## COPYRIGHT

The copyright law of the United States (Title 17, UNITED STATES CODE) governs the making of photocopies or other reproductions of copyrighted materials.

Under certain conditions specified in the law, libraries and archives are authorized to furnish a photocopy or other reproduction. One of these specified conditions is that the photocopy or reproduction is not to be "used for any purpose other than private study, scholarship, or research." If a user makes a request for, or later uses, a photocopy or reproduction for purposes in excess of "fair use," that user may be liable for copyright infringement.

This institution reserves the right to refuse to accept a copying order if, in its judgement, fulfillment of the order would involve violation of copyright law.

## Inside:

# MoneyMatic is the place to get cash day or night at our University Office 

There's a 24-hour banking machine outside our University Office niext to campus. You can use it to get cash from your checking or statement savings account any time:

To do your day or night banking-get our CashCand. CashCard's free for the asking when you open your checking or statement savings acoount. And while ygứre in college you'll get EREE CHECKING. That means we'll eliminate all check chaiges and maintenance fees. In the Summer while you're away from school your checking acount is free, too.

MoneyMatic can give you up to $\$ 100$ a day from your checking or statement savings acoounts. Plus you can make deposits, transfer money, pay-bills, and privately check your account balance.

And if your parents make a deposit to your account from a hometown Marine branch before 1 p.m. - the money will be available to yop through MoneyMatic the next day.

## For day and night banking Tell it To The Marine

##  <br> strong bipartisan support within the

Abandoning a long-sought but bleak hance for county ansistance, Syracuse Universily has turned to the state to finance a proposed 50,000 -बeat $\begin{gathered}\text { tadinm }\end{gathered}$ ingance a pripus.
on Campus. The most elaborate praposal yet to replace - the Tr-yeax-old Archbold Stadium, came in midJuly and has subsequentiy been trimmed in the hopes of receiving rapid state approval. The plan calls for a $\$ 15$ million nonrepayable state grant for a stadiumconference center. Two otate institutions vironmental science and Fore of En Vironmental Smience and Forestry and the Upstate Medicil Center - would be entitied to use the stadium-conference
centex 20 days a year to justify the use center 20 days a year to justify

Intatially. the plan included a student union building and a continuing ectucation center, to be financed by $\$ 25$ million in atate bonding. The money was to have been repaid by contributions from the
university's alunani and private

But the difficulty in obtaining state Urban Development Córporation bonds for a private institution forced. bonds for a private institution forced stadium and conference center from stadium and conference
The proposed site for a student unioni has becn moved back to the parking iot behind the SU Bookstore, and funding for the union building and the continuing education center is again being tinung education centeris again being sought. $8 t$
donations.
A decision by the etate Legislature is expected within a week or twe after the expected within a week or two after the
Sept. 12 gubernatorial primpary, when Sept. 12 gubernatorial primary, when
the. Legislature is acheduled to the. Legis

A response was originally expected in late August; Julian said, but as the primary approached, plans to reconvene 'the legislature were poistponed, he said.

Julian expressed confidence in the university's chances of obtaining the grant. He eaid be had indications of
egialature.
The stadium is slated for completion by September, 1980 , in time for the football seapon that year. Because Archbold will be torn down: during, the 1979 season, the Orangernen's home games will be scheduled either at Cornell University's football stadium, Rich Stadium in Buffalo or Giants Stadium in the New Jersey Meadowlands, Julian said.
Last year's effort to construct a stadium was killed by fierce opposition from residents near the proposed site. The proposed 50,000 -seat unenclosed stadium, near SU's Skytop housing development received an endorsement from the Onondaga County Legislature in early Juneand $\$ 120,000$ in county funds for environmental and engineering studies,

But the odds of obtaining several million dollars in county funds for construction. forced the university to turn elsewhere.

## Over-full house greets SU néwcomers

## By Jacquil Salmon

The new school year has begun and Syracuse University is packing them in for the show.

An estimated 459 fréshmen and transfer students face living in triples, lounges and study rooms because of the large freshman class this year and a higher percentage of upperclasgmen who opted for dorm living.
James B. Morgan, director of the Office of Residential Life, said all but three of the major dormitories on cam-
pus have so-called extended housing. To accommodate the overflow of students, rooms that are supposed to be doubles have been set up as triples and floor foninges in many dormitories have been converted to rooms for three or four students.
Extended housing has been a part of the SU scene for a number of years. Last year, about 175 students lived in lounges, guest rooms and atudy roome in nine dormitories across campus. In 1976, a60ut 600 students crowded into triples, and any other available space.

David Kohr, asadciate director of ORI, predicts that between 120 and 130 students who said they were attendiag SU won't show up, which means some of the students in extended housing can be moved out.
But, many face living in triples
lounges and study rooms until the end

A Roman gladiator will stalk the sidelines this fall. The nev mascot replaces the Indian wartior which Wascriticized as a racist symbol from Indian groups on cartipus and in the community. The gladiator, stillcalled the Saltine Warrior. will make his debut at Saturday'sopening football game in Archbold Stadium.

## Jab cuts back on service in an effort to cut deficit

When Jabberwock Rohrer 12, customers will find a number of changes at the 311 Waverly Ave. drinking spot.
In an effort to cut costs and increase business, the Office of Student Activities announced during the summer that Jab's hours will be cut and its ser* vices altered.
Jab. which last semester was open' every night as well as weekday afternoons, will be open Tuesday through Saturday from 5 p.m. to 1 a.m. Whether Jab keeps these hours or expands them will depend on attendancestor of Stephen Gauly, ae
To increase revenues, mixed drinks will be sold and items such as chicken and possibly chili will be added to the and possibly chil will be added to the menu.- The only sandwich offered wil be hamburgers, acc
Day has replaced former manager Craig Brush. Gauly said the change Was to save money, since Brush was making an annual salary of $\$ 11,600$, While Day is receiving hourly wages.
In other cost saving moves, student help is being eliminated, Gauly said.

Waitresses, full-time cooks and a bartender have been hired.
Happy Hour, which offers beer at half price, is being cut from three to two hours on Friday afternoons, and Monday night football and jazz programming are being eliminated.
Attendance at Jab was down 46 $\$ 4,000$ to $\$ 12,000$ deficit depending on what accounting methods are used, Gauly said
But Brush disputes Gauly's claim that Jab lost between $\$ 4,000$ and $\$ 12,000$ last year. He believes debts from five years ago were included to make the debt appear worse than it is
Brush said he feels the Office of Student Activities is supporting the Student Center located on Walnut Avenue, at the expense of Jab.

Student Center has drained the resources available to Iab,' Brush said.
Gauly denied that past debts were included in last year's figures.
"All I want is for Jab to break even," Gauly said. He added it is conceivable f Jab continues to lose money, it will be closed down. But, hesaid, 'it won't lose money."

## 'Pig Book' censored? It depends who

By Thomas Coffey
Does free speech give you the right to use the word "fucking" in a university publication?
'This year's edition of the Orange Aid, the freshman directory known as the "Pig Book," is the center of a controveray about who controls Sypracuae University publications.
Tracy Lymn, a student editor of the Orange Aid, claims the university is censoring it. Although several SU administrators adrit miking changes in the Orange Aid, they deny censoring it. Steven-Bortiner, student busimess manager and publisher of the Orange Aid, says he is responaible for making the final changea in the Orange Aid which was to be distributed today.
Ulysses J. Connor, director of gtudent activities, said, "The Orange Aid had iterns that were terribly offento students in that publication to have their pictures associated with that material"-The Orsociated with that fure of all incorming freahmen and tranofer etudents who pay for the book. Coninor David C. Murray, tiseociate connor bavid C. apas, ussociate
K. Foley, assistant director of atudent activities, all examined the OrangeAid before it was printed and reached a consensus on what iteris were to be removed. Melvin C. Mounts, vice president for atudent affairs, said he approved their action but-did not see a copy of the publication.

## Made changes

According to Lynn; Foley took the blueprints of the book before it was printed; examined them and made changes. "She (Foley) objects to the words 'farting' and 'tits' in a gtory about Watkins Glen, and the word fuc king in a story about Harry Mantor," Lyran said.
Other items were removed, Lynn said: Two satiric pieces, one on atter, ding college and the other on a student union building. were omitted. A Barcastic definition of Clifford L. Wintera Jr., vice chancellor for adraipistrative operationa, was taken out, as were profiles of several student leaders.
Bortner said he took out a picture that prominently dieplayed a pile of does shit in thenforeground:
" What ${ }^{2}$ cemacraip Winn clanmed.
"I don't feel that it was censorship at all" Connor said.
Bortner claims ultimate responsibility for the book because of his titlea as busimess mavager and publisher. "If anyone were to do any censoring, it would be SA (Student Association)," he said.
Bortner's contention that SU cannot edit the Orange Aid is disputed by several administrators. Mounts said the Orange. Aid is a. university publication because it is funded by student fee money, which is ultimately the univeraity's money, not SA's.

## Who payse whom?

However, Bortner does not feel the Orange Alid was funded by university money. "My undergtanding is that ${ }^{\prime} \mathrm{m}$ on the SA payroll," he aiaid. "That's where I pick up my checks.

Lynn also feels she was on the SiA payrall She and Joain Wypiejewski were the-student editors of the Orange Aid.
Büt Mounts said Bortner, Lynn and Wypiejewsiai were employed by SU because they were paid by SA, which Monpta calla "a gray area" becanse

## you talk to

they receive money from the student fee. how pord the univeraity examines staffed to determine the difference between student and university publications. This leaves such publications as Report, Vantage Intertwine and the Black Voice in what Mounts calls "a gray area because they eceive money from the student fee.
Foley agrees that there is a gray area and draws a distinction between student and university publications. "If a publication is funded by univer sity money and goes through SU Prin ting Services, university policy states that it must be reviewed by the publications office before it goes to the printer," she said.
No one knows how the gray areas will be cleared up, although it is unlikely the university will abandon examining its publications before they are printed.

It is the responsibility of the university to see that its publications present it in a favorable light," Connor said." "I don't think there's anything profound about that

## Summer update

Financial aid
Syracuse University will receive a moord allocition for Timancial sid from the U.S. Department of fiealth. Education and Welfare:-

The $\$ 790,000$ increase will be divided among three SU financial aid programis - the sap plemental Education Op portunity Grant, College Work-Study, and National: Direct-Stadent Loan.

However, foderal aid to the State Univeraity of Newe York College of Envirommental Science and Forentry whe cut by $\$ 46,000$.
Yet forestry uchool atudents will not lowe any aid, eaid John R. Reeves, Fimancial aid coovdinsator for the school. Reeves said elnmini repayment of loanm will duenerato abont which will offeet the decrease.

## South Africa

The Syractase Univerrity Board of Trustees decided at ita May 12 meeting to urge companies with holdings in South Africe to subecribe to the Sullivan principles, thue endorting its executive committee recommendations.
The principles ave cuidelines for improving labor praction.

## Bong blli

The future looked gloomyfor some New York atore owners for a period thim aumaner when the state Senate parsed legisiation banning the asle of "drus-related paraphermalia" in Now Yorls State.
The bill, an amendmiant to the state's General Buwiriess Law, provided for fines of up to $\$ 10,000$ and the revolsina of permita and busimess liownses for any perwon or businesa that promoted or encouritged "the sale, wit, or parchase of dragelated paraphernalia.
Those could have ineluded rolling papera, bongs, bash pipes, coke spoons and stash boyen.
Bill Pponsor Sen. Frank Padavan, (R-Con-Queems), said he designed the legialation as a way to Eight. drug abome.
However, the thend shop* bill-never made it out of commiftee in the more-liberal Assembly in time for a floor vote this year. The Assembly finishedits work for theyernin mid-July.
The Senated passage of the oill was invalidated by the Assembly's failure to vote an the bill during its work-term.

## Extended housing: packing 'em in

Cosu zight now is emouoying a zenith of Cumaminges Jr., directhor of admiseions. Ele and those wroncls five days before Lisen Lederman arrivied on campur, when Syracuse Uni vrerraity was, in fact. in exood standing witle her and her 2,950 frealmman clasmmates. They were blipefully unaware then of what the beciconing college catalogs hadn'tmentioned: extended hovesing.

It's terriblel I came believe they put me in here," ghe asiid upon arrival to lounge. "I'm not gairige to be able to live in inere with four cother people. The study situation is recinge to be crazy. I Kmove it's going to be mincomfortable. I feel like I'm living irs a hotel.

İga is one of tike estimated 450 freabmen and, trapsuifer students as signed to "extended housing" this fall doubles, and doubled singles, rooms designed to house either one less gtudent than they are zetually housing, or Fooms not deerigned to house stucents at all.

Although, accoritias to Jamea B. Morgan , director on the Office of Rearidential infe, the Ciomma areset up to handle the overflow allowed by an energetic admisesions office, all this mexars is everyone has a bed to aleep in. Most triples have onisy two desks for three people, and closets for extended honging victims are secarce, if they even
exist. Not only are those actually living exist. Not only are thope actually living in extended housing efffected, but so are the residents of all floprs where lownges are óccupied. While housing contricts discourage students from bringing refrigerators, hot pots ennd toaster overs, yesfidents in such hallis as Boland have nio ziccess to the stove and refrigerator inits in the occupied loungen.
The reason for this year's extended housing; Cummings explained, is that
the "yield rate" - the percentage of tually decide to show up at SU - is up an nnexpected 5 percent. This is the anme expuse given for crowding 175 people into extended hotuging last year, and for stuffing about 600 people into triples, libraries and loanges the year before that. It seems the admiasions office is being constantly and pleasantly surprised at how popular. SU is.

Cumminge attributes this "unexpected" surge in SU's popriarity to "an aggreasive enroliment and admisaions programa." Like the Pied Piper, the university aends ont catalogs featuring spacious classrooms, the privacy of split double and single rooms, and lures new students to overerowded classes and dormitories where privacy can only be found in a bathroom stall.
New students are all too often stuck in the Catch- 22 situation of a policy to live in university housing, and then runs out of "housing"-or normal, comfortable situationg-to put'them comf
inf
in

Though all students in the 10 dorms with extended housing suffer from inuniversity is reaping profits from its admisaions "error." With the dorms at full capacity, the miversity would be making approximataly $\$ 22,537,615$ in room, board and tuition. With 450 "extra people" in extended housing, the university will be maling about $\$ 1,871,650$ on "extra" turition, and about $\$ 186,750$ on "extra" room and board - a total of $\$ 2,058,400$ in unex pected profits. This does not include the extra money brought in by 450 extra health fees, student activity fees, etc.
Fortunately, most students assigned to extend hovsing were informed of summer, and were aware that room as-

## Learning to live with (or hate) your roommate

dignments were to begiven on a firstof anyone's timing in sending in acceptance and housing request forms, 450 people would still be in extended housing, because admiseic "guarantees" housing to freshmen.
The aniversity must atop making promises it cannot fulfill. Forcing students to live in dormitories where normal living arrangements cannot be guaranteed to all is worse than Eastern Airline mentality: if an airplane is overbooked, at least they don't make customers ride on the wingts.

The university should eliminate the ridiculous policy forcing sophomores to live in university housing. This would free up spaces in dorms so that all freshmen could look forward to a normal and comfortable living ar-
dorms at normal capacity, all residente would be more satisfied with the dormitory experience. Without extended housing, all dorm residents would be able to enjoy the "extras" that supposediy come with dorm living, such as stove, rooms, floor refrigerator and stove, and use of a fioor lounge. Fewer due to impossible study conditions and crowding, and rooms would be comfortably filled year around, instead of overflowing in the fall and desolate in spring.
monhen youre paying this kind of money you figure you can get someth ingyoucan ive in, said tim Reynolds disconsolately in his tripled Flint double "But I guess not.
Maybe next year Jim.

Sy Montgomary for
The Daily Orange

When I transferrea to Syracuse last September, I gave little thought to the idea of what my roommates would be like I considered mayself easy enough to live with and Fealized that I'd probably have to make a few conces-
aions, but I didn't formee any great difsions, but
ficulties.

Mark Sullivan
And sure enough, things went smoothly - until I rettirned from lunch one afternoon and found one of my
woonnies" washing dishes in my "roornies" washing dishes in my
turntable dustcover_ I calmly explained that my duetcover was a piece of high fidelity equipment and not meant for use as a dimhwasher. After gritar.

When this didn't appear to be getting through to him. I chaco another alternative. I went crazy and threw all the dishes on his bed. I screamed and furned and threatenead to throw him out the window and plas his records in a dishwasher. This seremed to work, and for a min

But the underatamiting was brief and owr problems continuzed. We had been
placed in the unenvitable position of not knowing one another in the chance, and told that we were going to chance, and told that we were going to
live together in relative peace and harmony until semester's end do us part
It didn't work. My roommates and were different types of people and found little middle ground. They had never met anyone who listened to punk rock or smoked as much dope as I did. had never met anyone who consumed Pabst Blue Ribbon at alarming rates, put cigarettes out in my plants, or refused to clean up laundry until it al but walked out of the room and jumped in the washer by itself.

So we called it quits at the end of the gemestex. Pll never forget the day I came home from a ninal and saw my roommate's bed stripped and his Linds Ronstadt poster gone.
After that we had to go through the $\$ 7$ for the couch and $\$ 2.50$ for the ref$\$ 7$ for the couch and $\$ 2.50$ for the ref rigerator deposit...How about if I caul take the rubber plant and we'll call it I felt divorce.

Yet it wasn't our fault. We had been put together by the one question on our housing form, which offered the

The Daily Orange

thoughtful, insightful query, "Do you prefer a roommate who smokes?"
I didn't and got three who did.

A friend and I decided we would move to another dorm, but discovered there were no openings. By this time felt like I was looling for a date for the Everone I anoke to was not sure out Everyone I spoke to was not sure what they

As fate would have it, the people who lived across the hall decided they wer looking for greener pastures and of ered to take me with them. I jumped at the opportunity and lived happily May) in my new room.

I'm sure I played my records too loud occasionally and every so often I tripped over a pair of pants that had

most of our living situation. college experience. You aregiven the opportunity to learn to live with someone besides yourself. Whether you come to hate or love your roommate, you'll certainly come to know him You're given two beds, two desks, three outlet plugs, a minimum of privacy, a maximum of potential

And it can
Sometimes

## Freshmen again

It's that time of year again. Those of us who have been at Syracuse University for a while, who have had a chance to grow jaded, are greeting old friends and bitching about the registration process. Things have already settled down to the kind of routine that will help us survive another school year.
But there is one group among us that will regard everything differently. The freshmen. It's easy for the rest of us to forget what easy for the rest of us to forget what would be worthwhile to remember.
Everything was different. For the first time, the protective influence of Mom and Dad was not present. You had to get used to sharing a room with a total stranger and putting up with all that person's obnoxious habits. (You, of course, were perfect.)-You alone were responsible fordeciding when you wouphnsible to sleep, what when you would go to sheep, what kind of lifestyle you would follow. All this was a learning experience

- you learned about life and, more importantly, yourself. They never told you this in the college catalogue. And, once you had catalogue. And, once you had covered that it had been fun.

Bued that it had been fun. and much of the fun has disappeared Like so many people tend to do, we have ceased to learn. Once learning stops, however, there is really nothing worth living for, and our brains become useless attachments to our bodies.

The solution is obvious. Wemust all become freahmen again.
F. Stone, the well-known jour nalist, once made the same point. In an interview with himself he wondered out loud if he was a scholar. In the end, he decided that he wasn't, that he was more like a freshman. "What can be more exciting than being a freshman," he said, "busily rediscovering what everyone else takes for granted."

Thomas Coffey for
The Daily Orange

## Registration starts

By Eunan Hiesth Accorching to Carole Barone. sU, registrar, about 15,000 studenta will regieter for comrees this fall on the main chinpus:

She estimated that about 4,500 of thoges etudents will have to clear up bills- before they will beallowed to register. They will have to vinit the Burasar: office, located in the Women's Building, at 820 Comstock Aver to pay any ovtstanciing bills, including tuition and health center fees before they will be allowed into the gym.
Food Service's officeis in the William B. Heroy Geology Building until tomorrow. Car registration and parking permit information will be

- Extended

Continued from page three of the semester, according to Morgan.
ORL has also convertéd Skytop II completely into housing for transfers. Previousiy the building housed 60 graduate students in singles.
;A. major reason for this year's axtended housing is a large freshman class. About 2,950 frealhmen are expected to attend this year, up from about attend lasis year, up from about Cumminges Jr., director of admisaions.

Cummings attributed the increase to a five percent hike in the "yield rate" in the schools and colleges in the university. A yield rate is the percentage of stadente who decide to come
available in the Physica Builiting. Athletic activity carde can be picleed up in Hendricks Chiapel.
Barone said the locations of three college offices were incorrectly lieted in the 1978 fall Time Schedule of Classes. Following are the correct locationss
chitectureol of Ar-chitecture-fourth floor rotunda of Slocum Hall.

- School of Nursing-room 103 at 426 Ostrom Ave.
- College of Visual and Performing Axts-202 Crouse College.
Barone warned that students sill not be allowed to reenter Archbold after they have finished registering.
to SU after the nniversity admits them.
Freshman admissions was completely closed on June 30 this year, the earliest in recent memory, Cummings said. Enrollment was targetted at about 2,750 to 2,800. Morgan said the students who attended summer Orientation this year were informed of the extended housing and the rest were reached by letter
about the firgt week of Angust. about the firet week of Angust. However, the letter the students recrived made no merition that the rooms were extended housing, but merely listed the student's roommates.
"those in extended housing received a $\$ 100$ reduction on their room rate from $\$ 515$ to $\$ 415$.

## Co-op changed to center for energy information

By Thomaz Cortey The former Ontrom Coop, the subject of controversy last year when its residents fought its closure, now honees the Syracuse Regional Energy Information Center.
The Office of Remidential Life said last February that the co-op woind beclosed at the end of the gemeoter because it was etructuralls , unpound and would coet too much to repair. A routine buildinik imspection found that Ostrom needed a mew roof, boiler, water pipeline, windows and inanation.

Vollzer Weisa, acting vice ipresident for reasarch and treaduate affairs, said his department requerted an old building from the university. tombow what covid be done in encrgy conservation in an-old houses.

Plans to tim the co-p into an energy center have been around for a while.

ORI's decision to cloae the building sparked proteats from otudent government representatives. About 350 students staged a sit-in in front of the Anlmimistration Erilding on March 31 to protest the action.

But Cliffird L. Winters Jr.,
vice chancellor tor ad. mincistrative operations, told the mtudente at the git-in that there werte two optioks regay ding Ontrom's future.
The first option was that the federal government would pick up the tab for repairing the homee and turn it into either a model fof energy conservation. or a mesearch project. The second option was to tear the brilding down, Winters saidL
The federal government, however, did not fund the energy center. Instead, the center is part of a 3200,000 . state project in the Syracuee area.: Syracuse University received $\$ 120,000$ for the center, while.. Onondaga County and the city of Syracuse bach received $\$ 40,000$ for energy conservation projecto.
"No university money is involved in the center," Weiss Beid.

William H. Scarbrough, the center's executive director. said that some removation has been performed on the building. "What little work we're doing on the building is coming out of the grant," he said.

The building itself is still in

## Rapist still stalks SU area

individual woxame, Banazek ssid. "You can't tell a person what to reported in the Westcatt street These rapes are attributed to $s$ different man, Finnie said.

But women cannot be expected to git inside and wait for the worst to happen. Police believe the best protection a woman has ia her common sense.

If women were prepared for the fact that they might be raped, Banazel said, thay wonldn't paric Banazei sand, thay wouldn'
'What women lack in atrength, they can'make up in brains," ehe esid.

She outlined the three choices a woman has when faced with an attacker. She can resist him, submit, or try to remain calm and tall her way out of it.
The decision is up to the

But Banazek advised against kicking the attacker in the groin; common piece of advice.
"I don't think that's good advice becanise most sirls don't know how to do it," ehe said: The woman might enrage her attackèr or trip and fall, blocling her means of escapa:
It takes "common Eense," said Banazek, to avoid most dangerqus situations. She said the best protection is thinking ahead and accepting that rape can happen.
The biggest mistake women make, Bamazel ssid, is that "theydon't stop and think it could happen to them:. been unable to solve a rash of 10 rapes that have been committed in last July. Of theae 10, "at least eight or mine" were committed during the firat two montha of school.
The axes is bouncied by Cambridge Street on the eant, Combtock Avenue on the wrest, Fayette Street on the north and Madison Street on the south

The latent incident was in June, when a 23-year-old Syracube University student was raped, beaten and robbed in her home on Cometocis A venue.

Since then, thinga have ben quiet, but police and the SU Safety and Securrity office are geaxing up for the influx of students that began Monday with the arkival of the freshmen.
"As of this time we haver't any' problems," baid Denise Banazel of the Criminal Investigation
Division. She gaid Angust and September are the wroret times of the year because of the warm Weather and the number of students returning to school who are careless and don't know the area.
But what hannts police is the fact that all 10 rapes that were. reported were apparenkiy committed by the anme man.

Studies his victimas
Finnie waid the rapist had obvionaly atudied hirs victima and had set up a mchedule before he attacked.
He said the man is a peeping Tom,", who watchied his victims,
often through windows, studying their movements. All the victims were white and were alone at the

Mof ther raped.
committed on weekends and sevem victims ateo were robbed.
However, Fininie said roblery is not the rapist's prime motive.
"Eie's after the girl.'
Finnie described the rapist as about 6 feet tall, black, and between the age of 16 and 19. Police do not lnow if he is a university student or a city resident.

Part of the reseon police can't catch him, Finnie said, is that none of the victims knew their attacker before the rape.
"If they did, we would have had him.

In many rape cases police have denit with, Finnie said, the women with their at alightly acquainted with their attacker.

Another stumbling block for police is the rapist's tendency to anealk through back yards and not to venture on to the atreet.

To combat the problem,
Syractuse police atepped up patrol in the area on Monday and have assigned four men in two care to the area. During the mummer, only one man covers the univermity area, Finnie said.
SU Safety and Security is also keepiog an eyre on the arsa. Director John C. Zriebec maid his department is working closely with city police and has also increased patrola.
"Every year at this time there seems to bean increase in rapes," he said, adding, "I don't have a restful minute

More assanits
But the rapes in tha Thornden Park area are not the ondy sexual assaults that have taken place in the university area in the last year.

Eight cases of sodomy have been reported in the district just Weat of the Thomaden Park area. Sodomy is eny forcible act of Sodomy is any forcibie sct of intercourse
But police believa the sodomy cases were committed by a different man He is deecribed as shorter than the rapist, with a heavier build.

Another two rapee have bien

Ton unsolved rapea, apparenty cornmitted by the amio men. trive occurred in thil arraa slnce lart Juhy. Atthough thinge have been guist in the fate two momeha, pollce art waming women to avoid walking alone at night.

## Crisis center offers advice

Counselars at the Rape Crisis Center in Syracuse offer some advice to women. The center's suggestions includec
women. The center s cugsestio

- Have your keys ready when you approach your home.
-Avoid going out with someaze you don't know.
-Always let womeone know where you are going.
-Keep your hands free when you are walking and nivoid can bully packages.
ally pacloseas.

## Foothall at Syracuse

## Will 78 be the dawn of a new age?

By Joel Stashenlico
A. bus waited in the drizzle outaide the Byracuse locker room in College Perk, Md., Ingide aat the SU taam, which had juat been physicilly overpowered by the Maryland Terrapins, losing 24-10.
The loss put SU's record at $2-3$ for the 1977 season, butit was much more than a ratio to players like senior center Paul Colvin, who sat in-the front of the bus quietly crying' It was the fourth straight year that-Maryland had beaten Syracuse, and the acene would repeat itself: the next two weeks, when SU would lose heartbreakingly to both Pemn State and Pittsburgh. Four years, 12 games, 12 losses. It was enough to make the 6 -foot-1, 220-pound Colvin cry.

1977 was a season when Syracuse appeared ready to escape its eecond-fiddie reputation in Eastern football, but all three times, in the Maryland loss, the bittersweet $31-24$ defeat by Penn State, and a last-second $28-21$ loss to Pitt, SU remained second best.
Yet there were also triumphs-SU's $22-20$ win over Rose Bowl champion Washington was a welcome relief after a disasterous 0-2 start; SU quarterback Bill Hurley's 384-yard, total offense, performance againgt Penn State was the best day an SU quarterback has ever had; and SU proved itself the third best team in the East with three consecutive wins at the end of the year over Navy, Boston College and Weat Virginia.

When it was over, after the tears and cheers had stopped; Syracuse was 6-5. It had been outiacored by its opponents $234-218$, although in the jast four games Syracuse gave up only 49 points while scoring 99 . It was a season of tremendoras lows and of moderate highs. But coming off four straight wing SU is now in one of those highs.
"People are expecting a lot from this team, that concerns me," said SU head coach Frank Maloney, who is entering his fifth year as head coach at Syracuse with a new multi-year contract and an overall record of 17-27. "I think our players seem to show more confidence than really they should have._I've had

## Monk gives SU offense heavenly dimension

Vietory finally came three wealk into 1977 when Dave Jecobs: field goal beat Whethington 22-20. A blocked punt and touchdown earlier in the game gave SU
the momentum it needed.
to aay, "hey, this is a new year and not Respectability, which - Maloney seems to have re-established in SU's football program, might not turn into superiority, however, because of an unusually difficult schedule.
'It's the hardest schedule I've been agsociated with in college football," said Maloney,-who Was an'assistant coach for six years at the University of Machigan. We could conceivably be a better team this year than last, butour achedule cotuld make it more difficult to win.

Fiorida State, 16th-ranked in the preseason UPI pall and last season's Tangerine Bowl Champions, is the first act in this very difficult two-act play. In addition to the Seminoles, there are four other 1977 bowl winners-N.C State (Peach Bowl), Maryland (Hall of Fame Bowl), Pitt (Gator Bowl) and Penn State (Fiesta Bowl). The com-
bined 1977 records of the 11 was $75-49$

1. College and Pro Football Weekly," a football magazine, has rated the Orange schedule the fifth hardest in the nation.
On this stage waits Syracuse, a team offense as explosive as its defense is suspect.

## opponeint

 at Newa,ST. at Nrichigan $8 t$ ILLINOIS at W. Virginia MARYLAND at Penn St. NAVY at Miami (Fla.)N

By Joel Stashenko
In 1977 Syracuse prayed for a good Monk, and got a savior. The old adage "stop Bill Hurley and you stop Syracuse," which had been true for most of 1976 and the first four games of 1977, Hurley, the triple-threat quarterback, conld now combine his talents with Art Monk, the double threat, runner-receiver set. talents with Art Monk, the double threat, runner-1
Both return in 1978, Hurley to complete the job of breaking every SU singleseason and career passing and total offense record. Monk, a junior, became the all-time single-geason 188 -yard performance against Navy was the best day an SU receiver has ever had.
"On paper our offense is definitely our better unit because of our big performexs who can sometimes carry the weight of two or three players," said SU head coach Frank Maloney. "Usually the offense is ahead of the defense but oddly enough in doubles (practice sessions) the derense has been hungrier.
Complacency, or injuries, bhould be the only thing that can congistently stop the SU offense. In the skill positions SU returns all of its key pertyonnel and if a fewf replacementa in the
offensive line jell quickly, the Syracuse offenae could be as good on opening day as it was the last day of the 1977 season.
on The only thing that concerins me ahout Bill (Ifwriey) is the fact he has yet to get off to a blistering start," Maloney continued. "This concarns me for the team's sake." SU's schedule, especially early in the season is not fit for the faint of heart or the especialy eari
slow Athur must koep maturing and progressing, Maloney said. I don't think ha's clome to tapping his talents?

The 5-foot-11; 190 pound Huriey, who also led the team in rughing with 625 yards will be backed up by junior Ron Farnaski. big ( 5 -foot-11, 224 pound) fullback whoigat good bruiking rumner but a better blocker. # All fireds of people buy booles at Itobs 

Bandit Bob's Orange Student Bookstore is a different sort of place. Sure we've got all of the textbooks - new and used-you'll need as a student at SU: We have supplies and leisure reading, free credit cards, too.

But I think the most important thing you'll find at the Orange Student Bookstore is a lot of friendly people. Syracuse University is a huge place-we're a lot smaller. Come in and talk, ask questions. We'll answer.

While you're in the store, keep an eye out for familiar faces. Some of the most interesting people drop by to visit. l've got their pictures on the walls. Who knows-Harry Chapin might walk through, singing one of his latest hits.

Come and see us. The Orange Student Bookstore is located at 175 Marshall St. on campus, at the corner of University Ave. Look for an orange outside and a friendly inside.

## A firm foundation or quicksand?

By Mike Stanton Building a successful football team is like brailding a houge. The ideal foundation for both should be something solid and unylelding: bedrock for-a house, defense for a football team. But the squad su Coach. Fran Maloney has assembled for this season may
be resting on a foundation of be resting
${ }^{\text {uncksand. If I had my druthers, I'd }}$ rather have a strong defense and a weak offeniee," noted Maloney, a coach with an unproven defense and who, on offense, is "stuck". with Bill Hurley, Art Monk and Dave Jacobs.
As an assistant. coach at Michigan for six years, Maloney helped mold some of sive units, enabling the Wolverines to ramble into three Rose Bowls. That experience has helped make Maloney a staunch believer in the football credo that defense, like pitching in baseball, is the key ingredient to a winning program
Even when Hurley, Monk Even when Hurley, Monk 0, and Pittsburgh's 332 pas-
and Jacobs were the darlings - siag yards as the Panthers

The su gecondary will be under fire immediataly in 1978 with the brunt of the preseure on SU wafetias Terry O'Leary (24) and John Pattermon (35).
in the last season's drive to ai 6 5 record, Maloney emphanized that a suiddenly solidified in the Orangemen' thee, victories in the Orangiemen's season-en But four-game win streak
But the graduation of monsterback Larry King and tackles Bernie Winters and Ken Clarke has deprived the defense of its leaderahip.
What Maloriey has as he pilots his Orangemen into a mine feld schedule is a glittering offense that, withont defensive support, could be worth as much as a $\$ 250,000$ house perched on the San Andreas Fault.
"It's tough to go into a outscore the other guy," Maloney observed. "We gave up a lot of points last year.'
Last year the Orangemen surrendered an embarrassing 234 paints and 3,935 yards; (1,950 passing yardage and another 1,985 on the ground). Other underwhelming statiotics include North Carolina State's-528 total offensive yards when it whipped SU"38-

came from behind to defent the Orangemen 28-21. Although the defense held three of SU's final four 1977 opponents to justis points, the mainstays of that unit are gone-Clarke to the NFL's Philadelphia Eagles, King to the Canadian Football League's Winnipeg club and Winters an unmuccesgful candidate for the
CFL's Saskatchewan Rough CFL's.
Who will fill the voidsin the defensive line and the tearn leadership ranks are "two critical areas of concern"' that will nag Maloney as his $\mathrm{O}_{5}$ angenen meet Florida State in Archbold Stadium Saturday.
"East year's defensive unit had tremendous charaicter and emotion," Maloney recalled. "After the North Carolina State loss the boys hung tough and became closer and closer
Maloney says he-is more concerned about defending against the run than the pass, although he concedes two of SU's firat three opponents Michigan State and Florida Michigan State and Florida sing teams, which may make sing teams, which may make akainst the pass.
Thöse three offengive Goliaths, led by a Florida State squad with perhaps the most potent passing attack in the nation, will put tremendous pressure on Maloney's tendency to start the season slaggishly and the Orangemen look like David without a glingshot.
Two Orangemen who could prove crucial to Syracuse in defensemen who sat out all or must of last geason with inmust of last Eeason with inJim Collins.

Richardson collapsed during the 1977 . opener against Oregon State with torn ligaments that sidelined him for the remainder of the season ball camp. Last August, the 6-foot-2, 265 -pound Richardson appeared to be SU's top defengive tackle prospect and, if healthy this fall, will help speedy veteran middle guard
Willie McCullough anchor Willie McCullough anchor

Mike Rotunda, who wrestled

From time to time in 1977 the detente rose, fothore agingt Washington as Willie McCullough (5E) blocks A Huskio punt. A magging ques̈tion remains: can SU do it from the beginning in

1378 ?
as a heavyweight for SU in sat spring's NCAA championships, will back up Richardson-at left tackle. Junior John Cameron, who made seven tackles and eight assists against Penn State last year, will start at right tackle. linebacker has been shifted to inebacker, has been shifted to surance.
Walk-on BobTate is a steady performer who returns to the close end position, with help from former defensive back Fom Seibert. The wide side end spot is contested by Fred inexperienced.players.
Although lack of proven performance characterize the defensive ine, linebacking seems to be in capable hands,
led by middle linebacker led by middle linebacker a broken leg. a broken leg.
At 6-foot-2 and 223 pounds, Collins is not the "Whimp" his teammates have nicknamed him but, rather, the strong midite man the defense needs.
Junior John Kinley, a solid Junior John Kinley, a solid starter last season, returns to while sophomores Ken Kollar and Mike Zunic will back up the experienced duo.
In the secondary, three of the four starters are back. Two
backs benched in 1977 by inuries are healthy, and 5 -foot10, 185-pound sophomore Bob Arkeilpane will fill the important roving monsterback position vacated by King.
The young Arkeilpane, who Maloney predicts will be severely tested early this season, is a smart player and in practice has
Assisting Arkeilpane will be returning starters John Patterson and Terry O'Leary as safeties and Warren Harvey at cornerback. Backing up the starting quartet are Brian Ishman and DeShawn Hawking, sidelined by injuries in 1977, with Larry Newman and Dick Weber.
Harvey, a junior who for a school record 599 yarde or a school record 599 yards, is regarcied as among the team quickest most elusive players. The versatile Harvey duteh play la clutch play last season intercepting a pass on the goal Virginia and blocking a field Virginia and blockcing a
goal aguinst Pittaburgh.

The foundation is set. Whether it is quicksand or bedrockshould determine whether Syracuse University football sinks or rises in 1978.

## SU has more than a foothold on kicking

By Dave Btern
The name of the gameis football and Syracuee depends on the foot as an importarit part of its enccess,
The kiching game is perhape the most vitally important part of our

 Syruerte. Depe Iecolbi (1) has lictued suthoid fid romeres. Ber 565E2 and EO yunds
team," Baid Syracuse Coach Frank Maloney.

The two Iney players in Syracuse's Giching atratery are junior punter Jim Goodwill and aemior place-kicker Dave Jacobe.
Maloney describes the 0 -foot-5 Goodwill as a "pretty good pinter." Goodvill was fixat given a chainge to prove himuelf early in the fall of 1976 againiat Maryland and he went on to perform dependably that season averaging 39.3 yards. That was less than three yards short of the Syracuse ningle season record bet by Bernie Rrioff in 1974.
Last saason Coodwill's average Alumped to $\$ 5.7$ yards but he gill had eome fine moments, including pumts of 54 and 57 yards during the preasure packed Penn State game.

Hovever, when mopt of the preasure lickimg situations zariee, Maloney will call on it, All-American candidate, 5 foot-7 placelacker Dave Jacoba.

The corsch iderriribe Jacobe an an
 his eqcomppintionts in yrincuve ho is oven better than that : Jacobe has

 one etrappoint and funs connected on
sill of his last 44 extra point attempts. He is 24 for 32 ingidethe 40 yard line, coming from beyond the 50 hyard line.
Jacobs" statistics are impressive. But his value is magmified by his ability to prodace urader preasure situationg. Five times Jacobs kicks have won games for Syracuse. "It's not me alone," Jacobs mays. "It's the kicking team."

The situations have Labeled me as a good kicker," Jacolbs said.
Should Jacobs be "the"AliAmerican kicker?
"Yes," says Mixioney. "There are some other good ones, but David has the ability to come up with the preseure kick."

Jacobe' moat obvious competitior for the All-American honors is barefooted Texas A\&M kicker Tony Franklin.
"Trony is a good Hicker when yu ero by basic statistics," Jacobs said.
Howaver, there are intsingibles that Jacobe believea may suppoxt his own abikities.

A prevprure lickiex
Firat of all, I have been ableto come throgich under mogt preasure giturtiontio his andi. "Aleo, I have to play mader harsh wenther conditionis
and we have always had to use regulation balls for our kicks."

Thie players in the Southwest Conference were allowed to use -pet" balls in past seasons for certain Ficks, but that rule has changed.,

Another rule change that could affect the syracise kiching game is that all missed field goals will be retarned to the line of scrimmage this season; ingtead of to the 20 -yrard line.
"The new rule will definitely change our mitrategy." Maloney said. "We probably won't try as many long ones
"We have to start thinking like the pros now," Jacobs added. "We will have to so for the coffin corner punts instead of my long attempts.
${ }^{4}$ As long as I am consistent, I can give the team a jift. We probably just won't try a "regular' E0-yarder uniess we have to."

Maloney believes the overall kiching came is better than average. However, the protection and coverage need worl. he said.

WhiléBill Huriey \& Co. appear ready to provide excitement for Syracuse fans this mearon, the kicking teamis gomid provide that extra

Composed Upon Weatminster Bridge William Wordisworth

This city now doth like a garment wear The bearty of the morning; siient, bare,
Ships, towers, domes, theaters, and temples Shi
lie
Open unto the fields, and to the sky: All bright and glittering in the smokeless Air.

London Bridge, England

## British cultures survives despite Americanization

By Michael Kranish
Her accent was properly Britigh; but her appearance belied any cluen to her true heritage. I was expecting a kindly old lady of fifty years as she looked at my face for just a second and said, grinning, "I heard you got pretty pie-eyed last night."
"I always try to make a good first innpression," I said, looking over the unkempt insides of her two-story walk-up. It was my second weekend in England and I had no place to stay so I had called the number I had jotted on the back of a onepound note with the notation "used to live across the street from us 15 years "ogo."
think turned out alright, Mickael. Do you a drintri, slightly hit was only 10 a.m., and I was sarly mornizag drinks could be too strong.

Schnapps," she said as she handed me a snifter and carafe. It tasted more like pepper-mint-flavored Drano.
bery good, I said with a choked smile.
Dreases in an outdated housecoat, she talked non-stop about the old neighborkood, living in this little village, the problems of having little money to pay the huge bills and the taxes levied by the British government. Her house stands alone at the end of a one-lane road, surrounded by farmiland at the highest point in the town of Guildford.

Like most English flats, it is freezing in here. Shesees meshivering and says, "We haveagas heater, but we can't really afford to keep it on except in the worst weather. Now I know why she drinks Schnapps at ter in the morning.
I was to move into my own flat, just a block from Sherlock Holmes's nonexistent Baker Street residence, the next day. My stay with this typically unpretentious Briton turned out to be a good breaking-in for my next four months in England.

I moved in with a friend of a friend and two giris whom linew for less then ten minutes. Between the four of us we could not afford to tura on the heat for more than one hour, except on the coldeat of nights when we were all sick. Having survived three years of sub-zero Syracuse weather, I envisioned no problems with the London median of 34 degrees. I was wrong. Being a rather small country, Great Britain used most of its matural mining resources earlier in this century, especially during World War II.
Becanse of high prices, the cost of heating our ittle two-room flat (it even had low ceilings, which is very atypical in the West End) was far beyond the means of four college atudents studying for one semester in London with Syracuse University's International Division.
The experience has left no viaible scar on me. however, and the only evidence that I have suffered through Britain's energy crisis ane the photos showing myself wrapped in. innumerable sweatshirts and blankets. The atriking aspect of this was that most of the English steady temperature of 50 degrees inside their home, just as they meemingly take for granted their bi-houxly fix of tel.
We were not, however, by any means cot off from our Amorictaization. Within four block: of our flat were Bastin-Robibins, Safeway, and

Woolworths, among othera. But at every corner stood a reminder that we were indeedin a foreign conntry for within the same four block radius were approximately 40 pubs.
The English pub is not simply a place to drink; it is an institution. In the days when the monarchy truly ruled the country, only the aristocracy were allowed into drinking places because they were all private clubs. Thin was fine for the rich, but the breweries could not be the working classee imited consumption, and someplace to down a few pints after work.
As a result, the brewerín opened their own "private clubs"\%- hence "pubs" - for the wor king classes, and today 95 per cent of the puby pubs are force to breweries. $\mathrm{p} . \mathrm{m}$., the men (and more recently, the ladies) ritualistically head to the cornor pub after work for a pint of bitter or Guiness. If you wanted an American-tasting beer, the call was for a "Lager." which usually earned you mayward look from the bartender since, as our history professor warned us, "only women and Americans would touch the bloody atuff.?
Nor are the English particularly familiar with our desire for mixed arinks, as I found out one night in a country pub in Surrey. I was with several English friends who all drank Gumess, which is a very dark and awful-tastinge atout beer brewed in Ireiand. Not wanting to confess my preference for Lager, I innocently asked the barroaid for a screwdriver. She looked a mea lit. tle warily, which I assumed was because of kny accent. But being politely. English, she came back and handed me a - screwdriver.
"You got something loose, mate?" she asked without the slightest trace of a smile. "Only in wny head," I replied. I was akout to ask her if fhe knew what Bloody Mary was until. I rempembered it was named after a former queen of England who had a penchant for chopping off people's heads.
Although my three English friends were not wealthy they all were mechanics and each had helped rebuild a Marcos sports car - worth about $\$ 10,000$ each - and we managed to discover every pin turn in Surrey at 80 miles per hour. I closed my eyes and wished that my driver had not just downed his seyenth pint of Guiness. He maw my angriah, and said rather bluntly "I'm really pissed, Michael."
"Oh, really? What's wrong?"' He laughed and explained that "pissed" was an Engliah'term for being very drunk. "I'm glad you told me." I asid.
culture, Mike, just trying to give you a little culture," he deadpana. To make aure he etayed awake, I turned the radio uploud. It'e a termible Meanwhile its also the only stamon. countryside, we hew past the sprawlumgnal huge mansions that once belonked to nobritity but were now controlled by the National Trust, a private foundation which owns almowt every historic house in Great Britain.

Atter hying down the Britiah highways, we approached Londion. I really began to feel English.

Hey," l asked excitedly, "Where are we going now? To a really great hamburger place, one of my friend answored. I sumilod atatherintely as we wallced under the poldem anchere.

## Living in a flat: cheap

By Jacqui Salmon
I discovered something fas-cinating-about plants in London. They tharive on a diet of beer, noise, bad guitar music, good hash-and extreme cold. At least mine did. It was a rubber plant I got for my birthday when we first moved into our flat in Kensington in January. During the fourmonths it sat on top of the grew glossy, thick and green.

I lived in a tiny, second-floor flat - which is what England - in a buildine full of Syracuge University studients Syracuge University students reason our landlady Fiked renting to Americans. I think she was a sadist. She muat have liked watching the agomies that aoft Americans went through when they were dumped in London in the dead of winter.
Living is a cheap Londor flat means orue thing - you freeze. The English cheerfully keep their houses at aub-freezing temperatures and shut off the heat at night without even turning blue.
It didn't snow very much in Londan. It just rained. And rained and rained and rained. Big icy drops -blown by the wind headed straight for exposed necics and unprotected hamdia. Londera took it for granted and strode through the streets with open jackets pard bare heads. But the Áriericans huddled in ski jackets, mittens and hats and thought longingly of soft snowflakes and heated houses.

It wasn't much warmer in pur flat. It was heated by an obnoxious little device called a coin meter. During ourstay, we grew to loathe the little bugger. In order to get heat and elecricity, we had to deposit 50 pence (\$1) pieces into it and then the monster would dispense our heat and elec ricity in mercilessly smal amounts. Its appetite was enormous and wher it Wasn't fed properly it retaliated by shutting dovn.
The results were devas tating. The lights went out, our heat shut'off and we were left scrambling in the dark for any
apace 50-pence pieces - to appease the monster.

We never really sot used to the meter or the ritmal of prying enough 50 -pence pieces out of each other for the coming week. Our first nightin the flat was the worst. All six of us crouched around the heater in the living room, wearing sweaters and coats, surrounded by blankets.
Why? we shouted to thecold, uncaring world. Why did we have to "broaden our horizons" in a city where it rained more than even in Syracuse and where the residents didn't believe in central heating?
As the months went by, I became convinced I would never, ever be Warm again.
Our fiat had a lovely bay winOur flat had a lovely bay winstreet that looked like something out of "My Fair Lady." But our beautiful bay window, like all the windows in out flat, had no storm windows to keep out the drafts and blasts of icy air were constantly circulating through the room.
In the bedrooms, the only heat was a three-foot square
electric heater that ate up 5 electric heater that ate up 5 pence pieces, heated up the floor and burned coats.
But I got used to the cold in there and discovered an effective method for getting into an The best way, I found, was to make a running leap into the bed, acurry under the covers and then vigorously pump my. leg and arms untilthe friction had warmed up the sheets. My roommate thought my per-
formance was hysterically formance was hysterically funny and laughed hergelf to
sleep every cold night for four sleep every cold night for four months.

As for my plant - it thrived. Besides enduring the cold, it
survived one of my room-survived- one of my roommates' attempts at guitar playing and the weird and wonderful smoke that was constantly circulating throughout the living yoom. English friend when Ileft London in April. Poor thing. Veronica will probably water it daily, trim it regulariy and keep it awny from drafts and strange smoke. It doesn't stand a chance.

## Emotional disputes erupt in Hyde Park

## By Rachel Finkel

Shouts echo in the park. Men dreached in siweat stand on wood crates and shake their fists in heated argument. People with big flashy posters pace the field, yelling as they the crowd and tell them to "calim down." Touriststalse pictures: Many Tparticipate in the disputes. Most, however, aimply: wattch in awe.
Thue scene, "Speaker's Cormer," is hir classic Sunday afternoon event held every week at Hyde Park, Lonpoin. Anyone with an opinion and mputh carr preach his or her beliefs from high noon to late evening. thspeeches are usually ac: icompmined by_-iquarrels between arator ernd ppectator, fighting armong the crowd and name-calling Thensist of canses is endless: from fati-marifage to Axab-Iraeli land fetrementis and the alvation of the siorlat
WPepple expoinnd their beliefs in Whions waymA mion of wrintied fapough cowds withe bould lettened

manner, explaining that the world will not survive because of its evil. What debates lack in substance, are made up for in emotion.
An argument-arises over the rightful owner of the Gaza Strip and West Bank in Israel (or is it Palestine?). An Arab labels Iaraelis "homosexuals." An Israeli smiles and tells a group of Araba trying to speak at once, "One fool at a time, I can only answer one fool at a time, " It is not so much the comments as the event itself that makes Speaker's Corner so appealing. Everywhere there is another cause, another angry word, another curious spec-
tator. Boys in T-shirts and silverhaired men in business suits lister and speak. Different accents and numerous dress styles provide universality.
The parls grows dark; the noise anbindes. Speakers walk away from the poft mots. Shouts are replaced by crovird. A teen-ager thrown a friabee to his frienct Drly a few crates remain ais a yeminder of the fighting rend inabarmbincer of thentighting Thnmonts beforie

## SU soccer squad

By Mike Btanton
In 1977, theirslogan wis " 11 in "77." Fourteen grmes later, the Syracuse University soccer team had realized that goal with three wins and 11 lasmes.
This year, faced with a bolstered by a mirong recruiting meason and some desperately needed offeneive punch, the Orangemen are hoping to be "Great: in "78."
The soccer team begins ita suicide odyssey Sept. 9 with the first of four straight road games, the opener against Siena. They return to Coyne Field Sept. 23 for the home opener against Niagara and year's NCAA Division I
 including top-ranked tonmey, including top-ranked tonrney
winner Hartwick Oct 28 at Coyme.

Last season, the Orangemen boasted a sturdy defense spearheaded by sophomore goalie Mike Westcott; who made 174 saves. Westcott, from Westport, Conn.: will return to the net for SU after failing to qualify for the 1980 U.S. Olympic team over the summer because of a broken finger.

The Orangemen haven't lost any star defensive players but have recruited freshmen with solid offensive credentials. Coach Bill Goettel is counting on the new blood to revive his offense.
The key freshman is twotime high school All-American Tom Salmon, a transfer student from New Jergey's Camden Community College, Who will start at the inaportant Richard Soba, another freshman and two-time
high school All-American, is a probable starter at forward. He will be astisted up front by veteran winger sand temm co Captain John Springer, who played opn the silver medal winning all-gtar team inithis gummer's Empire State Games.

The Orangemen Hgain appear solid on defense, with co-captaia George Olsen returning minter Faisal Abmed of Sheffield, England, and new comer Gary Anderson from South Africa.

Anderson. a midfielcier, recently moved to Philaidelphia and is also the backup place-kicker on SU's varsity placekicker
The 1978 Orangemen are an extremely young, high spirited unit dominated by 20 freshmen with only five sophomores, six juniora and four seniors
Despite his team's youth, Goettel's goal is winning an invitation to No
"With our achednle, which is probably one of the most difficult in the country, we should stand a good chance (for a foumament bid) with a Winning ( 8 -7) aetason," Goettel said.
SU's rugged schedule, besides including defending NCAA champion Hartwick, features 1977 NCAA tournament teams Cornell and Army at home and Boston University and Oneonta on the road. Besides last year's poor record, Goettel cited the weather, frequently "colder than a mother-in-law's kiss" as a factor in dampening fam enthusiasm On few dayy enthusiasm. On a few days wast Beason that had good than 1,000 people arew more

Forrner SL zoccer fullbeck Dave Mervin's face trimors the dimfeat that the Orangernvin experienced 11 timoes layt beason. year's $3-11$ fecord on the atrength of fre fecrutte.

A part ime coach who also ruma the umiversity's venereal disease clinic, Goettel jokes, "I coach the world's two most popular sports-acceer and VD. Only sometimes I get more people at the clinic than we get at a scccer ramee."

## - - -

There will be an open soccer ceam tryout tonight at Coyrne Field at 8:30. All interested soccen players are urged to try out, alshough Goettel have at least eight years of noccer experience.

## Foreign flavor spices Orange summer hoop menu

## By Mike Stanton

It's been a summer of new places, old faces and a few fresh faces for the Syracuse University basketball team. round loss to Weptern Kentucky in last spring's NCAA tournament, the Orangemen have been strengthening themselves for a season that offers great. challenge and substantial promise.
Highlighting a schedule that includes better competition in Manley Fiald House is a berth in the NCAA champion Kentucky Wildcats' rugged cludes powerful teams from Illinois and Texas A\&M

Despite home-opener foe Whittier College (whose most farnous alumnus doesn't play basketball, SU students will have an opportumity to see a strong field for the second Carrier Classic (Iona, Western Michigan and Utah State), as well as Rhode Island, Ilinois State, Rutgers, St. John's and two rapidily improving squads from Penn State and Pittsburgh during the regular season.
Beaides Kentucky, the 1978-79 Orange road show will feature South Saunine Garden and at Madison Showdown with arch-rival St. Bonaventure in unifriendly Olean.

Tuning up for his third season at SU, head coach tim boelvim sent his team to Italy for two weelcs in July, scoured the East to land three promising freshmen, sent two of his stars (Roosevelt Bouie and Dale Shac kleford) to play on international allstar teams, and hired a new assistant coach to replace Fick Pitino, Boston University's new head coach.
The new assistant coach, who will be primarily responsible for recruiting, is Brendian Malone, 36, a former asalso coached at New York Gity's highy-regarded. Pow rer Momoxial

Boeheim was also keeping an eye on Marty Byrnes,who was drafted by the Phoenix Suns in the first round of June's National Basketball Association draft. Byrnes played in a California summer league for NBA rookes as the Suns entry won the In Italy thanship.
In Italy, the Orangemen played seven games in two tournaments and an exhibition against national teams from Italy and the Soviet Union and an all-atar team of American pros, (like
Holy Cross grad Chris Potter) who play Holy Cro
in Italy.

SU won only one of its seven games againat an Italian team from Rome The Orangemen lost twice to the Rus-
sians, by eight and 12 points, and also dropped two one-point decisions to the American all-stars.

But experience against stiff competition rather than winning is the primery objective of such foreign tripe, Boeheim noted, and SU fans shovid be formances of several Orangemen.
Junior Roosevelt Bouie, who has yet to live up to the offensive potential fans expect froma 6 -foot-11 center averaged 21 points and 15 rebounds in Italy as his teammates fed him the ball more often. Senior Dale Shackleford, a 6 -foot-6 guard last season, switched back to his forward position in Europe, Last year's freshman tandem of Erd-
die Moss and Marty Headd performed "extremely well" in Italy, Boekneim exid. Moss, a slick penetratingeguard and. Moss, a sinck penetrating guard and excellent ball handier
Both Bowie and Shacklefordiremuried to Europe in August as part of efeptimate American collegiate all-ataci-tearms. Shackleford played on a ECAC all-tar team which included Holy Cross'ERTin Perry, Michael Brooks of LaSalle and Ernie Cobb of Boston College. The team was 5-5 againgt an assortmenit of Yugosiavian teams while Shiackleford averaged 15 points a game and led the team in assista.
Bouie made hie secona flight to Europe of the aummer with a group of American collegiate freshmait and apphomiores who were prepping for the 1979 Pan American games. This TEam nciuded. Michigan Stater's Earizin Johnson and Kansaa' Darnell-Valen tine.
This year's trio of SU bashetbilirec ruites should add depth, empecially at forward.
Ed Gooding, a 6-foot-7, 186-poünd forward from Now York City's Xevier High, could be the secona coming of Gooding is an exceptional shooter and a stringbean who Boeheim saye needs more strength and asgreasivenesi.

Ron Payton, a 6-footis; 205-ponid roxward from irenton, N.+., is cast in the mold of Shactleford, beinge "an goind an athlete as we"ve:cuper reoruited," according to Boeheirn
Although he may suffer fromplaying his high school ball in a fairly wea prep schcol leagua, Boeheim deecxbe End ascod Ehocticr whone abitify conld turn the Manley 7oointo Feyturir Place.

## Frosh first impressions: friendly, frustrating, fun

By Rachel- Fincel and Barbara Krupnicari
Duxing the confusion of Monday's mass move-in, Syracuse University's class of 1982 drew its first impressions of college life. He reactions were a varied as the people
new freahman class
The first glimpse of SU is intimidating to most freshmen." said Madeline Woerner, a Boland Hall freshman, who anticipates being theally lost in the university axea for the first few weeks. An interior design major; Woerner said she wha impressed
by the friendliness of the first people she met

Kyle Norberg, a retailing major, felt "really confused," even though she was "excited and glad to be-away from home."

However, despite confusion of some newcomers, others did not feel lost. Freshman Jennifer Crocker "liked the organization when we arrived." Crocker said the Goon Squad was a big help in keeping confusion to a minimum on the Mount.
Two giris in T-shirts and jeans agreed. "It takes a little while," Baid Jan Mckie, a member of the SU Marching, Band, "but I love it. It's a good time." Her friend Debbie Silverman aaid, "I life the bustle and the people are really nice.
People were scattered throughout the quad Monday wandering in and out of information booths picking up brochures about campus events and clubs:

One tall girl dressed in a white peasant shirt was thumbing through brochures at-a meditation booth. 1 'm basically interested in everything," said Diane Avedisian. She investigated thu flying club, and the crew team, and expressed interest in looking for a job.

Many freshmen said they were satisfied with their housing, although some expressed concern over extended houging. One Brewster Hall resident wondered if students in extended housing pay the same amount of money to ive in rooms that "look kind of

## More wining and dining arriving on $M$ Street

By Patti Schuldenfxei
Discovering the joy of munching on Marshall Street ranks as one of painful - campus experiences. But after sampling the offeringe of every obscure nook and cranny of the two square-block food fair, the seasoned eater is faced with a problem: Wheredo you so when hamburger havens become humdrum and the pizza palaces lose their punch?
This year, in its continuing effort to become the manchout capital of the world, the Marshall Street-South Crouse Avenue area will expand it: business community - and itsmenu to include a wider aelection of culinary

## SU-Bookstore offers rare treasures

Ladien and Gentlemen, you are about to embaric on a joiurney through a proud civilization." Our guide of the an-cient-Syracuse University Bookstore tour adjusted his Betamarispectacles and continued apenking. A civitization enlightened enough to merge the uthitarian with the opulent. These people took tremandous pride in their possesmug On it is printed "rhis is orange, Era winite. There were rumors at one time that certain females were also being branided (hotheh) during hazing, but this is only a yumor."

Our ginde led us to a shelf in the wall:"AB you can see on your'right, these beings did not want to confuee their ar4 ifacts with those of another university. That is why you can bibitricys moan, wastebankets, maphing, cuinhions, visors,

We followed him down a narrow path past various other artifacta. He pointed to a female model who appeared to have een attacked by sombone with orange and blue crayons.
Our model is wearing SU gymshorts, an SU V-neek pollover aweater and a mod navy blue tie with Syracuse in orange letters printed all over it. Headgear moludes an s an ogauzehat proclaiming cor an SU beer stein. Hang ing around her waist is an SU wine flask. Unfortunately, our wale model didn't ahow up today, so I really can't show you what the men were like.

Sometimes these beings would fly their colors' verbally," he erplained. He pointed to a rack of 1-8hirta. Thia one was probably offensive to thome followers of Mr. Friedan: Syracuse Univergity - a tradition of men in exciting positions:, "Deadineus downthe racke, our guide ahowed Ccintining on pege forry
delights. And for those with full stomachs and wallets to match, the new eateries will make their debut amid an entourage of new retail stores and shopping complexes.
Heading down South Crouse Avenue, the first unfamiliar face to appear will be that of Faegen's Ltd, owned by the familiar faces of 'Ted and John Dellas of The Varsity. But don't expect a variation on a pizza-pie theme; with a projected decor and atmosphere John Dellas describes as "pub-ish," Faegen's will feature a limited menu of sand wiches, salads, soups and quiches, with a full bar and piped-in music not a juke box, but a guy spinning records." If all proceeds on schedule, Faegen's will open in mid-October, in the spot formerly occupied by Emporium of Greetings.
Venturing into the depths of South Crouee alley behind the Post Office, food-seekers will scon discover a Sutter'e Mill and Mining restaurant, specializing in sandwiches, steaks, beer and mixed drinks. The restaurant, whose opening was delayed, according to owner Kevin Klein, in order to make it "nicer than expected," will open within a mionth
Two food and ahopping complexes are now in planning etages. According coi operating partner Guy Gaster construction of a $21 / 2$ atory McDonald complex, to include a McDonald's ree begin in one to two weelcs The etructure will rise out of the year-old hole on conainuad on pepe forty

## Forestiy gradiuate helfis first Malaysian físhery

By Marsha Eppölito Although the Southeast Asian country of Malaysia asems a distant place acceasaible only in one's dreams, for Peace Corps trainee Carl M. Crane, 22, it is a reality.
A May biology graduate with a concentration in Cisheries from the State
University of New York University of New York College of Environmental Science and Forestry, Crane will be starting the first fitheries program in Malaysia this fall. The program wil focus on preparing rural youth for careers in fisheries.

## New cash crop

In addition, the inland fresh water-fisheries program will Matapans, to increase the to help them establish fish as a cash crop.
Prior to leaving for Malaysia, Crane and two fellow trainees received two weeks of fisheries training at Auburn University in Auburn, Ala. He is now in the where he is receiving his three month training in fisheries, the Malaysian language, the country and its customs.
Upon completion of his threemonth. training, Crane will be sworn in as a Peace Corpsevolunteer and sent to his individual assignment in a rural area of Malaysia.

Peace Corps volunteers have been working in Malaysia since 1962 at the request of the Malaysian government. Today there are more than 250 volugreers in in Malaysia serand health programs.

## Unstructured program

During an interview at Peace Corps headquarters in Washington D.C. immediately prior to his departure for Malaysia Crane said, "I really think we'll be able to accomplish more because there won't be any kind of structure that we'll have to adhere to. We'll do a better job because we'll be able to try lots of wifferent ideas."
As a Peace Corps volunteer, Crane will teach Malayans the to incorporate fish into fish drets and how to increase fish production. He will be wor king mainly with various types of carp, including In donesian, big head and silver. In addition, he will helpyouths and local farmers to develop marketing techniques.

Crane will also help the people construct and design ponds. "My main goal ien't to go to Malaysia and construct the ponds myself," he said. "My goal is to teach the Malayans how it's done so when I leave they can continue to do it."

The volunteer program will be new this fall because trainees will work directly with young people in rural communities.

EYERSON MUSEUM OF ART. FRIDAY N/GHT SPECIALS

Friday at 7:30 p.mi. Jean Cocteau
BLOOD OF A POET Peter Hotfrman PILGRIMIS er' Tron $* 200$ mems Anconomembera:

According to Chip Letson, Malaysia deak officer for the Peace Corps," "This type of program has more of a chance to grow. It can be a large village-based program that is involved with basic human needs."

## Appealing inducements

Crane cited many reasons for joining the Peace Corps. He said that the new learning ex periences he will gain from liv ing and working in a foreign country were a main reason The opportunities to travel provided another inducement - "It will be nice to get away from the hustle and bustle of America for a while," he added.
The knowledge that he will be hel ping those less fortunate than himself was an additional incentive, Crarie said. Crane added that his future job prospects will be brighter when he returns because of his Peace Corps service in Malaysia.
Although he will participate in training programs to prepare him for his assignment. Crane expressed son in abern what to expect in Malaysia.

Gaining the respect of the people might be a problem in the beginning, a wetl jus have to build their trust in us. he added.
Editor's note: Anyone interested in more information about the Peace Corps may call $800-424$-8580 tollfreeor the Rochester recruitment officeat 716-263-5896.

## Unionization efforts continue

gw By Mike Maynnird
The Syracuse University chapter of the American Association of University Profes-sors-is continuing its efforts to anionize the SU faculty.
SU-AAUP will soon ask all full-time SU faculty members who support a unionization effort to sign petitions to that effect, said chapter president A. Dale Tuasing.

The SU chapter, Tussing added, will also have cards printed asking full-time faculty if they would approve the National Labor Relations Board supervising a unionization election at SU. The SU-AAUP faculty assem-bly-the union's governing body-would have the-final asy on whether or not to distribute the cards.
The faculty assembly will meet Sept. 13 to decide whether the cards will be distributed.
Tussing said, "It may take a few weeks to get everything rolling" because the chapter has not yet drawn up a platform explaining what it hopes to accomplish by unionizing. Unionizing, Tussing said, would "create a more congenial environment at SU. Our aim is to decentralize the power here by increasing faculty's role in governance of the university.
The SU adminiatration has started "campaigning against collective bargaining," Tussing added. This is to be expected, he said, because "no management wants to have to deal with collective bargaining.
Another possible delay in the unionization effort is a
court ruling handed down this surnmer, Tugsing said.
Earlier this year, the faculty at Newr York's Yeshiva University voted to unionize, but the administration there refused to recognize the union, claiming the faculty members wore not employees, but part of the management. When the

Yeshiva faculty went to court, the judge ruled against them.

Tussing believes the case will eventually reach the Supreme Court. If it does, "I feel confident the lower court's decision will be overturned," he said. But SUPAAUP may not move ahead until the case is resolved, Tussing said.

## Three former Byrds to perform on Quad

# S.U. students and faculty (national and international) are cordially invited to 

the services of Christian worship at the:
Reformed Presbyterian Church
 17 South Salina Stre
Syracuse, New York

## (approximately 2 miles from the center of campus)

'- Our services of worship and programs of instruction are designed to meet bōth farmily and individual needs.

Sunday morning worship begins at 10 A.M. We sing the biblical Psalms a cappelia in our worship services.
On September 1.7 our paster will confiáue the saries of sermons through the Gospel of John (Un:-17).
There are classes for children and adults following the Sundav morning worship. The adult class will be studying Christian Classics from September 1978 through May 1979.
The Wednesday evening Bible Study begins on September 20, 8:30-10:00 P.M. This study group meets weekty throughout the year. This year the group will study the Epistle to the Hebreiws.
Seminar 180 is a lecture series from a book of the Bible. This year Seminar 180 deals with Paul's Epistle to the Phillipians. September 29, 7-10P.M. is the date and time of the first lecture. All lectures are held in the Church auditorium.
For additional informazion contact: Pastor Edward A. Robson, Th.M. 476-3i17 or 476-5618

By Dave Stern
Three former members of the succesisful rock band, the Byrds of the 1965-72 folk-rock era will be bringing their musical connbination to Syracuse University - Thureday at 8 p.m. as the feature attraction of this year's annual opening-week free concert.
Guitarists Roger McGuinn and Gene Clark have reunited with bassist Chris Hillman to form their own new rock band. As he was with the Byrds, McGuinn is the central figure in this new band.
During the early sixties,
McGuinn wrote for Judy Collins and was the lead gotitarist for Bobby Darin. He glso toured for two years with the Chad Mitchell Trio.
Gene Clark spent most of his pre-Byrds musical experience with Randy Sparks' perience With Randy Sparks Clark's career has been hindered through the years by his well-known fear of flying. Chris Hillman, along with McGrisinn Cilman, along with Crosby and Mike Clarke were signed by Columbia Records
producer Terry Melchee in 1964 and the Byrds were born. They were called the Byrds because McGuinin felt thrit all music was related to the sounds and stresses of the age and he wanted to write mugic that "could soiar, could fly." In 1965 they released two number one gingles Bob number one gingles bourine Man" and Pete Seeger's Turn! Turn! Turn!"
The Byrds were described by rock experts as "folk iningers who strengthened their sound who strengthened their devices." They produced a "twangy uniquely Armerican country harmony:" However, by 1967 internal problems plagued the Byrds and after five albums; the only remaining members of the band; Clark left the band to start a new duo, Dillard and Clark.
After three albums with little chart success, Hillman left McGuinn to join the Flying Megrito Brothers.
McGuinn formed a new "Nash villetype"'band in the late sixties and along with late sixties and along; with Wroducer Gary Uher (of Brian Usher surfing ballad fame) Usher surfing ballad fame) released Sweetheart of the Rodeo, an album that never quite made it.
The Byrds as a unitrexperienced some comeback success in the early seventies
with the albums Byrdmario with the albums Byramaniza and Farther Along: During recent years however, Maguinn, Clark, and Hillman have all been recording moderately-successful. -r Bplo albums.
-McGuinn has recorded five albums since 1973 including his 1977 Columbia release Thunderbyrd which contains the songs "All Night Long"by Peter Frampton, "American Girl" by Tom Petty and "Golden Loom"' by Bob Dylan. Clark has recorded on several labels and on his A \& M album Gene Clark there is a Dylan number entitled."Tears of Rage."
Hiilman hae recorded tiwo Asyilum albums entitled Slippin' Away and Clear Sailin': These three musicians are not the Byrds anymore, but they are three rockers who have produced great music in the past and will continue to release great music in the füture
McGuinn - Clark - Hillman will be preceeded by Columbia recording artista Pierce Arrow, who hails from New York City and have recently released their second album Pity.the Rich.
Beer will be sold at the concert and cans and bottles will be prohibited.
Blue Cross and Biue Shield of Central New York are proud to be providing health care coverage for Syracuse University students again this year. The program, designed by a special joint Student As-sociation-Graduate Student Organization committee of students, supplements the care available through the Student Health Service.

The Blue Cross and Blue. Shield student program is one of the most comprehensive programs of its kind in the-nation and is endorsed by Syracuse University.
Benefits include:
$\square$ Up to 70 days paid-in-full hospitalization.
$\square$ A high allowance for doctor's fees including surgery, anesthesia. $x$-ray and lab tests.
$\square$ Up to $\$ 1,000,000$ Worth of additional Major Medical protection against the cost of a serious lliness or injury.

## By Brent Marchant

yramid/The Alan Parbna Project (Arista)
| As "Saturday Night Live" fritic Leoniard Pinth Garnell yould say, this album ia thatever Parmons was tryin fachieve is beyond humas pmachievenis
As on his two previous albums, Earsons has used a conceptual framework for thit album. In this case, Parsons has tried to clarify the mystery of the pyramids once and for all. and has ended up plummet ing the mystery even further into the depths of obacurity.
Musically, Parsons still comes acroes with his naxa. boynat orchestral sound; however, much of it is little more than a rehash of the grandiose production numbers found on his previous LD. I, rabot.
Lyrically, Parsone has resorted to using clichea more thun ever. Theimgpiring words of "What Goes Up. . .". offer evidence: What goes up, must tome down/What must rise, must foll/ And what goes on in your life/ls writing on the wall.
On an inaide lyric aleeve. Parsons describes the pyramid of the "last remaining wonder of the ancient world." And after listening to this album, it would appeax that "Pyramid" is one of the last remaining wonders of the musical world. David Gilmour/David

Gilmour (Columbia)
From the next of Pini Floyd comea Datid Gilmour. the first molo LP by the group's lead guitarist and vocalist - an excullent elbur which has exceblighed Gilmour as a fes tabueicien and aner mongwriter.
Gilmour's LP, the first in a serice of solo alburns from the members of Pink Floyd, features a wide variety of musical styles. Some of the songs are conventional guitar melodies with simple background instramentation, such as "Mihalis." Other songs are modified Pink Floyd cuts featuring wailing guitar solos reminiscent of material on Dark Side of the Moon and Animals. And etill other mongs Peature simple guitar melodies with Gilmour's mooth vocal style leading the way, as exem. plified by the sons "There's No Way Out of Here.
Gilmour's lyries are touching and emotional, often speaking about a person bent on aurvival as in the aong 'I Can't Breathe Anymore": $I$ can't breathe anymoref Why that is: I'm not furell've got my feet on the gromadin fact. I'm flat on the floor/My direc. tion is lost/1 should pause to take stock/It's a new one on me, /To even dream that you're free

Whether or not Gilmour will put out any more solo albums after Pink Floyd reunites is uncertain. However, it would be the music world's loss if Gilmour were to abandon his
solo efforts. This alburn has shown that Gilmour is a gifted artist and when given a little room to woric with. he can truly breathe again.

