visibility of the institution can be achieyed is the right way for Syracuse University to go," said Wirector of Admissions Thomas W. Cummings Jr. about the proposed new stadium.
Curmmings explained that in the long run, the university's ability to do things "well and differently from other institutions will ultimately make the difference in competition for recruitment."

Needed: paste-up artists.

Call Sean at 423-2127.

He cited Stanford, the University of Southern California, Michigan State University, University of Pittsburgh and pennsylvania State University as examples of institations whose popularity has risen because of participation in sports.
SU has a long tradition of involvement in college football on the national level and, as far as recruitment is concerned, keeping a popular tradition is very important, he added.
"As much as 25 per cent of mention of the university in the media is through sports news," he said, "and 27 per cent of new stadents surveyed said they first heard of Syracuse University, through radio, newspaper and television."
Cummings said that it makes no difference, as far as impact on recruitment is concerned, whether the county or the university alone builds the stadium.

The eommunity and the university both will benefit from the stadium;" he said. "The community will especially benefit with the vanioue events that can be planned for a larger stadium and the consequent flow of crowds through the city:"

\section*{Mangione jazz celebrates life}

By Steve Bonner The Chuck Mangione Quartet is proof that jazz, despite the occamional melancholy of its blues-based introapection, is uitimately a celobration of life. The group's Saturday night pexformance in Archbold Gym was warm and apirited; an enthusiastically professional performance that set the tone for the evening as purposely upbeat.
Mangione's long, stately introductory trumpet solo to "Hill Where the Lord Hides" opened the first set. The song had an elegance, an oceanic rhythm built on Chris Vadala's soprano sax solos and Charles Meek's bass. Vadala performed excellently the entire two-and-a-half hour performance, throwing out articulate, thoughtful phrases in an almort offhand manner.

The concert's only diaappointment was "The Eleventh Commandment." the Bong which closed the frrst set. Like a lot of jazz with its feet based on rock ' \(n\) ' roll and its head in the clouds it aounded overly majestic, and pompous. The majestac, and pompous. Yie zib cage but didn't grab your zib cag
heart

Until
Until recently, jazzman Chuck Mangione was only a regional favorite. With his brother Gap he had formed a cadre of musicians based in Rochester that became the focus of jazz for Upstate New York But with the release of three popular and critically ac claimed alburns, one of which won \(s\) Grammy award. Mangione is enjoying a nationwide popularity.
Mangione's commercial success is due in part to a shift inhiamusicaway froma" "clasperimentation with jazz orchestral arrangernents, to a more rock-oriented jazz first popularized by Miles Laves and Herbie Hancock in the and Herbie Hancock in the has stirred the usual debate has stirred the usual debate between the purists, Who dis dain any use of electronics, and the progressives, who want to throw open the doors of jazz to

ANNAPOLIS, Md. - The Navy has often been subjected to aerial devastation. Cite Pearl Harbor, Coral Sea, and now Bill Hurley. Although it was no surprise at-
tack, the Midshipmen of the U.S. tack, the Midshipmen of the U.S. the Orange, now 4-5, Saturday 4534.

Hurley, who went over 1,000 yards passing for the year, with 20 completions on 31 attempts for 2033 yards, kept making waves in the Navy defen-
sive backfield with on-the-line audibles sive backfield with on-the-line audibles
and plays from the bench that kept the Midshipmen bottled up.
The Orange have never offered such a varied offensive attack since Frank Maloney became coach four years ago. lt was poetry in motion. Masic-in acight and occasionally Art Monk over the middle.
Monk, the sophomore hurdlerspeedster who came to Syracuse "because my mother was afraid I'd get in trouble anywhereelse,
Monk caught everything short of a cold against Navy, breaking his own record of catches (setat Pittsburgh) in the game with 14 grabs for 188 yards and game with 14 grabs for 188 yards
and and two touchdowns. Monk has made 34 catches this year, which
prove he's no passing fancy.
It was the defense that was really offensive. Saturday, Both teams allowed over 400 yards, but turned the big play when it counted. With the game tied 17-all in the second period and four minutes still left to play, the Urange defense pulled off the kind of play that has eluded them all year.
pressurre cooker
On third and four from his own 31, Navy quarterback Bob Leszczynski
dropped back to pass and, under heavy pressure, threw a pass for someone, anyone, on the Navy 45. It found Crange warrior back larry King, who promptly ran the ball back to the Navy 15. I'wo plays later halfback Bob Avery ran off right tackle for a five yard led for good, 24-17.
In the first period, with the exception of Navy's first series, each team scored every time it had the ball. Navy's Phil

McConkey ran back a 42-yard Jim Goodwill punt 67 yards for a shipmen thought that was a greater feat than the Normandy landing.
Hurley and his bomb squad returned the favor with a 70 yard, seven play drive that culminated in a three yard pass to Monk. Monk had started in motion and then cut inside two mofion and then at the goal line.
Navy then steamed back upfield in 13 plays for a score that gave them a 14 13 plays forascore thatgavethema 14yard drive when he rolled to the right yard drive when he rolled to the right
side, looked to pass, saw an opening side, looked to pass, saw an opening
and got across the goal line before King could come up to stop him.

With three seconds left in the first period, Syracuse's Dave Jacobs kicked a 42-yard field goal to bring the ©range within four. Navy's Bob (Yo) Tata swong his leg from 17 yards out to connect on a 27 -yarder that put Navy up by seven, 17-10.

The Orangemen returned with a 71 . yard scoring dive that was sheer Art. Art Monk, that is.
Hurley threw to Monk six times on the drive for 54 yards. Monk caught all but one of those, when Hurley overthrew him in the end zone. On a second and goal Hurley rolled to the nght side, lowered his head and drove into the end zone.

Booted out by Navy
Navy's Tata brought the seamen back to within four with a 3 3s-yard field goal with just over two minutes to play. On a first and ten from his own 38 , Hurley tired a \(52-y a r d\) bomb to Monk, who ran to the lo-yard line. It was totally unexpected. It seemed unAmerican. It was Pearl Harbor deja vu. Three plays later Hurley found Monk open in the end zone.
I'he score at the half was Syracuse \(\mathbf{3 1}\) and Navy 20.
After Jacobs missed, a 52 -yarder against the wind, the Urange appeared to be in-trouble. Navy was steadily cruising uptield at 10 yards a crack until theygot to the Syracuse 41. Una first and ten Leszezymski dropped back to pass.
As the onrushing Orange linestarted to drop him, he passed a ball that was complete to Syracuse's John Kinley. After Kinley carried two.Midshipmen tive yards on his back, he pitched it to

\section*{A picture of Art}

SU Betbock Art Monk (45) turned in a masterful performance Saturdey againgt NaYY as he caught 14 pasees for 188 yards to sets now Syracure mingegemerecorci. Monk ilso set the Syracuta seamon mecord for repeptions withes. (Photo by Bruce Johnson)

\section*{It's a rush}

Be it by land or air, the Syracuse Orangemen found enough ways to move the ball Saturday against Navy to run up 45 points din route to victory. Here it is by land: SU quarterback Bill Hurley hands off to Bob Avery who gained 176 yards. by Bruce week in a row he has gone over the century mark in rushing. (Photo

Larry King who raced 41 more up the sideline.

1 saw he had his hands free so 1 kept yelling for him to pitch it to me," King said.
"I just said what the heck he's open," "rhat kid Kinley.
"That play really helped us," Maloney remarked. The Orange scored two plays later when Avery scampered off-right tackle for his second touchdown of the day.
At the start of the final period Navy started a comeback - that Douglas MacArthur would have been proud of. Joe Gattuso scored on a three-yard dive up the middle after an 83 -yard scoring drive. Hurley brought the Orange back to the Navy 46 before John Sturgis intercepted Hurley's only moonball of the day.

\section*{Navy marches}

Leszczynski then aaw Sandy Jonea get by' Syracuse's Warren Harvey, and they connected for a 49-yard gain to the Syracuse 12. Joe Gattuso picked up 10 on the next play and fullback larry Klawinslci bulled over from the two for the score.

The onlooking Midshipmen went
wild, in orderly fashion of course. Hats flew, horns sounded and their gorilla mew, horns sounded and their gorilia mascot was going...well...ape. Gven the Navy goat was in hysterics. He stood
up for the first time since being pulled np for the first
onto the field. over ten minutes to play, needed a long, time-consuming drive. Maloney knew, t, Navy knew it and Hurley knew it.
Hurley and the Orangemen keptit on the ground and Avery, now gaining almost six a crack, was instrumentalin the nine-yard drive that brought SU to the Navy 22 . Hurley dropped back to pass. His receiver, Nike dones, drojped the man covering him with a bump, finished his curl-in pattern and stood waving his hands in the end zoneHurley fired the ball and Jones held on. People started filing out of Navy Marine Stadium.
The Orange defenge held on a fourth and four situation. Then they too filed out of Navy Marine Stadium.
In the lockerroom Maloney was laughing, Monk was smiling and mughey was jotine with Avery They was joking with Avery.
They had beaten. Nary and won another Saturday afternoon war.

\section*{The evolution of Art}

ANNAPOLIS, Md. - The Evolution of Art Monk into one of the most versatile backs in Syracuse grid history is not a surprise. At least not to those who have watched him week in and week out. What is surprising is the time he has done it in. "He is one super, super athlete," Frank Maloney said. We knew he would be great but we never expected him to come along this fast."
In less than four game's time Monk has gone from a possible starter to a possible All-American.
Un Saturday he broke the record for most receptiona (14) in a came, most receiving yards (188) gained in a game and his 34 catches on the year puts him ahead of argy receiver in Orange history.
Monk said. "When gou get off the field and someone gays you Monk said. "When you get off the field and someone says you
broke this or that record, I just say wow. . It comes as. a surprise.'
Surprises have been a big part of the Syracuse Ari Monk eixperience. Monk was mainly a track star before coming to Syracuse.
He caught two passes last year against Oregon State for 45 yards. He was moved to running back in the spring and was battling Mandel Robinson for a starting role this- weason when Robinson got hurt against Oregon State.

Monk had trouble getting around the corner in that game and against North Carolina State he had trouble gething to the corner. Yeople grombled that he wasn't fast enough; which is hard to conceive because Monk runs the 40 in 4.4. The problem with Monk, according to Monk, was Monk.
"I had no confidence in myself," Monk anid. "I gotofftosuchis slow start. But after Maryland things started coming together. I'm confident now." can't say the degree he's improved," gaid receiving coand Bill Spencer:

He'si got such great hands, that he makes my häd pasaes look soode Hurley maid
"Ive had to adjust a litile, " Monk taid and was a littleingmature when I got here but now I foel a lot better.

\title{
Area voters to pick city, county officials
}

\section*{By Dick Stirba}
and geott Rohrer
Voters in Syracuas and Onondaga County will go to the polls today to elect 24 candidates to seats in the county legislature. At stake is party control of that body:
Republicans now control the legislature by 13 to 11 and Democrats hope to gain a majority by riding the coattraile of the combined tieliet of coatrail May Alee Alexander and County Sheriff Patrick J. Corbett.
Alexander is heavily favored to be elected to his thind term as mayor over James C. Tormey, the Republican.

Corbettis embroiled in a tight race with John C.Dillon for the sheriffa post, but is expected to retain the office.
Republican. County Chairperson Richard J. Hanion believes Tormey has closed the gap and will make a run at the incumbent mayor.

Tormey last week launched a lastditch effort to close the gep by charging that Alexander supports a regional income tax. He urged voters not to vote for Alexander to prevent implementation of the tax.
Alexander however has denied ever favoring an income tax. "I have never comtinued on pege six

\section*{SA rejects move to ask Crowell resignation}

SA Aseemblyperson Tom Hoftmian reads his resolution calling for the resignation: of SA Probictert Rich Crowell. The revolution waw defowted at lest night's eserombly inseting. (Photo by Gion Ellman\}.

\section*{By Brinee Levine} and Mareha Eppolito
The Student Association Assembly last night defeated a resolution which called for the resignation of SA President Rich Crowell.
After two separate debates over Crowell's performance of his duties and his comments to campus news media and assemblypersons concerning statements by Hagh Concerning statements by Eagh MacNiven, formar SA vice president ansembly voted \(48-21\) by secret ballot to defent the remolution.
The resolution, preaented by assemblyperson Tom Hoffman, also stated Crowell had lost the trust of the student body, the confidence of the students and the assembly and has "clearly lost the moral authority and respect necessary, to carry out the duties of his office."
Hoffman told the assembly, "There is no constitutional right for anyone especially the president, to lie. And that is a fact."
Immediately after Hoffman presented his resolation, a motion to table it failed.
Hoffiman first brought the matter of

Crowell resigning before the assembly early in the meeting in a procedural point of personal privilege. While he had the floor; Hoffman read a three-and-a-half-page statement reviewing actions by Crowell, SA and the assembly in general. In the statement Hoffrnan personally called for the president's resignation and, failing that. his impeachment. Crowell said Hoftrann's comments were "a dramatic presentation and (1) see it as that." He said. "I was elected see do as job and I believe I've done a to do job."
He said he had been told of contermpt between himself and the assembly and of a lacir of communications in the SA executive branch in the media.
He said he has been told in the media of contempt between himself and the assembly and of a lack of communications in the SA executive branch.

Crowell aaked rhetorically if he has ever declared contempt for the assembly and whether he has ever refused to discuas it with any assemblymernbers.
"I intend to finish my job. I'm not

Nellenback basia only
Nellenback aaid Common Council agreed in October 1976 to appoint a Ground Tramsportation Office, provide signa and a parking space for the ahuttle bue at Hancocl Airport.

Hibwaver, there was an eight month delay in appointing an ofiter and a five-month delay before a parking epace was as signed, Nellemback said. In ad dition, three months parsed before signg were put up at the airport, Nellenback baid.

He added, "I've worked before with most of the SA mecniver and comminee eliminers and this meriod which right transur there is no time for:"
Jim Flinton and Joe Lazar pere elected undergraduate representatives to the board of trustees.

\section*{Racism}

\section*{To the editor,}

There are probably few people int this miversity who would deny the Waciam hown by the Saltine Warrior. I realize that the letter "A
Question of Pride" does not represent the "silent majority," as it claimed.

How can thit character, dancing ricticulopraly about the foothall fieldi. chucting beer, wielding his tcmathawis and choking tigers, command pride? He represents a dingracefol and dehumanizing picture of the Americsun Indian. There is no dignity in his behnvior and nothing to find pride in.
Rather than seeing the university truggles of exams, parties and \(s\) losing football team," look further to the native Americans' atruggle involving wars, deception and humiliation. When, you think of "countless numbers'" of students, think again of the countless numbers of dead native Americans and of those living now in a culture that has been considered conquered. Think of their vanishing traditions and the pride that they have had to fight for:
n the letter it was suggested that the Saltine Warrior might be replaced by an orange. Perhaps the suggestion is ludicrous, and yet it would be far better to use the fruit of an orange with arms and legs than to continue degrading and dehumanizing the American Indian.
so
So much more pride can be given to a school that shows justice and fairness and that is sensitive and understanding to the needs and dignities of all its members.
Have pride in the football team for they need and deserve that pride They need support and respect. but the Saltine Warrior does not. He is not the team and is irrelevant to the team's pride. Hather, he stands as a disgrace and a discredit to the team and the school as well.

He is symbol of racism and injus ice who should not represent Syracuse University-

\section*{No substitute}

To the editor.
have been observing very closely the controversy of teaching vs. research in determining tenure and In this context I would co
In inin (my that in india (my home country) this debate has been going on where teach, at the University of Welhi.
Back home the debate seems to have been settled in favor of
teaching. The logic is simple: if a faculty is a bad researcher (or no researcher at all, for that matter), he is not likely to harm anybody. But by being a bad teacher, he certainly will cause a great harm to careers of the students.

The problem, therefore, boils down to having a good researcher and risking 9,0 vequoung people, or him-teaching
This controversy, in my mind, stems heavily from two factors. One traditionally, is that the faculty has been comprised of Ph. D.s who are products of a research base and hence would favor a researcher in
the of apthe matter of apis atrictly and typically business attitude of the universitiea who benefit more by having researchers in the faculty than the teachers.

Some may question my expressions fike researchers they are "teachers because to them they are the same set of people. But any formal or informal burvey would reveal that, barring a few excep-
tions, the class of good researchers tions, the class of good

It is high time the university gave ap its businessman's approach to the problem of education and gave recognition to the 'teachers' as different from 'researchers.' Researchers ane welcome, but not to substitute for "teachers."
C. S. Kalra

\section*{Portraying a myth}

Tothe exditor,
The letter by Francis Sheflin printed in Wednesday's DO needs a response. In the letter, Sheflin refers to the "Syracuse Indian." Who or What is the Syracuse Indian?" nhabited by members of thie Unon daga Nation of the Iroquois Confederacy. but the portrayal of the "Syracuse indian" is not a portrayal of the Onondaga people. Sheflin feels that "the symbol of our university is being attacked. Why not take a more moderate at titude and see that this is not an attack by iconoclastic aavages intent on deatruction but a request by a group pointing out that the symbol derogatory and degrading and replaced with something which is not offensive to members of the in munity. Having Indians as mascots munts them in the category of animals puch as lions and tigers and bears. Uh, my! And, to save this symbol Sh, my: And, to save this symbol Sheflin suggests that native Americans should have the same society.
Ihat is absurd. Why don't the rest of us try to have the same view of native-American heritage as the native peoples do? It is not surprising to find that the native view is different eince they were the ones who suffered land theft, military
defeat and governmental paternalism in a way that no other people in this country have. The use of the Syracuse Indian maintains the Indian as a symbol, a myth, a sports cartoon, and that is not the way any group in this country wishes to be portrayed. To top it off, Shenlin wants native Americans to be only half as proud of the Syracuse Indian as Sheflin is. If they were half as proud, then they wouldn't object.

But they are probably twice as proud of their heritage and that is why they do object to "our indian (note the use of the posaessive). If the "Syracuse Indian" falls by the wayside, it will not be because. of "rash misunderstanding" but because more people have an increased awareness of, sensitivity to feelings and heritage of groups hiving in this country.
No, Francis Shefin, this is not an absurd request as you sugrest. It is simply a request from a proud people. Let's drop racist symbols and stereotypes so that we can really be proud of Syyracuse
what it stands for.

Scoct W. Klein is vice preaident for univeraitytcommunity relations at SA: and Mfichael Marmor-is a member of the university/community nitations committee.

\section*{DO and SA: shoddy coverage}

Yesterday on these pages David Abernethy and Jim Naughton wrote
an editorial entitled "Rich Crowell an editorial en

It was signed "for the Daily Orange." That was misleading. They were not writing for me, a member of the Daily Orange staff, nor for some of my

\section*{In reply:}

\section*{Mike McAlary}
colleagues. I am not in favor of Crowell's resignation. I am not in favor of him staying in office either. I amo in favor of getting the facts straight, something which The Daily Orange editorial policy-making group unfortunately has not done.
Rich Crowell told me yesterday that he never said Hugh MacNiven was drunk before he made a final tally of the constitutional bylaws yote. David Abernethysays he did. The pointis in-
sanely menial. Whether Fich Crowell slipped in verbiage or was misquoted by Abernethy is not really an issue, except between them.

The fact is that MacNiven was not drunk when he brought the ballots to The Daily Orange. The real issue is whether Crowell and his cronies were actually going to change or stuff the ballot boxes. MacNiven thought they balot

Crowell says that thought was voiced by brian Spector only in passing. He was not paying atiention when Spector said it but Crowell assured me someone in the group told MacNiven that Spector was just kidding and they soon left the SA building. MacNiven remained, Crowell said.
Now MacNiven says that he thought they were going to atuff the ballgtiboxes. Une question; how could they do they had all left the building for the night?

Then-MacNiven went to The Daily Urange to recount the ballots. They get a different number from the one The next day MacNiven gives the \(\mathbf{S A}\). members the tally. Crowell says Macmembers the taly, Crowell says Macthan the one they reached the night than-the one they reached the night before. The Daily Orange never reveala thatits oftice was the site of the tally, a journalistic ethics.
Daily Orange coverage: shoddy
In a page one news story by Marsha Eppolito yesterday, Crowell was said have refused-clarification on the Naughton, to whom Crowell ingists he made plenty of comments, Crowell asys Naughton he did nefer Eppolito to Naughton. Eippolito was unaware that Naughton had polito was unaware that Naughton had allegedy told

The Daily this entire event in my mind has been at best ahoddy. The editorial editors of the \(D O\) have based an, editorial decision without, I feel, an effort to find out all the facts. The readers of the 10
who only know what they have read cannot tnake an intelligent decision themsel ves on the situation because they have not been presented with all the facts. Maybe Crowellisn't doing his job as president. The same can be said about the. news and editorial departments of the DO in this matter. Daily Orange. I am writing on behalf of myself and responsible journaliam.

Mike AicAlary is sports editor of The Daily Orange

\section*{Seeking the inside track on salvation}

\begin{abstract}
There were all the typical symptoms: physical and emotional fatigue, no romantic attachments, a constant toying with death, no prospects: He had done nothing terrible. He had simply reached that point when one is no longer driven by youth, but still faces
the awful discipline of continuing. He the awful discipline o
felt himself a victim.
\end{abstract}

\section*{Jim Lewis}

When young, there is little need to search for direction; "growing up" provides its own motivation. Upon reaching a certain age, however one must select a place in life One choice is to accept what has gone before and live in the style of one's parents. This is nct traumatic. It presents a very familiar and comforting situation, which requithin limits, can often work out happily.

Those willing and able to gamble can set themselves adrift, try on. lifestyles and become mope gware of options. urban America. One runs into countless people who punctuate each conversation with at the moment." This route tends to be more difficult. but also more adventurous, than staying home.
Eventually the adventure becomes tiring and one settles down to leastransient life. This settling down is sient hafe- This setting down is remarkable, for, despite exotic trap pings, it most often resembles the style of one's parents - the supermarket
coupons, bawling kids and field trip coupons, bawling kids and field trip permission slips. There is nothing comforting.
Still there are those who set themselves adrift and, try as they Thight, are unable to find their Muse.
by occasional high moments but hopelessly unstructured. Each day, the pressure builds and the need to make a It is becomes more and more urgent. It is at this point that those symptoms of self-doubt seem to take on irisuperable propiortions. So, when jomeone comes along promising a better way that will enableyou to fulnil your potential as an individual, it seems logical to follow it +"Transcend to tranquility," they eay. Why not, you answer.
In phrases that mix Kahlil Gibran with Young and Hubicam, these purveyors of inner peace turn the world on its ear and present the haggard victim with the perfect non sequitur: a happy life.
Soon, one's fatigue has changed to manic energy. Death becomes distant. Romance becomes a matter of liking others almost as much as you like
yourself. After all that agonizing, it has all been made io easy. So natural.
As a nation, we have been rightfully portrayed as cyinics. There is no gift, no matter how nicely wrapped, which will escape our acid comment. We have been taken to the cleaners too often to play patsy again. But we have short memories. As H. L. Mencken said: "No one ever lost money underestimating the intelligence of the American
people." We again crowd forward, people." We again crowd forward, eager for the fleece, thinking that this
time it will be different. This generation believes that it has been more cruelly treated than any before it and hopes to be rewarded for that pain with an easy-access happiness. We deserve a break today.
This is not an attitude unique to our time, generation, or culture. Jews have long believed that they are the Chosen

People, destined for the Promised Land. Christians believe that they are the New Chosen People. High Priests of the Orient believe tisat they have been chosen to dole out God's Will. Communists believe that they, in a purely secular fashion, have found the Way, and Republicans grandly testify that their brand of democracy far outdistances the competition. The list could continue, but the point is clear: everyone needs to believe that, on a course of atrocity and anxiety, they hold the inside track on salvation.
This is not the place to argue the relative merits of each group's claim. It is, however, the place to draw a distinction between those choices which are honest pursuits of salvation, earthly or otherwise, and those who offer a quick hit of self-love.
fit is a distinction of degrees. Great dancers do not come from the Arthur dancers do not come fromn the Arthur Murray Dance Studio, but from the companies of disciplinarians like Martha Graham and Hobert Joffrey. It is, in other words, tremendously dif ficult to become satisfied with oneself and one's work. But by choosing a way - be it Judaism, Christianity, Communism, dancing, writing or engineer ing - which demands great effort, one is fighting the good fight, and so the inevitable pain is cathartic.
As for the less strenuous course pampered by books, records, pop-rock singers, glazed sages and salesmen who talk crisis and demand cash they promise maximum satisfaction from mainimal effort. iful, you feel a beatufiul way to feel.
Life is just not as easy as their promises. If it is too easy, then it is cheap and shallow. And when one finds one's lifestyleis as shallow as it is mellow, the pain is not cathartic but constricting.

\section*{South Campus survey: questions if not answers}

The report on the survey of the South Campus residents by the Sonth Campus Tenants Organization (SCTO) purports to say a great deal about the dissatisfaction felt by students who live in South Campus housing.

Actually, the reaults contained in
that report tell us only two things for sure: first, that South Campus residents do have some substantial complaints about their housing situation; second, that those complaints have yet to be accurately gauged by means of a survey.
"I have to know exactly who is

\section*{The Daily Orange}

complaining about what,"said Jim Morgan, director of the Office of Residential Life (ORL). "As it is, the survey is much too vague."

Unquestionably, the credibility of the survey, as a reasonable statistical survey of South Campus tenant views, is easily attacked. The survey fails to be credible because (1) it was distributed only to married students, being a summer distribution, (2) its return rate, 20 percent, is too low to support claims of authoritative results and (3) in many cases it failed to give respondents a choice between extremes of opinion.

But Morgan's response, that the survey is too vague and he doesn't know who is cornplaining about what, only indicates he can't see the forest of student complaints for the trees or, in the case of South Campus, the lack thereof.
Obviously the survey indicates etudents are complaining about the lack of adequate Eervices, whether
from ORL, Physical Plant or some other branch of SU's administration. Students wrote comments complaining about poor construction, slow snow removal. unreliable bus service, and even if they have no value as a statistical overview of temant opinion, they overview of tenant opinion, they They are worthy of action by the university to resolve them.

Morgan said ORL "already (has) a good idea of (its) strengths and weaknesses." If such is the case, there are a lot of weaknesses that ORL has, knows it has (from what ORL has, knows it has (from what
Morgan claims) and is not doing much about.

If ORL wants to take its own survey to obtain more reliable figures, that's fine. But in one way figures, that's fine. But in one way or another, the voices of student acted upon.

By Maryann lacob
It was only a hop, glip and jump from Ltrael to Italy, and from Ireland to Iran, this wreekend

These wrexe just four of the 35 countriem represented at the Featival of Nations, a colorful feast of mighte, soundis, smells and tas
ar Memorial.
The crowd that packed the lower level of the War Memorial Saturday and Sunday, Was an diverse as the exhibikn of nations it had come to see. Gramdparents pushed sionera, and toddlers rode their fathers ahoulacers to get a better view of the acene. Children and adults of all ages wandered from exhibit to exhibit, aion with the craft the same fascination with the crais the dances and, expecisilly, the food.

We love the food," said Anne Pooler. explaining that ahe and hex husband had already tried the Japanese, Polish. Indian and Macedonian food, and were
on their way to trying the German. Foods ranged from the old atmonbyi of pixza sand saumare sandwicher to stuffed grape leave and krocriki, a Polish pastry. Rose milk, madie from milk, sugax and the escence of roses exhibit exhibit.
Mry some of thin, it's very good," said a man at the Pakistan booth, as he tried to tempt passers-by with a milklike beverage. Miado from mill. piotachio, vermicelles, almonds and naf fron, all boiled together," he explained
Aside from the food, the exhibita displayed or wold handerafta auch as jade jewelry at the Japanese exhibit and hand-carved wooden elephants from India. The native Amexicana dinplayed a wide array of beadwork and leather crafts.
Most of the boothe were manned by people who were natives of the country represented, and all wore the
traditional droas of the mation.
The foods, craftur and exhibita which made ap the Fair of Nation: were sitasated in the lower level of the War Momorial Upataine, in the auditoriven, young dancers and musicians performed.
Dancers also performed in the lower level, on a tage met up in the center of the room. Men in red atoching cape wirled their partners in a Scandinavian foll dance and were followed by an Afro-American dance group that hook the atage.
The center staige was also the acene for a demonstration of a Japanese tea service and the performance of a Rwssian string quintet.
The native costumes worn by both exhibitors and performers added splantee of color to the crowd that thronged the War Memorial. Little giris representing Japan wore long cimonos, and boys in the Macedonian costnme of white blouses and high black boots practiced their dance steps in the aislem. A woman from India. wrapped in a pastel sari, wore iewelry on her forehead, nose and eara. Men in leather shorts and feathered caps drank beer at the German exhibit.
Children of all ages were enthralled by all the activities aronnd them. Even the smallest children gazed with wonder at the scene, while older ones raced excitedly fram booth to booth.
"I like thoee clowns"" one little boy eaid enthusiastically. Mimes dressed in clown costurnes wandered about, delighting the children with their exagserated geatures.
An estimate put the crowd at a little under 12,000 paid admissiong for the weekend. according to Gloria Romeo.

\section*{Religion professor speaks on the unseen}

By Connie Kiardenty An author of a book on religions belici, Huston Smith, challenged a groap of Etradenta with the question is there suything that is immaterial Smith a Syracuse University profester, of religion, apolice to a group of 11 students at Monday Munchies Yesterdaty moxning.

Discussing the problem of the unseen, which Smith never defined in modern society, Smith said, "We live in a time when the poessibility that there are immaterina things is, if not ruled out, at least moving to shut out that possibility."

There are three levels of the unseen, Smith said. In tho first level, an object is anseen because it is physically im. possible for our eyes to seeitit is too small or too far away.

Objects on the mecond level also have an mierial aspect but are invisible because they erist in different dimension of paca.
"We're three dimenaional," Smith said. "If there's a fourth dimension, it's here, but we can't see it. . . We're locked in our three-dimensional plane."
The third level of the ungeen is the immaterial. Smith continued. He said he believed in the possibility of a "totally immaterial reality.'
The problem with modera society. Smith added, is that it cannot deal with that poscannot
Eibility.
Using Britiah sociologist/philosopher Ernest Gellner as his neference, Smith outlined what he considers "a remarkable consengus of what
true knowing involves," This consensum excludes the existence of the immaterial and how. what going on in the in the university "p warticularly in the university.
Gellner's book. "TThe Legitimization of "Belief." thetes that in onder to confirm something to believe in, one mum present evidence that is empiricist and mechanistic.
Empiricist evidence, Gellaer said, is consistent with "the ordinary notion of exordinary notion of experience. Smith pointed out thinking saying it 'roles out thinking, gaying it 'rules out the prosgibily of some things so fragile - but which may be important - that ordinary experience might not pick them up.
"There are reaches of

By Annette Licitra The first thing that atrikes you is his voice, and then those huge pondering eyes. The eyes could belong to any member of the human race with an acute resonant voice belongs by all rights to a poet.

\section*{Richard Murphy is a poet.} His verse moves with metrical crispness and angularity, dealing mostly with the history,
landscape and people of landscape and people of
Ireland his home. Murphy's first collection of poetry; "Sailing to an Island," was published by Waber and Faber of London in 1963 . Murphy has released two volumes since, 1968, and "High Island," 1974.
Visiting professor of English here this semester. Murphy compares the attitude in British and American universities toward living poets who teach.
"English universities didn't until quite recently want to have anything to do with living writers," Murphy says, drawing up his face into a radiant smile. "Living poets disturb the dead literature that can be taught there."

Murphy's friend and fellow poet Philip Larkin once writer the situation of a universities to "a cow attenuniversities to a cow attenDirectors of the United Dairies."

In his poetry writing course at Syracuse University. Murphy probes and chisels his students' poetry toward the Warved quality of his own. ogical, not too abstract, not abstruse.

Bad rhymes need adjustment: meter gets honed to size. Above technical correcpinpointing bigger poem's statement. Clarity of statement as a result of style is a major strength of Murphy's awn poetry. He writes about own poecific events and places in specific events and places in
harsh language that gives harsh language and idens play to images and and others' pasts, recalling war, the gea and childhood are fixed into verse with detachment. His newer poetry, though. seems to recollert people and events with greater intimacy. The same stalking language heightens his personal themes as much as or more than historical ones. About teaching a 14 yearold to read and write, Murphy writes:

If books resembled roads. he'd quickly read. But they're small farms to him. fenced by the page ploughed into lines. with letters drilled like oats: \(A\) field of tasks he'll always be field of
outside.

And Murphy converses with the same personal bent. He tells you about his past about running away from \(0_{x}\) ford at the age of 19 to a remote where he intended to write poetry. C.S. Lewis, his tutor, advised him not to go, but it was his grandmother who finally convinced him to return to Oxford.

There is an understatement in the way Murphy looks at his poverty when he was a young poet. A screen comes over his
eyes as he dives back to com-
pare those years with his childhood. He spent his first years in Ceyion, the son of a senior government official near the, close of the British Empire.
"It's as had to be very poor as to be very rich - you're just as isolated," he says, and laments that young people can no longer afford even to go off and live as he did when he ran away, renting a house for \(\$ 52\) a year.
His enthusiasm returns when he talks about his experience teaching English in Canea on the island of Crete. He recalls potent wine and huge plates of spaghettifor his lunches. There was "an intoxicating landscape, even toxicating landscape, even more so than Connemara, he says. Smells impressed him there: pine wood resin near his house, a hot aroma of herbs
and the smell of olive oil rising and the smell of olive oil risi.
up the hills from the town.

Murphy returned to Ireland, became skipper of a one masted fishing boat and gave summer tours off the coast for five and six years. Much of his poetry concerns sea storms and seamen in the poetic tradition that dates back to Anglo-Saxon England. Murphy came to be known as "the fisherman poet," an epithet he wearied of during the '60s.

Now Murphy works from time to time in America to support his life in Ireland. This fall he adds SU to the group of American universities where he has taught. They include Princeton, lows, Virginia and Colgate. Moving around 80 much makes him feel "itinerant," he says. He moves even more than the American
people who amaze him with people who amaze him with one family
every year.
-It's easier to find jobs I enjoy than a home 1 feel comfortable in," Murphy explains. He says he misses a sense of permanence. He also permanence, natural noises remembers the natural noises around his home in Ireland, house in the hills the time he house in the hills the time he ran away. Mechanical noises
like lawnmowers, sirens and
helicopters plague him in America.

Having been a tour guide Murphy shies from seeming a tourist in the places he goes. Exploring cities would be all right, he says, but not belong
"Id rather stay at home and read about the place," he says. That'a probably why when am at home I like to build in granite.

Murphy talks about his retreat on High Island; where he says a seventh century hermitage and a hut he buil are the only signs of human activity having ever affected the island. He doesn't care much for technology, he says (although conceding that he uses technology when it serves him), and is disturbed by an America "covered coast to coast by macadamized roads and Howard Johnsons." It is getting more and more difficult for people to see the world nowadays in the way their ancestors saw it for thousands of years before our time, he points out.
"When we lose contact with our ancestors, we lose contact with part of ourselves," he adds.
Just so, even Kichard Murphy's hopes for the future are colored with his own life's past. He would like to go back to Ceylon, he says, where he has not been since 1934, when he was 7 years old. He would like to draw out his earliest memories. On the way back from
Ceylon, the family stopped in Ceylon, the family atopped in Palestine. He filled a bottle in the Head Sea, Ee says.
"'The holy piaces moved me profoundly,

But his eyes spark and that sonorous voice drops a few registers when, each word weighted with the simplicity of a child's excitement, he recalls his uncle, a member of the Palestine police; who showed him a rope for catching brigands - and hanging them.

1f By Dick Stirbug were judged solely on the reaction of the audience, Richard Murphy's reading of selections from his book "High Island"
yesterday in the Founders" yesterday in the Founders*
Room, Maxwell, was an un. Room, Maxwell,
qualified success.
qualified success.
From the first, Murphy held the gudience rapt with his expressive voice and IIting Irish accent.
Murphy was not afraid to use his wide range of vocal intonations to best advantage, floating high in one instance to imitate children's voices in -Firebug." The poem relates with enduring delight and horror, the pyromaniacal impulse of a boy who burns his sister's doll on the nanny's afternoon off.

The poems contained in "High lsland" benefit greatly from oral presentation, and Murphy was not loathe to emphasize pounding alliteration
in "The Woman of the House": The bards in their beds once beat out ballads/Under leaky thatch listening to sea-birds.
"High Island" takes its name from a rocky crag off the west coast of Ireland which Murphy bought in 1969. It is there Murphy fostered his "visions" of native seals, senbirds and m mysterious granite globe: Whoever carved you/Giave you all/The time in the wortd.
Birds and the sounds of birds, bantam cocks and wrens, flit through the natural settings Murphy paints. His aural experiences were faithfully translated into oral nes such as vibrating voices" of the birds beneath ruins of his island.
A visiting professor of English at Syracuse University this semester, Murphy first publis "Ssiling to an lsland" in 1963.

\section*{...the poet}

By Anmette Licitra
High lsland" is a glowing new anthology of poems atriking in their simplicity. Irish poet Kichard Murphy works meaning and meter into small packages. He jars us with life's starkness and soothes us with the rhythm of tooled language.
Murphy pleases readers of contemporary poetry who have their feet planted in literary tradition. One senses his effort to emphasize the best in each of the Engliah and Irish traditions. His work breathes history in the manner of Yeats, as Murphy recounts Irish battles and tragedies. He retells the past with fresh perspective.
Old traditions balance new ones here. In Anglo-Saxon fashion, he lulls us with much alliterntion. Like the modernists, he shows rather than tells: "nlies gyrate in their thantelis: ilies gyrateinuse's galary above my horse jectivity falls short of coldness. jectivity falls shortot coldness.
Murphy writes with only as Murpay wriles with
to disengage his work from himself. His voice comes through only upon occasion to judge: *the devil needs thrashing with a shoe."
In balancing his style, Murphy draws out the shared trait of Old English and modernist poets - simplicity. The tactile and tangible dominate. Murphy is a man of the senses. People, añimals, objects, smells and tastes make up his poems with a truthfulness, as though each subject were standingraked in natural light.

The simple ugliness and beanty of Murphy's images jolt one. He writes about war, showing us eoldiexs who cas trate a boy prisoners about arion, khowing us a child who burns his sister's doll; about nature, showing us seals mating at High Island; about love, showing us his grandmother. or a monk who gives wine as a wedding gift. Their unaffected and simple portrayal is a relief from the complexity: of modergist poetryplexity. of

\section*{The men have more fun...}

We don't ploy for Adoration We don't play for Victory We just play for Recreation By J. T. Brady
At first glance, this might appear to be a chorus from Monty Python's "Lumberjack Song." Anyone nssociated Syracuse area, however. will quickly recognize these lines quicky recognize these limes Syracuse University Kugby Syrac

Although the aong epitomizes the attitude of
-While on the field, we have a kreat concern for winning." said playercoach Fred Grema the teams arter the game, the teams are very frien-
dly." lhis friendship usually takes the form of raucous
 charactenzed by bawdy. songs," according to

The duality of rugby is shown by the fact that, while teams in other sports have home tields. rugby cjubs also
have home bars. have home bars.
"After a game, everyone goes to the home team's bar. where the home team buys
huge quantities of beer for themselves and their opponents," Greenaway said. bar for the SU club, and Greenaway notes that rugby parties there
Greenaway, a native of New
Zealand. is in his fourth year with the club. He explained th partying and singing are part of the tradition of the sport.

Kugby started in England and is the ancestor Gmerican suid. Much of the tradition of the sport has been preserved in America, and Greenaway added, "The songs
that are aung in this country are basically the same as those in New Zealand
The aport is rumored to have originated at Hugby College in England. A soecer match was durupted when a player and ftarted manning with it

In the beginning While no one is sure about 1977 SU Kugby this story, the off to a running atart. After splitting its first four games, splitting its first four games,
the \({ }^{\prime \prime}\) side has come back to win four straight forma overall 6-2 maxk.
"We don't havemany retaming players this year," of experience caused our lack of experience cauned our two early tosses. Uver half of our aquad has never played magby before, but they're learning
fast, we have a good tearn? last, we have a good tearn.
I'he maingtays of the squad are seniors Kick McGinley Spike Mequail and Ferry Finzi, all of whom have been selected to the Upstate Representative team.
Greenaway is quick to point out, however, that outstandink individual players do not guarantee a winning team.;
"Kugby is a team game," he said. "and we win because we play as a team more than most of our opponents.'
such a tearm effort will be necessary on Nov. 26, when the club takes its leather balls to New York City to compete in the New York 7's lournament. Ihis toumament attracts the top teams in the East. and SU is the defending champion in the collegiate division.

One might wonder what compeis men to play the rugged sport of rugby, devoid of padding. often trudging throughs muddy fields.
for many players it is f Greenaway said. FThey are
fond of foothall, but lack the physical requirements needed to play it on a highly presents an enisugby presents an enjoyable who native, since everyone plays on one of the club's three plays
The friendly atmosphere is also an important factor, and Greenaway Eaid, "Even our games are friendly. players With each up on the ground. With an impish grin, he added, differences in opinion now and difrerenees in opinion now and then, a few firt fights oo casionally.

\section*{Comrad Dettmonc} I'eam member doe Dettmore is a former football player who took up the sport to remain ac tive. "I tried rugby and 1 really enjoyed it," he said. "It"s ad. dictive, 1 , like the comaraderie." Dettmore
believes the game and the believes the game and the parties are equal halves of the the game, but still lose the party.

Whatever the reason, ragby is a growing sport in Syracuse and the rest of the United States. The number of clubs in Syracuse has risen to three and the SU club has added a women's team (aee related story). Nearly every large city and university in the country has a club.

My hometown in New Cealand is the same as
Syracuse and has 30 clubs Syracuse and has 30 clubs with is teams per club,"
Greenaway said. 1 believe that someday syracuse wil have a similar number of clubs.
Hefore one sets carried away With the rugby surge, however, of 50 ind be noted that a crowd for a, people is not unusual ror a rugby contest in Eurape. of about 50 people to a home mame at Hookway Tract.

The fact that rugby remains a club sport at Syracuse is representative of its uniqueness. About four years ago. the club was offered the opportunity to become a varsity team, The club overwhelmingly rejected this offer. "'he offer was rejected becanse we like our independence" "ireenaway said. We and parties tricted." ame night you drift So, if aome nightyou drif met by a barrage of bawdy monge and bacchanalian revelry, pay close attention. It reveliry, pay ciose attiention. It
iwst might be the mighty, mighty men (and women) of the sU Kugby Club, carrying on the traditions of agrand old sport now very much alive in America.

\section*{Monk cited in SU win}

SU aet back Art Monk hase begun to gain mational attention along with the yardage he has made as SU'a all-purpose back. In this week's Sports Illustrated Monlr has been named \({ }^{\text {+Offengive } P \text { ley yer of }}\) the Week? for his when he canght 14 papmes for 188 yarde. Monk's 14 receptions represpet, 隹别 moet in one- bitiodthis
gearan by anyricollegiate recreiver.

Both the mon's and women's rugloy progerarme at Syracuse are off and running. For the men it's crece. tororard another "New York \(7^{\prime \prime}\) championship while the wornen lookt to astablish their
hatf of the ciub at SU. (Photo by Jotrimeket).

\section*{...women get kicks}

When was the last time you heard a coach elt major university tell his players to go out and have a good timpe?

SL women's rugby coach Dave fosen is the epeaker of the revious statement. His coaching style is mot onlysupported by his players, but even by the SU admiaistration.
The club made waves in the student body this season, getting members the same way students get therreplv*es into a univerxity courbe - via registranon.

Recruiting took place at registration and the response was overwhelming," Rosen maid. At the time he told those interested, Previous skilis are not a factor.
Lissa Alfidi - a scrum back, which in sixnilar to a quartertback in football - agrees with Rosen"s coachivete philoopphy. "The girls are out to have fun and if Bomeone manices a miatake, that'a jost part of the learning phase," Alfidi staid.
Of the 15 ntarters in the club, only fort prieriourly played the game on a competitive level. "There is no Feal leader on the team." Alfidi added, "rather the players Pail for one another. Everyone's determination amd mbility in reapyected."
Rosen played the game for mowt of his selholastic days before being forced to the sidelines by a aeries of head injuries. He emphasizes team work and feels the problem voith the teamis axi obvious one.

Lack of experiemee," the coach said. "It takes a while for the team to jell and learn each other's moves. When the spring season rolls aromid the girls will not be manding the same mistalces they are now. maling.
Women's rugby is a elvb tport which seter it funde through the Student Agsociation. The ebtimated \(\$ 450\)-nillocnted to both the men's and women's team covers exppmeres toy arranging grames, maling telophone call to athergonehes and buying equipment, bat it does not include unifourifowhich the exiris pay for from their owry pockets.
The team's record is 0 and 3 . Im fact, thesy have yet to get on the scoreboaxd this season, loíng to both Brocizport and Cortland by 16-0. Lavt Saturdiay thoy dropped a crame to Owwgo 100.
Roben, however, sees a definite improwe timetin the cinb's play. Whey staried foxm scratch wnd though thery bave not scored, the girls are more aware of what's happenink \(\overline{3}\) ont there." he abid. Like soccer, the size of a player in not: En important factor in maghy "Strength and quicicnesiane the hes factorathat egparaite roolie.

The club plays its home gemen at hose Rat, grasay Hoolway Tract, which Foaen calls one of the bettear fields in the gtate.

The team's lacis of mooring has not afrected the spirit of the club.
"Win, lose or draw, a ragby tracintion "Mecemitatiag a party between the two ciube following the krowier, Ropen atd

The coach is optimitie about the frotove of the sport at this university. The women, have shown emovigh interegt and determimation to keep women's raghyizathat learta clubepoitand
 ragly were to be a vexinty goortit wonlictivethe fun oit, of the cama.

 Foolwoy Tract-

\section*{Alexander easily wins third term \\ By Howard Mansfield \\ decided, Alexander said he}

Lee Alexander strolled into his third term as mayor of Syracuse last night. This time Alexander's meager opposition was Republican candidate James Tormey-
In the final tally, Alexander netted 61 percent of the electorate with 31,504 votes over Tormey's 38 percent with 19, 774 votes. Liberal candidate Jarres Colvin received 613 votes for 1 percent of the total.
While Democratic County Chairman Michael J. Bragman -gaid that if the mayor got \(62 \%\) of the vote there mayor got \(62 \%\) of the vote there
would be a "coattail" effect on would be a coattail effect on the other races, A exander gaid he was unsure. Speaking
before the sheriff race was
thought Patrick J. Corbett was too far down on the ballot for his mayoral campaign to have an effect. "There is no science to it," he added.
At 10:15 p.m. last night Mayor Alexander entered Democratic headquarters on the sixth floor of the Empire Building. He was greeted as a winner, with everyone, incing their congratulations.
Alexander made his way to the back room, where the television crews had set up. He made a circuit of the room, in a made a circuit of the room, in a watiz-like motion, to the Eamera crew's directions. Continued on penge four

\section*{Democrats gain legislature majority}

By Ariane Sains and Steve Saylor For the first time since the Omondaga County Legislature was formed, the Democratic party has a controlling majority, with 13 seats to the Hepublicans 11 .
In the 18th district, which includes Syracuse University, incumbent Timothy E. Rice (D-L) was the winner with \(68 \%\) of the vote defeating Sally J.J. Hititingtor (R-C).
In the 2nd the Frative district, it appears Caril Frawley, defeated incumbent J. Richard Yooler ( \(\mathrm{N}-\mathrm{C}\) ), the legislature's representative to the Onomdaga county Stadium Commistion, by 40 votes. However hal vote-count wil include absantee

According to Democratic County Chairman Michael J. Bragican," ira Chairman Michael d. Bragiwan, iraditionally, absentee and
voters tend to be fepublican."
Of 97 candidates running for seats in the county legislature, and city coumcil, twenty four were women. In all but two races - in the 5 th council district between Joyce I. Foss (D) and huth N. Caldwell (R.L), and the 9th legislative district between Elaine Lytel (L-L.) and Elayne S. O'Brien (R-C) - the women were rmoning against men.
Other winners in the legislature were; 1at district. M. Hetty Christen (H: (C) over Daniel 'T. Hughes (D); Michael d. Bragman (D) over Ronald Li Grethei
( R -C) in the 3rd district; Howard H Hurst ( \(R-C\) ) over Justin \(M\). Cimack in the 4th district, by only 28 votes; in the 5th district John E. Garland (D-C) over John P. Sick (R); in the 6th district, a three-way-race, Gordon E. Ireland (K) over Donald \(J\). Stinson ( \(\mathrm{L}-\mathrm{L}\) ) and John E. Chave (C); John J. Haley (R-C) over Patricia M. Hiperno, (D) in the' 8th district
In the Iưth district Max A Allway (IDC). Won over Stanley W. Kellish by 208 votes; in another three way race, John C. Kanaley (R-C) over Elna L. Dwyer (D) and James M. Napierski in the 11 th district; in the 12 th district \(\mathrm{Wi}_{\text {- }}\) Hard C. Lipe (R-C) over William R . Currier (D) \({ }^{\text {Co }}\) in the 13 th district Currier (D) in the 13 th district Kenneth Li Bush (R-C) over Dolores M. Reed (D-L); Charles A. Durham (R-C)
over Robert Wortel (D) in the 14th over Robert Wortel (is) in the 14 th
district; in the 15 th district, Minch \(G\). Lewis (U) over Sam K. Hozzano (R-C); in the 16th digtrict, in a threeway-race, Nicholas J. Pirro ( F ) over Nancy M. Bianchi (D.L) and Anthony C. Greco (C):

In the 17th district Edward F. Hyan (D) defeated John M. Lischar ( \(\mathrm{F}-\mathrm{C}\) ) and Joaeph Ray (L). It was thought by the Republicans that Ray might split the Democratic vote and win the seat for Lischak, but that aplit did notmaterialize.
In other races: in the 19th district. Dn other races: in the 19 th district:

\section*{Koch \& Griffin}

Edward Koch said he "never doubted he would win" after his victory in New York City's four-way mayoral race.
Koch garnered 49 percent of the vote in defeating liberal candidate Mario M. Cuomo, who finighed with 42 percent. In Buffalo, Democrat James Griffin won to become the Griftin won to become the

\section*{discusses Standard Plan \\ Initial discussion was limited to the \\ motion called for the deletion of parts of} composition of "generic clusters called for by the plan. These clusters are designed to organize the college into three academic gronpings: humanities, social sciences and natural sciences and mathematics.
The faculty members attending the meeting were concerned with clarifymeeting were concerned with clusters. Seven nevisions were discussed. One

\section*{extended}
pointment is that it "provides for some semblance of continuity of leadership for the school", he said. "When on a term appointment, the question of whether one can finish what he starts always exists," he added.
Since his initial appointment: as dean, Oliker has been working on same long-term : projectir foin the scinools tongterm papjectis rop the manoot. mmong themnarposidiel new management building ar pratt of the university s'; Second' Centrory con-
 siders 8T'A bumineas facilitiento be the *pogrettamone other tohoole compet-
ing for both prospective faculty and students.
\({ }^{*}\) I appineciate the supporit that the university has shown not only on my behalf," Oliker gaid, "but on behalf of the School of Mamagement in meeting itn commitmente": Olirer said he had eatablinhed certexin conditions for accepting the podition; which he asid "weare met by the univarsity." He would not elaborate.
\({ }^{4}\) Por better or for worme?" said Oliker, reflecting on the permanence of his poaition, the plansI haveinitiated . cain inow be inpplemented.
the description of each cluster, but was defeated. Another motion was successful in eliminating the word " em pirical" in order to broaden the definition of each eluster to include aspects of each department that might overlap.

There are 32 motions to be discussed in the Standard Plan. So far, only three of them have been considered. The plan, because of the drastic change it would make in the academic function of the university, will cause much discussion and revision before it is passed.
Approximately 65 faculty members attended the meeting, but only half remained when the meeting closod after \(11 / 2\) hours of debate. The plan aroused strong sentiment among several professors.

One professor urged another to "vote for this" while another stood up and denounced "the whole thing . . . (as) an abomination. \({ }^{3}\)

Stewart Than, chairman of the Faculty Council, said he thinks the plan will ber adopted aftar it is amended. The faculty will moet to work on it agrain neat Monday.

\section*{A sense of the 60 s}

Suddenly the 1960 s are making more sense. That tumaltuons decade is far enough behind us to look back with some semblance of detachment and obsome semblance of detachment and obectivis. As profoundly thase years affected how profoundly those years affected preherision (we thought we were cool) prenension (we thought we were cool with which we passed through the ays.
The black armband I wore on the day of the first Vietnam War moratorium supposedly signified an identification with the movement. Certainly there

\section*{Rich Amdur}
was some understanding, but that was reduced to a naive actuality when a friend's older brother asked if he could wear it instead. Looking down at it before handing it over, the armband became just another stripe on my shirt.
lhere was also a darkened auditorium full of seventh graders ancicipating a concert about to begin-a morning treat at school. Some friends rolled a joint of pencil shavings like they'd seen done on "Hoom \(22222^{\prime \prime}\) the night before, but stopped short of lighting it. A strobelit band of teenagers broke into its version of an unfamiliar broke into its version of an unfamiliar song called and listened silently. What ched and listened silently. That Somoon in school was like anyoother: Sometimes we went to a boutique called Experiment One to listen to Simon and Garfunkel on the freed juk box at the back of the store. We knew
there - all weknew was that the people who ran the store provided us with a good laugh on the way to the juke box: When we got kicked out of the store, we blamed it on the atrange clothing and hairdos they wore.
But this innocence has been replaced by a depressingly explicit awareress of things. A recent trip back to Horest Hills, where I grew up, put part of the -60s into an updated and somewhat frightening perspective.

The guy I gave the armband to. is 26 years old, working at his ninth, maybe tenth job in the last few months. He wants to settle down, become part of the mainstream again, but he"s finding it hard to find out who he is after years of imitating Abbie Hoffman and Mick Jagger.

Another friend's little sister suffered from a combination of parental permissiveness and early experience with LSD, and sexual intercourge. At the age of 16, she has been declared "irreversible," beyond help, by doctors at the several mental institutions she's. been in (and escaped from).

As we look back with the aid of hindsight, we can better comprehend ourselves as the product of these years. A generation of unsuspecting children we have turned into a group of passive We have turned into a group of passive young adults still tryring to figure out what to do with the freedom given us by our older brothers and sisters. We Werent the ones who fought for it, so we're not as inspired to protect ik Une thing seems sure: another awakening is necessary if we are to maintain the tenuous hold on our autonomy,
which is loosening by the hour.

\section*{Letters to the editor}

\section*{Ignoring news}

To the editor.
This whole Kich Crowell-threessixpack Hugh ballot counting ait the
 OO business atinks! The 1 O's han ding of its role in the matter is abominable. Why did the DGY take 10 months to report that ballots were counted at LXO offices'? Why didn't the LO inveatigate the report on why the ballots were brought
UO offices in the first place"?
From its coverage of this incident,
Fromits coverage of this incident,
one draws the conclusion that not only is DU investigative journalism non-existent but more important, reporting of essential campus news is blatantly ignored by our campus (omit news) paper.

Hill Kita
Bill fita is a Situdent Assaciation assemblyperson from off-campus.

Editor's Noter The Daily Urange erred in not reporting the par ticipation of several of its editors in counting ballots at its offices. The DO did, however, investigate the
cause of MacNiven bringing the ballots to its offices: we reported that fallots toits offices: we reported that fact as soon as an SA official hac-
Niven) with first-hand knowledgeof Niven with first-handinowledgeof record.yDO., Nou. 21.

\section*{Still helping}

Fis the editar.
The excitement and fervor ol Parents Weekend has subsided and it appears that the Parents Ulfice has begun a year-long hibernation. No way.

The Parents Ufice helps students throughout the year, with or without parent intervention. They believe in the adage that actions speak louder than words.
lhey can act on the smallest gripe to the largest problem, and are centrally located in room 5 of the Ad. ministration Building.

I'hey can help with anything from roommate conflicts and administrative red tape to just plain ioneliness. Unfortunately, too few
students know that they have a place to go.

\section*{Faulty forms}

Fo ithe editoir.
It may be true, as you state in your fine article, "l'eaching, research what's the balance? "that emphasis is placed on both teaching and research activities of faculty. Hut it is not true that the emphasis is equal n both.
When faculty are up for promotion, they complete a form which is headed, "Syracuse Univer sity, Committee on Appointments and Fromotions: Summary of Protessional Activities." Space is provided in three sections for faculty to present their record with respect to. (1) 'Teaching; (2) Creative Work; and (3) Other Service.
students.will be interested in what the form says under. Teaching:
"Every member of the faculty is a
good teacher, \({ }^{*}\) but there seems to be no generally accepted method of proving this. If you believe you are better than mostand wish to 'prove it, this is the place to do so. It is important to do this if you think your portant to do this if you think your ability as a teacher is the primary promotion?
whation.
What this means evidently is that since everyone is to be considered \(a\) "good teacher." no one is to be gowd teacher: mo one is ted for promotion, because of bad teaching performance. Completing this section is optional, and some faculty do mon is optionai, and some faculty do basis for facuity, students, or others involved in promotion decisions to deal with bad teaching per formance.
If teaching really is to be taken into account, thig form should be changed, and all candidates' teaching performance, bad or good, should be reviewed.

\section*{TV vs. print: debate of a media Socrates}

Datitor's Noter Foiotw on the Hill" will appear at a weekly eotiomin by Tim Wendel and Bob Reichblkin. In their first column below, Tint faspistant Focus editor at The Daily Orantejand Bob (features cutitor at WAERAFM news) disctass the . relative merite of prinf vs. broadcalac journalism. Tim's comments are in itcilic type.
"Tim, why is it noceraary, for nevrepapert to editogializer In particular, why do they find the need
for political endorsementa? Can't readers decide who to vote for themstelves? Can readers find journalistic credibility in a newapaper, when on-page two there is an endortement for a candidate and on page three, atory about that candidate's
"First off, Bob, they are not in eqvence editorializing. The atories you mention are interpretive and have a point of uiew. A point of wiew is based or mesearch and backed up by facts. You conterd that televition is objective because it attempts to show both sides. when actualty it has bias ond rarely informs the viewer of anyching except image.
lil dispate your answer on two comath, Tim: First of ail, I don't contend television reporting is totally objective.

Fools on the 1
Tim Wendel
G Bob Reichblum
1 will defend it as fair. Ubjectivity is nearly impossible for anyone, including television reporters, to attain. However, fairness is attainable and is the value by which good broadcast journalism is measured. Secondly, 1 'm cuss between an outright endorsement cuss between an outri
and polat of viaw. the vizwer. He finds out what a canthe viewer. He finds out what a candidate had for breakfast or what loca-
sion in the country he is speaking tion in the country he is speaking
from. Nothing mone. Straight news has to be objective and fair, but print has to be objuctive and fair, but print has
the advantage over broadcast because the adivantage over broadcast becaune magazine type of features. When you write an interpretive piece you are
really making an argument for a paint of view. But it is, a point of view that is only made after extenaive research and interviewing. Something yoz eftys do not seem to thinh is part of the game."
"Firat of all, I don't see the need for broadcaaters to editorialize. Moreover, I don't perceive editorializing as an advantage that print has over electronic journalism. There is no question broadcasters have time constraints on their atory presentation. However, viewers (and fallow column writers) are jumping to a hasty conclusion believing ubstanter presentaliond and extensive interviewing.

Hfearly, the two mediume are different. Newspapers cannot present while brasdcasterial anfle on stories, wicted in attempting to include indepth analysis. I- don't believe these depth analysis. I'con't believe these factorn Festrict either of the mediums from being journalistic, eopecially when the audience understands the constraints of print and electronic "Cumartiam."
Certainly mobody can toweh broad cast journalism on live events. There the immediacy of the siluation shows herough but your routine format for news stories involves two contrasting approaches that hurt viewers. Hirst you timit yourself by time and secondly you attempt to show all facets of a story in this short period of time. What happens is a superficial account of an evenfthat toes the public little good. Broadcait journalism can be excellent - Look at examples like "60 Minules" and Eric Sevareid - but overall the electronic media deals with nothing more than parades and hoopla. C'ertainly you have to be objective, but your entire show cannot be this way if you are to be a service to the viewuer.

Gocial scientiats have beaten the superficiality argument to death. What they ignore is its reincarnation as viable jourmalism. There is no defense for the argament that 3.000 words in type makes better journaliam than one minute and 30 aeconds of pictures nhrration and interview together.' As 'a "brbadcaist jormaingt, don't feel 1 hurt my audience by my presentation. And in fact, poll res pondents continually say television is he medium for news they most want to keep and is their primary source for the news thout what's going on in the world today
"It is interesting you bring up Biric sevareid. To me, his commentary
represence the worst example of the wasa of television news. I cannot iustify sacrificing reports on newts stories for the two minutes Sevareid wartes on his Ehesaurns-oriented, elitist and, frankly difficult to understand commentaries."

A nd we'll take him, Bob. But you are right, personal opinions do hurt if they are lacking reatarch. Something you guye seem to do. Often \(I\) am on a local story and who only ahows for five to 10 minutesi' The broadcast guyw with

or conference is ouer shey are off coing the same thing with another tory When celeviaion does put the mones and peraonmel info research they have a masterpiece. But agairt the orly examples of this are " 60 Minutes" and an occasional documenzary. These shows the viewer not only erioys, which is a must because you aredening with an entertainment medium, but also underttandi.
by the way Bob, can i be on your radio show next week?

\section*{SU vs. the minimum wage: promoting poverty \\ -/ can't see anybody subsisting \\ enough hours at present wages to \\ It is interesting that SU's \\ substandard wages. The university}
on a subminimum wage."
-Diann Straus,
director of SU Bookstores
Syracuse University's decision to seek an exemption from the new federal minimum wrage, which will go up to \(\$ 2.65\) an hour Jan. 1. appears to be founded upon the strongest of economic and budgetary logic.
SUsays theire is no money in the middle of a budget year to increase allocations for the employer's share of work-study wages. SU says an increase in wages in midyear would result in curtiailing services because students would work fewer hours to obtain their granta.

The univeraity's pattern of logic leaves a few points unanswered, however. First, the problem does not apply to all work-btady employees, since many do not work
obtain'their full grants. For those students, a wage hike would merely increase the percentage of the grant which they would be able to earn.

Second, the university says there is no money in the budget to increase wages, but this raises a logical question: why not? Arthur d. Fritz, SU director of financial aid, said last week the university anticipated an increase in the minimum wage, but "no one knew when to expect it."
It occurs to us that, knowing a minimum wage increase was imminent, \(S U\) could have incorporated some flexibility into the amount of funds available for work-atudy wages. The absence of such flexibility reflects the university's' "balance-the-budget -at-anycost" fiscal policy; in this, as in most cases, atudents pay the cost
academic neighbor and partner, the State of University New York College of Environmental Science and Forestry (ESM) has a college policy to pay at least minimum wage, and will pay work-study employees \$2.65 an hour starting Jan. 1. (We wonder if it's occurred to SU's administration to ask thern how they do it?')

As John Reeves, ESF' director of financial aid, admits, an increase in work-study wages will result in "less for the amount of dollars spent." But regardiess of any loss of services provided by the student labor, there is substantial question as to the fairness of having any student provide any service for
can, if it chooses, take advantage of students' dependence upon workstudy jobs to finance their educations. We believe it should not.
Obviously, the university must work under budget limitations. Ob viously, it has a legal, if not a moral, right to an exemption from paying minimum wage.
But in our minds the bottom line of this argument is to be found in the complaint of one work-study employee. "For crying out loud," she said, "that's why we're on work-study -we need the money." David Abernethy and

Thomas Coffey
for The Daily Orange

\section*{Come talk to us}

We know you are out there bonewhere, you audiencetype people. We'd like to meet you.
The Daily Orange is trying to meet the needs of its auclience. To do that, we have to know who you are. Letters to the editor are agood device, phone calls too, but nothing succeeds like a face-to-face meeting. That's what we're after.
Today at 3 p.m. in the Honors Office in the basement of the Hall of Languages, some of the editors of The Daily Orange will hold a publicmeeting. We'd like toinvite absolutely anyone to come and way absolutely anything about the paper.
No matter who you are or what you have to say, we can learn from it. It's a chance to sound off about the performance of the campus media.
Another meeting will be held Thurmday afternoon at 3 in People's Place in the besement of Hendricks Chapol.
This is your chance If there wan evar anything you wanted to say about The Daily Orange, this is the time to do it. Today at 3 p.m. in the Honors Ofirice in the basement of the Hall of Languages.

\section*{\(\cdots\) \\ Ferguson LP combines the best of old and new}

By Bruce Pilato
Maynard Ferguson was selling out. The last four or five albums have taken him away from his pure jazz base and incorporated his sound with whatever the trend in cormmercial music was at the time, primarily disco. Ferguson took the most popular 'Top 40 hits and turned out elaborate brass covers; the height of it all coming last year with his successful "Gonna Fly Now.
Ferguson is still doing covers, and he is still into disco, but his most recent L.Y, New Vintage, is a fine blend of the old and the new. The title is unmistakably accurate.
If nothing else, this should bring back some of his older fans who disregarded him when he got heavily into disco. Even though at least half the album contains disco, it is much less commercial than his recent efforts. Ferguson seems to be returning to his pure jazz roots, and more so, to the bipband sound:-

Upon listening to *New VinLage," with its four trombones five french homs, five saxes. bass, drums, zuítars and countless keyboards the massive sound that it delivers is equal to a large drum and bugle corps. It is a solid wall of music that never gets thin. The result is crisp and refreshing.
As with his recent albums, Ferguson goes after the commercial gaesket with this commercial market with this Wars" is givena fine rendition. Warsis given a fine rendition,
with Ferguson wailing away with Ferguson wailing away in top style. The version here is short and right to the point and is a vast improvement over the tacky cover done by
Meco. eco.
New Vintage" is a record built upon a rock hard rhythm roundation with high energy solos. Ferguson, of course, is the featured instrumentalistin all the songs, yet solos \(\omega\) by guitarist Steve Khan and saxophonist Mark Colby give the record extra added strength.

It is Ferguson who clearly

\section*{Communicate.}

Be part of The Daily Orange.

grabs the ball and runs with it. The man plays with the intensity of an erupting volcano. He never misses a high note, and he not only hits them, he screeches them out.

Along with Ferguson's fine playing and the power of the sound the band creates, the album succeeds because of the excellent work of Jay Chattaway. Chattaway arranged and produced the disc and he has turned in an almost perfect effort.

From
standpoint a technical gorgeous. the sound recorded here is so live that you'd think the entire MF Band was performing in your home. Mixed up front are the soloists, of course, as well as the bass and the drums.
The finest moment on the album comes at the end of side two with Sonny Rollin's "Airegin-" Ferguson returns to a pure big-band jazz arrangement which is on par
with the recent works of 'l'had Jones and Mel Lewis.

Aside from the disco arrangements that are given to about half of the alburn's songs, the music never becomes repetitious. Some of it even borders on fusion music plus horns, which proves to be interesting.
Unlike some of his more recent efforts," New Vintage" is a jazz record. It does incorporate atherstyles of music, yet it never really becomes too far removed from the jaze root. Ferguson and his producer are no dummies. They know that the most succesgful artists are those whose rescords mell in more than one particular more th

\section*{Hy Thomas Giradie}

The validity of last month's Day Hall Council presidential election has been questioned by write-in candidate Peter Kates.

Katea, who ran for council president, received more votes than president-elect Thomas Hayes. Kates was disqualified, however, as he had not submitted a nomination petition to the council election committee by its Uct. 16 deadline.
According to. William Charters, Day Council adviser, the write-in blank on the viser, the write-in blank on the should not have existed. " 1 'm being penalized by their mistake, said Kates.

\section*{Candidate questions Day election result}

Kates said, "1 opened up my (mail) box and saw that Tom was the only one that was running. I didn't think that was right. I siaw Tom's name and saw the write-in blank so, decided to write my name in."
According to Kates, the election committee had no power to decide the election because they made the decision using power delegated to them by the Day Council constitution, ratified in the same election.
The decision to disqualify all write-in candidates was made before the voting had ended and before the constitution was ratified, he sxid.
Charters said the election committee was not using the constitutional powers. The constitutional powera. council members and the committee was delegated power to make the council's decision, he said.

He also said the committee was using rules set up by the council, which were the same as constitutional rules, but as constitutional rules, but that the committee was using rhem as election committes rules
Whe committee's rules were drawn from Article i section 3 of the constitution, stating that presidential candidates must submit a nominating petition with the signatures of 45 residents of Day
election committee.
election committee.
Charters said presidential candidates had to submit a petition not only to get their name on the ballot, but also so the election commission could review the student's academic record. A student on academic probation is ineligible torun.
Chaiters said the screening of prospective candidates was legal, and they could make up their own election rules because they were a private corporation:
Kates said he 'really didn't know" if it was legal or not
James Morgan, director of the Otrice of Residential Life, which has juriadiction over dorm councila, said he would have to check into the matter further.
He said there is not a stain. dard dorm constitution for the university - Dorm constitutions, according, to Morgan. were \(\rightarrow\) prettsi much: left up to the aintonomons residence halls, If they matie ar rule, then that's what you have. to ro with.
Kates said he has decided to drop thematter "It would be a Pypicyictoryif lodintumben maíd.

\section*{} with, can cause separation and divorce. according to Pat Gillette, South Campus counselorin-residence.

Gillette and counselor Jim Hibel have organized a counseling program for married students to help them deal with the combined stress of academic and married life.

Married students can be under stress and not know it," Gillette said. "They may become irritable, and usually one takes out stress on his
family. You're not going to yell at a profemsor," Gillette said.
profasor, negative cycle beging and the relationship starts to fall apart."
Campus married ife necessitates adjustments that may be difficult to justments that may be diricuit to make, she said. Beyond the academic stress, married students may be raising accept a lower economic level:
"Ina situation where the woman is in school and her husband comes with her, he's trading in a whole other life by living in student housing," Gillette said.

Similarly, male students often must accept their wives position as breadwinner.
To attack some of these problems, Gillette said the program will emphasize bringing them into the open. "We'll take the stresa and help people deal with it constructively," she said. We'll teach them (married students) how to fight constructively, how to take an issue, a probiem with the couple,
and fight about it without name-calling
or dabeling." or Jabeling.

Grizzly fairy tales and sensational newspaper headlines have repeatedly newspaper headine wolf as a childcharacterized the wolf as a childeating, slobbering monster. As a result, many adults still think of the woll as the mon
children:

The Zoology Club of the State University of New York College of Environmental Science and Forestry (ESF') tried to dispel the myth of the "Eig bad wolf" last Monday by presern-

\section*{dispels myth of "big bad wolf"}
ting the Canadian Wildlife Service film, "Death of a Legend.'
The film explained how myths have caused the wolfs near extermination. According to the film, man does not understand the wolf, so he has adopted a "kill or be killed" attitude.

Wolves usually travel in small packs - rarely more than five wolves at a time. They kill only for food, attacking weak. sick and aged animala. They are not skillful or cunning hunters, and they only average about two kills each week.

Atter the film, questions were answered by John Harris, a trainer of wolves. He predicted it will be 40 to 50 years before people learn the onvironmental value of the wolf and urged a boycott of fur coats. With wolf pelits worth \(\$ 300\) and \(\$ 400\), 'you can't blame a man for poaching?
According to Harris, "A non-rabid wolf has never attacked man in the United Statea." To prove his point, he brought along his 7 -month-old timber wolt. Slick. Slick weighs 85 pounds, eats five pounds of raw chicken each
day and four or five vitamine
"The difference between dogs and wolves," said Haxris, "is that a wolf won't do anything he doesn't want to." After the program, Slick allowed about 20 persons to pet him.

Mike Yalumbo, an ESF' sophomore, remarked, "17he film was geared to a grammar school andience and wasn't very effective. However, by bringing a wolf to the lecture and letting kids see it, it probably destroyed some mis. conceptions."

\section*{Offensive line; unsung heroes}

By Dave Stern
Any kid on the block who tosper a football aroumd Magnines himbelf as Don Harold Jackson hanling in bomb from Joe Namathor Kin Stabler.

However, how mans dreamers have imagimed themselves as a battered offensive lineman who must anonymously block for the headinners?

It's not the.. most pleasurable assignment to stick your face into the defensive lime every play." said Syracume's offonsive lime coach Jim Goodfellow.

Although there have been some tough moments for the Syracuse offensive tine this seavon, they must recuive some credit for the Orangemen's burst of offense over the past few weeks.
"I think we are playing a major role in the team's auccess,' said senior right guard lon Wells. "We. are coming together and you have to start With a tough offensive lime."

Goodfellow said the affengive line worics every practice with the blocking sled, sharpens basictechniques and Tuns assignmente.

The bulk of practice is devoled to contact against a defensive unit that is aligned like the upcoming opponents. The line is composed of the 6 -foot-2, 245 -pound Wells and 6 foot-1, 254-pound sophomore tackie Craig Wolney on the right aide. The center is 6 foot 1 , 214 -pound Benior Hau Colvin. On the left side mare 6 Coot-2, 248 pound junior lare 6 Archis filting in for inforry Archis miling min zor iniqred junior Gien Williams at guarc and 6 foot \(2,246+\) pound Neil tharton at tackle.

Size has been a problem with this season's line. "We are in a situation where the ine has good bulk," Groodfellow said, Giodifillow the height. Groodfellow added there is no way to compensate for not hav. ing leverage.

At this point in the season we can't change our physical ability" " he said. "The line can only lift weights to maintain their Btrength and work on techniques, and menta preparation."
Colvin, who was named to

Holding that line
 to kick his game-winning field gopl agminat Whabhington didier thim Eaegon. Members of the Oringe
 Much of the reason for the amargence of the SU offenst this meason has been becauta of the fine. play of the Syracuse offensive linempen. (Photo by Rick Mraseey)
the ECAC tean of the week after his performance in the Virginia game, compensates for his lack of size with quickness. "I have to get into my opponent reai quick," Colvin said. "Hefore he has a chance to use his size ad. chance to
"Colvin is the toughest man on the line." Groodfellaw added. Heis a real fighter aynd adied. Freisamealsighter zyp has done mo."
*My style had to change this season," Colvia said. "hast yeason," Colvia said. was concerned with year I was concermed with
beating the noseguard beating, the noseguara
frontmide," he said. "This year Irontande, he said. "This year noseguard while one gaard noseguard while oux g
goes for the linebacker. pleased by the performances of all the linemen, but especially Wella -Won has played every game very well and we deperid on him for gome big games," the coach said.
A big game for me," Wells added, "is mot a big block, but a
high percentage of blocks."
Wells believes it talkes a special person to play on the offensive line, regardleas of size. "We block with our hearts more than our arms and legs,' Wells anid.
Goodfellow said Wolfley is the best tackle up front. "He has improved more than anyone else," Goodfellow asid Goodfellow Baid Axchis and Barton have also performed well. "Larry can play any well. Larry can polay, any Goodifellow. "He is very intelligent:
"Nell is not extremely quick," Groodfellow added -Hut as long as he is working hard, he is able to get in there and get after people.'

The line has had some lapses during the season. Goodfellow believes. lack of concenCration at certain times has caused problemas. "We have been an above-average line throughout the season," he said. "We have broken down in some elutch situations."
"The root of penalties is a lacl of concentration," Goodfeliow said. "formetimes it is due to signal calling," he said, "but it is often the time's said. bat it is often the hase favit. They have to make anre
that they concentrate and that they concentrat

The line's main functions are to open up holes for therunning back and to protect quarterbiacts Bial Hurley. "Eners a great guy when we need a big play," Well said. "We have to be pretty tight becauge we have to gave his head.?

Thus far in the season, the line has protected Harley's head well. Last meason, "Blond Billy" came out of sonne games as Hattered Hilly," resembling Jerry kluarry. This eesson he has set records and collected headlines as his improved offensive line has labored withont glory.

He's "Hlond Billy" again and, protected by the offensive line, a bit of the golden years are back.

\section*{Time runs out for SU harriers}

Hy Harry Latibergman
After finishing a is-S meason with a loos to the Greater Hochemter Track Clibb, it becanoe more apparent than ever that the cross country team could have used the support of their top three rumners.
The only problem was that the top three runners (Srian Trippany, Neil Hosenblad and Hrank Lowry) needed the support of cratches to even watch Saturdmy's meet at Druminns (tountry Club.

The Rochester Track Club, compoosed mainaly of college graduates, beat the hobbling harriers 15-4 8 , taking the top six places.
"Rocheater's first two guys were super," said SU coach Andy Jagan, "but if we had everyone healthy we cotld have beatan them. They vrere just barely ahead of our guys."
Tom Carter of Hochester woan the zice- in 26:51, just 11 seconds off the comree record. Jerry Josselyn (28si5) whs SU'今 top fimiaher, placing seventh. John Bucliley, Mike Sayern mind Mike Kohlbrenner tied for eighth in 2935 . Kep Hieinrich (29:35) finiahed 11th to complete the acoring.

We won't go to the ICMAs," Jutran maid, Gbecause it would be futile with all owx injuries. But the esason did end on poaitive note with two of our atrongenformormances of the yeer
 Strondmburg mitaph siziter.

Whis best thing repe conid do now it to put the
 tinued, "and thisk that it will mever happent to
ns again. We have the indoor track seanon to look forward to now."

Not only if the erowemonantry season long and grueling; the emotional strain of a season such as this could conceivably carry over into the track season.
"The crots country season won't have an effect on the track searon," Jrgan said, becaume it's not the same group from the crosecountry team rupning together in track. There should be no negativesroup image carried over *All our cross comntry Fanners ane. from winning bigle zehool programs" Jugan continued, "so one had season' shoulds't trin, them aronnd.
Now Jugain juat has to hope that no ankles are turned aronnd.

\section*{Group plans SU evaluation}

By Cheryl Bernstein
Syracuse University's accreditation will be reevaluated by an accrediting team for the Middle States Association of Colleges and Schools. The 14 meraber committee will be on campus for four days, beginhing Monday.
Colleges usually are reviewed for accreditation once every five or 10 years. According to Mary Ann Drew, secretary to the vice chancellor of aday accredited individually by their own professional associations.

Middie States only comes to SU once every 10 years. They don't have to come every five years because this university conducts selfevaluating studies in every department. which go on all the time," she added
Middle States is a group of voluntary educators who want to give the school a professional evaluation of its services, according to a source at the Middle States Office in Philadelphia.
She said the organization notes universities' strengths and weaknesses. Some universities, she said, have major problems which may threaten the nstitution
Chancellor Egger's secretary said SU does not feel
cominued on poge five

\section*{Mounts, Indians díscuss warrior symbol}

By Brian O'Neill
The origin of the Saltine Warrior, Syracuse, University's mascot, has been missing from recent discussions of atbe, marior tindian \({ }^{2}\) apgropriatemess as SU'S eymbol.

In two recent medtings between Malvin C. Mounts, vice president for student affairs, and ONKWEHONWENEHA, a native American student organization seeking to discontinue the Warrior's use, Mounts alluded to the warrior's long tradition, but neither
side spoke definitely about its origin.
The warrior's origin was brought to the attention of Mounts this week.
The Saltino Warrior. oxiginated in a fictomal article writton for the Octobet 1931 Orange Peel, a campus humor magazine. It was written by the Direc tor of Pablic Relations, Burgess Johnson.

The story said a 16 th century Indian chief's tribal home was uncovered in 1928 during the excavations for Hendricks Chapel. In later years, both The

\section*{The Saltine Warrior: facts behind the myth}

The following is a conidensed version of the DO article by Barbara Riegelhaupt (DO, March 23, 1976); "Myth of Saltine Warrior foolum SU many moonsex

It was "The Trie Story of Bill Orange" which revealed the gensational discovery on the Hendricks Chapel site: It explained that the Saltine Warrior, Bill Orange, who waz previously only a figure of apeech used to represent Syracuse's athletic power and school spirit, was actually an Indian warrior whose real name was \(O\) -gee-ge-da Ho-schen-e-ga-da.

But Syracuge University. now has O-gee-ke-da Ho-achen-ega-da; the saltinie warrior; Big Chief Bill Orange, with the orange feather in his scalp lock," the gtory read, "bringing the finest traditions of his people out of antiquity down to present-day tribes of aalty youngsters who people his ancient hunting ground.
A. reproduction of the illustrations warrior's "portrait" - which was actuallys painting by fine arts professor Hibbard Kline - appeared in halftones on the cover.

The atory made a bigimpression. According to clips from both the DO and the downtown pappers, the men's senate passed a resolution the week the gtory came ont that the findian head, as depicted by Kline, be adopied as the of ficial SU embiem.
In addition, the articlen noted a student- committer whet formed to promote the Indian manecot and to mee aboat: pating a live Bill Orange, dreaed in mutive contume, to mppear at Thotere

Seaman Jacobs, now a freelance television writer living in Beverly Hills. Calif., could not pinpoint the inspiration for The True Story of Bill Orange, hesaid theidea probably came from the Saltine Warrior song, eight lines, written by Samuel E. Darby Jr. who graduated in 1913 and is now deceased.

The idea of having alive Saltine Warrior at games caught on in 1931 and the next year the men's senate decided the position should be permanent: "He must be a big handiome junior and last, but not least, will have to be six feet tall or more.
(A comomittee also looked into acquiring the services of a real Onondaga Indian, according to the DO clips from that time.)

By the 1950s however, Bill Orange had changed from Indian chief to orange-garbed stilts walker. After his 10-foot fall from the stilts, the idea for an official warnior reappeared.

Applications were filled through Lambda Chi Alpha, the fraternity which has carried the tradition since that year
"As you must now conclude, Burges Fohnson's atory in the Orange Peel was a gentle rib, a harmless little hoax." Jacobs said in a note accompanying clips from his scrapbook. "But as you see, Bill Orange did come to life becinge of the Peel. "And I'm pleased to learn he's still alive"

It was in 1951 that the senior cless commiserioned the 3,000 porand hrones Carnegie Iilorary, maar the "diecovery Cite."

Daily Orange and the downtown newspapers reported the fictional piece as factual.
Mounits said the new evidence "confirma the sense miost of us had that the Saltine Warrior had tome-relatively long history.

He said he will meet again with representatives of ONKWEHONWENEHA and they will make an attempt to define the issue. Mounta has already met with Gerry Muskrat, a visiting law professor from the Univer-
sity of Oklahoma, and Judy Maggesto, a third-year SU law student. At thenext meeting undergraduate members of ONKWEHONWENEHA will also attend.
Mountersaid-he is-not yet sure-who will make the decision regarding the issue, and he said there must be clearer definition of the objections to the Indian before decision is made.
Muskrat anid Fridey that he planned to continue using the administrative Continued on page four

\section*{UJB rules}
on 3 cases
By Walecia Komarad
IWro tudents were placed on dinciplinary probation and one disciplinary warming was administered by the University Judicial Board (UJB) last night.
UJB heard three cases, one of which was closed. The first case dealt with a freshman charged with placing a 79 cent Flair pen from the bookstore in his pociket. The defencient purchased about \(\$ 17\) worth of other itema and claimed to have forgotten about the pen.

The student will receive a written disciplinary warning stating his behavior has been anacceptable.
The second case involved two Watmon sophomores charged with stealing two quarts of soda from the Shaw Dining Hall soda thachine.
The students said they raised the arate closing off the raised the gate closing off the soda machmes, testifying that last year bwo rebident ad. visers and the dorm director's visers and the dorm directors through the dinWife waiked through the dining hall, questioned the leave.
The board administered disciplinary probation through May of 1978 . The studenta may continue classes, but if 'they continue accused of further misconduct they must prove to the board that they ghould not be dismissed from the univeraity.
dismissed from the university.
The students must also pay
The students must also pay for damages incurred. Ac cording to the security reporkit took one hour for maintenance o repair the gate.
The third case was closed.
Cyclist strikes stopped auto in intersection

A Syracuse University student was stightly injured Friday afternoon when the bicycle he was riding struck a stopped car.
Matthew Stillerman. 276 Genesee Park Drive, struck a car driven by another-SU student, Alan J. Pransky, who lives in Slocum Heights, according to SU Safety and Security. Security said Hransky had stopped at a stop sign at the intersection of \(\mathrm{Os}_{\mathrm{s}}\) trom and Euclid avenues, ertered the intersection and stopped - again when Stillerman atruck the left front part of his car.

Stillerman received a cut on the chin and the front foric of his bicycle was bent. The damage to Hransky's car was minimal.

\section*{Live, from Sing Sing, it's Saturday Night Dead}

It, all begenn with Gary Gilmore. Becaure of his excution, eapital punishment was restored in America. This action pleased many Americans, but no one oresay its'comsequences.
After Gilmore's death, siome opponents of capital phnishment came out in favor of televising earecutions. The pablic, they felt, would be disgasted by thim epectacle and would, therefore, advocste the abolition of the death penalty. Gradually the pressure for televising executions grew, and the networks reliuctantly prat one on the air.

The people loved it.
ABC, the network which sponsored atich uplifting proixrams as "Charlie's Angels," could aee the possibilities eviclent in this gituation. Acting quickly, it gigned an exclusive three-year contract with Sing Sing Prison which gave ABC the exclusive right to

\section*{Thomas Coffey}
televise that prison's executions. These executions were shown, as halftime highlights on "Monday Night Footbail' and were narrated, appropriately, by Howard Cosell.
The public clamored for more:
CBS joined the death penalty bandwagon. Lagging far behind in the ratinge, the network saw executions as a certain method of aiding its ailing schedule. After signing a contract with several Southern prisons. CBS puit "Saturday Night Erectitions" on the air right after "All in the Farnily." These two strong programs immediately dominated the ratings.

The public's appetite for violence grew.
NBC was the last network to televise executions, but it took the boldest step, forming a nationwide group of prisons into a National Execution League (NEL). Curt Gowdy did the play-by-play, while Alex (NEL). Curt Gowdy did the play-by-play, whie Alex
Karras was lured out of retirement to provide the Karras was Iured out of retirement to provide the color commentary. ("Well, (hurt, I think his form is of a little tonight. He's not tying the noose as tightly as he ususaliy does. determined by a point system similar to the one used

\section*{Olympic gymnastice.}

After a few years, however, the inevitable happened. Prisons no longer had enóngh criminale eft to put to death.
The networlas were in turmoil. Their top-rated showa were in clanger of being cancelled. "This can't be allowed," they said. They began an intensive lobbying campaign.
"Listen to reason," they told state legislators
around the country. "The NEL satisfies people's aggreasive impulses and keeps them docile. It's also a great moneymalier for us, and helps the economy tremendously."

This logic, plus a few million dollars in bribes, produced the desired reault. Any crime move seriou than shoplifting became a capital offense. The NEL never agnin had a shortage.
And the people were happy.

\section*{Run for the barricades - SA is revolting}

Student Association is in a hell of a mess right now. Mresident Rich Crowel is accused of being unabie to effectively lead the stadent body. SA has been unsible to fire üp erithusiasm for it or its programs as in the 1960 s. Unless \(a\) quicti and unusual solution is found, atudent interest in SA will die completely.
couph a solution exists. SA needs a coup d'etat.
Just think how easy it would be for some power-hungry hack, whether in SA or not, to pull off a coup. All hei or she would have to do is mobilize the ROTY's, seize WAWK's transmitter,

\section*{Drew McKinney}
proclairn a revolution and set up a student junta. It happened in Chile and, barring a CLA-financed counterrevolution, it can happen here, too.
Many student organizations would benefit from a coup d'etat. The ROTY: students could incorporate actual comhat in their training program. The UJH hat in their training program. The UnB would, of course, be working overtime
conducting purges of \({ }^{\text {ch }}\) Crowelligt running dogst and exiling them to the fax corners of South Campus. The DO,

WAER and Report would probably be banned by the new regime and-would have to go underground, whichi would make their existence far moive interesting. Art students would have their hands full designing and creating wall posters denouncing "Crowellist poaders" and hailing the studentjunta.
Student interest in SA would skyrocket as a result of a coup d'etat on campus. Kirst, this sort of thing doesn't happen every day and the presence of armed ROTC troops in the streets are bound to excite curiosity. Second, gtudents would rush to prociaim their loyalty to the new regime once it became clear those who didn't would be exiled to remote regions of South Campus, where campus shuttle buses are as cormmon as tuition rollbacks. With 15,000 people awearing their devotion to SA, there is little that could not be done.
But the greatest advantage of a coup d"etat wonid be its effect on the university'a publicity efforts. Many univerand : mave awesome football, tasins, and most have student pnion buildings. But how many colleges can
boast a conp d'etat on camptis and a boast a conp detat on camptisiand a
junta government, decked out with
swagger aticks and aviator sunglasses (which the CIA probably has buaheis of leftover from Vietnam)? Let Alabama and USC get 15 seconds on the Frudential College Scoreboards. SA and its
new regime would get top billing on the 6 o'clock news. Need I say which program is watched by more people? It would be a hell of a lot cheaper than a stadium, that's for sure.

\section*{The dream lives on}

On Oct 28 The Daily Orange published a two-page section titled "Whatever happened to the American Dream?" This special feature con tained responses from well-known figures in American society on what has become of that which we know as the American Dream.

Several days ago we received a letter from Gerald Grant, a professor of sociology and education at \(S U\), which said in part "Y posted your spread on the American Dream on our refrigeratordoor and invited my children to res pond. My 15-year-old daughter Susan wrote the following:

Panul Simon says he "doesn't know a friend who feels at ease, or a dream that's not been shattered."Ido. We all do. Down deepin ourselves we all hold some dream, some hope. No matter how impossible. or how real.

If we didn't have a dream, we wouldn't get upin the morning. We wouldn't have that intangible something that keeps us going. We all know when we lose our "American Dream," because that becomes the end for us, and we either totally withdraw. or we die.

> enther totally whthdraw, or we die. I dontt think. America has lost ita dream. It may have become disillusioned, certainly, but as long as there's people doing and fighting, our dream lives on."

Susan Grant

\section*{The other side of the dialogue}

Welcome to today's editorial.
In this space, each day, we tell You what we, as a newspaper, think. We give you our opinion, in: form you, analyze your life (and ourg) and eometimes tell you whit to do.

Today we're not going to do any of that.
Today we're going to issue you an invitation to reverse the process: to give us your opinion, inform us, analyze what we do, and tell us what we should be doing.

\section*{The Daily Orange}

The last of The Daily Orange's open forums is today at i \(3 \mathrm{p} . \mathrm{m}\). in \({ }^{-}\) the Noble Roon of Hendricks Chapel (next to People's. Place). The forums are open to all members of the university community - in fact only with the participation of the community will they be worthwhile.

The forum provides you, the DO reader (or non-reader) with an opportunity to tell us what is good, or bad, about what we do every day. If you have an opinion about the \(D O\) you, want to express, the forum is the place.

The formm does something for us, ton. It gives us a real chance to find out what you're reading in the paper - and what you're ignoring. As all newspaper stafis do, we try to guess what our readers are
interested in - but the open forums give us an opportunity to ask them.
If you can't make it to the open forum, you can still tell us what you think: Jim Naughton, the editor in chief of this paper, will be on Bob Reichblum's Coffee Break program on WAER-FM (88.3) this Friday from 11 to noon. Callin and tell him from 11 to noon.

The ideal which all papers strive for is a real dialogue between themselves and their readers. Editorials, news stories and features are all parts of how we participate in that dialogue.

You can participate today. Come to the open forum.
Tell us what you think.
David Abernethy for The Dafly

\section*{Shaw Hall board rejects plan to abolish living unit}

By Lisa Kovitz
and Bruce Levine
aw Hall living learn Shaw has encountered sind cencer ly solved ite first major possblem since being res problen tred this year accorifing to dorm director Brian Gor to dormas.
'Tuesday night Shaw's longterm governing body, the Policy Boherd, wanimoralyrejected a proposal to dissolve the dorm's human potential living unit.

Shaw was instituted as a "Living/learning centex \({ }^{4}\) tiree years ago, but plans for its reorganizanion were developed last year due to belief that the
dorm lacked atructure. It is broken up geographically into nine units, each with a theme of special interest to the residents.
The dorm's resident haxdbook denines the hmman potential unit's focus as a potennal units focus as a stady by students who bold a common interest in the often uxitappend potential of manlind."

Gorman made the proposal to dissolve after he met last week with about 30 of the unit's 50 members, who complained of a lack of communication within the unit and a lack of leadership from their resident adviser (RA). Steve Hoeffer. Hoeffer, recen-

\section*{Jacket, books st}

A 19-year-old Syracuae University student had clothing and books valued at \(\$ 75\) atolen from a study carrel in Bird Library, where he was working Monday evening, according to SU Safety and Security.

Richard T. Synakowaki, 125 DellPlain, left his belonginge in a Eifth floor study carrel at about 5 p.m. ard went to the

\section*{tolen from Bird}
basement lounge to buy a soda. When Synakowski returned, his jacket, ski cap, chemistry textbook, notebook and two folders containing notes were missing.

Persons sitting near Synakowskis carrel had noinformation about the theft, security said. No suspects have been identiffed.

\section*{Fools on the Hill-enter the Beatles contest}

Editor's note. There are 50 references to Beatle songa, ollowing article. The first reader to correctly identify the most references will wina copy:
of the Beatles "Love Songs." Deadline is Tueaday afternoon at 3.

By Jon Van Duyne He is the ultimate Beatle fan. He lives in a small house in a hase off harrison sis Julia and son Brian. Entering the house, one is Entering the house, one is engulfed in aea of Beate marine copts Corporation, 1969) is Products Corporation, 1969 is on the toantel. The walls are covered with stars, planets vestige of the mediacrazed colors of the late 60 m .
He emerges from the shadows. He wears wire-frame glasses. He is a doctoratone of the area hospitals.
"Hello," he says, thrusting his hand forward. "You're probably wondering about the whe Apple's decor. I made the the Apples decor.
Of course. Should have
known better.
There are posters here and
There are posters here and
there. combining with the there, combining with the spilling, helter-skelter effect.
He motions to a chair. The soft beat of "Nowhere Man" is

What do you think about the new wave of beatle books. magazines, tereleases and posters?
He looks away for a second. 1 think it's rather aad. The Beatles have broken up for good it was iningsitable that the Beatles would call it quits. These attempts to relive the madcap adventures of the tiab Four are inexcusable
He stands up and soon paper cups filled with cider. He bits in his chair, fumbling with a matchbox white he lights a Gitane.

There are a number of keatle broks on a nearby sheit.
"Which beatle books are any good?

Well, well, well. 1 expected that question. 1 like Henter Davies" book. "The Beatles,"

John Lennon said. "The Davies book is bullshit.
\(\cdots 1\) know, 1 read all about it.
"I know, 1 read all about it.
annon's been off his rocker

Ever aince he married Yoko. Lioner Gear Life With The stereo. And what about the Wedding Album?' The firnt side has 27 minutes of heavy breathing while John and Yoko are presumably having intercourse. Now that's bullshit.'

It didn't keep you from putting up, the posters from the album

The package was nice, with the press book and posters," he concedes with an embarassed smile.
"What" about the Davies" book?"
-It's pretty good. A lot of detail. There's some analysis of their music, and some really good chapters on their backgrounds and the Hambarg days. But lalso like the interviews, Hemembers.: 1t's really Kevealingers as the interviews revealing, as the interviews Wennon/McCartney chasm Lennon/McCarney ched chasz opened up. The book' out of
print, thoukh, but you can btill print, thoukh, but you can atil find it at Earage sales. it's
worthit. l just finished reading worthit. 1 just finished reading
it for the ninth time yesterday.
"So it's the best book about the breakup:
"No, 'Apple 'To 'The Core' by Peter Mclabe and Kobert 1. in that respect. It details the in rat respect. corporate cannibalism inherentinthe musicbusiness. Betteryet, it ehronicles the sue me, sue you blues in the courts and the sort of 1 , me, mine attitude McCartney was taking. Unfortunately, at times the amount of data, facts and figures is so heavy that the reuder gets bored."
"Are there any other Beatle books you like?
"There's a lot of Heatle booics that are run of the mill. Too many people are trying tocash in on the revival of interest in "Like myself?'

The thoukht had occurred to me. Anyway. Kon Schaumburg's Growing Up With The Beatles is a prime exampleand it includes some really interesting trivia. But he spends too much time discussing the ways he related to the Beatles while he was coming of age. Who cares? He just Everybody's trying to be a

\section*{'History of the Beatles'}

\section*{exploits group's memory}

By Jon Vian buyne
They had gathered-for a tulogy. They wanted to see if gods could be brought back from the dead. The smells of cheap perfurme, sweat and bub blegum radiated from the pack of mostly high schoolers wait ing to see the film. They wanted a celluloid miracte.
They had come from across the land to see the ritual. Iwo Syracuse University students had spent two hours walking and hitch-hiking to reach the theater. Another follower complained that he had corne all the way from Oswego to stand in line for an houx.
The doors opened, and the crowd surged in, flattening crowd surged in, fattening two ushers against the walls. The audience had come to see a film that promised a journey Mangladesh.
But there
But there was no miracle that night. Instead. the audience was treated to a disjointed. exploitative film
created not by devout priests created not by devout

The first 15 minutes were a blur of interviews, exploding color and fragments of Beatle songs. The sound shriveled up and aimost died, crackling and writhing from the speakers. The film was old and grainy and sometimes out of focus.
After an eternity, the words
A History of The Beatlea" hashed on the gcreen. There were some clips taken in \(1966^{2}\) at the Cavern. Where the Beathes had started out Within minutes, they were show. A bowlegged John belts out the vocalas. while George looks intense and faul makes cupid faces.
The most interessing part was the reaction of the studio Gudience. A simple shake of Beatie bangs was enough to mend them into tears, screams and hysteria. There were no smokebombs or glitter to
generate excitement. Things generate excitemen
were aimpler then.
In contrant, the theater audience wat quietly, but not in reverence. Maybe they were
etraining to catch the words.

Or maybe they were thinking like the Uswego pilgrim, who mumbled, "1 came all the way from Uswego for this. I paid \(\$ 3.50\) for this.

The film staggered through more clips and mor interviews and more songs and more screams and more faded pictures. The Beatie hair got longer, and their faces became worn and cynical. There was a funny acene where the Beatles made mincemeat out of an interviewer who attempted serious questions about their being awnrded Mernbers of the British Em pire. But the haughs were rew The filmmakers managed to kilm of the 1965 shea stadium tilm of the 1965 Shea Stadium concert. Parts were good, but the gound and length crippled the effort. Ihere were scattered scenes that were woring remembering. A cop covering his ears to the music sarind who is carried sereams. A girl who is carried away by three officera. A which moptop is who

The incredible length of the sequence was too tong for some of the moviegoers. Four people left. They may have gone out for popcorn, but they never came back. One girl had fallen asleep. and bored, listless conversations flowed through the audience.
Following Shea was another monotonous 15 minutea filmof the beatles in Japan. The Heatles look exhausted, and Kingo has a snari on his face. The sound was bad and ruined the songs they performed, in cluding "Daytripper. "Nowhere
Then, inexplicably, the film got better. Two BHC black. and-white fantasy sequencea on "Strawberry, Fields" and Although they weren't in color Athough they werentin color sige surrealistic photography signaled the arrival of the paychedelic, nower power acse. A slick-haired Dick Clark interviewed teenagers after

bonds. Voters were forced to accept or reject a borrowis plan for a clump of foing able to choose from among indjvidual projects, according to Bernard C. Melewski, NYPIRGregional coordinator. NYPIRG tried to point out that there is a section of the state congtitution whose "sole state constitution whose sole purpose 18 to thwart this type bond issue." Melewski gaid In light of the bond's idefeat, Melewsini said the "voters have spoken their minds on the issue." In rejecting the bond they showed there might have been too much incorporated in it, he added.
Carey has vowed to get the funding for the most critical of these projects through other means.