Heaver Tonight/Cheap Trick (Epic)
The latest effort from the band Cheap Trick can be gum marized in a few words good, loud, rowdy rock ' $n$ ' roll.

Cheap Trick's hard-driving rock melodies are some of the livlicst in today's music in dustry. Songs like "Stiff Competition" and "High Roller" are typical of the band's energetic style.

The group's lyrics are fesh original and often humorous, as in the song "Surrender": Mother told me, yes, she told met I'd meet girls like you, She also told me stay away/You'l never know what you'll cat ch/Just the other day I heard of a soldier's falling off/Some Indonesian junk/That's going' round/Mommy's all rikht, Daddy's all right/They just seem a lithte weind Surrender. surrender/But Don't हive yourself away.

In addition to these assets, fine musicianship by guitarist Rick Neilsen and bassist Tom Peterson make Cheap Trick's latest a heavenly experience.

preferred by painters . . . perfect for you!

# Latest Mel Brooks film spoofs Hitchcock 

FLIM ON CAMPUS: "High Ancieity.". Tonight at 8:30 and 10:80. Gifford Auditorium. $\$ 1.50$. Film Forum

By Katie Frity
Mel Brools, America's paat master of the fat slapatick. Foke, is at it again. To go with poke, ig at it again. Togowith Saddles" monster mavie Sadales monater morie spoof Young Frankenstein" and ailent Epoof "Silent MMovie" Brooks has added保Alfed Hitchcock in-jokes, to Ahis list of films.

Ais list of with all Brooks films, As with all Brooks films,
"High Anxiety's? plot is barely important, and serves mainly to set up the satire of Hitchcock's style. For those unfamiliar. with Hitchcock, "High Ansiety"? must stand on its own merits, plot and all, which at times is unfortunate.
As Dr. Richard H. Thorndyke, new director of the Psychiaticic Institute for the Very, Very Nervous, Brooks must solve the mystery 'surrounding the death of the previous director and learn why wealthy patients remain in the institution long after they should have been discharged. - When villians Harvey Korman and Cloris Leachman become suspicious, the frenzí begins.
-The problem with "High Anxiety" is that the Hitcheock references are not integrated into the film smoothly. The Hitchcock buffmay not mind but to others cortain not mind but to others certain sequences confuring as a and will be confusing as a result. in one
sequence, Broolss. takes a
ahortcut through a city park" "Prycho" and "The Birds" to and is mistaken for a statrriby a flock of pigeons. This refrrence to Hitcheock's "arthe Birds" 䏡 fumny but atands out like hangnail.

Broolcs and co-writers Ron Clarik, Rudy Delucrs and Barry Levinson have cribbed bits and pieves from such classic Hitchoock thrillers as
"Paycho" and "The Birds" to tyle. The psendo-Fitchcock refere. The more subtie the reference, the bunnier it may be to the Hitchcock devotee, but to the unaware, the clues are simply obacure.

Brooks mugs his way through his role satisfyingly enough, and Korman and

Leachman are fine as the Gendish villians, bat Madeline Kahr steals the show. Her performance as Victoria Brisbane, daughter of a wealthy industrialist locked up (or is he?) in the ingtutite is a devastating parody of all Hitchcock heroines.

Hitchcock buffs will have a
field day with this one, matching sequence and device to the proper Hitchcock film, but the average viewer should be forewarned. "High Anxiety" is neither "Blazing Saddlea" or "Young Frankent stein." Don't be.surprised to discover that everyone is laughing uproariously but you.

## Police suspect one man of 3 assaults on campus <br> By Andrea Abrahama

Three Syracuise University women gtudents have been as saulted and robbed on campus in the last two days, possibly by the same man.

The most recent attack took place yesterday morning in the Lawrinson garage, when a tudent was robbed and "forced to commit sodomy," a croife point, according to John Zrebiec, director of SUS Safety and Security.
Sodomy is any forcible act of intercourse other than vaginal penetration.
The woman was released from Crouse-Irving Memorial Hospital after a check-up.

The suspect is described as a black male with a slight to medium build, between five foot five and five foot six in ches and about 18 to 20 year ld. Hewas last seen wearing a dark shirt. a purple lightweight nylon jacket with white writing on it, faded blue eans and possibly sneakers.
A man of a gimilar description assaulted a student Monday afternoon. on the second floor of Marion tall had just returned from the bathroom, was accosted in her room by a man.
The man robbed her of $\$ 50$ clothes and get on the bed,

## Zrebriec said.

Zrebiec said the woman obeyed, but then kicked him in the groin: The man retaliated by bitting her over the head with an empty beer bottle, and then fled in full view of several Marion residents.
Zrebiec said the man entered the Sherbrooke apartments at 604 Walnut Ave., about 15 minutes later and entered the room of an SU Btudent and took about $\$ 100$. He then left without harming her-
However, the woman was inured when she put her hand through a window as she was rying to get help.
Both students attacked Monday were taken to Crouae-lr ving Memorial Hospital. A hospital spokesperson said the Marion resident was treated and released. The spokeaperson refused to comment on the condition of the Sherbrooke resident.
Zrebiec said he does not know whether the suspectis an SU student. He added that this is the first major series of attacks on campus in several years.
The last reported assault near the campus occurred is raped, beaten and robbed in her Comstock Avenue home. Elaine Blechman.- KimmelMarion dorm director, said she
is concerned "first and foremot" with the well-being of the building's residente. Precsutions are being taken. including locking all but the main entrance at all times, she said.
Zrebiec said city police and security are "combing the area" for the suspect. He stressed that if anyone sees any suspicious people around residence halls or in the cam pus vicinity, to call security immediately at 423-2224.

Police are searching for a man of this description who at sacked a worman in Lawrinson garage yesterday

## Pig book changes: benevolence or butchering? <br> \title{ \section*{Pig book changes: benevolence or butchering? <br> <br>  <br> <br>  and acquavitances in the Orange Aid, <br> <br> sor all etudent publications funded-by the gtudent fee - Report, Vantage, 

 <br> <br> sor all etudent publications funded-bythe gtudent fee - Report, Vantage,
}

Or Fig'boor, thit fall, few will be are friclitded for their contemplation. Donblles, few readere will-End the ar ticle included in the book completely acies inciuded in the book completely fivorthiess xwithout: the ardition of a

But; regarcuea from the deletion of publication suffers from the deletion of editory'original plan for the book, and such items do not appear. The editors such items ao not appear. The eaitors clammetherr publication.
Techmically, it was not. After review by several univernity adminigtrators, the pig-book arrived on its publidher's desk with nistrators wanted cut out. It jast so happenal that. Stephen Bortiner, so happenea that Stephen Bortner,
atudent buainess managex and pablisher of the Orange Aid, apparentlyagreed with their suggestions. Bnt:what would have happened if he did not?
Tina K. Foley, asaistant director of student activities, said SU could censor the Orange Aid "becanse it's funded by the student fee." If one goes by this
the student fee FRoport, Vantage, sorahip by the university would completely negate the purpose of student pablications, eupposedly written and edited from a student, not an administration, perspective.
However, Foley admits that " SA (Student Association) is ultimately reaponsible for the student fee" which is the financial lifeblood of atudent publications, including the Orange Areathe a sigh of relief. Yet Melvin C Mounts, vice president for student affaira, atill claims that the Oranige Aid is a "university publication.
Ulysses J. Connor, director of student activities, says "it is the responaibility of the univeraity to see that its publications present it in a favorable light."
Then let the university pooperscooper clean off the dog ahit from its brochure and catalogue photos. It is welcome to nuggest that atudent publications "clean up their acts;" university's right is to suggest not to dictate.

Sy Montgomery for
The Daily Orange

## Building with mortar and minds

Editor's note Roger Orkin, a professor in the School of Architecture, took a research leave in London from Jan I to May 17 of this year to gather interviews with professors and professionals for his Two daje before his leave was to be completed, Orkin died of a heart attack in London.
Though Professor Orkin was deeply interested in the field of architecture, he was even more concerned with its future-its atudents. A colleague once said to him, Just think-your book will be on the desk of every architecticre dean in the country": To this he replied, "Yes-all 65 of them. But there are at least
12,000 students of architecture."And these students 12,000 students of architecture.
The first passage presented here includes exerpts from his dissertation proposal, entitled "An Ex Semindary Professional Education.
Why the proposal? Anyone who teaches, who attempts to transmit a professional heritage, must sometime ask, "why do I teach what I teach?". As a teaching Architect, I want to have a rational basis,
underatood by many, for deciding what should and underatood by many, for deciding what should and what is a restatement of the proposal: What are the premises given for the particular content selection of ajprofessional curriculum?
It is probable that the questions implied in the proposal have been asked many times. With few exceptions, those in the professions have not heard the answers. . . When I mentioned the "Why" of postsec̃ondary professional education to Professor" of Education, the response was, "That's a swamp!" while the scope of a profession seems to enlarge of to others. New professions are providing services once provided by older, "established" professions. The new professions are often formed because technology changes, the method and location of education changes, becauge the profession wishes to divest itselfof liabinity to the public and thus divests itself of certain functions ... It seems reasonable to aisume that the signals that generate professional change mast also generate curriculum change. I.. The test is to compare - to a norm or an sion, Architecture, in two separate countries. I propose to make auch a comparison. . Modeling the

Guest Comment: Roger Orkin

educational aspects of the profession and cataloguing the premises given for the curriculum content selection will at least give shape to that "thing" we call a profesaional education for architects. By noting the similarities and differences we could hypothesize the similarities as constants and compare them with other professions.
Each profession has a decision making model, some may even have the same model. If some of these models can be identified and described, it would benefit those persons required to make curriculum decisions.
The fallowing pasagere contains thoughts gathered from some of Professor Orkin's last papers, in which he addressed the dilemma faced by architecture
schools in their attempts to balance curricula schools in their attempts to balance cu
between the areas of design and techmolosy.
"Everything changes yet it is atill the same," or What is the School of Architecture to teach about the
technologies of Architecture? Brick, stone, wood, steel and concrete have yet to disappear from the face Sy the earth. As the Babylonian laid brick, the Syracusan lays brick; the tee
but the quality of brick has

Architecture is the ability of man to create a build.
ng in his mind and with his hands. Hands and mind ing in his mind ang with his hands. Hands and mind only resides is the mind's eys; someone must build only resides
The fragnomtation of the disciplines of the construction industry has not left the Architect inconstruction industry has not left the Architect intact. Process has been separated from product. The
Architect designs, yet does not, himself, build. The Architect designs, yet does not, hingself, build. The
drawings and apecifications with which the Ardrawings and specifications with which the Ar-
chitect creates must tell someone how to build. The chitect creates must tell someone how to build. The question is obvious: How can an Architect tell someone else how to build if hehas no
The crafts of the construction industry are the basic tools of the Architect. With the abilities, techniques and limitations of these crafls (and implicit within each craft is the material wrought) the Architect envelopes, conditions and creates usable space, that is, a building
The Architectural profession has been divesting itself of responsibility because it can't cope. It can't cope because it has given up the knowledge and ability that would enable it to cope. Why hire an Ar chitect who can't build? If the profession is to to serve (et alone lead) the profession, it must first offer a graduate that fills a needin the profeagion that can contribute to the profersions well-being. We could start by teaching our students how to build what they degign.
Shelter, enclosure and support structures are created from specific materials. As our culture increases in its complexity, so does its technology. Materials of construction become moresophisticated. Older materials are refined, their assemblage made more precise.
Architecture, willing or not, must move with the times. The Arehitect's concern with materials technology mist be of prime importanceifonly to evarvive in today's and tomorrow's competition. Either we agree that an Architect must know how to build or we conoede to our critics that all Architects do is manipulate space, decorate surfaces and perform as dilettante sociologists.

I, for one, can not accept the latter choice.

## Teaching and tenure: giving students a voice

We've all heard the stories, both the freshman wandera. into Syracuise Univergity having no idea what ghe Univergity having no idea what ahe wantstomajorin or do with herlire, but fincs suidance from ar stimulating might not be able to erraduata because misht not be able to graduata because that had nothing to do with his major
or requirements.
We know these stories, and they serve to point out an obvious fact teachers have enormous influence on their gtadente. The grades they give can determine whecher or notas atudent teaching can determine whether a reaching wants to.
Teschers can - and do - change the

## The Daily Orange

Thomen Cotioy

## Roman Saltine Warrior greeted by cheers，jeers

## By Jacque Salmon

The scattered boos and applause that greeted he new Saltine Warrior when he rode onto the field at Saturday＇s football game is typical of the reception the new mascot has received．
Some Syracuse University alumni are wary， Native American group on campus is satimfied and Ulysses J．Connors，director of student ac tivities，is happy．
Douglas George，à spokesman for the campus native American group that initiated the criticism of the Indian warrior last year， Onkwehonweneha，sid his organization has na objections to the Roman gladiator．
He also said the organization hes not objected to the continued use of the name of the mascot． A warrior symbolizes more than an Indian war－ riot，he said．
Last October，the organization criticized the Indian warrior mascot as being racist．During the next two months，it discussed the poagible elimination of the mascot with Melvin C． Mounts，vice president for student affaire．
Chiefs of the Onondaga Indian reservation alae criticized the use of the mascot，allying the symbol degraded Indians．
After a January meeting with Chancellor Melvin A．Eggers，Robert Hill，special assistant to the chancellor for affirmative action，and representative of Lambda Chi Alpha，the fraternity that has traditionally portrayed the mascot，Mounts announced that the Saltine Warrior would be dropped at the end of the semester．
Attempts to find a－replacement continued through the spring and summer by a committee comprised of Mounts；Connor；Andy Burns，the last Saltine Warrior；Louis Lotito，Lambda Chi＇s president；and Greg Haas，the fraternity＇s former president．
During the spring semester the Office of Student Activities sponsored a＂pick a mascot contest＂that produced such suggestions as：an orangutan，a penguin wearing an orange scarf and cap，a sun－cisBed orange，the Abominable Orangeman and a Roman Warrior．
But Connors said that none of the suggestions appealed to the group and an artist in Virginia with a wild imagination＂wa ie contacted．
That artist came up with eeveral ideas，in－ curing a troll，a Superanim－lice symbol and a man dressed in an orange tuxedo．

However，these ideas were also discarded and the Roman gladiator was finally agreed to after a local artist submitted the suggestion．

We all feel comfortable with the present

The image has changed but the name remains the sine．A Roman gladiator，the new SU mast cot．made his first appearance at Sturdily＇ foot bill gere．
idea，＂Connors said．
He arid the name of the Saltine Warrior was kept because of the＂trons emotional at－ tachment＂alumni have to it
So far，the response from alumni has not been overly enthusiastic，＂Connor said．He arid tome alumni have expressed dismppointmemt that the Indian is no longer being used．
Dan Walters，who portrays the new Saltine Warrior，said he enjoyed his first trip onto the Sild at Saturday＇s game．
The boos that his appearance touched off did not bother him，he said．
＂They wanted the old warrior，I i guess．＂

## Summer orientation attracts record number of freshmen

While yous couese yeare will be frititite and rewardines. they may begin by being bewildering' and confusing: To hetp your sort it all otct, the Of. fice of Student A ctivities offers you - Summer Orientation Program
Syracher Univeraity summer oriensation newnletter
ByCarolyn Beyraw
More Syracuse Univeraity reshmen attended this gummer"s orientation program than ever before, but actual percentage rates were dowin slightly from the 1977 program.

For a cost of $\$ 48$, proispective treshmen were invited to attend one of 16 two-day zessions held July GFAng. 3 in order to get aequainted with life at SU. The price tag included meals, lodging at Haven Hall and informational materials about gu.
A total of 1,054 treshmen 24 transfer studentes and 915 parents attended the two-day sestions this year. There are about 2,950 etudente in the Clase of 1982.

Lent year bout 860 freshmen out of a class of 2,350 participated in a three-day program. Therefore, althoagh attendence was up in 1978 , the percentage of freghmen talking down by 1.1 percent.

The program origizally rain or 26 seasions, but one more was added because of the number of freshmen who wrinted to come, Baid Tina K Foley, andintant director of studeñit activities. She said her main goal in designing orien Lation was to ease the tran sition from high achool to college.
Freshman Steve Levit gaid "Summer orientation helped me to get comfortable with SU. I met several people who are still good friends of mine."
The program also helped freahman Michelle Krutan reduce the confurion of adjusing to college life.

Orientation gave me the right feeling. It was definitely worthwhile -I even found the locations of some of the buildings on campus," she said.
A major part of the newromers' time was spent with their particular college, Foley said. Erach school was responaible for setting up advising and introduction programe for participating freghmen and their parents, However, 60 percent of the reahmen did not attend the rreahmen did not attend the to bettle for advising offered during opening week
Steve Mendeleon, a freshman who did not go to
oxientation becange of his anminer wrork achedule, thinise the progratn should be held at the beginning of the fall semestrar.

Howrever, Foley maìd holding orientation all at once would cost too much.
"It would be much more expensive if the entire freshman class came to orientation at the same time," bhe asid. "Steam and staffing costs in the dorma would be higher and we would have to hire more students in order to be able to handie sach large number."
Foley also expleinied that in the fall it would be imposisible to maintain the 15 to 1 gtudentstudent adviser ratio thet was maintainad during summer orientation.

Eggers confident

By Mike Maymard
Chancellor Nelvin A. Eggers is confident the New
York State Cegialature will apYork State Leginlature will appropriate $\$ 2$ million in state
funds next week to begin funds next week to begin connstruction of
stadinm complex.

The bill would allow the wae of etate money to build a
50,000 -seat etadiom and an ad-60,000-seat otadion and an adjoininge continning education center on the site of Archbold Stadinm. Eggers said the bill enjoys "bipartizan support" in both houses of the Leginlature.
79 Season
1978-1979 Season
Gloria Burhyite's

ROCKERFELLER UNITED CHURCH Nottingham and Tecumseh Reis. Syrcuase, N.Y. 637-3813 or 463-4500
Classes begin Sept. 11, but there is open registration All levels: throughout the gear.
-Pre-ballet -Beginners eIntermediate - Advanced - Adults Director Gloria Burhyte. . .trained by Michel Fokine, Anna Paylova's teacher and partner. Also at the School of American Ballet with a host of teachersincluding George Balanchine, Muriel Stuart, Anatole Vilralt and Pierre Vladimiroff. She is also qualified to incorporate England's Royal Ballet Syllabus for amall children in har clasees.

Egrears would not say the proposed univeraity conter would be a student union building: "We really haven"t settled on what to call it." he university center.

The proposed $\$ 2$ million allocation from the atate is part of a program that would eventually see the state donate $\$ 15$ million for the project. Total construction costs for the project are expected to be about

40 million.
The rest of the money will come from donations.

University administrators and representatives of the state's Urban Development Corp, anticipating that the Legislature will vote for the bill, have been working out details of the project. Eggers said the negotiations have been going very well.

Gov. Hugh L Carey has expreased his support for the gtadium plan, as has Republican gubernatorial candidate Perry B. Duryea Jr. minority leader of the New York State Assembly.
Lt Gov. Mary Anne Krupsak said in Syracuse yesterday

By Mike Bitanton
Nimety-five percent of America's males put with dreams of stepp at night batting order of the New Yorit batting order of the New Yorl Thurber once wirote.
Not George Plimpton. That's how he keeps himaelf awnke.
Not that Plimpton has ever struck out any Yankee Murderer's Row. But he has pitched to Willie Mays in an All-Star Eame. And he once played as a hockey goalie for the Boston Bruma aganst the Philadelphia Flyers, not to mention last-btring guart
What Plimpton does besi everything from a trapeze act everything from a trapeze act with the Flying Wallendastor ${ }^{\text {stint }}$ with the New York roles most people only dream roles most people only dream about pefforming on Shakespeares stage of life: Plimpton's profession as crazy, suicidal, childish.
Crazy, sucidal, childish.
What sane man would have bisnose bloodied and flattened by noge bloodied bond inatcened by lightwelght boxing cham-
pion Archie Moore? What pion Arche Moore? What me a cowboy in a John Wayne be a cowboy in a John wayne movie or a perfor
rock group kias? that anyone ever truly grows up," observed Plimpton Sunday night before he addressed several hundred and faculty in Hendricks and fac
Chape. factor that perhaps justifies Plimpton's unusual lifestyle is that be writes about his experiences - in one of his several books, or Sports Ilustrated, or even for television, as when he performed as a
stand-up comic at Caesar'a stand-up comic at
Palace in Las Vegas.
Look at a list of the things Plimpton has done and then look at the man and his background and the contrast appears enormous.
Born in New York City, reared by wealthy parents endowed with a British-sounding accent, educated at the world's finest: (or at least stuffiest) institutions of academia-Exeter Academy, Harvard, Cambridge. - Plimpton showed early signs of deviance from a life of upper clases snobbery:

Dreams of an athlete
As a child he recalle dreaming "enormously about becoming an athlete," though his parents Wanted him to be a lawyer. "My parents are still hideously embarrassed when they see me in pink tights performing at the circus," be noted.
At upper crust Harvard, young Plimpton wanted tojoin the staff of the Harvard Lampoon, a humor magazine. As an initiation rite, the editors forced bim to enter the gruelling. 26 -mile Boston
Marathon.
Unruffled, Plimpton joined the race-a block-and-ahalf from the finiah line - and finished a close accond to an Iatér tried to slug him when hé dibcovered the Ivy E.eaguer's deception.

Participatory
journalism
Drawn to emporta after college. Plimption joined Sports Dlustrated in the 1960s and used the magavine's backing to arrenge his firmt participatory atant - pitching in an All-Star game in Yankee Stadium, an experience that culminated with his mecond book "Out of My Leagne."
Since then Himpton han

G*orge plimpton, the great participator, shoto br hichard Forkers Chapel Sunday about his numerous escapades. sought out experiences in sport and other Eelds that allow him to get close to his subject and become well acquainted with everyone from orchestra conductors and circus freaks to Football playert and Muhammed Ain, whom hewas Ance scheduled to fight before Ali broke his jaw in a boxing match with Ken Norton.
It is Ali whom Plimpton describes as "the most as tomishing figure in aports when the author is asked to choose from among the numerous athletes he has known.
One role Plimpton does not enjoy playing, but which he uisually fills, is that of a buffoon.
The part is inevitable when Heztepsinto the shoes of a foot ball quarterback but doesn't know where to put his hands to receive the snap frona center. Or when he swings from the trapeze and misaes a handhold and plummets into the net before a packed circus sudience in Philadelphia.
"It's no fun to have people laugh at you or to be sort of a mascot," Plimpton said, adding that in eeveral instances the crowd was unaware he was

an arnateur and thus expected
perfection from him. perfection from him.
Buffoon or not. Plimpton drearns of managing the "Ulimate Game" (he turned down a chance this past spring to manage the New York Yankees when he learned the opposition would be Florida State and not a top contender), leading the orchestra on the "Big Night" or knocking out the champion in the "Final Round.

## Ego satisfaction

"I guess I always wanted the experience of going to a cocktail party and saying 'Guess where I was yesterday?' Ego is a big part of it.:
What
What would George Plimpton like to be when, and if, he truly grows up?
"I'd like to be a pitdrer for the Booton Red Sox," said Plimpton, who roots for the Red Sox.
"I would start the last game of the neason, with the pennant at stake, pitch the nohitter, and hit the home run that wins the game.
An ordinary manengaged in extraordinary pastimea, even George Plimpton has unfulfilled dreams.

## Senate panel lauds SU relations office

The Office of Univertity Relationim han received a favorable review from a Univeraity Seralto ovnluation committee....; Since lant year, four senate comamittees have been revicwiag the work of four Syracise Univermity adminiatrators, Unider review are: Michaello. Sawyer, vice chancellor for iniveryity relations; Chifford L. Wnters Jr.n vice chancellor :Hor admimistrative operations, John J. Frucha, vice chanceilor for academic affairs; and Melvin C. Mounts, vice preadent for otudent affairs
Under the Semate-byliaws, these administratora are roviewed by Senate committees at leant every three yearn. Chancellor Melvin A. Ermera is reviewed at levact once overy fivestara by the Meivin A. Ergerrais reviewer
The report deals with how the university relations office accomplishes its goal of raising funde for the university and maintaining contact with nlumgi, friends, and the commanity at lainge.

The Senate committee report noted that while SU ranke eighth among 71 other major private universities in its number of alumni donore, it ranks only 40th in the total amount of money alamnid

Gifts to SU rowe more than $\$ 2$ million from the 1975-76 fincal year to 1976-77, the report said.

In 1975-76, gifts to the uni veraity totaled $\$ 5.5$ milion. But in 1976-77, the-donations came to $\$ 7.7$ million. The report quoted Sawyer as saying that donations received this year might total $\$ 10$ million.
The committees reviewing the other three administratoms have not yet finished their reports.

Profeasor James Price, chairman of the Committee on Administrative Operatious which is evaluating Winters, aaid his committee is not seeking broad student and faculty input into the review.
Twenty to 25 people were interviewed by the committeo last spring, according to Price. Additional interviews being conducted this fall are almost finiohed, he said.
The Committee on AcademicAffairs, hended by Professor Fiolf Monge, is meeling student and facuity input intoits evaluation of Prucha. They are soliciting signed options concerning Prucha's work, including hit leaderahip, personal character and support of aftirmative action.
The Semate Committee on Studentin is evaluating the Office of Student Affairs, which is under the direction of Monnts.

There was some confusion hast April aia to whether the cornmittee should review the work of the office or of Mounts himself. Jesse Burkhead, a committee member last year and convenor of this year's first meeting, esid, "We did a good job of amrveying certain programa but did not evaluate any individual.
The evaluation was begun by committee chairman Richard Crowell, former Student Asaociation prosident. Crowell said in April that he believed the purpose of the stady was to evaluate Mounts by reviewing Mounta' office.

The Syracute University ch申eriaeders are emiling aginin. The cheorteadars' budgot increasod and they heve a now conch in the wake of disegreorments with the Office of Student Activitiew last somester.

## Cheerleaders find some gripes solved

By Walecia Konrad Deapite quarterback Bill Hurley'sinjuries, the Syracuse University cheerleaders have something to cheer about this year.

After submitting a long list of grievances to the Office of Student Activities last eeason, the cheerleaders have received a coach, better travel ar. rangements, $a$ budget increase and new uniforms.
The cheerleaders complained of lack of proper practice facilities, poor travel arrangements and no coach. The squad also wanted one credit for cheering, but so far have not received it

- We got a lot of what we wanted," aaid Sharon Barner, cheerleading co-captain. "But they were conditions that they were conditions that beginning.
Barner
said the ad. ministration maid the antioned the squad would get one credit from the athletic department for cheering. "We didn't get it and no one gave us a reason why," she said.

Photo by Josh sheidon

Ulysses J. Connor, director of student activities and the squad's adviser, said they had discussed receiving credit but nothing definite was set up "Credit hasn't been ap proved yet," Connor said. "It's not the easiest thing to do, it takes a while.
Connor also refused to reveal the amount of the squad's budget increase.
Bot Hilton, co-captain, said. We work a lot more than a lo of the people in physica education clasaes. We should really get the credit."
Cheerleaders practiced four to five hours a day from Aug. 28 until classes began, asid Kathy Bearss, cheerleading coach.
Because of poor travel ar cangements Jast year cheerleaders would often find themsel ves without a place to park or stay at away games. Also, $\$ 1,500$ wat stolen from the squad while they were in Pittsburgh for the SU-Pit Activities has reimbursed the Activities has reinbursed

## UU external position modified <br> By Scott Rahrer

When a new University Union external When a new chairperson assumes ornce at the end. of September, he will not have q
power at previous Chairpersons. the power to a govrove UU eventa should rest in the hands of the treasurer and the internal chairperson, and not with the external chairperchai
on
The external chairperson, however, still will have the same title and atatus as before, said Steven Fuchs, UU internal chairperson.
The extermal chaizperson deals with the university community, while the internal chairperson oversees the union's program oards.
The UU conncil congidexed realigaing the union's powver stracture by making the external chairperson subordinate to the internal hairperson, with less pay, Fuchs said.
Fuchs said they were considering this
because of the problems of having two persons with equal power. "It"s a question of where the esponaibility will lie," he aaid
But, Fuchs said, the council rejected a realignment of the power atructure because "it's not what we really want."
Instead, the council clarified the duties of the extersal chairperson. Such a clarification would prevent him from overstepping his authority and also prevent confusion between he internal and external positions, Fuchs said. Specifically, the external chairperson will act as the UU representative to the campus media, serve as political representative and chair the Joint Executive Board.
The position became vacant Aug. 21 when Robert Watson left office. Watson resigned becauae of other commitmenta which did not bllow him enough time for his UU responsibilities.
Fuchs 日aid he expects about 25 persons to apply for the poaition. Applicationa ara dueby 5 p.m. Fridayat UU.

## First GSO meeting

 to feature elections
## By John Rosenberry

Election of officery will head the agenda at the Graduate Student Organization's first senate meeting tomorrow night:; The postg of comptroller, secrecary brel (GSO's student magazane) will be filled at tho $7=30$ p.m. mese ing in Miriwell Auditoxium. The senate will aiso elect three the Gradueta Studont Court ten reprementatives to the University Senate and e coniultant to the urnivertity board of tryeteen Candidetes may aultait 7 -30 tomor CSO Preaident Ned Harris said, and nominations from the foor will also be accepted. However, a candidate muat be preaent to be will also be accepp
The senate may not be able to fill all available posts at this meeting, Harris said, and positions left vacant will be filled at the next genate meeting.
He added, however, that there is "a pretty good chance" all the posts will be filled because more people than usual have shown interest.
"More people have been in the office inquiring about the posta," he explained.
Also on the agenda are the president's opening addrese to the enate and the consideration
Harris said a keynote of his speech will be to encourage graduate atudents to become interested and to get involved in GSO.
A motion to bring the operating procedures of the Graduate Student Court more in line with other univervity judicial bodien will be one of the resolution considered.

Also under consideration will be changea in the payment of scholarships to GSO officers, changes in the comptroller's term of office and an increase in the comptroller's scholarghip from $\$ 750$ to $\$ 1000$.
The scholarship had been $\$ 1000$ until thif year, Harris sai but it was reduced during budget hearings last apring.

The comptroller's term of office is being changed to allow him to fnish the fiserl year, which is Jaly 1 June 30, Harris Eaid.
Under current by-laws, the comptroller takes office on May 15; with only six weeks left in the fiscal year, forcing him to to the year-end accounting on a set of books that have been kept by someone else, Harris explaned.
The resolution would change the term of office to September 1 Augurt 31, he said.

## Petitions now available for SA assemb/y seats

By Carolyin Beyrau
Petitions are now avanlable at Student Association for nndergraduate students interested in running for SA Assembly seats.

Voting will take place Sept. 20 from 10 man . to $4 \mathrm{p} . \mathrm{m}$. in all dorms and at other campus locations to be announced later, enid Dale Coher, SAvice preaident for admimistrative operations.

Assermbly cancidates need 25 petition signatures from the dorms in which they live in order to have their names placed on that dorm"e ballot.

Signed petitions sure due at
the SA office, 821 University Ave., by noon, Sept. 18. Cohen said there will be no excepThame
There are 125 assembly seats. All dorms, area housing, south campus residents, offcampus residents and Greeks' are equally represented, Cohen said. One seat represents 100 undergraduates from each group.
Assembly nemberg serve a erm from September to May: SA is holding two meetings tonight for btudentsinterested in becoming assembly members: 7:30 in the Flint Hall main lounge and 9:00 in Watson Theatre.

## clayburgh shines in Mazursky film

FIIE ON CAMPUSSE "An-Unrmaried Woation tonight and tomozxom might at 7 and 9 , Gifford Auditorium, 11.50, Filma Fotem
… - By litelanel Drwnethe
Whetivould a woman do if ghe were walking down the etreet. With her husband of 15 Feare and auddenly he mtope. ooks terribly upset, begins to cry fike a child and tells bexho wants out of their manriage? And although ahe is at first surprised, she doea not get exrotional or plead with her humband mot to leave her. Instead, she gets seethingly angry, stalks off alone down the gtreet and throw up into a trash canz leaving her husband whocked that ahe doee not sympathire with hima
This is one of many eye opening zcenes director Paul Maziursky has created for *An Unmarried Woman," probabiy his most ambitious film to date.
Mazuraky. has taken a situation common to many movies and soap operas and turned it into momethingreal no glamour, no frills, no happy noglamour, no xrilis, nohappy reaph rieality. And hehas made earth rea
$\because$ Wecange Macuraky has anch a sharp eye for the propa of contemporary American life hin movies are packed with authenticity: And because of Mazursky's uncauny ability to capture this anthenticity, the viewter, is made to feal as though he is a part of this reality. not just an outside obeerver.
Struggle for survival
To Maxuraky, struggle is a main component of life. And sturgele has always been a nein theme of Manzurely't films - Next Stop Greenwich Village" dealt with a young man trying to malice it as an nctor: "Blume in Love" told the story of a divorced man gitil in love with his ex-wife-" Harry and Tonto" told of an ald man's etrife for independence. Now Mazuraky tives us Erica (Jill Claybuggh), an anmaried woman atruggling to etay sane and develop a new life without her husband. Martin (Michal Murphy).
Throughout the film, the otruggle-for gurvival causea Erica's character to change. At first, she is unable to cope with Fier eituation Once Martin's announcement finally ginks in, bhe cries in fury, huxt, har prise and fesr. All senningly Immotabléthings have been changed in minute.
Howevex, Erica does not puallow in delf-pity- Instead, whe usei intelligeace to battle ther feelinge One night, whe rets ont of bed and gyaternatically throwa - out Martin's ahaving gear. golf clubs and rumning shoes. For the first tiñe in 15 years, she imuat atand on her own two feet. Thus, Erica beging to change. She malkes decisions for hermelf and begins to smile tagain $\rightarrow$

Drcellemb canting
In writing the character of Erica, Manturnky had only one actrest in mind Clill Clayburch Clayburish was monow to Marixraly sum to many Nevi Yoris critics as a
fine stare actrese, yet when fine stace sctresp, yet when she appeared in nlms, her roles never allowed hex to ghow her true-talunts. Her fetrt major performance as Carale Lom: bard in "Gable and I ompibard"
 movis itmalf wrim a diferter. In
her next film, Clayburgh was upstaged by a train mamed "Silver Streal." And in "Semi Tough," director Michael Ritchie allowed her a few fine but all too briet $\rightarrow$ momente. In "An Unmarried Woman," however, Mazaritzy leta Clayburgh develop the part of Erica to its fullest axtent. He has written a marveloun role for the actress and ahe plinys it superbly. Maxurisy's "contemporary dirty-hip" dialogue worke well with her wise-cracking anides.
However. the beat part of Clayburgh's performance comes when she vigits a peychiatristi Mazuraky, afraid peychiatristi Mazursicy, afraid stilted for these scenes, opted stived for these scenes, opted to let Clayburch improvise nem oppoante a real paychiat nat rather than another ac trese- The reatult is oo realistic, sodeep and sotorohing, that is seems Clayburgh is really agoniving through this terrible orcieal.
In the supporting roles, Kelly Bistnop as Eiaine, a friend of Erica's, etands out the most. Elaine has a drinking problem and rums around with too many men, one of whom is played by Mazarsky himeelf.
Cliff Gorman and Murphy do nice turno an an oversexed stud and husband Martin respectively. Alan Bates is also quite food as Saul, an ar tist with whom Erica falle in love.

Perhaps the only Daw in the acting is the casting of Lisa Lucas as Erica's daughter. Lucas as who was good in the Lucas, Who was good in the
made-for-TV film made-for-TV film "House Without a Christinias tree," comes acroes rath
tiously in this film.

Near fim's end, the pace tends to drag a bit. As the chaos of life is lessened, Erica is finally at peace with herself and is at long last given a chance to enjoy her new life.

However, despite the slower pace at the end of the film, "An Unmarried Woman" is fruly one of the better motion pictures of 1978 . Between Clayburgh*s aperb performance and Mazersk'percellent direction and screencellent directon and screen" play, An Unmarried Woman to enioy.

an assistant professor of journalism, hay held the same post at Georgia State University since 1968. Fie has written and edited for the Associated Prese

Out of the academic andinito the administrative field, Thomas :H. Lavoie haw been appointed promotion managez for Syracuse University Press. He succeeds Pamela Brown Roberta. Lavoie was a manager of book stores in the Rochester, Syracuse, and Madison, Wis-- areas.
Finally, Joan A. Carpenter has been named SU director of personnel, effective Sept. 25. She has been vice president for planning, programs and development at Lewis University, Lockport, III., since 1977. From 1973 to 1976 nhe wan dean of the Collegre of Continuing Education at Lewis University.
Carpenter succescis William J. Eachenfelder, who was director of personnel from 1967 and this gummer was mamed director of labor relations, wor Firector of with three collective bargaining groups on the SU campus and with the faculty campus and with the facuity Syracuse University.

## S.U. students and faculty (national and international) are cordially invited to

the services of Christian worship at the:-

## - (approximately 2 milea from the center of campus)

Our services of worship and programs of instruction are designed to meet both family and individual needs.
Sunday morning worship begins at 10 A.M. We sing the biblical Psalms a cappella in our worship services.
On September 17. our pastor will continue the series of sermons through the Gospel of John (Jn. 17).
There are classes for children and adults following the Sundav morning worship. The adulr class will be studying Christian Classics from September 1978 through May 1979.

The Wednesday evening lible Study begins on September 20, 8:30-10:00 P.M. This study group meets weekly throughout the year. This year the group will study the Epistle to the Hebrews.
Seminar 180 is a lecture series from a book of the Bible. This year Seminar 180 deals with Paul's Epistle to the Phillipians. September 29, 7-10P.M. is the date and time of the first lecture. All lectures are held in the Churchauditorium.
For additional infownation contect: Pator Edwerd A. Robem. Th. M2. 476-3.447 or 476-5878

## Syracuse harriers get running start

By Drew Sch wrartz They are willing and eager to meet the challence of a schedule which includea perennial powers Navy and Cornell. Whether they are able will be known whem Coach Andy Jugan's crose-country team opens the 1978 seasion in a trimeet on Saturdiay.
Although seyen lettermen returned from last year'a roater, only a trio of juniora, including captain Jerry Josselyn, Mark Stauffer and Mike Kohlbrenier, will run in the first meet. Frank Lowry, a tenior, won't be able to run unfor his smeakers, which will eage the pain in his feat.
Junior Brian Trippany is recuperating from heel surgery and is running five miles daily on his own. Jugan couldn't forecast when last year's cocaptain will be ready to
gay that Neil Roeenblad, the highly-touted mophomore who was ridelined most of laset year by a les injury, should probably return for the Army meet.
While the "running wounded" attempt to regain their health. SU's new crop of runners will lead the team to victory or drag them to defeat. The most talented of SU's youth movement are sophomore Charlie Bevier from New Paltz, and fréshman Dave Dennis from Gronse Pointe Woods, Mich.
Jugan thiniss Bevier has a good shot at qualifying for the nationals and may be "one of East" Dennis is also exppected to make big contributions. - According to Jugan, they will more than compeneate for the temporary losses of Lowry, Trippany and Romenblad.
This is by far: the most talented group of ranners gince Yve been here," said the third mear coach. then last year because about 10 men'are'rūnning times close to what our second best runner aversiged last year."

This should eriable $\mathrm{SU}^{\text {to }}$ better last seasor's 3-7 record, despite what Jugan terms a very tough schedule.
"We'll definitely improve becaune people are going to judge by how awful we were last year as a team with our inexperience and injuries.; formances by people whose names aren't recognized by other teams we conld surprise teams like Manhattan arid might have a shot at Navy or Cornell."
The training prograin Jugà has set up is geared to the IC4A 8 and NCAA District ill Qualifier. Both occur late in the season and, according to Jugan, are themost importaint meets of the season. He said the effect of training is cumulative and the ranner's times should continually inn prove as the season progresses.

SU placed 13th in the IC4As two years ago (last year :it didn't make the trip) and Jugan is confident it can improve that rank this aeason. and we haves little bit of luck, we could quite easily be in the top 10," he said.
Jugan's troops will certainily need better luck than last season, in which five runndre couldn't compete due to fimjuries.' "I had enough injuries last year to last me the rest my coaching career," Jugen sighed.
Along with less injutries, Jugan's young runners must hand-in-hand with a varsity meet
out" easy to get paschied a frephmitted Josselyn. "Bnt in that he has nothing to loge becaune other teaning don't know him. He's just goinge cut there to show what he has.
The team that Jiggaticalls "hard-working and hungery" will show what they have in the next few weeks.

## $\star$ Hurley's injury puts SU in jeopardy <br> with

straighter floulder pad. him to thed him upand drove Regrie the ground. I think helmet."

The sound of the collision was loud, as wext the cheers from a dozen or so Florida State player who applanded when they realized ifurley had been hurt.
"It Was a tremendows collision," Herrimg said. "I think I hit him with my hemet wasn'teven thinking of creaming him; I wasn't expecting anything like that." It was a colligion both Warren and Hexring called thempelves "Iucky" to get up
from.

II thought he just had the Wind knocked out of hime" Mown and I walked he stayed looked at him iknew it was serious injizry." serious injary.
kick in the was an emotional and players alike. Without Huriey, the offense became fust another unit, and the team became $28-0$ losers in its first game game.
And the coming weeks unbelievably - hold little promise.

Hurley can do notinge righ now to wtay in hape, and probably will not beabletorm for three or four wedit. In the menntime, there in nothing the gunrterback can do for the in jury exceprt to rent and let it heal. The thought of red abirting Hurley (not playing for the rest of the season to preserve anothex year of callege eligibifity) ham been called "premature" by Malaney.
But the biggest disappointment belongs to Huricy him too quiche banner year hes "II 100 quicky become a bust get hast very disappointed to gev honth play of the reme" Hurley proal caped from his iniyred chest in caped 00 timen spuxts 80 at simes his mouth mit was a rood clean hit; Hurley iesid in the loctoroom Hurley the pame Maronts before he had appenrad nearly faint after bending over while draseing. "All I know is that I cotecispored but theth ing that scared me the most is when 1 couldn't catch my Wreath."

But now Hurley is out. The only question ist Can SU recover from his injury?

The Syracuse-University aoccer team defeated Siena Coliege $4-2$ in its first game of the gamon Saturday at Siena. Scoring for the Orangemen were Othman Abz Baker, who tallied two soals, Gary Maister and Gary Waggoner-

## Orange shot down by throwing Seminoles

## By Mike Stanton

Cleats clattered on concrete in the crumbling Archbold Stadium runway that leads to ball Syracuae University footwas deafening after SU's 28 -0 opening day loss to Florida State Saturday.
SU Coach Frank Maloney's head drooped sullenly from his sagging fhoulders as he Hurley walked slowly and in pain, his three cracked ribs aching and hampering his breathing.
The face of Ron Richardson, SU's mammoth, 265-pound tackle. was a mixture of anger and anguish. His breath came in loud, furious"gasps.
"We ain't through yet," he bellowed, to no one in particular, beforestalking into the locker room.
It was a grim chapter for Syracuse football on a day that began with so much promise, "Hurley for Heisman' banners fluttered in a pleasant breeze and children wearing Hurley No. 5 jerseys scampered in the sunshine. The confident crowd of 24,272 cheered when Syracuse won the coin tose and roared when setback Axt Monk retarned the Gckorf from the Then Hurley's Heroes launched a crisp and steady march upiela.
Fullback Dennis Hartman rambled up the middle ${ }^{-}$for seven yards. Hurley rolled to his left and tosaed a sideline pass to Monk for 15 more yards.
Three plays, three years and one firgt down later, it was eecond downand ninefrom the Seminole 43-yard line. Hurley dropped back to pass, rolled to the right, and then began scrambing for his feas a trio of defenders, led by defentive end Willie Jones, converged on him.
Eluding them, Hurley raced up the right aidelime five yards before being crumched by FSU': Scott Warren and Regeie Herring: Ho didn't get up.

It's only the wind knocked out of him, spectators told each other, that's all
But Bill Hurley still failed to get up and ultimately it was the Syracuse offense that got the wind knocked out of it for the remainder of the game and possibly for the next three or four, maybe even five to seven, weeks.
In the first three minutes and 33 seconds of the game.

Syracuse gained 33 yards and two first downs. Without Hurley, the Orange offense was like a rudderless ship careering ineffectually about Archbold, . drifting to only three first dowis and 115 yards the rest of the game.

## Tough going

Backup quarterback Ron Farneski, a junior who lacks the speed and savvy vital to
running the option play, com pleted eight of 16 passes for only 65 yardis, the longest throw going just 15 yards to Brian Ishman.
"You take a quarterback of his. (Hurley's) magnitude out and it's very tough going," Maloney reflected. "On the first series, we moved on them at will. We just didn't execute well after the first series because the emotion and Bill's

## Hurley's fall crushes SU

By Joel Stanhenko
The ambulance carrying SU quarterback Bill Hurley made its way slowly around the track Saturday in Archbold Stadium.
Although Florida State was driving toward a score on the field, most eyes in the stadium were turned toward the ambulance door. Many expected it to be flung open with Hurley bounding out, conning a hermet and saving his team and the garne.
Instead, a white-spiled foot feebly swung out the door and pawed the ground. It was followed by another tes Hurley planted both feet and slowly, oh so silowly, rose. He leaned against the ambulance door for eupport, then clutched the hood and the wire fence around the field. The All-American-candidate then watched the rest of the game from thesidelimes.

Bill Huxley's cracked ribs, suffered just even plays into the 1978 season, had made him like an old man. And, most conceded, $\mathbf{S U}$ was the one near dying.
${ }^{*}$ I would asy this is the moent critical situation we've had been in in five years," Eaid SU head coach Frank Maloney. "Bill Hurley will be out a minimum of three to four weekse, and he could be out as much as'five, sily or geven weeks.
And suddenly there are ashes where just days before the sweet promise of 1978 seemed to be coming true. SU had started its fatefal drive from its own 22-yard line. In seven playts Hurley had driven Syracuse to the Florida State 43 .

On a second-and-mine Firley faded back to Continued on page soventeen

leadership ability were gone" "When Bill Hurley went out it was a mighty big lift for us," noted Florida State Coach Bobby" Bowden. "It was definitely deflating for them." Still, Syracuse entered the fourth quarter trailing only 7 . O. The FSU touchdown came more from a seraational Jackie Flowers catch rather than an SU defensive lapse.

On the second quarter's first On the second quarter's first
play. Seminole quarterback play, Seminole quarterbaci Jimmy Jordan threw a 40 -yard
pars to Flowers, who was pass to Flowers, who was
squothered by SU defensive smpothered by SU defeniave
backs Terry O'Leary and backs Terry O Leary and
Warren Harvey. But Flawers Warren Harvey. But Flawers
leaped up and made abobling leaped up and made a bobbing and Harvey and landing on the one-yard line.

Two plays later, Jordian Two plays later, Jordan plunged over the raiddle for the only point

## High yield

Although it surrendered 587 yards, the most any Maioney team has ever yielded, Syracuse's defense 4 held the Seminoles to er mingle touchiown. until early in
fourth quarter.
Just over three minutes into the final quarter, a $41=y$ ard Jim Coodwill punt pinned Elorida State on ite own fur yard line. Two plays latier it was third. and-nine and, if the defenae could have held, Syracuse would have hiad . good field Poeition.

The defenso couldin't hold. Jordan dropped back ipto the endzone and scorched, SU defenders Harvey "tand sophomore Bob-Arteflpane with a 37-yrard panse to Kurt Unglanb. Seven playetzater Jordan fired a four: yard touchdown pass to tight end Grady King to capiaigeyard drive and give the Seminoles an insurmonatable 140 lead.
Florids State moired twice momestin ther nexty ineven mingutes, aided brthe bailiant mining of Eatbacl? Fiomes Jobrigons who zacea top 135 Graxdit

## Drug commission: time warp?

Empty chairs fill the room as the Onondaga County Drug Commiseion berins its monthly meeting. Chairman Edward Pasto looks from hisseat at the head of the table at the six assembled member are absent.

Well, we lost a member to Perry Duryea's

## Cityscape

campaign and one to the United Way, 80 why don't we just start now." Pasto grins weakly and fumbles with some papers spread out on the table in front of him.

The first item of discussion is a report from the office of Onondaga County District Attorney Richard Hennessy. Neither Hennessy nor his office's report is present and a young woman at the end of the table pardons him.
"The report is out of rough draft status and is waiting for editing." ahe aays. Her report on the report is greeted with silence. Attempting to bolster the commission's confidence, she assures them that Hennessy likee the report. "He really does," she says.
While the commission discuases the status of Hennessy's report, a late arrivalin a rampled brown anit enters the room and occupies a seat to the right of Chairman Pasto.
The late arrival is gasping for breath. The flaps on his jacket are tucked inside the pockets and hie pants cuffe are folded up, exposing a pair of gold socks. He's carrying a large folder of newrpaper clippings and, as the other commission members talk, he siifs through the file, A commission momber from the sheriff: department, who"s been out of town for two weeks, asks for an update on current events. "Is

## Springsteen, E Street Band bring high to War Memorial

"lt's the stage thing, that rish moment that you
-Bruce Springsteen, Time magazine, Oct 27.

## By Rachol Finkel

Rolling Stane critic Jon Landan was right threa Yoars ago when he prodictod, "I asw rock 'n', roll's future and its name is Bruce Springmteen.". Tuesiay night's performance of Springasteen and his E Street Band at the Onondaga County War Mencorial wa a perpetual Springiteen was radiant as he opened his Grat act with an energetic version of "Baclands. The Boas" kept up the lively pace of tha anow; by playing-almont the entire track Tram his neweat album, Darkneas on the Edge of Town. The audience. Whintled and atomped to Leind ind to marmonicasclo in The Promised his alder ctrnes, "Byirit in the Night." ing the rock atar coold have been an umpirecalling, ptritea and homernis as he monched,
 vera, olcomed rith chome and intarmithent
 buxituze people chimbed on the tope of chairs
seemed like a pep rally with rock ' $n$ ' roll as the cause
Yet the crowds were not the only ones to rock. The band was enjoying the show as well. Springsteen acted like a littie boy at his firgt bir
thdayparty. Heand saxophone player Clarence Clemons hooked arrass in dance after Clemons Fnithed a piexcing esx moloduring "ProveltAn Night."

During the first set, Springsteen. related stoxies from previous concerte and his days back at home in Freehold; N.J. One story dealt with a ride to Asbury Park, N.J., with friends. Spring etean's tale about driving all night led him to sing- "Raciag in the Streeta."
A. highlight of the firat set was Springeteen's classic "Thunder Road." He told a related story to the andience. One aumuer he came upon a ghack in the desert On the house there was a oign that read, This in the land of peace, love, justice and no mercy: At the bottom of thenign there.

The results of Tueaday's Democratic gabernatorial primary indicate that Gov. Hugh L Carey has some serious problems that may jeopardize his chances for re election in November.
Although Carey handily defeated both his opponents in

## Nows analysis

Tueaday's primary, the fact that he received only 52 percent of the vote despite a massive media campaign trouble with some New York tate Democrats.
Runner-up Lk Goy Mary Anne Kruparak tallied Mary percent of the vote, while state Sen. Jeremiah Bloom captured 14 percent of the vote.
The issue that may especially hinder Carey in his frght against Republican challenger Perry B. Duryea Jr. is the death penalty. Bloom, Who is not well-known around the state and ran on a platiorm aupporting reatoration of the death penalty in New York state, recei ved 14 percent of the vote. Thus, some state Demos rats may hold Carey's repeated opposition to the death penal
Noveraber.
Duryea favors restoring the death penalty, and Democratic instating the death penalty
may cross party linea to vote for Duryea in November. Both Carey and Duryea have publicly stated that they favor building a stadium complex on the gite of Archbold Stadiam at Syracuge University.
Both candidates also favor giving parents of college students tax breaks to cope with the risiag tuition costs.
In the only other statewide Democratic primary; Bronx Borough President Fobert Abrams defeated Dolores Denman, a former wate Supreme Court justice from Buffalo, by a wide margin in the race for attorney general.
Abrams was the pick of the state's Democratic leaders unCil Erie. County bose Joeeph Crangle was able to raise enough support for Denman to get her name placed on the get her name piaced on the has demonstrated that he stands a good chance of taking stands a good chance of taiking the spot vacated by retiring Lefe Attorney General Louis Abrames
ans will face downstate Republican Michael Roth in Nemberat Mario M Cuomo of New York City and Republican Bruce Caputo of Westcheater County are the candidates for lieutenant candernor
In the race for state comptroller, Harrison J. Goldin is the Democratic candidate and Ned Regan the Republican contender.

From the Bell Labs, marked for immediate release
BENTL BYETEM CLAMPS DOWN ON CABLE-CEEDING HODENTS AND BIRDS
Telephone wire and cable may be harder to aquirral away than nuts, but that doenn't mattar to the equirnale. They atill attack telephone lines with relish. So do woodpockers, gophern, rats and other rodente. Collectively, they peck and chew wire and cable by the mile, and their bite on the Bell Systam amonnts to hundreds of thousandsofdollara damage annually.
To put i polite atop to the expentive snacling, Bell Laboratoriea' emginéars in Atlanta have developed a new guard that shields aerial cable from woodpeckers and rodents.
What if they attack with mustard? That stuff eats away anything.

## APO Book Exchange: a service strained

After the festivities and excitement of opening week, every student knows the party's over when faced with the tedious procens of buying books. Everyone sweats out the long lines and mobs at the SU Bookstore then leaves exhaunted and grumbling about high prices as if the procese were an unavoidable as registration.
But it is avoidable An alternative exists to the SU Bookstore:. At the Alpha Phi Omega Book Exchange studeate can put their used books up for sale at whatever price they choose, the exchange taking a modest $10 \%$ cut from the profits. At one tirne, when the book exchange was located at Tilden Cottage on College Place, studente could browse through the stacks leisurely and find texts for most introductory
courses at reasonable, even cheap, courses
But the book exchange it being ground down by the university. Last apring, a cormittee formed under the student activities office told the APO Book Exchange they were taking up toonmuch office space for a gervice that was available to studenta only two weeks each semester. Alpha Phi Omega, the service fraternity, held out as long as it could. The book exchange was finally thrown out of Tilden Cottage.
The exchange is the only established student activity that lost all of its per manent office space. It will be located until Friday afternoon in a conference room at the Watson theater complex. Space for the exchange will be made anly on a temporary, semester-tosemester basis from now on.
The university and Student Association are playing tennis with the book exchange, since neither of them is directiy responsible for what happens scramble for space with the advent of student groups auch as Vantage magazine and an organization for

Native Americans, services with the least clout are volleyed all over campus. There's nothing anybody. can do before the university gets more space. It's nobody's fault," said Bonna Burtt, chairman of the book exchange and APO historian. Her frustration was clear and her ire aroused, however, When she talked about the APO members to keep the book exAPO membe alive.
Since last epring, she said, APO's stock of books has been stored in the basem of books has of the Student Association basement of the Student Association exchange cannot operate there because exchange cannot operate there because the windowless basement is a fire hazard. The same problem came upin Student Center for the exchange.
Alpha Phi Omega requested a $\$ 64$ allocation from Student Association to rent a van for two days this fall with Which to move all the books to whace they could have a sale, and move them back into storage afterwards. Student Association, in turn, offered Alpha Phi Omega the use of the UJB office for the book exchange.

The space they had was just not appropriate to set up a book sale," Burtt said, noting that in offering the inadequate office space, Student Association justified itself in refusing APO money for transporting the books.

These kids are playing with our" funds and supposed to be holping us," Burtt said. The thing is, we have to waitin line for space. SA has nothing to do with space allocations. It's not SA's fault that this is the way it is. They offered us an alternative. It just wasn't suitable,"
Student Association offered the book exchange another alternative: advertising in The Daily Orange. But Alpha Phi Onega declined, feeling it would pressure APO to back SA's boycott of the university bookstore.

The APO Eqok Exchange is Etraining under ita nomadic ex-
istence.
"We just can't side with things like that on campus," Burtt said. "We're a service fratermity.
"Our national office prohibits the fraternity from taking a political stance" another APO member added.
In the meantime, the book exchange is "in limbo," as Bonna Burtt put it. Never mind that the books are shelved in amall, rickety crates piled one atop the other. Never mind that the master list of required books for courses is gone, or that the organization of books isn'tsharply defined. Theserviceitself is straining under its nomadic existence.

## Faith came

Philosophy seems to me a foul sub ject. It lures you into security - it all looks so simple - and then the firat test knocks you down like a sudden' gust which topples the walls and sends the proof crashing in. Thisismy dilemma. After weeks had passed by I was convinced I knew why I should believe in God and why I didn't. But when the test arrived I found myself prayingNot only did this confuse my convictions, but it seemsmy faith came too

Dana L. Cooke
Iate. The teat was Titanic both in dimension and fate. Did I have to gamble on the rest of the semester?
-To help sort this mess, I visited my philosophy professor, Boris Smore. In a-drab little office ander HBC that a-crab profed pror status, I began to denoted profeasor" status, I began nod orr as Flash smore re-p
"Therre sure two types of experience. Ordinary experience involves senaing and perceiving." He continced with a threadbare antalogy, and then define the pecand. ypence exparience. belle. As a desk is the antecedent of our

With ever more interest groups vying for office space at the university, we need to reconsider which services are batic, which ones can help all students. All nonsense of space and politics aside, the issue here is the availability of books to students. Books are the main tools of a university. They are the spxingboards for ideas; they are central to any student's work. It is absurd to think that every effort cannot be made to allow students to exchange books in an organized way among themselves and at the prices they choose.

Annette Licitra for The Daily Orange

## just in time

sensing the desk, in this case seeing the deak, which is to say that if we see the desk, or in another way sense that desk, we assume said desk to exist, which is to say that the desk causes our sensing. or, in this case, our seeing the object or phenemenon, in this case, the desk. Do you understand?
By now I'd assumed a constant nod. if a person hears a bell, and perceives the antecedent to be God, then that is religious experience. If the cinging of bells leads one to a perception beyond that of the immediate tion beyond that of the immediate antecedent, in this case the bell, and to that God made the bell ring which is to that God made the bell ring, which is to
The telephone rang, and he looked at it with alarm. I began to gain interest as he carefally lifted the receiver. He placed it at his ear and listened. I wat hed as his jaw dropped and his eyes iclened.
"It's God," he arid. Stupefied, he listened. Everntually he covered the monthpiece and whispered to me, quite withont breath, "It's $a_{4} a$, ...It's a..."
". Religiona experience," I offened

* Springste

Gordon. Springsteen provided hyinn-like songs such as "Streets of Fire"-and "Fac tory." His sudden pauses between verges left a hush in the large hall. And when his raspy whisper came over the microphone in "Juingleland," the crowd stood silent, almost in'awe.
Springsteen's second aet included the Born to Run classic. "She's the One"" a song with beautiful background melodies by orgarist Danny Federici, and "4th of July, As bury Park (Sandy)." Excellent drumming by Max Weinberg (Mighty Max) in "Backstreets" had band members and the audience shouting and singing.
Referging to how

Referring to how carried away he gets with his mirsic, Springsteen told a stury about
loving a shoe at one of his concerts. He said in his husly voice, "I threw one (ahoe) up in the air one time and nevergot it back." He laughed, "I had to so hóme with one shoe.*
Though his stories vere funny, Springatoen and his fans geemed more ansious to dance seemed more ancious to dance of the concert, Springsteen - af the concert, Springsteen asked in a thondering tone, Are you ready to rock?!" The
\(15-m i n u t e\) version. of "Rosalita" that followed of the climax of the show Chemons climax of the show. in his white suit Federici in hailed on the organ and Gary Wailed on the organ and Gary The crowd called for more. The encores, "Born to Run;" "Because the Night-" a song Springsteen co-wrote with Patti Smith; and Gary U.S.

Bond's "Quarter to. Thuee" provided a rowdy conchisionto a fantastic show. When the house IIEhts came on, the crowd still thouted for more and kept burning packe of mat ches lit in appreciation. The E. Street Band was finiahed with. Street Band was finiahed with. was still hopping, still anking: for more.

As the crowde shuffied out of the smoke-filled auditorium, the crowzds were still cheering and screaming, Bruce, Bruce, Bruce!" The enthusaistic spec tators made their way home from what was one of the finest shows in the War Mernorial in recent memory. And to all those skeptics who contend that "rock is dead," Bruce Springsteen conclusively proved that rock 'n' roll is here to stay.

\section*{\(\star\) Drug commission deliberates}
current events: "Is there ing a story about yesterday's anything that happened I should know about? he asks. His question is met with blank -stares.
"How aboú LSD?" says Chairman Pasto, asking the question like a host at a cocktail party-
It's starting to show up again, "he's told by a represen tative from the Syracuse Police Dept. Pasto continues reading down a list of drugs, speaking at auch a hurried pace that it sounds like he's on the floor of the stock market:
"Cocaine? Angel Dust?" The man from the police department shakes his head and the discussion turns to PCP.
The refugee from Perry Duryea's gubernatorial campaign arrives. His name is Dick Altiere and his presence temporarily stops the meeting. Heamiles.easily and often, tell
lurich with Senate Minority Leader - Warren Anderson. Altiere speaks for several minutes about the grave concern among Albany Republicans over drug abuse He mentions-a proposed juvenile. deliquency statute and amid a great many thank you's, he leaves the room.
The man from the police department tella of a raid on several "miniature fammers," college students who grow colege students who grow police have seized maore than police have seized more than anecdote is greeted with aneciote is greeted with proval.
Finally conversation turns to the drug abuge problem at concerts" at the SyracuseMemorial. The cornmission'a concert expert. The Rev. Ronald Buckel of Camillus, rises to present his report, prefacing it with a few remarks about Wednesday night's Bruce Springsteen concert.

Buckel comments on the minimal use of pot and alcohol at the concert. He classifies the crowd as older and more Wophisticated than the
Buckel's enthusiasm about the concert is sincere, as are his suggestions about curbing drug abuse, at the War Memorial. Buckel suggested a more concentrated drug education program aimed at parents and children of junior
high school age. "By the time kids get-passed ninth grade;"
Buckel said, "they've usually Buckel said, theyve usually made."
A suggestion by county legislators to " cancel rock concerts if probleras at the War Memorial can't be aolved is diecussed. Buckel calls the idea "shameful," but his remarks are lost amid conversation at the head of the table.
Commission menbers decide to table the War Memorial discussion until next month. promising to give Buckel some definite ideas to bring to a special committee headed by two county legialators.
Buckel begins talking about COJAC a new program he's in vol ved with to treat youthful drug offenders, but "commission members seem more concerned with a photostated Reader's Digest article on Angel Dust.
After a short discussion on drug-education, where the police department representative refers töa 1969 pamphlet published by the Royal Onet published by the Royal cuses himself and leaves the room.

Three youths from Buckelis parish in Camillus are on trial today for possession of marijuama and he wants to be present at their trial. He closes the door behind him, leaving his fellow commissioners to study - their photostated maganine articles and their decade-old pamphlets.

W.JPZ bolts back to air

SRadio etation WJPZ, 990 General Manager Tony Rizzo GAM, was back on the air ahead said.
Wof schedule last night after WJPZ had not expected to Mightning struck its reaume transmitting until

Vtrantsmitter on Tuesday, Thursday evening.

\section*{2 men questíoned}

禀ight of those rapes occurred unlocked during the day. tharing September and October of last year, city police have paid.
4. Police said yesterday they believe the man responsible for the 10 rapes is also reaponsible ffor the three recent attacks. V. Police said the suspect's desscription is-aimilar and his Fispeech patternis are the aame as the man believed to have raped the 10 women.
Because of the recent aseaults, James B. Morgan, director of the Office of Residential Life, said only the main entrances to the large residence halls will be
were locked only after building maintenance people left the dorms in the late afternoon, said David Kohr, ORL associate director.
Morgan said he does not feel other security measures are necessary at this time, because he does not want a dorm to seem like an "armed fortress." Currently, ORL sponsors rape prevention courses, in which representatives from the local Rape Crisis Center and city police hold workshops in the dorms. Morgan said the programs will be advertised more in the future.

\section*{An SU mascot for all men?}

\section*{Werrior selection wasnt axactly cut and driod}

Sebastian the-1bis is the masacot of the University of Miami Sebaytians who is usucilly found taunting an enemy mascot when he isn't busy helping cheerleaders create moral support for the foot ball team, is a Large wading bird, related to the heron fanilly, with long legs and a ons. aterder, curved bill:
The Ibis makes it home in the nearby Euerglades during the fall and winter months.
-University of Miami 1978 football press guide

By Mike Stanton
Show me a college with a football team andlinshow you a mascoi crasier than a semester in "Animal House". Tulane has its Green Wave, which is not the latest rage among Martian hair etyles and when Wisconsin and Minnesota 8 quare off, it's the badgers and the gophers cheering from the sidelines:
For those Syracuse Univer-
sity fans who think SU's new sity fans who think SU's new mascot, a Roman gladiator, is nothing more than a copycat of better-known Bon Hur typer at Southern Californiz and Michigan State, perhaps some of the other mascat ideas considered by the SU Office of Student Affairs will prove more appealing.
Contrary to a campus rumor, Student Affaira did not select the Trojan mascot to advertige the new itern on sale at the SU Bookstone - rabbers.
The first wave of wild and crazy mancot ideas cance from SU students who entered last, spring"s "pickamas cot" contest. Arnong the unluchy 13 entries none of which were judged appropriate for Syracuse) were the inevitable Sunkist orange, a tirnberwolf, a Vicing and a 17 th century arroy soldier garbed corn-
pletely in orange. pletely in orange.

One mtudent suggested a penguin, complete with orange acari and knit-cap, which would presumably feel at home during those frigid autuinn afternoons in Archbold Stadium.
Two beastly mascota which dida"t make it ware an orangutan and the "Abominable Orangeman," a monmter described by the student who auggested it as a huge wildman with woolly range hair, "a beast who atrilves horror in even the Btoirtest hearta."
An orangutan might not make the perfect mascot (who would clean its cage? but a reacuah-brown, wan-itice ape With long, hairy arms woald
Gaice one hell of a pass rusher. Iet none of the 13 conteat en Hiea satianed student \(n\) fair. ofrcials, whose taste in maa he Fomen Cotholic cortinale he Roman Catholic candinals taste in popes.
So Unysees J. Connor, director of atudent activities, and other mascot searchers com piled a detailed list of qualities a Syracuse University mascot habuld in Virginis sent it to an ax asidhes a "vild imagimation**
Included on the list of Included on the list of deairable qualities were fear, chool spirit, strengit, tability and nomakeup (JAPs need not apply).
leed not apply)
Scune of the mascot ideat cooked up by the artint look like illugtrations hijacked from an animated Walt Disney Pict
Picture Ollie, and Opp Orange, a primitive caveman couple, strolling the Archbold ning loinstins of furzy orsung fur with prahs of furzy organge Frye boots to match olli Frye boots to match. Olif "Syracuae" a Syracuse" emblazoned on the side.

Then there was one of Connor's favorites - Egmato the troll, whom Connor described as an bit cute, but of mo relevance to anything." Thus Egnaro hit the unemployment line. (Yes, Egnano is "orange" spelled backwarda.)

Several of the alcetches give the distinct impresuion thatall the artist does in hil spare time ie watch"Star Wars" and read Superman ermics.

There was one space-age mascot (pictured below) that resembles a nuember of the SU Marching Band after mwallow. ing his tuba.

Or if auperheroen anit your fancy, conaider Orangeman that caped crumader againat than a speeding tris instex than a speeding dirng addict. more powercu and abletolen cheerleadersin a aingle bound.

Another drawing pictured a mascot that looks like a croas between Eltori John, Willy Wonka and the Burger King maxi.

Although none of the artist* a bixzare misconceptions were adopted, Connor will keep them for now. After all, you never can tell when a croup of Roman mtudenta will protest gadiator mascot and demand its elimination.

 inginn. porthape his twikeqpt orminge far knociked him out of corremillon.

"We have overcrowded classrooms," Henry F. Schulte Sean of the S. Newhous School of Public Com munications, szid. En
rollment at Newhouse has in
creased from 1,816 laat year to 2.114 this year. This figure in cludes both single and dual najors.
"I don't think we can ac commodate \(2,100, \quad\) Schulte
said. "I'd like to lower our enrollment to 1,400 .
When Chi, Eggera apote to facult spoze to the Newhouse wanty Iuesday, he said he wants to prit a limit on the enrollment in oowe programa at herknurncerty.

It's less a matter of total enrollment at a college than it is a matter of enrollment by procram," Esgers said. "All achools wit be given the same more mente in some programs in Newhouse.
The crowding has also been felt in the School of Management. With an incoming freshman class of 335 . the school is in what Dean Richard Oliker calls
tremely tight ponition."

\section*{Sparse attendance mars tenure meeting}

\section*{By Marilyn Marks}

The University Sennte Committee on Appointments and Promotion met Wednesday to receive and diacuss a long-awaited Promation met Wednesday to recenveand diacuss a long await Mropoed timare policy - but only ne only undergraduate on the compuittee, said she wale not suxprised by the poor tornout becanse of apathy. The committee hat 10 miembera.
He memberw who attemded reacted favorably to the tenure Wroposal, according to committee chnirman Prof, Jamea K. Woeks. Althoughnovote was taken to approve the propowal, both Weeln and Rooe naid there werra no main objectionim to the policy.
Weekn said that some problema in the policy "may simply be a matter of language." We expecte these to be cleared up without much difficulty. Rom aegreed, explaining that "mont of the questions were abont wording."
The new teaure policy would mate stodent inpot on tenure deciniona mandatory, and would require more mtandardized ovaluations, Weoke said. It also mota up epecific criterin for granGing texure: teaching; faculty adyining where appropriate; resaarnis; and eervice to the wniverwity and communty.
Although the plan recommends atting up gemeral standarde for tenure deciaions, Weelce said it allowa academic departments. fexibility in forming their own apecific standardm
Rove'explained, "It would be imponaible to have one standard evaluation theet for the whole univernity. What in applicable in one department in not alweys valid in another.
The proposal may atill bo prosented to the full Senate on Wednemday it the comamitter appoves it by then.
"I trill retain my optimith, oven though it may aound Pollyammeiah". Wroek asid.
 therefe no fanit with ik" ahe maid. She admitted there will be a real problem in enforcing the temure policy, but adid, "there are very fow wiy of emforeing anything.
Jim Nugethton, stedent ptopocintion viep president for

The class, the largent in the history of the school, will cause class sizes to increase.
have 50 to 60 gtmidents per that tion" \(\%\) to 60 etrudents per seca preferker exid. "I think on prefcrred bastin 30 to 35 is the - Hownem tize

However, Oliker said, next year's crunch will be more directly falt becaual mont managecoent stadents begin to their sophomore year.
Thomas F. Cumminga, director of admiasions said, specialized areas some over crowding of facilitied has 00 curred. But it hana't hindered the living-learaing sifwation." Cummifugs asid the ad-

STUDENT ASSOCIATION

\title{
gamma Learning how to fight back
}

There's got to be something we can do besides hider, assaulted and robhed. Ten women have been rapedin an eight-block arêa north of Thornden Papedin ance lagt July.
Wathe're naking for it, used to be the retort. Women used to be "asking" for an assault becauisit they wore drease and high heell. Even
in sweatairts and blue jeans, they used to be in sweatshits and blue jeans, they used to be at night:
But when a woman. is attacked, as one was Monday, in her doirnitory room in the middle of the afternoon, it becomea plain that nobody is asking for it and that now here is safe.
"If you muat go ont at night, call SUS Security, and they'll transport you anywhere you wish," RA's would tell their floors. But security'has received so many calls of this kind that they can't handle them all. "Take a taxi," was one cant hande officer's answer, to a Boland resident's reauest.
"Always have a friend with you. Never walk alone," women are advised. But many times this is difficult to arrange. Onestudent last year was attacked while in the shower.
Precautions do reduce a woman's chances of being attacked. But even the most cautious woman is atill in danger-like the Marion resident in herownroom just four days ago. The terrifying reality of this situation prompted the

coordinator of the SU Women's Center to write the following letter to Vice President for Student Affairs Melvin Mounts:
Dear Vice Preaident Mounts:
In light of the current situation in the
Syracuse University area, the Women's Center
feels that measures must be talien to insure the safety of the women of this university. We have failed consistenly in our constant attempts to institute a self-defense program and we, therefore, implore the university to act immediately on this severe problem.

We ask that the university provide a weekly. non-credit, no cost to the student, self-defense training class open to all students of the university.......
The administration's response to the request has been positive. We hope their attitude tran: slates into action-soon. Peter C. Schillo, coordinator for campus events of the Office of Student Activities, hopes an instructor and tocation for clase, will be found within this semester. Administrators should remember semat until then, womaen may be attacked who don't know how, to fight back.
One further suggestion to be considered is that if the course is to be held at night, which it probably will, adequate transportation must be offered to all students participating in the course. This should include students residing both on and off campus, to avoid the possibility of the sick irony of a worman being attacked on the way to self-defense class.
When the course is available, all women who possibly can-please takeit. Women don't have to be helpless. Learn how to fight back.

Sy Montgornery for The Daily Orange

\section*{Phooey on tradition! Egnaro for mascot}

Egnaro the troll.
Why he's so appealing is hard to say. And why he ian't our new mascot is even more of a mystery.
Most of us remember the mascot mess last year. Our 31 -year tradition of a stereotyped American indiam brave was rejected by the Onfice of Student Afrairs because students in the native American organization said

Claudia Estelle
A Roman gladiator became our new mascot during the summer, partially because the administration felt it kept with our Saltine Warior tradition.

To that tradition, I say, "PHOOEY"" The Saltine Warrior died when the the Saltine Warrior, reat in peace. Let us, as forward-minded citizeris. look to the future.

Let us embrace Egaaro.
To begin with, Egnaro is distinctive. No other team would ever be able to forget- the SU troll. Can't you see Egnaro chasing the Weat Virginia Mountaineer around Archbold Stadiurn?

Drawing by Sy Montgomery
Egnaro is original. The Saltine Warrior was one of many similar achool mascots around the country. Southern Caliornia and Michigan State have gladiators. Egnaro, on the other hand would be completely our own.
And what is a mascot if it isn't lovable? Egnaro is cute, huggable and ferociously sweet. Think of the souvenir possibilities the bookstore could sell Egnaro dolls, Marshall Street
could aell Egnaro T-shirts and alumni could buy Egnaro pajamas and Halloween costumes for their kiddies.
People would cram Archbold Stadium just to see Egnaro dance around.
Fans could really get behind Egnaro. If we can shout "Let's go, Orange!" we can certainly rock Manley Field House
with cries of ©Egnarol Egnaro! with cries of "Egnarol Egnarol aren't traditional. After all, Egnaro is "orange" spelled backward.) True, he may be a bitundignified, but is the Boston College Eagle so classy?
So why was this wild and woolly troll
rejected? \(J\). Connor, director of studentactivities, said Egnaro is "a bit cute, but of no relevance to anything."
cute, but of no relevance to
Egnaro is the personification of Syracuse Univergity. To begin with, he is unkempt yet really appealing. So are is unkempt yet really appeaing. So are a lot of Su stud
Second, he is kind of scary at first, but as you look at him, you find him lovable after all. Who didn'thave those feelings about \(S U\) as a freshman?
Finally, no one can object to him. Christian students may resent the
gladiator - after all, gladiators fed Christians to the lions in ancient Rome.
No one can say that about Egnaro. Egnaro is fun. Maybe heian't steeped in tradition, like this new bogus Saltine Warrior. But he's fun to look at and fun to cheer for.

Drawing by Sy Montgomery

\section*{Legacy of a liberal: the choices have changed}

Maybe it's a sign of advancing age afterall. I just torned 20 - ormaybeit's just my disillusionment wilh all the sacred cows of my youth. Whatever the reason, I found out something very discouraging over the summer (Wait a minute \({ }^{-}\). discouregiogeisn't really the night word; interersting is much better). I realized that I am no longera Liberal.

\section*{Thomas Coffey}

This discovery came upoin me very guddinly, one day, it was the kind of self-realization the hexo in a Hermann Hesee hovel uguailly achieves fight beforehedies (not thiat i hope to follow this practice)

I was reading The New Yorl Times. In that day's isgue there was a atory concerning the recentify publighed book "RN: The Memoirs of Richard Nix.n." It seems that a group of pieople in the Washingtion area was organizing a boycott of the book. After reading the article I put the papex aside and shook my head. Who cares? I thought.
Four years' after his resignation, I found it incanceivable that people could still get upset about Richard Nixon. This country faces enormons problems - energy, inflation, discrimination, poverty - and some people atill perceive Nixom as our No. 1 threat. All the nan did thia time was write a book, I thought. Why is everyone xetting 80 upeet?

\section*{The Daily Orange}

\section*{Thomes Coffiry \(\quad\) "editor in chief}

I thought about this for a few days, and finally decided that the answer was tworold. Frbt, peopleare attacking Nixon because kciang a man when hes down is part of the American way. (I could do another column on this. Suffrice to say that's a noticeable, regrettable habit we as a people have acquired.) Second, in thisera of ill-defined idiaues and mediocre, uninspiring leaders, Richaurd Nixon, is different: he is a visible, clearcut villian.
A fow years ago it seemed so clear to millions of people, to me. Richard Nixon and the Conservatives were in power. They were Bad. Those who were out of power, who opposed Nixon and the Conservatives, were Good. And those in thie latter group, of course, were called Liberala.
But the isaves changed. Nixon and his co-conspixators were thrown out of office. The intractable iesues we ignored during Watergate returned once more. How can we stop crime? The answer was xuthleass woe muet establigh stricter, more severe prigon senterices- How can we alleviate the enerigy cricie? The answer was cynical: We must harm the environment so people wrin't freeze dưing the winter.

How can we stop inflation, unemployment and poverty? The answer was hopeless: we can't unleas we're willing to make drastic changes in our economic and social systems.
The " 60 and too, were over. We had withdrawn from Vietnam and forgotten it, leaving those battered, forgotten it, leaving those battered, war-torn people to fight a war we had
created. The nature of the civi-rights created. The nature of the civi-righte movement had changed. The white Liberals backed sit-ins and Freedom Rides as an end to segregation, but affirmative action brought cries of reverse discrimination. The nature of campus protest is not the same. In the GOn students questioned the role of the univeraity in relation to society; today we boycott the SU Bookntore for a check-cashing policy. Those who claim that last ppring was a return to the '60s have not studied that era.
I reachied a concluaion this aummer because I had time to thint, and one never gets that chance while school is in bession. Liberatism is dead; it does not work it has, no relevance for the problems confronting us. There are omiy two options-Radicalign or whieh ore I favor.'

SU balances this year's budget; records \(\$ 77,501\) surplus funds
}

\section*{Write news.}

Call Jacqui at 423-2127.

Syracuge Univeraity balanced ite bridget for the and th etraight year, aceording to Clifrord I. Wimtere dr- vice chancollor for adminimtrative operations.
The univirnity had fund revenues of \$123,173,187 mad expenditures and tramefarm of \(\$ 129,095,686\). A eurvlas of \(\$ 77,501\) will become part of the fund balance and will be invented where it will "earn interent income to mupport the nnivernity so that we won't haye to charge manuch tuition." Winterse said.

Salariee constituted the major increase in ex penditures from one year ago. Money apent for instruction and departmental resoarch, including salaries, increased by about \(33,474,000\).

Salariea are going to lead the list in any year: Winters said.
SU has not always balanced its budget. In 1970 through 1972, "the budget was badly unbalanced." Winters anid.

He added, "we mwallowed some bitter medicine early. Firat wo had to accept the realization that it conidn't continue. Then wo made the necentary ancrifices and adjustmente. Now wa malce an unrelenting effort to keepitin balance. \({ }^{\text {n }}\)
The university now has a triple-A bond ratiog, the higheat rating posaible Even with this credit rating, Winterm claimed it would not prudent to borrow, a large amount of money for a new Univernity Union building-
"The university now owes ass4 million debt," he aaid. "I don't think a UU building can support handling any debt. It would do well just to meet its operation costs.

Winters said he would consider "shoxt term borrowing" if pledges were in hand to constract the building. The loan would cover the time from the start of the construction until the money from the pledges materialized.

\section*{WJPZ, student AM station, makes drastic format changes}

By Gisela von Waldow WJPZ, a stadent-run AM radio station, will soon become "Z Rock 100 " as the station takes on a new format.
The new format was developed by Keith Hill; the new program director of WJPZ. Hill said he hopes to attract a larger college audience by playing more albumoriented rock and diaco, and less contemporary and top 40 songs.
The metamorphoais, which includes a change in personnel, begins ati 7 a.m. next

Wednesday with 100 hours of commercial-free music. No news will be broadcast during this time and the diac jockeys will talk less than ueual.
At 11 a.m. Sept- 24, the transformation will be complete and Z ROCK 100 will be born at the end of the non-stop music, Hill said.
Hill said the format was a tremendous auccess at WSEAFM in Georgetown, Del., where it was introduced. He is confident the format will succeed at Syracuse Univeraity because it is the most contem-

\section*{Bark up the right tree:}

Perhaps that's because you can't identify them. The forenmy school has a course that can help.
The State University of New York College of Environmental Science and Forestry at Syracuse University is offering a mini-course on "Farest and Shade Tree Identification."
The course will introduce students to mative and ornamental trees in Central New
porary format available in an era that has "no real superstars like Elvis or the Beatles.
He said the other stations are sounds of the past and WJPZ will be the "better one" in Syracuse.
"No one is the best." Hill said.
" SU is a campus waiting to be tapped," Rizzo said. 2 Rock 100 will-also include campus news, promotions and announcemente.

The station is a non-profit student organization working under the supervision of SU. It depends on advertising to cover operating costs and receives no financial support from the univergity.

\section*{Tired of same old FM sound? WAOX introduces album rock}

By Petti Echuldenfrei Born: to the Byracume airwaves on Aug. 24, 1978, a healkiy. 6000 -watt beby chrimiemed WAQX, 95.3 FM sterea
And like a newborn infant, everything abort WAQX-fondiy micingmed 95X-ie fresh. youns and growing, from the stafir to the sound to the beige painted walls and potted plants of its Manlius atudio.

One of the proud young parents of the new station in Vice President, Station Manager and Chief Engineer Craig Fox; who at the age of 25 represents the average age of the 14 stafy mombers.
"Wo"re all pretty young." saya Fox. "We're-the youngeat ztaff in Syracube, that's for sure, and maybe the youngest in the country.
In fact, the auccess of 95X could be encouraging news to Syracuae University, com: nuunications majors fearful of facing the "real world" Six of its stadi members are former Communications students, including recent WAER-FM veterans Ed Levine, Dia Stein and Pam Blake.

But youth doean't necesagrily mean inexperience.

WAOX concolved by several Newhouse erwduates, was introduced to the Syricuse minaves in late Augumt
. Everyone on the staff has hald-an FM job either in Syracura or in a market the same rize or bixcer," anya Fox.
The station's format and target audience are equally youth-oriented. As the city's only "album-oriented rock" gtatión, 95 X sime towards an 18- to 34-year-old audience, in the tradition of the underground protrensive rock atationa of the '60s.
"We take top-selling albums, but it's got to have a certain sound to it," says Fox "Olivia Newton-John may have, say, the number two album, but we won't play it.
"We take top-40 bits that have a current sound, and we play a lot of progrengive muric...but nothing noiay; no feedback guitars or thinga like that."

One wall of WAQX's on-theair tutucio houses ita record lib rary, when, alecording to Fox, contains "one or two by overybody ithate important." The collection is a conglomeration of the atafirs own albums and now ones donated by record companiers.

Although WAQX did not hit che airwaves until thin August, it took 3 ity years of plamning to make it a reality. In Inane 1976 after a year of gathering money and conducting the neceasary local murveys and interviews, the 10 members of Manlius Broadcasting filed their application with the Federal Communicationa Commission to operate a new etation on the area's only open FM frequency.

Hovever, before the FCC took any action, a Canan daigua company called ACr the FCC a rat application, and the FCC pet a hearing date to settle the conflict. But as For put. it the two applicante "started talking to ench other. and finally merged in April of 1977.

Financing of the new venture came from a combination of fiends, family and AGK investors. According to Fox, getting up 95 X cost almost getting up \(96 X\) cost aimost
\(\$ 50,000\), a modest inveatment comperred to the cost of buying comperred to the cost of buying an existing 日tation, which Fox guessed
\(\$ 225,000\).

WAQX ("Q's and X's seemed to be very catchy call lettersin the past fow years') currently broadcasts 24 hours a day, reaching about 30 miled south. north and west, and nhout 40 miles east of ita atadios.

Feture plana for \(95 X\) inciuda increasing publfc pervice programming bowe of which will be produced by' ritudenta, from Cazenovia College and Fayetteville-Manlius High School.

Fox also hopes to expand the station's news department. \({ }^{*}\) Most FM mtations are just musie btationa and will always be: We want to expand our neve ataff so people will think of us as a full tervice station."

But the success of \(95 \times\) will be in the handa of the ratings and Foz is optimistic. "Fin looking forward to the ratings", he asys. "It aeems like there's alneady a lot of people listening."

\section*{Who Are You': a rock ' \(n\) ' roll 'masterpiece}

\section*{By Thm Eing}

A rock band can eppend monthis creatag a estiauia alborn, not fnowing moiner it be a hit or a cutoph. Evel ayping an aluom aocmenwaya work: the death of an important member of the doath
With the death of drummer Keith Moon, the lateat Who album, Who Are You, in asaured a mpot among the year'a cop selung that noeds no holo. Fill is ing the precedent tet by Tommy, Who's Vext and Quadrophenia, thin alham dispells any doubts leat by Who By vanbery hat ine who is one of the best rock bands in the world. However thare was a time. When The Who's greatneas was not taken for granted.

\section*{Slow Berinning}

The Who, Peto Townohend, Roger Daltrey, John Entwistle and Moon, started in October 1964. (The group had played under various numea and without Moon annce the mid '60s.) It was a less than promising etart Their image and their proformances wer marred by constant bickering and rumors of an impending break-up.
The only thing that distinguished them from the avarage band was the way they deatroyed thoumands of dollars worth of equipment on stage. It did not help the music, but the guitar mair trouble they still produced a few their trouble they still produced a fev classic numbers, most notably, "My Generation Hand \({ }^{\text {Gil }}\). Can See For Muccess didn't comer, until 1969 with the success didnt com
"Tommy," the Eirst rock opera-was an instant euccess and gave The Who \(A\) wider andience than the group had ever known. "Tommy," more than any other album, raade people recognize rock as a serions art form. It was 80 im pressive that The London Symphony Orchestra made its own verrion Unlife maniy albums, the sonnd track has the came appeal today that it did nine years ago.

Alua a two year absence from the project that ewo set to work on a ney Next. Though not thely became who the band had ranted, the album mone

\section*{Rowdy rockers}
than lived up to every atandard that "Tommy" had oet. "Baba O'Reilly' and "Betind Blue Eyes" are Who stan dards. "Won't Get Fooled Again" has become a classic

Worth Waiting For
Once again there was a two-year lapse between alburns, and Quad rophenia proved to be worth the wait. It was another double album rock opera and may well be the ultimate Who album becanae it combines the ietenatility of Tommy" with the "nergy of "Who 'a Next."

Quadrophenia proved to be an im possible act to follow. The next album, Numbers was generall
had all the earmarks of a dying broup and three year wait for Who Are You only increased this feeling. As it turnt out, "Who By Numbers" was no in dication of what was to come.

Who Are You" is a return to old ways but with a different mood. natead of looking towards the future he attitude is more reflective. Th music and writing is as good as ever but much of the deaperation, characteristic of their earliex altums is misaing. The urgency is replaced by a cymicism that 8 as much a product of the times as of The Who's euccess.
"New Sons," the opening cut, is a traditional Who-styled rocker that explains the writer's (Townahend) for-
mula for guccess and survival on the road. Daltrey sings with auch con viction that you'd ewear the song was written by him, and Moon's drumming atits outrageous best. The song is autobiographical but not the leant bit elf-indulgent.
Selfindulgence wasn't totally avoided, however. "Guitar and Pen" is another song that tells the Townshend tory even better than the first. Still one has to woncer why Townahead would write wongeabout himselfon agroup album. Fortunately the song is ood enough to stand on its ourn merits and is one of the begt cuts on the album. Townsherd even had the reatraint to
camtinued on page sixitien

\title{
Keith Moon: the fall of a shining star
}
"I hope \(I\) die before I get old"
From The Who"s "My Generation" By Mike Maymara
Whan Kaith Moon disd in London latat week of an overdose at the age of 31, rock lost one of its most colorful and dynamic personalitien.
Moon, who for the past decade elec trified rock audiences with his maniacal, feverieb drumming an a member of The Who, was the undispated wild man of the rock world. His drumming myle whe damaling.

Koith Moon 0

Unlike most rocif drummers, who lay down a heavy backbeat, Moon's
drumming - thunderous drum rolls, crashing cymbels - was always in the forefront of The Who's muric. Pete Townshend, gritarist and songwriter for the band, in the linar notes thataccompany the album Quadropheric, wites that Moon waie amazing to waich because he "weed to play with his ammecausing around is the air like lonatic.
Moon's trademarik on stage was to destroy his drum set at the conclusion of virtually every Who concert.
Oftatage, Moon'a behavior was ven mare bizarre. To celebrate his 21 et birthday, he drove his car into a wimming pool. He was also known to consmme large quantitiea of alcohol, and he would ritualistically demoligh notel rooms on occasion while under he influence. Several years ago, during a televised prepentation of the Grammy Awards, Moons did a meries of comersanite up to the podium where be waid to preaent an award. Guch behavior earned Moon many headitines, and he even began to enlivate this image of being "off-thealif:
Moon clrimed not to emke drage, but n light of lant weak autopey which howed he hed died of an overdose, that claim ceems far-fietched Anyone who followed The. Who certainly who id not have been turpried if Moon had beep hooked on pruge; it would mervely have fit in with thereet of his etremes behneviow.
- Moon joined the othar roombera of The" Who - Then anhend, roculiot Rover Daltive and bame player John

Entwiatle -in the mid-1960e. London at that time was in the midat of a musical upheaval known as the Merseybeat era. Young Londoners who wanted to make the "scene," fither became "mods," who dressed religiously in all the latest styles and fashions, or "rockers," who isually dressed in black leather and who did aot care much for the music coming out of London at the time. preferring instead rock ' \(n\) ' roll and rhythm and blue of the late '50s and carly '60a. Riots between mods and nocinars were not uncommon during this time. Townshend poignantly . chroniclea this period in his life on "Quadrophenia."
The Who quickly became the darlings of the mods and started playing auch "fin" London clube as the Marquee. They had several hits on the Enctinh charts before ecouring in the Umited States with "Happy Jack" in 1967. Moon gained notoriety that year when; with Townehend doing ilkewime to his guitar, he emashed his drume on stage at the Monterey Pop Fantival
When the album Tommy was raleated in 1969, the Who became corified muperwtare. In .the years that followed, the baind releaned soveral top-figight albume, notably Who's Next in 1971 and' Quadropheria in 1873.
guadrophenia, preoentz a pair ticularily reweating portreit of Moon. On the album, each member of the band in portrayred in a differwat way. Needlemt to say, Moon playlutho part of a crati, type. On one mong. EBoll Eloy; Moon oven gethe to ding about
him lunacy
As a bell boy, Moon is often relegated to the frustrating role of car ying other people's baggage and cleaning their messes. Yet, in the song he merely accepts the absurdity of hif ituation - much in the same way hathe accepted his being a rock atar.
When Tommy was made into movie - with Daltrey playing the itle role - in 1975 , Moon was the obnous choice to play the villian. Unct Ernie.
The Who recently released Who Are You, its firstalbumin three yearn, and it was believed that the band was preparing for a tour of the Staten this vinter. The album met with mixed ritical reviews but, from all ee imates, the banid was glad to be back in the studio recording again. Moon'B leath could not have been more un timely. Whether The Who will recruit now drummar and atay together remains to be seen
Anyone who loves rock ' \(n\) ' roll can not help but feal sorry that Keith Moon in dead. He was unique in a number of ways. For one thing, noont can ever hope to recreate Moon's drumming acrobatics. It is widely achnowledged that he was virtially n a claes by himself. In addition Moon posermed and projected an mergy, a vitality, that few people in cock have. Perhape such figuren as Bruce Springeteen, Johnny Rotten, Keith Richard or Ronnie Wood conld cqual Moon in terms of manicencrity: bat thair numbers sere few and far cetwreen.
Keith Moon is dead at 31. He will be sornly mimsed.

\title{
'Last Supper' depicts Cuban slavery, cruelty, injustice
}

By Rita Giordano
Wateolor-ike photography and a hauntingly beautiful African and Latin musical acore provide aharp, effective contrast to the ugliness of moral injustice and religious hypocrisy in "The Last Supper," a highlyacclaimed film by Cuban director Tomas Gutierrez Alea.
Shown earlier this week as part of Prof. Robert McDonald's History 400 course ("The Imperial Century Seen Through Film"), "The Last Supper" will first be shown to the public Friday, September 15

Film
in Grant Auditorium, as part of the NonViolent Studies Film Series.

It is a hard-hitting film that spares the audience nothing in its unflinching look at slavery and religious bigotry in 18thcentury Cuba. There are gut-wrenching acenes of physical violence including one in which the severed ear or a recaptured runaway slave is ce
gobbled up by dogs.
The story takes place on a ougar-cane plantation owned by a wealthy count of Havana, whose prosperity is due, at least in part, to hisube ber visit to his plan. During a Holy Weok visit to his plantation, perceives himselfagood christian, isgiad
to see his production eacalating, but is
troubled by the atrocious treatment and iving conditions suffered by his slaves. In an attempt to purge himeef of the guilt that is.plaguing his mind, the count embarks on a near-8acrilegious campaign of Christian charity, with himsolf as a Christ figure.
He stages a "last aüpper" and allows 12 sla ves to partake of food and wine at his table. Seizing on this opportunity to preach to his captive audience, the nowdrunk count relates to the slaves various twisted interpretations of Christian lore. Several of the slaves hail the count as a good and kind manter. However, others are not fooled by his pretentious show of nase humility. Sebastian, the alave with the severed ear, expressies his skepticisim most eloquently; he spits in the count's face.
The action climaxes on Good Friday. While no one is aupposed to labor on this sacred day, the brutal overseer, Don Manuel, forces the slaves into the fields. The slaves are enraged, and a bloody revolt results.
Outbreaks in Cuba are now a part of hietory, making the movie alightly outdated. Some viewers may also criticize the film as beng propoganda for the modern Cuban regime. Yot, deapite these setbacks, "The Last Supper" still stands on its merits as a powerful indictment agginst hpporcrisy, inhumanity, and in-
justice everywhere. justice everywhere.

\section*{Eluorescent frisbees fly. ficker, freak people out}

HAn manidomtifed Aying olject emithing a theam of rod and yollow light etreaked across the ity at the quad cometry

Mhal.
Ain anmonpoctiog ftadent had just had a cloae oncorater of tha plastic lind as his head made contact writh a etrange object weighing over 200 grame
"Holy whitl That's friebee with lightsi" the bewildervel stadent ahouted.

He was one of the firit Syracuse Uxiversity students to be clobbered on the head by the incredible Future Fight Hying enucer.
Frture. Flight was imported from sumn soothern California, horme of the origina Frisbee It is made in Los Angolea by Polaris Manufacturing Company and is in limited dis tribution on the weet const.
\(\therefore\) This newly patented object runs on a 9-volt battery, poritioned in the center. Three indeatructable Light-amitting diodes are implimted on the outside edge, producing a masmerining otream of colored light when the dise in fhrown in the dark.

Future Flight is currently not available east of the Sierras in. any atore. It is atill a rare sight in California. Butit may be bootlegged to SUin the near future. The cospoic frigbee is currently baci-ordered sceording to Tom and Chris White, spolesmen for the Erm.

Future Flight has been selling on the west congt for as much as \(\$ 15\), derpite a maggested ratail price of \(\$ 10.95\) (battery not included). Wholeanle and retail orders will be taken Hhroumh Blutarsky Emterprises at \(425-9847\).
Marketing research is underway to determine thefate of the newtomer to the flying object inthe fate oi-the newcomer to the ining object in-

Studente may be struck with a new olowing obfet un campus - Future Flight o frisbee with Ightan Gkmmichery in frimbees couid tumet is trand

will require all frisbees to be equipped with navigation lighta.
Until the tert marketing is complete, one can oniy speculate what impact the Future Flight Will have on the maricet. There is aleo the Bugbee, a diec with moking apparatus.

Currently, there is spemblation on the development of radiocontrolled frisbees, complete with navigation lights, hash pipes, and igghters. Gimmickry has added a new dimension to frisbee throwing, but it has also added a lot of weight.
So, if you see a low-flying TUFO coming toward you at night, remember to wse two hands to catch it.

School
the only anng witin the agryessiveness and determination of "Won't Get Fooled Agrain." Entwietle's other song, "3.905" is about a controlled society of plastic people and teat tube babiea Hie machine-like lead vocal has haunting effect and is complimented, appropriately enough, by a synthemizer.
After its attack on piastic societies, The Who hits a more - harmless - plastic product-disco. "Sister Disco" sounds like a fight song. They are determined-to kill diaco, even if they have to do it alome. Unfortunately, the worde have a hollow ring to them and are sung with more conviction than the subject dererven
Although the album-is. dominated by Townishend, every member of The. Who plays an important role. In "Music Must Change" Dritrey wsen the whole range of his vocal talents to produre an voice starts out alow, deep and controlled, then toars into life only to be controlled and unleashed again, leaving the

Listener exhaugted by the Bong's end.

Varied Styles
The most outstanding piece on the album is the title cut Who Are You*" As the tutie suggestes, it is a search foriden tity. New and old styles blend together and break apart a the mood shifts almost'ran domily. The music chinges rom heavy metal to accountic guitar andeven a tomoh offazz It is easily one of the most in novative songe the gronp' has writter and will be looked on years from now with the anme espect given - 4 M Generation" and "*Won't' Get Fooled Agrin."

Who Are You" is a traly great album with a few minor laws. Though reflective in mood the album is atill'a'step forwaind. Production liat néver beenthis sood and neither has the consifitency of qualitis'so tue conefistency of quality. So whether you buy thas album oat of morbid curiosity or because yotu are a genuine Wh ana, Yon can't go wrong. Who ure you un eamily one of th best rock albume of 1978

Health fee exémptions considered

The student Health Service will copreider exemptions from the S70rmandatory. etudent health fós.

These dligible to apply for the teremption include married students with dependent children, area commuters who chivarex, area commuters who livent home with thenr parents independent- and those in special programs that require minimal attendance on cam pus.

Those atudents who want to be exempt must apply at the Health Center, 111 . Waverly Ave. Completed applications Ave. Completed applications
must be returned to the Health Center by Oct. 15 for the fall Center by Oct. 15 for the fall Feb. 15, 1979 for the spring semester exemption.

\section*{- cram}

Continued from page one missions office had aimed for a freahman class of 2,700 . But because more students came to SU than his office anticipated, the freshman class rose to 2,900 .

More Advantages
There are many more plusses than minuses in having 200 more freshmen than 200 fewer freshmen," Cum mings said. For exsmple, he said, the cost of tuition can be cept down.
Cummings said it would be possible to limit enrollment in some schools or programs, but that the possibinitity needs more discusision.
"I don't think the answer is cutting back enrollment. I think the answer is additional resources," he said.
If a cap is going to be placed on some programis, however, enrollment may be cut back. According to Eggers, the deans and. faculties of the university's 11 achools and colleges will make presentationsto John J. Prucha, vice chancellor for academic affairs, regarding enroliment in their schools or colleges. A recommendation will be made to the admissions office after Prucha reviews it.

Cummings is wary of limiting enrollment. "It is not an easy thing for an institution to do, but we could consider it," he said. "Yes we can-and maybe we do- need to limit enrollment in aome achools, but we have to think about it.
"We nave to assess the need for the three, to five, years akead," Cummings said. "No decisions should be made in the short run, just for a problem that exists for one year. It camnot be judged for one year."

Daily Orange.

Apres moi, le deluge.
By Joel Stenheris XIV By Joel Sterhenico Now the sitration facing the Syracuse football team this
weet inn't unique in history. The Texams mant-have felt the same way at the Alamo, and certainly the Orangemen can identify with the plight of the American in G.1.8
The French arim
the 18 th century had socy in ag in common had somethMaloney's tean too Pran Lowis XIV wan the smartestof any of them: he died before they could kill him - liut thoy didn't miss his grandison.
Just as surely as the cearing a gold ring in \(F\) yone during the Revolution North Carolina site Wolfpack waits on State platform in Raleigh. Their cargets wear Orange helmets. On paper at least, it doesn't really look will not fall he blade will not fall.
After all, NC State did go 8-4 in 1977, as well as winning the Peach Bowl over Iowa State It does have Ted Brown, the NCCAA's leading active rusher with 3,376 career yards. And it did crush Syracuse \(38-0\) last year at Archbold when SU King Louis
King Louis probably wonld
have said" "C"est lavie" -after have saia C earla vie -after all, they dosay the guillotine is the most humane form of execution there is.
"They are a better football team than they were a year ago." araid Frank Maloney of a
State team which has beaten State team which has beaten him twice in his four-year SU coaching career. "We fear most their defense. It's, much
superior to last year's."

Weight watchers Maloney attributes the im-
provement mainly to the loss of weight by State linebackers Kyle Wescoe and Bill Cowher, allowing them to come back quicker for this season. Two other Wolfpack defensive atanGoute are 255 -pound Simon Gupton and free safety Woodinterception, for a returned an week in State's aeason-opening \(29-13\) victory over East Carolina- On offense, the Wolfpack the boys at the Alamo Syracuse will be bombarded by waves and waves of attackers bloching for Brown and for giate fullback Billy Ray

Brown, 5-foot-10 and 199 pounds, is now 22nd on the alltime NCAA rushing list and is five Vickers a fine blocker. has been overshadowed by Brown. but he still had 726 yards rushing in 1977 (still more than any-SU runner). Jumior Sccit Smith is State's quarterback.
They have two great bacica who'll poseses the ball for most of the same," Maloney con-
tinued. "We anticipate they won't pass much an they'll try to beat ws with the run." Carter Stadium (capacity 45,600 will be a preasura cöoker.

The heat down there scares meas much as che quarterback situation." Maloney Baid of the game, which was oxiginally ocheduled as a night contert, but was moved to accommodate an ABC regional
telecast. "Lant wrook they

Former SU linamari Ken Clatce (71) Lunget at NC stateis Tad

SU quarterback Ron Farneekir(smcond from right) had nothing bet
 hore to Art Monk (46). Fiofide Sevte' Francis Eonasorte (42) zno Wille Jorse (8E) provide contidermble opposition. SU hopes Famedil hal morm luck Egainet NC state on Seturday.
played a game at night and it was 95 degrees at kickoof 1 State) and he axid he had a hard time morally putting the ceam on the field

\section*{Losers all?}

The Marines lost the Phillipines, Santa Anna took the Alamo and Louis XVI loot his head. But unencouraging as it might appear, Syractseis neither without hope, nox a chance to wint.
The situation is very similar to last season when, after beng whipped at home by State, Syracume suddenly turned ita Geason around by upetting Warhington
"I think Coach Maloney does a great iob of getting kids up-after diasappointment. Rein said. It-happenod last season and SU hopes, for the sake of much more than the outcome of one game, that it
can. happen again. Bill can happen again Bill Hurley's injury now puts a tremendous atrain on the team to perform well, immediately before. a regional televiaion andience Saturday, and then for the rest of the season becaune of the never-anding stadium matter. Saturday's game seems to be the kind of prempure-aitantion Syracuse responatit to beet.
Maloney exys be expects to
 back while Tim Wilson, who is a better runnex, is also expectod to see sompe action.
On defense, Syracuse will start the same feam it did agkinet Floxida-State atithough Mike Gyetvay, a sophomore defenmive linemsan, is quentionable becaume of \(a\) knee injury.
The game, which carn be sean an Channel 9 beginning at \(1: 30\) p.m. Seturdidy, will mark the firat time SU has been on televiaion since 1973 when it loet to Michigan State.
So, denpite whut Maloney call. the catenotrophic lone of Huioy. Sypacoter must plimy in themy kialaigh tomoverow. They hope they can juet come out alive.

By Milke Gtanton
It was the Monday before Syracues Univensity's home opener against Florida State and Syzacuae hand football coach Frank Maloney wae presiding over the weekly preme luncheon at the Drumplina Country Club

As a waitress zerved lunches of beed, potatoes, zalsd andice cream in a Drumilns hanquet room, Maloney sat at the head of a long. neatly-set table and spolice optimistically about his team and his star quarterback, Bill Huriey.
One week later, Maloney sat in Manley Field Hovie": inelegant Vsarsity Club lounge. As writers and sportecteters munched on eandwiches from SU Food Sarvice bory lunchee; Maloney spoke about his new quarterback, Ron Färneehi. "Bill Hurley in dead and buried for the present'time,' wil have to forge on.
Since the tragic loas of Hurloy with three cracked ribar lant Saturday; the SU quarterbacking eituation haej talkan a nogedive from country club lunchoons to dining hall
Nondwiches.
No ane fels the burden of Hurleg'in injury more than junior Farneshi, who mum now dirwet the Orange attuck the the Christiane visit the den of the lione at North Carolina Stente Saturday.
Now all the oyes are turned townarde me," Farrienif observed after ho had been unguecom full in steecing Syractue to a aingle geore agminst Morida State:
"I don't think 1 made the bie play ont there todas," hienad. "Whenever it eeemed wre would get rolling, wo alwasi camenp short of a first down".

\section*{'Bill Hurley- is dead and Guried'}

\section*{-SU Coach Frank Maloney}

After the exame, Farnemki atood juet ingile the SU lockeer noom. He sterted to etep ontmida and then hevitated, piancing at his blua, threo-piecs auit. "We'd better winy in here. We might get hit by applen and thit."

Farncela Feadily mdmitted the proapure he toole to exocl in Hurley's mbence, prempure intercified by the injured quarter backi exceptionat rumoing ability, a aholl that Farmakilacha:
"I don't rom as wril as Bill" Farropkiconcedod But I Inow I would have to go in for him poomerp orlatier becanme of the why he goee wild out there. I'm jugt margited it- way so poon."
Farncthi, more of a ciamolctrop-back paeatr than anoption quartarback, is the probable ptartar tomonow becanue he in the mont familiar with SU's compliceted ofterios, which featirese a myriad of formations and motions.

\section*{Assaults still unsolved}

By Andreà Abrahams
No arrests were made over the weekend in connection with the recent assaults of Syracuse University students, Syracuse University Safety and Security and city police saía yeaterday.
There were no complaints of additional asaanlts from atudente during the weekend, police said.
Laist Monday afternoon, an SU student was robbed and hit over the
head with an empty beer bottle-by \(\dot{a}\) man in Marion Hall. Later that afternoon, the same man is believed to have robbed an apartment in Sherbrooke apartments on Walnut Avenue.
Last Tuesday morning, a student was robbed and forced to commi sodomy in Lawrimson garage.
The suspect is deacribed as a black male with a slight to médiutm build, between five-foot-five and five-footseven and between 18 and 20 years old.

\section*{Catholic group at SU plans to build chapel \\ By Paul Franco \\ The other site being considered is the}

The Newrnan Center, the Roman Catholic organization on campua, is making plans to build a new \(\$ 500,000\) years, according to Monsignor Charles L. Borgognoni, the center's chaplain.

The final decision, however, will not be reached until the Newman combe reached until -the Newman counmunity and the decision next month, he
dation make a der said.
A sparsely-attended meeting was held Wednesday to solicit opinions from interested parties
A fund-raising campsign will begin after the project is approved by both groups, Borgogeioni aaid.

Throughout the past few years the foundation has acquired \(\$ 200,000\) through alumni gifts, parent donationa and profits from the Pompeiian Players shows. Borgognoni directs these shows every year and receives onethird of the profits for the Newman Center.
Two campus locations for the new chapel are now being considered. Borgognoni said. The present Newman Center is located at 112 Walnut Place on property which the foundation owns.

Property at 110 Walnut Place, also owned by the foundation, is one of the two sites under consideration, according to Borgognoni. Plans would include renovation of the present center adjoining lot.
parking lot between 113 College Place College Place, a former fraternity now College Place, a former fraternity now housing teaching assistants' offices.
This plan would, however, involve trading the Walnut Place land to the trading the Walnut Place land to the university in exchange
According to Borgognoni, th College Place location would involve construction of two new buildings and would increase the cost to ap proximately \(\$ 1\) million.
In addition, the center would lose one-third of its owned property under the plan, Borgognoni said.
However, Borgognoni added that he feels the College Place location would be more accessible to students than the Walnut Place property.
Although plans have not been formalized, Borgognoni said several designs have been drawn up. The new chapel will have a 400 -person seating capacity and could be converted into a lecture center or banquet room. In ad dition, the chapel would have a per manent altar and would be fully equipped with audio/visial systems according to Borgognoni.
The new building will also have a kit chen. a small chapel for private wor ship, confessional and baptisinal rooms, the chaplain's residence student offices and clasarooms, storage rooms and a garage, he said.
Borgognoni said the present Borgognonit said the

\section*{SA prepares to rekindle last year's dubious activism}

By Carolyn Beyrau
If Martin Lather King Jr. had visited Syracuse University lasit spring, he would have felt sight at home.
Within the span of a week, SU students staged a sit-in protesting the closing of Ostrom Co-op, a demonstration in support of a student union building, and a boycott of the Syracuse University Bookstores.
The spark behind this activism was Student Association and its president. Arnie Wolsky.
SA was fairly effective in dispelling student apathy by developing igsues around -which students could rally. However; SA's succeas in readving these issues is questionable.
Ostrom residents lost their co-op, the bookstore boycott is in limbo and the student yinion is still floundering in the planning stage.
The upsurge in activism began March 31, when about 350 atudents staged a sit-in in front of the Administration Building.
They were proteating the Office of Residential Life's decision to close-Ostrom Co-op

ORL said the co-op was structurally unsound and reeded a costlyrepair job. decisionom residents considered the Decision unfair

Despite student efforts, Ostrom occupants lost their co-op. The building Ener houses the Syracuse Regional \(\$ 200,000\) Information Center, part of a ject,000 state energy conservation project.
for a days after the ait-in, SA called for a boycott of the SU booketore.

\section*{Four proposal.}

SA Erave the boukstore four proposala and threatened to boycott until such tirne as tho bookstore could offer a satisfactory poltuion The proposals were a check-eanhing service, porituve changen in the boolktare's buybadityolicis, lociver torage space
and an across-the-board decrease in prices.
The lockers have been installed; however, bookstore director Diann Straus agreed to install them before the actual boycott took place. The boycott which began the first week in April, lasted until the sernester's end.
Negotiations are continuing, howéver. Wolsky has declined to comment on what is being discussed until negotiations are completed.

Two days after initiating the boycott SA staged a demonstration to promote construction of a student center.
Held on the center's proposed site in the parking lot behind the bookstore, the demongtration drew about 400 students. The dëmonstrators also marched around carnpus, as prospective freshmen and their parents, here for Spring Reception, looked on.
Despite the student turnout at the demonstration, Wolsky said its impact
on the student union plan is hard to assess. However, he is confident students will get their building.
"The student center has been a top priority for awhile," Bob Farr, SA vice president for university/community relations, said. "I'm a little skeptical, but I hope the plan goes through."

But a plan to include a student union building in the proposed domed stadium complex at the Archbold site cansinued on proge aignt

\section*{An optimistic time}

Last spring was a rough time for Syracuse - Univeraity. There wan a boycott- of the bookstore, a git-in in front of the Administration Building and a protest calling for the conotruction of a student union building. The seemingly eternal search for a new footbali stadium seemed nowhere close tosuccess. SU anan institulionseemed beleaguered, and it looked as if there was no way it could recover.
But it did.
Over the summer, a spinit of optimiam atruck the university, and that apirit has carited over to the fall. Of courge, "spirit" il anintangible thing; courge, san's be measured or quantified. But it cantib.
Many events during the sumamer led to this optimism. The Empire State to this optimism. Gig success. Many visitors, including Gov. Hugh L. Carey, were impressed with the smoothness with which SU ran the games. This led to astatement by Chrey in which he said sus should
The stadium hasile finally seemed to be over. Plans were conceived calling for a \(\$ 26\) million domed stadium to be congitucted on the giteot crumbling \(A\) chbola Statimm. The state appeared ready to male a strong fimancial commitment for itomed mtadium, thme giv-
ing SU the facility it-needs to create a strong football program and to make the'school more attractive to prospective students and donora.
Plans are in the works to build three new academic buildinge on campus, needed School of Management needed Schooi of Management are retrenching. SU is expanding.
SU's enrollment is growing. The Class of 1982 was the largest since the end of World War II, and interest in SU among prospective an the upawing Faced seems to be on the upsoring. Faced with the atimate criterion for determining the attractiveness of a university-do appeara very strong-

All is not rosy, of course. That large freshman class has produced over crowded dorms and clagarooms, not exactly the best learning aithation. Also, we still don't have a atudent union buidding and, in the rush to construct a btadium, it is conceivable that all thoughta of a student union could be forgotten.
But, all in all, thimge are looking up for Syracuge University. Who knows wemight even get that student union someday.

\title{
Outraged Romans
}

To the editor
Studente on the Fin, Tend me your ears. Having just recoverced from a traumatic shoct Sept 9 in Archbold Stadium, it is time the SU campue realizes the grave injuatice that hae been done to my people. Thim matter at hand is nothing less than a racist insult.

We. "The Sons of Victory" were appailed at the Behavior of the Orangeman mascot, the accalled "Saltine Warrior," during th

This "Saitine Warrior" character is an impowter and his dísplay insulted our race. His actionn more resembled a gladiator at a Seasme Street birthday party who had juat pinned the tail on the donkey. His feebly thrusting sword- and effeminate strut hardly bring to mind visions of Ceaser's finest This patredo-gladiator's dance, rather prance, was an unoriginal and unaucceasful attempt to atart a war cry. aimilar to a Saltine Warrior of the too recent past.

We Romans have a triumphant We Romans have a triumphant
history. We've built empires! Our powerful past has always been anchored in our military atrength. Our soldiers are very well-disciplined.

But thia Saltine cracker fellow should be thrown to the lions. He is not proud. He was not even present when the competition started. The absent gladiator did not witness the injury to giant-killer Hurley. In fact, the Saltine Warrior didn't make his the Salime Warrior didn make his bembing arrival

And his initial appearance in archaic Archbold was far from vic-

toriows. The Warriox's tanic was the wrong shade of blue. His efforts to Wrong hhade of bine. His efforts to The Roman armies of old would have been repulsed by him, for lack of the inherently obvious strength of the inherently obvious strength and integrity he should possess. And as he rode around the track waving to the massete, he held onto his vehicle in a manner that made it clear he was not oonfident in the construction of hia chariot- Actually, that two-wheeled contraption resernbled an on cart, not suitable
for travel by even a village wench.

But the most revolting thing of all was when the Warrior entered the playing field, waving him sword aimlesaiy and running in confused circiet. Such conduct in, in our
opinion, not in the best interesta of opinion no
our people.

We, "The Sons of Victory," will not atand for auch constant degrading. The Saltine Warrior is nothing but a forestry major hiding his Indian clothing. He sheds a bed light on our civilization and is not igeti on our civiization and
representative of our culture.

Thumbis down on the new Saltine Warrior.

The Sons of Victory

\section*{Yet another stadium proposal}

It was a beautiful, moonlit night. \(A\) little on the cold side, perhape, but then one can't expect warm weather in Syracuse in September.
I was pasping by the Hall of Languages. It's jutat a shell now, and the vacant interior seemed somewhat

\section*{Thomas Coffey}
eerie. I started to wonder yaguely what the building would look Hke when it was completely rmovated.
"Pastl" I heard a voice from the bushes call out.
I turned arouind startled. I'm not used to bushes calling out to mein the dark
"Come over here" the voice commanded.
I obeyed the command, thinking at first that I was gcing through mome deeply religiofn experience not unlike those of the Old Toutament prophets.
"What in it?" I alked timidly.
"Get down here, you idiot," the voice Baid.
Sudidenly I reahized who it was - my mosi-truated source, a high-ranking ad mose Usor IV ve;tinken'to calling. Deep corner of the Bre met in somie obsecure corner of the Brownter-Boland parking garage, but this timehe had tracked me

## From the sidelines

## Wilson debut draws rave reviews

RALEIGH, N.C: - The sports-mad world of the Atlantic Coast Conference is not the most hoapitable stage for a young. nervous quarterback making his callegiate debut.
The crowdis are large, the defensive linemen axe massive and the television cameras magnify evsry tiny mistake or miscue. The pressure to excel is immense, especially for an inexperienced quarterback forced into a situation where hemust run before he is really aure he can walk. Such was the aituation Saturday when SU sophomore Tim Wilson started his
first collegiate game, replacing the injured Bill Hurley and the ineffective Rop Farneaki.
It was a dramatic debut for the lithe free-spirited sophomore, who enjoyed Wresting last year in the locker room with his much heavier teammates and who, leaped onto the State game at Archbold, crowed to give the bench and exhorted the ovation.
"I knew he'd make a ton of mistakes out there, but I also knew he was capable of making the big play," Maloney said after

A rude awakening to college footbell happened to quarterback Tim Wilson (9) as here heis about to fumbla a firat quarter smap from center Stieve Spinney.

SUTs 27-i9 loss, adding he wasn't yet sure Who would atart this weekend against Michigan State.
Then is very comparable to Hurley When Bill Waf a sophomore" Maloney adcued "It will take time for him to Maloney's uncut diamond
Maloney's uncut diamond had a game Wolfpack and valleys against the Wolrpack, as expected. Perhaps the uarterbaci was his first college pame as Nearly four minutes into the second quarter, with SU trailing $10-0$, Wilson rolled out to pass. It was third down and 15 and as Wilson ran to the right he was collared by a Wolfpack pass rusher Falling, he lofted a pass down the right gideline and hit Art Monk for what turned into a spectacular 59-yard touchdown

Wilson completed four of eight passes for- 95 yards, one touchdown and a coatly interception. His pinpoint pasaing and powerful arm are products of a high achool javelin career at Long Branch, N.J., where he was a state champion.
Wilson is also an exciting, scrainbling runner whose feet kept several Syracuse acoring drives alive Saturday.

But hisnervousness and inexperience led to coatly errors in the most elementary phases of the game, especially receiving the snap. On his second play, he fumbled the bal minute onap the sidelines prac several minutes on
He. also had difficulty reading N.C. State's defense and was so nervous since State sefense and was so nervous aince he. learned last Monday he has lost 12 pounds.
"In the last three or four days, I've had to become' a whole different person," feel I really learned a lot out there today feed I really learned a lot out there today
-Stanton

## Monday morning

I have a secret, which is deep, dark and has haunted me since this sumamer. I have hidden it from my closest friends and shielded it from my enemies lest hey use it against me.
But I am ready to tell the truth. I am now going to come out of the closet, as it were. surnmer.
There I
There, I'm glad I've said it. Oh, cruel fate, I can see the ghost of Nathanial Hawthorne ready to ostracize me. A red letter " $S$ " forever - emblazoned-on my chest. A solicitor, the world's worst kind of person, one who tries to sell something over the phone. The kind of person
everyone hates to talk to. Adultery with everyone hates to talk to. Adultery with a holy man seems no worse.
I sold tickets to Bristol (Ct) Red Sox (the Double A, Eastern League affiliate of the Boston Red Sox) games. The taam happened to be doing two epecial promotion nights in Hartford (about 20 miles away, in which they were otkering for reduced rates ( 50 tickets burimesaes for reduced zates ( 50 tickets wrere $\$ 45.30$ the Eames the program would advertiee, for the businesers.
Easy work, I thought Five days a weer, nine to five. I got a card table, a telephone, a-couple thousand little sheets of paper, each with thename of a
And I got paid nonder the table The got to work.
Moet major leagre professional teams are rich enough to hire theirown staffin to handle promotions such ais kid's day or senior citizen's day. Smallor franchices, however, hire out to private promotion companies which set up shop for a fow months in abandoned office buildings and sell ticketa. And get out of town 8

These, outfite oxvermell,she, capacitye of
the stadiums, figuring that between 30 and 40 percent of the tickets will go to people who will manage to get out for the games. My boss, who happened to be an
SU graduate (Lord help ue), told of sell SU graduate (Lord help ue), told of selling 40,000 tickets once to a Bingle Syracuse Chiefs baseball game (MacAr-
thur Stadium holds about 9,000 people). thur Stadium holds about 9,000 people). While he was escaping back to rhode Island by car, only 8,000 people turned
up-but if it hadn't been 50 degrees and up-but if it hadn't been 50 degrees and raining
started.
In fact, a riot almost did insue in Bristol when the same promotion 1 was worling on was tried in 1977. More than 8,000 people showed up for a game in 4,000-Beat Muzzy Field, home of the Bristol Fed Sox

Now, theoretically, the job seemed easy to me. But $I$ had forgotten a fundamantal rule of life; people don't like to - spend money. The first corollary to this rule isa small businesimen are the cheapeat.

My conclusion after my eighth and final day of work was that people are never as etrange as when they try not to spend that money.
The people seemed to break down into two categories:
(1) The cursers-those who had absolutely no interest in bageball and who would often cut you off vilely after a few worde;and
(2) The whinerg-ones who were intereated, they said, but "were in a bad position" right now.
The whiners were a more interesting study. Some were "just a mall operation" while others "coraldn't do anything, becauee-wn're so bige if i office in Oshleneh to ret the okay." Some vereo an "little ilwort right now" to which You alway had to reply "Oh; covie on

Joel Stashenko tickets") while others had "used up their budget. for such things long ago.'

## Double talk

The job often became a joust with secrataries, who are hired mainly to protect their bosaes from phone solicitors. I knew I would be in trouble from the start when my boss told of calling an executive one day, explaining who he was and why he was calling and then having the secretary say "Oh, T'm very sorry, but Mr. Davis isn't here right
now, he just stepped out of the office for now, he just stepped out of the office for ix months.'
After a while, after hearing the same lines from two or three dozen women. you began answaring them back. When they'd say, "Oh, I'm sorry, he's tied up right now,' you'd answer "He is? Do you want mee to call the police?" When you'd hear the inevitable "Can I have a name to give to Mr. Smith?" you'd nay "What"s Yong, doesn't he have one?
You got some calls, however, which defied categorization. I oncegot a church priest on the line who was obviously of Spaniah descent. I explained the deal, suggenting he courd take a church group to the game, as he katened intenty: He then alaid, Okay, jeest a meenut, huvto ausk my mother eef it is okay," His But I I new I was finished when one day 1 had two of the strangest callis. One was andel man who turned out to the the wather of the ownier of the business. "Bageball?" he asked. "No, I doli't ge out much anymore. Ihave a bad leg and a bad eye. About all I can do any more is make love, hut that keops me bugy. ${ }^{\text {a }}$ There in hope for old ace after all
The reciond caller wain not ais pleasant. 'Oh, Bristol? What the hell are you doing over zere2. Why don't you go home whore you bolong? We don't want you here Hove conidiatryazo

The plays were called by sU:heed cosd Saturday in Raleigh, but Tim Whteon (9)d into yardage for the Orange.

## N. C. State 27, SU 19

## Wolfpack bruises Orange <br> By Milice Stanton

RALEIGH, N.C. - If Syracuae Univer sity'a 27-19 loss to North Carolina State Saturday had been a Hollywood script, no producer would have bought it because it wras too cliche.
There were the Orangemen, facing N.C. State's Wolfpack in a solar-oven stadium State's Wolfpack in a soiar-oven stadium
on a 90 -degree afternoon before 37,800 tailgating Southern football fanatics and a regional ABC television audience.
a regional ABC television audience.
dog; hadn't scored a point in 1978 and dog, hadn't scored a point in 1978 and "Heisman" Hurley. To revive a dormant offense, SU hopes-were'pinned on Tin Wilson, a sophomore ex.New Jersey javelin thrower who still hadn't perfected reciving the snap
Worse yet, the Orangemen had to contend with a high-powered State run ning attack as relentless as a tidal wave and led by Ted Brown, who spent the game galloping past all-time NCAA scor ing leadera as aurely as he eluded Orange tacklers for 198 yards rushing.
In a Wolfpack den featuring a public address recording of a mournful wolf howl, the Orangemen looked about as imposing as Little Red Riding Hood.
But thanks largely to Wilson, who proved to be a wolf in sheep's clothing, and placekicker Dave Jacobs, the half despite Wilson's inexperience.
The Orangemen actually possessed the ball longer than State, $30: 37$ to 29:23, but critical mistakes in a game riddled by errors on both aides prevented Syracuse from seizing the upset viptory it had held within its grasp

## Street-fighting men

"We came down here for a street fight and we fought," said an emotionally drained Frank Maloney, SU head coach.
The play acknowledged as the game's critical one occurred with alightly more than a minute remaining in the third Wilson intercepted an errant Tim Wilson pass at the goal line.

Syracuse had marched from its own 14 to State's five in a crazy drive in which it punted twice but then. got the ball back. The first time was due to a State holding
penalty and the second came when the Wolfpack's Ralph Sandello called for a
fair catch and then fumbled the ball to fair catch and then fumbled the bail to

## couree SUner

 fth and Bill
## Tomorrow

Many thinge have changed, both' at SU and in the rest of the world, since 1956, when. Jim Ridlon (right) was a star Afthall player at Syracuae. After pursuing a pro football career, Ridion has returned to SU as an art instructor. In tomorron's Daily Orange, Writeri Gboff Hobson takea a thougritfol look at a unique

571 for itimitust

N.C. State': Billy Ray Vickers (with ball) rari for two touchdowns and 62 yards, teaming with Tod Brown to form an explosive Wolfpack backfield.

SU trailed 20-19 at the time and might have grabbed the lead for the second time until that interception.
"I should have ate the ball," aaid a tearful Tim Wilson, who threw his firgt collegiate interception as a pass rusher collared him
"That was a shame on that interception as we had a receiver wide open (Greg Williams). but we lined up in the wrong formation," Maloney said.
On a $\quad$ acond-and- 10 play from the twoyard line after the interception, N. C. State quarterback Scott Smith raced 22 yards up the left sideline to ignite a 12-play, 98 yard touchdown drive. Wolfpack back Billy Ray Vickers tore six yards up the right side for the touchdown that gave State a 27-19 lead with $11: 40$ left in the fourth quarter.

## Stalled in drive

Syracuse took the ensuing kickoff and began upfield keyed by setback Art Monk, who carried 13 times for 72 yards in the game. But the drive stalled on SU'a 40 . Wilson, whom Maloney felt had run out of gas, was taken out, and jumior Ron Farneski was thrown to the wolves.
Warneski Was thrown to the wilson at the helm, the Syracuse offense rose from the ashes of last week's 28-0 Florida State loss.
But early in Saturday's game, it appeared Syracuse was headed for its gecond atraight shutout. After an early Nathan Ritter field goal gave State a 3-0 lead, Wilson fumbled his second snap of the game on the Syracuse 32 -vard line.
Four plays later, Brown-slashed eight yards up the middle for a touchdown and a Wolfpack 100 lead .

After Dave Jacobs* 40-yard field goal attempt hounced off the right goalpost, Wiann threw a spectacular. 59-yard touchdown pass to Monk in the second quarter that. was straight out of a
Hollywood cliffhanger. liywood cliffhanger.
"That touchdown really excited us and sot our offense on the right track" said Monk who eluded State's Woodrow Wilaon before sprinting down the right sideline to the endzone, where he was mobbed by the entire offensive unit.
The touchdown fired up the Syracute defense as well. The defense, which surrendered 379 total yards in the game, held N. C. State to minus five yards in the series after the touchdown.

The now-ailent Carter Stadium crowd sensed the shift in momentum as the Orangemen capitalized on a comical John Isley punt that went minus eight yands to tie the game on a 40-yard field goal by Jacobs.

## Never quit

The Wolfpaclígnowled back with an 82 yard, Eeven-play drive built around Brown and Vickers, who cruried the football and Geveral Syracuge defenders 17 yauds into the endsone.
Howeyer me Malaney sait afterwouds.

We never quit." Two more Jacobs field goals in the final two minutes of the first half narrowed State's lead to 17-16.

The first field goal would have been a touchdown, but SU tight end Bruce Semall, who was wide open, dropped a serfall, who was wide open, dropped a perfect pass from wilson on the fi
Jacobs kicked his third field goal of the first half with two seconds to go after $S U$ first hali with two sectonds to go after Sike Zunic jumped on a State fumble.
"Actually. I thought we would get more turnovers," Maloney said about his defense's ability to force three fumbles Our strategy was to get to the quarter back as he was handing off and capitalize on his inexperience.
Syracuse opened the aecond half with a 50-yard drive that led to Jacobs' fourth field goal, from 45 yards, and gave SU its final lead, 19-17.

STANTON'S SNAPS-While Brown's 198 yards moved him from 22nd to 15 th on the NCAA list of all-time rushing leaders, facobs was moving through the record books as well. His four field goals moved him from 1ith to ninth on the NCAA's list for most career field goals. He has 41 career field goals and also kicked his 45 th consecutive extra point Saturday.

# Iranians oppose degree for Shah's wife 

By Ecott Rohrer
Planis to give an honorary degree to the Shāh of ran's wrif have runinto oppoaition from the UniverIran's wife have runinto oppoaition from the University Senis.
The otudent coalition, comprised of student senators, yesterdny agreed to recommend at Wedneaday's semate meeting that the plans for the honorary degree be sent back to connmittee for further study.
The Senate Committea Honorary Dexrees voted yesterday to extend a degree from the College for
Human Development to Empress Farah Diba for her Human Development to Empreas Farah Diba for hex cipating Iraniank women.
But the Iranian atudents, who have asked not to be identified for fear of reprisals, said they objected to the presentation of the honorary degree and brought the matter up at the coalition's meeting yesterday. They said they object to the extension of the degree because the Empress is closely allied with theShah's ruling Eroup, which they view as oppressive.
However, Thadeus Janowsici, honorary
However, Thadeus Janowali, honorary degree committee. chairman, defended his comaiittee's
decision yeaterday, saying the 'Empress's activitien Gre viewed as independent of the Shah's.
But the Iranian otudents eay they strongly diagaree with the committee's reasoning. They say they believe the Empress' emancipation of women "is a lie."

She is part of a ruling group that has putite people under suppression and deprestion," one of the Iranian students asid.
The students said they are acting as individuals and do not represent any political organization.
"I am somebody that just likes to have some freedom," one of the students told the coalition meeting.

The other student said at the rneeting he could not accept the awarding of a degree to the Empresa. "For my whole life I would be ashamed to say I graduated from Syracuse.
"People are dying and one mapis filling his pockete" and the university wants to give an honorary degree," he aaid. "Two of my brothers died of malnutrition . . . that is a fact I know."
Chancellor Melvin A. Eggers refused to comment
on the committee's recommendiation until the Senate deals with it. "Wrell deal with the matter at the appropriate time," he said.
Both students say they feel the univernity is grapting the Empress a degree for financial roward. Other universities have beatowed sionilar title and subae quently received contributions from the Shah's amily, he said.
Janowsli agreed that financial reward was a big consideration in the committer's decision. "How to help the university, which is in trouble, is always a consideration," Janowlek seid. "Let's be cynical about it."
Jim Naughton, Student Association vice preaident for academic affairs, was authorized by the atudent coalition yeaterday to write a leariet explaining the Wranians viewpoink. The cancts will be distributed a ednesday s sensta meeting
Naughton also said he planned to ask Janowaki to convince the committee to reconsider its actiona. However. Janowski said the committee will reconsider only if the senate votes on that course of action.

# Lack of student lists delays SA elections 

## By Carolyn Beyrau

Student Association Assembly elections have been postponed until next week, Dale Cohen, SA vice president for ad ministrative operations, aaid yesterday.

Elections were originally scheduled for tomorrow, but SA has riot yet received computer lists of dorm residents or of the number of atudents living in off-campus housing-

Cohen also noted that SA received only 41 petitions from Assembly candidates. There are 125 seats in the Assembly.
The computer list is needed to assure that students vote only in their resident dorm. Also, SA cannot determine the number of seats to be allocated to residents of off-cimpus housing until it knows how many there are, he said.

David Murray, associate director of gtudent activities, said "Student Data Syatems is working on SA's request."
"Dale requested the information Ingt week," Murray said. "Student Datasystems is doingeverything they can, butit wasa late request."
Arnie Wolsky, SA president, aaid the deadline for all assembly seat petitions, except for Shaw Hall, has been extended to 5 p.m, Friday. Enough applications have already been received from Shaw to hold an election, he aaid.

## Domed stadium plan awaits legislative approval

 2314.

## A conservative answer

In its search to cut energy costs in SU housing, the adminiatration has finally struck upon the ultimate energy-saving tactic: Throw the residents out.
The former. Ostrom Co-op was the campus home for atudents last year. This year, it is the home for the Syracuse Regional Energy Information Center, "to show what could be done in energy conservation in an old houge," nccording to Volker Weiss, acting vice preaident for research and graduate affairs.

The Office of Residential Life closed the co-op at the end of last semester because it was "structually unsound" and would cost too much to repair. Since ORL had allowed Ostrom to deteriorate to this point, it was thought that the university would tear this "unsafe" structure down.

Instead, the university received a $\$ 120,000$ grant for it, so it could be turned into an Energy Information Center as part of a state project. The center's purpose is to provide information about energy conservation to the community.

Interestingly, residents of the former co-op had appronched James Morgan, director of ORL, with a similar idea as a means of saving it. Statistics gleaned from last year's SU Energy Game revealed that residents of the co-od were using an average of 28.3 kilowatt hours per week per person compared to an average of about 50 kilowatt hours per week per person in large dorins like Brewster/Boland. "Either the entire, house is more energy-efficient (than a dormitory), or we just care more," said John Belge, spokesman for the co-op. "Let us show the community what can bedone to conserve energy in an old wooden house."
What Belge was propasing was that Ostrom residents do with people what the energy center does with pamphlets.

But Morgan coild not aee inveating university money in such a project.
Last year, a sit-in was ataged to save the co-op from extinction. "Save Ostrom from the buldozers,' screamed students and their protest signs. This year, the house remains intact.

Only its residents are not.
Sy Montgonery for

## A breath of stale air

It's started already.
The grind has set in.
It's too early, of course. You've just settled in, barely used to the new surroundings. Suddenly professors start doling-out asaignment sheets, and NoDoz becomes as popular as beer. Somehow you accept this an your fate, but secretly you curse the professor, the university, the world.
You'd think the ma

You'd think the main purpose of going to college is to atudy or something. Fortunately, there is an alternative. To take our minde off the pressures of academic work, The Daily Orange proposes the following: a healthy dose of boredom. A breath of stale air, if you will.
When you start your first paper on a late Sunday night, nine hours before it's due, and your roommate from freshman year drops by, and you have a meeting in an hour, and your stove
catches fire - don't you fondly remember the aheer monotony of the assembly line? Do you long to luxuriate assembly inne? Do you long to inxuriate waitress in an empty restaurant?
Now you can relieve these moments -and more. The Daily Orangeis sponsoring a Most Boring Summer Job contest Juet write an article on your Contest. Just write an article on your most boring summer job and send it the us at the DO, 1101 E . Adams St. The winning entries will appear in the bot Grat prize is a copy of "Analytic prize is two copies of "Analytic Geometry and the Calculus." The deadline for entries is 4 p.m. Tuesday, Sept 26.

Just one thing about these boring articles Monake them funny.
Sy Montgomery and Thomes Coffey for The Daily Orange

## College costs and unrealistic estimates

The following letter was printed in
the May issue of the Congressional Record:
To the Director of Financial Aid at (Deleted) University:
Dear Mias (Deleted): Yeaterday I Acknowledgement for 1978 -79 from the College Scholarship Service...I read it with surprise, shock, and read it with surprise, Bhock, and As you may know, we in New York City are subjected to Federal, State, City, income, sales and other taxes. Together wi
to $\$ 16,950$. to $\$ 16,950$.

Rent and other expenses come to $\$ 5,216$. . . Medical and dental expenses came to $\$ 2,259$. These can be considered moderate considering the ad vinnced age of two members of our family.

Repayment for the home improvement loan came to $\$ 2,317$ and for a piano the loan repayment was \$1,147. Expenses on our summer home (which we were lucky enough to buy eleven years ago for $\$ 5,000$ and worked to improve it ever after) were $\$ 1,774$. . Onr annual income is $\$ 48,173.35$.
Of course, the ladies and gentlemen of the College Scholarghip Service may remark that the (deleted) family could have done without the car or the summer home. They should note however, that we have not had a vacation trip for the
last fifteen yeara. We do not own a color televiaion aet, no one in our household smokea, nor do we enjoy ilquor. Without the weekends at our country retreat we would not have what to look forward. The Scholar ship Service people may also view the private high school expemeses as the private high school expenses as
expendable. Without that expendable. Without that
educational opportunity, however, educational opportunity, however,
our son would probably not have our son would probably not have earned adm

This is in short the factual atory of the Enancial atatua of tine (deleted) family - a family which journalists and statiaticians call upper middle income. We are certainly not atypical.

I would like very much to see our son have the opportunity to continue his education at the university. He worked hard and earned his credentials. To thisend eatimated that our family would be able with additional belt-bightening to contribute a sum of about $\$ 3,000$. However. if the CSS's unrealigtic estimate is left to stand, it would become totally impossible for us to underwrite the required expenses.
I hope the Financial Aid Office will somehow make it possible for our son to attend college.

Sincerely,
(Name Deleted)

## The drinking, not the thinking, generation

"I'm a drinker, not a thinker," shouted Hudson the tramsfer atudent as he held the keg tap open for the thiraty throng-
It was two days before opening at the university, and this was not the first keg he had tasted. There was another keg going ut the dorm. There were band parties at three fraternity houses. Beers were selling for a quarter at the concert on the Quad, and what the hell. The Orange was only a few blocks away.
Hudson took a healthy hit off a joint and passed it to one of the bros. He was

## Mickey Mercier

feeling fine, enjoying the drunken camaraderie and carrying on the tradition of the summer, through which he had partied ike a madman.
Cuervo and Molson later, Hudeon of Cuervo and Moison later, Hudeon wrosin rave with the ladies in front of The Orange.
He never even saw the jilted wrestler who stagered over and bent his ribe. Hudsom moaned as he awaikened the next morning. Somekow, apparently, next morning. Somekow, hiapparended: ho had Egtten back to hising out. Ho housing suite ater paseing out kn
mates rolling a aplifif for breakfast.
After Hudson took a few tokes, the pain in his ribs subsided enough for him to reach over and grabra cold one from the rental refrigerator.
Thirty-six hours later, Hudson was in a semiconscious state as he rode back to his dorm from a marathon orgy in the basement of Kimmel.
His bare feet were hanging over the side of the MG convertible as his new girlfriend swerved her way toward his room.
Hudson giggled drunkenly at the thought of his Enst class, which was thought of his mirst
You might think the exploits of Hudson are amusing until you realize that mon are amuming unti yourealize
The declinein academic parformance of college students during the pant of colleye students during the past decade is blamed on a variery as to the Everyone has a pet theory as to the causes of functional ilitaracy and other symptoms. Everything from language to lax standards to grade in-
flation has been blamed at one time or fanother
One partial reason for aubstandard achievement it simple, but often overlooked: Many students are living their lives in alcohol- and/or drug-induced stupors.

Television has told ut about the Pepai generation. Reality is telling us about the wasted gemeration.

By Michnell Dunghe Antonietta and Giblriele I makie. nn unlikely couple. An3 tonietta (Sophia Loren) im an overworked,-barely ifterate housewifa with six childiren. She is married to a husband who treats hex like a mop. A drawn face and haggard expresaion highlight the complexion of a wornan who has long since given up on caring for her looks. She is an ardent supporter of Mussolini, who she believees is both a savior and a sex symbol, and keepe a scrapbook on his life.
Gabriele (Marcello Mas troianvi), on the other hand, is a hard-to-please bachelor intelligent, sensitive, sarcastic and at the end of his rope. He's been fired from his job as an announcer on the governmeataponsored radio station specause he's suappected of being a homosexual (which he is). And like allother homosexis). And like all other homosexconstantly faces the possibility of being rounded up sibility of being rounded up and sent ofr-to Sardinia where "contaminating the Fascist culture."
cuiture. In Ettore Scola's funny, sad and humane film, "A Special Day." the director and performers take sensitive introspective look at the feelings of two very different people. And through their brief encounter as Antonietta and Gabriele, Loren and Mastroianni light up the gcreen with a brilliant radiance characteristic of great screen axtists.
Loren, once known primarily as a sex symbol, proves once again (as she did in "Two Women." for which she won an Oscar) that she can get by on her talents alone. In from the roles ahe is accustorned to playing by portraying a sad-eyed. frumpy Homan housewife. The makeup men have bucceeded in making her look old and unattractive. : Simultaneously Loren is no less than magnificent in projecting the lonely, aimple-minded feelings of Antonietta.
As a homoaexual, Mastroianni also deviates from a stereotyped role. Known to many as a great Itailian lover, Mastroianni-takea on a ditficult role and succeeds. brilliantly; giving a sense of dignity to the homosexual nale.
Antonietta and Gabrielelive in the asme apaxtment building and they meet accidentally on the day that Hitler comes to Rome for an official state viait. After packing off her husband and six children (all properly uniformed) to attend the Fascist rally. Añtonietta begins cleaning up the debris in the cramped apartment. Suddenly, Rosemunda, her mynah bird, escaper and flies to the other end of the apartment block. This is what brings the two characters together for a day of touching and comic confidences, arguments and enlf-esarching that eventually leads tó a love cene that is both ecstatic and desperate This a pictare mbout two human contact Nothine is planned contact Nothing ; is happen: Antoritetta zoduces Gabriele but thot really doen not want to make love foet him. She juist waint to bin whe to be clowe Eith ecricone. Azd for the firy. tim fin heone. And, is the hatumagher hife, the iftraly hapost
tors with reod, sometime quite extravagant materia with which to work. The ecreenplay, which he co wrote with Rugrevo Maccani. is full of wit and foeling And the ae-
ting taam of Laron and Mastroianni worke well together in the tradition of teamelike Fiepburn and Tracy or Lant and. Fontaine.

## Ridlon: Portrait of an artist

Fell that ite seulptor well those par aione read"

## By Geoff Riobson

His name can bo foumd on the long liet of players who have played football for Syracues. Univeraity: "Ftidlon, Jrmes A , 1954, "55, '56." But jike a bemeball boxncore, it doem't tell half the $\begin{aligned} & \text { mery. }\end{aligned}$
Jim Fidion has been an AllAmerican and an All-Pro. Ho's cangit a touchiowth pass in tho Cotton Bowl and played in the College All-Star game. fie's played and conched under one of the most infurentinl conchen in collere hintory, Ben Schwartrwalder, and han beem a defandive captain for and has bean a defantive captain for the man who revol
But, thisis man's life in not all X'o and On. Fehas anived the lant five years on the SU facnity as a profemsor in the School of Virusi and Performing Arts and holde the highest degree in art, a terminal master of art degree.

Now Fidilon has reterned to the Orange football sceme thil fall on WSXR-AM as the color commentator with play-by-play announcer Joel Mareiniss on the atation's broadcanta of SUP Esames.

For tan yrears I've been learning to speak slowly and deliberately and thinking things out before I speak Now with this job, I have to eay something that showld take.two minutes in ten seconds," Ridlon naid.

Ridlon was offered the job two days before SCJ's geason oponer with Florida State by Assistant Director for Sparts Relations Joe Gallagher. He readily accepted.

Findlon graduated from SU in 1957 (he majored in aculptare) and played with Jimmy Brown in the 1957 College All-Star game againet the New York AllStar game againat the New Yorix Gimots He was drafled as a defengive Francisco 49 ers where he was a fixture for mix years.

Hewas traded to the Dallas Cowboys in 1963 and a year later he was named a defengive captain and an All-Fto and retired afier the season. Fidlon says it was an awesome experience playing for the Cowboy coach. Landry.

Lhe man is a senius. I was hypnotized by his knowledge in team meetings," Ridion recalled. "Efe completely revolitionized the game and introduced contemporary confusion.

## Pumishment's end

Ridlon quit after the 1964 seagon, enemy runming backit and receivers having taken their toll on his body. "I invt didn't want to go through all the baid.

After his pro career, Ridlon returned to Byracuse as a defensive backnield coach under Schwartzwalder in addition to going to achool. He eatimated that he put in 110 hours an weelk in both entaress. During that time he bect a part-time inatrrictor in VPA and left
conching in 1973 to take a full-time conching in 19
"To me, art and physical education are the two basic ellements of life," Fidion said. "They are the only two things in which you can really putyour whole aelf into it and let yourself go."
It was not alway? Ince that for Fidion. Whea he wrem growing up, the only thing that mattered was sporta.
"I just took wert in high selnool (in Nyach N.Y.) because it was eay and wrould reep we eligible to play oporter" Ridion remembered. "I vas not a stadent:?
But in an Bngliah class at SU, things maddenly changed.
"When I came here, I experionced an explogion of learning i sot very tarned on to learming. It wre a tremenidous foeling a foeling of total ac taalization," Ridlon maid. "The art school herv is and was great and the
During Ridlon'i collegiat
During Ridlon'is collegiate football carrear, he eameinto contact vith two of the mont dominant perionalitied in Byrucrie hiletory: Brown and gethmictewaligx.

## Gentle Ben

Thace wh mover a guy who cared more mbout hif playeri than Ben,
ridlon said of schivarteraides. "He had trouble ahowing the affection, bat be alvayy cared deeply about the people that played for him-
Eidilon was a member of the ensching ataff when some black playwis on the ootball team went on etrite in 1970.
"Mhat mituation just made me mick," Ridion haid. Thow playern involved were toole and ware naed. Gorne of my themise education invol achance to piay thems an educ

Fidlon was an All-Amoricanend and defencive back on the $1957 . \mathrm{SU}$ team that featured one of football's greatent runners, Brown.
"Jiminy was one of the greatent athleter that ever lived," Ridlon remerobered. "He could watch two ping pong ball gamee, play it three time and be better than anyone around.
"He was defnitely a gery who could make it happen. Every time he got the ball, we knew he was capable of coming ap with the big play." Ridlon observed.
That Brown-led team of ' 67 provided football fans with one of the moat exciting Cotton Bowl games in history. losing to Texas Christian University in a $28-27$ thriller on New Year'm Day.
"TCU was the beat team in the corntry and it was a mixacle we only lost by one point, Radion maid. They were so one point, hedused to cheer their game films."