\section*{Money LP: potent start bottoms out}

By Gian-Carl Casa
The problem facing today's rock musicians is finding music that ia professional without giving up any of the nheer power and excitement associated with the form.
On his debut album, Eddie Money goes in the professional direction. Deapite the competence of all concerned in maling this LP, it inevitably faila to arouse much interest

Money is not an untalented performer His voice is strong perforne its and, at it best, cap powerful emotion. He wroy and cosarranged iv of con abums 11 songs and con tributes on both keyboards and sax throughout Money is also backed by a competent band, the beat of which is guitarist Jimmy Lyon whose solo on the LPs opening cut, "Two Tickets to Maradise," is one of the album's high points. Uniortunately, although both Money and Lyon are skilled at their crafte, by the end of the first listen, everything they do becomes predictable.
Money tells us in "Wanna be a Rock ' \(n\) ' Koll Star" that -Ever since \(I\) was young/I knew... I was gonna make it," and on his album he takes no chances that could jeopardize his dream. From "fuzzy" Euitar licks to 1-4.5 progressions, Money uses all the tried and true rock technique.
"Kock ' \(n\) ' Koll Star" almost falls over itself in trying to be Money's "theme," the song that can get an audience to it feet, hands clapping, but he drags it out too long. The fact that saxaphoniat Tom Scott of the LA. Express plays on two cuts, show's how much Money wants to be successful
The album starts out strongly enough with "Two Tickets to Paradise" and Money's version of the rock classic "You've Keally Got a Hold on Me." the alburn's two best songs. After "Hock 'n' Holl Star," the rest of the first side seems hike filler just there to hype us for side two.

But once the record is thpped, it faits to fulfill its promise. With the possible exception of "Jealousies," where Money gets philisophical: - -Jealousies/keep us consian. thyftuo defensively/hife on earth/take it for what it's worth". None of the songs are interesting. Where there's a solo it's predictable, and solo, its predictith someth. whenever he toys with somet ing dHerent Hacking vocals retreats so he wouldn't be to retreats, so he whuld much of a gannble. Luckily, the recor

Unhice most of their musical contemporaries, Chicago's prime interest is in quality rather than in quantity. This concern is once again exemplified in their latest release C'hicago XI.

While not a super' album, "Chicago XI" embodies the same formula that has made previous Chicago albums successful. Again there is that blend of blues rock top 40 rock and harder "message" rock. Again there are the excellent vocals and instrumentals which have made Chicago the premier "Big Band". rock group. And once again there is a superior production effort by James Guercio.

The album consists of 10

\section*{Man treated}
for injuries

\section*{after collision}

A man was taken to St. Joseph's hospital for treatment of a possible neck injury following a two-car accident at the intersection of Waverly and University avenues Sunday afternoon.

City police said the man was driving south on University Avenue when he collided with a westbound vehicle that crossed in front of his car.
"She didn't see him coming," officer Chris Collins coming," officer Chyis Colins said of the driver of culd not give the names of the not give the names of the
drivers but said neither of drivers but said neither of
them were syracuse them were S
University students.

The Waverly-Univergity avenue intersection was termed "dangerous" by Hev Marable, director of communications of the Medical Crisis Unit (MCU), which is located on one corner of the intersection.

Marable said MCU responded to the accident minutes after it occurred and fitted the male driver with a cervical collar in case there was a neck injury.

The woman driver was shaken up but not injured.

\section*{Police probe}
x-rated movie advertisement

Syracuse police are invegtigating The Daily Orange advertiser who, in October, placed a help wanted ad for actore for an X-rated movie, The Syracuse Herald-Journal reported.
A spokesperson for the organized crime division of the Syracuse Police Department said yeaterday that the invertigation, headed by police officer Manny Leone, is being made directly through the office of the chief of police.
The spokesperson said the chief's office cannot discuss the case until the investigation has been completed.

According to The HeraidJournal, no progress has yet Journal, no progress has yet tigation.

Joanne Dobrzynaki-Body, advertising director for The Daily Orange, said Tuesday, that she was certain the ad was legitimate. She said ahe had seen the ad in other Syracuse newispapers.
Dobezynaki-Body anid the ad had been approved for publication by George Musal. bucineas-manager. She satid The Daily Oranpe has not yet. been contacted by the police. regarding the ad.

\section*{Chicago's album displays}

\section*{quality}
original compostions, epanning many types of rock music. There is the blues-based rock as evidenced by "Mississippi as evidenced by "Mississippi nonetheless likeable piéce.
Also, there are the top 40 songs which comprise a large pangs which comprise a large part of the album. Included in "Take me Back to Chicago." and their current chartbuster, "Baby, What a Big Surprise," a catchy tune reminiscent of their previous hit. "If you Leave Me Now." Cari Wilson of the Beach Boys helps out with background vocals in this song.
"Policeman" is one of the best cuts on the album. It seems, at first, like a light top 40 s composition, but packs a wallopping social criticism of our men in Blue:

Every night he comen home with a six pack all alorse Feeds the cat he lives with He picks up the Telephone Needs to talk to someone
But the only love he's known was lost forever. he is \(a\) Policemar
The hard rock zompositions are the only weak spots on the album. "Till the End of Time" is an example of this. The weakness in this song is in the vocals which sound like a group of rowdy students singing at a Tequila sunrise party. The rocals lack harmony.
Even worse than "Mill the End of 'lime" is "Take it Uptown." Here is a typical hard rock number complete with muted vocals, blazing guitars, and the usual mesgage about how sick society is. It is a

\section*{SU football Rocky's}

\section*{The trio that took a run at walking-on \\ proved that size meann as}

A walk-on is a player who comes to the uriversity without any financial stupport or encouragement from the
- SU head football

Football coach
Frank Malones

\section*{By Geoff Hobson}

The walk-on in college football today fits the perfect mold for the lead in "Rocky." He is an athlete pitted againgt seemingly insurmoumtable
odds whosweats and strains to odds whosweats and strains to make the team. Usually he is his only believer.
"The odds of a walk-on starting or even making the team are astronomical, about 1000 -
to-1," Maloney said.

The coach attributes this to extensive recruiting of high school athletes

Nowadays, there are no stones unturned. If you are good enough, they will find you," he said.

Maloney divides walk-ons into two groups: the knowns and the unknowns.
"The first group is playeirs who are known to the coaching staff and are invited to try out, but they are not guaranteed financial aid. They must prove to the coaching ataff that they
can play here, Maloney said.
"The other group is players who are completely unknown to the coaching staff," Maloney said.
Standont defensive end Bob Tate is a prime example of the first group.

Tate's Fate
"We considered him for a scholarship but decided not to offer him one because of his size," Maloney said. "We encouraged hirn to come out for the team and prove to us that we were wrong."

The 6-foot-2, 200 pounder from Pittsburgh was upset at from Pittsburgh was upset at first a
ship.
"They were looking for freshmen who were already big enough to play defensive end, and not many guys right out of high achool are that big." Tate said.
'I received scholarship offers from small schools, but I wanted big-time or no time, and added to the fact that my brother (Dave) played here convinced, me to come to Syracuse," Tate ended.

The sophomore promptly

much as an umbrella in a Syracuse snowstorm ais he was awarded a scholarship after his first semester as a freshman. He won the starting main reasons for SU's success against the run.
"I probably played my best game at Pitt because I wanted to show my friends and a big school," Tate said.
While Tate was more or less a known quantity, Larry out of nowhere to grabscholarships with pure guts and determination.
Parisi came to Syracuse as a 215-pound freshman offensive lineman who was told immediately by Maloney that he would have a difficult time securing any amount of playing time because of his size.
\({ }^{\text {"A }}\) probably could have played for a small school." Baid the senior from Montville, big., school a shot and I didn't want to pass up the chance."
"I understood the situation all along," continued the sixfooter. "I was small and I was not going to play that much, but I took my shot at the big time and I have no regrets," Parisi said, with echoes of Rocky Balboa.

\section*{Three for one}

SU's Italian Stallion was rewarded for his perseverance and determination when he was given a scholarship this past year after three years of hard work.
"Even though I haven't played much (he is a second string defensive lineman), I have really enjoyed my four years here. I've made lots of friends and proved I can play here by getting the scholarship."

Newman is the smallest of the three at 5 -foot-10 and only 185 pounds, but he commands a powerful upper body.
"I knew I would play football wherever I went to school, but I wanted to get the education that is offered here, plus play on the level of competition at Syracuse," said the junior from Short Hills, N.J.
Newman sent his films to the coaching staff and was invited to the camp for walk-ons. By the end of his freshman year, he was given half of a scholarship. He earned his full
\[
-1-1+2
\]
"That play was, the highlight of my career," said Newman. But I just want to contribute to the team. Hell, it's a big thrill for me to play at Syracuse. I just want to go out and hit the guy on the other team, do my job and help us win. I just love to play and I'm happy as hell right now,' Newman said.

If they ever come up with a Heisman Trophy for determination and perseverance, Tate, Paxisi and Newman will be three of the names carved on the award. Tamer)
scholarship with an excellent 1977 spring camp.
"Being a walk-on when you are a freshman is tough," Newman said. 'I had to askfor things that guys on scholarship took for granted and Ican understand that. 'They didn't want me, I wanted them. But after you prove yourself, all the little things fall into place.;

Newman has played a key role for SU this season as he is a member of three of the five special teams. He just might have made the biggest play of the year when he fell on a blocked punt in the end zone against Washington in a play that led the Orange to their that led the Orange
first win of the year.
\[
\because \ldots . \quad \therefore \quad \therefore
\]

SU defensive lineman Bob Tate (9G) lunges for a Virginia running back during Syracuse's recent vietory over the Cavaliers. Tate is a walk-on, a player who was not guaranteed a acholarthip and a spot on the squad, but who nevertheless made the team. Another important SU walk-on is Larry Newrnan, who recovered a Washington fumblo eartier this taason for a touchdown. (Fhoto by John
Tamer)

\section*{Waterwomen ready to get their feet wet \\ By Katie Fritz}

While their season doesn't start until Dec. 1 at St. Lawrence, the Syracuse University women's swim team will geta "wet"run this weekend in the annual New York State ALAW Relay Carnival at Cortland.

Lagt year's team (with a 4-4 dual meet record) won four out of geven swimming relays (thereare also two diving relays), setting three meet records. Although no team point total is kept, secondyear coach Eou Walker predicted, "Unofficially, we'll blow everybody out," by winning as many as six of the seven swirnming events.

Syracuse' \(\boldsymbol{B}\) toughest competition of the 25 competing teams will come from perennial power Colgate, a team that features All American breast stroker Donna Carter.

Meanwhile, as Bill Murley and Art Moink became the golden gridders of the football Orange, the women began training in Septernber.
"We're way ahead of last year," Walker said. "Last year we didn't start swimming until mid-November: This year we started two-a-day workouts in the second week of October with weight training three times a week."
The prospects of a better Orange dual meet seasion look even brighter with the return of junior national qualifier Wendy Evans and sophomore co-captain Robin Butler (also a nationa qualifier).

Add greater depth in the freestyle sprints and two blue-chip freshmen, and the women'a goals of a No. 1 ranking in New York State, top six in the East, and top 20 in the nation become realis tic possibilities.
Freshman Liz Vilbert is a two-time high school All-American and competed in the 1976 Olympic trials. The West Chester, Pa. native swims backstroke and butterfiy. Another top freshman Patay Klotz, did not compete in scholastic swimming (her Simsbury, Conn high school didn't have a team), but the frees tyle sprinter is a national AAU qualifier.

The diving corps is also much improved this year with freshman lisa Anania looking to pick up points for the women "Tresinman Lisa Anania loaking to pick up poinaly," Walker said.
Other promising freshmen include freestyler Debbie.Becque and breast stroke-individual medleyist Donna Shycoff.
Sprinter Lisa-Shealy and breast stroker Ellie. Boluch, both juniors, are returning point-scorers, while junior co-captain Ann juniors, are returning point-scorers, while junior co-captain
FRITZ CRACKERS: Besides this year's tougher Io dual meet season, the women have scheduled a 24-hour zelay on Nov 9 to raise money to trinin over Christmas break. "Our goal is 50 miles," Walker eaid. That breaics down to-approcimately 88,000 yards, or 1,760 lengths of the pool.

\section*{SPORTSHORTS}

Today and tomorrow ara the last days for stadents with Athletic Activity Carda to pick up their tickets to this Saturday's
football game between SU and Boston College at Archbold. football game between SU and Boston College at Archbold. Ticket offices at Manley Field House and A
open both days from \(9: 30 \mathrm{a} . \mathrm{m}\). to \(4: 30 \mathrm{p} . \mathrm{m}\).

Rick Bolstad and Steve Ruseell, members of the SU men's swim team, will compete in a diving meet this weekend at Clarion State Callege in Clarion, Pa.

SU foothall players Larry Newman (27). Bob Tate (96) and Lou Parisi (52) are all walk-onsewho have made the Syrecute toam. All three have overcome the disbeliof of the SU coaching Etaff. which intially did not offer them sciolarahips to ploy at \$yracuse.

\section*{Orange Aid distribution starts after labeling delay}

\section*{By Felicia Hinter} The delivery of Orange Aid, he freahman photo book, was delayed by problerns in getting dentification labels for the books. Distribution of the 1,000
ooks printed began this week-
Orange Aid is supposed to be distributed at the beginning of the year to help introduce freshmen to the campus.
The book was printed and ready to be distributed at least Ive weeks ago, according to Dick Taylor of The Printery, 513 S . Weat St. Taylor eaid the books "just nat" at the printers until they were picked up last week.
According to John Pellegrino, editor of Orange Aid, inability to obtain labels was the cause of the delay.
Pollegrino said Student Data Systems, which made up identification labels for the books, was alow in printing the labels, which caused the delay in distribution
-I asked for them (labels) a few weaks ago, said Pellegrino. He said that Bob Port, systerns analyst of Student Dats Systems, would not agree to print the labels withoat authorization.
He (Port) said he would need a letter from student affairs authorizing them (Stadient Data Systema) to print up labels," Pellegrino said.
Port said this is not unnaual. - Any requests made for information must go through formation must go ehir
Pellegrino said he obtained the letter and went to pick up the letter and went to pick up the labels about a week later Hesaid he was then notified by a Student Data Systeme employee that the Orange Aid labels were not put in the job book. This caused further delay, he said.
Student Data Syatems Coordinator Mimi Flacik said the request for labels came in

Oct 19. She aid the labels were placed behind other jobs in terms of the date the request came to Student Data Systems.

Flack said a certain amount of time is allotted for each job "There is a backlog," she said.
"and the only fair way to do it" is to assign a two-week period" to finish any job.

Flack said Pellegrino asked for priority a week after the Oct. 19 request came in. She said the labela were then given

The Onondaga County Stadium Commission yesterday adopted a three-phase study plan to determine the need for and feasibility of a new football stadium.
any of a new football bladium. ball.

Phase one of the study plan will begin immediately and be completed by Jan. 1, 1978, according to Joseph V. Julian, SU vice president for public affairs and representative to the stadium commission.
Phase one consists of four tasks:
-Determining the community's attitude toward a new stadium.

Examining three alternatives: whether 70-year-old Archbold Stadium is usable; whether Archbold would be usable with modifications; sand whether construction of a new stadium is necessary.
EExamining funding mechanitms. According to Julian, this will include consideration of joint funding arrangements between the county and the university; leasing arrangements, in which the university would be the principal tenant in a countyowned facility; and bonding arrangements, in which a public borrowing plan would be developed.
Julian said the commission will also exsmine outaide sources, including private bencfactors and state or federal funding.
- Making a cost-benefit pnalysis. Task four will in volve looking at construction concepts to determine how reasonable they are, the projected use of the stadium they propose and what revenues can be anticipated from such a stadium.
"Here I think we might be involved in comparative analysis." Julian said. "We might want to take a look at the otherstadiums that have been built at modest cost and then examine the use of that have been built at modest cost and then examine the use of
those stadiums and the economic benenits that come as fall out those gtadiums and the economic benekts that come as fall out to the cornmunity in which the university is located."

As an example, Julian pointed out a recently completed study y the Missouri Division of Touriam which found "more than 300,000 Miasouri University football fans attended games in Columbia. Missouri during five football Saturdays last year. And that tourist bureau estimated that \(\$ 2.5\) million in revenue accrued to the benefit of Columbia. Missouni because of those football games."
Such information "most certainly would tell us something." Julian said.
A report on phase one of the study plan is scheduled to be ready
Continused on prop two

\section*{SU cable}

By Thomas Coffey
Rick Margolizs, Student As sociation vice president of student programs, has criticized. UYIV, the cable television station at Syracuse Univergity, for not serving a wider audience.
"I wish it were available to more students off-campus, in South Campus and the cottages. It's extremely limited and that's what's wrong with it," Margolius said.
UUTV's cable extends only to dorms and Bird Library. Steven Gauly, asmistant direc tor for activities at the Office of Student Affairs, Baid that "there are no plans to expand to South Campus because of to South Campus because of the enormous expense." He extimated it would cost \(\$ 20,000\) to prine.

Gauly aaid that while the station receives a sizeable chunk of money," he still felt that funding received from SA was inadequate. Last spring the Student Association Aseembly allocated \(\$ 16,675\) for Assemblyaliocated \(\$ 16,675\) io solely by SA.
"No college campus in the country has the syatem we have"' said Martin N. Grant UU external chairperson "\$16,000 is not adequate for this system." He added that UUTV has to offer "minimal salaries" and finds it difficult to hire people.

\section*{TV system called}

According to Kelly Atkinson, director of UUTV, the. cable system is eight years old and needs funds for improvement.

Its very expentive to upkeep this aystem," he said. "Buying. and replacing equipment is also extremely expensive.*

Gauly said he believes that SA funding of UUTV is justified because the station is revising its programming to interest more students.

Atkinson said UUTV will be showing two or three videotapes a wreek of concerts. contermporary films and sports events.
"That's a lot of money" he said. "The average pricu for a tape is \(\$ 180\).
Gauly gaid he would like to see two usage surveys of UUT done. done now and one in the early spring," he said. "Then we could ask, is this worthwhile or could they just wasting their
time?
'limited'
Grant said UU will conduct a survey on all of its activities including UUTV.
Last year the cable TV syatem at SU was Synapee, system at SU was Symapse, which Alkingon called a twofold orgamization. Hesaid it had a student-run program
and a visiting artists program. and a visiting artists program. now UUTV.
The visiting artista program has kept the name Synapse and operates within the S.I. Newhouse School of Public Communications.

\section*{Beer scores with football fans}

\section*{By Patrick A'Hearn}

While the game is the important thing for Syracuse Umiversity football fans, beer sales at the game have become top priority for university Food Service.
"Beer hat made a hit with Syracuse University football fans," said Dick Jones, university Food Service manager. "A total of 149 half-kegs of beer have been uned at the last 149 half-kegs of beer have been uned at the last two home foothall gamea," he asid
"Of course it is a worth while effort," he added. "With profites like these we expect the sales to go even higher." Weather sand the quality of the game decide the males increase, he said.

Beer males at Archbold Stadium were low at the Syracuse Wanhington same, reporting total sales of only \(\$ 2,500\). But sales increased rapidly at the capacity-crowded Syracuse-Penn State game, where Food Service made use of 70 half-regs of beer, reporting eales of \(\$ 8,000\). At the SU-Virginia foothall grme 55 half-kegs of beer were aold, giving aboat \(\$ 5,000\) in total

Because the reaulta have been 80 good, Jones said, "Sales, will continue throughout the rest of the season." Plans for next year will not be final until this year is evalusted.
Syracuse University Safety and Security will have an effect on the evaluation. Jones said, "So far security has had no problems with incidents that have resulted from the beer sales. Therefore things look good for next year.
"All four beer stand locations do equally well. But the stand located behind the scoreboard seems to do the most business "" Jones said

Univernity Food Service, which has direct control of beer sales, receives only a small percentage of the profits, Jones commented. The SU Athletic Department receivea a subatsintial amount of the profit, he aidi, but he could not disclose any-Eigures.

Archbold Stadium in the only college athletic facility in the country where alcoholic beverrages are sold: It costa 75 centa for a 14 ounce cup of beer and \(\$ 2\) for 40 ounces.

\section*{Race criterion used by college \\ \section*{By Inawra Gail Chase} \\ Davis, which mas a preset}

The Syracuse University College of Law makes some admistions decisions using race as a criterion, according Christengen of the law school. Christensen spoke. Wedriesday nieht at a forum about the Bakke case, which is before before the Supreme Court. Alan Bakke alleges that in the University of California, Davis medical school discriminated against him by refusing him admission to its medical program because of its medical program because ofita
minority enrollment program. minority enrollment program.
Robert Hill, special assistant to the chancellor for af sistant to the chancellor for af-
firmative action, Juilian priedfimantive action, enaian grea man, political Bcience profea sor, Ronald DeMaria, counsel
for Fairleigh Dickinson University in New Jersey, and Alfred Blamrose, profenior of law at Rutgers University, also spoke at the forum.

Christensen said the school's policy is "taking account of the realities of race." He said, "To be blind to race in admissions is to be blind to the race situation in the 20 th cen tury. Tobegiven equal footing. minorities need some preferential treatment. If people are blind to the reality, we are doomed therefore to continue legal segretation.

Hill noted that the cage is relevant to Syracuse University because SU has the special admissions program and the Office of Minority Affairs to benefit minorities.
There is danger in the fact that the Bakke case has been taken so seriously. Hill said.
"Compensatory programs for minorities must now defend thernselves agsinst charges that they are committing the very thing that they cameinto existence to overcome" he said.
Christensen said, "When faced with great pressure for deciaions. . .there aren"t such things as neutral objective methods. Value judgments do get made."
ce is a neutral matter. \({ }^{\text {. }}\) said DeMaria. "Race in simply oot a valid basis for considering , qualification for anything.
There is no quota system or special program for minority admissions in the law school, Christensen said, unlike
number. \(\mathbb{S U}\) does have a program for minorities, which Christensen said is legally and socially defensible. "Until ordered by the Supreme Court," he said, "it will keepon Court, he sa
Friedman stated that improved speciaz admt imprograms, affirmetive action programs, affirmative action programs anc remedial programb polil evolve from the case. Political pressures, will increase support for such actions, he said
DeMaria agid the state court, which held for Bakice, felt, that if the basic goal of the program was a compellingstate interest to increase thenumber of black doctors, then "the Eoal could have been achieved by means less detrimental to the majority"
"I think it is a nothing case," Blumrose said. The court will follow the same precedent it has used for the past couple years on similar cases. It will cite no violation of the Constitution unless intent is shown to restrict a particular class.
"Davis College was only trying to grapple with a social problem." he said. If the court regulated this pwoblern, it would have to regulate everything dealing with this topic in society, and it is not their responsibility, Blumrose said.

\section*{* Stadium}

\section*{Continied from pabe one} by January 1978
Phase two will deal with what Julian termed "a final altermative plan" that would examine site requirements costs and programa requirements that the proposed corporated into the proposed Phadium.
Phase three is the presenation of a final report to the Onondaga County Legislature, scheduled for submisaion by Feb. 9, 1978.
The commission, established this summer to address the county legislature on the possibility of : a new stadium, represents Syracuse University, the legislature and the Metropolitan Development Association, a Syracuse urban development group. David. E. Chase, a Syracuse architect. was appointed by County Executive John Mulroy to chair the commisaion.

\section*{Office cancels freshman party}

The Freshmen Party, scheduled for next Friday, has been canceled due to a "lack of response" from the frebhmen students.

The event sold between five and 10 advance tickets, according to Jennifer A. Hayes, secretary to the director of special events, whose ofic Hayes aleo noted that th

Hayes also notec that there was a problem with publicit posters for the event being stolen from the dorms.

\section*{Letters to the editor}

\section*{Commendation}

To the editor,
With all the controvergy over the recent SA- Rich Crowell issue, I would like to comment on the resolution introduced by Tom Hofiman Monday night (at the SA
Assembly meeting) calling for Assembly meeting) calling for Crowell'a resignation. It is not my purpose in writing this letter to judge the virtues of that propoaal, Hoffiman.
I would like to commend Mr. Hoffinan on taling the initiative to resolve an issue that he, and many nembers of the student body, felt as very important.

Obviousily caring about the fate of student goverimment at SU, he took what he considered affirmative ac tion in trying to reestablish the credibility of that government.
Mr. Hoffrman, and The Daily Orange and Report for that matter, should not be despised or harasged for their particular position, but for their particular position, but for attempting to maintain the for attempting to maintain the honesty and integxity of our student
government. They have achieved government. They nave achieved this salient goal. Without people like
this who care so much about things this who care so rnuch about things
that they put their own credibility in that they put their own credibility in
jeopardy, this place would truly be in a sad state of affairs. But with them, maybe now we can all work together and make this a better university.

Brian J. Trippany

\section*{Resignation?}

To the editor,
Mike McAlary should resign.
After reading his comment (DO, Nov. 8), it is clear to me The Daily Orange sports editor has no credibility and respect among his peers at the DO. In making an unbelievably concerned effort to seek the truth about the Rich Crowell matter, MeAlary has shown his journalistic ethics to be totally inconsistent with those of the DO editorial staff.

McAlary wrote a threatening
comment.
Threatening, that is, to the manner in which the Crowell controversy. He went out of his way to usa the deadly, dancerons his way to use the deadly, dangerons and sinister journalistic tools of at (gasp) clarity. Then, as if
Then, as if seeking the truth was not enough, McAlary's comment was well-organized and (Oh my God, it hurts me to say this) easy to follow and understand. With no thought to the feelings of the editorialists at all, McAlary inganely stuck to the facts and made his opinions in a clear, logical pattera.
McAlary malicionsly reached out to the readers, many of which probably did not care much about SA two weeks ago, but are concerned and confuged today. Instead of flying over the heads of readers and wisely targeting sketchy gemeralities to SA assemblypersons, McAlary encouraged contempt intelligent assessment of the Crowell situation that everyone could relate to.
Mike MeAlary should resign.
Alan Fectean
Alan Fectecu is a sportswriter for The Daily Orange.

\section*{Aggravation}

To the editor
This Bakke igsue in a convenient controversy and makes for good copy, and its importance cannot be denied. But what is fair for one is fair for all. There are other minorities which are discriminated against, and they don't get so much as a line in the "personals" section of the in the persor
One out of 10 Americans is black, but one out of 10 is also left-handed. but one out of 10 is also left-handed. See if You can get anyone Building the Administration Bup bord upout that. A black has Worked up about that. A black has struggle with a backwards desk unless he is a left-handed black, in which case, God have mercy!

I took it upon myself toinvestigate this vile situation. I surveyed five representative buildings on campus, and wasahocked. Out of \(1,717 \mathrm{chairs}\) and wasshocked, Out of 1,717 chairs with a preference, oniy 48 of those polled favored the southpaw. This is roughly a 1:35 ratio, which is appalling, nay, disgusting, May Chysical Plant bring us justice! Come on lefties! Don't allow
youraelf to be tread on. Stand up for yourbelf to be tread on. Stand up for
your lefts! It's the left thing to do. Your lefis change every desk, system and tool so that it caters to those of the left-handed persuasion (except the toilet flusher, which already is lefthanded, an indication of our position in society).

Uama K. Cooke

\section*{Foolishness}

\section*{To the editor:}

I am well aware that SU is big on journalism. Wherever one looks they are there, the aspiring young Cronkites and Bermsteins, eager and able to provide the public with what they need and want. Now the last thing \(I\) would wish is to incur their wrath, but Wednesday's column by Tim Wendel and Bob Reichblum, aptly entitled "Fools on the Hill." was such a wanton display of the ridiculous that, had it been at all funny, I Would have taken it for satire. Mr. Heichblum got the ball rolling. "Tim," he asked, "why is it neces* sary for newspapers to editorialize? In particular, why do they find the need for political endorsements? been stumped. Under the circumstances, the best I could have cumstances, the best I could have done would have been to reply
(feebly) that it is the responsibility of the news media to not only of the news media to not only provide a forum, but to participate in that forum as well. But Mr. Wendel, Who no doubt has been exposed to this sort of question before, was not caught off-guard. "First off, Bob," he responded. 'they are not in essence editorializing. The stories
you mention are interpretive and You mention are interpretive and
have a point of view. A point of view is based on research and backed up
by facts." I stand corrected; ap parently, an editorial is based on fancy and backed up by epeculation and distortion. The next time I want and distosthon. The next time I want is the last apape Tril poik is the editorial page; inatead, I'll look to their lead stories and sort it out from there.

One point our two fools on the hill seem to agree on is the excellence of "60 Minutes." Mr. Wendel even went so fax as to say that " 60 Mintutes and an occasional documentary" are the only examples of quality broadcast journalism. Ah, good ole "60 Minutes" - wherever there is unmitigated evil and/or unrewarded virtue Mike Wallace and his happy band of marauding social reformers are sure to appear. MacNeil and Lehrer, (anchormen of anews program on publicTV.) I take it, have made the fatal errors of presenting both sides of every issue, not sensationalizing, spealing to people who know what they're talking about, and not condescending to their listeners by leading them by the nose to the obvious. Besides, everyone knows that MacNeil and Lehrer, even with the combined force of Ricardo Montalban and Ronald MacDonald, couldn't sell a life preserver to a drowning man.

Okay guys, let's agree on one thing: the kind of broadcast journalism you're talking about exist because it makes money. CBS news is better than ABC news because more people watch it. And let's also agree that the people need and want whatever they're willing to pay for. I, for one, like the pictures.

Kevin Duke

\section*{I HAVE NO CAREER \(W\) MIND, AND, GEEZ, ITS ALL SO CONFUSING.....
WHATSHOLDI DO? \\ }

\section*{A time out in the tenth round}

The steady drizzle of rain that fell on Syracuse all yesterday afternoon and evening is a perfect climatic backdrop for the times. It's just into November, and just past midterms. Just the time when everyone seems to sign and ask himself how he'll get through the rest of the semester.

It seems the most dismal time of the semester. The weather is
worsening by the day, and every hour of classes and exams and studying in Bird Library seems to add a little to the semester's burden. It's a very wearying thought.

But this is an important time, because it's the last breather of the fall semester. The last moments of rest and reflection before the postrest and reflection before the post-
final exams are passing right now.
Now is the time to take some time, even if only a few hours, and do something to recharge your mental batteries and put you in shape to finish the semester in some state resembling sanity.
Read a book - for something other than philosophy class.

Or go to a movie. The best cinematic candidate of the semester for lifting the spirits is on campus right now. It's "Rocky."
Playing on campus tonight for the seventh, eighth and ninth times this week, "Rocky" should serve to inspire a pretty large
number of students in the 10th number of students in the 10th round of this semester, on theropes
last of their energy.
Most of us could use the inspiration, having been knocked down in the eighth by midterms, and facing a tough combination of research papers, essays and finals in the last rounds of the fight.
If you're so battered by the first two-thirds of the semester you can't even get your arms up to protect yourself from the brutal blows of yoursessors, exams and all-nighters at the library, talce a breather. This is probably your last chance to psyche yourself for the final round. You'll need it - if you're going to go the distance.

David Abernethy and Howard for the Dally Orange

\section*{Beatle's release succeeds but Ringo's 'Fourth' fails}

By Jon Van Duyne
In a local record store, two 11-year-old girls are thumbing through George Harrison :albums. One of them palls out All Things Must Pass. "Ohhh, he looks so yucky. So old." The other girl just giggles.

At the same time, two boys about the same age are looking at Beatle albums."Look at this one - Help!" saysone. "Yeah, it was their second album': says the other authoritatively.

As blasphemous as these incidents seem, they're true. Ihere is now a generation of beatle listeners who were three-year-olds when the group released its last album, Let It relea
Pexhaps with these young fans in mind, Capitol has started releasing collections of Heatle songs. The first collection, The Beatles Kock ' \(n\) ' Koll Music, was released two summers ago. Despite a hideous, eyesearing cover, the album shot up the charts. Capitol has just released a second collection, Love Songs. a two-record set of the Beatle's sentimental ballads.
Older fans shouldn't write this album off as a zealous, capitalistic attempt to cash in on a defunct group. The package is a tribute to the Beatles. The album cover features a simulation grained-leather texture with a collage of the beatles embossed in gold. Included with the album is an claded with the album ing an elaborate booklet fea

The numbers, include hits like "Yesterday,"." Michelle," "Somiething," "P.S. I Love You" and "Norwegian Wood.", The Phil Spector atracity," "The Long and Winding Road," is probably the only
regretable inclusion of the Bea tle hits.
However, the best part of the tracks are the lesser-known songs such as Harisison's "I Need You," "Ill Follow The Sun," "I'll Be Back," "Yes It ls" and Buddy Holly's "Words Of Love." These songs tend to be skipped over in the blur of songs on the original albums. Put in the context of this collection, the songs assemble a new power in their own right.
The album features only the mellower, soft-touch love songs of the Beatles. Rockers such as "Can't Buy Me Love," "I Feel Fine" and "She Loves You" are for the betterment of the album, as they would crush the placid flow of Beatle love tunes and lyrics.

This album is a sentimental journey through the past. Hardcore Beatle fans may feel slightly depressed when the album closes with :P.S. I I Love You. Hemember, that I'll always be in love with
you," sings McCartney. How you," sings McClartne
could we ever forget?

More depressing, however, is Kingo's latest solo release, Ringo The Fourth. Ever since hingo recorded his first real Ringo recorded his first real alburn, Ringo (even hedoesn't count his first two blunders as worth remembering), the trend has been all downhill. Although last year's Rotogravure seemed to reach the lowest point in the cycle, Ringo The Nose has managed to plunge even lower with "Hourth."
The record sleeve features a picture of Kingo with a cigarette jammed in his ear Let the listener beware. This is only a hint of the absurdity
found in this album.
"Fourth" doesn't feature any of the ex-Beatles, and one any of the ex-Beatles, and one
wonders if they don't want to wonders if they don't want to be associated anymore with Kingo's records. Ringo plugs ahead anyway, recording a number of overly-sentimental, silly love songs. "Urowning In The Sea Of Love" sinks under the weight of inane lyrics. "lango All Night" is as bad as Kotogravure's "Las Brisas." "Can She Do It like She Dances" is as bad as the title suggest. \(\because\) Sneaking Sally through The Alley" is a typically deadend Hingo composition with a disco beat.

The other tracks are more mediocré and even more unmentionable. Kingo's nightelub, "entertainment for all" concept of music just doesn't work, and definitely places him fourth in comparison to the other ex-Beatles, and nearly last in the realm of listenable music.

"GREEN DAY" WITH THE 4ALLEATORS"7 SATURDAY, NOV. 12 9:30 P.M.

FILM OFF:CAMPUS: "Oh God!" playing at Penn Can

By Peter A. Casella If you talk to God, it's called praying. If God talks to you, you're psychotic." No, it's not original, but the quote applies to John Denver in the current film "Oh God!"

Denver is the assigtant manager of a grocery atore, who is visited by none other than God. His instruc tions are simple: "Tell everyone things are fine, but they better quit messing thinge up."
Obviously. Denver wants to know why he was chosen, and God telle him, "Why not?" Denver persists by saying he's only a man, and not even a religious man at that. "I'm not Moses," Denver objects, "I don't "even have any tableta!" God replies,
"Moses had a bad memory."
In other words, God has a diry wit. So who better to play God than George Burns? His introduction to Denver is the perfect droll understatement. "It's me. God. God Almighty. Big G.

God also admits to being very fallible, admitting to his mistakes, which are tobacco, ostriches and avocados. ("I made the pit too big.") And he is not very pleased with the talk that he is dead, that he does not exist. or chat he rande or ciny particies. (hing not gas. I find that

\section*{Loew's looks for volunteers}

The Syracuse Area Landmark Theatre (SALT) group is looking for volunteers to help in the restoration of Loew's State Theatre and the ukhering of upcoming concerts. If SAIT at \(475-7979\). The thenter is ocated on South Salina Street in downtown Syracuse.

God aiso took a few language lessons from Edwin Newrman. The word is kill, not waste. I

Big \(G\) also does mot like to perform miracles, even though he will do a card trick or a disappearing act in a pinch. "My last miracle was the 1969 Mets. Before that, I think, was the Red Sea.'

The benuty of "Oh, God!" is its simplicity. Producer/director Carl Reiner has made a simple comedy. avoiding, for the most part, the temptation to become preachy. He doesn't tell us to stop wars or help the crippled childiren.
However, it is impossible to make a film about the nature of God without getting a little heavy handed, even ifit is only in the form of a light Burnsian tap. God tells Denver that he made the world and everything in it, and now it is up to us to take care of it and ourselves.
The film revolves around Burns His unassuming manner and boyish charm are good for the type of God that Reiner tries to create. And Burns garb of fishing hat, red plaid flannel shirt and tennis shoes only add to that image. But it is his wit that keeps the film moving.
John Denver was adequate for the role of the messenger. He brings with him all the down-home purity We usually associate with him, while leaving his tendency for obnoxio you at home in his suitar case. You guessed it, he does not sing.

He is justan honest, conscientious Krocery store clerk who displays all the nervousness of a Pocataio, New yoen City aubway system the New York City subway system at 2
There's no real hidden meaning to "Oh, God!"; it is a film to ait back and enjoy. The most incredible thing about it is the PG rating. When the than Kain stars of a film are purer Carter, even a \(\mathbf{G}\) rating seems severe.

Osear winner George Bumst has the lead role in Cart Relner's new movis. Oh Godf" The film co-stary John Denver in hil screen debut.

FILM ON CAMPUS: "THX 1138," Sunday night at 6,8 and 10 p.m., Gifford Auditorium. \(\$ 1.50\).

By Brent Marchant
Director George Lucas masterfully paints a bleak, frightening picture of the future in the fim THX 1138." This 1970 release is completely different from Lucas later, more popular works, supplementing the escapism of American Graffiti" or "Star Wars" with a serious treatment of complex subject matter
The fim is the story of the industrial worker THX 1138 (Robert Duvall), living in totalitarian state of the future.

In this highly-regimented state all facets of life are pre-planned and controlled by an omnipotent of the people are controlled in order
to achieve the goals of this preconceived socioeconomic acheme. People are reduced to mere puppets, unable to choose their jobs. their mates determine the size of their families. To prevent the citizens from deviating too far from established policies, the government keeps its citizens sedated most of the time.
This lifestyle does not suit THX 1138. The lack of free expression and the constant sedation make coping difficult for him. Unable to hold himself back 1 MD 1138 violates state dictates by engaging in illegal sexual nuercourse with his mate. humiliating trial before faceless humiliating trial beiore faceless jurors and sent to

Lucas' society which is cruel, inconsiderate of individuals, lacks creativity and offers little hope for the fature to its citizens.

This future society, although constantly sedated, thrives on cruelty. For example, when THX 1138 "relaces" after work, he enjoys watching a hologram TV recording of a robot guard brutally beating a defenseless indinstrial worker
The leaders of this society incongiderately view human beings as mere specimens. In one scene, THX 1138 is subjected to scientifictesting while in prison. Scientists test elec trodes that have been implanted into his muscles which in voluntarily force him to anmme wildiy contorted positions. Like cate toying with a mouse, the ecientist mercilesaly torment their newfotind plaything and apeak nonctalantiy about it.

Creativity is entirely lacking in this society. Everyone dreases alike, has their head shaved and lives in identical, undecorated living quarters.

The most frightening aspect of
this society is its future. Medicine bottles of trang religions confes redundantly dro messages of cons Geacons of hope this society.
The cinematos rection, is excell. with incredible details in ever (since there aren to atand out in film also emplo angles. Some of shot as it comes monitor.

The costumes bland, but both the lack of creat Everyone dresse work suits-and tivities on sim sets.

\section*{berg sounds the same ut 'Reckless Abandon'}
sorted
Atter several albums on Columbia and session work with people like Bromberan and Charlie Daniels, tasy label moved to the smaller Fangiven more artistic freedom Bromberx's switch in labels resulted in How Late Will Ya Play TiL? a two-record set recorded live and in the studio. "How Late" is probably the best recorded representation of Bromberg's musical craziness to date, The album captures Bromberg's far-reaching musicalinfluences and providea a full bat clean sound.
Hia music has alwaya been full of eccentricities and vigor that makes it different. Bromberg is one of the few performers around who would record a bluegrass tune with background horne and sound good doing it.

However, "Reckless Abandon" doen not live up to "How Late" or geveral other flashes of brilliance past. The record is capricious past The record in eapricions proaucer and horn player extraor Bromberg to the point where brass is promberg to che point where brass is presenton almosat every cut. Though notably "Stealin" \({ }^{\text {bone }}\) it is drastically notably Siealin others. "Stealin," out of place on others. Stealin, from the Grateful Dead to Arlo Guthrie takes on new life here Ario Gatinie, takes on new life here. The track, giving it a dixieland feel.

Unfortunately, the same brags and chorale treatments serve to butcher "What a Town," written by The Band's Rick Danko. Whatis not that bad a song is reduced to something that resembles a television commercial ditty.
This is not to say that the album is a Waste, "Reckless Abandon" certainly has its high points. Bromberg offers a beautiful veraion of Murray Mclauchlan's "Child's Song." with The moca musical accompaniment as he pushes his voice to its most tender limits and then brings it back, juat when it's on the verge of faltering. Beware, Brother Beware," where Bromberg sings in a mock-gospel oration, while the band pounds away in the background, reminiscent of Tower of Power.
Bromberg's last two records have shown a new interest in a funky, jazzy sound, but, like many other only hinted at rather than explored fully.

Bromberg's bluegrass medleys are usually a treat, but this record contains two of them, and the "Bull Run" medley. wears thin after repeated listening.
"Reckless Abandon" is not a bad record. It appears that Bromberg has grown stagnant in his musical wanderings, sund until he comes out of it, he will remain an extremely talented artist who makes mediocre records.

By Larry M. Belmont
if there was ever a band that earnedits succesa, you'd have to any it Wha the Electric Light Orchestra. After five years of elugging it out in the rock 'n' roll marketplace, and brandishing slightly more than cult following, ELO has made it
Exploding in the last two years on the merits of a pair of gold albums, 1975's Face the Music, gind last year's smash, A New World Record, ELO has won well-deserved prominence. Their triumphs have made ELO eager to plesse and they comply admirably on their new double album Out of the Blue.
of things to come from this band of things to come from this band, \(n\) result of the consolidation and expression of talent that was once anappreciated. The new two-kecord set possesses the same rich quality of craftemanship that earmarks ELO's music.
ELQ was formed after the dissolution of The Mova by Jeff Lymne and Bev Bevan seven years ago. Since then, the group has establibhed itselfas thebestatmaking the intermarriage of rock and classical music work. "Out of the Blue" mirrora this capability to work
within a musical framework of clasaical and rock and still come up with sical and rock and stin come ap with bears influences of both forms.

The vitality and originality on this album are testimonyto the way ELO manipulates and fuses these elements into a workgble blend, blend that deftly a
overorchestration.

ELO's attention has drifted away from the artistically self-indulgent and grandiose experiments that
beleaguered Eldorado and other ef-
forts. Now conceptfree, ELU is content to turn out good rock 'n' roll n their own style. Rather than atterapting to generate an entirely new musical form, they have found success in applying complicsted lassical forms to basic rock, achiev ing i novel extension.
On "Out of the Blue.
On, Dut of the Blue," Jeff Lynne ELO's leader and founder, achieves these goals more so than on any other album the group has released The result is a focus of direction and ability that suggests the band has reached an unsurpassed level of naturity
One thing that makes "Out of the Blue" exceptional is the inherent balance that is complimentary to ooth the rock and classical styles they are using. On one hand we
have Lynne's gritty vocals and dirty have Lynne's gritty vocals and dirty puitar. On the other we have the strings; delicate but still strong enough to make their presence
It's
It's no secret that strings are the core of ELO's music. The violinsand cellos of Mik Kaminski. Melvyn Gale and Hugh McDowell give ELO's sound a rich texture. Built around the gynthesized base laid down by keyboardist Richard Tandy and enhanced by Lynne's hawless production, we hear and feel the presence of a full orchestra It is the best of both rock.
It is the best of both possible worlds; a symphonic quality punctuated with a hard-driving sound that is exciting. While most bands use strings just as window dressing, ELO's music depends on t. If any album showcased their masterful use of orchestration in coniunction with rock, ELO has got
it in "Out of the Blue."
it in "Out of the Blue.

Police lecturer \\ discusses rape
}

\section*{By Magnis Olivero}

Statistics indicate that rapes in the United States in the first six months of 1977 have increased 50 per cent over the same period last year. A number of these rapes conld have been preventedif women had been better informed, said Sgt. Agnes Harrington of the Syracuse Police Investigative Rape Squad.

Harrington apoke on rape and aelf-defense Wednesday evening to a group of about 30 in the Day Hiall main lounge. withe key words to work with," said Harrington, "are prevention and awaremess. No woman asks for rape, but many put themselves in situations that are potentially
angerous.
According to Harringtoin, a potential rapist cannot be singled out. The rapist can be almost anyone. Half of ail rape victims know their matackera and 60 per cent of all rapes are planned, she said. The rapist observes his victim and becomes familiar with her daily routine before he attacks.

The rapist expects a kitten," explained Harrington, so fight back like an alley cat and break his pattern." Women attacked from behind should kick the attacker in the shins and down to the instep. If attacked from the front she should try to scratch his eyes.

Harrington said the federal government apends a lot of money in prisons trying to figure out what makes men want to rape.
"Rape does not occur because there is a need for sex." the said. "A 20-ycar-old man does not rape an 83 -yearold woman because of physical attraction. We just don't know
why rapes occur. What i do know is that I see rapists out on the streets committing the same crime again and again. They should get 50 years to ife.
Nor does a rapiat pick out a specific type of victim, she said. -A rape victim cannot be categorized. Just being a woman , makes you utomatically vilnerable mont motant thing to tarnamber important thing to remember is to stay alert, Harrington you and jup your on think you and just keep on thinking that you are going to make out of this alive," she said
She does not recommend trying to talk a rapist out of attacking. Nor is it wige to resist a rapist who has a dangerous weapon.
"Murder and rape don't go together." she said. "A rapist is not a killer. He just wants to leave the woman in pain and ghame. But if provoked, the rapist can use the weapon to harm her.

Although Harrington en couraged selfodefense methods, she warned that no one should carry illega weapons such as guns and knives. A woman can be arreated for concealing an illegal weapon even if she has it for self defense. A nail file comb or keys are good weapons. These sharp objecte can leave indentifying marks on the attacker.
Although there is no splution to rape, several mesaures can be taken to prevent an attack. Doors and prevent an attack. Doors gnd mocks Never volunteer. in focks. Never volunter in ormation over the phone wo should not tell any. Wo that should not tell anyone that they ive alone. They also should not carry any incen tification on a key chain but should attach a whistle to it. Harrington cautioned women to avoid hitchhilcing at all times and travel with groups of peoplo whenever possible.
Harrington warnect the audience that certain shortcuts. on campus are dangerous and should be avoided. She said it was Syracuse University Security's responsibility to inform the atudent body about these dangerous areas. She also cautioned students to stay away from the Euclid-Westcott- Trinity section east of campus. Police are now searching for a rapist who has recently attacked in that area.

\section*{BC won't be easy}

\section*{Eagles to fly air patterns in Archbold \\ By Ben Walker}

Saturday's Boston CollegeSyracuse University football game might as well be played at Hancock Airport. The game matches two teams that like to launch the ball...a lot.

The 5-3 Eagles are led by quarterback-Ken Smith, the number one passer in the East. Like his signal-calling predecessors at BC (NFLers Jack ConConnon, Gary Marangi and Mike Kruczek) Smith throws accurately and often (about 29 times a game). crearly 61 per cent of his passes and has thrown for 16 acores. 'There's no doubt that BC's going to come at us throwing the ball," said SU coach Frank Maloney, a prediction that wasn't hard to make.

Smith, third in the nation in total offense, doesn't have a favorite receiver - he likes to throw to just about everyone, except coach Joe Yukica.
Wide receiver Mike Godbolt and flanker Paul McCarty are and fianker Paw two targets. Speedster Godbolt has latched onto six touchdown strikes and averaged nearly 25 yards a catch. while McCarty has caught four fouchdown passes
and gains over 18 yards a and gains

Boston bomber
Smith likes to set up the long throws by hitting Jof O'Brien and Mike Curry out of the backfield. When Smith geta tired of passing (which is not often), he hands off to fullback Dan Conway. BC's leading rusher.
If the Eagles have an offensive weakness, it's Smith's tendency to complete a lot of passes to the opposition. He's season, which should give SU's akyjacking secondary a smattering of relief.
SU's defensive weakness is mach easier to locate - the a team with as much firepower as BC this could prove the fatal flaw. This season SU has given up 1,722 yarde through the air. 1 talented Smith has passed for. have the ball, look for quarterback Bill Hurley. seventh in the nation in total

\section*{Heaven on their minds}

SU defensive and Jorry Martin ( 30 ) receives words of inatruction from SU linebacker coach Denmis Fryzel during a garne earlier this sadson at Archbold. Martin and Frycel wils undoubtediy be discussing the potent pasaing attack ot the Boston College Esgles thls Saturdey as BC quartarback Kon Smith figures to fill the Archibold heavens with foothalla. (Photo by Dave Fraseo).

\section*{On \\ All \\ Fronts}

By Mike McAlary

\section*{RaidersrankedPRubbish:}

When people in Syracuse think of Colgate they think of toothpaste, not footbail. When atudents think of Colgate toothpaste, not football. When atudents think of Colgate
they think of the sehool, but they see it as a place to pass courses, not footballs.

Colgate has an identity crigia
That cute little college down the road with the patay football team which Syracuse once tromped 71.0 has a team that keeps Drange fans seeing red. Colgate Red. The Raiders, the second best team in Central New Xork, are \(9-0\) now and this week they are ranked in the top 20 college football teams in the nation by the Associated Preas. Syracuse, the best team in Central New York, is unranked, untied and uneasy.
The little kid on the Ceatral New York football block has become a pesky challenger for the right to brag in Cenesee beer country.
Forget the fact that Colgate's beaten rivais sport a wisloss record of \(23-50\), forget the fact that the only winning team they've beaten is Rutgers, a team beaten by Penn State \(45-7\). You all remember what Syracuse did againgt the Nittany Lions. Forget the fact that Les Dys thinks "it would be no contest' if the two teams were to play each sother now.

They are ranked No. 20 in the nation. The ranking was, not as f first felt, an early Christmas present People in Colgate actually believe that they are among the top twenty teams in the nation. Those uppity little brats.

Of course Colgate's confidence in its football tearn is newly founded. In the good old days of Syracuse footban, getting a good game out ofrolgate was ast didn't happen. In the last ten years of the rivalry. which ended in 1961. Colgate was defested by such ridiculously lopaided scores as 67-7 (1957), 470 (1958), 71-0 (1959), 46-6 (1960) and 51-8 (1961). After that the Red Raiders were looking pretty pink.

Ironically enough, it was Colgate that Syracuse played its greatest game against. The offense totaled 610 yards, 511 of those on the ground agairust the ied kaidertimigis.
Jim Brown gconed gix touchdowns in that game. The Oim Brown acored gix touchdowns in that game. The Orange
offenge.

Now they think they're among the top 20 teams in the nation. The impetuous litale punlat.

Syracuse doesn't play Colgate this year or next year. In 1979 we open up againgt Ohio State. Cornell opens against Holy Cross next year. Holy Cross has mot won a game this year. Syracuse could lose to Ohio State; they probably-will. Holy Cross will probably lose to Colgate. Ap might even rank them in the top 20 again. Who says the media ion't corrupt?
Syracuse wouldn't be able to play Colgate until 1985 or thereabouts. Les Dye thinks a renewed rivalry with Colgate would help upstate football. It could also help the Syracuse win-loss record.
In the meantimue Syracuse plays Colsate Monday here in Syracuse. The Syracuse junior varsity veraus the Colgate JV, that is. I hope Syracuse beats them, begause I hate Colgate.. You see, I use Crest.

\title{
Maloney to accept \\ \\ new term
} \\ \\ new term
}

Head Syracuse foothall coach Frank Maloney has been rehired under a multi-year agreement, Chancellor Melvin A. Eggers announced Friday. The terms of a contract have not yet been worked out büt an agreement in principle has been reached.
Maloney's current four-year contract expires at the end of this achool year. Under Maloney's coaching SU has compiled records of 2-9, 6-5, 3-8 and the Orangemen are \(5-5\) with one game to play this season.
"I'm honored by the confidence the university and the chancellor have shown me," Maloney said at the midmorning press conference in the Varxity Club Lounge at Manley Field House. "Today as a person I feel better than I ever have before.'
Maloney said his rehiring "reflects my confidencein the university and the administration to solve one of our biggest concerns - the lack of a new stadium. I am 100 percent confident we're going to have a new stadium. I wouldn't have returned to this university if I thought otherwise."

Maloney's rehiring also probably insures jobs for the current assistant coaches: Jerry Angelo, Carl Coaches: Jerry Angelo, Corsil, Tom Coughlin. Deanis Fryzel, Jim Goodfellow, Nick Saban. Bill Spencer and Dave Zucarelil.
Maloney, a native of Chicago, came to SU from the University of Michigan where be apent six years as an assistant coach to Bo Schembechler. Maloney replaced the retiring Ben Schwartzwalder.
After opening lossea this season to Oregon State and North Carolina State, Maloney*s job appeared to be in jeopardy. However, SU rebounded and the team now stands at \(5-5\) for the season with one game to play.

\section*{Committee helps pre-med students at SU}

\section*{By Rrobin Sloan}

Approximately 45,000 people apply for 15,000 or 16,000 places at medical achools each year.

This fall about 200 Syracuse University freshmen were either premed ar predental. About 70 seniors applied to medical school last apring. In some cases, students decide that a career in medicine is not what they really want. For others the preasures and high grade-point averages may
help in their deciaion to pursue another career.
Labt year about 75 percent of SU students with grade-point averages of 3.5 and over were accepted by medical schools. A student with an average below 3.0 is unlikely to be accepted by an : American medical school. Accordingly, the higher the grado-point average, the better the chances are of being accepted.
The basic requirements for pre-med
students are two years of chemiatry, including one year of organic chemistry; one year of phyaics; one or two years of biology and one year of Engligh. Some medical schools recommend at least one year of calculus although it is nota basic requirement.
The Health Profesgions Advisory Committee was get up three years ago to help guide atudents through the application process. The committee is comprised of nine faculty members
who are asaigned groups of junior pre med students to counsel. The committee helpestudents find information on his chosen field of study. A convocation to alert freshman pre-med students about requirements. grades and competition is held during regiatration week.
The program in run by Dr. Fred Sherman, chairman of the advisory committee, and Markaret Brown. contrued on pape five

\section*{SU soccer player found dead Thursday}

Ermest R. Wood, a member of the majoring in envirommental biolary Syracuse University soccer team and a ROTC cadet, was found dead Thuraday night after apparently committing anicide, according the Syracuse police. A member of the Onondaga County medical examiner's office attributed the death to anphyriation cansed by hanging.
Wood, 20, was found shortly before midnight by a roommate, according to police.
The 5 -foot-10. 185-pound sophomore
majoring in envirommental brology ded at his Skytop apartment, 465 Win ding Ridge Road.

Soccer team coach Bill Goettel called Wood "the most popular player on the team." Goettel said Wood was having financial and girlfriend troubles and problems at home.
Wood was pronounced dead on arrival at Crouse-Irving Memorial Hos pital. Serrices and burial will be private in Old Forge.

\section*{Link typewriters stolen}

Three typewriters with a combined value of over \(\$ 10,000\) were taken from Link Hall last Wednesday night, city police seid.
The typewriters weve in 203 Link Hall. which was locked at 5:10 p.m. Wednesalay by a Syracuse University employee, according to police. The thed was discovered at 8 am. Thureday. Police sidid there whrenonigms of forced ontry and thint 13 stadenits and temployees had leys to the nogm.

Taken were two IBM Memory typewriters, valued at \(\$ 4,900\) each, and an IBM Selectric II typewriter worth \(\$ 710\). The memory typewriters were leaned by IBM to SU, police said.

An SU employee, Dave Haxrison, said he faw persons in the lounge aran early Thursciay morning. He said this waw not unusual, as studente are often in the bvilding very lata.

No sutpecte hative been identified, police said.

\section*{Nixon wasn't Watergate's only victim}

Woodward, Bernstein and Hichard Nixon have uined my plans for a career in journalism.
Froma the age of five, when I wrote my firist book, I knew that the written word was my metier. It would be my passport to success, travel, influence. It would bring me close to seats of power. It would even be fun went from writing books to straight \(A^{\prime} B\) in freshperson English, to an editorship of my high achool newspaper, to a column in the local paper, and finally to Newhouse.
And there is where all the trouble started.
Suddenly, everyone has discovered Inveakigative Reporting. Suddenly, everyone wants their own personal Watergate. In 1972 . undergraduate enrollment in Newhouse was 717. In 1976, it was 1,818.
Dean Henry F. Schulte attributes this rising rate to
new advancements in the field (of com munications)." I attribute it to the fact that everyone now harbors a desire to wander in the recesees of a Washington parking garage at \(4 \mathrm{a} . \mathrm{m}\).

\section*{Ariane Sains}

Before Wateirgate, Deep Throat was only a movie Before Watergate, the investigative staffa budget (if there was one at ail) was the first to get cut when money got tight. Before Watergate, Bob Woodward was an Ivy league WASP who "couldn't write hi Way out of a paper bag," and Carl Hernatein was a college dropout about to be fired.
But ruining Richard Nixon set both of them up for life. Woodward now has so much money he doesn' have to try to write his way out of a paper bag. and Carl Bernstein is writing articles for the ea tablishment's counter culture magazine, Rolling Stone, thumbing his nose at the newsroom that fed him.

But Watergate has not set me up for life. If Kichard Nixon had been honest. I would be now turning down offers to fill reporter's jobs and editor's poste at a half dozen newspapers that have reconciled themselves to the fact that they do have to admit women to one of the last bastions of male exclusivity, the newaroom. instesd, 1 am scrambling to be better, faster and gharper than 1,10i other people who drooled over Robert Hedford and the vast expanses of brand-new carpet at the Washington Post, and went out and ap plied to Newhouse.
It's not fair. Somehow, someway, I should get first crack at whatever jobs are out there. II chose journalism before it was glamorous. I chose it becaus I felt a deep need to write, a need that was notinspired by watching Dustin Hoffiman get the shakes while
drinking too many cups of coffee to try and make a drinking too many cups of coffee to try and make a
source feel comfortable. I chose it because I felt that
the pullic had the right to know lomp before I read it in 300 pages of the first Woodwand and Bermstrin bible. I chose it before every kid whoes high tehool Engianth teacher told him/her that he/ahie could write had ever heard of Woodward and Becnatein; when Richard Nixon was just in gleapm in Dwight Eigenhower's eye.
In doing Nixon in, Woodward and Hernstein have done me in too. Maybe I'll go into politics when graduate. It's a field that's had a lot of openings lately.

Harry Fig

\section*{SU's management school at 'critical point'}

The School of Management at Syracuse University has developed a tradition for academic excellence and innovative change during its 57 years of operation. It has reached a critical point in its development, if it is to continue to provide for the expanding professional management needs of both public and private organizations. kapidy rising enroliments, increased

\section*{Guest Comment:}
L. Richard Oliker
recognized needs of the future have stretched crowded facilities to the breaking print.

The future of higher education in the United States and at Syracuse University contains numerous and complex variables. Firm enrollment predictions are impossible, but an exploration of some of the major factors involved can lead to the identification of problems that will have to be solved in attracting and meeting the needs of prospective students.
An estimate of the inumer of persons who will be in the traditional age brackets for university attendance reveals that the traditional under graduate population (agen 18-21) will decline from 1982 through the decade of the 1990s. The 22.29 age group will remain relatively stable and the \(30-45\) age groupis already on the rise and will continue this growth pattern for the ceat of the century (it should be almost 60 per centhigher in 1990). Other non-
demographic factors will affect enrollments, such as the level of econornic activity, the economic value enrollments and declining public funds.
An analyais of the foregoing leads to the conclusion that the boomis over for higher education. Enrollments may commuter few more years, especially at geographic areas which for a while will geographic areas which for a while will we are faced with the prospect of stable we are faced with the prospect orstable and then declining enrolments,
However, this picture is not as bleak as it appears. The above projections represent the national scene. It does not hold true for all institutions for this entire period, nor for all scadernic dis ciplines. The obvious answer for institutional success and survival is to identify clearly the goals, directions and markets for the future and then to develop a strategy to achieve the desired objections. One thing is clear Higher education in the 1980s and 1990 s will mot rellect the policies of the previous three decades. To do so is to risk its institutional viability. It is toward such a strategy that the ichool of Management at Syracuse Univergity is now directing its ennargies.
We do not feel that these forecaats ap ply fully to schools of management The recent receasion, the deepest and longest since the 1930 s . caused many atudents to wake up to the fact thatit is not a bad idea to pursue a program in college that places an emphasie on earning a living. In addition, even in non-business ageay such as public administration, economics, education,
library science and liberal arts, students will elect to take a substantial minor in management because they realize that in the highly organized and live virtually every profession is, in a very real sense, a business.
Undergraduate enrollments in schools of management can therefore be expected to continue to develop. This rise should persist until declining total undergraduate enrollments outweigh the positive effects of shifts to more career-oriented studies. Much will hinge on how well schools of management adapt their programs to the needs of business and other organizations needing businesstrained managers. Since the 19603 , the market has changed greatly, but the institutionalization of college and university faculties is so heavy that al university faculties is so heavy

The past 50 years have seen a steady growth in every facet of the operation of the School of Management. It present degree programs currentis enroll the largest number of atudent since the founding of the school. Ef forts are now being made to stabitize the size of our masters degree program - both the Master of Business Ad ministration (MBA) and the Master of Science in Accounting - in order to atrengthen the academic quality of both programs via increased ad misgion standards and more vigoroui degree requirements. The Ph.D program will be maintained at ita current aize to meet the demands of a stable academic market place. Since the undercradztate program has more than doubled in size in the prest five years, efforts are being made to obtain the resources for expanding our
capabilities to better serve this specific study body. Since we are the only large. private university in the gtate with an expanding undergraduate management program, it is to our competitive advantage to offer the most viable program possible.
The basic problem faced by the School of Management at present is not unique, but it is critical. In order to meet the diverse demands placed upon us, we have expanded at an accelerated rate in recent years, and as a result, we have reached the point. where our facilities are now outmoded. The school of Management and its constituent programs haveoutstripped both the quality and size of its present physical quarters and now require aew papital resource to further expand it services to its strudents and -the iks sendeats and the
This achool does
This school does not now have a single structure devoted solely to its program operations, and the consequent dispersal of faculty among five buildings on campus creates unnecessary delay and communications problems. The consolidation of this aculy into a single structure on cam pus would assist in creating the sense of a true. corporate body of profea aionals. In addition, it would assist \(L\) expand our research and developmen capabilities, both of a pure and an applied nature - the former to expand the horizons of our academic and intellec tual knowledge and the latter to provide a broader range of services to our diverse publics.
E. Richard Oliker is dean, of Sy's School of Management. bian onfinient is one of a mite ar aliciprisititatus and futmre planse of SU'a collegene and schoole:

\section*{Supporting snow}

Yesterday an event took place which will probably provoke the disgust and consternation of the students, faculty and administration.

It snowed.
Many will threaten to move or transfer now that the first sure sign of winter has appeared. It is not the few flakes of frozen water that came down this weekend which will prompt people to consider such drastic changes in their lives. It is the knowledge of what is to come.

We all know, all of us, from the folks in the Administiration Building to the sophomores in Flint, that for the next five months the weather will hold ns captive. People in T-shirts and halter tops will be replaced by bundles of clothes. It will be impossible to identify people, much less know what sex they are.

And it is good for us. warmth. Thousands are fleeing the north for the Sunbelt in one of the most over-publicized migrations in history. Thousands are lured into an easy decadent life, free of snow-ridden driveways and gloves that never match. And they are on the road to destruction.
We all know that snow is good for us, much like eating carrots, taking medicine, jogging, studying, doing one's laundry and going to class are good for us. It is the results which count, not the experience.
Snow, then, is not the bane of Syracuse, it is the city's greatest virtue, greater even than the area's lack of sunshine. Forced indoors by the weather, and thus into situations where one is likely to study, we are both competent and miserable. It is good for us.

Unlike our carefree brothers to the south we are spared the temptation of playing Frisbee on the Quad in February or of taking a swim in Lake Onondaga in April. While they frolic in a climate that is enjoyable yearround, we studiously suffer through punishing weather in all but the three months in which school is out of session. It is obviously planned.

Still, it is a good plan, a plan which allows the university to turn out thousands of competent and miserable graduates a year.

The Daily Orange supports snow.

\section*{Teaching, research: an imperfect balance}

The issues raised by the DO in an article entitled Teaching, regearch: what's the balance?" (DO, Nov. 3) and in Professor Dale Tunsing's letter to the editor (DO, Nov. 9) are interesting ones beicauge they point to the great difficulty in answering the question, what weight is in fact given to teaching? One can note teaching is officially listed as one of three areas of evaluation and is in fact evaluated, and conclude can note what the senate promotion form says, as Can note what the senate promotion form says, as gets short shrift. And there is at least one other gets short shrift. And there is at least one
The genate form is, in the respect noted by Professor Tussing, both remarkable and embarrassing. The senate promotions committee, whose form this is, has urged the schools and colleges to pay more attention to teaching, and I for one hope the committee will assist us by changing its own form. Fortumatoly, the procedures followect by the College of Arts and Sciences (and, I assume, by the other schools and colleges), do not go. in the direction implied by the senate form. That-ig, our promotions committee

\section*{In reply: Kenneth P. Goodrich}

\section*{conscientiously evaluates the teaching of every candidate for promotion.}

It must be said, however, this fact goes only part of the way toward answering the question of what weight is given to teaching. It says much effort is expended on gathering and interpreting data on teaching effectiveness, but it does not say how the 15 ining effectiveness, but it does not say how the 15 individuals who vote on a given case assign weight to other service.
College policies atate effectiveness in teaching is to be considered, but each committee member is finally free to assign any relative weight to teaching, including zero at the extreme. Although this freedom maybe constrained to some extent by conscience and the right of appeal by a' faculty candidate, the problem remains.
Let me note that in the process of tenure review (the above concerns promotions). A\&S has developed a form of its own which treats teaching with greater respect. In place of the embarrassing and apologetic message in the senate promotion form, our tenure form says to each candidate:
"Please describe the nature and extent of your teaching responsibilities at SU, with particular attention to information that will help the department and the tenure committee to understand your contributions in this aren and to interpret information they may receive as to enrollmants, reactions of students to your courses, etc. Feel free to provide a self-assessment of your work in this area and to suggeat how your contributions should be evaluated by the department and the tenure committee."

Although this change in our form does not say anything about the problem of how teaching is inally weighted in committee votes, it does bay something stronger about reachisto departments and fromotions form.
The problems in this area are enormous, and I believe can be mitigated over time but probably not really solved. We do work hard to get information, but what we get tends to differ, sometimee markedly, what we get tends to dirfer, sometimea markediy: fidate. There is variation in assignments made to didate. There is variation in assirmments, wand in the different faculty members by deparments, and in the importance departments place on teaching, so the by establiahed facta not of its maling and sometimes by estahlighed fa
not to its liking.
not to its liking. toaching, but not kow what to do
with the fact that teaching is not a simple notion, ranging from one-to-one dissertation supervision to lecturing before large introductory classea. And decisions by committee vote, while avoiding autocracy and formalizing contributions of differing perspectives, are finally indeterminate in their evaluation
How to provide faculty with a clear idea of what is expected of them, and at the same time to maintain a participatory decision-making procers, is a problem with no obvious solution. The university's partial solution is to publish general criteria, urge committee members to follow those criteria, and hope majority members to follow those criteris, and hope majority
votes on committees are consistent with them. rotes on committees are consistent With them.
Perhaps that is as much of a solution as can be had I wonder what your readers think.
Kenneth \(P\). Goodrich is dean of the College of Arts ard' Sciences. Readers who wish to express their views on teaching and research and their use as terture/promotions criteria should bring or send written comments to The Daily Orange, \(1101 E\). Adams St., Syracuse, N.Y. 13210 .

\section*{Animated 'festival' mixes wide range of short films}

FITM DHF CAMPUS Mini one rext to Cinema East. Call 446-6892 for information.

By William Dargie
Animation is a medium different from all others in many waya: it can give the viewer a unique experience. Good animated films are visually atimulating, and communicate more to the conscious imagination than the standard film.

The "Fantastic Animation Featival" is a two-hour series
of sixteen award-winning animated fhorts. It is designed to promote the latest innovations and concepts in animation.
The films range greatly in subject manner. There is the comical "Bamki Meets Godtilla," and the meditative "Light," featuring computer animation. "Cosmic Cartoon" takes the audience through a कpace journey "Star Wars" never could. and the disturbing "Nightbird" will linger in the mind long after

the show has ended
Included in the festival is Moonshadow,", taken from the Cat Stevens' song and his painting "Teasser and the Firecat." The film depicts the fall of the moon to earth. The teaser and the firecat recover the moon and ride around on it through the country side in this gentle children's story.
The violent "Nightbird" focures on a dressy suffocating atmosphere of washed out grays and constant rain- It presents a man, a symbol for mankind, and the quiet day to day violence he experiences through his civilized eight to seven work grind. His frustration peaks during his encounter with the nightbird, and he instinctively seeks an outlet to vent his repressed anxiety.
A common theme in these works is transition or change, either in environment or in the subject. The beings in "Cat's constant metamorphoate by eating each other. changing eating each other, changing into each other, or disappear-
ing and reappearing. The "Mirror People" change from image to inage as they pass image to image as they pass
through mirrors or other framed spaces such as doorways.

An old short classic by the great animator Max Fleischer is also included. "Superman vs. The Mechanical Monsters" is modern enough in concept

\section*{SU Security news}

By Drew McKinney A Syracuse University student and a Liverpool woman were involved inatraffic accident early yesterday morning-
According to SU Security, Richard J. Watro, 149 Small Road, was at the intersection of University and Waverly avenues when he collided with a car driven by 22 -yeax-old Deborah J. Fedor of Liverpool. Police said the rear bumper of Fedor's car was pulled out. Nobody was injwred.
A. 21-year-old Valley Stream resident had a side-view mirror, valued at \(\$ 25\), taken from his car sometime Satur. day morming, SU Security said.
Security asid Brace Wernick parked his car under a street light on the 500 block of Winding. Ridge Road at about 3 a.m. Saturday morning. When he returned to the car nine he returned to the car mine been pulled off the car.

A graduate student and a foreign language professor had their bicycles atolen from the HBC patio Friday the Hornoon, SU Security said.
According to Security. Laura Weed, 23, 109 Smith Lane, chained her ten-apeed bicycle, worth \$175, to the bicycle rack on the patio. When she retwrned to get her bicycle at 3 p.m., the chain had been
cut and the bicycle was gone. About 90 minutes later, Associate Professor Gerlinde Sanford, 26, discovered her bicycle, valued at \(\$ 20\). was göne. Like Weed, she had chained her bicycle to the rack and the chain had been cut.
Safety and Security Director John C.: Zrebiec anid he believed the two incidents were connected. No suspects have been identififed.

A burglar stole \(\$ 30\) in cash from a car parked in the Brewster-Boland garage Wednesday night or early Thursday morning, SU Security said.
According to Security, the thief entered the car, belonp ing to Bader Al-Dae, 1008 Brewster-Hall, by breaking the right rear window. Secturity said the money was in a cloth compartaent that humg over the back of the frontright seat.

City police said Haxry Mantor, Unity Kitchen, 243 W Adame St., was charged Satur day with trespassing after he refused to leave the Regen Theater, 820 E. Genesee 5 .

According to police, Mantor was observed taking food from a buffet table with his hands. He was taken to the Public Safety Building and charged with third degree criminal trespass. Which carries a max-
imum penalty of six months in jail.

\section*{NYPIRG to open hotline}

The New York-Public Interest Research Group (NYPIRG) will open an eneray hotline tomorrow.
According to Joe Salvo, environmental coordinator, the hotline will : \(b\) be a clearinghouge for coinsumers, to give them information about "energy."

Salvo said that the hotline wotald also worlis in cooperation with the city and county con:
sumer affaïrs office and would provide referrals to callers when it could not answer energy questions.
John Mulroy, county ex. ecutive, will officially open the hotline tomorrow at 10:30 am. at the NYPIRG office in the basement of the. Marine Midland Bank building on East Adams Street.
The hotline number is 476 8384.

\section*{Synapse backs the art of video}

By William Dargie
Although obscured by film and other media, video is starting to be established as an art form. Being a new medium, only a gmall mainority of the public know about video, or realize the potential that it offers the visual arts.
The Synapse Video Center; located at 103 College Place, is designed to aid the artiat in developing his or her work. Acdesigined to Henry Baker, executive director, "our purpose is to cording the freation and appreciation of video as a medium."

Synapse is a non-profit orgamization funded by the National Endowment for the Arts, the New York State Council on the Arta and Syracuse University. One of Synapse's functions is to aid the videomaker by inviting them to do post-production work in Newhouse-
"Essentially we solicit proposals by artists to post-produce their raw material. We utilize the facilities in master control of the Newhouse Communications Center," said Baker Postproduction is editing and adding effects to assemble and polish the raw material into a finished work.

Synapse was formerly a division of the Office of Student Affairs. This incorporated the programing of the SU Cable System, SU sports productions and atudent and artist production in the Watson television studio.

The university felt that our program was more suited to be under an acadernic department," said Baker. After a series of meetings with several departments, the school of public communications was chosen. The student group, renamed UUTV, retamed control over the Watson studio and che Su cable Ovstem. Over its seven-ycar history, Synapse has developed a library of
tapes. Works by such noted video makers as Phil Jones, Les Levine, Julie Gustafaon, and Nam June Paik are included, along with tapes of Jabberwocky concerts.

Phil Jones' work is an example of the tapes that Synapse owns. In his piece, "Beyond the Mountains," Jones explores his black heritage. Using film, slides and video, he compiles a fragmented message of black culture. His tape reflects the way he feels. Through many sources and media, he formulates his ideas about his origins. He acknowledges he is American, revealing his,inner his origins. Heacknowledges he is A

In an effort to promote video and the videomaker, Synapse is implementing a plan for distributing some of the works to cable and public selevision stations. New Channels cable TV, serving Central New York, is showing a series of Synapse programs running through next year.

Tapes are scheduled for viewing in the Synapse Gallery. The Gallery is open from 2 to 4 p.m., Monday through'Thursday; and is locuted at the Synapse offices. Next week, a tape of the Talking Heads" concert at Jabberwocky in 1976 will be shown.

Christe Maiwold, Dean Irwin and Tom Klemesrod watch a playbeck of an edit thoy made on Christa"t tepe in Mastor Control, Newhouse II. Christa is an artist from New York City. (Photo by Cart Geiger)

\section*{Liffe of chimney sweep 'soots' her just fine}

By Connie Hardesty When Liee Curtis walke down the atreet in her working ciothes, people often stare, stop to shake her hand, or ask to touch her top hat. She sings "Chim-Chiminey" for children. For adults, she describes the European customs chimney sweeps.
Curtis is one of six chimney sweeps in the Syracuse area, and one of five female sweeps in the country.
"I love being a woman in an untraditional occupation," she said. "Men think it's great They respect me once they know I can do it. Women are
more akeptical. They don't more akeptical. Th

Curtis originally planned to pursue a more traditional career. She graduated from Syracuse University's School of Education in 1972 and opened a sehool in conjunction with the Syracuse Women's Center. When that did not work out, she began to consider sweeping.
Aside from the unique aspect of the job, Curtis said she was "a sweep is so full of magic." Promoting and adhering to the image of the 19 th century sweep is important. She wears the traditional black shirt, pants and top hat. Every morning she sings "Chim Chiminey" in her car on the way to her first job.
"I never wash my hands between jobs. It's bad luck," she said. "And I never go on' a roof without my top hat." That, too, is bad luck.
Althongh the image she projects is reminiscent of the 19 th century, Curtis' sweeping methods are modern. The tecinnique she uses guarantees a sootless chimmey. Before the system was developed, soot could fall throuph the chimney and enter the house through the fireplace, leaving a messy aftermath. The new system was developed by the August West Systems, which also West Systems, which also
designs sweeping tools and designs sweeping tools and
runs a sweeps achool in runs
Connecticut.

Encouraged by her brother, a sweep for \(31 / 2\) years, Curtis attenced the August West school. She also spent a month and a half during the summer sweeping chimneys with a friend in Seattle, Wash. before returning to set up her own business in Syracuse this fall.
"I love being my'own boss," she said. The freedom of set ting her own hours and places of work, and not being responsible to anyone but her answering service, appeals to her.

So does meeting people. "It's a great way to meet people," Curtis said, explaining one of the major reasons why she went into the business.
Curtis spends almost as much time with her clients as

\section*{How to clean your chimney}

By Connie Hardesty Chimney sweep Leee Curtis would probably discourage amateurs from attempting to clean their own chimneys; here is a simple lesson.
You may approach' a chimney from either the inside or the outside. Unless you have \(\$ 1,500\) to invest in tools, you won't be able to use the August West Systems' sootless system. Therefore, everything in the room containing the fireplace must be removed or covered with a tarp. If you are short on cash, you might try the European way, and bave old rags until you haveenough to cover everything. It usually takes two years to collect that many, but it is cheaper than buying a tarp.

Other tools for the do-ityourselfer inclucte long ropes or chains for an outside job, or stiff wire brushes on flexible wooden rods for, inside jobs. The image of a sweep covered with soot popping out of a freshly cleaned chimney is just an image. American chimneys are often too narrow even for a Twiggy to climb into. Goggles and a surgical face mask also destroy the traditional image of sweeps, but are necessary

\section*{Scholars to talk at SU}

Two Bcholars froin YHeidelberg, Germany, Erich SDinkler and his wife, Erika Dinkler-Von Schubert, will be on campus through Nov: 15.
Erich Dinteler, a noted German theologian and a Dormer faculty member at. Yale Divinity School, will epeak to day on Martin Heideggerand This innurance on Cbristian Theologingt 3 p.m. in the jreligion meminar, room, 319 * Eri

Erika
for inside jobs because of the falling soot.
Whether cleaning from the inside or outside, the first step is to remove the damper. Figuring out how to do that is a trick of the trade. "No two chimneys are alike," Curtis says. "When I find a damper I've never seen before, I get really excited."
After removing the damper (and your top hat if it's ani inside job) and donning your goggles and mask, choose the right size wire brush and ram right size wire brush and ram begin tơ fly, but persevere, it begin to fly, but persevere, it
takes about an hour of vigorous scrubbing and scraping to get all the soot out.
If this sounds too strenuous, don't look for relief with the outside method. It involves dropping heavy ropes or chains down the flue into the fireplace, and, while still on the roof, banging themagainst the chimney walls to loosen the soot. Goggles and a mask aren't necessary for this, but it's very bad luck to go on a roof without a top hat.
When the chimney looks clean (inspect it with a flashlight) all that remains is cleaning the soot and ashes which have fallen out of the Whimney and into the house.

Schubert, a specialist in medieval art, will speak on "The Image of Christ and Man in Medieval Art, of Western Europe, at 12:30 this afternoon in 10 HBC.
The two scholars gave a joint presentation Thrursday night titled \({ }^{\text {thation History of the }}\) Coss in Antiquity and the Middle An Antiquity and the lecture mponsored by the Humanities Iecture Series and the religion Lecture Series and the religion and fine arts departmenta, i
free and open to the public.
she does cleaning their chimneys. She tells them about the special characteristics of their chimney, follows its structure to the basement then searches with a flashlight for ashtraps. She lets them crawl into the fireplace to look up the chimaney with her. She explains the advantages of sootless sweeping and tells them how she does it.

If they're interested, she discusses her tools and how they work. She cautions them about the dangers of a dirty chimney (they tend to catch on fire or blow tend to catch on fire or blow up) and recommends and fireplace utensils.

She plays with their children, tells them about the New Years Day aweep parades in Europe (it's expecially lucky to meet a sweep on that day, and if he comes to your door. you must give him an object of personal value).
And she jokes with them: What should we do if you disappear up there?" an old man asked her, pointing to his chimney. "Call the exterminator," she said with a laugh.
All of this helps Curtis build a rapport with her clients, so in two years when their chimneys are due for another cleaning, they will remember her. It seems to have paid off Although her business here is averages 15 jobs a week, each averages 15 jobs a week, each taking between one and two about \(\$ 40\).

But for Curtis, sweeping is more than just a way to make money. It's obvious she means it when she says, "I'm a sweep because it soots me!'

the football game
"It's the best way to wram up," anid one remidemt retwruing from the freering game.
The anow, hail and rain did little to dampen the pirita of the Green Day cheering crowd at the Syracuae-Bonton College game Satarday. Mount residenta filled a 100 . geat block of the stadium. Cheers of "Go, go, go green. go" and "Green it up" were chanted throwghout the game.

Residents participated in a car rally before attending the apecial Green Day dinner organized by the Graham Dining Hall efaff. Drivers were given clues to the locations of ten bars which they were to attend. At each bar the passengers were to have a beer and take a souvenir of the place. Drivers were not permitted to drink. Ted Ragnea drove the firgt car to malie it back to the Mount.

Several schedinled events were cancelled. The honfire planned for Satuxday ovemins wat "too much trouble for what it was worth, "accortiong to Sandy Shapmerian, a Day resident adviser. The stafr had problems setting pexmimetion from the Syractite Police Department to have the bonfire, she explained. A tug-ofwar and mudslide competition

Wrarenacelied due to themanexpected Enowr.
Abciat 3800 worth of Green Day T- \({ }^{\text {White }}\) were fold for the weekend and worn by momt of the participants. Pritit from the ahirta will go to tho Drogrammixnt committee for Day and Fhint Fills.
The climax of the Graem Day activities wis a concurt foatar
ing che Aingy tox at Staybern which attrected over 300 poople. The manic randed from the Bentles to the Beateh Bays to Boblry Darin.
"I can't remember ever hav. ing a better tima, said Paulette Cochot. "It'm an if the entire Mount in one bis family and we ane all out having a good tixne."

\section*{Women meet at community center}

By Janet Pemnington About 80 women gathered in the Women's Information Center Saturday afternoon to exchange feelings and thoughts about wromen in tren. sition situations.
The Women'a Information Center is a non-profit, com-manity-based organization that provides women with
friendahip and support. "We holp women find ont who they are," eaid Liz Cool, the center" coordinator.

The center staxted about five years ago, ahe anid. A Eroup of women in the community felt that women needed a place where they could share their feelings and experiences with other women. They needed to
know, for example, that the mroblem they were having with their mainiage was not uniqua.
Financially, the center is self-tufficient, with money raiged from worknhops and pledges, she said. The center pleded to raise money with carage gales, but they toolk too mach time to organize and left mo time to work with the women.**
The center charges each person \$10 to sttend a workehop. However, if a woman cannot affori the fee, she can arrange to work at the center. It is a gyEtexn of "reciprocity," Cool said.

The center was first located in an office at 104 Avondale Place and then moved to a house at 113 Concorde Place. According to Cool, "It' was a zoo." The center is presently located on the corner of Allen Street and Harvard Place.
Anne Higgins, a staff member and Syracuse University araduatie, said that after she finished school she after she timished school she had no job and nothing to do. The center was a place where i could go and aiways find omeone to talk to.
Ida Glagsmixe said ahe came to the workshop because "my daughter pushed me into coming. After the woricohop she said, "I'm very glad I
came; it's a great way to malze came; it's

\section*{Printed T-shirts hit SU with color, glitter, humor}

By Wendy J. Sherman Printed T-shirts are sweep ing the nation, and SU lies right in their path. Modest cotton has yielded to flashy colors, glititer and clever witticisma.
"SU" soccer has leather balls," some students seem to think. While one shirt screams "Disco Sucka!" another quietly says, "ExIax cleans like a white tornado."
T-shirts commemorate almont every subject imaginable. People wear anything from fried egge to anything from fried egge to individual taste.
"A penny
A penay for your thougntin...and sio for your body," one shirt says. Another says, "Hairdressers blow it out'" above an electric hairdryer.
The rock groups Rush and Genesis are the most popular T-shirt subjects, according to Larry Sarkin, owner of "rope to Please," a T-ahirt specialty shop at 730 S . Crouse Ave.
After distributing iron-on

transfers wholesale, Sarkin decided to promote T-shirt fasbion on bis own. Slogans ranging from "Miami Bitch" to "Happiness - is yelling bingo": adorn Sarkin's ahop. He plans to ereate a "showcase" of "T-shirt idens, more than doubling his present 300 to 400 piece collec tion.
One atudent's shirt shows a car sinking in water with a pronounced "GLUB. Reading. The Green Ialand Bridge 1886-1977," the print commemorates the collapise of a bridge in Rensaelaer Coxnty last winter.
Theorizing about T-shirt populaxity; Sarkin says, "It's populaxity, Sarkin says, "It's
the thing to do. Everybody's the thing to do. Everybody's
wearing them. List summer I weaning them. Last summer i
even had some grandmothers even had
The 15-year-old "fad" originated with lithograph prints. Silver glitter ooon followed, but its effect with black material diminished on colored fabric This gave birth to the prevalent rainbow glitter, which is striking on any background. Newest styles include the "prism" look, forming letters and designs with squares of ahiny material.
Definitely attention-getters T-shirts suppiy boundless advertising potential. More and more radio stations; in

\section*{Film to be talk subject}

The Foreign and Comparative Studies Program has invited faculty and students to a ppanel discuesion of Youth and Revolution. The dis cussion will be based on the movie "Jonah Will Be 25 In The Year 2000."
It will be presented by Film Forum Nov. 15, 16 and 17 in Gifford Auditarium.
'he ciscussion on thè movie will take place on Nov. 18, 3
cluding WAER-FM, have strewn their call letters across combed cotton.
"Georise Washington Univerwity," printed above Abraham Lincoln's face, is Bure to draw a donble take.

Printed T-ahirts have ex panded to include quality tops and sweatahirta. Although Tshirt modes are changing black remaina the most popular base for'T-shirt prints. SUA anior MarkThomas had the idea back in his freshraan he idea He misk year- He asked the SU Bookstore to print his personal number on the back of his mew Syracuse T-shirt. "That's what Syracuse is," he says, "it's your social aecurity number." Wearing his social secuxity number instead of his name, Thomas makes his official "statement mbozt the university."
Unlike graffiti, printed \(T\) shirts add personality to expression. No one signs graffiti, but the T-shirt expressionist carries his face along with his graphic atatement.
Another shirt reada, "L B.T.A." "Litule Bitty Titity Association," the owner declares. "Oh, Ishouldn'thave told you, I should have made you guess."

Though subject matter will vary with time, the classic \(T\) shirt print is apparently here to stay.
p.m. at 119 College Pl. Participants in the discussion will be Professor Michael Barkun, political science: Professor Richard Braungart sociology; Professor Robert Kearney, political science, and Professor Vincent Tinto, cultural foundationa of education/zociology. Paul Weichselbaum. a graduate student, will moderpte the discussion.

\section*{exceptional performance}

By Dewvid W. Koeller
Violinist Mark Kaplan Violinist Mark Kaplan returned to bis native
Syracume thif weckend for a Syracume this weekend for a performance with the Syracuse Symphony Orchestra. Kaplan played the Bartok "Second Violin Concerto"' with the orchestra, under the direotion of assietant conducter Calvin Custer, In addition to the Bartok, Custer led the orcheatra in performances of the "Fourth Symphony" of Johanmes Brahms and his own orchestral arrangement of "Four Preludes" by Claude Debussy.

In his brief concert career, Kaplan has already establimed himself an one of the tabisinea humselifan oneof the
most important young most important youmg
violiniste. In 1973 he won the violinisto. In 1973 he won the International Leventritt Competition, the only person there to receive an aspard of Special Distinction. He has since played in most of the masjor music centers of the United States and Europe.
Kaplan's performance of the Bartok Concerto way the high point of an otherwise uneventful evening. Besides great technical skill, this work requires \(a\) good deal of understanding on the part of the performer. Kaplan demonstrated convincingly that he has both.

The orchestra provided an adequate accompaniment. though certainly not in keepbhough certainly not in keep-
ing with the exceptional ing with the mceptonai
performance of Kaplan. There performance of Kaplan. There
were, however. sorme inwere, however, gorme in-
dividually fine performances. In the second movement, the variations between solo violin and solo flute, and between

\section*{Group to show film on hunger \\ By Shirley Scott}

A film contrasting the lives of whites and blacks in South Africa will be ahown Thursday as ane of the consciourniessraising efforts of the Syracuae University hunger action group, Famine On Our Eroup, Famine
Irene (Baroo- Johnmon, a chaplain associated with the group, aaid the sroup's purpose is "to encourage students at the university to be aware of both world hanger and the dynamics in onf society that contriloute to iti"

The film will be bhown at 4 and 5:90 prim. Thurndany in the Noble Roon in Fendrielte Chaper:

solo violin and solo viola, were especially well done.
Leading off the concert was Four Pring off the concert was Four Prelades by Debasay for piano, arranged for orchestra by Calvin Custer. It is difficult to determine whether it was the orchestra or the conductor which was responsible for the lackinster performance. Debussy is a turnof-thecentury French composer, who is especially noted for the clarity and conciseness of his pieces, and the moodis and feelings that his music can involke.
It is unfortunate that this performance could not capture those mooda. Expecially damaging was the inability of Custer to get the orchestra to Custer to get the orchestra to
play poftiy. In "La Puerta del play boftiy. In "La Puerta de fina" (The Wine Gate, No. 3 from Book-II), the bass ac companiment in the piano version is marked pianisaimo - very soft - but throughout the piece the basses played so loudly they became center stage instead of background.
Also questionable was Custer's use of the brass section. There, were several places, especially in the fourth selection, "Ce qu'a vu le vent
d'Quest (What the Weat Wind naw from Book D," where the lower brasg, especially the lower brase, especiaily the tuba, blurted out in aseriea of unnecessaxily heavy sounding chords which broke the mood which had been so carefully aet.
The program closed with the Brahme kinor mymhony, No. 4. This performance suffered from a variety of ailments, the most damaging of which were, as in the Debusay, problems of dymanics.
Cubter was umable to produce effective dynamic contrast. He never got poft enough to have the loud bections aound loud, and when he built to a climax he built too quicinly, so the orchestra peaked with aneveral measures of buitdin several measures of building till to go.
There were also problems with phrasing. This was especially naticeable in the third movement where, by holding two notes of a phrase longer than it should, the pace was slowed, so what whe a promising beginning becamea tortured finigh, and a lively, good-humored movemen developed signs of boredom.

\section*{ORL enters pinball business}

By Linda Kates
The Office of Residential Life (ORL) has gone into the amusement buainess, buying 35 pinball machinee and 15 foosball tablea.
According to David Kohr, ORL associate director, the piaball machines were purchased last epring to raise money for dormitories.

Dorms receive 30 percent of the machine's profits. The rest of the money will pay for the

from an outaide vendor and split the profits. Billiaxds and somputer games are etill rented.

All major dorms except Flint and Day Halls have machines. ORL also owns the machines in the snack bars.

According to a atudy mado iy Kohr and ORL Director James Morgan the only other college. with this system is Washington State University. which owns machines in ita student union.

Kohr said ORL would like'to buy three or four more machines next apring. ORI plans to put machines in all campus housing eventually. he arid.

\section*{\(\star \quad \mathbf{S U}\) wins}

winning atreak to three games and snapped a four-game Eagle winning string. The key motivating thing in this game was that we wanted to have \(a\) winning season," Maloney said. He said his new contract did not relieve any of the pressure.
Shaffer, a sophomore, agreed with Maloney. "It's our chance at winning beason." he said. Shaffer said Maloney's rehiring added alittle incentive. "For the younger players like myself, it means that we won't have to get used to a new system with a new coach," he said.
SU now prepares to close the season at home against the West Virginia University Mountaineers, a team BC beat \(28-24\) this season. A victory would mean a \(6-5\) record, a big mprovement over last season's \(3-8\) mark.
It might also mean a record that wouldn't discourage high schoolers better than Jay Palazola from spending more time in Syracuse.

\section*{Once shunned, Syracuse shatters BC}

\section*{By Ben Walkex}

Boston College quarterback Jay Palazola's second viait to Syracuse Univeroity was not quite as pleassnt as his first one.

Three years ago, Palazola was one of the nation's most highly recruited high. gchool
quarterbacics. Fie conaidered attending SU and visited the campus, but after seeing the sights decided Orangeland was not the place to stay.

Saturday afternoon, after facing \(2^{1 / 2}\) hours of biting Syracuse weather and a tenacious Central New Yori was not ec place to be. Palazola and his place to be. Yalazola and his solid 20.3 beating.

The garne may have been lost for BC long before the kie koff Kea Smith, the nation's No. 2 pasaer and reguar stare, ing quarterback for the Eagles, spent this weekend in Boato
listering to his team on radio. BC coach Joe Yukica suspended Smith Friday for disciplinary reasons, exduring the course of the day Thursday, he was unable to function in practice properly.' Smith said yesturday he was depressed and had been drin king before practice.
And while Smith misaed be ing with his teammates ven more. The Eagle offens never got untracked against re penetrating SU defense.
Linebackers Chris Shaffer and John Kinley each halted Eagle advances with intercep tions, as did safety Terry O'Leary.
The secondary, with a little help from the slippery turf, nade big-play receivers Mike Godboit and Paul McCarty decorations against the snowy backdrop.
And the defensive line constantly tropped BC's leading rubher Dan Conway on to 57 yards, often leaving the Eagles facing second and long situations.

Band's becter Oyerall, the BC band's rendition of "Gonna Fly Now was far better than Eaglea SU coach

Coach Frank Maloney Given a vote of confidence with fract w new multi-year con from Smith to Palarole wonl upget the def Palazola woul upget the defensive tempo to let our defense Buffer a to let our defense suffer a let down about not playing against Smith. They were ready for him," he said.

We apent the whole week working on the pass rush," said defenaive coordinator Dennis Fryzel. "Smith doean't move much, but today we sometimes rushed on the out aide and left the middle open. Those were the times the scrambling Palazola managed
to pick up ground.
The Orangemen. 5-5, used the versatility of Bill Hurley, a strong reliaf performance by
Ron Farneaki and the Ron Farneski, and the hard running of Bob Avery to apark Hurley an kly put SU ahead with a qicture perfect play. Hiurley dropped back, atepped up to avoid the rush, and lofted a pass barely beyond three Eagle defenders that Monk, diving headiang, caughs in the last foot of the end zone. The 28 -yard aerial acore came three minutes into the gameand was set up by Shaffer's interception at the BC 45.
Hurley, a drop-back paseer in good weather and an option quarterback in poor conditions, scooted around the corners for 85 yands Saturday
and gained another 104 yards through the air on rollont passes. Early in the second quarker. however, the junior quarterback injured his zight arma.
Exit Hurley, and enter Ron Farneaki, who's seen little time Farneski, whos seenlitile time Hurley's fine year. Farneski came through saturday like he came through Saturday like he never has before in
seasons at Syracuse.

\section*{Varied drive}

Mixing a ranning and pas sing attack Farneaki guided SU 79 yards downfield to set up Dave Jacobe' 29-yand field goal. The Orangemen came close to scoring their second touchdown on the drive when Monk dropped a soft pass in the end zone.

Hurley returned from the hospital, after X-raye proved negative, to take over the con trols, but the earlier BCoring drive did a lot for Farneski 'Yo-it's great. It'z the hap piest I've been up here. I felt the toam was really bebind me. It's the most confidence. I've had," said the overjoyed sophomore
Maloney called Farneski's performance "euperb 30 Avery gained 144 yardis on 30 carries for his third consecutive over- 100 -yard ganne. There was nothing fancy about his.running; he followed his blockers and the holes on counter plays and bulled over BC defenders to pick up several key first downs on short-yardage plays.
The offensive line was really fring out, and the alippery field prevented thern from getting good footing for tackhing. Avery said. The absence of Rich Scudellati, BC's star linebacker, who missed the game because of an injury, may have also helped Avery.
Avery registered his ninth in the third of the season late acoring with a one yard plunge over right tackle. That touchdown capped a 45-yard drive by the Orangemen with two Hurley to Mike Jones passes accounting for the big yardage.

Avery also picked upground earlier in the period when SU took the second-half kjckoff and drove 54 yards to the BC 16. Jecobs' 32 yard field goa closed out the march. The field goal was Jacob's 15th of the eeason, breaking his own SU record for most in a meason.

Sole score
BC's only acore came in the last two minutes of the first last two minutes of the falata fan the Eagles into field-goal range. Eagles into field-goal range mim Moorman's 30 line-drive attempt from 30 yards and put BC behind, 10-3, the and put BC

\section*{Eagles}

By Tim Wendel
Mud and wod were an much a part of Bob Avery's helmet as its chinstrap after SU's game with Boston College.

Running back Avery rushed for 244 yards in the Eagles on a bitterly cold Saturday afternoon at Archbold. Many of his gains were made on off-tackle plays that ended muddy field, after ruahing for eubstantial yardage.

Avery's performance wae his third consecutive 100 -yard game and moved him ahead of Jim Narce into seventh place on the SU career rushing list. The senior's longest run against BC was only 18 yards, but he averaged nearly five yards a carry on 30 rushing attempts.
"Today was fan," Avery said The offensive line was calpy firing out, and the (BC) from getting good footing for tackling. "Yeah, we had it going,"
said SU offennive tackie Don said SU offenaive rackie Don and (Art) Monk and Avery were picking up good yardage:
But thie season was not alwaye fan and maccearful for Avery, expecially early in the
schedule. He palled ligaments in the back of his right knee and had to wit out the third and fourth games of the season. The knee was taped and restricted his running for the
following four games. Only recently has Avery been in-jury-free.

It's a big difference not to be all taped up," Avery maid.

and some of it is not." During his SU career, Avery has endured injuries to his mouldere. left thigh and ankles.

Unlike many footbal seniorm, A very does not plan to

play in the profensional ranke play in tho profengionai raniks after graduation. A political average, Avery is currently average, Avery applicatione to sending out applications law.
"If it wasn't for a \(D\) in one of (Profesasor Robert. D.) McClure's poly-sci courses, I Would have never gotten below a \(C\) in any clase." be said. "I
still don't have a \(C\) on my still don't have a Con my record, just one \(D\) because I
didn't keep up with the didn't

Although Avery does not plan to try out for profeasional football, he will think twice before saying 'no' to any offers from the big leaguega-

I'm not going to get drafted and I wouldn"t try to makeitas a free agent," Avery said. "But if somebody offers me a dbot, I'll certainly consider it. Football is a big part of my life."

Avery added there are two reasong for his recent rushing succesa.
"One reason is the great job our offensive line has been doing," he said. The second is that I've been getting the ball."

And when Avery receives the hand-off he makes.np for his luck of speed had aine with hotarcinined ruming. evem if it means having to roll in the mud.

\section*{Office to conduct survey of students}

\section*{By Bruce Levine}

A survey of North Campus housing residents will be distributed tonight and tomorrow to determine student attitudes toward campus housing and Food Service.

Last year, the Office of Residential Life (ORL) conducted a survey during the spring but by the time results were compiled, it was too late to do anything for those residenta, according to Brian Gorman, cochairperson of the Quality of Life Committee.
Gorman said a more in-depth survey will be done in February. At the end of the year a briefer one will be conducted whose results can be compared with those of the fall survey.

Gorman said a problem in last year's poll resulted from the two-week period allowed for the collection of responses. This year, only about one day will be allowed for completion of the surveys. Deadline is midnight Thursday.
To improve the reliability of the survey, Gorman said, the questionnaire will be distributed to 25 percent - about 1,600 - of the North Campus housing residents.
Breakdowns of the results will be given for each dormitory so that the problems can be located and solved.
Last year's reaults indicated an overall problem

\section*{Letters received on Rosh Hashana}

By Mike Terpin
Fourteen letters requesting that classes be guapended on Roah Haghana, the Jewiah New Year, have been received by the office of Chancellor Melvin A. Egzers.

The requeats came in response to a letter Bent four Weeks aso to parents of all Jewish gtudents, in which Rabbi Milton H. Elefant, Hillel adviser urged that fice requesting the holiday.
Tice requesting the holiday.
Hhe Parent's Office received five letters, which were forwarded to the chancellor's office.
The parents requests were answered individually by letters explaining the calendar restraints in changing a Echedule, according to Marion Borst, "We told them that no stadent is comapelled to
attend classes and that we advised faculty not to asattend classes and that we advised faculty not to as-
sign new work," Borst said. "The students are not sign new work" Borst
penalized in any way."

The letter sent out from Hillel was mainly a request for funds, Elefant said. No other action in regard to Rosh Hashana has been planmed and students, he added, would be responsible for any further developments.
Susan Schneider, Hillel president, said she would like to pursue some cotarse of action. but it has not

\section*{Housing: the students go South (Campus)}

By Michael Kramish At the end of his sophomore year, David Johneon typified many Syracuse University stomentace to live besides a someplace
His first inclination was to find an apartment off-campus, where he could have more room to entertain friends, cook his meals and simply "not live in a dorm anymore.
Instead of locating off-campus however, Johnson joined a growing number of students who are moving to universityowned apartments at South Campus.
A study of records at the Office of Residential Life (ORL) shows that in the last 10 years, the number of students with university housing comtracta has remained virtually unchanged.
This has come about deapite the loss of 1,600 students from North Campus reeidences.
The decrease has occurred mainly because ORL has manay because out 17 cooperatives phased out 17 cooperatives and cottages since for living were either unfit for oring
under city ordinances, or the under city ordinances, or the large number of vacancies forced minure, Instend of continuing to live on-campus,
students started to move to private apartments.
To counteract this trend, ORL opened 188 apartmentsin 1972 at South Campus to "keep juniors from moving off-cam. pus,": necording to Jean Crawford, asaistant director of ORL. Under university regulationa, freshmen and sophomores are required to live in university housing, unless special permission is received.
Since 1972, "Phase IT" and Vincent Apartment have steadily increased the number South Ciments apabable, 1,400 atudenta currently reride there.

According to Gary Thomas, diroctor of AIteracts, a student service thit helpa etadients
deal with private landlords, students in the early '70s were divcovering the monetary and living advantages of apartment ife Crawrord ex plained that in an effort to entice students back into some form of university housing, ORL developed the South Campus option.
As a result, South Campus apartments were developed "to be competitive with private
landlords," Crawford said. The undiversity was losing more and more students to offcampus apartments, and "we had to consider that damned little dollar sign," she said.
The strategy, apparently. has worked. ORL records show that while fewer students are taking advantage of North Campus residences, more and more students are going to South Campus.
"I tried to find an apartment off-campus," said Johnson. "The problem was that utility rates were ridiculous and the rents were very high. The closer I got to campus, the higher the rent. And the condition of the place made no difference in the rent."
Alteracts Director Thomas complains that "iandlords have discovered that they can raise their rent by 100 percent and still be competitive."
Another problem with offcampus apartments apparently is the year-round rental fee. South Campus reaidents are required to pay only for the months they live in the apartment: Senior Doreen Klingert, who lives at Skytop explained, "We figured that we would end up paying as much as an off-campas apartment cost because of the aubleting problem.
Crawford concedes that variables such as utility rates (eapecially gince last year's energy crisis), rent increases and aubleting have helped in keeping students oncampus. But- she swys fistly "South Campus brousht people back."
conntrued on paje eighe

One hundred and eighty-eight South Campus apartments were opened in 1972 as an alternative to dom living or off-cemput apertmenta.

\section*{Exemption gets mixed reaction}

\section*{By Martta Rose}

Syracuse University's decision to file for exemption from the new \(\$ 2.65\) minimum wage. which takes effect Jan. 1, has brought mixed reactiona.

One reason for the exemption cited by the Of. fice of Financial Aid is that if students are paid the new minimum wage, they would use up their work-study allotments earlier, leaving behind too many unfilled positions.
Diane Leaniewski, a library employee, feels differently: "I don't think that what the university is doing is right. Some students do not use their full work-study grant and some do not weish to work at all. It's not fair to pay not wish to works at
Another library worker, Heather Gleason, said, "I agree with the university. Work-study sabs, are a gift and besides, no taxes or social jobs are a gif and besides, no taxes or socia security are taken out of your pay. The
univeraty is not obliged to provide us with unive:
Julie Blaha, manager of art supplies at the SU Bookstore, said, "If the univensity clearly cannot meet the demanda monetarily to pay the
new wages, then there's nothing to be done. However, many student employees might quit as a result. Those who do stay on might eventually receive a raise, though.
"If someone higher up says that we have to cut back, We listen because we assume that they supervisor of Graham Dinging Haid June Ficher supervisor of Graham Dining Hall.

According to Kenda Clifford, a student supervisor for Food Service, "Although most workers would like to receive minimum wages, workertudy is not obliged to pay it. I realize that a situation such as this one, (a raise in
minimum wage) is hard to plan for in mid-year, but financial aid did have some indication. I imagine we'll lose some workers, especially those not on work-study."

John Kleschinsky, another Food Service employee, said he was looking forward to receiving the new minimum wage but he realized that if the univexsity simply does not have fundis, it would be impossible. "If they don't have the proper funds and pay the minimum, future wrork-Mtudy students will be the ones to saffer."

\section*{RA succeeds despite \\ By Ira Chinemon \\ Not only did Polselli}

When Dennia Poiselli applied for a residential adviser (RA) poaition last year he was a bit unsure of his chances of getting the job. But after carefully considering his merits, Polselli found himself feeling confident.
While such positive thinking is not uncommonamongmany students competing in the RA sweepstakes, Poiselli probably had a better understanding of his own ability to cope with problems. That is because the 25 -year-old graduate student from Fall River. Mass. is blind.
Eventually Polselli got the RA position and was assigned to Sadler Three, making him the first blind RA in Syracuse University history. If that makes him a trailblazer Polselli shows no signe of being aware of it. He is simply a soft-spoken. well-organized student studying for his master's degree in educational coungeling.
"One of the reasons I wanted to bean RA was that it could be helpful for the career I'd planned to go into." he said:
During his undergraduate days at Stonehill College, Polselli was involved in stedent government, an activity which he felt gave him experience in dealing with a variety of people. Around the variety of people. Around the time of his Eraduation he position to stry.

Filling out the Office of Residential wife (ORL) application form presented the first potential stumbling block. "Because of Health. Education and Welfare regulations an appliceecannot be asked whether he is handicapped, so 1 decided to volunteer the information," Polselli said.
volunteer the information, but he went to great lengths to list possible problem areas and suggested ways to overcome the problems.
"I knew there might be questions about my ability to remember what rooms students lived in, so I auggested that Braille name tags be put on the doors." Polselli said.

Healso addressed himself to potential problems involving ire drills and unruly students.
Polselli's honesty and thoroughness in flling out the application impressed the RA selection committee. According to Sandy Westfall, a staff coordinator at ORt "Any anxiety we might have felt was minimized. when we read his detailed answers. He handled our questions with an admirable. opennesi and quickness.? Westfall said.

Polselli has nothing but praise for the way ORL treated his application. "During the selection process they kept me They also eory step or the way. sive phone interview with me: In mid-June I was informed of my selection," he said.

Because all his classes are held in Huntington Hall, Polselli requested that he be assigned to a dorm closest to the Marshall Street building. But after staying in Lawrinson during a July meeting for blind students, Polselli found that he had relatively. little trouble getting to Marahall Street from the Sadler-Lawrinson ares. "By September I pretty much knew my way around the srea." he said.
There still remained the question of how incoming would react to a blind RA
handicap
"I eried to figure out a way of dealing with people's resction. At first I planned to deliver a bis speech about my blindnetar at the first floor meeting. 1 later decided to go around to each room. introduce myself and have a short talk with each student."

According to Polselli, there were varying reactions from
the students. "A couple of people were quite enthuniantic and promised to be as helpin as possible, others were a little more subdued and quiet.:" he said. Several parents "expressed . exciterment" when learring that Polselli was an RA.

Except for an occisional water tight, things have gbine pretty - Amoithly ion:iSadler Three. Polsell attributed the calm to the close cooperation te has received from follow he has received from follow

In the beginning of theyear we decided to divide tasks, because my blindneas made it impossible for me to do certain things like making out room condition reports,", \(:\) Polsell said.
The solution was to have Filteh handle condition reports while Polselli takes care of all maintenance re quests. "If something needs to be repaired 111 go to the room and get all the relevant information, even if it means touching the broken object," Polselli said. Then he types up a repair request form following guidelines he has recorded on tape.

If it all sounds rather routine it's probably because Polselli has managed to hold his position of responsibility with a minimum of fuss and specibl treatment. As one third floor resident said, "There's really no appreciable difference between Dennis and any other RA I ever knew."

If your picture ain't in the yearbook, your Mom's gonna kick your butt.

Return your yearbook portrait proofs November 17, 18, 21 10:00 a.m.-4 p.m., 2nd floor Student Activities Bldg. Waverly Ave. \& Walnut St.

\section*{Hillel sponsors services}

Hillel will be sponsoring a "hine ma tove." or creative service, to "get more people in* volved in Hillel and more in touch with Judaism," ac cording to Janice Berger, a Hillel member who helped devise the service.

The service will incorporate
contemporary poens and foik songs with traditional prayers.
It will be held in the Noble Room of Hendricks Chapel Friday. Nov. 18, from 7:30 to 8:30 p.m.
This is the first creative service this year. There will be folk dancing afterward.

The teacher hadn't even looked up when he came into room five minutes late. A few atucients, however, stared at him disgustedly. One stadent raised her hand.
homework?" she said. "I don't feel like I'm getting much out of this course."
Several members of the class murmured their approval:
"Well, I ah, I ah, suppose we could, ah, try to, ah,"
he professor stammered.

in the back of the room said.

When are you going to do something about these people who come to class late?" another student shouted.
"Are we here to learn, or what?" someone else complaimed.

He went to the dining hall after clasg but he didn't get to eat much. A group of vegetarians protesting another group was picketing the salad bowl.
"Support the California farm workers," a girl gaid as ho reached for some salad.
"But they've already won the right to unionize," he said. "Viva Chavez"" she yelled as she hit him with her sign, seemingly oblivious to his comment.
He did not go to any more classes because no more classes were being held. A group of students had seized the chancellor's office, all the academic buildings, Hendricks Chapel, Manley Field Housse and the SU steam station. No one seemed to know why they'd seized the steam station, but it was thought to be a good precantionary measure at the time.

What was worse was someone had leaked the fact that he had a fux pillow in his room, and the wildlife preservation people were after him. The tur wat synthetic, but of courne there was no way to explain that to them. It monnded like 50 people were pounding on his door, shouting "Aid the Animals." The door
"Save the baby sealst" a girl ahouted as she ripped off his shirt.
Frank, an editorial editor for the local campus newspaper, woke up in a cold sweat. A wind swept rah Fawcett poster from the closet door. It folded over half hiding the Bob Dylan poster which was hung on the door below it.

\section*{Letters}

\section*{A call for taste}

To the editor,
For a paper which purports to be adept at editing for "usage, brevity, clavity and taste" (DO letters
policy), the DO shows a surprising policy), the DO shows a surprising
lack of the last quality in reporting lack of the last quality in reporting the news. To edit for taste implies a
certiain amount of responsible certiain amount, of reaponsible
journalism. It is unfortunate you do journalism. It is unfortunate you do
not employ the same editing techninot employ the same editing techni-
ques for your articles as you do for letters received. You have perverted your responsibility to the public, placing all importance on total expose and forgetting your responsibilities to the subjects of your articles.

I refer to the Nov. 14 front page article on the Skytop suicide. In it you quote a source on some of \(\mathbf{M r}\) Wood's difficulties at the time of his death. This deliberately skews the article to subliminally read, "Mr. Wood killed himiself because. . . "In so doing, you are committing a most deleterious error in two ways: you are proposing that a soccer coach knew the inside workings and severe mental strife of a suicide at the time of the latter's self-destruction, when such psychological conflict can onely be known by the suicide himself, and even then, obviously, not completely. More importantly; you have also unforgivably injured the people
closest to the fallen man, by inferring that his action was somehow the result of a discord involving them.

It has already been pointed out that you cannot possibly know conclusively the reason's for Mr. Wood's act, but to imply these has serious repercussions. To be sure, such a
violent occurrence has made all inviolent occurrence has made all in-
dividuals who are immediately individuals who are immediately in-soul-searching. But now, through a tremendous lack of responsibility, The Daily Orange has deepened their grief and opened it, soap operastyle, to the public - 13,000 issues worth.
The sad thing is that the error
had there been just a minimum of responsible editing. The article which reports the incident is basically a sound one, save for the one cancerous sentence which taints it. Proper editing could have corrected that, but it is too late now to repair the damage.

The editors of the DO must realize their responsibility to report con clusive facts and not debase the written word by distorting the facts in order to promote their own views in a news article.
This is obviously no way to run a newspaper, for it makes serious consideration of the paper's contents quite impossible.

P:C. Richards

\section*{Teaching quality: how to assess it better \\ The University Senate should \\ can be partly alleviated, we think,}

In a comment published on this page yesterday ("In reply: Kenneth College of Arts and Sciences has pinpointed the most substantial problem in protecting students' educational interests wher questions of tenure and promotion come up. The university, he notes, sets guidelines which include the quality and effectiveness of teaching as key elements in deciding the fate of individual candidates. But when committees vote, as Dean Goodrich points out, it ain't necessarily so.

Perhaps there is no way to change this. - one can write page after page of the strongest posisible guidelines and still not be able to reach inside the heads of committee members and compel them to give proper weight to teaching quality in tenure and promotion considerations.

But we see a number of areas in which the university can show in concrete and effective terms its stated dedication to teaching quality as a major criterion for promotion and tenure. For exam-ple:-
radically readjust its form used to gather information on promotions from candidates; its content is, as Dean Goodrich points out, "embarassing and apologetic.' The form should not state an assumption that "every member of the faculty is a good teacher" this is not merely apologetic but false, as many students can undoubtedly testify from personal experience.
Completing this section of the form should not be optional for candidates seeking promotion - if this is how the university shows its emphasis on teaching as a primary criterion, it seems to us an odd way to do it.

We see no effective way to force departments in debate or in voting to put more emphasis on teaching - but the means used for gathering whatever empirical data are whatever empirical data be imavailable on teaching can be imstandardized surveys of student opinion on faculty members' teaching effectiveness on an annual basis to balance the viewpoints of their colleagues. We support a

\section*{The Daily Orange}

systematic means of course evaluation. Unquestionably these practices, would irritate faculty members' traditional phobia about being evaluated by students - but students are, in our view, the best judges of teaching effectiveness, since they constitute the receiving end of the communication process called teaching.

Committee and department considerations present a problem you can lead a committee to information on teaching effectiveness, but you can't make them give it any weight. The problem

\section*{The Standard Plan:}

\section*{Faculty apathy?}

At the time of its inception last spring, the Standard Plan was hailed as a major innovation in the quality and development of liberal education as it is offered at Syracuse Univeraity. It was recognized at that time that the plan would require tremendous work and dedication from the faculty of Arts and Sciences to be effectively implemented.
We might be forgiven if we suspect that dedication may be lacking jugt a bit, since yesterday's faculty meeting to work on the plan was cancelled due to the absence of a quorum. The required quorum is just one-fourth of the faculty of the school.
One-forirth of the faculty is required for a quorum, and the meeting fell three members short.
by including on committees at department and college levels strong teachers, strong
researchers, faculty members with strong service records, and adequate student representation.
The last point, of course, depends totally on students. They have the strongest personal stake in teaching quality - if they remain silent they cannot expect some other group to press their interests for them.
David Abernethy for The Daily Orange

It certainly isn't our intention to Auggest faculty members have no other responsibilities. Nor do wesuggest that no one in Arts and Sciences is working on the plan - many individuals have given much of their time to ensure its proper implementation.
But the Standard Plan cannot change liberal education at SU for the better - regardless of its potential - if the faculty cannot even manage a quorum at meetings to discuss it.
Student apathy has been one of the most criticized phenomenon of our decade. But factily apathy, in this case, would have for more disastrous consequences for the quality of SU's academic programs.

David Abernethy for The Dally Orenge

November 15. 197

By Audrey H. Lipford Ever wonder what those hree Greek letters on the outside of Archbold Gym stand or?
A secret gym society?
A basketball fratermity?
Guess again. It's the Phi Chapter of Alpha Phi Omega, a service fraternity that has been a part of Syracuse University and the Syracuse ommunity for over 40 years.
It was founded in 1931, on the principles of Boy Scouting. by 15 men. The maiority of these early members attended the State University of New York College of Environmental Science and Forestry. A person was re quired to be a Boy Scout to become an A-Phi-O at the time, because many of the fraternity's service activities were scout-related. They in. cluded such things as lifesaving, swimming instruction and troop assistance.
Today, Alpha Phi Omega. now coed, has nearly 600
chapters acroas the country. and most of its Phi Chaptex members are students or Kraduates of SU. Yeadership. friendship and bervice on a national, community and univeraity level are its major principles.

Bound by friendolip
"Alpha Phi was not founded for social purposes," says Joan Hecht, an SU sraduate and two-year member of A-Phi-O Because of this, she continued, A-Phi-O does not have an of ficial fraternity house, but still, "APO's live with APO'R"

We're a fraternity in the true sense," comments Dave Singer, a senior in his second year of membership to A-PhiO. "Werre bownd by friendship," he points out. somethings which helps the group make it through the usual minor problems a group of people living and working together will have.
"The feeling can't be described." Singer notes, "of meeting and talking with someone

\title{
\(\boldsymbol{U}\)-TV \\ (formerly Synapse)
}

\section*{University \\ Union \\ Television}
when the only thing you have in common are those three Greek letters."
One of the firat major services of the Phi Chapter was the creation of an outing committee, which was to become the SU Outing Club in the early 1930 's. This was the start of a variety of beneficial services and activities the fraternity was to undertake throughout its history, and also marked a. successful period of several impressive recognitions.
In 1934, Chancellor C.W. Flint became an honorary brother of A-Phi-O at the annual APO banquet. This was the start of the now traditional practice of making SU chancellors honorary APO brothers.
At one point. APO was virtually unknown on campua and in the community. Even today, Hecht notes, "Many people of SU and the Syracuse people or sud are" Hecht is a little smaze are . you go through four yeare of youistration (at the gym) and registration (at the gymn) and Greek letters (on the outside of Greek letters (on fym) stood for?"

Involvement
A-Phi-O is currently making itself more than well known through its involvement with many of the same activities it worked on in its earlier years. Its first connection with the need for blood donors in 1938 culminated in today's Blood Drive. This event sees a cam-pus-wide committee working with the Fied Cross in the recruitment of blood donors once each semester.

In keeping with the spirit of its earlier Boy Scout beginninge, APO also heade Woodland Weekend, including Boy Scout Swim Day. This traditional event organizes Boy Scouts in various ac tivities in such places as the Women's Building pool and other on-campus sites. During Woodland Weekend, A-Phi-O's carry out service projects at Camp Woodland.
The annual Christmas party for area underprivileged and handicapped children centered at Hendricks Chapel, together with the campus Christmas tree on the Quad, are probably among the moist heartwarming APO projects. heartwarming APO projects.
Started in 1961, this event puts

There's no tradtional fraternity thouse within Archbold Gym. Instead, those letters mark Alpha Phi Omege, the coed national service fraternity. (Photo by Hillary C. Schulman).

500 area youngsters in the hands of SU fraternities and sororities, each holding their own mini-Chnistmas party.
"We've only lost one kid,"'(in three years) Singer notes proudly. "He ended up at one of the frats...just having too much fun there to come back" (to Hendricks Chapel).
The Jaycees Haunted House, located at the State Fair Grounds, is the site of still another APO project.
"We usually pull people from campus to help us with this." Singer says." They (the public) pay 50 cents to get scared.'

Service
One of the most noteworthy projects the Phi Chapter undertook concerned the elimination of architectural barriers to the handicapped. This activity was endorsed at the 1970 APO National

Convention as that year's National Service Project, the first time a project proposed by chapter was adopted nationally.
The difficulties of APO brother Brian McLean, who is confined to a wheelchair, nitiated the chapter's work on this project.
"We realized the problems the handicapped have in getting around when Brian couldn't get to our office" Hecht szid. The APO office is located on the third floor of Archbold Gym.
As a result of their work everal campus building were several campus buildings were prostructions whi con tractions we provided for easier access by the handicapped.
In recognition of this as the \(1968-1970\) outstanding aervice project of 1968 -1970, the Phi Chapter "Sho awarded the Arno "Shorty" Nowotny Service Award at the 1972 national convention.
Past projects include the benefit wheelchair basketball game played by the SU varisty basketbail team and the Jersey Wheelers, of the National Wheelchair Basketball Association, in the Spring of 1975. Held at the Wax Memorial, the game attracted close to 1,000 spectators, but the high costs surrounding the preparations for the event led to its not being repeated the following year.

Phi entered a couple in Delta Tau. Delta's first Dance Marathon for Muscular Dystrophy in the apring of 1972. After conducting such fund-raising activities as a used book zale on the Quad and a mocking chair "Rock-AThon" in sibley's parking garage, Phi finished fourth in garage, Thi finished fourth in over \(\$ 1,700\) for muscular dyetrophy.
codas, SU's Phi Chapter of Alpha Phi Omega is growing strong, centering its efforts on recruiting as many new A-PhiO brothers and sisters as pos sible for the 1977-78 enoo year, in addition toitsother ac

\section*{Queen LP lacks direction, proves pointless}

\section*{By Larry M. Belmont}

Queen's new :ulbum, titled News of. the World, is a pointless effort thatgets lost somewhere between where Queen
has been and where it wants its music to 8 .

There is nothing vaguely familiar resembling the past and there is even less hinting toward the future. The progressive rock band on the "merits" of this trashed vinylis rock'n' roll blasphemy. The group, whose direction has always been questionable, has managed o piece together an insulting colection of 11 c
The so-called "class" of British heavy matal and a vanguard of progressive rock, Queen has thrown its reputation to the four winds on this one. Queen's problem isn't one of progressing into an unknown territory, the old one.
The group has milked its uncommon musical style dry. When a band repeats becomes boring and bland Queen goes around in circles until both reputation and band confidence are shattered.
Queen's first three albums were hailed as cult masterpieces, and did well commercially following Queen's assault on the United States in 1974, A Night at the Opera, its first commercial venture, enchanted us; A Day at the Races, "bedazzled us a little less; and now, "News of the World" is a record that amounts to nothing.
The banality of the lyrics, the overwhelming pompousness of the masic and heavy-handed production This is a record that doesn't live up to expectations, doesn't move, or do anything except sit on the turntable any die.

It's almost as if the group didn't care. Every song, with the exception of two which are just listenable, sounds

detached and dismissed. There is nothing here that even resembles what Queen is capable of.
There are no lofty, emotionally mov ing pieces like "'39"" no high-strung, melodic numbers like "Somebody to Love," nothing as innovatively strange as "Bohemian Rhapsody" "and no basically, hard rockers like "Stone Cold Crazy." There is nothing on this record that is reminiscent of Queen exrept the superficial flutter of Freddie cept the, superficial flutter of Freddie group harmony and maybe a burst or two of brilliant guitar work by Brian May.
It isn't that Queen has left its old style behind to go off in search of new musical lands to conquer, but rather it has grown tired of it. It is unable to repeat that distinctive sound, let alone renew or revitalize it. It has become
caught in the lethargic grip of creative exhaustion.
We Will Rock You" is a lie. The song which opens "World," is an ugly and lethargic number, hindered by imbecilic lyrics and muddy music. The song moves slowly and induces nothing but boredom.

We Are the Champions" shines stale air stanguid display of bearing the same instrumentation of barely adequate that mirrors the flaws of the entire album.

Sheer Heart Attack" is a painful imitation of a punk-rock anthem which labors miserably under the weight of Driven half-heartedly by Re vocals. Driven haif-heartediy by Ramonesstyle power chords, the song bludgeons one into senselessness. All the power

\section*{Sci-fi concept album rocks with disaster}

\section*{By Bruce Pilato}

What you've got here is a massive project: a titanic piece of musical work. it's a concept album, a story that deals with a group of musicians who "tour" space in the year 3077. The entire thing can be broken down into four areas: the
story, the songs themselves, the artists who appear on the disc and the production.
The roster of artists is as good a place as any to begin. Included here are AnCousins of Str ow Renaissance, Dave Tropea, Ben E. King, Rod Argent, plus members of The Good Rats, Status Quombers Genesis, Brand \(X\) and Stanky Quo, Genesis, Brand \(X\) and
But people like Haslarn aren't worth anything if the music itself is weak-
And such is the case with The And such is the case Intergalactic Touring Band.
Intergalactic
In fout only is the music weak, but the base of the entire project, the story, is the corniest thing to ever be recorded. TIGTB (as it is called) is a campy version of rock 'n' roll meets. Star Wars. More awkward than the London Symphony version of Tommy,
and more boring than the " 76 presidenand more boring than the ' 76 presidential debates.

The authors, Danny Beckerman and Wil Malone, have tried to create a science-fiction opera, built upon Theral different styles of pop music.
The reault is a disaster
Some songs are classical-rock and soundlike something that Renaissance or Genesis might record, while others are corny-disco, that even Monty Rock would not touch. Aside from having no conisistency, the music itself is just plain crummy.
The lyrics are. preinatal, and the melodies sound as if they were rejected arrangements are the only saving
grace, and they too are weak. Probably the reason for the music's daftness is because these songs, were all tale.
Everything about this album seems contrived and forced. The authors were so concerned with getting the story across that they sacrificed any attempt to make the lyrics and the music flow naturally. Songs like," "Starship Jingle," "RobotSalesman" and "Space Commando" give this record an appeal that can only attract young sci-fi buffs who aren't familiar with the good elements of rock music.
If it wasn't clear enough in the lyrics what the story was about, the authors include a narrative storyline along with the lyric sheet so everyone can now, who cares?
So who's behind this white elephant? TIGTB is a project of Stephan Galfas and Marty Scott. The twosome own Passport Records and Scott also runs GEM Records, which distributes import LPs.
Galfas and Scott are responsible for the production, and although some of it is brilliant, most of it is gaudy and elaborate. There are some nice spacey techniques
overdone.
of TIGTB are The London Sang graces of TIGTB are The London Symphony Orchestra (used effectively), and electronic keyboard whiz-kid, Latry Fast. Fast is the man behind Synergy and the sound track for much of Laserium, the laser light show. Fast always manages to add some tastefal fills to almost every song. especially the weakest ones.
Other than that, this disc is all downhill. Save your money, pick up a good King Crimson album and find out
here is tainted by trite lyrics and atrained by the muffled vocals. Brian May's Ieads are limp and distorted amid the shambles of the overdone amid the shambies of the overdone thythms. The songs a
"All Dead, All Dead" is, as the title implies, a tune killed off in the flood of overpowering bass and percussion. May"s synthesized ruitar
embellishments gimply overwhelm embellishments gimply overwhelm Mercury's genuinely \(p\)
musically murdera it.

Flipping "World" over is a continuation of the tragedy evidenced on the first side, as the flawed material becomes more pronounced and aggravating. "Get Down, Make Love" isstrangled by thick, soupy production. Singing the praises of earthy sex and "symbolically" reflecting it in uncontrolled rhythms and wild and impetuous lead guitars, Queen delivers this one with all the tact of a dirty joke.
"Sleeping on the Sidewalk" comes off as one of the only good songs on
"World," but it doesn't sound like Queen. It is an honest, plain rocker powered by Brian May'a momentary return to lead guitar which sounds a lot like Robin Trower both instrumentally and vocally. "Who Needs You" isn't a bad song either. It is a pretty reggaestyle number, spiced up with some maracas and moved nicely by an acoustic duet featuring May and bassigt John Deacon. Queen's sist John Deacon traditionally rich-textured harmonies complement Mercury's voice, which regains its lilting quality to do some regains its hiting qualicy to this soft ballad. "Its Late" and "My Melancholy Blues" conclude "News of the World" on a aour note as both are misdirected attempts to imitate songs on previous albums.

Burdened by overproduction, creative exhaustion and a weak performance, this record is the work of some awfully cocky and pretentious musicians. It seems that this album has caught them gravitating between two of their most undesirable moods.

\section*{Folk artist amuses crowd}

\section*{By Larry Grant}

A highly provocative and amusing folk artist had people laughing and tuned to his music at the Skybarn coffee house Friday night.
Dennis Friscia plays guitar, ukelele and piano, although he puts most of his and piano, although
"If you want to get to people you have to pull their pants down," eaid Frisicia. Performing three sets of satiric songs which he wrote himself, Friscia dances facial expressions and hats, changes factial expressions and peppers up his act with one-limers and references to politics, sex and punk rock.
"I find people relate to songs about relationships" Friscia explained. "Irish folk songs have nothing to do with what people are doing or how they. live."
One of the most engaging things about Friscia is that he epealcs to the
audience, carries on conversation and makes a genuine attempt to stimulate ideas.
"I think the world is basically out of its bird," said Friscia. "A lot of mankind is atarving and most of the people I know are unhappy in some way. The most pervasive thing I see in the '70s is that people are drawn more into themselves. Self help and survival are becoming primary goals. Where it is becoming primary goals. Where it is reauy happeni,
Although Friscia's critical attitude comes out in his music, he also writes comes out in his music, he also writes satiric content. He is a fine guitar player and his style is reminiscent of Paul Simon. He has also been heavily influenced by Loudon Wainwright and Bob Dylan.
Friscia will be performing at Hungry Charley's Wedneadny evening at 9.

\title{
Wiitty Swiss film probes passions of ' 60 s radicals
}

FILM ON CADPPUS: "Jonah Wha Will Be 25 in the Year 2000," Film Faram, Nov. 15-17, Tuesday

By Daniel Frank
The turmoils of the '60s have now become pages in history textbooks. But what has happened to the activists and the causes they foughtso hard for? Are they shaping the Whorir or is the world shaping their destiny? The recent Swiss film, Jonah Who Will Be 25 in the Year 2000," probes these questions. The result is an extraordin
The milm assesses, in a subdued fashion, the dreams and passions of eight people, four oddly paired couples who were once their society's outcasts. They wanted to destroy an equilibrium that seems to rest so neatly on a solid base.
Their reinduction into the establishment hasn't brought them fulfilment. Max, a former political activist who worked for a newspaper, no longer writes. Since 1968 he has worked as a proofreader. Marco is a history teacher whose methods of involving his classes are so unorthodox, he keeps losing his job. Marie has become resigned to a borhas become resigned to a.boring job as supermarket cashier, while Matthieu, the married proletariat, has been
Thed for his union activities.
Theople who have
They are people who have
been stranded between revolution and adjustment to a quieter age. But they continue to carry on, each attempting to find security and make their
own small utopian vision posgible. Marie undercharges elderly people who ordinarily have trouble buying enough food. Matthieu goes to work on a farm and forms an alternative gradeschool inside a garden house.
And though many of them may be banging their heads against a wall there is hope and renewal symbolized in the birth of Jonah olized in the child of Jone of the four courles child of one of the four couples, minds, each contributing their minds, each co
While director and writer Alain Tanner and collaborating writer John Berger are politically socialists, their characters do not spealk hollow political statements. The eight talk almost constantly, and they make their various points emphatically, but they are so humanly portrayed they do not resernble metaphors.
Tanner and Berger have made their characters so exuberant, so involved with their surroundings, the audience can feel the friendship between the characters in the film being extended to include them ing extended to include them. The characters can be eccentric and compassionately comic, such as the pretty redhaired Madeleine, Whose mysticism and in Hindu mysticism and rather bold sexual attitudes. Then there is Marcel, a frustrated nature lover and artist who finds satisfaction through the creatures he studies.
Tanner and Berger strive to present their numerous characters in three dimen-
aions. In contrasting acenes shot in black and white, they portray the absurd, often optimistic or gad dreams of the people. By maling the various priginally dignagociated eigh originally disassociated eight become good friends through the course of the film, the filmmakers allow for a beautifully integrated story. grace American thesters grace American theaters. Along with Claude Goretta ("L'Invitation," and the recently acclaimed "The Lacemaker') they represent the newest Swiss filmmakers to become known in this coun try today. The two have in troduced a wealth of excellent Joting in their features. Jonah Who Will Be 25 in the Year 2000" is no exception. The casting is so fine the ac tors no longer appear to be playing a role, but to be the characters themselves.
There are some especially distinctive actors among this cast. Jean-Luc Bideau plays Max, the sloppy, large cynic who always looks like he woke up late for work. Jacques Denis as the sentimental Marco resembles Gene Shalit Marco resembles Gene Shalit without Miou (featured while MiouFrench films also) in several French firms, also), who plays tough but vulnerable Marie cuts an imposing figure.

Jonah Who Will Be 25 in the Year \(2000^{\prime \prime}\) was intended primarily as a melancholic, but optimistic political film Yet, it is filled with so much wit and compassion, the viewer may find it much more entertaining than originally intended.

\section*{A SU tackle's life on the line}

By Marsha Eppolito
"Football players are a whole, different breed of people, remarked New York Giant defensive end for 13 years.

Craig Wolfley, 6-foot-2, 260 pounds and a sophomore offensive tackle for Syracuse, is an example of that breed. Like most SU football players, the Orchard Park, N.Y., native the Orchard Park, N.Y,, native
puts in about 25 hours a week, excluding game time, hitting, pushing and pulling, getting pushing and pulling, getting
rained and anowed on, runrained and snowed

Hours upon hours are spent reviewing game films, reinforcing one's mental attitude, getting the timing down for particularplaysand "sharpening up" before each week's same.

According to Wolfley, "The two worst weeks of my life are during doubles." Doubles. which occur in the last weeks
of August, are comprised of two practices and three meetings a day. During this time "'you jrist exist. You'ze always exhausted," Wolfley said.

Another time dreaded by the players is the physical conditioning course they are required to take in the apring. For WoIfley, "It's hell on earth For Wolfley, "It's hell on earth
for an hour" each time the for an hour"
Why would any man in his right mind to go through such right mind to go through such
phygical and emotional ups physical and emotional ups
and downs every week for and downs ev
three months?

Money from a pro career, Money from a pro career,
love for foothall and the physical contact are just a few of the reasons usually mentioned.

On-the-job training
For Wolfley, "It's more a job that you work at than one you enjoy," he said.

However, one gets the idea

Craig Wolfley
there is more to being a football player. "I enjoy crunching them (the opponent),

Snow falls, but not Orangemen
While SU quarterback Ron Farneski (10) looks through the flying snow of Arehbold Saturday for a receiver, offensive tackle Craig Wolfley (64) blocks his Boston College opponent. Although Wolfley. only a sophornore, shined for the Orangemen this soason, his life as an otfonsive lineman is

\section*{Divided, the SU wrestlers stand}

\section*{University Senate to vote on 6 committee nominees}

By Scott Rohrer
The University Senate will vote today whether to approve six nominees for an Ad Hoc Commitite on Jindicial Procedures.

If the membership of the cormmittee is approved, it will "take a good hard look at the judicial aystem" on campus, said Ross Burke, chairmandemignate of the committee and Graduate Student Organization president.

The senate approved a resclation last Mareh authorizing the committee to review charters and procedures for those jucician bodies not approved by the senate and to suggest changes in charters where them sompropriate.

The prospective committee members, approved by the Benate akenda conmmittee, ane Burke; Peter M. Baigent, drector of student affairs; Rich Crowen, Student Association president: Richard Nolan, a Management; and Dennis Management: and Dennis
O'Day, an asaociate profesaor in the College of Law.

The senate Committee on Students sponsered the resolation and mubmitted a

\section*{Cadets 'sweat in peace' for jobs and scholarship}

Two By Garry Ellison their guts and bellowed: "THE MORE YOU SWEAT IN PEACE THE LESS YOUBLEED IN WAR THE MORE YOU SWEAT IN PEACE, THE LESS YOU BLEED IN WAR!" After the throat-scratching yell, theirjaws clenched tight and Adam'a apples bobbed. A smile stretched across a senior cadet major's face and he clapped his hands approvingly, yelling. "Awright, cadets!"
The cadets stood in the middle of acreage owned by the Marines east of Syracuse near Mattydale. They looked harmless in plastic helmets, loose-fiting, olive drab cotton uniforms and black leather boots. Most of them were from Syracuse University; some came from area colleges that have no ROTC program.
As upperclassmen (and women) in ROTC, this was one of several weekend exercises they would spend getting muddy, sweaty and tired. It was a voluntary exercise preparing them for a six-week gummer camp at Fort Bragg, N.C., where they will get muddier, aweatier and exhausted.
The reason these persons decided to become involved with ROTC's exercises, uniforms, marching and classes on military history and tactics is not so much a sense of duty to serve their country as it is a guarantee of a job after graduation and, for some, scholarship opportunities.
Whether Air Force or Army, ROTC draws upon the same pool of atudents, using advertising with the same appeal - opportunity.
"I always had a thing for the Army." asid College, whose father was in the Marines. "It's a job for one thing and as short-term thing. it's a good investment.'
Neither the cadete nor the conmmisaioned officers (cadre) who oversee training expect any ROTC cadet to wield anything heavier than a pencil once he graduatea andis commiseioned a' recond lieutenant,
Rather than buind the cadote into fighting machines, Lhe Col. Lylo IE. Jerrett, who directe

SU's Army ROTC program, "The cadet's main purpose in life is a good GPA."
Capt. Sheldon C. Wintermute, who advises juniors in Army ROTC, said after graduation cadets are placed in the pool of non-fighting personnel, who make up a large proportion of the Annnel's enlisted population. A newly commissioned graduate is likely to enter a job missioned graduate
related to his major.
Despite the probability that none of them will see action. Army ROTC cadets must learn the rudiments of battle and how to adapt to stressful situations. This training is provided by placing cadets in "an atmosphere where people are willing to push themselves to exremes," Wintermute said
So, occasionally cadets find thernselves awake before the birda, bouncing in the back of a damp, dark deuce-and-a-half (army alang for a truck) headed for day-long exercises Iike the one \(n\) Mattydale.
They crawl through mind, across ropes, through tires, under fake barbed wire and up
and over an inverted ladder. They smear and over an inverted ladder. They smear themselves with camouflage, tose dummy crenades, shoot each other with M-16 rifles loaded with blanks and, most of all, they hustle.
That day's exercises were coordinated by the seniors, who are given as much leadership res. ponsibility as possible before their commission. Other exercises include, rappelling, selfdefense, survival training and a helicopter night.
do things that hopefully will keep them in the pro
Since 1973. Army ROTC has been experiencing a subtle, steady increase in its enrollment that had slumped sharply since its high point in the early '60s.
The increase could be a reaction to the programn's refurbished approach, which contrasts Army ROTC's approch in the ' 50 and '60s.
Jerrett was a student at SU duxing the '50s when atudents had to choose either physical education or fOTC to fulfill the requiremente
report which cited four
problems with the judicial problems
Ongtern.
One problem noted was that there is no formal coordination of the activities of the (10) different courts or committees," the committee wrote. This may cause problems deciding which groups have jurisdiction over a particular case, the committee added.
Another drawback cited was the present arrangements are so redundant that they allow people to shop for the sort of justice that they prefer the
most," the committee wrote.
Lastly, the committee questioned the legitimacy of many of the judicial boards, becauge they had not been approved by the Senate or the board of trustees.

The ad hoc committee will review University Judicial Board (UJB) and the Reaidence Hall Judicial Board (RHJB). UJB handles nonacadernic cases in which undergraduates allegedly have broken the rules of the university RHJB handles

\section*{Students can find friend in SU office}

\section*{By Maria Ricardi}

She looks directly into one's eyes as ifshe is totally familiar with the mind behind them. Her words are clear and precise and it is difficult not to become captivated by her slight southern accent. When she smiles, it is a warm, honest expression that could make anyone instantly comfortable.

Elizabeth Brown, director of the Parents Office, sits in the small, extremely organized room in the basement of the Administration Building. The Administration Building. The on much of her colorful peron much of her colorful per-
sonality. Posters such as sonality. Posters, such as "Welcome Friend" and "A single rose can be a garden"
line the walls. People walk in and out to say hello or drink \(s\) cup of hot chocolate.
"I'm afraid I'm not what people expect:" she says. "They think I'm a motherly type with white hair and anapron. I'm not here to be a mother

I'm here to be a friend."
Erown is indeed a friend to those who have personal problems, financial worries or who are just lonely. In many cases, she can cut through the red tape that frequently frustrates students.
"Very often the student just
doesn't know the right people oo see. With a litile direction, many matters can be solved quicker than you think."
Brown believes loneliness and isolation are the biggest

\section*{SU students} to receive phone books

University directories ar rived yesterday from the printer and will be distributed this week.

Students living in dormitories will receive one copy for each room from their resident advisers or main offices.
South Campus residents can pick their phone books up at the Carriage House from 8:30 a.m. to 4:45 p.m.with the presentation of a valid Syracuse University ID.
Off-campus residents thould go to the Offi second floor of the Skytop Office Building, to obtain directories.

 Emuntirition. (Plroto by Citery Ellinon).

\section*{Four courses to satisfy the \\ appetite}

Thantwgiving is just anownd the corneriand. it. brings up the same problem I have every time: I home. 1'll spend seven hours on the ford, dodging brutal trafic jame and rampaging tractor traileris, only to meet my mother at the front door and be verbally abused. And there is no way to get aronthd her. Don't you you look terrible .. what's happened to you? Don't you eat up there? Did you come down with a

\section*{Don Salkaln}
disease? You didn't tell me you were sick." By that tixne my father has joined her at the door.
"Hamy, doesn't he look skinny? And look at those eyes. ". She peers into my face. "He's got bags under his eyes!"

My fathey quickly changex the subject by anying something like: "Cree, Don, welcome home, it's good to see you." And so on.

But the problem doean't die at the door. On the contrary, it only moves onto the kitchen table. Humongous meals appear regularly on my plate. Wheat germ cereal with sliced oranges for breakfast and marinated beef bones in vegetable broth with side plate of animon anlad on Branola Bread forlunch are some of her favorite meals. Dinner can be left to one's imagination.
And, of coarse, my problem moves right on inta the bathroom. My system, which is used to hot dogs. Burger King hamburgers and french fries, is unable to cope with this onslaught of health foods, and predictably spills forth.

\section*{What I need is bidding power.}

If I could come home and look in reasonable health I would be able to have the foods of my choice. I would be able to argue that my eating habits call for bleached whitebread and Cheerios and couldalways rely on my healthy and plump appearance as proof. So, i have analyzed my eating problem here at Syracuse and have come to a conclusion. I rarely eat breakfast or lunch. I'm always late for moming classes, which rules uut breakfast, and there is never anything appetizing enough in the fridge to make

Wallimg home for Iunch worth he bother, thare mand be mome validity in thesaying "you are what you eat,"
for a memester of smacking on anthropology twice a for a semester of smaching on anthropology twing
week has left me nothing but floin and bonein.

Week has left me nothing bat
What I need is incentive.
I propone a program in eating to be introduced here at Syracuse University. Clasies would be hald at lunch-time five days a week and courses would vary according to the eating habrits of the studenta. The program would require one dietician to talke care of the menu, and a few TAs to talie cane of the classes. Enrollment in auch program would be no problems: a few before and after pictures of students on the food service meal plan sent home prior to registration would get the most child-hating parents to fiplurge on tuition and meal fees.

Grading of these courses wouldn't impose a problem either. Simple weigh-ins on the first day of classes, followed by weigh-ins prior to each vacation, should provide enough unconteated data to satiafy the most wishy-washy of grade givera.

This is basically what the eating program would look like taking different eating habits into account:

\section*{EAT 101}

This three-credit course is based on maintaining the same. weight throughout the sermester. Eating material includes auch elassics as peanut butter anc jelly, grilled cheese and tomato, and cookies and milk. Grading would be based on the fluctuation of the original weight and weigh-in reaults at the ead of the
aumenter, A whelhanged, B: difienvice of 2 lbs. C
difference of 4 lba., etc.
Lab fee: \$10 for paper plates, plastic utensils and maplinis:
FAT 201

AT 201
Primary croal of thim courbe ia to grain weight. Class meets with FAAT IO1 and shaues same eating material in addition to other classics, such as cracicers and cheese, ice cream sodias and chocolate-biownies. Grades wowld te based on progress in gaining weight A: 101 br .gained, \(B\) : 9 lbe., \(C: 8\) geining (Anything over 10 ibs. would entitie bindenta to extra credit.)

Lab fee: \(\$ 10\) for paper plates, plastic utenails and naplins.

\section*{GUTE 315}

Rrimary goal of this course is to loge weright. A popular course because it is in the studenta" best interest to akip claspres. Eating material is a slice of bread and a cup of water. Grades bsaed on progress in losing weight. A: 10 lbs., B: 9 lbs., C: 8 ibs., tic. Lab fee: \(\$ 2\) for paper cups.

\section*{PIG 680}

This courae is on the graduate level, dealing strictly in obesity. It has a prerequisite of FAT 201. Selected courte material includes anch greatsas spachetti and meatballs and pizar with the works. Out-of-class pip seasions at local snack bars and out-of-ciass reaearch in such areas as bakery kitchens and pasta cookeries are required. Grading varies depending on number of creaits tiaken.
Lab fee: \(\$ 200\) for paper plates, plastic utensils, nap-

One of the main drawbacks to the eating program is that it would promote those all too familiar all nighters that we have enough of already. People in nighters that we have enough of aiready. People the gaining weight classes would have pigging out all-mginters: peopie in the homg weight ciniss wound have running arouxd the block allinighters. Eut the advantages of this program would be worth it. The courses have a built in handicap system under Which every student is graded individually. And begides that, it would be a rare class with no teacher's
pet: any student bringing a professor an apple would

Open your heart

To the editor,
As you know, Ernie Wood, an SU As you know, Ernie Wood, an SU
student and member of the SU student and member of the SU soccer team, took hisife hast inurs-
day night. I am still shocked and day night. I am still shocked and
heartbroken upon the loss of such a heartbroken upon the loss of such a
warm, wellifked, competitive inwarm, well-liked,
dividual and friend.

The first thing I did after being informed of the news was pray. I prayed wishing Emie a reatful hereafter, and prayed that all of his friends remember his com panionship which enriched and made impressions on all of our lives Friends on the soccer team will remember his devotion to the team and sport, while outside of sport he
was a kind, considerate, dedicated ndividual.
So many of us forget that we have the ability to love and understand one another. Great numbers of us are too concemed with ourselves and forget that we are capable of
helpinf others in times of dispair. It helpins others in times of dispair. It
takes so little to talk to someone who tiakes solittle to talk io someone who
is troubled hut it means so much. s troubled but it means so much.
Ernie's decision was undoubtedly a shock to everyone who knew this beautiful person. For us whom he left behind, I hope we may all open our hearts and let someone ingide.
love your friends and in times of love your friends and in times of need go to them, and likewise, they will come to you.

John Springer

\section*{Inspiration, not intimidation}

To the editor,
Basketball season is approaching and, with it, the now almost annual question: what will the SU adminiztration do to deter the "Manley Zoo?" Will the student gection be moved agrain? Will Athletic Director Lef Dye sell all of the seats to the public and not allow students into he games at all? Who can say?

I am a member of the "Zoo" and
have been since the fivesome dubbed "Roy's Runts" played under the dome. Back then the "Zoo" was but a handful of rowdy fansseated behind the recently moved weat-end basket. We sought to inspire the small crowds and equally emall team. We were explicit when illustrating to the referees what we thought of the of-
ficiating. We had fun. ficiating. We had fun.
In recent yeara the tearn has
grown to be recognized as a national power. The "Zoo" has grown in size and is also recognized by television viewers from coast to const. The range of activities of the "Zo0", has grown too. Opposing coaches are shouted down and pelted with various projectiles every time they attempt to instruct their teams from the bench. Opposing playerg are harassed during play, most notably when shooting free throws. Ice is thrown at the referees and onto the court. Visiting fans are intimidated and have been beaten on occasion. This violetrt behavior is res-

\section*{Character assassination}

\section*{To the Editor,}

In our opinion the recent DO articles and editorials concerming Rich Crowell, as well as the editorial appearing in the recent Report, constitute perhaps the worst case of character assassination that we have witnessed since enrolling at su.

In our own contacts with Mr. Crowell, he has shown himelf to be a competent executive who is
ponsible, in part, for the inability of the university to attract big-time teams to play under the dome. No top team needs to play in such an atmosphere as exists in Manley. Better opponents would mean more. exciting games and better exposure. for the team. Hence, the administration attempts every meason to "close the Zoo."
inhis year's edition of the Orange basketball team looks to be an even better, more mature one than last year's. I hope that the same can be said of the Orange basketball fans.

\section*{Letter to the evaluator}

The team of Middle States evaluators who have been visiting the university since Monday conclude their taskes today, but before they begin their final yeports we have a few thinge we would like to nay: Dear Panel

We know you aren't going to revoke the university's accreditation. Syracuae University is probably stronger now than when last evaluated five years ago. Still, this doesn't mean there aren't complaints to be made and things to be changed to improve student life at the university

Food Service: The university is not nearly flexible enough with its Food Service policies. Students should be able to select any of the meal plans the university offers.

Freshmen are not allowed to purchase either of the punch-card meal plans, which are the least expensive plans available. Students who are for punches they haven't used. Basically, this means paying for meals you haven't eaten.

Housing: The university's housing policy is too strict. Syracuse University students should have the right to live wherever they desire This would ease the overcrowded conditions which prevail in dorms year after year. It would also allow students to save money on less expensive off-campus housing arrangements. The university argues that students benefit from living in dorms. This may be true, but they are less likely to benefit if they are forced into thesituation. The real benefit the university is talling about comes from revenues guaranteed from freshmen and sophomores who are forced to live in university housing.

Bookstore: The university bookstore charges ridiculonsly high prices and then screams poverty at the end of every year. Markups on some iterns are as high as 50 percent above retail prices. The bookstore aupfrom the fact the bookstore pays \(\$ 312,000\) for "general administrative ser vices." These services do not include Physical Plantlabor, janitorial work or security. The general administrative services fee is arbitrarily set and mpossible to keep track of. The bookstore should be incorporated as a non-profit organization so it may continue to serve students' needs without making students pay what is bagically a disguised tuition.
Tuition: Speaking of tuition, the entire process is rather well disguised. Students know they are going to get hit with an increase every year, they just don't know how hard. The budgeting process is extremely secretive. There exists a University Senate Budget Committee with two student members; however, by the time the budget reaches the senate there is not much that can be done. One part-time committee can't do an adequate job of reviewing a budget of almost \(\$ 100\) million. Students should be involved in the budgeting process from the lowest levels all the way to the top. Students should be seated on departmental committees in all the colleges. Students should also have a hand in the developrnent of the Food Service budget, the Office of Residential Life budget and the budget of every other organization, be it service-oriented or academic
Committee System: This leads to another problem. What little in fluence students have in decision-making at Syracuse University is exer cised in committees. Our complaint is not with the committees themselves but with the student representation ratio. Students seldom make up even one-quarter of moat University Senate or college-based committees. The idea of a student chairman is almost unheard of and student members are often relegated to menial tasks. The representation is often only a token gesture and even an informed student's effect is nullified by the sheex numbers of faculty members and administrators. Students should form at least one-third of every committee in Syracuse University, be it a tenure committee or a University Senate budget committee, to have an effective role in SU decision-making.
Tenure and Promotions: One area in which the university conspires against student influence is the tenure and promotion process.

There is no universitywide method for teacher evaluation and many departments do an inadequate job of evaluating performances. As a result, a faculty member's research is counted more heavily than his teaching because there is no attempt to find out what a wide number of students think about a teacher. The university further hinders this process by not demanding that the list of faculty members up for tenure and promotions be made public to facilitate students commenting on their performances.

Use of teaching assistants: Approximately 35 percent of undergraduate courses at Syracuse University are taught by graduate teaching assistants. There is no method for evaluating these TAs' performances and often there is a lack of aupervision by experienced faculty members. There are many good teaching assistants; however, there are many who have no business being in a classroom. The university should develop a method for screening teaching assistants

University Union building: Another area in which the university has shown a reluctance to spend money is on the construction of a University Union Building. Syracuse is one of few major universities lacking a major student center. The absence of such a facility prevents the campus from developing any sense of community. The university always excuses the absence of a union building with the explanation that there has been no major donor. The anower simply displays a lack of comamitment to the construction of the building. If the university demed the construction important enough or if students applied sufficient pressure, SU could take out a long-term loan to pay off the construction of the building.

Academic calendar: Several complaints have arisen this year over SU's academic calendar. We feel it is time the calendar was reviewed to make it more attuned to students' needs. A lengthy reading period around final examinations, mandatory orientation for freshmen and resstudent support.

Sincerely,
Jim Naughton for The Daily Orange

\section*{Bowie mixes many styles on "hodge-podge' release}

\section*{By Rruce Pilato}

There is no such thing as a good David Bowie album, just as there is no such thing as a bad David Bowie album. Oh sure, some are more commercial than others, certain ones contain better production, and there are those that are even there are those that are even more exciting than the rest. But when it comes to the music and the performance, all of hem are equal.
Each record that Bowie puts out is so different than the others that you cannot justly compare them. That is also why many people either like hirn or hate hirn. Few are in between. But whatever the case, most admit that he is an artist all his own.
Heroes (RCA) marks the return of the thin white duke, and yet another phase in his ever-changing career Although "Heroes" is again something totally differen than his previous works, it can be paralelled to some degree with his last LP, Low.
Once again, the firat side is made up of vocal rock tunes, with the second side being symthesized instrumentals. All the usual musicians are back: Carlos Alamor (guitar). Dennis Davis (drums), George Murray (bass), and Brian Eno Murray (bass), and Brian eno
from Roxy Muic on from Roxhesizers and keyborrds. synthespers and keyboards. Added for this dise is ex-King
Crimson guitarist, Robert Crimson guitarist, Robert Fripp, whose guitar work
plays a vital role in the sound of this record.
"Heroes" is probably the largest hodge-podge of yonge he's everireleased. Each track is different, separate, from the next. Yet, as with all the Bowie albums in general, it all blends. Bowie, like the Beaties, is an artist who is capable of presenting several different styles of music on one record without losing continuity.
The new album follows in the same vein as "Low" and the two recent Bowie/Iggy Pop

Vocalized rock tunes and synthealized inctrumentale are the major features of David Bowie"s new album. "Heroes."

LPA (The Idiot and Lust For Life). It is rock and roll for the next century. Possibly. the music here is even posthuman.
This is a mathematical record. The melodies are ptructufed almost as if they were created through some geomet. ric formula. Much of this is due to the masterful work of Eno, a pioneer explorer in the field of electronic music. The end result for Heroes is music that is cold and computerized, but never threatening. It is a record that is quantative, but at the same time flowing.
"Hercies" is the farthert. ing he's done from the days of ing he a done from hie days of durt There are not plessant melody lines are as melody lines, , in Chanpes. There are no stranght forward rockers such as Suffergette City" The disco is gone, as is any trace of the "acoustic" Bowie that premiered with "Space Oddity.

What remains is pure rhythm, spliced here and there with electronics. Much of "Heroes'" mesaage is punk and rebellous, but the sound is so technically futuriatic that it cannot be placed in that
catagory. "Heroes" is something all by itself. At times the lyrics are difficult to understand and the same can be said for some of the music. On "Heroes." Bowie is simply doing what he does best progreasing. Although this time he's probably hit a leve that the masses won undarstand, let alone acrept. But Bowie is too smart to reduce his massive following to a small cult. He's never stayed attached to any one style of music; as soon as something becomes popular, he's out of it.
The man is traiy an in novator. He's always hip to a novator. Hes always hip style or trend before it becomes style or trend before it becomes
one. Once glitter was big. he one. Once glitter was big, he moved to disco. As soon as that caught on, he was producing space music, and so on. He's a master at leading the way, and for this reason, hell always stay on top of his carcer.
"Heroes" shows a change from past Bowie efforts, in the fact that the emphasis is now on the music and the studio sound, rather than the lyrics. Working again with producer Tony Visconti. the two have created a sound for "Heroes" is awesome.

\section*{* ROTC benefits}

\section*{Complinuma wow yigo emp}
for graduation.
"I do remember for one semester talking aport a rifte and putting it back torether. which today would be considered quite dumb," Jerret said. Now, atudent are more academically involved.
"I probably wasn't perceptive enough to really know how things ran. I went to elase; I did all the things I was told to do. I don't remember being turned on to it." he aadid. He gaid the Army's createst attraction to him was the people.

Michael Johnson, a seniorin the State Umiversity of New the State Uniwersity of New York College of and Vironmental Science and
Forestry, anid that today, Forestry, aaid that today, get into FOTPC. It'a a litule more het mintorionc. It a alinic now: youre learming a lot of constractive thinge."

Along with a new approach to training. ROIC's bencfits are appealing to some students. After completion of the freshman and sophomore years in Army ROTC's formyear program, cadets receive a year program, cadets receive a non-taxable monthly allowance of \(\$ 100\) during the achool year. For cadets on cholarghip, the allowance
begins in their freahman year:
Students having exceptional SAT Bcores and cradea, and who have good demeanor, are qualified for scholarghipe that pay tuition, conarae fees books and suppliea, health and activity fees, nccording to Wintermute.
Army ROTC has spent ap proximately \(\$ 56,878\) on ocholarshipis this year at SU Wintermute anid.

Army and Air Force ROTC which offer similar benefite, currently have 229 people in the program, including 90 on scholarahip.

Sugan Galib, an SU eenior said she just "atumbled acsaid she itust aturenbled ac-
ross* Army ROIC and got inrose* Army ROIC and got in-
volved ouf of curionity. When volved out of curionity. When her iunior year came, ahe had
to decide whether bhe would to decide whether nhe wowld gign the commitment binding her to fulfill
obligations.

She had three choices.
- three to six monthis in active duty and serve six yearsin the reserve or National Guard.
- Herve three yefire of active duty and two years with the reserve or National Guard ;
- apend four years in active duty. (Students on echolarship duky. Scuacincs on scholaxyh are obigaced to bpend fou years in active daty-)
mitted to have been coln maitted to anything and I waw our
(the oldiggation) "t abe said.
She eventaally simened an tract committing hernelf to three years active dity and said whe hoped to be thationed in Gernamy in the Signal Corps.
*I sand what the heck. I figured I had nothing to lose and a lot to gain."
"Originally, I was jwit walling across the Quad and I noticed that they (Army ROTC cadets) were rappelling off the Physics Buildiag." said Tim Brady, also a benior in Army RORC.
"I really don"t know why I joined at the time. Then I started looking at it from a job started looking at it from a job
ntandpoint. I thought it would be a good job experience," he berad.

Brady. who is on scholar ship this year, asid he doesn't ship thi year, mand he doesi
aee the Army as a career but as ade the Army as a career but as
a way to travel and gain ena way to travel and cain en-
perience in his major, civil engineering.
However. pompe cadeta say that ROTC requires too much time and that the pay focale and experience in the Army are not equal to those in a civilian buminess.
"I gueas mome people axe not all that thrilled about the Axmy:" Brady said.

He explained that be did not make a commitment to the Army blindly. Wi have corree ponded with old friends (in ROTC), saw the quarters, dis cusaed pay and allowances," Brady maid.
"It's difficult to put my finger on, but the Arroy is like a business in many rempects. a business in many reapects. The Army is notjugt marching Wintermute anid, "We're jus onother deperaid, we re jus another department (on catnpas). ROICC, as a recognized academic deparkment. prepares people for careers as doen any other department, he added.
"We"re putting a pool of people in bociety who have a good idea of what the armed forces are all about. Whether or not they so into active duty is immaterial," Wintermute maid.

break

\section*{Marine Midland to offer 24-hour banking service}

Marine Midland Bank will offer a 24 hour banking service to its customers after Jam. 1; according to Sue Goodfellow, aseistant manager of the East Adams Street branch.

Everyone with a checking or asvings account will receive a cash card and code number in the mail, she said. With a cash card, students will be able to make deposits or withdrawals any time of the day or night.
The service is based on a totally automated system; no teller is needed to make transactions. The customer punches his code number into the sybtem and the machine transacts the business.
Marine Midland now has limited 24-hour service, available to holders of a Master Charge
card. However, after the system is expanded, it will be available to all customers. "Itisa service for our eustomers," Goodfellow said.
The South Crouse Avenue branch of Lincoln First Bank is also planning to offer customers an automated 24 hour banking service. The service will start sometime during the first quarter of 1978, zaid John McNeil, director of marketing for the bank.
McNeil said competition between Marine Midland and the Lincoln First Bank did not inhuence the decision to install the automated banking service. With only two banks to service a campus this size, he said, "no office can seek new business."

\section*{Prof to offer speech on God}

Gabriel Vahanian, a Syracuse University professor f religion, will apeak on "The Experience of God,"Nov. 18 at 3 p.m. in Lawringon Penhouse.
Vahanian is the Euthor of "The Death of God: The Culture of the Post-Christian Era.
The speech is the second in a series of faculty colloquia sponsored by the religion department.

Myths suriounding the crime of rape，its prosecution． the Women＇s Studies com－ preventative meagires and mittee was held to make self－defense ideas were dis women aware of ways to cubsed at a rape prevention protect themselves if attacked workshop Monday night at and places to seek help after a
ràpe．
Emily Anderson．Evelyn Mazack and Janet Zaleon， undergraduate members of the Women＇s Studies steering com－ mittee，each discussed sn area of concern．Twelve women
related their experiences－in dealing with potential rape situations．
Myths abont rape，such as． the woman＂askes．for it，＂and any woman who resicts the as－ saalt is killed；and a woman never knows her assailant， were explained by Anderson．
The last myth is perpetuated by women who are afraid to ad－ mit they did know the rapist Mazack said．
Statistics show that 80 percent of all rapists are known by their victixos and 60 to 70 percent of all rapes are premeditated，Anderson said． Although a rape occiurs every 14 minutes nationwide，only one in 10 rapes are reported to the police and only 3 percent of the rapists caught are con－ victed，she asid．
The reason for this low con－ viction rate is that＂rape is very hard to prove．，youneed physical evidence like brises and bumps or it is just your word against his．＂Mazack said．Although corroboration of a witness is no longer re quired in New Yoric，and although a woman＇s previous sexual experience is not ad－ missible evidence in court． documented evidence of penet－ ration and physical force is still required．

The laws have been written from a male＂perspective，＂ identify with the feeliogs canno victim．＂

Zaleon listed several measures women can take to protect themselves at home：
down．
－Never let in a megnirinan or police officer without seeing proper identification．
－Never let anyone know you are alone，since 50 percent of all rapes occur in the victim＇s home．
Zaleon cantioned women who must walk alone at night to walk in the inght，away from buildings，She advised women to know where yourare coing and walk briskly and quickly ．．let bomeone know twhen you should be expected at your destination．＂
Varying your daily routine is alno a way to deter the premediatation of mape，abe said

Women were advised by Zaleon to carry spray irritant such as vinegar and amonia rather than a dangerous and illegal weapon like a swit chblade or mace，which could be＂turned against you：She recommended a self－defense course，Korean karate for ex－ ample，to learn to be able to fight effectively．

Different situations require different measures in dealing with a rapist，Mazack said while screaming＂fire＂in a populated area might be helpful．

If raped，a woman should call the Rape Crisis center at 422－RAPE．＂Volunteers will go through the whole reporting process with you＊＂Anderson said．＂Sometimes，the inter views and gynecological exam is worse then the rape itgelf，＂ remarked Marack．

\section*{Ramones LP bursts with energy}

\section*{By Martia Rose}

When Danny Fields, manager of the Ramones, was first urged by them to come down to C8GB's to catch their get, he wamn't quite sure what they did. "And the name . . . 1 thought they were a cha-cha band or something," he remarked.
Johnny Joey, Tommy and Dee Dee Ramone acon set him skraight After all no chocha bandunder the gun does a song called "Cretin Hop" the first called the Pam Rocket to Russia.
Getting
Getting. a full-fledged manager and becoming more populardidn't seem to spoil the Ramones' raw talents. "Rocket to Russia" burste forth with the same violent energy as their first two albums. "Teenage Lobotomy" proves tre be a sequel to "Shock Treatment" from their second album: Now I guess ITl have to tell em/That I got. no cerebellum/Gonna get my Ph. \(D / T^{\prime} m\) a teenage lobotomy.
Fed up with middle class hypocrisy, this fournome from Foreat Fithe, N.Y., portrays family life as they see fit on "We're a Happy Family." A family is Sitting here in Queens/Eating refried beans one minute, and "Gulping down thorazines" in the next.
The Ramones, who are not related, are all in their mid 20's. Because of similarity in sge, the Beach Boys are a ma jor influence in the Ramones music. This is evident on "Roc kaway Beach:" a jovial song about hitching a ride to the shore, hind "Sheena is a Punk Rocker," a lively rock n' roller that's imposgible to sit stil through.
Critics of the Ramones insis the band has knowledge of only three chords and the lyxics are juvenile, inane and genseless. They fail to realize aengeless. They fail to realize simplicity. Simplicity by simplicity. Simplicity by definition, is the absence o preteritiousness. Such is the case with the simple, but dynamic statement ringing through on "I Don't Care," the fatalistic motto of the punk world.

Two revived oldiem managed to find their way onto this album. The Fanones do an ex; cellent rendition of "Surfin" Bird," done by the Trashmen in 1964. The song brings back fond, decadent memories since excerpts of the song appeared in "Pink Flamingoes" an underground fim of the \(1960^{\prime} \mathrm{s}\) However, "Do you Wanns Dance?'' doesn't quite make the grade, punkwise. This zong has been kicked around by ao many bands, that it is difficult to inject any originality into it at all. Let sleeping dogs lie.

\section*{Gymnasts pummel ESS}

By Linda Christensen
The Syracuse University Men's Gyrnnastic cam came home with a victory over East Stroudsburg State College Monday night in the eason's opener by a score of 178.45 to 174.55 .
Highlighting the moet were performances by hird year student Richard Roberts and transfer all-around man Micky Kieffer, taking first and second places respectively with an 8.25 and an 8.0 in the floor exercises.

Coach Paul Romeo was especially pleased with the outstanding effort by the pomme horse team which took the first four places.
"Winning the pommel horse event was the turning point of the meet" Romeo said. "We were able to secure a lead of nine points and this was sufficient enough to win over East Stroudsburg.
The top two finishers for this event were sophomore Barry Gropper with an 8.55 and freshman Ed Saunders with an 8.5 .
SU was weak in the still rings event due to the absence of Ron Tibett. A freshman all-around performer. Tibett suffered a back injury in the first event, which forced him out of the competition.

After three events, the funning ecove was 90.15 to 83.40 in SU' a favor. A strong performance by the Stroudsburg vaulting team decreased Syracuse's lead to five, but Etill Gtrong were Robert

Coming to the close of the meet, Kieffer agair came through for SU, taking first on the high bar and Orange freshman Lenny Messaro won the parallel bars competition.
"Although the acores of theSU team were not impressively high, there's no doubt in my mind that we have a very good gymnastics team in the making here," Romeo said. "As the season progreases, the gymnasts will be more conditioned and will perform to their potentialities.

He aloo expressed confidence in firat year competitors Steve Chilinski - an outstanding central New York scholastic gymnast, Messaro. Bob Hauser, and Ed Saunders - the New Jersey atate champion on the pommel horse.
The SU squad performs against Cortland State Nov. 30, and in their first league meet of the season against Navy on Dec. 3 , both in Arthe season ag.

The SU Orangewornen were oft and diving over the weelkend as ix women's swim team members set meat recorde in the New York State AlAW flelays. (Photo by Joan Wart.)

\section*{SU enjoys carnival}

By Katie Fritz
The Syracuse University women's awim team got its season off to a slick start this weekend at Cortland State's 12th Annual New York State AIAW Relay Carnival, winning six of seven swimming relays.
Although no team score was kept, the Orangewomen dominated the meet by setting six meet records and qualifying for nationala in the 200 -yard medley relay. The women were dis qualified from first place in the seventh swimming relay, and failed to finish in the top six in either diving event.

The team of Liz Vilbert, Wendy Evang, Robin Butlex and Patsy Klotz won the 200-yard medley relay with a time ( \(1: 53.078\) ) nearly half a second faster than the national standard.
Meanwhile, the expected tough competition from rival Colgate never materialized, with the Big Red managing only three second-place finiahes and two thirds in the meet.
Colgate's big hopes rested on the 200 yard crescendo breaststroke relay, led by All-American-Donna Carter, but SU's record-Betting team of Ellie Boluch, Evans and Klotz were never pressured.
Syracuse's major disappointrnent came when the team of Kouz and Evans was disqualified from the 200 -yard individual mediey relay, preventing an orange sweep of the swimming the SU team Lrence was awarded first place in the event when breaststroke rather than the approved whip kick.

The Orangewomen will get a chance to avenge that lone defeat when their dual meet aeason opens December 1 away against St. Lawrence.

\section*{Conditions \\ By Grex Luckenbaugh}

If you go to Lake Onondaga
some blustery day in March, some blustery day in March, you will see them. If you go to an obscure place known as the Crew Room in Archbold Gymnasiun, you will bee
them. You will view agroup of them. You will view a group of men who are straining and sweating to the limit of their endurance. This group of young men is the SU Crew Team.
In the spring of 1977, Syracuse finished 7th in the nation in the International Rowing Association rankings. Tomost, that would seem likea successful season but Bill Sanford, head coach of the oarsman, looks at it in a different way.
"We should have won." Sanford said. "We had beaten Cornell, the team that won it, during the season. This spring, that's not going to happen. We're going to be so good that we can win no matter what happens.
"Next apring we think we can go to the number one position. With intense training and a limited number of injuries we should do it," Sarford said.
It's easy to see how Sanford can have such a positive at titude For one, we have great depth this year. We have last year's the national cham won the national chama pionships, along with a good unior crew," Sanford said.
We also have a number of returning veterans. We have Tom Evancie, last year's number six man and this year's captain. Several others are Bill Purdy, Dave Townsley, Bill Reid, John Mogish, Jr.," he continued Mogish, Jr." he continued.
The main reason for Sarford's enthusiasm has to be this fall's informal season. "In a race in Ottawa, we set a course recond by 30 seconds We beat out 14 other crews. To cap it off, Queen Elizabeth put the medals around the boy's necks. It was really a thrill!" Sanford said.
As one can see, this apring should be a successful one for the SU crew team. However one must ask why a group of young men would spend 10 months out of the year prac ticing for a handful of races? Why should these men mpend spring vacation in house in Syracuee? Why do they work like slaves when most of the university' students are getting stoned or druak?
"It takes a different hreed op cat to be an oarmman ewa-

 over East Shroudeburn State. (Photo by inde Chrigterian) over Esat Shroudeburg State. (Photo try tindin Chriateman.)
mitted Sanford. "The dig oarsmen"" Sanford said.
cipline involved is phenomenal. It is certainly a tremendous input for six races in the spring.
"I suppose it's kind of like tripping out," Sanford eaid. "Thesse young men push themselves to their limits. They drive themaelves until they can go no further. Then they rest for a few minutes, recover, and drive themselves again. I guess you could say they get a masochistic sense of satisfaction out of it.

In 1967 Syracuse was one of the weakeat tearms in the coun try. Now, in 10 short years, it has risen to national prominence. Sanford attributes this ascension to three things.

For one, there was the advent of four-year scholar ships in SU. With these scholarships, it became possible to get the rood high school oarsmen. In the past only the elite Ivy Teague schools conld get these
"Due to these good high school nowers, we bave had four tremendous freahmen crews in a row. As a result. each year we have more depth and can afiord injuries," he continued.
"Another big boost has been the Syracuse Charger the Syracuse Charér this program, some of the sy ohis program, some of the oarsmen the fundamentals of nowing At ine same time, the athletes At the same time, the athlete get to compete in races and atay in, shape over the summer.'

Whatever the reason, the Syracuse Univergity Crew Team is prominent nationally in the sport of rowing. And for whatever their reasons, the oarsmen are a dedicated group of athletes. Although the of average hwman being woxild regard rowing as a waste of energy, these men regard it as a way of life, at least for their four years at Syracuse.

 Jinn Peetmon.)

Accredition group ends evaluation of SU

The Middi By Mingrank Macolb
The Middie Statca Association of Colleges and Schools yegterday completed it intemaive, fomaday reeveluation of its acereditation of Syracuse Univergity.

The evaluating team presented an oral report to Chancellor Melvin. A. Eqgers and John J. Prucha, vice chancellor for academic affairs, explaining what the written rewiew of the university will inciude. The Written report will be issned sometime next month. and will be available to students, members of the faculty and administration.

SU's original accreditation was siven in 1921. An institution's accreditation is re-avaluated at Eiveyear, and then ten-year, intervals. SU's lagt review was in 1967.

The 14 -member evaluating team spoke with about 180 people. From the SU commomity, including fäculty, admimistrators and students. The people who spolke with the evaluating team were chosen by the Nidile Statea Arsociation. The selection "was in no way mamaned by the adminiatration," acoording to Richard Biork, chaimman of the evalrating team.
"All interiviews were arranged at our request." Bjork explained. *We presentred a ligt of who we ranted to mee."

Some interviews with students were planned, much smeetinge with graduate gtadenta, a representative to the boardi- of trustera or a resident adviser. The team alao spoke with students "caught at random" and made unannounced visits to students in their comms.
Bjork said he felt the people with whom the evaluating team spoke were candid. He called this "ta healthy condition' which he felt suggests they're proud of the university.
"Even for a fair-gized university, the sense of community is strong, said Bjork.

The evaluators heard complaints ranging from the lack of a stadent anion to problems of excessive red tape and a desire for more involvement in decision making.
"Wfe didn't come acnoss many upaer, angry students." There wat more criticism from the faculty than from etudents, Bjork said.

Bjork cited the accessibility of the administration as one of the most notable features of the university. "Students speak highly of Egeers' acceasibility," he said.
"Manageraent style and accesgibility are not characterintic of higher education." In this reppect Characterimke of higher education- in thim rempect
Bjoris said he feels that \(S U\) *nay be a litile ahead of
its time."
SU is realistic - Bjork said, it knows ageressive recruitment must continue and the school "had better e attractive.
In its evaluation, Bjork said, the team looks for a clear sense of goals on the part of the inatitution, and a realistic strategy for resching that goa'. "We don't tell people that they have the wrong goal, butobserve Whether we think the plan may not work well," gaid Bjork.
They also question whether or not the institution has a prospect of having the resources to carry out its plans. "Syracuse has made it clear that the amount of change is not vexy great. They plan slow, modest development and improvement of academic programs," Bjork said.
In assesaing the evalanting team's general impression of SU, Bjork said, "It has been overwhelmingly positive." The Midile States Asoverwheimingiy positive. Ine Midale States Associstion win give specric.
written reports, Gjork said.
The report of the Middle States evaluating team is helpful to the univeraity because it provides a different point of view of the university, he spid. "We begin to share with the univeraity our profesaional judgment as outsiders with a different perspective."

\section*{Problems may delay UU elections}

\section*{Saltine}

The Saltine Warrior，traditional symbol of Orange pride at Syracuse University，is under attack as a＂racist symbol．＂While it is defended as a proud，and therefore not degrading． bymbol by same，it has been criticized
by native American students and non－

David Abernethy

Indians as well who are campaigning to have it discarded．It is mot merely a controversial question－it＇s a puzzling one as well．

An organized group of native American students on campus have conderaned the warrior as degrading to American Indians and therefore racist． Such a claim，coming from those whose race the warrior at least nominally reflects，carries considerable authority
accepting a cry of＂raciam＂from any group without some critical assessment．The problem－assessing the validity of such a claim－is a very real one，since the queation tends to become emotional and therefore not susceptible to rational discuseion．

In my view the warrior is racist in a very real and important sense－it presenta an exaggerated caricature，\(a\) stereotype of an Indian which，by its very identity as a＂symbol，＂imparts its characteristics to all American Indians without regard to whether the stereo－
type applies．It suggests that In－ type applies．It suggests that In－
diana are all by natury aggreasive， violent，uncontrolled and somewhat boorish．All thebe characteristics can fairly be imparted to our Saltine War－ rior，and since that warrior is an＂In－ dian＂and also a eymbol，it stereotypes． however subtly，the entire race．As auch it is unfair and racist．

One mant note，to be fair，the war－
rior is in an important senme not racist It is not racint in that（I don＇t think）it represents a pervarive hostility or a unified attempt or desire to degrade native Americans．I believe that those who have written or spolien in support of retaining the warrior as the univer aiy＇s maicot have doneso out of a sense of pride in the univeraity and its studente，not from a semse of malice－ toward American Indiams．

Balanced ageainst this honeat pride in the Saltine Warrior，however，are the feelings of a genuinely aggrieved group of students：the American Indians who attend Syracuae University．Their sense of injury is as real as the＂Orange pride＂＇which prompts aupport for the mascot．Under the circumstances．I would think it more important to ac－ commodate the legitimate grievances of this group than to retain a single of this group than to
symbol of SU tradition：

The solution that seems most logical
is to find a new mascot，and I sugerest as a means of doing so a contegt（the athletic departwent could coordinate it）to gather ideas from the students． The replacement need not be a＂bilious． looking Orange＇as suggested in a letter to this paper．Surely creativity has not totally disappeared from the campuas．
Mascots are traditional；they are symbols of pride in the university Generally those who portray them at athletic contests act clownish and silly． which in part has created the con troversy over SU＇s Indian．（Penn State＇s mascot is equally ridiculons， but then，Nittany Lions are not known for carrying picket signs．）

I see nothing wrong with any of this traditional activity－except when it causes offense to a race of individuala who justifiably have genuine pride in their heritage，and who do not wish to then hentage，and who do not winh to
bee it caxicatured to the point of bee it caxicatured to the point of humiliation
worth that．

\section*{SA，UU elections：first look at the three－ring circus}

The dircus is coming to town．With their petitions＂problems of communication＂that plague SA．Some on file by 5 p．m．tomorrow，official candidates for the offices of Student Association president．SA comptroller．University Union extermal chairperson and UU intermal chairperson will be among us，carn－ paigning with all the fervor of politicos in the＂real＂ world．
Like any other circas，thim one is sure to have a few new acts，built on a foundiation of old and familiar rontinea．Some argue the only thing to change each year is the people，while the＂isenes＂and＂platiorms are the Bame year in and year ont．Certainly the can－ to convince us that they are quite unlike anything we＇ve over seen before．
Each year there is a tendency by some candidates to campaiga on the merita of their individual ＂records，＂By and large，these efforta will show long careers of extracurricularinvolverment，and little else． Taken by itself，such records are an inadequate basis for voting．This university is so large it on provide
titles（and in some cases jobw）ach as＂dorm titles（and im some cases job＂）＂ach as＂spesident＂．＂aspermblyperson，＂and repreaentative＂almost indefinitely．

Far more important than any candidate＇s past jobs are his or her pland for the future．Firstof all，doest the candidate preaent any ideas？If so，are they plataible？Are they the same thing we＇ve all heard before or do they ahow evidence of some innovation？
There are many issues on this campas which dired There are many issues on this campus which direc－ age，the effectiveness of tummer orientation，the quality of Food Service and the SU Booisstores： manamement are only a few．Carididates for office will have to address questioms minch as theen if they are to erpect seriou conaideration by the otudent electarate．

The word comminicention＂trinn out aninally an a topic of debate．Candidate eppent endiesely on the
＂problems of communication＂that plague SA．Some ＂hotlines＂as remedies．These are addreased to the problem＇a symptoms，not the problem itaelf．The best

\section*{The elections：Hugh MacNiven}
staternent on the＂eommunicationa problem＂was made＇by；one of last year＇s presidential candidates when he anised：＂Is the real problem that SA has very little of substance to communicate？
There eeems to be validity in this appraach to the problem．In the past，whenever SA made substantial progress，it has been covered by the campatim media． Newsletters and hotlines will lead to the generation of more（and inevitably less wbubtantial）＂newa＂by Student Association．Therefore，it seems that intelligent discussion of commumication will center around SA＇s ability to make newr，mot to circulate it．
Another area of concern for candidates will beSA＇ Aealings with the SU adminintistion．paes SA presidents，in their relations with the administration． presicients，in their ralationa with the adminiotrat pan． ＂fin be pat leader，＂who believes in the politics of con－ frontation and demand．Such atudenta aremet with Gontation and demand．Such atudenta are met little more than a collective yawn by the ad－ miniatration，which throws ont few crumbe to appeage the masses and patiently waits antil the next croup is elected（after all，for career administrators， one year is not very long）．Fiery leaders are very effec tive on ehort－term iasues which aromse the interest of many etridents，but when elected to a job with a 12 month term．their overall effectiveneas is to be serionsly questioned．
The other type of \(\$ A\)＂president in the＂conciliator，＂ who takes a＂peer＂approackr to the adrainistration （Some Call thit the jumior adminiatrator＂type）． Althoagh it if dedirable to approach adminiatrators
with maturity and rationality，there is a clear racord of past．SA presidents retting co－opted to the point where the atudents don＇t imow juest which are the students and which are the administators．

What，then．is the anowver？Something between these two types．The student body representatives should approgch the adminiatration matwrely．with ideas and policies which reflect the dexires of the otadeats．This guiet，realimtic approach will be effec－ tive for the day－to－day relations with the ad－ ministration，but there ahonld never bea fear of using the more dymamic，fiery method if the need should arise In other words，candidatea for office shonid arise in other words，candidaiea for ofnce anould
Fimally，we talice a look at the campus and the tudents voting tendencies，In a real sense，blocir vot－ who does exastat involved in extracmerievilar activitien．This includes SA．University Union，this paper and other inciudes SA．University Union，this paper and other facets of the camptumedia．Othergmoups are Student Afro－American Society and the Greecs，who have not exextea a coorcimacederiorixeonnty，buta waya nave the potential to mobilize．Finally，there axe vacious residencebased groups，such as Lawrinson and the Nount．Each of these has the potential to affect this election as a group．Whether such will be the case remains to be seen．A good indication will come once
there are official candidates and they can be asked there are official
about affliations．
about affilatione．
All this talk of iserves，records and powerful voting blocks may aeeri ont of place in elections for stadent offices：But the fact is that the candidates tend to be very＇serious about such thinga The wighthended irreaponsibility of college years＊＊is unheard of to thers people：＇they＇ze＇barige：
\(\rightarrow\) Thide circus is compinemint to town．We can＇t promise that sigood time will be hicd by all，but it will be enter－ tikining．

\section*{SA: the dangers of an early election}

The Student Association presidential election is Dec. 6, and soon the quest for that elusive animal - the decent voter turnout - will begin. SA will participate by buying ads, putting up posters and exhorting atudents by word of mouth to go to the polls. The candidates will participate in the same effort
We have what seems to us a common-sense suggestion to improve both the quantity and the quality of the turnout in this year's election.
Move it back one week. Change election day from Tuesday, Dec. 6 to Monday, Dec. 12.
There are several good reasons to move the election date, but the primary one is the unusual brevity of effective campaigning time. Petitions are not due from candidates until tomorrow at 5 p.m.
Immediately after that cutoff point there is a nine-day period (two Immediately after, that cutoff point there is a nine-day period (two aimost entirely to getting out of Syracuse or enjoying their vacation. Thanksgiving vacation is not the time to conduct an effective campaign to gain the attention of the student population.

After students return (Monday, Nov. 28) there will be only eight days until the election. Tenindividuals have petitions out for SA president, and Rick Jackson, vice president for admanistrative operations, expects six or seven to make it onto the ballot. Jackson said he expects between three and five comptroller candidates.

We think eight days is too short a time for students to consider the relative merits of seven presidential candidates and five comptroller candidates. It's also too short a time for lesser-known candidates to make an effective effort at making up the gap in public exposure between them and candidates who are in SA now and who have had a significant amount of media coverage.

Moving the election back would also take some pressure off the elections commission, which was just elected this week and which must insure the eligibility of every candidate before the election takes place.

Moving the election back would place it perilously close to final examinations; the runoff would have to be held within a day or two to avoid running into finals. This could conceivably place some hardship on candidates and on SA officials responsible for the election, but enough time has already been lost to make changing the date essential.
Apathy has been, and will continue to be, a major impediment to getting a good voter turnout in SA elections. But adding confusion and lack
of information to that apathy will simply exacerbate an already serious of inform.

David Abernethy for
The Daily Orange

\section*{UU elections:}

\section*{Waiting for candidates}

What if they had an election and nobody ran?
The possibility of such a thing real. The deadline for petitions to get on the ballot for University Union internal or external chairperson is \(5 \mathrm{p} . \mathrm{m}\). today, and as these worda were being tritten last night, no petitions had been filed.
According to UU officials, the problem is due to the process of selecting individuals to run UU's various programming boards. Those officials say students who wish to serve on a the top offices and sacrifice the opportanity to worik on the various boards.
At least one aemester of service on a programming board is required by UU bylaws, and while that may be a factor in the absence of candidates, we think it is a sensible requirement aimed at producing quality as well as quantity in candidates.
Whatever the reason for the empty UU ballot, it seems clear the elections should be postponed. They are Student Association presidential elec tion on Dec. 6, and the nearness of that
date, combined with the fact that
Tharksgiving vacation falls between Tharrikgeiving vacation falls between now and then, makes it impossible to still conduct a meaningful campaign. - We question, however, the proposal of Martia N. Grant, UU internal chairperson, to postpone the election to March. Choosing UU officials that late in the year would make it difficult for them to acclimate themselves to their positione and do anything worthwhile during the spring semester. Moreover, it would thrust them almost immedialely for sa buget hearings with little time for preparation. Preparing a complicated line item budget exceeding \(\$ 100,000\) is not a thing to be un-
duly rushed. We suggest UU put off its election at
least until early in the apring semester; least until early in the spring semester; imminent final exams would make it difficult to reachedule the election this
fall. The extra time given by anch a fall. The extra time given by anch a new date, Find an adequate alete of candidates, and allow a productive public discussion of issues before students must vote.

\section*{Cold Comfort}

To the editor,
Every winter certain studenta ran into a seemingly neverending problem: cold rooma. Lack of heat from radiators and constant drafts from closed windows ane arrong many problems owing to the cold room dilemma. At times rooms are as cold as 50 degrees or lower. Many students have resorted to the use of portable apace heaters, which is not only against university regulations, but an undue expense to the student as well. Many other students place calls to Physical Plant but never get calle to Phys.
What we as students must do is show just how bad the problem is, where it is and what is causing it. A simple call, leaving your name and room number to someone at
Physical Plant, does not always work.
The Living Center Advisory Commission has set up a unified heat complaint system. All a student has
to do is fill out a short form and turn it in to his commiasion represen tative or the Student Absociation of fice. This system will provide both the Office of Residential Life and Phyaical Plant with all the facts of all the reported problems in a written and unifed basia. This sygtern, the commission feels, will not only present written proof of the problems, but it will also phow a real concern of the students as a whole to get something done about the heat situation.
Heat complaint forms are available at the main desk of all campus living centers and at the Campus living centers and at the Student Associa
University Ave.

Richard L. Kohan
Richard Kohan is special assistant to the Student Association president and chairman of the Living Center Advisory Commission.

\section*{Physical Plant: inertia}

To the editor:
There was an article in the DO in September about WJPZAM moving to new facilities located in the Watson Theatre complex. The move son Theatre complex. as Physical Plant remodela the allocated space for us. Unfortumately. Physical Plant hasn't even begun the work.

However, I couldn't help but notice that they found time to adjust and paint the sign at the Student Center at least five times.

\section*{SUB: injustice}

To the editor,
Outrage is the only world I can use to express my feelings towardis the Syracuse University Bookstare. Their total dominance over the stadeht body has led them to adopt student body has led them tice adopt an indiscriminant practice when dealing with alleged hoplifting. I will agree some sort of competent
security syatem is necessary; security syatem is necessary,
however, this is notine cane with the however, tha is not the care winh kite bookstore. They have gone beyond the point of efficiency to accusing i nocent individuale like myself.
I can understand perhaps being falsely accused just once, but twice within one month is absurd. My first run-in with bookstore security occurred Oct. 23 , when I was aecused of atealing a pair of mitteng while searching for curtain hooks. As gearching for curtain hooks, this may asem, it is the truth. After suffering embarmasment in public. I was found innocent.
I reallized the firat time that ghoplifting occurs frequently and therefore was only slightly disturbed by this infringement on my mivacy. But on Nov. 15at 2:15 pmin I was aubjected to even more harasament. After making my purchase, I proceeded to waily out the main entrance of the store. Agrain, I was actosted by a suppowedy efmeient secarity employree. ien mimutes elapeed before I wrat informed what I had takem." Daring thit period, I was fortennily led En cisien.

Officer Furlong, obviously feeling self-important, bellowed for a female employee to come and search me. This treatment caused me extreme humiliation. Once ingide the office, I was told to remove my coat and empty all personal belongs from my clothing. Although I had emptied my purse, he grabbed it from the Still uninformed as to my crime, Still uniniormed as to my crime, 1 was asked for my SU identification card. With the ID in hand, he copied my name and Social Secarity number on an index card for his file. When asked Officer Furlong what the index card was for, he implied that it was none of my business. Eventually, I discovered that I had been accused of stealing a bottle of Visine, which I had just purchased. Adding to theindignation of being accused, there was the tactlessness of Officer Furlong to be contended with. I realize that this example is perhaps unnecessary, but it clearly points out the inhmmanity with which students axe treated by the bookstore. The fact that no apology was given at eitherinstance adds in. sult to injury.
I Buggest that the Bookstore should rewiew their Gestanomiliatac tics and uphold the rirhts of their customers as individuals. Discretion is in order. Perhape SUB should send their aecurity employees to a selnool of eticurity employees and invent in stronger glamaes or alectron mic stronger

FILM OFF CAMPUE: "Dam nation Alley." Playing at Shoppirgtown Mall, Cinema I.

\section*{Ey Bob Canimo}

With the relase of Jack Smight's production of "Damnation Alley." Hollywood has once again shown its ignorance when dealing with sciencefiction
The story is loosely based on Roger Zelazny's novel of \(a\) Roger Zeiazny's novel of a
reformed motorcycle hoodlum, Hell Tanner, who transports a Hell Tanner, who transportsa much-needed antiserum from Los Angeles to Boston across an America that has been ravaged by a muclear holocaupt His encounters along the way. snd Zelamn's sensitive portrayal of the bubte shifty that take place in Tanner'a character provide the necessary ingredients for an entertaining novel. But atide from the cross-country journey in a lumbering vehicle called a Landmaster, the film bears ittle resemblance to the novel.
Co-scenarists Alan Sharp and Lukas Heller's great alteration in story line would be forgivable had they provided a substitute as entertaining as Zelayny's. However, what they do to the plot line is hideous. They succeed in creating boring scenes that do nothing to conver any kind of dramatic continutity. An enconmer with man-eating cockroaches, a man-eaking cockroaches, a grizzled aurvivors. ang and grizzled survivors, and great storm are old, cliche olat. mechanisms that have been done numerous: time before dond nueh better elactorbere
Plot is not the only thing that suffers in adaptation from print to screencharacterizations have also guffered. Whole characters have been left out, and ones that do remain bear ittle tememblempe in depth amd sub bool Hell Tanner is reduced book Hell Tanner is reduced from a complex charactery min
of ambianity and con. of ambiduity and con. tradietion, to an inmipid and unconvincing Aix: Force Emligted man portrayed by Jan-Michael Vincent George Feppardal his commanding of ficer, comes ancioas ab a sitcom Hice father ficare alway joo ing and funsing over the srest of his entourage. Jachie Eard Faley provides the owly coinedy in the film in the form of a - traly lamghible parformbince af a youmg wait cieserted. in poetholocaut America Panl Wirfiold, the
 Taninerf brodyy e ment you sappoindy podroternition tiebuat, but whot findily dopp
in by man-eating cockroaches when the crew makes a stop in what was once Salt Lake City. Smight also manages to boggle the visual end of things. The numerous horizon shots are supprased to reveal an at mosphere on fire, the most spectacular result of the nuclear holocanst. Instead of conveying any sense of awe, they are no more interestino than grade achool finger-paintings. The shots of the desert are drab, and when the crew makes a stopover in Detroit during the onset of an impending storm, the screen grows

dark, making any movements indiscernable.
The other special effects in the film have all been done more convincingly elsewhere, be it in previous sciencefiction films or in the recent disaster firms. Smight, incidentally, is no stranger to disaster films, as he produced the langebudgeted flop, "Airport 75," a few years back.
His production of "Damnation Alley" will probably end up in the came category, for not only is it a disaster as cogent icience fiction, but a dibaster as a movie as well.

\section*{New major to study}

By Scott Rolurez The Univeraity Senate approved a new Utica College prograna yebterdaty designed to train child life npecialist: Child life especialist work with hospitalized chilldren to ease the trauma of their illneas.
Utica College. will be the second college in the country to offer this major. Becauge ofthe lack of achools, there in an overwhelming need for these specialists, according to the report. submitted by the college.
Child life specialist majors will study human behavior with a focus on paychology. sociology, anthropology. education and humanities.

The senate also approved-a new major for the College of new major for the College of (VPA). Editorial design will be offered to "sive our preaent otudent body a wider option in planning their career goals planming their career goals. and to provide a channel of growth for attracting new
studenta," a report from VPA sturent
In other menate action, the Committee on Appointments and Promotions failed to report to the aenate. The committee was scheduled to an-
nounce dates for hearings to be held on tenure.
Committee member Nick Hacrits explained to the menate that the committee did not meet last wrelk because of a "communication fonl-wp." Only three membera showed up at the schedraled meeting. Harrin eaid the committee will present its reports at the next meeting.

The committee is reviewing the tenure process and is handling a resolution that requires the mames of all tenure and promotion candidates be published annually. The comamittee is expected to present its final recommendations to the genstate in December.
The committee was also scheduled to submit a recommendation on manlastry retirement. The senate dastory spring referred the man the committee with the stipulation that it repoit back stipulation that it report back meeting完
children
The resolution establiahes a set procedure for those fraculty meanbers who wish to continge teaching past the retirement age of 65, according to Ficic Marcolina, Student Association vice president of student programs, who sponsored the measure.

The senate approved the six nomimess for the Ad Foc Com mittee on Judicial Procedures. The members ane: Ross Burke, chairman and Graduate Student Organization president; Jesse Burkhead, profesior of economics; Peter M. Baigent. director of student affairs; Rich Crowell, Student Association president: Pichard Nolan, a lecturer in the School of Management; and Dennis O'Day, an associate professor in the College of Law.
The committee will review the charters and procedures for those judicial bodies not approved by the senate and will suggest changes in charters where they deem appropriate.

\section*{\(\star\) Candidate shortage}

\section*{Continuies trom poge ons} now. Grant said. All applicants for external or internal chairperson mast be SU students in good standing who have served one gemester on a UU programening board, and must be willing to work at east 20 to 30 hours per week. According to Rumin, the function of the internal chairperson is to maintain "harmony between everybody" associated with T.

The external chairperson, he
said, deals with the Student Assembly, Graduate Organization, other student affains and "all other outaide organizations." He added that the two positions "sort of overlap."

Another position available is UU treasurer, which is open to any SU student in good standing with some record. keeping experience. The deadine for treasurer applications is Wednesday, Dec.

By Shirley Scott
A proposal that may limit overnight visits by guests of the opposite bex in State University of New York （SUNY）campus housing will not influence syracuse University＇s visitation
David Kohr，associate direc－ tor of Residential Life，eaidSU is not contemplating any change in its visitation rules as it pertains to SUNY as it per
Under the present rules， 24 hour viaitation at SU canonly be limited if two－thirds of the students living on the floor want to do so．Kohr said no floor has yet chosen to limit visitation rights．
A proposal was passed by the SUNY Association of Council Membera and College Trustees requesting the SUNY board of trustees to in vestigate the rules on each campus and their effect on＂the serious student and the concerned parent．＂
The resolution also asked
local councils on each SUNY campus to＂undertake a broader publication and en－ corcement of campus procedures，rules and regulations．＂
The council passed the resolution at a conference in Morrisville on the Nov． 5 weekend．
Kohr，who warked in the SUNY system from 1967 to 1971，said he＂worked for local control＂of visitation rights since＂each campus faces different situations and ifferent needs，＂
Kohr said it would be＂vir tually impossible（for SUNX） to set up the necessary dis－ ciplinarians and RAs＂to en－ force the regulations the coun－ cil proposed．
According to a Nov． 8 story in the Herald－Journal，the chairperson of the council at Morrisville said a majority of almost 200 council members and trustees of the 30 four－year SUNY schools＂seemed to be in favor of stricter rules and reguiations．＂

\section*{Student discovers fame as songwriter, TV star}

By Mark Sullivan
Only. a few short weeks ago Brian Barlaam was leading a fairly normal life. He was serving as vice president of the Sigma Alpha Mu fraternity, taking three university courses and planning on attending graduate school to study peychology next fall.
hen one night, at the suggestion of a friend, he entered the "Save the Loew's Theatre" things began to happen at an alarmingly quick rate. Out of the 70 entries received, Barlaam's was judged to the beat
After winning the contest, he was invited on stage to perform with Harry Chapin at the performance garnered two standing ovations, and what was once a hobby is threatening to become a career. There is even talk of releasing his prize-winning song as a single.