Clutch cateh
Ridion helped make things interesting that day as he made a leaping catch between two defenders in the end zone with $1: 16$ left in the game that pulled SU within one. But then TCU ram out the clock. "I waen't even aupposed to play that
day," Ridlon recalled. "I aprained my
ankie in workouts a couple of daya ankle in workouts a couple of daya before, but Ben told me to go out just for the coin toss. Then he said as long asi was out there, 1 might as well ran the the whole gand
Now, 21 years later, Ridlon returns to the scene, hoping his announcing college will help tie in two worlds of "When Tm announcing and athletics
When j mannouncing, 1 con't want to be just concerned with a player height and weight, but what his major it and other things," Ridion said. I think it's interesting that the athletic department chose me - someone from academics. I've also had support from
people in my department. I feel I'm conhributing to the totality of the university and that rm doing something good. I love this place.
In the nummer, Ridlon is director of a state visual arts program for advanced bigh achool studente. But he is wary of entering administration.
"I've done a lot of things, but when it comes down to it, I have to go into my studio, do my work and just do it and be with myself and my work
While Brown, Davis and Schwartzwalder have engrained themselves in the Syracuse footbal memory in their own wiay, Ridion the eculptor is carving out a niche of him sewn.

Im Ridion today (above) and yestorday (nipht) as an end on the 1988 Syrncupe football team. After cight years as a pro. Aidion raturned to Syrmcuti end ta now a proleaser in the Colloge of Vimual and Per forming Arta.

# College withdraws degree for Shah's wife <br> "I had understood it would be <br> -Two Iranian students eparked the <br> However, Janowsli said Monday 

By Harilumarker
The Collogeffor Human Development has withdrawn , nomanation to award an honorary dogree to the Ex Mresp Jamownili, chairman - of the Univernity Senato Committee on Univernity Senato
The nomination, approved Monday by the Sennte committee, was to have been brought up at today's Senate muman Development college withdrew its nomination, Janowski kaid. Dean Michael Marge and Absiatant Dean Piticiko Tumb
comment
presented to the Senate on Wedneeday, said honorary degree committee member robert frey. We discussed it at a meeting on Monday and I thought wo were wgll prepared for any queb tions that might come np.
The nomination has met opposition Com the University Senate Student Coalition, geveral Iramian studenta and the Syracuse Peace Council because
One Iranian student who objects to the honorary degree said, "We wantttic unveraity to know that this is the case in Iran-the people they are honoring
are killing people in the streets.
controveray Monday when they apole out againkt the degree at a student identified for fear of reprisale from the SAVAK Cames, tran's becret police, They came in the meanng oo explain their poaition after learning of the honorary degree committee's decision.
One said at the meeting he could not accept the awarding of a degree to the Einpress Farah Diba. "For my whole life I would be ashamed to say I graduated from Syracuse," he added. of a ruling group that has put ite people under supression and economic depreesion."
that the committie viewed the Em preas's activities as independent of the Shah's.

The committee believes ahe is worthy of the degree because of her philan thropic activities and her work in emancipating Iranian women.
"She has been a fantastic aupporter for opening education and op portunices to women, said commire John W. Prer M. Beattie $J_{I}$
John J. Pracha, vice chancellor for academic affairs, said, "My opinion is that honorary degrees are awarded to the recipient, not to second or third

University work support staff favors union in questionnaifre

By David Bander
Ninety percent of Syracuse University secretaries and technicians surveyed have indicated they are in favor of unionization.
Nancy Klein, a gecretary in the sociology department, organized arid sent out a questionnaire last month to approximately 400 support staff at the university inclades
secretaries, clerical workers and techmicians. Fifty percent of the secretaries completed the survey, Kleis said.
Kiein was the organizer of a group which met last spring to discuss grievancesagainst the university. The group had one meeting with the administration.
Among the staffa' com-
plaints are low salaries, inadequate benefits such as

## Frat service helps end bookstore blues

While mosit students bonght their books at the Syracuse University Bookstore and some went to Marshal. Street or chased around buying uised books from other rtudents, a few bought their books from the Alpha Phi Omega Book Exchange.
For the student who doesrit want to buy new books at the beginning of each semestar or keep them at the end, the book exchange offers an alternative.
The boole exchanke is zum by the local chapter of Alpha Phi Omega, the national service fraternity. Mindy Cohem, president Omega, the national service fraternity. Mindy Cohen, president
of Alpha Phi Omiega, asid the fraternity sells about 100 books a of Alpha
Ahout 150 to 200 students have bought or aold books through the fraternity so far this year, she said.

In 1949, we started something called Book Mart, which was run with a sorority," ahe said. "This eventually became the book xchange."
Students who bring in bools price the volumes themsel ves and then the fraternity selle tham. Cohen said the fraternity receives 10 percent of the pirice of each bool it sells.
Students briag in their books and then sign a contract, she said. The contract linte the books that are to be pold, and is good for one year. If the bools have not been sold in one year, the tudents can either renew their contracts or reclaim their books. Studente who bring in bools are free to claim them until they are sold, Cohen said.
The book axchange does not feel it is in competition with the

is not based on Social Security numbers, she said.

However, she added, she would consider participating if the program could be tailored to the needs of the bookstore.
But food service is enthusiastic about the plan. Espasito said a single ID card would help food service to iden: tify stolen meal cards. It could also help food service to find out how many students use the dining halls.
The food eiervice plan is to install a terminal and operator at each entrance of the six dining halls. Each student would present his card to the operator, who would insert it into a mechanical reader that would be connected to the central processing unit.
Eeposito said the whole process would talce about two seconds and would eliminate lines at the dining halls.
He estimated the systerm would pay for itself in five to six years, but had no figures on the cost of implementing the system. He said heis still looking for a suitable compater company and a firm to manufacture the cards.

## Add deadline draws near

## Pröf helps keep hospital open <br> By Matt Brown

Proving that there in more to academic life than simple lecturing. Profesgor William Wasserman rocentiy went to battle for the town of Seneca Falls.
Wasserman, chairman of the quanititative methodis department in the School of Management, stucceeded in reversing a state task force recommendation that a Seneca Falls hospital be:closed.
Wasaerman said he was contacted by a hospital staff. member: who requested that he evaluate the task force's report.
The report propowed that the hoepital be converted to a "sidled norging center." or an old age home. With the closing of the town's onlyhoepital, Senaca Fallspatients would Inave been eerviced solely by the nearest facility, which is 30 miles away.

Wasserman, however, disagreed with geveral
aspects of the report" "I felt it had very eerious defecta," he said.

In his evaluation, Wasserman said the task force had not really. documented-that there world be any cost aavinge. It had not con videxed the cost of renovating the acut care facility to nursing home apeciffortion anid the increased patient load at the neighboring facility.

He aaid the tank force reached itsidecigion on a purely economic breis. vithont equlveting a purely economic basis, without evaiuaning considering the impact on the commonityitself.

To show its appreciation, the town of Seneca Falls donated $\$ 500$ to the SU libramies in the professor's nama.
"J3elieve it or not, we (professors) feel a reeponsibility to perform veeful connmunity ervices," the economist said.

## $\star$ Fraternity fights bookstore b/ues

Continued from pege one Syracuse University Bookstore.
"We" don't make much money," Cohen aaid.
The profit from the book exchange is used to make up more contracts and to pay for the postage needed to mall the students their checks, she said.

At the end of each semester,

## nsexe- Preserving and revoking honor

auctant week, the Shāh of Iran imposed maytial law irr 12 cities and ordered itroopsto massacre hundruedect people in the streetis.
rof Efife the College for Hupán: Development-nominated himoniffe to receive an honorary degree.

Yestenday, after protests by two. Iramian atudents and the Univernity Senate Student Coalition, the College of Human Development withdrew its
nomination. 'nomination.

Empress Farah Diba would have
received an honorary degree from the-College for Human thropic activities and work, in emancipating Iranian women. Meanwhile, political prisoners are being tortured in her husband's prisons.

It is frightening that the university ever planned to honor a member of the ruling party that has sent thousands of people to their death, and tortured and imprisoned even more. Thadens Janowski, the University Senate's honorary degree committee
chairman, contends that the Empress' activities are viessed as any of her commendable philanthropic efforts, the Empress is atill a symbol of a government that a symbol of a government that
ferociously violates its people. To ferociously violates its people. To have been to condone and support a government that rivals that of Uganda's Idi Amin in its brutality and oppression.

What could have prompted an academic institution, dedicated to the dissemanation of knowledge
and free exchange of ideas, to con-
sider honoring a woman whose husband tortures writers and poets?

Money.
Janowski admitted that financial rewards from the Shah's family were a big consideration in the committee's decision. "How to help the university, which is in trouble, is always aconsideration," he said. "Let's becynical aboutit."
Fortunately, the university is not that cynical...yet.

## Iran under martial law: Shah's biggest bloodbath

## An isolated case

The following was written by novelist Rear Bahareni, who was imprisomed by the Iraniast government in 1974. Intermational pressene brought
about fiss release afier 102 days of about hsis release after 102 days of
interrogation under-torture. Theas descriptions were taken from his book "God's Shadow" and from an articieby him püblished in TheNew York Review of Books in October 1976.

The-torture on the sercond day of my arreat consisted of aeventy-five blows with a plaited wire whip at the eoles of my feet. I was whipped on my hands as well, and the head torturer took the small finger of my left hand and broke it, sayimg he was going to break my fingers one by one, each day. Then I was told that if I didn't confessmy wife
and thirteen-yearold daughter would and thirteen-year-old daughter would time I wras being beratem from head to toe.

There were also all sizes of whips hanging firom'inails on the walls. Flectric prods stood on little stoals. The far fide I could only. Fecornize these devicest incourlaten mifnembrance and devices thpoin later rememabrance and through the description bf others as gallowe by peraonal oxperience. The gancwertood on the other side. They
someone beata you with a club on your legs, or uses the electric prod on your chest or your genitals, or they lower you down, pull your pants up and one of then tries to rape you while you are still hanging upside down

This in what happens to a prisoner of the first importance. First he is beaten by several torturers at once, with sticlics and cluba. If he doesn't confess, he is hanged upside down and beaten; if this doesn't work, he is raped; and if he still shows signs of resistance, he is given electric ahock which turns him into a howling dog; and if heis still obstinate, his nails and sometimes all his teeth are pulled out. Other types of torture arepued which have never bean heard of in other despotic systems. A heavy weight is hung from the testicles of the prisoner, maiming him in only a few minutea. Even the strongest prisoners are crippled in this way. In the case of the wonnan, the electricbaton is moved over the naked hody with the power increased on the breasts and the interstices of the vagina. I have heard wownen screaming and laughing hysterically, bhouting, 'Don't do it, I'11 tell you. Rapé is also a common practice. Thirteam-yeainald sirls have been raped in order to betray their parenta, raped in order to betra
brothers or relatives."

The following exerpts were taken from a fact sheet distributed by the Committee for Ar

On Friday. September 8, the Shah imposed martial law in Iran. It covers the capital Tehran and the following eleven cities: Abadan, Isfahan, Tabriz Qom, Mashhad, Ghazvin, Karaj, Ahvaz, Shirax, Kazeroon, andJahrom.
Within two days after martial law Within two days after martial law
was decreed, thousands werekilfed and was decreed, thousands werekilled and
many thousands wounded on the many thousands wounded on the
streets by the Shah's army. Many prominent opposition leaders have

The martial law is to last for six montha, and a curfew from dusk to dawn has been imposed. Gatherings of more than two persons are illegal.

Strict news censorship has been imposed. All newly formed political parties and civil libérties associations have been shut down. All newly established civilian courts have been dismantled. and military tibunals reinstituted.
The Mehrabad airport in Tehran, all public transportation, and vital services such as ambulances have been taken over by the military governor.

Under martial law, the Shah has unleashed sweeping brutality and murder throughout the country.

The September 9 issue of the "Guardian" (England) roports, "In a brutal display of military force troops and smail tanks opened fire at 9:20 a.m. Yesterday in Meidan-e-Jaleh at a spot where between 5,000 and 6,000 young people had gathered for a peaceful demonstration against the Shah. Men,
women, and young children ran
acreaming, "They're killing us, they're killing us, On the same day, troops fired into a crowd of 5,000 in front of the Iranian parliament, mowing down scores of other victims. Killings also took place in smaller towns. In Jahrom, 60 to 70 people were repqrted killed. Giz Thurgood reports in the Guardian" (September 9), "In a gearby hospital, Saveneh No. 5, I watched as a crowd of several hundredis tried to storm the gates. Many were weeping relatives to see their dead and wounded, others had arrived to give blood that was in desperately ahort supply.
On September 9 , the second day of the martial law, the New York, "New World's," Evans Johnson reported from Tehran, "In a cemetery 18 miles from the city, weeping mourners gearched for the bodies of relatives killed in the fighting Friday. It was reported that many children were among the dead.
"One ambulance driver reporta that he had transported 60 corpaes to a mas sive burial site south of the city, and one correspondent reported seeing mothers with babies in their arms shot dead.
By Friday night (September 9), at Behesht-e-Zahra, a cernetery south of Tehran, 3,897 bodies, all murdered by the Shah's troops on the streets, wexe received for burial. Four hundred were women. The military government refuses to allow the relatives of the vic tims to identify the bodies. In addition, eyewitnesses report that there have been cases in which several bodies were piled up and burned by the army commandoes.

## Letters

## Honor and horror

To the editor:
For Iranian students at Syracuse University it is shocking to learn that the university is about to present an honorary doctorate in humanities to the Shahbanoo Queen) of Iran.
We are shocked and dismayed for a number of reasions. This honorary degree is proposed by an institution of higher learning in a democratic country while in Iran all academic institutions are shut down and occupied by the Shah's army.
During the last acadernicyear, the Shah's army descended on many universities in Iran; beating faculty and students. On two occasions, at Tabriz Univarsity and the Iranian National University, troops fired into the crowd, killing at least 50 students.
On Nriday, September 8, 1978, the military's occupation of acadernia militarys occupation of academia was expanded to Tehran and 11 other-cities by the imposition of general markial law. Iocree, thousands were hilled or this decree, thousands were cilled or Whunded on the streets by the Shan's army At the asane time, many op
In this reign of tyranny; the Shah's wife, no less than any other important official in the Iranian goverment, stands indieted. Thus, We are hogrified that Syracuse an honoray degree in humanities to
the Queen when ail international organizations for human rights confirm that there are no human rights in Kran.
We, as Iranian students in Syracuse, strongly opposeawarding an honorary degree to this regent of a corrupt dynasty. If it awards the Queen a doctorate, the university will bless an autocratic regime that suprespes academic freedom. This would be an unthinleable act for a major center of learning in a democratic country.
Iranian Student Organizationat
SU

## Proud

To the editor:
We are -surprised to see your headline stating that the "Iranians oppose degree for Shah's wife."
What makes us wonder is that how your headline allows two Iramian students' viewpoints to represent the majority of the Iranian atudenta at Syracuse University. We ougrest that you should pxint, $I$ wo Iranian students opposed the degree or Shah'告 wife.?
We would like to tall you that the majority of the Iranian students at Syractume Universtity wrould be proud to hear of such a degree being awranied to Empreas Farah Diba.

Office helps researchers get grants from sponsors

By David Wollner
Finding the money to carry out research projects often involves wading through mountains of paper work, as profes sors, administrators and graduate students have found.
But the Office of Sponsored Programa, under its new director, William K. Wilson, helpe lead them through the forms and applications.
The Office of Sponsored Programs attempts to link
corporations or governmental agencien' research needs with a professoz's area of expertise. According to Wilson, approximately 200 project directors receiyed some sort of funding during the past fimcal year. Nearly $\$ 15$ million was awarded for research and training programs.
To get a research grant, Wilson said, a professor should first write a proposal outlining the project.
This proposal is uaually read by other professora in the department and is also shown to the department chairman. The proposal is then submitted to the Office of Sponsored Programes.
Wilson'e office maintains a film of more thin 2,000 names of ingtitutions that offer srants in almost every field. A propobal is compared with this list until grante are found that satisfy it. "Our succeas rate of securing a grant is between 25 and 30 percent, with the largest percentage of grants coming from the federal government," Wilson said.
When a proposal is finally matched with a possiblegrant, the entire process starts over ogain. Both the profeator and Wilson's office must complete work to compete for the grant. "It's a nation wide competition to secure a grant theae days, and our succeas rate compares very well - if not better - to
similiar institutions," Wileon Onid
Once an agency expresses interest in the proposal, Wilson negotiates a contract with the professor. Almiost all grants are time-limited, usually covering a 3 - to $\delta$-year period. However, contracta must be renegotiated every year. Usually, the professor still teaches through, this period, but there are times when grants cover sabbaticula.
Wilson-believea the faculty often is not given proper credit for securing a grant
"The paper work and detsiled proposals can take months to organize, and deadlines are enforced strictly by the vaxious-agencies," Wilsor said. Often a professor hay to apply three or four times before he can receive somesort of assistance.
His plans for the futtre include expanding and constantly updating the grant lista, poseibly transferring it all to a computer. Wilson credits his wife's part-time help in expending the list. Fis regular staif in four fullotime employees, plus a vacant asaistant position.
Before coming to Syracuse, Wilson wai coordinator of research and ansociate dean of University of New York College at Fredonia for nine years.

## Gambling pays off tuition, car for student <br> KBy Richard Bonniell

If yon're at Roonevelt Hiceway or Yonkera Racetract during the simmer and you eee tomeone cheering a horse and taying he's workinic brimply through Syracuse Univeraity y - believe him, becaniee he exiests.
Harry Silverman is paying for hia college education han dicapping harnesa races. Harry Silverman isn't his real Harry because the Internial name because the interna Rovenue service would be tity. Winning big
Harry has saved $\$ 25,000$, which will pay for the reat of his education. Along with this he has bought a $\$ 4,500$ car, a $\$ 3,000$ stereo system, $\$ 500$ to $\$ 600$ in records and a wardrobe he estimates is worth $\$ 2,000$. The wardrobe inclades. 50 brightly-colored silk shirts which give him an appropriately dapper look.
Harry sees little difference in the way he is paying for college from the ways others do.
"Some kíds study hard through high school to win scholarships; others_work at odd jobs to make enough money. Pve spenta lot of time acquiring the knowledge to handicap successfully. People might think that it's really easy but it's harder than they think. I work as hard as anyone else," Harry said. Slow start
Harry began gambling at the age of 14 . He started playing poker with stakes of about aquarler. A yearlater, mostor part-time jobs and the stakes part-time jobs and the stakes This was when gambling started to get serious.

We would start playing seven-card stud at $\$ 4$ a card. The pot for one hand would reach $\$ 100$. With this rauch money involved, it was no longer a friendly game-to most," Harry said.
"Some of the guys in the game kept saying how much money they were winning at the racetrack. It sounded like a lot of fun. On my 16th birthday my father said I could to and bet $\$ 2 \$ 4$ per race.
"My first bet was $\$ 2$ to show (place third). Ilost that bet and kept on losing. I knew there must be a better way. Finally I started looking through the racing program and won $\$ 18$ "I-still
I-still didn't really know why a particular horse won or lost and so I lost consistently but I was still losing less than I was at poker-actually, I wis a terrible poker player."

FIot tips
Shortly after this, Harry was gambling $\$ 10$ a night. To continue thia, he took a job baling bagels. There he worked with someone who turned out to bea big better and said he knew a driver who gave him tips.
"Being naive, young betfors
 through SU. Harry Silverman, a fictitious identity adopted by the garrulous gambler to elude the IRS, has made more than \$25,000 betting the horses during the past few yeara.
always want to run into a hot tip. When the guy introduced $m e$ to the driver I bet my life savings- $\$ 500$. The horse ran away with the race and I won \$1,600."
At this point, the man began teaching Harry the art of handicapping. The tipater told his prodigy to budget his spending money and aave the rest. In two months, the young handicapper saved $\$ 500$. During this time Harry recorded each horse's and driver's performance and began making mental bets-mostly los. ing ones. After enough tutoring fe, began winning these imaginary wagera.
"Finally I was ready for a real wager. I bet $\$ 50$ to win on real wager. Ibet $\$ 50$ to win on payed $\$ 200$ and I've never had payed $\$ 200$ and I've never had already won again. Each time I already won again. Each time I win I re-bet part of it and deposit the rest in a bank ac-
count. I'm proud to say that count. I'mproud to aay that withdrawals from that account for betting.

No representatives
Harry feels the taxing system on wagers is a form of prejudice againgt profesgional gamblers by the federal government. "Twenty percent of a ticket paying $\$ 1,000-\$ 2,000$ is deducted automatically in taxes before you ever get the taxes before you ever get the money. Forty percent is deducted from tick
"In order to collect on a ticket of more than $\$ 1,000$, you must give your social security number for further taxing. Giving an incorrect social security number is a federal offense with a penalty of five years in prison or a $\$ 10,000$ fine. The way the goveriment has it get up, a big-time bettor can keep no more than 50 percent of his winninge."

Haxry alone paid $\$ 9,500$ in taxes this year on tickets of $\$ 1,000$ or above. He has been audited annually by the IRS for the last three years.

Beating the syetem
He admits thiat there are a number of ways to avoid the government's watchful eye.
"Obviously. the most important thing to do is to buy a lot of small-denomination tickets and cash them at different windows. I would never buy a $\$ 50$ or $\$ 100$ ticket."
"When I've got a ticket with an exceptionally large payoff $I$ sometimes ask a friend to cash it. That way I pay tax in his lower bracket. I had to do this until I was 18 (the legal betting uge in New York State)." Harry succesafully avoided Harry succesafully avoided
declaring $\$ 12,000$ last year.
declaring $\$ 12,00$ last year. $\underset{\text { racetracks make a healthy }}{\text { als }}$ profit off the bettor.
'The average person spends $\$ 10$ at the track before ever making a bet-admission is $\$ 3$, parking is $\$ 3$, a program is $\$ 1-\$ 2$ and a hot dog and aoda are $\$ 2$."

Not for nmateurs
In spite of his success, Harry doesn't encourage people to bet. He describes many handicappers lives as and and boring. A handicapper muat devote a lot of time to keeping Harry apencis to 21/h hours fayry epends up to $21 / 2$ hours a day stuaying the evenin
program and his records.
program and his records. they can look over the hores in a race 10 minutes before the race starts," Harry said. "This is when irrational decisions are made. It would be like talking a 20 -question test and skippring through the hard questions in a rush to get it done. Common sense says that the longer you atudy the program, the better thejob you'll do. You

## Twin Son' album spins out some of summer's best tunes

By Norm Meyer
Every summer, the recording industry nears its ugly head and a slew offast-seling albums are released by the big exception: the Folling Stones, Bol Dylan, Bruce Springsteen, Boston; Foreigner and Linda Ronstadt all dropped hig ones: Bunstad best of this summer's vinyl crop may get lost in the harvest.

With little fanfare, Dan Fogelbers and Tim Feisberg have released an experimental album on Fogelberg'a Epic label. Twin Sons of Different Mothers, as Fogelberg wrote on the back cover, is an outside our own recognizable bonndaries and try new diractions - new forms of music which we racely get to explore on our own. It is a chance to stretch, an opportunity to grow, and a hell of a lot of fun."
This furion of jazz-rock mad folk-rock combines an asgortment of musical styles, including a liberal sprinkling of classical flavoring and a tad of funk. But whatever the atyle, the music is always melodic, tasteful and emotional.
Light, breezy instrumentals, featuring Fogelberg on acoustic and electric guitars and piano, and Weibberg on assorted flutes, make up most of the album. " Paris Nins Theme will probably not be heard on rock radio etations, have only rock radio Etations, have only atring backdrope for the piano background and gentle solos produce a pretty, flosting Biound.
"Guitartwood Alley" and "Guitar Etude No. 3" are dominated by Fogelberg's versatile guitar-playing. On "Hurtwood Alley," he plays various acoustic and electric guitars, producing sounds that

Dan Fogelberg's and 7 Tm Weisberg's new elbum; Twin Sons of Differemt Mothers." The album is a auccessful collaboration of jazz, rock and folk instrumentals and vocals.
provoke different moods. Fogelberg "plays classical gritar on "Guitar Etude" and produces a sparse, ethereal bound that combines beautifully with Weisberg's unpretentious flute passages.
Weisberg's talents are showcased on. "Lahaina Luna," a melodic, jazzy tune with a catchy beat. He uses his flutes and piccolo to explore the low and high registers but never allows his vixtuoso playing to become overbearing or egotistic.
"Intimidation" features a soaring flute aolo, tome apicy electric guitar playing and crack rhythm work by drummer Andy Newmark and bassist Willie Weeks.
Only three of the album's 10 songs have lyrics, but all are strong compositions. "Tell Me

To My Face," written in 1966 by Graham Nash, Allan Clarke and Tony Hicks of the Hollies, is a powrerhouse. It is the ples of a wroigged fover who wishes he' had been persmally told about the painful breakup. Fogelberg's intimate voice is perfect for the song's bare emotions. He sings as if he is pasaionately whispering to the listener.w. Weisberg's flute fillar between the Iyric stanzas is bouncy, but-controlled. Fogelberg's slide and electicic guitar playing blend perfectly with the emotions of the lyricis. His gritar sounds as if it is pleading for an answer. The passion expressed throughyall the instrumentation is extremely impressive.
Another song well-auited for Fogelberg's voice is "Since You've Asked," a romantic
folk song written. by Judy Collins in 1967: Fifs persinal vocal style is just right for the lyrics.
As your Life spills into mine Changing with the seasons: Filling up the world with time Change time to reasons:
I cange tome to reasons. That I never sang to someone That I never sang to someone

Fogelberg's anly lyric composition is "The Power of Gold," a song about the strange power of wealth that produces paranoia, unwanted friends and, a feeling of emptinesa: Balance the costof the soul you Losit/With the dreams you lightly sold/Are you under/The power of gold?
The "twins" inatrumential interplay on "The Power of Gold" produces some of the album's most satinfying moments. When Fogelberg's driving gitar meots Weisberg's dancing flute, the music sounds bike a youthful Muhammad Ali; it floats and - otings at the same time, a balance rarely achieved in music

Whether these two musicians plan another collabaration in pnlinown. Their previoun encounter con-- Eibted of - Meapance on one song on appearance on one song on Fogelbarg's Netherlanals
album. This time around, album This time around, Focelberg fid all-the writing
and they and they chared the produc tom chores.
It ia hoped theve tremen-dounly-talented aytists will combine their slill again. When two of Amecica's best young munginams ceot together, the remalt in bomad to be ex. Citing and Twir sons of
Different Mfothere poroof of Different Fothere isproo

## International Student Office notes gain in foreign stúdents <br> auch things as opening a-bank account

When George Alalangadan and Rak Shekar dipeided to comerto the United States to finiah their-pthdias; they contacted Syracuse Univernity's Interinational Student Office.

Alalangadaniand Bheliarare two of the many forgigmittodente who will attend SUJ this year. The number of atudents in the program in creased from 805 in 1973 to 1,225 last yeiry. Virgimia Torelli-director of ISO, expects the number to increase this year, but said that final figures are not yet available.

One hundred and six conntries are represented this year, with the largest number of students- 143 -coming from Iran, followed by 67 from Canada, 62 from Saitidi Arabia and 39 from Malaysia
The first etep a foreign student takes is one that all incoming etudents face: applying to the university- To be admitted a stradent must take the teit of Encilish as a foreign language, which is a worldwide exam that measures an individuar Engian language proficiency.

In addition, the students must provide financial statementa that prove they will lrave a source of income while in the United States.

The International Student Office runs an orientation program at the beginning of each school year to acquaint international students with university life. Under the guidance of Torelli, the program informs students about

American politics, the academic aystem and how to overconne language problems.
Torelli said the orientation is very helpful to foreign students because it eases the shock of entering SU.
Even though interinational students are acreened by the university and the local Amexican embassy, problems arise.
For many students it is the first time they are exposed to dormitory life, being away from home and being surrounded by people different from themselves.

Problems arise more often out of academic rather than social pressure, according to Pat Burak, counselor for the Intermational Student Office.

Torelli said, "the foreign student is very goal oriented." 'They come to SU planning to finish their studies and return to their countries, she added.
Many foreign students worry about money. Those who are dependent on allowances from home often find that their families have trouble getting the money out of their home countries.

The International Student Office deals with these and other problems. Torelli, Burak and Michael Smithee, program coordinator, help -solve student's academic problems by refering them to deans, advisors, and professiona services.

## Impact of ERA on SU would be psychological

House Resolution 638: "Equality of rights under the law shall not be denied orabridged by the United States or any state on account of aex."

By Sutan Heath
The hot and haxy heat appeared to make Constitution appeared in Washington, D.C. Avenue in washington, D.C. in:the low 90 s and backers of the Equal Rights Amendment marched off. toward the Capitol's steps to battle.
The warriors, dreased in traditional white to reflect the suffrage movement were wellarmed to combat the mun.

More than 40,000 ERA supporters marched from the Washington Monument to the Capitol on July 9 in an attempt to persuade Congress to extend the March 22, 1979 ERA ratification deadline.

Dora Lee Dauma, NOW's Central New York Chapter president, said she believes U.S. Senatory Jacol K, Javits and Daniel P. Moynizan of New York favor -the amendment.

The ERA was ratified by the New York State Legialature in the spring of 1972 by an overwhelming margin. However, in November 1975, New York thate voters turned dowin a state version of the ERA.
The impact of the ERA on Syracure Univerrity may be more psychological than tangible.
According to Lois Bilack, director of affirmative Action at SU, the BRA might have a poaitive' effect on women's psyche. But ohe doubts it would affect the number of women who receive tenura, for example.

Black naid amistant profes-

[^1]sors with tenure are more apt to be women, adding, "Wedon't need new laws to get tenure, we need more professors with Ph.D's."
Currently, the bill to extend the ERA ratification deadline is in the joint House and Senate Judiciary Commnittee.
Although ERA supporters hope the bill will makeit to the Senate before it adjourns in early October, Congressional Quarterly said the bill "has less than an even chance of passage in the Senate."
On Aug. 15, the House in a 233-189 vote, extended the ERA deadline by 39 months. This would give ERA supporters until June 30,1982 to get the necesariry 38 gtates to vote for ratification.
Thirty-five states have ratified the ERA so far. However, the Idaho, Nebras. ka , Tennessee and Kentucly State Legislatures have voted to rescind ratification. The Justice Department has since said states do not have the right to rescind approval.

## Start training and earning as a Medical LabSpecialist

In most schools, you pay hundreds or thousands of dollars to learn a skill.
With the Army Reserve, it's the other way around.
When you join the Army Reserve and start job training as a Medical Lab Specialist, we pay you through every day of Basic and Advanced Training.
in a few months, you'll be home again, with a parttime job in the Army Reserve. And you'll be well paid for the 16 hours e month and two weeks Annual Training you put in.
With the training you receive, you can pursue a fulltime career in ainy ares of health care.
If you quality. and an opening exists with your local Army Reserve unit, you could be looking through a microscope and earninga regular paycheck sooner than you think.

## SU Musical Stage productions tap students' theatrical talents

Ever foel you have a little bitiof ham incide you that etruggles to get out now and then? Or that you've got A fair voict if only momeone wovid Histen? Syracuse University has an outlet for auch aspirationa-The Syracure University Musical Stage.
SUMS, a drama group devoted to pronoting musical theater on campua, is funded by the Student Astocistion and in open to all SU studens, regrardlese of their major.
Along with singers and actors, SUMS also seeks people with a knack for stage lighting. prope, set design and makeup.
The organization was concoived three years ago by SUY student Mika Gill. Though he was not a drama atudent, Gill was interveated in theater and established SUMS. T There were over 100 members enlisted in Gill's first production, "Celebration." The show was held at Watson Theater, where SUMS mugicals are still held today. In its eecond yeux, SUMS featured the musicals "SeeSaw" and Cole Porter's "Anyth ing Goes.'

This year, SUMS has acheduled threé major productions: "You're a Good Man CharlifeBrown," milated for October 20 and 21, nnd two
shows that have not yet been selected for February and April.
"We're not here just to do great hown thaid SUMS committee preaident. Phil Gurin. Ife added that the organiration is equally interested in getting people involved.
An activity that encourages involvement of SUMS members is a trip to see a New York ghow. Other features of SUMS ary a newieletter and a library department, which is expanding ita subject matter in dance and theater.
In addition to promoting theater, SUMS in coopexation with the Univeraity Union. will show firms of well-known musicale. Under the heading "Musical Theater Trivia," the group plans to present programs that can be televised on UUTV, the student-run mtation Eponsored by the S.L. Newhoume School of Public Communications.
SUMS' firsi annual meeting, which 150 people attended, was held last Tuesday:
Sophozaore Ellen Jaffey said she joined SUMS because mhe enjoy sey acting and singing. 'It's very rewarding becanbe you get ciose to people," she asid amiling.
A senior, with fifteen years of acting experience consoled two freahmen who seemed apprehensive about their acting talent.
"Don't be nervous," she said. "Just, go in there with the idea that it's a lot of fum.

Let a TI calculator help you make more efficient use of your time.
This semester... and for years to come.

Executive discusses NYPIRG

## By Mark Goldstein

Thirty-five people braved the rain Monday night to hear Donald Rose, executive director of the New York Prublic Interest Research Group, Inc lounge at this year's first meet ing of its Syractuse University branch.

In his address, Roas spoike about the hiatory, achievements and future plans of the consumer advocacy group.
Ross said the first Public Interest Research Group started at SU in 1972, Since then, 26 offices have been es-

Speaking about the achievements of the organization, Ross esaid because it can "win oysthe. because it cax win sy the
power of an organized student -group."
One recent legialative vic tory for the consumer group marijuane in New York State, merijuid. The law, passed in July 1977, reduced the penalty for possession of up to sevencightha of an ounce of manijnana to a $\$ 100$ fine. one fourth of an ounce was onefourth of an onnce, was
punishable by impriconment up to seven years.
NYPIRG will soon be lob bying for billa in the Now York State Legielature dealing with such issues as nuclear waste and bottle recycling, Ross said.
The SU branch of NYPIRG. which operates in the Marine Widland building on 1004 E Adams St employs 56 interns and 10 volunteers.

## Still crazy after all these nights <br> a-FBy Jon Rabinoft

As the tall semester gets into full swing. mitudenta once again will be looking for late-night diversions from their studies. for many, a few games of pinball or arisk walk around fie dover for others these Howies fill far ohort of reliev tivities fail far short of relieving trations
Sports-minded students resort to all kinds of makeshift competition. There is hall soccer played with beer cana. or for the more courageous, beer bottlea. This year "am: frisbee" has become popular. Flayed extenaively in Flint Hall, this game requires either a conple of "Whammo Profesmonals, or mome old "Steppenwolf" records.

Bicycling if another cel ebrated getivity SU cheerleader Biil Hadarikes to ride his bike around his dorm,

For those who like to "hang fent at 1 anom., there ing ten at l a.mo., there in fourth floor of Sadler Hall had fourth floor of Sadler Hall had ao many street surfers that it
became known as ""knteboard became known as "Mkateboard
city." When you add these to city." When you add these to bathroom basketball, study-
lounge lacrosse, and elevator lounge locrosse, and elevator handball, the athietically ing of activites in which to participate past the midnight hour.
Another major enterprise in the wee hours is the prank. Many students, who wished to remain anonymoun, offered their favorites
First, there ie baby powdering. Through the use of a hair dryer, a room can be transformed instantly inito a "Sahara" of talcum. Another often-weged tool is sheving cream. It is put anywhere and everywhere excent an unshaven face. Doors, floors, and beds are the most popular targets.
Even the innocent U.S. penny is sometimes used as an implement of embarrasament. When they are coupled and wedged into a door crack, the strength of Clark Kent is needed to get out of the pennied

Skutaboarding. cyeling and soccer are a few of the activitien studente resort to after long hourw of atudying.
room.
One malicious sophomore
admitted that Isst year he made a habit of calling his R.A. at two in the mornimg collect
Another of the meanest of tricks is the infamous greasing of toilet seats. The victims either end up with an unexpected bath or a life-and-death struggle to get unstuck.

There is also a. Eroup of people to whom conformity is a curse, especially in their study curse, especian' ho them, anything that can be categorized is ing that can be categorized is not worth doukg. For example,
"After hours of studying. I like to run into my room, blast the theme song from 'Rocky', and flail away on a slice of bologna.
Day Hall resident advisor Cindy Ragoza ghid, "I like to talk to my stuffed animals after a long night at the books."
According to engineering major Rich Lesky. "fs good
way to relieve tension is to yell obnoxious comments out your window at passers-by."

Boxing team member Larry Morris said, "I like to line up alumi num cans on a table, and then smash them on finy head Animal House' etyle."
SU students are very resourceful - if not in their studies, at least in what they do during their breaks.

The brightegt light or brillant 1977 su wornen'e tennis team Was BetEy Gottiab, (bbove) who wes Now York State's beept wommen's colleginte player. A new coach thices owar thit yoar ins the Orangewomen look to repent their 1977 herales.

Tennis begins in 78

## Syracuse returns to court

By̆ Maraha Eppolito
In itce quest to be riumber one in New York, he Syracute University women's temnia teaim will have to bruah awny perennial powser Colstate, and the Orangewomen havejurt the cavity-fiee limeup to mucceed.

Under firstyear conch Jespe" $\mathbf{E}$ Dwixe III, SU (9-2 last year) will challenge Colgate for the New York State crown for the first time in a long while.
The reason Colgate has been beat ing ns in the past waie their depth and personnel, Dwire gaid. We now have as much depth an they do and woill be able to compete with therp. Ive been told this is the strongest taam we've over had.

The keys to this year's teand are returning veternnis Betsy Gottlieb and Betay Maikovsky.

Gottlieb, 1977 New York State singles champion, has what Dwire describes as "anrunorthodox form in mome of her atrokes, but ahe knows how to nge it to her advantage. I think she'tl be state champion again."
Mallowky, who teamed with Joni Aromon to form the top doubles team in the atate intercollegiate tournament last season, is the team's strongest stroke player, according to Dwire. She was 9-1 lant year and ter only loss was a defanit due to an injury.

Transfer Karen-Austin, 1977 Now York State Junior College singles champion, has a powerful foreband and strong serve.

Deapite the returning talent, that little added punch the Orangewomen will need could come from its freshmen. According to Dwire, some members of last year's team didn't make this year's squad. "That's an indication of how atrong they (the freshmen) are." Dwire noted.
The brightest prospecta are Nina Dubin, Ellen Feinberg and Helen Mantgiaris. Duhin and Feinberg havefundamentally sound games, Dwire observed.
Accouding to Dwire, Mantgiaris "is a great assest to the team. It will take someone with a lot of inspired alill to mock her out of a atarting eppot.
From the 16 -woman roster, Dwire must choose a starting team of nine. Although he has chosen seven of the Although he has chosen seven of the one of the remaining pomitions.
Besidea Colgate, other tough opponents on this year's schedule, which opens at Binghamton this Friday, in clude Bucknell, Fittsburgh and" St
-1978 Eyzicues Unvery Tennis Behedtile

Lawrence However, Devire enaid he ien't worried about the sehedula.
${ }^{4} 1$ don't worry about any team," he eaid. "We send out the beist we havie and if they give me all their bkill arid the beat of their ability, then we ahould wis."

This year's team has three mambers on tennis scholarshipg - Cottlieb Dubin and Malkovaks - and will receive two more scholarships pext year. The increamed number of scholarships should "vastly improvie". the quality of women's tenni, Dwire predicted.

Dwire added "It'a the "quality of a player which determines who getn the scholarshipss. I don't believe in not giving a acholarrhip to a better athletejust because her parents are lucky enough to have money.
In contrast to last season'a coach, Birgitta. Warback. Dwire ia "very happy with-SU," Upon Fesigning in March. Warbach gaid ohe falt her $\$ 3,500$ salary was "not at all" fair for the time she put into the job. She also cited the lack of a Epring season anone reason for her resignation.
Dwire, however, asid a spring season would be very nice, lout, because of the weather here, it is totally out of the queation"

Lina Warbach, Dwire receives a $\$ 3,500$ salary. However, this year, the tean has an assistant coach (Paul Bess) for the first time in its history.

Although it has a first-year coach With a fitcle luck and no major injaries or problems, the women's temnis team shonla hniah with a winning meason, York State championship.

## The midweek, SU football shuffle

While injured SU quarterback Bill Hurley tries to jog this week to nurse his three cracked ribe back. to health, Tim Wilsor will also get practice rum-ning-the Syracuse offense, that-is.

Wilson, who staxted his firat collegiate game at quarterback Saturday in the Orangemen's 27-19 loss to North Carolina State, will definitely etart against Michigan State's Spartans this Saturday at Eabt Lansing. Mich. zocording to his bead coach, Frank Maloney.

Senior Steve Spinney, however, who smapped the ball to Wilson Saturday, will not start at center against the Spartans. Playing ingtand will be sophomose Andy Gisminger, in what Maloney

## Bookstore turns down two

## By Chrolyn Beyrgin

Totordeinianal mide by Stiudent Association that sparled last spring's boycott of the Syracuse Univergity Boalsstoren were rojected yjeeterday.
Joseph' A. Tatusho, vice presideint for business management, axid SA's proposal to implement a check-eanhing service at the boolcstore has been turned down.
Plans to form a bookstore advisory council have also been turned down according to Jim Naughton, also been turned down according to dim
The chect-cashing plan was one of four proposals
SA presented last pring. The proposals included
positive changes in the bookstore's buy-back policy and an across the-board price decrease. SA also requested locker storage. space by this semester Seventy-five lockers have gince been installed.

Tatusko said the check-cashing proposal was impractical because of the convenience of banks on campus and the difficulty of administrating the service.
But Naughton said the university doem't want to get involved with banking. "We're very disillusioned. Either they don't want the problem or they don't want to give in to the atudents."

Under SA's proposal, students who wanted to cash SA presented last pring. The proposals included checks at the bookstore would havebeen required to

## SA proposals

pay a $\$ 20$ depoait to protect the boolcstore againgt a bad check. The money would have been refunded at the end of the year, provided no checks were bounced. Each student would have received an ID card, allowing the bookstore to review his account each day. A gtudent would not have been able to cash another check until the previous one had cleared.
However, the bookstore does not have the money to implement the plan, Tatusizo said. "It's not worth the additional expenge?
Naughton Baid the uni versity would have been able to keep one percent interest of the $\$ 20$ deposits. "I Continued on pape saven

## Senate committees: what didn't happen <br> By Marilyn Marks

The atory from yesterday's University Senate meeting is not what happened-it's what didn't happen.
The Senate Committee on Appointments and Promotion did not present its long-awaited tenure policy and, as expected, no nomination was made for an honorary degree to the Empress of Iran.
Professor James Weeks, chairman of the appointments committee, said he did not present the' tenure policy because "it wasn't really in final form and still contained some ambiguities. He will present the policy at the sermate's next meeting Oct. 18, he said.

Weeks agid he was afraid the policy wonld get bogged down at the meeting and get sent baick to the comnittee for more work. He said he didinot want the proposal to go to the Senate yesterday because of grammatical problems with the draft. "In that regpect, it was somewhat of an ego thing." he said.
Tenure virtually guarantees a faculty member a job for life.

## HL work damages water main

Cuy Mike Maynard
Going to lecture when it a a beantiful Indian summer afternoon is hard enough, but phen the dassroom is stuffy and overheated, it's almiost intolerable.

That's ohat many Syracuae Univeraity atudents faced yestenday when a water masin that aupplies chilled water for air conditioning of meveral academic.buildinge brolke late Tuesday afternoon.
And to malce matterti worne, the tein pernture hit 82 degreas during yeeterday's munny wrathere
-The breelt in the mpin; locsted nivierground in fromitot the lifill of Lariguagen, ocemred dim-
ing renovation work, aaid Dewitt Pero, manager of SU's Steam Station.

An outside contractor, C.W. Davis, has been hired to repair the leak. Pero said he believes work on the main will be completed Wednesday night.

EIowever, air conditioning will not return to the affected buildings before the end of the Week, because it will take time to refill the mair with chilled water when it in fixed, Pero agid.

He said the affected buildings include Bird Library, Newhorse Commenications Center: the Administration Building the Physies Erind.

## The risks and rewards of a furry face

"Damin it, that stings!"
Paul stood in front of his dormitory bathroom mirror wincing as he applied bathroom mirror wincing as heappiled a chalky styptic pencil to three or four
"Man, you look like you're in pain," asid one of Paul's floormates standing in front of a neighboring mirror.
in tront of a nexghboring mirror.
Brent Marchant
times when I don't know why I even bother shaving."
"So why bother?" asked his friend, combing his thick black beard. "I used to go through the same hell every mor ning, too. But after so many mornings of pain, Isaid to myself, 'Why bother?'
Thinking for a moment, Paul realized his floormate had a good point. Paul stroked his boyiah face and thought to himself. "Gee, I wonder what I'd look like with a beard. He styptic pencils. He also thought about all the times his youthful looks made it necessary for him to show proof of age when going into bars. And besides, everyone always told him that a guy

## Young enough to know better

Back in the 50's, Danny and the Juniors sang, "Rock and roll is here to stay.;' Well, Danny reck and roll hasn't died yet, but shallow overprofessionalism has spread. like, a tumor and has weakened rock's constitution beyond recognition. Rock became (ugh) mellow, easy listening. ready to roll over and play dead.
However, there was hope, believeit or not. Some creatures were not ready for

## Màrta Rose

the geriatric ward, to be gassed out by anesthesia. Better known as new wavers or punls, they were young enough to know better:
"Hell!" they asid, "Rock and roll is a youthful statement; Like.a belch at the dinner table. Let's give it back to the teenagers in T-shirts, blackleather and smeakers who play their guitarg in garages and hang ont in front of the 7 1. Rock and roll, come. home!"

Along with music punk defines a whole attitude towards life. Punk is standing up for one's honor and not becoming a human docrmat. It's looking out for number one. No one can argue that punica have a atyle all their
with a beard always has better luck meeting girls.
So, with a confident, determined grin on his face, Paul turned to his flooron his face, Paui turned to his foor mate and said, "You're'right. Why bother?!" and thereby get out to prove
his virility. Hewould grow a beard.

The first few days went by amoothlv.
The facial hairs grew blow bily but The facial hairs grew sody really seeined to notice Panil's nobody really seemed to notice Panls
changing complexion. But after about changing complexion. But after about covered with little sandy-colored nubs, the problems began.
At a Friday night floor party, the other floor residents ridded Panl about his new endeavor, using every cliched put-down in the book about growing beards.
"What's the matter, there, uh, Paul? Forget to wash your face this morning?" said one of the floormates. The thunderous sound of laughter followed. "Yeah, Iooks like he hasn't washed for a while. The mold is getting pretty thick," said another, evoling a second round of guffaws. Paul felt completely defenseless againgt this verbal ondefensere
slaght.

And just when Paul thought he was
own. Lots of leather, sparkle, safety pins. The Village Voice called them "sexy," Talking Heads called them "a breath of freah air," my mother called it "shock treatment"" She's cool, my old lady.
I call it overwhelming energy. I absolutely cannot sit atill while listenine to punk rock. Joey Ramone singing ${ }^{4+1}$ Don't Care" does more for my apirits than Kahlua and cream.
Critics have called punks "violent." Well, Fm not going to lie - punks can become quite violent. But it's merely a reaction to the sickening apathy one finds all around, which to me is just as bad, if not woree, than Violence. Punk are active, not pasaive. hey ve got ob noxiousness down to an art howaver ike any other art, it pays to have a natural aptitude.

The moze talented punks, like Johnny Rotten, channel their violemce into music. Heavy metal combines With electric freazy and lyrics that have been known to make grown men exclaim, "What is this shit? I don't understand."

Punleis not meant to be understood. It's meant to be felt throughout onie's body, similar to the thrill of a roller coaster ride or drag racing. It's being young enough to know better.
getting some moral support from his black-bearded friend (who told the others "not to pick on him'", this same floormate quipped, "But if you really Want to know the truth, Paul, I
can't get over how pubic it loolis."
cant get over how pugic it looks. one of the girls on Panl's floor came one of the girls on Pauls floor came
running over to him and said in a running over to him and said in a somewhat shrilled voice, "Panl, You"
"Thaniss," Paul said sheepishly.
And after a few minutes of atroking Paul"s-bristle-covered face, the giri proceeded to invite him back to her room to da a couple of bowis, which left all of the floormates speechiess.

Several days later, Pawl encountered his second major problem. His face it ched teribly. Scratching, akin creams and cold compresses were all tried, but in vain. The itching seemed like it would never go away, but like the rib bing problem, it too would eventually disaipate.
After about three weeks of growth Paul'a beard finally began to fill in well. His face actually appeared quite businy. And after having gone through the ribbing and the itching, the beard's fuller growth truly gave Paul a feeling of accomplishment. However, the biggest test was yet to come. Paul made biggest test was yet to come. Paul made
plans to go home on the fortheaming weekend, where he would have to contend with his heretofore over-
protective parents, who didin't know he

Was growing a beard
On the bas trip home, Panl triedto imagine how his follics would reactitio the beard. Many, thought-raced of one thing head, buthe was convinced one thing-they were aure to hatelit: matantly gave his mother face instantly save his mothera face Her chin dropped to the ground.
gasped his mother.
"Yeal," he said, shrugxing tris shoulders.
"It looks so good!" she said, her eyes nearly popping out of her head.
"Reallyl" he said, beaming a broad smile.
"Yea, I love it."
Paul was elated. All the trials and tribulations of the past few weeks seemed to have been worth the efiort. He had a wonderful weekend at home. Every bar he went to didn't question his age. And everyone he saw during the weekend loved the new beard, except for one old aunt who was never happy unless she had something to complain about.

And so, at the end of his weekend at home, Paul went back to echoolcointent with. the fact that "pociety"thad accepted his beand:

But after about another wodre'ply faced a teet even bigger than the trip home-a test that would frustrate him for as long as he had the beard: getting the sucker trimmed.

## Department of Strange Phenomena

# "Going Ape" 

From the Syracuse New Times: Baboons make better lovers than humans, if the noisea they emit dur ing intercourse are any indication. Reacarchers William Hamilton and Patricia Arrowood at the University of California at Davis have dicovered that the soundis made by the female chacma baboon during lovernalinig are miveh mone "etrue
turally complex than those made by humans.
The researchers determined the baboon's superiority by compering voiceprints of copulating human couplea and recordings of baboons mating in the wild.

Wateh out," your room, may be bugeded.

SUB: Passing up advice
Student Ancirationsent the following letter to Joseph A. Tatusko, vice

As onefreavs for improving the relationship between the Syracuse University Boolotore and the community it Berves, students, faculty and staff, it is fouminerided shist youx office move to establigh a broad-based advisortstangiftee to provide assistance in the form of advice to those holdiny bool foremanagerial responsibilities.

Sucithequintteeconld provide useful advice on a variety of matters inciddindty - Skibestionif for whys in which positive consumer opinion could be fodtered and consumer volumie increased; fotered andemsting which may be helpful to the bookstore in meeting its obligationge an aimiliary enterprise."

This was a reationable proposal, reasonably presented.
The administration rejected it.
"We don't want a committee jugt for the sake of having a committee," Tatusko said. "My door is always open."
This open-door policy led to a month-long student boycott of the bookstore last apring. The boycott, if it made no other point, proved that an advisory committee is needed.
An advisory committee would provide the bookstore with needed input from various members of the university community, particularly the stadents, itsprincipal customers. The establishment of auch a committee would assure students that the boolcstore is truly interested in catering to its customers rather than ripping them off-a feeling obviously lacking last spring.

Laige companies that can afford it spend hundreds of dollars on consumer surveys and customer satisfaction polls. SA has asked the bookstore to allow a committee to gather this valuable information for free; the bookstore declined. SA offered to provide suggestions through the comnitite for ways to increase bookstore sales; the bookstore declined. In turning down SA's proposal, the bookstore rejected an idea most stores would have been glad to implement.
The bookstore, like any other store, should realize that customer satisfaction is the key to its succesaful operation. To seek, rather than shun, consumer input and reasoned advice is the most obvious means of improving its service.

Thomas Coffey and Sy Montgomery

## King: a different activism

To the editor:
I an writing in reference to Caralyn Beyran's story that ran on Monday Sept. 18, concerning SA's resurgence of activism. She opened her story with "If Martin Luther King Jr. had been on campus last spriag he would have felt right at home."
My. (and I am not alone) immediate reaction was "What does she mean by that?" Why should campus last spring or at any other time? Why should he, with his deep concern for civil and buman rights, concern for civi and human ights, blatant institutional racism exists? I bardly think that Dr. King, nor should any minority person feel completely at home or comfortable in a place that permits minority gtudents to be harasaed in. its bookedore, or for the stuaents in extended hou
segregated. Why should a minority student on this campus feel at home when there are so few minority people in faculty and administrative positions eerving as role models? As a prime example, look at the College of Arts \& Sciences with an enrolmment of over
$50 \%$ of the minority population, yet $50 \%$ of the minority population, yet
one can count the number of one can count the mumber of minority faculty members on one hand and atill have fingers leftover. I will say nothing about the nonex-
istent minority, administrators istent

As a minority student on this campus, I don't feel at home knowing there is a meed for an Ofice of Minority Affaira to help me to "adjust" and deal with the hassles I will face at Syracuse University. How can minority atudents feel at home here when Enqumcisl aid is a constant hasale? With the majority of minority atudents receiving some type of financial asaistance, the inaccessability of the financial nid

## \section*{counselors, and the fact that the} <br> Iran: a different perspective <br> \section*{To the editor:}

"I wanted to create an international boutique," ex of the Greenwich Village of the Greenwich village Boutique. There are so many different nationailies in this country that I wanted the shop to represent a little of all of them."
Tacked amay in the basement, at 177 Marshäll St. Polloceo designed the store so that each corner is adorned with th the personality of a different coumtry.
'Tve done a lot of traveling through Europe," explaing Pollocco as her finger traces the design on an Indian treasure box, "and I always had'an eye for the unusual. I guess it was an unconscious side interest. I had this glamourous concept that I could travel to all these countries aind buy their products.

## little did'I know that once you <br> Fashion professional to conduct seminar

By Michele Fox
Frashion today is not just clothes - it's design, merchaidise, promotion and
This te Sunday, Virginia Tibbe, editor of Ebony Fashion Fair magazine, "will lead a Meininuix, "Fashion Media and Marketing" The seminar will be'in'A-1 Newhouse I at 3:30
Timbe, who will also speak on "Fashion: Setting the commentator from Chicago. The seminar, sponsored jointly by Syracuse University's Office of Minority Affairs; the National Council of Negro Women, Syracuse Section, Inc; Ebony Fashion Fair; and Youth Community Services, Inc., is open to the public.
Tibbs' visit to Syracuse will include a welcoming ceremony at City Hall, the Newhouse Communications Center seminar and a reception at the home of Chancellor Melvin A. Eggers.
About 100 local fashion experts, media professionals and community leaders will attend the premier of the latest duropean and American Whack according to Michael sultant for the Syracuse Section of the Council of Negro Wormenis
Also speaking at-the seminar will be Naima Porter, director and co-pwner of Trio Modeling' and "Advertising Agency, Buffalo. Porter, who Just apeak on Modeling is several fashion has produced made television appearancea Grace Kelley bryearances.
Grace Kelley, bryyer trainee Department Store of New Yor
and one of gix womén featured in Sharron Hannon's forthcoming "Working Wornsm's Beauty Book," will be speaking on "Fashion Buying and Merchandising."

Tibbs' visit to Syracuse will promote the Ebony Fashion Fair to be held Oct. 18.
Proceeds from next month's fashion fair will benefit the Foundation to Advance Arta and Athletics in Syracuse and the Dunbar Association, Inc.
 Village Bioutique. Those who venture into the cluttered littie shop hidden on Marahall Street are fascinated by the exotic merchandise.
for three,years and still don't know about the shop.'
Although Polloceo recently added a display window, the lack of exposure continues to hurt profits. This fall, Pollocco was forced to return to teaching.
"A business is supposed to
help you make a living," she explains alowly," and now I am doing that by teachingThe shop has become somewhat of a hobby."

Polloceo slowly circles the store and begins to arrange the Mexican straw hats on the shelf. "Some of these things lie
here for months," she sighs. "I rationalize it by saying that it adds to the decor of the store." "But, it's my nature to be stubborn," she says more enthusiastically as she glances around the store. "I've picked up a challenge and I'm going to make it work.'

## University Senate

```
continued from pege one
```

Accorcing to Weekn, the new policy would malce studentinput on tenure decisions mandatory, and would require more standardized evaluations.

The plan aleo sets np mpecific criteria for granting tenure: eaching facnity advising where appropriate, reacarch, and service to the university and community.
Althongh the plan recommends general standards for tenure deciaions, Weeks said it allows academic departments flexibility in forming their own standardn.
Weelrs said he made the decision not to present the policy on Tuesday. Committee members twere not informed of his decision, tuesday.

The appointmenta committee approved the policy at a meeting last Thursday. The meeting was "an informal vote at the Faculty Cemter" attended by about nive menbers, according to Melisar Roee. Rose is the only student on the committee.
Melisas Roee. Rome is the only student on the committee. to postpone the presentation.
-Tre (Weeks) wras the ong who wanted to get it to the Senate as socin as possible," Bodine said. "I don't think he really had to notify man."
Frofersor Mark Watkins, a committee member, said he agreed in principle with Weelk' decision.
Committees ahould be very fastidious," he said. "People in the Shate sometimes like to quibble."
Work on a tonure policy began about a year ago, but plans have been delayed several times while the committee sharpened the proposal.

- The committee will meet today to review the policy once more. According to. Weeks, the plan can take effect as soon as it is parsed.

Bodine said, "I'm sure it'will go at the next meeting. We're as anxions to get this taken care of as you are."

In other Senate action, members approved changes in existing courses after a report wras presented by the Senate Committee on Curricula.

than to punk. While The Cars may embrace the sounds of the new wave, they forsake many of its trappings. There are no gafety pins, no multi-colored gaityop and mo peeudo socially redeeming lyrics.

The music of The Cars in criap and clean, and as a resuit sounds just great when it's turned up loud. Another factor that separates the power pop of The Cars from punk rock is that The Cars play love songs. Two prime examples are aide one's "My Beat Friend'a Girl" What the album's single "Just What I Needed." Both songs

## power pop rock

are up-tempo rockers, with a touch of synthesizer that makes the song's melody lines infectious.

But The Cars display more than power pop on this album. The album's opening track, "Good Times Roll" features an almost monotone vocal by Ric Ocasel, with a twanging coun-Cry-btyle guitar Bolo. Alao, The Cars display some British influences, even if they choose to do so, poorly. "Moving in Stereo," one of the only weak tracks on the album, is Floyd/Genesis genre of music
in itd use of playing with stereo effects. However, the British bands turn this trick much more succeasfully than The Cars do.
Aside from Ocasek, the band features Benjamin Orr on bass - a refugee from the jazzrock group, Cap'n Swing - Elliot Easton on lead guitar, exModern Lover drummer David Robinson, and Greg Havklies, the former keyboardist for Orpahn, who also did time with Martin Muill's back-up band, The Fabulous Furniture.

Together, The Cars make beautiful music.

# Few legal remedies exist for tenants in firetraps 

By Marix Buallivan
If you are one of about 200 campan-area-residente of bwildinge containing fire leral remedies are nearly fil lergal remedies are nearly nil. break their Ieases orforcet to break their leases orforce their landlords to comply with city asafety atandards will enconnter legal complications, according to David Okvn, an attorney for Student Legal Services.

#### Abstract

At beat, tenants can break their lease by moving out of their apartmente and hoping to win their case in cowrt. tories, by temants in sueh, vic tories, by tenants in auch casea are highly unlikely becante of the conservatism of local judges. The most frequent defensein breach of lease cages, ac cording to Olcun, is the com-mon-law theory of "constructive eviction." Under the

The $\mathscr{B}$ rathess of $\mathscr{F} h i$ Della Theta

Cordially Insite You to Rush
MONDAY - TUESDAY = THURSDAY
concept of constructive eviction, a tonant can Ree an apartment "if exictinc conditions threaten his life, hearith or enfety.

In a cane in whieh fire violationg have been ir dis covered, the temant's apioty is certainly being threatented, but proving the severity, af this freult accordint to olven dif ficult, according to Olenn.
"I arm temant-oriented," Okun taid. I try and Bee things in their favor, but the idea (of constructive eviction) is conservatively and strictly construed.

Under New York State law, there are narrow circumetances that would allow a tenant to break his lease and win the cage in court. This cir cumatances are:

- housing code violations must exist
- the exist violations mant be cited by local mumicipal cited by local mumicipal authorities. (In the care of 48 residences in the syracuse requirementa have been met.) requrementa have been met.) notice of the violations and notice not comply trith them
If all theae circumatances ex ist, then grounds for constiructive eviction eriet.

Also, Okun said, tenants are breaking the law if they withhold rent in an attempt to force landlords to eliminate code vialations. Tenants can depoait rent money in a bank account to nhow their "good account to nhow their groa faith to the court. Or they can wait until they are served with an eviction notice, pay rent the court for a "Etriy" of the eviction process.

Feculty announces changes for Nowhouse transfer policy

## 

As careara in communications. become increasingly competitive, so do Nencire Gohool of Subl. Nemhonse School of Public
Cominumications.

The Newhouse faculty at a meeding last weel voted to set more stringent standards for students wishing to transfer into commnanications from other Syracuse University colleges.
Under the new requirements, transfering otudenta will need 3.25 grade point averages. They will algo need to have six credit hoursin Newhouse to be eligible to tranafer.

A student with a 3.0 GPA in Newhouse courses, and a 275 in others, qualifies under the present systema.
Newhonge Dean Henry $F$. Schulte aaid the changea have been made becaune of the rising number of atudents enrolling in Newhouse "Encollment has increaged to a point where something must be done," Schulte esaid. The number of atudents in Newhoure increased to 2,114 this year from 1,184.
"We have to make every: attempt to totabilize the amount of people exarolied in the scincol so that those students who are in Newhouse may obtiain the best possible education," he eaid.
Schulte estimated that approximately 50 applicanta for internal tranafer are admitted annually with roughly the same number refused.
Schuite said he hopes the changes in the requirements will not cause the faculty to

## Accent put on diversity at Jab with jazz, rock in two concerts

By Brent Marchant
Diverse musical etyles will be explöred at Jabberwocky this werkend, aa University Union welcomes jazz guitariat Larry Carlton for two shows on Saturday night and Grateful Dead lyricist Robert Hunter for two ahows on Monday night.
Larry Carlton began his career in 1968 , touring with the Fifth Dimension and recording his first solo album, A Little Help from My Friends. From these modest beginninge, Cariton went on to become one of the music industry'a most-requested studio
musicians in the early seventhes. Cariton's musical talent was also very much in demand for work in television, films and commercials.
In 1973, Carlton went on to record his second solo. IP, Larry Carlton
Singinglataying. A yearlater, he joined the renowned jazz group The Crusaders, with whom he made astounding advances in the use of the volume pedal gritar. The technique he developed on that album was so refreshing and distinct that it quickly became heralded as the Cariton Sound. Carlton's - stint with The

Crubadera lanted four years during which time the gromp received much recognition and multiple gold albums. He alno did gtudio wark. with mugiciang such as Joni Mît chell on Court and Spark and Steely Dan on The Royal Seam and Aja.
In January 1977. Cariton left The Crusaders to pursua a solo career. Since that time he has recorded men album with French singer/aongwriter Michel Colombier. He aliso worked with the. BeoGees in recording the title track to the fim version of "Sergeant Pepper's Lonely Hearts Club Band.
Robert Hunter's career staited before the Gratefu Dead was formed as m member of a bluegrass band. At that time, funter became. ac guainted with eventual Dead lead guitariat Jerry Garcia This was the beginning of a fruitful songwriting collaboration.

Since the formation of the Dead in the early *60s, Hunter has collaborated with Garcia to write such Dead claspics as "Muat Have Been the Roses" and "Friend of the Devil." Hunter has alao written with Dead rhythm Exitarist Bob Weir, producing mongs like "Sugar Masmolia," and with Dead bassist Phil Lesh on songs anch as "Eox of Rain""
In addition to his work with the Dead, Hunter has released two molo albums entitled Trales of the Great Rummmeners and Tiger Rose "Both albums feature strong influences from Hunter's bluegrass roots ${ }^{n}$.. Showtimes for both nighte are 8 and 11 p.m. Tickets'for both nights are now on Bale at Spectrum Snndrias Spectrum Sundriet, Skyshon. ## Championship high continues for SU creve

\% By J.T. Brady
Something happened last June 3 ont on Lake Onomdaga happomed in 58 years hadn't happened in 58 years.
A Syracuse varsity crew team won the International Rowing Association championship, roughly equivalent o the national crown.
SU coach William Sanford had pursued this goal without success for 10 years, suffering a succession of bad breaks and disappointments. His reaction upon finally winning?
"Relief," Sanford said.
"I wiag mont happy for the
four seniors on the team, who four seniors on the team, who
had't won the IRA as freshmen," he added. "They were really good - they had endured."
Sanford, too, had endured. He and 20,000 epectators who hined the lake cheered the Orange bont across the finish Orange boat across ahead of California. SU had a national championship. a rarity in any torn, and the
The Orange crew competed The Orange crew competed
in the Nottinghamand Henley regattas, both preatigious Eatherings. The only blight on SU's IRA triumph had been the absence of rowing powers Navy, Yale, Harvard and, most important, Washington. At Nottingham, the Huskies, too, had entered a varrity eight
The showidown was billed, national championship - the best of the East va. the best of the Weat. "We won going away," Sanford said of the Orange's $3 /$-length victory them; that settled the issue."
SU finished third in the race, however, behind the Bulgarian and French Butgonal teams. duty is to row," Sanford asid. They te huge mean thay average about o-for finent 220 pounds. It was the finest race rowy crew of mine has ever rowed.'
Onie Orange oarsman called the Bulgarigns "the original have it, Sainford's crew had to face its muscular rivals once again in a heat at Henley.
"People pinned their hoper ontus to beat the communist-
block country," Sanford said. "Some Englioh sportsmen gave us a boat to nae."
The SU varsity was again unsuccessful, but another Orange crew, a combination freshmen-junior varsity boat, won a championship race at Nottingham.
It was a successful and enjoyable trip for the crew. "It was really amazing how many SU alumni and atudents traveling through, Europe came over to see us," Sanford sad. "We had a party for 39 SU people one night."
While the crew gained recognition and accolades abroad, support and appreciation of the Orange's achievements mounted at home. Sanford said the team received a total of $\$ 25,000$ in donationg from groups auch as the Orange Pack and the SU Alumni Rowing Association. A \$9,000 portion was used to buy a new, ex-tra-light racing shell.
Recruiting also benefited from the program's national and international exposure. Sanford said the quality of this year's freshmen is superior to that of the past. Syracuse frosh crews, under Coach Drew Harrison, have captured IRA titles the last three years.
" 1 " just got" a letter from a man from England who saw us over there and wants his son to come to Syracuse," Sanford said. "The people are coming to us now, instead of us going to them."
This year's Orange squad is now in training on Lake Onondaga, where it will continue November. The team then mover inside to the rowing moves inside to the rowing will also und will also undertake running of weight training. It's more frip to Florid a training trip to Florida during Christmas breat in March
The training and discipline required for the sport is rigorous, some might say nearguicidal. Yet the oarsmen endure.
"The thing diving them is something built within them,' Sanford said. "Desire, a sense of gelf-accomplishment, the thrill of winning."
Winning is something Sanford plans to continue doing. We've got another good group; the snowball is rolling,"

With the Intercollegiate Rowing Association championship. roughly equivaient to the national title, under its belt, the Syracuse University crew team is rowing harder this fall in purzuit of a second crown at next summer's IRA regetta.
he said. "We"ll be one of the top teams in the country for the
next few years.'
The IRA is once again high on Sanford's priority list. "Now that I've tasted it once, I want it again," he said.

This year, however, the PanAmerican Games trials will be held on Lake Onondaga shor. tly after the IRA's, and Sanford would like an SU crew to qualify and represent the United States.
"The high of the IFRA is a big thing," he explained. "The excitement will keep the psych high enough. We won't have to worry."
Sanford expects his team's fortunes to be enhanced by the experience and confidence gained in international competition, as well as by the superior equipment now at its disposal.
'I wasn't satisfied with our technique last year, though," Sanford said. "We can gain a few seconds there."

Perhaps, but with a solid nucleus including Bill Purdy and John Schemlian, seniors, and juniors Art Sibley and Jerry Henwood, plus the other Orange advantages, it's not wait another 58 wears for to Wait another 58 years for its next IRA crown.

## A look at SU rowing from the waterline

Crew coach Bill Sanford stared at me for a moment, shook his head and laughed.

I had juat asked him for a chance to row with his team at a practice session on Lake Onondaga
"Sure"" Sanford said, atill chuckling. "'We can arrange that
The next day I found myself at the Liverpool boathouse that adjoins the lake. Sanfora etood before a blacikboard, writing out the team boat assignments, when he camusily announced that a "rookie" from The Daily Orange would be rowing in place of junior Tom Weigartz

After the laughter and jokes had subsided, the masaive crew members appraised me with scrutinizing eyes and devilish grins. I was painfully aware that, although tall enough to meet the
team's heirht requirement of 6 feet, my slight build was more nuited for less strenuous aports, hike chess or Monopoly.
"One more thing, guys," Sanford said. "He can't swim, so keep an eye cut."
Daminit, I thought, why did he have to reunind me?
I was approached by a amiling,
well-muscled rower who identified himself as Weigartz. Tom'a job was to gtick with meuntil the bioat was in the water, giving me a crash-course in rowing technique.
He approached the task with allithe alacrity of a man selling his ticket for the Titanic
My first task was to help remove the boat, or "shell" in rowing jargon, from the boathoose rack. Since I was to ride in an eight-seat boat, I had to join my companions in hoisting and lowering the heavy, 60 -footlong shell. Head and shoulders
Despite Weigartz* instructions, I nearly bore the weight of the veasel on I sidest raped than on wholy ahor I side-stepped desperately at the last moment. Not even in the water, I thought, and it's starting aiready.
When the boat had finally been lowered onto the lake, I gingerly assumed my place - seat four, ntarboard side. Actually, it wasn't much of a seat- a piece of wood on runners so that it would slide back and forth to fit the two basic rowing poantions. explained, were: (1) Forward, knees bent near chest, start of strolke; and (2) Back, legs atraight, arma straight, end of stroke. The stroke would actually be carried out during the transition between the two powitions - I hoped.
I slipped my size $81 / 2$ feet into the sizo- 13 sneakers that were fastaned to
the boat, and lixe it or not, we were ready to go. I heard my name called and turned toward the dock. It was Sanford.
"Relax," said the tall. bearded coach. Sanford spolee with a clam authority that all his oaramen reapect and obey; I nodded wreakly nand quivered.
Then, all too soon to suit me, we had ghoved off from the dock. Dave Beckett, a junior, occupied the weat in front of me and calmiy continued the instructions Weigartz had given me. Hia over-the-shoulder lecture was well-ordered and concise, but as we began to atroke down the water., I was aware only of my own feoble movements of the oar. I nodided mechanically, unable to concentrate. Sanford had once told me that termwork is easential in making a boat move, that one man not doing his job could be a disaster.
I'quickly realized I wan now that one man, and I was proving his point beyond argument.

Uneven strokes
While the other rowera propelled the shell throwgh the seemingly-choppy water with full, powerful atrokees, 1
shalily dabbled with my oar as if 1 were fishing for seaweed.
Instead of thrasting through the water with power and precision, my oar alternately fanned the nir or plunged straight downward toward the lake's bottom
Itried to push down on the oar and turn it up on leaving the water, dropping it back in pexpendicularly at the start of the stroke - proper technique. I had been told. In doing Bo, I watched the oar rather than the person in fromt of me. I was quichly kicked in the back, a result of being out of taindam with my companions - when they were forward, 1 was back, and vice wersa.
ver
At some point during all this, I was aware that I was being chastized --in rowing jargon, of courge - by the little man at the head of the boat, sophomore coxswain Dave Allen. His sophomare coxswain Dave Allen. his ing like "Square up on starboand ing ine square up on etarboand four," Which, roughly translated, meant, "Brady, bet your ass in gear." Allen was doing his job - keeping the strokes of all the rowers in har mony. At the time I would have liked to aee him fall overboard, but I later realizad that the boat would have been better off if I had done so. Beaides, Sanford told me later that Dave in a nice gruy.

At this point I was nugtered and dis couraged, but connidered mywelf for tunate. I dreaded the words "stan bosrd four but the name gave me a
strange sense of belonging. Moot im-

J.T. Brady, trying his hand et rowing for the DO, apprethensively recoives a fow pointers before embarking for a practice run with the SU crew taam. Not only had Brady never rowed before, he can't even wwim.
portantly, I was atill dry. My greatent fear was tumbling overboard into the cold lake. I have. as Woody Allen once arid, a low threshold of death. The ahell was only a few feet wide, and the geats were set so that the water was often only a few inches away. I considered my situation precarious, at beat.

No handle
Then, without warning, it happened. The oar handle trembled, jerked loose from my hands, and pushed me backwards. I was helpless, flat on my back, my arm in the water up to my shonlder. The oar dragged through the water on its own, finally free from my meddiling:
"What happened?" I asked, ai I pulled myself upright back into the boat. I thought perhapes the oar had become possessed by the apirit of sorne into, great oarman who haunted the lake and was disgusted haunted the lake and
"You cangfit a crab. Catching a crab is accomplished by
not lifting the oar out of the water not lifting the oar out of the water

Can you tela which member of the national champion 84 eriow

 rigiti, who is prinneing in
immediately after completion of a istroke. It became my most-hated rowing term.
My travail was not without ita rewards, howevar. Sanford had told me, "There is nothing I crn think of that is more exhnarating than making a boat move fast under you" At times, I was able to itring tograther three or four of what I considered to be good strokes, and the excitement gurbed over me.
Such times weve the exception, infortunately, rather than the rule. As we passed the boathouse on our return. up the water, Slanford sped alongaide us in his motorboint. "Hang in there", he yelled to me, "you're not doing bad he yroled to me, you
for your first time."

Any confidence I might have trained for Sanford'e encouragrement ranished when I Law bot photographer Gien Eliman standing The conswain yelled, "Full power,; the conswain yeiled boull power, and my boatmates began to stroke dination was lacking, everything happened too fast the oar ehook in happened too fast, the oar
my hands -
for he collection reave thit ancther crab for my collection, my third of the day. It was apparent to all that my wor kout had reached its end. Samford polled alongride in his launch, waid bomething about "catching a crab for the DO ." and mercifully rescued me from the shell. I received kind words from my teammatce" on parting. and relinquished my seat to Weigarts. He wore the same smile he had die played eartier in the boathoyme.

I sat in the lawnch, tired mpmatly more thian phymically, although a dull ache permented the muscles from my elbows down to my fingers. I felt frustrated by my inieptitude but treanaried the camarraderie I had experimosd, the challence I had undertaken.

I noticed for the first time the sundrenched beanty of the lalce. The shell unowed quichly away, thia time alt eight oars moving powerfully and in harmony. It looked easy. Weigartz was once again "etarboard four.?

## Alteracts referral service red-flags housing firetraps

## By J_P. Powern.

Mote than half of student-ocenpied honfing eited recently for city fire code viole'tionis' vrats channoled through Alteracts; the student housing referral Alteracts, Bit atudenthousing reierzal initiated a propram to inform atudent initubed aprogran to iniormetudenta of an apartmenta standing on the

We feal wa're doing a much better job by rad-flagring theae housea than by not histing them at all," aaid Earah Siwek, Alteracts director- "If we didn't list certain homes becanse of
violations, students would just go violations.

Forty-eight multiple residence dwellings in. the university area were classined as hazardous after a joint inspection by the Syracuse Fire Department and Department of B
ing simek rejected the idea of eliminating from Alteracts ligtings those landlords who have been cited for violations. Such policy would "be playing boht judge and jury," ahe said. "We're only an outlet of information," Siwek said. "Rather than not tell students anything about houses, we're telling them the houses have violations.

Alteracts will provide potential renters with specific information as to
the nature
In addition, Siwek maid Alteracta, plams to begin a publicity carapaime to plams to begin a publicity carnpaign to alert students to the presence
"Our immediate goal. is to inform people that fire hazards do exist," she seopl.
Apparently, such warninge. have been in shortsupply. Many residents of the buildings cited for violations were unaware they were living inhazardous honsing.

Alteracts hopes to work closely with the city in updating its list of hazardous hornes. A special committee was get up to study housing in the univerUniveraity Ave.
"The city is very interested in what we.re doing." said Scott Taitel, an Alteracts housing assistant. Taitel said Alteracts would constantly update he listings.
Sivel said ahe was not surprised hat more than half the student homes on the city's list were channeled through Alteracts, since at least half the students who live off campus obtain their homes through Alteracti-
In 1977 Alteracts housing referral Aerviced 6,000 studenta and as of late Angust had already eerviced 3,000 students, according to Siwel.

By Mike Maynard
The New York State Legislature may postpone action until January on a bill which would appropriate money to begin construction of a domed stadium complex. for Syracuse University, a sponsor of the bill said yesterday.
Thes Legislature had been expected to vote asinoon as it reconvened on a mupplemental state budget that would have appropriated $\$ 2$ million of an
eventual $\$ 15$ million toward construc-

## tion of a new stadium.

Gov. Hugh L. Carey has not yet announced when he will call the State Legislature back into session.
Bob O'Leary, an aide to State Assemblyman Melvin N. Zimmerman Jr. said the Legislature will devote its attention to a bill that would provide state funds for New York City
As a result, consideration of the supplemental state budget may be put off continued on pege two

## Five-year discrimination suit ends in dismissal for SU

By David Bauder
At Syracuee Unitional Organization for Women of sex-was dismisaed this spring by the New York Sratippivision of truman Righta.
The 1973 complaint took five years to decide.
JAthough NOW's tables showed "certain pattern of under-utilization and underpayment of females in faculty and non-faculty positiona," the evidence was inguricient to convict the university, according to the 9 man Fights Commission.
NOW Marguerite Fiaher, an SU faculty emeritus and bécaure SU until 1973 , paid women a great deal less than men for the same work.
mike only reason they're not doing it today is becriaté federal legialation prohibits it.
(NOW elso claimed SU discriminsted in its hiring piratices and in the promotion and tenure of women.

SU's hiring practices have improved, Figher said because of the threat of cancellation of federal con sacta."
She said she did not know whether NOW will take ${ }^{-}$We action againgt $S U$.
Depar might appeal through HEW (the U.S Department of Health, Education and Welfare)," bhe Clifford L. Winters Jr., vice chancellor for ad miniatrative operations, said, "I woild agree that
there is now a better pattern of women and minorities
But Winters said he did not think it was the fear of cancellation of federal contracts that forced the change.
${ }^{-1 I t}$ was the understanding and full-hearted par ticipation of the university in general that has led the way in many casea," he added.
subrit enou
Just showing that females were paid less is meaningless," Volan explained. "You have to developinoxe detailed information.-To just dump atatistica in the record doesn't develop a case."
According to Winters and Volan, NOW did not take into account the proportion of women and men available for the number of jobs.
"Under-utilization must be taken historically," Winters said. More women cannot be hired if there are not enough trained, and most fields had been dominated in the past by men. Winters said. -This (under-utilization) cannot be laid at the feet of the university"" Fisher agreed that NOW did
what the commission mought.
what they were looling for evidence of

## Brockway food fight matches 'Animal House'

1016\%

By Andrea Abrahnms and Dave Btern
The movie "Animal House" seems to be inspiring more than toga parties at Syracuse inspiring mo
A food figh Brockway Dininoze out
Brockway Dining Hall
Of course, this was not the first food fight at SU. But, according to several onlookers
memories of John Blunhi came to mind.
Robert Swivel. Food Service assistant director and acting manager of Brockway, dining hall. It began in the rear of the dining hall, lasted about three minutes and was conhall, lasted about three minutes
fined to a feve tables, he said.
wWe ware gitting there and
We were sitting there and it was calm," asid freshman Gary Holzmann of Brewster 3. "Then we saw a whole potato go flying It one cornar ike a basaball
It hit a table, and then a piece of pixzs and some 'corn was thrown"' said Holzmann Then somebody yelled FOOD FIGHT? and $t$ was heavy fighting from then on.
Sharri Freilicher, a freahman from Boland 7, grid at firntit was juet like a normal meal. "I heard tome guyie near me anickering," said the Arta and Sciences student, "and Then I haard a thud.
sid was dennitely an orainge," Freither anid
"I navi one guy gaba handfuil ofjunk" she asid sund he throw it and it hit thowall ac Mart theam.
Mark Eamuolis, a Broweter freahman, anid
the fight resembled the acene in "Animal House.
Many of the innocent bystanders fled for cover.
"Some people dove under the tables," said Freilicher, and some began to run toward the milk and salad bar."
Swivel said although nobody admitted to involvernent in the incident, he did single out two students whom he made help with the clean-up efforts. In addition, several studenta volunteered their services.
Swivel said SU Safety and Security was called; it is standard practice in cases like these when "the potential for injury is great."
John Zrebiec, security director, said by the time security was called, around 6:30 p.m.. and arrived," at Brockway, "Food Service had handled it.'.
Oranges and potatoes weren't the only entrees to grace the air of the Brockway arena. "The pizza was really exciting to watch fly," said Holzmann "because you could see this big bulk with sauce dripping as it fiew."
"The potatoes tended to scatter," he added. Ereilicher said, "even plates began to fly.I Freilicher.eaid, even plates
Swivel aid he thought the main reason the fight begrin was because "it was a nice day, people's apirits were high," and a few people thought it would be a good way to have fun. He did-say, however, that the thought ingpired by "Animal Home"; incident. was inspired by "Animal Honse."

## muize Too much thought for food

That I was led to the etoop by a wait-ng-line rope maze surprised me. But not, being allowed in the door without provingil gubecribed to the Camput Plam appallad mee i had come only to interview the dizector of our dining hall, in his, own home, to underntand the purpose of the new system. But the vidence I uncovered was not revealed by ainy gequence of boring questions. The private effects of a systematic mind became obvious.
N. D. Gestion, the manager of our cafeteria; held my meal card by my face and carefully compared the two.
"All right, thank you. Come on in."

## Dana L. Cooke

He pinned me with a laminated name tag: : I started for the room towards which I had been ushered, but he grabbed my elbow abruptly.
"Oh, I'm sorry. You'll have to leave that here," he said
"What, my notebook?"
"Yes, for eecurity reasons."
"What?"
"We've had a rash of thefts involving notebooks," he explained, taking mine and setting it beside a bronzed spatula. "Napkins, you see. Fit nicely between the pages."
"Oh my God," I muttered.
'You can rip out a couple of sheets of paper, if you like, for the interview." "I'll put it to memory," I said, shak-

"'I couldn't be saated until I ahowed my meal card."
ing my head.
His living room wai adorned with a license, and the world is open to him..." His voice trailed off as his eyes drifted towards the recessed floodlight in the ceiling.
His wife appeared, clad in plastic apon and hairnet. "Dinner's open!. giant mural, covering an entire wall.
which depicted, crudely, the process of turning a cow into a meal for 600 . His license hung framed over the fireplace.
"A license," he gaid, sipping a mug of Food Service wine. "A man earns his mean, ready!"

The dining room decor fell slightly short of the style of a Burger King remodeled to accommodate 150 guests.

The main table was act with dingy whitish platea and misty glasaes, ar ranged neatiy upon green mraya. And along one wal, clean and steaming
Wtood a miniature serving line.
We sat. I watched Mr. Geation, not sure of what was to ensue.
"There is something we must do before eating," he said.
"Say,grace?", aliding a large booklet at me, "read the manual.
I stared at its cover, which blurred. It was titled "Procedure for Eating Here."
"If every diner obeys the system," he continued, "it reduces chaos at the serving line."

He led me along the line, manned by his wife. She was admonished for not wearing a hat.
"But I thought if I wore a net..." she began.
"Read your handbook,"
He watched me aerve myself. "Do you need all that butter?" I threw it back.
"Why do you require people to get their salad before dinner?" I queried.
"So that the entree is still warm at the table." But it wasn't even warm on the aerving line. The corn was hard, the salad was soggy, the tea was weak, the rolls were stale. But did I complain? Futility is not my occupation.

After depositing my tray on the belt, and being checked for too many fruits on one person. I discovered my notebook had disappeared.

Sorry. We can't be responsible for lost items.

## Endless

# Not on your life, Buddy enjoy it while you can 

## Letters

Something strange happened yesterday, something sa bizarre and unexpected that it took all of Syracuse University by surprise.

It was hot
Not only was it hot, it was also humid: Sticky. The kind of weather on'e expects in New Yórk in August, not in Syracuse in September. Those unlucky enough to be stuck in classirooms rather than frolicking on the-Guad, bemoaned the No. problem on campus yesterday - the lack of air-conditioning.

Despite that the day was nice. People lounged around and soaked up the sun, frisbees floated through the air, and shorts (and legs) made at least a brief appearance on campus. Classes were held outdoors, a pus. Classes Were held outdoors, a the entire achool geemed to adopt a less hurried, less. frantic, atnosphere.
Still, there were those who cursed the weather These people areiex-
tremely short-sighted, and are probably the same ones who will curse the inevitable snowfalls. Sumimer is now officially over (that's right, it's fall, and the trees are, already turning) and in Syracuse, fall leads inexorably into winter; a long; cold, bleak winter filled with more snow than a fuzzy television screen.

When the snow comes and you sit in your freezing dorm room with nothing to keep you warín but a bot tle of Sterno, you'll long for that wonderful, hot, humid day in September when you felt like going to Jones Beach instead of to class in the Physics Building. And you'll wonder why you didn't enjoy it.

So relax. Summer in Syracuse is anything but endless, and those few hot days in September will provide the memories that will male the winter endurable.

## The Daily Orange

To the editor:
I am pleased to see so many articles and letters in your paper concerning Iran, whether they be pro or con. My intereat stems from the fact that I am an American living in Iran, and have been since March 1975 .
In. this time of turmoil $I$ am concerned with the state of the people, and what lies ahead in the future for them. I fear the safety of my parents, who reside and work in Tehran, and hope that the present situation never develops to the point where foreigners will be evacuated.
In times like this I must not be selfiah for myself or my parenta, but instead concern myself with the

Iranian people and their plight. Asa foreigner living in Iran, I cannot see or feel strain and oppression as an Iranian does, nor can I hope to fully understand the anti-Shah movement because what he does wil never affect me as it would one of his people. But I am interested in seeing the country fight itself again without any more turmoil than it has suffered already, and hope there are others in this university who feel the same.

Eileen Vernor
Editor's note: Eileen Vernar is an SU student whose family lives in Iran

## Master illusionist Kole claims deceptions aren't supernatural

By Tome Moeryallowald "Etince the beginning of time there have beginning of time thert have been thows who decemve people Somecall them magaanm, others call chem Kole eaid at the beginning of hit "World of IIfunion" Hendricks Chapel Wednesday might.
Kole, who hate performed in 63 countries, began hill magic show with a seemingly aimple scarf trick. He pulled different acarf from whet appeared to be two empty cans and wound up pulling a bonquet of fowers from a can.
He followed thia act with a pyramid trick using his 19-yeur-old daughter, Robin, who is aleo a magician. Kole opened the top of the pyramia side. He claginter the top and stuck batons reapmbling those in "Star Wars" into the pyramid. He opened the top again and his daughter was gone. He and his two assistants closed the pyramid, pulled the batons out, then reopened the top. Out popped his daughter.
After this trick. Kole discussed the art of illusion. Kole said his magic acts are mernly illutions, and he does not possess aupernatural power. Any 8-year-old can do what I do," Kole said, "With 15 years oxperience.
However, he added that illusionists who claim their feats are real can do harm. An example is the psychic surgery in the Philipines. At the request of time magazine, Kole invertigated these surgeons who claim to perform miraculous operations without using amy medical instruments or aenesthetics.
Kile saw many such operations and felt that these surgeons were frauds. They
used a mainll caperile of besert': hood to crente the illumion that they were reaching into the body to ektract dineamed tienne.

Kile does not believe in the oupernataral, but bolieves in demonic forcen The kiorciet": wne based on actual camers of cemon-pormession. Also, the Eible teaches of a spiritual world, Kole said. At this point in the show. as kole further alluded to the Bible, it became evident that himsho wasb both a magical and a pro-Christian presentation.
The things peoplé believee to be supernatural me usaally fabricated ntorien, the Husioniet said. He cited ade sin example the Bermida Briangle, the area wheremany shipe and planes have snp. posedly vaniehed, and claimed it was no mystery.
After his lecture, Kole perormed an act called the Bermuda Triangle.- He put himbelf in a lighted triangular box in which he disappeared and then reappeared.

Ine the next acf: Kole puiliod halif-atilarsont of the airi. Ife also went into the airaieince and appeared to catch coins The beat the ceiling. The beat ullution: af the Kale performed his levitation kal performed his lovitation ligitued circle behind himith be glovited circle behind himsobe ar- Yhe eeria music and daxt air- Ihe eerio muac and daxi ig einang added to the myatical efrect Kole rose about four feet the suanitants maved the prop away. Kole soerned to be init anaryonole mocmed to. be sin whimenerta filled the chapel whine the audience nat invalo overr the illusion.
Kole wound up his how witis a masic act with his daugeiter. She was put intor a clofet and her mid-section was sidd to the left, leaving a void betwren her upper and lower body. Eiving the illuaion of be ing conided into three parta.
Thais well-executed illuaión appropriately ended Kole's dranciatically aucceasfur dhow.

 Wedinetediny night the master of allumiont trought his whow to st. He illoo interjected his Chrisilan beaptinfis Into the ovent which

# Are you dead tired? 

## To increase

## Ey Walectia Konrad

have no energy.
read havecesuary for my for on reserve in read a.neceasary chapter on reserve in economics, do my laundry, clean my room, maike an 8 a.m. appointment tomorrow and I'd really like to go see a movie, but I'm dead tired.
Feeling continually tired and nervous is the firat aign of an insufficient. diet - Look at a college student, awake all night, under pressure, and mote af all: eating the wrong foods. What college student doesn't complain about lack of energy?

There is no cure for all-nighters, but the right diet can increase your energy enough for you to atudy and atill sea that movie.

## Sugar blues

*When, I'm feeling tired I just eat a candy bar or something siveet to pick me up," one student taid! Nothing could be farther from the truth. Not only does sugar fail as an energizer, but a cioset look reveals sugar to be the pur diets.
Sugar has no nutitional value ex cept its calories empty calories that may-rot your teeth, put on fat, irritate the digestive tract, cause diabetes, high blood pressure, ulcers, heart disease, headaches, fatigue and depression as well ad decreasing the body's vitamins and minerals.
The mot dangerous thing about singar is the aneaky way it becomes a major pairt of the diet. Thereis sugarin ketchup, canned firits and vegetables, and oven baby food-not to mention the pie or ice cream some students antornatically pick up in the dining finitiAfter the silverware, desert is the Frivt thing to ereet students in most SU dining halls.

- Once one realizes sugar is in almost everything, it is easier to avoid it. Fresh fruit eonitains natural sugar that really does pick you up.

It is just as easy to pick up an apple in the dining hall as the brownies or cookies packed with ougar and with refined flour, another enemy.
Better atill, once the taste buds are retrained, they will reject sugar: $A$ brownie or a cherify tart in enough to put the system in "sugar shock" after being away from sugar for a while.

## your energy, decrease

Sugar Anbatitntes are no safer. If you need a substitute, fructose, the matural sweetener found in fruit is packaged in most health food stores.
It's hard to break the sugar habit. Americans have doveloped a creving for it since baby food. In dorms, it't practically imposaible to avoid augar when the only thingt available at 4 a.m. are the candy and soda machines. But keeping fresh fruit, yogurt, nuts, lunchmeats or picinles saround is worth the extra effort when it comes to restoring energy.
"My practice has taught me one thing," wrote Dr. Robert C. Atking in his book "Super-Energy Diets" "If a person is tired, and you thentake away vitamine, and cut down carbohydraten, you can usinally get hime to feel better." sugar causes.

## White nomr

Unfortunately, sugar has a compatriot. White flour is another enemy of energy. Toproduce white flour, rice and other grains are refined, atripping them of vicamina and noems. A high can cause low intestinal cliseases, hemorrhoids and intestinal ciss.
varicose veins.
This diet als
This diet also causes constipation and diarhea, common student complaints, eoppecially while adapting to dining hall foods.
It's next to imposgible for atudents to find anything but white bread and white rice in dining halls and restaurants. Besides avoiding the whites during meals, fiber supplements should be added to the diet. With these supplements, digestion problema can clear up and the energy can now be put
to congtructive nee.

Bran and wheat germ
It's reassuring to know thatbran and wheat germare nutritional heroes in combating the effects of white flour and sugar.

Wheat germ is available in the dining halls. Many students sprinkle it on egga or cottage cheese. It tagtes good and is a natural source of fiber.

However, wheat germ is almost useless without bran. Bran tablets every day can help make up for fiber deficiencies. Pure bran granules are
the best fiber aource. The poor tante of the sramalea takea a while to get naed to. Also, if used in extremely larte rhea can occur.

## Lecithin

Another made-to-order diet supplement is lecithin A mataral subatance found in the liver, lecithin is reduced in the body by a low-tiberhighand helps reduce nerveousmess and and helps reduce nerveousness and granules or tablets.
Lecithin is the main ingredient of an
Lecithin is the main ingredient of an energy milkshake: 4 tablespoant of tableapoons brewer's yeart. I teaspoon safiespoons brewer s yeart, I teaspoon teaspoon of vanilla extract mixed in a

## your sugar

blender provides enough energy to get oven a alugaiah pergon through the day.

The amount of brewer'm yeast ahould be reduced in the beginning to 1 teaspoon and gradually increased. It taken time to get accustomed to the tacte of the yeast, and too much at once can cause bloating. The brewur'a yeast supplies the vitamin $B$ that is destroyed by unhealthy eating habits.

Maintaining a healthy diet and increasing energy levels is not only a rewarding challenge, but a crucial one. The increasing number of casea of hypoglycernia, heart attacks, colon cancer, diabetes, anmiety and other problema the typical diet causea is mai:frightening reality are what you eat" a

Taking vitamins may be worth the inconvenience.

There are almost as many vitamina as there areletters in the aiphabet. To help aimplify the many bottles of tablets in health food stores, here is a guide to the vitamins, what they do and how to spot deficiencies.
Vitamin A: This vitamin is essential to normal growth and health of the mucous membranes and ming, preventing might blindneme and protecting body tisgus accainat infecsuspected when boile or rashes suspected when boils or rashes Also, itchy eyes, dry and brittie hair and loss of appetite can occur.
The B Camplest Vitamin Bi (thiamine) is easential to the central nervous styntem. Numabuess in arm and leg is a riga of deficiency. Powers of concentration, memory, mood and perception mav be affected.
Vitmmin 222 (riboflavin): This vitamin in not prencribed in large doses. However, crucicing lipe bloodshot, burning, tearing and firht-emditive eyen are ifgra of a 182 depicioncy.
Cyitamin Bs (niacin): Niacin has been used clinicaily in treatings hyperactive children behavior Aifonders of the arring, bleoholiam, drue addiction and other prychiatric illnemere. It haralso been sued to help mpolzers reduce their deppendence on nicotine It is a faticue-firghting vitamin which also raises the bloodsugar levele in people- with hyporiyrcemin. However larte doees can caver an uncomfortable, itchy Gumh and pepptic ulcerth Dimbeten can almo be apyraivated.

Vitamin B8: A very important vitamin easily destroyed by cooking, food procesaing, refining and estrogen. Wornen taling birth control pills ahould investigate taking a B6 supplement. B6 precents nausea, water retention and kidney stones. Deficiencies are evident when an individual can't remersber his or her dreams or when a peraon has trouble loging weight while on a diet.
Vitamin R12: This vitamin corrects anemia andis involved in the metabolism of proteins, fats and carbohydrates. Poor growth and a sore tongue, are symptons of a B12 deficiency. Deficiencies in Bl 2 are rare, however, because it is stored well in the body. Yet B12 is loet in vegetariand, women taking birth contral pilla, or people who take laurce amounts of Vitamin $C$ or who drink large quantities of alcohol.
Folie ieldy deficiencies of folic acid, perhapa the most important of the $B$ vitapnins, are wideepread because of the low standards required in multivitanain pill. Alcohol, birth control pills, pregmancy and Vitamin C can alleo catuse a low of folic acid. Deficiencies can carrese ixcitability, forgetifulnesa, wealmean, fatiguo, diarrhea, palpitations, shortnems of breath, moodinets. depreecion; delutiona, hallucipations and paranoin.
Para-aminobonzoic acid (PABA): peratothenic acid, inonitni, cholino, and biotin are also epeentiol partm of the $B$ complex and moovid be loolcod for on the labels of Beompler vitaminal

Vitamin C. reduces the symptoms of a cold, helps prevent viral hepatitis and some viral and bacterial infecand sone viral and bions. Vitamin protectersums form bleeding and blood vessels from bruising. Smokern ghould take a bruising: Smokers shouid take a regular Vitamin C supplement regularly. One cigdarette uses up 25 milligrams of this vitamin. Vitamin Chas also been found to have an anti-
nxiety effect while fighting fatigue.
Vitamin D refulates the calcium and phosphorus metabolisms in the ystern. Because Vitamin $D$ is congrered a hormone, too much can be dangerous. No more than three be talken without lonowing the risic.
Vitamin Fernaps the moet controveraial vitamin, has been succearnl in treating anernia, cystr, canionally fill help overeoma male caponaly To much Vitamin E cpen impotence. Toomuch Vitamin Eican accummate in the body, minize Vitamin $B$ and C. And toence easily, an oy doen not breas down easily, an overdopecan becangarous. # "Faber Coollege graduate Blutarsky, participates in wild 'Animal House' 

By Thomar Coffey and Mike Stanton of The Daily Faberian U.S Sen John Blutaralk, who attended Fabor in numerous acts 1962, was inwhile a atudentheres including the murder of a horse in the dean'e office, participation in orgiantic toga parties, consumption of vast quantitiea of lime jello and alcohol (including an entixe bottle of Jack Daniels in a single gulp), and spying on half-naked sorority sisters, The Daily Faberian has learned.

## Film

These facta; and many more ardid details of Blutarsky's past, were unearthed by a special Faberian investigation that has been capaulized in the recently released film. 'National Lampoon's Animal House.'
When informed of the Faberian's findings, Sen. Blutaraky refured to comment and would only flex his eyebrows in aninsane manner and stick two pencils used to sign the Panama Canal treaty up his nose. -A Faberian reporter left Blutarsky's office after the senator dumped a gallon of mutard on his own three-piece sweatsuit.

I always knew that shithead Blutarsky Was no good," cursed Faber College Dean Vernon Wormer as workmen labored with chainsaws to remove the carcass of dead White horse from his office.

Knowledge is good," Wormer proclaimed. "Blutarsky and his creepy
always trying to cast a bad ahadow on this astemed ingtitution.
Among the more lurid detaila of Blutaraky's escapades are the followings - Blutarsky did knowingly collaborate with his fraternity brothers to stage a debauched toga party, during which a 13 -year-old girl whe nearly raped, kegs of beer were thrown out the frat house wingeduced by the smooth-talling stud Eric Stratton, alias "Otter."

- Blutarsky, in an orgiastic fit of gluttony, instigated a massive food fight in Ony, instigated a massive food fight in leaders of our esteemed Omega Theta Pi leaders of our esteemed Omega Theta $\mathrm{Pi}_{1}$ tized Blutarsky for his diaguting eating habits, the future Senator zpit a mouthful of half-chewed food at them
- Accordicg to files obtained from the eatate of the late Col. Paul Neidermeyer who was killed by his own troops in Vietreaponaible for the kidnapping and aubsequent death of Neidermeyer's prized white horse, which was found dead of heart ailure on Dean Wormer's office carpet. -Incensed by the abolition of Delta Tau Chi and angered by their expulaion from Faber for achieving grade point averagea hovering near zero, Blutaraky, "Otter" and several other insane fraternity brothers ran amok during the 1962 Homecoming Parade. Among the weapons used in their assault on the parade were 10,000 marbles and soupedup car digguised as a float with the motto.
When last seen at Faber College,

Blutarsky was diaguised as a pirate and had lidnapped one of Faber College's leading pom-pom girls, the present Mra. Manda Blutaraky
The Faberian was able to locate Eric Stratton, a.k.a. "Otter," who works today as a gynecologiat in Beverly Hilla, for a comment on the "Animal Housa" expose. Stratton claimed as he fondled his Becretary. "Drinking, sex, toga parties,
 criticize what we did, isn't that an indictment of our fratarnity gystem? And isn't that, in turn, an indictment of the American way of life? What are youguys, Communists or momethins?"
Another former Delta brother, knalw
only as Boon, argreed with Stratton.
around with a bunch of animals and get drunk every weekend," Boon said. "But, as I vowed in 1962, after college I got drunk every night. Hic.'
Larry Fogle, editor of National Lampoon magazine and a former Delta brother, also upheld the honor of the
"Animal House." "I got laid for the first "Animal House." I got laid for the first proudly. "Thatt's a hell of an education for a young man."
"This is so great," Kent Dorfman, former Delta member and current sen-sitivity-group trainer, gaid when asked about his reaction to "Animal House", As a result of "Animal House," the Shate Ethics Committee has announced that, pending the outcome of a special placed on double secret probation.

## Blowin'in the Wind: Dylan returns to Syracuse tonight

By Norm Meyer
From Greenwich Village sidewalks to the largest stadiums in the world; from poet to prophet to idol; from "Blowin' in through it all, Bob Dylan remains a through it all, Bob D
legend in his own time.
However, he is no ordinary legend, for he is quite hale and hearty. He must be, in he has undertaren since 1974 His most he has undertaken since 1974. His most Syracuse tonight. His concert in the Onondaga War Memorial is seld out--
When Dylan played his-folk guitar on New York City street corners in 1960 , it is prophet for a whole generation. But his gim was ao true, his lyñics so right and his vocal timing so perfect that he became "the first poet of the mass media."
Dylan broke a lot of follies' hearts when he went electric in 1965, but he was just achanging with the times. He has continued to change, and each of his 20 -plus albums is different from the one preceding like the plague, Dylan is still like a hit of fresh air.

Although he has been called a god by many overzealous fans, Dylaf if only human. He makes mistakes, and he has Portrait and Deqire Albums, ike SelfPortrait and Desire. According to the critics, 1978 has been a rough year for was panned by almost everyone, and his Was panned by almost everyone, and his reviews.
However, support for Dylan remains solid. Jann St, Wenner, Rolling Stone editor and publisher, felt so opposed to his two top critics: panning of Street Legal that he published his own rebuttal. Dave Marsh had called the albuma "joke," and Greil Marcus said Dylan's ainging has "never sounded so utterly fake." In reply.
Wenner wrote, "This LP is his most com Wenner wrote, "This LP is his most comprehensive corrant about our
state since Blonce On Blonde."
Believe whomever you wish concerning the album, because a live performance is much different. On stage, Dylan's powerful presence is almost enough to insure an ecstatic evening. The volume of material he has to choose from is incredible: "Like A Rolling Stone" "Foxever Young," "Idiot Wind" . . . the list could fill this page.

## EIDOSEOPE

## ifted follow up album ís a disappointment: stefle turens stale on 'Don't Look Back' LP

onegetertineidea that Scholz can domo ng.
it sooin, thepublic and Epic Hecorcde in to clenanos for another Bogton TNP, to see if this great new sound was for Scholv inisude further improvememtes s "Hideearolizy Studio"" then, he and Delp (vocals)i: Barry Goudrean ars), Sib Hashian (drums) and Frant
ehan (bass) literally wemt ehan (bass) literally wemt
seems that etagnation aflicts manny essful bandis today, so Boston is mot e. Bostort iss such a consistentiy sood in that anay follow-up to it would have a letclown of sorts, as was Perter apton's X"wi In Yoz after his Comzes s set. Not that Doint took Bach iss a album; Ini fact; it is atill better than follot-ripes released nowadays. I'Yias out, Scinalz atack (ilize gine) to the Pore which - viorlced the fret time, wibuile
failing to inject enough originality to keep the band moving beyondits own previous work.

The band ran into several problems, the most serious of which was the flooding of Scholz's basement during a, rainy New England apring, and the release date for as the months dragued on. Finally the as the months dragged on. Finally, the obvious that the band's most serious problem is stagnation.

Because of this, Don't Look Back comes out sounding like a rearranged version of Boston. The title track, Boston's lateg single, proves immediately that Boaton's strongest asset is the searing voice of Delp, who has established himself as the top vocalist around today in terms of sange is the track that closes out the L.P: spon't Be Afraid." Scholz gets a funiry wah-wah sound out of his guitar, and this
is a refreshing break from the recyeled "Long Time" solos which fill this album.

The rest of the album is mediocre and goes something like this: "The Journey,"a dull, pointless instrumental that is noth ing whe Foreplay, leads into its Easy, believe what we achieve will soon be lef beheve
"A Man I'll Never Be" often sounds like a slowed-down version of "Peace of Mind." but is just not asmelodicas "Hitch A Ride." "Feelin' Satisfied," sure to be the next hit single for Boston, starts out exactly like "Smokin'"" and features handclap ping breaks right out of "Long Time." The organ bits from "Smokin'" mennwhile, turn up this time in "Used to Bad News." It is almost as if Scholz took apart the songs from Boaton's first album, put the parts in a drum, and drew them out again at random in order to come up with Don't
Look Back.

Well on its way to the four-million mark in sales, the often-delayed Don't Look Back is nathing short of another huge commercial success for Boston. Unfortunately, we all know that a commercial success is not the same thing as an artistic auccess. If the record-buying public is forced to wait anather two years for Bos ton's third alburn, Scholz and his band mince Don't Look Back will become tiring to the ear much sooner than did their first Lo th.
The old Boston sound is here, but everyone is used to that already. Beyond that, there are no unforgettable classics, and anything really worthwile musically has been buried beneath the endless layers of guitar Scholz loves to heap onto every track. Perhaps now that the pressure of following up "Boston" is off out of their rut and becomenely want to ge progressive, widely popular heavy-metal progre

## ABy Elieen Daspin

Showing feature-length films at informal soirees was quite fashionable among society's jet setters a faw years ggo. Büt with the advent of Home Box Office (subacription televiaion on cable television and the beantiful people returned to their backgammon sets.
Yet now there in another form of entertainment for people with thinner pocketbooks -movies provided by the Syracuse Film Rental Service.
The center, at 145 E. Colvin St between Manleg Field House and skytop apartmenta, is, a film-rental apartice open to Syracuse residents. Tho center renta filme to individuale, public achools and colleges along the East Coast. Low-rental rates are the most attractice part of the nim gervice Along with a small rental fea, movies are available tos etude
Depending on the film, rental rates can range from an aperage so to more than $\$ 150$ for featurelength movies. The center atpplies catalogues listing prices and lengthe of all films in stock. Some of the most expengive films cost the center $\$ 1,500$, yet tudents are charged less than that for a gingle showing-
Low atudent rates are offered on auch films as the 1976 Montreal Olympica movie, "Nadia Comaneci and Others, " for only $\$ 38$ a night and "Fiying Deucea," that cost the center. $\$ 20$ and students $\$ 10$. An example of a higherpriced film is, . The Autobiography of Mibs Jane Fittman," that coet the center $\$ 95$ and students $\$ 48$.
Students interested in renting a particular film should callic advance to reserve it, according to director Burt Weeks. The center's three horror movies are booked until Halloween 1980 .
The center will rentout films regardless of topic, whether it regardiess of topic, whether, "Py The Saga of the sea Otter, "Pygmies of the Rain Forest", Boris Karolffe "Mummy." Fellini's " $833^{3}$ " or "MacBeth." The center houses approximately 16,000 filmes, most educational.
Film Tengthe vary from the two-minute "Tab Film" about a woman and her cat, to the 12 "Rominute installments of "Roots:"
According to Weeks, the center is university-owned. It is not funded by otradents. It operates as an auxillary to SU and has no coanection with Bird library's film library.

## 

By Carolyn Beyran Surropunded by Broadway pontara, director, actor and teacher Arthux Storch nite cornifortably in a chair with his laye propped up. He enthtimathealy ticcures. he maior paxtorhishifo thester.

It's obviows simply by limten ing to the tilver-harred profee giomal that he is comarmed by titermóntif on... the whll reprement.
Theater is all Ive ever wainted to do and all I've doue, "hays Storch, who is diractipg: "Tribute," a Bróndway success staxring Jadí Eemmion. "I've never had to maxke a choice - the choice waid always there."

Storch is now producing director of Syracuse Stace as well as chairman of the SU Drama Department. He has also' appeared in over 100 television ahows and directed the critically-acimimed IV series, "Calucci"s series.
Departwhe is he doing in Syxacuse?
storch
Storch came here for the stame reason he is staying outiatic freediom
"Syratase Stage offere me the opportanity to do the kind of playe that I wrant to do and of plays that I want to do and bheir ontire martistic and philosophical direction."
Unlike mainy contemporary
directors, Storch believearary that directors, Storch belipven that theater. Bhould be an entertainment rather than a cultural ingtitution. His main objective in his worlis is to provide for the in volvement of the audience. If this isn't achieved, he aays, then the theater has failed.
Storch has aucceeded. When he came to Syracuse, the theater that had preceded him had about 900 aubscribers. Syracuse Stage now has 6,000 patrons. In addition, 8,000 persons were tumed away last year cue to a lack of aeats.
Storch is also pleased with his achievernents as head of SU's drama department, which, he claime now has one of the best training programe in the country. Since he has ibeen at SU, Storch has totally restructured the department restructured the department and it now bears a closer relationship with the profes-
gional theater.

However, the drame departmert and Syracuso Stage are two totally eoparate oryarixations, Storch oxplains. Syracuace Stage is a profeanional oryanizxtion of unionized profemplonal actore. Dratra etudente work in the thentare productions only ufter the actor's union quota ia met
"The ntudents don't get paid, but they do have the pricelem: opportumity to work with professionals in a professional production.", alay Storch.

Acting profeasionals Storch has worked with include such famoue names as Al Pacino, Shelley Winters, Alan Alda Eli Wallach. Steve Lawrence, Edi Gorme and James Coco. He has also worked with such prominent writing talents as Saml Bellow and Tenineste Williams.
Although Storch atill actsoccasionaliy, be does not feel at home in either film or home in either fimm or television. He has directed in firgt love. "Theate.
life"Ster is a reflection of life," Storchanys matter-of fac tly. "My hobby is life."

Ring 475-4471

By Mike Stanton The walk on thin ice continues tomorrow ror the Orangemen (0-2) as their somotimes shaky, sometimes spectacular alyeyermes predictahle rooliequarterback preads SU into a confrontation erith the Bif 10'a Michigan Wtan She Brang (0-1) Michigan tate Spartas (O-1)
The union of Tim Wilson, the sophomore who had never SU offenge wasa ehotgun wedsing of sarti
With Bill Hurley nursing three cracked ribs and Ron Farneskickursing his inabitity Farneskin nursing his inabinty SU head coach Frank Maloney turned to Tim Wilson as his starting quarterback in last Saturday's $27-19$ lose to North Carolina State at Raleigh.

Now, with Hurley, out at least until next week's home contest against Illinois, Syracuse is stuck with Wilson. for better or worse, through interceptions or touchdowns, until a Syracuse upaet or an upset stomach.
In Michigan State, Syracuse faces deja vu as well as an imposing Spartan squad.
In their opening 21-14 loss to Purdue last week, the Spartans lost Eddie Smith, the senior quarterback sensation who holds all of MSU'a career paesing marks.

Early in the second quarter againgt Purdue, Smith dove into the end zone, scoring touchdown of the afternoon and fracturing the wrist of his throwing hand.
Smith is a definite nonstarter tomorrow and will be replaced by sophomore understudy Bert Vaughn, a capable yet unspectacular quarterback who completed 12 of 21 passes against Purdue points.
Smith's playing status is a "day-to-day thing," acRogers, and he could be cailled upon Saturday if the Spartans need him.
No matter who is throwing, a favorite Michigan State passing target has to be Kirk Gibson, the senior wide receiver who weighs 210 pounds, is 6 dash in runs the 40-yard Gibson who 4.4 seconds. career mark of 18 pasa career mark of 18 pasa touchdown catches, is also a phenomenon on the baseball ramond, where he hit 390 stole 21 of 22 bases, and hit a team-leadng 16 home runs last spring. His reward was a bonus contract with baseball'a Detroit Tigers, with whom he will play next year.
When and if the Spartans can't move the ball, they can call on a secret weapon punter Ray Stachowicz. Oniy a sophomore, the Polish Leg averraged 40 yards per lick last year and, last week against Purdue, averaged 51.1 yards, including one 71-yard hick.

The Spartans are not a successful rushing team, which should encourage Syracuse's weak defensive front. The youthful bacicfield is led by sophomore tailback Steve Smith, who rushed for 52 yards on 10 carries against Purdue. Anchoring a young offensive line is senior tackle Jim finealy.

On defense, the Spartans are strongest. in- the secondary, where safeties Ron Graves and Mark Anderaon will await any of Wilson's mistalces. Junior Mike Marshall, a fine corner bact who sat out last yetar wian practice and corld malon Practice and could maise
ecruit him.
Up front, SU'e Art Monk and Demis Fartman will have to un at a pair of fine deffantive tackles, 285 -poind Angelo Fields and 236 -pound Melvin
Seven-point underdogs; the Orangemen can hope that the Spartans will be. looking beyond Syracuse to their next California, Notre Dame grid California, Notre Dame and Cross-state rival Michigan.
But it is SU, not USC or Notre Dame, that must defeat Michigan State tomorrow. The feels, are Wilsionand the defey feels, are Wilson and the defenGive performances of
linebackers Willie McCullough and Jim Colline.
Maloney is depending on his inebacking tandern to atiffen a defense that so far has surrendered 55 points and nearly 1,000 yards in total offenae to Florida State and V.C. State

As for Wilson, Maloney says his unpredictable quarterback must eliminate the mental er rors he committed in Raleigh "The only, thing that separates Tiñ Wilson from Bill Hurley is their mental capabilities," Maloney observed.
Mental capability, however, is critical to handling SU's complex offense, and with Wilson at the wheel, Syracuse's play could resem ble a scene from the Perils of Pauline.

When Tim goes out there, you're afraid he'a going to collapse on you." Maloney said. "I'm afraid that 20 percent of the time he's going to fumble the snap, another 20 percent of the time he's going to run the wrong way once he gets the snap, and another 20 percent of the time he's going to line up in the wrong formation."
It is the other 40 . percent of the time that Maloney's mind has probably reserved for Wilaon's big play capability. It is that kind of potential that has Maloney hoping his Orangemen can walk on thin Orangemen can waik on thin

The infury to Bill Hurtey (5) has hurt SU, but indicitiona now are

## that the quarterback will return for Sept. $30^{\circ}$ = llifinois gamb. <br> Hurley's hurt heals hurriedly <br> By Dave Stern

The condition of injured Syracuse The condition of injured Syracuse
quarterback Bill Hurley is improving, and all indications are that he wrill return for the Illinois garne Sept. 30 at Archbold Stadium.

Hurley, who cracked three ribs during the opening drive of Syracuse's loss to Florida State, Bays his ribs are feeling better every day. He added that the doctora, Coach $F$
Maloney and Hurley himself think the quarverback 18 physically able to play right now.

However, because of the risk of reinjuring the wounded area, Hurley will not see action tomorrow against Michigan State.
"It's a hard decision to make," said Hurley. "We don't want me to go out there and reinjure myself."
When will Hurley be back to lead the Orange?

I can't answer that," Maloney said. "We ghould have some ideas within a week. Each day he improves a litt
There are no evident bruise marks on the lower half of Hurley's chest and he has no prolems breathing, although he feels some prolems breathing, althou

Hurley began jogging Monday and participated lightly in Tuesday's practice. According to a source close to the team,
"The pain is minimal," Hurley said, "I cap stand it- It's when I get hit that it hurts." Hurley has been heavily wrapped aince he esumed working with the tcam.
Maloney bays Murtey will "definitely" be fitted with some type of special padding:
"He will try to throw within a week with the specially fitted padding." Maloney said.
During his absence, Hurley has been eplaced by sophomore Tim Wilson.
"Tim is doing a very good job," said Fiurley. "He is only going to get better and make a lot of thinge happen out there

Hurley said he was helping Wilson during the North Carolina State game. MI was just tryng to help him by reminding him of little things like his footwork and handling snapa,"

Perhaps in
Perhaps the worst aspect of the injury for Huriey has been the gnawing frustration of watching and waiting.
"It's very hard on me," Hurley said. $n$ I'm watching the term and I can't halp feel that I could contribute."
"He has been very sood about it, "Maloney said. "He is very mature and he can't just git here and cry

Meanwhile, Hurley must await the decision on when he can play again. TI hope some decision comes soon." Harley said.

Mile Rotiaida (83)] win have to do bitter tomorrow quirat

## Police apprehend youths in shooting at fraternity <br> By-Keqin Haynes <br> said. When asked to leave, <br> backed his way to the van

Four Syracuse youthis have been arrested in connection with a ehooting outside the Phi Kappa Pai fraternity house late: Friday night: No one was injured in the inone, we
According to police, Richard Dennis, 18, 416 Stafford Ave.; Jamines. Betelak, 16; 321 S. Collingwood. Drive; Davis Becker, 16,807.CalebAve.; and Hillidile Ave: were charged Hillsdale Ave. were chauged with reckless endiangerment
Ken Reiff, a Phi Pai member, said the trouble-began during the frat's opirinouse party at 113 CoHege Place, when the four abeyectedito the condition of the foombaH table. Reiff, along with other, Phi Psi brothere, then closed the table. About two houra later, at 1 a.m.-Dennis and Matthews entered the bedroom of Paul Grosse and became cobnoxious and abuging Grosse

Denmis would not cooperate Reiff said: Reiff, Grosse and another person then escorted Dennis out the door.
As they approached Dennis' blue Ford van, a witness, who asked not to be identified, saw Matthews loading a 22 -caliber riffe in the back of the van. Matthewe handed the gun to Dennis, who turned and aimed at his escorts.
Grosse said Reiff then left to call the police while he and the third escort tried to reason
with Dennis, who Blowly

## Stadium's fate rests on Wednesday vote

By Milke Maynard
The New York State Legislature has been called into session for Tuesday to vote on the supplemental state budget which may authorize spending $\mathbf{\$ 2}$ million in state money to build a domed stadium complex for Syracuse University.
Deriocratic State Assemblyman Melvin N. Zimmer Jr., a cowhile threatening them with the gun.

They were all really out of it," Grosse said. "After thever" bal abuse went back and forth, he fired."
No one knows exactly where the shot hit, although Reiff Baid he thought it was fired ning. The third escort disapreed.
us...definitely," fires he aid at us...definitely," he said. He es timated Dennis was about 40

Bob Dyten played to arremthusiartic but well-behaved crowd at the War Mernorial Friday night:" He charmod the audience with revisions of old tumes such as "Blowin' In the Wind": and "Like a Rolling Stone.

Drawing fray Dave Maley variety of material, Bob Dylantreated a sell-out crowd of more than 8,000 people to an evening of musical history at the Onondaga County War Memorial on Friday night.
Dylan, dressed in black pants, white satin shirt and black vest, rarely left his Fender electric guitar as he played songs ranging from the eerie senor (Tales of Yankee Power). ofr his latest abum, Street Legal, to an electrified ver It All Back Home.
The 10 -member band, including two female back-up singers, played tightly and skillfully, back-up singers, played tighty and skinfully, but ylan was clearly the star of the show. His rhythm section anchoring Alan Pasqua's soarrhythm section anchoring Alan Pasquas soaring keyboards and the biting gross. Dylan brought out his harmonica Billy Cross. Dylan brought out his harmonica only a few times, but Steve Douglas saxophone
was an adequate replacernent, giving the music was an adequate repla
Most of Dylan's old material was reworked making some songs barely recognizable unti well into the first verse. For example, the backup singers present on Dylan's new album have been worked into his old material. They sounded like a background gospel chorus to Dylan's preaching on the powerful "Ballad of a Thin Man" and :'I Shall Be Released."

The peace anthem, "Blowin' in the Wind," near the end of the first set, was the only song in which the new arrangement did not work well.

## History class in sell-out show

The electric guitars, organ, drums and flute in this version were no fratch for the simple perfec tion of the acoustic guitar and harmonica of the original.
Dylon rarely introduced songs., leaving it up to the audience to guess what was coming up next. The mostly. older crowd responded loudly when Dylan belted out "How does it feel?" during the refrain of "Like a Rolling Stone." The audience was not overly rowdy, but seemed to thoroughly enjoy the entire two hours of the concert.
After an intermission, Dylan carne back to play a couple of older songs before going into "A Simple Twist of Fate" from 1974 's Blood on the Tracks LP, which most critics regard as his last really good album
The concert reached its high point during a stunning version of "All Along the Watchtower." Carried along by sax, violin, guitar, and of course, Dylan's harsh vocals, this song more than matched the intensity of the Jimi Hendrix version, and had the crowd on its feet yelling for more.

And Dylan gave more, as he launched into "It's Alright, Ma (I'm Only Bleeding)." which he made a classic during hie 1973 tour with The Band

Finally. Dylan apoke to the crowd, making a derogatory comment about disco and answering his critics who say that he has gone "pop." He then thanked the audience for its "love and understanding"" and proceeded into "Forever Continued on page two

## GSO to consider new budget allocation procedures

## By John Rosenberry

The Graduate Student Organization is considering adopting a new pudgeting procedume to allocate its adopting a
The proposal will be presented to the GSO Senate at its Thursday meeting. It formalizes certain aspects of budgeting, such as allocation of special program
The new proced previously had no formal process.
The new pxocedure "should add objectivity and acCountability to the system,", said GSO President Ned GSO.
graduate students and hadent fee each semeater from The produate studenta and hais an \$87,806 budget.
The proposal also chamges budgeting for academic In the past
In the past, Hancia zaid, each of the 47 ecademic departmenty eubmittedt in dolliantigure badget Groposal and its planiffor the money requeted The GSO Finance Cominititee; Tovitw the proponalis and malre recommeriatione to thi \& 8 , tito.

There was "a great deal of subjectivity" in the process, Harria said. It was ambiguous because the Finance Committee had to decide the accuracy of a
department's. cont entimates for fits programing proposals, Harris said.
Under the proposed syatein, departments would not submit a dollar-figure budget proposal. Rather, the finance committee would determine ita allocation based on the number of students in a department. general allocation, used at the department's disgeneral allocation, used at. the departments disonly upon approval of the Finiance Committee, Harris. said.
"This should provide some initiative for departments - to develop creative, educational programming," he said.

This benefits the Budget Committee, Harris said, by eliminating "philomophical digenaiona about-a department's programing it bridget hoiocinge.

Deciaions on funding programs are made during the year as programi proposals are submitted to the Finance Committee.
Thare has been only one budgeting change for cam pustwide servicee and epecial interest groups, Harris said. These organizations must present a dollar figure budget proposal, he explained. Organization representatives will be invited before the Finance Committee to defend the proposalis. In the past, these representatives appeared before the entire Senate.
This will eliminate prolonged diacussion during budget hearings. Harris said the change shouldhave no impact on the amount of money theae organizations receive.

The proposals were writien last year by Harris; former GSO Preaident Rosa Burike and last yaar' Finance Committee Thic year'a budget was prepared according to theed cridelinom even thaugh they were not officiel peocedures, Harrie maid.

concoption of Earth Day, a nationwide "teach-in" on ecology Participating
were 1,500 colleges and $10,000 \mathrm{sch} 001 \mathrm{~s}$ were 1,500 colleges and 10,000 achools sponsoring apeeches, lectures,
dramatizations and eco-tours of both dramatizations and eco-tours of both sporited and unapoiled environmentsEarth Day brought together campus radicans and adminintrators, aenior construction workers, It developed dialogue and enabled a fledgling, though vociferous, envi
But gone now seem to be the rag-tag armies waving their ecological banners that brought en virommentaligm out of the hallowed, ivy-covered-wall into the kitchens of middle America Vanished are the angry legions decrying the despoilment of our lakes and streams or the charcoal black asganit waged against our lungs. With the exception power plants, wuch as the 76 protents in Seabrook N.H., the issue of envirohmentalism geema to have been laid vary peacefully to rest.
Or has it?
When-the word of Mother Nature's impending demise got out, many of the world's finest physicians and scientista sought to attend to her ills and aches. As the problems of water and air pollution became better understood, 80 did the necessity for environmental legislation. Between 1972 and 1976, no fewer than seven major environmental laws were enacted, including the Clean Water Act, the Clean Air Act, the National Environmental Policy Act, and the Resource Conservation \& Recovery Act, giving birth to an entire engineers and bureaucrats, all necessary for the implementation of these laws. In fact, the Clean Water Act, in lawa. In fact, the Clean Water Act, in proviang for the contruction of

have created.
The situation is perhapa conn plicated fartherr by the ineidious change that has occmired in the nature of enevery solution creates a groblem tha this maxim seeme to be borne out by recent evente.

We have cleaned up our waters and airwaya, only to face disposal problems with toxic sludges and air precipitator washings, Our resource recovery planta, deaigned to conserve eriergy and reclaim materinile, displace meighborhoods. in some ways the
gituation is much worse. The lave and situation is much worse. The lawe and agerrcies that were created to help alleviate probleme serve now, in tom mstances; as obatacles. Crass roots an vironmental organizations euch as National Resources Defense Council Sierra Club, Einvironmental Defense Fund and even NYPRRG apend hours poring over the endless river of cegulations pouring cut of Albany and Washington $\quad$ D.C. An vironmentaliats's' have become ane atep removed from their roots.
Before, We had factoriea discharging cons of untreated waste directly into the nivers. Now, we find that five pounds of PCBa each day in the Hudson River in a small town north of Albany is sufficient to close all commercial Sifhing the length of that mighty river, You can'thelp bat look to Niagara Falls - where hundreds of Namiara Falls - where hundredo of Camilies were evacuated from the Love Canal area after being aliowed to inven an old chemical inndfil to apon an old chemical landinil bite Without asking, is this environmental brontogaurus really safeguarding us In the Love Canal gituation, agencies in question had the same daka they nov hold in their hands amont three year ago. Does it take the constant prodiling of neighborhood associations, en: vironmental groups and mational media to finally stir the beast? Perhaps in becoming part of that "aystem," en vrommentalism as we've come to know it has gotten too coinfortable, too fat too many beers in front of the elevision.
And each year there has been a rumable from the small seacoast town of Seabrook, N.H. Each year it has grown a little bit larger, gotten a little more sophisticated, come just a little bit fur ther It might not be anything at all, bat then agaim:.
The other day I went down to the basement and got out my hip waders. And I walked along a stream bed just for old times sake.
Joe Salvo is regional coordimator for the Syracuse chapter of the New York Publif Interest Research Group.

## Blank faces and briefcases

A group of women walk down the hill They are dressed in fashionable pantauitg and dresses,
stepping adroitly along in high heels. They are talling about engagement rings. The tip of a notebook protrudes from an oversized purse, but it doesn't give them away. You'd never know they were students.
A man walks briskly across the street, briefcane in hand. He wears a striped tie; it blends nicely with the color of his pants. He'd make a
perfect commercial for METRO, except he's coming out of Kimmel.

It used to be that you didn't need HL and Crouse to tell you were on a Hollege campus. You could tell in college campus. You could tell in heavy ringe about girls' necks, the bubbling if petty enthuriasm, the school spirit. In the ' 60 s , you could tell by the ragged jeans, the protest signs, the peace symbols -mese were college students.

But now, the folks on M Street

## The Daily Orange

aren't that much different from those on South Salina.

College students are loaing their character.
"The real world" has taken over the SU campus. It's reflected in the way most students dress, act and think. Gone are the days of school spirit and frat pranks, the days of individualism and social activism. And fading away are even the curiosity, the absorption in learning; exploring and Erowing. Students are busily pouring themsel ves into the mold of their major, preparing to become young executives and nurses and journalists and wives and husbands. The emphasis is on preparing, on specializing; on waiting to join what we used to call "the eg tablishment." We are building a campus microcosm of "the real world."

Look at the Student Center; look at Jab. Mixed drinks and neat rooms for the sharply dressed. Look at the future of M Street: fine food restauirants and stores that could be advertised in."Apartment Living "The diversity of the campur is becoming homogenizta, an co-ope give way to large dorms, and
even old HL's hallowed interior is now disemboweled.

Maybe it was just one too many fathers saying, "You're too idealistic." Now the emphasis is on practicality. Majors are chosen by the job market more than ever before, and even electives are more reflective of expected GPAs than diversified interests.

But college is supposed to be an experience, a lifestyle all its own. A growing time, a searching time, a time to try on new ideas and new roles and experience people different from oursel ves. A time not to be too cautious to make mistales that can be learned from, or at least be laughed at. A time to make discoveries and to learn about the world and comed to love it enough to try to malse it better.
The architecture of the buildings, the attitudes of the administration - these are not the determinante of the campus character. There would be no campus without its students. And no campus character without students whose interests are confined to themselves.

Ine euppect exa Eohrodolied

Laryy. Certton" smergetic performence ple ened two rowdy Jab crowde Saturday night.

By Larcy Crant With cigarette in hand, veteran studio nforician Inary Cariton put on a niprovarine ahow of rock, blues and funk to a, full house at Jabberwock'y Saturday night

For his opening number. Ceriton exnerged on atatge in new jeans, shiny black loaferm and man plan Thhirt, and laum Ched into '"Peg," a cut from Steely Dan's Aja. This tune got the altewdy-intoxicated crowd gring, eparisimg an energy that filled the room thronghout the show

Billed as a jazer act, Cariton'a performance was actually more a combination of othex musical styles. Many of the songs fextured simple rock and funk beats by the backup band, which provided a suitable sinowcase for Cariton's fne guilar-playing. Such musical diversity was. eapecially apparent in Cariton's aecond set when the band moved from blaes numbers to Spanish tayes and then back to funk and mainatream rock 'n' coll.

Carlton was at his best when he broke away from wellrehearsed soloy. During such passionate frenties, Carlton would clowe his eyes and let

| Write for news. <br> Call Jacqui at 423-2127 | SANDWICRIES <br> SANDWCHES 82.18 . subs in: <br> WE NOW DELIVER <br> TODAY IS WATSON HALL DAYI Mon: Thure |
| :---: | :---: |

loose with lis exitar. The playing was oftion brilliant and gat. 5y. The bacik-up band waw sum priningly tight, convidering the ract that th base player was just added recently and the drummer joined the group Caly for this tors. However. Carlton kept them in lime by keeping the momentum of the Bhow lively.

Although' Carliton nppeared extremely enthineod on otage, he vas not a nashy performer There were no big sweeps of the arms and no jumping around the etage. Cariton was just into putting on a grood musical performance and having his backup band sound tight.

The weak spot of the show was Carlton's singing. On slower blues numbers, Carlton's gof vocall were muf ficient, however, on full-tilt boogie numbers, the binging was not only weak, but out of ture.
Tho enthusiastic erowd appreciated Carlton' effort The atudience rocked back end forth and cheaxed Cariton back onto the stage for two encores.
Carlton* performance Saturday night howed why he is one of the conntry's moet sought-after otadio municians. His superb guitar playing and masical vereatility provided the guts of a fine, rocking show.

cult got eloser to impossible with play in the first quarter when MSU
a 76 -yard acoring drive on a 16 -

The bus and plane ride from Spartan Stadium in East Lansing to Syracuse takes only
about an hour and a half but it was agony for Syracube lineman Chris Shaffer. Shaffer was hit with a helmet on his left knee during the Michifan State game and Saturday night returned to Sypacuse for surgery at junior; Shaffer will be out for the rest of the season.

AER-FM will festuregresta Don ministrators Joe Julian and Joe fited to tame in and phone 423

yard touchdown run on a reverse by Ganker Kirk Gibson.
Syracuse cet a amall glimuer of hope Give minuten into the second quarter when Ron Farneski, at quarterback for Orange starter Tim Wilson, hit Bruce Semall for an 8-yturd touchdown pass. Farneski entered the game after Wilson had fumbled two snaps from center Andy Gis singer and had been ineffective rumning the SU offense.
The Spartans just about won the game on their next drive, which was capped by three passes to the brilliant Gibeon. On the firat, Spartan quarterback Bert Vaughn ( 9 for 19,183 yards)lofted along pass down the middle that looked like a sure touchdown until official John Joyce got in Gibson's way and knocked the receiver down before Gibson could get to
the ball. It was the best job of coverage on an MSU receiver all afternoon.

Vaughn did not mige on the next play. however, as he found Gibeon opean over the maiddle for 14 yarde. and then he weat back to the aplit end, who thit time had ayoided Joyce and the SU secondary for a 36 -yard touchdown pasa. MSU had
lead and its first win of the year.

The rest of the game was highlighted 74,511 (the largest an SU team has ever 74,511 (the largest an SU team has ever Mlayed before) of the scores from the fine catch by the other split end Eugene fine catch by the other split exd, Eugene Byra, entered the locker room at halfime thead $35-7$ and lengthened the lead to $49-7$ berore Su scored twice in the last $2: 30$ of Play. First, Monk made a diving catch of a Farnesin pasa for a 24 -yard touchdown. six yards away with $1: 01$ to play.

Before the game, Maloney said he woild

The SU secondary seemed to spend much of it time Seturday in fruitlese pursuit. Here Terry O'Leary (24) chases Michigan State
back Derok Hughes over the goal fine for 28 -yard touchdown run.
be aratisfied with his team if they gave a 100 percent effort.
"I am bitterly disapporineed, that whould answer that question Maloney said. "We did not come out on the field to play.
One major Syracuse disappointment came because of its pass defense, a threeman zone designed specifically to cut off the deep pass to Byrd and Gibson. It failed miserably.
"That three-cieep zone is supposed to be the impregnable defenge agrainet the long pasa." Maloney'said. That juet wann't true today." Byrd caught four paroes for 92 yards while Cibson was two for 50 .
Another probability which got loat on
way to certainty was the play of its way to certainty was the play of Wilson. At Friday's practice session in Spartan Stadium, Wilson appeared confident, once aaying aoftly while watching Michigan State begin itw practice that Those gaye had better be ready." Satar day it was whaon who was not.
Although he had rushed for 109 yards last week, Wilaon couldn't seem to get around the cormer on SU's veer offense Saturday. He gained only 28 yards in 12 carries. He was 0 -for 4 passings The key figures, however, were the three anapa the quarterback furmbled.
"I don't know what happened," he aaid after the game. His solemn face looked both stunned at what had just happened. and perplexed at why. "I felt I had a lot more confidence thin week. I really thought we were going to win. I worked no furables, not one. I really don't know why it happened, I can't put my finger on one thing.

Farneski drove Syractise to its three touchdowns, but he also fumbled the ball twice and threw one interception.
"I'd say we've got some deep thinking to Mo about the quarterback position, and the ability on offenae, but we just can't seem to find the guy who can the pull the trigger for ual?
Syracuse had the guys Saturday who tried to pull the trigger, except they had the gun pointing at their own Orange helmets.

## Monday morning

Long after Michigan State had rushed Syracuse on Saturday, 20,000 fanis remained in Spartan Sterdinn. It Was Band Day for NSSU, and the fans had stayed to listen to three high school bands perform in the late afternoon sun.

They were there for the day, not for the game as much as for the atadium, the color, the pageantry, the cheerleaders and the band. To Michigan State fans, and to the fans of perhaps 80 percent of the major college teams in the nation, football is a fever.

At Syracase, however, football only occasionally becomes a hot flash. The $S U$ sports administration, with its hand on the dangeronaly weak pulse of Syracuse fan support and its eye on filling a new 50,000 -seat stadium, is deaperataly trying to catch up to achools like Michigan
State It is now marketing spirit and State. It is now mariseting spi
pageantry through promotions.

Athletics, intercollegiate and pro, are in a pure sales buainess, pare, hatout sales, " aid first-year anhleste director Jaice Crouthamel. "We waint to make football an enjoyable, exciting, speccacular experienco. We wiat posterm, balloops, the whole thinte".
"Thia miveraity had actopted a practice of leting the people solno bay ticluets come to us," said Joe Gallagher at gistant AD for sports relations, who is doing mont of the new promotions work. "Now we are coing out to them."
The promotion, campaiga hat beeri waged om many fronts. Ticketron is salling SU tickets for the fixt time. The athletic department has sold blocks of ticicet Tor Eames at Archbold to both Pater's IGA and Fays Druge for thern to sell at a reduced rate- Peter'a aells its tichrets, which were originally $\$ 8$ endrone seats, for $\$ 3.89$ apiece.
$\therefore$ SU has ispo urranged a preprama
brunch at Drumling before home games tailgating an effort to make up for the tailgating atmosphere Syracuae lacks. The most obvious promotion, however, has been at the game itself. Sept. 9 g Florida State game was also jersey day Wing a ne nizat 4,003 side into the gateget ting a number "5*SU jersey. Saturdays Ilfinoia game will feature drawings for five 10-speed bikee, 10 cases of cham pacne and 10 spice baskets. Nov. 11, th jinal home game of the geason. will be

Perhaps the key reason for these promotions is the new ataditum, which
hangs like a giant carrot before SU adhangs like a giant carrot before SU administratora - it's been newry impoxible to reach, and when they get
might prove to be too big to handle. might prove to be too big to handle.

If weire going to sell 40-or 50,000 aeats Wa have to staxt generating ways of marketing our tickets,* Gallagher Baid. "If we are sayinig to the state, county and the city-that we need a 50,000 -seat stadium, and yet we can't Eill w 26,000 sest atadikm, how can wo justify that? But the promotions have met with op powition Axnib Ehricict, the muchmaligned but still-infuential eports editor of the Syracuse Ferald-Journal,
blasted the univergity parlier in the year for its thelling compaign.
"There have beem isolated cases of oppowition," Croathamal asid. "We have to get people ased to thim. Fromotion are dowe becrane they have to be done. We munity. The poditive polewe hope will be munity. The poantive polem them mertive pote.
 how in the foofball teamis $0-3$ ftart. now.Withont rood team, promotion Itgif will not celliticlatos" Grallaghec maid-ina wouried facen of the at nlaticad

Michion Slopl Stashenko The trailblazer for colleciate epp promotion is Don Canham, the athletic director from the University of Michigan, a man Gallagher calls "the top eporte promoter in the country."
"We"ve got to promote what we have," Canham said. "We'vegot to ballyhoo the pageantry, the weekend on the campur the kids, the cheerieaders, the bands... We ve got to sell the spectacle. There was a tivne in Syracuse foothal When the spectacie sold itself, but me
longer. Without a body of alumni that longer. Without a body of alumni that
stays in the Syracuse area stays in the Syracuse area after graduation, and lacking great loyalty squeece in ite football mrogram. The equeece in its football program. The时erase football attendance for Syracuae has fallen from near 35,000 to found and quickily.

Tm after the young family and young adilits - people who didn't attend college or at learst a different college, Gallagixer said. We are after fris in Binghamiton, Rochenter and Utica "The idea, accorcing to the godpeiof Canham, is to cret the famnies in the seat fampies, parips, fannies.
${ }^{4}$ I dom't feel we've kept up with what's boen saing on in the rest of the country for many yearm, Croukhame taid "What we're doing is what's toing on in Bombty Syracuecitit etill n nevidoe. So is Canhamis notion thatmodern athletic is Canham a notion anat modarile like a whore on Main Street" to support their programin.
SU might not yyt be a whore on Man Street, but it hag lout its virginity.

## British actor brings Lewis Carroll alive

3y Tumatiny w. Forbes 5 uperb is the word that best describee' Friday's apargelyattended performance of "The World of Lewris Carroll," by Britizhactor Michael Rothwell in Civic Center's Carrier
Preatrer
The show, a one-man play Huch in the oame genre as Hal Holbrooly's "Maris Twain" and Samen Whitmore" "Give Ern Hell, Hariy" is based on Carroll'm personal letters as well as sections of his works, mannely his "Alice etorios and a lesser inown worlc "The Huwting of the Smark."

Rothtrell, who is on his first North Anyerican towr has performed in this production since its debut in 1975.
As in the other two one-man plays. the audience gains insight into the character of a person through mannerismas and dialogue.
Rothwell portrays Carroll as an anxiety-ridden man who Ends detightin children andin storytelling. Yet the actor also reveals another side of Carroll; that af a rebel who dishices many of the attitudes of Victoriani England. Heillustrated this through Carroll's biting letters to bis contemporaries.

What' makes "othe World of What makes dise World of Rothvell's display of emotion. The material itself, researched by the artor for a year is anin.

## $\star$

## Vote

Continusd tront pese one sponsor of the stadium appropriation, said yestexday the state hegislature would definitely act on the supplemental budget either Tuesday or Wedinesday.

- Republican--state' Senator Tarky Lombardi, the other aponsor, said he thought the state Legislature would vote Wr the stadium legislation Wednesday, with Tuesday devotcd to committee raeetings and party caucures.

The two men"a statements put to rest fears that the Legislature would postponeacting on the supplemental budget until January.

The $\$ 2$ million is part of an eventual $\$ 15$ million grant which Gov. Hugh. L. Carey has pledged for the atadium project.
The project will include a continuing education center adjoining the stadium. SU also hopes to build a student center at the corner of University Avenue and University Place as part of the project. Construction costs for the three buildinge are expected to reach $\$ 40$ million.

trigring blend of pertomal letters and nonsense (especially yinymes from lisa works). The result is like a Genesee Cream Ale, in a semae-somewhat hard to describe
Rothwell is simply one of the finest actors around. To be able to perform any role as demanding as Caxroll'm-forit demands mpore than most ordinary rolen-takes an unumarl amount of acting talent
At the end of the 1 whour ahow, the audience of 67 , mos-
tly Carroll fans, gave Rothurell tly Carroll fans, gave Rothwell a well-deserved ovation.

## Lack of candidates mars SA Assembly elections <br> By. Carolyn Beyrau <br> election. They also received only 41 petitions

Only 64 candidates will compete for 124 Student Association Assembly seats in tomorrow's election..
Dale Cohen, SA vice president for administrative operations, said, the number of people running is a "pretty high amount, comparatively speaking-
However. 76 candidates submitted petitions for the 1977 Arsembly election, and 93 can didates ran in 1975.
Cohen said SA expects about 40 write-in candidates, which will boost the number elected to about 100 .
Elections were origimally planned for Sept 20. However, SA dia not receive computer list of dorm residents or of the number of students living in off-campus housing in time to hold the
before the deadline was extended.
Polls will be open tomorrow from noon to 8 p.m. in dorm lounges. Undergraduate students can vote only for candidates in their living area.
Because of a lack of election officials, Lawrin son and Sadier residents will vote in Lawrin son's main lounge. In addition, Day and Flin residents will vote in the Flint main lounge Cohen said.
Area-housing, off-campus and South Campua residents and Greek members can vote in the HBC lobby from 10 a.m. to 5 p.m. and at Bir Library's first floor information desk from 5 to 8 p.m.

Any undergraduate resident is eligible as a write-in candidate, Cohen said.

## Co-ops rank high on SU list of endangered species

A species in danger of becoming extinct on the Syracuse University campus is the housing co-op. In thelfist five years, the number of co-ops has decreased
Peck, a men's co-op at 500 . Comatock Ave., and Hafts, a women's coop at 795 Ostrom Ave., are the lame Burvivors.
Pailing lots now exist where Co-ops I, II, IV, Nottingham and the Forestry Co-op once stood. Ostrom Co-op, which wasclosed this summer, is now the new home for the Syracuse Regional Energy Information Center.
According to Susan Decker, housing coordinator for the Office of Residential Life, co-ope were closed because they were structurally unsound and buiraing

Kimme Oinifig Hatt is one of 17 buildings on campus undargointg
ronovationis as Syracuse University uses a $\$ 1.6$ million loan to
minke fitis buildings miore onergy officiont

But many co-op residents believe the university hows co-ops to become "structurally unsound. Robert -Spence, supervisor of maintenance disagrees.
"Each year, usual maintenance is done in the coops. We make necessary plumbing repairs, replace broken windows and other things like tighten door knobs Any painting is done in the co-ops when the residents request it and it passes inspection.'

The only figures released concerning repairs on coops were the ones released last year after the cloaing of Ostrom was announced.
According to Clifford L. Winters, Jr., vice chancellor for administrative operations, Ostrom had an average operating deficit of $\$ 6,000$. It would have cost the university $\$ 22,000$ to keep Ostrom open, he said in a letter to the Ostrom residents last vear.

Former ORL director Jane Stanieki said no one in particular was to blame for allowing co-ops to deteroriate. "That's 15 years worth (of blame) and you can condemn anyone you want for that.
ORL also maintains that there is not enough student interest in the co-ops to justify repairing them.
But many co-op residents counter by saying that other students are unaware of this alternative lifes tyle on campus because ORL does not give them the same publicity as dorms and apartmenta.
Last spring, John Belge, informal spokesman for Ostrom, asked why freahmen weren't brought to ares housing during summer freshman orientation.
Despite Winters' promise that he would look int the matter, the area was'not included in the clags of

## Dorm renovations fueled by $\$ 1.6$ million U.S. Ioan <br> By Scot French <br> SU borrowed the money under the

Syracuse Univergity is using a $\$ 1.6$ million loan to make its dormitories more energy efficient, but it may be some time before it pays off.
The savings payoff could take anywhere from several months in some areas to 10 years in others, according to Harvey H. Kaiser, vice president for facilities administration. That makes it difficult to estimate total savings, he said.
There are 44 separate projects using money from the loan, involving 11 buildings according to need and potential cost benefits, Kaiser said.