Was this whole thing has been such a thrill for me, saic everyone's been really great to me."
Should all the furor die down tomorrow, Barlaam would hardly be crushed, but it seems the song he wrote at 4 a.m. one Friday is going to keep him busy for quite awhile.
"Before that I hadn't written a song in about a year," confessed Barlaam. In about 45 minutes. however, he wrote "Ain't My Time to Go," a short, to-the-point composition that
ust a bout everyone who's heard it.
Barlaam's performance at the Loew's concert first time he was ever in the theater, but it was the first time be had performed in front of more than 20 people.

The crowd
"They told me theire would be spotlights in my eyes and "I wouldn't see anyone," stated Barlaam. "The first thing I saw when I got on stage was 6,000 eyes looking right atme. Upunbut I just tried to be as professional as I could and it worked out just fine."
That may be a bit of an understatement. Brian's performance of "Ain't My Time" and another original, "Gullible Person." earned the first standing ovations of the night, and instan tly Barlaam was a campus celebrity.
Aside from the usual handshakes and compliments, Barlaam was faced with several problerns. The song had to be copyrighted, and suddenly he had business interesta to look after. In the music business, where legal squabbles often overide the fun of songwriting, Barlaam was totally inexperienced.
Barlaam "He took me und good to me," admitted told me to watch out and be careful."
After the Loew's concert, Barlaam had no plans to continue performing, but there was an "adoring public" waiting for more.

Family support
Friends and family encouraged Barlaam to keep at it. What is a once in a lifetime opportunity had been placed before hin, and after some convincing he chose not to let it go by. who idolizes Harry Chapin and the fact that I got to meet him and play with him was a great
thrill for my entire family," commented Barlaam, I would say that my family's support laid a foundation for my own belief. it's a great opportunity, and at least I won't look back and regret not having taken advantage of it," he said.
The support of Barlaam's Sammy fraternity brothers has also been a terrific boost, and he "most instrumental factor in the entire happening.'
Barlaarn's Tuesday night performances at the Dandelion in Fayetteville serve as further indications of the support he s received from friends. The audience offers not only requests, but advice and commentary as well, A friendly atmosphere pervades, and Barlaam's betweensong banter creates an intimate setting.

\section*{Country flavor}
"I like playing there," Barlaam said. "Four hours is tough, but it's getting better:" Aside from his own songs, Barlaam covers more traditional material such as Poco's "Good Feelin to Know" and Jim Croce's "Bad, Bad Leroy Brown."
Barlaam's own songs range from the tender to the humorous. Though his musical tasteruns from Billy Joel to Genesis, the songs carry a country flavor. I write about relationshipeand when people can relate to what you're talking when people can relate to what you're talking
His songwriting combines a simple musical approach with a good poetic knack and, typical of the Loew's song, his lyrics are blunt and often moving.
Though
Though he plays piano in his club performances, Barlaam writes all of his songs on the guitar.
"I've tinkered with the guitar since I was 14, but it's just the past few years that I've gotten senght wit the pecan and jue jus pich taught me the piano and Y've just picked up Recently Barlaam has been
Recently Barlaam has been extremely busy. in addition to his Tuesday night performances at the Dandelion, he has taped severa graduate schools and is trying to write one new song a week.
The entire affair has been new and very exciting, and though Barlaam ndmits to have being "confused" at times," he's maintaining a "I'm atitude

T'm not a starstruck jerk," he said. "It's gone to my head some, but I'm trying not to let it Whate
My Time to Gappens to Barlaam and to "Ain' out of the experience. The Lion good has come been saved, Barlaam has made many new friends and acquired a few good memories. "It was a great thrill to watch Harry Chapin tap his foot to a song that I wrote, and the audience was amaxing," said Barlaam. "No matter what happens to me the rest of my life, Barla日m is now perfor
the Fayetteville pight ciub Tuesday nights The Stanky Brown Group this weekend at Jabberwocky.

\title{
Computer graphics artist directs art gallery
}

By Erica Rowe
While the planned search for a permanent director goes on Joseph Scala, interim director of exhibitions at the Joe and Emily Lowe Art Gallery, is Emily Lowe Art Gallery, is exhibitions, submitting grant proposals and expanding comproposals and expanding commosition is temporary, Scala position is temporary. Scala says, Im treating this as if I W'm be here the reat of my iffe. \(\lim _{\mathrm{g}} \mathrm{gi}\)
"Establiahing a working philosophy which will benefit the univeraity, the school of arta, the museology program and the Syracure community as well" are Scala'b goalr. To make the gallery more accessible to the community at large, Scala has rearranged the gallery hours.
"Residents in the community find it difficult to find parking during the day, so now we are open three evenings a week plus weekends." Scala week plus weekends, Scala explains. He has aiso arranged for publicservice television anhibitions at the gallery.
To free up more funds for the gallery. Scala has negotiated with the university to pay the \(\$ 1,000\) deductible on the insurance on borrowed art works "Previously," Scala explains, "the gallery had to pay for minor damages which are
fairly routine in transporting works of art."
Scala's own art work has been shown in many exhibitions, including aone-man now at a New York City gallery. Besides directing exhibitions all over New York state, he has obtained \(\$ 160,000\) in grant money in the pest eix years, hais held offices in private corporations and has professional standing as an artist.

Scala came to Syracuse Univeraity in 1971 to a faculty member in the Studios. He has a B.S. in math and a M.F.A. in aculpture. His field of special interest however, is in computer graphica and he developed the computer graphics art course taughtat SU
The course uses SU computers adapted to minimize the technical involvement and to maximize the esthetic values The students are taught more efficient methods of obtaining new designs by using computers.
Most

Most important is the artist's involvement in com puter science, says Scala. "In computer graphics, art
students are given the op students are given the op-
portunity to use our society's portunity to use our society's non-military purposes." says Scala.

The gallery is currently exhibriting "Critic's Choice," a review of the beat art work from the New York City galleries from the 1976-77 season. Art works are on digplay from 26 major galleries and private lenders. Curator for the show is Stanton Catlin, an SU professor of museology. Of special interest to
students is the planned Record Album Art and Recording' Artist shows. Funning simuitaneously, these shows will feature the best origiaal art from the album covers of major recording companies and art work done by rock stars who have had formal ant training.

The Lowe Art Gallery is
open Tuesdays, Saturdays, and Sundays from noon to 6:00 p.m. and Wednesdays through Fridaye from noon to 9000 p.m. The gallery is closed on Mondays. Although Scala admits to having his own special interesta, he wants to carry out a well-balanced program that will take in the needs of the university and the community.

Josoph Scala, the interim director of exhibitions at the Joe and Emily Lowa Art Gallary, directs other shows throughour New York State and has established a computer graphics course at SU. (Photo by Jash Sheidion)

\section*{Child actors wage gang war in original, disappointing film}

FILM ON CAMPUS: "Bugsy Malone." Friday. Nov. 18, Gifford. \(\$ 1.50\)

By Steven Puchalski It is New York City in the leaders Dandy Dan and Fat Sam are in the midst of a full scale gang war. Just when it seems as if Fat Sam is beaten, he enlists the aid of Bugsy Malone, a tough-talking drifter with a heart of gold.
Such is the setting for the firm "Bugay Malone." a satire fim "Bugay Malone. a atare on gangster films with a twist. it. yet eventually becomes a it. yet eventually
To say the least, it's an original conception. It's a Wusical with a score by Paul Williams, and the average age of the cast is 12 years old. Every role is played by children mimicking adulta. They drive cars which are pedal-driven, get drunk on sas parilla, and rub each other out with a deadly weapon known as the "splurge gun." Instead of bullets, they ahoot whipped cream. In this fantasy world there is no bloody violence. only the sheer terror of being creamed to death.

The entire cast is uniformily good, which is surprising because, with the exception of Jodie Foatex, each is making his or her falm debut Foster, Who was outstanding in last year's "CTaxi Driver," is again
excellent as Fat Sam's moll, Tallulah.
Scott Baio stars as the lovable Bugsy, with Florie Dagger as. his girlifiend Blousey Brown. Both stars play their roles with profesaionaliam, John Caksisi and Martin Lev are equally exceptional as the two gangeters.
Director, producer, writer Alan Parker has a good deal of imagination and tialent Any minector who has the repource to get a project such in this off
the ground deserves all the credit possible. He has transformed over 200 children into a perfect working unit, and although the seams often show through, Parker keeps the film moving so quickly they are not easily evident.
All production values are excellent, with a special nod going to production designer Geoffrey Kirkland for his pintGeoffrey Kirkland for his pintCity. Everything from the City. Everything from the have been scaled-down to chave been scaled-down yet children's proportions, yet they never lose their authen-
ticity. ticity.
But there are a great deal of limitations found in this type of concept. The idea of children completely taking over a completely saking over but after an hour and a half, the
film cannot hold together on this one motion. There is a great deal of charm in seeing children in the role of adults, but the idea in itself is too cute to be totally successful. The film tries too hard to be likeable, wherein lies its failure. The only thing which makes you forget its faults is the score by Paul Williams. It is the one constant joy of the film. Before any scene sinks too far, there's always another song on the
horizon to wake up the horizon to wake up the audience and get the film back
on track. "Bugsy Malone," on track. "Bugsy Malone," "Bad Buys,", and "You Give a
Little Love," are all superb, as are most of the 10 songs Williams has written. Without his lilting score, Bugsy Malone would have been a fiasco from start to finish.

\section*{GSO adopts guide for budget process}

By Mike Russo
The Graduate Student Organization has informally adopted a set of procedures to guide the 1978-79 budgeting process, according to Ross Burke, GSO president.
The new procedures are designed to ensure that the budgeting process is carried out more systematically than these measures is a direct consequence of the budgeting confusion that occurred last year,". Burke said.
Last year there were no specific procedures to guide the budgeting process. University Union officials claimed they were not informed of GSO budgeting procedures. budgeting procedures.
Because of this, budget reBecause of this, budget Teresulted in lengthy debates in resuited in lengthy debates in officials and senators, Burke officie

The procedures were written by Burke and approved by the GSO Executive and Finance committees on Nov. 1. "The procedures are considered informal because they have not been approved by the GSO Senate. However, we can still use them as guidelines," Burke said.
The procedures are expected to be passed by the senate no later than Jan. 1, 1978, he said. The proposal contains a timetable for submitting rereaching a final decision on the GSO budget and the graduate student activity feeCampus wide services such as University Union, Alternative Action Service (Alteracts), departmental organizations and special interest groups must submit budget requests to GSO by Feb. 1, Burke said.

Each organization can defend its budget request during a week of Finance Committee hearings beginning the first Monday in February, Burke said.

The committee will then review budget-requests and make recommendations to the said. The senate will conduct debates concerning the recommendations. However. there will be no presentations. by groups submitting budget requests, Burke said.
"Last year then - GSO President Wayne Bordelon allowed these presentations and a helter-skelter situation ensued." Burke said. "The discussions in the senate became so long and drawn out that some senators approved allocations just to get them over with," he added.
Bordelon waited until March 1977. to discuss GSO allocations with UU and Alteracts. This delay led to disagreements between GSO and UU concerning the amount of money that would be allocated, to UU, Burke said.
"UU officials didn't even know when the GSO budget hearings would take place," Burke said.
At the GSO Executive Committee meeting Nov. 7, members discussed exemptions from the graduate student activity fee. Since no formal criteria had been spelled out, Office of Student Affairs reprosentatives have had a difficult time dealing with exemption requests, Burke said.
The graduate fee should only be waived when there is insufficient opportunity for a student to utilize campus services, Burke said. For example, a student interning in Washington, D.C. for the entire semester would not have the opportunity to utilize these services-
GSO plans to submit a "clear policy" concerning graduate fee exemptions to Student Af fairs before Feb. 28, 1978, Burke said.
pireme exemption requirements we recommend moneywe can andount of from wraduate from graduate student "Very tivity fees, Burke said. Very liberal exemption rein the GSO budzet meaning in the GSO budget, meaning smaller allocations to campus services such as UU and Alteracts. We are trying to avoid that," Burke said.
Burke said he plans to meet with UU officials Friday to discuss allocations. At the meeting, Burke said, he would ask UU to compile figures on graduate student use of UU services.

\section*{Art needed for posters}

Students are invited to submit black-and-white sketches in any medium conveying the convocation theme of "Liberating Learning" for the convocation posters in Ianuary. Sketches should 17 by 19 inches when finishea. Students should submit a few. examples of their wori done in Lie same medium in which the All entries must be received in All entries must be received in the Fonors Onfice, 106 HL , by sketch is chosen will be asked sketch is chogen will be asked to complete the design before Dec. 21.

Peace Corps gearing up to recruit more volunteers

\section*{By Tom Mockyolowitax}

The Peace Corps and VISTA are alive and well, according to Tom Halloran, a recruiteri From the Fochester branch of the ACMION Volunteer Service. A team of Peace Corps/VISTA recruiters from Rochester held an open information meeting Tuesday, and axe interviewing senior prospectives at the Caneer Center today and Friday.

The Peace Corpa was first established by an executive order by President John F. Kennedy in the early '60's. In 1971, the Peace Corpa became part of ACTION, a foderal agency formed by the affliztion of seven volunteer programs, one of which is VISTA.Volunteersin Service to America). In its 15 -year history, the Peace Corps has been sending volunteers Peace the world to help poverty stricken countries.

In recent years, the Peace Corps has received little publicity. But Halloran, a former Peace Corps volunteer in Western Samoa, maintains the Peace Corps and VISTA are in the midst of a reaurgence.
"Youmay not have heard too much about the Peace Corps and VISTA in the last few years, but we're making a comeback. We are presently gearing up to recruit more people for more positions than we have in years." Halloran said.

At Tuesday's information meeting, two recruiters spoke about the Peace Corps and
VISTA to approximately 30 people. One
recruiter described the Peace Corps as a "stresuful, demanding and traumatic experience"' for those who have never been overseas, but added that it is also a "fantastic educational experience."

Peace Cotpa voluntëers are from every state in the country, serving in countries from Africa. to the Caribbean. Reciuirements arothat the ap-: plicañt must have a blill, be a U.S. citixen at least 18 years of age, in rood health, singie or married but with no dependents, and willing to serve in a foreign country for a minimum of two years.

Requirements for VISTA arenearly the tsame. VISTA volunteers work in poor American communities, both rural and urban, on Indian reservations and in migrant campa. They are assigned to local sponsoring organizations to help alleviate the causes and conditiona of poverty.
The recruiters spole at the open meeting about one VISTA volunteer who worked on a suicide prevention line and helped poor Spanish people adjuat to life in New Yorik City. Exxperiences of Peace Corps volunteers included educating Ghana natives about proper.protein diets, and building a concrete blockschoolihouse volunteers from different countries.
Perhaps a Peace Corps pośter best describes the reward of Peace Corps and VISTA volunteer' services to graduates and future graduates. It. says, "Got a degree? Now get an education."

\section*{Special teams keep kicking}

By Dave Iargalere
In evaluatiog the mariked froprovernenat of the 1977 Orange foothall team, most of tho talle and print has been devotiod to the high-ccoring ofremse and the ruddenly-tongh defense.
Naunes like Hurley, Monk, Clarke and Martin have been the talk of the city for their offensive and defensivé performances. Articles have been written about the offenaive line, the linebacking corpe and the defensive secondary.
All these factors have been instrumental in the Orange drive to a winining season, bat one facet has been overlooked.
The special teams.
The Syracuse University special teams have been outstanding all season long. The reason?
"We have a profewional concept of how the epecial teams should be organized," eaid Dennis Fryzell, one f four special teams coaches.
Fryzell should know, since he was thespecial teams coach last esston for the professional Tampa Bay

\section*{Campus talent to play Saturday}

Two Below Coffeehouse will move to Brocikway Dining Hall Satarday evening for"Brocktoberfest, A Showcase Concert."
Seven acts offer a wide array of music: folk to biues, and classical to country. Each musician will play for about a half hour.

Among those performing are Dennis Frisca, bumor, Dry Wine, local wornen's group; Smilin' Dog. acoustic follc; Randy Omel, progreseive piano; Jim Albertson, folk singer: Joe Salvo, Irwin Fisch and other, contermporary folk; and folk singer Chris Shaw. Shaw has opened for Pete Seeger, Don and comedian Davia Brenner.
"The purpose of the ahow ia to make students familiar with our local entertainers." said Laura King, Two Below entertainment director. "Also, the money raised will help keep Two Below free to the public.*:

Admission is 75 cents with SUI.D.

Buccaneers.
"Syracuse has the beat kicking game I' ve ever seen on the collegiate level," Frypell miated.
Fryzell hat charge of the bulk of the epecial teama units. He conchee the point-解tertonchdown and field goal blocking team, the punt-return team and the kick covexage team.
"The key to the apecini teams' accoess has been the large number of offensive players playing on the unit." Frysell said. "Flaving grya like Art Monk, Tom Voyda and Mike Jones on the apecial teams ha instilled a feeling of unity mot anly on the opecial teams, but on the football tean as a whole."
"I think a team wins two games a season just from having a strong special team," Fryzell went on. To ntress the special teame' ixnportance, the coach cited an example.
"When it's third and 12 and on the rext play there's an incomplete pass, there is a tandency on the part of the defensive team to let down and not go all out on the subsequent puns," he said. "In meturality, thit could be the bigreat down of the seriea."
Punt covexage coach Jjm Goodfellow agreed. "Not too many people realize that a good punt can gain more yardage than a good pass or a run," Coodfellow said.
Long hours of preparation have been another facor in the special tearns' success. "We have six mojox units, which is similar to what moet colleges use, Fryzell said. "The difference is the amount of time we spend on them."
Kickoff return coach Tom Coughlin agreed, saying. "We probably spend more time on specinal tearins than 60 percent of the other college teams.

The preparation begins Monday with a threehour meeting for all special teams. In this meeting, films of the oppositions's special teams are studied, and the previous Saturday's performance of the SU special teams are reviewed.
The individual special team units then meet on Tuesd ays and Thuredays to discusa problems spotted in the films. These meetings are followed by special work sessions on the field to iron out all difficultien.
There have been many individuals responsible for the success of the units besides the generally acknowledged Dave Jacobs and Jim Goodwill. Frysell cited Larry King. Jerry Martin, Larry Newman, Wilie arculli, Warren being, Abern, im Kolar and Muke Jones as
Goodfellow mentioned Steve Spinneýy as a player who has not received much credit this eeason. Shinney snaps the ball on punts, conversions and field goals and according to Goodfellow is very quick field goals and according to Good.
-Without a good anap, a team loses maybe seven-

\section*{Coaches' conference}

tenthe of a second", Grodfellow said. "The value of having a Jacobs or a Goodwill can be neutralized if Spinney and the other nine men do not execute."

What is the biggest play the special teams have made this searon? According to Coughlin and Fryzell, that wonld be the blocked punt by Willie McCullough against Wadhington. One might also remember the blocked field goal by Warren Harvey in remember the blocked feld groal by Warren
Those two.plays are a major reason the Orange have a shot at a winning season this Saturday.

Fun facts \(t\) If you can remember back to freshman orientation, you may dimly Goon Squad flashing a eparkling erin and announcing that Syracuse is the third cloudiest city in the nation.

At the time, you probably thought very littie of it. After all, Mom and Dad had already made the first three payments toward your bill, you were impressed with the campus, and it was brilliantly sunny out (it alvays is dur ing orientation).
It was hardly the time to reconsider. So you filed the remark away as "college humor" and cheerfully went off on a tour of the dining halls.

As it turns out, the joke was on all of us. The week after registration, the sun disappeared. From then on, the sun was remembered only from photos in magazines and postcards from your friends at UCLA.

If the endless string of cloudy gray days wasn't enough to send even the most avid optimist off to sulk with his thoughts of self-destruction, the um brella-devouring torrents of rain and sleet, followed by wintex snows resem bling an Alaskan nightmare, brought despair to the hearts of all.

However, somewhere along the way we learned to cope. A few hardy sould even have a certain charismatic way of wearing Syracuse's dismal climate like a red badge of courage, spouting temperature extremes faster than \(a\) Long Islander can spout Yankeestatis tics.
These fortunate individuals have successfully adapted to the most treacherous of conditions simply by ar ming themselves with a ready supply of "Syracuse Weather Trivia Facts."
Now, for the first time anywhere, we proudly present this unedited, unabridged, totally complete encyclopedia vivors.

Amaue your firiendal Astound your (ugh) For eratives! Don't be-left out in the coid (ugh). For example:

Fan Fact \#1. Syracuse is located approximately at the geographical center of the state. A glance through your third-grade atlas will tell you that.

Fun Fact \#1a. Nearly ail cyclonic systems moving from the interior of the country through the St. Lawrence Valley will affect the Syracuse area. (That means we don't miss anything. We can graduate from here knowing that we have a well-rounded weather

Drovining by Diane Kulmasicos

\section*{education).}
ducation).
temperatures averaze about 35 deartime Fahrenheit, with nge about 35 degrees 18 degrees, with mightime lows about acheduling abve zero. (Very useful for aight so the snow won't melt.)
FF \#3. The lowest temperature ever recorded was -26 degrees. (This. little gem saves you the embarasament of shivering in public like a spineless jelly-fish when it's only a balmy 20 below.
FF source of significant winter precipitation.

FF H4a. The lake is quite deep and never freezes, so. cold air flowing over the lake is quickly saturated and produces the cloudiness and snow squalls which are a well-known feature of winter weather in the Syracuse area. (You're sure to impress her with that orie. Next floor party, leave the Jovan aftershave home and just bring your Fun Factes.)
FF \#S. The average date of the first 32 degree temperature is Oct. 16 , and the average date of the last 32 degree temperature is April 28. (For this academic year, that gives you 56 glorious days of temperatures above freezing. Don't spend them all in one place.)
FF \#6. Syracuse receives onily about one-third of the possible sunshine dur ing the winter mpnths and two-thirds the possible sunahipe during the waim months. (This is for those of you who were foolish enough to get excited and optimiatic about FF \#5. If it's not freezing, chances are pretty good that it's cloudy.)

FF \#7. (This is my favorite.) In 1976 Syracuse had a total of 58 ciear days. (If you don't wow them down at the Orange with this one, you'd better jus hang it up and trangfer to the Univer sity of Hawain.
anyway. Surf probably the best idea

\section*{'Anything Goes' offers Porter tunes}

\section*{By Chris Negue}

One of America's most popular musicals, "Anything Goes," will be presented this weekend by, Syracuse University Musical Stage.

This 1934 musical incorporates some of the best music of composer-lyricist Cole Porter. Coupled with a script of one-liners and unlikely situations, the show provides for an evening of light entertainment.
"The music is its strongest point," said Phil Gurin, director of the show. sait Phinging and dancing really carry the show."

Suich songs as "I Get a Kick Out of You," "Delovely," "You're the Top," and, of couree, "Anything Goes" have and, of course, Any to become popular hits in their
own right.
The action takes place on the "S.S. American" sailing from New York to England. On the ship is an exevangelist, a Wall Street broker, a bishop, two Chinese converts, Public Enemy Number 13 and a hoat of other characters.

When they all come together, the fireworks begin. Mistaken identities, changing love affairs and the search for stowawhys and public enemies all add to the confusion.

The show will be presented at Watson Theatre Friday at 8 p.m. Saturday at 7 and 10:30 p.m. and Sunday at 2 p.m. Tickets are. \(\$ 1\) and may be purchased in advance at Spectrum or at the door.

\section*{The question is: how good is very good?}

By Jool Gtanhenko. Whem UCLA Was dominnt ing comeg 70 e it becm the 60 and early 708 , it becarae usciess John wooden wes crine to be if his basm was going to be sood.

Everyone knew it was going
to be good - the real question wan how good wen his tesm going to be?
Syracuse basketball coach Jim Boaheim now aits in much the same situation as Wooden did for sing years - and a comfortable meat it is. The accolades earned last
geamon atill xemain impresaive \(\because 0^{6 t h}\) in the nation in the final AP poll \({ }^{\text {ECA }}\) winnex of the Sonthern Division tournement ... semi-fimaliste in the MidEast recionals ..and on and on. Only a wretched forcefeeding of Cornbread (TNCC' ing of Cornbread (UNCC's ended the Oranctingen's dreams. the Orangemen's Thearns.
The accolades to be earned this geason are not yet named, but they will most probably bigger again, perispa in even brower supply. Everyone knows Boeherm's team will be good: The big question is, how good will hia team be?
The answer, to no one's surprise, is very good.
Gone are Jim Williams and Larry Kelley, the two small but quick guards who made the SU offense run. But back are Roosevelt Bouie, Dale Shackleford, Marty Byrnes and Louis Orr who made the defense work by not letting the other teams run.
ding we're a top club; Boeheim said. "But we have
loat some apeed, too, and that's \& big concerm."
Well, big, but not that big. Lant year SU choee a lineup of Boaie, Shacileford nud Bymnes in the frontcourt and Kelly and Williama at the guards. It was a quack Laam, with Williams and Kelley driving many teams silly with gudden two on one breaks. But thit sestan Bonheim soem a difference.
"We aren"t going to get ap many 2 on 1 breake nes we ditd last year" he said. "But we'll still run. We'll just end up with more 4 on 3 or even 5 on 4 breaks.**
And a five on four brealy by SU might be enough to acare the hearts out of most teams. All four experienced SU bis men will start this season Bovie, Orr, Shackleford and Byznes with Ross Kindel Eilling the point guard spot. This line-up gives SU starters an average height of 6 -foot-6.
This new alignment also puts Shackleford (who ia 6-foot-6) in the backcourt porition on defense.
"It's not a big change,"

Boeheim said of the "big" change "I can't minimize it change Dale will be doing the enough Daie will be doing the
same things offenpively he't same things offenpively he's always done. On defemse he' be playing a smallerman
quick enough for that.
The zone defense, which Boeheim helped make a Syracuse trademarit as an as sistant coach, will often be scrapped in favor of a mant-toman.
"The big, quick teams always play' a lot of man to man," Boeheim said. "Look at UCLA they alwaya hed tall teama, but they alwaya wernt to the man to man.
Boeheixp calls this season's schedule "tougher than last season."
"I look at a mchedule to see how many tough road games we have," the coach asid. "Our road schedule this season contains eight tough road gannes and last year we only had four."

And last year the Orangemen. only had fout losses also. A \(26-4\) record was good. But this year SU might be very good.

\section*{Laughing last last season}

By Alan Fectean
Billy Drew ciould laugh.
The Syracuse rescue forward stood at the foul line, waiting to attempt the two most important free throws of his life. The Orange held a narrow overtime lead against favored round of the the apening Rerionals last pring with Regionals last spring. With a nationwide audience nervously glued to their. televipions, Drew stood in Louisiana State's Assembly Center. Laughing-

Happily for SU rooters, Drew puiled himself together in time to make both free tosses. Syracuse won the game \(93-88\).

Before last season, opposing players and coaches smirked when the Orange were forced to their bench. But untillosing to the University of North Carolina at Charlotte in the next round Syracuse had the last laugh.

A ., good thing nbout last year,"SU coach Jim Boeheim said, "is that we got to play a lot of people. Our starting players weren't tired near the end of the year.

The first man off the bench for Syracuse was sophomore "Louis Orr. One half of the "Louie and Bouie Show," Orr averaged 9.4 points per game 56.4 shooting percentage. "Orr might have been the most con-
sistent player on the team last year," Boeheim said.

Senior Ross Kindel, who will start this winter, played in all 30 games last year as the third guard. Kindel averaged 5.9 points per game and grabbed 64 rebounds, the most caroms for any Syracuse backcourter. In the Orange's important upset of then 7 th ranked Louisville early in the season, Kovin James came off the bench to put frowns on the faces of the hometown Cardinal fans James contained hot-shooting Wealey Cox in the closing minutes. James' defense against the Cardinal corner man enabled the Orange to come from behind for a \(76-75\) victory.

Permanent fixture
After the upaet, Syracuse moved into the nation's Top 20 to stay. "It's hard to say what was most satiafying about last year"." Boeheim said. "But (the win against) Louisville was real good."
Syracuse's starters proved to be satisfying themselves.
SU got steady play from forwards Dale Shackleford and captain Marty Byrnes. In the Louisville win, Byrnes led the Orange in scoring (17) and rebounding (12). Byrnes' acor ing averaged, like all SU starters, in double figures at 10.6 points per game.

Shackleford, who will play

\section*{'Crystal basketball' reveals challenges}

\section*{By Randy Backus}

November is a month of transition. The last games of the gridiron season and the first encounters of the basketball season are played. Standing between the SU hoopsters this November and an NCAA post-season berth next March are a series of opponents, each with the same aspirations as the Orangemen.

With the first contest of the "77-'78 campaign on the horizon; Coach Jim Boeheim gazed into his crystal basketball and came St: Bonaventure, St. John's and. West Vix
St. Bonaventure, St. John's and. West Virginia rank as SU's
toughest opponents. St. Bonaventure defeated SU in the regular season last year by se. Bonaventure defeated SU in the regular upstan (he loss was avenged in the upstate playoffs).

The Bonnies went on to win the NIT and have Greg Saunders, that tourney's MVB, returning. St. John'a has a highly recruited bunch of freshmen while West Virginia appeara to be an SU jinx. The Mountaineers have won four out of the last five games played against SU.

Cornell, Colgate, Buffalo and Siena provide local rivalry. Siena will be playing the Orangemen for the first time while the others are traditional, tough rivals that cannot be considered too lightly.

Dayton, which has been ranked in the Top 20 by some, will be the first road game for SU and a tough one at that. A tall Connecticut team faces \(S U\) for the first time in several years.
Syracuse is the hoat team for the Carrier Classic, a new tocumament Also taking part are LeMoyne (a small but competitive team), Michigan State (boasting one of last year's top freshmen in Earvin Johnson), and Rhode Island with Sly Williams.
American U.'s strength may be in returning players, while Penn State, the only tearn SU plays twice, is rebuilding and has Ricky Brown. Brown, who along with Roosevelt Bovie was one of the premier freshman centers last year

In what probably will be a tune up for post-season play, SU travele to New Mexico for the Lobo Classic, which features teams from Mississippi State, New Mexico and Vermont

North Texas State and Pittsburgh are classified as "sleepers" by Boeheim. NTS posted a \(21-5\) recond last year while Pittsburgh enjoys good height.

LaSalle han Mike Broolis, another good freshman from last year. Fordham is a young team with seven freshmen and four sophomores Blated to seee action.
After losing to Syracuse last year Temple rattled off eight straight victories. Rutgers and Virginia Tech should provide à tough challenge, with Virginia a "tough place to play," according to Boeheim.
SU will be severely tested in an expibition game with Athletes In Action. ALA knocked off the then top two teams of last year, San Francisco and Nevada-Las Vegas.
Rounding out the schedule are Niagara, which had a good recruiting year, Boston College, with new coaches;, and rebuild ing Canisius.

Boeheim's crystal basketball would not predict the Orangemen's record, siace that would mean he'd be saycing which team would lose and we "go into each game looking for a wina \(^{\prime \prime}\)
Althoingh thereane a fow gapotofin, ahighilyacceiniful yearis anticipated, and according to Boeheim if the Orangemen "play as they are capable of, work sind exicicute, the end of the year will taike care of itaelt!"
as a tall guard this year, scored 11.5 points per game and led the team in rebounding as sophomore. Shackleford sophomore. Shackieford played center mauch of the time his treshman Yrear, so this will be the third posi
as many years.
There was a good reason for Shackleford to move out of the Shackeford to move out of the
pivot. Six-foot-11 Roosevelt pivot. Six-foot- 11 Roosevelt Bowie, who was second on the
club with. a 54.3 shooting club with. a 54.3 shooting percentage. And no wonder, because a shot from a foot above the rim is a very high. percentage shot.
Bouie was also an intimidater on defense.
"We've never had anyone here who conld block shots like Roosevelt (Bouie)," Boeheim said. Rejecting 91 shots, Bonie's true value may lie in the shots he doesn't block.

\section*{Discouragivig business}
"The idea is to keep the other guys from driving down the lane in the first place", Boeheim explained. Bouie's mexe presence tends to discourage guards from trying to penetrate, said the SU coach.

The starting guards for the Orange last year were Jim "Bug" Williams and Larry Kelley, who were both seniors last season.
Kelley came up with two fine efforts in tournament play. He led the Orange in scoring against Old Dominion, in the

The Daty Orange Beationall supplarient
Page 3

Roosevelt Eloule, hare ecoring agminst an overmatched \(\mathrm{Sit}_{\text {t }}\) Bonaventure opponent, played a majer role in dempling the Bonnies in the New York-Sourthern Region ECAC baskethall tourfimment fast March. (Photo by Bruce Johnsen).

Upper New York Southern
Division ECAC playoffs Division ECAC playoffs Which SU won to make the NCAA tourney. Kelley then for 22 againgt Tennessee.
"Bug" Williams proved to be ointment. The quick-footed guard led Syracuge in scoring (14.1), with raany fast-breals baskets and steals.
Another strength the Orange had going for them was a strong man-to-man tenure of Roy Danforth Boeheim's predecessor, the 2 -3 zone prevailed. But with bigger and better personnel

Boeheim stuck with the man-to-man most of the time. "We used the man-to-man 75 percent of the time. It won a lo of big games for us," he said. To be exact, the Orange won 26 contests last year, the most in their history. They lost only four, all away from home, against West Virginia, and UNCC. Even with both starting guards from last year gone, Syracuse is ranked in the Top 20 in almost any poll you can name.
Billy Drew will probably be laughing some more this season.

\title{
Jim Boeheim: tastes include ice cream...and basketball
}

\section*{By Katie Fritz} If Syracuse University basketball coach Jim Boeheim does as good a job in his second year as he did in his first, maybe something can be done about the shortage of peppermint chocolate-chip
It's Boeheim's favorite flavor and, believe it or not, he can't get peppermint chocolatechip at Baskin-riob bins. "The only place I can get it is a scotch
Boeheim's not too wortied about the shortage, though, about as he's not worried about unt as hes not worried abs his the pressures of performing his thousands of Orange hoop fans.

It can't get any harder." he said. "I doh't really think about presgure anyway. 1 just do my job.

It only sounds that simple. Boeheim puts in 60 to 70 hours a week, "just doing his job."

Six or seven hours a day are spent recruiting," he said. "That's what takes all the time. Coaching is the fun part. My job would be very easy if that was all there was to it."
However, Boeheim went on "The more you win, the easier it is to recruit, and we've proven we can win."

The key to recruiting in personal contact "Obviously no one's going to come to

Syracuse because of the the weather, he baid. and stress academics, our record and winning tradition, and the home crowd.
You've got to bea saleaman to be a good recruiter, Boeheim said. "So you had better like sales or get out of coaching."
Is Boeheim a good salesman? The coach smiled alightly. "Ask Roosevel Bouie."
The home crowd is another of Boeheim's favorite subjects. "The student body gives us tremendous support," he said. "Without them, we wouldn't have a home-court advantage. To tell you the truth, I don't really care how many people come from town to see us, or whether they pay eight dollars a ticket. It's the students that make Manley."
What it adds up to is that Boeheim thoroughly enjoys his job. "I always do," he said. "You have to be a fan to coach. and I've always been a basketball nut. Basketball's the last thing I think about at night, and the first thing I think about in the morning.
And what does hig wife of a year and a half think about that? "That was the toughest part of last year," Boeheim admitted. "Sometimes she gets a little tired of it, but ghe understands. That's really the

Meanwhile, if the coach is nervous about the coming season, he isn't showing it. He is, however, cautious about making pre-season predic tions. "On paper, at least, we're a top-ten team," he said. "But that means nothing because there's so many good Eastern teams. It'a ravefied air up there, and it'a been a slow process building up to our present level."
The easy going Boeheim has been a part of that process from the beginning. After receiving only one acholarship offer from Colgate, the Lyons. N.Y., native made the SU squad as a walk-on. Even tually he joined Dave Bing in the starting backcourt of \(a\) team that, in his genior year 1966, went as far as the Eastern regionals in the NCAA tournament.
Following his graduation Boeheirm played in the Eastern League for five years before returning to SU. He conched the golf team for a time. meanwhile earning a masters degreein social science. "Nothing asys a coach can't be a student too," Boeheim said with a wry amile.
He then served as an asgistant under former basketball coach Roy Danforth (now with Tulane) for mix yeara before taking the head coaching job.

\section*{Pitino: expectations run high}

By Craig Weinstein Since graduating from the University of Massachusetis in 1974, (where he started on the basketball team for two become an important firure in college basketball.

Rick Pitino is only 26-yearsold.

Upon graduation from \(U\) Mass, Pitino became a Mraduate assistant for the University of Hawaii basket ball tearn. From there he became Hawairs assiatant coach, and in 1975, when indenty found himself he suddenly found himself as nterim head coach.
Now in his second year at Syracuse University, Pitino is the chief assistant to Coach Jim Boeheim. He is in charge of the defense and recruiting.
Pitino is generally regarded as the best recruiter in the
area. "Basketball is different than any other sport," Pitino said. "Recruiting is done 365 days a year, with the bulic done in the summer.
During the month of September, for example. Pitino and Boeheim are on the road every day visiting potential basketball players. "Right basketball players. Out of the 25 , well probably Out of the 25, we ll probably take two to three to four, depending on the players," Pitino aid.
Last beason the Orangemen switched from a \(2-3\) zone to man-to-man pressure defense. According to Pitino "because the juniors and seniors were used to playing the zone, the team just played average defense last year."
"The best form of teaching defense is repetition. This year we're more patient defensively than we've been. We have the
potential to be a great defenpive team," Pitino added.
The young coach is pleased with the freshmen on this year's squad. "We got exactly what we needed. The biggest surprise has been Danny Schayes. When we recruited him we questioned what impact he would have because of Roosevelt Bouie," he said.
As for the upcoming season, Pitino has "cautious optimism. We expect to be number one, naturally. I also realize it takes a lot of breaks to get there. We have talent but our schedule is tougher."

Most of this added soughness comes from the more difficult road schedule this season. "Where we had all the tough games at home last year, they're all on the road this year. We probably have the toughest road achedule in the country.. Pitino said.
"Last year we said Louisville and Borton College would be key wins to start on a winning season," he added. "We won both games. This year the trame at Dayton and the Carrier final are the key pames."
Pitino added that "Dayton is an extremely tough team to play on the road. They start off \(70,8-1\), every year, with a string of home games. We have to play well to beat them. They have more of a home court advantage than Louigville. If we
beat Daytion it would be a good start.
"If we had Dayton at home it would be a different story. We feel more comfortable at Manley, maturally, where we've gone 80-4 in the last seven years.:
A final word: The basketball team seems to be practicing in recent years. The defanme is cominy along better than ear pected and thio freehmen áre phallenging the veteran for challumging the velerane for atarting positions Chalk np morther one

\section*{Jim Boeheim}
"Basketball was just going before. It was a real challenge big-time when I first got here," to buit up the program the second-year coach said. Manley had just been built and the football tearn had just won the national championship. The basketball team was coming off something like 28 straight losses the two yesms

Most people would say that, for his part in Orange hoop fortunes, Boeheim has met the challeage admirably Now how about that ice cream?

\section*{Bernie Fine}

\section*{Fine: an assistant coach doing fine job assisting}

\section*{By Patti Orgini}

Syracuse University assistant basketball coach Bernie Fine's view of this year's team is totally optimistic.
When asked if he could foresee sany problems with the team, Fine aaid, "None at ail. The coaches and players get along well together and they are the nicest bunch of guys the team has had. They work hard, they have a good attitude...no. I don't see any problems.
How did Fine become assistant coach?
"It was a matter of climbing up," he said. "I played when I was younger and I wanted to keepaninterest in it. I coached the team at Hincoln Junior High, ther the next year I comched IV, then I got the varaity job. I went to school with Jim (Boeheim), and when he needed an assistant, he got me the job here."

What exactly does an assistant coach do? "Assiats the head coach;" Fine said deeply. More specifically, his main job (with the other assistant Eick. Pitino) is recruiting and scouting for the team.
"Ours is a unique sithation because the assiatumt coaches get along so well," Fine asid. "We both do the recruiting along with other thinga like helping to ran the surnmer basketbail camp. planning training-tatule moals and keeping up with the academics of the team."

This year, three of the geme are going to be regionally televiaed (St. John's. Rutgera and Went Virginia), but Fine doernit feel the team will be affected.
"They're not going to play any harder just becaube they are on television," he said. "They have a lot of pride in what they do. and they"re groing to do a good job whether they've on "YY or not.
\({ }^{\text {Tm }}\) Iooking forward to thile year" Fine added. "There is a hopefully stromg incoming class, and with last yearim team they could go farther than last year.
"So far everything has gone great. Diven their grades are grod. The tean's average in about 27 or 2.8 , which migit be the highert team avertge in the achool. Im looling forward to an oubtanding teamon, Fine said.
With optipintal likerthat, no orve ehould donbt the poiver of the Orancemen thin year. It's part's Fixp.

By Glenn Fishler
It won't be the same without the Manley Zoo, but the Orangemen will get three chances during the regular season to show television audiences just what Syracuse audiences just what about.
The Zoo lives on at Manley, but the games, a part of NBC's Saturday eastern regional games of
The first televised game is Jan. 28 at Rutgers, followed by games at West Virginia (Feb. 11) and St-Johns (Feb. 18) While it would be nice to be playing in front of the home crowd no one connected with SU basketball is complaining

One of those happy people is Joe Gallagher, the new assistant director of men's athletics. Prior to accepting the job at SU, Gallagher independently produced and directed bageball and footbal enough, had a contract with TVS which is the packager and producer of the regional NBC Games of the Week.

Gallagher, however, claims no credit.
"I would love to say that I performed some kind of magic in getting the team on three times but it is purely a reflec tion on the caliber of the Grallagher said. "They (NBC Gallagher said. "They (NBC) recognize the fact that we had
a great team last year and are giving us well-deserved coverage."
Gallagher, whose duties include pablic relations and promotion, feels the TV coverage is an important step in the new direction the sports

\section*{The 'Sherking' of duties at SU}

They spend 25 hours a week during the winter around Manley Field House. They're at every basketball home game, just a few feet from the
But they don't make the headlines. In fact, they don't even get a mention in the papers.
They're the basketball managers, a small group of guys who do the little jobs so that the players can do the big ones.
"It takes a lot of dedication and loyalty, plus a love for the game, said head manager Doug Sherk. It must. Being a manager means cleaning the courts, measuring the baskets, dispensing water and towels, and doing a lot of other odd, and sometimes dirty, jobs.
Sherksays the managers, all volunteers are semi-fraternal 'They put up with a lot of stuff," said Sherk.
White Sherk and managers John Green, Rob Stronach, Mike Gosselin, Dave Gamache, and Rueben Rosenfeld get into the games free, they don't always get to During the game, they're busy During the game, they're busy keeping statistics and running back and forth from the locker
room to make sure everything room to ma

Unlike nome campus activities which help students in their fields, being a basketball manager doesn't lead to a career. Then again, being a manager might lead to something completely different. That's what happened to Bernie Fine, an SU basketball manager in the days of Dave Bing. He'a now one of coach Jim Boeheim's assistants.

\section*{Orences will bask in NBC}
program is headed. Another important step, Gallagher feels, was his hiring:-
'The fact that the position I havernition on the one is recogaition on the part of the

University that there are more things that could be done to promote the success story of the athletic program Gallagher said
Gallagher also feels "the Pr \(x+2 x+2\)
mere fact that they went to the trouble to seek somebody who is well experienced is evidence definite university has a definite committment to expand, the athletic program
A big step forward for the basektball program would bea nationally televised Sunday game on NBC in 1979. While Gallagher wouldn't commit himself as to a definite opponent he did say Syracuase "would play any team in the country:" Gallagher said die cussions are in progress to try: to get a few SU road games televised on local TV stations.

Jim Boeheim the coach of the Orangemen is also looking forward to the televised games and said the biggest advantage is the exposure this will give the team. "The TV games will bring added ex-
poaure which leads to in creased recognition which ghould help our recruiting," he

Boeheim, however, remains cautious of the affects TV might have on his team. "We better work hard becanse people will be watching us and we have to realize that exposure doesn't put pointa in the basket, that's up to us," he said.
"It will be up to us to show the TV audience what we can do." Boeheirn added. "We probably won't be on as much in the future."
An added incentive for the team is the fact the last time they played these teams on the rad was two years ago and SU lost to each team. No one however, feels history wil repeat itself this year.

SU's Roospyelt Bouie gets ready to shoot against Rutgers in last season's SU-Rutgers game, an NBC eastern game of the week. During the upcoming regular season \(S U\) will appear on \(T V\) three times. (Photo by Bruce Johnson)

\section*{The fast forwards: life on the move}

Barry Lambergman
and Audrey H . Lipford
It's what's up front that courts.
Without Jimmy Williame and Larry Kelley, the Syracuse Orangernen will have to look "forward" for a winning
season. SU"s opponents will either get season. SU's opponents will eitherget Byrned by th
the defense.
"The forwards were the strength of the team last year," said Coach Jim Boeheim, "and they"ll be the strength again this year. Our three best players are at forward and they'll be even stronger and more experienced this season. I don't think they have any weaknesses."
The Orangemen will be playing a three-forward offense this year and Boeheim expects a lot of movement in the forward positions.
"It'll be hard to label our forwards as guards or forwards," Boeheirn said. The Orangemen front line features veteran starters Dale Shackleford and Marty Bymnes, sophomore Louls OTr and super-subs Billy Drew and Kevin ames.
Shackleford, (6'6", 200 pounds) averaged 11.5 points per game and led the team with 8.1 rebounds a contest last year. Senior team captain Marty Byrnes ( 67 ', 215 pounds) averaged 10.6 points and 7.6 rebounds a garne while the slender sophomore Orr ( \(6^{\prime \prime} 8^{\prime \prime}\), 185 pounds)
averaged 9.4 points a game while hauling down 6.5 rebounds a contert.
Without last year's jack-rabbit guards, the Orange will depend more on speed from the other positions and the forwards seem ready.
"We"ll have to get up and down the court as quickly es possible," Oxr said.
"Our forwards provide us with a lot of flexibility," Boeheim added. "We could put either Shack or Drew (Bill) at could purd:

This putis me... further from the

Tearn captmin Marty Byrnea (44) drives to the basket in a game agalnst St. John's leat memon. Coach 1 min Booheim Calls Byrnes "O Varty himseason. (Ptroto by Bruce Johnson)
basket than before," Shackleford said. "I'm definitely a better inside player than an outside.
Shack spent his summer in Syracuse working on his outside shooting and ball handling to prepare for the position switch.
Marty Byrnes also plays a strong inside game, but he doesn't like to etereotype his role in the forward slot. "It's all a persomal adaptation to the position," he said. Boeheim thinks Bymes can adapt to almost any situation. "He's got experience, strength. .. everything to be a great forward,: Boeheim said. "He's probably the begt forward (to play at SU ) in 15 years."

After a summer of personal practice, together with a work at a Rochester basketball camp, Bymes, already a consistently strong competitor, has made tremendous mprovement, par ticularly in shooting. Boeheim said such a marked improvement in a player's shooting between his junior and senior years is unusual.
While the solidy buil Byrnes seems a natural for the rough front line game, long lean Lovie Orr is continually surprising in his ability to be effective under the basket.
"Orr is probably the best offensive player on the team," Boeheirn said. "He was the most productive player in points a minute" as a substitute, the coach added.
"I just do whatever is asked of me," Orr said. The slender forward has gained 10 pounds since last season, but Boeheim still feels Orr will need to gain more weight to play pro ball. "He's strong enough for college basketball. . he can get the job done and that's what he can get the job done and
When Orr is not providiag the offense the Orange need, Billy Drew is offense the Orange need, Bily Drew is of the year we started seeing more of the year we a started seeing more the coach put me in with the idea of the coach put me in with the adea of breaking the zone. When you are in the game earlier you get the feel of the game after a couple of times up and down the court.
While Drew is the man Boeheim turns to when he needs a few quick points, Kevin Jarnes, the Orange gwing man, is the team's defersive specialist James' strength is on defense, but he doesn't like to be classified as a specialist. "It depends on what the coach wants me to do, but it doesn't depend on the same situation. That

would limit your playing opportunities."
Each member of the front line should have a chance to make use of his alents during some of the Probably the most crucial facto Frs season's schedule is its difficult hoad ceames matching SU with such basketball powers as Rutgers, St. John's, Dayton and New Mexico on these tearns' home courts.
"The hardest part of the season will be the road games," Billy Drew noted "If we do well there, we should be used to playing on the road by (post-season) to playing on the r
As Dayton is at the top of the schedule (second game on Nov. 28), Shackleford notes, "We have to win (against Dayton) to set the season. Every year every team gets better,
very game should be competitive.
New Mexico State, hoat of Albuquerque's Lobo Classic, which will feature SU, Mississippi State and Vermont probably has one of college basketball's top freshman centers in Ricky Brown.
"They (New Mexico) won 20 games
starters back . . . and they've never los a Christmas tournament," Coach Boeheirn added.

The Orange will host their own firs tournament, the Carrier Classic, Dec. 3 at Manley, featuring Rhode Island LeMoyne and Michigan State
"It should be a first-class
Boetheim said of the tournamenent Boeheim said of the tournament. "It exciting to have your own tournarnent the own." way to win is to have you own."
"It"ll build publicity locally," Dre commented. Shackleford added "Everyone's wanted to see SU plas LeMayne

With single, more comfortable seats replacing wooden bleachers, Manles has a totally "new" look.
"It definitelymakes the arena nicer," Drew said. "It should attract mort people (from the general public) since they're assured a seat ... they wont have to fight for one."
"Now it's a baskethall arena before it was a Fieldhouse," Coact Boeheim summed up.

And the arena, along with thes Orangemen, are raring to go.

Rebound roughness
}

Aithough it appears Roosevelt Bouie (50) is about to mug an unsuspecting Canisius player, sion of the basketball for the Orangeman. Marty Byrnes (44) and Bouie are two big reasons why SU recaivad a number five rating in a preseason poll of Basketball Weekly. (Photo by Bruce Johnson)

trated on defense and rebounding and Egured if I hustled, I would get a few buckets here and there.
Bouie and Shackleford led the team in rebounds with an average of eight a game, and Bouie blocked 91 shots in 30. games.

Defensive skills
"His assets are definitely his defense and rebounding, and it is because of his mobility and strength," Boeheirn said. \({ }^{\text {"We tend to play better defense when }}\) Roosevelt is on the floor because Roosevelt is on the floor because
everyone can overplay more and not everyone can overplay more and not
have to worry as much about getting have to worry as much about getting
beat by their man, because they know beat by their man, because they know
Roosevelt is underneath the basket." year. Shackleford, said, "He helps us out tremendously underneath the basket and gives us more confidence when we play defense."
Louis Orr, the other half of the Louie and Bouie act, agreed
"The important aspects of his game are his defense and rebounding," said the forward. "He is important simply because he is our intimidator and he gives us alot of power inside. He also has fine offensive moves.
Despite his not so impressive scoring statistics, Boeheim also feels that Bouie is a solid offensive player
"The reason his statistics don't look too good is because we just don't go to him that much," Boeheim -aid. "We plan to go to him a little bit more this year but we don't like freshmen and yophomores to carry the offensive bophom.
"He has been working very hard in practice to improve his offensive play," Boeheim continued.

Happy hooker
The big man has been toying with a hoak shot on the side during work-outs.
"It's something I would like to have in my repetoire in case I need it," Bouie said. "I'm trying to get more into the offense than I was last year, but I still feel that I have to work on all aspects of my game.
The offensive potential exists, and was reflected in Bouie's field goal percentage last year ( 54 percent), which is good enough for second best on the team.
While Boeheim cited Bouie's quickness and mobility as his key assets, the coach also stressed the im . portance of Bouie's attitude.
"Roosevelt has a good solid attitude," Boeheim said. "He never quits he plays hard all the time and he never gets upset if things don't go his way.
"He is not a holler guy by any means
he just goes out and does his job and leads by example," Boeheim added.
If I miss a shot or do something wrong, 1 just tell myself to bear down and try harder next time," Bovie said
Bouie likes the looks of the coming season, but refuses to set any goals for season, but refuses to
"We are getting better day by day," Bouie said. "I don't like to set goals because you usually set goals that are reachable. I want to get as much as I can get and I think the team feels the can get and
Has the glare of publicity affected his
play?
The fate of the Orangemen's season will most likely rest on Bouie's broad If anything this so," Bouie said slowly. shoulders. But unlike Atlas, the If anything, it makes me want to play harder." sophomore center can slam dunk the ball on the end of the fast break

\section*{Page 8}

\section*{SU Guards}

\section*{Putting it all together}

By Drew Schwartz
The guard situation on the Syracuge basketball team is like a j̈gsaw puxzle. If Coach Jim Boeheim can put the right combrinution together, the picture should form another 20 win season for the Win beas
The losses of Jim Williams and Larry Kelley are making it en boeheim to find his guards. Both averaged more than ten points per game last year and the speed of Williams enabled SU to get many easy points on fastbreaks.
"Wex ve lost speed and ex" perience," Boeheim said. "These are the two greatest losses."

However the guard position is not as bleak as it first may appear. First, Syracuse uses a oneguard offente. And more importantly, there is experience and depth at the point-guard position.
Senior Ross Kindel provides the experience. The pointguard for the past two years because of his excellent ballhandling and passing skills. Kindel led the team in assiats last beason with an average of three per gane.

The three-time letterman said "if I have an open outside bhot Inl be looking to take it more this year. That way,
they'll either have to concentrate on the big men muscling in low or give up an outside shot."

The experienced senior seems unaffected by the great expectations of Syracuse's up coming season. 'I don't think cill feel pressure as much (as the less presture as much (as the less experienced players) because I did play a lot last year and t

Defend the defense
Besides his poise on the court, Boeheim described the senior as a good defensive player who rarely makes mental errors.
"I can gamble a little more on defense this year," Kindel said. "This is because our big people are there to back me up if a man gets by me. And I'll be able to help our younger players recognize situations and how to defense them."
Also adding experience is 6'4" senior Kevin James, who is a good defensive player. Kindel and James should help the young guards adjust to the college game
One of the highly regarded recruits who can play pointguard is freshman Eddie Moss. Moss brings impressive credentials to Syracues. He averaged 11 points, seven assists, and three steals per game

Hal Cohen wortce for position mgpirest a Rutgers opponent layt tebson. Cohen, a big su hope for the gexard postion was named luret. (Photo by truce Johneon). Itreet. (Photo by Bruce Johnson)
at Power Memorial High School in New York City.
Moss feels the strongent aspects of his came are "defense and hitting the open man serving as a playmaker." Boeheim agrees. "Moss is a good ball handler and passer," the SU coach baid. "He is an outstanding leader, eapecially for a freshman. Things don't bother him on the coart. Hie has relatively the best potential to be the beat defensive player on the team."

Another newcomer to SU brskethall is junior transfer Mark Cubit. Cubit came to Syracuse from the University of Vermont where he averaged 12 poinis and 4 asisists a game. He sees sharp contrasts between the two basketball programs.

Syracuse has a bigger-time program," Cabit said. "There is a lot more pressure on the ballplayers and a lot more talent on this team. This is a more competitive situation. Also, Vermont was more of a ball-control team, whereas here it's a running type game, which I like."

Elevated evaluation
Cubit's biggest assets are the fact that he is a good passer and shooter, Boeheim said. "He has good control of himself on the floor and may. be a point-guard."

Sophomore Hal Cohen is yet another player competing fora kuard position. Cohen didn't see much playing time last year while adjusting from a small high school to the intense competition of Division I basketball.
"In college the players are a lot stronger and quicker," Cohen said. "The biggest guys in my high school league were about my size. It took me a little while to adjust.'
The atrongest part of Cohen's game, according to Boeheim, is his shooting. Boeheim, added Cohen must Boeheim sdded Cohen must
improve his quickness and improve fors quickness and defense for him to play more,
The fifth pergon that can play the point-guard position play the point-guard position is freshman Marty Headd, a familiar name to those who in the Syracuse area. He averaged 18 pointa a game and is known for hia outside shooting capabilities. "He needs time to adjust," Boeheim said.

Although it appears there is enough competition for the guard spots, Dale Shackleford will play the guard position

Ross Kindel (20) brings experience back to this year's team in the backcourt. Kindel is the prime candidate to fill SU's pointguard position. (Photo by Bruce Johnson)
defense.
"Idon't think ray role is go there" Although Boeheim ing to change that much," the recognizes the losses of versatile junior aaid. "I'm not going to be shooting from the outside any more or any less than last year. But on defense if I can play a small guard, it if 1 can play a smang guard, it haven't had much trouble haven't had much trouble playing someone maller, but guring the season 1 may run up againstag,

\section*{Defensive domination}

Besides Shackleford's quickness, the move will perhaps enable the Orangemen to improve on defensive rebounding.
"It will help the team because as a guard on defense III be able to get rebounda near the foul line area, Shackleford added. "This is something we ve lacked in the past becauge they didn't have
somebody my size playing recognizes the losses of the team will be able to adjust and adequately compensate for their departure. "Every year you lose something and gain something when seniors leave, freshmen enter, and others beconne more experienced," he said.
The second-year coach is plessed with the way this season's guards have progressed in practice. "They've come along very well in preseason," Boeheim said.
The guards will prove to be a little better than many people think," he added. It's hard to argue the logic of a man whore team won 26 games in his first season as coach. If the pieces of Boehein's guard puzzle fall into place, his team's artistry may resemble Rembrandt's.

\section*{Women's hoon}

\section*{Orange are eager}

By Audrey FI. Lipford With her field hockey team's season successfully tucked away, Muriel Smith has in her midst yet another team of potential greatness. Not only House be new" Manley Field Orangemen's basketball team, but the women's basketbali team will probably also be teaming its mark in the new leaving
arena. "The kids are really gung-ho and enthusiastic \(\ldots\) they're working hard," Smith said of the practices to da
Three starters return from last year's 12-5 squad: sophomore forward Vicki Smith, sophomore guard Theresa Quilty and senior guard Iman Al-Bahar. In addition, there are two freshmen from the Syracuse area holding basketball scholarships with the Orangewomen: MarBishop Ludden High School and Sue Scholl of Skaneateles High School.

We have more height in the forward position," Smith said. "This should help us with rebounding and fast breaks." Smith, who obviously likes a running game, added,

Last year, although the Orangewomen finished the season commendably, the squad was largely one of freshmen, Smith said. Experience should be a big factor this season in guiding the Orange to an even better year.
Lack of depth may be the only major problem on Smith's hands. Unfortunately this year's basketball tryouts produced one of the poorest tur nouts the women have had.
"The kids know there are girls on scholarship, and they get discouraged," Smith said. Also, two members of last season's squad are currently season's squad are currently ineligible to play becalies.

However, two members of SU's women's volleyball team, Eileen Smith and Kathy Butler, will be joining the women's basketball team. "That should help," Smith said.

As eligibility for post-season play depends not only on number of games won, but on
the quality of a team's opponents, the Orangewomen are matched against teams that should enhance their tour nament opportunities.
"Last year's schedule was sood, but not the greatest," she said. "This season's schedule is better for the tournament.

We have to play well against the stronger teams (to qualify) for the tournament. We play enough of them... we have every opportunity," Smith added.
A Christmas Tournament, to be held Dec. 17-18 at Manley, illustrates the caliber of the Orange opposition. Long Island University, Brooklyn College and powerful Oneonta will join Syracuse in this event.
"It should be an excellent tournament," Smith said. "It'll give us an idea of where we stand.'

The Orangewomen will also be participating in the Manufacturer's Hanover Tournament, which begins Jan. 30 and concludes Feb. 5. This tournament features eight upstate teams and eight downstate teams in various rounds of play.
Smith hopes the newly constructed Manley arena, along with the team's improved schedule, will draw more spectators to the games.

We're going to promote women's basketball at the tournament (Christmas)" she said. "And we have a lot of home bames in a row, so hopefully people will come to one and continue to come." In past years, the team's home games have been scheduled so
far apart public support tended far apart public
Smith noted one major problem with playing in Manley.
"There are no facilities for women," she pointed out. Usually, both the Orangewomen and the visiting team use Manley's visiting team locker, room which doesn't provide for much space.
"I don't know how we're going to run the tournament with four teams," Smith said.
But with locker rooms being the team's biggest problem, Smith's season seems particularly promising.

\title{
A new look at Manley
}

When I was recruited here in 1962, I was told that he basketball court would be moved to the certer of Manley Field House, and that other major renovations would be made within a few years. Welld call a first-class facility.
-SU Basketball Coach
etball Coach
imoeheim

\section*{By J.T. Brady}

An old proverb states, "Better late than never," and when the Syracuse University Orangemen open their 1977-78 basketball season, 9,500 spectators will be able to view evidence ahowing the truth of this maxim. Those fans, expecting to see last year's ugly duc kling field house, will be startied by the renovations that have transformed Manley into the swan of eastern collegiate arenas.

Rutgers recently apent \(\$ 8\) million on a new build ing in which only basketball will be played,' Eoeheim said, adding, "for \(\$ 1\) million, we have taken, at best, a fair facility, and turned it into a first-rate building capable of accommodating a variety of ports and events
Probably the most significant improvements in Manley Field House are in seating. Last year'e capacity of 8,200 has been increased to 9,500 , and proportionate increases in the decibel level can mean othing but bsd news for this year's opponents.
Perhaps even more important to the fan is the
higher quality of the new seats. Those who are still removing splinters from their posteriors after en countering last year's wooden bleachers will find relief in 6,500 folding plastic chair seats, an increase of 5,700 over last year.

\section*{Cheerful cheering}

As far as student seating is concerned, cheering can be done in greater magnitude and comfort although in aome cases it will alno be done from a greater distance. Total student seating has been increased by about 300 (to 3,761 ), 1,534 of which are chair seats. "The proximity of student seating to the floor on the side court is about the same as last year although it is somewhat farther away in the endizones," observed les Dye, SU athletic director. Assistant Athletic Director Joe Szombathy said he felt student seating renovations are a great im provement. "Laat year's average student turnout was alightly over 2,000, and all these students bat in the Blighthy over 2,000 , and ale these students Bat in the student chair seats ( 904 in the west court section and 630 in the north court tection) will accommodate 75 percent of the students at a given game.

Seating elevation will improve everyone's sight ines this year. This is welcome news to those wholast year found themselves perpetually seated behind someone who could have been Roosevelt Bowie's twin
The fact that seating can now be foldedagainat the
wall electronically rather than maninally ohoura safe SU time and money. The track can be more readily reed for use, and the number scheduled at the field house can be increased.

\section*{Not only that}

As significant an the seating improvementa are, they are not the only renovations. The court has they are not the only renovations. The court has and nove runs north-oouth instead of east-west. The and nove runs north-eouth instead of east-west. The court's appearance has been enhanced by a new paint job, including a 4-foot orange bord

These changes, together with heating and lighting improvements, make Manley the largest on-campus basketball arena in the East.
All membera of the SU basketball program are ecstatic over the "New. Manley:" Dye view the renovations an part of the "growing-up process" of the athletic program. "As recentiy as 1973-74, our basketball conrt consisted of wooden planks over a dirt floor," he recalled. "Athictes and spectators alike were overcome by dust rising from cracke between the planks, and asthmatic attacke were not unusual

Perhaps the best part of the removationa is the fact they were accomplished writhout tuition or ticket price hikes. Dye explained, " \(\$ 360,000\) of the funding was attained from season ticket holders, who made a three-year commitment to pay \(\$ 50\) per seat per year. He adas that the remainder of the funde came from donations by aiumn, local indugtry and friends of

\section*{Favors the fan}
"Ninety percent of the total benefits from the renovations will go to the fan," Boeheim said. The remaining 10 percent, he added will be received by the team in the form of recruiting benefits and what is goped to be an even greater home-court advantage than in the paist.
Senior playmaking guard Ross Kindel said, "With che seating here now, we have as good a home-court advantage as there ia in college ball." Last year's captain, senior Marty Byrnes, echoed this sentiment, but added, "The crowds have been so vocal and supportive in the past, it's hard to imagine them being any better.
Senior sharpshooter Billy Drew, who came to Syracuse last year from Notre Dame, noted, "The renovations definitely add a touch of class. Manley now certainly compares with the arena I played in at Notre Dame.
Boeheim said he hopes all 3,600 student seata will be filled for each game, adding. "The stadents are our major advantage at Manley. We don't win withant hem.

One thing will be certain before the opening tap-off this year. The fans will be the real winners, with an opportunity to view what maybe the East's best tearn in what may now be the East's best tield house. The only losers in the house will be the Orange'sitop
ponents - that's one thing that hann't changed:-

\section*{The Manley Zoo; vulgar, volatile...}

\section*{By Dave Stern} During a Syracuse home basketball game last season, Coach Lou Carnesecca of St . John's was pelted with paper airplanes and complimentary Alka-Seltzer tablets.

Who cares? fl?
Syracuse Athletic Director Lea Dye was the target of students chanting profanities before the Rutgers game.

So what? t?
The assiatant coach of St. Bonaventure was hit with softball during the ECAC playoff game in Manley Field louse.
Who's hefl?
Some opposing teams have cropped - or have threatened to drop-Syracuse from their Bhedules.

\section*{Big deal? ?}

Syracuse backetban fans could be the mont enthusiastic lans in the nation. However, the athletic department does conader thear enthumagm:-a
"big deal."
croses the we are considered vulgar and volatile then more crowds" Dye maid. "We like to see enthuaiasm, but it doesn't have to be vulgar."
Moest of this criticism is directed townand the famoun, and infamoue Manley Zoo. This Erraup of mtudent auper fans han gained a momewhat fans has grained a commowhat bad reputation becaute of vulgarity.

Lant year the Zoo wras jotined by a now exoup of ftrademtereap porters crowi, whe kennei ceceived
mention on NBC's garne of the week and in Sports Blustrated, is a group of barking, howling students who have taken a somewhat canine approach to intimidating SU opponents.
With the seating renovations in Manley. Dye has positioned the student sec tion - and the 200 - behind the Syracuse bench instead of behind the visitor's bench.
"I believe that this will create a favorable response from the atudenta." Dye eaid.
What can be dione to stop students from throwing dangerous objectat

Get the riot squad
"The officiala could help.". Dye said, "but they are not in charge of crowd control. We hisve had problems this year a football games. We will have to increane security at gamen if chese incidents continue.
Conch Jim Boeheim, on the other hand, evaluated the fans' bohavior as "excellent. I didn't see any real problems lant year," he said.
"Of course, we are againat throwing things and abusive language." Boehoim anid, "but 90 percent of our homecourt advantage if the studente.'
"The fans in Syracuse were the most enthumiastic fans when I was a player also," Boeheim maid. "I would like to Boehears asid. in all 3,700 actuderat meath, becmues our advnntar inn't the courrt lights or ofincial. It is the Manley Or ofin

Aithouyth the 200 may help thy toum om the courtititgive

It hurts our opportunity so schedule good tearas," Dye said. The University of Mas archusetts and Bucknell have withdrawn from the Syracuse schedule in the past few years because of the 200

St. Bonaventure, a Syracuse rival, has been treated roughly at Maniey, but they are still on the schedule.
"It. in a very intimidating crowd,", said St. Bonaventure coach Jim Satalin. like the fact that they are vocal, but come of the language is unnecessary.

Bonnie boosters
Satalinimalizes that the fans in Olean don't exsctly resemble a crowd of people at a wake ither. The crowds in the two arense are the londest I have heard," he-said. "We- play aowhere elme where the crowd plays as mach of a role as in Syracuse."
Satalin belfeves the Zoo does not have as much of an effect on mn experienced teain, but it can help or rile soung team.
"We have a good rivalry," he relations had to be severed because of the fans. It hamn't gone that far yot"
What is the actual effect of the Zoo on the players?

Syracuse semior forward Marty Byrnce aaid the 700 hailpe the team with ita anhalpe the team with ita enfoel the support.

\section*{Basketball addict ready to 'shoot up'}

A special thanks to all the Marshall Street merchants and campus organizations for their support in this 1977 Basketball Supplement. 21. \(\$ 4\).

Jack Murray, Syxacuse Iniversity's altimate basketball fan, is going to extend his amazing travel schedule this Feason.

For the past seven years, Murray has been chartering busen and planes to college towns all across the nation to follow Orange hoop fortunes.

When I was a freshman, got to know Jimmy Lee and Rudy Hackett in some of my classes," he said. "I have always been a basketball fan and went to my first away game at Niagara that year and loved it."

Since then, Murray has been to 139 of the past 140 SU games. The one game he missed was two yeara ago when a snowstorm kept the mobile Murazy stuck at home in front of the television.
This year Murray's road show will travel to every away game on the SU schedule, including a special journey by bus to the Lobo classic in New Mexico.

We've worked out a great deal with Greyhound. Four days and three niehts and front row meats for only \(\$ 145\)," he gaid.

While Murray's been on the rond for geven years following the Orangemen he bas been leaving his homeworis home. *'ve changed my major from poly-sci to buainess to syom poly-sci to buainess to bystems analygis to basket student. "But somehow, when basketball season rolle basketban season rolla around, I always.
six incompletes."
Murray's looking for fellow travelers, especially to the late season contests against St John's and Rutgers.
"If we can get some people excited about going down to those games now, we can buy a lot of tickets and take Bix or seven busloads down," he said. "That would look real good on television."
If excited, call Murray at 488-5717.

Students with Athletic Activity Cards may pick up their tickets for the Cornell basketball game untill Wednesday, Nov. 23 at 5 p.m. General admission tickets will be on sale for gtudents without cards and the public starting Monday, Nov.
Tickets for the Carrier Classic will be available to students at a \(\$ 3\) discount. They will be on sale at the Manley Field House ticket office on Nov. 21, 22,23 and 28 for \(\$ 7, \$ 6, \$ 5\) and
Tickets must be purchased as a series ticket to both nights of play. Tickets to the Carrier Classic are not covered by the Athletic Activity Card.

The long-mwaited reiophone dinectorias inctude overything but the etudente* phons numbers. A Fupplement to the directory, which willist atudente' Iocal numbers, will appear next weok. Glen Ellman/Photo

\section*{SU to supplement directory}

First edition lacked students' campus numbers

\section*{By Thomas Coffey}

A supplement to the 1977-'78 Syracuse University Telephone Directory will appear "sometime next week, according to Joaeph A. Tatusko vice president for business management.
The supplement is necessary because the directory, which was distributed Nov. 18 to studenta living in dormitories, does not contain students' local phone numbers. "The purpose of the directory is to help students contactone another locally,"said Harvey H Kaiser, vice president for facilities administration.

According to Kaiser, when the computer that printed the directory received the code for phone numbers, it printed out atudents' permanent phone numbers rather than their local ones.
This error, Kaiser continued, was not discovered until the directories arrived at SU the week of Nov. 14. According to both Tatusko and Kaiser, the directory was supposed to be proofread, but the proofreaders did not catch the error.
ding to both Tatusko and Kaiser, the directory was supposed to be proofread, but the proofreaders did not catch the error

This supplement is going to be proofread very closely," Tatusko said. "The original directory was
aupposed to be proofread, but it wasn't done carefully enough, and that's how the final error mpeared in print.
The directory also has no listing for student organizations. The phone numbers for Eroups such as Student Association and University Union cannot be located in the directory. Tatuako said he did not know why atudent organizations were not listed, and that phone numbers would appear in the supplement
In the Nov. 21 issue of The Post-Standard, Tatusko was quoted as saying the cost of the supplement would be "prohibitive." However, yebterday he said, "I don't think it (the cost) is prohibitive." He said he did not know what the final cost would be.
SU will pay the entire cont of the supplement, Tatuako added. He said the original advertisers in the directory would be included in the supplement at no cost to the advertisers.

Tatusko said he did not know if the advertisers were displeased with the directory. Advertisers deal with the printer, he explained, not with SU. 'I don't know the name of the outfit" that printed the directory, Tatusko said.

\section*{Faculty conc/udes talk on A\&S plan}

\section*{By Liz Rathbun}

The faculty of the College of Arts and Sciences has concluded diactasion of the Stani dard Plan. The entire plan is ready for adoption at next Monday's meeting.

The Standard Plan containe 32 motions which have been simplified into five major groups. The faculty discussed and amended each group separstely. A previous meetacademic concerned with re courses put forth by the plan. Undler this, courses are put into the categories of humanities, social sciences, or natural sciences and mathematica. The meetings of Nov. 21 and 28 moved nwiftly through the remainder of the plan.

The Nov. 21 meeting began with a conflict over wording. The Standard Plam states that "elusters in the Social Sciences Division shall include the equivalent of at least one course dealing with caltures and civilizations over extended periods of time."
An amendment was moved

\section*{UU postpones election}

With only one gigned petition returned 12 days after the geheduled application deadinine, Dniveraity Union has decided to postpone its Dec. cecided to postpone its Dec external chairpersons until external chair
Lymne Milheiser, UU internal chairperson, said unternal chairperson, said
that petitions for office that petitions for office "probably will be available
in the beginning of in the beginning of February and the ele
Theld in early March; cil meeting tomarrow at 7 prm. in the Student Center, when "a lot of proposals and alternatives will be toseed around," Millheiser maid.

Until an election is held, the incumbent internal and external chairperaons may have their terms extended until the new people take office, she said. The extension of office would be approximately one month, whe added.

An for the effect such an extension would have on extension would have on said that she"assumes we'll said thatshe assumes we m figure out a monthly payment," based on the
amount of the stipend and amount of the stipend and length of office. Shie pointed
out that in the past when out that in the past when people have reaigned office they were paid "that portion of the atipend for the time they served."
by philosophy department chairperson Stewart Thau to change the wording to "gome of the major periods or developments in the history of western civilization:" The original wording was considered too broad by some, and it was thought necesaary to define the education's first step as teaching about western culture before touching on others. Clyde Hardin philosophy professor. sugrested \({ }^{\text {pour }}\) phdergraduates are pathetically uneducated about their western ducated.
Those opposed to the amendment said the college should not impose areas of study on the students. This argument was accepted and the motion to change the wording was defeated.
Debate moved to the second motion covering basic and con tinuing skills in Englinh. This time, discussion was centered on essay writing. The plan required two in-class essays of 400 to 500 words and two out

Two stop bigite and two mtop bhand aigns were installed on Univernity Avenue Nov. IB by the Syracusp Department of Tramsportation in response to a request by Student Association and Syracuse Univeraty Safety and Security. (Photo by Glan Eltman)

\section*{Groups' efforts get stop signs}

By Marmha Eppolito
The combined effort of Student Absociation and Syracuse University Safety and Security have resulted in a three-way wtop at the cormer of Univeraity and Waveriy avenues.
At a cost of about \(\$ 200\) two stop eigns and two stop ahead signs wera inatalled Nov. 18 on University Avenue.

John C. Zrebiec Ir., director of SU Safety and Security, requested in mid-October that the Syracuse Department of Tranaportanion survey the corner to see if the need for a traffic light ex. isted. He said his offisce had received "'numerous complaints of accidents und near misese."
Zrebiec said Rick Margolius, SA vice president of atudent programe, and Scott klein, vice presidemt of university/community relations, asked him to request the survey. He added that he personally watched thecorner for a few days and that as a result, he agreed with a few days and that
the survey nequest.
According to the aurvey, there averaged 12 accidents a year at the intersection of which about cidents a year at the intersection of which about geven are rig intergection by the tranaportation made at the intersection by the tranaportacion
department earlier in the semester, alons with department earlier in the semeater, alons with
volume count made in the vicinity, fhowed volume counte made in the veixity, howed that 70 percent of the vehicles enter the intermec tion on the Univertity Avenne approach.
Jame Nepoleons, city trafice ungineer, recommended a propothal Nov, 15 requentin? the thxeo-way stop and a nanding rod light

However, the recommendation for the light was denied because of ingufficient furds, Napoleon said yeaterday.
He added, "There is a need for a flashing red light at that intersection but is isn't severe enough for us (the transportation department) to go down to City Hall and get the money."
Napoleon eaid it is questionable whether installing only the stop signs was the best solution. The department will tmmmarize the situation in January or February and react to its findings, he gaid.

If there is atill a need for a flamhing red light then one will be installed, he added. When the new budget goes into affect in Jarnuary there will be the necessary money for a fianhing red light, hesaid. A traffic light costs from \(\$ 10,000\) to \(\$ 12,000\). Napoleon added.

Hesaid one of the factors to be looked into was whether the number of rear-end collisions increasea aignificantly. With any lind of traffic atoppage control there its typically an increate in the number of rearend collisions, Napoleon aaid.

A 700 to 800 signature petition requesting a trafic aignal at the corner and a telegram on behalf of the SA Avembly urging Commiagioner Raymond M. Storto to approve Napoleon's proponal wexe presented to him by Kein within the last fow weelcw. In esrly \(O\) c tober Margoling sent Storto a letter requedting a light at the intersection.

\section*{SA Assembly asks SU to}

By Mergha Eppolito A resolution diaggreeing policy of paying subminimum wages to its studentemployees after Jan. 1 was passed at the Student Aspociation Assembly meeting Mondsy night.

The resolution, proposed by Rick Margolius, vice president of etudent programs, almo requesta that accommodations be made now to give studentsa raise to meet the new howr which will go into effect Jan. 1.
Margolius asid yesterday. that he will introduce a resolution at the Dec. 14 University Senate meeting asking for its
support of the aseembly's support of the asaembly"i
action. He added that he will action. He added that he will
request the Benate budget
committee to make provitions now in the univeraity budget for the minimag wage increase on Jan. 1,1979 . SU is applying for permission to pay stadents 1029 of the federal regulations governing the Wage and Hour Governing the Wage and Hour loyment of Full-Time Students at Subminimum Wages Section 519.11, which permite a university or college to pay 85 percent of the minimurn 85 percent of the minimum wage, according to Marcolius. Margolius said, "SU has a moral obligation to pay the minimum wage and students Frank mimum wage.
Frank Saurman, deputy director of Einancial aid, said 'The university cannot absorb

che increase in cost. Mamaid it would cost SU about \(\$ 250,000\) if it were to pay the new minimum wage in January. According to Margolius, that in only one-fourth of 1 percent of the university budget.
"The new law was passed with workers in mind, not etudente" Saurman said. He added that SU is now applying for the exemption butthat it is "almost automatic."
The assembly also approved another resoluition proposed by Margolius suggesting that SA pay all its employes the new minimum wase. The reso lution requested that the finance board investigate the legalities of such an action and to report back to the assembly no later than the firat January asserably meeting.
The recommendations of the financial aid subcommittee were passed. The proposals suggested:
Fintudents serve on the Financial Aid Awards Cornmittee and the Financial Aid Appeals Committee;
the financial aid office periodically publish a newsletter;
that a statement be put on the award letter envelope informing recipients of the time limit:
eevery student on financial aid meet with his counselor at least once a semester.
The recommendations were based on an investigation of based on an investigation of and financial aid hearings conducted by SA. The conducted by SA. The recommendations will be
presented to the financial aid presented to the financial aid
office and the Univeraity Sifice and come Univeraity admissions and financial aid. A proposal that SA not publish. the Orange Aid, the freshmen yearbook, or any similar publication in the future was defeated by a \(30-27\) vote.
Food Service 25 cents coupons can now be used at the Stident Center with the exception of alcoholic drinks, Margolius said. He said his subcommittee is investigating the SU Bookstores' budget, specifically a \(\$ 312,000\) charge for general administrative costs.

the assembly. the assembly.

The aseembly accepted Chancellor Melvin A. Eggers' offer to epeak about the stadium at the Dec. 5 meeting. Rićh Crowell, SA president, said Eggers wants to solicit कtudent opinion. Crowell added that he will try to invite
other people knowiledgeable Cout the stadium insme.
Crowell made a request to assembly members to get their conatituents' views on an ombudsman concept. He said the ombudsman proposal has failed- three previous times because the univeraity did not believe there wese a *worting definition" and that the ombr deman's duties ar meombu danans duties are aixeady encompassed by other univernity offices.

The ombudaman would be independent of all adminigtrative structuree of the university and would investigate any grievances that may arise againat the university or anyone in the university exercising authority. Crowell said the new definition under consideration is workable and he hopes to make an ombudiman proposal early next semester.

\section*{\(\star\) Standard}
of-clagsinued from page ond Profersor papers. English be felt the mandall Brune sain essays aho number of in-class essayb ahould be increased to
insure that each easay was the student's amendment was adopted.
Brume also asid he felt it is important for students to write frequently and that controlled conditions are needed to prove that students have sufficient skills.
le auggested another amendment, which was defeated, in which couraes defeated, in which courares must have six, inatead of four required essays before they are approved for use in fulfilling the continuing ekill re quirement

Those opposed said four easays were enough. Another professor said such a course would do a disservice, saying otadents and faculty would not be interested in it.

The foreign language skill requirement was also dis cussed. Some language professora disapproved of the plan's suggested exemption exam. They felt such an exam could hot cover all the skills well enough.

\section*{HAIRCUTS YOU'VE ALL \\ HEARD ABOUT AT UNHEARD OF PRICES! ...What less can you ask? \\  we wis sone \\ Orange Tonsorial \(\&\) Supply}

The basic skills are conversation, reading and writing, and these professors felt gkill in conversation could not be teated. They also baid the exam would complicate regiatration. The entire faculty felt otherwise, and voted to keep the exemption exam.
Two professors in the foreign language department, who asked not to be named, said they felt the decision to keep the exam was lowered ntapdards.
The Nov, 28 meeting opened with a motion in favor of the fourth grouping: mathernatics fourth grouping mathenatics
okilla. An exemption exanawas also fetained in this case, desaiso retained by Jack Graver, pite protest by Jack Giaver associate mathematics profea sor, who spoke for a number of others when he said there "ibn't any way to carry this (an exemption exam) out. . and I think it's very willy." The motion to drop the exam was lefeated by a vote of 20 to 277 . The final grouping was concerned with delegation of authority. It gives the curriculum committee general superviaion in the implementation of the Standard Plan This discussion was tabled because of a lack of time.
An informal discussion followed. Concern was expressed about the importance of the next meeting, when the Enal vote on the Standard Plan will take place.
It was felt all faculty members should be entitled to vote, while athers felt that the 80 percent who had not participated in the past three meetinge cannot offer an enlightened vote.
The suggetion of a write-in ballot was unacceptable according to the bylaws of the Faculty Council. The meeting was adjourned without decision made about this.

The final meeting to adopt the Staindard Plan will be next Monday at \(4: 15\) in Maxwell Auditorium.

\section*{Box holds lost, found}

Students who have lost textbooks or their belonging should check the lost-andfound box in the Syracuse University Security office, located in Sims IV basement: According to security, the box contains textbooks (many found in Bird Library), spiral notebooks, binders, wallets notebooks, binders,
and several calcuiators.

\section*{How to pick a symbol}

To the editorg
David David Abernethy bat aclonovledged the "legitimate grievances" \(\quad\) of Che Saltine. Warrior, and has tho Saltina. Warrior, and has proposed thit wh hoid a contest to docide on a new manacok iwould like to 制㫙 nip an faw E
tial contertants.

First of all, avoid human figurea. It int of tar too avoid human to slip info sterreotypes when the ruascot is made to reaemble at man. For excarapla, if we had a cowboy wikha paix of six-shooters, we would be otereotyping the puttlers of the West many of whom were good, hardi-woricing people. If we had a Vihing who screamed and ran zronad with a bat tle-ax, we would have to anower to
the Scandimevian-Americana ing our tudent body.

This lenvea animale and inanirnate objects. 'The latter, I'm afraid, are not very interemting, to we will have to pick on our four legged fiends, ignaring the febble cries of a few conservation-minded touls who would surely olject to eux stereotyping of lionn, tigerf, wolven, etc, as vicious-predators and our Atrereotyping of deer, rabbits, etc. as God knowe what.

I amgirent a sort, of amorphous blob, colored in some off-gray hue. It may or may not be clothed in a nondistinct business auit, in order to inHure that it is not mistalien for a deposit of mold and cleared off the field by maintenance men, but it ahould in no way be given facial
features which might be uned to diecerg it face, mor, if it malce a sornd, shonla it do mo in anymacially distinctive famion (warwhoops, rebel yeils, atc,). If it mast act milly, let it do so in ta inuocrocrs zod unoffending a manner as poedible (primifall Ere OK, thanatening gewwrets are not)
If these surgestionsemen the least bit tongue-in-cheek. please do not think that I regard thi matter as funny. I find it appalling. I am hocked that the native Americant on this campus could single out this venerable and beloved fymbol of oux school as an rallying point for racial agitation and the generation of hard feelings. Were I an American In dian, I would be ashamed and humiliated that "min" camput organizetion had sownitself solac ling in tolerance, humor. sophis tication, so unabeashedly insecure, that it Ahould talke offente at such a well-meant and harmless aymbol as
hep Saltina Warricr.
The Warrior i one of many innocent vietimes of oxy now racial conscionmeas, a hampleen manecot who should have boom leit an dewoid of racini and politicni content eat When he was firgt conceived, and in attempting to depoie kim, ONKWEHONWENEHA has sunk to an astounding depth of meannese and silliness.
I do not propose that we keep the mascot. A mureot exists to give en foyment and to gemerate a feoling of eeprit de corpes. When it becomes an object of strife and contention, it hat already ceaped to werve itil function and shonld be dimposed of.

I only hope that when the Saltine Warrior is finally pat to rast, the
members the pride and Batinfaction theix "achievement" has earned for them.

\section*{Short subjects}

\section*{SU's phony phone books}

If the way the university hamdled this year's telephone directory is any. indication of how the university is run, We've in a lot of trouble.
Sometime next week, according to Joseph Tatuglo, SU's vice president for business management, a oupplement will be distribated to go with his yearim telephone directory. The directory. which came out just before vacation. contains the home phone numbers, rather than Syracuse numbers, for every student on campus, due to ma error missed by the book's proofreaders. In addition, the book is misaing the numbers of student organizations like SA and UU.
So next week the frithed directory (in two pieces) will finally be out. Thirteen weeles after atadents moved into their present addrames.

Tatusko asid he didn't know why proodreadert didn't catch the arror until the bools arrived on campus, aiready unconscionably late, Nov, 14 . He doesn't know why atudent organizationa were omitted frow the Grat veraion of the bools, or whether they'll be linted in the oupplement. Tatusko waid he doenn"t even know who prints the directory. Not exactly sitnation which tends to ingpira confidence in the university's efficiency.

We have two surgestione-for the Office of Telecommonticationa and Mail, which preparte thedi
for next year b book:
Erooiread 14 carefully. Any, lind of carefral readime wonld have revealed that the wrong-phone numberw were liated and important numbers of stadent orgamiration werce ommitted. sime second sugcestion is anmont an simple. We murgeet the directory be Fraperad a lítile earititer next yeary mid; Novernber is too late in the wementer to be paspint out a diroctary of whene people and orcanizations
can be found on campur.

We hope this year's handling of the directory cioes not indicate a trend of how it will be handled in the future. Wew hate to see next year's bools peased out duxing epring sementer passeds. Constitutional reform is proving to
be the legislative albatross around the collective neck of the Student Association Assembly.

The asgembly's second failure within two weeks to obtain the two-thirds attendamce required to pass proposed constitutional reforms means the debate and decition on the proepective changes must once agrain be delayed. The particular timing of the atsembly's failure may well mean reform might be hamptrang for another full year, due to the other half of Article XI of the SA constitution. The firat halfrequiree the two-thirds asoembly vote: the second requires a Live percent turnout in the referendum for a valid adoption of the changes, The failure to obtain that seemingly . miniacule partimpation at the polls during last mpring 9 referendum suggeste the optimum time to vote on reform is during the presidential election Dec. 6, which traditionally bringe the highest turnout and voter interient.
There are some significant neform: awaiting a vote, such astightening responsibilities of nniveraity semators to attend semate meoting \({ }^{2}\). giving the attend sembly the power to remove SA vice preaidents, and lending greater etature to the credentiall commaitier. It is regrettable that the reforins must wait awe to poor amombly attendanca.
We sugrest thowe promotina the reforms might give mome thought to maling it oarier to raform the constitution, fincerat the present rmbe it miny never be changred.

\section*{A campus pitfall}

One of the pitfalls of the university aren in located at the corner of South Crouse Avenue and East Adams Street. What was once the site of Burnett's Pharmacy is now a gaping 8 -foot-deep hole, bordered by asagg ing snow fence on one side and nothing but the sloping South Crouse sidewalk on the other.

The pit is to be the site of a mall. But until construction begins in three weeks, the pit is a dangerous trap for unwary passers-by. Blind students and playing children daily wander precariowly close to the 8-foot drop; its western border (South Crouse - the aame gtreet the Orange bar is located on) makes it particularly dangerous for those whose eyesightand coordination has been impaired temporarily (for one reason or another). Ice-covered aidewalks and the fact that the area is not well lighted make the hole dangerous to averybody.
The snow fence on the East Adams side is not much protection either. Most of it is already falling into the pit, perhaps foreshaclowing the fate of hurian victims
Such anow fences to protect the site have been put up six ar seven times. Each time one is put up, it is knocked down again within a wrek. Some of this is undoubtedly purposefal damage. But how many times has it been knocked down by the person slipping on the sidewalk and erashing into it?

What is needed is a permanent barricade to protect the site. This should have been built much mooner, immediately after Eurnett's had been demolished. Such a bancicade would probably mot cost much more than replacing masturdy snow fences which obviounly dio not provide enough protection. Whatever the cost, a permanant barrieade is needed to prevent the dangerous accidents the pit invites.

Sy Montpownery for The Datily Orange

English film direcsor Peter Viathina depicts the personal Itse of vant-garde artist Edvard Munch. The movie is this woek' feature at Film Forum.

\section*{FILM FORUM Bimad Au. \(7 \& 9\) \$1.50 \\ TONIGHT \& TOMORROW \\ EDVARD MUNCH}

Nothing that Peter Watkins, the English director (The War Game, Privilege, Punishment Park) has done quite prepares us for this moving. complax. beautifully felt portrait of the Norwegian artist Edvard Munch (1863-1944), one of the seminal figures of modern art (The Scream, Anxiety. The Vampire). The standard by which all subsequent films of artists lives will be measured.

FILME ON CAMTPUB: "Edvard Munch." Film Forum tonight and Thurneday, Gifford, 7 and 10 p.m. \(\$ 1.50\).

By Daniel Frank
Films depicting the life of an artist are xare, and often these movies are little more than picturesque, glosay picturesque, they graphies. be byy accurate in their accounting of accurate in their acoounting of real events, but these films are usually superficial, and
ost only informational.
Peter Watkins" "Edvard Munch" is a film determined to not just tell the events in thia painters' life, bat to explore how and why these events inf luenced Munch's works of art. Watkina: documentary approach is limited, butitis an original use of the documentary technique that frustrates and then enlightens the audience. An eye-opening xperience, - Wathins technique expresses how deeply a filmmaker can probe into a life, while keeping distant enough to also explore outside forcea.
Munch is considered one of the founders of the expressionist movement in art. The film follows his life from his childhood in Norway. where he wam surrounded by iliness and death, to the mid1890 g , when, in his early 30 s , he began to recede from public W
Watkins draws upon the events of these years to create

\section*{Munch'effectively paints artist's life and influences}
a full portrait of an artist who found himself torn betwreen the influencea of the traditional, veligious environment he was brought up in, and the avantbrought up in, and the avantchange and a new interest in change and a new
The movie not only depicts the forces move that infuepicts Munch but provides a vividreMunch but provides a vividreenactment of Munch's procese of painting, from ehe richly painted early worka to the and deep vacoringes, and finally to deep scorings, and finall the in the artist's lithographies.

Watinins cinematic techaique in like eaves dropping. He sets a camera crew down in a recreation of the 19th century Norway and Europe. One might compare Wations' method to the former television show "You Are There," though Watkins' film is far more mophisticated.
The carnera adis tension to the stranse life Munch led. The artist often glances at the camara, acknowledging its existence. In one acene he goes to the bedroom of a maid, but hesitates at her door, lookn at the camera, and then, as if ocared by the presence of the camera, returns down the stairs.
Whe
When it is necessary the camera becomes far removed and the film reverts to storyte ling. without losing the documentary look. Wathins is then able to dramatize thie creative process with special precision. The concurrent
cenes that depict the deterioration of Manch's affair with a woman named Mrs. Haeberg. and the parallel deterioration of his clearly deterioration of his clearly alketched
Unfortanataly, the film is sometimes marred by incessant narration. It would have been more informative to hear more readings from Munch's diary, rather than Wastening to the dry narration Watkins chose to use.
The narrations try to cover the gaps that ahould have been expressed viaually: Watline attempte to cover too much ground in the making of "E dvari Munch" Sometimen he allows himself to go off on tangente, anch as the interviows with 194 h century women'elibbers or children who work excessive hours every week. Such mantters contributed to Minch's out look on life, but atill do not warrant as much attention as Munch himself. Wattine only confuses the focus of this already detailed film when he expands the story.
"Edvard Munch" is often fascinating with the depth it achieves, while infuriating in its erfort to chronicle all th its eifort to chromicle all events that remotely surroun ded Munch sife. Director and writer Watkins technique is not a better way of manking a biography. It is a cinematic advance in the depiction of the creazive process, from the min ds first blurred image to the finished product.

\section*{Chancellor's wife leads art seminar}

By Mindy Martin
What can you do that's different this weekend? Well, you can find out by taling a course titled "The Arts in Sytacuber with Mille Eggers.
The one-credit seminar, offered by the Honors Program, was devised "to provide studente with an opportunity to become better acquainted with the community and the arts," she said.
Jane Pickett, the Honors Program coordinator, selected Eggers to head the class because of her knowledge of Syracuse and her teaching experience. Eggers taught diagnontic reading for 14 years at Moses DeWitt Elementary School She was also the coordimator of the reading system there and worked personally with studenta and teacherm.
Nevertheless, she will feels qualified to teach colliege etudents. "I wriked in a chnuch organization in programs for Y kide and IVe been on the boand of directors. I. enjoy teaching college studenter I was tenching elementary achool when I was better evited for it."
The courne's first ecosion acquainta tudents with the downtown arts, music, and theater trem. The Civic Center presented a alide ahow and took the aroup on a tour of ita facilities from the drensing room to the epaciour Cnonse Flinde Theatre, in which major performances auch at the ymphony are hold
Ane the Evertor Musento the
and learned of the musoums's history.

The group also viaited the Erie Canal Museum, located at the site of the original weightlock station for the old Erie Canal. The museum con tains maps, paintings, photographs and replicas of cities of that era, including a section of the original canal.

Harvey Kaiser, vice preaident for facilities administration, sponnored a slide presentation of ;SU architec. Photographa of the Quad in the late 1800s and buildings that are no longer standing were alao shown.

The last three seasions were spent on walling tours of landmark buildings, plus a visit to Syracuse Stage and Syracuse China. The clases EO a behind-thescenes look into the theater operations and the china-manufacturing process.

\section*{former Emperor Haile Selassie \\ Official defends nuclear fusion cow.}

By Mark Moore
The director of the Nuclear Energy Foundation told an audience in A-2, Newhouse I that nuclear fusion is the answer to the world's energy problems, in a speech Nov. 16. Morris Levitt heads the Nuclear Energy Foundation, which has formed to focus attention on fusion research human progress while uaing science as the mediator.
Levitt made his position on fusion energy clear when heinsisted that those opposed to nuclear energy have a reckless diaregard for human life.
Levitt interprets the paychology of hard core antinuclear power protesters to be "premised on the fear of human progress," and that their greatest preoccupation is with decentralization.
Levitt said that American society is atruggling to exist in a state of negative economic
growth. He said the cost of energy is being payed at the expense of shrinking investments in industry.

The invarient feature has been the accelerated rate of energy throughout, said Levitt about the evolution of mankind. This means that the use of energy has been increasing more and more rapidly more and more Levitt said that \({ }^{-}\)fission energy is outdated since it is energy is outdated since it is based on breaking down matter. He feels this is the age of fusion energy, which in volves the joining of lighter elements with a release of energy.
The ultimate goal is to produce more energy than we put in. In this way energy will be made cheaper. One of the assets of fusion energy is that the fuel it uses is deuterium oxide, commonly known as heavy water, which can be extracted from the oceans and is

Officials from private institutions and the federal government and professors from Syracuse University and other schools will talk about a variety of public policy issues at a day-long series of conferences.
The series, which will be held on Nov. 30, is being sponsored by the Maxwell School of Citizenship and Public Affairs.

At the first conference, professors from Haryard, the State University of New York and SU will talk about "Historical and Sociological Perspectives on Change and Continuity." The session will start at 9 a.m. and will be held in the Founders Room in Marwell Hall. three geographers will discuss three geographers will discuss Research: Implications for Public Policy.' The conference, which will be held at \(10 \mathrm{a} . \mathrm{m}\). in the 1916 Room of Bird Library, will feature professors from Princeton, the University of California at Berkeley and SU.
"The Diffusion of Public Pólicy Innovations" is the title of the third conference, which wi11 be held at 1:30 p.m. The conference, which will alao be held in the 1916 Room of Bird Library, will include speakers from SU and the National Science Foundation.

Officials from the Urban Institute (an organization bhe Department. of Housing
and Urban Development and two SU faculty members will discuss "Intergovernmental Fiscal Relations and the Declining Northeast." The conference will be held at 3 p.ra. in the Maxwell Founders Room.
The series is being held by Maxwell to mark the formal installation of Guthrie Burkhead as dean of the Maxwell achool.
therefore considered to be an
unlimited resource.
Levitt projects fusion energy will be used in the 1980 s , and will increase energy production by 15 percent. However, science must first develop a reactor for pure fusion energy production.
By classifying nuclear energy as a last resort, Levitt feels that the federal administration is stonewalling ministration is stonewalling
the isue. He accused the media of reflecting this attitude because he believes "they don't have expertise . . . are politically attuned to industrial (and) inform that industrial achievernent is suspect. . in certain cases key figures act as conduits for financial interests who have economic motives to knock out nuclear energy."
Among others, he attacked Walter Cronkite, Ralph Nader and Secretary of Energy James Schlesinger.
"Most countries want economic development, and nuclear power is the critical means of achieving it," Levitt said.
Levitt said "any country technology capable of oil grade material from breeder reactors."
However, he believes "the spresd of civilian nuclear power plants contributes to international political agreements that keep the lid on hot spots, such as the Middle East."

Chaliand, who recently visited Eritren, told the audience about the Eritrean Peoples Liberation Front. Sooples disenchanted membert Of the Eritrean Iiberration Front aplit from that organization in 1970 because they regarded the group as being "too conservative and Arab-oriented."
The EPLF is approximately half Moolem and half Chxistian. About onethird of the movement is made up of Chamen.
Chaliand.
Chaliand said that the EPLF not only has 15,000 fighters, but also runs achools and clinics. It has implemented a reorganization of the land from its former feudal system and has held "peoples elections" in some villages.
Chaliand placed much of the blame for Ethiopia's domination of Eritrea on the

United States, because it aponsored the U.N. resolution that federated Eritrea with Ethiopia and rave the coviopia and ciavent of Haile Selagsio ver 50 percent of its military ver 00 percent of its military id for over 20 years.

Chaliand said that Igrael is supporting Ethiopia in its campaign againot Eritrea because Lsrael feara that an independent Eritrea would be in the Arab camp and the Red Sea would become an "Arab lake."
"The Cubans help Ethiopia because of the Soviet Union, which wants to dominate the Horn of Africa," Chaliand said.

The lecture was sponsored by the Eritrean Student's Association, which a member eatimated as having "five or aix nembers.

\title{
Scaggs quality shines despite canned disco
}

By Maura MeEnaney Boz Scagist has sold out. In hif lateat album, Down Two Then Left, Scaggs has decided to pacify the deepires of the Top 40 crowd by sacrificing much of the quality ao abundant in his early mumic.
His hast album, Silk Degrees, released in oarly 1976, in: cluded hits such ms "Lido Shuf. fle" and "Lowdown"' and gave Boz long-awaited success. In "Down Two Then Lef"' the artist has apparantly decided artist haa apparenuy decided quatity for larger record asies. An example of this trade is
the first song on the seconded aide of the album, entitled "Hollywood," a meaningleas canned diaco song. The repetitive choras - "Camera, Action, do it azain" - givea the song the deapined disco monotony. The starstudded glamour of the Hollywood myth are, however, clearly communicated in the song.
Scagge compensates for the lack of clasa in "Hollywood" by including a few traditiona romantic Boz tures such as"A Clue" and "Then She Walked Awrey."
The use of female
background vocalints mach as Carolym Willis, a vetaran of "Silk Degrees," adds a tone that mixes nicoly with Eoz's vocals.

Gimme "the Goods", is similar to "Lido Shumfie" in that it tells the atory of Blackie and Stella, two robbers who contemplated going etraight but decided to make one more go of it.
"1993" is a futuristic song inclucing lota of apecial sounde, giving it the effect of outer space.
For many, Boz Scagga is a newcomer into the music business However, "Down Two Then Loft" is the Scaege made a brict Scagge made a brief appearance on the charts in the early " 70 os With a hit enStied "Weethearta." This Bong Sweethearts." This song
appeared on his Moments appeared on his Moments aitum, which included the background vocals of the Rita Coolidge Ladies Vocal Band.
The musicians appearing with Boz on "Down Two Then Left" are a new group since the Silk Degrees, with the excep-
tion of a few veterans. Hin eight piece horn section has sean a few chancea since the Silk Degrees album.

\section*{Boz Scaggs}

\section*{Differing styles enhance show}

By Nancy Brown
The current art exhibit of works by Cornelia Baum and Jane Berstein contrasts realism with abatraction. Baum's quiet-hued land- and Beascapes and Berstein'a boldly splattered and swirled canvases are grouped together to bring out the color and drama of each work.
"Northern Lights," a tempestuons peascape by Baum, shows a rough sky in blues, grays and beige. The colors are seen again in the tranquil "Fog on Lake On tario" hanging next to the
stormy scene. Berstein's Bead Laves amplifies Baum's browniah hwes in an entire panel of firm dabe of thick antuman shades in which you can hear the crunch of leaves underfoot.
"Harvest Surset" has a muted atmosphere created by an overall ochre color. Nothing is clearly defined and the foreground blends into a yellowish sly. The treat are bazy with a strongly piciced out aun peering through them. The artist achieved the muf fled effect when she grew impatient with the work and atternpted to wipe it out Fortunately, ahe recognized he beauty of the efrect and developed it into a quietly contemplative painting.
One of Bersteix's mont aucceasful works is "Wave"
which creates the sensation of a foaming break by using only Bwirls of vayions shades of royal blue. The enamel-like anrface contragts with the can Yas nap and is fuxther textured by the piled on paint, bubbles, dente and holes in the paint The swirls move in a etrong upward diagonal, wweeping from almost uncut color to ever-lishtening shades.
The odd affinity between the strikingly different styles of the two artiatia makes this small exhibit empecially worthwhile. Individually, many of the paintinge are ex cellent but as elements of a group they are of even greater interest.

The exhibit is located in room 117 Smith Hall and run from Nov. 21 throurh Dec?

\title{
Broad acts as SU liaison with government \\ By Steve Saylor \\ has yet to be approved by
}

Syracume University, Iike other colleges, has felt an increased need to press ita interests before government, according to Molly C. Broad, executive asaistant to the
chancellor for governmental affairs.
Brosd works closely with Chancellor Melvin A. Esgers and said the dutie of her job include research and analyais, membership in university membership in and represenintereat groups and represen-
tation of SU before the state tation of SU before the st
Members of Congress are
Mencitive to thene (college) sensitive to these (college) concerns, given the opportunity for us to express what our concerns are," Broad said.
Broad said she spends an equal amount of time in Washington, D.C., depending on the amount and importance of pending legislation.
Legislation, Broad noted, ranges from barrier-free carnpures for the handicapped to Social Security benefits for university employees. Efforts to shape or change legislation on current isaues have been relatively succeasful, Broad said.
Progress in the area of access for the handicapped has been slow, Broad pointed out. Present law, she seid, requires that achools eliminate barriers to handicapped people though financigl aseistance Congrese.
'We'd like to begin to get an understanding on the part of educational institutions and the Congress, to understand the (financial) needs that presently exist for renavation and reconstruction. Our initial efforts have not ancceeded in gaining approbation." Broad said costo are now being stadied, but that eliminating barriers will carry a large price tagriers will carry a large price The House of Represen-
tatives bill raising the mantatives bil ransing the mandatory retirement age to 70 is
also of special significance to universities, according to Brose.
"This issue moved very fast. It was treated in committee. brought to the floor and passed in very short compass," she Baid. "It began to move in the Senate and we began to do our homework"
Broad noted that indirect effects would appear if the bill effects would appear if the bil dition to added costs, a factor dition to added costs, a factor not unique to universities, Broad said tenure and affirmative action programs raiaing the retirement age.
"The legialators did not realize what the ramifications would, be before we came forth," Broad agid. "We succeeded in gaining an exception for temured faculty. The amendment passed on the Senate Hoor."

Legislation to increase ern-

By Walecia Konrad Tamblin's garage will ank to be dismissed from the lawauit challenging Syracuse University's right to ticket and tow cars, according to Hyman Pearlman, attorney for Tamblin's.
Peariman would not explain why Tamblin's wishes to be diamissed from the case. "When I serve my pa
you'limind out, he said. reply to a surnmons in court on Nov. 21. Becaume Pearlman was out of town, the court has given Tamblin's until Dec. 9 to respond.

\section*{Petitions}
approved
Petitions for Student Arsociation president and comptroller have been approved by the election commisaion, according to Rick Jackson, vice president for administrative operations. The election is Tuesday.
Candidates will be considered official pending their horne colleges, Jackson said. Candidates cannot be on any form of univeraity probation.
Petitions for president have been approved for Dan Cohen, Tom Hoffman, Steve Kantor, Scott anein, Bill Krueger, Bil petitions of Jon Gross, Jim petitions of Jon Gross, Jim Keeney, Carl Kleidman, John Schoch and Ron Zaretzly have been
SAis eponsoring forums and a press conference this woelt in which candidates will be avalable for quemtioning, Jackson said.
A forum will be held tonight in Jabberwocky, below Kimmel Dining Hall, after the Syracnse Univeraity basket ball game. Tomorrow a forum main hounge at 7 pm
ployers share of Social Security benefits is ancther isgae Broad has dealt with. "Mhis is legislation whose target was far and away not colleges and universities," she said. "Colleges and universities are a relatively small part of the. Social Security aystem."
"But the impact is very great. We don't have any conaumers to pass it (added costs) aumera to pass it (added costs)
on to. We have no profit to on to. Weaze."
The only outlet for increased costs, she said, is the cost charged to students. To prevent higher tuition. academic organizations worked for an amendment to the bill which was pessed by the Senate. The new wording provides added Social Security funding for non-profit institutions by the federal goverament.
Broad said she and other educational representatives were guccessful in striking limita to veterans' assistance from recent legislation.
"Our bill, which was passed, altered this onerous legislation and provided a 6.6 percent increase "in GI benefits," she noted. "We didn't get everything we hoped for, but we made significant progress."
Gaining higher levels of tuition assistance has been a major concern at the atate level. Broad said, and wori is being done to raise the statosis program by \(\$ 300\) for each student.

\section*{from suit}
interpretation of the law arisea, according to H. Dean Heberlig, SU'B attorney.
The university is still attempting to collect the parking fines it handed out. Birnbach said students and staff with parking tickets due received a computer print-out dated Nov. 22 requesting dated Nov. parking fineques be outatanding parking fines be
paid.
Birnbach said he feels a decision in the case will "be decision in the case will "be rendered shortly, and
suggested students consider suggested students consider
that when deciding whether to that wher decid
Birnbach said he expecta a decision on the case before the beginning of the spring semester and poasibly within ten days.

Though the Allan Bakke reverae discrimination came ia of interest to SU, Broad eaid. she has played no role in the outcome, largely because it is being decided by the courts. Chancellor Eggers has, however, appeared before Congress to explain that affirmative taction programs here will not be terminated if here will not

Active
Active interest in government action has the last decade, Broad pointed
out, though moat achools are represented only by the daan or chancellor.
However, the said, "A lot of institutions have a lot more (lobhying etaff than SU). We were all depend ent on Harvard were al dependent on Haryard
for a long tirae to represent our for a long tirae to represent our
interests. It has a very large interests. It has a ",
Some univezsities, bhe said. have full-time lobbyists living in Washington. D.C., or the state capitals who spend most of their time with legislators and bureaucrats.

Shoot for the DO.

Howard Birnbach, a secondyear law student representing himself in the case, had hiscar towed from university property by Tamblin's garage Sept. 13. He claimed the car from the garage the next day after paying a \(\$ 19.26\) tow charge.
Both parties requested summary judgment Nov. 21 and are waiting for a decision from Judge Thomas Murphy. According to Pearlman, Murphy corning to Peariman, until he has received Tamblin's response. Pearlman eatimated that it would be approximately 30 days until a decision is made.
Summary judgment is re-
guested when no facta are in dispute but a question of

The Jame A. Ten Eyck Bomthouse in Liverpool becomee the woek-long residiance of the SU craw team in the spring. Once a year the boathouse is the cemter of mirth and merniment as the Intercollegiate Rowing Association championships are held on Onondaga Leke. (Phote by Jim Pearaon)

\section*{SU's boathouse buoys} a winning crew tradition

By Norm Meyer
Daring late autuman, the northeastern side of Onondaga Lake Park is a place of raw, stark beauty. The exay sky dotted with anow flurries, the bare trees and the ominons blue-black laike water combine with the silence of the empty park to build an aura of tranquility. In the solitude, a lone quinity. In the bolitude, a ione along the lake shore.
The first few days in June will offer another facet of the will offer another facet of the
beanty of the northern gide of beanty of the northern bide of
the lake. The eplendor of summer will return and the cinderblock building will become the focus of activity for about 20,000 people.
The signal for the Syracuge area to begin the summer is given by the James A. Ten Eyck Boathouse, home of the Syracuse University crew leam and hogt of a huge party called the Intercollegiate Fowing AEsociation Championships.
The county-owned boathoube is located in Liverpool, about a 20 -minute drive from campus. The white wide and 80 feet long
The building contists of two stories. The ground floor con-
caing the ahell room, which is a Fork and storage area for the boats; a locker noom; shower Emall trainer s rooms for tapingr and On the fecond
On the second floor in a bunk bedse rom filled with bunk becs, an additional locker room, a screened porch ana an apartment, Oritside the main but hute which are tured quen
for additional boat storage.
The year-round occupante of He apartment are SU varaity crew conch Bill Sanford, bis wife and three daughters. Sanford has lived in the apartment gince he became vargity coach in 1967.

The men's crew teams varaity. JV and freshmen about 50 people in all become inhabitants of the boathouse two times during the year. The rowers moveinto the bosthouse for the week of apring break in March and again in May after the exam period until the conclusion of the IRAChampionships in the beginning of June.

While residing at the boathouse, the crew membera train twice a day and study once s day during March torether under the watchful eyes of Sanford. He is proud of their good atudy habita becruse he ssid torke best because, he said, The best

The crew members taice turns cleaning the boathonse and "mop every inch of the place every day," said San. ford. The labor, rowing and studying work up appetitea which are whetted by a cater ing service during May and by Mrs. Sanford's cuisine in March.
All the time and effort put in by the crew team and Coach Sanford is pointed toward one goal: winning the IRA Chamspionships in June. This patta is billed as the national championahip and regaried as Buch by most of the top crew ceame in ohe country. Everyone in the nation who is sood is invited," according to Sanford
The IRA championshipa have been held on Onondaga Lake since 1952. The event gets bigger every year, with and between 10,000 and 30,000 spectators partying along the ahores.
Near the center of all the excitement lies the boathouse, with 240 feet of docks where the boats are launched. It was built in 1937 by Onomdaga County with funds obtained from the Work Program Administration, President Roosevelt's public work program It was built as a memorial to James Ten Eyck for the sole purpose of being Syracuse Univeraity'隹 crew
James Ten Eyck coached the

SU crew team from 1902 to 1937, When he retired as the "Grand OId Man" of rowing at the age of 87 . He is the man most (and perhapa solely) responsible for maling SU a pansiole for maning crew power, which it remains today.
In 1937, the new boathouse wan a fine tribute to a great man. But 40 years later the original facilitiee are atill there. Conch Sanford describes the condition of the boathouse as "antiquated but serviceable.
Because the county owns the boathouse, any improvements must be worked out among the county, SU and the crew team's alumni orzanization, the Syracuse Regratta Asbociation Sanford poid he han socianom. Saniord baid he has received tremendous univeraity's administration and also praised the alurni and also praised the siomni of the most influential and of the most infuential and largest alumani groupa at SU, noting that itraised the money necessary to send the Orange
to the famous Henley Regatta to the famous Henley Regatta in London last year.

Sanford aaid the boathouse will continue to be upgraded. Although a new wing or an extra shower room are needed, a mroject of this size is anrealiatic at this time. A smaller project for improvement is being discuased, according to Sanford.

The personable coach aaid he thought the crew team members were overcrowded in their living quarters, and aeveral rowers agreed with him. Steve Anthony, a mophomore, said there was "not a whole lotta room."

After mentioning several schools with good boathouse facilities, including Harvard, Brown and Comell, Anthony said the SU boathouse "doesn"t compare to any other boathouses I've seen." Regard. ing the aame aubject, Sanford anid, "We are the weak gister of our league regarding the phypical boathouse.
In regard to location, the James A. Ten Eyci Boathouse is nearly ideal. "It is one of the nicest locations l've seen for a boathouse yet," Anthony eaid. Because of its picturesque setting, accessibility and closeness to the race course, Sanford said it is a convenient location for a boathouse.
According to a newspaper According to a 1938 , Clifford clipping from 1938 , Chmord froxs 1910 to 1915 , Baid, "When from 1910 to 1915 , Baid, When the new James A. Ten Eyck
Boathouse at Lake Shore Park Boathouse at Lace Shore Park
on the Long Branch outlet was on the Long Bramch outlet was.
dedicated on May 23, 1937. dedicated on May 28, 1937.
Coach Ten Eyck eaw his coach Ten Eyck anw hin dream of many seans come
true." Only time will tell if true." Only time Will tell if
another SU crew-team coach another SU crew-team coach
with a winning tradition will with a winning tradition
see his dreams fulfilled.

\section*{UConn tonight}

\section*{Syracuse hopes to be cold hosts}

Each year, at the By conci.T. Brady
Eansands of SU students meke the Thankggiving break, thousands of SU, students make the lonely trek back to Syracuse and recoil at the fury, of the newly-arrived winter. Those feeling sorry for thembelves, however, can take some solace in the fact that their plight

True, the Huskies will only be spending one evening here, but the hostility of the weather will be matched by the hostility of their hosts for the evening
tis the first time the majority of SU atudents will get a look at the Orangemen, and when you add the frustration of Monday's disaster at Dayton, the atmosphere in Manley should be even more volatile than usual
Tonight'e game marka the first time UConn has visited Syracuse in four seasons. The last time the Huskies were here, however, they were oblivious to the unfriendly Manley aurroun dings, and shocked SU with an upset win over a Dennis DuVal led Orange quad. The loss broke a 35 -game SU home court winning stresk.
This year's battle featurea a clash between two of the tallest front-lines in the East, both teams a veraging about 6 -foot-9, but any upset hopes entertained by the Huskies rest on the narrow shoulders of Captain Joey Whelton, a 6 -foot senior guard.

Possessing one of the beat outsideshooting touches in the East. Whelton is the catalyst of the Connecticutattack. The All-New England guard ignites the UConn fast break and deftly feeds the bigmen inside.
Fortunately for SU, Whelton's marksmanshipis contrasted by the poor ahooting of his teammates. His backcourt partner, 6 foot 3 junior Randy LaVigne, is the team's best defensive player, but has little shooting range.

The Huskies tall front line consists of 6-foot-11 aophomore center Al Lewis and 6 -foot- 8 junior forwards Jim Abromaitis and John Delagrange. The lanky Lewis has potential, but still has a lot to learn.

Abromaitis is an agressive rebounder on both the offensive and defensive boards, but his shooting may lead some to believe he forgot to take off his mittens once he got inside Manley. The Delagrange, a transfer from Pieree Junior College I the lean Delagrange, a transfer from Pierce Jumior Cohege Last yearn
starting forward, 6 -foot-8 junior Jeff Caur, is sitting the bench as starting forward, 6 -foot -8 junior Jeff Carr, is
a reault of Delagrange's early season play.

Connecticut enters tonight's contest with a \(1-0\) record having defeated Fordham 73-62 Saturday in a sioppy game plagued by turnovers and fouls. The hot-shooting Whelton led the way with 28 points, igniting a \(22-6\) second half

The Orangemen will probably ztart Bouie at center, with Louie Orr and co-captain Marty Byrnes at the forward alots. The backcourt, faced with the task of stopping Whelton, will be manned by Dale Shackleford and co-captain Ross Kindel.

Now that lofty dreams of an undefeated season for SU have been rudely dashed, the Orange might get down to business and prove that Syracuse isn't even a nice place to visit.

The last tirne the Univeraty of Connmeticurt and Syracume. played was during the \(1973-74\) gaseon when the Hurkies geme winning streak at Manioy. Hape UConn's Towry Haneon (loft) bettles with SU'e Bob Doorms (EO) arid Ctwit seape (55) for a mpound. 8U hopeas to rabound hemelf after Monday'e diaseater ut Deyton. (Photo by Joe Traver).

\section*{A hot potato}

This is the same "handis off", attitude SU point guard Rate Kindel (20) took Mondiay night in Dayton ess the Orange eo-captmin took only one shot from the field. Syracustin lost 76-67. Roosevelt Bouis also went mcorwess for SU, which was rated 11 th best in the country by both Ap and UPS before the Dayton loses. The Orange hope to rebound tonight when they face the UConn Huskies at Monley beginning at B:00. (Photo by Emie Davis).

\section*{SU: first a terror, then terrible}

\section*{SU 88, Cornell 61}

After 22 minutes of introductions of administration personnel and hind praise for the major sponsors of the new Manley seating, a ribbion circling the court was fimally cut and SU's 1977 -' 78 seabon got under way against Cornell Saturday night.

As expected, the match-up Wasn't one as SU played good defense en route to a \(39-22\) freely (SU played 10 different people in the first half, and all people in the first haif, and all second) the Orange slowly. steadily lengthened the lead in steadily lengthened the leadin
But something was misaing.
The Syracuse fana used to the blazingly fast 1976-77 SU team were greeted Saturday with the unexpectedly slow 197,'s year's squad had all the ex ploaveness of an anti-balistic missile, the Orangemen this cherry bomb.
"We're a more power team," SU coach Jim Boeheim said. Theres no way we can blow up and down the court like we did last year and acore 110-120 points. It just isn't going to happen."
Senior comptain Marty Byrnes ghared SU scoring honors with freshman Dan Schayes, as they scored 14 point 13 and louis Orr 12 fo the Orangernen the Orangemen

It was a fairly typical open ing night game," Boeheirn added. "Everybody was just fraction off.'

\section*{Dayton 76, SU 67}

If the Orangemen were justa fraction off for Cornell, they were milea away againat the Dsyton as SU muffered its first loss of the season.

The Flyers, 16-11 in 1977, looked like they were \(27-0\) as they jumped off to a \(26-10\) lead midway through the firat half SU was never closer than nine afterwards. Dayton shot a torrid 18 of 24 from the field for the firet 20 minute of play. We were juat totally destroyed in the first 10 to 15
minutes of the . grme."

Bocheikn aaid. "I felt we came back extremely well in the second but this is a 40 -minute game and you just can't fall behind like we did against a club like, this and expect to catch up."

Bouie, the dominating. SU big man, dominated the bench for most of the evening as he only played 11 minutes and 18 geconds. In the first halfit was In the second it was becaure of what Boeheim felt was on early retirement.

The sophomore center only shot once all night (and missed) while the Flyers moved at wil under the Orange hoop. Dayton forward ErvGiddings was the game's while Flyer centex Terry Ross added 13.
'He (Bouie) didn't do the job in the first half and after he loist the second half tip it just didn'tlook like he was ready to still so far behind that we had
to go with a smaller team."
SU, led mainly by Byrnes (21 points) and Orr (23), fought back to within 10 points with \(8: 20\) to play. But then a foul shot by Dayton graard.Jack Zimmerman and abreakaway basket by Flyer Jim Paxion gasket the home team the breathing room they needed.

Along with Bouie's shutout, SU alsofailind to troteny points from point guard Ross Kindel. I Lunk Dayton has a keck of a good team," Boeheim said. "But when your center geta zero points and Ross Kindel makes a couple of bad plays that you don't expect a seniar to make - wall, you'regoing to be in for a raugh night.'
Perhaps the most surprised people among the 10,718 at Dayton Arena were the Flyers themselves.
"I thought they would goin"I ide more," Zimmerman said. tougher.,
So did SU.

\section*{SU students excel in writing program}

By Thoman Coftey
During the last eight or nine years thete hap been a "terrific decrease" in the proper nee of grammar among creative writing students at Syracuse University, according to English department. However Elliott and others involved with the creative writing program maintain that the program maintain that the quasity of writing decreased.
'Students aren't as careful in their writing," said Elliott, who has been teaching fiction writing at SU since 1963. The use of grammar "has undergone a tremendous decline. It's shocking; even Emong gifted etudenta.
Elliott contended that the quelity of students and their Writiag "has not gone down at all." In fiction, he added, the quality has been improving. He attributed this to the fact that there is more interest nationwide in writing.
Professor Donald Dike, who almo teaches fiction writing. gaid the demand for writing courses "has been large since I started teaching writing. which was about 1948.'
Dike declined to comment on whether the creativity of writing atudents has been affected by such factore as television. However," he said, "writers need to read, not watch televiaion."
William Wasaerstrom, direc tor of the creative writing program, said fewer students are interested in literature, but more are intereated in writing. The level of akill among theme The level of skill among theice students, he added, has
remained the samae.
of There is no lact of gifted Btudents, is po lack of gifted The problem is finding space." \({ }^{\text {Problang }}\) Profesior W.D. Sinodareses, who beaches pootry writing. in the creative writing
mogram. The quality of our students work has gotten better, especially, in the graduate program," he said. "More students are writing competent verse."

Although there kas been no decline in the quality of writ iog done by students, there have been changes in the themes stadents write about and the atylea they une.
"Students are no longer interested in writing about drage or drug-related experiences," Elliott said. However, he added, students are writing more pornography. "Pornography is in these days."
The most important change Elliott has observed is the increase in what he called "anticrease in
"They don't write a straight story," he said. Instead, students rely on Kurt Vonnegut-like techniques to tell a atory.
"Vonnegut isn't the best practitioner of this method,' Elliott said, "only the most well-known.'
Ellicte emphasized that he does not teach students how to write. 'It's more accurate to call it "a course in revising," he aid. "I help people improve what they've been writing. I'm a stickler for doing the craft
well.".
Dike agreed that a professor cannot teach a atudent to write. "Criticism is necessary to any kind of endeavor," he to any I criticize a atudent and said to show him what to do."

Snodgrass said common sense hed much to do in teaching him clampen "I juat look at

\section*{SA candidates at forum show general agreement}

By Thoman Coffey
There was substantial agreement among the candidates for Student Association president and.comptroller Tuesday night during an open form at Two-Below, a coffechouse beneath Brewster-Boland. The seven preaidential and five comptroller candidates attended the forum.

The forum began with each presidential can didate giving a three-minute etatament. The candidates are Toma Hoffiman, Bill Krueger, Bill Rita, Dan Cohen, Steve Kantor, Arnie Wolsky and Scott Klein.
In their opening statements, Krueger, Cohen and Kantor emphasized the need for more commurication between the SA administration and SA Asaernbly, and also between SA and the gtudent body. All three said SA ia unresponsive, to students. Krueger said it is run by "an elite," while Kantor called the SA administration "A clique." Cohen said SA muat communicate with students because "SA is studenta."

Tom Hoffiman streased two issues in his presentation. He favored giving etudents more input into the evaluation of courses and profes

30 ra .
"We want teachers who can teach, not just do research," he said. Hoffman also pledged to work for construction of a student union building.
Bill Rita gaid he would get SA involvedin new services. He proposed that SA set up a secondhand store at Skybarn. He also said he would have the SA vice president for academic affairs establish a teaching assistant evalusting committee. "There's nothing more frustrating than having an incompetent TA," he said.
Arnie Wolsky sasid he offered a "concrete program." He said he would aet up an appeal brogrd to hear students' cases if they felt they were being unfairly assessed for damages by the Office of Residential Life.
Wolaky also proposed that a financial aid newsletter be establiahed "to keep atudents advised of the constantly changing ntatus of financial aid awards." He stressed that as SA president he would be a "spokesperson," not a policy maker. "The assembly should make the Continued on pepse thirtman

\section*{Prucha views basic education}

\section*{By Thomas Gradie}

Programs that focus on training studenta to Gill pogitions which are immediately available invite early absoleacence of the training received, warned John J. Prucha, vice chancellor for academic affairs.

Prueby discussed the development of future academic programs at"Directiom of Academic Programa" Monday, aponsored by the School of Education and attended by about 14 faculty and staff mernbers.

Prucha foresees a return to more conventional valnes associated with basic education He said an education should "provide a foundation on which an intelligent person can build" and discussed the relevance of today"a education with the neede of tomorrow.

Prucha talked about creating new fields of study by labelling them with broad titles guch as "School of Environmentalism" or "Department of Energy." He said a discipline cannot be created but is already naturally defined such as chemistry or geology. Prucha said he believes new fields of study should be incorporated into existing schools or developed through interaction between existing schools.
In his opening statements, Prucha pointed out the difficulty of discussing the direction of
academic programs with a high degree of specificity at Syracuse University because of the diversity of the university. He explained that different schools tend to develop in different directions according to their needs.

Whatever direction the schools did develop, a greater degree of quality in new programs was being wought, he said. However, becanse of the present economic aituation, there must be a greater amount of aelectivity involved when new programs are considered, he said.

He said that the economic situation dictates only the best programs with the highest degree of quality be implemented. The greater quality of the programs would help compensate for the smaller quantity of programs offered. Prucha said he expecte this drive for selectivity to become university-wide in the next decade.
Teachers in different subjects reach their peak period of productivity at different times, he said. For example, he pointed out, a mathematics teacher at a univeraity usually reaches full professorship by his middle 208 while a history teacher may not become a professor until much later in life. He said when evaluating teachers, there ghould be more recognition of this fact.

Winter takes a bough

UJB finds students guilty, administers two warnings
}

\section*{By Whecia Konrad} The University Judicial Board administered two disciplinary warnings and found one student guilty but took no action againmt him Tuesday. Nov. 29
The first case dealt with a freahman charged with removing a clock from the firat floor of Bird Library. The defendant explained that he was taking the clock as part of a scavenger hunt ponsored by the fraternity which he wat pledging. He claimed he asked a student em ployee if he could borrow the clock and return it when the hunt was over.
After the student left the library, campus security was called. Security followed the student to the fraternity house where the clock was recovered.
UJB administered a disciplinary warning. The atudent maycontinue attending school but he will be notified in writing that his behavio has been umacceptable and that further mis conduct will take into account any previously adjudicated misconduct. The student is also Liable for any damage done.
UJB advised the fratermity to inform the
university of any other event of thin nature to avoid misunderatandinge and inoorporate atudent cooperation with the adminimtration. SUJB also heard the Case of Daniel Aumustitn SU menior accused of atealing a paciage of Kraft Swise cheene from the SU bookatore.

August explained that all frve of his financial grante had been delayed. He had exharated all his other financial recouree and had not eaten in two days. Auguat is not on a university meal plan.
UJE found Auguat guilty with na action. He may continue in attendance but is liableforany daminge cione

Another case involved a sophomore charged with placing a bar of soap from the SU Bookntore in his coat pocket. The student then paid for approximately 32 worth of otheritems. The defendent maid be didn't have enough money for everything he needed.

UJB administered disciplinary warning.
UJB has received 20 applicationa for oneseat and two alternate powitions open next semester. All eligible applicants will be interviewed within the next two weeks.

\section*{Lunch program to begin again}
* By Martha Viclicery

The popular Community House lunch program, which was forced to close down catier this gemester because of failure to conform to county health and fire regulations, is tentatively scheduled to reopen in January, according to Michal Dolcemascola director of Community House The Oranue Place which served a buffet lunch to about 100 faculty members to about and community people a day and community people a day last year, closed because it was Operating without a licenae.
agked that the Orange Place not open until it could meet the regulations set by the Oraondaga County Healib Department and fire marshall Dolcemascola asia.
According to Dolcemascola repair requests for Commumity House have been subaitted to Physical Plant and "some of the plumbing and carpemtry plans are beng implemented right now.
Darrell Fasching, asaistant dean of Hendrickes Chapel, which runs Community

Howse, said plans for repairs of Orange place have been reviewed by John H. McCombe, dean of Hendricks. and Peter Baigent, director of Student Affairg.
He said it was hoped that the lunch program could be reinstated this semester, possibly an soon as two weels ater the program was digcontinued, but that these plans proved too optimistic
He said it was taking longer because of a delay in getting supplies and for the plans for repairg to so through necesrepairs to so
sary channels.

Dolcemascola said the renovations would cost about \$2,000.

\section*{Cold turkey for Thanksgiving}

Evert time a vacation rolle aroxind my mother prepares for battle and avpaite my arrival. This past Thanksiving Was no exception. In fact, a new in an attampt to break up the three-year wardeadlock against my cigarefte monoling habit. Yet, to fully comagrehend the impract of auch a calamity some prehend the impact of of siven.

The Warly Beginining
My parante had Bean heavy smokers tince their teens. Then, when I was a mere tot, they became engrossed with the idea that cigarette smoking was bad for the health and yegan a concantrated cam-
paign to quit. For two reasons this had a terrible

\section*{Don Salkaln}
effect on me. kirst, they would hide their packs of cigarettes in strange places, so each would not know the other was still on the toke. They soon found out their hiding places for cigarettes had already been my hiding places for in-between-mal snacks. Each
soon came tearing in my room, yelling up a storm, holding a moldy gandwich in one hand and a peanut butter and jelly-encrusted knife in the other.
Second, all those beartiful 7 by 5 photos of me smiling, lovingly hugging my dog, my mother toking on a Kent, and my father with a Camel nonfilter hanging out of his mouth, were suddenly removed from the family photo album leaving only drab pic tures of relatives. My childhood was put someplace in the attic.

\section*{The Late Beginnings}

It was during my freshman year my chain-omoking roommate introduced tobacco to me. I aoon found it unbearable to be without it. When I went home on vacation, I frequently experienced nicotine fita; so, dow open, I would inhale my six-minute dosage.

\section*{- The Invasion}

One vacation later, my father, who was gardening outside, found one of the weather-beaten filters, oined forces with my mother and searched my room rom top to bottom. What they came up with, among five unfinished packs of Marlboro. I tried to lie my five unfinighed packs of Marlboro. I tried to lie my way out of it by telling them that my girlfriend amoked, adding that having freah tobacco readily available was always inppressive. But they knew that three-year war ensued.

The Offensive
My parents' strategy soon became apparent. My father set the torms of an unconditional eurrender: there would be no smoking on the premises or
thewhere. He knew that I wouldn't be able to meet that agreement, so he had my mother on the front lines bombarding me with paychological warfare, which consisted of a conetant flow of lectures that the Heart Association would be proud to call their own. caplecemencompanied by direct acts of sabotage: the pamphleta. When at echool, an onalaught of newspaper clippings about the cancer killing sticks with all the gory statistics underlined, continually met me at the mailbox.

The Dafenaive
My main strategy was to try to convince my parents that I had quit emoking. My method was concealing the evidence which pointed to the habit. I gtored my argenal of cigarettepacis in my dirty sock
drawer, a place where even the braveat of soula

wouldn't dare to venture. Yet the paychological warfare continued. I realized what Ioverlooked when my father, one night, needed a match to light the dinner candle and sent my mother into my room to get one. Thid the matches, yet the warfare continued. confronted with, yet, another lecture, I asked her how she knew I still smoked and snapped back that she had found out from a neighbor that my frequent walks with the dog down the road were not wholly out of canine love. With the elimination of the walks, the lectures only grew stronger. Then one night my father pointed out to my mother that my shirt had a little concentric circular hole rimmed in black. The My defensive continued.
to clean up my act before roing home for vacation. This included leaving behind all the ahirta with butt burns, cleaning the car anhtray 60 as to pass the white glove teat, and gargling with month wanh prior to entering the driveway. It meemed to wort for two trips homg becaume the loctures eeemed to be fewer in number and lacked the impact of the ones i number and lacked the impact of the ones Wothinged In Ambranh
The next time I went home I was defenseless to the motive of my mother's bear hug at the door. It thought she was just happy to see me. 1 didnt know it was her sly maneuver to quicikly frisk me. From a buige deep within my coat pocket ahe pulled my pack of Mariboros. The following day a new campaign was
launched which can only be described as unconventional warfare. I wentinto my bedroom to find conventional warfare. I went into my bedroom to find my paintings and drawings on the wall replaced by infested organs of the body. Could one ever imagine infested organs of the body. Could one ever imagine Waking up only to see a gigantic, brown and green
burnt-out lung? Oz a heart that looks like an old and burnt-out lung? Or a heart that looks like an old and
beat-up football? I returned to school smoking a beat-up football? I returned to sch

When I went home this Thankegiving I thought there couldn't be an offensive strategy conceived with such a devastating effect as the one \(I\) experienced on my previous trip. So, when I found the household lacking the lectures, posters and pamphlets I felt that my parents were confident that they had won the war. When they suggested that I pay a visit to my great grandinother for lunch, I suspected nothingMy parents knew this all too well. They remembered the times I said she was the sanest of the family. They knew how much I admired her, at 93 years old, taking care of her own house and driving her own car. They also remembered that it was my That's why they told her that I had begun a smoking habit of two packs a day.
As soon as we exchanged compliments of each
convenience triumphs over fairness

Some people believe that the Syracuse University houging policy which requires freshmen and sophomores to live in university housing is a policy intended to be fair to all students while promoting their easy assimilation into university life.

Some people believe the rules governing exemptions to that policy are consistent ones which are constructed in a way which maintains the integrity of the rules, while at the same time lending them enough flexibility to provide for the problems which students have as people.

Wrong on both counts.
The policy holding freshmen and sophomores in SU housing is primarily intended to keep SU's dormitories full. Most. other colleges and universities don't have this requirement because they don't need it to fill their residence halls. SU's policy makes some sense as far as it applies to freshmen:itis usually a positive ex-
perience for students to live in dorms their first year while they become acclimated to the university. Still, we see no reason why students, especially, sophomores, should not have the right to live where they want to, without needing a medical academic or some other excuse.
The policy on exemptions does have certain categories of rationales upon which they are granted, but there is more flexibility in the liberality with which they are bestowed by ORL than there is in the categories themselves. David Kohr, assistant director of ORL, said last year exemptions, were granted "very, very liberally" between semesters; that was due to the large number of students in extended housing. This year, for the first time in several years, dorm occupancy is below capacity, and as a result ORL will begin holding more students to compliance with their housing contracts, according to Kohr.

Kohr's comments indicate ORL enforces its policy and the rules regarding exemptions from it, with one question in mind: what promotes the interests of ORL; i.e.,
maintaining full occupancy of university housing.
The policy which requires freshmen and sophomores to live in university housing is wrong because it deprives students of the right to choose their residential
lifestyle, solely to suit the financial interests of the university. The policy regarding exemptions from that policy may be sound in the categories they establish for ex-
emption, but enforcement of the rules is faulty because it is adjusted from year to year not for fairness but for ORL's pecuniary advantage.
freshat basis is there to hold housing?

What specifically are the grounda' upon which a student can receive exemption from the hous-
ing policy? ing policy?

Until ORL provides satiafactory answers to both these questions, we is one without rent housin

Wike Joni Mitchell meets Stevio Wonder.
Of course not all of it it Armatrading herself (although ahe's most of it). Producer Glyn Johns has done an exceptional job of molding her sound so beantifully in the gtudio. Performing with her on this album are ex-Cat Stevens people, former Fairport Convention members, an exFree organist named John Rabbitt now currently with Crawler axid Georgie Fame, who did The Ballad Of Bonnie \& Clyde.

But this is Armatrading's show, and she shines. Anstive of the West Indies, Armatrading has been recordinit in years. She's black, yet mhe's British, which accounts for her unlikely sound. She's got the funk of the best Motown vocaliat, but at the same time she sways with the gentleness of a leaf caught in the wind.
Side one is the really amazing half of the diac. In 20 minutes she offers blues, howing right into 2 funk piece. From there comes reggae and
one straight rock tune. Her one straight rock tune. Her climax, shortly before the choruges. They are always complete, and they always end at the right moment.

\section*{Middle-earth history \\ told in 'The Silmarillion'}

By Fichard Bchiefer One of the reasons for the success of "The Lord of the Rings" was that J.R.R. Tolkien set it in a fantasy world that seemed as real as our own. Middle-earth, it was called, and it had a rich and varied culture and a history stretching over thousands of years. It was not a world that was brought into being for the purpose of the Ring trilogy; Tolkien was its discoverer, not its creator, Middle-earth lived in his own mind and in the minds of many of his readers, (Houghton Miffilin, \$10.95), published four years after the death of its author, is a history of that world.

It covers the period from the creation of Middle-earth to the War of the Ring, but it concentrates on the Eirst Age, which ended Writh the brealing of Thangorodrim and the overthrow of Morgoth.
The "Quenta Silmarillion," the main part of the book, tells of the hopeleas war of the Elves and Men againgt Morgoth to regain the Silmarils, three precious jewels atolen early in the history of the world.
fusing it is becance are confusing, it is becanse of the nature of the book. Without acquaintance with Tolkien'a other works, a reader should not expect to get too much enjoyment from this one.
It is history, or perhaps mythology, and not particularly interesting in itself. Unlike "The Lord of the Fings," it has no characters who really, seem alive, and there is no plot to speak of, except for the war that drags on interminably.
An excerpt may give a clearer idea of the bools's character: "Morwen, daughter of Biragund, was the wife of Enurin, Lord of Dox-lomin; and therir mon war Turin - A daughter ther hiad alno who was called Lalnith, which is Latrihter, andiab wat beloved
by Turin her brother, but when ahe was three years old there came a pestilence to Hithlum, borne on an evil wind out of Angband, and she died."
Taken together with "The Hobbit" and the Ring trilogy, however, it is a fascinating book. Many points that were unclear in the other books are fully explained in "The Silmarillion."

The story of Beren and Luthien and their theft of one of the Silmarils from the iron crown of Morgoth is referred to several times in The Lord of the fings. "he Silly tells the whole tal Ginally tells the whole tale. Curiously, and perhaps intentionally, it is written more as a legend than as history; it is unclear just how much of it Tolkien expects us to believe. Characters from his earlier books crop up constantly in this one: Elrond, Galadriel, Gil-galad, Cirdan. But these are not the only common elemente between "The Silmaxillion" and Tolkien's other works.
Parts of the book, particularly the history of the downiall of Numenor, elosely parallel the appendices in "The Lord of the Rings" dealing with the same topics. At times whole phrases seem to have been lifted from one book and put in the other.
But it is misleading to speak of "The Silmarillion" as the later work when, in fact, it was written mainly before either "The Hobbit" or the Ring trilogy. Tolkien continued working on it until his death, after which his son Chrietopher edited the material into a consistent narrative.
This book was Tolkien's life work; unfortunately, it is not his beat one. It ia pexhape too dull for the general public to find pleasure in. But for those who have read and eajoyed "The Lord of the Ringe" thin in a bools that thould not be

\section*{- \\ Plants grace apartment in \\ By Eonns Auld \\ When Petor snd Chris \\ plante and potted nowex}

The first thing you see in aparment threa of Building 23 in Slocum Heighta in the eoft, parple light glowing in the innor recesse日 of the apartment The light if not a special effect, but the life light for 20 African violets. These and more than 40 other plante make up the wildernens \(\mathbf{S U}\) law student Peter Ames and his wife Chris call their living rooms.

The Ameses began growing plants in 1974. Peter was attending Oswego State University then and lived in a dormitory, "It all began when II where you order five tulips and get five more free ones," Peter explained.
manried and moved into an apartment, the tulips tagged along.
"Soon we were visiting plant shopwend adding to our collec tion, " Chris anid.
"We now have about 15 books on Howers and have had as many as 78 plants in the apartment at one time," Peter added. The books helped. Chris and Peter take a lot of pains to ensure their planta survive the Syracuse winters. A potted three-foot-high Norfolk IBland pine grows just inside the front door. The tree thriver away from the forest with its apartment jungle neighbors: a Christmas cac tus, a lipetick plant, five ivy

shings over the 20 potted Ahines over the 20 potted African violets. The threes
inch-high plante sit under the inch-high planta sis under the light's protection for 12 hours
each day and bloom more than each day and bloom mor
"The sunlight and any mointure on the leaves would burn the plants, so we keep them under the Gro-Lux," Peter said.
"Because of the moisture problem, we sprinkle water on the violete under the leaves of the plants," Chris explained. 'This helps open their pores and keeps them from drying out and the pores from clogging.

Most people overwater their plants. Overwatering can hamp the plants as much an
underwatering. We have a

light proba and a watar probe to conimantly test the moil for the right amount of mointure."

During the warmer sumaner montha, many of the Ameses" planis swing from hanging planters on the front porch.
"When I bring them inside the houne each fall, every plant is washed with a weak bleach solution, sprayed with Malathion and ninsed, With a soapy.

The Annesen use a timedreleased plant food for the African violets and regular plant food about every four

Heights
monthe on the reet of the plants in the apartment.

With so many delicate plants, one might expect the inside of the apartment to feel lilwe a greenhouse, but it doesm't. A humidifier is the only supplement to the 72 degree texnperatare.

In the near right, corner, a ragged-edged, finger-ilke plant is suspended in a. hanging brown pot.
"That"s an aralia,"-Chris langhed. "It looks a lot like 'graens,' but it's not: lote of people think it is the first inne they see it, though."

Slocum Haights mosident Peter and Chrim Ames have over 60 plants in their living room. They have a difficult tirme kepping plantz slive during the Syracuee winter, but they find the offort worthwihile.

\section*{Panel discusses aging rebels in relation to film about 1960s}

By Robln Sloan
The rebellion of each newr gemeration wat the topic of a discuasion panel of four Syracuse University profewgors. The discuagion was held at Community House on Nov. 18.

The paner analyzed the Swedish film "Jonah Who Will Be 25 in the Year 2000." which describes the changes in four
couples who rejected
traditional mociety in the traditional society in the 19608.

The film, which was thown Nov. 15,16 and 1'7, depicts how eight persons ure atranded times The couples find bope momes. The couples ma hope, nowever, in the birth of Jonah. Each of the eight aging rebela adds his experience to the education of Jonah.

The key point of the movie wat the 1968 riots in France. according to Michael Barkun, professor of political science. profeasor of poltical science.

the movie were in mearch of a belief system they could not find in the ideologies of the Weat.
Robert Kearney, another political science profesmor, believes the movie politics and the lifo cycie. He related revolutionary movements with. the teen-age years of the life cycle, and thus with an identity crisis.

Richard Braungert, profesBor of sociology, thought the fim represented the death of ideology, a negative utopia and the existentialist plight. indis opinionthereis no end to the movie. Each generation the movie, Sach gencration Jugt goes on, an represented by
Joan the end of the film.

The titue was the icey to the meaning of the filn, according to Vincent Tinto, profersion of education. Twenty-five was the age of the major chazacters: in the ' 60 s .

He arophiagized the importance of the inames of life as seen from sin train in the movie. It wras hir oppimion that Jomath raperemin the thomthare will always be a new deetination bocatese there are always new cenerations. Youth in revolution if a continuous procese, Tinto send.

\section*{Killer insects found in laundry}

By Richard Schlefer James Morgan, director of the Office of Residential Life, warned yesterday that some dormitory wawhing machines have been infeated with deadly South Americam killer bees.
Morgan said ateps are being taken to kill the bees and ensure that there will be no new infestation.
The dorms in question are Sadler. LawrinBon, Day, Watson and DellPlain
Morgan declined to comment on what created the problem, but Student Asprobiem, but Stuenent ABCrowell charged that the Crowell charged that the
change from hot to cold water in the machines may have done it
"It is conceivable that the bees could survive in cold water while hot water wonld kill them," said James Jones, professor of entomalogy at the
College of Bnvironmentas Science and Forestry. "There have been cases of thia sort before, mainly at Ivy-League schools," he added.
James said a student stung by two or more of the bees byould almost certainly "manfi
it There are no cases of survival on record in such situations."

Morgan emphasized that there was no reason for panic and that ORL was on top of the problem.
Morgan said the chance of atudents dying from bee stings was "almost non-existent."
He warned stadents in the affected dorms to do their laundiry only when absolutely necessary, adding that they should be careful to shake all the bees out of their clothing before placing it in a drier.
"The hat air in driers make the bees goabsolutelyinsane, he said.

Morgan added that the been are not violent by nature and will not normally attack anything that does not breathe or move. "Try not to antagonize them by wearing red or making loud noises, he said. "There is really littie reason that the students and the bees cannot live together in harmony."

The bees will be eradicated in three or four months, Morgan estimated.

\section*{SA holds meeting}

By Laurie A. Nikolaki
In its monthly meeting last night Student Abrociation considered the following action and pasged the following resolutions:

\section*{Makeshift masco The Saltine Warrior, the the color, Orange, we suggest an orange as the mag-}
mascot of the Syracuse University Orangemen teamas, has recently come under attack as being a racist symbol. Beaides the fact that the name of the teams, the Orangemen, of the teams, the Orangemen, is actually of texist mame, is of litule importance to us and to the reader.

The purpose of this article is to offer auggestions to the student body of \(\$ \mathrm{U}\) to replace the present mascot.
\(\cot _{\mathrm{A}}\)

A selected loony conld dreas in the attire similar to the New York Met's mascot, Mr. Met.

\section*{news analysis}

Instead of a baseball for a head, SU's mascot could have a large orange.
The purpoees of this mascot are very useful. He could be used by the Manley Zoo and be

Above le in erilatis conception of one of the many propopad
 sU"t concern for fiscil mattere.
thrown at St. John's Lou Carnessecca and other teams and coaches. The cheerleaders can throw him into the crowd at football gamea and the fans can throw him at the players.
Mr. Orange could be given a sidekick to satiafy the female gender. We suggest Anita Bryant, but this may be objected to by the Gay As sociation of Students (GAS).
Another idea is to have a true symbol of SU, a JAP, as the mascot, the JAP will be complete with Gucci bag, Frye boots, Virginia Slims. flopoy
hat, Long Island accent and gobs of makeup.
This mascot can appear on the field or court by driving on in her Dataun 280z. She will then proceed to not cheer the SU squads. With her obnoxious personality and lac noxious personality and lac the side and complain about the side and complain about the unpleasant surro
This mascot would probably not receive flack from any fac tions of the university because no one will own up to being a JAP. The only problem with a

JAP as mascot is that it would be totally unbearable for the fan.
Maybe this idea could be modified to make the game more enjoyable for the fan. The mascot could be a large Gucci bag. The idiot who accepts this task could run around at the games without bothering the games without bothering the fan. But a Gucci bag doesn't carry the sam
Keeping to the practice of having an animal as a mascot, as in other schools, we decided

\section*{SA coverage bites dust}

\section*{By Tom Coffey}

In an abrupt move, Jim Naughton announced yesterday that the Daily Orange will no longer cover the various and sundry activitiea of Student Association.
"We just came to the realization that nobody cares about what SA dow, except for us and cares about what SA coos, except for us and them."
Naughton elaborated on this statement. "Let me elaborate," he said. "We always believed that the student body didn't pay too much attemtion to all the crap - I mean, etoriee - that we printed on SA. But what really convinced us was when we ran the editorial calling for Rich Growell's resignation. We got mix lettern in reply. Five of them asked, "Who's Fich Crowell?" The other one took ve to task for wrasting to mach space on the editorinl."

\section*{Journalism contest solicits entries for contest}

Ey Rufus Leaking
Entries are being solicited on campur for the Fizet. Annual Hunter S. Thompeon Hack Journalism Content.

Spoinsored by the Crwater Zerox Organization (GONZO),
the contest calla for entrantis to crank out great quantitios of absplute bullinit in a minimum of time. Frontrumpers for firet place honore include the guy who writes Mal Ergier:" peeches to well heoled almmini and nich TII tell you at much an you neti to
know" Crowell.
First prixe is one week as editor in chief of Report. Second. place in.... you guessed it, two weeks as editor in chief of Report, followed by a lengthy otay at Giramay Acre Rest Home and Wactry Corral in Trily.

Reaction to the DO's move was mixed.
"At least they won't bother me anymore," said SA Preaident Rich Crowell.
"This is pretty bad," Saint Fick Marrsilius gaid. "Without DO coverace, no one will know we exist."
"This is awful," Hugh MacNiven, martyrand former SA vice preaident. "I won't get my distinguinhed picture on the front pase anymore. Does anyone have a beer?
The SU administration's attitude toward the move was best summed up by Chancellor Melvin A. Eggers. "What"e SA?" he asked.

Nothing also announced that the DO is revamping ite coverage of campus events. 'We're caling all the reporters who've been covering SA and reassigning tham to cover the Orange, the Varsity and Himgry Charley's. Orange, the Varsity and
what and
tudents are interested in."
(In an attempt to fill this epace, the following were taken from actual conversationa, quotes and witticising of the Daily Orange stafi membery by our roving office reporter:)
Tom Coffey: Whowe initials are SM?
Rich Schiefer: Sy Montgomery.
Tom Gradie: No wonder she's wearing black and blue today.
(From a memo on the bulletin board:)
OFFICE OF THE VICE CHANCELLOR
FOR ADMINISTRATIVE OPERATIONS
To: The DO news desk.
From: Clifford L Autumns, Jr.
Re: The annual report
How d'fuck did you guya get that thing??????
Tom : "Cheap and easy?" The story of Maura McEnaney. Maura: That's a low blow.
Rich: Speaking of low blows, how's your sister?
(Tom Coffey diacussing headline writing late one Monday nighti)
Tom: Nobody taught me what to do. I learned it on the atreets.
Manra: So did I Tom.
(Irwin Fisch, after being asked by the folks in the copy room whether he wanted the Student Association story to have precedence over the rape story:)
"I'd rather go rape over SA."

 \\ David Abernethy should resign
}

David Abernethy should resign.
A person who deliberately pours beer on another person's shoes has given up all claim to being human. One who tries to break another person's fingers is even worse.

David Abernethy has done both these things.
And worge ones.
And worse ones.

\section*{Bring back big Mac, you tacky hacks}

After his sudden resignation last week, Mike McAlary became a martyr week, Mike McAlary became a martyr
in the cause of responsible journalism. The former of rests editor, in a move of unbelievable courage, quit in protest of unbelievable courage, quit in protest of the DO's coverage of the Rich Crowell affair and because he was not choaen to
represent the DO on the Tom Snyder's Tomorrow show along with Jim Naughton, David Abernethy and Bem Walker.
"If those guys had any sense of responaibility," said an indignant McAlary, "They wonld have giciced ma over that pornpott Abernethy. The Crowell thing has something to do with my reaignation too; but I haven't figured out what yet."
But one fact is now obvious. The Daily Orange needs Mike MeAlary as editorial editor.
McAlary is the one figure on campus who can command enough respect to restore credibility to the editorial page. restore credibility to the editorial page.
In a In a
gaid they gaid they trusted McAlary, three opted
for Abernethy, and two selected Harry Fig.
Some people may siay McAlary does
not have enough expertise on campus affaira ontside aports to produce an intelligent editorial page. This is untrue and represents a biatant bias against jocks. Even though he thinks SA headquarters is located in the Hall of Languages, MeAlary has. written semi-literate pieces on the atadium and
Saltine Warrior, the two most presgin Saltine Warrior, the two most pressing issues confronting the SU community. (Forget things like tenure and the student union building.)
The Daily Orange editorial page has taken a beating during the past fow weeks. Mike-McAlary has the qualities needed to restore it to its former position, however low that position may be.
"T"ll beat up anybody who disagrees with me," McAlary said when asked of any plans he has for the editorial page. The DO needs Mike McAlary.
He has credibility.
He writes good.
He ain't pompous.
"I might take the job," McAlary commented. "It would be fun. But firnt I've got to get on the Tomorrow ghow." Tom Coffey

\section*{Syracuse, N. Y., vacation land, U.S.A.}

\title{
Bobcats threaten Orangemen tonight
}

By Joel Btachtinito
Excitement has not been as high on campus for tonight'e bagketball mat chup at Manley Field Houre between Bobcata of Biacayne since the Penn State Football game.
State Football game.
"Yes six," said SU
號 coach Jim Boehein. Now we getdown to the nitty gritty. Hey, if we've got the guna we're going to have to prove it The
The Bobcats are hardily cannon fodder. All ready this meason they have downed Eckerd. Bishop and Rolline (away, no lesa), Only an early-season lose to future SU opponent Temple, 112 64, puts the Bobcat talent somewhat in question.
"Anything can happen in college basketball," Boeheim said. "Juat because they had a few things go wrong against Temple doesn't mean
we will beat them. Frankly, I'm The chief cause for SU'b worries tonight will probably be Biscayne 6 200t-7 genior center Richard Neaves and 6-3 forward Ed Fills; two guya, Boeheim says, SU has worked hard in practice to prepare for, Other Orange worries are 5 -foot-9 playmaking guarc Dennis Rogers and Mike LaPrete, the \(6-\) foot-2 shooting guard.
"Sure they're short," the Orange coach continued, "but they are real shooters. You give anyone of these guys a shot from inside 10 feet and they'll make it
Biscayne brings an aurs of mystery with them tonight, with most college coaches leery of the upsets the Bobcats have pulled off in the past. Just two seasons ago they shocked a good Yale
team. And, as Boeheim said, "Only fix years ago they beat Old Dominion, and

last year Old Dominion almost beat us."

It all adds up to excitement. Game time is 8:05 p.m. at the "new" Manley

Field House (which is located on the exact apot where the "old" Manley used to be). The game can be heard on WSYRAM (570) and perhaps even WAER-FM (88).

\section*{The precise, ethical story}

By Sean Branagan
and Kieth Nicicels
Report recently asked The Daily Orange to run a correction of their article on the pre Thanksgiving football match between The Daily Orange and Report Staffe. This is the true atory:
The real score of the game was DO 28, Report 14 (barely) Due to the fact that Report reportedly had wornen on their squad the DO Was kind enough to give them the 14 points.
Members of the DO team had to be told which were the females and which were the males. It was the femrales who looked fairly butch and the males who didn't. The game, followed an inspiring pep talk by DO leader, Jim Naughton, in which he said, "Let's beat that donkey.
The DO jumped out to a quick geven-to-nothing lead wouthpaw QB from the South, connected with Tim Wendel in the end zone.

The Do then received two recruits from the now defunct WFL 'Writer's Football League', the Masked Produc-
tion Manager and the Bearded tion Manager and the Bearded Wonder.

While the DO " \(D\) " was atill organizing itaelf with the tremendous talents of exStudent Association free ageat, Hugh MacNiven, and defengive end, Drew McKinney, the Report luckedout and acored on a disputed bootleg. The TD was by Rick Margolious, on loan from SA. The Report mounted respectable drive later in the game behind Mitch Riesberg. Quarterback Jordan Dale, another player borrowed from SA, merely blooped the ball up to Reisbers, who, with his gargantuan size, outmuscled his opponent. He turned these feeble passes into sizeable gains.
During a DO timeout, Report's Dale out manuveured a blade of grass and scored to
make it 14 to seven, in favor of

Report.
The DO vaulted back in splendor against the timid Report defense. New quarterback Wendel hit a Variety of receivers in ad
vancing the ball up field. vancing the ball up field.
Glen Ellman made a pictureperfect catch while Naughton managed to hold on to two fine ones. Passing mid-field, Sean Pranagan, the Masked Production Manager produced two receptions.
The sensational drive ended On a apectacular note when Wendel threaded the needie, through numerous defenders, and hit Kieth Nichols, the Bearded Wonder. Nichols made a great fuger-tip, diving catch for the tally. The DO defense, sparked by Tom Coffey and Don Salkaln, quickly got the ball back to the offense.
Left in good field position, The Daily Orangemen crossed the acoring atripe once again. This time on an amazing grab by Branagan.

Late in the game, the DO regained possession and ateamrolled down the field to set up a first and goal Eituation. There, the Report mounted their toughest defenThe DO failed to crosa the goal line on two running plays.
On third down, Wendel's pass seeped through the fingers of Branagan, who wan free in the corner. The score needed to elinch victory, had been haulted three times. Thay needed that special play tolock t up. Time out, DOI
As Wendel approached the line of Bcrimanage, he observed Report He quictly celied of Report. He quickly called an audible.
Wende ball was anapped. Wendel dropped back and was red-dogged by Tracy Lynn, Christine Haggerty, and Joanne Wypawypasewski. Wendel expected it. Alertediy, wide receiver Naughton reversed behind Wendel and received a pitch.
eyed Nichols in the end zone. The "N\&N's" combination Naughton to Nichole, didn' want this one to melt in their hands. Naughton rifled the ball in Nichols' direction Nichols, planting his feet juat in bounds, lunged and plucked the pigstin from the air. Touchdown, DOMt:
Time ran out on the acore as the jubilant DO troops ran off the field.
Left ia a daze wasthe Report team. From the looks of the article appearing in the most recent Report, they must hiave sone into a comn and fantamized a victory.- Wham you can't'score, you fantanize, Sol Gordon suye
NICK'S NOTES: The only OO csualty for the game wa Bruce Levine who suffered chest wounds in attempting to snare a bullet from his quarterback. .... The entire Report squad checked into Upatate Medical following the contest.

\section*{Competition sport guaranteed to keep audience wide awake}

By Cheryl Solemnity
Though Cornell, Yale, Harvard, Princeton, Columbia, Colgate, Kutztown State, Brown, St. Ampelm', and Maryknoll Seminary are the only East Conet teams ranked in the top 10 in intercollegiate yawnimg, SUIAn't far behind as viable competition.
Yawming has just been reinstated at a vargity swort at SU after it was dropped in 1971 when several playerw were accused of taking Valium and Wominex before meets. 1 But paint acandal doesn't geem to bother present coach Bill Yetch.
coach Bill Yetch.
"Gosh, I don't know," sang Yeteh. That was then, this in now, mext time will probably be later. Aul in mow is that We're here to compete, to play the crame, to do the beat we can and to win. Bat could be wrong."

\section*{Dinnciny with turtle}

Despite Yetch's confidence, the Orange Yawners have gotten off to a alow start with a \(1-46\) rececra 50 inf thin geason. Team co-captin Bud han blames their poor performence on the failure of mome players to wralke ug when their turn came. The competition this year has also been pretty stiff added Rar
"The worst time is during midtermu and fimale", he continued. "Do You know what it's like competing. agrinet some guy whose just come away fiom a wet i of ex mmas paperz and zeology pro jectu? He's yawning a bleo atreak pad there'f no way we can even get neax him."
"To tell you the kruth." interrapted co-esptain Biff Rarar. Wha hadin't really been palling togither Anom the

until one of the guys accidently got elected to SA and discovered the training benefits of parliamentary procedure. Then the rest of the team started going to meetings. So now we all get a couple of hours of practice in and SA gets a quorum.

A gets a quorum.
Since yawners are judged on the basis of maximum yawn diameter, duration and sincerity, athletes atay in shape with a variaty of lip-etrotching exercises, sometimes strangthenime jaw muscles by squeexing two not getting plenty of rest. It almo helpa not getting plenty of rew
to major in philo
on major in philowophy:
"Some may not think yawning is an tough a epport as foothali or bowfing." yodelled cocaytain Bozm Rafarar, "but it takes a lot of atill to lonow how long to hold a yawn wher thers'e a jradge in Bide your mouth with a tape messure."

\section*{SHORTSPDRTS}

Willie Shoemaker, Eddie Arcaro, and Stevie Cauthen.

By Joft Romanow
Every day a dreary تyen loe Smith walks into a sporting goodh store with vibions of grandenr and a iatwallet An hour latex he will will on looking like O. J. Simpson, thingirs like a cin who jus ppent a mall fortar (the be lag done) and atill talling
ike a Joe Smith.
The fad of wearing sports clothes for all kinds of play and all kinds of people is on the rise. The field once catered exclusively to the Babba's, Dizzy's and Bronko's of the world. Now it antices the personalities of the Lance's, Roland's and Gucxi's. With this "public intereat" in mind the sporting goods induatry is presaing outa wide assortment of fashionable clothing. The Joe Smiths of the world are beginning to look to the sport ing goods industry to improve heir social status and sex life -as well as their health.
Ken Williams, aseistant manager at Herman's World Leisxre, pointed out hat people who come into his store look for the more fashionable and sexually appealing sports garments.
Givang the writer an elbow in the ribs, Williams winked, We all know one reason for buying the fashionable sports clothing is to aide in picking up chicke.

Williams said people come into the store wanting the best.

\section*{Cronkite to} be honored

The Newhouse Foundation is presenting CBS anchorman Walter Cronkite with a medal for distinguished service to for distinguished service to journabim to Cronkite at a given to Cronkite at a ceremony at Syracuse
University's Labin House in New York City on Wednesday.

The medal bat been awarded to 47 journalists since 1936. Some of the journalista who have rectived the award include: Edivard R Marrow Frank Gannett (1950), Mitzi and S.I. Newhouse (1964) and Henry \(\dot{R}\). Lace (1966). The lant pergon to receive the award was Wesley Clark in 1973 .

The Newhouse school will be represented at the ceremony by Chancellor Melvin Eggert, Dean Henry F. Schulte, Profesbors John B. Oakea and Elmer Lower and three journalisu students.

Cronkite was chosen as recipient of the award by a committed of three Newhouse faculty naembers, and two制ndention The award praises Croncite for "dignifying and bringing new reapect to broadeast journaliem and helping to malic it a mource of enerntivitinformblian for the Americhn People:*

Just becsure it loolve erreat and carrics the top name in sportawesu, Willam baid people figure beat hning rox Gem. Whiliam pointed ont, while it is true the top brand name equipment is urgually of high quality it coesn't necesaarily mean it't beat for everyone who wears it

Other sports equipment made by the same company or a lesser-known company, but doegm't canry that extra stripe or the brand name label, can do ize same work and produce the same reaulta as the top lime sportswear, Williams said.

Unless we point this money-saving fact to the pablic, which we always do, the custorners are always go ing to spend more than is necessary, " claimed Williams. Willixams said there are still many people who refuse to tale advice and buy according to the price tag.
"People are just trying to look flashy," gaid Willianos. He commented that it is "jocks" who still wear cut-offs and \(T\) Ahirts:

Look at the perzon who has the \(\$ 60\) jogging outrit and youll bee a person who runs only sporadically and continually complains how guilty he is about gaining weight as
hey gulpodown a whopper with cheese and extra lretcisup. This amme person owns thre Orfent pairs of aneakers
One pair is exclusively for ogerdis coorcinated with their brigh grean warm-up suit, racing stripes and flare bottoms inAnot
Another pair of athletic ahoes are strictly for dreas. These are namally worn at casual parties where the person will be wearing their good jeans, rugby ahirt with the brand name on the sleeve and the athletic ahoes are *real clean."

Then there is the working sneaker (does not deserve the name athletic ahoe). These are uaually a cheaper pair (\$15 cheap) and the turnover of these is extremely high.
But all thesenlterior motives for buying sports equipment should not cloud the fact that aome people want to just stay fit. According to Gary Bugenhagen, manager of the Sporking Foot, "there is a whole new awareness of phyaical fitness." Even Washington is retting into the act, Bugenhagen said. "There is a physical fitness council out of Washington promoting the trim look.

So no matter if you have your Ioe Smith who buys a cioset full of tashionable sportentear or a Dizey Chandler who wears nothins but

\section*{Scholarly symposium}

Various scholars from Syracuse Univergity and other universities, and federal officials, appeared yesterday at a daylong series of gymposia on public policy problems siponsored by the Maxwell School of Citizenship and Public Affairs.

At the final symposium, SU economic professor Jease Burchead Qefi), David Puryear (eenter), acting director of the Divibion of Public Finance of the U.S. Department of founing and Urban Degvelopment, and George Peterson, director of the Public Finance Group of the Urban Institute in Washington participated in the seminar "Intergovernmental Fiscal Relations and the Decliming Northeast" in the Maxwell Founders Room. (Photo by Scott Ainbinder).

\section*{Candidates show agreement}

Conchnued trom pege cine
policy, not the preaident,"
hesaid. Klein, SA vice Scott Klein, SA vice president for univerenty/community relationn, decinnea that mamy of the problerarofthis year's administration have confronted were becange "Fich Crowell was "an outnider"; at the time of his election. Flein aaid he will not have that problem mince he in already an SA official.
He raid he has accomplished many thinge as vice presidemt, including woricing for increased North Campus bus service mind the installation of stop sigms at the intermection of Univerdity and Waverly Aventues.
All five candidater for comptroller, Jon Groes, Jim Keeney, John Schoch, Carl Kleidman and Ron Zaretolty. said the job in an ad. ministrative, not a political of nice They traised the job done
by current comptrollex Bob Valeri.
Jon Gross said being independent from sil the presiciential candidaten would malme him more effective in the office.
"I'11 make money fow in the direction of new ideas," he said. He added that he wovld probably cut anadent officiala' stipenda.
Jim Keieney said the difference betwrean himmelf and the other candidates wan his experience as a member,of the finance board. He attacked his opponenta for "only being around when the elactions come up and there's the porsibility of getting a mipend."
John Schoeh said he would use the office of comptroller to educate students about the ediucate students about the ailocation of the student fee My enthusiasm and wilingen for my lack of SA ex-
fill this space
write for the do
perience," he said
Schoch also emphasized that he would have a close Wrorling relationahip with pretidert and we need a president and a comptroller who innow each other " he eaid.

Carl Kleidman mtreased the administrative nature of the comptrollership. "An effective comptroller is one who can deal with the budget," he said. Ron Zaretrlyy said the most important thing for a comptroller "is to keep a level head when the budget in allocated." It is important, he continued, to allocete money wisely if there isn't enough to please all student goups.

During the quention-andanswer period that followed the presentations, Scott Klein said Roger H. Hull vice president for development has pold him there will be enough funds by Jume 1978 to build a finds by June 1978 to buida student union buillding. "I've been pressing Hull on this ise sue." Klein Baid. "I talk with him at least once week."

About 25 persons attended the forurn, which was the frist in a series. Rick Jacikon, SA vice president for ad. ministrative operations, was the moderator.

\section*{'Baby Grand' offers powerful pop music}

By Brace Pilato Baby Grand is good pop music. It is commercial, in fact, mosicibly too commercial. The posibibly too commerciai. The voices are pleasant, allough

Thair new album, "Baby Grand." has a tendency to fall into sugarymush. But themost part, it never loses it solid. powerful bottom.

The group is Rick Chertoff; Roh Hyman and Dan Kagan. They are talented not only ats writers, but also an arrangers and producers. The sound is allwas clean, fresh and grand.

The group makes fine use of several uncommon ingtrumente, such as tubular bells, as well as their harmony voices. They can aound like the Bee Gees vocally, while at same time instrumentally. they're sounding like Pablo Cruise.

Side one opens with the spectacular "Never Enough." The song connes out and grabs you song comes out and grabis ita ngnt trom the atart windits monster cirums
electric guitars.

The rest of the album in flled with lots of catchy hooks and plenannt melodies. It seems an though almost every track was designed to be a single like the pop records. Todd Rundgren was making a few years back.

Baby Grand will be appeax. ing tonight at Jabberwocicy for ingtonightatrabberwoch aror their frat Syracuse area appearance. Gab and WAER

\section*{Orange kill Huskies}

By Jool Stanhenico
The writer for The Hartfor (Ct.) Courant phoned his paper after last might's game at Manley Feld House. "Hello," he said, "I'm phoning from Syracuae. I'm calling in a funeral."
And for the Connecticut Huskies it-was, an the Syracuse Orangemen buried them 101-61 before 8,566 fans at Manley.
The loss avenged a UConn upaet four years ago in Manley, but it also went along Way to redeeming the Orangemen for their 76-67 defeat two nights ago in Dayton, Ohio.
"The main difference tonight was due to the students of Syracuae Univergity,' SU coach Jim Boeheim sain. When they're here we play better basketball.
It is hard to imagine the Orangemen playing any better han they did Wednesday.
SU's Roosevelt Bouie, who lost both taps to asmaller man in Dayton while playing less han 12 minutes, controlled the prening tap againat UConn Plus the second-half tap. Plus he lane against the Fuskiesonight" Eouie vaid play Geytor game I just wean't in he right frome of minan" Eright frame of mind."
Boues "right frame of gnd rranzlated into the domination of the middle, which tranalated into only rouble for UConn. The Husjes' three big men - forwards John Delagrange, Jim Abromaitie and center Jeff

Carr - combined for only 13 points all might againat the woukh SU front line anchored by Bouie.
"I didn't Inke the Feeling of having a bad game," Bouie said of Dayton. "I wanted to play my game tonight."
From the start all the Orangemen played their game. Using a ferocious defense and a quick fast breat SU broke out to a \(14-6\) lead after oniy fuve on a breakaway alamdunk by Dale Shackleford.
With a series of SU guards Syracuse played 10 different men in the first half) concenmen in the frst haif) concen-
trating on shutting down Huatrating on shutting down Huakie star playmaker Joe Whelton, UConn wasimpotent offensively. They were able to muster only 26 points in the firat half against the pressing SU man-to-man defenae
"It was our defense," Boeheim agreed. "We held, pretty respectable basketball ream to 26 points in the first half, and that's pretty good.'

SU scored 43 points in the first 20 minutes of play. Staked to a 17-point halftime lead, the Orange substitutes played most of the second half, more than doubling the team's margin of victory.
Freshman center Dan Schayes led a second-half rout Scher (as oppoaed to the frathalf rout) with 13 points, While anohber ireahman, Chris Jerebko, adad 10. SU took it firs: 30 -point lead with 12:44 to play in the game and its first 40-point lead with less than four minutes to go.

They were really juiced for this game," said UConn conch Dom Yerno. "The tempo wan theirs all evening. Backboarde - they killed we.

In most of the atatistics SU was truly a killer. They outrebounded the not-that much-maller Hualies 61-35 setting up what was again a devastating Orange fast break. They outahot the Hus kies 51.7 percent to 34.8 percent from the field.
"They shot unbelievably well." Perno added. "I didn't think they could shoot like that."
"We wanted to ran a little more tonight and be a bit more aggressive than in Dayton," Boeheim said. "We just had to loosen up.'
The SU scoring attack was balanced. Louis OTr led all corers with 16 pointh, Shac kleford had 14, Schayes had 13 and Marty Byrnes scored 12. The Orangemen also had 26 assists on the night, compared to nine for UConn.
"They're in outatanding ball club," Perno Baid. They ve got a lot of answers. Tonight they had all the answers."

COURT GESTURES: The defeat was the worat for UConn in over 13 seasons.. Bouie and guard Ross Kindel had combined for two. shots Monday against Dayton, put the hall up 12 times last night ...UConnis 1-1,Syracuae, 2-1.

\section*{1977: Syracuse rebuilds an old foundation}

By Joel Stashenko
The date is Sept. 17, 1977 and Syracuse football coach Frank Maloney sits in a locker room in Archbold Stadium. His team has just been humiliated \(38-0\) by North Carolina State, one of the soundest defeats in SU football history.
"As crazy as it sounds," Maloney says, "I'm not down on this team. They'll be ready next week."

It does sound crazy. His team is \(0-2\) and has just played with the ferocity of earthworms as it was buried in the Archbold turf by a good N.C. State team.

It is now Nov. 19, 1977 and Maloney again sits in the SU locker room. His hair is dripping with champagne. His team is dripping with enthusiasm. It has dominated West Virginia \(28-9\) in its last game.
"I've been asaociated with national championship teams, and ones that have gone to the Rose Bowl." says the former Michigan assistant, "and

The biggest thing after the North Carolina State game was the emergence of Monk.

I've never aeen a teara this close. We went crazy trying to sell the team concept to the kids. It bloasomed thit meason."
And to has the turnabout an SU grees from 0-2 (and 2-5) to 6-5.
SU's win over WVU epitomizes the aeason. There was quarter back Bill Hurley amoothly running the SU offense which would outgain its Mountaineer counterparts 336 yards to 256 . There was the SU offensive line seizing firmer control over the WVU defense than Amin has over Uganda. Thare was the defense finally being a defense in shutting off the Mountaineers when the game was in doubt.

And then there was At Monk.
"The biggent thing after the North Carolina State game was the emerrience of Monk," may Maloney after the WVU game. "Sibce we were able to do
things offensively with hirn we took the heat off Hurles.
Againat West Virginia Monk acores three of the four SU touchdowns. One comes through the air an an 11-yard Hurley pass and the other two come on sudden bolts into the end zone from 25 and 30 yards away.

Valuable and varied
"I don't care how I get the yardage or TD, whether it's running or catching the ball." Monk says. "Our game plan was for me to run with the ball, because game plan waa for me to run wita the bail, because pass to me." Monk runs for 136 yarde in 19 carries.
"The emergence of Art Monk was the real catalyst to getting our offense going." Hurley adds. "We should have a really good offense next year."

On defense, the often apoken about, but seldorn seen, defensive rebirth occurs with SU controlling play against a tough WVU offense.
"SU'a defenge has been improving all season," says Mountaineer coach Frank Cignetti after the game. "They don't have great, dominating people, but they work well together.
"We're an emotional team," agrees SU defensive back Lariy King. "We have to be. A lot of times we don't have the talent of the other teams we play."

But on this day Syracuse seems to have both the talent and the emotion in its favor. WVU strikes for a field goal near the end of the first quarter, a a geld goa near begend of the frat quarter, a touchdown at the beginning of the fourth end noth than Syracuse.

\section*{Bountiful rally}

The one-sided win culminated the 1977 SU comeback; and in many ways the \(6-5\) seamon is the fruit of the eceds Maloney planted four years ago when he first arrived at Syracuse.
"Everybody asid to us 'you stink' after the N.C. State game," saya zenior defensive lineman Ken State game, saya genior defenaive linems.

Polted with bottles after the State fiasco, the team withdrew into the protective shell of the Orange helmet, into the camaraderie of the team itself.
"We"ve all been through a hell of a lot; masye offinn.
give lineman Don Wells. "But at the very beginning Coach Maloney said if we stayed we'd be cham pions. We didn't play for the national championahip but we were playing for pride, and if you can do that then you're a champion too."
"People are going to remernber this team for a long time," King adds. "We were 6-5. We weren'tone of Syracuse's greatest teams, but we put a lot of memories into our minds and into other people's too."

Although one of those memories is not that of a bowl ganae, the team the last four years has done something perhaps more important - rees tablishing the sport of football at SU.
"I kind of expected a bowl," says semior defentive lineman Bernie Winters. "But what Coach Maloney wanted to do was lay a foundation for football a Syracuae. Today we put in the final brick."

It's a ball
Membert of the SU women's rugby team and thair Oswego State counterparts battle for a loose ball during Syracuse's season-ending \(\mathbf{6 - 1}\) loss. Although traditionally a male sport, both sexes have begun to play .rugby in America. (Photo by Scott Ainbinder)

\section*{Despite raucous crowd, op}

By David Abernethy
It was a night of half-price beer and rowdiness at Jabberwocky, but Wednesday the entertainment wasn't music or comedy - at least not in the strictest sense. Instead, it was student politics.
Candidates for Student Asbociation president and comptroller attended an open forum at Jab Wednesday preaented their views and answered questions before a continuously raucous crowd of about 100 perions.

Deapite the unruly crowd, Rick Jaclcson, vice president for adtwinistrative operationa, asid the forum

\section*{WJJPZ relocation delay to end three floors away}

\section*{By Mike Rumo}

Last Tuesday the School of Social Work elected a graduato student repreeentative and a four-member constitutional committee, according to Daniel Bloom, chairman of the Graduate Student Organization Graduate Student Regulations Committee.
GSO froze the achool's graduate GSO froze the achool's graduate
tudent fee, ffective Nov. 10, btudent fiee, effective Nov. 10, because the achool' GSO represen
tative, Joel Archer, wis tative, Joel Archer, was
illegitimately elected. On Nov. 17 the Rules and Regolations Committee decided that a new constitution would be necessary

Robert Maalyn was elected GBO repreeentative and Gary Weinstein was elected preaident pro-tam. They were the only nominee. Brenda Veilleus, Joel Archer, Debbie Apter and Robert Eflilenbein were elected to the constitutional committee out of
aix nominect.
The rules and regulation committee voted last night on a resolution to reatore School of Social Work funds, Bloom said. There is no reason why the reeolution ahouldn't pass because all of the ghouldn't pass because all of the guidelinet, for the
The turnout for
The turnout for the election was "lower than expected," Bloom said. A major revision of the present constitution is necessary. "It will require a little bit of time," Bloom added.
Once the constitution is written the School of Social Work will hold elections for the offices the conatitutional committea decidea upon, Bloom said.
The constitational comimittee will hold its first meeting Thessday, ac-
quests "didn't have any influence in the decision (to initiate 24-hour banking gervice) at all." He gaid the bank has had its automatic teller machines since 1970 but did not install one on campus solely because the bank had not yet issued a card enabling studenta to use the account without a Master Charge.

Klein is currently SA vice-president for university/community relations.

Steve Kantor identified "lack of communication" as SA's primary problem; SA, he said, cannot communicate within itgelf, or with adminiatration and atudents
Tom Hoffman said "the top priority is to get people involved in SA. It is imposaible to lead if no one will follow." Hoffman also said SA has "loat all our credibility with students."
Bill Krueger stressed academics as his pximary concern, proposing an adviaing and connsaling network, midgrades (grades of \(3.6,2.5\), etc.) to "more accurately raflect" stadents"

Continued on poge twetve

\section*{A philosopher's proof: Mel Eggers does not exist}

In recent weeks, I have begun to develop an interest in the study of philosophy. The works of auch great classical to minkion the relatively recent ones of Nietchze. Kierkegaard and Santayana, have inspired my mind to profound thoughts. They have also cured my insomnia.
Anyway, I, like many other frustrated philosophers, have turned my attention to the great eternal questions confronting manicind. Some of my recent musings follow (not that anyone will really care).
The first question any apprentice philonopher must consider is whether or not God exists. Nietchze said this dead' thinkers. Nietchze s view, however, is really toonar vacation every now and then
I mysalf have resolved the question of God's existence. As lang as there is the slightest chance that a Supreme Being exisis, one must beiveve in it. This is based on the timehonored doctrine of self-preser vation. One must believein sornething that may have The ability to zap you into the hereafter.
The next logical question to confront is the one posed by Descartes: Do I exist? Descartes got around this one by proclaiming "Cogito ergo sum." (That's Latin, in case you're uneducated or non-Catholic. It means "I think, therefore I arn.")
This convenient little formula overlooks several factors, however. For example, what is thinking? My handy little pocket dictionary defines thinking as "to form or have in the mind." If this is trae, most atudents at SU do not exist, since they don't have anything in their minds.
However, 1 have also resolved the question of my existence. The other day I walked into a wall, eince have this bad habit of not watching where I'm going. The resulting pain led me to a startling and profound

Thomas Coffey
herefore I am.
Having answered these questions, I moved to a matter of far more importance, and of fax more

Before you jump to a hasty conclusion and say yes. ask you to consider a few questions. For example, have you ever geen the alleged chancellor? have you ever talked to him? Do you know anyone who has experienced either of these two events? For the typical prohably be no. No one has ever seen Eggers. Thus, it is logical to assume he is invigible. Since an invisible being bas no mass, Eggers does not exist. However, this givea S non-existent chancellor.
Son-existent chancellor. ing in Eggers' existence. After all, they may claim. doesn't the chancellor emerge from seclusion at least once a semester to go to the University Senate Open Forum? The answer, unfortunately, is no. This representation of Eggeris is really an android.
While the administration maintains the fiction of Eggers' existence, I have put together a reaoonable theory that explains why SU has no chancellor.
Shortly after assuming the chancellorship in 1972. Eggers was kidnapped by a group of rabid Penn State football fans. The kidnappers demanded that SU hand over the statue of the Saltine Warrior in return for Eggers' release. Confronted with the choice of los* ing a mere chancellor or the university's revered symibol, there was really no alternative. The administration kept the statue. In frustration, the Penn State fans absidoned Eggers in the wilderness of central Pennsylvania. No one has seen him aince.
What can one say about an administration that pretends it has a chancellor? By lying to students, it has failed its regponsibilities in the areas of both ethics and morals (two other things we philosophers are bigon).
Besides, if we can't trust the admanistration on little things like Eggers' existence, how can we trust it on the big ones? For example, how much is the stadium really going to cost?

\section*{SA elections: considering the comptrollers}

As the campaigne for Student As sociation comptroller progressed this week, it became clear that no particular candidate is radically different from the rest. With this in mind, each student who plans to vote must decide on the one candidate who best fulfills the requirements of the Jomptrollership as he or ane sees them.
Jonoss: \(A\) sophomore, Gross

\section*{The elections: \\ Hugh MacNiven}
calls himself an "outsider" to SA. He sees the comptrollership an an administrative (as opposed to political) job. Gross admita that he offers no pertinent previous experience in SA.
campus organizations or budgeting. campus organizations or budgeting. but he maintains that this is offet by. willingress to
various issues.
various issues.
Gross wants to see the SA budget spent in ways to achieve ends that will directly affect students. On the isaues of stipends for various student leaderis. Gross would continue the trend of gradual cutbacks acrose the board (including his own). Gross also says he wants budget ernphasis on
formation of new campus groups.
Jim Keeney: Stressing his ex. perience in the SA Assembly end far better able" to be comptroller than others running. Keeney says that he would not cut gtipends on a general basis but would investigate particular cases if questions mhould raise. Nor cases if queskions ahond raise. Nord of capital expenditures. (Such a de-em: phasis on office and equipment ex-

\section*{Harry Fig}
penges was a rat
Keeney says he would also make sure not to use student fee moniea in areas where the university may offer funds (such as the yearbook), to avoid duplication.
Above all, Koeney bays the voter'a choice cannot be made on the basis of issues (where he insists all the candidates pretty much agree), but upon the cifference between the candicates themselves.
Ron Zaretzky: The difference of attitudes between the various candidates is stressed by Zaretzky. Citing that he is not an insider at SA, he believes that his willingness to work hard and be fair in allocating the budget makes him the best candidate.
Zaretzky speaks about implementing a zero-based budgeting policy, wherein all organizations would have to justify every dollar in its budget.
Stipends would not be cut by
Zaretzky, but he would try to deemZaretzky, but he would try to deemphasize their importance.
John Schoch: "Dealing with money the position, to which he says he will bring enthusiasm and willingoess to work.
Stipends would be considered more as scholarshipe than salary by Schoch, to be awarded on a need basia with case-by-case approach to cutbacks. Schoch has emphasized the relationship of the cormptroller with the SA didate, whichis not aurpriting, gincohe is running on a ticket with a preaidential candidate (two other comptroller candidates are on ticketa: Zaretzicy and Kleidman). Schoch has said that he
could not wrork as effectively if anothe Schoch han naid that one of th Schoch han naid that one of the primary roles of the comptroller is to policies set forth by the student body policies set forth by the stuident body hen just rhe assembic: it wuggest that the comptraller will become involved in the internal polilics of SA due to him close internal polilics of SA due to hionship with the president.
Carl Kileldiman: Geprersi polivies in regard to such things an mapends and capital expenditures are to be avoided, noists Keidman.
Although he sees this past year's general stipend cut as positive, Kleidman feels that the appropriate following step would be to continue, but on an individual case basis. Meidman says there should be further cuts and eliminations (as there should be with capital expenditures), but not for all positions.
Kleidman's idea of the comptrollership is a post involved in the politics of allocating to various organizations, but he insists that the with internal SA politics.

There is little difference between the candidates on issues such as capital expenditures and stipends. There are important differences, however, in rearard to the candidates' approach to the job of comptroller. Enthusiasm and willingness to work 18 common ground not enough tomake a good comptroller. Previous experience, taken by itself, is riot enough to make an effective comptroller either. Jim Keeney has a comptroller either. Jia Keeney has a
that is about the only thing which distinguishes him from the others.
Jon Gross atresses the noed for funding new organizations. Money for this would have to come from other areas of the budget, such as present funding of existing groupe. Groes insista that the money will come instead from across the board cut in stipends.
Any general cat of stipenda by some arbitraty percentage in unfair, becauce not all people on thits campus are overpaid. The only way to avoid arbitrary cutting
case-by-case basis.
The most effective comptroller will be one who atays clear of the tangle of SA's internal politica, as Bob Valeri has done so successfuly this year. John Schocide approach to the ponition will establish a real danger of him becoming too involved with SA's political
Ron Zaretzky believes that his attitude about the job is what makes him better than the other candidates. This may be true, but he presents little else upon which to judxe him. Zero-based budgeting is a good idea, but to a great extent it exista already.
Cari Kleidman anys he will not become involved in internal politics. He wants to deal with both capital expenditures and atipends on a case-by case basis. He believes chat his academic and professional background in finance qualifies him for the post. Because of these atrengths, and the various wealonesses on the part of the others, Kleidman seems the best choice for SA comptroller,
Hugh MocNiven's columns represent hispersonalopinion, not that by Peter: Wallace

\section*{The death penalty:}
 declared maconstifational two noctiona of a 1974 law which mandated the death pemalty for persoms convicted of Irilliog police or prison oficicers pexforming their duty. Though the vote was surpminimay close, 4 to 3, the courtis ac tion had been anticipated since July 1976, when the Supreme Conrt inIn both casem, the decidions wers both in both case, the docisions wore both anmane and logical - an antomatic penalty bhould not be applied withont onvicering mitigating circurastancem. In essence, thesen rulings mean that \(n\) defundant, regardless of hif crima, is entitled to every benafit of the doubt

\section*{Sy Montgomery}
before tha state resorta to the finality of the death pemalty-Mitigating circumstancen are those factore of buch as character or prior record of the the severity of sentencincs, with mandatory death sentence, mitigating factors are meaningless, fince once the defendant is judged guilty, death is the antomatic punishment. The dieficulty in deciding the conatitutionality of the state statute was that one of the affirmative defenses to frit-degree murder, extreme emotional dia. torbance, could aliso be considered a mitigating circumstance.
But as a defense, the emotional state of the defendant could only figure into the eevexity of the sentenco. However, many mitigating factors enzist other than emotional health of the defendant age and previonse record, for example, Thus, it was decided, in the words of Judge lavrence L. Coolica, that the Btatntory framework may in some manner reflect various mitigating facWrs is not enongh to save New York's death penalty statute from constitutional infirmity."
The court'e deciaion was a wise one.
Mitigating circumstances are an essen-
tial consideration in determiming a person's charbeter and bacicgronind, without which a logical and humane santence cannot be reached. A ruandatory death pentemce woald reduce What We call "justice" to a rellex reaction; deciaions regaxding a human life deserve much deliberation.
Hovever, the conxt still lesves aeveral questions nananswered. For instance, is the police liller moregrailty than the killer of the "ordinary" cititrin? It mast be rememberred that the new decision does not mean that the death penalty cannot be imposed for the murcier of a police officer; it zaeans that the death penalty for this offense in molonger on automaticmandata. But in the state of New York the death penalty cannot be imposed formurders of other than police and prison officers. Is the crime in question that of lilling a human being, or removing a peace of ficer from public service? This distinction would seem to render an otherwise fair ruling selective and discriminatary.
If the death penalty is considered appropriate for murderers of law officers. provided judgee and juries are allowed to weigh mitigating circametances, it ahould be equally applicables, to terrorists who murder. and to the rapista and murderers of childrem.
Another question left unanawered by the state court of appeale is what to do with the third mection of the statate, which calle for tire death penalty when a murder is commited by a convict serving a lifesentemen. In thim case, it can be inga ife aentence. in thill case, it can be logicanyargued thata prisoner serving
a life sentence would have no further a ince sentence would have no further
incentive for restraint - he or ehe incentive for reatrant \(\overline{\text { would have nothing to br bie }}\) by committing marder after murder. However, mitting murder after murder. However, even in the most atrocious casen, it is This would aimply male itharder to all aniswould simply make ithaxder to get
convictions.
In this case, as in the rulings on the frrst two sections of the faw, capital
punisihment should be neither man-
dated nor discarded an propor punishmmit The nentence should be
thonoughly waighing all factors involved. It in only through thin pro
that tue jurtice can be achieved.

\section*{A fading priority?}
"University students are always complaining about something," a television commentator once observed, 'but they can never make up their minds what they are complaining about."

There is a certain amount of truth to that criticism. Each generation of college studenta sets a diffarent agenda and establishes different priorities. At Syracuse there was always one thought to be sure of. One thing that was constant. There was no University Union Building and atadents weren't happy. But now it appears that atudents may even be changing their minds about that.
Last week, in visiting certain administrators, we were asked by several, "Do you think students still care about a union building?" The question' seems incredible at first. Of course students want a union building. It has been an issue since 1925. The non-existence of the building and the protesta accompanying it are campus traditions.
But the tradition of protest and efforts to remind the university that a community gathering place is still needed has disappeared: The present SA Administration has not organized a single effective eff-t to protest the situation. SU's administration is wondering whether stua nts want a University Union Building and they are talring students' silence to mean that the issue has been forgotten.

The University is conducting a Capital Campaign to raise money for the union building, and geveral other projects. Capital Campsign director Roger Hull still thinks the campaign will be a success. Fe said last fall, union building money will be raised by June or July of 1978. Not many other administrators are as optimistic as Hull. For their part students seem to have staked their hopes on the drive as a means of funding.

They might soon change their minds. With the deadline lesa than seven months away the for-year-old campaign has yet to hit the halfway mark. If the campaign fails, the university has no back-up plan. Come July there if the campaign fails, the university has no back-up plan. Come July there is a good posilility students will once again be told to be patien

New strategies have been worked out for 52 years. The university has never been sufficiently committed to the project. Even this year the union has fallen from SU'a first development priority to third or fourth.

Renovation of HIL, construction of a stadium and, by mome estimations, construction of a new echool of education or a new behool of management are higher priorities. The only way for studenta to return the union to the are higher prionities. The only way for studenta to return th
top of this list is to apply pressure to the administration.

Some organization, leadership and action are needed. Organization, leadership and action are nice catch words. In part two of this editorial, Monday, we will offer some suggestions on turning these concepts into reality.

\section*{Author discusses \\ LBJ administration \\ \section*{By Thomme Cortey}}

Doris Keuma Goodwin, author of "Landon Johnson and the American Dream," talked yesterday about her viewn of Johnson's premidency before about 125 persona in Maxwell Auditorium. As Johnson was a brilliant politician in his perceptions of people and how to move them," ahe said. "He wato a-vital, energetic man, but he ended energetic man, but he ended his career a lon
down in Texas."

Goodwin was part of a fiveperacn panel which diecussed the American preaidency. Froger Sharp, chairperson of the history department. moderated the symporium.
Goodwin, a profeesor of government at Harvard
University, worked on the University, worked on the
White House ataff for a short period during Lyndon B. Johnson's presidency.
Goodwin attributed Johnson's failure to his Vietnamp policy. She explained that Johnson kept escalating the war in Vietnarn even though that policy did not work.
She traced "this arrogation of power in the war to he in creased power the white House of Cobing atal White House staff makea it White Houge staff maken it
seem like the whole world seem like the whole world man," she said.

White House staffers, she added, tend to tell the president what he wants to hear. They do this because they want to increase their standing with the president
and, subsequently, their own power.
Goodwin said the state of political partien was enother factor in the inerease in preaidential power. Political parties, me asid, used to be stronger. "The check they once had on the preaident does not exist." she said.
"Johnnon's dominating personality was under no checks when he was president," Good win said. But hia permonality, whe added, was held in chect when he was Senate majority leader, and this aided in making him on excellent majority leader.

However, Goodwin noted a poaitive trend among young people which may slow the inereasing power of the presidency. "Many young people have developed a eense of rootw," developed a sense of roots,
ohe said. This means that edue said. This means that educated persons will etay in
their home commlinities their home commlunition
rather than work for the rather than Work for the
government in Warhington. Goodwin charged that beingin Warhington all the time isolates many politicang.
Goodwin revealed that the was offered the job of Peace Corps director earlier in the year by the Carter administration. She refused the job, she said, "because my oota are in the Boston area." Her family, job and caresr are all in Bonton, and she did not want to change that. "Besides," she added. "I'm a fanatical Red Sox fan."

\section*{Rod Stewart album proves satisfying}

\section*{By Leary Belmont}

Rod Stewart's latest album, Foat Loose \& Fancy Free, confirmis his statua as a consistent pop rock performer and bluesman. Although the recond is not an kanhy as his Gughly guccesarul A Nught on the Town, it makes up for its lack of surprises with a solid dedication to quality and pexformance. Con sistent, not exceptionally ornate Fancy Free is a satanying rock \(n\) roll staple that indicates that Stawart has cultivated an ex-
traordinary flair for success in his traordinary flair for success in his own terrilory. More than any other pop vocalist around, he remains an and an excellent interpreter of and an excelient interpreter of other's material. This is evidenced by the blend or originai balladsand rockera balanced againat aeveral preata with equal respect.
What Stewart often lacks in direction, he makes up for in performance.
perfirmance.
mongs are colorfully arranged, the instrumentation im nothing short of top noteh, and the feeling in his singing is unmistakably sincars. Stewart's vocala have always been his trademark and it is with them that Stewart achieves his greatemt success as an interpreter. When he success as an interpreter, Wheas he does a blueay, heartbreaking ballad one can almost fea the wounded
emotions propelling the voice. Similarly in his harder songs, Stewart attacke them with a alick craziness that enhances the foeling of wild release that defines the very exsence of rock.
On "Fancy Free" Stewart gives us a taste of what he han alwaya done wein. Side one opens with Hot rocker that anounds remarkably like the Rolling Stones. There's a certain gensuousnessin Stewart'a voice that gives this tume a sense of brash honesty. The convincing vocals coupled with sorne fancy suxaphone and free-wheeling gritar by Billy Peek, Jim Cregan and Gary Grainger make for an exciting, fabt
number. Ex-Vanilla. Fudge drammer Carmine Appice ohines kere, puthing the tong eteadily, keeping it on course.
"You're Insense" is a strong rocker pumped full of drumn and bama. With horne andkeyboarde touching it up a litile, the song taken off quicily, moving with an overwhelming air of urgency "You're in My Heart"isan eapy-going acoustic number, painted by Nicky Hopkin's string synthesizer. Singing about his soxual misadventures with jurt a trace. of sentimental fluttorin his vaice, we can't help but appreciate the gentle
attention Stewart gives here. The attention Stewart gives here. The oong is genimnely pretty and it given
us a reat before he assaulte us with un a rest before
"Borm Loose."

Side two is more laid back than the first aide, but the songe here are better and handled with more "Yncern. Lamont Dozier's classic "You Keap Me. Hangin" On" is Free" and it's only because Stewart has hyed the song. It's slmome as if the Bong is directod to Stowart's exgirifriend Britt Ekland. The song is powerful, it moves and thare is a constant building up as if the munic was an echo of Stewart's fealings.
The bitternese of the song is the bitterness of the song in Sompered by a glimmer of hope that solitary inntrument of his voics. He solitary inatrument of his voics. He jemains one of the bett at toars.
On this record, Stewart maintainas the same level of quality he has endowed some of his previous albumas with. The songa are all standard blues, whether they be hard or soft. The fact that he has neither regressed nor progressed is not evidence of his exhaustion, but teotimony to his excellence in his field. Disregarding the "pleasant" mediocrity and seeming lack of
change on this album, "Foot Loose \& Fancy Fres"' is a solid album whose virtues vastly outweigh ita drawhacke.

Wet Willies with rejuvinated 'Manor

\section*{By Bruce Pilato}

It's been almost two yeark since the dernise of The Allman Brothers Band. And when that great Dixie tradition died, the entire sout
rock explire collapsed with it.
One of those finegroups caught in this avalanche was Wet Willie. Willie had become one of the more popular Southern banda with a series of consistent country-rockboogie albums, and even one hit single, "Keep On Smiling."
But with the Allman Brothera breakup, and the artistic downfall of
Capricom Fecords, Wet Willie was Capricorn Reco
out in the cold.
Soinstead of throwing in the towel and calling it a day after sever long years, they decided on a comeback
attempt. They replaced three members, they raoved to England to record their next album, hired a Britith producer, and signed with a new, and more effective record label, Epic.
Epic. rewult is stunning.
Manorisms is a classic rock album Manarisms is a clessic rock album.
It is not only the finsent LP the band It is not only the finest LP the band
has ever recorded, butitis also one of the best transformation necorde you'll ever hear.
It must have been the change in location. Recorded at The Manor (the studio used by Mike Oldfield and most artists on Virgin Recorde) in rural England, this album is freah and alive. It is filled with mome of the bust licks you'll hear in a long time. "Street Cozner Serenade" in something you might expect Springeteen or Southside Johnny to record. The abx is Charence Clamona all the way. "Don't Turn Me Away"
group has ever performed and one of the fin
This is great party music. Side two never atops as it'e like having a never atops as charge into your living room, every time you tom on the stereo.
Wet Willie's use of harmonicas has always been among the beat in rock ' \(n\) ' roll and they really outaio it, on "Manoriams"'"One Track Mind" hat a harpsolo that is asgood as the stuff that Paul Buttexfield was doing
10 Years ago.
Producer Gary Lyons has shaped Producer Gary Lyons has shaped

tight, cohesive
axor, with the The only aspect vadevill Cathedral" typ About You."In. this, it hes no a tacky filler Other than -mendous. credible and the the slower tume "Manorisms" most groupd dre after they"ve rearranged their

\section*{ALEMDOSCOPE album displays talents}
himaelf, but for the inatrumant Yet it's Gordon the musician, not his ingtrument, that has made him one of the greats in iazz himtory.
Gordon's newrest release, Sophis. ticated Giant reiterates his prominence as a max player, while casting bim in a new setting among a band of il very creative musicians. This is Gordon's second Columbia album since his retura over a year ago to America, after over a decade in Europe. His previoun release, Homecoming, a live two-record get of the SifO performances at New Yorlk's Storyvilla, is an excellent display of the lengthy, yet original solos Gordon has excited audiences with for nearly 30 yeara.
Axranged by trombonist Slide Hampton, "Sophisticated Giant" featuras trumpets, trombones, alto bax, vibea, a traditional rhythm aec ton and even \(t\) tuba player. The band provides a rich background to the soloists, making good use of the range of sounds and colors fomm in the group.
Gordon doesn't have as mach solo ime on "Sophisticated Giant" as he did on "Homecoming," but he makes the most of him solos on the aix cuts Gordion's atyle is above all a etrong gound, grounded in bebop and ins finenced by tenor great lester Young, but modernized over the years. He rattles off endless linea of notes on an upbeat tune whinout ever losing track of his direction.