College Housing Program of the U.S Department of Housing and Urban Development. Kniser gaid the university will spend "every penny" of what it borrowed but no more than that
The work has been divided into four main areas-roofreplacement, window replacement, electrical work and mechanical work.
The entire project which began in mid-May is more than half completed Kaiser said. However, work will "pretty much close itaelf down" as cold Continued on pare five

Arts and Sciences to launch new requirements by next fall

## By thin By Dave Btern

By thir timeneat year, Syracuse University freestinai in the College of Arts and Sciences will haye embarked on a new curriculum that has betn in the planning atagee for the last thyeon- years

The revised plan of requirements, called the Standard Plan, is an attempt by the faculty to develop the basic skills of students and to provids a mone interrelated cuirriculum eapeciaily at the initroductory level.
been thanal dratt of the Standard Plan has not been, completed yet because the Arts and Sciencer Curriculum Committee is accepting coorbeproposals ond auprestions until Oct. 9 . profiably will mot be alteried in the final draft Thane rretwone divinions of the Stamalard

Professor Robert D. McClure, chairman of the curriculum committee, said he hopes the plan will. "require students to take courses that develop fundamental skills in math and English more fully.?

Dr. Michael A. Flusche, a former chairman of the cuirriculum committeeand currantly the project coordinator for the Mollon Grant (which provides funds for the Standard Plan), says the provides funds for the Standard Plan), saye the plan emphasizee the importance or basic skills, especialy writing, wh

As we came through the doors the deadly smell of ammonia mixed with urine welcomed us. Mom and I passed doors left open, but I kept my eyea riveted to the floor. We passed a few of the residents who grasped the railings as they shuffled along.
A variety of voices echoed down the hallway as we approached the guest

## Mitchell B. Morrison

room. The television blared out an old western of high adventure. Every beat in the place was taken, but no one watched the show. Most of the residents napped before their nighttime sleep. Many had their heads flung backward or to the side with their jaws dropped open, exposing lumpy tongues. and manufactured teeth. The ones that remained awake stared gloasy-eyed remaned awake stared glossy-eyed

## . . college boy! And this is my niece, his

My great Aunt Sarah sat contentedly, her eyes focused straight ahead. She looked over, saw us at the door, grabbed her big, black purse and got up simultaneously. Sarah amoothed down her dress and fluffed her short, unstyled white hair as she shuffled over to us.
We kissed gently. I took her hand as we walked to her room. Her hand was cold and felt like fine sandpaper from all of the years spent as a seamstress in the sweatshops of New York City. Her handmade dress swam over her shoulders and her waist due to a recent weight loss. Sarah's ever-decreasing height must have been all of 5 feet, if her high-heeled black shoes counted. The seam that ran down the back of her dark nylons was her trademark.
As we walked down the hallway, a nurse walked by. Sarah grabbed at her arm. "This is my grandnephew, a
mother* Sarah's good for that line every time.
We came to a door with a piece of white scrap paper taped to it that read Mre Sarah Edelson." Sarah had never married but it did not matter "This is my home," she said with gad eyes and shrugged. I opened the door and ficked on the light.
The four white walls contained within them the necessities fo survival. Her tiny bed was covered neatly with a gray blanket. Thecherstof drawers had been painted and repainted, the last time in black. Upon it sat pictures of her great randnephew and other relatives in their youthful days. In the corner her desk stood useless, for Sarah could neither read nor write The view from her window cave Sarah much time to her window gave Sarah much time to Paterion was the backdrod for the Garder-Staté Parkway... For the

Sarah sat on the bed and we sat on the two chairs that were reserved for her special guests, her only guests. We taked about her health, her sore foot ell bump on her head from the time ahe and Sarah broke into Yiddiah, which left me to my imagination. Sometimes I studied their eyes, mouths and hands when they spoke, in order to capture the sist of their conversation. Mostly I sat quietly picturing my own old age Would I to liveoutmy last few yearg in a society that heaves the aged into a "home" of clinically white walls that contain the stink of death?

Visiting hours were over. Sarah picked up her purse and walked us to the exit. When we reached the door, 1 kissed Sarah on the cheek. We em braced quietly for a few seconds. We left Sarah in a building from which nobody walks out alive.

It wasn't a silent spring, but it ooks like a silent fall.
Those who were on campus last semester remember the excitement, the activism that was present. Student Association was responsible for organizing a boycott of the Syracuse University bookstore and an all-day protest calling for the construction of a student union building. These events, coupled with a sit-in in front of the Adwith a sit-in in front of the Administration Building to protest
the closing of Ostrom Co-op, led many to believe that student activism had returned to SU.

But the promise of spring has not been borne out in the fall

Take the upcoming SA election, for example. There are 124 seats to be filled; only 64 persons have filed petitions. This means that every candidate could almost be elected twice, a feat not even Tammany Hall could accomplish.

What's everi more depressing than the low number of people running for the Assembly is the trend this number represents. In 1975,93
persons ran for the Assembly; last year, 76 did. This year, SA had to extend the deadline for presenting petitions to get 64. Far from reliving the days of activism, this indicates an even worse retreat into apathy.
Many of those who fondly remember the heyday of campus unrest have criticized the current crop of college students. We seem to be too self-centered, too concerned with finding jobs and settling into the rut of middle-class society, to be aware of issues. Last spring that notion was briefly dispelled at SU, but now it is as true as ever.
The logical question to ask is: why? Why has apathy returned to SU? Why does SA have fewer people running for Assembly than ever before?

Perhaps no one wants to run because Assembly meetings are held on Monday nights, which pits SA against football, the modern American religion. After all, who wants to watch Arnie Wolsky when you can watch the Dallas Cowboys'

## Owners to restore home hit by fatal fire

The house at 701 University Ave. in which four city firemen died last spring may be salvaged.

## By Lrwin Fiseh

The owners of the University Avenue apartment house in which four Syracuse firemen were killed last spring hope to salvage the ravaged structure.
Beatrice Casmer, who with her husband John owns the threestory wood-frame house at 701 University Ave., said last week she ia considering having the guttered third floor removed from the 92 -year-old house and gtructurally reinforcing the remairider of the building.
"It was built as a Victorian mansion,", s aaid. "Nothing like it will be built again."
The 10 -apartment dwelling, occupied until last spring by 14 Syracuse University students, caught fire on April 8 after a student reportedly left a candle burning on a cloth-draped styrofoam wig stand in a second-story apartment.
Four firefighters were trapped in the converted attic and suffocated, as the seemingly routine blaze spread along the continuous "balloon" framework of the house. In more roodern structures, vertical supports do not run the entire height of the building; thus the progress of fire is slower.

Syracuse's worst fire tragedy since 1939 were completed this summex - one by Boston's National Fire Protection Association and another by a three-man team from New York City's Department of Investigation

The Boston agency concluded that the deaths were primarily due to concealed, combustible spaces in the building and a delay by the Syracuse Fire Department in ventilating the third-floor ceiling, which sealed the flames and heat in the attic apartments.
The New York City report attributed the deaths to "the serious communications breakdown that had placed severe limitations on any coordination of firefighting operations.'
The New York City report cited an unidentified fireman's effort to radio for hel $p$, which was discovered after the fire on tapes of shortwave communications at the scene
Syracuse Fire Chief Thomas F. Hanlon has emphasized the role of the building's sprinkler system in trapping the firefightera on the third loor.
When the heat in the central hallway finally activated the aprinklers, they "produced a great quantity of steam and scalding water, creating an impenetrable Niagara Falls-like wall of an impenetrable Niagara Falla-like wall of heat," Hanlon said.

## Children of faculty and students have places to play

## By Debbie Gore

Kids, those tiny people who love Sessme Street, coloring books and Captain Kangaroo, are a novelty on the Syracuse But if their paren SU professor or student then they may be found at one of they may be found at one of two campus facilities - the Nursery School or the SU Day. Nursery Sth

The co-op nursery school, at 724 Comstock Ave., is organized and run by parents. "It gives the parent and teacher an informal type of sharing in the child's education," said Suzanne Lesure, director of the coop.
The co-op originated as the Married Students, Co-pp in 1970 and is now operated by the College of Human Development and the Department of Child and Family Studies.
SU students and the children's parents help at the school. Each parent comes in to assist the head teacher for two to fivedaysa semester. "It helps parents understand the teacher's role," said Bernadette Buscemi, a mother involved with the co-op.

The 120 children who attend the school in the morning and afternoon shifts range in age from two to five years old. About half come from student
and faculty families, while the other half are from city families.
Aday at the Wright School is concentrated around an indoor work period where the children are free to choose activities, using books, blocks, paints and sand tables. The children also use a playground constructed by parents outside the building.
Tuition ranges from $\$ 55$ to $\$ 220$ a semester, based on the number of days the child number of days the che discounts received by children of SU faculty and students.
"Parents put so much of themselves into the school," Lesure said. "Some of them are really surprised to see their children in a school situation. One father was amazed to find out three-year-olds could put on their own coats, when he had always done that for his daughter at home."
The SU Day Care Center, on Lambreth Lane at Skytop, differs from the co-op. "Most day care centers offer a type of custodial care, (but) this is not the case here. We have a good educational facility with professional teachers," said Director Joan Supiro.
Each class is run by a head teacher, an associate teacher, three aides, students from the School of Education and work-

Sue Workman and Brende McCummins work with children at the Bernice M. Wright Co-op Nursery School. The school is run by parents and operated by SU.
study students. Tuition, based on the family's income, ranges from $\$ 40$ to $\$ 50$ a week.
The day care center has been open for four years and is run by the School of Human Development and Office of Student Activities.

The center is equipped with reading, painting playrooms, a lunchroom, a nurgery, a sieeping room and

## Art is inspiration for poetry award winner

By Jane Sehonbers
A friend remarked to her recentily，＂Cairolyne，you always seem to be excited about something，

She answered，＂I have a lot to be excited about．＂ Carolyne L．Wright，a doctor of arts candidate at Syracuse University is excited abont writing poetry． A teaching assidetant in the Einglimh department， Wright will have her first book of poems，＂Stealing the Children，＂published in November．if vill－be publimhed by Ahsanta Press，Idaho，and wold in the Syracura Book Center on Marahall Street．

Wright，who in in the Creative Writing Program， received the 1977 Academy of American Poets Prize for Syracuse University for the best group of poems submitted by a graduate student．
The 29－year－old poet said she writes poems to ＂ghare emotions＂and to commwnicate＂realizationa about human nature．＂These thoughta are tied to ac tual people，events and places in her poems．In ＂Weatern Traile Cafe（Iremonton．Utah）．＂Wright describes a reataurant in which ahe has stopped：

Waitrestes lounge againat the whort－ order counter，Eape os the bueload comer lembering in，each group turning to ita booth like steers to the feed stalls． Wright naid the feels compelled to exprean her obervations and maptions．＊I can＂t liceep them in．＂ ohe said．

Sumetimes poems begin with an inspiration． Wright said．Howrever，when inspiration comes to her，it in frequently only one idea or one line of a poem． An entire poem rarely comes to mind at once．

Because inspirations axe infrequent，the poet said， she seelics out photos，art and magazine articles that could auggest an idea for a poem．At a writers worksh op in her hometown，Seattle，Wright glanced at an article on astronomy which became the basis of ＂The Cosmic Scholar．＂another poem in her book．
An illustration by Nilliam Blake stimulated the poet to write，＂Sestina after an Etching by Williarn Blake．＂The sestina will appear in the＇78 iasue of ＂Syracuse Poems and Stories．＂

A seatina is a 39 －line poem．The end words of the frat stanza recur in the following five 故angas in succeadi vely rotating onder．

Writing any form of verse is extriemely deripifding，
Wright imid．The reviaing asid editinx between the Girst draft and the Gnished poem may talce momithor even years，she said．
＂I try to write at least an line every day，＂the poet said．When no ideas come，she revisea unfiniahed poems．
＂As I fall asleep，lines or phrases often cometo ine，＂ Wright aaid．＂I write down whatever thoughts come to mind and proceed from there．＂

The pöet＇s writings have been published in literary magazines，including Poetry Chicago，Poetry Nogaznes，incitiding Poetry Chicag

Besinwest and Annencan poetry Review．
Bharing her poems through ．literary journals，Wright asid，＂I love to givereadinge．＂She views readings as a direct sharing with her audience．
＂My poetry is my work anid my fun，＂Wright aaid．

## By Brent Marchant

For the past decade, the British progressive rock band Genesis has been one of the most creative and innovative forces in the music industryIn that10-year period, many mugicians have come and gone. During the past few monthe, several formeir members of Geneais have released solo albüns, each with mixed results.

## Steve Hackett

## Please Don't Touch/Steve Hackett (Chrysalis)

When guitarisit Steve Hackett left Gemesis in the fall of 1977, many music critics expressed skepticism over his departure from the band. During his stint with Geaesis, Hackett proved to be a major contributor to the group's
muisici(On the band's last LP beforehis muisic (On the band's last LPbeforehis
departure, Wind and Wuthering. departure, Wind and Wutherings, Hackett collaborated with keyboardist baesist Michael Rutherford to write much of the material found on that album.)
However, as a solo artist, Hackettleft much to be desired. His firat solo LP. Voyage of the Acolyte, provided some fine music and lyrica, but the album as musical themes, monotoinous musical passages, and abstract, often nonsenproblemis have lingered on to plague Hackett's second solo LP, Plecase Don't Touch.
Much of the material on this LP seems to strive for some unattainable musical goal. For example, the main melodic patterns of songs such as "Rac", ing in $A$ " and "Hoping Love Will Last" Hackett had planned for them.
Most of the material is also hampered by repetitive passages. For example, "Kimn, a very pretty (but very boring suitar and flote piece, is redun-
dant from stant of finimh. The closing section of "Icarus Ascending"' nearly equala "Kim"'s monotony.
Some of the material uises-sound effecta that are so abetract that it sounds ridicutors zind out of place. On "Carry On Up the Vicarage," a musical tributa to Agatha Chriotie, Facirett's
vocals are ime throueh a diotortion vocals are run through a digtortion device beyond the point of recognition, lyrics completely undiscernable.
Yet, deespite theae problems, Hackett has written some good music for this LP. "Narnia" is a catchy little song melody and some ancellint guitar viffe Another fino entry, is Land of a Thousand Autumny,", a solo acourtic guitar melody reminiscent of Stesre Hed Hood Lox a Day.
Hackett has aseemhled an all-Etar cant of musicians-for thir allow, in clucingesuch notiohle an wocmlints SRichie Haven, Stove Wralah (of Kane Phil Ehiart (of Krinar) and Choutere Shownpon- (of Qunenig) and flutiat
abundance of poorly written musicand mediocre production, many of these musicians are wasted on the LP. Hayens' plodding, out-of-place vocals on "How Can I?" and the severly maix-ed-down drumming of Thompson and Ehart are prime examples of this wasted talent.

One musician who is used well. however, is Kansas vocalist Walsh
His vocal atyle fits perfectiy with Hackett's music on songs like "Narnia" and "Racing in A."

Lyrically, Hackett's latest offerings are quite good. His lyrics cover a wide range of topics, from children's stories offerings are found in the ins best dremings are found in the more dramatic numbers, such as "Hoping friends that I once knew/ Who felt the special thing that I share with youl They've grown apart in different start to say/Hoping love will last/I'm hoping love will last on and on.
Yet, despite the few ahining spots, please don't touch Stave Hackett's new album-it's a waste of time.

## Peter Gabriel

## Peter Gabriel/Peter Gabriel (Atlantic)

Peter Gabriel's second solo LP . entitled (juat like its predecessor) Peter Gabriel, features excellent lyrics and
music. However, these two factors music. However, these two factors
rarely oceur together in the same song
Gabriel seems to have alipped into a creative void in producing this album. He seems torn between the worlds of rock ' $n$ ' roll and of progreasive rock. He has tried to produce an album that incorporates both musicaretylea and has failed terribly in the process.

Gabriel's rock ' $n$ ' noll musicis, for the most part, good. However, his rock'n'roll lyrics are, for the most part, abysmal. The opposite holds true for his more progressive numbers-the lyrics are excellent, often reflecting the biting cynicism of his Geneais days, bitigy cynicism of his Gencais days, baked.

However, despite the problems with the music and lyrics, the musicianahip on this new release is axcellent.- Of particular note is the guitar work by Former King Crimson suitarist Robert Fripp, the synthesiser treatments by Synergy keyboardint Larry Fast and David Bowia back-up band pianist Roy Bittan. An for Gabriel's contributions, his piano-playing has improved triamendously over hir previous LP, but hie vocals are as conmistent as the Syracuse weather.

Side One opena with a pair of back-tobackrockers, titled "On the Air" and "D.I.Y." Both feature fine, hard-roc by Fripp. Howerer, both have boring. Dretempious Frice that do not do their
musical backgrounds justice.
Following the two opening numbers is "Mother of Violence," a half-hearted attempt at recreating the type of material Gabriel wrote during his stay with Genesis. Although the song has some fine lyrics, the words become lost A similar fate befalls the album's next A similar fate befalls the album's next
cut, "A Woaderful Day in a One-Way World."

Closing out the first aide is perhapa the album's best entry, "White Shadow." This ominous-sounding song features superb instrumentation, excellent vocals by Gabriel and superb lyrics: No one knew if the spirit died All wrapped to go like Kentucky Fried/ Trying to read the flight of birds
Low on fuel, getting low on Low on fuel, getting low on shadow/she comes out like a white shadow.
Opening the second side is another Gentais-like song titled "Indigo,"-a fine entry that features amcoth vocals (a rarity on a Gabriel album), easy-going music and good lyrics.
After an ambitious start, the second side slips into the doldrums with "Animal Magic," a pretentious hardocker, "Exposure," a quasi-instrumen al cut that features some fine guitar work by Fripp and atrocious background embelishment lyrics, and Flotsam and Jetaam," a bizarre love song.
The second side gets slight relief from "Perspective," a hard-rocking track that features lively vocals, lyrice and instrumentation. However, this last pitch at resuscitation is spoiled by the album's closing number, "Home Sweet Home," a mellow blues song which features a simple melodic line pretentious lyrics and some of the worgt vocals on the entire album.

Overall, the lateat from Peter Gabriel is highly inconsistent. Gabriel has shown he can develop the component parts of a good musical composition: But putting them together is the true test of a composer. And on his latest LP, Gabriel hasn't had much luck putting the pieces together

## Anthony Phillips

## Wise After the Event/Anthony

Before Steve Hackett joined Genesis in 1972, the guitar work was handled by a young English guitariot named Anthony Phillipa. During his stint with Genesis, Phillips' guitar playing had a distinctive, hard-rock style. Since his departure from the group, however, Phillipa has deviated from his rock roots and diveloped a claasical style of guitar playing. Nowhere la this more evident than on this recently released second solo LP, Wiae After the Event, a light, enjoyable album that has firmly established Phillips as a fine songwriter.
After a dieappointing first solo effort, The Geese and the Ghort-an album which yeprily : put the ligtener to
sleep-Wise After the Event is a refreshing change. Like his first effort rical base; however a strong clas sical base; however, the music has much more life to it. The music often resembles the material on early Genesis alburns, such as cut-out clas sics Nursery Cryme and Foxtrot.
The most outstanding feature of the album is the songwriting. Phillips music is very pleasant, featuring classical guitars, beautiful iseyboards, variety of woodwinds and orchestral backgrounds. Another asset of the music is its ability to flow smoothly in distinct sections, in an almost protean manner. This is especially apparenton manner. Thisisespecially apparention What (Are They Doing to My Little Friends)."

In addition to strong composition qualities, the album also provides fine lyrics. As with Genesis, Phillips'lyrics are at times rather absurd. In the song "We're All as We Lie," for example Phillips tells thestory of a golf game for world leaders and celebrated members of society. What zets these lyrics apart from those of Genesis, however, is that they lack the cynicism that dis they lack the cymicism
In addition to absurdity, Phillips' yrics are at times filled with beautiful images, as in the cut, "Birdsong'

I hear the birds come greet me in my norning.
They sing the songs of Love in tongues of ages past

And all the while a vision is un folding'
The Moorhen pipes at me, 'Don' leep the day away?
However, the most noticeable quality of Phillips' lyrics is the optimism of the lines, as on the album's title cut:
Four thousarad monks in a maelatrom,

All crying out for release.
Three cheers. for old Mother
Hailsham,

## She's sticking to her beliefo.

Properly complementing the fine music and lyrics is an excellent cast of musiciang. Of special note are John $G$. Perry on bass, Michael Giles on drums Perry on bass, Michael Giles on drums Enditars.

Perhaps the only fault of the album is Phillips. lead vocals, which are often ahakey, off-key and full of strained cracking'passages. This is especially apparent on cuts like "Regrets" and "Birdsong." In fact, the only track that features fine vocals is the title cut where the vocals arerun through a dis tortion device.
Phillipa surprisingly plays no ingtrumenta on the album-he just aings. This is particularly surprising when one talces into consideration the calibre of his guitar playing. And since his voice is not properly suited for singing, Phillife' talent as a musiciani is loet on this IP.

Yet, despite the obacuring of Phillips: musical talents, Wiae After the Eventis musicai talents, wial Aform. And with a this LP, Phillips bas made his mark in the moric industry as a finesongwiter and hyriciet.

## t-6o-opsi an endangered species

## \section*{Consinued from page one} <br> 1982 summer orientition, according to the

 office of admignions.Sugan Chen, curienttreasurer of Hiafts Co-op, equid, "the univerritydoen't vant to put money into us or maice people awsyre of us because they arilosingmoney on the co-ops and doesn'twant
usfarounc. Morgan, director of ORL, Bays this in "absolutely" not true.
Co-ops Gogain at SU in 1939 when Pecic, then a wamenis co-op, was established.
Therider originated with alocal Presbyterian coungelor, Rev. Egbert M. Hayes. He wanted to "develop a tudent-operated living center where an individusi's race and religion would be no barrier to membership."
After the first co-op praved to be a succers, seven more operned on campus. They were Co-op I, II, IV, Nottingham Coop, a Forestry Co-op, Hafterand Ortrom.
Each of the two co-ops on campus this year is headed by a resident advieor. Hafte also has a president who has the same duties as the RA.

Don Beaver, the Peck RA said, "Each member has a different cleaning responsibility each week and is required to cook for the house one aight. a weel. We run the house like a democracy. Ev
Peck has 13 members living in the house this year:
The house has a capacity of 20 members.

Twenty-eeven people axe now living in Hafts, bringing it up to full capacity.
The cost for a room in the co-ops is $\$ 435$ a oemester. This compares to a cost of $\$ 572$ a semester for a split double in a dorm.
The board plan in Peckis $\$ 200$ a semester and $\$ 225$ a semester in Hafts: The campus plan in the dining halls is $\$ 478^{\circ}$ a semester.
From their beginning co-ops have proved successful and popular among their residents. One student wrote in 1967, "There is a co-op spirit stonger than a cottage; but more independent than a fraternity."
Last year, John Vecehio, a reaident of the former Ostrom Co-op, echoed those sentiments. ${ }^{\text {"By }}$ sharing the responsibilities of cooking, cleaning and buying food, we learned some things about life that just couldn't be taughtin a stuffy classroom.
Chen said, "I like the communal atmostphere here. There is always someone around to talk to. It is like a sorority, but you still have your privacy and independence."
Sara Chester, another resident of Hafts, aaic the idea of a co-op is great, if everyone is will ing to work at it. The problem with Hafte is it is rundown, old and some of the girls are not will ing to accept the responsibility.
Mike Scully, a Peck resident, aaid he looked into the co-ops after all the demonstrations over Ostrom last year. He said he enjoys co-opliving because of its cheap meal plan. rent, privacy,
better food and ideal location.

## Residential life at SU changes from cottages to large dorms <br> By Anthony. A. Gallotio <br> David Kohr, said the univeraity provides the

:ITimes have changed.
From the small cottages that at one time houged all mindents to the growth of the large, ingtitutionalized dormitoriea in the ' 50 's, dorm life at Syracase Univeraity has changed dramatically in the last 30 years.
Jean Crawford, assigtant director of the Office of Residential Life in South Campus noted that rules and regulations, as well as lifestyles, have changed vastly since the days when cottages were the only type of university-owned housing.
"There was about the asme amount of socialization but there was less fraternization," said Crawford, who has been associated with SU for about 25 years. Men were only allowed in the main lobby of cottages between noon and the 7 or 8 p.m. curfew.
Before Shaw Hall, the first dorm, was built in 1952, SU students lived in more than 200 cottages along University Avenue, University Place, Walnut Park and South Crouse Avenue.
In 1954, construction was completed on Shaw Hall. The dorm was named after Robert Shaw, a Long Island attorney and a graduate of SU who willed the university his estate upon his death.
Most of the other dorms that were then built on the campus were made possible by grants from the federal govermment under the Housing and Urban Development plan and smaller grants from private donors. Most of the dorms were named after former chancellors, such as the Rev. Eratus Haven, James Roscoe Day, and Dí Alexander Winchell, or for alumni who donated money to subsidize construction of donated marnishing.
Since the inception of co-ed housing, Watson, Sadler and Lawrinson have become the most popular dorms among upperclassmen, acpopular dorms among upperciassmen, acKimmel, Marion, Booth and Flint. Under Kimmel, Marion, Booth and Fhint. Under university regulations, freshmen and sophomores must live in campus housing.
Also, each year a few frosh ask to beassigned university housing in Graham (Dining) Hall, Crouse College, Heroy Geology Building and Steele Hall.
Bat what factors are involved in making dorm life a pleasure?
basics and allows the students to talce responsibility for creating an environment thet suits them.
"Many of the older forms were designed in a time when conformity was the trend and the buildings were atructured similarly with the purpose of fitting asmany studentsinto as little space as possible," he siaid.

Robert Cohen, assistant dorm director of Flint Hall said that even though Flint houses about 570 students, "We try to initiate a sense of pride and community.'

Many of the dorms develop this spirit and unity shrough parties and zet-togethers. "Ideally, Cohensaid, "we would like to bring a sense of pride through cultural and educational functions, but most people respond to parties more actively than they would to any othertype of function."

Unfortunately, parties are not always the answer. Many students find they cannot study seriously in a dorm environment. Steve Glazier, a DellPlain resident, explained that while there is a rel axed atmosphere, "I can't do any studying there and uaually end up at Bird Library., Jim Williams, a former resident of Kimmel Hall, said many students are inconsiderateand have their stereos set constantly on "blare," making it difficult to sleep, study or just exist "After spending some time in Kimmel Hall. I becameamember of Delta Tau Delta and found life vastly better" Williams said. "There is a gense of security," he explained, "Greek life affords me the opportunity to have a good time with people I can really call friends. Ir a dorm it with people i can really califriends. Ir a dorm it is difincult to make friends because there is a constant turnover each year."

While the 13 major dorms provide their occupants with a home away from home, it is up to desire. As Watson resident Fran Riber anid "If desire. As Watson resident Fran Riber said, "If there is a party atmosphere you can choose to be a part of it or you can avoid the entire situation completely."

But today, dormitories provide housing to about 70 percent of SU's 10,000 full-time students. A few of the old cottages are still being used as living centers, while others have been bought by fraternities or torn down to make room for new buildings or parking lote.

## SU Special Ed leads its field

By Linda Trefz
\#Syracuite University" Division of Special Dducation and Rehabilitation is a leader in its field.
"I think it's an exciting, rich place," Gail Ensher, angociate professor of special education. said. "There's a lot going on and many opportunities."
"We have a high level of motivation among our students," she said. "Motst have had experience and are fairly sure that is what they want to do. They find that although the faculty have national reputations, teachers still have close relationships with the students. They're not just a number here.

Students meem to share Ensher's enthusiasm for the special education program, which is housed at 805 S . Crouse Ave. Nancy Rubenstein, a sophomore from Baltimare, Md. has praise for
it. "The sood thing about the special education program at

Syracuse is that they start freshmen out doing small amounts of observing at schools," she said. "You don't spend two years in a school and then find out it's not right for you.

Kim Callihan, a sophomore from Briarcliff Manor, N.Y. agreed with Rubinstein. After working in hospitals for the handicapped, she decided to pursue a career in special education.
"I kept hearing about what a great program Syracuse had in special ed," shesaid. "The way they get you working in schools and hospitals as a freshman, you know within your first semester whether you can handle it as a career."
Field worls is onlyone area of the special education program. Academically, three main areas are covered: special education, communicative disorders and rehabilitation counseling. These programs
offer students professional training and place a high percentage of graduatea in jobs in the epecial education feld.

Many faculty members have been involved in research concerning the education, treatment and rehabilitation of those with special needs. For example, the special education program has been instrumental in developing the concept of normalization, which tries to integrate the handicapped into the mainstream of society.
"The program grew up in the profession at a time when special education was expanding." James Winschel, deputy division director, said. SU's program was founded in 1949, making it one of the oldest in the country.
"Syracuise has developed innovative, imaginative programs of training, which now have been copied by other colleges and universities,

## Season opens today

## Field hockey heaven lands at SU

## By Gres Luckembancyh

Newly arrived Sathloun Parimer head coach of the Orangewomen nield hockey team, appears to have landed in field hockey heaven. Ten of 11 staiters from last year's 7-2-2 equad will be present when SU opens ite season acainst William Smith College today at 4 p.m. at Lancaster Field, located mear Coyme Field.
Parker, who coached at Fayetteville Manlius High School the past seven years and directed that squad to Onon daga League Champiomships in 1976 and 1977, replaces Muriel Smith this year as head conch.
In spite of SU's'7-2-2 record, Parker ia atill looking for improvement. "The 1977 season was a disappointment despite the record," Pariker said. "SU has pice the record, Yarier said. SU has tournament aince our program began. ournament ance our program began. Our gonis

The fact that Parker is a new coach duesn't seem to bother her. "Once I grot here, it wasn't bad. The apprethension was the worst thing," she said. "But Whether college or high school level, the fundameneals are the same. Itm a fundamentalist, so there,

Although the fundamentals may be the same, Parker does appear to be trying to get a fresh start for the 1978 ueason. "I haven'tevenlookedinto who played last year. For my own benefit. I don't care to know," Parker said
"However, I can' see who the bright sposts are," she added. "Claire Belser, high scorer from last year. will definitely be a key. Our co-captains, Peggy Coleman, a defenaive expert. and halmback Becky Heereman will both be important members also.
According to ex-conch Smith. Parker obviously has an experienced tesm with which to work. "Last year's team
was a very well-balánced one," Smith atid "With only Betay Almeter gone from thas group, the 1978 team bhould be a yeryi very good one."
Perhaps the 1978 team will be a powernouse as Smith suggests. beat teams it hasn't beaten in the pant.

We've definitely got to beat Oneonta and St L Lawrence to receive a knock off state champ Colgate, tha would be-a major plus for us also." NYSALAW is the New York State As sociation of Intercollegiate Athletics for Women.

The Orangeworien are exploaive, but a glaring, weakneas existo. "To be honest, our depth isn't the greatest." Parker said. "Lfsomeone gets injured, it could be tough. We only have 23 players for both the JV and varsity squads. That leaves us with only one extra."

The 1978 field hockey team does indeed have great capabilities. However, as Parker atressed, the season will be a failure if an invita

Conaidering the size of Syracuse University and the fact that the field hockey program has existed since 1972 , SY' failure to gain a bid to the NYSAIAW seems puzzling.

Parker believes SU field hockey"s problem lies in the achedule.
'From what I've aeen we play too many weak schools, auch as both Buffalo squads." she said. "If you don't play high-caliber teams, you don't improve While I'm here, i would like to see. SU playing more respectable competition.

Claire Belber will thunch fer quest to repeat as SU'z high scorer when the Oraingevornen host Williarn Smith today.

Despite the past failures and the lack of interest and fan support ("Anybody who's walking by Lancaster Field atope for five minuten, but that's it "'), perhapa Parker will be a plus for SU
Field hockey. The new cosch could Field hockey. The new conch could
provide that breath of life that SU's provide that breath of life that SUS stagnant field bockey program so
desperately needs.

## SU board explores feasibility of Dívīion / hockey

ast apring Joe Grand Last spring, the Athletic Policy Board iced a propobal to bring Division I hackey the APB's position on hockey is fall, the APBA position on hockey is chawing. and a committee has been created to study the feamibility of es: tabliahing major college ho
within the next five years.
The committee, headed by SU as: sociate athletic director Richard Gibney, is comprised of first-year men's athletic director jake Crouthamel
Initially. Gibney has to get ia formation bout college hockey programs and their budgets, scheduling.
sales, etc.
"It will give us an idea of what to ex. pect if we were to eatablish our own varaity program," Gibney said.
Before coming to SU, Gibney was assisitant athletic director at Boaton University from 1969-75. The Terriers, one of the top collegiate hockey teama in the nation during Gibney's stay, won two NCAA Division I -bockey championships over the six-year span. Once it has collected theinformation. on the feasibility of a program at SU. The committee is miso scheduled to meet in mid-October with Andrew Fipnie, an official of the SU hockey club, and Hardy Green, club preaidant.
Finnie, who is almo associated with the Eastern Collegiate Athletic Ass sociation's hockey champronships, cuarion about adopting Division hockey. He added that there is atill a posaibility the atatus could be adopted as soon as next meason.
Gibney, however, mees a loncur time factor. Any roal we would have now would be three to five yeare down the romd, where we conld entablinh realistic proposals to deal with the ismen," he paid.

The proposed building of a new footbull stadium and the financial riak of starting a new aport are two major stumbling blocks to elevating the hockey team's current club status to a $1)$ vision 1 level.
Melvio C. Mounts, vice president for student affairs and APB member, ernphasized that the football program is the mainstay of the athletic picture at SU and the current top priority since it provides money for non-revenue sports. Mounts added that a stadium is vital for SUTO maintain its Division I-A football program.

Without the atadium, the prospect of
a Vivision I-A program continuing is problematic, so consequently a cutback would follow in the non-revenue sports," Mounts asid.
Mounts noted the risk in starting a new and particularly expensive sport such as ice hockey. Gibney estimated that creating a new hockey program would cost approximately $\$ 200,000$. Mounts admitted that there is s gubstantial press on the athletic department for available resources. -To assume another burden would be unadvisable," he said.
"Only when we realize a 50,000 -seat

## Orange tennis team nets second season victory

By Robert Harleston

She lost her first match of the season Friday during SU's seaison-apening 5-2 nctory over Binghamton, out Betay Gockelf as a champion Saturday aning herself as a champion Sinturday as she rout over Cortland. term (20) to a 6 rout over Cortland.

Gottileb destroyed her opponent 6-0, 6-0 Saturday on the Slytop courts:

There is a lot of presesure on Gottlieb becanise she is the New York state women's singlem champion. She thinks gome' of that praterw hes been relieved by her opening-day loos.
"I wais very nervouse before the seamon otarted," Gottiob said. The low has calmed medown and now 1 can really concemtrate on the remt of the

Syracuse women swept their singles matches from Cortland. Winning easily were Betsy Maliroviky (6-2, 6-0) (6-1, 6-3), and Nina Dubin (6-1, 6-2).

The Orangewomen split their doublen matches. Karen Anstin and Heien Mantgiaris won 6-7, 6-3, 7-6. Sust 6-7, 3-6 and Lesile Kersienbaum loet 6-7, 3-6.
"We try not to have any stars on this team," Jesse E. Dwire, head conch said. "All the girls pull together and

The comradeahip to which Dwiye referred was evident Saturday. When each woman frimished her match; she joined hex teammantem to cheer whomever wam playing-

## Two Below forced tocut rising prices

By Panl Franco
Brewster/Boland residenta have succseded in holding down price increases at Two Below, the dorm's coffeehoure.
The coffeehouse had raised the price of doughnuts and soft drinks 5 cents, while Maller beer was increased 15 cents to 50 cents and Molson increased 20 cents to 65 cents.
Dorm council President Reuven Micholson and other dorm residents initiated the boycott becauge of the price increases and the coffechouse's failure to explain the reason for them. "No explanation at the time was needed," Longcore replied. "We needed to increase our profte for an amortization Turd." This fund would create emergency money for depreciation of any. Two Below-owned equipraent.
Michelson, however, said $\$ 750$ of dorim council funds was allocated last semester to the coffeehouse for eine expenses cited by Longcore. Michelson alao baid Padwater was instructed by the funce of Resiaential Lifenot to take the funcs. He aand acceptance of the "honey would let the dorm
have a say over Padwater denied that ORL instructed her not to accept the money. "ORL. Wanted us to remain self-bufficient and cover ourselves in case of emergencies," Padwater gaid.

Longrote and Padwater then decided to reject the funds. Padwater insisted the decision was her own and not a result of ORL pressure. Both Longcore and Padwater aaid they wanted Two Below to remain independent.
Apparently the sigas had a detrimental effect on business at Two Below. "Business is poor at beat,* Longcore Baid.
He also cited good weather and numerous fraternity parties, as well as the boycott signs, as factora conributing to Two Below's poor start
Brewster residents Trevor Myers and Mark Alexander attempted to convince the coffeehouse management that increased prices would mean they would
price themaelves out of buniness," "price themsmelve
Michelgon gaid.
Michelson said.
An idea to atart another anack barcoffeehouse was considered by Michelson and others if Two Below failed to comply with demands. Financial and practical reasons, however, prevented the formation of nerious pland organized anse of dorm-councilnegotintions, doughnuts and soft drinics will remain at lastyear's price levels. The price of Molson was rolled backso 60 cents, but Miller will still be increasied to 50 cents a cup, according to Tho Below manager Debbie Padwater.
However, assiatant dorm director Bill Longcore said the prices were lowered after discovering the coffeehonsie had more funds than wae previopisly believed.

## Dog Days

Kathy Fallon exercisas hor dog, Virgil, on the Quad yesterday afternoon in the sunshine. Fallon; a junior who transforred to SU this fall, it blind, and Virgilis her guide dog who escorts her from dom to cinsers ell-dry.

## Student Association Assembly elections today

Student Association Assembly elections are today.
Polls are open from noon to 8 p.m. for dorm residents. Lawrinson and Sadler residents can vote in Lawrinson's main lounge, while Day and Flint polls are in the Flint main lounge. All other dorm residents can vote in the main lounge of their buildings.
Area-housing, offcampus and
South-Campus residents and Greek
members can vote in the HBC lobby from 10 a.m. to 5 p.m. and at Bird Library's first-floor information Labrary $s$ first-floor
desk from 5 to 8 p.m.
Undergraduate students can vote Undergraduate students can vote
only for candidates in their living anly
There are 124 seats available, but only 64 candidates are on the ballot. SA officials expect about 40 seata to be fllled by write-in candidates.

## UU selects new external chairperson

## By John Barrows

Larry Schulsinger, a member of the University Union Concert Board for two years, has been recommended as the next UU external chairperson by $a$ nelection committee.

Schulainger was selected from the three persong who applied for the job. The persong who applied for the job.
Uuncil will hold a confirmation hearing tonight, but UU Internal Chairpergon Steve Fuchs agid Internal Chairperson shalginger is almost certain to get in Schulsinger is,
unanimously.
The position opened in Auguat when Tobert Watson, the former external chairperson, resigned because of other cormmitments.
Schulsinger, a junior, is dually enrolled in the School of Managemen and the S.I. Newhouse School of Public Communications. He held a poeition on the concert board for $21 / 2$ years, and then worked as an ABM records repreaentative to upatate New York before returning to UU in his preaent position.
"The thought of getting this never even occurred to me until A\&M records almost completely, closed down their college program," Schulainger aaid "When that ended, I wanted to get back into UU, and the position was there." Fuchs axid Schulsiager'a two years of UU experience was one of the deciding factors in the committee's selection
The position lasts for six months and carries a stipend of $\$ 750$ a term.
The external chairperson is res ponsible for representing UU to outside agencies, such as concert promotere and other university departmezts.
The selection committee was com prised of Kathy Courtney, Student As sociation vice-president for student programs; Ned Harris, preaident of the Graduate Student Organization; and Steve Runin, UU film coordinator.

## Larry Schulsinger

## Indian scholar, journalist investigates U.S.

Si, By Glenn R Nadel
Some impressive letters trail the name of Narayan Keshavan on his business cauds bachelor of pharmacy, bachelor of journalism and master of journalism:
But this is not just a story about an accomplished and intelligent student. For this Indian graduate student versed in seven languages, higher education has become merely a hobby to appease himself dur. ing periodic breaks from the real world of eming periodi
ployment.
Thoung currently a student in the S.I. Newhouse School of Piblic Communications, Keshavan, 28, has alreidy acquined a repatation as an experienced and already yoquined a repatation as an experienced and hard-nobed inveatigative journaliat for
one of the lending newpopperw in India.
Although currantly on leave from the paper,

Keshavan has assigned himself the mont challeng, taken man here" heasid, and have created a "barrier ing story of his inquisitive life: investigation of between man and man.

## American life.

Although a mere three weeks have elapaed since Keshavan left India for the first time, all Americans have already begun to be analyzed beneath Keshavan's cultural microscope.
Keshavan began his research back in India. "I made it a point to keepabreastof the developments in mass media," he asid. Because of this, he said he has not experienced culture shock.
"America has met the innage I had perteived," he said, "but the human element-which brings peoples" societien together-is milusing."
Keshavan loolsa with doubt at the mechanization of
American Iife "The machines seems to buve over-

Keshavan explained how American automation and standardization took him by surprise, especially at the supermarket. In a mupermarket "you're directly in confrontation with the products," he said. "I pick up what I want, which I must know about through the mase media. The first time I meet, a human being is also in the company of a machine"-at the checkout counter.
Comparing the American marketplace to the Indian Bazsar, Keshavan and, "Thereter a lot of differ ance betwreen having a amiling person hand you a drink than putting money into a machine for one. I only wiah that when I go back home from here, I am not addieted to thoea mactiines."

TONIGHT \& TOMORROW

## Pardon Mon Ajfaíre

An endearing littie French comedy with serious overtones. it's about friendship and marriage, trust and its abuses, intrigues and their tragic-comic consequences. The movie manages to be both madcap and finely rooted in human experience. Subtitled.

## Eating away the veggie menu

The Syracuice University admissiong catalog states, "Each (dining hall) offers vegetarian, enoffeered?
Vegotarians who must eat late often find the dining hall has run out of the vegetarian entree and out of may begetarian ent in the cold. they may be left out in he cold. Jeff Hughes said that between 30 and 50 people have signed up for his dixing hall's vegetarian program, but that on several nights as many. as 100 portions of the special dinner may be served.
Other dining halls have similar numbers of stidents bigned up for the vegetarian meal program and the vegetarian meal program and also note isrge increases an nights
when a popular dish is served as When a popular dish is Rexved as production manager of Maven Din ing Hall, said, "We make enough to go by. what our count is." This policy, although certainly
reasonable by ituelf, often leads to a shortage or complete lack of a vegetarian meal for late dinern The birgest carse of this dif ficulty is the inability of line servers, faced with limited porservers, faced with limited portrons, to identify a legitimate
vegetarian. As a solution to this vegetarian. As a solution to this problem; Food Service revenue
analyat Joseph. Plishica will propose a vegetarian identification bystem at a dining hall managers meeting today.

Mesystem would involve simply affixing a dot or other symbol to the meal cards of those interested in participating in the vegetarian program, making those persons program, making those persons easily identinabie to ine servers. Aside from helping to eliminate to
decision problems of the liner server ("Is she or isn't. she?" Only her dietician known for aure), this gystem would enable Food Service to prepare more accurately for the number of vegetarians each dining
hall should have.
Graham Dining Hall manager Duane-Sergent said he favors the plan. "It would greatly improve our service to vegetarians on campus," he said, although he has had very few complaints from students this semeater about losing out on meals.

Hughes called the proposed, systern: "a very real possibility," noting that it would ease the jobs of his servers and that he could see no problems with instituting auch a prograun.

Wood said, "I think it's an excellent idea. We do like to cater to the vegetarians." (Wood noted that if a student brings in a special vegetarian recipe, the cooks will often prepare it experimentally.) He too saw no problems in implementing such an identification program.

With such support behind this proposal, it is hoped that after the managers of the six campus dining
halls mieet today, the solution to the problem will be on its way.

## Most Boring Summer Job: not pressed for time

Despite the alleged hot issues we are supposedly harding, we at the editorial page have been aecretly bosking in boredom. The entries for the "Most Boring Summer Job" contest have been pouring in. We have relived with our contestants the tedium of summer jobs including: sorting 25,000 mosquitos from insect traps at the Mosquito Extermination Commission it southern New Jersey, sorting ehroush divorce and probate files from the 1800 s in an windowlead basemert, and picking up garbage for the federal government.
Today we present the two winning entries in the hope that readers inight share some of this pent-up energy. We hope a healthy dose of boredorn will give some people the inspiration they need to tackle a hec-
tic semester.

It was only 8 a.m., so I was fresh and ready to work. The heavy air in my lungs was relatively lint free; 1 could tell the day was young.
The only sound at this time was a faint drone from the washroom. I felt great, like I conld tackle anything. The dryer boy wheeled in our first trucclioad of sheets.
Ann Wasn't around, so I tried to spark a conver sation. "Good thing there ain't a lot of sheets today," I mumbled. The girl next to me smiled. End of conver mation.
It was 8:03 a.m., but I lost track how many superclean sheets my partner and I had atretched over the wooden horae, making them ready to go through the press. I wished I could see us from a ceiling perch, all 16 of us stretching sheet after sheet in periect dancers.

It was 8:05 a.m. now. Two hours later, it was 8:07 a.m. Arin here today?" I vocalized. Before my partner's shoulder's blurted a deafening shrug. I felt a famittar tension in the air.
You didn't have to see Ann to know she was there. Perhaps it was the pastel blue uniform that emitted such a stench of authority. She wore it like the Nazi generals wore their stripe.

Click. The click of a switch from Ann's mighty hand sent huge rollers into motion. They rotated, ab-
sorbing spurts of ateam that would mercilessly
flatten hundreds of aheets before day's emd. flatten hundreds of aheats before day's end.

The winner: Wendy J. Sherman

I always wanted to work with the press, but this wasn't quite what I had in mind
The din of the rollers meshed with the washroom clatter, but nothing could break the mental grip Ann had on her workers. For some reason, I could feel the tension directed toward me that day. I tried to ignore it.
"Wendyl"
I couldn't ignore it anymore.
"Yes ma'am!" I anapped to attention.
Get up there and
1 couldn't believe it. My peers stood in awe as I embarked on a solemn, almost holy pilgrimage to the towe machine.
I could see it in the distance. It was next to the open door.

But then I thought, why not? I've earned this promotion. I've worked hard these past two summers Why ahouldn't libe able to perspire in ventilated com
fort?
A truck of toasty towels to the right of me, conveyer in front of me, 1 skillfully accepted the challenge.
no time wasted, I picked out my first towel and sent it through the folding machine.
I fed the next towel
Then the next
The next towel had a stripe on it
The next one didn't.
Ifed another towel. This machine had an insatiable appetite.
appetide every comfort I could want at that machine. I could shift my weight to any foot I pleased, and every Tueaday I watched the garbage truck go by. But it was lonely at the top.
was lon one day, while Ann wasn't looking "fix-it" Joe the mechanic averted my attention. "Hey Wen dy," he said, "why don't you take a teat on how to feed towels?"' Maybe they'll give you credits."
I thought about experience credit for what iwn doing at Service Lineu Supply, After regaining my composure, I thought, naw - Dean Schulte would never believe it.

## Boring and ugly: another winning combination

Being one of those people whom grandparents call "go-getters." Ibegan looking for cemporary empioymen almoss inmedrately aher reming an ass- I took the firet job I found.

## The runner-up: <br> Rick Delisi

The Crownlight Flowesicent Corforation is one of the leading emficuschool indemitial artimanies will Bittest. Shortly after lying to the plant manager, one Bill Siegel I wasiag plant
return the next day. My only expectations were momey and a place to go during the daylight hours. Upon my 7:50 a.m. arrival I was introduced to my foreman, a man known simply as Charlie.

Charlie was the one man responsible for my threeminute indoctrimation into the world of flourescent lighting fixture manufacturing. The preliminaries went fairly gours ability to form, time card hours, nbility to apeak. French. ABILITY found mymelf near the spray soon found mymeir near the spray booth, where thousands of ugly pressed white paint on their way to becoming even uglier fixtures.

At the stroke of eight I thought it was all over. Bells ringing, people starting to run, and a large man, a very large man coming right at me. The image is man coming tright at me. Theimage is stalling to men in my mind. The man is talking to me, but I don't understand. Seconds later it all makes gense.
and the man is the painter. Charlie tell and the man is the painter. Charie tells me his name is Antoine, an ilegal in Brooklyn. As the machines in the factory gtarit up, the noise level reaches several billion decibels. Antoine several binion decibeis. Antoine peachest menench. I ames, spaspaking only perfect French. all the pieces of sheet metal, hand them to the afien, and put theminto the them to the ahen, and-put theminto the He speaks no Engligh, except for, "Hello, my friend." Sample firbt-day dialogue: "Hi, my name is Rick," "Hello, my friend,".."What time is lunch, Antione?" "Hello my friend."
Wipe, hand. put, hello my friend. At Wipe. hand, put, hello my frien
10:10 a.m., the bells ring again.
I have only been on the job for two hourw, but I um now a regular. I run يNithtiecrowdinto the nowsoveltering
parking lot to find the oasis of the hand the greasy operator a dollar, he hands me a four-day-old danish and a chipped bottle of Yoo-Hoo. Ahhhhh. Relapation, peace. 1 ifit in the parking lot to enjoy my suburban feast, but no lot to enjoy my suburban reast, but no povernent than the goddamned bell goes off again. I am nearly trampled by my co-workers on their way back to their battlestations.
By the end of the first week of wipe. hand, put, boredom turned to fruetration, frustration turned to anger, murder turned to dreams of arsor. I folt tike the lead in an Itahian movie about clones. No longer: a college student, I was now a blubbering amoeba at minimum wage. It was time to hit the road.
, the day I told frow aight 20 burn in hell, 1 got a call from a friend of the old mans. Two days later I began phage two of the cesen Fools. Yes, ceappools. Need lazy mone?

## and taninspired muticienship. <br> Hunter typifies a Dead concert

By Marix Sullivan
Robert Hunter has long been the Anonymous face behind the Grateful Deac. Despite "Dilaborating on well-known Jones," "Sugar Magnolia;"

"Truckin"* and "Playin' in the Band." Efunter has remained out of the limelight, content to let his songwriting credite be his only foray into the public eye.
But judging from Hunter's Monday night performance at Jubberwocky, it would seem that he is ready to step out from behind the scenes to embrace the pousic of the Dead and hia accompanying lyrics.
Hunter opened his show with "Sugraree," mons he wrote with Dead lead guitarist Jerry Garcia. He then played a series of older nongs from -Americart Beauty and Workinkman's Dead, albumbe that signified the band's golden era.
If was upparent during songs like "Friend of the Devil," "Dire Wolf" and Brokendown Palace that Hunter's main strength is as a songwriter and particularly as hricisthile writea light in in rhyme deapicther cenden cies toward mindiessness: Got wwo reas way
 Marie and she's my heart's Theser
The secord one is prison, babe the sheriffs on my trail and if he calches up with me, I'll
But as a performer, Hunter

\#25 (Theta Tau) on Tuesday's 0.O: Fratarnity Rush map is located at 1105 Harrison st.

Dean talks of Chinese diversity culture- and lifentyle of the people in Commonist China came to fight Monday during a calk'by Angugt L. Freundlich, dean of the College of Vimual aña Pexforming Arta.
e-Freumdich told about 15 people at Monday Munchies, $n$ weikly discuasion held in the Noble: Room of Hendricks Chapel that he found the People's Republic of Chins to be unexpectedly free and full of friendily, curious people.
"I think I have changed my notion of what a communist country is like since my visit," Freuñalich said.

Freandlich was one of a group of 32 art school deans and museum directors who in Arreust.

- During visits to art schools and inuseums and through talks with their guides, Freundlich said the group found that since the death of Mao TaeTung, China has opened up to the western world and has regained a surprising degree of respect for its past.
Uning elides to illustrate his talk, Freumdlich showed the ways-the Chinege hawe combined their 4000 years of his tory with the last $29 /$ years of tory with the las

Chinese paintings range from the uge of simple, broad Etrokes for propaganda posters to the soft pastel color of traditional Chinese art. Mant the Chinese have managed to combine past and present in their art, Freundlich said. For example, he showed a landscape painting of terraced hills and high cliffis. In the background stood an electic transmission tower - a
they, live in a country that respects but does not dwell on ita past.
This regard for the past which was fiercely repressed during the Cultural Revolution in the 1960s, has only been revived since the death of Mao Tse Tung, Freundich said. Mao died Sept. 10, 1976, and was replaced by Hua KuoFeny:
Now they have another period of relative freedom," he explained.
Freundlich compared his visit to China and his trip to Eastern Europe two years ago.
"In East Germany, I' was never out of sight of a gun," he said. "The people in the art schools acted as if they were afraid."
However, he never saw a gun during his trip in China. "I'm sure that great violence has been done in China, but people in China don't act as if they are afraid."
Freundlich found that professors in the art schools were curious about the western world.
"The people were deeply touched by our visit. They were
proud of their museums and eager to get them going again."
Freundlich also noticed an emphasis on working in groups. "Throughout Chinese society today, there is an emphasis on working together the group effort."
Yet even this emphasis of group effort has been tempered recently; he said. The Chineae have begun to single out exceptional children for individual instruction. avelopment has Another development has been a recent adoption of some chpitalist ideas. The set up savings accounts. There is also a greater dernand for consumer goods, he said.
Freundlich views this relaxation of the life in China with pleasure. The new rulers of China have declared an end to the Cultural Revolution he said. They are declaring a period of greater freedom and have blamed the past repression on the Gang of Four, Whina's top priority leaders after Mao died.

# McCullough is SU's 'Little Big Orangeman' 

By Drew Schwartz
Willie McCullough has never been one to refuse a challenge on the football
field. In the previous two football seasons, SU's 5 -foot-10, 210 -pound seniar positioned himself within an eyelash of opposing offensive centers and battled againat them.
McCullough's adversaries were usually several inches taller and often outweighed him by more than 40 pounds. However, MeCullough not only survived the personal wars that occur in football's trenches, he usually won them.
"I Lke the challenge of playing when the other. guy thinks he, has an advantage," McCullough said.
They may expect me to crawl upand play dead but I'm going to give them a fight and they'll find it's not as easy as thev expected. As a middle currt 1 thought big, felt big and told myaelf
nobody was ever gonna move me," he nobod

However. McCullough was told this summer he would be moved to middle linebacker because Coach Frank Maloney decided after spring practice to add an extra linebacker and subtract a middle guard. This season, SU nses the $4-4$ alignment instead of the 52.

We examined various looks during the spring." said Dennis Fitzgerald, SU's defensive coordinator and linebacker coach. "We chose the 4-3 because basically our personnel had a better opportunity to aucceed with it. We didn't really have a back-up at middie guard and you don't choose a defense for any one person," he said.
McCullough was initially shocked by the switch. "It gave me gomething to

Wilis McCullough (56) first becarve a reguiar for SU in 1976
when his intensity ensbled him to overcome his lack of aize.
think about and I didn't believe that after all those years of playing one
position (since junior high school) I would have to learn another one."
"But after talking to the coaches 1 realized it was the best thing that could happen to me. One of the many advantages is that if $I$ execute the defense properly and beat my man I could be in on a lot more tackles," he said.
McCullough began accepting the challenge when the Orangemen reported to fall practice. He had only two weeks to learn a position that

Tennis team gains 3-love mark

Ellen Feinberg

By Robert Harleston
The SU women's tennis team (3-0) continued to rollover its opponents yesterday as the Orangewomen crushed William Smith (2-1) 6-1.

Betsy Gottlieb performed as experted, diamissing Diane Isreal 6-2, 6-1. Betsy Malkovsky followed suit. Hinning her mstrh G-I. f-2. ioyracuse swept its ai
Marisa Tinkler, a freshman, made her first appearance in a singles match yesterday and destroyed her opponent 6-0, 6-1.
"Tinkler is a fine example of the depth on our team," said Coach Jesse Dwire. "She came into her first singles and blew her opponent off the court."
Tinkler adoeared strong through the first eets, but Beemed a bit jittery toward the end of her match.
"I tend to rush myself on the last set." she said. "But I was sure I could win it."
The Orangewomen's only loss came when they aplit their doubles matches. Joni Aronson and Karen Austin breezed past their opponents, 6-0, 6-2, while Jeri Jaeger and Nancy Barrieau dropped their match 2-6, 6 -
Coach Mary Hosking of Williarn Smith expected a tough match, and feels that playing against SU was good experience for her team. Dwire is mixing up his line ip in order to find the derfect bet for upcoming big matches against weekend, Bucknell.
Lyet Dwire speaks for the team when he says, "All thing this season lead to Colgate.: A maxcn against archrival Colgate is set for Oct. 24.
The team will be on the road for the next rnumle of weeks, but they return home to the Skytop courta
Oct. 17 to take on Oswego at $3: 30$.

## SU field hockey wins operier

The SU field hockey team is also undefeated. Yesterday, the Orangewomen opened the 1978 season with a $4-1$ win over William Smith College on Lancaster Field. Debhie Winsor scored two goals for Syracuse while Claire Belser and Karen Cohen added a goal each. The win also marked the successful debut for new SU coach Kathleen Parker. Syracuse will be in action next on Oct 4 at home against Hartwick.
demands more skill than a middle kuard. According to Maloney, a difficult thing for an athlete to face.

## No downshift

The shift involved much more than plaving irom a standing position Fitzgerald said that one of McCullough's problems was learning how to play pass deferise for the first time. In addition, he had to watch more players on offense before deciding how tor react to a play.
"The difference," Fitzgerald explained. "is that us as middle guard you don thave as many assignments. You buse responsibility before going to the hase whirh Willie atrupwlof with in the first game. But against North Carolina State he picked up his assignments fririv weili; and was getting to the ball Not well enough to remain at his new spot, however. Befure McCullough haa a chance to familiarize himbelf with middle linebacker, he found himself trading positions with outside linebacker Jim Colline for the Michizan State game.

Collina (6-foot-2. 223 tbs.) seemed to have more physical attributes for the said. The new alignment, Maloney said. The new alignment, Maloney McCullough's outstanding 4.5 time in the 40 -yard dash.
However, McCullough is finding his latest adiustments more difficult than ogminnt Floride stime
the fixwt switch to middie linebacker. "It's learning a new position all over again," he said with a siph. "I had to start from scratch-after N.C. State because the pass drope are deeper for an outaide linebacker and the keye are harder."
Maloney neems natisfied with McCullough's progress, noting that he's given his best effort and is showing continuous improvement.
The stocky linebacker hasn't failed previous tests football had presented him. The first obstacle McCullough had to overcome was in seventh grade but he didn't let his lack of size deter him.

## Big brother

"I always admiced my. older brother, whe was one of the stars on his high school team. I liked all the publicity be Got so I wanted to get some myself." McCullough remembers.
Willie followed in his brother's footgteps, eaning all-county and allgtate honors in high achoot.
McCullough patterned his play after his idol, Rich Glover. Glover was a small middle guard at Nebraska whose reat quickness and determination enabled him to become an AllAmerican and gain recognition af the leader of a defense that led its feam to national prominence in the early 1470's.
After atarring at Hudson Valley Community College for a year, high hopes of fitting the Glover mold. But the transition to major college foot ball wasn't as easy as McCullough thought it would be.

Hefore I came here, I thought I knew almost all there is to know about foot ball. But it was a whole different game. The intensity and knowledge of the pluyers and conches were amazing- It wus like taking two giant ateps forward," MeCullough said.
Reflecting on his two years at middle kuurd. McCullough said that "in a small way, I did achieve what I had once dreamed about.
However, McCullough won't let pleasant thoughts of post-aesion honory or a pro football career go to his head, although he would welcome both or either one.
As far as pro football is concerned McCullough doesn't "even have it in my mind. I don't want to get that far ahead because rve seen too many people place all their eggs in one basket, then have it drop and be left with nuthing.
McCullough's only immediate goalis to become the best linebacker at his position. "I'm not the bert yet, but Im getting there," said the determined McCullough.

# State approves stadium funding 

# The Daily Orange 

ALBANY - The New York State Legislature last night approved apen ding $\$ 15,250,000$ in state funds for a domed football otadium at Syracuse University.
Chancellor Melvin A. Eggers, who was in Albany for the vote, said jubilantly afterward; "Thia is a great day for Syracuse and Syracuse UniverBity."
Und
Under the bill approved by the legislature, SU will receive $\$ 2$ million year the state for the $1978-79$ fiscal year and million for the $1979-80$ fiscal cal year.
The remaining $\$ 250,000$ will be used by the State Urban Development Corporation to supervise the stadium's construction.
The university alao plans to build a continuing education center adjacent to the stadium and a student center at Uni versity Place. Total cost of the and buildings is estimated at $\$ 40$ million.
SU will have to supply $\$ 25$ million for the project. The univeraity is expected to begin soliciting donations from alumni and benefactors in the next few days.
The atadium appropriation was in cluded in an omnibus bill that gpelled out the various programa that the UDC is interested in funding. The entire corporation s package for various projects
around New York state will total $\$ 461$ around
However, the UDC's arrangements with the university for the stadium money have not been completed and the state money will not come until they are agreed upon.
The university must agree to the arrangements, included in the assembly
bill, to qualify for state funds. bill, to qualify for state funds.
First, the UDC must review plans for the facility from time to time to try to spot potential cost overruns. Second, SU must make upanyoperating deficit the stadium incurs. Finally, the state will get 20 days of rent-free use of the stadium facility each $\bar{y}$ ear.
Early Wednesday, it was believed that both houses would go into conference at noon and to their chambers to deliberate at 1 p.m. However, it later became apparent that the legislature would not convene on schedule.
Both houses finally got down to business at about 4:30 p.m. After a lengthy debate, the assembly approved the UDC measure at about 6:30.
The Senate met in conference until about 9 p.m. After a dinner break, the full Senate met and approved the bill at 10:45 p.m.
There was much squabbling among legislators over the entire UDC package. Several Republicans, including Assembly Minority Leader Perry B. Ansembly Minority Leader Perry B.
Duryea, called for the tabling of the Duryea, called for the tabling of the
bilt
The Republicans were not satisfied with the amount of money that the bill with the amount of money that the bill pourdions.

The SU stadium appropriation was contained in a separate section of the Contained in a separate section of the UDC bill and also came
Republican John D. Flanagan labled the stadium portion an "outright gift" to SU. He questioned whether other However, the legglity of the county's Winters, Julian and several other com-
endorsement of the Briacoe proposal endorsement of the Briscoe proposal was soon questioned by county attorneys. They said public bidding among construction companies must first take place if the county were to help fund the stadium.
Meantime, the Stadium Commission was at work. One of the first things it did was widen the scope of its study. The possibility of locating a stadium at either the State Fairgrounds on Bridge Street or in the town of Van Buren eight miles from the SU campus - were explored.

Also, the commission looked into the idea of a domed stadium. County legialator Gerald J. Mingrolelli Ir the chiaf proponent of the domed stadium idea, asid it would make more sentee for the county to back a facility that could be uned yearround and for a variety of events.

By this time, SU had come up with some concrete proposals regarding a Slytop taditim for the county legilatare to consider. SU argesed to guarantee $\$ 4.5$ million in county bonding for conitraction couts and
believed it could solicit another $\$ 3$ million in private donations for the project. Cost estimates for a stadium at Skytop had grown to $\$ 12.5$ million Thus, the county would have kicked in the remaining $\$ 5$ million.

Attitudes change
In January, the no-frilla Skytop stadium plan still had the inside track among commission members. But gradually, almost imperceptibly members began to waver on the Skytop site.
It was at about this time that battle lines regarding the Skytop site began to be drawn. Favoring Skytop were were Chase, Mingolelli and -mostim-

An ertix's conception of the inside of the domed stadium that will
replace 71 -year-old Archbold.

The Daily Orange needs a layout director, Tues. $\&$ Wed. nights.
Call Tom Coffey at 423-2127.

## Continued from pege one

institutions would make similar applicationsinit the future.
"This will be back tonamint us, "he warned
But Democrat Inwin J. Landes, sponsor of the.UDC bill, defended the stadium proposal, sayimg the university provides a valuable serVice to New York state" by helping to run the College of Environmental Science and Forestry.

Local Assemblyman Melvin N. Zimmer added tbat ${ }^{*}$ SU provides dorm facilities for ESTOVI,"

## Rules and reasons

The third day of fall semester, a glass ashtray shatters across the floor in a Boland room. The resident goes to the desk for ar vacuum. She is told she can't have one. What, are they all broken already? No, but they don't have all the proper labels on them yet

She picked glass splinters out of her feet for three days.
Temporary meal cards were still in use. One freshman found he had misplaced his after running to catch a 6:30 dinner. He had SU ID, but no money.

In the midide of the night, a resident adviser's bed collapaes. After trying to sleep the night with her head on the floor and her feet in the air, she asked the maintenance supervisor if she could use one of the four beds in the empty lounge, less than 25 feet from her room, until her bed was fixed.

You can guess why she still has a backache.
Each of these little scenarios are true, and you probably know, or have experienced, several like them. And no matter how annoying, or ridiculous, or downright dangerous the situation is, they are shrugged off daily. Rnles are rules.

And each rule was made for a reason
We all know that vacaum cleaners must have labels, or the person who steals it won't remember where it was stolen from.
And meal cards are issued and checked so each student will get the meals he pays for
And, as the saying goes, beds were made to be broken. . . or some cliche like that.

Sy Montgomery for The Daily Orange

## Fathers and the Great Packing Plan

Every Arrerican father (and possibly every father everywhere) is convinced that the, and only he, knows how to properly load a car
What is being loaded does not matter. It-can be picnic paraphernalia for a day's outing, or all his child's

## Ariane Sains

belongings for a year at college, or any arnount of cargo in between. What is important is that The Father has a logistical problem, which only his expert innowledge can correctly solve.
Do not misunderstand. Fathers will acornfully concede thātanyone can put things into a car. But putting things in, and loading the car so that there is even weight distribution, maximum use of space, and proper balancing of odd shaped paccages is to The Father's way of thinking entirely different. Never mindif things are thrownins any
which way and the trip is atill which way and the trip is atill will assure you that such success was: only by the grace of God, and anyway, "You didn't really do it right."
I used to think this packing fetish was peculiar to my father, until I men-
tioned one day to sorne friends that my father was convinced he was the only one capable of properly packing an automobile. Funny, they each said, my ather thinks the same thing
Nar can you count on the loading process being accomplighed in one day. The actual physical work (the bulk of which, after The Plan is unveiled, will doubtless be left to you) is a rimple Thetter compared to the formalation of successfully executed, everything that is going must be assembled two days prior to loading so itmay be scrutinized by the expert eyes and brain of The Father. Anything you forget will simply not be included in the final loading. unless you commit the ultimate sacrilege and rearrange things when The Father is not looking. Of course, in that case he is absolved of all responsibility beciuse you, the novice, have altered his Plan, and have no idea what you have done to the delicate ounce by onnce balance he has worked out.
The, other facet of the process of packing is unfailing pessimism.
This is especially true when it comes to Loading the Car for College. In my house, this activity has been elevated

to the level of a ritual. When my belongings are assembled, the mandatory two days prior to loading, my father enters my room (if he can get in the doorway). He circles the pile three times, shaking his head and muttering, "Don't think it's gonna make it." For two days he walks around with dark circles under his eyes, as he spends sleepless nights trying to figure out the problem. Early on the morming of the day I am to leave, he wakes me, and
directs the packing operation, while other veteran packers in our apartment building stand around and offer ad vice, which my fatherignores.
There is only one thing that The Father does not allow for in his Plan the unlosiding. The logistics of this detail are below him. When I asked my father, who was not accompanying me to school this year, how I was going to get my trunk off the roof of the car, he told me, "Kid, that's your problem.

## Carnivore's

## cravings

To the editort
I want to talce issue with Carl Johmon's editorial "Eating away the yeggie menu" in the Monday DO: I think that restricting vegetarian entrees to vegetariama would discriminate against meat eaters. You aee, some of is car nivores often find the meat entrees unpalatable and for inedible. We are then forced to take our chances on

## Cosmetic

To the editor
This is in response to Sy Montgomery's commentis in "Blank Faces and Briefcases." Her argument (already a tired one) that the "reat worldrs" invasion of college: campures implies: the total diseolution of character and in dividuality in academia cannot-be aupported:-
Individuality is a vague term that gho natrowly defines, then equates with-bocial activiem. But, in fact, much of this so-called social ac tivism of the 60 F was, in itself, a product of conformity. A majority of fudents merely followed what was the prescribed code of conduct and dress on callege camprisea.
Thun, individuality is not at issue hierer but instead the notion of Changing attitudes op campur.
ovMi If Montgomery;contencia that unfiora are chomen by the job mnrkat and melates theit to a decline in deatimm - Yois in- andicrom el im

the vegetarian food. At four bucke per dinner, the university can afford to cook enough golden bake or souf fle for everybody. Cheeseburger in Paradise!

## Mickey Mercier

## characteristics

Newhouse's entrollment continues to ncrease despite a level of increase despite a level of ecoming increasingly acute.
I suggeat that while the real world may have seemingly. invaded the campus community. the im plications of that are not as Ms Montrgomery has indicated "There have been and there alwaya will be shallow individuals with trivial concern:. This is notaproduct of the real world. This is human mature Beyond that, who really cares if a stincient wears a threerpiece auit of rabsed jeans? Is one any less con orming? Me Montgomery' argument involves nothing mon than a nortalgic desire (porsibly fueled by the recemt film "Animal Howae ${ }^{\text {P }}$ ) for a more oyext display of characteristics that are coanetic in nature. I suggent that this cancern i counterprodnctive to the real tanis of learning.

## Wilson: lame excuses

To the editor:
Please allow me to thank the University Union Speakers Board forbringing Sir Harold Wilson to the carnpus to speak on Tuesday night. campus to speak on Tuesdiay might. The evening marks one of the greatest achie
speakers board.

Sir Harold performed with excellence, punctuating history with titillating ancecdotes from his persanal experience in his dealinge With historical figures of his time. His aense of humor quickly bridged the generation gap between hin and his audience, and even those who knew little about his time as prime minigter left the chapel feeling that they had just met the greatest prime minister Britain ever had. Well

However, during the question time, Sir Harold, the old pro that he is, cleveriy dodged an important question. The question was about the collusion of euccessive British governments in hreaking sanctions imposed on Rhodesia by the United Nations at the urging of Britain, at the time the British colony illegally declared. iteelf independent. Sir Harold claimed that he was not familiar with the detaila of the recent report exposing the role of his government in the belieme. He further said that he had not read che report which wen more than 600 pages long.
Sir Hevrold's evaisive anawer show his emharasamant and goes to show, that whan an old politicien is cancht in the act he never frils to
ry topull the woolover people's eyes. This, however, does not absolve Sir Harold from the guilt of having contributed to the prolonging of the ragedy and the suffering of the people of Rhodesia. This is one period of the recent British colonial ittory about which no one in th British government can apeak with relish.

Now comes Miller time. sex, affairs
FILN ON CAMPUS: "Pardon Mon Affaire," tonight at: 7 and 9 , Gifford Auditorium, \$1.50, Film Forum Subtitied.

## By Steven Titch

"Pardon Mon Affaire" is the type of film you just sit back and enjoy. There is no covert symbolism, no subliminal connotations, no chic avant-gardiam. It is simply a very funny farce about marriage and adultery.
For some reason, French fimmakers have always been able to take plots and situations that have been used dozens of times in the pastand make them seem fresh. "Pardon Mon Affaire's" adultery theme is familiar enough; variations of it have been used in such well-known films as "Cousin, Cousine"
Seven-Year Itch."
The movie is about Etienne Dorsay (Jean Rochefort), a happily-married, highranling civil servant, and his attempta to get to know Charlotte (Daniele Delorme), a very sexy model who, as Etienne puts it, "has set his moral standards on fire."
Unfortunately, Etienne never pulls this affair off. When he tries to arrange a meeting with Charlotte using his interoffice phone, Ie unknowingly reaches one of the secretaries. Later, when he gets his would-be mistress up to his godmother's apartment for an evening alone, Etienne is greeted by his family in what turns out to be a surprise birthday party:

Rochefort is excellent as Etienne. His talents, especially his facial expres sions, help carry many of the flm's visual gags while simultaneously making his character believable.

Director Yves Robert has a Inne eye for comedy and a good sense of the absurd. He opens the film with a wide-anglepan of Champs-Elysees, ultimately finding Etienne, standing on a loth floor ledge dressed in a bathrobe and smoking a cigarette-
Robert, however, spends too much time with some of the fim's. subplots involving Etienne's friends, all of whom are having extra-marital affairs of their own. Though the subplots are for the most part humorous, the viewer finds himself yearning for the further misad ventures of Etienne and Charlotte.

The film's overall vibrancy makes this minor fault forgivable. "Pardon Mon Af faire" bounces along at a fagt clip. One hilarious sequence follows nmother, keeping the audience in good spirits and making the movie truly enjoyable.

## Sir Harold lectures at Hendricks

## By David Abernethy

Sir Harold Wilson, four-time prime minister of Great Britain, came to campus Tuesday night with a speech that combined a cursory review of World War II history and postwar politics with accounts of Wilson's experiences with American presidents and diplomats.
Piling anecdote upon anec dote, Wilaon shuffled through 30 years of British political history while the audience occasionally responded with laughter to Wilson's dry humor.