His tenor also shines, on the
record's two ballada, "Haura" and
"You're Blase" two "40s tunes "You"re Blase," two "40s tunes especially woxth digging up He investa the solca with keantiful feeling and phrasing, his sound forceful and never overly sentimental.

Gordon remains atrons, especially when Hampton's arrangments do begin to get a little heavy and sound approximately the same on certain tracks. The difference between the background arrangement on "Laura," the album's opener, and che beginning of the next tune, "The Moontrane," accentuate this sameness.

While Mampton can be a drawback, the tunes and soloigtosare a fine maset. Frank Wess fute breaks throush on many traciks, egpecially "Laura" and "How Inaensitive." Woody Shaw'a brittle trumpet aolos are an interesting contrast to other solos. Shaw, mainly Imown for him avant garde quintet with drummer Louis Hayes, seems shaky on solos, but makes up for it With his energetic fragmented style. The band has an excellent base with George Cables at piano (formerly of Freddie Hubbard's band), Rufus Heid at base and Victor Lewis driving the beat home on drums. The trio appeaxed with Gordon on his most recent tour.
While fusion jazz may be becoming more popular there will always years with litile recognition, Gordion may be the finest living tenor anx player in the world today.

\section*{Kuralt to tell of his travels}

FILM ON CAMPUS: "Jabberwocky" tonifght at Gifford, 6, B, 10 p,m, and mid. naga midnight \(\$ .150\).

\section*{By THm Wendel} Hey moviegoers, do fat women eating potatoes prody
kie deep inside you?
kie deep inside you? befouling the hero's head make you befouling the hero'a head make you
slap your knee with glee? alap your knee with glee?
And how about filthy hats, ian't that enough to make you roll on the If all floor?
If all theae add up to an enioyable evening full of mirth and merriment, then there is a movie you have just got to see.
"Jabberwocky," which plays on campas tonight and Saturday, is supposedly the latest from the mad cap Monty Pythom group, but there are some of wh who suspect differently.

\section*{Glory days}

It could be a movie made to make us remember the glory days of Caesar because my entire row was Giving it the old Foman thumba Instead of ditpleying the usual form of Britigh ninderstatement una form of British unceratatement and comical interpretation of everyday events that Fyinon mas successen television and to a leaser ex nacd on "Movis Python and the Holy Grait ** the Grail, the moyie is nothing more Humor is defined in "Jabbervoc
Humor is defined in "Jabberwoc
ky" as people flying through the air and tons of blood.
Actarlly the whole Fython gang is not in the movie, with the bulk of reaponsion or blaune tox the prod Cirentor Terry Gilliam's ecreonplay. Slay. in medieval England, the movie is named after a monster that terrorizea the countryaide to the theme music of "Jaws.

Plans joust
The story's hero, Dennis Cooper, played by Palin, leaves his home for the city but cannot gain eanployment because of guild restrictions.

To select the people's champion that will set forth to kill the Jabberwocky, King Bruno the Ques-
tionable decides to have a joust. tionabie decides to have a joust. Any humorous posaibilities smashed by director Gilliam's treatment of the joust wceme treatment of the jollat aceme.

An the king. princess and chief council are shown in royal box seats Watching the joust they bre showered with blood as the knights
collide in slow motion collide in slow motion.

The topper comes when the lance of the dreaded black knight makee contact with another knight's liver, showeriag the imperial spectators With brown.

Plenty of good fun, color. coorlinated, too.

Director Gilliam's frequent use of
harah lighting, grotesque close-ups, whispering convergations and low camera anglea also becomes a burden on the senses
Walling out of "Jabberwocky,"
one findit oneself remembering favorite scenes or jokes from "Holy Grail," not the current production. "Jabberwocky" is little more then a waste of time.

No, not the Tin Woodeman from "The Wizard of Oz," but a woodamam from "Istberwocky." A dilenal eftort from the Nonty Prathon ging. Moviegoers would do bettior to

\section*{SU is an all-around winner}

By Pateti Oxtini
The SU \&ymnastice team, came out a winper again Wednesday night as it beat Cortland State 189.70 to 166.10 .

Syracuse wap ontatanding as it won every event. Coach Paul Romeo was pleared the team improved by 10 pointa since its last meect He was especially happy with the performance of mophomore Jonathan Bean.
"His was the beetindividoal effort and he has: improved tremendously over the last year." Romeo axid. "All in all it was a fine teameffort."

The score was close after the floor exercises, the firat event. After a fine performance by Rich Roberts, who ncored 8.55, Syracume was leading by leas than two points - SU 32.40, Cortiand 30.45 .

After the second event, however, SU took a
commanding lead when it moored 31.30 on the pormmeil horse to Cortland's 17.80 .

Syracuse maintained its lead with high-meoring performances by. Barry Gropper in the pommel horse (8.45), captain Dennias Flennesmety on the ringe (8.45), Bob Hauser in vacliting and, parallel bars ( 8.45 and 7.75), and Mickey Fiefer in the high bar (8.70) and the all-romed competition with a 46.10 .
Jonathan Benn and Steve Chilinali also competed all-around with mcoree of 45.60 and 45.50 rempectively.
"Even though they did well tonight there is still room for improvement," Romneo said. "especially in the parallel bars and high bar, our weakeat eventa tonight. Everyone has been working and with a little effort we hope to score 190 points when we meet Navy this Saturday."

\section*{\(\star\) Open forum offers good show}

Continued from peop one performance, and a reguirement that a syllabus be available for every course before registration.

Bill Rita proposed establishmerat of a TA review committee to "make TAs (teaching assistanta) more ac countable." Pointing out 35 percent of undergraduate courses are taught by TAs, Fita said the board wonld be aet up within academic affaire at SA and would investigate atudents' complaints.

Rita also proposed an "SA accountability bulletin"* in which SA officials would file written reports of what they have done, and a gecond-hand have do be, apened by \(S A\).
Arnie Wolsky aid he would also atress academics, proposing publication of a finsancinl ing publication of a newsletter to keepstadeatas and newsletter to keepstadenis
informed of aid application deadlines and eligibility changes, and a course evaluation systers.

Wolsky, charging studente in dorms are "being ripped.
off' on damage charges, called for establisbment of a damage appeals board to hear complaints of minair treatmant. If the university fails to establiak one, Wolsky aaid hia administration would do so and set a policy of paying for mafair damage charges.
Wolshy also aaid he would push for access to the on-the-go meal plam for peocond-semaster freahmen, and a two-grid plan for upperclasemnen in dorme.

The comptroller eandidxates
The comptroller candidates generally agreed the position they seek in more adminiatrative than political. Ron Zarettly, Krueger'e ranming mate, azid he would ingtitute zero-based budgeting institute zero-bsered budzeting (requining organizations to juntify their entire allocation requent each year) audita of organizations receiving student fee funde. Zaxetaly chareed SA is "spanding otudent money but not keeping etadente in mind," though he
did not specify any expenditures.

Sehoch emphagrised his ability to woris with his ram ning mate, Mein. He also eaid he hopes to change what he called a misconception of oxganizations thinking they deserve student fee money. The fee "shonld be allocated to serve student needs,* he said.
Jon Groas attaciked excers. sive use of fee money for ttipende. Too much foe money goen to salaries "for people sit. fing on their behinds," hesaid Gross said he would continue the policy of de-emphasizing atipends

Carl Kleidman emphasized his accounting experience; Kleidman is a major in ao Kleadman is a major in zo
counting and finance in the counting and hnance in and School of Managexment and ataid he has "dealt with budrets an an accountant."

Both presidential and comptroller candidates ad Cressed the snibject of stipendi Cohen said stadents should decide "at the end ofroy term if the president should get it." Klein said he would ank for a decrease in his stipend if elected. Kantor said stipends bhowld be examined and discarded if found to be unneces. sary.

Kruger asid, "If I take that \(\$ 2,000\) I will have marned it. Fita eaid cutting stipands back would discourage less affuent atudenta from runmine ant added *SA president ahould be open to everybody regardless of their income level." Wolsky anid the amount of atipend wouldnot affect him, since*I'd justlose that muchin financial aid.:"

Gross said he would deremphasize all stipends, including: phanize ail stipends, incluaing stipend wan not important to Etipend was not important to him and that he wamn'taware of the a

Kran.
Keeney said his stipend wowld be \(\$ 3,400\), including room and board, but that it should be nedüced

All the comptroller can. didates except Schoch opposed giving ble amparnbly topalker ztipend; Sehoch revareed a atatement he' made Tuesday opponing emeln astipard based on "new information""

\section*{Will Orange be classic?}

By Joel Stasheniko Indians University football coach Lee Corso was fantasizing about a trip to a bowl for his team.

We're going to have our own bowl gamein Oolitic, Ind., which has a large Italian population, and call it The talian-American Bowl," he said.
"And we'll bring in a team we can beat. The same way basketball coaches do when they bring in three teams they can beat and call it a classic. SU's clasaic is called the Carrier, and although two of the teams, Rhode Island and Michigan State, could give the Orangemen problems, the fills Corso's description
Syracuse's first-annual Carrier Classic begins tonight at 7 in Manley with the muchawaited, and little-cared-about contest bet LeMoyne. Michigan State and Rhode Ialand play at 9 p.m. The winners will advance to Saturday's 9 p.m. championship game while the losers will play for third place at 7 .
The LeMoyne-Syracuse game presents, at least on paper, even a bigger mismatch than Wednesday night's SU. UConn game proved to be.
"I think we should play Boeheim aaid. "They jlay some Division I teams, and we are one Divibion I team they should be playing. It's a game with a lot of local interest, and in some years they could give in some years the

But not even Boeheim, who is as cautious as an old woman walking down a flight of stairs. would say this is the year LeMoyne will give SU that fight.

Depleted Dolphins
The Dolphins of coach Tom Cooney were 15-7 last season, but have lost five key seniors from that team. The Division II school is 0-1 this season, having lost to Boston College by 19 points in its opener.
The Dolphins are led by 6-foot-3 forward Jene Grey, who averaged 14.8 points per game last season. The other concapGehm, averaged 1.5 pointa in 1976-77. A 6-foot-5 guard, Tom

Fletcher ( 10.2 ppg ), is also a LeMoyne standout.
Tonight's second game between Michigan State and Rhode Island could be the beat of the tournament.
The Rams of Rhode Island, who play one of the tougher schedules in the nation (Clemson, South Caroling, Wake Forest and San Francisco are among their opponents), come off a 13-13 season last year

\section*{URI's Williams}
with its team intact
"I feel that Rhode Island is a good ball club," Boeheim said, much better than they showed last year (in a 70-47 loss to SUS. They're an experienced team",
"This is the tallest team that ve had since I started coach. ing 16 years ago," said Rhode Island cosch Jack Kraft. "We have as much depth as I've ver seen on any of my clubs." Six-foot güard Jiggly Williamson is the team captain and steadiest performer. He is joined in the backcourt by 6-foot-4 John Nelson. On the front line the Ramb are smallish but lightning quick. Sly Williams only a sophomore, is the leader of this group as he averaged 20 points per game in 1976. Iry Chapman (6-foot-8) and senior Stan

Wright ( 6 -foot-5) complete the starting lineup for URI.

The Rams are 2-1 this season after wins over Ohio University and Brown and a seven-point loss to Clemson in the IPTAY Classic.
Michigan State comes to Manley as the most unknown, and potentially the most dangexous of the three teams.

\section*{Spring savior}

Coach Jud Heathcote's squad was \(10-17\) last eeason in the tough Big Ten conferance, and alone that might mean and alone that might mean another poor season. But lane spring the Spartans landed
one of the biggest recruiting one of the biggest recruiting catches in the entire nation in
6 -foot-8 freshman forward 6-foot-8 freshm
Earvin Johnson.
Earvin Johnson. front court by experienced Greg Kelser (21.7 points a game last season) and 7 -foot freshman center Sten Feldreich from Bromma, Sweden. Robert Chapman, at 6 -foot-3, is one of the atrongeat guards in the nation (as well as a 19.6 points per game scorer). He joins sophomore Terry Connelly in the Spartan backcourt.
"Our fast break has im: proved, and we think we are a good offensive team," Heathcote said. We should ago. But on defense we are only adequate. We have a long way to go here to be a good club
go here to be a good club.
'Michigan State has two great freshmen and three good balr players back," Boeheim said. "I think URI and them will play a heck of a game." SU also played a heck of a game Wednesday as they easily destroyed what was thought to be a pretty good Connecticut team.
"It was a good effort," Boeheim said of the UConn rout. "The bench played eapecially well. We were atill pulling away late in the game with our subs in there and UConn still had three starters on the court."

Tonight at least Boehein's substitutes should be able to see plenty of action against the Dolphing. Tomorrow, however, the winner of the URI-Michigan State game has at least the capability to carry the classic away from SU.

SU's Louie and Bouie

MSU's Kelser and Johnson

\section*{Orange swimmers battle Army}

\section*{By Katie Fritz}

The Syracuse University men's swim team will have its fins full when Army invades the Orange Pool this afternoon at 4 p.m.
With a raftload of University record-holders returning to avenge last seamon's \(58-55\) lose to returning to avenge last seasonil still have a the Cadets, the Orangemen will still have a rough tim
Pointers. wWe can match Army down the front line," asid swimming couch Peter Oracheidt, "but they've got us depthwise.

However, Syracuse is strong enough and psyched enough to make it easy for the firatyear coach to overcome his debut nervonemess.
Co-captaing Kirk Stevens, holder of four Univeraity records, and Tom Turner, with one achool mark, will lead the assault against Army in the distance and middle-distance freestyle events, and will have plenty of support from their teammates in the sprints and specialty trokes.
The sprinting corps is perhaps the most improyed part of the team, with the espeedy trio of senior Domenic Rigoglioso and freahmian Bert Hayes and Mike Kriley looking to add pointe that were sorely missed last year against the Cadets. Kriley is last year's Pennaylvania high achool champion in the 50 -yard freastyle.
Eastern champion Roger Weinberg and sophomore Joah Nicholas will give Syracuea a
will be slowed aomewhat today by a cast on one hand.

Meanwhile NCAA breastatroke qualifier Bruce Ziegler will ease the loes of graduated three-year All-American Jeff Noury.

Ore of Syracuse's atrongent event is the Onterfy, Syracuse's gitrongest events is the buttarily, With university recorci-holger Germas

The Orange are equally strong in diving. Steve Russell and Rick Bolstad, tough as freahmen, should be even etronger this year and are joined by Clemente Toffolo.
Rounding out the team are freentylers Dick Greenhalgh and Eric Littlefield, breastatroker Rick Baybutt and butterflyer Bxian Cooke.
Top new additions include "utility man". Pete Gaxafalo, who ewims all strolies, individual medleyist Albarto Mejia, and Army tranafer Bob Nichola, who doublee in butterfly and diaBob Nichois,
"I've been very happy with the team," Orschèidt said. "They're a very competitive and spirited bunch, and they should do well."

The coach would not predict the outcome of today's meet, however. "I wioh'I had a cryatal ball," he ssid. "But I can'tread them (Syracuee) yet. All I can say is, wo'll see.

But for all Oracheidt's caution, the 1977-78 edition of Orange awimming could easily maks. the best-ealler list by season's end.

\section*{SAS support goes to Klein}

\author{
By David Abernethy
}

The Student Afro-American Society has endorged Scott Klein for Student-Aseociation pretident while issuing a atatement tharply critical of Bich Crowell'm SA administration.
Klein, SA vice president of univernity/community relations, said he was "pleaced" and "Eratofu" for the endorsement announced Friday by Bill Simmons, SAS administrative affairs, chairperson, and Winston Waters, educational affairs chnirperson.
Winston Waters, edendorsernent wis based on Klein's SA experience and the "concern" be hat expremeed for black experiencent interests.
Watern and Sirnmons said thoy conmalted with SAS conetituents and other members of its central comconstituents and other upens the endorsement. They maid the Klein endorsement does not extend to comptroller' candidate John Schoch, Kinin's running comptroller candidate John Schoch, Klein's running mate; SAS has "no statament at this time"
Klein said he "would not eoels any endormements" but said he would accept SAS support. "The mont important thing is that they get people out to vote," he said
While issuing the endorsement, Simmons and Waters also expressed "disappointment" in the current SA adminigtration, accuring Crowall of showing "favoritiem" in choosing him vice preaidents and of failing to defend the interests of SAS and black studenta.
Waters said Crowell showed "favoritinm" by naming Klein vice preaident of univeraity/community relationa, despite the fact Simmons had been unanimously recommended by a screening committoe entablished by Crowell.
Wsters gaid he was told by Crowell that ho (Crowell) did not name Eimmona becadoe Gimanores. told him at the time that he (Slimmonas) would run for a prosition in SAS after being appointed to theSA vice presidency.
Crowell said Saturday that Simmons told both him and the screening committee that he wonld ran for the SAS job, although Simmone demied making any ouch etatament. Based on the alleged statement and his "permonal irmpressions" of the two candidates.

Syracuse's firat annul-Carrior Clasaic proved succoss for both spectators and SU basketball players (Hike Dale Shackloford. Ieft) as the Orangemen defeated Michigan State 76-67. (Photos by Josh Sheldon, Ioft, and John Tamer).

\section*{Cause of power failure in dorms remains unknown}

By'Russill S. Loclrwoad
Studemta in Haven, Booth, DellPlain Kimmel. Watson and Marion halla were without electricity Saturday after a power panel became inoperative. Physical Plant etill does not know what caused the failure.

John Sala, superintendent of buildings and grounds, said that the panel, micimamed a bus because it transfers power from high voltage to low voltage, became defective and the cause wonid not be lnown until the electrical crews analyze it today. He explained that Physical Plant termporarily bypassed the bus in the intereat of restoring power in the least possible apan of time.

Jerry Roclicower, representative for Niagara-Molawk Power Company naid the problem was with the electrical eaid the problem was with theelectrical
and that Niagara is prohibited from repairing anything they do not own. He explained Niagara's responsibility ends when 13,200 volts reach Haven Hall, where the quiversity's underground distribution network disperses the voltage to the various areas of the campus.
"We don't even have an underground circuit map because it's not our responsibility," said Rockower.
The powfer went off at 3:20 p.m. at Haven, Booth, DellPlain, Kimnoel, Watan and Marion dormitories. Power went back on at 4:45 at pll the dorms except Watson and Marion, whoee power remained off until ap whose power ramained orf 2 antil apcording to the proll directors.
The blackout put an added strain on SU' security, which also had to cover SU security, which also had to cover

This left only four men to patrol the campus and dorme, said Sergeant Patrick Ryan.
Marion resident adviser Kevin DiMageio said, "We had a lot of extra security; two extra security guards and two resident security grards."
Other dorm residents disagreed.
We're worried about people walling We're worried about people walining we're afraid of outside people walking in and out of here at will", said John Crowles of Wataon Hall
The dorm directors asid they mainly relied on tudent marshals and resident adviaera to protect residents. Security said no incidenta of crime have been reported.
Studente faced a variety of inconviences. Two students were stranded in a Haven Hall elevator for stranded in a Haven Hall elevator for

\section*{Hoffman announces four VP choices}

By Marwha Eppolito
Stradent Arsocintion presidential candidate Tom Hoffman announced his four vice presidential choices at a Friday night press conference.

Hoffiman chose Frank Slazer for vice president of ad. ministrative operationa, Bob Farr for vice president of acadomic affairs, Don Favre for vice president of etudent programs and Pete Muller for vice preaident of univeraity/community relations.

This is the first time an SA candidate has named his vicepresidents provioust to the election.
"The studenth have a right to lmow who my vice preaidents will be if I'm elected," Hoffrnan said.

He added that they wore not political payoffs or patronage jobs," atressing that all hie choices are members of SA committers.
Foffrman gaid the four men represent a "diversity of opiniun"; adding that "they are not my own people."

The other preaidential candidates said thay woald not an nounce their vice presidential choices before the election.
All meven presidential candidates and fomr of the five comptroller candidater attended the conference at the Student Center. Ron Zaretzly, a comptroller candidate, wgs umable to attend and ment a representative.

The presidential candidates are Dan Cohen Tom Hoffram, Steve Kantor, Scott Klein, Bill Krueger, Bill Rita and Arnie Wolsky. The candidates for comptroller are Joa Groas, Jim Keeney, Carl Kleidman, John Schoch and Zaretzicy.

Cohen left midway through the conference, saying he felt be had spent enough time at formm and conferences and that he was moat effective talling to the mtudents and campaigning doopto-door.
Throughout the conference all the preaidential candidates Continued on page four

Delmonaco said the university sexat elevator people but they were not needed as the power went on.
Food apoilage was another common problem. "All the food from Thanksgiving, the steak and turkey, and even our legs, apoiled," said Debbie Aronowitz, a Wateon resident.
Electric typewriters were silent. although many students had papers due on Monday. "I have a papex paper due on Monday, and \(I\) depender paperturday Mond Sund ay to typepit And on Saturday and Sunday to type it. And now 1 cant. This is naiculous, bai
Caren Goldberg, a Watson restident.
Communication between dorm administration and student residents was lacking, asid Jim Feola, a resident of formed anyone of what has haspetined formed anyone of what han happened or what's being done about it It's just like last year when four or five blac kouts hit and nothing was done then either," said Feola.

\section*{Election} Guide
inside

\section*{SA elections: \\ considering the presidents}

It is the day before election day and the dam her broken. Studente axe being fooded vath iniormation about the 12 candidated for suriner (and other publications) will tend to give temeral information about the candidates backeroundi and etande on ip. oues, wherese in thif piece I will attempt to discusa only one pertinent ingue.
Moat of the meven preaidentiol candidates are in agreement on the majoxity of "the iseuea." There are a e noted. One particalar inaue atance is notsufficient reapon to vote for a candidiate - he matist provicio more if he hapet to be elected.
The eeven presidential candidates differin theirindividual approach to the office they seek: They have gignificantly different conceptions of the role of SA prosident.
SA is in troable. The next premident will have to deall with problems larger than those faced by his mont recent predecessors. The mont important of these problems in that, aithough SA affects Virtually every student on campus, the

SA is too important to be comaidered "just another campua organization. The power and rebponinibility of SA are too great to allow it to continue as a small, tight-knit group of people mlienated from the general strudent body.

Therefore, with this in mind, one looke to the candidatea: Do any of the studenta who want to be president abow the necessary combination of ex-
perience, ability and conception of the office to solve perience, ability and concept
this, SA's bigigeat problem?

Dan Coben - SA has the attitude that stadents don't care, says Cohen, and were he elected one of hia finst caaks would be to change this feeling.

Coben maintains the SA president cannot be too concerned with changing the Syracuse University administration's policies, becauge he will get out of tatuch with the studenta.

The first job of the president, says Cohen, is to develop a relationship with the atudents: He muat present to the atudent body all sides of ar isaue and seek out a unified voice of gupport. This way, if SA will be stronger in its dealinge with the administration.
To implement this theory, Coben would act as a coordinator of input from the assembly, dorm groups and atadent organixations. He would seek out ispaes that concern these groups and pregent them to the students.
There are several problems with this approach to the job. Firat, an adminimtration laid out along these the job. Eirat, an adminimtration laid out al

If there is no input from campus groups, SA will flounder. It aeema a Cohen administration would be too dependent on others for direction. Further, there would exist a senous chance or anpuination "students" would decide issues, apecialized campus groups would dominate the decision process as to which issues would be put forth. It appears a Cohen
administration would provide little leadership in administration would provide little leadersinf in
determining the agenda of issues to be discussed on determining

Tom Hoffman: The root of SA's problems, says Hoffman, is thatit has given the students little to care about. The key answer to this lies in "getting students behind SA.

Hoffrman sees the SA preaident as a strong leader, whose power depende on having the student body's support. Getting the atudents behind SA, says Hofiman, lies in giving them aomething to care about.

Hoffman would make this syatem work by getting more studenta involved on varions administrative boards (such as budget, course evaluation and finencial aid). Decigive action, in protest when necesany, the Jabberwocky formom he proposed a general atrike by work-stady students if the univernity is successful in ita efforta to be exernpted from minimum-wage requirements.

\section*{Harry Fig}

\section*{The elections: Hugh MacNiven}

The rosin problem with Hoffrman's idea of the preadencs is one oflach of direction. Hife "eyretem" in highly dependent on setting studente involved at decinion-matrinu levelu of she tmivertity, move that the admirgirtration has mucoenefrilly rosinted for years. Foffinnn's angwer to thi is to bring unified btudent presegure ont in eupport. Therofore, ho is and
bling that he can be enomgh of ander to males the bling that he can be enomgh of a leader to malve the studentarally around bie canses, Can this be done? If work. Steve Kantor - Commnnication is the key to an improved SA, claima Knntor.
He eays that SA muyt improve commanication within itsalf, with the SU adminittration and with Within itsalf, with

Commanication is the main rocun of Kantor'a conception of the presidency, and he would implement this conviction through attending dorm meetings and holding woelcly prese conferences.
A to specific isanes, Kantor seys he waritas to find ones "that affect students," with primary emphasi upon improving student services.
In termas of both itatuestances and conception of the office, Kantor is probably the least innovative of the candidates. Improved comanunication if a necessary thing, but for yeara we've all heard talk about com. munication. One phrave which comes to mind was baid by one of last year" candidates: "SA will com. municate effectively whem it has something to communicate about,"
One of the most inciaive statements about SA's power was made by Kantor at a press conference. When asked about methods of bringing pressoure to bear upon the SU administration, Kantoraaid that he would nevtr be reluctant to go to the localmedia with a story. This is more than just grandstanding. It has been proven in the parit that one of the most effective threata SA has ia to make waves outside the confines of the carapus. Kantor is the only candidate who has specifically mentioned that he recognizes the poten Lial of this type of action.
Scott EXlefn- Citing his experience as an SA vice president, Klein calls himself an "insider," and as auch be knows the problema of SA first-hand and can fix them.
Kein ays one of his primaary jobe as president would be to "define SA better" so it will be eavier for the atudemt body to relate to it.
Implementation of this theory, says Klein, lies in working effectively," Pointing to his record of effecting change (North Campus bus rums, etudent parkting change (North Campus bus rums, etudent parkches probleins, Klein feels he has demonintrated aruch ability to ches). Klexn feels he has demonstrated ench ability to
work effectively (although it must be noted questions work effectively (although it must be noted questions have ai
thege).
Klein does bring forth some mew ideak on academic adviaing and Physical Plant. This tends to blunt the criticiam that the is part of the Crowell administration, and therefore has no original ideas. But here is room for criticiarn in this area.
Klein presents no new ideas as to how he will implement programs effectively - his approach is to ase the conventional apparatus. Klein does not seem o recognize the enormous proportions of SA's
problems. If nothing else, the past two ad. problems. If nothing else, the past two ad. ministrations have demonatrated that just "going by out of touch.
Bill Kraegeer - The primary focus of Krueger's ampaign is academic problems faced by atudents. Frueger cites the clasgic pictare of the SA president as the studente' link with the administration. Hesays that the president must be more accessible and muet "keep realistic goals in mind."
Ln terms of implementation. Krueger promises to detail his priorities and put them before the assembly. The only specific isaue we can be ture about concern ing Krueger is academics. He has esid he wants to work towayd better advising, clear ayllabi and the establishment of "mid-gradee" \((3-5,25\), etc). Theee are all laudable goals, and they ahow innovation and
concern on the part of Krueger, lout acendemics are only part of the SA prenident job.
Ab to the fown of thit article the candidiate's conception of the office they seel - Kruegtr has given little to engreent thet he eeve it in texmather than the conventional. In termi of implementing idees, Krueger bhown little of the fanovation meeded to maire SA work.
Bill Iita - Mach Hike Bill Kruegrer, Rita presents idean but fails to thow how they tre to be achisved. In terms of ideas, Rita is one of the mont innovative of the candidates, spenking of a TA review committes, a second-hand store and an SA Accountability Becondina
But thene in no evidence of a nesp approach to, or new philosophy about, the office of SA premident.
Rita abys time and time again that he is an diant puriag about whe But itis mot enificient to malte it ilkely that he will be ucceas ful.
Riva hat
Rika has mentioned bringing pressure on the adminitration through letters by parents and a manch on the Financial Aid Ofice in the minimumbrome is sue There is one problem, and that in that these methois are restricted to rare intanance of eanotiona ssues. Rita has presented no plan asto how he woald implement his ideas effectively on a day-to-day beais. Like moat of the other candidates, Fita has not put forth any plan which would attempt to get SA out of ts rut.
Arrie Wolnly - There ia more of a fight againat image than againat other candidates where Wolnky ie concericed. He (soxnewhat like Klein and Hoffman) must deal with an image aince he is a public figure, and an objective look is harder to achieve.
Wolsiry" wants to "make SA relevant to the tudeats." He maintains that policy-malring in SA is too restricted at present, and as president he would make the circle of decision-maling larger by bringing "all matters" to the assembly. The purpope of this says Wolslicy, is to matre SA refiect a broader base of studenta.
As to implementation, Woleky proposes an SA platform, which would list most of the goalg of SA at the beginning of each term. This would engure accountability, maintains Wolsky, an it would be something againat which to judge his administration.
Wolsky calls this platform a "concretemethod of gaining input." aince all studeats (through the aspembly) wonld be involved in its drafting-
Woiscy has aliso spoken about the issuas themselves. His damage appeal baba and to current problems.

Far more important is that Wolsky has addressed SA's major problems. He maintains that SA would be more in touch due to the open nature of his platform. more in touch due to the open nature ormpo manedia a The platiom would aiso give the campas med
yardistick by which to judge his performance.
The most daring statement by Wolsky is his plan to open the presidency"s decision-making. power to the open the presidency's decision-making.gowe way to assembly. Such a mave wovid so a prevent ine problems which There is no question that bringing so many issues before the assembly will be bringing so many isgues diejointed. But nobody evex noisy measy ana a bit aid.
said that democracy is met.
said that democracy criticiam to be leveled asainst Wolaky is his own image and style: can he gain the Wolsky is his own image and style: can he gain the
respect of the administration? I don't know exactly respect of the administration? i dont know exuctiy What administratore woun than backed by the students (as his plateorm Wolsky is backed lay the efudents (as his platiorm

\section*{Standard Plan means organization, not education}

It is down to sree or no. No more buts or maybes. I have no difficulty. My vote will be a remoumding NO. Brt it shall not be a negrative vote. It ahall be for me a vote to aave education. In explaining my reasons, and urting fellow

\section*{Guest Comment: \\ Manfred Stanley}
educators to vote lirewrise, Imean to impugn no persons, for the Standaurd Plan is not a personal product. In various discussions. I have yet to bear of ansone taking personal reaponsibility anyone takiag personal before as. No one for the proposal now before un. No one seems ready to saty: This is my viaion of higher education. Thas ia the frat of my reflections and my labora as educator.

No. The proposal io not a product of the human, but of the orgenizational mind. It is the product of compromisen not between persons but between organizational and ideological
interests, real and imagined. Not least of all, it is a product of a strange fatigue; a lack of enthoriasm and of ex pectation. The reultis a document that reflecte a politice of procems, not of unbetance.
This is not to eay the proponal lacks, however implicitly, a philosophy of education. The proposal in tike a floor plan designed for the university-asmuseum; a nilent tomb of antiquities. Through this museum stadente are iavited, in their pasaive concumer leisure, to wander gazing at bits of "culture." With this proposal, students merely need not wander totally at random Here a cluster. there a clumter. pain tings in this hall, asatuen in that furniture and jewelry on the second floor. Ciusters of dead art objecta devoid of much connection to life out Bide; there merely to be sampled so the at cocktail parties one can talk of one' "heritage" and exchenge consumer chatter about "exhibita."
I shall vote no because this proposal contains no visible improvement over the present situation. Indeed, it makes

\section*{thing worse It define nothing of aubetance, and creates an adviser'a} nightmare. (What does one do with a student who wishes to cluster a coureo in natural acience with others in philosophy of science and sociolory of science? elc. tte)

I shall vote no becaume the propoeal is a utudy in procedure for the wake of procedure. It in, in the end, a nihilistic proposal because its tortured scholasticism, equal to any examplea of medieval casuistry known to me, reflecta no consensus whatever on any substantive educational ende. (I do not include in this indictanemt the sections on skills, but these are reeources, not educational ends.)
I shall vote no because this propoad is a profound indicator of the contemporary state of mind of the clders of civilization, and in voting no I vote agaimst this atate of mind. It is an organizational state of mind that canorgangage to the aimple proposition that nony educated person should know pome Greel and Roman history and texta, some Shakespeare, some poems. the

American Constitexion, the French Feptolution and ite conaequencen, mome calculng, something of one ox two naturai eciences, and momethine about the dynamica of the political ecomomy that rales all our live. In place of thi minimum agreament, it prowents procedtures whope boporific qualitiee aue fivaled only by the Federal tax forman.
I shall vote no because it wonld be maseochietic folly to emtrap onearlf in the tortuoug and endless maze of poeaiblities for interpreting and refining this proposal's obscure passares and phrasea.

If there was ever a time when a negative vote would constitute an affirmation of something, thisisit. If this proposal pasaes. I shall cesse to pretend to students to represent a commumity of educational elders. Instead I shall create, as my contribution to some eluster, a course entitled: "The social and cultural dynamica of the decline of the Weat."
Manfred Stanley is a profestoor of sociology at Syracure University.

"Sure thing, Bye, Uphelias."
Alan turned and walked back acress the empty dance hoor. All the couples were seeking liguid refreshment while the band played "lhe sounds of Silence.
"If I walk real fast." Alan thousht." 1 cunn make it to the men's room beffore I puke.

\section*{Students and tenure: protect your own interests}

It may be argued that the tenure and promotions process at this university is often unfair to candidates; that it does not protect the interests of students; that it overemphasizes research and underemphasizes teaching skill. A case may well be made for any of these assertions.

But above all else, the process is inconsistent. From one school or college to another, one encounters the broadest possible range of procedures on openness and encouraging student in put (or discouraging t).

The School of Education released a list this past week of nine candidates for promotion within the school and announced that representatives were already seeking input from students regarding their qualification for promotion.
We support and encourage the efforts of the School of Education to gain maximum student input into the tenure and promotions process. By so actively seeling etudents' opinion on tenure and promotion candidates, the Tenure and Promotions Committee and the Graduate Stadent Advisory Committee have made a cignificant effort to protect the interests of everyone affected by the process.

It is discouracing, however, that not all schools make such an affirmative effort to make the tenure and promotions process open and accesaible to those whose interests it directly affects (i.e., undergraduate and graduate students).
We propose that the policies followed by the School of Education should be made universitywride policy. We believe every school ghould be required to publish and post lints of all candidates for tenure and promotions and names and addresses for committee members through whom students can make their opiniona on the various candidates known.

It is obvious that individuala with input on a process such as this will promote their own interests- and as long as students are excluded from the proceas, even through lack of information on who the candidates are, their interests will suffer.

We urge interested students to talce the first step, to make the ertra ef-

fort involved in gaining student input: go to your dean's office, find out who is on the tenure or promotions committee in your school, find out who the candidates are. The Daily Orange published an almost complete list of tenure candidates earlier this semester, but the list is useless if students make no effort to give informed opinions on the candidates to those with influence on tenure and promotions decisions.

The university should adopt the policies of the School of Education but as long as it refuses, it is up to students to struggle a little harder to protect their own interests.

By David VF: Koellar
Guiseppe Verdi compoeed his "Requiem" an a mernorisl to the Italian nationaliet poet Msinzoni, on the poet's death Manzoni, on the poets ienth
in 1873 . Verd idolized Manzoni, and once wrote that he would lneel down and worshis him.
Verdi was a mastor operntic compoeer and his "Recuiam" in no ordinary compoaition. It has all of the dramp of anyth. ing he wrote for the wtage and has even been jokingly referred to as "Verdi's finest opera," but a Mass for the dasd is hardly stage matexial.
Christopher Keena made al of this abundantly clear an he led the Syracuae Symphony Orchetra, the syracuse

University Oratorio Society anad four dintinguiahad maloists in a performance of the "Re quiem this pant weakend.
Keene mude great ure of exagrerated dymanric contirget and accented rhythmic firmures to create a moving and exciting performanoe.
In the opening "Requiem et Kyrie," Keene tool treat liborties with the dymamicm, in some places allowing the Orcheatra to get lowder than Verdi probably intended. It was executed mevertholeses with a great sense of proportion and drama.
The most exciting section was the "Dies Irae," where at one point the chorat divides, onehalf holding a chord, the Figure. By accenting each note of that figure, Keane incressed the tenaion at an already exciting moment.

All of those involved turned in fine performances. The
chorne, directed by Rhonde Flemming, was good, with the exception of a fow emaemble problems in the "Quantus tremor" eection of the "Dies rae. Sanctos" where the chorus was particularly spited and Was parkicuariy epirited, and well with the oft parts, managing to maike each parta, managing to maike each wror dratimet. No smeall taisk for a
The of 180 voicer.
Int soloista, soprano Diane Cury, memzo soprano Diane Curry, temor Richard Taylor, and bass baritone Arnoid Votecaitik, all did Dne the performany pleasing was the final "Libera Me." Her plea for deliverance was truly moving.
Any of the performer's imperfections were inaignificsut when compared to the overall power and beanty of this performance.

\section*{Election Guide}

Tomorrow is election day.
In thia year's seven-way race for the Student Association presidency and five-way race for the comptrollership, the elections commission hopes to improve on last year's meager 2,400voter tornout.

Although the initial interchange among the candidates during the week-long campaign was not particularly issue-oriented, prolonged prod not park by questioners at forums and press
conferences elicited the most specific and the campaign. This might come in what many substantial proposals and stances in recent SA consider the inevitable rumoff election for both elections.
the presidency and the comptrollership. It is unlikely that any candidate will receive the necessary " 50 percent plus one" vote to win the initial election.
The presentations of the candidates which appear in this voter's guide represent attempts to spell out the differences between the candidates, while briefly noting similarities.

\section*{Presidential Candidates} Dan Cohen

Year in School: sophomore
Major: Television/Radio
Grade Point Average
Unknown by candidate
By Marsha Eppolito SA presidential can didate Dan Cohen said his main concerrs is to bring out the student voice.

Cohen discussed the Cohen discussed, trese president's roleinsA, stres-
sing the importance of sing the importance of student involvementin the

The SA president, Cohen aid, must raise the support of the students. "The other candidates will spend time working on changes within the university. This should be the job of the vice preaidents and the assem bly," he said.

He believea SA cannot the be effective without support of the atindenta.
Another qualification Cohen possesses is that he has no previous involvement with SA. Some may see this as a disadvantage, but Cohen said there is a bad attitude atSA. He feels SA does not care about the students and that the SA axecutives ara "in their own little world."

He plans to improve com-
munication between SA and the students by speak. ing directly to them or through assembly members.

Cohen said assembly members will realize that communication with constituents is their primary role when they see the energy and enthusiasm of his administration.

Opening relations with dorm councils and organizations is another means of improving communication, he said. "We will go to them instead of them coming always to us," Cohen added

He is in favor of nonviolent action in certain cases. He feels it is very effective but there would have to be strong student support and the tailure of all other efforts before he would initiate it.

Cohen puts emphasis on heightening public awareness and he would use the press as a vehicle in such an ingtance. Only two concerns would warrant civil disobedience: the minimum wage and a Univeraity Union building; he said.

Cohen said the university
does not consider a UU building a top priority. He attributes this to the lack of student support, because it would not generate its own rome and becauge it is not ncomething that would give something that would give prominence.
Cominence.
Cohen would take up a collection for a UU building to see how many studenta contributed, and how much instead of adding five dollars to the student fee. If the ground-breaking date passes, Cohen said it "will deperd on how the situation develops" before ne decides any action. "It's a hypothetical situation" to try and decide what action to take before the situation develops, he added.

He said he would try to align administration priorities closer with atudent priorities by show ing student support
Cohen is in favor of a financial aid newsletter and course evaluation. In both cases he would solicit the support of students to get hem to show an active interest.
Cohen favors paying for What one gets with meal plans, and not requiring freshmen to be on a meal

plan after their firet cmester.
Asked about a vice chancellog for student programs Cohen said he did not have an opinion at this time.
Cohen said concerns such as financial aid. a vice
chancellor for atudent programs and a UU building, for example are not the main issues.'
The main issue is getting student support and this must be accomplished before any changes can oc cur, he said.

Year in School: junior Major: political science Major: political science

By John Barrows
Tom Hoffman is running for Student Association president and his overrid ing concern is to increase student involvement; an ideal at best, a Herculean labor at worst.

Hoffman's platform specifically includes mpecificaliy includes measures to bring students into the university budget drafting process, and intoa
system for course syatem for cou
To accomplish the former, he proposes to include at least one student on each of the amall committees which draw up the components of the budget. The only the budget. The only problem is that there are a lot of these small com-
mittees, \({ }^{\text {Titerally }}\) hunmittees, 'Titerally hundreds,"in Hoffman's words. To staff each committee with at least one student would call for a degree of student interest and action not now in SA; according to Hoffman.
In the cgase of the course evaluation and tenure, Hoffman points out the

\section*{Tom Hoffman}

\section*{SA polling places}

Crouse College HBC
HL
deficiencies of last year's "Touchstone," but as yet he has not outlined a specific proposal to fill the void. His major concern is to see students involved in the process, as well as the administration.

While Hoffiman would participate in an action like the sitt-down strike of last year at Bird Library to increase the hours, he doesn't think that he would ever consider the lack of a student union building important enough to require any unlawful action on his part.

Hoffiman has been a frequent critic of President Rich Crowell's administration. A month ago he introduced a regolution to the assembly calling for Crowell's resignation. which was defeated by a 2 -to- 1 majority. The opening statement of Hoffman's platform says that the "10,000 students who don't care about SA'' are justified, becanse the assembly doesn't accomplish anything.
He feels that the problem with present carmpus media

SA relations is that the current administration en courages hostility on the part of the news media by shutting them out of im portant functions, such as cabinet meetings. He would open all meetings to the media, with the exception of the finance and the elec tions committees.

The best way to prevent the threat of censorship of such publications as Report newsmagazine or the Black Voice is to leave them under the present allotment system. Making them independent like The Daily Orange would necessitate atudents voting to approve the funds every three years, which Hoffman thinks the which Hofrman thinks the students might not do. The possibility that they might not amounts, to what he
says is a more dangerous says is a more dang
threat of censorship.

The key to the sucicess of a Tom Hoffman administration lies with the students who vote for him. Hoffman's platform implies that if he is elected students will be expected to participate in student government.

\section*{John Schoch}

Year in School: junior Major: Architecture Grade Point Average: 3.0

By Ariame Saing
The job of Student Association comptroller, according to candiciate ilohn Schoch, is an adminiktrative one.
\(\because\) Of course the comptroller should have a knowledge of the issues, but
I don't think he should become politically involved."
Schoch is running on a much-publicized meket with oresidential candidate Scott Klein. He had been quoted as saying that he quould not work as effec could not work as effectively with any ather candidgte if he wereelected and
Flein were not. This, he Flein were not. T
says is a misquote.
says is a misquote. "What I said was that 1 cunld work well with Scott. because wo know each other. but that 1 could also work effertively with ansome else.
Schoch says students realize they don't have to vote tior buth candidates un a ticket. He is running with Kleia because should they both be elected, they feel they would be able w begin working right away and not have to feel each other out." Yet the president and out. Iet the presicieni and closely comptroler do not work closely together. and perthaps there is no real neted for them qe hinow each other very well. The presicients job is political. but as Schoch said. the comptroller's poxition is ad. ministrative.

Schoch is a nember of the

Traditioms Commaission but he does not bring much experience to the comptrolleris job. He lacks background in economics and finance, but aays this does not make a difference in handling the \(\$ 450,000 \mathrm{SA}\) apends each year.
"I just think you need a logical sense of what to do," he said.

He did not think mis lack of formal training would hinder him during the budget process.
The comptroller must review each badiget request, and sign the individual checks for expenditures during the year. This means ing the year. This means that if an organization is保etting close to woing all of its money before the and of the year, the comptroller should bring that to the organization's attention.
Aceording to Schoch, "If they (an organization) don't stick to their budget, it's their fault. If they can't fullow their budget, I really dun't feel too sorry for thern."
If he were elected, hesays he would "help organizations to understand the budget process." Should an orkunizistion atill rum out of monkizi, they may request additional money from the additional money from the Whether or not they get that Whether or not they get that
money, Schoeh says, money, Schoeh says. depends on "What they whyt to use the money for, Why thes ran out of money and what their past record in handling money has been.

One organization to

\section*{John Schoch}
which Schoch would give no money, if elected, is UUTV (formerly Synapse). UUTV now recei ves \(\$ 16.675\) a year, and has stated that this is not safficient for programming and equipment.
"UUTV's programming is not what it should be," Schoch said. "Eor example, the only thing I've heard about them doing recently is rerunning a football game at midnight on one night. If people wanted to see the game, I assume they would have gone to it."
Schoch said even if UUTV were brought into every dorm, he still did not hink students would watch think students would watch Stipends is another issue
over which there is much over which there is much he would cut them on a casehe would cut them on a case-
by-case basis, not across the by-case
He said it is possible to do continued on pege twelve.

munications director, 日aid. Accorcing to Chris, Werner, MCU agaistant proximately \(\$ 21,000\) and was paid for out of the university's ceneral equipment fund.
The old ambulance was sold to Egatern Ambulance.
Dave Mariowe, director of finance, explained, "After three Syracuse winters we were having trouble with it. It needed a lot of repairs. This is true of any ambulance after awhile anlesp it
geta very good care, but we don't even have a garage."
Eastern provided free service to Syracuse University students while MCU waited for the new van. This service world have cost \(\$ 45\) a run, Werner aaid.
According to Marlowe, the service was part of the deal when the old ambulance was sold to Eastern.
MCU drivers are being retrained to work with the van-type ambulance and, according to Marable, "It'a been used a great deal since it
went into service" went into aervice."
MCU drivers are on call 24 hours a day, eeven days a week, to transport atudents to any of the area hospitals or to the Health Center. The number to call is 423-4299.

\section*{Research fund guidelines set \\ By Tod Porter}

The procedure for distributing about \(\$ 125,000\) for research began Friday. The University Senate Research Committee mailed guidelines then for making up proposals to receive fundingto all faculty members and graduate students.
The grants pay for research equipment, photocopying, professional typing formanuscripts and special funding to support books, according to

Profeasor Arthur W: Hoffman, a member of the committee.

The committee chairman, Professor Donald Lundgren, said the committee approved money for a variety of projects including research on cancer cells, research on antibodies cells, research on antibodies
and atripto Oxford University for one political science professor who was studying the English Labor Party.

The proposals fall into three broad categories, Hoffman
said. They are aesthetic problems, social problems, and material and acientific problens.
The committee received 204 proposals last year 47 of which were funded, Hoffman said. Lundgren aaid he expecta to get about 230 to 250 proposals this year.

The proposals, which have a ceiling of \(\$ 6,000\), must be mailed to the committee by Feb. 1.

\section*{Thieves take money over weekend}

By Drew McKinney
About \(\$ 100\) in cash was stolen from Hungry Charley's, 729 S. Crouse Ave., this weekend, according to city police.
Police said the money was in a gray cash box in manager Mark Janov's office and was taken between 8:30 p.m. Saturday and \(1: 30\) a.m. Sunday. Janov told police he thought the door to the office had been locked. No auspects have been identified.
Three Barclay Cottage residents had jewelry, a typewriter and a clock radio with a combined value of more than \(\$ 760\) stolen late Friday night.
According to police, Pamela Coates and Patricia Dombrowski left their apartment at about \(10: 30\) p.m., locking the door behind them. When they door benind them. When they returned an hour
door was unlocked.

Police said Coates lost a jewelry box with three rings and a silver charm bracelet valued at more than \(\$ 500\). The thief also took a \(\$ 200\) electric typewriter and a \(\$ 30\) gold cross and chain belonging to Dombrowalki and a \(\$ 30\) clock radio owned by Nancy Pugh, who Was also not home when the thef occurred.

Police gaid the thief must have used a key to enter the apartment, since the door did not appear to have been forced opened. Police also baid residents of Other Barelay phone calls Thuraday nieht in phone calls Thursday might in soon as someone answered.

City police are searching for a man who exprosed himself to Syracise University sophomore Friday afternoon. Police said the victim, whose name its being withheld, was

\section*{QUESTIONS:}

Q: 1. The best water for beex comes from: a) Big Duck Mountain.
b) Underground from Tiuana.
c) A small store in Macon, Ga.
d) None of the above

A: (d) No matter what you hear about naturally pure waters, virtually all brewers filter and further purify thei water. But Schlitz doesn't stop there. They filter their water and then fifter it again. So when they're through, it's purer than the purest springwater.
Q: 2. Klages and Firlbeck III are:
a) Composers of farnous beer drinking songs bike "I Left My Shoes in Heidelberg: b) Owners of the world's largest unknown breunery.
c) Serving time in Sonoma, Calif., for impersonating Amold the Wonder Seal. d) More expensive barleys.

A: (d) Schlitz blends Klages and Firlbeck III barleys with the standard variety most brewers use because they believe it gives their beer superior favor.

Q: 3. Hops are notorious for: a) Their lack of intelligence. b) Always getting to work late. c) Losing their keys.
d) Being difficult to keep fresh.

A: (d) The freshest hops make the best beer That's why Schlitz vacuum-packs and refrigerates their hops. So they're as fresh at brewing time as they are at harvest time.

Q: 4. The best adjunct to been is:
a) Rice.
c) Either rice or corm.
d) What's an adjunct?

A: (c) Every American brewer uses rice or com to lighten the flavor of their beer. This is called an adjunct. But Schlitz knows how to use either grain interchangeably. So they're never at the mercy of an unfavorable crop. And neither is the taste of their beer.

Q: 5. The biggest misconception about yeast is:
a) Carrying some in your pocket is good luck
b) It is good for hernias
c) It was responsible for the fall of the Roman Empire.
d) To ferment beer, all you have to do is drop it in the vat.
A: (d) To make beer taste right consistently. Schlitz believes the yeast has to be evenly distributed during fermentation. That's why Schlitz gently stirs in their yeast. It's part of their Balanced Ferrnentation process. And they're the only American process. And they re
Q: 6. Chill-Lagering is:
a) A popular German country and western singer.
b) A Scandinavian winter sport played without clothes.
c) A new ethnic TV comedy about the owner of an ice cube factory.
d) The right way to age beer

A: (d) When Schiliz ages beer, they age it cold-very cold-down to 29.5 degrees. It's called Chill-Lagering. And it's what makes Schlitz crisp. clean and bright.
\(Q: 7\). A mini-brewery is:
a) Hidden in a basement somewhere in Greelaown
b) The result of trying to make Broken Toe. Idaho, the beer capital of the world. c) The right way to pretest beer ingredients.
d) Both (a) and (c)

A: (c) Schlitz has a mini-brewery where they test-brew the quality of the ingredients that go into Schlite-before they go into Schlitz.
SPECIAL BONUS QUESTION
Q: True or false. the one word for beer is Duffelbrau.
A. False. There is no beer called Duffelbrau Just as there is no beer like Schlitz. If you answered this question true, perhaps you should look into turkey ranching.

FYU DONT HAVE SCHMITZ, YOU DONT HNAE CUSTO.

The score is tied 83-83 in the last minuteand-analf of Saturday's Carrier Clestic final at Manioy Fiold House as su center Roosevelt Bouis rebounds a miserd foul shot by Miarty Byrnes and. acoreb the biggest Syrscuse basket of the young meason. Given the two-point lead, Syracusp forced a turnover on the other end of the court and iced the \(\mathbf{7 5}-\mathbf{8 7}\) victory from the foul line. (Phote by Bruce Johneon)

\section*{Cadets attack first, sinks SU swimmers}

By Craig Weinstein
The West Point Cadets swam to an early lead at Archbold Pool Friday, and were never headed as they defeated the Syracuse University swimming team 80-33, apoiling the coaching debut of From the outset it was apparent that the Cadets were the better team.

In the first event, the 400 -meter medley relay, the Army team of Chris Prinslow (backatroke), Koii Nishimura (breastatroke), Rob Ruck (butterfly), and Brad Brown (freestyle) set a pool record of 3:33.3, breaking by over three seconds a mark previously held by the Orange.

Sophomore Rob Ruck of Army won the 200-meter individual medley and the 200 meter butterfly by wide margins over outclasged SU sprinters. The butterfly was supposed to be one of SU's strongest events.

Syracuse divers Steve Russell and Rick Bolstad, who were impressive last year as freshmen, were disappointing Friday. They could do no better than second and third reapectively in both the one and three meter divea. Army's Kirk Schaumann easily won both events.

All told, the Orangemen managed to take only two of the 13 events.
In the 200 meter freestyle, senior Kirk Stevens came from
ehind to overtake Cadet captain Tim Glean in the final 25 behind to overtake Cadet captain Tim Glean in the final 25 meters.

The most exciting event of the day was the 500 meter freestyle. SU's Tom Turner and Army's Bill Janze went gtroke for stroke nearly all the way, with Turner finally winning by .08 of a second. head coach Jack Ryan was elated by the win. "We areextremely pleased with the way our team performed," he said. "The first meet is always the hardest, eapecially on the road. We prepared very seriouely, we know their potential."
According to Orachied, We were beaten by a clearly superior team."

Orachiedt speculated that there may be a few lineup changes. However, he said there will be no team or training changes. "We have done a tremendous amount of work. It just hasn'tshown up
yet," he added. ret," he added.
Both Orschiedt and Ryan agree the Orange swirnmers will improve. Orachiedt said he hasn't knownhis players that long, and he blamed himself for the way he coached the team for this meet, especially the sprinters.
"They're a great team, they"ll be very tough," Ryan said. "I'm
glad we awam them today instead of in Fehruary." glad we awam them today instead of in February""
"Yes, we"ll improve," Orachiedt added. "We've done too much
work not to."

\section*{SU 75, MSU 67}

\section*{Orange win classic final}

By Joel Stanheniso had just Syracuse Orangemen had just won the Carrier Clas sic, their first tournament vic tory in 13 seasons, with an exciting \(75-67\) win over Michigan State. But SU coach Jim Boehelm was more concerned about what the Orange didn't get. team has from the winning team has won the most valuable player award in every ovary tournament we've played in in the last 15 years," Boeheim said. Saturday at Manley the but the MVP award went to Earvin Johnson of Michigan State.
"This is typical; it only happens in Syracuse,
Boeheim said. "People say we're the beat in the Fast and were the beat in the East and nobody

The award was chosen by selected writers and broadcasters at courtside Saturday.
"I didn't expect it," Johnson said. "I was surprised a guy from Syracuse didn't win it."
\({ }^{4}\) I always think the MVP trophy should go to someone from the winning team," Michigan State Coach Jud Heathcote said. "There has to be someone who helped Syracuse
There were several. One choice (which Heathcote favored) was Marty Byrnes. The senior forward was a tower of consistency in the tournament final with 18 points and eight rebounds. Byrmes was also six for aeven from the free-throw line. Butit was the one he misaed which With the score tied \(63-63\) and With the score tied 63-G3 and
1:35 to play; SU guard Hal Cohen was on the line shooting for the first hit of a one-and-one situation. Cohen missed, but the rebound was grabbed by Byrnes, who was also fouled.

\section*{Multiple miscues}

Byrnes also missed. But the ball bounced off the rim and Roosevelt Bouie, whose lay up gave Syracuse the lead and the momentum.
"We should have had the ball twice there," Heath cote said. "But I have to give them credit because they went up and got the tough rebounds."
Bouie was also mentioned as a deaprving candidate for the MVP award. He had five rebounds altogether in the game as well as 14 points (five for seven from the field) and three blocked shots. He and tournament team
"I thought Shack should have made the all-tournament team, if not the MVP." Byrnes said.
\(\underset{\text { SU swingman Dale Shac }}{\text { Sus }}\) scorer was SUs leading nights. But against Michigan State it was his defense which proved most valuable. He held star Spartan cuard Robert Chapman to 15 points the had 30 against Rhode Ioland Friday) on only three for ten friday the field.

After Bouie had given SU a 65-63 lead, Michigan State hurried down court. Chapman attempted a high lob pass to Spartan center Jay Vincent The pass was tipped by Louis Orr, and finally controlled by Shackleford. Shack passed to Cohen, who was promptly fouled.
"Cohen played very well," Boeheim said. "Early in the grame he was ahooting the ball
very well, but then he stopped
Bhooting. he did stop shooting, Cohen had acored 10 points. Given a reprieve for his' miss when the score was 63 -all Cohen this time made both foul shots and added a basket at the very and to finiah with a careex-high 14 points.
SU's starting guard Ross Kindel sank four straight foul shots down the stretch and Roosevelt Bouie added two more to account for the final margin of victory.

\section*{Solid, not super}
"Syracuse is a very, very sood club," Heathcote said. "I wouldn't call them great or uper, but they are extremely well-coached. They deserved to be ranked somewhere in the Top 20."
Spectators at Friday's opening round games hardly needed Carrier's air conditioners to cool down afterwardis. In the opening "matchup". of the tournament, emoyne jumped out to a quick 3-8 lead and was then buried by SU 90-62. In the second game, Michigan state took a 44-18 lead in the first half and breezed to an early \(92-64\) victory over Rhode Island.
Both first-round routs set up Saturday's finals and all 9,456 at Manley anticipated what probably would be the best promably of the year at Manley Field House. It was better than Fhat
The first half was full of
fouls -and anguished cries of
fisbelief from both coaches and spectators. SU managed to talce an earily 10 -point lead at 24-14 behind a vicious slamdunk by Boure and two Cohen jump shots, but the Spartans fought back to trail by only 40 36 at the half.
SU again threatened to run up a big lead at the atart of the second half as they took an eight point lead ( \(48-40\) ) behind four pointa by Byrmes. But again the Spartans staged a the inside play of Vincent ( 23 points), and Michigan State points), and Michigan state i2:01 to play. The two teame I2:01 to play. The two teamp then traded baskets for nearly 10 minutes until they stood at 63-63.

It was a great Eame," Boeheim said. "And if we can get one great game a year out of this toumament it makes it more than worthwhile.
And except for the MVP trophy, it was completely worthwhile for SU.
COURT GESTURES: Byrnes, Bouie, Chaprnan, Johnson and LeMoyne's Jene Grey, the tournamont's leading scorer, weike named to the all-tourmament team . . Only a freshman, the 6 -foot-8 Johnson damziled the crowd both games with surprisingly agile ball-handling abilities. Agraingt SU he had 12 points on five for 14 from the field. Johnson also had five ansists and mine turnovers... Rhode and mine turnovers. .. Rnode
Island took third place in Saturday's consalation same, Saturday's consolation
beating LeMoyme 84-57.

Michigan State cowch Jud Henthcoe feht SU forvard Merty Byrnes wat the toumarment's most valudble playt. pe he sconed T8 pointa in Syrecuse' victory In Saturday's Cerrier Chepic final. \section*{Standard Plan approved}

\title{
by A\&s
}

By Liz Rathbun
The Standard Plan, which changes graduation requirements in the College of Arts and Sciences, was approved last night by 82 faculty provenbers- The placn-mill-be initiated nemstiall.

The Standard Plan originated last year and prepared for approval in the form of 32 motions. The Faculty Covncil chose to group thepe into main niotions to simplify discussion.

Motions 1-11 define course divisions. Their purpose is to "guide the formation, evaluation and approval of divisional elusters." Thus Humanities, Social Sciences and Natural Sciences and Mathematics are formed to group related courses and group related courses and guide student's choice of clusters: Clusters are four courses from a division's offerings that feature some faculty members to propose iaculty member
specific clusters.

The neit three motions

Slip sliding away
Tratfic lari't the only thing hampered by the second snowstorm of the zeason. On a clear day. Bird Litorary would appear at the end of Walnut Avence in the above photo. (Photo Gy Glen Ellmian)
quired to give." The English basic and continuing skills motion was approved.
Foreign language and mathematics exemption exams were the primary causes of-debente-for the next two motions. It was felt that a reasonable placement test would be difficult to draw up, and if one were at the right level to test real slrilla, not many students would take it. These objections were voiced mainily by the mathematics faculty, but both motions were approved.
The faculty also approved the plan's motion to give the Curriculum Committee the authority to approve courses that will serve as parts of clusters.

Thau said this process will involve participation from all departiments and faculty, who departments and faculty, who must submit courses and Clusters to the Curriculum Coramittee. It is hoped this will be accomplished within a month.

Continued on pere fourteen

A place to call home
The estate at 701 Walnut Ave. has been the home of Syracuse Univarsity's chancellore for decades. See story on page 10.

\section*{Universíty blanketed by major}

By Maxsha Eppolito and Ariane Sains
Yesterday's snowstorm caused at least one car accident and forced postponement of many cam pus events, including the and a speech by CBS corres and a speech by CBS corres pondent Charles Kuralt who was unable to fly in from New York City. Kuralt's speech wil be rescheduled for January. Syracuse University Safety and Security reported a three car accident yesterday on Marghall Street next to Haven Hall. According to Security, a car going weat down the hill, went into a skid and turned sideways. As second vehicleran into the first car after being

\section*{Endorsement denied}

By Maura MeEmaney
A controversy within the Student Afro-American Society concerning the en dorsement of a Student As sociation comptroller can didate occurred last night when Winston Waters, educational affairs chairperson, endorsed John Schoch on behalf of SAS.

However, Bill Simmons, spokesperson for the organization, denied the endorsement. "We will not be endorsing a candidate for Waters called The Daily

Orange office from Rocheater yesterday to tell of the endorsement He baid he had apoken with three of the other four SAS chairpersons except Simmons and they had agreed on the Schoch endorsement. However, Simmons said the organization's decision to endorsea candidate "Would have to come through me."
Collette Morgan, external affairs chairperson, said that she had not heard of the decision to endorse Schoch, either. Since decisions are made on a majority basis, she

\section*{DO distortions}

To the editor
We at SUhave become accuatomed to widesproad inaccuracy and misinformation from the DO. However, the DO outdid its usual self in diatorting my views concerning priorities ahould be
For the record, my candidacy is based on the notion of \(\mathrm{SA} \mathrm{SAC}^{\text {AC }}\) current limitations ( 20 percent voter turnout, lack of reapect by otudents and turnout, lack of respect by atudents and must set achievable goals serving nutist set achievable I goals proposed. Contrary to the DO reporter's claim, I do not feel my proposed second-hand store is more important than the tuition itane. I was quoted totally out of contex-
t. What' I did say was that in considexing twition increases, one cannot deny the existence of infation. Moreover, my central point hat consiatently been that before SA can accompliah major troale requiring maan student participation, we must earn the reepect of atudents. To gain thin essential respect, my proponals, tuch as a TA review committee and a aecond hand store, have been devigned to aerve student intereat as well as spark new reapect for SA.

As many of us know, the DO ia not a very reliable source for news. Bin Rita

Bill Rita is a candidate for SA president.

Tathe editor.
During my tenure at SU, I have witnguted many SA elections. While at the undergraduate level, my concern was for having a Student Associntion that would effectively and efficiontly carry out its responsibilitica. Now, at the graduate level, I ait back and try to get a gramp on the candidatea for the next administration.
Hugh MacNiven's article (DO, Dec. 2), while providing insight as to what the comptroller candidate positions are on certain isanes. dose not really give the extudents any back nound ass to their qualifications for running for the their qualifications for rumning for the offica. Does Mir. Zaretzity know how to implement a zero-base budget? Will he be able to communicate to the atudent organizations how they will have to
revise their budgeta. so every revise their budgeta. so every organization will have an equal chance
to obtain funds by his new method? Do
the other candidatee have any management nkille that will help them
do ax good job ats Mr. Valori han this do ate good
pate year?

Let the studenta know of their qualifications. It will provide for a better turnout at the polis.

\section*{Son of Sam: a fair trial-free press disaster}

Editor's note: This is the first of a series of gwest comments examining the relationship between government and the mass media.

So much has been written in recent monthe about the conflict between the Firat Amendment rights of the press and the Sixth Amendment rights of defendants to fair triale, that one hesitates to join the fray.
In the days following the arrest of David Berkowitz in New York City, a number of reportern did stories about the "excess media publicity" in the Son of Sam case. Publishing stories about the stories is a little like adding more straws to the camel's back to bee if it will hold.
At the risk of adding that last straw, it seems worth pointing out once more that the Son of Sam case - by anybody's meanure - was an ex. traordinary one. Weels before David Berkowitx was apprehended, one could have catalogued the ingredients of a fair trial/free presa disaster: (1) the unknown "perpetrator"- as law enforcement officials were wont to call him - a nickname which fit conveniently in headlines; (2) the crimes appeared. irrational, ouggeating that the perpetrator might well be mentally unbalanced; (3) perpetrator might well be mentally in in spreading the news of the crimes as a warning to people to avoid high-risk areas and to appeal for in formation: (4) the perpetrator had made direct contact with the press through his letters: (5) there was journaliatic concern over the police's effectiveness or lack thereof in finding the perpetrator ( 6 ) all of this was happening in the biggest city in the
United States; (7) there was a new newspaper United States; (7) there was a new newspaper
owner in town with a reputation for gen. owner in t
sationalism.

These factora alone would certainly have suggested the possibility of disaster, but they left open the theoretical posaibility that an accused individual would be apprehended and thathe would

deny being the "Son of Sara" killer or that the specific evidence showing he wha "Son of Sam" would not be widely disclosed prior to the trial Had this been the case, and had Berikowitz been instantly ingulated from the press, a jury pane might have been unprejudiced on the question of whether Berkowitz was or was not the perpetrator.
That, obviously, was not the scepario. When Berkowitz was apprehended he readily admitted within earshot of journalists, that he was "Son of Sam." The gun used in the killings was found. Notes in Berkowitz' handwriting matched those sent to the prese. The link betwieen the "unknown perpetrator" with the mickname and the man arreated was established by the defendant himself
In New York, as in many other states, the legal profession, the medin arid law enfoxcement of Gcials have agreed to a voluntary set of guidelines to try to protect defendants rights while simultaneousiy recognizing the media's rights. Those guidelines recommend agsingt the releame of information on admistiona or confemione. Hrad New York police kept journalista away from not have become public. Or had journalista who not have become public. Or, had journalists who cast them, the admissions might not have become cast them, the adr
But guidelines are not written to deal with extraordinary cases, and this was an extraordinary traordinary cases, and this was an extraordimary cane. it would have been uncealising the public's police or journalists knowing the public's concern over a killer in their midat-would have they believed the killer had been caught. The "we've got our man" quotes at this atage of a high intensity criminal hunt are virtually unavoidable. It's just not realistic to expect that the police would have isaued a statement saying, "We've caught nomeone named Berkowitx who may or may not be the right person. We'll have to wait until a trial to see.
Any editor considering the publication of the
details of the arrent and admissions would have to weigh into his considerations the possibilities that (1) Berkowitz would be fonnd mentally unfit to stand trial, (2) Berkowitz would plea bargain and plead guilty to a reduced charge, (3) Berkowitz would plead guilty to the offenge charged because of the masaive evidence against him. In any of these instances, there would be no jury determining guilt or innocence, and the prejudicial nature of the news accounta, would become far leas im portant than it would be in a jury situation.
What we bave is the clasaic conflict between the way the professions of journalimm and the law operate. Both meek to arrive at the truth, but journalista work against deadlines, competing ggainat one another to arrive at the truth an quickiy as posaible. Lawyers, on the other hand, take their time trying to arrive at the truth in the
orderly. almost sterile atmopphore of the orderly, almost sterile atmophere of the
courtroom - pometimes mhielding jurore from part of the truth because it is legally irrelevant to the ury's immediate deciaion.
Perhaps the ultimate irony in the Beriowitz case is the possibility that the press may inad vertently have helped Berkowita' defense and prejudiced the prosecution'a case. It appears that Berkowitx will plead not guilty by reason of insanity. The prosecution will aeel to prove that ho wat ane and is cuilty. By publinhing so much information sugesestive of Berkowitx' lack of mental capacity. the preas may inadvertently have prejudiced potential jurors into believang in his inganity and, therefore - legally - in his innocence.
This is mennt in no way as an apology for the modia excemeas in covering Son of Sam. The runming of a front page, first person "tory" with a David Berkowitt byline - in reality one of ethics. Much of the play of the ernsational
comments made by the parents of the victims was unneceswary by any view of the "people's right to know." Families of murder victime are obvioualy emotionally involved and can hardly be expecter to keep in mind the fragile balance between preas Fights and defendant rights that professional journalists should consider.

Beyond theae axamplea, however, much of the digturbance over the Son of Sam coverage was directed more at the quantity of the copy than at it quality. There is no way that the etory of a killer loose in a city the size of New York cannot attract a quantity of stories. And, even if it didn't, there would be danger that rumora could be more damaging than press accounts.
Like it or not, the Son of Sam case is the kind of case that makes people look for guidelines or laws to control what they call media prablicity. It is not however, in any way a typical cane, and it would be absurd to write guidelines for average cases based on a Son of Sam mituation. It'e a unique came from which we thoukd leman, bint wo meed not eontink indefinitely the apologies for what tranupired.
For decades in this country there was relatively Little concern expressed about highly senaationalized news accounts of some criminal
casen. Thefact that the news naedias were so prompt to write about the coverage of the Berkowitr arreat io write about the coverage of the Berkowitrarrest is itself a fign that most journalists are aware of the effect of media coverage on the judicial process. the effect of media coverage on the judicial procress.
As for David Berkovitz, the extent to which he receives a fair trial will depend largely on the effecreceives a fair mai win dependiargeny on the efiec-
tiveness of the court's traditional remedies for the tiveness of the courts traditiomal remedies for the
publicity problema \(\quad\) change of venue, postponements, and reliance on voir dire to keep prejudiced individuald off the jury. How well thote remedies will work, if they work at all, we won't know until jury belection beging.

Jay Wright tegehes communicationt law and ethics in the S.I. Newhouse Sehool of Publie Comt munications. For five years he has aleo been execwtive director of The New York Fair Trial Free
Prest Conference and a comoultart to the New Prest Conference and a cormaultart to the New
York Stente Office of Court Administration on fair York State Office of Court Adminiatration on fair trial/frec prest matter:.

\section*{The dying drive for a University center}

This the second of a two-part editorial.
There wron't be a Univernity Center

\section*{An antidote to apathy}

We found this "campaign poster" on our deak when we returned from Thanksgiving vacation. It was left with a note from the artist explaining that she had broughtitin "unsolicited" and figured we could undoubtedly use it simetime during the campaign for SA offices.
A student picked upher pen to do a casual piece of artwork on the election, and this is what she thought of fret. This is a significant atatement about the way students think and feel about campus politics.
Of course, we've seen this kind of statement before in the discouraging statistics on voter turnout. No mattex how easy it's made, students don't go to the polls. They don't participate in their Student Association.
Why don't students take any interest in SA? Clearly they do not, since the vast majority pass up the simplest and most direct means of participating in it.
The key is to be found in one thing and one thing only: relevant resulta There has been a distinct lack of such results lately in student government, and in discuasion of it. SA is certainly in large measure responsible; so are we and other members of the student media. Does anybody really care about who got drumit on what election night? Where ballots were counted in an election that didn'teven count? Whether an SA vice president distributed, or didn't distribute, a written report? The emphasis of style and ignoring of substance resulting from endless arguing - and reporting - of these issues may be partially at fault for the aparen't that important.
We suspect that if studenta are interested in anything at all they are interested in better service from financial aid, more flexibility and in meal plans and housing rules, more and better information on how their tuition money is apent, sexious efforta to fund and construct a UU building. These are the "relevant results" we think students want SA to concern itself with.

This year, as we do every year, we urge every student to go to the polls and make as informed a choice as posaible of SA officials. Yet even as we deliver this exhortation we know it is largely futile. Without some substantial change in SA and the way it conducts its business, there will be no real improvement in student involvement.

We make no pretensions about having concrete answers on how to really attein the kind of achievements that will give SA credibility and respect among the students it purportis to Berve. But whatever amount of apathy exists among those students; it cannot be overcome by catchy alogans about, "communication" or empty promises of "open ad. ministrations." Only. the convincing itarge of real and relevant achievements will persuade students that SA io worth the bother at all.

David Abernethy for The Daily Orange

\section*{The Daily Orange}

Jim. Maughton editor in chied

many people have land for serveral years.

The university is nore about to butild a University Cemter woithout a major donor. There has most boem a major donor interested in the Univernity no reason to lant 52 Searn and there in no rea.
sonn.
If students want to put some life back into the drive for a Crmiversity Center several strategies crens be adopted.
Students can becorrae involved in the university's fund-raniaring efforts by participating in phone-a-thons and partiopating in phone-a- Thons and much more than is bermg done now and it is obviously not perticularly effec tive Students covld stase some independent fund-raising events modeled after, but hopefflly more Uuccessful than, last Sears Mniversity poorly attended and mande only \(\$ 5\) e. It would take quite a fev concerts, raffies and cake sales to evern pat a dent in the \(\$ 7\) million to \(\$ 10\) millition building cost of a University Cemtex-Such student offorts were succcessfinl, however. in construction of Manley Field House. However, in that sitcuation a aeparate fund-raising group of alumni and com munity members was also at work. The union is a different aituation than the Field House because studerits will be the prime beneficiaries of the University Center, while the community and the \({ }^{\text {ondithed financially from the Field }}\) House.
Students could also move to reject the university's theory that the center cannot be built without a big donor. In the up priorities that plave led to the present impasse on the University Center, students and facalty members have sometimes suggested the niversity build the uraionithelf, even if it means croing into debt. It in not omething the adminiestration is likely to do on its own. If strudents feel this it the beat strateor they minat berneady to presaure the university into it
Again, there are aeveral ways to apply pressure. The university is votably the pocketbol areas, mos, notably the pocketbook, paperwork, large bureaucracy, syracuse University depende on beings able to
maneuver in an orderiy fashion ite employees and the recorcis they deal with Students can disrupt this process in several ways.
if university employees were to find certain parking lotas occupied by gtudents one raorning, they wonld be at a hose for what not park, they could not work and even if they did park farther work and even if trey did parix farther away the work proicess Unould be Slowed If Universsity Supported the takeover they could even monted their deaks and office sapplies into the selected parking lot for the day. This is a warm weather stratesty.

Students can also slow the univeraity's internal functioning by could be organized to have could be oryanized to have or pertsen revise the listing of thei or perhaps revise the loting or studente 5ling is and ont of the reat tradense mas 20 aud out of the regin conducted The university world hav. conducted. the univeraky woud have Loth the bureaucracy ia likely to be a bit anfer bureaucracy is tikaly orine lotes youn taking over a parking lot because The university is alwrors
ite anverily is andayb vainerable in its parking lots and its paperwork university's budget pay be th on the potent force atstudent's disposal. Even potent force atstudents cisposath demonstration such as the concerned Jewish students staged against The Daily Orange earlier thi year received coverage from the city' two newapapers, at least two talevision stations and reveral radio stations.
With a little imasiogtion (maybe
ting up some pinball machines in the Administration Building on a day when prospective students are touring the campus) better coverage could be obrained.
Reviewing the prospects of putting some energy back into the union drive, none look particularly encouraging. Jonning the university's fund-raising Joining the university s fund-raising it has yet to produce the much taiked about "big donor." Initiating separat fundraising efforts might add to the Univeraity Center's meager funding drive, butit would takesolong studenta who begin such fund-raising efforts this year might not live to gee the fruit of their labors.
Civil disobedience is a glamorous way of attacking the problem and it may be the most dramatic. Given the mood of the preaent student body it is unikely such efforts would be successful. Unless a dynarnic atudent eader were to emerge within the nex few monthe proposals for peaceful demonstrationg are unikely to meet with anything but laughter.
Chancellor Eggers thinks there is a lack of support for construction of a Univeraity Center. In a conversation Univeraity Center, booster club?" Students could become the Univeraity Center booster club, but are underatan dably reluctant to do so. They would cither have to truat an administration that has let them down many times in the past begin fund-raising campaigne which will be decades in making any real difference or organize peaceful protest something that seems an anomoly for atudents of the seventies.
The prospects do not seem sttractive nes. Students may talk from time to time about really doing gomething about building a University Center, but for the most part students remain as helpless as the administration as SU continues its 52 -year wait for a big donor.

UU Building groundbreaking not seen in 1978 by chancellor

\section*{By Bink Beirm}

Chancellor Melvin A. Pergara said yeateriay he does not fortape a 1978 eround breaking date for the planned "Univeraity Center" brifding.

Egryert caid in an interview that fow yeare Eso he hadi a "reasonable erpectation" theat the conntruction of the center would now bo underway.
Now, he said, there is "very littie" mupport for the project on the part of prospective donors.
"Prompectivedionors are theee daya mone reeponsive to the support of programs or scholarahipa," Empers anid.

The projected cout for the Univernity Center, formerly the Univernity Union Building, is \(\$ 7\) million \(\$ 10\) xnillion, he enid, bot a mure fraction of that amount has been raised.
"An initial commitment" from a major donor towrard the Univeraity Center is needed before
other donore will come forward with thoir gifth, the chancollor said.
A naming gitin-half the price tag for the building-from a donor "who eow thie an a monument" will probably prod other donors into contributing xelatively emaller gifte of \(\$ 100,000-250,000\), Egarers Aaid.
The Uriverwity Center funding campaign does not have the same menie of involvement from donore as the campaign for Manley Field House had or the proposed utaditum eeeme to have, he waid.
Whers is the (Univerwity Center) booster club7" akked Eggerw, drawing a comparison to upporters of sporte on campuas who paved the way for the construction of Manley Field House. "T'm as eager to have (the building) as I ever was", the chancellor said. "When it becomes doable I'It do it"

\section*{Book exchange must relocate}

By Thomen Cofry
The Alpha Phi Omaga Book Exchange will have to move out of ite office in Tilden Cottage, 103 College Place, to its main office in Archbold Gym by Jan. 22, 1978, according to David Lyon, APO president. Lyon said this would force the book exchange to close.
Lyon said yesterday afternoin he received a letter from the Office of Student Ac tivities stating that such a move would take place. Ac cording to the letter, the Syracuse Review and Roport newsmagazine will oceupy the space now used by the book exspace no:
change:
Lyon was opposed to the proposed move. "There is no proposed move. poasibility we can rui physical possibility we can run Alpha Phi Omega office," he Alph.
The book exchange contains abaut: 3,000 books, Lyon explained. There is no space in
the APO office for the books to the APO office for the books to
be atored, he said. "If we ane forced to move, we'll have to lug out 3,000 books," he added. Alpha Phi - Omegra will appeal the decision made by the Student Organization Space Allocation Committee. Charles DeLine, assistant director for events in the Office of Student Activitien, said the decision to move the book exchange was "a matter of service to students." Deline said the book exchange did only \(\$ 2,200\) worth of buainess, and was in operation only 10 days each semester.
"No group on campus has at least half the space of either of their offices," Deline asid. Student Asgociation President Rich Crowell. a member of the space allocation committee, defended the committee's decision. "We can'tlet an office like that go naed only two times a year," he said.

Moving the book exchange would be "more realistic," Crowell said. He abid he would
favor allowing APO to une Archbold Gym for the bookexchange after registration. This way it would be more accessible ta; "students," he acded.
Lyous said "about 1,060 people, consistently drop aff books" at the book exchange.
The book exchanige is open once a semester beginning the first day of registration and continuing for about 10 days. Students drop off books at the exchange and the books are aoid at the price the student names. Ninety percent of the price goes to the student and 10 percent to APO.
"The book exchange is used for projects SA doenn't fund," lyon said. For example, it hyon said For example, it Day.
"We are planning on having our book drop and our sale, Lyon emphasized. A student can drop off books at the book exchange from Dec. 15 until Dec. 22.

\section*{Rice has no immediate plans to submit container deposit bill}

\section*{By Mike Terpia}

A year after the defeat of the mo-called "bottle bill" in the Onondaga County Legialature, Legislator Timothy Fice aiid he hais no immediate plans to reabmit a mandatory beverage container deposit bill.

At the Dec. 6 meeting last year, Rice said he would reintroduce the legislation six months later, the soonest he could bring the matter up again according to legislative procedures, unless the state legislature passed such a measure. Rice was among the bill's sponsors.

The bill, modeled after laws in Vermont and Oregon, would institute a mandatory 5-cent deposit for all beverage containers sold in the county. The bill was defeated by the county legislature last December by a vote of 18 to 5 .
When the bill is brought up this time, the botting companies are expected to have some input. Rice said the legislature has asked the botthing companies to come up with alternatives to the bill. "They haven't exactly leapt at the opportunity," said Rice.
Rice said he doesn't know whether the bill will pass this time. He said the possibilitiea might be enhanced by a federal law passed Oct. 1 which requires a mandatory deposit on all beverage containers sold in federal buildings, such as post offices. These sales make up less than 3 percent of total county beverage sales, Rice said.
A New York State container depasit bill seems unlikely" to pass this year because it is an election year, Rice said.

resurrected the dunk. resurrected the dunk.
Leading proponents of the dunk were the coaches.
"It was foolish to take the dunk out in the first place," gaid SU Coach Jim Boeheim. "Each year the Coaches' As. sociation voted 75 to 80 percent in favor of the dunk, but the coaches don't make the rules."

Opponents say the dunk is a dangerous play. Backboards can be shattered and there is a threat of player injury. Most players and coaches don't agree with this argument.
"'There is no real reason for keeping it out," Boeheim said. "I haven't personally seen any backboards broken and have onckboards broken and have only heard of two college backboards being broken because of a dunk."
The threat of injury, an ever* present danger in any sport, does not seem to be on the players' minds. The dunk is not an overly dangerous play although, on occasions, a player can be injured.
"While I was in elementary school I saw a player go up to dunk a basketball" Kevin James said. "He came down but his fingers didn't."

When asked about the dunk, members of the SU hoop team kept the word "excitement" in the conversation.

Hal Cohen: "The dunk gets the fans and players going." Roosevelt Bouie: "If you are having a bad game a dunk can
pick the team up."
Boeheim: "It can be an emotional and psychological. aspect of the game."
Dunking is an offerisive. weapon which, likeanyshot, is weapon wixch, ifkeanyshot, is
not infalible and has not infalible and has limitations. Players know this
and realize there is a time and and realize there i
place for a dunk.

James feels "a player knows when to dunk. In a crucial game situation he will shoot a layup."

Bill Drew, who professes dunking ability, feels "better off taking a layup."
While the ten-foot barrier of the rim is not an obstacle to most college players, dunking in practice and dunking in a tame are two completely different situations.
Ed Moss, a \(6^{\prime} 1^{\#}\) guard who can gtuff on occasion, said "the." person who dunks in a game is not one who can barely do if at not. A player does not like to be embarassed in front of a crowd embarassed in front
Bouie noted "anybody can score on a jump shot but it: takes an elite player to dunk. A lot of players can dunk without defensive pressure but- not with."

There are as many different dunking styles as there are dunkers. Two handed, one handed, reverse and turn around are just a few types of dunks.

Bouie's personal preference. is the one-handed since itis the most powerful method for him.
Personal preferences do not always dictate dunking styles. however. According to Bill Drew dunling atyle dependi on what dunk a player can do. It was a long time coming appear that the dunk is with us to stay, much to the coaches'. players and fans liking.

\title{
Clapton LP offers the stuff of rock legends
}

\section*{By Norm Meyer}

Eric Clapton was a rock ' \(n\) ' roll legend. In the past three yeara, however, Clapton has not only lost his fabied image, but has made a couple of poor libume to hastan his demise. He hasn't made a recording that hints at greatress since Dominos.

But Clapton fans should shed no tears. Clapton's newest album. Slowhand (RSO-Folydor Records), recalls his past greatness while offering a freeh sound. This album is the stuff of which legends are made, or at least nemembered by.

Clapton, aided by producer Glym Johns, has relindled the Glyn Johns, has reananed does atmosphere in which best work. Clapton thrives in a band where he doesn't have to be the dominant angwriter and vocalist. He produces when the lyrica are un-

Eric Ctapton longingly looks for a retum to the Imelight with his now album "Slowhand,"

\section*{Chronic Heart troubles result in 'Magazine's' mixed offering}

By Brent Marchant The dictionary defines "roagazine" as a periodical containing a wide variety of articles, pictures, stories and other features. A more appropriate Word could not be found to describe ragazine, group Heart. The disc contains wide variety of musical compositions recorded live and in the tudio - some of which are good and some of which should have been left on the slush pile.
The music on "Magaxine" is not new. However, the release of this album has been prevented for a long time, due to a court battle between the
group and the producers of the album, Mushroom Records. Because of a contractual dispute, Heart tried to prevent the release of the album. Deapite the group's pleas, the court ruled in favor of the record company. As it etands now, the album will probably be available only on a limited, import release.
Heart dieclaimed any. artistic involvement in the completion of this album. A statement by the record company on the back of the album cover reads "Mushroom Recorda regrets that a contractual dispute had made it necessary to complete this
record without the cooperation or endorsement of the group Heart, who have expressly dieclaimed artiatic involvement in completing this record."

Since Heart did not record enongh new material to produce a whole new albnm, the record company filled up, the remaining fpace with several live recordings. The result is an interesting album which is a mixed bag of miscellaneous Heart recordings.
The studio recondings inciude both hard-rocking rongs, such as "Heartliess;" ma well as mellower, more mbdued Continued on pege twalve
complicated and his instrumental prowess can be appreciated.
The baind is basically the amme ome Clapton has been Working with since 461 Ocean Boulevard, mo "Slowhand":" success. Beerns to be a product of the group's fusion, the re emergence of Clapton's considerable talent and the contributione of vocalistnongwriter Marcy Levy.
Levy and Clapton combined to Write the LiP probable hit single, "Lay Down Sally." and the nibume best cut, The Core." "Lay Down Sally" is a simple, bouncy rocker featuring a persistent choppy rhythm, guitar work and the contrast between, Levy's soprano and Clapton's fragile, limited voice.
"The Core" is one of the best songs Clapton has made since the classic "Layla." The opening instrumental phrases are right from his Delaney and Bonnie era, but the song only recalls the past, then moves on its own. The rhythm work of old standby Cari Radie on bass oid standby Carikade on bass and Jame Oldaker (who is superb throughout) on drums bursts open. Clapton and the equally by Clapton and the equally tious.

Mel Collins offers a bit of flash on saxophone and a rous-
ing jam ensues. All this plas Levy and Clapton trading
verses of inaightful, personal verses of ingightful, personal
lyrics add up to an impresaive song.

The other highlights of the album are J. Cale's striking "Cocaine," Clapton's tender and haunting "Next Tine You See Her" and an instrumental, "Peaches and Diesel."

The beginning of "Peaches and Diesel." co-written by Clapton and Albhy Galutem, bringe to mind Derek and the Dominas, but the song turns out to be the epitome of Clapton's current guitar style. It is textured and malodic, laid back but nowing.
"Slowhand" is good, butnot great. There is one bluea number that was apparently thrown in as a filler and Clapton's voice is ill-surited to sing a couple of the balinds. However, it is a wrorthy efiort and a ine rebound from last year's No Reasors To Cry.

Olapton has changed hia btyle over the years, but he is still a gifted musician. He waa given the ironic nickname Slowhand years ago when be was supposediy the fastest guitarist alive. Now Clapton is content to show his fluidity and melodic sense, and the result ia that he can again be called Slowhand, and, of course, a legend.

\section*{SU shortcuts: tread of feet makes campus smaller}

\section*{By Milce Terpin}

As every atarry-eyed high achool semior who visits here will attest to, Syracuee University is a big place.
Mowt if not all, students here have found ways of maling the campre a little bit maller. This is accompliehed by what if known at a shortcat, of which SU has many.
Although same of the shortecrim were ob viously planned, the mont famous have bean formed by the steady tread of stadent foet through the decades, from wing-tip shoce to sandala, mating their imprint like the glaciex of old did to form the very hill we live on.
One of the moat nattural and moet frequented shortcuts is throtagh the succenaion of parking lots between Bird Library and Spectrum Becorctis Many a atucient haw wpant long houn at the famed "Bird Sanctuary" and them danhod to Spectrum to tiake out their fruatrations by purchanigg a triple allum.
Certain dorme have their own pernonalized shortevis. The Mount hate a trail that laads to campue via Oakwood Cemotery. Thare are alao three stair pathe, in addition to the worcallod "Stumpy Eoad" leauting throng EBF. The adventurous can alwaya mrab their turuty machete and blane thrir own shontecut.
Brumster-Boland, until the mamini tiration docided to eippand Waverly Avennto, tued to

houses, stairm and parking lote that cut out half the time in Eroing to MS Street.
Perhapa the most intricate inter-dormitory shortcut in the one which meanderw from Watshortcut in the one which meanderimom wat son to Haven. It savee plenty of time and cuts out climbing hils, but has the digadvantace of hours

Another great timo-maver in the path that poes from Newhovee to Burger King via the wtairm next to the Health Center. The path ist oo wellfrequented it has led Newhouse Profeesor Samuel Kemnedy to dub Burger King

"Newhouse III."
Studente living to the east of North Campus in the city's Euclid-Weatcott dintrict have two Bhortents they can call their own.
The first is from Livingeton Avonue to. the Quad. It eonaists in cutting throngh the back Quad. It congists in cutting throngh tha bain yard of a howse on I ivingeton, then procueching
through the Shaw parking lot and finally through the Shaiw parking lot and finally through the walliway necxt to the Aeracia
fraternity. It may mound like a complex fraternity. It may sound like a complex
 day.

The othex bhorticut is throurg Thornden Park. This ahortcutsaves about five minutes in wrall. ing time for students living on and around Weatcott Street. Althourh there are many routes, the central shortcmt is a footpath netat to the tenais courts, conturing pant the amp phitheater, beyrond the swimming pool to the park entrataces on either South Beech Straet or Greenwood Place.
In the cave of nging the Thorndam Park and Oalrwood Cemetory Ghorteuts atter diext, caution and/OT cuard dogs are adyived. Both arons tre faghionable reworts for the well-infoymed muserer.

Perhapa the Least named yet most widely umed
 at all. But time and time tachin, the fumotes

\section*{Jowonio lets children help one another}

\section*{By Rachel Finicel}

A group of students were sittingaround a table, busy doing art work. One boy unex pectedly began to acream, until a girl in braids went over and offered to "Blap him five." She said it was to "make him feel better."
The idea that children can help one another as much as coachers can is a major phiosoph Thit Jowonio School Sowonar the Learning Place to a wherapectic hearnise en vironmentror nomaionally dia and yeverely emokionally Salt City Platouse on South Salt City Flahouse on South Crowse Avenue, the school has drawn approximately 20 Syracuse Gniversity student Workera, ten of whom are full time interns, from the SU special education sraduate and tondergraduate programs Due to its proximity to the universily fowono uses the pool facilities at Arehbold Gyra. Participants in water safety instruction programe help Jowonio students develop their swimming skills there.
Individual training and teacher-student relationships
are considered important learming tools at Jowonio, ac cording to Dr. Peter Knoblock, director of the achool and director of the achool and profensor in the SU
Regarding the Eucoess of Regarding the Enccess. of children in the same learning Chilaren in the same learning environment, Knoblock maid, enough to bay we have an integrated setting."
Jowonio's way
Jownio's way of "working atit is bred on the concept of and bandicapped. Normal from ages 3 to 9 are placed in from ages 3 wo are placed in Eroups ior the majority of the Behool day. The group ia led by thre aduits and 10 children, three of whom are emotionally
disturbed. Group
Group activities include language training, sensorimotor skills, imitation, read. ing and math. Play groups and art projects are also an important part of phyaical and Bocial development at Jowonio. Both normal and Bpecial children are sensitive to one another's needs.
"TYpical children have to deal with the crisia of growing

\section*{Lavish house provides home for chancellor}

\section*{By Mindy Martin}

In 1915, John D. Archbold parctuased the eatate of Wiliam Nottingham on Walnat Place. Today, it is the residence of Chancellor Melvia A. Eggers and hia wife Millie.

Mre. Eggers added furniture and art pieces to the relatively amply houne upon her ariva
"It's (the household) just a complete mixture of furniture and ideas. What \(I\) did was intersperse my furaiture and my personal thinge with what was refurbished," ahe asid.
Much of the museum-like aura is found on the first Aoor. The library is a large rec tangular noom with a circular aiting area that faces Harrison Street. When the house was built in 1905, the room was used for the view overlooking Onondaga Lake.
"Were were iust a amal cluster of low buildings miles from the city. This was one of the frrat buildiags on the hill. It was choice spot when they built it." explained Mrs. Eggera of the sitting area. Copyrights of the books in the ibrary date back to 1908 and range from American his tory to classical literature.

Mrs. Eggers has removed wome of the booles to matce room for owne of her own. She aleo dis played art work on some of the shelven "just to make it more intereating rather than just to have it all bookn.'

Among other figurines, she has a finely carved white jade frog and a Chinese man with intricate threedimensional writings on him robe. Mrs. Eggers found them in a chest in a naiveraity warehouse.
"They would be stored away," whe said, "anlegs they (the univeraity) were going to have an exhibit." Mra+ Eggera also diaplayed two larger pieces: two gold chairs, each less than two feet high. On one of them is \(\%\) sminll doll which Mrs. Eggers has had since she wam a child. "It was a gift from my mother and ahe's (the doll) junt nice to have around."

Alongride the library is the living hall, as she termed it, us ing the Victorian manae. The wall facing Walnut Park has long, narrow windows that ex tend to the ceiling. Mra. Eggers Gkes them because "they bring light into the house . . It feels like you're a part of the outdoors.'

The main focus of the living
hall is the piano, which etands majestically to the side of a nreplace Eramed in swirly of wood. The Eggers use the Fureplace to nad a warm glow to the room. An with the library the floors are covered with brightly colored Pertian rugs. A amall table made by Mr Eggers in a manual training course in high school adds a persional touch to the roorn.
The dining room grincipally contains period furniture Queen Anne chairs in a rich dark wood covered in blue gatin and a Victorian table that coordinates with bureaus, a china cabinet and a mal serving table. The floors are gerain lined with bright Perbian ruge. Mxs. Exgers has a collection of fine silver serving ware that glistens in the "joist beactiful' light of a Czechoslovakian class chandeliex suspended from the center of the ceiling. The ormate china cabinet contains numerous tifinny pieces from the university collection.

They would ghow chern oniy once every three or four years," said Mrs. Eggers in speaking of the univeraity's dealings with the pieces. She felt by having them in the
house everyone could see theri. Two smaller dining areas are adjacent to the main room One is lined with a wall of cabineta filled with dimbes. Some, whieh depict buildinge such au Maxwell and the Hall of Languages, ware clone through an experimental procesa by Syracuse China from whom Mre. Egeere bought them. The chancellor and his wife often eat in this hall becanse Mre. Eggers "Iikes the intimacy of the manall room." She nges the other room, called the butier's pantry. as a plant nurnery. Most of the plants werte brought in from the Earden banind the grarage at the from of the estate. There wed to be a awrimming pool...there, but former chancellor Williana \(P\) Tolley and his wife wanted is removed because students ased to throw thinge into it.
The garden room could be Mrs. Eggers' favorite place because of her fervent love for plante. The brick walls painted white to brighten the oom, are filled with evexyth ing from African violets to Swediah Ivies. Nonetheless, the Ighting is not auperb. "II they had direct sun, some of

these plants probably would grow better.
Mrn Eggers pointed out that the room can be elosed off by \(a\) heavy door and that theire is a doorbell on the threminold Since the room in at the baper of the house, there is no otheresxplanation for it other thanthes there was a driveway that went nill the way around the howse for a horwo and buggy:
A black lead grating covers the top third of the long narrow windows on the ground floor. Bach window has shutters which wers built ao the entire house could be shut up in the aummers, Mrs Eigeres explained. The staira leading up to the secnnd flow are framed by wooden pillaze with a distinctive wood scroll pattern from England. The Pergian ruge on the wide etairs are similar in color to that in the other nooms but are much thicker and more apongy.
The chancellor's houne is a beautiful and intereating part of the university, althoughit is often annoticed becanse of the surrounding inees and foliage. The Eggers have incorporated the furnighings of other chancellors and added their own flavor
\(-\)空

\section*{Expert speaks on solar energy uses}

By Martha Vickery
Solar energy, which has had considerable publicity in recent years, was developad in the late 19thr century. With the discouraging prices of fuel oil and threat of a future energy crisis, the old iden of tolar energy han experienced a revival and a chance at prac tical application.
Practical application of solar energy was the topic of a dimcussion yesterday afternoon by Alwin Newton, an expert in aolar onergy who has expert in in the energy has been in the
A Syracuse Univeraity alumnus and holder of a masters degree from MiT, Newton has worked as an energy consultant with Honeywell in Minnesota and the Coleman Co. in Wichita, Kan. He worked with government agencies in the development of national standards foz solar-related equipment, and recently worked as a consultant for the government of Taiwan in developing oolar energy technology to replace former plans for nuclear energy for that country's future energy needs.
Newton explained that in his work with Honeywell and Coleman in the 1930'a, solar technology was researched but
never applied in a practical sence becaune the conts of other methods, chiefly oil and electricity, were relatively cheap.

Because of high prices of petroleum and electric anergy, solar enargy has become the moet inexpensive source of power in heating and cooling buildings.
The recently inwtituted McCormick Act, Newton maid is deaigned to help research in solar energy by setting national standards and craating a certification procedure for companies producing solaxrelated equipment. This act alac equipment anis act demonutration equipment which was ingtaled in 300 Which was instaled in 300 homes, offices, mehools and farmes, otructures.
Newton discusaed a few problems of anolar systema, the different kinds of solar systerns and the efficiency factora of each one.
Newton asserted that solar energy is a very sensible and real posaibility, eapecially in light of a definite need for an alternative for fossil fuels. The key to the proper development and success of solar energy is "keeping things on a practical beeping things on a practical impassible," he said.

\section*{SA to hold elections today}

Elections for Student Association president and comptrodler will be held today. Polling places open from 9 a.m. to 5 p.m. are: Crouse College, HBC, Hall of Languages, Max: well, Moon Library, Newhouse I, People's Place in Hendricks Chapel, Physics Building, Slocum and Regent Theatre. Bird Library will be open from 12 to 9 p.m. and the SA Building, 821 University Ave., will be open from 9 am . to 9 p.m.