Afterwards, in a question session. Wilson praised the Camp David accords and re joiced over the economic boon provided Britein by the diecovery of North Sea oil.
"The oil has been there since the first chapter of Genesis," Wilson quipped, adding that he was "happy it was discovered in my time as prime minister."
The few controversial issues raised by questioners were quickly sidestepped in clsissic Wilson style. Once labeled "the Houdini of British politics," he declined to respond to a charge that his government broke economic banctions against Rhodesia, which it had publicly supported.
The charge was in a 600 page. government report "which Ihaven't read," Wilson said.
Wilson refused flatly to comment on the pending case of British Liberal Leader Jeremy Thorpe who has been indicted on charges of conspiracy to commit murder. "Such things just aren't done;" he said.

## SU volleyball team strikes out in 1978

## By Maric Gamfn

Bameball players are not theomly anes hitting these days; aince he Syracuse women's volleyball team is smashing balls too olleybals, of course.
Elaine Goldband will begin her seventh season as coach of the Orangewomen when SU faces perennial power Cortland Oct. 3 in the home opener. In 1977, Goldband guided the spikers to a 22 . 8 record, third place in the New Yoric State tournament and tenth in the Eastern Regionais.

This is, without a doubt, Syracuse's strongest volleyball team ever, Goldoand said. Senior co-captains Pata Dombrowski and Carolyn Smith, along with eight returning letterwomen, form a strong nucleus capable of producing another fine season. The addition of four talented freshmen and junior Dawn Benson will provide plenty of depth.
Goldband's atrategy of "good defense and consistent hitting" will be true again this seanon at Syracuse. Smith is the strongeat hitter on the team while Dombrowski and junior Collete Johndrow are closé behind, according to Goidband. Other notable players äre genior Andrea Robinson, junior Nancy Pugh and sophomores Eileen Smith and Karen Kincaid
The brightest freshman prospecta are Elaine Morry, who is on volleyball scholarship, and Lix Lamade
'The schedule this season includes matches with no fewer than seven of the top eight teams in the state" Goldband said. Cornell and Colgate head this formidable list of opponentsalong with Cortland, Oswego, Geneaeo, Binghamton and Oneonta. The Orangewomen also will meet Rutgers-Newark, one of the top teams in the East
"We have a well-balanced team this year, qualitywise and classwise. We should go as far as we did last season, if not further," Goldband said. Should the Orangewomen finish in the one or two spot in the Easterns they would qualify for the national ournament.

This year's team has the potential to exceed the ac complishments of any other volleyball team in the seven-year istory of the aport at Syracuse" Goldbandadded. If they can hit the volleyball like Fod Carew hits a baseball, this season could be a glorious one.

## Stadium vote 'delights' SU administrators

By Mhe Maynard
Rebiction among Syracuase University adminiatrators to Wedneaday's vote by the atate Legialature approving money for a domed stadiumatSU can be summed up in one word ecstatic.

Chancellor Melvin A. Eggers said, "I have great appreciation for the many people who in very important ways contributed to bringing this legislation about."

Clifford L. Winters Jr., vice chancellor for administrative
operations, waid 'I'm very pleased that it'a over. Everyth ing seeme to be moving on schedule, and we have the major hurdie cleared now

Jalke Crouthamel, director of men's athletics, said, "We're just delighted. As far as we're concerned, it's an opportunity to make (our whole athletic) program a viable one."
Joseph C. Gallagher, assistant director of men's athletics, said his reaction to the news was "one of delight. It's the news we've been wait-

# Hillel won't boycott on Rosh Hashana 

By Marilyn Marks
The B'nai B'rith Hillel Foundation is not planning to boycot Syfacuse University classes on Rosh Hashana this year. Syracuse University classes on Rosh Hashana tast year's efforts failed, Eaid Hillel. Preaident Aaron Alveis.

Last year, an angry and vocal Hillel promoted boycott of clasaes on the Jewish New Year because clastes had not been suspended.

John . Pracha, vice chancellor for academic affairs, said he has recommended to college deans that they "urge faculty members to reapond in a senaitive way" to atndents wiahing to observe the holiday, which runs this year from nundown Sunday to sundown Tuesday.
Prucha has asked them not to give exams or new aseignmenta on those days.
However, the policy is not mandatory. "Those days which are sacred to our Jewish students are nonetheless scheduled classes A faculty member is free to do whatever he or she thinks is im portant," Prucha said.

It'macollegial commitment rather than a legaliatic one," he added.

Finlel adviser Rabbi Milton E. Elefant gaid the policy shows the administration is making an attempt to be cooperative with atudents."

- Kowever, Elefiant prefers mo classen be schedialed during the
ing for and hoping for," But Eggers cantioned that there are fiill many thinge to be taken eare of regarding the stadium. Access to the stadium and parking in the gurrounding neighborhood are two abpects that have yet be studied in detail, he sand.

## He also noted that there is

till work to be done on detaile of contruction of the other two buildinge that will be built -a continuing education center adjoining the atadium and a otudent center on the corner of Univeraity Avenue and University Place.
Winters anid that negotiations between SU and
the state.s Urban Development Corp. the afency that will administex the btadium funds, are in the Fnal stagem.
But he was optimiatic, and added that work on tate appropriation would be com. pleted in "the neart wreek to 10 days."

## Small turnout gives SA elections interesting results

By Carolyn Beyran
About 10 percent, of about 1,150 undergraduates, Wedineaday's Student Association Assembly electiona, voted percint turnout.
Only partial election reaults are available because of numerous write-in candidates and a massive tie among the off-campus housing candidates.
of the original 64 declared candidates, only one lost to a write-in candidate The remaining spots in the 125 seat aspembly will be filled by write-in candidates.
"This was one of the few elections in history where almost everyone was a winarr,* Arnie Wolsky, SA president, said.

Winners must accept their seat before they will be conmidered officia representativer, However, SA officials have not been able to notify all the can didates who received the most votes. ac cordiag to Dale Cohen, SA vice president for adminiatrative operations.
In addicion, 62 off-campus residents are tied for 12 aeats, with one vote each. Ties also reanlted in South Campur.

[^4]Greek housing and Haven Halt
SA will hold a run-off for Haven on Oct. 4. Thed candidated who are interested in running mast come to the SA office, 821 Univeraity Ave., with an SA office
SUID.

Among the more imagiantive writein candidatew were Mel Eggers, Peppermint Patti and Howard the Duck. These names will not be part of any run-off.
Official winners are as follows:

- Haven - Tracy Colling

## ORL program discourages vandalism in dormitories

By Luxda Trefz
In an atterapt to curb vandaliam, the Office of Residential Life han initiated a program to encourage dorm reaidents to talce care of their dommitories.

James B. Morgan, ORL director, maid that each year his ofince faces a bill of about one-quarter to one-third of a million dollare for damagea to dorms.
The demage comes mostly from sinch minor items as emptied fire extingriahers and broken windows, but "it adds up pretty quickly," he aaid.
Mitce Karim, Dellplain director, said that in the new prograrn each dorm is allocated $\$ 1$ a stacient for each eightwreek period for a repair fund. $A$ Damage Control Board, made mpof five or $\dot{\text { ix }} \mathrm{x}$ persomat will be tet ap in each darm to investigate-damage in public areana.
If it can determime who is neapongible for the damader, that permon will be billed But if-the perwen zeoponsible
cannot be found, the money for repairs will conie out of the fund.

At the end of the eirbt wert period wice a semester - any left over monay in Given to the dorm, mand nev fund is ewtablished. The fertover money can be used for anything romeration equipment, televisions, mack bars, fur hiture - whatever the dorm decides to nend it on
Morgan asid vandalism has not decreased significantly in the past few years but the cost of labor and materials has risen, thua driving the coat of repairs up.
Although ORt cannot be ware the new progran will help curb the awnont of ditmere. Morime waid the program "five the stradente littie bit of motivation.

Day Hall Director Fitek TMerianalt said the program "evill be an initintive for mone thadeint to got involved . . . if ricomtrued on poopi emeromen

## Everson Museum film program expands selection of art topics

By Rachel Finkel and Martia Rose
Like the diversity found in artists and their films movie-soers are equally varied. It is for this reason that the Everson Muserim film this reason that the Everson Museum film
series has broadened its selection of films. series has broadened its selection of films,
providing those that range from Hollywiood features to avant-garde documentaries about the artists themselves.
The fall series, entitled "Fridsy Night Spiecials," is an attempt to cater to an wide a population as possible, according to Richard Simmons, curator of media and educational programs at the museum.
We want to satisfy the student, as well as the average person who comes to the museum every Sunday," Simmons said. "We don't want to isolate an audience."
In past years, the film series catered to an audience that was primarily interested in commercial movies. Yet Simmons believes that documentaries and foreign films are equally im portant.
Films offered in the series are of three categories: Hollwood features, International categories: Holwood reatures, Couternational independent films, those written and produced by the artist.
Each film includes an opening lecture given by Dr. Lester Friedman, professor in the drama department of the Viaual Performing Arts School, and a diacussion following the movie.
Simmons said the discussion of the more obscure films is "almost necessary" because of their unconventionality. "People are very unaccustomed to a film that doesn't have a plot," he said "They don't know how to handle it." Participants in the diacussions may vary anywhere from 84 to 324 people.

Two of the more serious films offered in "Friday Night Specials" are "Black Girl," and "Borom Sarret," depicting peasant life in Africa.
"Black Girl" is the story of a young Sengalese woman taken to the Riviera by her employers. It is only when she is away from Africa that she gains a aense of what being African means. "Borom Sarret" ie a short film depicting Dakar life through the daily-encounters of an impoverished cart driver.
The 1966 Italian film "Blow Up", is designed for a wider audience than the African movies, starring Vanessa Redgrave and David Hemmings, the feature will be shown Friday, Oct. 6. It relates the story of a photographer who has
accidently shot a murder on film but cannot get anyone to believe him.
"The Shop on Main Street," the first Czechoalavalian film to win an Oscar, will be shown October 13. The film is an account of the horiid experience of living under a Fancist regime. The German film "The Lost Honor Of Katharina Blum" playing Oct. 20, portrays a young woman linked with left-wing radicals, thereby becoming a victim of the insidious alliance of police, church and state.
The American film "Mickey One" will be shown Octòber 27, starring Warren Beatty as a cabaret entertainer who assumes various indentities leading to a nightmarish world of parancia and terror.
Surrealism and Dadaism are the themes of five short films being shown Nov. 3. Surrealism involves removing objects from their familiar context and juxtaposing disparate times and places, hence creating an imaginary or "surreal" world. Highlights include Marcel Duchamp's "Anemic Cinema," Anita Thacher's's "Homage to Magritte," and "Entr'acte" starring surrealists Duchamp, Picabia, Man Ray and Satie.
Those who are fascinated by film technology may find "The Frame"-sequence of films interesting. The sequence beginning November 10 will include an 1895 film by the Lamiere brothers, used as a demonstration for the camera and projector they had invented. For the first time images projected within the frame appeared to move. Hence, the incredibility of "moving pictures':"
"The Minimalists" is the title of the final installment of films to be shown November 17. Film theorist $P$. Adams Sitne described the minimalist films as "a cinema in which the shape of the whole film is simplified."
"Everybody makes films for ..different reasons," Simmons said. He explained that "Hollywood commercial" films are more :money-oriented than independent films made by a sculptor or painter.
"When an artist (painter) makes a film he is never interested the box office," Simamonis said.

Film admisision prices are $\$ 2.50$ for nonmembers, $\$ 2$ for members and students and includes free parking in the Community Plaza Garage on S . Townsend Street. All films will begin around $7: 45$ p.m., following an introduction by commentator Lester Friedman:

## Rosh Hashana: A fair deal

In this age of secularization, the official institutions of society often ignore matters of religion. Nevertheless, many people still remain religious and try their best to practice their religion. Syracuse University seems to be denying them that right.
This year, as in the past, SU has not canceled classes on Rosh Hashana, the Jewish New Year. Inatead, John J. Prucha, vice chancellor for academic affairs, has asked faculty members not to give exams or new assignments during Rosh Hashana.

There's only one catch: professors do not have to follow Prucha's guidelines.
"Those days which are ancred to our Jewish atudents are nonetheless acheduled classes," Prucha said. "A faculty member in free to do whatever he or she thinks is important.
In other words, he or she can give exams or new assignxnents - and the university will support that action. A student can find himself in the unenviable position of missing important classwork because he was following his conscience.
The university has tried to give students who refuse to attend classes on Fosin Hashana a fair deal. Butit hasn't succeeded. Another solution must be found.
Actually, that solution is fairly simple. The university must institute a firm policy - not just a guideline - stating that professors should not give exams or new assipaments on Rosh Hashana. Otherwise, many students could fall behind in their academic work through no fault of their own.

secretary in her mid-twenties opened a door marked "Abortions and Birth Control Information.

I certainly hope this doemn"t talse long." ghe swiled: "I have a lunch date I don't want to mise."
"The procesa itself only take about Gve minutes, them you have to rest for a while," the receptioniet. answered, without looking up from her typewriter.
In the corner, a girl of about eighteen filed her mailm and inatientively sipped her Tab. Even though Celia wan almost three months pregnant, she still had a lean, modelbige figure.
Wive been sitting here forever. I wiah they'd get to mealready," Celia vighed impatiently. "Hey, don's look so wrorried It's nothing. This is my thind time.

She was spealing to a petito high achool student with long blonde braids, heavy metal hracess. and. s trace of tcne The fixis face was tuphed. She clasped her hands ner vouity fand aldgeted with the nipper of her cheerleading jacket.

What"e tt lilve?" the whispered.
"Really, don't bascesred." Celia as suired hate : They ureed to have this method where they'd stici thin litule curved lanife into the aterus."
"Mymbline a
 theden now

A stocky, greying woman car rying a toddler pouritioned herself next to' Celia.
"It'e buny today," she said to no one in particular as ahe filled out an information card "Briam, come back here. Brian, don't touch that I'll epank you. Brian. . . . top itf"
"Oh God, to thinit my husband wants to have another snot-nosed brat like him." muttered the overweight middle-aged teacher. A balding doctor with bifocale walked through the waiting room Hechatted briefly with a 16 -year-old girl in a Burger King uniform patted Erian on the head and an nounced what a terrific day it was for golf
"Don't you ever feel guilty?" the cheerleader asked Celia, soquietly it was barely audible.
"Hell, no. I'd feel worse if. I didn't want. Besides, it'e not a baby yet," Celia replied.
"Don't you ever wonder if it would have been a boy or a girl or if it would've looked like you or what it would've grown up to be?

Celia laughed. 'You'll get over it. Incidentally; do your parente know you're here?
Without reaponding, the cheerleader gathered her bookn and left.

The front door flew open.
A rugged carpenter dreasod in soiled work clothes etalked in, followed by his red-eyed wife and his sobbing 12 -year-old-daughter.
"Sit down," he said sternly to the Little girl, pushing her into a chair.
"Please, mommy ... tell mo it won't hurt

## Presenting . . .

## Problem for AAS: declining enrollment

## By Jerry Zremald

Despite a continuing uproar over the proposed reorganization of the AfroAmerican Studies program; it looks as if the program will be absorbed into another school by next fall.

Last spring, a subcommittee, headed by Professor Clyde $L$. Hardin, recommended that AAS become a department in the College of Arts and Sciences.
This year, a fact-finding subcommittee of the A\&S Faculty Council will decide whether this is feasible and whether AAS should be incorporated into the Maxwell School, the humanities program, or another department in Arts and Sciences.
Currently, one student is enfolled in the Division of AfroAmerican Studies. AAS has five full-time and one part-time faculty member and a full-time research staff.
John J. Prucha, vice chancellor for academic affairs, has set a Feb. 1, 1979 deadine for the aubcommittee. If the deadline is met, AAS reorganization would begin by next September.
Spurgeon M. Stampe Jr., acting divector of the program, said he will encourage input from other campus organizations, such as the Office of Minority Affaira and the Student AfroAmerican Society.

Harry N. Morgan, former director of AAS, is critical of the reorganization, He said, "I think that eventually, the program will be phased out. It will shift into Arts and Sciences, and then I think that certain administrative procedures will ensue which will eliminate the program."

Morgan added, "Most of the faculty and the majority of administrators on this campus would like to see AfroAmerican Studies fail," because of financial reasons and because AAS "berves to remind them, of the basic racist nature of the natitution in our society,
Prucha decided to repla
Prucha decided to replace Morgan with Stamps this year. Prucha said the change was made because he wanted new people to work with the reorganization. Morgan said that his and Prucha's "views of the way AfroAmerican studies should go were not compatible," though he added that he had been treated fairly in the situation.
Before becoming acting director, Stampa spent one year as a Syracuae University associate professor of AfroAmerican Studies and sociology. He had previously taught for 10 years at Norfolk State College in Virginia.
Keith Daisley, SAS administrative affairs chairperson, also criticized the proposed reorganization. He said black students were "completely ostracized" last year from participating in the University Senate subcommittee that studied proposed changes in AAS.
Prucha said the main reason to reorganize AAS is that currenHy its facuity members cannot give each other "intellectual and professional support.' AAS facuity members come from mand with members of their own disciplines.

Last year's subcommittee also said personality conflicts among AAS faculty members had hampered zteady and solid growth." The subcommittee said such conflicts would diminish if AAS became a department in Arts and Sciences.
The subcommittee also said AAS "auffers low status," and that combination with Art aind Sciences would alleviate the problem. Stamps added that AAS would "carry the prestige" of that college if it became part of it.
Stamps said one problem the subcomraittee found was that many AAS courses were cross-listed with Arts and Sciences courses, so that Arts and Sciencea raajors can get credit for AAS courses. The subcommittee reported that croselisting would be eliminated if AAS were absorbed into Arts and Sciences.
Though he defended the reorganization plans, Stamps added, "If, in going into the Arts and Sciences, we lose the option to provide certain types of services such as counseling, I think it would be a disadvantage."
Morgan ssid a possible problem with the reorganization is that AAS might lose control of its budget if it became an Arts and Sciences department.
Prucha disagreed, saying, AAS "would have the aame kind of control over its budget that it has now," he said.
Morgan also said that AAS faculty" would be shifted into other deparments to help those departments with their affirmative action profile."
However, Prucha said he would not allow such moves and he must approve all faculty changes.

Students find backgammon another way to relax, unwind

By Dinine Eegntewndat Syracuse University students have differcent ways of escaping the tention collega life often provolces. One of the moat popular forme of relaxation theme days is playing a game, of backgsmmon. Backgammon fever is spreading throughout the campuas an a growing number of students use the game to unwind after a busy day.
The mame backgammon the game in played. The board consista of an opter and inner table, and a bax meparating the two. Players move their checker-like discs in opposite directions onto and off of elongated triangles, moving from the outer table to the inner table. The object of the game is to move one's disce onto the inner table, and eventually off the board. The Eirat person to get all of his discs off the board wins. The amount of epace moved in each turn is determined by the throw of two dice.
Although cine game sounds complicsted, it is fairly easy to learn. Many SU atudents learn the game from friends.
"Backgammon looks dull, but once you learn it you can't stop playing it," aays Lisa

Merkin of Lehman Hall. "It's not just a game, it's a sport It'著 also sh addicting garne; once you tart playing it you can't stop ${ }^{\prime \prime}$
"I like backgammon because you can use different otrategies. Because of the wate of the dice you don't know Whation win it'e a combination of tuck and efnil"
anys SU stadent Grace anys Chacon .

Other students claim they like backgammon because it is reloxing.

One Grover Cleveland resident Enichs backgramon most fun when played while enjoying another relaxing substance. "Everybody gets stoned and plays backgammon all night."

Backgammon originated in the Middle East more than 5,000 years ago. Ite popularity was widespread. During the 1920s a British archaeologist found backgammon layouta in the royal cemetery of the ancient city of Ur in Mesopotamia. King Tut's tomb also contained backgammon boards, which date froto 1500 BC. Patrician Greele played the game during the heyday of Greek civilization.

Enrope expmianced a mugt of interrest in bacigeammon in the 1920 s , and the interrest han spread to thif country during the pant decacie.
Expensive and elaborate bacikgammon aets are a statua symbol. Lacully, the University Smolew tat 147 Marthall St, aell aets for as littio as $\$ 9.95$ or as much st $\$ 100$.
According to Gerry Kemp of the Univeraity Smoker, moet sets sold are in the $525 \$ 45$ price range and are sold to experienced. players. Kemp suggests it is easierto learn the game on a large board, as it is easier to pick up and altde the
discs around discs axound.
"The tale of backgrammon sets peaked about a year ago, but we atill sell more sets than we did five years ago," alay Kemp. He estimates there are about 15 variations of the game and believes it is eanaieat to learn the game from another player.

Whatevex the reasoningbehind backgammon's populacity, it would appear that it will be a popular game on campus for a while. So, if you don't want to be left out, the next time someone asks you to play, ask them to teach you. You may be glad they did.

# HILLEL WISHES YOU A HAPPY NEW YEAR 

Vice Chancellor John J. Prucha has met with the deans of all schools at Syracuse University and advised them regarding the importance of the holiday of Rosh Hashanah to the Jewish students. He asked them to inform their facuities to be sensitive to the needs of the students. to positively assist them by informing them in advance of anv assignments, to avoid any requirements for papers and to avoid examinations so that students will not be penalized for abiding by their religious principles and keeping their holiday observances.

## The engines rev - aind the race is on

The noise is deafening, the revving emgine reverberate off the stands and you can feel it in your chest Sudaency, through the swell of growling motors. From beneath a cloud of whitesmoke, red '62. Chevy pulla up to the starting lighte Its opponent: a pink ' 69 Dodge van.
AI ESTA Safety Park in Cicero, anything can race.
ESTA is the acronym for the Empire State Timing Association. The race track is owned and operated by a stock corporation of hot-rodders.
"Volkswagens, junkers. I've even geen one car with a boat trailing behind it," seid Rolland Schmidt, manager of the race track. "Anyone in anything ${ }^{\text {can race }}$ In the pits, Grand Prixs, station wagons, trucks and Firebirds await the wtrip.
"Rad's Rat," a rust-eaten Camaro which was once maroon, sits sitop a trailer. Pink and yellow paint covers some of its acars. It has no tail lighta or Trearee plates. Next to it, a drink of STP motor oil. Not far away. a dark blue 69 Camano is getting similar attention. Its owner/driver straightens her long brown hair and toases a smile to her huaband. "Bet I'll beat you again", she says.
Deatiane Garby won the ESTA Sportaman of the Year Award last yeart the year before that, her husband, Mark, almost had to force her into the car for her Eirst race. After she got ubed to it, she was racing at the park almoat every Sunday, and winning more races than her husbend.

## Fast women

"A woman has a faster reflex and that's how you win," Mark baid. For it is at the starting light that races are won.
In Bracket racing, one of the two types of races sponsored at ESTA Sarety Park, drivers are pitted against titnated time (ET) from the etart of the guarter-mile treci to the finith Sereral "rime trials" track the car's ET The three majordivisions the cars ET. The three major divisions in bracket racing are: Pro EI, cars that Bracket 11 ETs of 14 to 16 secanderand Bracket II, ETs of 14 to 16 seconds; and Bracket 1II, with ETs of 16 to 20 peconds. Varioua classes are divided that drivers may compete on an even basis. If a car "breaks out" - going faster than the ETofits class - itisan automatic loss. So the secret to winning automatic loss. So the secret to win
Cars race two at a time. All class winners run against each other at the and of the day; starting lights are staggered to compensate. for the variaus ETA. The winner, or awarded either in trophy competition is awarded either a trophy or a cash prize.

Bracket racing is as complicated or uncomplicated as the racer wants to make if," said track manager Schmidt. For Mark and Diane Garby, racing is a

relatively simple affair. Safety regulations require that the mufler and hubcaps be removed from the car before racing After racing their cars at before racing. After racing theircarsat approximately 85 mph, the Gaubys replace the hubcaps, stick the mufler back home Sunday nights - and into work Monday morning.

## Custom cars

On the other hand, John Derfuss considers his ' 57 gold BelAir "strictly a race car." He bought the car four years ago, then a "body minus everything, for $\$ 150$. A custom-designed engine, special racing pistons, a racing cam thousand dollars have turned it into a thousand dollars have turned it into a he has won 10 out of 16 eliminations he has won 10 out of 16 ekminations this year, racing at approximately 97 In contrast to the:BetAir's hyphin body ana pandorous weight othere car body and panderous week to inprove their carre by malking them lighter. Heater, radio and even the back neat may be removed. The ultimate along this line is the "rail"; a seat, a frame, four wheels, and a super-charged engine. "Mod-comap" (modified for competition) machines like the rail are used in Sportsman racing, the second type of race at the racing, the second
ESTA drag strip.
Sportsman racing involves three divisions of cars: Stockers, outfitted entirely with factory parts; Superstorket parto and Modimpe market parts; and Mod-comps, cars which resemble nothing driven on a 200 mph , some reaching speeds over 200 mph .
These, and the Pro ETs, are the reasons the spectators line the fenceat ESTA park.

Exotic creatures thrive
in M Street's pet shop

Hamsters, hanging ivys, tarantulas you name it, The Pet Shop has it. Located opposite the Greenwich Village Bontique on Marshall Street, The Pet Shop has become one of the most unique animal and plant emporiums in New York state.
The front part of the shop is decorated with long, trailing plants that hang from the ceiling. The room is well-lit, casting a shiny glow on the assortment of thriving philodendra, wandering Jews and coleus.
"We try to get weird stuff whenever we

## Buylines

can," said the store's owner and manager Tom DeSalvia. Inciuded in his stock are beasts that crawl, fly, slither, and swim.
For $\$ 19.95$ one can buy his very own red. egred trantula. According to DeSalvia five of the little devils have already been sold since the beginniag of the semester. There is also a Jackson chameleon, which looks like a piece of tree bark with, a head and tail. Hamsters, armadillos, and everpopular bunny rabbits arealso on display. For those with fowl taste, there is a variety of birds. Parakeets head the list. They are great for those who need
someone to talk to. Music lovers can also
find happiness with one of the shop's melodious canaries.
And what home would be complete without a python to scare away unwelcome guests? If a pythoin does not strike you (excuse the pun), maybe a boa constrictor will suit your needs.
For romantics, there are kisger fish. The name is derived from the fact that they are constantly in a state of pucker. These figh
should be bought in pairs for obvious reasons.
The vicious at heart have a choice of two fish they can buy. Jack Dempseys are one type, named after the famous boxer other fish in the tank when they are in a bad mood. To combat this, they must be put in a separate tank when they reach a certain age. There is also the lion fish, which enjoys sucking down a goldfish in vacuum cleaner farhion once in a while.
Pets are sold mainly to dorm dwellers. Pets are sold mainly to dorm dwellers,
according to DeSalvia. "People will according to DeSalvia. "People wilt sneak into their dorm rooms... lots of people," he said.
So if you don't enjoy your roommate's company, you can always purchase an unusual friend at The Pet Shop.

In contrast to the Weat, where ceramia are considered a craft, Japaness potteri vewed as an art form rivaitigg paina
and sculpture. Successful. Japana potters, like our popular painters, oitu become rich and famous.
In Western culture, potters are rard known nationally, but in Japan thi names often become household words. hibitions by outstanding potters eagerly awaited and the works often quickly.
Knowledge about ceramica is wids. pread in Japan, even among laymen an
those indifferent to the other arts. those indifferent to the other arts. Th Japanese govermment views its pottert: "living national treasures."
Japanese sculptors are revered in tb culture, due to the significant ri ceramica play in Japanese socip Pottery plays a vital role in two of Japai most important institutions, the ceremony and flower arranging.

All but two of the pottera in the Evert exhibition are living. The youngd Kikuchi Akira, is only 31, while the old Ueda Truneji, is 64.

Although none of the sculptors known in the United States, most arewd known in Japan, where many are pis winners.

The stereo sounds even better in my bedroom.'

How many times have you used hearc that one? And how often was it followed by, "Aw, come on. You're here now, so jumt relax," and ultimately by, "Don't worry you won't get pregnant'?
Most important, how many times did it work?
The answex, according to Professor Sol Gordon, is: too many times. For tha reason, Gordon has recently publishe

## Words

of "sex lines" guaranteed to tichle anyone who has ever played the mex garne
Divided into categories such as Lines to Cry By ("Oh, I've got so much lowe and no one to give it to!"), Scout Lines ("I promise ("Won't hurt you") and Whine Lines pages of the verbal giverand-take that inevitably arisea whenshedoenn't want to give what he wants to take
Male: 1 just oiled my machine. Want to Female Woxn
Female: Why don't you give it a cold shower and see if it rusts?
Some may object that lines like thia are unrealistic " that no man would have the gan to ask "Want to watch the corn grow and gee if we can't get the kernels pop ping?" But Gorion, who teaches a clapa in human aexuality at Syracuse University has gathered his material from source who should know - his fernale students. Gorcon asked these young women to recount the lines eager adolescent males had used on them in the past, and to they would have liked to respond in what they
ere promoting a consciousness-rait ing effort on the part of women to detect
equals the creativity of the lines themselves," Gordon says.

And creative they are:
She No, thanks. I just got up
If Gordon's treatment of the sex game seems to smack of double standard, it it not by accident.

Only girls get pregnant,* Gordon exikine.
Specifically, Gorcion is referring to the overone million teenage girls who become pregnant every year, many of whom find themselves abandoned once they have "proven their love*+ by having sex.
"This is a serious national diaaster," says Gordon. "It"s not jagt something I'm
playing around with. Im seriously playing around with. Im aeriously interested in cutting do.

Gordon first became interested in the lines phenamenon while warking at $n$ government summer program for underprivileged teens where there had traditionally been a high incidence of pregnancy. He tella of his experiment in the introduction of "You Would if You Loved Me": "We wimply "advertised" the current Lines used by the boys. By making them public, we had a lot of complaints from the boys that we were ruining their sex lives. But that summer our project had no pregnancies - perh aps the only auch record among geveral hundred programo in the country.

So, while the book may provoke amused chuchles from worldiy-wiee collegians, its main purpose is to educate younger people about the dangers of lines so they won't "It may beem amuning at
It may beem ambsing at first, but you can see there is more to it, says Gordon. College students will find it interesting Fighta, social work, or paychology - but Highta, social work or psychology - but
they will also be interested in-making it sisters."
The need to provide young people with adequate sex education became apparent to Gordon about 15 yesur ago whien he wes working in a child guidance clinic.
"Modt people were not discuraing aed with patiente at that time." he says "It was hise a hidden conspiracy; even profes-
sionals weren't able to respond to the questiona of young people." Since then, Gordon has dedicated himaelf to making information about nex available to young people. Ten yeare ago, "Facts About Sex for Today't Youth," which he describes "the Earst book on sex for teens that could be read and understood by teens." In keeping with his belief in using "a popular entertainment medium that can still educate," Gordon also publighed the first comic books on sexuality, which were banned at the New York State Fair in 1971 and 1972, but have atill aold "in the milliona." Gordon now directa the Institute For Faraily Renearch and Education at 760 Ostrom Ave. Lhove who read "You Would if You Loved Me" and feel they have a line of their own to contribute (and who doesn't?) will be glad to know Gordon is planning a second collection of limes for publication in the future. Highlighting this new collection will be lines Gordon has collected from all over the world - Japen, Malaysia, Thailand, Africa - azd pos sibly a puide to gexuxal superstitions, including the infamou "You-can't-get-pregnant-if...." $a$.

Mearwhille, even sexual nophisticatea can learn something new from "You Would if You Loved Me." And the next time someone tells you, "I'd like to get to know you - mind, body and soul, suggeat Paychology 205 , Biology 123 , Feligion 101 , and "You Would if You

## Loved Me.*

## Valerie Carter's second LP, 'Wild Child,' makes a splashy, sassy, sensual success

## By Kevin Haynes

Linda Ronstadt said in a "Rolling Stone" interview a couple of years ago that it was heredoad es Valerie Curter When Carter's debut abbum, Just $A$ Stone's Throw Away, was released at the beginning of 1977 , the rest of us found out why.
As a result of that a uapicious solo de but. Carter not only got her feet wet, but (guchas John Sebastian, Jackson Browne

## Sounds

and Ronstadt) have been soaking in. The album was a critical triumph and aomewhat of a commercial one. Fans looking to be wood by another anssy female immediately fell for the petite blonde with the powerful luage. Her remake of the "Friends of Distinction" hit "Ooh Child" became an FM favorite and was released as a single. With Jackson Browne and Lowell George, whe co-wrote perhaps the finest song on Browne's Running On Empty LP, "Love Needs A Heart." Now with the release of her latest album, Wild Child, Carter has askhayed out of the hadows of friends who gaided her thus far and into a light of her own
Wild Child is a second effort in which Carter has narrowed her musical selec tions in order to refine her sound. Although "Stone's Throw" was an im pressive beginning. it was also an in dication that Carter was still stepping sof thy. The wide range of material on that album demonatrated veraatility more than it indicated direction. Wild Child has done both.

The songs pre a menauous combination of blues and funk presented with passion. The opening number "Crazy" even hinta at disco except there ia no thumping bact hine to bloody your noac, and heasy of orchestration and a cool, convincing of orchestration and a cool,
The periormance by chather.
either licking wounds or looking again with the simplicity of the lyrics substantiated by the honesty of Carter's presentation.

The album's finest moments include "Lady In the Dark." which fades in as if led on a leash until it explodes into an emotional indictment enforced by the rollicking piano of former Elton John Baind keyboardiat James Newton Howard, and the acorching riffa of Steve Lukather's electric suitar.

The title cutisa delicate dramain which Carter purrs "I won't let them touch youf No I won't let them see/ They'll try to civilize theone Ilove/Ifound you in myinnocence and took you/Tomy bed/I don't care what morality has said/ Oh my wild child." Victor Feldman'g eensitive electric piano playing is the key ernotions Carter deacribes.
The album's moat commercial moment could be "The Blue Side," a melodic tune of gelf-acceptance which ingha through the
speakers amidst a breezy string ar rangement by Howard
Howard also handled the production chores, arranged and conducted the strings on three numbera and played most of the keyboards throughout the album. He has always been an accomplished keyboardist, but the production here is superb. Each instrument - including Carters voice - is crisp, clean and welldefined, thus adding to the album's enjoyment.
it'e important to note that Carter didn't need the impresaive cast of characters that helped make her first album so impressive. Other than an acoustic guitar track on "The Blue Side" by Davey Johnstone, former lead suitarist for Elton John, the band line-upon this albumis not
star-studded. But after one listen it's atar-atudded. But after one listen it' tough to tell the differenca.
With Wild Child Valerie Carter is no longer a stone's throw away from being a major talent She's already there.

On her sacond album, witd Chiff, Valoris Curter prowet ahe has onough voced taleot to succesed without the beckiong of her mough voted tale
'II really enjóy my life as an Army Nurse. And the salary is super."

## Goon Squad maintains tradition

By Bylvin Johm
On the frut day of mochool, many Syracuse Univeraity freahmen arrive feeling lonely and scared. But they are greeted at the stepa of their remidences by members of the Goon Squad, who wear orange T-ahirta and happy amiles.

The Goon Squad is composed of about 400 upperclassmen who are supervised by Traditions Commiserion, a growp that hat a long tradition of extending hospitality ats $U$
Traditions Commaission began after World War II as an organization designed to help men returning from the war adjust to civilian life.

Currently, it is a student
organization that tries to promote a menet of campus identity and tradition at SU. About 50 people plan ac tivities for Traditions Commiseion, which the Goon Squad then carries out.

Extermal chairperson Ann Chaikowsly, known ab "Mama Goon," is remponsible for obtaining information from various organizations for the commission.
Doug Klinoweki, known as "Papa Groon." directe the meetings and Bees that everything runs amoothly within the organization.
During opening week, several committees are Bet up to carry ont various activities

## INTERNATIONAL STUDENT ASSOCIATION

"THE BOYS FROM BRAZIL" Executive Producer ROBERT FRYER Music by JERRY GOLDSMITH Screenplay by HEYWOOD GOULD From the novel by IRA LEVIN Produced by MARTIN RICHARDS and STANLEY OTOOLE Directed by FRANKLIN J. SCHAFTNER

The Freminman Welcoming Combittee is reeponsible for helving atndemta feel $c o m$ fortable during their firet few clays at SU.
The Traditions Commnission cairxiee out traditions that have been at 3 U for years.
One of them is the crange stripe the Goons paint down University Avenue on the , night before Opening Day. After celebrating at Hungry Charley's, the goons paint the line from the top of the street down as far as they can go before they run out of paint aind energy. The purpose of the line they say, is to direct freshmen to the main campus! Another activity for which Traditions Commission is res ponsible is the Goon Show, a poyear-old tradition at SU
The show is written by mernbers of Traditions Commiskion. Anyone from the student body is invited to pai ticipate. The show depicts the humprove side of the first few weeks of freshman life. It rumis for three weeks during the fall semester. Chaikowsky said many students come to see the Goon Show ofer and over again.
For the first time, Traditions Commission held a freshman picnic Sept. 5 at theskilodgeat Stytop. Chailrowsiry said it was a guccess because of $a$ large turnout.
"We are trying to get some identity for the freshmen so identity for the freshmen so that as they atart out they will have a class of 1982", Bhe ex plained. hrey wom tust be a group of kids

Traditions Commistion also rraditions Commission also serves in an advisory capacity It runs an information booth at registration for anyone who is having problems. It is avanable weople who ne
p during the school year.
The growp also publishes a survival booklet called Dates and Data, which contains miscellaneous information that students might find nseful. Chaikowsky explain that many students miss it when it is not around.

- Many people believe that the Goon Squad disappears after the firgt week of school. but Chaikowsky pointed-out that this is not the case. She baid "We are trying to involve th Goon Squad in more activities - not only for this semester, but for next bemester."

Some of the activities with which the Goon Squad plans to get involved are the Dance Marathon, the Hornecoming Parnde and Oktoberfest. Ox toberfest is a beer party to be held at Manley Field House on the weekend of Octolber 13.

Ry Lisa Kovitz
The shopping list scrawled in the margin of one student＇s history notes includes laundry soap，grapefruit juice，water－ color paints，the new Bruce Springsteen album and a ticket horne for Thanksgiving． campus Conveniences car－ in its effort to provide the university community with thegoods and servicesit needs． Ave．CC was establiahed in October 1971 after Syracuse University＇s ：first $\begin{gathered}\text { atudent－}\end{gathered}$ Oniversatys－and－operated store owned－and－ope
went bankrupt． students saw the need for a store owned and operated by studente，and established Student Owned Services．The management pledged to put the Marshall Street business area out of buainess．＂
However，the store soon
found itself bankrupt and in found itself bankrupt and in Association then took over SOS＇s charter and established CC aa a non－profit organization． In addition serving the university community．CC gives students a chance to work in a management and
sales environment and it has established Bchalarship and award programs for atudents．
CC is one of the few atudent organizations that are audited yearly by non－university per－ oinnel．
Bill Goetz，CC general manager，explained．＂In a regular company，you can do three things with your profit： ivide it up among the owners， give it to your atockholdera back into the company to im－ prove the quality of the sat

Because of the atudent fee， students are shareholders in the company and the the form or discount prices，he said．
Complicated economics aside，a walking tour of CC is an illustration of why it has been called one of the most complete student services in the country．
Spectrum Sundries，the grand－daddy of all the Sper－ trum divisions，began with the short－lived．SOS and stil hurves today．It handies such itema as soapilyogart，

## University plans to offer course in self－protection

By Andirea Abrahama Self－defrenae and rape prevention course are being planned by varions university groups this gemester．
Melvin C．Mounts，vice premident for student affairs， said his office is working with the Health，Recreation and Phyoical Education Departuent in setting up a non－credit，self－defense course for this wemeater，which may be followed in thempring with a credit course．
Mounte said the university will try to eatablish a rape prevention courses however，no detaile are lmown regarding clase times or credit hours．
In a Iedtere cent to Mounta inet week，Neil Katz，directore of the woek Nei Katz，director of the SU－Profram in Non－ ingoposed that such a course Egngist of digcugaions of Mcurity matters and of currunt
电

The SU Women＇s Center plans to sponsor a seven－week course in self－defense，ac cording to Elizabeth Binney，a Women＇s Center co－coor－ Women＇s Center co－coor－
Binney
Binney gaid detaila have not been finalized，but the course has been tentatively as－ rigned a room in Haven Hall． Fred Davia，who has taught similar courses in the past， may be teaching classes by either Oct． 11 or 18 ．

## Wulroy's dilemma: balancing county services with tax reliet

Onondaga County Erecuting
Finced wa County Executive John H. Muiroy ie faced with the dilemma of trying to provide diential human services to county reaidents and trying to give them nome property tax relief. Buman mervices in Onondage Countyincludo peh agemcies as the hoalth and mental health departmenta, the probation and correction department, the metropolitan commiasion for the aging. the welfare department, the youth briean and the aheriffe departinent.

Fifty-ix percent of the execative branch's proposed budget for 1979 is allocated for human services, and thié tentative budget contains property tax reduction goala.
We have listened to demanda forincreases in Chuman) tervices, while at the same time wo have bistened to demandi for tax cuta, taid Mulroy at yesterday's meeting of Unive
The conuaty' tentative budget for the upcoming fiscal year includes $\$ 160.8$ million for providing essential human services to county recidents, according to Mulroy.
Adding to the county's dilemma are various federnl and state mandaces regulating a large portion of the services offered by the county. Malroy explained.
Sixty-four percent of the human services budget will go toward socisl services, tuch as health care, Mulroy said. He stressed that this figure of 64 percent representer a $\$ 7.5$ million in. erase in the cocial services budget over last ywar.
Because of rising costs for nursing homea, hospitals, health clinics and pharmacies, $\$ 1.8$ million of the $\$ 7.5$ million is in the area of medical atesistance, Mulroy maid.

Ht's the federal government's own contributions to thit dilemuma which is partially responsible for theee riving conte", he acided.
Mulroy seid hospitate in Onondegs County are "overregulated" and moet foderal reimbursement ia based on total heal th care contry for the connty. As a result, Mulroy aaid thers is no incentive for a health mervice to reduce ites conte becatuse to do so would reduce its foderal income. Mulroy said heaith care costs in Onondaga County have increased almoot $\$ 30$ million in three yeara, from $\$ 180.4$ million in 1976 to $\$ 210.4$ million for 1978 .
This eacalation in health care coste hna a direct impact on the Social Services Department of the county government, Muiroy pointed out.
In 1976 Onondaga County spent $\$ 38.6$ maillion for the medicnid program, serving ap proximately 35,725 people, according to Mulroy. In 1977 Medicaid berved 33,287 people, but cont the county almost $\$ 40.1$ million. Mulroy es-
timated the county's Medicaid program would serve 31,654 citizens this year at a cont of more than $\$ 42$ million.
Deapite these increases in the cont of human service programs, Mulroy anid the proposed crease wher represents an $\$ 18$ miluon in crease over the modified buaget for 1978 , recomamends rate of $\$ 13,03$ per $\$ 1,000$.
He said the four-year reduction program will "mean goals of simall but steadily decreasing tax rates."

This business of projecting a four-year tax picture is an extremely risky thing but we felt Me had to set aome goila for us to aim at, ${ }^{\prime \prime}$ Mulroy added.

## New Al Stewart LP follows same success formula of past

By Chnck Obrachowerki A Stewart, the tory-tellex extraordinaire, hat rectragd Although his new lease, Time Passages, is not an inspired at bite past efforta, it bas a number of satiofying maments:

This richly-produced collertion of meditative poems and pleasant melodies employs the suecess, formula used on Stewart's last three IPPs: aconatic guitars and vocala as $a$ core electric gruitars and rhythm section for added punch, and keyboards or strings to tapne the harsher rock sounds.
Nearly two years have paised aince Stewnurt made the transition from coll figure to intermational rocik star with his Year of the Cat album. During the interval. Stewart and his recording inbei, dnand problems. Disputes with the company regarding the release company Segardis The Early Years anthology provoked the sunger/gutarist to move to another label.
Stespite the label change, Stevart has not changed musicians He retained his favorite siderien , keyboard player Peter Wood, Enitarist In Renwicis and producer Aln Parmona.
Prorsoms, now an established
recording artist in bis own recording artist in his own
right, is a major influence on the Stewart sound. To ensure the nlicknesy he destires, the whiz-kid producer has called in close friend Andrew Powell for orchestral arrangements and incorporated syntheaixera and electronic bound effecta into several twane to fit Stewart's lofty lytica:
I left the villase behind in the night
To fode like a sail on the darkening seas
The shifts and changes in the patterns of life
Will weather it more than the centuries
Parson's contribution is most apparent on "Life in Dark Water"* a superantural tale filled with sonar bleeps and ARP symbhesixers. The song could have been choice material for any of Paraons: solo LPs.
The other eight songs are typical of Stewart's previous woric. "Time Pasasages," cowritten with band member Written with band member Peter, Stewart's lyrich explore track; Stewart's lyrice explore the ahadowy worid of memones, and the mazic is Iaid-back but catchy, Alo sarophomist Phil Kentiemmelodic Wailings are fempinigcent of his Gne woric on Year of the Cath Kenzie's baxophone
dorminates the ballad "Songon dorsinates the ballad Song on
etole the thow writh his sax on Stole the thow with hig sax on
Steely Dan's Deacon Blue, Steely Dans Deacion Blue, Kenne taices control of an
otherwise medicore song and otherwise medicore song and
tmrns, it imto a ahowease far tmrna it into a ahowrase far
warm Recs improvisations. warm Ress improvistations. is Another atand-out tune is
"The Palace of Versailles." "The Palace of Veranilles." reader, here conveys to. the listener how the unfalfilled dreams of the French Revolution have left a maxk on French society.
The masic led by a polyphonic synthesizer melody, is somber. A clasing ixterplay between cellos and electic fuitars offers some of the LiP's most unusual and most fascinating sounds.

Unfortumately, the reat of the albtim is inmonsistent $O C$ casional clever lines and stately guitar liciks appear. bitt, on the whole, the remaining aongs are poor facsimiles of older Stewart componitions.
Time Pasaazte may not be Al Stewart's best LiP, but it has far more eubetance, both lyrically and musically, than most of the records riding high on the charts today.

## * Rosh Hashana

two days. "That way atudents would be free to observe their traditiona without a conflict." he maid.

Whe felt that even if we boycotted; we conlda't get Rosh Hashana off. We wanted Jawish etudents to be asaured they could talke the daye off," Alweis asid.
Elefant blamed The Daily Orange for "diffuming our drive for the cancellation of clasees" lamt year. "The DOindicated it was a policy of the Univeraity that no exams could be given. This is not a policy - it is only recommended:" he asid.
In addition to boycotting classes last year, Elefant sent letters to paremte of Jewish etudents which recommended that they write to SU officials requesting cancellation of clasaem.
"Many parenta did respond - though it might not have been is succeasful as we had hoped." Elefant said.

However, clasaes will not be held on the Jewish Yom Kippur holiday, which runs from 6 p.m. Tuesday. Oct 10 , until 6 p.m.

Mary Anne Drew.
Mary Anne Drew, Prucha's eecretary, said a calendar com mittee determined last yetur that it was not possible to cance before on Yom Kippur and Roah Hashana and be able to finish before Christmas

## $\star$ Dormitory damage

## Comtinued from paga one

they see someone destroying something, they will police themgel vea and way 'quit wasting my money.

So fax this year, there have been three broken windows in the tunnel of Day that leads to the dining hall, which means about $\$ 75$ has already been deducted from the hall's fund.

In Shaw, the hoses leading to the coke machine in ita dining hall have been pulled out, and a few lights have been broken. However, Assistant Director inez Wounins said auch incidents are raxe. "Shaw people have a great sense of community and people-take cafe of their property. Generally Shaw has one of the lowest vandafiam rates," she said.

There have been no problems at Kimmel or Brewster-Boland so far, the directors report. Watson had only one broken bathroom window.

Lounge windows, furniture, lights and fire alarms and exLinguishers are often targets at Booth, but Director Jeffry Tesier baid, It has been very good so far, it's early to tell but there'a been nothing out of the ordinary.*

He said he hopes the new dorm program "will enable atudents to improve their own environment."

Su* Greg Cunningharn (15) helped keep the offentive prate ur* on Cornell Wednewday night as the Orangwmen upeet the Bigned 3-2 on Elati-mintit gon by Gory Anderson. Syracuse.
 play Colgate tomorrow morning te 10 at Coyme Field.

## Big Red is blue after loss to SU

By Patti Oraini
What words can deacribe the feeling of defeating the tenthranked soccer team in the state?
Syracuse University Conch Bill Goettel's "Yahoo!" was probably the loudeat and most accurate.
Wednesday night's $3-2$ win over the Cornell Big Red at Coyne Field boosted SU's record to 3-2-1 and will probably put it in the statewide rankings.
Syracuse dominated the field the firat half, outshooting Cormell 10-5, and if not for Big Red goalie Andy Dixon, SU might have had the game won early. Dixon made a good stop 17 minutes into the helf on Syracuse left wing Tom Salmon's blant from 25 yards away, and five minutes later the Cornell goalie deflected a tough shot by Greg Cunningham out of bounde.

With 16 minutes left in the half, Cornell's "two-touch"' style started to work for them as Sam Fisher brought the ball down to the SU goal and passed to Bill Summers, who acored from the left side past goalie-Mike Weatcott.
It took Syracuse less than 10 minutes to retaliate. On a charge downfield, Cunningham was tripped by Cornell defenseman Greg Pagani and Syracuse was awarded a penalty kick. Othman AbuBakar evened the score with 6:47 left in the half.

It took the Orangemen a while to get untracked in the second half, but with 16 minutes left on the clock, they struck again. Cunningham brought the ball downfield to right forward Gary Anderson who put the Orangemen ahead 2-1.

Cornell waen't done for the night, however, as the Big Red's star player, Jim Fice, found an opening in the SU defense and scored an unassisted roal with 11 minutes left in the game. With only a minute left and a $2-2$ score, the chances looked good that the fans would have to etay longer for an overtime
period. But Syracuse didn't matize them ait as, with 52 period. But Syracuse didn't make them wait as with 52
seconds remaining, Anderson took a pass from Salmon to score the winning goal.
"The win was an important one for Syracuse, paychologically as well an atatistically, especially becausewe play a tougher mehedule this year," Goottel said. "Now they'xo regilly poyched," he sadded.
"There is , roin for improvement," AbuBalkar comarsented after the win. "But I'm really happy with the way we played tonight. And now we're fair and gquare. Syracuse deserved this win.
SU lost to Cornell 20 last season, with both goals accored in the last five minutes of the game.

Goettel was pleased, the team was estatic, and for the fixst time in a while the fans went home happy. The team has now matched its win production for all of 1977 at three and all indications show that Syracuse soccer won't be kicked around any longer.

## By NTT. Brady

When winiess Syracase and Ilinois meet at Archbold Stadium on Saturday, it will be a matchup of two teame more adept at beating themselves than their opponents.
"We're cholking ournelves to death with turnovers." SU coach Frank Maloney said. "The tearn that turns the ball over least will probably win Saturtay."
The Orangemen have fumbled the ball away beven times so far this year, compared with mine bobbles for all of last season. Latst year, of course, SU had Bill Hurley at quarterback, rather than the jittery duo of Tim Wilson and Ron Farneski, both of whom have had their problems taking the snap from center.
The turnover problem will probably be more difficult to conquer than the Fighting Ilini. The perennial Big Ten doormats are off to a $0-2-1$ start, apparentily trying to emulate last year's 3-8 showing, which included a 30 20 loss to SU.
The Hini's problems have also stemmed from an inept offense, that has scored only 10 points in its first three games.
A weak offensive line and quarterback problems have crippled the midwesteriers. Starting quarterback, Rich Weiss missed last week's crame With a sprained knee and is a doubtiul starter Saturday, hands of junior transfer Lawrence McCullowgh.
McCullough, Iike SU's Wilson, has great natural ability, with 4.4 gpeed in the 40 , but "suffers badly from inexperience," accordimg to Merience,
If the Illini sound like the Orange on offense, the giminge on ofity ends there. For on defense, Ilinois is solid, returning 9 starters from last yesr. of the last three teame caliber of the last hree teams we ve played, but their defense is better than aome we've played againat this yesr," Maloney said. "It will be very difficult for us; they're very atrong physically."

Leading the Hlini defense is senior linebacker John Snllivan, a 222 -pound All-Big Ten pick. Sullivan is the alltime Illinois record-holder in tackles, hiving broken Dick Butkus' mark this season. He made a school-record 27 atope against SUlast year, and later broke that mark against Minnesota with 34 tackles, not including two referees, a yardmanicer and two membera of the marching band.
Maloney, meanwhile, is faced with the problem of plugging some of the holes in his porous derense, which has Eurrendered 109 pointsinthree games. The secondary especially, was ridaled leat week againat Michigan State.
"The secondary can't perform that poorly again, Malomey Baid. CEmbarasament can be much

Defensive back Bob Arkeilpane suffered a mild concustion acrainst Michiran State, but will atart Saturday

This wetk's Syracuse foothinll quarterbeck lottery will likely be won by Ron Fermeti when the Orangemen face Ititinols:

Defensive end Chris Shaffer was not as fortunate, sidelined for the year with a kneeinjury. Despite the problems, Maloney is not ready to place all blame for SU'a downfall on the defense.
"The defense is not good, but the offense is killing us," Maloney observed.

The injured Huriey is apparently not quite ready to step in and save the offonse and the geason. "Bill is extremely doubtful; he still has pain," Maloney said. "Unless there's a dramatic improvement, he won't play."

Maloney said he bas no aurprises planned. "Hurley's not going to come down in a parachute or helicoprer or come out of a submarime toprescue

With a $0-3$ record and the meat of the schediale ap proaching, it appears, thiat someone had better rescue the Orange. Maloney said he is leaning toward Farneski to gtart aghinst the nlini, but has not made a final decision.

He also said freshman Bpeedster Joe Morris will see more time at running back this week after his 72 -yard performancelast week.

On the other end of the amap, conter Steve Spininey will mise the rest of, the season after suffering a fiosol innee injury in practice Wedneaday. He will be replaced by either Andy Giasinger or Joe Hodges. After loaing to three tesums with a combined 7-1-0 record. the Orancemen muat view the winless Illini as the perfect opportunity for the rescue to atart. However, the Orange mugt firgt overcome the team it doesn't want to beat -- itself.

## Shooting in apartments

## By Mary Goldstein

Police are looking for a black man who fired a shot into a room at Stadium Apartments Thursday mor ning. No one was injured in the incident.
Police said the shooting occured at the apartment of Kenny Ricciardi, Mike Downey, David Pollatto and Chuck Furciniti at 149 Stadium Place.
Ricciardi said the man knocked on his door at 1:25 a.m., shortly after Ricciardi had gone to bed. As he opened the door, Ricciardi said he noticed the man had a gun. When he tried to close the door, the man lodged the gun in the door. The gun went off as Ricciardi pushed harder on the door. After the shot was fired, the man withdrew the gum and fled from the building.
According to Syracuse University Safety and Security, the shot hit the door casing and went into he floor.
Ricciardi said he could not describe the man because he saw him only for a moment and he also was not wearing his glasses.
After complaints were received, Chancellor Melvin A. Eggers visited the apartment on Friday.

Eggers said the shooting was an unusual occurrence and he was concerned about the welfare of he students.
"I'm just reaponding to a concern thiat I have about the condition of a residence hall," Eggers said.

## Facufty may vote on unionization issue in November

## By Carl Johnson

Faculty at Syracuse University could be one step loser to unionization, possibly as soon as November, asid Dale Tussing, president of the SU chapter of the Arnerican Association of University Professors.
Hesaid he expects a vote within "thenext couple of montha, probably November," on whether the fac
wants to name AAUP as its bargaining agent.
Authorizing AAUP as its agent would be a atep ward an eventual vote on unionization.
At least 30 percent of the faculty must sign authorization cards naming AAUP as its agent before any other action can be taken, Tusaing said.

Tussing ssid he is aiming for at least a 50 -percent margin on the authorization vote. "We're going to build a margin of safety," he said.
Tussing, who has led the drive for faculty unionization for a number of years, said he believes the SU administration has become "centralized and authoritarian," and that faculty members do not have a chance to participate in long-range planning
at the University on such matters as the budget
If the faculty votes to allow the AAUP to be its bargaining agent, the National Labor Relations Board will then come to the campus to set up a unionization vote.
However, a snag could develop because of a court ruling handed down this summer.
In that court case, faculty members at Yeshiva University in New York City were thwarted by the university administration in their attempt to unionize. The administration claimed that professors are not employees, but part of management and therefore could not unionize.
The faculty took the case to court, but lost.
Tussing said he will know within a few weeks whether the National Labor Relations Board will appeal the decision.
If the Yeshiva decision is held up in a superior court, "I don't know where that will leave us," Tussing said.
But if the SU feculty authorizes AAUP as its

## Lobbyist uses new techniques

## By Rita Giordano

Out of the smoke-filled rooms and back-lapping. good ol' boy" politics that in the past characterized the arenia of Congressional lobbying has emerged a new bread of highly professional special interest Egislation advocates. Such a person is Molly. C. Broad, special assistant to the chancellor for governmentil affairs and SU's liaison with the atate and federal legislatures.
Broad, whose softly spoken words evidence a vast knowledge of the legislative process, works in conjunction with Chancellor Melvin A. Eggers, whom she describes as a "premier spokesman" on behalf of governmental-aid to institutions of higher learning.
This work keeps her almost constantly on the road, from Albany to Washington, and then back to her closet-sized office in the back of the Administration Building. There, among her shelves of books that reach to the ceiling, she commences research on her next lobbying project.

Active participation
In addition to speaking out for its own interests
before Congressional committees, the university, along with Broad, participates in the collective lobbying efforts of organizations like the Association of American Universities in order to maximize influence for the passage of
According to Broad, the number of colleges engaged in lobbying activity has increased in recent years. As the crushing weight of inflation is reflected in the difficulty of maintaining school enrollment and middle-income families' inability to meet rising tuition costs, institutions of higher education are realizing the need to seek governmental assistance in order to stay in operation.
It is Broad's opinion that government should help colleges out of their financial bind.
"Inflation is a socially induced phenomenon, so society should aid its members in cealing with it," she said.

Willingness to help
For the most part, she has found congressmen continued on page two

## Syracuse Peace <br> By Carolyn Beyrau

In colonial times, isaues of village-wide importance were usually discussed by anyone who could attend a designated meeting in the town church.
Members of the Syracuse Peace Council, a branch of the American Civil Liberties Union, adopted this colonial approach Thuriday night at the First Bapist Church in downtown Syracuse.
Like the subatance of many an early American meeting. Thuraday's open forrum concerned itself with individual liberties.
The thhreat to Hiberty: was Senate bill number

1437-congreastional legialation termed everything from "repressive" to "creeping faciam" by par ticipants at the meeting.
According to Frank Wilkinson, national divector of the National. Committee Against Repressive Legislation and the meeting's main speaker, civil liberty threatis contained in the legialation include:

- Allowing the use of any "relevantinformation". in gentencing proceedings even if it was obtained illegally.
- Making it a crime to make a false oral statement to a law-enforcement official even if it wais made
bargaining agent. Tusaing said he does not want a long delay between the filing of the cards and the unionization election.
A unionization attempt by members of the SU faculty failed in 1973 because a year and a half passed between the filing and the election, Tussing said. Although 51 percent of the faculty had gigned the cards, the unionization was voted down.
Although high and more evenly: distributed salaries are expected because of unionization, Tus sing said that is not the main goal of the movement. "The main issue is that faculty want traditional faculty perogatives in the governance of the unive. sity," he said.

Tussing also said he saw unionization as the faculty's only hope of getting faculty members working together for common goals.
Still. Tussing said the people behind the movement are not in a hurry to get thinge rolling. With all the factors to be considered, "we're being pretty cautious," he said.

Molly Broad. special assistant to tha chancellor aets as a liaison with the university and the government.

## THIS YEAR, LIKE LAST YEAR, THE BEST IS RIGHT HERE AT <br> 

Come to taste ZSYا and pizza.
Taste the extra cheese on Zefbl's hot subs and superb pizza.

## $\star$ Lobbying methods

Continued from pege one quite wrilling to give their time and attention to the problems faced by educational institutions.
The Legialature is concerned about our wellbeing." Broad said.
As a result of interest on the part of lawnakers, as well as the efforts of lobbyists like Broad, legislative attempts have been made to alleviate some of our nation's campuses' cinancial woes.
One such attempt was the Bundy Program, which went into effect in 1968. This program, which was stronely advocated by Chancellor

Eggera, grantu financial mat to atate and private educatiomal institutions on the basis \% how many degrees a given school confers a year. Findin from this program bringe SU about $\$ 4.5$ million each year.
Aside from the monice received through the Buid Program and the Tuition Aa sistanice Program, more help may be on the way in the form of two tuition tax credit billis. one of which is pending before the House; the other, berore the Senate. Congress convened to work on these bills Thursday and Friday of this week.

Unsucceasful efforts
Not all of these lobbying ef forts are met with success. Earher this year, an attempt to secure funding for the rehabilitation of campu buildings for the purpose of energy conservation increasec accessibility for the han dicapped, and greater health and safety standards wa defeated by the Congresaiona Fiscal Committee. The grounds were that sufficient data on the cost of thes ehabilitations had not been produced.
Health, Education, and Welfare Secretary Joseph Califano is now in the procesa of compiling these ngures in hope of obtaining sup. plenentary funcoing wan January

Broad anid SU could have used such funding to help financetherenovations now is progress on the Hall of Languages. The work is now being paid for by gifts and grants from alumni. She feels, as she did when the was, an undergraduate here, that filin in need of improvements, to make it more accessible to han icapped atudents.
While government funding may be essential to insure the urvival of our higher education syatem, pxivate inatitutions in particular, Broad cautioned that certain "reaponeibilities and burdens' go along with sccepting state and federal aid.

There is a danger of sovernmental intrusion in the time-honored practices of universities," she said, giving "interference with basic esearch" as an example.
For this reason, she feels it wise to "establish people with. governmental expertise' within the university framework. In this way aigher educationa matitutions will have a greate influence in the policy-maling decisions that effect them and their future.

## The stadium with no name

It is a crisp avtumn Saturday, troduction. The iation waitabreathles September, 1980 . The Syracuse aly. Univeraity football team is about to play its home opener in its nifty, new, 50,000-seat domed stadium: An over flow crovid fills the confly new geats and a nationpal television audience eagerly awaits the opening hickoff in the Northeast's' plughest college football stadium.
But no-disaster. Television an-nouncer-Cint-Gowdy dopan't Janow what to ctilthe newrstadium in his in-

What should the new atadium be called? While it's atill early enough to posaibly have an impact, The Daily Orange is eyonsoring a "Name the Stadium", contert.
Send your suggestions to the DO. 1101 E. Adams Sth, or droj them off by this Friday afternoon- - The contest winner-will receive a hunk of concrete. from Archbold Statium after it is demiolished in November.

## The Daily Orange

[^5]Perhaps the new stadium could be named after a distinct feature or innamed after a distinct feature or industry of Central New York. Like Genesee Stadium (picture the IV commercials-"I"ve been to the Orange
Bowl in Miami, but I miss Grany
Stadium.") Stadiump.'):
Snowflake Stadium? Salt City Bowling? Carrier Stadiunt (equipped with air conditioning)?
Or perhaps a name that rellecta aome aspect of Syracuse University's tradition or spirit. Iike The Orange (complete with bar and uncleaned testrooms)? - Newhouse II? : The Eggeradome? Or, in reference to SU's subatantial New. York City, discooriented student body, Dome 54 (cheerleaders would wear satin paints and sille shirts)?
Of conere. if yon can't think of an original name, and"if your father is wealthy, perhaps you could propoce naming the tradium after yourbelf.

MHE Stampen
"Oy, fuch a rim I'venever seen," said the Framingham Flash.
fo complete their comination of track and fileld, Rapid Ruth from Rox: oury; Quick Kate from Quincy and Blaving Bertha from Belmont finished one-two-three in the marathon.
"We get in shape every April," Rapid
Ruth said.
That left one event - the football game, which was held at the The Bogtoni
The Bostonians, peyched after theiz victory in the track meet (and sky high on Ereenies and Geritol), acored three touchdowns in the first half and asumed a commanding $21-0$ lead.
To inspire the dispirited New York squad, its coach, Betty Stuyvemant, gave the following pep tall: "Let's win
his one for Lawrence Wellc."
This was all that etar New York ranning back Olivia Jane Wardynaki had to hear. She came out brbbling more than champagne as she romped for three fourth-quarter touchdowns and 200 yards.
The regulation game ended in a 21-21 tie. No sudden-death overtime was played because the term made everyone, niervous.
"I got really good blocks from my offensive line and just went through the holes," O.J. said after the game.
The tie in the football game ended the Octogenarian Olympics in a deadlock (sorry).
To show that there was no ill-will after the hard-fought series, all the athletes from both squadis went to the 21 Club for a banquet. One Bostonian was overheard to say, "Whats with the red chowdahhhhh?"
Conversation turned to the football garne and O.J. Warkynski's dazzling performance. One defensive end was periormance. One defenaive the September issue of Sport magazine and made an enlightening magazine
"Hey, girls, I think we've really proven ourselves because the best runner in the history of football, Jim Nown, alys we'd make it in the NFL. Not knowing what the elderly end meant, we immediately ran to the nearest newsstand and bought the magazine. Here is what Jim Brown said.
"Today, they have brought the hash marks in, they put in artificial turf, they developed more teams, they scheduled more games - and you grandmother can gain $1,000 . "$

## Letters

## Feeding the part-time veggies

To the editor:
The idea of having dots on meal cards as indicated in your article, "Eating Away The Veggie Menu," is a good idea. However, it is not the solution.
Although I sympathize with those veggies who often find diahes prepared especially for them gone, I am a prime offender. I do not think that these people should have exclusive rights over Food Service's Lne coisine. I am one of many, as evidenced by the shortage of vegetarian dishes, that often prefers
these meals. I do not.
loesn't prope why Food Service veegtorign diare enough of their After all, it mast be cheaper to mate. meatless meala.
If dots are issued, there will be a great increase in the number of people who sign up for veggie meala people who sign upior veggiemeals
just so they can have the option. What will that do to the amount of meat dishes prepared?
meat dishes prepared

refusing to antwer the com mittee's questions on his political affiliations: He appealed to the U.S. Suptrme Court on the basis of his First Aimendment rights; buit the decision was wpheld by a 5-4 majority.
Following his releage from prison, he worked with the National Committee. Against Represaive Legisiation is to abolish HUAC, a task that was finally accompliahed in
After the abolition of HUAC. Wilkinson became involved in NCARL's efforts to defeat "repreasive legialation:"
be studied and the law amended.
The pill has already been approved by the Senate and is under consideration in the House of Representatives.
By unraveling the 682 page bill as well as revenling the circurnstances of its approval by the Senate, Whikinson sought to dernonatrate how the legislation's ramifications cowld peraonally affect everyone in the church's social hall. 6 -1437 was steamrolled through the Semate," Wilkinson said.
According to Wilkinson, Sena. Edward M. Kennedy (D Mass, , and Stron( Thurmond (R-S.C.), co-sponsors of the bill, met privately with Senate Ma jority Leader Robert Byrd (D) W. Va.) and agreed amonget thenselves that no advance notice would 'be givend'concerging when the bill would com ap for a Senate vote.
As a result, Willicingon said, almost all of the senators were taken by surprise. Hecited the Congreasional Record's report Chat eanatora were serrambling to put torether mmendmente."

Whe bill went through without meaningful debate. Never were there mora, than eight senators on the Hoor, Wilkimen said, to a mhoked attentive crowd.
Terming the procgidure frightering, Wilkingore ex pressed to the crowd as Well as to the TV cameras his hope that the same thing wonld not happen in the House.
Representatives. from at least 15 Syracute icivic organizations also voiced-their opposition to the bill at the forum. Although mangiwere intimidated by the eye of the cameras, each speaker, was met with applause by the approximately 100 people aittending.
"This bill is a menarice to soniety and to wornen in pay ticullar" " auid an alderly member of the Nritional Organization of Womern.
-If we don't fight now, tomorrow it mipht be illergit, Lakeshore Alliance mennber Dave Stern ssid.

An AFLCCIO representing said that "without putizan and political wedlock, this bill can only be termed a baifard.

Throughifit the mevting. participants were urged to Nalt for halt to 1497 man ask, ior at halt to $3-1437$.
Envelopes, stamper and postcards wrece providediand in the American ivay, donetions were acceptita. pay for them.
Said a Syracase Pegch Council mermber, "We titethe ale Yerkem Doadle.

## GSO outlines year's action states procedures resolutions

Hy John Elosenberry
Ned Harris, Graduate Stadent Organization premident, outlined plans for the academic year at Thursday": GSO Senate meeting.
Helisted four isauew apon which the GSO Excititive. Committee had agreed and requested semate action on them.

Fiarris asked for a study of the way prospective graduate students are recruited, baying there are problems with the recruitment procedure and with the way they get information.

Harris also encouraged a thorough review of the university's allocation of research funds to gradunte students.

The Senate will also study the possibility of instituting a training program for teaching asaietants and will make an inquiry into complaints about South Campus graduate student housing.

He gaid there have been instances of inadequate maimtenance and of roorns that are in poor condition when studenta move into them.

The Senate also acted on seven resol utione.
New procedures for the Graduate Student Court were adopted which will make it more consistent with other university judicial bodiesAlso adopted was a new budgeting process which makes substantial changes. in
procedures for allocation of money to academic departments.

The Senate adopted a, resolution urging students to keep conversation and socializing in Bird library to a minimum. Harris said he han met with Library Director Donald C. Anthony and Jim Maughton, Student Aasociation vice president for academic affairs, to discuss the issue.
Also approved were resolutions allocating Bcholarahip money for members of the Senate Finance Committee and making the Army Comptrollership Program of the School of Management eligible for representation in the Senate.
The Senate albo allocated $\$ 500$ to the Chinese Student Organization for cosponsorahip of a China Day in Syracuse. A request for $\$ 1,000$ was denied.

Elections were also held for posts not filled at the Sept. 14 organizational meeting.

Hemant Pendse of chemical engineering was elected as representakive to the Board of Graduate Studies.
Vinit Saxena, Dolores Ciandella, Scott Morris, Olga Gucciardo and Patricia Serafini were elected to the University Senate. Two positions on the Graduate Student Court remained unfilled.

## Dorm theft

A. Lawrinson resident left her room without locking her door- Friday afternoon and returned to find her wallet had been stolen.
A Syracuse University Safety and Security report said the woman, who lives on the 13 th floor, went to the bathroom, leaving her door open.

However, Lawrinson 13 resident adviser SueTiller said the girl had left to go to the lakdry room and had ciosed her door.

Security said although there was little money in the wallet. it also contained the woman's meal card and ID.

Ilini quartorback Larry McCuilough throws one of his 10 passea Shturday into the "twoth" of the hapless Syrecure defense. McCullough comploted toven passers for 701 yardz and also rushed for 73 yardis and two touchdowns as the Fighting illini notched their first victory of the your.

## SU's defense pleads a weak case

By Dave Stern
Frank Maloney looked angry and frustrated as he atudied the statistics aheet. Unbelievable." SUs head coach said in dingust.
Maloney's attention was focused on a single, telling statigtic that summed up the Orangemen's 28-14 loss to Illinois Saturday:
The SU defense, question mark at the eason's outget is no longer an uncer tainty. Through the Orangemen's tirat four games, the defense could have been reported missing in action.
So far this meateon, the defengeless Orangemen have chanitably given the opposition 1,738 yarde and 132 points, an average of 33 points per came. Since SU's offense has been scoring at a 14 -point per game cip, the Orangemen are atill mearching for their first victory.
"The defonse is in a demperate position," Maloney asid. That conld have been our worst game of the year for the defence." Maloney wass unable to aingle out any spacsic holes in the defense. Aather than alcs, the entive dam has buret.
"We seem to be having problems in every phase" Maloney observed. "The gecondary, the linebackers and the line are not performing up to their capabilities yek Not the sidavies, I see Jim Callivis
The Illinois offense saw plenty of Col-
ina throughout the game. The 6-foot-2 middle linebacker, who was involvedin 22 tackles, and has been the defense's only steady performer, downplayed his personal success and reflected on the defensive unit after the game.
"No one is playing up to their potenial" Colling paid "We are maling too many mistakes."
"Our problems are more physical than strategical," Maloney noted. "We are getting blocked out of the plays."
The Illinois offensive line looked as if it was already beginning construction on the new etadium as it bulldozed opaninge all afternoon. Taling advantrige of thoee holes were Illini fullback Wayne Strader who gained 96 yards on 13 carriea, and backs Larry Powell (79 yards) and Chteix Weber ( 63 yards).
Quarterbacic Larry McCullongh penetrated the Orance derense with waramion of running and pasaing skille. The junior second-stringer netted 73 yards on 17 carries, pasaed for 101 yards and ran for two ouchdowns.
Ilinois probably would have amasesed mare points on three other drives but were halted by a fumble, an interception and a "We hiseld goal.
Syracuse tackle Mike Rotunda "Sometimes we just break down and mive up the biges play and hurt ourselves." give p the big play and hurt ourselves.
Frank Maloney says he has to do a lot of
thinking before he makes any defensive changes for next week's contest at Wegt Virginia.
Perhaps some changes are not even necessary. Perhaps the talent just isn't there. That is an asoumption that Jim Collins should not take defenaively.