\section*{Contured from mos}
songe, auch an "Just the Wine." Also included in the studio recordings is Heart's rendition of the clasaic Harry Nilsson song, "Without You."

The quality of the etudio recordings equals Heart's past recordings equala Heart \(B\) past
endeavors thanics to fine endeavors thanics to fine musicianship, the key to the
group's succes. Singer Ann Eroup's success. Singer Ann Wilson leads the group with her versatile vocals. She can belt out a song, sa on the cut "Heartless," or expressively render beautiful, flowing melodies, as on the song "Magazine." Nancy Wilson and Roger Fiaher wail on electric guitar, while fine bass getitar work is supplied by Howard Leese and Steve Fobsen.

Henrt's lyrics are extremely sensual, as seen in the song "Magazine." This track is about agirl who pages through magazines, looking for her ideal lover: Perfect lover, where are you?/ She acid \(\bar{y}\) can't wait much more for you to come through.

The lyrics can also be bitter. In the song "Hearteas," a song about a conceited rock singer, the bitterness hines through:Heartless/ He thinks

FOR

\section*{CHRISTMAS}

it's so cool to be cold/ He'l never realize/ The way love diest When you crucify its souh.

The quality of Heart's live recordings does not come close to matching the quality of the studio recordinge. To begin with, the live recordings are with, the ive recordings are boring: The song "Mather Earth drones on and on and makes a dull lead-in to the Led Zepplin classic, "You Shook Me Babe.*

Another problem with the live recordings in that they

Boind out of control. Ann Wilson's voice, for example, Bhrieks texibly during "Ivve Got the Musicin Me." and even moresoduring the Zepplin cut.
"Magazine" is an intereg. ting album which ahowe many different aspects of Heart. The different aspects of Heart. The group may have disclamed artistic involvement in the completion of the album, but the Heart quality if still present on most of the album's tracks. Its limited release may somediay make this recording a collector's itern.

\section*{Music careers talk slated}
"Careers in Music" will be the topic of a panel discussion Dec. 15 from 10 to \(11 \mathrm{a}, \mathrm{m}\). The discussion is open to the campus community and is sponsored by the Syracuse Univeraity School of Music.
Careers in the field will be digcussed by faculty members Douglas Soyarz, Cornelia Yarborough, Will Headlee,

\section*{Snowstorm causes cancellations, accidents}
cording to the National Wegenoner Service in Syracuse.

The National Weather Servico isenced n winter gtorm vrarning for todey and expected "neax blizsaxd conditions" becanie of blowing anow and cold. Tomorrow in alto to be expected binstery: and cold with temperaturea in the terms.

A docision to close the univernity becante of snow is made by Clifiord L. Winters: vice chancellor of administrative operationin, and John \(\\). Prucha, vice chancellor of acendernic affairs.

Wintert anid yenterday. "We try to avoid cloeing at all coste. At a univeruity this complax there in no way to close it all. Studenta like to eat and we have to maintain mecurity."
Around 1964 the univerwity was clowed for two days because of a 56 -inch anowfall in 48 hours, Winters asid. "nhere were anowdrifts up to my neak," he added.

He said the university would only be cloped in " "major exnergency," and then only segrnents a major exnextency, and then on

Duriag lest winter's blizzard Winters said there were a couple of days when they considered cancelling certain linds of clasese. "Ifit was ever like Buffalo lant vinter Fm fairiy sure we"d cloee," he added.
Syraeuse city police reported "numeroun fender benders including ones in the university area." They wrged motoriste involved in accidente to exchange information, but not to
report the accident to police until after the nnowetorm subaides.

City Police added that police cara are no different than other care and alno have trouble getting up hills.
Centro buses continued to operate but many were Inte because of thd weather.
Flighte at Hancock Airport were also affected by the storm. Allegheny Airlines cancelled all firchta north. Allegheny Airinios cancelled all today. An Allegheny spokeaman said flights were cancelled at \(3: 30 \mathrm{pm} . \mathrm{m}\). yenterday.

Eastern Airlines cancelled all flights yestarday but said they hopod to resume service this morning. In-bound service was operating only for military or police emergencien. Some Arnerican Airlines flighte were also cancelled.
A Greyhound apokesman said incoming buses were delayed a half hour to an hour, eapecially buses coming from the south and west. However, nothigg was cancelled and Greyhound expected to continue operating throughout the night.

Amexak was operating on a full schedule with only minor delays.

Three University College coursen were cancelled because the teachers were atranded out of towa.
New York Telephone and Niagara-Mohawk asid they had no knowledge of any problems caused becanse of the anowstorm.
A few night classes throughout the Syracume campus were cancelled.

"I used to be too uncomfortable to do much of anything when I had my menstrual period. It was like losing at least three days every month. Then, last year, I switched to tampax tarmpons. Now I'm always on the go." Making every day count is what Tampax tampons are all about. They eliminate chafing, bulk and bulges. In fact. once the tampon is properly in place, you can't even feel it's there.

And Tampax tampons are uniquely designed to conform to individual vagimal contours. Which means there's tess chance of jeakage or bypass.

With Tampax tampons you get a lot more days out of the year. And a lot more fun out of life.

\section*{Soccer team looks to future}

By Patei Orwini
SU Boccer conch Bill Goettel's prediction of "Eleven in Seventy-Seven" proved true, but not the way he meant it to be.

The team ended its season with a 3-11 record, its only victories against Siena (4-1), Hobart (2-1) and St. Bonaven: Hobart (2-1)
ture (1-0).
"The team was young," said Goettel, "and it takes a long time to get ubed to working with each other. By the end of the season they started to jell and we won against Hobart and St. Bonaventure and (a cored two goals on Hartwick (a 5-2 loss). a team that previously had had only two goals scored on them all aeason."
This year's team is history and Goettel is looking ahead to next year.

They were exposed to some atiff competition this year and 1 think they have adjusted their playing and are slightly seasoned for next year. We only lost three seniors, so mont of this year's team ahould be ready to play next year."
Goettel's plans include having all three of his MVPB back. John Springer, a forward and the offenaive MVP, was a "big asset" coming from Hud.
 College. Cocrptain Geiry College. Cocaptain George Olaen was the defensive MVP and was also re-elected co-cap John Char Gohn Chaiters) for next year. Goalie Mike Westcott was the OVerail Mable job." said Goettel, "Bince he had little playing lime last year and was not even going to be starting until the other goalie decided not to play.:
The team has already atarted preparing for the 1978 season by practicing indoors, and are looking forward to poosaibly playing in some cournaments. Also in

\section*{Syracuse serves up strong spike season}

By Dave Etaxa Considtent hitting by young starters and a staong bench paced the Syracuae Univerrity women's volleyball tesm to a \(22-8\) season record, including a Oth-place Enish in the Hersomending with Gastern Championabips at Owwego State at the end of November.
Coach Elaina Goldband's team ended the season with losses to Penn State, Cortland and Edinboro at the Eastern Championshipa They aleo

The Su volioybelt rann set up s fint bewon by larining the value of temem piay. (Ptsoto by Gten Eltentin!
lost to Central Connecticut in the conwolation finals aftar beating the Univeraity of New Hampahire and UConn
Syracnse finimhed 10 th out of the 16 teams in the tourney. Matyland won the townamem and Rhode Lsland Einimhed second.
"We are a fairly young taam," Croldhand esid. "We will have all of our starters back for mext year."
Standout maembera of the returning "kiddie corps" inclucies freshmen Eileun Smith and Karan Kincaid. sophomores Colette Johadirow and Nancy Pugh, and juniow Caralyn Smith, Andrea Robinaon and Patty Dombrownici.
Carolyn Smith, the 5 -foot-11 comaptain from New Orleana, if the moat comsistent hitter on the team, according to Goldband. "She is a good allaround player," the coach asid. "She is tongh on defense and has a good aerve. Coldband said Smith is a hoor leader who can apike the ball if ahe gets it.
Goldband asid. Robinson and Kincaid wrere adept at met ting up plays. She also said Kincard and Eilleen Smith are grod hitters. Johndrow, Pagh and Domlorowsici are all tough on defense, hitting and bloc king, the coinch said.

The team opened the teason with a win over Binghamton State and won the next five gaknes. "Of the eight louaes" Goldband said, "wo covid have won all but two of them."
Those two losepe were to Ithaca and Corthand State. Both Achools are known for their tine volleyball programa.
"In the gix years thet I have been here" Goldtand taid been here,'t heat Ith ond We haven't beat Ithaces or Cortiand State. We get beaten psychologically by their reputations.

Syracuse did finish third in the state tournament. however. They lowt to finstplace finiaher Brockport State and aecond-place \(S\) th John Figher in the mexni-finall.

Goldband Gaid the team'e greatest attribute during the

 third-place firith in the stite toummanent et Brocicport. (Photo by Glon Eliman)
season wat its bench strength. "We used our substitutes freely." ahe said.
Being a younte team. Syracuse had problerat blemding the talents of all aix people on the court. fiowewer. with every starter retarning next year, there should be less trouble creating on-court harmony among the players.
Goldband said the team already has three playere on aready has three playere on scholarship and that she will
add another next year. The add another next year. Whe been more inquiries thim year been more inquix
than ever before.

Syracuse will conduct a scholarahip wilition on Fonduct a scholarahipanditiononkeb. 4 . Several incoming players will co pitted against each other to
cor the meholarshin.

\section*{Broadcaster leads hectic life}

By Donald Zamojaki I almost joined the Army," she Baid. "because they have a very good training program in Kathleen Hessart found a job Katheen kiessart found a job in Syracuse and is now an an-chor-reporter for WTVH-TV. Hessert came to Syracuse in 1974 after receiving a job offer at the station. It was the result of mailing 100 reammes around the conntry and doing "exten ive "travel for interviews.
Hessert does not find the life of a broadicaster glamoroua.

The hours are horrendous, the pay is not good, you are on call maytime of the day or night and there ia no privacy,"

\section*{Short circuit causes death} of Irish setter
An Irish setter puppy was killed yesterday afternoon in front of Bird Library when it ttepped on the pavement over ghort-circuited wire.
Media librarian George Abbott, who is in charge of library aecwrity, maid the dog was chained to the metal rail outaide the front door when it stepped in water over the faulty wire. A Safety and Security repoxt said clectricity chen shot up through the sidewalk and hit the dog.
The coil is part of a heating oystem under the pavament which runs in front of the University Place entrance and down the bridge. The aystem melts snow by keeping the pavement wrerm.
Abbott said the current has been shut off until the reason for the thort-circuit is inves tigated. He axid the fanlty wire probably would not affect a hruman being because a perzon human being because a peeson his clothes and hin kigher reeintances to the electrical current.
A Phytical Plantelectrician, who refused to be identified, Who rernsed to be idamaned, ing had probably been worn ing had probably been wayn awhay over the yeart by sal you," he smid. But the dog' you," he said. But the doge meted an electrical circuit and electrocusad the animal when it stepped near the wire.
she said. Her husband adapted "slowly" to her hectic schedule.

My day is a little different from most broadcasters'," she said, "because of 'Dialograe." "Dialogue" is a half-hour interview show that Heasert hosts five timea a week.
Each Monday through Wednesday ghe tapea two "Dialogue" shows along with covering three nows storiea. On weeirends the anchors and produces the weokend aewachats.
Hessert aaid producing the weekend news involves deciding what storics will be aired in what order they will be presented and how long each story will last.
Interviewing is one of her many jobs at the station. "The key is to learn to listen," she said. "Very few people learn to listen and learn to liston well."

Hessert does "manion" research before the taning of research "Derore the taping of she does not come admitted she does not come prepared believes "if someone sees a set of precise queations then they of precise queations then they will feel they need a set of
On "Dialorte"
On "Dialogue," Hessert has personalities ed national personalities such as Presiden-
tial candidate Jimxy Carter Daniel Patrick Moynihan and John Cameron Swayze.
Carter was 45 minutea late for his interview, Fiesaert said. "The later it got the more nervous I became.'
She said she was nervous during the interview "because there were 25 Secret Service agents in the etudio watching every move I made."
It took her four months to overcome the knots she felt in her atomach before each "Dialogue" taping. she admitted.
One day a woman she was to interview got sick before the show. It made me realize no one should get kiat over a show," she said.
Locally, Hessert believes Murray Miron, paychology professor at Syracuse University, is an "intereating" interviewee. "He is so lively, ahe said. "Many people know their topics but are awfully dry to interview."
Hessert was granted a Bachelor of Arts degree in Bachelor of Arts degree in humanistic studies and communications from St Mary She apent tinge in college doing free-lance writing and woringg free-lance writing and worliag in the news

By Alan Fecteau
With only 24 seconde remaining in the game, Syracube University center
Mike McTigue slipped a Mike McTigue alipped a
rebound past Colgate goalie rebound past Colgate goalie
Bob Brandow, enabling the Bob Brandow, enabling the Solgatejuniorvarsity team \(5-5\) Colgatejunior varsity
Friday at Hamilton.
Friday at Hamilton.
Defenseman Ken Reiff started the crucial play with a shot from the point. after Syracuse palled its goaltencier and added an extra skater. Reiff's slapshot touched the stick of SU left-winger Dave Moser and deflected to Brandow. The Colgate goalie made the save, but the puck rebounded to MeTigue, who was positiomed at the netminder's left.
"Dave had the defenseman tied up," McTigue said. "That left me open for the shot." McTigue's acore, his third of the season. ended a long comeback for the Oranage, wh trailed by as much as \(5-1\).
Colinate defenseman Steve Orloff ecored twice as the Red Raiders built a four-goal lead after the firat period. The lone Syracuse tally in the opening stanza was by Reiff at 8:11,
With Syracuse shorthanded, Reiff stole the puck outside the SU blue line and led a three-on. two break. Both Colgate bactwo break apparently expected Reiff to pasa. But as the Orange defenseman came within 30 feet of the net at center ice, Reifflet go a hard wrist shot which broke in wrist ahot which broke in "Their defensemen backed in too cloae to the goalif, so I had the shat and took it." Reiff exthe shat
The Orange began their comeback early in the second penod as SU defenseman Bill Gruber acored at 4:27. Gruber intercepted a Colgate clearing pass at the Red Raider blue line, moved in along the boards, then suddenly cut in front of the Colgate net to place a soft backhander under Brandow's glove.
Although Syracuge dominated play in the middle period, Gruber's goai was all the Orange could muster. "We must have hit the post three or four times." aaid defenseman Jeff Harris.
But in the third period. SU's domination paid off. Peter Bliven became the third Orange defenseman to acore

It all eamo down to the Itet owent, the high bar. during Sinurdiny'e sU-Nby pymnastic mopt at
 187.65 to 178.75 Sywacuso victory. The win wast the third of the peason for the cundefented
Orangemen. (Photo by Bob Hayward)

\section*{Icemen cometh back to tie}
when he beat Brandow with a high shot to the glove side at 1:20. The power-play goal narrowed Colgate's lead to \(5-3\). Another power-play boore SUoved the Orange even closer. SU censer Vic DiMaria paseed to point man Harris, who Aipped the puck across to Gruber on the other point. Gruber closed to within 40 feet. then blasted a vicious glap shot that caught the upper corner on Brandow's glove ide.
And while Syracuse pressed a come back, SU goalie Paul Merrell kept the Red Fuaidera from acoring again. Merrell denied four breakaway chances by Colgate over the last two periods after be
replaced Syracuse starter Jobn Piatocchi.
Merrell's goal tending and SU's constant pressure set the stage for McTigue"s lastminute drama.
ICE SHAVINGS: The satisfying tie agrimst Colgate moved Syracuse's record to 20 2... Syracuse wins this year were agpinst LeMoyne (9-3) and Monroe Community College (8-7). The Orange also tied at St. John Fisher... SU played at Colgate without regulars Pete Goodman (ankle oprain) and Van Bockus enlarged spleen) Syracure's next same is at home Wedneaday againat SUNY Binghamton at 8:45 p.mp.

Syracuse gymnasts torpedo Midshipmen

\section*{Comment}

\section*{Belligerent Boeheim \\ By Joel Stanhenko}

Perhaps the biggest impression Syracuse basketball coach Jim Breheim has tried to get across to hia players and the preas covering them this season is the "team" concept.
No stars. No apecial privileges. No special press. No apecial nothing.
Yet after Saturday night's Carrier Classic victory over Michigan State them was the same Boeheim, highly belligereat because one of his "team" players had not received the Moat Valuable Player award.
More than a slight inconsistency seems to arise here.
It's not so much his treatment of the press after the title game, although his public, verbal baiting of a writer from Rochester was shameful. Worae yet was his hounding of other journalista (and non-journalists) latex.
It's more a matter of confubed prioritiea -while Boeheirn shuns the notoriety of a top-ranked team, of polle and other popular honors, he seems at the same time to covet them

The choice of Earvin vohnaon at the Carrier Classic MVF was not in the least ridiculoua, but it probably was not the beat one available to the broadcanters sud writers at courtaide who did the picking.
With equal or greater juatification, the award could have also been given to Michigan State center Jay Vincent ( 23 points againgt SU). MSU guard Robert Chapman ( 45 points in two games), LeMoyne star Jene Grey Ceading scorer in the tournainent), SU forward Marty Byrnes (18 points and eight rebounds in the final game), Orange center Roosevelt Bouie (a dominating force in the title game) or SU forward Dale Shackleford (who did a tine defensive job on MSU'e Chapman)
Statiatically, no one SU player wat really most valuable. either to Syracuse or in the four-team field. Together, however, they were good enough to beat MSU \(75-67\) and win the tournament. In the last minuteand-a-half, five Orangemen Byrnes, Bovie, Hal Cohen, Roai Kindel and Dale Shackleford - made key plays which helped decide the game in SU's favor.

It would seem the most important thing after the game was the fact that Syracuse had won, and it whe quite discouraging to Iind a Boeheim who seemed more concerned with the MVP vote.

In fact, the only good thing about what happened after Saturday's game was that nearly all of the record Manley crowd of 9,546 missed the tirade by the victoricus coach.

By Patty Orgini
The Syracuse Univeraity Gymnasticn team (3-0) came Paul Romeo's moal of 190 as hau deymated Nevy 18765 to 178.75 Saturday aftermog to Archbold Gym

3 candidates in SA presidential runoff \\ By Marahe Eppolito
}
and Tha Nexphton
A throe-candidato ranoff for Student Asacciation president and a two-candidate runoff for comptroller will be held tomorrow.
No candidate for either office rectived a majority of the votes cast in yesterday'a balloting.
Scott Klain, vice prasident of univerity/ community relations in the current SA administration, was the 20 p presidential votegetter, receiving 500 rotes ( 2552 percent).
Armie Wolelky, in his second bid for the SA presidency, recaived 425 votes (21.4 percent) and former National Student Aspociation Representative Steve Kartor received 288 votes (14.5 percent): Bill Krueger received 273
Cari Mieidman, Kantor'm running mate, Ied the comptroller field with 576 576 votes (31 percent). His rwnoff opponent will be Jobn Schocic, Klein's running mate, who received 413 yotes (22 percent). James Keeny Eivished third with 359 votes ( 19 percent).
The 1,983 voters represented an 18.2 percent turnout, a decreabe from lant year.
Dan Cohen finished fifth in the presidential contest with 247 .votes. Tom Hoffman received 168 voter and Bill Rita 76. About 87 write-in votas were cast for Howard the Ducle. Ron Were cast for Howard the Duck. fon Comptratyller, while Jon Groas rectived

\section*{Klein}
209. A partial vote count before ballota from Bird Library showed Wolsky and Klein ranning close. Kantor and Krueger were running third and fourth at that point.
"I expected it would be very close between three candidatea," Klein aaid last night. "Y expected to get 500 votes and that's just about what I got." Klein said there would be no mazjor changes in his approach to the ranoff.

Wolsky
Woisicy aaid his ahowing in the elections "proved you could be idealistic." He predicted no change in his runoff election strategy.
Wolsky said he hoped the other two candidates would become more specific in their proposals before the runoff.
Wolsky anid be had received a call from Tom Hoffman, who finished sixth in the race, pledging his support. "I am not talking any endorsemente,"

\section*{UU Council approves election}

\section*{By Maxy Vogt}

The University Union Council approved a series of motiona. Thursday which would aignificantly alter the UU election procass if given Student Afsociation Asaembly approval.

Motions were unanimously approved to:
establish a search/screen committee to choose UU chsirpersons.
terminate camposwide elections for these positions.
- eliminate a candidacy requiremont of ome semester on a UU programming board.

A- lacli of student interest which caused cancellation of UU'a scheduled

Dec. 6 election for internal and external chairpersons prompted of re-examination of ehe selection process, said Lynne B. Millheiser, internal chairperson.
Only one petition for candidacy was nubmitted to UU by the Nov. 18 deadline.
The joint committee of UU, Student Absociation and Graduate Student Organization mernbers would interview and select the chairpersons, who would take office in March. This would be consistent with the appointment of the UU treasurer, who is selected this way.
In addition to the four voting
members of the committee there would be two non-voting members from UU who would provide additional input into the selection decisions.
The motion to elimingte the candidacy requirement would allow students to be eligible for the paaitions regardless of previous experience with UU, Millheiser said.

The move, according to Millheiser, is to use a more effective method for selecting the beat qualified persons for the poeitions.
This would be better accomplished, Millheiser aid, if political cannprigning was eliminated from the process.

\section*{Kantor}

Wolsky said, but added that he appreciated the support of any student. Kantor said he felt his candiatacy was handicapped a bit by the snow. He waid ha would "go out and reach the people before the runoff. Kantor said he telt he had an "excellent chance" of winaing the election.
Kantor's ranning mate, Karl Kleidman, was top vote-getter in the election Contimued on prege two

Stable SU enrollment predicted despite expected national drop
}

\section*{reforms}
"We"re not primarily a political organization like SA." she said. "The fact is that we are a service organization and our main focus is on student programming.'
As a result of election eliminations, the terms and stipends of the incumbent internal and externat chairpersons have been extended until March when the new appointees will take office.
The extension is necespary for applicntions to circulate and be reviewed adequately, Millheiser aaid.
Six to eight persons have expressed interest in UU positions since the intereat in motion to open candidacy to all motion to open candidacy to all
students was passed, Millheiser said.

\section*{By Greg Reilly}

Thomas Cummings, director of admiasions, said he does not expect enrollment at Syracume Univeraity to drop despite a Health, Education and Welfare report that projects a mationwide decline
1980s.

The projected decline is expected to follow a nationwide decline in elementary and high school enrollments, according to the September 1977 HEW report.
Cumminge agreed with the projections, but said. "A decline in our enrollunent in not projected at this time. We do not foresee plosa in the future.
"No other privete institution can duplicate the strength and varioty of academics or the career relatednese" of the programs offered within the university's 11 achoole for frewhmen including the 200 various opportunities for majors, he said.
SU has approximately 10,000 undertraduatoe, acowrding to Cumbninga, and recently has been able to be "alightly more belective" about accopting studentis because of the large nomber of applications received.

If the applicant pool were to "ury ap," a greater perctantare of applicenifferould be
accepted to keep SU in good rumning order Cummings said.
In order to gather the deaired number of students for future years, "SU will have to agresaively go out and show others (outside the university) the learning and living op portunities offered here."

Cummings aaid that this did not necesarrily mean that SU would have to accept leas qualified students. He said the application pool may improve. "It"e one of those thinge. There aren't any yes or no answers." Cummings said.
The admismions director recognizes the poegible problems that could reoult from a decrease in SU's envollment. To' avoid problems anch as financial metbacice atthenniversity, Cummings aaid; "Mare than our fair share of the atrodont marice will have to come aur way (during the years with a amaller school-age population)."
The continuaus decrease in the number of children 5 to 13 yeare of ave in reflected in the drop from 33.8 million to 33.3 million etrudente in elexnentery echools. This dectine, which is in elementiny echools. Invis chechine, which is characteristic of tha 1970 s, is just beginving to affect high school emrollment, which periced in 1976. This yearis decrease wat projected to fower enrowment in 15.8 million.

\section*{Kleidman}

\section*{Elections go smoothly; run-off set \\ The Student Anwociation election for president and}
comptroller went smoothly this year despite the large number of candidaten

Amazingly, there weren"t any problems," and Fick Jackoon, vice president for adminintrative operations. There were no complaintit of vote fravd and only minor campaign charges, fuch as candidatea complaining that ofher candidates were tak ing down their posters, he asid.

Bill Krueger missed poaition in the ranoff by lest than 1 percent. According to Jackson, ofter learning that Stewart Hinman, election commimsioner, and Jackson were one hundred percent alre of the vote eally, Krueger did not requept a recount.
Jackson said last night that Arnie Wolaky was the only runoff candidate who had not submitted receipta for campaign materiais. All other funoff candidates had turned in receipts and were *well under the (\$100) limit," Jackeon paid.
He added that he will wait and see if any official ac tion will be taken agsinst Woimky. "It's not that im portant and it is very difficult to ges receipts," Jackson said.

He added that candidates in the runoff must atill stav within the \(\$ 100\) limit.
The 1,983 voter turnout was "below average," accordiny to \(J\)-okson. He taid the bad weather probably
cont 400 voies. Last year there wad a turnout of 2,400 and 2,500 the year before that.
"I can't see getting more than 3,000 votes" at an election. Jackeon said. He added that he did not feel the lack of Univeraity Union candidatea and a mis printed ad in The Daily Orange and Report had any ffect on the refulta.
SA will not eponsor a forum before the ranofiz Jackson said, because "we've spent enough time and as much money as we could afford . . . for this andection.
"1 just don't know why people don"t vote," Jackaon said. He suggested however, that a poor voter twrnout in the past few years could be the result of stadent Contentment and the lack of a major issue such as Vietram.

The runoff will be held tomorrow at the aame polling places. with a few rainor exceptions. Polling places open from 9 a.m. to 5 p.m. are: Archbold Gym (in front of theticket windows), Crouse College. HBC. Hall of Languagea, Link Hall, Marahall Hall, Maxwell. Newhowse I, Phywice Buildina and Slocum.
Bird Library will be open from 12 to 9 p.m. and the SA building, 821 University Ave., will be open from 9 B.m. to 9 p.m. Undergraduatee may only vote with a validated ID.

\section*{Schoch}

\section*{Duck gets mandate}

The frivoloue - but fowl - presidential campaign for Howard the Duck, an effort by eeversa students to bhow that Stradent Asmociation in for the birda, ended last night in a murprisingly large share of the vote.

Though the SA. Election Comminaion refured to release Howard's vote tally, widespread eatimates showed thet Howard, with 87 votes, had edged out Bill Fíta, who received 76 votes.
"You can't help but be a Little disappointed." remariked Fita.

Before the polls closed. Steve Titch of the "all night party," Howard'a political affiliates, said he was "hoping to humiliate at least one candidate"' He added that his party had "in unified block of silly people."

Titch said the turnout for the ducin demonstrated that "people are beginning to think that SA'a p joke."

However, the election commiesion did not get the joke.
"We will not release figures for Hownerd the Duck." said election commisarioner Stewart Hinman. "He's not a fall-time student. We had him checked out We's been wnfeathered.

\section*{The minimum wage-}
"It's a matter of choice. The university does not have money to throw away."

That's the rationale offered by Eric Lawson, chairperson of the University Senate Budget Committee, for SU's decision not to pay the minimum wage to work-atudy student employes when it increases to \(\$ 2.65\) an howr Jan. 1. Laweon contends SU has the money to pay the minimum but just won't do it. We consider it an inault to the
students of Syracuse University that paying them a few more cents an hour for the work they do (which, incidentally, keeps the university running) could be considered money "tharown away."
Other universitien, more mindful of the value of the student labor they use, do not consider such an incraase wasteful. Cornell University, Brown University, Boston University and a namber of other private universitien have already

\section*{The Daily Orange}

agreed to grant the raise. Apparently they recognize, as SU does not, what Rich Margolive calls "the moral obligation to pay the minimum wage."
Margolius, SA vice president for student programas, will introduce information at the Dec. 14 University Senate meeting on minimum wage at other schools in aupport of a senate resolution calling on SU to grant the increase Jan. 1. We wholeheartedly - support the resolution and urge the semate to pass it with a voice strong enough to convince the tuiversity administration that the campus commonity etends in favor of paying manity stands in f
Increasing the wage in the mid. dle of the buiget year may well strain the university's fiscal sitnation somewhat; but the expense of \(\$ 250,000\), represents only one-quarter of one percent of the university budget. Lawson's university budget. Lawson's comments tend to contirm the suspicion that the university is not 80
unable to meet the cost as it purports to be.
To pay substandard wages to studenta whose work keeps the university going is cruel and un fair. Studente depend on their
work-atudy fobs for income to atay in school. Diann Straus, director of SU Bookstores, which employs a laxge number of work-study employes, said last month, "I can't see anyone subsisting on a subminimum wage."
The Student Association presidential campaign has elicited several suggestions on how to deal with the problem, perhaps wellintentioned. but nonetheless impractical. An arganized student practical. An organizec siudent demonstrataon won't work because possible. A work-atudy strike ia equally unworkable. Student employes are not organized, and most are too dependent upon their jobs to pay bills to enable them to refuge to work.
We support the senate resolution as the most workable means of persuading SU to see the consequences of its refural to pay minimum wage to atudent employes. No matter how they are legally classified, those employeea are workers, like any others. They denerve a fair deal.

\section*{Ex-president of NOW speaks on Equal Rights Amendment \\ front of the White House veram}

By-miany Cid
The thuree wordis thet Karen DeCrow Liven by are "Bamal Right; Arnendment"
DeCrow, formar prasident of the National Organization for Women, Epolke to Neil Kats": public affairs clase about the feminist movernent in melition to non-violent tudies. The former president ifs a graduate of the Syracure Univexsity Law Sehool. She is one of the connding mothers of NOW. and has been president of that organization for three years. Her tern ended in May and gince then she has worked for paterage of the Equal Rightr Amendirrent.
The ERA was first Angrested in Congress in 1920 , socn after women's suffrege was ratified. DeCrow stressed the point that becrow biressed the pọn hanal nights for women. Studies have mhowin that most women still shown anat most women their hushands do. vote as their husbands do.
NOW was fret organized in 1966. In 1968, at the National 1966. In 1968, at the National
NOW convention. the NOW convention, the Organization voted to mate ERA a

DeCrow diacuased the tactics used by her organization. Lobbying was important to create mupport and infinence the legislatore. Education was an important atep, becanase it made the public aware what the ERA would and would not do. "For years we handed ont parnohiets." DeCrow said
A favorite DeCrow tactic is pickecing. She descibed a time members of NOW picketed in
ing prons and carrying tiren that said wWe want ticints, not Toul"
The ERA hin boen pataed by bothithe Houserand Senate and now mutat be ratified by threequarters of the atate legininturen.
Cocteting it throwgh Congreas was exdy compared to cetting it through the states," DeCrow said. To date, the ERAA has been approved by 35 of the 50 states. "We got the civilized statea,* DeCrow said. now we need the other fifteen." DeCrow pointed out that of thege 15 stater, 12 have never ratified women's gnffrate. Most of thece etstan did not ret pase the amendmient thet tere residente of the Dis trict of Colvonbia the right to vict of Celand lections Mont vote in Lederal elections. Most of tified thes am ratised who amendment which gives eighteen-year-olds , the right to wote.

Adding a philoaphical Havor to her lacture, DeCrow said, "In this world you don't get freedom or juntice by aitting around knowing that you are zight." Supporters of the EFA have had to work inside the political syratem to get to the people who infirencs the legialstors, the eaid.

According to DeCrow, the two major obetaclea blocking pasaage of the ERA are of a political and economic nature. Polls since the beginning of the 1970 have whown that the majority of people support the ERA, but pastarge would mean an economic loss. DeCrow
nited inmurance companies that would he forced to pay grastur benifitis to wornen.
The latest tactic employed by NOW is an ecoinomic boycott Letst March, the organization decided to encovrage companies not to hold conventions in any state that has not ratified the amendment.
As a result, DeCrow maid, Chicago has reported a loss of \(\$ 50\) million in convention businest this year alone. Florida estimates that they, too, are loming millions of dollars. New Orleans has called a special aesaion of its legislature to ratify, becanse the city cannot withetand the acomomic loas. DeCrow hopes thes are good signs thich point to the pasenge of the point to the parasge of the
But she cautiong that passage of the BTRA will not solve all the problems.

Indeed, those of us who understand the position of women in our culture understand that the ERA will not aive us equal status, but equal rights under the law, an important step townard ous goal."

In closing, DeCrow em phasixed she believes the goal of the feminiat movement so ar beyond the ERA. DeCrow continues to devota herself to \(n\) novement which ahe feals will etter the life of every woman. Next week she will go to Ohio for more appearances and debates. So Karen DeCrow marches on.

\title{
People seek peace of mind through guru
}

His smile first ny Suman Heath athention to hian visage. It is an unuial smile, pertapes even alarming. But the lip cuil nesmaringly on thair olive compleriors background and up to the remarved yet sparking eyes, all framed by atrajght, coarse, just-above-the
ghoulder-length black hair. The emile belonge to ghoulder-length b
Guru Manaraj It.
Guru Maharail ti. The Guru, an he is called, is a 19 yearold Indian
who first toured the United Staten in 1971 . Ep said he would briag peace to the world in his lifetime. Maharaj Ji became the Divine Light Leader in 1966 when be was 8 years old.
Once the attraction to the Guru's picture has subsided, the eyes' concentration is diverted by apontaneons hand movernemts which articulate an ex. perience. The hands are attached to their brownpaired female orator, who from afar might be mis; taken for an ancient stome-carred Buddhafigure. But the energy this figare creates liquifies the wtone image.
Although her every word may not be audible, as her hands parallal the tloor, the tone of her voice aounde sincere. The chair which she occupies is not a per-
manent seat; anyone may occupy her place. Someth. ing aurgen through the noom er ohe spealis to her dazed listeners.
One has juat experienced eataung. "company of truth." which is sharing of experience of the knowledge of person. One receive knowledge through concentration. The life force its the knowledge of knowing who you are, what life is and what its purpase ia. Co receive this knowledge a person must be sincere and dedicated to see ingide the ight force. A person broadens his inner knowleage wing caily meaitation, which directs meditation, sataung, the process of

The four steps of meditation include seeing energy or "interanl light", hearing onergy or "celeetial harmony," tasting nectar, "liviag water," and experiencing that which eustains life, "holy name." The last two forms of meditation may be practiced at any time of the day.
Albie Hurst, a fifth-year SU student, experienced knowledge \(21 / 2\) years ago. "The purpose of meditation," he said, is to calm our minds from rac-

ing . . . to create peace and claxity. Some people today are concerned with material goals. They have fonnd are concerned with matexia goans. Mhey have todnd that peace of mind it in achieving their
does not mean that they are eatinfied.*
"One achieves his toal and finde another," Harst said. "The mind wants to be gatiafied. The mind is said. "The mind wants to be matiafied. The mind is their mastar. The astiafaction of the mind lacks something because it is not a consiatent fulfilment," he said. Hurst's own goal in life is to achieve peace of mind. Our world is tailored for the individual, and to achieve meaningful peace and satisfaction the seelser mugt bring himself to a state of enlightenment, he baid.
According to Hurst, the individual must develop his own goals and concept of reatity. We have this energy source growing within ourselves and we mast feel it in order to gurvive peacefully.
"Goals are in three realme," he said, "physical, material and spixitual.
"There is a force within you that keeps you alive; it is the very thing that sustains life," he said. "The life force is like a river, it fiows; if you know yourself and it is grace, you can feel the flow," he said. Hurst
belives true experience in the abernce of mind and an one experimens the flow of grnce, ome obtann pescs. This eccperionce has changed Hurwte attitudg om see the knowledge of Gurn Maharaj \(3 \boldsymbol{j}\). Ihmveleanmed to experience peace," he said.
"Man lives to avoid death, why doenn't he try to exkperience life?" Hurrst attributee the former mode of thinking to the individual' confrontation with the mind.
Another follower of Guxu Maharaj Ji is Marie Robinson, who lives in the Divine Ifght Misaion Center, 123 Clark St The Diwine Light Meditation Society, a non-profit organization, fas etabliahed on the SU campus, although not oficinlly, in 1972 . It was re-formed in 1975 and regiaterred as a campris group, which gave it accese to rooms and facilities. Robiason described her experience am an entperience of Gury Maharaj Ji "For me, Gura Maberan Ji is... it's hard to aay, Yousee, it's likethis. I was in a eituation whem I received knowledre five yeare ago." She said ahe Etopped receiving fonowledge for a trips of the mind and \(i\) was experiencing a lot of pain. It wask't real," the said.

Fobintion'w, misnion in life is to be a servant of God. She said this mission of loveis a simple one. If ehedini not practice this knowledge it would be a wante of hew not practice this. "There is a need to practice this knowledge," she believes. There is a purpose for human life," she aaid. "There's something more to do on this planet Earth; life is onily beantiful when you know what your purpose is."
The Guru impresses Hilly Zeitlin, a former sur student "His apiritanal power is not bound by people"a student. "His apinital power in not bound by people a
power and tradition. Zeitlin belives there is a lot of power and tradition. Zaitlin belives there is a lot of difference between manacendeatal meditation and
the divine light. "Easentially, what Guru Maharaj the divine light. Espentiany, what Guru Man reveals is your life. It"a not a practice, he aaid. Gura Maharaj Ji.

The talphone number for the Divine Light Center is 4723400. A fim of Guru Maharaj Ji will be thown Dec- 16at 7:30p.m. in Watson Theatre. It is tree and open to the public.

## New financial aid forms to be introduced this year

A new application form for tnancial aid will be introduced this year which will allow students to apply for federal and university aid with one application form.

The Financial Aid For replaces the Parents Conficiential Siatement and constitutes the application form for students wishing to file for a Basic Grant from the federal government or for university acholarshipa, National Direct Student Laane, college froxim-atudy aid. supplemental educational opportumity granta and federal
narsing *acholarghipe and loana through Syracuse Univergity.

Students can complete item 83 in the FAF to apply for a basic grant without cost. If they aeek any other form of financial anaiatance they must list $5 U$ code 2823 in item 81 on the FAF' form. Thereis a fee for spplying for crants and loum appiying for ge Regic $G$ inat
The new form will be available in SU's financial Aid Office after Dec. 5, according to Axthur e. Frity, director of financial aid. It must be filed no later than Jan. 31 but
nhould not be Eiled before tan. 1 if the student is seeking a Basic Grant

The new form will not delay aid notifications for most atudents, acconcing to Fritzs most will still be notified of financial aid decisions byJune 15. Some entering studenta will be notified later than unaal, he said.

Graduate students should continue to file the Graduate and Professional Student Fimancial Aid Statement with the Educational Temting Service no later than Jan. 31. Because graduate etudenta are
ineligible for Aasie Grants, they can apply prior to Jan. 1 .

According to Fritr, the latest odition of SU's fingincial aid brochure will be available when scudents come to the When students come to the basement of the Women's Building, 820 Comstock Ave., to piek up aid application forms. Staff members accept invitations to discuss financial aid opportanities and procedures before groups of students; any group interested in arranging such a seabion ghould call Fritz's office at 4234835.

All students who file the FAF as a Basic Grant application will receive a Student plication will receive a Student Eligibility Report from the
BEOG program; those using it BEOG program; those using it
to apply for other form of aid to apply for other form of aid
will receive an will receive an College Scholarship Service. Summer aid application forms will also be available, starting the week of Jan. 16 . According to Fritz, summer aid availability will depend upon availability of National Direct Student Loan or workstady funds after regular academic year needs have been met.

## New music industry courses focus on field's business side

## By marlin Enllivan

New miternatives in the Eield of mosic are beimg explored through muricindustry courseas at Syracuse University. Theae classers, oftered by the College of Viranal and Performine Axtia, present an education in mnusic with senfitivity to the busineses aspects of the field.
Music indugtry courses prepare students for a variety of alternatives in a muaic career, including work for record companies, performing agencies and rotailing and merchandising firms.

The comarea are a practical approach to music education. As Steven Mancone, director of the jazz workshop at SU and an instrumental figure in establishing the program, pointed out, It teaches more than the classics.?
Previously, students with a degree in muric had two altermatives. If they were talented enough they could join a symphony orchestra or, if they were so inclined, they could to mito music education. For the many who fanto were faced with the problem of having an ex cellent backoround in mueic and nothing to do cellent background in music and nothing to do

The music industry programis trying to solve that problem. Though it is atill in an early elake of development, raanlts no far have been promising. Eventually, it will be possible for a student to receive a degrea with a major in music induetry. Another possibility is to assernle a selected studies program with courses in
 management.
Mhe industry is inta dollars and ownts," said Marcone. "It has become product oriented."
Conseqnently, developing a propram mlong hewe lines is a lagical procedme. The municindustry program offers a well-rominded education, earphasizing both the cruative and business sides of the indugtry, Classes currently offered are "Media and the Matic Indantry," taught by local masic eritic Mrike Greanetein: "Law and Ethics in the Mxsic Indantry," an industry survey course; and a meminar clars discussing the current state of the mugic indintry. A clasa reflective of the propravy is the "Pablic Relations in the Mrosic Induthe Warkahop," being taurit by Greensitein. The corarae is deaigned to familiarive the stadent with the etructure, techniques and importance of publicity and promotion in the mueic in duetry. The class also axrvers the yarious media that the industry mukt deal with in it daily operations

The courae was not liated in the fall schedule of classes, so, appropriately, a clask which dealt in promotion had to have studentiesiga up. The promotion campaign was a tuccess, bis over 20 students registered.
Syracase in not the only univerrity involved in a mugic industry program. Denver Univer sity, Temple University and UCLA are all getting ap ainilar programa, There are plans for universities interested in the program to meet in January.

## SU students question Cronkite

Walter Cronlite, CBS Evening News anchorman, said his televised telephone interview With President Sadat of Egypt and Prime minister Begin of Lirael "may have speeded up" Sadat's trip to Iarael. However, the television networks cannot take credit for the trip because Egypt and Israel were headed in that direction anyway." aaid Cronkite.

Cronkite's observations on television newn vere the main topics in a telephone interview yesterday with Newhouge professor C. Marahall Matlocr's "Coramumications in Society" clase.

Congressonal meetings ahould be televised Cronlite asid, becaube it would inform Americans of the workings of Congress and would keep the congressmen from falling asleep."
Cronkite will be awarded a medal by the S.I Newhouge School of Public Commanications for distinguished gervice to journalism at Syracuse University's Labin House in New York City tomorrow.

When congratulated by Matlock, Croakite replied, "I don't know if In deserve it, but I'L certainly be there to accept it.

## 4 schools and colleges offer spring course preregistration

By Felicie Eivintere Pro-regietration for the apring sememter ie now underway in Sure schools and collegres.
Students enrolled in the Colloge of Arts and Sciences and the schools of architecture. public communications and social work may now zeristar for corurses.
In order to pro-reginter for a courme, students must see their advisers and pick ap DOS cards, just ate they would during the normal registration perriod.
For example, the School of Architecture requires that students meet with their advisers, pick up a DOS card and return it to the main office, ac cording to Kuth Varnum. who works in the architecture of fice. Studenta pro-register in the office, the said.
Pre-registration in the School of Architecture started Nov. 28 and will continue until Dec. 9, Vamum said.
The School of Social Work's pre-registration period will extend to the last day of classes. Dec. 16, according to Velerie Gresty, बecretary. Gresty maid. to initiste the pre-registration process int findents shonid call process, azudents shouid cail with their advisers.
Students wishing to preogister for public, communications courges should do so this week. The latot day of pre-registration is Friday. Dec. 9

Studeats who want to proregister for courses offered in the College of Arts and Sciences should check each
deprartruent within the school to mee if pre-regiatration is offered, according to the Arte. and Sciances Dean's Office.
The School of Managerment held pre-registration latst woalk according to Marvia Kirkwood, recteptionist Last week's pre-registration was open to management mitudents, studente who are dually en rolled in the school or students who munt traks courses to fulifil requirements, she said.

But, Kirkwood added management courses will be oper to all etudente during the regular registration period, Jan. 16 and 17.
Schools not having formal pre-registration to reserve a space in clasaes for the mpring still urge atudents to sed thei advisers before the end of the fall semerter.

Studente will have to soe their adyisar before they 80 home for Christmas to schedule their classes for the spring seraester." acconding to Carol Connelly, assistant to the chairperson of undergradoate program in the School of Nuraing. She gaid that "advising gtarted arat week and will continue un til Dec. 16. "Sec. 16
ack inta must pick up thei packets in the School of Nux ring on Jan. 16," Connelly Acco
According to College of Engineering secretary Marie Sarnow, pre-registration is no necessary because there is not an overwhelning demand of atudente wanting to get into engineering courses.

"Gtadents axe meetimg with their advimera this wools, but there is no formal proregietration as far an reperving a place in clasere" Sarnow sitid.
Pirizo Turtiki, assigtant dean in the College of Ifuman Developpuent, said proregis traEion. is impractical for students anrolled in that school.
"We need to do it (pre register) quite a few yeare ago," she said. "The finct is that so many of our program have recuired courses from other departmente, we don't Lnow ... whether (etadents) can get into other courses (out side of the College of Human Developraent)." Turkki aaíd.
We might have to recon sidex it (pre-negistration) in terms of the university not having a universal regis tration" for courses the preced ing semesterf the adided.

Regular regitstration for the spring gemester will take place Monday and Treaday Jan 16 and 17, in Archbold Gym. A packet is required for entrance packet is required ior entrance check with the foring sementer check whin hoopring oumentex and/or their college ciases and/or their college ofince to determine where to pick up they are acheduled to enter the they are scheduled to enter the gym.

# Back to business for SU 

## By Clenn Fiehlet

With the controveray of who should and shouldn't have won the Carrier Clansic most valuable player award etill simmering, the Syracue Player Award anill mammering, the concentrate on playing baikethan again mitarconcentrate on playing batik
Syracuse head coach Jim Boeheim says he never intended to make the MVP award apablic isaue.
"I made some comments which I thought were in private and then they were written upin the Syracuse presa," Boeheim said. "I had to ntick up for my players after that."?

Boeheim said as fax as the players were concerned, theissue is closed as they prepare for the gawo against Colgate. "The players care more about winning games than winning awarda, and our main objective now is to beat Colgate," be added.

The Red Raiders of Colgate ( $0-4$ ) are far from being a powerhouse, but tonight is their first home tarne and they are ready for nationallyranked Syracume.

Colgate head coach Mike Griffin recognizes Syracuse's superiority, but he said, "I have a responsibility to schedule this type of competition. I'm glad to play a team that is better than us because not only do we atand a chance to win, but the improvement that comes from the competition is immeasurable."

The Red Raidera' top two players of Last year, Chris Fagan and Ben Carter, have graduated and this year's team is built around returning forwand) and Rob Hamilton ( 6 -foot-4 forward) both seniors, and 5 -foot-11 junior guard Dave.

Hargett. Hargett is the sparikplng of the Raider ofranse and is an excellent ball-handier
Griftin is counting on players likt mophomore forward Fred Hoindell and meniar Bob Eatey to fil the other front-court apot.
The remaining backeourt epot opposite Hargett will goto either sophomose grands Tom Collishaw or Boh Finmmel or junior guard Kevin Faley, Grifinn said.
Griffin said this year's Colgate team is "characterized by the lack of the big-play man which is the biggeet problem we will face thif year. We are certainly atronger phyaically and able to ghoot better.
Overall, Griffin feels he has a solid nuelens in Schreiber, Hamilton and Hargett, and feell the younger players will improve as the senson goes on.
Boeheim is not taking Colgate lightly either. They haven't won a game yet," he said, "and they haven't played at home either. We have to be mentally ready to play because they will be fixed np."
The biggeat problern facing the Orangemen is the chance they won't be "up" for the Colgate garne following a tough victory over Michigan State last Saturday. With a stroag St. Bonavanture team coming to Manley Sathirday night, Syracase could be looking past Colgate.
Boeheim explained that "there is always a chance of a letaown. What people have to reatize is that we are playing five games in seven days and sometimes it's tough to come back so soun after a tough game like the one against Michigan State-"
However, the Michigan State same aside Syracuse's toughest opponents tonight could be thernselves.

## SU women fast off the mark

By Katie Fritz
The Syracuse University women's swim team got its season off to an auspicious start last Thursday, defeating a strong St. Lawrence squad 68-61 in an away meet The Orangewomen beat the Larries in nine of 15 events.
Coach Lou Waker was pleased with his team's efforts, which included four new university records. "Except for Colgate and Manhattanville St. Lawrence is probably the toughest team we will swim this year," the second-year coach said.
All four new records were set by Walker's freshmen apeedsters, Liz Vilbert and Patsy Klotz. Vilbert was a double winner, with a time of 28.8 in the 50 -yard backstroke and a 1:01.8 mark in the 100 yard backstroke. Klotz won the 100-yard freestyle with a time
of 55.2 , and finished necond in the 50 -yard freestyle with a new team mark of $\mathbf{2 6 . 0}$.
Sophomore co-captain Robin Butler was a triple 200 and 500 yard freatele events and the 100 -yard butter even.
Junior Wendy Evans was also a double winner, capturing the 50 and 100 -yard breast stroke events.

Syracuse's other win was in the 200-yard medley relay with the ream of Vilbert, Evans, Ellie Boluch and Klotz.
"It was an exciting meet," Walker said. "It felt good to start off our season with a win over that strong a team."
Closing out the 1977 calendar, the women will travel to Oswego this Friday for what Walker predicts as a second road vietory.

## SPORTSHORTS

Tonight at 8 in Archbold Gym'a Intramural Office there will be a meeting for all persons interested in officiating intramural bagketball this geason. Attendance is mandatory. For more information call Craig at 423-2116.

The Syracuse University Hockey Club will be in action again tomight when they host Binghamaton beginning at $8: 45$ in the New York State Fairgrounds Colosseum.

Two SU women's aports teams will travel to Oswago Friday to meet Oswego State. The women's awimming and diving team will compete beginning at 7 p.m. as will the women's baskethall team against Oswego State.

The SU wrestling team, which is in action tonight, will also have a match Saturday at Maniey Field House as it meeta Clarion State beginning at $1: 30$ p.m.

Before Saturday's St. Bonaventure-Syracuse basketball game at Manley, thenewly-formed SU Ping-Pong Club will perform an exhibition beginning at 7 p.m.
The Syracuse man's awim team will be in action this woekend in the New York City area as they meet St. John's Univernity on Friday and Fordham Univereity Saturday.

In the latest college baaketball polle the Syracuse Orangemen are rated quite differently. In the UPI poll SU is now 10 th, hav ing moved ub two places with its 3-1 woelt In the AP poll (in which Syracuas was also rated 12 th Last wreek) the Orangemen dropped six places to $18 t h$.

Following vacation, the Orangewomen will participate in a double dual meet with Manhattanville and Colgate the two teams Walker characterized sus Syracuge's toughest competition this season. The scoring will consist of separate tallies for Syracuse-Colgate, SyracuseManhattanville and Manhat-tanville-Colgate.

Syracuse's home opener is scheduled for Jan. 24, when the waterwomen will take on William Smith College at 7 p.m. in the Orange Pool.

SALTWATER SPLASHES: The women's fundraieing marathonewina at the end of November had a goal of swimming 50 mile in 24 hours, but Walker's team finished the distance in 22 hourn.

By Julie Mayne
As an honorary salumnus of Syracuae (Univeraity) I recognize the team is getting better but the stadium is getting worse."

Gov. Hugh Carey made the atatement at Hancock International Airport Wednegday afternoon. Greeted at the airport by city and county officials in swirling winds and snow, Carey claimed he had always "gotten good advice" from the people of Syracuse.
Possible economic development funds for a proposed county stadium would have been part of the governor's bond issue which was defeated in the November general elections.
Carey arrived in Syracuse for a "civic forum" at the Everson Museum.

Carey said he was pleased the voters of New York adopted the court reform package. He plan: to keep crime an active isaue in the upeoming gubernatorial election. "We need a systern of criminal justice worthy of the state...then maybe there will be less calk of execution."
Carey has been an opponent of capital punishment, and has repeatedly vowed to veto any legislation mandeting capital punishment in New York atate.
The Syracuse "civic forum" ia one of geveral Carey has planned throughout the state.
He claimed they are not campaign efforts, but designed to hear recornmendations from cities as "we move to a new state in New York state." Carey also held a civic formm in Binghamton Wednesday morning.

## SA

## conducts runoff

The run-off elections for Student Association president and comptroller will be held today. Ecott Klein, Arnie Wolaky and Steve Kantor are the remaining presidential candidates. Cari Mresidentiand John Schoch are the comptroller candidatem.

Polling places open from 9 a.m. to 5 p.m. are: Arckbold Gym (in front of the ticket winGyms), Crouse College, HBC, dows), Crouse Colsege, Has, Hall of Languages, Link Hall; Marahal Hall, Maxwen, and Slocum.

Bird Library will bio open from 12 to 9 p.m. and the SA building, B21 University Ave., will be open from 9 a.m. to. 9 p.m. Undorgraduates only may vote with a validated $I D$.

# Group urges SU faculty not to fill out form 

By Maura Methianey
The Syracuse University brameh of the American Association of Univeraity Professors is urging SU professors not to fill out a "Faculty Responsibility and Activity Form" being dintributed this

The form, ac
The form, according to En-glish-Profesaor Johm D. Dieh1, president of the SU chapter of the AAUP, asks faculty membors toiageount for the amount of time "to the half hour" they spend on university duties; including grading papers, prepar-
versity needs. The forms originated last spring, and are handed out each semester, as a part of the faculty load reports, according to Johm J. Prucha, vice chancellor for academic afrairs.
In May, the SU chapter of the AAUP passed a resolution stat ing the form was "repugnant to the spirit of academic professionalism."
The resolution stated that the AAUP opposed the form because it assumes that faculty members are employees who can and must account for their time by clock hours."

Diehl said the form included a question asking for the amount of time a faculty member apenis participating in community acpivities such as Little League tivities such as little League and church groups. I think the idea of auch a strict accounting
of time for professional people is of ime for pros
Last summer AAUP mem-bers-spoke to the chancellar concerning the forms and the said he did not know ahything about it," Diehl said.
Prucha said the question concerning community activities is "not pertinent." However, the
we'll collect suggestions for mproving" the forms, he said. Prucha said the second edibe revised by spring 1978 .

A number of us didn't fill it out last spring." Diehl arid, noting that some faculty members invented figures totalling over 168 hours a week while some department heads filled out the forms for members of their staff.

Diehl also noted that, on the forms, some professors stated they spent 20 hours a week filling our forms.

Prucha said he thought tho forms were answered in a "professional manner" and an "honest way," and adding that he was "quite eatiafied" with the responies.

Prucha said the forms were nut designed to compare "Professor A with Professor $\mathbf{B}$, " but rather to be a "more fair representation of the range of con the university

Another objection ${ }^{-1 n}$ the AAUP resolution stated that "no input was sought from the faculty on the advisability of facuplementing this form," and that "large amounts of personal that are being collected, far in
data arnoter data are being collected, far in excess of that which would seem
appropriate for academic plar:ning.

Diehl said he would contact new faculty members and urge them not to fill out the forms as well.

## SU may decide on Sa/tine Warrior by next week

By Brian O'Neill
A decision on the Saltine Warrior's appropriateneas as Syracuse University's symbol could be made as early as next week, according to Melvin C.
Mounts, vice president for student affairs.
Mounts said no single individusl would make the decision, but he said it would probably come out of either his or the chancellor's office.
Chancellor Melvin A. Eggers could not be reached for comment.

Robert Hill, special assistant to the chancellor for affirmative action, will meet with Eggers on Fridsy to discuss the issue. Mounts will talk with both Eggers and Hill before the decieion is ade.
Both Hill and Mounts expect to make their recommendations to the chancellor by next week.
A question like this has never come up before, according to Hill, and the univergity is atill trying to identify the appropiate decision-making process.
There are three options, according to Mounts: the Warrior stays as it is; the Warrior stays but is portrayed in a more
dignified manaer; the warrior is discondignified manner;
Mounts met Tuesday with three members of ONKWEHONWE NEHA, the native American student organization seeking to discontinue the Warrior's use, and two members of Lambda Chi Alpha, the fraternity whose members have been portraying the Saltine Warrior at foot1950s.

All participants in the informal meeting said they now have a better understanding of the concerns of the rival

The Saltine Warrior has come under atteck recentiv. Native American student say it it a racist symbol that degradees their innage. The maseot's defenders say it aymbolizes and helps unify the univergity.
groups. However, while Lambda Chi Alpha is hoping for a compromise, ONKWEHONWENEHA stands by its original position that any. use of the native American as a mascot is by its nature offensive and racist.
Andy Burns, who portrays the Saltine Warrior, was present at the meeting. He said Lambia Chi Alpha is sympathetic to the native Americans' concerns and has been trying to "tone down" his be-
havior at the games. Among other
things, he has stopped carrying a tomahawk.
Mounts had asked Lambda Chi Alpha for a "voluntary moratorium" on the Saltine Warrior at the garnes, but Burns said the brothers refused because at the moment: "the team comes first." He added that to comply would in effect be deciding the issue for the university.
Gerry Muskrat, an SU Iaw professor who has been the chief negotiator for Who has been the chief negotiator for
ONKWEHONWENEHA, said his group
could accept nothing less than the discontinuance of the Warrior as mascot. up with portrayals that were less offensive, but none that were inoffensive.
"There is no way you can personify the American Indian as a mascot without being insulting to native Americans," he said. "Animals are mascots, not people."
After Muskrat's meeting with Hill on Monday, he said he was "very optimistic and hopeful" that Hill's recommendation to Eggers will be to discontinue the Saltine Warrior as mascot.

Hill called the controversy "an issue we ought to be sensitive to.
"The needs of a minority group are a concern to all of us," he said. "When they perceive that members of their ethnic group are being insluted, we should be concerined. ${ }^{-1}$

Representatives from Lambda Chi Alpha hope to meet with Hill this week, although as yet they have not contacted him. Hill said he would be receptive to him. Hill said he meeting.

Both Burns and Greg Haas, president of Lambda Chi Alpha, have said the fraternity will abide by the university's decision.
If the decision is made to discontinue the Warrior, Lambda Chi Alpha will continue to portiray the SU mascot, whatever it might be, Mounts said.
Burns called this a "consolation prize," He and Haas said Lambda Chi Alpha is having difficulty finding another mascot suitable to the Orangemen.
Muskrat said ONKWEHONWENEHA reserves the right to pursue other avenues if it does not meet its goals other avenues if it does not meet it
through administrative channels.

## ORL may keep some students out of Greek housing

By Liz Rathbun

- Several students may not ba allowed to move into the fraternity or sorority they wanted because the Office of Residential Life has lowered the number of students exempted from university housing contracts. Greelc houses with higher requests this year than last year have been denied the full number of exemptions they asked for.

Ulysese J. Connor, director of student affairs, said he did not know the exact number of students who would be affected, but said it would be "less than a nundred."
Houses recieve regults of their exemption requests through the Office of Student Affairs and, if disestisfied, they may appeal. The status of appeals has so far appeared favarable, according to Nancy Grady. co-chairperson of Greek Council.

Eximptions bave been decreased this year mainly becatuse of the lower number of students in extended
housing, according to Tom Ogden, the other cohousing, according to Tom
chairpergon of Greek Council.

James B. Morgan, director of ORL, claimed a new fraternity, which may take 23 persons out of university housing, played a part. He said that from year to year the number has been determined by both ORI and student affairs. They base, their decision on both and student affairs. Ihey base.their decision on both the financi
When Margan was initially contacted, however
When Margan was initially contacted, however,
he said, "I ean't tell you anything except it comes out
of the Office of Student Affairs."
Connor said he found the statement "curious." Connor said ORL makes all policy decisions related to housing. In his position as adviser to the greek system, he must work within the boundaries defined by ORL, Connor said. He the exemption policy has always averaged two or alightly more for each house.

He also said this has been extenfed in recent years to show support for the Greeks. He offered no explanation for this yeay's decline, except that the overall policy of not breaking contracts is not within his province, but rather ORL's.

Connor said he was concerned about what could potentially happen to the Greek system, yet said he is confined to and understands, ORL's position. He said both sides have problems keeping their housing filled, but at least the university still recognizes and appreciates the needs of the houses by allowing some exemptions.
He sees no need to change the lower number of exemptions because he feels housies could be financially stable with better planning.
One stadent who was denied exemption felt herself to be in a stranded, hopeless situation. She said her encounters with the administration accornplished nothing. She was upeet by the coldness and impersonality to her situation. On the verge of tand impersonality ghe explained "I wanted to move in really badly.: The gtudent refused to be identified.

Morgan said that "every year seems to have problems" and denied any knowledge of controversy betwoen students desiring exemptions and ORL or student affairs.
Ogden and Grady met with Connor Monday. Their main complaint was that he did not have enough information. They said his decisions as to the nurmber of exemptions did not consider the December graduates and
live in Greek housing
Ogden and Grady said they demanded that members of the Alumani Inter-Fraternity Council, the bers of the Alumni Inter-Eraternity Council, the Alumni Panhellenic Association and the Inter-
Fraternity Council be placed on the exemption selection committee
The Greeks" basic aim is to increase communication between ORL and the Greeks on long-range planning for housing, they explained.
According to Grady and Ogden, Connor agreed. that more information should he available, but said the demands for representatives on the gelection committee would not be possible. He said the appeal process has the same effect.
Grady and Ogden said they were hoping for a long-range compromise and that immediate action, such as a demonstration, is not necessary because the university is well awnare of the strong contacts the Greek compunity has,
Connor asid, however, he did not think any action would be affective.

## Maloney considered for job as head coach at Winconsin

Syracuse University's head football coach Frank Maloney is one of the candidates being considered for the head-coaching job at the Uniconsidered for the head-coaching Mobsey, who has been in Boston all week on a recruiting trip, has no immediate plans to change jobs, according to no immediate plans to chan
The Post-Standard cartied a atory Wednesday raising several questions about whether Maloney might be bound for Wisconsin. "I read the story to Coach Maloney this morning and he was as surprised as I was. He got a big bang out of it." Mrs. Ponzo said.
Maloney was being considered for the post as early as Nov. 12, according to an ABC sportscaster in Madison, Wis., where the university is located.
Wisconsin Athletic Director Elroy "Crazy Legs" Hirsch, a former professional football star, will be on the East Coast in the next few days and
may be talking to Maloney and Navy coach George Welach, according to a sportawriter at the University of Wisconsin Daily Cardinal.

Prior to the Boston College game on Nov. 12, Chancellor Melvin A. Eygers announced that Maloney would be rehired as conch. No contract detaila were released at that time. Eggers redetaila were released at that time. Eggers recently said Maloney had not si
but was expected to do so soon.

Ponto discounted rumors that Maloney would announce any of his plans at todiay'm meeting of the football team

The meeting is being held to give players tickets to tonight's football banquet. at the Art and Horne Center at the State Fairgrounda, Ponzo explained. "That"s what it isfor and that is what it says on all the posters hanging in the locker room and the weight room.

Maloney returned from Boston today and will be one of the speakers featured at the banquet.

Frank Maloney, whose future as SU's head football conch gemmed in doubt eariy in the year, now has another offer on the line. Maloney has been auggested for the head-coaching job at the University of Wisconsin in Madison. The coach who returned today from $a$ recruiting trip to Boston, has no immediate plans to leave SU, according to his secretary, Karen Ponzo.

# Cohen gets support of Latin students in .SA election 

## By David Abernethy

La Casa Latinoamericana. formerly the Organization of Latin American Students, announced yesterday it will endorse Dan Cohen as a write-in candidate for SA president in today's runoff election. Cla endorsed Cohen in Tuesday's elec. tion. However, he finished fifh and did not qualify to get on the runoff ballot.

Bill Krueger. who finished fourth in the presidential contourth in the presidential contest and missed the runoni by Th
votes, also endorsed Cohen. The votes, also endorsed Cohen, Student Afro-American Society,
which held a joint candidate forum and disenssions with

CLA yesterday. made "no change from Monday's statement" endorsing Scott Klein for SA president. according to Bill Simmons, administrative affairs chairperson.
Rick Margolius, SA vice presdent of student programs, said yesterday that he will support Arnie Wolsky in the runoff."All the candidates have good the candidazes have good points, Margolius said. He added, however, he feels Wolsky has "new ideas and more initia. tive than the other candidates."
The CLA endorsement of Co hen, announced by Clark Ruiz administrative affairs director was decided by the organiza.
tion's board of directors, according to Ruiz.

Cohen "in his platform has encompassed the problems SA has faced in the past, which is the big communication gap between SA and the student body." Ruix said. "His door-todoor campaign has proven his interest in shortening that gap."
Ruiz added, "I feel we work with all the candidates, but we chose Cohen in the beginning and we want to stick by him until the end."

Krueger said of Cohen yegterday, "I believe a lot he's terday,
standing for" and added, "if I
were not running on (Tuesday's) ballot I would have voted for him."
Cohen said he was not solicited or received support from other organizations or defeated candidates, but is still an active candidate and feels he has a chance to defea the three candichance 10 deica the

Ruiz said CLA did not discus endorsement of a comptroller endorsement of a comptroller candiate and would make no statem
ment.

Victor Ortiz, CLA adviser to the financial and cultural affaire director, beid CLA had sought a joint endorsement of a single candidate during discussions with SAS, but added there are "no bad feelings" over the split.
"Everybody had to make the decision for themselves," Simmons said.

Klein said last night that he is "glad SAS remained firm in its support" of him. Wolsky

could not be reached for comment on Margolius' endorsement, but Tuesciay after receiving an endorsement from Tom Hofman, who finished eixth in the presidential race, he said he is "not taking any endorsements" but would accept support of any student.

## A solution to SA borediom: Agnew for president <br> statements in the DO, a painlone form of education if

SA clections are here again and the candidatee; while full of good intentions, are boring es hell. What we've got are aeveral unfamiliar facea mouthing familiar promiees. More atudentinvolvement, bettor
commanication, blah, blah, blah. What SA really communication, blah, blah, blah. What SA really, can attract attention to SA.
Such a person exists. His name is Spiro T. Agnew.
Agnew is well qualified to be president of SA. As

## Draw McKinney

vice presiderit of the United States, Spiro's duties consirted mainly of presidiag over the Semate, meeting with foreign dignitaries and holding preas
conferences. This ian't much harder than being SA conferences. This ian't much harder than being SA bly, meeting with administrators and holding press conferences.
The press conferences themselves are another big point in Agnew's favor. While Chancellor Egrers is dropping mundane phrases like "frig-time footbal" Spiro will have every reporter in town listening to him rant about "nattering nabbobs of negrativiam" broaden their vocabularies just by reading Spiro's
ever there was one.
No one would be apathetic about SA if Agnew was prenident. Studenta would eithor love him or hate him and whom SA is the main topic of discusaion among studente, thers is little that could not be done.
Having Agrew as predident of $S A$ world alao benefit the univerrity. Each year, the univeraity sperids crieat sum of money on visiting profeseors. Spiro could lecture on politica, novel writing and income tax evasion, in addition to being SA preaident, and it wouldn't cost the university a dime. (In fact, SU would be collecting Spiro's taition, since SA officers have to be registered students.)
To be sure, having Agnew as SA president has its drawbacks. There is the possibility that he might atart soliciting kickbacks like he did when he wha Vice President. Also, Spiro's relationship with the news media was about equal to that between George Wallace and Idi Amjn. But these are mere triflee, more than balanced out by the sheer PR value Spiro could bring to SA and the university. His first few days in oftice would probably make Time magazine and provole a few comments from ExicSevareid. Can any other candidate now running saythe aame? Such publicity cortainly wouldn't hurt the university's publicrising efforts. We might even see the groundbreaking for a UU building in our lifetime. Students, your duty is clear. Write in Spiro Agnew for SA president.

## A columnist's picks:

## Wolsky and Kliedman

Each of us must make the final decision today. Each of us must ask: "Who do I want to run Student Association (in my name) for the next year?"
$A_{s}$ to the presidential candidates: Kantor? Klein? Wolsky? Not one of these men is more dedicated to improving Student Association than the other two.
Each of them wants to bring SA closer to

## The election:

Hugh MacNiven
the student body; to make it an effective force for the atudents; to make it truly reflect the views of its constituents. In each of these respects, the candidates are quite similar. The differences lie in how they plan to achieve these goals.
Steve Kantor: the basis of a Kantor administration would be its efforts to "reach out" to the students for input. Kantor maintains that the basis of SA is the students, and he would seek their opinions by communicating with organizations, dorm councils, the assembly and individual students themselves. Irapora way which would get "the true opinion a way which would get "the true opinion
of the student?" Does this approach of the student?" Does this approach suggest too much dependence upon "the
will of the students" and not enough emwill of the students" and not enough em phasis upon the SA president as a
leader? Finally, when the going gets
rough and Kantor becomes less popular (as he must), will he continue to seek the student body's opinion or will he hide from uncomfortable situations, as has from uncomfortable sin
Kantor belives that he could, as presiKantor belives that he could, as president, stay in touch with the true feelings of students. As to staying in touch during times of criticism, he can only give his word that he will. I believe his inten-
tions are honest and deeply felt, but I tions are honest and deeply felt, but I
cannot ignore the records of others who cannot ignore the records of othe
have had just as lofty intentions.

Scott Klein: "If you liked Richard Crowell, you'll love Scott Klein" is a particularly masty phrase being tossed around lately. It has been clear throughout the campaign that Klein will not merely continue Crowell's policies.
Klein cites his strengths as the ability to work with people, to take and give constructivecriticism, to be effective and to use his knowledge of SA to avoid a repetition of the problems that have occurred this year.
Scott Klein believes in himself, and that's why he's running. More important, however, is whether the voters believe in him. It seems that without a constant mandate, a Klein administration would founder. Klein's emphasis has been upon the SA president as a has been upon the SA president as a leader, standing by hi
with student support).

To those who have followed the campaign, Klein has appeared to give little
more than lip service to input from students. Actually, he has spoken often and eloquently about the need for input and support from the students.
But the crucial impression given by Klein is that he sees student input as a tool to be used by the SA president himself. This is the classic view of the president's role in SA: the "strong leader. model."
The president will be the unquestionably central figure in SA during a Klein administration. Like Kantor, Klein can give no more than his personal word that he will not abuse such a powerful position.
Arnie Wolsky: "Consolidating power by siving it away" has been a slogan of the Wolsky campaign, and one which cems to have a great deal of truth in it.
Wolsky is dedicated in his commit. ment to increase the seope of policymaking in SA through including the assembly.
By-instituting his "SA platform" idea and making a concrete policy of obeying the will of the assembly on all matters, Wolsky is providing guarantees of an open administration. He is giving more open administration. He is giving more ing a policy that he can't back out on later.

There is a passibility that such intensive assembly involvement will lead to chaos: SA will move slower, and it will become too involved in internal politics.

The latter of these fears cannot be totally allayed: it will be up to the campus media to inform the students if the Wolsky administration gets too wrapped up in internal problems. Perhaps Wolsky's system will cause SA to move slower. But it seems like a small price to pay if Wolsky succeeds in making the presidency more accountable to the assembly, and thereby, to the student body.

A note on the comptroller runoff: In last Friday's edition, I cited Carl Kleidman as "the best qualified" of the candidates. After reviewing my notes and rereading all the elections coverage in light of the runoff between Kleidman and John Schoch, it is easy to reaffirm and John Schoch, it is easy to reainim Kleidman has shown a superior grasp of the issues, and a more intelligent apthe issues, and a more inteligen
proach to the job of $S A$ comptroller

And finally, an opinion regarding endorsements: Whether they come from campuswide organizations, or merely from political columnists, endorsements have a limited value for the informed voter.

## Growing Old

## No snow support

The Daily Orange no longer supports snow.

No way.
It's very rare for a daily newspaper to reverse its editorial stand on a given issue within one month, but on the issue of snow in Syracuse we, as a courageous and crusading
daily, are not afraid to say we goofed in an editorial last month supporting it.

Boy, did we goof.
The reader should understand that the earlier editorial was published after a brief, beautiful flurry of just enough snow to cover the ground and give-the campus a that time the editorial writers of this paper were not hip deep in freezing cold snow banks, waiting for them to turn into frigid baths of cold gray
slush.
This change in editorial stance also reflects some moderate changes in the paper's staff structure. The writer who composed last month's editorial glorifying frozen precipitation has been transferred to our Yukon bureau.
The DO is like any institution - it is made up of fallible individuals. We hadn't seen anything like this week's snowstorm since last spring's finals week, so when the snow came down in little flurries we naturally were enchanted rather than intimidated. Now, of course, we know better.

Let's hope we've learned our lesson.

# Finals week approaches with tension, thefts 

By Tod Porter and Mary Vogt
The pressures of Einal week, which have plagued studenta since written examinations began in China in the second century' B.C., are begimning to build for Syractise University students.

Health security, and library officials and religious leaders are all looking forward to more problems or working longer hours because of the problems posed by the end of the sementer

Medical Crisis Unit reports no unusual influx of overexhaustion cases, hypertension, nervousness, schizophrenia or physical fatigue. They did not speculate on what the "usual" number of cases is, however.

MCU did report an unuaually high number of art student injuries as a result of project deadlines. It beems that many artists, working far into the night slice their fingers with their matte knives.

John Zrebiec, director of safety and security, prged students to be especially sure to lock their doors and watch their possessions because of the increase in thefts around finals time.

Examination week there's a lot of confusion going on with people moving in and out of their rooms," Zrebiec said.
It is easy for thieves to take stereo equipment, he said, because, It's not uncommon to see someone load a stereo in a car.
Beginning with the first day of finals week, Dec. 19, People's Place, a coffeehouse in Hendrick's Chapel, will be open 24 hours a day. People's Place opens at $8 \mathrm{a} . \mathrm{m}$, on the 19 th and closes at $6 \mathrm{p} . \mathrm{m}$. on Dec. 22.
Bird Library will be open extra hours beginning Dee. 10. Study ing hours, when only the first two noors and the basement are apen, whi be extended from 1 a.m. to 2 a.m. Sunday through Thursday. On Friday and Saturday, study hours will be scheduled until $11 \mathrm{p} . \mathrm{m}$
SU students have one advantage over the candidates for the Chinese civil service who took the first exams: Today's students only have to take their finala once. The Chinese had to pass a test every nine years or lose their jobs.

## Keeping the eyes open at SU

By Juliann Saavedra Christmas is near, and for SU students that means visions of papers, projects and finals are dancing through their heads. As a result, many students find themselves staying awake al night to finish their work. This is no easy task, and many people require something to help them through the night.

Some students rely on drugs - legal or otherwise - to pull through the night. Amphetamines or uppers are powerful stimulants of the sentral nervous system which increase levela of confidence, This drug is only available by preseription, although many home "laboratories" are doing a substantial businesa in illegally. producing it.

The two most common forms: of amphetannines are Benzedrine and Dexedrine. Dexedrine is currently undergoing investigation by the Federal Drug Administration because of its controversial side effects.
While amphetamines are not physically addicting. they may ing. The body will also build up levels of tolerance that require more and more of the drug to more and more of the drug to
Other druga, like Comeback, Vther drga, like Comeback,
ivaran, NaDoz, and Ban

Drowz are available without a prescription and are non habit forming. These drugs all contain some form of caffeine, which is another gtimulant to the central nervous syztem.
They're caffeine. You can get the aame a mount of caffeine in a cup of coffee. You'll asve money. too:" Dr. Vincent Lamparella, director of the Health Center.
Tea, Coca-Cola and chocolate candy bara all contain some caffeine. Despite what anyone"a mother may say, caffeine in coffee will not atunt a person's growth, but will in fact banish growth, but will in fact bemish
drowniness. Mont medical men agrea that caffeine will reduce agrea that cafieine will reduce
fatigue, sharpen the senges and fatigue, sharpen the senses and
improve the ability of the mind to think faster for a period of
Buit nothing can take the place: of a good night's rest; Sleep rejuveinatea the body, and a lack of it may impair xnental and physical abilities. A lack of sleep can result in blurred vision, keadaches, general fatigue and an inability to concentrate. A person may alioc experience momentary hallucinations.
"Ask any educstor; you ahould always have a clear head before an exam; Dr. Lann parelia said. chuet that amownt of knowledge callil just be lost."

Recent experiments have
shown that sleep helps people to remember. Individuald who slept after memorizing something showed a considerable increase in their ability to recall what they had learned. Experiments proved that it is best to sleep for at least four hours between the time of study and the time of recall.

Dr: Lamparella werne against staying awake - al night. fnotedi, he recominends "better planning. No person in any line of work shovild atay up all night. You always do well on min exam if you get a good night's rest."
But if sleep is as far away as the end of that term paper, some qualified students have auggestions for keeping awake.
"When you're really tired and you, want to btay a wake, take a ahowes Yon'llifel a lot bettere" advised Ruth Glover, A'resident of Day Hall.
"I pulled an all-nighterilagt year, and the best thing is to take frequent breaks. When you reach the midoray point (in your work) go out to Abe's for doaghnute and coffee, ${ }^{\text {h }}$ Barney Sherman of Sadier fiall advised.

Perhaps the best method is used by Karen Haase of Day Hall, who recommenda "Sheer willpower:

## Rise in academic dishonesty due to end-of-semester panic <br> honesty" to be referred to the <br> 25 faculty meeting changed the

By Martha Vickery Some classes have computerized cests; you cant cheak." Eco class.
"My TVR class is held in an auditorium and you can't Melp but look down on everybady else's exam."
With final exams being given and term paperg aue, cheating and plagiarism become a more serious problem. In this interview, five students who prefer-red- to remain anonymous talked about cheating and about Syracuse University's policy on cheating ingtituted by the Committee on Student Standards.

A five agreed that students in professional competitive schools are more honest than those in liberal arts programs.
"In the profersional schools, people don't tend to cheat. Noboody will trust anybody else's answers*"one management btudent said.

Freshmen are pressured by classes they don"t like. They dox't try to study, then are eas ily able to cheat in bis lectoire balle that fiwehmen clasmel are helld in" " ealit one senior.
yin policy of thip univeraity is fior: any cote of meadernic dis

Committee on Student Standards. which consists of a Chairman who has already served one year an an ordinary member ofly other raculty members and four the Proct members, "according to the Procedures of the Committee onStudent: Standards docu ment.

The policy on acts of academic dishonesty includes "explusion or suspension from the University, lobs of credit, in the course in which achdemic dishonesty occurred and reprimands. Sus pension from the College shal not be considered to be an unusual or extreme penalty.

A confined case of cheating. according to the rules, is one which includes the giving or receiving of assistance by verbal or written communication during the course of an erramination or test; the umauthorized possession of examination questions: plagiarism, or any-other minleading or dishonost prac tice. A etident who consciounly - gives aid in such caserg is considered equally, eulpable with the studignt recriving such asinstance."

A policy instituted at the Col-
lege of Auta and Sciences April
faculty mernber's obligation in cheating cases instead of raterring all cases of academic dishonesty to the committre, a faculty merober can give an F to F student who he thinks has cheated. The failing grade must be reported to the commaittee and the student may appeal the failing grade through the committee.
Profengor Marvia Druger, who suggested the policy change, said in the May 5,1977 Record "We have to have faith in the faculty to handle cases of academic dishonesty an we have in their integrity to teach their courses." ${ }^{*}$

Students, asked about this change in policy generally said they didn't trust their profes: 9078.

It's the teacher"s choice whether the student has dome $D$ work or is work, but I don't think they ahould be able to funk you for surspected chenting." one atudent said.
Another said, "If it's the prof fessor's word, some ntadents coulld got Runked for a perponal ity conflict.

## ...you can always go

## Downtown

There are those who are part of the Syracuse University community and there are those who are a part of the community of Syracuse who would portray the university and the city as distinct and apart.

It's true, for example, that the campus area is an almost self-contained community with its own stores, shops, homes and apartments, entertainment centers and, of course, its own jobs. Neither student nor teacher need drift very often beyond the campus limits.

And it's true that for the majority of the residents of the wider Syracuse community, there might be little beyond the search for novelty to attract people from the surrounding community into the campus area.

But those who see only the stereotyped images are missing an opportunity to appreciate and enjoy something of what our university and our city are together, a vibrant center of diverse interests which establishes the nucleus of life in Central New York.

In a very real sense, the university is not a community, it's a nighborhood. It's as much a part of Syracuse as any neighborhood. The campus has a unique character, not a separate existence.

Those residents of Syracuse who never sample the sights and sounds of the campus area will miss the special taste of its contribution to our community. But the greater loss is reserved for those who sample no more than that taste.

Downtown Syracuse, for example, is not just another business district. Downtown Syracuse is the largest, most well-stocked shopping center between Buffalo and New York City. And it's only minutes away, just walking distance from the university campus. And with that, our downtown community features some of the best restaurants anywhere in New York State. The comfort and pleasure of Columbus Circle at lunchtime on a summer afternoon cannot be equaled.

Our community's parks and recreation program is one that rivals cities two or three times our size. And every aspect of our program, from swimming to skating to dancing to sports leagues to simply nothing more than well-cared-for open space, is available to every member of the university community.

For those who want to use their spare time to help others, dozens of city and private agencies will accept the services of qualified volunteers to work with the elderly, with children, with people who speak little English. No community is stronger than when its most talented people tackle its most serious problems.

Our ballet company, Syracuse Stage, the Everson Museum of Art, our symphony, our libraries, the Civic Center, the Onondaga County War Memorial, all are here to serve, not just part of our community but all of our community.

If education is the experience of knowledge, education can hardly be served in an environment which limits experience, or in an environment in which experience is limited by choice. And that applies as well to those who consider their education to be formally complete as to those who now work toward its completion.

And perhaps by sharing the experience of our university and the experience of our city, the tradition of apartness which some now support will give way to a tradition of togetherness in which the best of each will represent the best for both. That's an invitation.

## Services aid community

## By Magaly Oliveno <br> and Maria Riccardi

 The mere size of the Syracuse campus can often make the new student tremble. The campus looks strange, the people are new, and the downtown comaway. But little by little the away. But little by little the student often forgets the outside student often forgetThere are, however, a number of organizations in Syracuse of organizations that bring comthat are trying to bring com-
munity and campus life tomunity and campus life to-
gether. These organizations gether. varese organizations
offer a variety of services to community members (including students) and all welcome and need atudent participation and nupport.

Peace
The Community Action Agency for the County of Onondaga is Peace, Inc., located at mainly provides services to low-income residents in the community.

Programs are designed to meet the specific needs of all family members. The orgnnizaprograms and day care centers for children. Seven youth centers in the city and county provide recreation and
services to teenagers.

Special services are geared to the needs of the elderly. Nutrition programs provide residents
with lunch and recreation. An With lunch and recreation. An also available for those who are 60-years-old or over.

## Syracuse: looking at pro sports

## By Katie Fritz

It's hard to imagine a city as large as Syracube without a lot of majajor professional sports, but that happens to be the case in the
Salt City. In large
In large part due to financial reasons, the bulk of Syracuse pro
sports take place in the "good oid sports take pla
summertime. in the city, next to the Orange basketball squad, is the Syracuse Chiefs, once the top farm team for the World Champion New York the Triple A club for the Toromto the Triple A club for the Toronto Blue Jays.
The Ch
McArthiref, based in cozy McArthur Stadium, were reportedly unhappy with the cavalier manner in which the parent Yankees traded of or called up theirbest players. Such major-league hinink
minor league team dep both talent and morale.
With a more lucrative contract from the Blue Jays and a promise that such raiding will no longer take place, the Chieff will try to 70 record, rood for summeris 70 70 record, good for Eifth place in the International Lengue. They'll Governare a cup, symbol of league supremacy, which they won in 1976

That's the only professional team in the city, however. The Syracuse Bisons and the Salt City Aces, are aemi-professional squads, both playing at Grifin Field in Liverpool.

The Acea were a good team two years ago, but tumbled to the both theiteoneh-Hoceo Firio and
cial assiatance to needy not abie to, they will refer the families. The organization loans money on a short-term basis to families whose checks may have been delayed in the mail. The Community Development section has eight neighborhood centers which coordinate pro arns for their specific area.
Designed to aid citizens with any type of problem, the city Consumer Affairs Office also educates the public on wise purchasing practices, whic
Director Jeanne Schulteis believes that landlord-tenant disagreements are the major types of complaints SU itudents report.
"Students rum into all types of trouble since they're not permanently located. What they don't realize is that they have many of the same rights as any many of the same rights
Most people do not understand what is involved in leasing an apartment and Schulteis suggests they seek guidance suggests they seek guid
prior to signing anything.
"Checking things out in advance may prevent future misunderstandings concerning security deposits, extimates and so on," she said.
The department publishes newsletters available at no charge. Articles deal with every aspect of consumerism and students can learn a great deal about where and how to spend their money.
Students with any type of problem should call the department at 473-3240. According to Schulteis, investigators situation. In the event they are
person to someone who can.

Services for women
Several community organizations are designed to meet the specific needs of women. They have trained, understanding staff on hand to help fengh dificult periods.
One such organization is the One such organzation is the which provides coungeling and which provides coumseling and support for victims of rape and sexual abuse. If desired, staff members go through medical, police and court procedures with the victim. The center also has a 24 -hour hotline (422* kind of problems.
"Many women just call to talk about their problems," explains Marsha Weissman, an employee at the Rape Center. them and we try to help. They them and we try
The center also provides family counseling for those close to the victim who may find it difficult to accept and relate to the ficult to accept and relate to the
victim. Although the center victim. Although the center affairs and counseling, the affairs and counseling, the center continues counseling for
as long as the victim finds it necessary.

We continue to work with the victim in a supportive and friendly atmosphere for as long as they want," said Weismman.
We never turn them away."
The Women's Information Center, 601 Allen St. is also Its primary counseling service, Woman to Woman, enables Woman to Woman, enables lems with a qualiffed employee

or volunteer. There is a $\$ 3$ to $\$ 10$ fee for those who participate.

Many take advantage of the center's referral service. The center has information on just about any topic - housing, welfare, child abuse, gay organiza tions, medical assistance, etc.

Most women, however, call the center about beatings and abuse, according to employee Anne Higeins.

Some women call juet to have someone to talk to," Higgins said. "They are just sick of all the beatings and abuse. call the center for help."
Workshop days are periodically sponsored by the center. Recent workshops such as Women in Transition, Body Image, and Self Awareness have workshop fee of $\$ 10$ inclus. Th
lunch and child care.
The center is completely supported by the community in the form of contributions and pledges. There are only two pail-time employees who are paid Hige subsintent and the rast of the center is staffed by volunteers. center is staned by volunteers. has led to a reeiprocity morpa Women who can not afford the fees for whorkshope and cour the fees for workshope and coursea can donate some of their time and skill to the center.

The variety of activities occurring in the city proves that a gtudent need not limit
tion to campus events.

Yoga, scuba diving and oil painting are only a few of the recreational activities offered Montgomery'St. A yearly fee of Montgomerys. A yearly fee of

## A look át a mayor

By Tim Wendel
Mayor Alexander adds a small touch of class to the city of Syracuse, but the touch is often an-expensive one.

First elected in 1969, Alexander last month won his third term as mayor. In the final tally, the Democrat netted 61 percent of the electorate with 31,504 votes over James Tormey's 38 percerit or ,774 votes.
After his landslide victory, Alerander said, Too often campaigns are divisive; this campaign did not

## analysis

divide us. It illuminated to us not only a sense of the past, but a sense of the future.

The main plank of Alexander's platiorm is to return the taxpayers: funds to Northeastern urban areas like Syracuse.
"Cities are an important part of the nation's economy," he has said. "We have to get out fair share."

One way Alexander is attem ing to do this is by his involvem Mayors, He has been presiden Mayors. Fe has been presiden the ne.

Alexander has said to effectiv serve his constituents and th position, he must travel exte gively. Everson art
By Cheryl Bollmini
It was the first American muncram to brild a collection devoted solely to American art.
It has one of the few museum video departmonts in the United States

After its opening in 1968, The New York Times called it "a fully building and its contents interact on the higheat plane.'

And if that is not impresaive enough to warrant a visit to the Everson Musenm of Art, it is free and within
walling distance of the Syracuse University campus.
"T'd lize to see more students become involved with the Everson," said Marlana. Timmons, the museum's public information manager.
Art professors will nsually bring their students to view certain exhibits, Timmons maid, but for moat of the SU community, "Route 81 seems to be a gate with raw venturing beyond it to see what we have down here."

The Everron, 401 Harison St, is Worth the risk of passing nnder 81. Besides horaing a permanent collection ranging from . American Indian and African art to Japaneese museum also eponsors free lectures, concerts and poetry readings. Every Friday night the muserm presents film clasgics on various themaes, with local media critic Dotrg Brode leading a $\$ 250$.

All etudents are offered a reduced rate to become part of the musenm's Thembership, according to Tirnmons The $\$ 12$ annual fee entitles them to discount on movies and all items in the Everson Sales Gallery, and use of the musenm's 4,000-volume art library. Members are also invited to exhibition
openingr. For those with a less casmal interest
in museums, the Evermon offers neveral internghipe for etudents interested in Eearning mugeam operations. Some sh musents developing advertising campaigns, marketing resoarch and telovition programs.
SU artistas may also have the chance to exhibit their work at the Everson. A graduate student nhow was held last College of Visual and Performing Arts is featured frequently.

Pablic participation is important to the Everson's operation. After a successtul campaign to purchase a century axtist Gilbert Stuart, visitors to the musenm lagt year were asked to vote on the work of art that would be the Everson's next acquisition. A 19thCentury painting, "Peaceable chosen 4-1 over 17 other American paintings and sculptures.

The public had good tante. The painting was the most expenaive of the offerings and is considered by many experts to be the best of neariy 50 versions Hichs painted on the theme of human nature, Timmons said.
The campaign to meet "Peaceable's" $\$ 200,000$ price tag is at the halfway mark, she said.

Exhibits on view from now through Jannary inciude contemporary artists Jon Carsman and James Loveless, artworics produced by ofres pre France. tapestries woven at Aubusson, France. throngh Friday, noon to $5 \mathrm{p} . \mathrm{m}$.; Satrirday, 10 a.m. to 5 p.m.; and closed Mondays.

## Co-op fosters intercu/tural communication

By Elige Shverman
You knowt this isn't a regular dormitory when you hear the chatter of foreign accents and see students of different nationalities sitting around the dinner table. No, it's not a inini-United Nations, it's just 6 p.m. at the International Living Center:

The ILC, on Euclid Avenue, provides an alternative to onprovides an aiternative so on-
cempus housing at sU. It houses 30 students, about half of whom, are foreign. Residents of whom are foreign. Residents
range from freshmen to range from fr
graduato students.
"The aim of the house is intercultural communication," says Mike Smithee, program coordinator for the International Student Office. "It's designed to bring American and international students together.

The house helps international students to adapt to an American environment, but also provides a place for American students who have returned from overseas or are going from overseas or

International relations and foreign language majors are especially interested in the center, but some people live there for variety.

House facilities axe attractive. The ILC has its own kitchen and dining room, with a ping-pong and snooker table, along with the usual furniture. The TV roon is off the living room where residents often have parties. There is also a laundry area, as well as covered parking for reaidents with cars.

One of the most important features of the house is the food co-op, which can be one of its most appealing or unattractive points.
A crew of three students prepares dinner every night while another three clean up afterwards. Although residents are spared the bother of cooking all their own dinners, house policy dictates that each resident has to do a weekly job in the kitchen. If you don't like cooking, you may have to opt for mopping the floor or taking out the garbage.

But if this doesn't sound too appeazing, think again. Students have to pay $\$ 235$ a semester for food, half of what you pay in a dormitory. This is because the food steward, a selected resident, buys everything in bulk. Students make their own lunches and breakfasts from the food provided.
"We've been able to maintain a standard cost of food for almost three years," said Mike Smithee. "We often give rebates because residents have efficiently purchased and consumed food. Residents have a vested interest in running the house."
There are four resident committees in the ILC. "It's a lot for a small house," admist Smithee, "but the idea is for the house to run itself, for residents to have as much autonomy as possible." The most important committee is the food committee. "It s strong point is that residents prepare their own menus," said Smithee. "It 8 weak point is that food is an item people always complain about because they cannot get all they want. 保owever, they can buy what they eapecially want because they have more input."
The house committee calls house meetings and guides the house through its internal bushouse through its internal bus-
iness. It decides what items to iness. It decides what items to buy for the house and resolves problems between residents. "The solutions, of the problems are only as strong as the people
in the house and those on the in the house and those on
The social and cultural committees coordinate parties, meetings and cultural events. Resident advisers at the ILC must be on graduate assistantships, and are always a married couple since the hosue is coed. "They play a vital role," Smithee said. "They offer guidance to residents committees and coordinate the running of the house." he house."
The new RAs are Steve and Penny Kane. Both have been RAs before and - have a background in counseling. "This job really appealed to us, said Penny. "We"ve always worked with American students, but the ILC has students of different ages, interests and cultures. Also, it's a chance for people to really work together seeing that it's a co-op.
"I know the house has had many problems before, but Steve and I want to keep the co-op running successfully," co-op running successinuly,
said Penny. "We intend to have house meetings, not only for social matters, but to keep in cial matters, but to keep in touch with what's happening; to see if people

sophomore living there for her third consecutive semester. The people have been putting a lot of effort into the house and weve also created a great social life.
"The ILC has the most advantages of any place off- or oncampua for me. First of all, Tm a language major and I can practice a lot here. Also, you have the privacy of your room, but can be with people any time you can be

Anahid Eckandarian, an Armenian freshman, and her brother Rafik are both new residents. "We wanted to be together and this was the best place," she said. "There also aren't too many people which is better for me - rm new to the U.S., and this way I can slowly learn about it."

But the ILC is not heaven on earth - like every institution it has constant problems.
"These usually involve attitudes towards jobs," said Smithee. Although a daily janitor is hired, students must do another job in the house, besides the one in the kitchen. "The most problematical are the bathroom and kitchen jobs because if these aren't done, it incause if these aren't don
There are two single rooms on each floor; the rest are doubles. According to house policy, each double should house an Amerian and foreign student Roommate problems are in frequent," continued Smithee, "but in all cases the RAs try to help people reach a solution."
Another complaint is the room rates. Although the rooms are
larger than those in most dorms, $s 0$ are the rates. In the ILC'a 3-year history, room ratea have gone up steadily.
The house is also open all year round, but the co-op only operates during the somesters. "It"s like a halfway house," said Smithee. "People often stay over night just for a day or two during vacations while they're looking for a permanent place to live.
"One feature of the ILC is that we're learning all the time. The character of the hosue changes each semester with the arrival of new residents. Also, the house is unqiue. There isn't another university in the $U_{n} S$. that has an international Liv ing Center which is also a coop."

## Campus phone directory supplement completed

## By Linda Brantley

The supplement to the 1977-1978 telephone directory, listing students' campus phone numbers, is now available. The distribu* students campus phone numbers, is now available. The distibu
The directories may be obtained by North Campus residents from resident advisers; people living on South Campus should go to The Carriage House. Off-campus residents can pick their. books up at the Office of Telecommunications and Mail at Skytop Office Building.
The supplement will only contain advertising: and local phone numbers of students, which were omitted from the original version. All numbers listed in the directory were taken from those registered with the Registrar's Office.

The original omission of student numbers was due to an error in programming, mecording to Harvey Kaiser, vice president for facilities administration. The information that was fed into the computer concerned students' home numbers instead of campus numbers. The error was not detected in proofreading because the programming error left no indication that anything was wrong.

The copy was not seen from that time on. In the future, Kaiser said, the university will use a camera-ready format that will allow proofreaders to see the copy as it will appear in print form.

## Banal lyrics, shallow singing hamper latest Nelson effort

By David Abernethy
If those are really the "intakes" on Rick Nelson's new album, God only knows what the "outtakes" must have sounded like.

On his newest LP; Intakes, Nelson coins an extended musical cliche stamped on vinyl. "Be-Bop Baby" never sounded so good.

Almost nowhere on this disc does Nelson escape his own triteness. The melodies are occasionally pleasant but gener ally pedestrian; the arrangements and the performances of Nelson's backup group, the Stone Canyon Bank, are simply uninspired. Only one or two songs on this LP are worth playing more than once.

And the lyrics . . . the lyrics are just utterly banal. With images like "silent clowns of deages like silent clowns of derunning around in the songs, it isn't hard to see that Nelson isn't hard to see that Nelson
isn't singing anything particuisn't singing anything particu",
larly profound on "Intakes." Halfy a verse from "Wings" of fers a sample of the triteness of the words on this album: Seen it written and r've heard it told/ That a man does crazy things for goldlDrives him crazy and it makes him oldibefore his time. Not exactly rock poetry

Musically, "Intakes" is dull. Songs like "Wings," "Change Your Mind" and "Stay Young" plod along like funeral dirges, plod along like funeral dirges, with nothing in the words to hold up.

## SU students to play chess

 in tournamentBy Wendy J. Sherman
Four members of the SU Chess Club will compete in the Pan-American Intercollegiate Team Chess Championship this winter vacation.

The tournament, to be held in St. Louis, is open to four-man college teams whose members belong to the United. States Chess Federation.

Last year, after disproving the pre-tournament ranking of 68th, the SU team finished in 24th place. College teams from all over the country compete.

Todd Barre, chess club president, predicted a ranking of 40th this tournament. "We have a stronger team this year," he said.

Each team member is ranked according to his ability in relaaccording to his ability in rela-first-ranked player from SU will play the first player from will play the first player from
another college; the secondranked Orangement will play the second-ranked player, and so on.

This year, Jason Brown plays first position, or "board;" Todd Barre plays second board; Mike Terpin is at third board; and Steve Finette is at fourth board.

The team will travel to St . Louis the day after Christmas to play eight games in five days. Barre said it's "incredibly tiring. You're playing non-stop chess."

The Pan-Am is a rare opportunity for college teams to engage in intercollegiate play. "Chess isn't considered a spport," Barre said. He udded, mhess has gone down since the Fischer boom in 1972, when it increased about 300 percent.*:

Last year the SU team won - \$150 in touriament competition. If they cash in this year. Barre says it will go toward travel expenses not met by SA funding.

But Nelson's attempt at disco is no more successful. Tunes like "You Can't Dance" and "I Wanna Move With You" are intended to make you want to get down and dance. The only thing they actually do is make you want to get down to the control knob on your turntable and shut the damned thing off.
"Intakes" is an overall poor effort - not unlike a high school rock band taking its first inexperienced shot at writing and recording. There are, however, a few exceptions to the pervasive mediocrity of this LP. "Gimme a Little Sign," a cover of an old soul hit, is adequate if not particularly exciting; "It's Another Day," one of only two songs on this alburn actually written by Nelson, has simple but expressive words, hampered by a dull melody.

The standout on this album - if you can call it that - is "One $x$ One." The song suffers lyrically from the album's general malaise of extreme banality, but its catchy tune and effectively mellow, acoustic treatment make it listenable, thougb not especially affecting

Rick Nelson. who used to rocord thosezilly songes for the Ozyie and Harriot Show, ta no longer silly. Now ho's dull and longer silly. Nis now dull and arite, ms his new album. on the listener.
It's certainly not hard to believe this is the same little Ricky Nelson who recorded all those silly little songs in the 50 s and played them to the accompaniment of Ozzie and Har riet's parental encouragement on TV. He certainly hasn't gotten any better since then, at least not judging by this album.

## Lax schedule lacks Cornell

## By Alan Fecteau

Next spring, the Syracuse University lacrosse team will play its most difteult schedule in the past 20 years, according to Coach Roy Simmons. However, the absence of two-time defending NCAA Division I champion Cornell from SU's slate is causing con troversy before the geason btarts.
"Im saying he (Cornell lacrosse coach Richie Moran) made a promise and then he went back on it." said SU Athletic Director Les Dye, referring to why he thought Syracuse and Cornell were unable to sehedule a game this-spring.

Only a Dye says that, then he's a liar," Moran said. Only a complex series of events would lead two of legiate athletics in Central New York to resort to name-calling.

Lacrosse rivals for more than 50 years; Syracuse and Cornell agreed to a temporary discontinuation of their long series after a controversial game at Comell in the spring of 1976 .

Moran and some Cornell athletic officials thought Syracuse played too roughly in the $14-2$ Big Red win, and, after the game, sought to gain a leave of ab-
sence" from the series to allow feelings to cool between players of the two teams.

There was a lot of ill-feeling amongst our players toward Syracuse," Moran said.
"Members of our athletic committee who saw the game felt the two clubs ahould have a year to cool off. Then the series, naturally, would be resumed."

The Big Red coach also said that because there were so many Cornell players returaing for the 1977 season, he did not want to take the chance of encouraging more rough play. This would be relatively easy since the fichools ech
"I don't want to mame specific players on Syracuse (who played too roughly)," Moran asich. The Cornell coach added there were no specific incidents that prompted the decision to call for a temporary halt to the series. He cited an overall rough style of play.

Although he agreed to halt the series for a year, SU coach Fioy Simmons indicated he did not think Syracuse had played too aggressively. "We saw the game films," Simmons said. "We didn't see any evidence of

Dye wondered aloud about the officiating.
"My feeling is, there are officials on the field. Why didn't they call anything?"

Moran baid the referees called "as tight a game as you could expect."

More to
Simmons baid there may have bean other reasans for Compell's deaire to erciudo Syrambe fram their bchedule last year. "It in possible thoy wanted to ico-
prove their schedule last year" when they had an outatanding team, Simmons said. It is also possible Cornell did not want to schedule Syracuse, a team which, at the time, had considerably less talent. Simmons said.

We never based our schedule on that," Moran asid.

SU Incrosee playor Dale ibeaplo and his Orange searnmmes may have fooked good this fuli, but they will still not get a chence to pley NCAA Divtulon nationsi champion Cornell as dhe two ploy the gime (Photo by Bruce Johneon)
"Of course we think Syracuse is a worthy opponent. Why shouldn't they be? They are a Division 1 school."

Because Cornell is a member of the lvy league, they must play each livy League team every year. In addition, they must play no more than 12 games in all, excluding those played over spring vacation, according to Moran.
Despite schedule limitations, a tentative date for the resumption of the series was gat. The two teams were to play in Syracuse on April 8, 1978, according to Moran. But playing the game became impossible after the Ivy League published its lacrosse schedule for 1978, he said. The schedule produced a connict on the date of the Syracuse grame and, according to Moran
no other date was available except during apring vacation.
The league's schedule, which takes precedent over anything we already have lined up, had us playing Dartmouth on April 8. The decision was out of our hands. We only have one meznber on the leggud"s scheduling committee," Moran said.

Moran added, however, that no other conflicts occurred on the alate.
Although the same procedure for scheduling the SU-Cornell game had been used each year, no previous conflict had oceurred during his tenure as coach.
Afer scheduling the garne in April became unfeasAfter scheduling the garne in April became with an ible, Moran approached Simmona and Dye with an
idea to avoid the gtrictnews of the Ivy League achedule idea to avoid the gtrictness of the Ivy League achedule play at Manhaseet High School on Long Hiland. Manhagset is a strong area for lacrosse, and is the home of SU goalie Jamie Molloy and former SU football and lacroase All-American Jim Brown.

## Original mgreemment

"I thought it was a good idea at first," Simmons aaid. "I was just tickled to get them back on the schedule. But Dye didnt like it for three reasons First, I was letting them (Cormell) pick the place, time and day (March 25). We were only going to split the gate receipts even, and that was really unfair to us ince we wowld have to travel cown there to meet him.
The game was right along the way for him (Moram) since it was to be at the tail-end of his spring (vacation) trip down oouth. Then, if they did rib ond noses in it, they would be doing it right in front of all those good prospectis at Manhasset."
Even them, it would have been difficult to play Cornell on March 25,1978 , since Symactase has already scheduled Bucknell. So SU balked at that proposal, and fince then Dye has acctseed Moran of "welching on a promise" for not playing on April 8 .
Cornell's director of athletic" acheduling, Patrick Filley, said he hopes the disagreement does not affect athletic play between the two schools. "We've alway had good relationshipe with Syracuser" he said.
But, at this time, Felationships appear strained.
"There's no way I went back on my word," Moran said.
"I ean"t understand why Lea wouid say that. He understood the gituation with the Ivy Leagre achedule and the Dartmouth game. I even discussed the situation with Concli Simmons at the (recent) lacroase coaches convention in the Poconos (at Mt Erie. Pa_)."

Syracure may face their toughest echedule in 20 years next spring, but, as for now, Cornell will not be on it
"You tell me whan wé can play it" Moran
Syracuse athletic officinis think Moran could ans wer the cquestion himell if be tried hard enough.

## Wolsky, Kleidman win SA runoff election

## Arnie Wolsky

## said Thnueday afternoon that early

By Margha Dppolito and David Abernethy
Arnie Wolaki was elected Student Association president and Carl Kleidman was'elected.comptroller in yesterday's runoff election.
Wolsky, who finished a close second in the original balloting Tuesday, received 838 votes ( 34.9 percent). defeating Scott Klein; whoreceived 714 votes ( 29.7 percent), and Steve Kantor, who got 636 votes ( 26.5 percent). Writein candidate Dan Cohien received 213 in candidate Dan
Kotet ( 8.9 percent). Kleidman easily defeated John
Schoch, receiving: 1,342, votes ( 61 Schoch, receiving: 1,342 votes ( 61
percent) to Schoch's.817 (37 percent).
The 2,403 votes cast represent a 420 vote increase over Tueaday's balloting.

Rick Jachson agid between 22 and 24 percent of undergraduate studients voted yesterday.

The margins of the Wolsky and Kleidman victories were somewhat surprising to election officialis, who
returns showed all candidates still in the running.

Jackson, SA vice prexident for administrative operations, said Thursday evening it was possible that no official vote count would be reached last night due to the closeness of early returns.
Wolsky and Kleidman apparently had strong support at Bird Library and the SA building, the late-repoting polling places.

When finally reached for comment during a boisterous victory party, Wolary said, ${ }^{\text {"Everything has been }}$ tremiendous. I'm really happy. It shows that a candidate who sticks to the iasues can reach the atudents.
He added that he felt atudents are open-minded and not as apathetic as people may think.
"My main point was to stick to the issues," Wolsky said. He added, "And we did it without sacrificing our principles."

AVAS director sees program phase out

Br Dicis Befrla
The director of the AfroAmerican Studies Program taid yesterday that a proposed administrative reorganiza tion tumounted to "phaning ont" the program
Hairy Mosgan said the decision, which was revealed to him Monday in a meoting with John J. Prncha, vice chancellor for academic affairs, came as "a complete surprise."
"I see this ars a phasing out of AfroAmerican Studies" Morgan said. "He American Stuates morgan said.
(Prucha) is deacming ma for faime
Pruchat demied that there has been any considiergtion given to eliminating the propram. He baid he hud edviopd the Univeraity, Sanate academic affer commition to review the "higtorical detrelopment of the

Btedies continue to 'mature and proeper," Pruchai waid, "I don't feel the rate of maturity is as good as we can achieve-".
Morgan called Prucha's plan the most novel approach to administration that I've ever heard of.
Prucha taid hemet with Morgen and Rolph Monce of the academic affairs committer to discuss the reorranization of the AAS program along the ines of the All-Iniveraity Cerontolone Center. Center
The Gerontology Center has freulty from yarions departments in the university asaigned to it, while the AAS program hat its own full-time profernort.
The reorisanivation would mean "A a
 ritality of frentity mennbers in tha progran " Pruchen equid.

One of the problemas with the program ad it now exists is thatits four faculty mambers "are atanding apart from their own peer group in varying degrees," he said.

The reorganization will allow the AAS faculty; to deal. With their colleagrese in the departments to which they are reappointed. The facalty mow is separate from other behools and colleges, Prucha said.

Morgan eaid students might become involved in proteating the decision to reorganize.

Bill Simmons, Stivdent AfroAmerican Society, administration afisirs chairpergon, eaid the reorgenization awould be a bad move and I plan to cifende it forther with Dr. Morgan to check the remifications.

Carl Kleidman

# A survey of dorm dweller's discontent 

Just before Thanicrgiving; some
unicnown member of the Office of nniknown member of the Otfice of tionnaine under my door Mou have been choeen," it announced, "as partof a random sample which covers all of the residance halls and cottagea acrose campas." The survey also stated it was coening make any "adjuptonents in the services presently provided" to dorm residents.

## Thomas Coffey

Needless to say, I wan too lazy to fill out the thing. This, however, Enawed at my conscience. An a concernedstudent, I felt I was shirkjing my reaponsibility to try and maike Syracuse University better place in which tolive, stuay and party. Therefore, I hav. decided to mitations. I couldn't respond to all the questions Following are my reactions to what I regard as the survey's most important queries.

1. My residence hall/cottage provides adequate physical facilities and furnishings for study.
As 1 write this, I ait at my overcrowded desk. A semester's worth of books, magazines, papers and other paraphernalia are scattered about it Meanwhile, my roommate's stereo on the other side of the split double is going full blast. Maybe soundproof walla are the answer.
2. My reaidence hall/cottage provides adequate facilities for recreation.

The recreation room in deep in the catacombs of the building. Getting down there requires ambition. Otherwise, you can hang out in the lobby and run the risk of becoming a pinball and/or foosball addict.
6. I utilize the common lounge areas in my building.
I don't utilize them because Brewster

Drawing by Becky Uczen

Hall doesn't have any common lounge areas.
7. The noise level on my floor usually makes it difficult to study.
Only when the kids on the floor have a conteat to see who can piay their stereo the loudeat...which seems to be every afternoon.
8. There exists a "community"on my floor/in my cottage such that most students respect one another and seem to interact comfortably with one another.
Except for the freshman who seems intent upon destroying the bathroom. 9. 1 am pleased with my room assignment.
You bet. I have a great view of Boland.
10. 1 am satisfied with the furnishings in my room.

Except for the lighting. It's very easy
to wander into a corner of the room and
get loat in the dark.
11. Maintenance needs are adequately met in my building.
It took only aix months for maintenance to put a door on the third stall in our bathroom. This door came with graffiti already on it. Great job, Physical Plant.
15. My living enviromment is secure with regard to personal safety and theft.
Some guy tried to attack a girl in a Boland hallway recently. Another girl after thati I feal very anfe

## 18. Residents help prever

 and vandalism in my buildingWell, we haven't destroyed any signs in a while. That's kind of negative, but it's aomething.
23. I am aware of the Counselor in Residence program.
Huh?
25. The food service operation in the dining hall I most frequently eat in is satisfactory.
I won't even dignify this question with a response.

There you have it, ORL The proverbial "typical atudent" has given you his proverbial "gut feelings."
Ton't above statoments, however, don't really bet at the source of my disgatigfaction with university housing. I would rather be living offcampus, but SU requires all freshmen and aophomores to live on campus. No amount of "adjustmenta in the services presently provided" will change my attitude. ORL should consider this and look for etvdent input on policy, not just on insignificant things such as how nice the dorm lobby is.

## Missing Mounts

To the editor
"Ill have Mr. Mounts return your 1 first visited Mr. Melvin Mounts, vice president for student affairs, in early March of 1977. I was advised to see him regarding a space on the football charter for WAER, the student radio station. He seemed to be convinced that WAER did indeed deserve a seat on the plane, and gave the idea "his blessing.'
If anyone read the DO sports column "On All Fronts" you know WAER never received a seat on the charter - commercial flight from Syracuse to Corvallis, Ore. cost about $\$ 430$.

Why didn't you try to call Mr. Mounts and ask if there were any alternatives to the charter for transportation? I did, asking if approaching a commercial airline for help would be all right. He said fine, but the univer sity had already tried that approach to set up an arrangement to supply seats for members of the football network that Mr. Mounts, vice president for student affairs, was instrumental in forming- Tm not saying that the university should not have tried to form a network, but wes WAER, which Mr. Mounts knew needed transportation, involved in those negotiations? No.

More recently, I was told the university had made hotel reservations for WAER in Dayton so that the gtation could receive the "team rate" as do all the other members of the Syracuse media (WSYR, Herald-Journal, etc.). As you can guess by now, there were no reservations made. It took a "discussion" with the hotel manager before WAFR was allowed the team rate for its stay.
Since the athletic department reports to Mr. Mounts, I called Thurs day at $11 \mathrm{a} . \mathrm{m}$. to axplain the fiaseo in Dayton. He wasm't in, so I left a mes sage. Receiving no indication that my call was returned. I tried again Fri-
day morning at 10 a.m. Again, no return call.

1 ran into Mr. Mounts Friday night at Manley Field House, after the first round of the Carrier Classic. He said, "Somy, I didn't get a chance to return your call."

I thought, gee, Mr. Mounts must be an awfully busy man. He had from 11 to 5 on Thursday and 10 to 5 on Friday to pick up a telephone and dial day to pick up a telephone and dial
$423-4047$, but he was too occupied. $423-4047$, but he was too occupied.
Mr. Mounts' position must be a rigorous one.

Perhaps the student part of Mr. Mounts title should be deleted or changed to something more appropriate. It's difficult to understand why m phone call cannot be returned, out of courtesy to a human being as much as anything else. Or maybe students don't fall into that category, Mr. Mounts?

## Skytop shortages

Editor's note: The following is a letter sent recently to Laurel Tarcinale, director of South Campus housinEf by
39 residents (about two-thirds) of 39 residents (about two-thirds) of Skytop HaIL III.

Dear Ms. Tarcinale:
In the past several weeks, several articles have appeared in The Daily Orange in which the administration of South Campus housing has claimed interest in improving the quality of interest in improving the conditions on South Campus. living conditions on soukh canterest We would like to gee thisted into action on the followtranglated
ing points. has been a consistent failure to respond to numerous maintemance requests made by residents of Skytop Hall 3. For example, at least two residents have repeatedly called since September to request that malfunctioning windows in their rooms be repaired. Aside from concern for the personal inconvenience to reaidents caused by a window perma-
nently locked into the partially open position, one would think that the university would at least show concern for the heat loss and resultant increase in fuel consumption.
2. Washing minchines are supposed to be conveniently located for residents. However, the washing machine on the second floor of Skytop Hall 3 has been out of order since the beginning of the semester. Maintenance personnel have actually looked at the machine, but have failed to either repair or replace it. The broken machine has spewed oil or grease on laundry and has leaked water onto the floor. (This water is currently hosting a thriving algae colony.)
3. When the regular housekeeper was ill for more than a week, there was no replacernent. It would have been nice to at least provide us with toilet paper.
4. The lighting is inadequate. Despite requests, appropriate outside lighting for the entranceway and parking lot have not been provided. This is not only inconvenient bit potentially dangerous. The lighting in the "lounges" does not provide enough the "lounges" does not provide enough
foot-candles for even a feeble night-foot-ca

We signed a housing contract at the beginning of the academic year. We have kept up aur end of the bargain we've paid our bills, we don't vandalize, we don't keep pets. Now we would like to see the university uphold its end of the agreement.

The undersigned residents of Skytop Hall 3

## Bottle Bill

## To the editor,

This letter is in reaponse to the artiele (DO, Dec. 6) on the bottle bill ky Mike Terpin.
Although the illustration of a nonreturmable bottle in a coffin is cute, it is as far from the truth as possible.

The bottle bill is not dead! The article states correctly that beverage container legislation will probably not be resubmitted in the county legislature.
Mr. Terpin's article totally missed the point. The reason why the bill is not being brought up before the county legislature is because of the major efforts being made to pass a statewide bill. In addition, Environmental Action of Washington, D.C. is coordinating a mational program to pass a bottle bill in Congress.

The. New York Public Interest Research Group, Inc. is making the passage of the bottle bill its top priority during this session of the New York State Legialature. We are working wíth many graseroots organizations throughout the state to build support for the bill. Some people rate our chances of success as fairly high.

We hope to bring about the change to returnable bottles by bringing the issue to the public forefront and educating the legialators. Every major study done on the bottle bill shows pasitive results in litter and solid waste reduction, job increases, lowered consumer costs, leas energy usage and savings on resources. These reports will be used to convince the citizens of New York that the bottle bill works

With this, as well as other issues, there is safety in numbers. Therefore we can always use more dedicated people to help us in our efforts. If you are interested, please call 476-8381.

Faiph Willmer
Ralph Willmer is bottle-bill coordinator for NYPIRG.

Letters to the editor should be typeuritten. double- or triple-spaced on a 57-character line. preferably not on erasable bond paper. ## Who runs the university?

## By Tod Porter

In every institution there is a "they." "They" make up the rules, "they" set the direction for the institution, "they" make the big decisions which can affect everyperson associated with the instituion.
At Syracuse University "they" exist but who they are is a source of controversy. Who has more influence, the administration or the board of trustees? The board of trustees has the ultimat legal power, but often board meetings seem to be a sophisticated way of approving what the administration has already decided.
Who should have the power? How sensitive can administrators, much less the board of trustees, be to the needs of students who must abide by the decisions that are made? Should students and faculty have some input into the decision-making process?
In 1970 a group of faculty and students attempted to set up a university governance council which would replace the board of trustees and include large faculty and student representation.

Some faculty and administrators argued that.the change would be a mistake since the university's job is to educate students, not to administrate. They said a tremendous amount of energy would have to be spent by faculty and students to make the system work. Students and faculty argued that they should have more influence.
The argument became irrelevant when both the faculty and the board of trustees voted against the proposal. As a result, the University Senate, another legislative body with student and faculty representation, was given the right to review the job performance of the vicechancellors every three years and the chancellor every five years.

Who runs the university?" means what are the individuals who make the decisions actually like? What kind of schools did they go to? What are their ethnic backgrounds? What do they see as their roles?

The board and the administration are almost exclusively white, middle-aged males. Affirmative action does not seem to have affected SU's upper echelon.

Certain offices make decisions and certain groups can influence decisions. Deans can have almost total control over their schools. Student Association and student newspapers can influence decisions.

Ultimately, however, their influence is dependent upon the power that "they" are willing to delegate. Who runs the university?

## SU's trustees: the ultimate authority

## By Mike Christman

and Greg Reilly
A recent survey of the boards of trustees for all colleges and universities in the United States, done by the American Council on Education shows that the men who control our institutions of higher education are typically white businessmen in their mid-50s.

Syracuse University is no exception. All but one of the trustees are white, and all are older than 40; most between 45 and 55 . The reason for this, according to Chancellor Melvin A. Eggers, is because of the nature of the office.

Ordinarily you seek people who have established themselves, and that's likely to mean they are in their middle years.

The kind of men who are nominated to the board are men who are established businessmen with contacts in the business world, Eggers said. They are potential sources of capital, as wealthy men in their potential sources of capital, as wealthy men Su could be the recipient of grants from business and government.
"In the case of the trustees, we have to ask what special role they play. They must be eager and confident that the univeraity deserves high esteem and can convince others that they assiociate with to view the university in that same way."
The role of the trustee is not just to acquire funds for the school, but to operate the university as a corporation, according to the rules set down in the Univer-
sity Charter and Bylaws.
The charter allows no leas than 20 trustees and no more than 60 .
They are ernpowered to "make and establish all such rules and ordinances, as to them shall seem expedient or necessary, for carrying into effect the purposes of said corporation, not inconsistent with the constitution and laws of the State of New York and the United States of America."
They may also appoint and remove officers and teachers, prescribe duties and fix salaries, grant, bargain, sell, demise, mortgage, improve and dispose of property belonging to the university; pay, cancel or discharge liabilitien; perform or enforce contractor obligations; but they cannot dispose of property to pay expenses, although interests and profits of the property can be used for that purpose.
In order to efficiently executé all their duties, the board is divided into committees. The executive committee meets most frequently, $\rightarrow$ on the first Friday of every month. The executive committee has the authority to act for the entire board, which meets only twice a year, in the spring and late fall. The executive committee is made up of 12 trustees and the chancellor.

The other committees meet less frequently, some only on call. The committees provided for in the charter are the Finance and Investment Committee, Budget, Insuranca, Design, Nominations, Academic Policy and Programa, Financial Development, En-
dowment, Audit and Space and Facilities.
For the average SU student, the men and women who are responsible for running the school are faceless and nameless, operating behind the scenes in some obscure manner. SU's board of trustees does include some very recognizable names - such as Mayor Lee Alexander, Gov. Hugh Carey and S.I. Newhouse. These three men are non-voting mexpbers, either honorary, as in the case of Carey and Alexander, or life members, like Newhouse.
There are 30 such men on SU's board of trustees now, men who lend their names and prestige by association to Syracuse University. An honorary miember holds the title for one year, a life member is on until he dies.

There are 37 voting members of the board, most of them prominent persons in business, only eight of hom list local addresses.

The list of trustess reads like a who's who in business, including three board of directors chairmen for Carrier Corporation, Allied Chemical and Prudencial Insurance.
Persons who are affiliated with such corporations as Golman Sachws \& Co., Taylor Wine Corp., Westinghouse, General Electric, Morton Norwich Produets Inc. Service System' Corp. (Del Monte), Citibank, Marine Midland, Spectior Cadillac, even the telephone company are on the board.

Most of the members list their addresses as in or Continued on prees four

 influence, not authority}

## By Scott Rohrex

Campus politics in recent years have been relatively quiet.

No dramatic events such as the Feb. 19, 1970 talkeover of the Administration Building have occurred. Nor have any town meetings like the one held Feb. 26, 1970 met to discuss the reone held Feb. 26, 1970 met to discu

Instead, faculty and students, through their efforts in the University Senate, have been efforts in the University Senate,

The senate, which consists of one-half faculty members and one-fourth studenta fourth administrators and stafi, is slowly yet steadily gaining "more and more input into the decision process," Jack Graver, chairperson of the senate's Committee on Academic
Thenure and Professional Ethics, said. tive policy lies in its committee structure. The 15 committees and one subcommittee work closely with the administration in each of their related areas, which range from athletic policies to educational matters.
Eric Lawson, chairperson of the Committee on Budget and Fiscal Affairs, found fault with the committee structure because "in my opinion, senate input has not been sought for - a small committee may be considering it, but not the full senate."
The senate "has the opportunity through its committees to exercise great power," maintains Thomas Carlsen, Committee on Admissions and Financial Awards chairperson.

The committee's power, however, with the exception of the Committee on Curricula, is strictly advisory. They only have the power to present reports and proposals to the senate for ratification. If the senate approves a proposal, the concurrance of the chancellor is necesisary before it is formally approved.

James Price, head of the Committee on Administrative Operation, pointed out that the "subtle" issue is not the committees' power since administrators regard them as advisory, but Whether they can make a difference in influencing policy decisions) or are merely pure In other words
In ous to words, the effectiveness of the committees to some degree depends upon how active
members are and how well they use the power
they do have, according to Carlsen.
One of the more influential committees, which still in theory has only an advisory role, is the Committee on Budget and Fibcal Affairs. Lawson said the committee proposes changes in the tentative budget established by the administration. This usually includes hammering out compromises in areas the committee feels require larger allocations buch as faculty salaries, research and library materials, according to Lawson.

The committee, however, exerts influence on only one phase of the total budget: the current phase, which is the operating budget for the facal year. Dealing with the other three phases
(endowment, scholarship and plant) would take too much of the committee's time.

Lawson said the committee and the administration are usually able to work out any disagreements.
"The administration spends a great deal of time accommodating our views," Lawson said. If there are ever any ultimate disagreements between the committee and the administration, the committee can report them to the senate and the board of trustees, he said. The board is responsible for making final budget decisions.

If such a disagreement does arise, "it's not a contest between equals - we can't control the outcome, but we can influence it," Lawson noted.

The only senate committee which can control the outcome is the Committee on Curricula. The committee's primary role is to consider requests for curricula and course changes. Chairperson John Mitchell described the committee as a "sereening process for course approval." He added, "we decide if a given course is going to be offered."

Other committees, such as Academic Freedom. Tenure and Professional Ethics; Appointments and Promotions; and Honorary Degrees, exercise final control in the decision-making process to a certain extent.

The Committee on Academic Freedom reviews individual cases where the academic freedom or privileges of a faculty member or a studom or privileges of a faculty member or a stuinterview the involved parties and try to settle the case without resorting to formal hearings, according to Graver. Graver said this is usually

the most effective way of handing-such situations. "Our decisions are anything but final," he added. "All we have is the power of persuasion and moral pressure.
If the case cannot be handled informally, formal hearings will be conducted in which the decigion will be referred to the chancellor for approval.
Appointrnents and Promotions, however, has the final authority to accept or reject appointment, promotion or tenure candidates. The process for gaining approval originates in a candidate's college committee. Its recommendation goes to the college dean, then on to the vice chancellor for academic affairs and finally to the cenate cor fomittee. The committee will only reject the candidate if the proper procedures were not followed, according to student cominittee member Nick Harrits. The basic function of the committee is to "oversee actions to make sure. all procedures are followed," Fiarris added.
Stephen Koff, chairperson of the Committee on Instruction, said most of the committees are in a situation where we "can't act on our own and therefore we must try to push thines along w

By Scott Rohrer
Faculty members, students and administrators met Feb. 26, 1970 to discuss redefining the power structure of Syracuse University. Out of that grew a proposal for a totally different governing system giving more power to the atudenta and the faculty - a governing system voted down by the board of trustees and faculty.

This meeting, held at Manley Field House with about 3,000 people attending, kicked off a lengthy and involved 3,000 people attending, kicked off a lengthy and involved two-year debate on university governance.
The discussion grew out of tensions dating back to the 1960 s and an apparent frustration with the University Senate's inability to have any large effect on the problems of the day

Participants at the meeting voted to hold a campus referendum to determine whether a constitutional convention should be held, and if so, what changes in the governing structure should be discuased. About a week later, a reshould be discuased.

The results indicated students wanted a dras tic change while the faculty desired a more tic change while the faculty desired

Chancellor John Corbally said the administChancelior John Corbaily said the administ ration would take no direct action as a result of the referendum
senate for study.

The Senate responded by establishing the Ad Hoc Committee on Governance at its March 18 meeting, whose task was to set up guidelines for a constitutional convention. The committee chaired by Pxofessor Donald Kibbey, called for the convening of the Assembly on University Governance, in which all constituent groups on campus would be represented.
The committee also called for the creation of the Preparatory Commission to organize the assembly and to determine the assembly's apportionment, election procedures, committee sya tem and, rules of procedure. The commission, as approved by the semate, consisted of three trustees, two administrators, seven faculty membera, three graduate and four undergraduate students.
The commission set the size of the assembly at about 330 , including 150 seats for students and 120 for faculty. Ten committees were estab lished, the three most important dealing with ished, the three most import
steering, goals and structure.
The Assembly on University Governance met for the first time in Hendricks Chapel Nov, 23, for the first time in Hendricks Chapel Nov, 23 , 1970- After what senate secretary recorder Helen Wigler described as two long, frustrating
years, the assembly's effort cluminated in a proposal voted on in separate simultaneous re ferenda of students, faculty and trustees in October 1972
The final propossal put before the campus cal led for the establishment of a University Gov erning Council. UGC was to consist of 100 nembers, with equal representation given to students and faculty, and 10 per cent to administrators and staff. UGC would have had the power to "determine policy and legislate on al matters concerning the University," according to the final proposal. Unless the chancellor vet oed it, the action was approved. If vetoed, UGC could override it by a two-thirds vote.
The administration was to need the approval of UGC before submitting the budget to the board of trustees. The budget was to be prepared in consultation with the approprate UGC committee.

own way. At the last full board meeting, Eggers called upon each of his vice chancellors to report on their own departments and concerns, following them with his own report. His remarks were directed at the overall issues concerning the trustees and the university, public policy issues and where actions of the state' and federal gov ernments impinge on the welfare of the univer sity. The Chancellor zaid he now is forced by circumstances to look ahead.
"The knowledge of adversity makes one plan ahead." The chancellor and ultimately the board, look to the future of the university. Their focus is on the years when todey's freshmen will be alumni.
Said Eggers, "More and more our attention centers less on what has happened last year, but centers less on what has happened last y

The board of trustees was to retain its atatus as the legal representative of SU. Thus its apas the legal representative of SU. Thus its ap-
proval of many UGC actions would be necesprova.
The chancellor was still to have general con trol over all activities of the universities, but aubject to the direction of UGC. "He shall exercise appropriate initiative in developing specific programs for approval by the UGC," the propsal stated.
For UGC to be approved, the trustees, faculty and students had to approve it by a majority vote. With three-quarters of the trustees, more than half the faculty and about one-fifth the student body voting the results were;

|  | Yes | No | Total |
| :--- | ---: | ---: | ---: |
|  | 0 | 29 | 29 |
| Trustees | 149 | 672 | 513 |
| Faculty | 2,208 | 672 | 2,280 |
| Students |  |  |  |

Thus the proposal was defeated.
According to a summary to the assembly's actions published by the Final Report Committee of the assembly, there were many reasons why the proposal was defeated.
The trustees unanimous rejection of the prop osal, the committee wrote, "is attributed to the advice of legal counsel. The advice presumably had to do with the legality and workability of delegating power to the UGC."
Evidently faculty members rejected UGC because they were alarmed at equal representation with students. Many believed that since students are only at SU for a short time, they are not qualified or responsible enough to participate in the long-range decision-making of the university. Others apparently felt drastic change was no longer necessary because the im change was no longer necessary because the important grievences which existed at the assemthe vote.

If I UGGC was enacted, a tremendous amoun of work would have been put on the shoulders of faculty and students

Alan K. Campbell, former dean of the Max well School of Citizenship and Public Affairs painted out the dangers of such an arrangement at the assembly's opening meeting: "I hope you will keep in mind that the primary function of a university is not its governance . . . a university operates only to provide an environment in which the real work of the members of that body may be done."
He warned, "Do not assume that all of us can spend our time participating in decisionmaking." He added, "A governance system should be designed as much to protect people as it is to provide them with it." This UGC clearly did not do.

Despite the defeat of UGC. "The university in general is a more open institution than other wise might have been," Chancellor Melvin A Egge might.

Also, the senate incorporated some aspects of the defeated proposal.

One residual effect was that the senate was granted the authority to review the perfor mance of vice chancellors every three years and the chancellor every five years
This incorporated one of the assembly's main concerns, which was that the administration be held accountable, Eggers said.

Out of this period, the senate's representation was broadened. Students gained representation in 1969 and staff members gained it later.

Although the senate has no formal veto as the proposed UJGC would have had, "The senate does have a form of veto since no chancellor can govern without the consent of the governed," David Krathwohl, chairperson of the senate's Committee on Library, commented.
The senate exercises greater control than other campus governing bodies because of the nature of its representation, according to Rich Crowell, Student Agsociation president.
With faculty, students and administrators represented in the senate, the potential to influence policy deciaions is great.
"If we vote no conficence' (on an issue), the board would seriously listen to us. The qualification is, it has to be a ftrong vote," Jack Graver, chairperson of the Committee on Araver, chairperson of the Committee on
Academic Freedom, Tenure and Professional Academic Freedom,
The potential for real power is evident wher unanimity exists. However, without such unity the genate's power can be greatly weakened.

Minus a strong senate stand, the policies debated sometimes are not taken seriously by the administration, according to Eric Lawson, chairperson of the Committee on Budget and Fiscal Affairs. "The administration should be mare sansible to the genate's wishes than they sue now," heq noted.

## Similarities characterize SU administrators

By Dick Stirba
Some of the administrators names sound faniliar - Eggers, Prucha, Winters - but then to students that's nearly all that'g familiar about the officers in the upper echelons of the Syra cuse University administration.

The backgrounds of the chancellor and the four vice chancellors, who effectively control all matters in the day-to-day operation of the university, are remarkably similar.

They range in age from 53 to 61 years old. They are all white males who graduated from large universities in the Midwest and East. They served in the armed forces and each has over 20 years experience in teaching. research or administration at edueational in stitutions.
They also all say they enjoy their jobs.

The office of Clifford L. Winters Jr. vice chancellor for administrative operations, is dominated by a large desk across which "every major problem" concerning the non-academic segments of the university comes, he said.

Rows of bookshelves line one wall of the office and Winters appears at ease amid the piles of folders containing information pertinant to his job.

As chief budget officer for $S U$, Winter likens the managing of the budget to navigating a ship, something he did for the Navy during World Wa II. The budget has been balanced since Winters took his position in 1972.

Winters, 56, received his Ph . D . from the University of Chicago in 1949 and served at that school as research assis tant and professor of education. He came to SU in 1956 as assistant dean of University College, rising to the position of dean of the college in 1964.

Winters' most memorable moment in his term as vice chancellor was during the spring 1971 student protests when he was forced to spend the night in his office by about 35 students who-had barricaded the building, he said.
"We kept the roof on," Winters said of the incident, alluding to the administration's success in preventing any serious injuries or deaths during the protests.
"I never come to work expecting to be bored," he added with a broad smile.
The rocks on the table give away his academic interests. But as vice chancellor for academic affairs, John J. Prucha cannot confine his interests to the study of geology, a field in which he holds four advanced degrees.

As manager of academic budgets, Prucha is responsible for the development and maintenance of all academic programs on campus. Yet his interest in education goes beyond that of bookkeeper.

Prucha calls his position "the best job in the university in terms of intellectual stimulus* because of the wide di-

versity he encounters in his daily talks with faculty and administrators.

At 53, Prucha is the youngest of the vice chancellors. His extensive background in geology allowed him to assume the chairmanship of the SU geology department upon his arrival geology department upon his arrival
here in 1963 . In 1970 , Prucha was appointed dean of the College of Arts and pointed dean of the College of Arts and Sciences, serving for two
became vice chancellor.
"I'm eager to go to work in the morning." Prucha said. When he gets there, he spends 80 percent of his time working with deans and college committees on "long-range development" of specialized educational goals, such as the improvement of the university library systern.

The balance of his time is spent working toward broad institutional goals set in concert with the chancellor and other university officers.
When Prucha goes into the chancellor's cabinet meeting, he is there as "a guard of academic affairs' interests," he said. On the issue of the proposed stadinm, Prucha's interest lies with the

Chancellor Melvin A. Eggers
"mode of financing" of the project, so it will not infringe on his department.
"Most of the time," Prucha said, "I relish my job."

Melvin A. Eggers is the ninth chanellor and president of SU . He assumed cellor and president of SU. He assumed that post in 1971 after ten years as
chairman of the economics department chairman of the economics department and a short stint as provost an
From his small office on the upper loor of the Administration Building, Eggers, 61, coordinates the four areas of the university headed by Winters, Prucha, Vice Chavicellor for University Relations Michael O. Sawyer and vice President for Student Affairs Melvin C. Mounts.
"You can't coordinate unless you see," he said, and a chancellor must see see, he said, and a chancelior
Since everyone advocates different plans for the university to him Everyone is an advocate to Eggers," he said - it is necessary for him to maintain "a conception of the whole." in order to know what is best for the achool.
The chancellor is a spokesman for the university in a wide range of forums, including the New York State Legislature and U.S. Congress; where his primary purpose is to lobby for SU's interests:

II bring to the attention of those outside the needs of the university," Eggers said, cradling his head in his hand

His relaxed attitude oddly contradicts his vision of his job which, he says, contains "a constant measure of stress" balanced by contact with a "great diversity of active and intelligent people."
Newell W. Rossman, Jr., vice chancellor and special assistant to the chancellor, is " 100 percent involved in fund-raising." He has been at it for over 20 years.
Since appointment to his present post in 1975, Rossman has assisted the chancellor with special projects in development, but concentrates on capital funding and relationships with trustures.

Rossman is directing the $\$ 35$ million "capital campaign" now underway, seeking donors far the proposed renovation of the Hall of Languauges, en dowed chairs and acholarshipa.
Rosaman, 61, a 1939 SU graduate, has participated in all but one of the university's capital campaigns, that
one a $\$ 1$ million campaign to repay World War I debts.

Michael O. Sawyer considers his occupation as vice chancellor for University Relations to be "important work to do and on occasion even most pleasant."

However, he adds, "if I didn't want to do it I wouldn't do it."

Sawyer's task as head of the Development Office is "to present the university to its various publics," "including alumni, the local community cnd the larger public throughout the country both "accurately and fully."
Sawyer also coordinates the Development Office's capital campaign and annual giving programs. The annual giving project raises "about 5 percent" of the university's operating budget, according to Sawyer.
Sawyer, who turned 58 last Thurgday, has been at SU since 1948 when he was appointed instructor. He has held his present position since 1975 yet he still teaches political science. No wonder he considers SU "a vintage place."

Melvin C. Mounts, vice president for student affairs, has served in his post as coordinator of programs for students since the post of vice chancellor for student affairs was'eliminated last summer. Mounts is the only vice president who reports directly to the chancellor.

Although the abolition of the vice chancellor's post was met with adverse student reaction, Mounts said he feels the "one additional layer of administration" was not necessarily productive.
ration" was not necessarily productive.
"The title itself is of no consequence," Mounts said.

Like Eigers, Mounts said he thinks constantly of the "ongoing welfare of the institution totally." He emphasized the "high degree of interrelation" with other segments of the university community.

The ability of the university to attract and retain students of hig quality is a function of the quality of the general environment," he said.
"It is part of my job to see students have an environment where they are relatively comfortable, relatively supportes," Mounts said.
Mounts, 36, received undergraduate and graduate degrees in sociology and has been involved with student ser vices and activities at SU since 1972.
"When I come in to wrork I never know what it is that is going to be ursent," Mounts said.

## The Daing Orange

## An appeal to fairness

Several organizations which intend to appeal what they see as unjust allocations of space in university buildings are facing the most unjust appeals process conceivable. They must take their appeal back to the same people who originally allocated them space.
The Student Organization Space Allocation Committee has given the first floor of the Women's Center, 730 Ostrom Ave., to other organizations, and is forcing the Alpha Phi Ornega Book. Exchange out of its office in Tilden Cottage at 103 College Place.
Neither organization is pleased with its situation. Women's Center's internal coordinator Nancy. Wyrough claims. the decision will reduce " 50 percent of our gpace and 100 percent of our effectiveness." APO President David Lyon says that relocation means "there is no physical possibility we can run it (the book exchange)." Both organizations intend to appeal the committee's decisions.
However, to do this, the organizations have to go back to the same committee that made them - the Student Organization Space Allocation Committee - and try to convince the committee its decision was unwise. However, this procedure is unlikely to produce any changes. As Wyrough pointed out, "It would make them look stupid to reverse the decision." Not only would it make the committee look stupid, but it would also create a problem with the native American students organization, which was promised an office on the first floor of the Women's Center building. It is doubtful that, no matter what evidence is offered by the Women's Center, the comthat, no matter what eviden
mittee will change its mind.

To prevent such conflicts, the committee should set up a separate appeals board to hear the arguments of organizations against its decisions without leftover bias from previous decisions. The appeals board could be composed of university administrators or members of the present committee who would be specifically and exclusively appointed to the board.

An appeals board could impartially review the complaints of discontented organizations without personal biases on the original decision. Such a board is needed to give the final word on space allocations to remove any bias, or suspicion of bias, from the space allocation process. No matter how great the wisdom of the decisions it produces, the present allocations process, lacking a separate appeals baord, can only be viewed as unfair.
Sy Montgomery for The Daily Orange.

## The elections and the media

The Student Association president lect and comptroller-elect are not winners as much as they are survivors. These two (whose identities are unknown at the time of this writing) have made it through a long physically and emotionally draining campaign. Besides actually campaigning, almost all of the 12 candidates found time to criticize the campus media's coverage of their ordeal. Some of this criticism was narrowminded and picayune, but there were also serious points raised.

## The elections: <br> Hugh MacNiven

Jo Ann Wypijewski's "Loose Ends" column in the November 28 issue of Report is an example. This column was printed prior to any significant election coverage and included an amusing anecdote about Scott Klein's ability (or lack thereof to spell "candidates."

Although this episode does say something (exactly what. I don't care to hazard a guess), it was written in such a way as to suggest that personal comments take priority over newsworthiness and objectivity,
In its Dec. 5 issue, Report provided the campus with an innovative "debate" format which, though criticized by most of the candidates, was at least an attempt to expand the type of coverage by the campus media.

The Daily Orange's Dec. 5 issue included an "election guide", which never made clear to the reader just how much editorial comment would be included. The title "election guide" superseded more familiar (and specific) headings such as "news," "analysis," "interpretation." or "comment," and it ended up presenting some of each.
Stories such as those on Dan Cohen and Jim Keeney stuck mainly to strict news reporting, while others, like those on Carl Kleidman and Bill Rita, in cluded quite a bit of interpretation.
The issue is not whether the interpretation was right ar wrong, or whether the criticism was justified or not: the root of the probiemn is that the Do did no learly point out the fluctuating amoun of editorial content in its ele
The elections schedule itself deserves the most criticism, as it is at the base of most problems concerning the coverage. Just about all of the official campaign took place during the week after Thanksgiving break. During this week, Report published once and The Daily Orange published three times. There were simply too few issues in which to put across all the pertinent information
about the candidates without burying
even the most avid reader. even the most avid reader.
Perhaps in the future
Perhaps in the future SA can plan election schedules with the campus media's input, so as to make the campus better informed about the candidates before election day.

## A means of influence

There is a sharp controversy surrounding Syracuse University's decision not to increase work-study wages to the new federal minimum of $\$ 2.65$ per hour. From that controversy have come many suggestions on how to protest the decision, somie practical, and some rather fanciful.

One very practical measure students can take to express their discontent is to attend the meeting of the University Senate Dec. 14 and express their opinions. At that meeting the senate will consider a resolution to urge the university to pay
the new minimum wage starting Jan. 1 ; such a resolution, passed by a large
enough majority, could well influence the university to change its decision.
The meeting is Dec. 14 at 4:15 p.m. in Stolkin Auditorium in the Physics Building. It presents the best opportunity for students unhappy about substandard wages to protest, short of a mass demonstration or work-study strike. both of which are unfeasible on a scale large enough to be meaningful.
Attend the meeting. Let the senators know what you think. That is the way, if there is one, to get $\boldsymbol{S} U$ to recognize its obligation to pay the minimum wage. David Abernethy for The Daily

Orange

## Social Security: we're footing the bill

This nation's current Social Security system is in shamblea and we are going to pay for its repair.
Organized to provide economic assistance to persons faced with unemployment, disability or old age, the system is becoming more of a burden on the

## Tim Wendel

## American tampayer.

In 1940, 2 percent of wagee were taken by Social Security; by 1987 it is estimated that figuxe will be 14 percent.
This year's Social Security "will be the highest paid tax by about two-thirds of the nation's income necipients." including those officially clasaified as living in poverty, says Dr. Joseph Pechman of the Broolings Instituite.
By 1981 , the average person will find that for each dollar he makes above person will find that for each

Eo to the government, according to U.S. Rep. Jack
Kemp (R-NY). Taxes for Social Security will continue to be the highest on any governmentity will continue if the Senate approves and the president aigns pending legislation into law.
But additional tares will not arase current Social Security deficits. The systam's 1977 board of trustees has issued a report showing that the long-term deficit for Social Security will be approximately $\$ 17$ trillion, or an average annual deficit of $\$ 255$ billion over the
next 75 years. And this $\$ 17$ trillion figure is based on next 75 years. And this $\$ 17$ trillion figure is based on Warren Brookea, economic journalist for the Boston Herald-American, says there are two reasons for Social Security's problema.
First, the birthrate has fallen aince 1960 from 3.8 to 1.8 a couple. More inportantly our mortality rate has also declined by nearly 20 percent. This reaulta in fewer workers and more retired pertions. In 1940,
there were 100 workers for every 20 retirees; now, for every 100 workers there are 33 retireen.
Second, Congress has increased benefits faster than taxes over the past 15 years. Disability benefits have doubled, atudent scholarship and medical care have been added and an automatic cost-of-living increase has been tacked on.
"In short, Congress has done Mother Nature one better," says Brookes. "It has been willing to buy present votes with future tax commitments, and it has been doing this very hard for the past 15 years. Unfortunately, the future is here; the bills are coming due and they are immense.
The burden of paying these bills is falling to us: single Americans who will enter the job market within the next four yeara. While our grandparents and parents rock awry the remainder of their lives, it is the under-30-year-olds of the labor force who will pay for their mintakes.

# Committee rejects contract extension plan 

By Scott Rohrer
The University Senate Committee on Appointments and Promotions rajected a proposal Wednesday to give itself power to recommend extended contracts for ome retirement-aged faculty members.
Instead, the committee will recom mend to the senate Wednerday that col lege tenure committees be given that role, according to student member Nick Harris.
All recommendations must be made to the vice chancellor for acaderaic aftairs. University policy now stipulates only college deans have the power to recommend faculty members for contracts beyond the mandatory retirement age of
Chairperson James K. Weeks said alhaugh the committee "likes the spirit of thaugh the committer "likes the spirit of
the committee is in no position to judge candidates. Only the individual colleges are, Weeks said.

The resolution also asked the committoe to eatablish criteria for making such decisions, but this "imposed on us an impoasible task, a task we are not qualified to do," Weeks said.
The committee will recommend that college committees which handle tenure, appointment and promotion candidates, adopt a set of criteria for post-retirement candidates. The criteria are subject to the approval of the senate committee. according to Harris.
The committee will also report to the senate Wednesday that it agrees in principle with the resolution requiring that the names of all tenure and promotion candidates be published.
However, the committee has not de-
termined how the names should be published, when and who should do it, Harris gaid.
The committee, which is reviewing the antire tenure process, wants to present this resolution and their other recom mendations as a package deal, and not on piecemeal hasis, Weeks said. There fore, the committee will not present their findings on the resolution but will recommend that the senate encourage col leges to publish lists as soon as possible

The committee hopes to finish its re view of tenure by March, according to Weeks. At this stage, mush more input is needed, he said. Public hearings to gain outside input will be held Jan 23-27, Weeks said.
The tenure process is being examined in terms of establishing an allencompassing get of criteria for judging
candidates. The mont important and integral part is increasing student inpus,'
Weeks said
The process for granting tenure varies rom college to college.
Tenure committees within the candidates college initiate the process. They pass their recommendation on to the colpass their recommendation on to the colacademic affairs, and finally to the ap pointmenta committee for final approval
Harris said the cornmittee is studying a proposal that students be required to complete a course evaluation at the end of the course. The College of Law employs this methods, Harris said.
Specifically, the committee is examining the criteria for tenure, which are research, teaching and public service. The process of appeal and the tenure commit tee themselves are also being evaluated.

## Funding proposals made for county sports stadium

## By Irwin Fisch

A Syracuse real-estate agent yesterday presented several fund-raising possibilities for the proposed county sports stadium to the Onondaga County Stadium Commission.
Suggestions by James M. Kelly, head of JMK Real Estate Services in Syracuse, included selling names over stadium entrances and seating sections to businesses, getting a major brewery to donate a scoreboard and selling low priced tax-exempt bonds to the public

Scoreboards for most major stadiums have been donated by major breweries, Kelley said. This could strip between $\$ 800,000$ and $\$ 1.200,000$ from the cost of the stadium, he said.
Kelly advocated the band sale proposal of Joseph Spector, a member of Syracuse University's sports boostel club, the Orange Pack. Spector had pr posed that the university sell tax-exempt $\$ 1,000$
bonds to the public, with seating priority guarantees. Kelly, however, suggested that lower-priced bonds be offered in addition to $\$ 1,000$ bonds.

The purchaser of stadium bonds would enter into the agreement with the understanding that his profits would be derstanding that his profits would be contingent on
A credit rating means it can borrow money at the lowest possible interest rate. In addition, he said, SU "should pay a portion of the debt service and annual operating costs of a facility they use.

Kelly's involvement in the stadium drive is rooted in his efforts to sell a particular parcel of land as a stadium site. His company will seek to convince the commission - as it sought to convince last year's stadium committee that the land at Bridge Street near Route 690 is the ideal stadium location.

## Stadium challenge: merging separate efforts

By Irwin Fisch
Syracuse University's consideration of the Frank Briscoe Co. stadium proposal has come to a temporary halt, and for the time being the administration's

## news analysis

hopes are staked in the methodical zero-based study by the
Onondaga County Stadium Onondaga
It was either the commis. sion's study or the university's stadium shopping that had to stop when it became clear in

November that the efforts of the two could not be merged.
In October, as the sevenmember commission began its study of whether there should be a stadium and who should fund $i t$, the university witnessed a presentation of plans for a 49,000-seat stadium with a guaranteed cost of under $\$ 10$ guarant
Initially, it aeemed that the timing of the Briscoe firm's presentation was ideal. It illustrated to the county that the university was actively committed to construction of a new
stadium, and it promised to
place a concrete proposal before the commission for evaluation. But a legal snag prohibited the commission from considercoe plan Only a publically bid proposal could be awarded public funds, thus the privately solicited and negotiated Briscoe plan was ineligible, the complan was ineligible, the co

## Indian group gets office space in Women's Center

The Student Organization Space Allocation Committee has given ONKWEHONWENEHA, the native American group at Syracuse University, an office on the first floor of the Women's Center. At present, the native group does not have an office.

Nancy Wyrough, internal coordinator of the Women's Center, said, "By moving the native Americans onto the first floor, we'll lose 50 percent of our space and 100 percent of our effectiveness." The Women's Center 100 percent of our eifectiveness.
Charles DeLine, asaistant director for events in the Charles DeLine, asaistant director for events in the Onice of Student Activities, said the committee riginally allocated the space will hear the appeal.
I foel that's a very biased, undemicratic way to he "I foel that's a very biased, undemocratic way to hear heen made. It would make them look stupid to reverse the decision.'
"I don't think it's unfair at all," DeLine said. "If that
decision has created hardship, it will be readjusted. I can't think of any appeals procedure that works differently."
"We'd like to suggest a completely unbiased commit tee," Wyrough said. "We're going to Mel Mounts (vice president for student affairs) and suggest a change in he appeals procedure."
DeLine defended the committee. "It's a diverse com mittee. The people on it look at the campus as a whole." In October 1972, a proposal was drafted for a Wo men's Center. The three-story building at 750 Ostrom men's Center. The three-story building at 750 Ostrom Ave. was given
According to Wyrough, the Women's Center building is used for such events as workshops and lecture series. "We need full use of the building for our workshops," he added.
Deline said he'thought the Women's Center should becomis a women's program. "It should reach out and go
to the rosidence halls and across campus," he said. "Very few students are involved in the Women's Center:"
"That's not a valid criticism of the center," Wyrough said. "We have about 30 to 50 active participants and people are always dropping in." She said DeLine and the committee did not understand the center's envi the comm.
"I agree with him (about the need for a women's program), but there is still a need for a center," Wyrough said.
According to Wyrough, the first floor of the Wormen's Center has three main rooms. The front office will go to the native American. group and the seminar room is being made available to all student groups who want to use it. The epace allocation committee is reserving the right to move another student organization into the beck afice, Wyrough seid.

## Survey reveals mixed feelings

By Peter Fectean
Results of survey of residents of large dorms and cottages on North Campus show matibiaction in the area of room assignments and "community feeling" in university housing, while revealing considerable disbatisfaction relating to noise and cleanliness.
The aurvey, conducted by the Office of Residential Life, was used "mainly as a tool for selfevaluation," according to Brian Gorman, head of the committee conducting the survey,

Distributed to all North Campus students in dorms and cottages, the survey, dealt with six areas of ORL's responsibility: rooms and room assignments, student life, housing preferences, social and educational programming, equipment and furnishings, and support services (ie. counseling maintenance and security) Forty-one percent of the
Forty-one percent of the residents who responded regarded he noise level in their residence halls as excessive and not conducive to study; 64 percent were dissatisfied with student concern in maintaining cleanliness and order in halls, bathrooms and lounges. Prevention of wandalism and damages was also a major area of concern as seen in the survey.

The large majority of atudents were pleased with their room assignments: 83 percent expressed satisfaction, an increase of 15 percent from asimi

Good Juck
on
finals
lar survey last year. Seventyrive percent of the responding students answered positively about feeling a sense of community where they live.
"I think this indicates that we're doing something right," Gorman said. He added, "Right now we're at the point of getting the information back to the regpective dorma where they can日pective dorms where they can
deal with individual problem deal wis.

Gorman said ORL needs both long and short range plans of action to deal with the survey results. Areas such as upgrad-
ing maintenance and furnish ing require a budget increase, for which "we have to plan ahead.- These kinds of action take money and time."
Other areas, however, can be dealt with through short-term dealt with through short-term actions, Corman said. We carn respond to these meeds on a cooperstion. We can establish cooperation. We can establish quiet hours and place more serious disciplinary action on those who vandalize or damage dorms. Basically we will have to work with students on an in" creased level."

## Group okays plan

## By Scott Rohwer

The University Senate Committee on Athletic Policy will report to the senate Wednesday its unanimous approval of building a football stadium for Syracuse University and Onondaga County.

The committee also supports SU's plan to contribute $\$ 4.5$ million toward building the proposed $\$ 10$ million structure at Skytop.
"There is a pressing need for a new stadium. Archbold Stadium's structural weaknesses make it impossible to plan for future football using the present facility," the cornmittee wrote in its report. The report added that Archbold's seating capacity is too small, even if the stadium could be renovated.

According to the report, continuation of the football program is essential for SU's athletic program to maintain its present strength.

Based on reports from members of the stadium commission appointed by the county legislature and an "Athletice Cost Study" issued by the office of the vice chancellor for administrative operations, the committee feels the new stadium will "make economic sense."

According to the cost study, the stadium will generate a surplus of $\$ 799,965$ in aet zevenues.

The study projects the new stadium can pull in over a million ollars in pros projer only $\$ 347.038$ in the 1975 вeasom.

At the Dec. 14 meetiag the faculty of foreign languages and literatures will submit a proposal to create a Doctor of Arts in foreign language.

The program would train candidates to teach on the jumior colllege and college level and provide a background in language for specialigts in language education and bilingual media.

Degree requirements will entail a minimum of 45 hours beyond the masters degree requirement.

The DA degree program will differ from a Ph.D. program since it is more career oriented. rather than preparing a student for research leading to a dissertation.

## Billy Joel

 Piano Man to play in Syracuse tonightBy Mike Collier
He calls himself "The Piano most meme two albums, the Man." Many of his fans know developed songs are those in him as "The Entertainer."His which Joel attempts to convey latest label is "The Stranger," and he'll be at the Syracuse War Memorial tonight.
Binger and songwriter dician, singer and songwriter, denes
categorization. In the five alcategorization. In the five alpast nine years, he covers a
wide range of musical styles. wide range of musical styles,
from rock to middle-of-the - road compositions.

His reputation ag a troubadour began in 1971, when he was playing piano in a bar in
Los Angeles. This experience Los Angeles. This experience
formed the background for his formed the background fo
1973 release, Piano Man.
He gained popularity with college audiences, especially in the Northeast. The singer from Oyster Bay, Long Island still has his greatest following in this part of the country.
"Piano Man" was followed in late 1974 by the release of Streetlife Serenade, which produced the bit single "The Enterwas released and this along with "Piano Man" comes closest to defining Joel's overiall style.
to the listener a slice-of-life in vignette form, usually drawing from his own-experience. Among these are the title cut and "Captain Jack" from "Piano and "Captain Jack" from Piano Man, and "Say Goodbye To
Hollywood" and "New "York Turnstiles."
Joel's latest release, The Stranger, continues to a lesser extent, in the same vein and suffers from a lack of overall conesiveness. The only songs that really work are "Movin" Out" and the title song, for their upbraid

Joel is nearing the end of a Statate tour of the United States and Canada. His Enal date is Monday, Dec. 11 at Nassau Coliseum on Long IsIand. Tickets for his Syracuge concert are still available at the WarMemorial at $\$ 7.50$ and $\$ 6.50$. The concert is sponsored by University Union in cooperation with
WOUR.

## Plants require special attention

By Diane Lesniewski Owning a plant is an easy and popular way of bringing nature indoors. Many dorm rooms are Glled with plants of all sizes and descriptions. Some people would even rather talk to a plant than are some tips for keeping your plants healthy and happy during their stay in Syracuse.
Bob Vass, manager of The Pet Shop at 177 Marshall St., says overwatering is the most common problem concerning plant care. Vass explains the roots of receives too much water. If a plant is overwatered, Vass says, the roots should be given an opportunity to dry out.

Another problem, plant own-
ers face is finding the correct soil in which to pot the plant. A mixture of peat moss, top soil and nutrients which allow for good drainage of water is good for plants.
Many people do not feed their plants. Plants need to be fed, suggested Rapid-Gro Plant food is important for indoor plants, as they supply the soil with nitrogen needed for growth, phosphorus needed for healthy roots and flowers, and potassium needed to fight'disease.

Plants should be kept within a temperatire range of 55 degreess to 75 . degrees. Sudden temperatiare changes can harim them, so keep them: away from drafty areas and sources of heat.

When your plant needs repotting, use a pot one size larger than the last one so the roots have room to grow. Vass says the plant should not be put into a pot more than one diameter larger than the old one. The pot you select must have a drainage hole to allow water to run off.
Soon it will be time for stu dents to go home and leave their plants behind. Vass suggests planis behind. giving the plant its normal amount or water, then covering it with a clear plastic shopping bag. The plastic will cause a
terrarium effect.". the store terrarium eff
Another suggestion, courtesy of Good Housekeeping magazine, is to gradually. reduce the amount of water your
plants receive and lengthen the amount of time between watering. This teaches the plants to do without water during the time you are gone.

Different types of plants are better suited to certain types of lighting conditions. In a north window, Vass recommends trailing ivies and philodendrons. For the strong light of an east, south, and west window. cost, south, and west window, coleus, spider plants and sna
plants are all recommended.

Some of the most popular plants sold at The Pet Shop are coleus, philodendrons, zebra plants and rubber trees. And, yes, Vass says you should talk to your plants.
for the forestry school. This job will involve painting buildings on campus, she said.

Those students planning to travel are divided between escaping the cold and snow of winter and participating in that popular winter sport, skiing.
from Grover Cleveland sophomore from Grover Cleveland, said she will be going to Florida for two weeks. Susan London, a freshman from Marion, also sees a trip to Florida in her future.

Winter seems to be very much on the minds of many SU students. Many will be spending their vacation skiing in spots such as Aspen and Maine. "Pll be flying out to Aspen with

Syracuse University studen are currently putting final touches on term papers and studying for finals. Although it now appears the semester will
never end, in three weeks the campus will be quiet as students begin their well-deserved holidey.

During an informal sampling of students at Bird Library, most said they would be either working or traveling during the mid-semester break.
"I'm going to see if I can get a job, said Steve Brooks, a sophomore living int Lehman
Hall. Off-campus junior Martha Brown said she will spend the recess doing maintenance work

## Stray animal problem

 increases in Sygacuse
## By Patti Lawson

Lost. University area, male beagle mutt. Tan and white. Name CoCo. Ask for Paul 601 Walnut Ave. Apt. 2 or call 423-XXXX or $476-X X X X$. Reward!

- For people like Paul, whose ad appeared in a recent issue of The Daily Orange, relief came after three days when someone read his ad and returned his pet.
Unfortunately, in 1976, of 3,032 dogs picked up, there were over 2,500 strays whose owners were less fortunate than Paul. These animals were put up for adoption at the American Society for the Prevention of Cruelty to Animals. The 1,818 dogs that did not find homes were either destroyed or used in medical research.

Animal Control, which is a division of Syracuse Parks and Recreation Department, receives an average of 100 calls a day. According to Tom Campagna, supervisor of the Animal Control Di-
vision, many of these calls are complaints about vision, many of these calls are com
injured or barking doga or "biters."

Campagna's 11 -member staff handles the 24-hour-a-day operation. Seven wardens patrol more than 950 city streets.
Tranquilizer guns are no longer used in captur-
ing "loose" or stray animals, Campagna said. Instead, the wardens rely on snare poles and nets for retrieving the strays.

When an animal has been injured and the owner is not available, or the dog is a stray, Animal Congency situation to the nearest veterinarian "Oftentimes if we cannot locate the owner and extensive medical care is required we will just have the dog or cat put to sleep," Campagna explained.
gaid that Animal Co a purebred dog, Campagna medical expenses SPCA in hopes offinding a home for it.

In the university area, "most of these animals are returned to their owners, because students whom to contact," Campagna said.

However, "Students don't license their dog in New York state. Many students have out-qf-state ficenses for them. This makes it hard to get them (dogs) back if they stray," he said.
A New York state law requires that all dogs six months and older must be licensed, and the city of Syracuse mandates that all dogs must be on a

## Students make

Animal Control charges $\$ 15$ for any animal picked up the first time - a $\$ 5$ seizure fee and $\$ 10$ for the first offense in not having your dog leashed. A second offense costs $\$ 20$.
In order to retrieve an animal that has been picked up by Animal Control, a person must first go to the SPCA to identify the pet; then to Animal Control to pay the seizure fee; then to City Hall to obtain a $\$ 2$ dog license, if needed, and to pay the leash fine; then back to Animal Control to show proof of licensing and to obtain a release form; and, finally, to the SPCA to pick up the pet and pay the boarding charges.
in 1976, Animal Control sent out bills for more $\$ 26$, $\$ 60,000$ in fines. Only a little more than Animal Cas actually collected. In the same year, Animal Controinarian bills and the SPCA.
eterinarian bills and the SPCA. and government officials is needed if this problem (of stray animals) is to get under control. We play the heavy all the time and it's not pleasant.
Lindsay attributed the increased number of strays during the past few years to the large number of "free" pets now available to owners. "Pets can be thrown away - like a TV - when they're not wanted or "broken.
A solution to this problem. Lindsay said. "is to eliminate the large dog and cat population by "I'd rather see the animal put to sleep than used for breeding," she said. "It's the only active way of fighting this problem.

The statistics on stray animals speak for themselves. yet one sees the picture more clearly from Campagna's stark statement: "We put more stray animals into existence only to destroy them."

## vacation plans

friends to go skiing and have a hell of a time," a sophomore from Grover Cleveland. Bill Roen, says.
"I'm going home to Maine. I'm going skiing with my family and friends near my home in Cape Elizabeth," said Marcia Poliner, a senior living at Alpha
Xi Delta. Jim MeNeill Xi Delta. Jim McNeill, a
sophomore from Lehman, will sophomore from Lehman, will
go skiing in nearby New Hampshire.
For

For some students, the vacation will be time to go home and see friends and family. "I'm going home to Connecticut. I'm going to visit my old friends. gether," Claudia McCarthy, a freshman from Marion, says.
"I'm staying home in New Rochelle, New York. I'm going into New York City every day and I'm not coming back with a suntan because it's not important to me," Joan Futterman, a
freshman from Sadler, says. Some students have unusual plans for the vacation. "I'm going to have some research for a thesis, as Im graduating in December but have some work to finish up. Then I'm going to Michigan for orientation, as I'm a group leader for 10 students that are studying in Moscow during the spring semesterb Schwarz says.
Many students are looking forward to the three-week recess. But there's still the matter of finals to face. As junior Fred Barlow from Watson says, "My plans for the vacation are get through the academic year to the vacation."

## Carey supports' stadium plan

## By Ariane Sains

Gov. Hugh Carey said Wedneaday night he did not want to see the proposed stadium lost, despite defeat of his bond issue in the November election.

State money for the stadium would have come from economic developrenent funds in the bond issue. However, Carey said the state may still help finance the stadium "through a consortium of private urban development corporations and the atate." Financing would depend on "whether or not the state could see p return on its investment." plans to build the stadium on
the State Fairgrounds about six miles west of Syracuse University were being considered, and had been discussed with Michael Bragman, head of the county legislature, Carey said.

Carey was in Syracuse to attend a "civic forum," similar to Jimmy Carter's appearance at a town meeting in Massachusetts.

Despite continued snow, about 400 well-dressed, older persons were at the Everson Museum to participate in the town-hour question and answer session.
At one point during the meeting. Maurice Shanahan and

John J. Kissane, members of the Ancient Order of Hibermians, accuised Carey of "selling the Irish down the river" concerning the fighting in Northem Ireland.
The governor, who depended on the Irish vote in the last election, said that he had not "sold Ireland down the river," as Kissane claimed.
"Listen," Carey said, "I've condernned violence on both sides. Tm on the side of peace."
In the face of declining public school enrollment, Carey said, The whole society falls ir we don't produce better educated children," and added that the state would not be "scrimping" on education despite lowered on educationent.
He was commended by Ann Tierney, a representative of the Syracuse chapter of the National Organization of Wormen, for his "courageous stand on
funding for abortion," and his funding for abortion," and his - opposition to capital punishment.

In regard to the 1980 Winter Olympics, which will be held in Lake Placid, N.Y., Carey said that work is progressing and it is expected to be completed on time.
"They're an autonomous group working out there," he said, "with minimum state interference. Maybe that's why they're doing so well."

## Speaks in Syracuse

Gov. Hugh Carsy said Wodnesday night the state may help fund the proposed footbyll stadium despite the defeat of the recent oconomic bond itsue. Carey wast blso accused of "selling the lrish down the river" by members of the Ancient Order of Hibernians.

Elliott was arraigned on Sept. 8 and charged with aggravated harassment after allegedily making annoying phone calls to Irwin L. Davis, director of the Metropolitan Development Asgociation and chairman of the Downtown Committee, Inc.

Davis had telephone company investigators tap his phone. Five calls from Elliott's numbar were registered. Elliotit was then arrested by police investigator Edward Bollenbacher. Judge James Anderson will preside at the hearing.

## Security briefs

Clothing belonging to James V. Tapscott, 101 College Place, was atolen from alocked locker in Archbold Gym sometime Sunday, SU
Security said.
According to security, the locker doorwas pried open and the handle broken. Taken were a pair of navy blue aweat pants, a pair of socks and $a$ gray sureatohirt with "Salisbury Crew and a pair of crossed oars on the front.

Harry Mantor, who lives at Unity Kitchen, 243 W. Adams St., was conwicted of third degree criminal trespassing in City Court and eentenced to 15 days in Jamesville Penitentiary.

Mantor was arreated Saturday after. he wrilked into the Regent Theater; 820 E. Genesee St. and tools food from a buffet table aring his bare hands.

By Steve Saylor
Vantage, a new student newamagazine, will be distributed free on campus Monday, according to editor Eduardo Lopez.
The magazine, Lopez said, will feature indepth, investigative articles. Over half of the first issue's costs will be funded by advertising.

The remainder of the funding, according to Lopez, was approved by Michatl O. Sawyer, vice chancellor for university relations, Joseph V. Julian, vice president for public affairs, James $G$ Gies, assistant to the cbancellor, and Dean Henry Communications.
"The advertisers were very impressed with the quality of the magazine (prospectus)," Lopez said. "They want to advertise."
"Whiat we're trying to do is, to set up a high
quality publication, both journalistically and in terms of writing," said managing editor Donna Andersen. "We feel there are a lot of issues at SU that lend themselves to major articles - long, interpretive type stories."
Vantage will be about 36 pages long, on "high quality paper," with a glossy, two-color cover, Lopez explained. Each issue of the monthly magazine is planned to feature a theme, and will be alternately handled by one of two genior itors.
He and Andersen contacted people they knew for help on the first issue rather than advertise for staff members because there was some question as to whether the rnagazine would get off the ground.

According to Lopez, the staff has been planning Vantage since last February.

## * Stadium presents dilemma

## Continued from pege one

versity cannot build a stadium alone. The university will provide the $\$ 1.4$ million Skytop site, upon which the Briscoe plan was based, and $\$ 4.5$ million toward stadium construction.

Speculation on other sources of construction funds has centered on donations and bonds.

Members of SU's Orange Pack and Varsity Club, two sports booster groups which solcited the Briscoe proposal, have expressed confidence in the groups' ability to raise $\$ 3$ million.

According to Joseph' Sziombathy, executive director of the Orange Pack and Varsity Club, fund-raising efforts are "strictly in the talking stage." He said the booster groups are trying to dentify possible donors.
The university's financial commitment, combimed with the estimated fund-raising capabilities of the athletic booster clubs, would still fall at least $\$ 2.5$ million short of the Briscoe price tag It could fall considerprice tag. It could fall considerably shorter if the delayed response of the university to the Briscoe firm shifts the construction schedule over two winters. A large funding possitility is the sale of stadium bonds, proposed by Orange Pack member Joseph Spector. The tax-exempt $\$ 1,000$ bonds would help finance stadiurn construction and would gharantee bond holders season ticket priority for the SU football season. Spector estimates that between $\$ 5$ million and $\$ 10$ million in bonds could be sold, with the understanding that bond profitability - or lack thereof - would be commensurate with that of the stadium itself.

Permanent advertising in a new stadium is also promising, Syracuse real estate agent James M. Kelly told the stadium commission yesterday.

Such advertising could take the form of corporation's names over entrances and geating sections, local business' names on individual box-Beating sections and the donation of a scoreboard by a major brewery.
Kelly contends that the names of entrances and the seating sections they serve could be sold for as much as $\$ 100,000$ apiece. A scoreboard donation, he said, could trim the cost of a multipurpose stadium by about $\$ 1$ million.

If all the proposed fundraising mechamisms were coordinated, and all the promises of potential fundraisers proved realistic, it is conceivable that the university could build a stadium alone. But the university apparently wants to tread lightly on its fund-raising resources.
"I think our plan is to continue to wark through the commission." Winters said Wednesday. "Ihat commisgion's timetable looks as though it'll be satisfactory."

Winters accepts the inevita bility of public bidding for construction of a stadium with public funds. But he indicated that the university may remain loyal to the Briscoe concept and the Skytop site:
"There is no reason why one couldn't take those same specifications and offer them to the Briscoe people to bid on -
and to anybody else." The stadium proposal submitted to Syracuse University's ted to Syracuse University's by the Frank Briscoe Co. by the Frank Briscoe guaranteed a cost of under $\$ 10^{0}$ guaranteed a cost of under $\$ 10$

## Wolsky, Kleidman win SA runoff elections

"I never thonght about what if I also keys to deaigning an effective won the election. I haven't thought aboat anything; Woltry Eaid concerning his priorities and vice presidential selections.

However, Wolsky did say he will solicit a list of priorities from organizations and candidates in order to provide the widest range of opinions.

He added that he will open up the vice presideats positions to everyone brit that he wanta to set atasembly members involved.
Acoording to aources at Wolsky'a campaign headquarters, "It's chace. We've hang up on WAER three times tonight. Arnie is being mobbed by hia fans."

Kleidman asid he was "wery surprised at the turnout and the amount of votes by which he won. "It shows students do care," he said.

To design "the most effective budget" Kleidman aaid he will meet with all campus groupe. He said befelt that hard work and competence were
udget.
Kleidman asid he had "no plans or ideas that I winh to dibclove now" concerning controveraial actions, much as cutting stipends of certain organizations.
Kleidman said he ham no priorities in mina.
"I feel I can work well with Arnic," Kleidman wided.
John Schoch could not be reached for comment.

Wolsky adid his concentration on a doorto-door campaien Wednesday and Thuraday was instrumental in his victory.
The losing presidential candidates reacted differently to the rearults.
"Of course $\mathbf{T}$ m dianppointed that 1 didn't win." Klein said. He attributed his defeat to:
*Cohen'a anbatantial write-in tally;
-Wolsky's identity 48 the only unaffiliated candidate;
ea headline on an election column in yesterday's Daily Orange endorsing Wolaty for president
Klein said he would give the victorions candictate "all the help I can* and wrald try to point out "internall problems" to himn. Mlein esid he probably would not apply for a vice preaidency in the Wolsky admainistration.
Kantor anid he was "very happy with the reoults," pointing out that he madie the largest percontage gain of any of the candidates between the two electione. He ssid he felt he could have won if there had been more campaign time. He also said he woald have appeared at fewer formes and done more personal carapaigning if he had to "do it over again."

When told Cohen had received 213 writein votes, Kautor groaned in disbelief. He said he "definitely" would have won if Cohen had not received such a enbatantial ahare of the vote.
Kantor said he wished Wolsky "the best of luck," but said he did not know if he would seek or accept a job in hip,
administration. "T'm groing to take a littlo time off and worry about finala hittue time off and wo
Kloin flimo said he felt he would have Won had there been more timp betweren election and runoff he also thought that he would have won had Cohen not received such a large share of the vote. Klein whas critical of the. wry in which the elections were run by SA. "I don't think the Jab formum was worthwhile," he said, referring to a ravcous open foram for candidates held lait week. He said he felt the campaign should have been "spaced out over a longer period of time."
He satid the deadtine for petitions should have been ounhed up to allow more campaigning time and media coveraga He asid he world move the coverage He said he wowld move the election date 'I don't think they are at a good time for atudenta, candidates or voters," he said.

Klein criticized. The Daily Orange political commentary written by Fugh MacNiven. 'T'm not blaming him, but I would have like. more than one viewpoint."

"The Moss Back Mule Band"

1 st Appearance This Semester

It is the end of the year and like numerous other publications we have
decided to select our top albums of 1977.

Some of the selections were tretle surprise; LSP by James Taylor and Fleetwood Mac have been near the top of the pops for most of the Year. Bu otherselections like Mink Devi and Supertramp as No. 1 pichs are tartling.

The writers that selected the top albums of the past year are regular staff.

## 1. Aja/Steely Dan

The seven songs on this album comprise the most innovative rock music released in this past year and quite possibly the past 10 as well Walter Becker and Donald Fagen once more come up with a crack aession combo to complement thei original and daring lyrics.
2. Rumours/Fleetwood Mac

This may be too "commercial" for some peoples' tastes, but this sounds to me like the most easygoing and inspired post-Beatles pop music
around. It's hard to argue with the charnin and appeal that vocalists Nicks and MeVie project so well into the songs on this album. I just hope there's still something to sing about after the various personal differences among the band members are resolved.

## 3. Going For The One/Yes

Thought by many to have spaced themselves out of the known universe two orthree years ago, Yes collection of terrestrial and nat-soterrestrial music. Similar to The Who's Who's Next in its anticoncept approach. Jon Anderson's vocals are especially refined here, and the return of Rick Waiceman as keyboardiat marks a significant turning point in the band's career. Mike Collier

AdA/Steely Dan.
According to Grant, AJA by Steely Dan is the best album made in 1977 or any other year. Fagen'e lyrics hit hard and the music rocks 'n' rolls you. Grant knows of no other good albums. This is the best.
"AJA" is the best:
"AJA" is the best.
Steely Dan is great.
The Beaties ahould resign.
Larry Grant

Going for the One/Yee.
This album was over two years in coming, but the wait was well worth beautiful, howing melodies and inspiring lyrics contained on this disc. Guitarist Steve Howe waile like he never has before and Rick Wakeman roturns home with a flam boyant performance on keyboards. "Going for the One" is by farthe beet album of 1977 .
Elegant Gypes/A1 DiMeola.
This is the gecond album by the

## The Dally Ormate

# Best <br> of <br> <br> 1977 

 <br> <br> 1977}
former guitariat of Return to Forever. "Elegant Gypry" Featurea some of the finest individual musicianship of the year. DiMioola's
masterful acoustic guitare are highlighted in six jazz compositions, all of which have a Spaniah tinge.
Songs from the Wood/Jethro Tull. Tull's tales of mirth and merriment are ranlized in song. The album is an excellent fusion of medieval balleda and rock music featuring spirited melodies, blissful harmonies, rustic lyrics, superb instrumentation and fine musicianship. Ian Anderson and the boys have done it again.

Brent Marchant

## st firtucidnac

1. Rumours/Fleetwood Mac.

This group showed that their sudden success in 1976 warno fluke. The album features the ex
predecessor, Flectwood Mac. Despite the fact that it has eatrurated the airwaven, it mill gounds ereat - all at once, or in thireo-minute fragrnente on the car radio. Marliz Sulivan

Little Criminals/Randy Newman
Newman hid from the spotlight for three long years, only to return this fall with this album of incredible songs that are the essence of Americana. Newman, who is often refered to as "the songwriters' songwri Ry Cooder to create this fine rock disc. Show Some Emotion/Joan Armatrading
Without a doubt, the finest effort this year from a female vocalist. Armatrading is a sensitive singer/ songwriter whose music has the power to bring you to your feet to dance, but it can also rock you gently to sleep with its gorgeous ballads One of the fow albums that effectively blends rock, folk, jazz and reggae.
What's Wrong With This Picture? Andrew Gold
Released this past January, What's Wrong With This Picture, established Gold as a major writer-performer known as Linda Ronstadt's back-up known as Linda Ronstadt's back-up
musician. Featuring the smash hit

## KALEIDOSEOPE

UTME FEAT
TIMELONE:AHEN:

1. Time Loves a Hero/Little Feat. A superb effort by the definitive American rock band.
2. AJA/Steely Dan. enuises. 3. Netherlands/Dan Fogelherg.

Norm Meyer

1. Even In The Quietest Momentsf Supertramp
An album that combines English folk, delicate harmonies and upbeat rock to form the most innovative ound of this year. The song "Fool's
2. American Stars and Bars/Neil Young

The southern Californian recluse again proves he was the most talented member of the supergroup Crosby, Stills, Nash and Young. Emmylou Harris and Linda Ronstadt sing tender harmonies on the album, and Young's guitar has never sounded
3. Rumours/Fleetwood Mac

In real life this group resembles a story from True Confessions, but When they put their troubles on vinyl Buckingham steps into the limelight and Stevie Nicks' voice remainis one of the most sensuous in rock music.

Tim Wendel
traordinary talent of the top pop- "Lonely Boy," this LP is stacked with rock Eroup today. Every song is at 11 flawless pop songs. With guests east very good; most are excellent 2. JT/James Taylor.

After many years, Taylor is finally as good as he was always supposed to be. His style now reflects a maturity that has only arely been seen in his recent efforts Bowl.
It'a a pretty sad comment on oday's music scene when one of the best albums of the year was reorded more than a dozen years ago. As Rolling Stone reported, this album proves The Beatles were as great live as they were in the studio.

Tom Coffey

1. Rumors/Fleetwood Mac

The ultimate album, surpassed only by its predecessor, Fleetwood Mac. From a band who knows what the hell they're doing
2. The Great Timber Rush/ Timberline
Not big by any means, but the most nolid country-rock album of 77. Fresher than Hotel Califorria and more original. Eagles, watch out!
3. Stick To Me/Graham Parker \& The Rumour
British Springeteen, saxes and all. A blue-collar punk with respect or music. Forget Johnny Robben. The kind of staff that makes you wanna go ont and burn down a dis cotheque. Fiot stufi

Lexry Belmont

Mink DeVille
Mink DeVille's first album em: bodies everything that good rock " $n$ " roll should. If bandleader Willy De Ville in not a pop atar of the'70m, it won't be due to lack of talent.
Little Criminals/Randy Newman. abpence is extremely welcome. "Short People" ranks right up there with "Simon Smith and the Amaning Dancing Bear" and "Davey the Fat Eoy" on a lone fitt of Newrinan classice.
Rumoura/Fleotwood Mac.
This album is ored botter than it.

11 flawless pop songs. With guests
that range from The Eagles to that range from The Eagles to Ronstadt, this album's songs and per-
formances (not to mention the producformances (not to mention
tion) are sheer brilliance.

Bruce Pilato

JT/James Taylor
The year" most listenable album: the stetnd-out on this LiP is Taylor's laid-back cover of the Jimmy Jones hit "Handy Man," but every cut is worth replaying many times. Taylor appropriatee a wide range of styles from mellow and acoustic ("Looking for Love on Broadway") to semidisco ("You're Smiling F'ace") to pure country-western ("Bartender's Blues"). Most important though, he does them all well.

## A New World Record/Electric Light

 OrchestraA superb blend of orchestration vocals and Jeff Lynne's beat compositions Tharee hits came of this album "Livin' Thing" "Do Ya" and "Telephone Line") but an
could have stood as a sin
An ercellent effort by a group gaining popularity. The best cat is the new single ("You Make Living Fun") but there are plenty of other Gne tunes; Stevie Nicks' vocals and Lindsay Buckingham'a guitar are impressive.

David Abernethy essionals like $B$ Glms like "Loo Simply, it is product with product with evident in tha again for wra script around film.
Theress Dun caring teacher discriminate

1) Works-Vols The first years from success and concert tour. his own side bined for the set. Greg Lake best.
2) Netherlands

The fourth soloist proves not a poor, tine track, cing Shoe cuts.

This vet the corarn The Pocket wi This album b the single " Ha the top of the is far from release. It is tumes for follower.

My three fay take no prizes tion or technic terms of energy plain fun, these 1. The Clash (Br) The vocals on so careful and necessary to ay Once this record on you, its stry win you over. and politicaliy

Nichols

Writer/director Brooks ahovea tha existence of Terry's sexual excesses down our throats without ever giving us any subatance. The only goal his screenplay accomplishes it to reinforce the current public service megsage that btates, "VD is for every" body."
The audience cioesn't need to see a steady stream of willing males at Terry's door to realixe she has sex very often with many partmers. We are not onten with many partners. We are not
soignorant that Brooks must bring us so ignorant that Brooks must bring us
into Terry'a favorite sleazy bar every five minutes for us to understand that she goes there almost nightly for her men, her cocaine and her escape from the daytime world. Substance is sacrificed for excess throughout most of
"Looking For Mr. Goodbar" Looking For Mr. Goodbar."
There are almost endless exarnples of this. The depth and meaning of relationships between Terry and her family, her college professor/lover, and the man who loves her are almost cotally ignored. We never truly know why Terry seelcs out sex almost maniacally, although Brooks hints that the reason is her once-deformed back. The affiction is partly why she wants to remain childless, but that is the only rend definitive statement Brooks makes concerning the painful experimakes

Insteed of answering the rnany important questions about Terry, Brooks wastes time on trivals. Keaton, also played Kay Corleone in
bine to create the finest album of the year. And the latest single of The Clash, "Complete Control," is even better.
2. Never Mind The Bollocks/Here*s The Sex Pistols
Whether you love or loat he The Sex Pistols, it cannot be denied this was one of the year's most importent albums. Brilliant guitar work and a solid rhythm section are topped off by Johnny Rotten's vocals. A truly unjque LP.
3. Life Or The LittefEddie and the Hot Rods
A straightforward, fun album by a bend too good to be ignored. The fast beat will make you-want to get up and dance your cares away. A great albun to play at parties.

Diane Lesniewski
CSN/Crosby. Stills and Nash
CSN in undoubtedly one of the most important alburms of the year. The LP signaled the retura of David Crosby, the turntable

Part II." In one scene, Terry brings a copy of the book "The Godfather" into the bar with her and sets it down. (Why she would bring a book into much a aleaty place defies all logic.)

Director Brooks tries to tell us that Keaton has progressed as an actress since appearing in those two films. Fine. It is a cute, though heavyhanded, little message. All that is required is a quick shot of the book sitting on the bar, which the director provides. But then Brooks gends ir one of the male patrons to say. "Th Godfather, yeah. I saw the movie "Th ally good. Al Pacino was really go in that." Thank you, Richard Broo
for reminding us that Keaton played Pacino's wife.

Looking For Mr. Goodbar" is also one of the biggest wastes of talent that has ever threaded through a projector. The talents of Tuesday Weld William Atherton, Richard Kiley and especially LeVar Burton go virtually unexplored. Although it would be un realistic to think it possible for all of these players to have their roles expanded, a larger, more important part for one or maybe two of them would have served the film very well.
Another wasted body is Alan Feinstein, who plays Keaton's college professor and first lover. His characteri zation is as shallow as the grooves in a record.

For Keaton, however, this is her firiest performance to date. She is more than the "piece of meat" she describes herself as being while filming. Terry's split personality alloss Keaton to explore many facets or her talent. Her performance should earn talent. Her performance should earn
her at least a nomination for Best Acher at least a norn
tress of the Year.
However, this split personality adVersely affects "Looking For Mr Goodbar." It is hard to believe that a socially conscious teacher of handicapped children would go home to an apartment filled with roaches, bringing with her derelicts and junkies for bed partrers. Terry is obviously able to attract a better breed of lover than these.

One of these seedy partners is played by North Syracuse native Rachard Gere. His characterization of Tony is a cross between a downed power line jumping in the rain and the drummer on the Pioneer televi* sion commerical. If he is able to follow up this big break by playing a role with similar quality, he will certainly never go broke.
"Looking For Mr. Goodbar" is a film that needed a goad screenwriter to reach its full potential. The lack of such a script is absolutely frustrating. even begin to ease that feeling

Low/David Bowie
The first side fires seven short songs (including two instrumentals) at the listener, with no continuity or teredi on the wall, the album suddenly rered on the wall, the album suddenly reverses itselfinto longer, instrumen-
tal songs. Some were composed by ta songs. Some were composed by
Bowie, and others by avant-garde Bowie, and
rocker Eno.

## Stratosfear/Tangerine Dream

Not an album for everyone, it marked the appearance of Tangerine marked the appearance of Tangerine
Dream in the United States. The Dream in the United States. The German trio has been known in
Europe for about three years, but Europe for about three years, but Stracosiear was their first American
release. The group makes extensive release. The group makes extensive use of moog and other electronic
music, forsaking the usual drums and guitars for a more sophisticated electronic music.

Jon Van Duyne

## 'Moonchildren' <br> of 60s

The 1960 s are alive and well and onstage at the Regent Theatre this weekend as the Syracuse University Drama Department presents Michael Wellers' Moonchildren.
The play's plot centers around seven college students, two of whom are female, during the Vietnam War. They live together in an environment of free expression and fun. They act as though war and uncertainties of postpraduation do not bother them.
The main characterz are Bob, a confused musician, and his girlfriend Kathy, who tries deaperately to straighten out Bob's life.

Also in the house are two self+proclaimed brothers, who are the most blatant of the game players, usually directing their abuse to the unsuspecting bookworm, Howard.

Completing the house are Ruth, Mike's girlfriend, and Rich, the haraburger monger and Far Eastern studies major.

The play will be presented Friday and Saturday evenings at $8 \mathrm{p} . \mathrm{m}$. and Sunday night at 7. There will aiso be a 2 p.m. matinee on Saturday. Performances are at the Regent Theatre, 820 E. Genesee St.

## "The 7 Percunt Solution"

A marvelous version of Nichoias Meyer's novel that supposes Sherlock Holmes and Sigmund Freud put their heads together on a case. The case is less than one might expect, but its still case is less has Holmen, just as Arthur Conan Doyle elassic Holmens just as Arthur cast features might have wished. An all-atar cast features Nicol Williamson as Holmes, Alan Arkin as Freud, Robert Duival as Watson, and with Vannessa Redgrave, Laurence Olivier and Joel Grey.
Cinima Two, 6, B:30, 11 p.m. Gifford Aud., $\$ 1.50$.

## "Bringing UP Baby"

A člasaic ecrewhall comedy from 1938 unites Katherine Fepburn as a rich society girl and Cary Grane as a bempectacled seientist. It's about a domesticated leopard named Baby that escapes and the ensuing mix-upe, featuring Gxant in a lady'a drossing govin.
UUU Cinemin One, 7 and 10 p.m., Kittredge Aud.; $\$$

FFititr the Cuse
The X-rthod eometeripentiaback on campus
again, in all his perversity. Made by Ralph Bakshi ("Heavy "Traffic," "Coonskin"), it's a little less than one expects.
Brewster/Boland, 6:30, 8:00, 9:30 and 11:30 p.m. and 12:30 e.m., \$1.25.
"The Pit and the Pendulum" and "The Black Cat"
From the Roger Cormani series of films based on Edgar Allen Poe stories comes "The Pit and the Pendulum." A better than average horror flick, it stars Vincent Price.
"The Black Cat" has little to do with the Poe story. This 1934 version is about devil worshippers, starring Boris Karloff and Bela Lugosi.

Syracuse Cinephile Society, Civic Center. 8 p.rn.
"Forbldiden Planet"
A reworking of Shakeapeare's "The Tempest" beeomes one of the better aci-fi films of the $50^{\circ} \mathrm{s}$, though its atudio look is rather dnted. It stars
Walter Pidgeon as Morbius, who must fight off Walter Pidgeon as Morbius, who must

## FSome People? Are Searching fora Group Like Ours...

Today people experment with their lives-sometimes they find something valuable: sometimes they just waste time.

Some people have trouble finding what they want because they have a very special set of needs...They want to give their lives for the greatest cause they can think of. They are involved with God. with other people. with life. Money. prestige, or power mean little to them. They know they want to live for God by spreading the Gospel

But they are searching for fresh and vibrant ways to proclaim this Gospel. They are looking for a variety of oppor tunities in different parts of the country to serve with a group of men who share a holy vision and live that vision in a free and iriendly way.
They are looking for THE PAULISTS. a group of Catholic priests spread through the United States and Canada, working in a wide range of minsteries that include parishes, campus centers, mass communications. publication, preaching, adult education centers. social services. and new approaches to inviting people to know

It you are searching to share what we do, why not write THE PAULISTS for more intomation.

## Bonnies to be counted out?

## By Mike Stanton

Last spring heavyweight contenders Ken Norton and Duane Bobick squared off in Madison Square Garden for what was touted as a maior boxing match. NBC apent A similar buildup is in progress for tomorrow evening's trasketball game between the Syracuse University Orangemen (5-1) and the defending NIT champion St. Bonaventure University Bonnies (3-0), but it may not Bonaventure
be worth it.

SU'变 Hobs Kindel ley in two pointr during last Season's. Boneventurt at Manley which Syracuse won 85 72. The Bonnies return to Manley tomorrow to piay the Orangemen again. Game time is B:00 p.m. (Phots by Bruce Johnson).

On the surface, Saturday'a game appears to be one of U's biggest of the regular season. St. Bonaventure, fast becoming a traditional rival, will likely be Syracuse's first post-season obstacle on the road to the NCAA tournament.
The rivalry was fueled last year by two big everits: Roosevelt Bouie's choice of SU over St. Bonaventure, and the Bonnie's $91-84$ demolition of the Orangemen in Olean last February.

Bonnie sports information director Tom McElroy was obviously smarting from Bouie's decision when he wrote in this year*s press guide that last year's SBU shooting percentage (. 613 ) "is 80 . much more impres-
sive" because "there was no 6 -foot-11 giant hitting the sive" because "there was no 6 -foot-11 giant hitting the
high percentage lay-ups or tip-ing." No names were high percentage lay-
mentioned, of course.
But despite an undefeated record, even Bonnie caach Jim Satalin admits his team will be lucky to defeat Syracuse tomorrow.
"I would say. we're not physically ready for a team of point, we have no strong points. We haven't played well and we're not a physicalty atrong team. There's no way we can match their ( SU 's) inside strength or size.

The demise of last year's impressive St. Bonaventure squad (24-6) began with the graduation of high-scoring forward Essie Hollis, who scored 37 points against SU in Olean, and playmaking guard Jim Baron.

The Bonnies' two remaining stars, Benior co-captains Greg Sanders and Glenn Hagan, must both play flawlessly if St. Bonaventure is to stay close to Syracuse Satalin said. But both have been hobbled with injuries and Hagan is a doubtful starter
Sanders, one of the nation's premier shooters last year with .555 percentage and a 21-point average, has
been only a shadow of himself to fer this season. The been only a shadow of himself so far this season. The
forward was hobbled by sprained knee ligaments during preseason and is shooting a woeful 35 percent.
"He hasn't come back like we had hoped," Satalin said. "His timing is way off, and he's only averaging 17 points."
Floor general Hagan. who should become St. Bonaventure's highest scoring guard ever before the snow melts, has not practiced since injuring his hip in Tuesday's 61-51 victory over Cornell.
Junior center Tim Waterman ( $\mathbf{6}$-foot-11) has improved significantly since last year. but he has yet to "supreme test." The Bonnies have also been out rebounded in all three victories (Scranton, Georgetown and Cornelli) and Syracuse is one of the best rebounding teams they face this season.

Atthough Sx. Bonaventure forward Easio Mollis (right) hate graduated and won't be in petion tomorrow night againat Syracust, Rooservelt Bouti, shown in last spring: ECAC Upetate Now York playoffs; will again head the Orange attack. The defonding NTT champion Bonnies bring ai 3-0 suason record and a string of saven consecutive victories to the metchup. (Photo by Dive Frasco).

First-year starters Nick Urzetta, guard, and Delmar Harrod, forward, round out the Bonnie lineup. Satalin described both as quick, smart ballplayers who lack good physical strength.
The Bonnie bench is young and as shallow as a plot from "Charlie's Angels," with freshman forward Earl Belcher likely to see some playing time.

But SU eorch Jim Boeheim is taking nothing fo granted. "We're bigger, and I'd like to think that will be an advantage," Boeheim understated. "But we have to prove that were better. They did beat a good Georgetown team ( $71-67$ in Olean).

The rivalry between the two teams could keep things close, and even spark a St. Bonaventure upset, but it is enacted under the Manley dome tomorrow night.

## SU Hockey Club to break War Memorial ice

By Alan Fecteau Hockey returns to the War Memorial next week. Although the Syracuse Blazers are defunct, and the downtown arena no longer makes ice regularly, the Syracuse University Hockey Club will play its first home game ever at the War Memorial next
Thursday at 7 p.m. againgt Hobart.

This will be the most impor-
tant game for us since we won the league championship last spring," said Jeff Harris, president of the club.
The Orange whipped Hobart, 4-2, to take the Finger Lakes Collegiate Hockey League title at the New York State Fairgrounds, where SU plays most of its hame schedule.
But the Statemen have improved considerably and may
to say they are the best team in the league right now. They are definitely the strongest team we'll play all year." Harris said.
Because of the importance of the game, Harris and Peter Baigent, direcier of student affairs, sought to secure use of the War-Memorial. "Baigent did most of the work," Hurris explained. "He negotiated with
Peter Napier (chief administrator at the War Memorial).

Napier is really giving us a break on the cost of making ice and everything else associated
with scheduling the game. He's very enthusiastic about it

Napier also indicated support for Harris' efforts to attain var sity status for the club. "Tm 100 percent behind them." he said. -I would like very much to see tockey at Syracuse, considering the number of other good teams in the area. It's a sharne when

## Fall intramural action draws to a close

## By Brad Bierman

The fall semester season of intramural sports comes to an end next week with the completion of bowing and indoor soccer. Both sporta will stage their all-university funal next Thursday.
Last week, HKRC won the all-university table-tennis title by defeating Tau Epsilon Phi. Members of the championship team were Leo Heung. Frank Wong, Stephen Tung and Patrick Tsang.
Due to space limitations before Thanksgiving break, the touch football results were not publibbed. Here is a review of the final football results were not publisbed. Here is a review of the final
playoff action. In the all-university championship. Psi Upsilon playoff action. In, the all-university championship. Psi Upsilon knocked off the two-time defending champions, Varsity Pizza, 8-6. The fraternity scored first on a one-yard touchdown pass from quarterback Harold Stoudt to wide receiver Albie Hurst. Psi U also
completed a pass for the two-point conversion for an 8-o halntime lead.

Varsity Pizza came back to score in the second half on a Mike Kitts-to-Russ Gulamerian pass, but failed to succeed on the conver aion attempt, producing Psi U's margin of victory.
The top players on the two teams were Pai Ua Jamie Ryan (ine) Paul Perillo (DB), Steve Stutaky (line), Stoudt and furst, and Varaity Pizza's Dale Hornstein (line), Dee Wolf (WR), Jeff Tessier (RB), Gary Maher (RB) and Kitts.

The living-center team winner was Lawrinson 20. Their top players were Jim Gwinn (WR), Joe Shapiro (QB), Bill Strauss (line), Rick Farria (WR) and Steve Wolfe (line),

This year's floor hockey championship team, for the second consecutive year, was the High Rollers. The Rollers defeated the Flyers in two straight games in the final series, 2-0 and 2-1 (in overume). one, goall by Pote Sabenn and Rick Volpo were all the High Roilers needed, an goalie Fred MacDownell poeted the shutout.

Close. exciting play highlighted game two action as both teams ended regulation play tied $1-1$
At the five-minute mark of the third overtime, the Follers' Mark Mandel tallied the series winner with a shot from close in to the net. Playoff MVP Mark Depillo also scored for the winners, while Greg Goodman scored for the Flyers. McDowell was voted the playofis' outstanding goalie, and Gary Kushner won the playoff playofis out

Steve Kantor was named the outatanding performer in the indi vidual intramural wreatling tournament. The firat-ever event atvidual intramural wresting tournament.
Winmers were Steve Halprin (128 pounds), Rick Fiore (136) Kantor (144). Dous Hamer (150), Guy Bryant (156), John Straus burger (162), Anthony Suscarella (168), Keith Bub (172), Robert Demartin (190) and Marcus Logan (heavyweight).

BIERMAN'S BITS: With four team sports over, the leaders in total points are Brewster One (59) in the living-center division. Psi Upailon (70) in the fraternity league and the Canoneers (66) in the independent division . . . Mandball singles winner was Jefr Stonecash, who beat last year's champion Erland Sorenson 21-7, 21-10 $\ldots$ Sorenson and Jerry Goodisman won the handball doubles titla by defeating Andy Mogish and Tom Richards 15-21, 21-10, 21-10 . Jackie's Boys won the all-university teranis title over Sign Alpha Mu with Tim Pepper and Gus Paul leading the way Campus Recreation Director Nick Wetter praised the efrorts of Draduate assistant Robin Dyer in running the flow hockey league. Dyer reported that there were ony two minor fights in hague play officimls for their ganges must pay and extra $\$ 8$ at temm regintration . Doadline for basketball sign-up in Jan. 24 .
four other teams have to come here to Syrracuse to play a tournament.

Napier referred to the college hockey tournament to be played at the War Memorial over Christmas vacation. The tour ney features Clarkson. Colgate. Yale and the University of Vermont, four of the top-rated teams in ECAC Division I hoc key.

ICE SHAVINC:S: Admission for the SU-Hobart game is free with an SU ID. Free transportation to and from the game will be available via shattie buses which will leave Sims hall all 6:16 p.m. .. Admission for an $\$ 1 . .$. Posaibly looking ahead to this important game, the Orange were upset by SUNY Binghamion Wednesday, 9-8. The Orange are now 2-1-2. Syracuse has severa players nursing injuries. Van Bockus will mias the Hobart match (enlarged spleen) and wo other skatars are playing with stitches. Captain Neil Kovnat neecied three-atuer the loss to Binghamton. Defensemen Peter Bliven required 12 after he.was cut by a skente in the game against the Colgate IV. Both are expected to be ready for the geme Hobart.

Studente with Achletic Activ ity Cardy may pick up their tic kets to tomorrow's garne a Manley between Syracuad and St. Bomaventurw todigy at the field house or tht firctibold Gym between 9 go mar and 6 p.m.