By Joel Staghenlico September has come and gone and with it has departed nearly all hope for the 1978

September...the month when SU.
septernber...the month when SU was supposed to regain the glory of its football over Archbold Stadium. Tet fall hais come unexpectedly to Syracuse and the brilliant promise of August has turned brown and blown away like 80 many dead leaves from a gray tree.

Saturday at Archbold it was the Univer aity of Illinois scattering the leaves still further, routing SU 28-14. The defoat was complete for Syracuse, with the Illini outgaining, outplaying and outhitting The

The loss marlns the fixst time SUhis lost its opening four games under head coach Frank Maloney. It is also the: second Worst start of any Syracuse teami since But
But what makes this loss stunning is the way Illinoia dominated the Orangemen. It was the same ilinomsteam that fell $30-20$ a year ago to Syractise. It sportswriters had been calling the wrorat college team in the country thispastiveek. It was the same Ilinois teamithat has been one of the doormats of the Bigoten for $c^{\text {t }}$ the past decade.

Yet Saturday it waiked all over the beleaguered Orangemen.
"We are in a desperata- paqition," Maloney said about his defense, after, the game, one in which SU was a geven-point

But there was little he conitherg
But there was little he conid gay, for his team had done all his talling, for him on the field.

From the beginning SƯ was jpit trouble In what looked like a replay oflyst Melele Michigan State clebacle, mith bitule Fith little over a minute gone winen Greg 82 yards before being dragred dond raced 82 yards before being dragged dowhat the all in from the two three plavel liteit for a bail in from the two three plays later for :
OHhinois lead.
The opening kickoff was an extifemely key play," Maloney baid. "I feltigatongly early momentum had a great advantage. Boy, that kick off was a backbreitát.

## Ingult to injuiry

The Illini came back later in the first quarter to further aggravate the injury. Quarterback Larry McCullough, \% wha started for the Illini in place: of ineigular 80-yand drive to another ecore: The bir play in this series came when McGullougt
$\square$
 timelding Dilincid back Charlio Wheber.

talk to no onie.
"I did: pretty well," Hurley said $y$ aftér the game. "He mnde a few kes, sure, but he drove the team up own the field, up and down. To get all in the end zone, it takes a total efforitz We widn't make a big play we kad to in

Sideline.spectator
Ley suited up Saturday but watched the aidelines. After the game both ney aud Hurley said they expected uarterback to play when the team s to Weat Virginia next week. Yet ws now can only be greeted as one of eak raybofhope in a gloomy beason. hapsine: brightest hight so far has freshman nunning back Joe Morris. day the 5-foot-9, 170 pound running scampered for 117 yards on 15 carind is now the: second leading SU $r$ with 190 yarda. Art Monk leads SU 196 yarde
the brightest points have been dim mparison to the darls spots created by traight lowses. Last year the team ble to oviencome early-season losses
by banding together, but this season th cohesiveness seems to be lacking

Im not saying if it's good or bad, but this team doesn't seem to be as close a last season's," Maloney said. "I wish we could find some team leaders but we don' seem to have enough right now."

We don't seem together this year as we were last year," Monk said. "Everybody's just making a lot of mistakes mentally."

The sting of reason seems to be settling on Syracuse that while the deficiencies o ecution problems the troubles this year can be attributed simply to a lack of talent.
Syracuse lies bruised and battered like a fallen Humpty-Dumpty: Perhaps a thought more disconcerting than the team's record is that neither all the king's horses, all the king's men-nor the return of Bill Hurley-appear able to put the pieces together again.

Freshman epeodetar Joe Morris was one of the aparse bright官potis for the Orangenen Saturday against Illinotis. Themercurial back gained 117 yards to become SU's second leading rusher this season with 190 yards.

## Colgate slammed in final minutes

By Patti Orsini
The Syracube University soccer team (4-2-1) is making a habit of last-minute wins. For the second time in a week SU scored in a game's waning seconds, defeating Colgate 1-0 last Saturday morning at windy Coyne Field.
After consecutive triumphs over Cornell, ranked terth in New York State, and now over ninth-ranked Colgate (3-1: 1). the Orangemen should breal into the rankings when they are released Wednes day.

Othman AbuBakar scored the winning goal for Syracuse with just over three minutes to play.
"I like these games that go until the last minute," said SU coach Bill Goettel. "The fans love it. It's not good for my heart, but the fans love it.
In a ecoreless first half, Syracuse out shot Colgate 13-2. The Red Raiders played a heavily defensive came, using only three attackers rather than the usual four or five. The shift made goalie Mike Weacott's job easier, though, as he only had to make one asve the entive first half.
With 16 minutea left in the half SU missed a scoring opportunity, a miss that could have reaulted in a goal for Colgate.
Red Raider gralie Doug Bloom went down and the referees stopped the game while Syracuse was still in possession of the ball. Bloom was not seriously hurt and went back in the goal. But a dispute involving Colgate coach John Beyer and the refereea erupted when S was awarded a
free kick. The call was changed to a drop free kick. The call was ch

With the wind againgt Syracuse in the second half, the team had to change its strategy.
${ }^{4}$ We were forced to play more patiently, to carry, the ball instead of taking long passes," explained Orange assistant coach Jape Shattucic.
Syracuse applied its beat preasure of the day during the last quarter of thegame, by considtently keeping the ball around the Red Raiders? goal.
With a little more than three minutos to play, Colgrate captain Jim Budigh tripped SU left wing Greg Cunningham indide the penalty area, reaulting in a froe kick for Syracuse. AbuBakar, who by now has become known for his penalty kicks, then scored the only goal of the game.

Othmen abubelcar (14) scored the winning goal in the firnal inlnuter as Syriecue odged Colgute 1-0 Seturday.

## Struggling Mountaineers

The only difference between Weat Virginia and Syracuse ia Richmond. The Mountaineers have loot three times since eeking out a 14-12 win over the weak University of Richmond in its opening game. Saturday, Went Virginia's fourth-quarter rally fell short and it fell to California 28-21. Syracuse travels to Morgantown next Saturdiay.

## Comell clubs Syracuse

Friday aftemoon in Ithaca the Syracusecroas conntry team dropped a meet to Cornell Univaruity. SU now atands atc.3-2.

## Tomorrow

SU soccer coach Bill Goettel (right) has good reason to amile since with a 4-2-1 record his team has now passed ita Orangemen have benefited Orangem have benented greatly this year from its goalies Mike Westoott and Eucene Leonardo. Writer Mike Eiren takes a elower look at the

Senate committee takes steps
．By Brian Senr How does a student go about gelecting courses when he has no information on which to base his decision？
At the present time， Syracuase University students have only word of mouth and their advisers recommen－ dations to help them decide Which course to take．But steps are being taken to change the突 situation

The Univergity Senate 9 Instruction Committee has drawn up a form that facuity members will fill out to give students a basic description of clach course．Tt will include class size，whether the class is lecture－or discussion－oriented， the number of papers required and the instructor＇s goals．
Professor Stephen K． Professor Stephen Koff， chairman of the committee， said the information should be available by the beginning of
next semester． next semester．
Jim Naughton，Student－As－ sociation vice president of academic affairs，said he bras seen the need for a com－ prehensive student evaluation since he was a freshman．He is researching the possibility of publishing one at SU．
th called course evaluation guide called＂Touchstone＂，was publiahed in the late＇ 60 ＇and again two years ago．However， it failed because it was in－ complete and dealt mainly in numbers rather than written observations，＂Naughton said．
To be done correctly，an evaluation guide must involve extensive research and must be a＂community entexprise rather than a oneman job．An evaluation should serve everyone and must have input from students，faculty and ad－
to bring back course evaluation
ministrators，＂Naughton also Baid
According to Naughton， Harvard and Barnard univer sitiea publiah excellent evaluations and Northweatern University has a．full－time course evaluation staff member．Naughton said he is in contact with a national in oreanghouse in Washington in order to compare evaluations from different schools．

Gross，a student member of theinstruction com－ mittee，said a subcommittee headed by Professor William Hall is looking into course evaluation．＂The faculty is

## Dig Downtown．

very seriouz about it．＂．Croas said
The committee will have to explore courae evaluation before bringing anything before the Semate，Hall said． formed of Jim＇s be kept in formed of Jim s progressin the matter，but at this point the comarnittee isnt ready to for mulate a policy regarding courge evaluation：＂，Hall added．
evaluation will probably take at least a year to complete．＂If we could get this done right it would be the most important thing that happened while I was at SU． Naughton said．

## 'Take to the Hills'

## Some camping tips

George and Sarah decided it was time to get away. They packed some food and blankets, loaded the car with a wrinkled tent and headed for the hills, for a three-day weekend poison ivy and a tent that had been chewed up by a bear. during their camping adventures. Most of these injuries during their camping adventures. Most of these injuries are due to haphazard planning and careleasness. Here are
a few tips to help make camping a bit more enjoyable and safe.

Choosing the camp or tent site
Among things to consider in choosing a tent site are wind direction, water runoff, and soil type.
-In heavy weather, pick a spot sheltered from the wind but not at the base of a steep slope or downwind from dead trees. Select a fairly level spot, free of sharp rocks which might damage the tent floor.
-A mild slop in the lee of a large boulder or a fallen tree is ideal for bad weather. Pitch the tent with the end or corner into the prevailing wind, not broadside. If possible, arrange the tent so that your head will be uphill when you turn in.
-In good weather, you'll want to be exposed to the wind. A good breeze blowing in the tent door not only helpe make hot weather tolerable, it also bellows out the walls of the tent, providing more room. A windy tent site has fewer bugs, also.

- in the winter it's best to pick ashelteredspothalfway up a hill. Cold, dense air settles in the gullies. The warmest spot is likely to be midway between a hill and a gully.

Avoid overhanging cliffs or ravines and dry stream beds that could flood in a sudden downpour. Also avoid marshy, low-lying areas that may have mosquitos and other ingects.

## Keeping warm

- Keep the tent as small as possible to retain heat. It should be gtrong, have a waterproof floor and be double roofed with a rain fly. Self-supporting designs require fewer pegs and save time

Al though down atill offers the best insulation, it a bsoribs moisture and can be difficult to air dry. Many campers have switched to synthetics such as Polar Guard and Dacron Fiberfill II
-Sleeping bags ahould have good shoulder and head hooding, adjustable to your mmetabolism and weather. If it isn't very warm and you can't afford to replace the sleeping bag, consider adding an inexpensive liner or outaide cover.

The ideal sleeping attire is close to nothing. You should only wear dry underwear, dry socks and a stocking cap. Don't sleep in a snow suit; you'll be eedd dwing the night and 현 the mext day

## Safety Tiper

- Boware of lakes, rivers, and gtremar, they often have tricky currents, icy water and other urercpected conditions.

Aways use flame retardant tenta and aleeping bags.
-Avoid the tise of any charcoal-fueled equipment in an enclosed place Establiah a distance of 20 feet or more betwsen a tent and your cooling atoves and heaters. Keep
it even farther away from a campfire, which can throw off sparics.

## SU club packs back to nature

## By Maria Riceardi

 Sue hates "bugs." So, when a.group of her friends asked her to attend a SyracuseUniversity Outing Club University Outing
"I tried backpacking, though and found it to be one of the most exhilarating, exciting experiences,". aays the petite blonde who never did anything more exerting than tying her shoe laces.
Presently there are more than 275 people who explore the wilderness with the outing club. For a 37 annua fee they such as backpacking, rafting, caving, rock climbing, cenceing and kyacking.
"All one needs is the willingness to try something Stephan. "It gives you the opportunity to see if you like an activity, without spending a lot of money."
one is interested in backpacking, for erample, the gleeping bag, pots and pans, sleeping bag, pots and pans, expense to the camper is chipping in for gas.

Members agree that
backpacking and rock climbing are the most popular fall activities. Groups of about 45 students each have trooped to the Adirondacks the last few weekends, according to treasurer Lisa Graves. During the winter months cross country sking is probably the favorite activity.
Students without previous experience or athletic ability need not be discouraged.
nerve." Graves findscrawling through wild caves an 'famazing thing...just awespmento know you're inside the eaith."
For those who can not leaive campus for an entire weekend there are day trips scheduled. Chris, a senior forestry student, thinks "it's a great way to get away and relax and not have it cost a fortune. Others see it as an opportunity just really friendly and really

## Outing club: realizing fantasy

## By Lias Graves

The Outing Club showed me there was a way to realize my fantasies of adventure.
For seven dollars a year I could participate in trips, use the club's gear and be taught by qualified instructors.
I still vividly and with happy memories recall my first Outing Club excursion. Early Sunday morning 30 novice climbers, a halfdozen leaders, a few gold line ropes and assorted bits of climbing gear were packed into several vehicles and took off for Little Falls.
Ninety minutes later we arrived at Moss Island. The sight of forty-foot high vertical cliffis shocked me.

We divided into groups of eight beginners while the instructor climbed to the top of the chiff by an oasy back route to set up belay rope. That is, he secured one end of the rope and himself to a sturdy anchor. The free end soley for safety. One cirmbsthe rock, not the oley for safety. One cimbarthe rock, not the rope. Somehow I Was nominated to attempt khe ascent first. Itied myself tomvend of the rope. After a few basicingtructions, on techniIt was scaryat to "chimb away."
It was gcauy at first. Even twenty-five feet seama hee a long, long way down when you
and are gripping with fingertips at something even tinier. The sport at this level is entirely safe. The belayer at the top preventis the climber from falling. A slip would result in falling only about one foot. A deep tragt and respect is necessary between climbér and belayer.
The climb was a mental and physical experience. It was like performing a gymnastics routine on the rock. Every part of my body was in tume as I repedily held balance with one clinging hand while atretching with the free one for that key hold. As. I reached it, my leg pushed up and my forearm puiled. I had advanced another 12 inches up the face. Move after cautious move, I ascended in this manner to the top. A ruah of emotion hit as I went over the diifis edre. Accomplishment, pride-and ambaiding fear were part, of the feeling.

Lasting friendships had their roots that day. As a group, we felt cloee. Something about sharing truat and pain and ac complishment binds people together. In all the trips in which I have participated, whether it be rock climbing, canoeing or backpacking, there is always a brotherly backpacking, there is always

## The Daily Orange

## Frat house burns; officials suspect arson

 iraternity house early yesterday morning. No one wasp injured in the fire.

## By Rick Bonnell

Arson is suspected in a fire that gutted the vacant chapter house of Kappa Sigma fraternity at 105 College Place early Monday morning.
"Buildings don't start by themselves," said Deputy Fire Chief Paul Reeves. 'The fire is definitely of suspicious nature and will continue to be investigated.
The blaze began in a mattress on the second floor in the back of the house, spread across the ceiling and Richard Corp, Syracuae fire ingoector
Upon answering the 4:30 a.m. alarm, firemen were informed by Syracuae University Safety and Security officers that the house was unoccupied. It became clear almost immediately that the house could not be saved and fremen began working to protect the adjoining buildings - a School of Management office building and Management ofrce building and Graduate Sottuge, Which houses the Graduate Student other groupa.
The brothers of Delta Kappa Epsilon, a fraternity house located behind the a fraternity house located behind the Syracuse police at 5 a.m.
A second alarm was registered soon after the first fire trucks arrived.-Four after the first fire trucks arrived.-Four engine companies, two truck companies and one rescue company then fought the fire before it was
College Place was closed to traffic until about 11 a.m. yesterday morning. The fire occurred hours after national representatives of Kappa
Sigma and five local pledges dropped Sigma and Eve local pledges dropped National Kappa Sigma had promised $\$ 50,000$ for renovation of the house if matching funds could be raised by Kappa Sigma alumni by October 15 said Mark Boekenheide, one of the five pledgea. Eut only $\$ 4,000$ had been raised as of last night, he said.

Boekenheide said there were no hard feelings among the members after the meeting Sunday night.
Mike Makurat, another pledge, said Part of our acreement when w became plediges for the house was that we would get enough support from the alumni to refurbish the house, but the alumni could not come up with enough capital to remodel the house. The house corporation (ran by the alumai who own the houss) said that it would probably sit defunct for three or four years. By that time we would have all graduated and we didn't want to wait around that long
Bockenheide said a number of people could have had a key to the house. "There were so many broken windows and doors that anyone could have easily gained entry into the house," he added.
"I don't know why anyone would be in that house at that time of night It was a physical wreck," he said
Bookenheide said the pledges have noticed some suspicious actions around the house lately
Pledges inspecting the house in last few weeks had found food and other articles in the house: At the time they as-sumed-thege thitige were being stored thereover the summer by a brother who had not yet come to pick them up. On one occasion a car pulled up at the back of the house and sped away when the driver noticed pledges working inside. Boekenheide said
Mike McGinnis, a spokesman for the national Kappa Sigma, baid the house was closed because of the lack of undergraduate members. He said the closing of the house had nothing to do ith its condition.
Flames reached 20 to 25 feet in the back of the house, according to Dave St. John, a brother at Delta Kappa Epsilon.

St. Jomi asid. he woke up to find his

## 75th anniversary Daily Orange <br> By Mickey Mercier. <br> Howard Mansfield, an- <br> be included. Heisler, the only

Even college, newspapers have anniversaries, and the Daily Orange is no exception. The newspaper will celebrate during Homecoming Weekend.

As part of the anniversary celebration, a 92 -page special issue will be publighed Oct. 13-the largest DO in history. It will contain five color pages, including a cover photograph of 260 oranges.
The issue will chronicle 75 years of change in the world university and newspaper. The anniversary isaue has been in the making since early April, and will be the product of work by more'than 30 contribrators, including former $D O$ staffers who have gone on to work for commercial publications.
niversary issue editor and a DO editorial editor, said, 'It's as if one morning you could pick up 75 years of
years of SU history
"Each year will have its own page laid out in the style and typography of that year's front pages, and will contain the year's three most important stories," Mansfield said

The issue will include articles by former DO staffers. Courtney Sheldon, former Waslington bureau chief of the Christian Science Monitor and Elizabeth Donnely Angelino, first female DO editor in chief, have con tributed articles.

A story by Bob Heisler, who was DO editor in chief after the paper became independent of phe university in 1971, will also
editor in chief to serve two consecutive terms since the paper's independence, is now a Newsday news editor
The DO is in its eighth year as an independentiy owned corporation although it has been published for 75 years
The issue will feature art by the late Vaughn Bode, creator of "Cheech Wizard" a fantasy cartoon featured in National Lampoon and Bode's books. Bode drew for the DO when he was an SU student.
Art by former DO cartoonists, including "Marmaduke" cartoonist Brad Anderson and Jim Morin; an editorial cartoonist at the Richmond (Va.) Times-Dispatch, will be featured.
The anniversary isaue, The anniversary isaue, ah's wife - 0 国 83

Janowski said he feels an honorary degree tis a recognition by the university of person who has ac complished something that helps the university, their profession or humanity in ceneral."
In order to award an honorary degree, colleges and schools make recommendations
Charles Seager, undergraduate representative on the graduate representative onithe Haid the colleges usually know who is best. who is best. "They recognize when one of their peers has ex celled and when it is," he
print, will be published at a deficit of about $\$ 6,000$, DO Coffer in Chief Thomas Cotfey. said. As a resuit, the amount of advertising per page in the DO's regula ditions will increase, Coffey said.
stories to be included in the anniversary isaue include: 1920-a professor shoots to death the business achool dean: 1922-the DO expose an SU chapter of the Klu Klux Klan; 1937-President Fran kin Delano Roosevel dedicates Maxwell School; 1946-Archbold Gym burns
down; 1959-the golden year of SU football, when the undefeated Orangemen won a national championship; 1965 - three thousand studente aign a petition aupporting the ietnam conflict.
There will be sections covering the radicalism of the 1960 and $\quad 70 \mathrm{~s}$, such as when tudents burned their meal cards to protent Food Service or when 400 students clashec
with police on Marshall St.)
As part of the 75th anniversary celebration, former Continued on pege four

Brad Andereon attended SU in the enrty' 60 en end dirin for theDO. The filustration is one of miery alumni contributions to the annheversary edition

## Continued from page one

room filled with an orange glow,
"I was certain that it was our house that wets on fire. One Greman said that it wan one of the hottest fires he' ever fought" Brothers at DKE could hear glass windows pop from the heat, St. John said. Steam was rising from a Toyota parked near the back of the house. The heat melted the car's vinyl roof avid melted the paint and the tail light on the passenger side

Chris Chiodo, a brother at Phi Kappa Psi who was in the house several weeks ago, said, That place was really a mess. The furniture wan in total disrepair with torn couches and such. It looked completely unlivible to me.
Fire officials said it might be several days before a full invesligation of the blaze is completed.
The house has been slated for demolition within five days. In 1969, the fraternity was ordered closed by the Dean of Men' office after pressure from city fire marshals. The house was cited for faulty sprinkler systems, an improper fire alarmaystem, lack of fire-escape facilities and empty fire extinguishers.

Firemen are searching for clues to the origin of a "suspicious" Tire that detroyed the former Kappa Sigma fraternity house yesterday.

## Brandishing briefcases

## To the Editor:

On Sept. 25 The Daily Orange published an editorial condemning, among other things: fashionably dressed people, campus apathy and dressed people, campus apathy and
the changing character of SU the changing character of Sy Montgomery criticizes the SU cam Montgomery criticizes the $S U$ cam-
pus for lacking "character" because pus for lacking "character" because its students 'in

More specifically, Montgomery at tacks atudents who are "busily pour ing themselves into the mold of thei major, preparing to become young executives, nurses and journalists and wives and husbands.'

Montgomery sees these students as having "blank faces and brief cases." I see them as students who are taking a serious attitude toward college, trying to insure themselves a certain degree of success in the future. So even if this seriousness manifests itself in stylish clothes; in dividualistic goals and practical perspectives, it does not mean, as Montgomery tries to prove, that college means more to the "social ac tivist' and the cheerleader than it does to the career-minded student.
Today some students regard colege as a steppingstone to a career
interim four years between childhood and adult life. 'No', everyone is interested in this weeks top 40 FM LP's, picketing against Rhodesia's internal politics and tolsing up on some good hash before Saturday's football game. The "characters" of these various students are different from one another, yet neither are "losing their character, or contributing to a better "campus character," an Montgomery stated in her editorial. Montgomery atated in her éditorial. students' selection of their majors. students selection of their majorsThe plight of philosophy and clas-
sics departments are well-known, sics departments are well-known, but how can anyone expect students
to ignore the trends of society? The

## Man vs. machine:

## Fighting a losing battle

Inever thought I'd have a mightmare about a machine, but I did. Maybe it was from the four six-packs.
: Saturday morning, 9 o'clock. I had to get some cash before leaving for the weekend. Luckily, my CaahCard arrived in the mail yesterday. This would be my first time at Marine Midland Bank's wonderful 24-hour money machine.

When I arrived, the machine had a little message for me in the glass INSERT CARD MAGNETIC STRIPE DOWN. There was also a telephone number in case things didn't work out.

## Graham Flasher

I inserted the card. ENTER PERSONAL IDENTIFICATION CODE Done. I pressed the withdrawal button was answered with this: PLEASE IN DICATE 400 OR 1500 DOLI.ARS AND DEPRESS "ENTER KEY." Huh? I've aever aeen that mach money, except on Kojack.
Instead, I pressed the amount I wanted: $\$ 20$. No response. The machine sat unmoving and emotionless. I depressed the "Enter key." No res ponse. I smashed my fist against the glass. THAT WILL NOT DO ANYTHINGPAL.
I stared unbelievingly. "My balanceis $\$ 75.35$," I said to no one in particulat Just gimme my card back," I rasped. No response: No sign of movement. I am a high-energy person. I felt the anger filling my cheeks. The machine had my card and my goat. I kicked it Then I hit it with an uppercut. The machine took it well. I was reaching for my brass knuckles when it dawned on
me: why not seeif I could sucker it out of the 400 bucks? I pressed the buttons. YOU DON"T HAVE THAT KIND OF MONEY.
I know that," I yelled. "Give me the frigging card, idiotl'

THE IDIOT DIDN"T OVERDRAW.
I felt myself losing control. I was transcending "Candid Camera" and the "Twilight Zone." Man ve. machine. Wait a minute. The phone number! I'd get the machine suspended. But it had suddenly vanishedf "You give me that number," I shouted, "or you'll spend the rest of your life in a jun kyard!" No responie.
For the next 30 minutes, I pleaded, cajoled, and begged for the return of my card. I yelled at the machine. I kicked it I showered it with rocks. I insulted its origins. All to no avail.
Suddenly, I heard the one sound I'd been dreading since yesterday: my card was being ground up! All my life, I've wanted something to care for. The CashCard was it - the only thing that made me feel wanted. Now I could hear it destructing, and calling for me: " 7676 ! 7676 !"

It was all over. The machine was fashing a message: OPEN DRAWER AND PULL OUT RECEIPT. I dreaded what I'd find. Slowly, I pulled the drawer open : I stuck my arm int Immediat on it and started sucking me into blackness.,
The drawer was closing. I felt the blood draining from my head . . . next thing I knew, my pillow was pulled rom under my head and my roommate was beating me with it.

students in college today are reacting to the needs of the job market, hoping to find financial security and satisfaction in their choice of work. Studerits cannot be blamed for the cyclical patterfis of academia. In many cases the state of the world,
the lifestyle of a hero or the work of a genius dictate the attractiveness of college majors. Students cannot be faplted for listening. to the "real warld.'

Whlliam J. LaJJuenesse

## and uncaring blank faces

## To the Editor:

would like to commend Sy Montgomery for her two excellent editoriala, "Blank Faces and Briefeditorials, "Blank Faces and Briefcases" and "Rules and Reasons""
I attended Syracuse University I attended Syracuse University from 1971-1973 before taking a fouryear leave of absence. The changes that have taken place since I left in
1973 have been not only cosmetic, but also changes in values. In his
letter of Sept. 28, Neil Payton wrote that Montgomery's criticism of today's average student "involves nothing more than it nostalgic desire (possibly fueled by the recent film 'Animal House") for a more overt display of characteristics that are cosmetic in nature." Payton defended the three-piece auit, but did not touch upon changes in values and attitudes which is what Montromery was witing nbouti.
Ifnd the changes in the averate student's values anything but cosmetic. Very few students of the late '70's are interested in new ideas alternative lifestyles, politics or life outside the United States. Money and competition is the name of the game, and that is a big change.

The average student is also more selfish, less likely to help others and more Lkely to follow rules without question, no matter how ridiculous they are.

Frank Beimone

## A shadow on the Hill

A. new roommate, meeting old friends, selecting courses and planning a schedule - and three attempted rapes in three weeks. An interesting lecture, a successful experiment, a studymarathon with pizza and friends -
and two attempted shootings on campus.
Two grad students debate their philosophies into the night; before the last cup of coffee is downed, a fraternity house is burning on the other side of campus. Police suspect
it was arson:
They said college wonld be different from high school.
The chronicle of SU life is begin ning to sound like a disaster movie. Rapes, robberiés, shiotings, fires - the only things missing are a few earthquakea and perhaps a large flood. And with notorious Syracuse weather, even that may be arranged soon.

It seems we've done everything that we can do. Campus awareness of the xape crisis has soared; and es cort services have been organized in many dormis. A self-defetige comme will be offered this fall. Chancellor Egersers himself visitud
the site of the last shooting to erpress, hisconcern, which is shared campiu-wide But at this point, it seems like this is all any of us can do; be concerned, be aware, be prepared ... but how do you prepare for someone to stick a gun through your door?

Security continues to patrol the campus, and police continue to search for the rapist, the gunman, the arsonist.

Meanwhile, students musit continue to study and party and share and explore amid it all ... and pray it doesn't rain
Sy Momtgomery: for The Dally

## still needs a dean

## By Carol Anne Strippel

The search continues for a new Arts and Sciences dean.
The college selection committee hopes to fill the position by July 1, 1979. The position became vacant when Kenneth P. Goodrich resigned last spring to become provost at Ohio Wesleyan Umivereity.
The aelection committee is looking for "someone who will be able to give leadership to the College of Arts and Sciences... who will not simply be an administrator, but a acholar as well": said Commitiee Chairiman Sidney Thomas.

The committee, made up of 10 faculty mermbers and three gtudenta, has placed advertiaementa in the Chronicle of Higher
Education and The Record to publicize the vacancy. No applications have been received, A\&S ncting Dean Gershon Vinplications
Although the committee meets once a week, it is planning to meet more often after applications are received.

Vincow said he hopes to be in the running for the position.
Thomas said, however, that Vincow has not yet aubmitted an application.
"If he wishes to be nominated, Dr. Vincow will by no means be excluded," Thomas said.

## Tied SA candidates must throw hat in ring today <br> Today at $5 \mathrm{p} . \mathrm{m}$ is the deadline for Student Association Asgem-

 bly candidates who are tied for a seat to notify SA if they intend to run.Students tied for six seats in Greek housing are David Kearns, Kathy Dwyer, Ken Garney, Phil Silverman, Mark Gurmet, Bob Green, Lou Conte, Doug Franckel, Dave Gurney, Peter Hoover, Kevin Cullen, Greg Palmer, Jo-Anme Cohen, Ed Nahon, Norris Trombley, and Doug Brenner.
Tied for two seats in South Campus housing are: Beth Spitz. Steph, Waldonan,-Renl Rothkopf, Randy Sitron and Cheryl Bernstein.
Tied candidates who want to run must go to the SA office, 821 University Ave., with their SU ID.
Depending on the turnout, SA will work out a way to break the tie, according to Jordon Dale, SA Asaembly mpeaker.

## SU's <br> dynamic duo

Rivalry keeps SU soccar goal in capable hands

## By Michael Eisen

Competition
True athletes thrive under it. The more difficult the challenge, the more difficult the challenge, the

Usually, the rival 18 an opposing team or individual but sometimes it is a teammate trying to take his job away. Though the rivals may be friends the cogrpepition is just as

At Syracuse, this contest has developed between its soccer goalies, and has become so close that Orange coach Bill Goettel has found only one way out of the dilemma-both players play.

The incumbent is junior Mike Weatcott, who started all of the team's 14 games last season. His challenge comes from Eugene Leonardo, a freshman who until recently was content playing JV. Among the problems "Geno" is up against are Weatcott's determination to lreep' his job, his own inepperience and the apecter of Westrott'e firie 1977 season.

Despite the team's 1977 3-11 record, Westcott was often spectacular laet year, accumulating 174 saves. "Last year Mike kept us from being humiliated," says SU coach Bill Goettel.
Wescott claims last year was just a
matter of his being in the right spot at the right tinge. "It was my good fortune we had a poor eeason last year. After awhile with all those shots coming at you, you have to look good," said the Westport, Conn native.
This season Westcott started the team's. first two games, a 4-2 win teams first two games, a 4-2 Win against Siena and a 3-1 loss at Cortiand. But berore game three, a los at Buffalo State, Goettel handed the goalies' job to Leonardo.

## No complaints

Though disappointed, Westcott said he could not dispute his benching. "They were jurtified in niot playing me," he admitted at the timé.

His difficulties actually began at the Olympic tryouts in June, where he broke a finger and was mable to get past the first round of workouts. Upon returining to Syracuse, Westcott sprained a thumb, which reduced his ability to catch and control oponents' shots. Two weeks ago he auffered a bruised hip while getting in some extra work after a practice session. Finally there were the mental problems.
"I let all those little injuries get my game down," Westcott said. "I lost my concentration and as a result my game fell off."
"We felt Michael was using the injuries as a crutch," Goettel said. "We juries as a crutch, Goet he needed a rest."

The result was Leonardo's sudden rise to the starting team, a resrise to the starting team, a res-
ponsibility he handled well. SU was ponsibility he handled well. SU was Leonardo played, and both he and Lhe tearn improved with each outing. It was a promising start for the young goalie.
"It's a big step from high school soccer to division one," Goettel aaid of Leonardo's transition. "Physical attempts are made to harass the goalie. But Geno is built Iike a Sherman tank and he handled himself very well."

The freshman's quick rige to the starting position surprised no one more than Leonardo himself. "I was happy playing JV," Leonardo said after a 5-2 win over Niagara. "I never expected to play varsity. But now that I have the job I'm not just going to give it back to Mike."

Soon, after mating this pledge Geno came down with a atrep throat that forced him out of the lineup. Westcott wasin the netsin SU's next game, a thrilling 3-2 win over tage 1977 . performance was vintacular. His 14 saves were the high for an SU goalie this year as time
and again he stopped the Big Red from scoring.

## Quick recovery

As it turns out Westicott might have played even if Leonardo had ramained healthy. "Mike was out due to injuries and his unjuries belongs in the eroal which is not to belongs in the goal, which is not to is an excellent keeper."
Last Saturday Westcott was in goal as SU shut out Colgate 1-0. The Red Raiders had previously been the ctate's ninth ranked team. Westcott had only four aaves in the game, which marked Syracuse's first shutout of the season. Despite that, Westcott was not happy with his play.
"Im happy with what the team did," he remariced. "But I didn't dis tribute well and I didn't come out well. My hands still bother me, but that's no excuse. I jusit didn't play well."

Though Westcott is back in the nets, the situation is by no means permanent. Either goalie may now play any game Syracuse has become a two-goalie foccer team "We rarely know who will play until 10 minutes before the game," Leonardo said.

Both of the contestants realize how close the battle is. "I have the keep worling my tail off, because Geno's right behind me," admita Weatcott. "If I alip up he'll be playing again.'

Leonardo is thinking along similar lines. "Whoever is better in practice will probably play," says the Rochester mative. "I'm atill confident vand I'm ready to play whenever I'm called on." to play

## Syracuse cross country finds silver lining in defeat

## By Drew Schwartz

Winning isn't the only thing important to Coach Andy Jugan. Although Cornell handed Jugan's croes country team (3-2) an embarrassing 19-42 defeat at Ithaca last Friday, Jugan didn't seem upset by the result. In fact, he was encouraged.
The main source of his encouragement was sophonnore Charlie Bevier, whose 25:01 clocking enabled him to finish aecond in the race to Cornell's Pete Pfitzinger (24:48). Both Pfitzinger, who is regarded by most cross country coaches as one of the top runners in the Eant, and Bevier mhattered the Cornell course record which had stood for 38 years.

Jugan claimed that neither runner would have broken the record if Bevier hadn't forced the pace. "Charlie took leads of about 10 yards seven timea dur ing the race,", Jugan said. "He made Peter catch up seven times."
Jugran asid that if Bevier doean't get injuriea "before he finishes at $\mathrm{SU}, \mathrm{He}^{\prime \prime}$ going to be the bent
ranner in the history of the school, bar none."
Besides Bevier's individual heroics, Jugan was proud that SU completed the race in the eighth fastest team time in the history of the course. Jugan said that Cornell won the race in the firat mile and a half of the $51 / 10$ mile course distance.
"You can't spot a team that good 10 beconds in the first mile and expect to catch up." Jugan explained. The slow start could have been due to a lack of con fidence by SU's young runners. Jugan said that once experienced, they'll learn to give 100 percent for the entire race, maintaining stamina for the end of a grueling 5 -mile course.

The other Orange runners besides Bevier who placed were Dave Denis (25:45) 7th; Jerry Josselyp (26:15) 13th; Richard Wojtowicz (26:26) 15th; and Mike Kohlbronner (26:42) 17 th .
Jugan was also happy that Neil Rosenblad was the sighth SU runner to cross the finiah line and that Brian Trippany completed the race. Both are highly cegranded runners who are attempting to come back
from injuries. Jugan said that their injuries have healed and it is only a matter of time until they achieve the physical condition that will enable them to perform up to their capabilities.
Although the Cornell meet marks-the second consecutive trouncing of SU's harriers, the team's attitude hasn't suffered, according to Jugan. "I don't think the guys are down," he said.
"They're a very intelligent, sharp group of guys and although they were almost shut out at Cornell and obviously disappointed they realize that theyran well," Jugan axid. "It was a case of their running against a more experienced team."
SU faces a more experienced and perhaps more talented Manhattan team next Saturday at Van Cortland Park, Navy is another future opponeat that, Jugan said 'is just as good as Cornall We could come back from the Navy trip, be 4-5 and still be one of thie top 15 teams in the Extet."
Thme and experience gained from future meets will tell whether Jugan'e prediction comes true :sisware.

# Racial policies: <br> <br> fairness or <br> <br> fairness or discrimination? 

Editor's note: This is the first of a two-part series examining minority admissions at Syracuse University and Upstate Medical Center.

By Marilyn Marka

- Whether you're black or white, Native American or come from a Puerto Rican family - should it make a difference where you are accepted to school?
The subject has been a major focus of attention since Alan Bakice first took his Case to the Supreme Court in Baker 1977.
Bakke claimed he was denied admission to the University of California at Davis Medical School because he is white. The school had a strict racial quota.
This surnmer the Supreme Court agreed with Bakke. In a 5-4 decision, it ruled that educational. institutions can use race as a criterion in selecting students, but that strict racial quotes are unconstitutional.
Officials at the Syracuse University College of Law Upatate Medical Center and SU have been keeping an eye on the issue. All three schools have minority admissions programs.
These programs have provoked both praise and anger from thoae who ad

ministrate and those who are affected by them.
"I saw people with much lower scores get in before me and I didn't even get aninter view," claimed a first-year Upstate medical student. As a reault, he said he was forced to study abroad for three years before he was finally accepted at Upstate.
But A. Geno Andreatta, Upstate's dean of admissions, said he believes race should be one factor in considering an applicant's admission.

Numbers game
"We have people who in
extra mile that is not visible in the numbers game," he aaid. "Often, the person with the lowest, softest numerical scores does the best (in medical school)."
But others hold a different opinion.
"Those people (disadvantaged applicants) got killed," a third-year Upstate medical student recalled. "Lese than half the minority students in my class made it to the second year, altogether we lost 17 out of 120 people." we lost 17 out of 120 people. A firat-year black female student said, "Minority"
students have had a harder students have had a harder

## Staff survey results <br> By David Bander

Some results of a survey that indicate diasatiafaction among Syracuse Uniyersity Eecretaries and technicians chenfelder, director of personnel.
He: was commenting on a questionnaire that was sent by Nancy Klein; a secretary in the sociology department to 400 of the 900 support staff employees. More than 200 staff members responded.
Ninety percent of the support staff employees who reaponded indicated
some of their grievances, including low salaries, insufficient parking and inadequate benefits, were not satisfactorily answered by the administration.
Eschenfelder said he was surprised at the extensive support for unionization, but said "we've been through this thing (union drives by employee groupa) before."
However, he questioned some of the other survey results.
According to the survey, almost three-fourths of the support staff said
they do not take full advantage of the

## they were in favor of forming a union if <br> Winters supports SU policies, says university stretches bucks

By Geott Rolirer
"What has always attracted me about this university is what they can do with $a$ dollar,"
Clifford L. Winters Jr., vice chancellor for administrative operations, apant 45 minutes Monday dpfending the university's spending and enrollment policiea at Monday Munchies in Hendricks Chapel.
He told the gathering that Syracuse University, geta "more bang for a buck" and has enabled tuition increases to be kept down.

However, as long as we have inflation and have to protect the quality of education and the quality of education and
quality of life forits employees, quality of have to pass along the cosits," Winters said.
"Every private university acts in the asme way," he added.
., Winters, howrever, said he was concerned that: SU and other private univeraities might become noncompetitive with state aniversities if uition continnas to escalate.
Winters is the adminiatrmitor in eharge af all buderetary and fipcal mattere it the univer sity.
 caition quytinined erneml of

Winter's arguments. A Lawrinson resident said many examples exist where the univergity wastes money because of inefinciency.
As an example, he referred to the ramp for handicapped people at HBC that had to be rebuilt after it was constructed in the wrong place.
Winiters responded, "You can find mistakes in judgment at many institutions with a budget as large as SU's." He added that millions of dollars have been saved through coatsaving measures.
Winters disagreed with a student's sugreation that the budget be made available to all otudents.
Winters said he is aggainat this proposal because "I don't want to add atatic to the comwant to add static to
munication process."
He explained that because of the budget's complexities, most students would not be able to inderstand it, thus in creasing the probability of misunderstandings.
Also, students get inputinto the budget process through their representatives on the Univertity Senate Committee on Budget and Fiscal Affairs, Winters eaid.
Winterg alvo eaid he meets. with tudent leaders to explain the buduret

Responding to a complaint about overcrowded classes, Winters said, "Optimum enrollment is our best bet. The fact ia, we have to be full."
Undergraduate enrollment increased from 10,831 last year to 11,451 this year, mainly because of an unusually large freshman class.

Despite increased enrollment, Winters maintained that Syracuse University has one of the best student/faculty ratios among universities of its size.

One stadent aaid the domed stadium proposal was pushed through without etudying posaible problems. He cited parking as one problem that has evidently been overlooked.
Winters said although Archbold may "not be the best site, it is the only one polftically acceptable to the community."

He said that parking will not be a major problem because downtown parking lots axe accessible to the stadium.

Winters pointed out that even the best stadiums with ample parling and access roads have traffic jams after a Eame.

We all haveto live with alittle inconventience. It's the wry of the world." be suid.
health insurance benefits. This represents
"They seem to be saying we discourage people from taking innot the case. Eighty-nine percent of all SU employees participate in the health plan."
"I have a suspicion that it (the survey) is written in such a way as to defame the ingtitution, Eschenfelder added. "I question itsaccuracy. Thisis typical of a prejudiced position people with this intent will take."

## isleading

But Kleir argued that the questiona were straightforward. "In no way were they designed to put down the univer sity. Pm just showing what people answered."

The aurvey showed that 72 percent of the support staff surveyed said they were unaware of the univeraity's retirement benefits.
"The retirement plan has been well advertised," Eschenfelder said. "Circulars have been delivered. It should be up to them to find out about it."

Klein's group and the administration have Continued on poge five

## Red peppers on a string

E. Thas reading a short story by atorges Luis Borges I had come to a space between paragraphyand stopped to check the time; I had to walke my mother for work. To prop the pages open I used a red hot pepper that, fibe hung out to dyy in the August sun the next day. The We hung out to dyy in the August sun the next day. The
peppers were from my garden, and they reminded me of an incident.

The incident occured four months previous I was waiting in. Victoria Station, Iondon. It was 11 p.m. and my train was due at midnighe. I was going to Paris, via a train to Dover, a-ferry from there to Calais, and a train from there to the Gare Du Nord.

The incident was mystical.
How can I continue on in this vëin? When I relate the incident you will pidgeonhole it - you will at-

## Gerald Perry

Ftribute it to drugs, an awareness of Eastern liberation inethods, or neurosis. You are cynics. The incident Fwathods, or mystical.
Whas mystical. Fi-was waiting in front of the Arrivalg-Departures Underground entrance. My travelling companions - wnderground entrance. My traveling companions whey had arrived, I was struck by a most unusual senthey ha
Thime nearly stopped, or so it seemed. Time had slowed down and I had the distinct feeling that my past was still facing the Arrivase-Departures siga, while my future would start as
around to see the tube entrance.
around to see the tube entrance.
was not concerned with the past nor the future. The past was literally and figuratively 'behind' me. It lost all rel evance. The future, only a short distance away, became equally irrelevant. I could do nothing to alter $i^{1}$
But the present, that aingle moment of who-knowe-how-long a duration. . . that moment tools on the importance of being simultaneously an ending and a beginning.
When the present became a memory I felt both reduced and humiliated; I felt poweriess. Time
became auddenly a series of moments relentiesaly, uncerittingiy, becoming the past. Loat moments, moments I had no power over, save to remember Timemoments drawn together, moment almoet beyond my comprakension.

The red peppers, my booknark, reminded me of each moment. The string running through the peppers, myself.

Each moment is like the next. Like the peppers, some are redder than others, some hotter. But pepper is a pepper.

## No ado about nothing

A funny thing happened yesterday. As we sat down to write an editorial, we realized there was nothing to editorialize about.
"Why?" one might ask. The answer is simple: there are no issues anymore. The 1960 s , an era noted for its issues, have long since passed. The great social upheavals of that period have ended; idealisra ;and the desire to change the world have faded away. Pragmatism is the order of the day; students are supposed to go to school in order to acquire a niche in the society they once sought to change.
1 Or course, one might say there is no longer any reason to try to change society. Vietnam has ended, so has the draft, and civil rights. has passed from public consciousness. The economy is the most pressing issue facing us, but how can someone march to protest the cost of living?
In the 1970 student strike at Syracuse University, many issues were raised. One of the overriding
ones was the relationship between a university and society. Should the university make a political statement by closing down to protest the Vietnam War?
That concern is gone now and, let's face it, there's no way anyone can try to revive it. It could have happened during the debate over divestiture in South Africa or the controversy about giving an honorary degree to the Empress of Iran. Both those events produced questions regarding the university's role in relation to political systems in repressive countries, and both times no one really cared to look into the issue.

So we're back to the starting point again. There really'aren't any issues anymore- at least not the pressing ones of the late '60sand there won't be until we care about something.

But for now, there's nothing to write about.
Thomas Coffey for The Daily

Department

The issue is not limited to Upstate, although it it most acute in the medical Behool and the kaw railable then is socansited
In the law school. about 2,000 applicants applied for 243 places in this yoar's freahmian clase. At Upstate, the competition was even tougher - 3.742 applications were received for 150 spots in there year's freshman class.

At the State University of New York College of En-
vironmental Bcience and Forettry, the minjor problem is in attracting minorities to pecialized programs, accorcing to Alcon Candera, as Grmative action
He said.
He asid SUNY prohibite asing a question about race on The admiession application. becaure of freet mon minority students have not been compiled. piled.

To help minority and low-income students, SU operates a Higher Education Opportunity Program and the law school runs a Legal Program At Upertate the program is called the Upstate

Medical School Program.
The ides of the programn is the same: to give a chance to minority and disadvantaged students who beem to have potential but would not be admitted under traditional indicators. Traditional indicators are the numbers. scores on entrance exams Cholastic Aptitude Test, the Medical College Admimana Test, the Law School Aptitude Test, and the grade point average.

## Include whites

The three programs include disadvantaged whites as well as minorities. In the law percent 52 persons, or 21

clase, were admitted nnder ciase; Were admitted minder in the class 22 wority stadente in the clasa, 22 were admitted through cinority student Mirty mon minority students are also in the program.

Law School Desn Crais W Christensen said, "Alwaya, most of the minority students come in through LEOP higher than usual" He Her is higher than usual. He said that usually one-third to oneare minorities and there has are mer been more minority thas white studenta in the program. Flleven atudente out of 150 in
patate's freshman claes are Classified as minan class are eisht of these mine described as "lont of these are described as of the clasg.
of the class.
70 Andreatta said about 60 to 70 percent of the studenta who attended the medical school's white. Attendence at are white. Attendance at the Minorities, Hispanics and Whites from rural sreas and low-income families are in vited to sttend But midale class minority studente are not class mily invited. Andreatt said.

Horace Smith, director of HEOP at. SU, describes the program's racial mix as 20 perally, so percent black 20 percent with a Spanigh sur name, five percent Native American and 15 percent non minority. One AbianAmerican is also in the Almost
Almost 11 percent of SU's freshman class, or 311 students. are minority group percent of the parallels che 11 percent of the U.S. population wroups. However of minority groups. Hovever, freshman SU hes increased by almost 50 Suhasincreased by almost 50 percent. Last year, 208 freshmen class according to David $C$ class, according to David $C$. Smith, associate

All the acmisions.
All three programs put more weight on factors other than numerical scores. They congider the applicantis background, race, age, sexand origin. Human factors," such as what an applicant has done with people, play a special part in Upstate's ad
missions, said Ansiatant Dean Ron Wolk. Byid Absiatant Dean Kon Wolk. tangible qualifications: tras tronble quatimen. It ${ }^{2}$ the total tictum that hecomes itn portant" he enid : portant, he said.
Consider many factori
According to Andreatta, more mon-quantitative factors are considered than quain titative. "A btudent accepted with a GPA of 2.8 or 2.9 hasia lot more going for him in other factors."
At SU, atudents adrintted through HEOP come "on the basis of some elernent of potential on their records, and paten cial need" according to David Smith need, according to David Smith

Chriatensen said that LEOP "tries to outguess...the numbers."

Christensen, Andreatta, and David C. Smith agree that minority students tend. to do worse than non-minority students on the entrance ex-

## arns

${ }^{*}$ People from disad vantaged backgrounds will have softex quantitative data," Andreatta said.

Barry L. Wells, coordinator for minority affairs, said the reason for the lower scores is that standardized tests are chat standardized
"The SATs are based on the norms of the majority, and no minoxity students do not do as well," he aaid. But, Wells could not give any specific examplea of biased questions.
He referred to a standardized test developed by Robert Williams, a black psychologist. The teat; called the BITCH 100, is geared to black culture, Wells: said Black students score consistently higher than others on BITCH 100
Horace Smith askeds ${ }^{* *} \mathrm{Hp}^{*}$ do you beat reflect a pergan's poterntial to learn? The problem is standardized tests usually measure a student's exposure to a certain medium, not his ability or potential."

Tomorrow, the series; will take a look at the issue of setting quotas for minority students, how minorities are recruited and whether the Bakke decision will affect admissions at $S U$ and Upstate.

 meeting 50 far. Both sides have differing viewr about its reaults:init the meeting, the university brought in administrators to 'explain university policies in the areas with which the support etaff is concerned.

They explained the university policies very well," Klein said. 'But they weren't aware of the concerns of the people. We didn't get direct answers. They sort of went around our questions."
"They had their acript, and answered questions from that," she said. "Our people what," she said. "O
But Eachenfelder said, "In my opinion, I don't thinis people were there to resolve a problem, they were there to create one. We brought in a variety of people to talk to them.'
"From our position, we accomplished our objectives," he explained. "We answered questions to the best of our ability".

I'm sure he was satisfied," Klein responded, "I don't think anyone else was.'
Klein said ahe believes the survey reaults will make the support staffe position in the discussions atronger. "Now I find that people are really find that, people are really concerned, information. Before Thve solid information. Before I could just guess."
To consider a union, 30 percent of the support staff workers would have to express an interest in taking a vote. In an election, a majority would have to vote for a union.
The support staff group is not certain what its nert step will be. At this time, no nneeting with the administration has been planned.

## Proes of October 4. 1978 The Demy Orange

Moore comes home to a different Syracuse

By Geoff Hobeon University football team stormed out of the Eamt, rac loing up victory after victory and compiling a glittering 11-0 record which gave it SU'sonly national championship and a Cotton Bowl victory ower Tex as.
do nation the Orangemen Go domimated on the college undergone many chantres has presidents have come and gone to lead it, a war that every one wants to forget tore it apart and a third-rate burglary supplied it with its sternest test.
SU, the institution that team represented, has also changed. Basketball has replaced footsymbolized by of worship, called the "Manley Dome." Only pietures and trophies stored in show anses and an elegant almost haunting por trait of Ernie Davis hanging over his Heisman Trophy in Maviey Field House recall the Manley Field House recall the glory of
1950 s and early 1960 s .
But one figure from that fabled team of ' 59 has returned to SU this fall. He is 44-year-old engineer Dan Moore, the ne
"Coming back and coaching here is one of the highlights of my life," Moore said as he work-out during dusk at Coyne Fork-out during
Moore was not one of those brassy statue All-Americans who played on that team. Rather he was a hand-carved knick-knack at the back of the shelf, one whodidn'tshine, but was a necessary ingredient as a part-time defensive starter and member of the special teams.

The New York State native came to Syracuse via Oswego State College (where he was a two-time soccer All-American) in 1954. Choosing SU mainly for its engineering program, he made the football team as a walk-on, no small feat back in the days when recruiting for SU was as easy as finding John Belushi with a two-day growth.
Conatant leg injuries hampered his career at SU and he was not available to play a playing season.
He graduated from Syracuse in 1961 and went to work for arineer where he as an engineer where he has had a
Moore has worked in the European Marketing Program, has served as a nuclear hardening system and was a section manager in the Piladelphia Minuteman Three Misale Syatem. He is

> Women's tennis slams 3 foes
"The athioten today are smarter and talk more." Here, Dan Moore (lett)ralke back with SU soceer player Greg Cunningham.

Currently an executive at
Hoffran Industries in Hoffman
Syracuse.
"Syracuse has been a big part of my life," Moore araid ${ }^{\text {" When }}$ I was growing up (he went to school in northern New York and spent his bummers on a farm near Abany), finishing highachool and going to college wae beyond my dreams.
When Moore made the team, he found he was a fifthistring blocking back for a fifth-atring running back - a fellow walk on named Jim Brown.
"Jimmy and I worked well together,"-Moore remembered "It was because we could an ticipate each other's moves and knowing what the ofter guy was going to do next.

Jimmy played today. hobody would be able to touch "He didn't play that much in his first two years. He was 230 pounds, but he had moves you expected out of a 150 -pound expilback.
Moore is one of the rare
players in SU history to play With the two greatest namesin Orange football: Brown and Davis. In coraparing the two backs, Moore gives the edge to Brown.
"Jimmy was the better broken-field runner with those great moves," Moore observed "Ite was also more depended on than Ernie, he wats one of few All-Americans on his team while Davis was one of many.'

The new coach stays in con tact with Brown. The lagt time he taw him was five years ago on a busineas trip to the west coast. He sees Brown as a very complex man whois searching for something.
"Jimmy Wras a brooding aind of guy." Moore recalled. When he didn't get the Heis man Trophy in 1957, which he deserved, he felt he didn't get it because of his race, which was correct, and it depresaed him. He always thought he was formance as a football player on the football level, but that he was judged as a person."

While he was playing with Cleveland in the 608 , Ithink he could have emerged as a dynamic leader in athletica if he was motivated in the rich direction," Moore added. Jimmy is still the same. He was searching for a cause here at Syracuse and never found it and he is btill searching for a place in the world."
Moore remembers the "59 squad as a very close groap that had tremendous depth Some of the ruha became All Americans. The turning point of that season carne during the ast regular season game of the gear. The Orangemen entered the game 9-0 against the UCLA Bruins in the Colisenm in Las Angeles and slew the Weatern goliathe 38-6.
Coach of the Year in 1959. SU's Ben Schwartzwalder: was a very demanding mentor, but one who always got along well with his players, according to Moore. However, he thinks Schwartzwalder's system and personality of
coaching has gone the way of

Hugh L. Carey

# Gov. Carey visits Syracuse, signs SU stadium funds bill 

## Fy Mike Maymard

Gov. Hugh L. Carey came to Syracuse yesterday and signed into law a bill that appropriates $\$ 15.25$ million in state funds for construction of a new Syracube University stadium.
The bill, which Carey endorsed during a visit to SU in late July, was approved last week by the New York State Legialature. Money for the stadium project will be administered by the atate's Urban Development Corp.
Demolition of Archbold Stadium is acheduled to begin Nov, 13 after the last home football game. The stadium is slated to be finished in.time for the 1980 football season.
SU will get the atate, money over a three-year period: $\$ 2$ million in the 1978 - 79 fiscal year, $\$ 7$ million in the 1979-80 fiscal year and $\$ 6$ million in the 1980-81 fiacal year. The remaining money, $\$ 250,000$, will be used by the UDC to overaee the project.
Carey signed the bill in a ceremony at the Chryaler Corp. assembly plant in East Syracuae. Carey also signed a bill that appropriates $\$ 180$ million in UDC loans for the renovation and improvement of the plant, the largest single grant in this year's UDC pac-
kage.
Arriving at the plant aboard a state police helicopter, Carey entered the plant and atruck up a conversation with SU foothall coach Frank Maloney and football players Bill Hurley and Dave Jacobs.
"It'll only be a little while til we see Syracuse on top again," Carey told them.
Chanc representing SU at, the ceremony were Chancellor Melvin A. Eggers; Joseph V. Julian, vice president for public affairs, John J. Crouthamel, director of men's athletics, Joseph C. Gallagher, as sistant director of athletics, and Lawrence A. Kimball, sports information director.
The governor was escorted.by Chrysler officials to a conference room inside the plant for the billsigning.

Carey defended his decision to use UDC funds for construction of a stadium. "What we're doing is using the UDC as a bridge so we don't lose a construction season on this thing," he said
The state would bencfit from building a stadium. When it is completed, Carey said, the stadium will become the permanent home of the Empire State continued on page five

## Andreoli intensifies probe: five Republicans arraigned

Onondaga County Executive John H. Mulroy, State Senator Martin S. Auer, County Republican Chairman Richard Hanlon and two former Republican Party officials have been arraigned on conspiracy chargee filed by a special grand jury inveatigating political corruption in Onondaga County:
Also arraigned were former Republican Party Finance Chairman Leonard Markert and former County Leginlator Ephraim Shapero.
All were charged with two counts of misdemeanor conspiracy, for selling tickets to party fund-raising events inside public buildings and conspiring to promote or to prevent an election. Neither the buildings nor the election involved were specified in court.
All five pleaded innocent and were released on their own recognizance: The case was adjourned for 45 days so their attorneys could file papers.

Special Prosecutor Peter D. Andreoli said the five Republicans were given the option of waiting until after the November election to have their in dictments opened, but the men-chose to allow them to be opened now.
The announcement of the indictments coincided with Gov. Hughi L. Carey's campaign swing through the Syracuse area.
The Andreoli investigation grew out of an earlier grand jury investigation into the auditing of bills and payment of claims for construction of the state's $\$ 2$ billion downtown Albany office complex.
The Andreoli inveatigation has been the subiect of a struggle in Albany between Carey, who wants continued funding for it, and Republican and have opposed Andreoli's operation and have opposed Andreols

## Burned house was closed with 128 housing violations

By Rick Bonnell
The Kappa Sigma fraternity house, which was destroyed by fire Monday morning, was instructed to close last semester by Syracuse University officials because of 128 housing code violations, said Ulysses J. Connor, director of student activities.
The violations were cited in a report issued by the Department of Building and Property Conservation.
"Upon receiving the report, I indicated to the national fraternity (of Kappa Sigrna) that it was our wish for them to vacate the premises at the end There are no other fraternity or
sorority houses with housing code violations of the magnitude of the Kappa Sigma house, Connor gaid.
The housing code violations included damaged and deteriorated ceilings in 17 rooms and damaged and deteriorated walls in 21 rooms.
The house was also cited for six building code violations. The report said the building was "structurally sound"' but too many combustible materials had been added to bedroom walls and been added
If the houre was to have reopened this fall, it would have been necessary for a certificate of occupancy issued by Comtinued on popar five

## Student dies in head-on collision

Glenn H. Fishler, 19, a Syracuse Univerisity junior was Lilled Tueeday afternoon when his car collided headon with another car on New Yoric Route 17 near Binghamton, 80 miles south of Syracuse.

Hiahlex, who was exrolled at the S.I. Newhause Sehool of Public ComNewhouse Schoo of Pablic Commherication
 hormovedhis car into the panaing lame

## Glad to be back

Tothe editior:
Back in February of 1977 I wrotea fairly andery letter to this paper explaining that I would not roturn to Syracuae University because it had
"priced itself out of my existence." I said that 1 didn't think it wan worth $\$ 7,000$ to come here and that I would get my education elsewhere. Well, rim here, and I'm glad of it. I still don't think it's worth seven grand, and I'mnot happy about paying so much; I found, however, that what brought me back to 'SU' were
the ties I had established in my first two years here.
I took a leave of absence for a year and found a job. It's not much fun shipping urine tests all acrosa the country, but it brought in some money, so I was content. I knew it wouldn't be permanent, as I was looking into some other schools. I axpected that I would be able to go mowhere and save a good deal an I would find a communications school as good as Newhouse.
I was right on both counts. It came down to Money vs. Education. I wasn't sure which meant more to me. As the year went by, another facthatinad moreroots here than I was
willing to pull up. I had gotten
myself involved in so much and had mado so many friends that I wate not too excited about chucloing it all. whatever the reasona.
That factor tipped the acales, and I decided that it would bobeat to come back to SU. I talled to the people I'd left up here and made preparations to come back. I was getting mora excited about the prospect every day, and it was during this time that i realy began to appreciates Su. Ihad never realized how good rd had it up pretty clear. Even with all the pretty clear. Even with all -the troublen id had writh professors, disillusionment, it was a field and disillusionment, it was a field day rounded by: Uricult.

I alici saw that SU can only be as good as you make it out to be. If you sit in your roim every night and try just to kill time, or if you brood about how much woric you've got and then never do any of it until the last minute, you're never going to get anything out of thia place at all. You have to get involved in different activities, you've got to have a good attitudeabout classes and Syracuse as a whole. Only then can you get the most out of SU.

Stefan A. D. Bucek.

## Ignoring ideas

To the editor,
There are no issues anymore." So speaks Thomas Coffey in an editorial (DO, Oct. 4) bemoaning the lack of student activism Which has editorials like Coffey's over the past editorials like Co
five years or 80 .
ve years or so.
However, Coffey's editorial is undoubtedly the worst of its genre, for it matter-of-factly says "there's nothing to write about," which seems to translate to sincestudents
are apathetic, we'll just go alonis." That, of course, is precisely what the DO's editorial page has been doing; look through September's papers and see how many gignificant iseues were the topics of DO editorials. Precious few.
What Mr. Coffey seems to be sacrifieing with this editorial is the DO's identity as a source of leader-
ship in the campus community. In two years of experience with the paper's editorial page - as a reader, contributor, and for a year its editor - I worked with a number of very talented editors who saw the paper as sornething more than a faceless, "objective" chronicler of the day's. events. They saw the paper as a mivism in the student population, of identifying issueg of importance to which students had often given very
little thought. Often that effort required careful thought and research, quired careful thought and research, a compone

The means to do that was editorials. Certainly the approach had its shortcomings - we sometimes exaggerated an issue unduly, or took ill-considered or poorly argued stands. Sometimes we tried to lead the studenta on an isaue, only
to find they were not inclined to to find they were not inclined to follow.

But the paper's editorials àt leagt reflected a vigorous effort toidentify sigues, to talk about something ning some readers off. The editorial pages of one or two years ago may pages of one or two years ago may have a emaller readerahip - but they had a smaller readerahip - but they entertainment.
The Daily Orange is the student newspaper at Syracuse University. It is turned to daily as the primary source of not only news but informed opinion by a very subatantial portion of the student population at SU. Its editors should feel obilged, in my view, to comment intelligently on the insues that atudents care about - and the issues that they ought to care about.

David Abernethy

As I entered the hotel kitchen, the heat, humidity and the smell of grease enveloped me. The wall thermometer read 220 degrees. It was asif had been thrown into. the chambers of some equatorial dungeon, or the locker room of life with the saunas going fuhblast. as the aweat began to pour. I braced myself for another 10 hours' work.

The floor was always filthy. Built-up grease, blackened by tracked-in dirt
and pine needlei, was speckled by

vegetable peels, scraps of rancid meat, puddles of ooze, and cast-asidelinen. In only the most unused corners of the
floor was the dingy white linoleum floor was the dingy white linoleum vigible.
Unkempt employees wearing foodspattered aprons were moving frantically through the squalor and grease. Cigarettes hung from their lips; perspiration was dripping from their soaked, snarled hair. I noticed their grimy fingernails and their stained were encrusted with grease and dragging on the slimy floor.
I walked over to the serving area where the cooks in their blood-splaahed white uniforms were laboring over the broiler and cruddy steamtable. They,
from the heat. Their faces were lobster red; the sweat on their noses formed
large drops before it fell. large drops before it fell.
One of the cooks had a
Onge of the cooks had a wet, rampled bandage on his hand, which only par tially covered a festering Innife gash. He dropped a steak on the floor, looked
around furtively, then picked it upand around furtively, then picked it
flopped it back on the broiler.
I walked past the dishwashing area and greeted the dish and potwashers, a half-dozen teen-age girls. Their $T$ shirts were so soaked with sweat and dishwater that I was reminded of a wet T-shirt contest at a sleazy, disco Three of the girls vere strugeling to carry an overflowing garbage barrel. Some of the contents slopped onto the floor, but it wasn't cleaned up.
The managers seldom come back here. They worry about ruining their alligator shoes and leisure suits. But we in the kitchen share a common secret with them.
The "Baby Chatham Bay Scallops" are actually the cheaper sea variety. The "Salmon Poached in Wine" is actually boiled in water with a dash of wine added. The frog legs are not sauteed in butter as the menu claims but fried in vegetable oil.
A tall, blonde woman in a low-cut, black dregs is seated at a table in the palatial dining room. She sips her max tini through shiny, red lips. Hex diamond earrings jiggle as she looks a tonight? I think I'll try the ateak."

## Special admissions: opportunities, not oppression

Standardized teats, once the univaled gatekeepers to the nation's colleges and univeraities, have fallen from ommipotence at Syracuse Univer sity. Students have long complained that the ability to fill in the correct se quence of black bozes does not alwaya predict academic success or direct
career goals. Admissions offices have turned their attention to other factors. Some of these deciding factorn appear to some as yet more unfair and aribitrary than the results of multiplochoice examas. At the SU-College of Law, Upatate Medical Center, and SU, race can be a factor in admisaion.

## The Daily Orange

While the Bakke case was being debated in the Supreme Court this summer, SU's law echool was con tinuing a minority admisaiona program that had been in effect since 1975. But while the California medical school's admiseions procedure was ruled unconstitutional, those at Syracuse remained unchanged. SU': programs are not based on racial quotas, but rather emphasize background, origin and financinlneed. The purpose- of the special admissions programs is twofold: to provide needed opportunities for underpriviled ged individuals, and to provide qualified profensionals to serve the nation as a whole. In senaitive fields much as law and medicine, the background of a profesaional may have a significant impact on his efficiency. Approximately 2 percent of America's present doctort are minorities; nearly 12 percent of the popalation is composed of minoritice.
Thone admitted throngh the epocial admitaions protrama are qualtied隹udemte. While come appicantsre
 Tent tocoip than the minority Ithdonts
schooling are outweighed by other qualifying factora. And the students are not sent in to compete without preparation. The Higher Education Opportunity Program at SU offere aupport servicea to dieadvantaged gtudenta; at Upatate, a full-eredit aummer course preparas students for the competition ahead. Statistics ahow that these minority students can and do achieve the GPAs required for graduation; the attrition ratea in the three school's separate admimaions programs do not signifficantly differ.
Special admistions programs do not necessarily reflect raverae dif crimination, as in the Bakke case. A Upstate, for inatance, eight of the 11 studente selected throuyh mpecial ad misaions wera economically-disadvantaged whites.
Personal interviaws and individual eramination are the geys to the mont successful and fair admiasions programs. it is importiant that programs much ans themo be continued and enppocted to give the mont tokally qualifed individual the cheme to prove thernapivelampong the very bent

 IBOI Ent mimat E
"I've got Pabst Blue Ribbon on my mind."

This is because they, have hen exposed to it more, not because they are inherently more intelligent in the mab jet" Smith explains.

A miviority cadent with a Schoitefic Aptitude Test score of 1200 is much more of a rarity th in, a non-minority student with, the same score, according tofipavid C. Smith, Sis iossogitactirector of admissions. fife mon-minozity strident scare extremely low on the SAT, that may tend to count againat him more man in would against
student,"-he said.

Lower level of work
"That doesn't mean we ex pict a lower level of work from minority group members." he added.

SU, Upstate and the law school all have minority admissions programs. But none of the schools sets quotas for the number of minorities to be admitted.
The three schools also have
single committee that
review t all applications for admission.
In the Balk case, the Supreme Court said racial quota were unconstitutional. Of the three minority legal EAuation Opportunity Proga Equation Opportunity to the system declared un constitutional in the Balk e case While the law who gl does case while the have a system of racial not have a system of racial quotas, Dean Craig W places are reserved each year places are reserved each year for spec
LEAR.
Christensen amid the average Law School Aptitude Test score among regularly ad. minted students this year is 611; among the LEOP students, the average is 511 LEOP students have an average GPA of 29, compared with 3.4 for the offer students admitted.
However, Christensen said there is a fairly low rials that LEOP students won't be able to succeed. He asia the school won't admit anyone who they
predict will not achieve the necessary CPA to graduate. We set the boito m thremold." LEOP began in 1975. Before that, Christancen said, there Were two programs - one for minority and one for non minority students. The system Was changed because, "essen tally we thought the real ob jective of both programs was the same. Having all minority students in one group stigmatized them."

Barry Berg, assistant dean for academic achievement and director of the special ad missions program at Upstate termed the program "a high dak program - not a minority program. It includes al students who we feel would

> ene rit He

He arid the Upstate program was labeled a "minority" program because of federal unding.
One benefit of the special admissions program at Upstate ie that it is "a full-credit course in the summer, so students who start then are bona fide nodical students," Berg said.
.

## Students argue against removal of Skytop hall's extra furniture

By Bryan Domnelly
Some students in North
Campus housing will get Campus housing will get
better-looking furniture, to the better-looking furniture, co the
dismay of some South Campus ceaidents.
Residents of Skytop halls I and II learned about a week Ago that they were going to lose the extra bed and desks in their rooms. But they gay ind have signed petitions asing permission to keep it.
The rooms in the halls were originally designed as doubles, But have been used as singles for graduate students in recent
But this year, because of the large freshman class, transfer halls.

Even though the rooms are singles this year, also, they were furnished an doubles because the Office of Residerdial Life thought there would be more transfer students this year than there actually were, said Jack Krollman, first-floor resident adviser in Skytop II. Cynthia Horst, assistant director of residential life for North Campus, said ORL is refinishing desks from residences all over campus and wants to use the deskics from the Skytop halls to replace them.

The old mattresses from ex tray beds in the sliytop halls will be discarded, and the new ones will be used to replace old ones in other residence halls, she amid.

Syracuze crosb country star Charies Bevier passes harried harrier John Enright of Ammy at a recent meet at the Drumlins Country Club. After sitting out his freshman year, the quiet and modest sophomore has led $S U$ to a 3-2 record and it regarded by his coaches as potentially a top Eastern runner.

## Patience rewards Bevier, Syracuse cross country

In his own quiet way, Charlie Bevier, SU'a best crose country runner this fall, effortlesely churned avray the miles latet fall. Three times a day he would train. Three distancerums of six to 10 miles a piece would make up his daily routine. But each weekend, when the cross country team boarded the bus and sped towards its next opponent, Charies Bevier was absent.
The tall and talented Bevier entered SU last fall under a grant from the federal HEOP program. The program, primaxily an academic support service, enables students from disad-
antaged families to attend college.
However, unfortunately for the anxious Bevier, HEOP restricts its students from athletic participation during the first semester of the freshman year.
This year, however, Bevier is running on the aquad and has so far led the cross country team to a 3-2 record.
"I was disappointed at first but I realized that it was in my best interesta." said Bevier, a native of New Paltz, N.Y.
The SU runner accepted the ill-timed fate maturely and proceeded to run the hills and flats of Syracuse on his own.
"It took an exceptional kind of guy to keep the effort and dedication in a situation like that," said teammate and captain Jerry Josselyn.
However, practicing and not playing wasn't enough for this highly competitive cross country runner.
"Without having, the competition last year, it was kind of tough," Bevier observed. "Now this year I have some motivation to get me going."
he motivational department as he led the Orangermen to a quick start this fall. Bevier racked up an impressive firat place finibh in a triangular meet against Niagara and the University of Buffalo but has had to settle for two sec
Two weeks ago, againat Albany State and Army, Bevier ran the Drumlins Golf course route in the second fastest time by an SU athlete and
elicited praise from head coach Aridy Jugain and assistant coach Dick Fiacher
"Potentially, he's one of the finest runineraion the East Coast," Fischer said. Jugan cited Bevier's great dedication and self-motivation as factors that carry him to a high level of performance. "In his own quie way he gets the job done, Jugan added.
The soft-spoken Bevier went to Kingiston High School, where he Ginished 32nd in the state, a good but not auper performance ac cording to Fischer. "Since then he's just been coming on like crazy," Fischer said.
Jugan attributes Bevier's eariy success to his long and endless hours of running last fall. "If there's any secret to success in training for cross country, it'a distance running being the basis or foundation," Jugan noted.
Bevier's teammates are amazed with the ease with which theix "quiet leader" performa. "When you run with him, you see how ef fortlessly he puts the miles away while we otrain our butts," Josselyn said.
Don Bossardet, a freshman from Long Island, considers his teammate'a "natural" in every sense of the word. "He has such a great fluid motion when he runs and has an attitude which every runner should have," Bossardet said.
Despite the brilliant performances of Bevier thus far, one can only look at the future and the promise it holds for the 18-year-old harrier.

The more experience Charlie gains, the more confidence he'll gain as a runner," Fischer said.
Josselyn noted that his teammate will gain that experience by running against stiff competition in the East. "He'll be running againat the best in the East (Army, Cornell); which will give him more experience and make Which even tougher," Joselyn said.
When asked what goals he'd like to attain, the quiet Bevier mentions no individual honors or distinctions. "My only goal is to know that I ran the best I could and gaveit my best," he said softhe

And he probably won't miss the bus again either.

## SU volleyball spikes Cortland: travels to Oswego St. today

By Larry Connors
The drought is over. For the first time in seven years, the SU women's volleyball team defeated Cortland.
"This is my best winin seven years here," exclaimed a
jubilant head coach, Elaine jubilant head coach, Elaine
Goldband. $"$ This team has Goldband. "This team has
_more talent than any team I've

The sU women'a vollayball aquad celebrated tite home oppener Tueaday with a 3-2 win over Cortand. Helping, the Orangwornen to victory ars Colatte Johndraw (canter, 211 and frothogran debert.
coached. They're going to go a ong way.
Syracuse won the season opener 3-2 Tuesday night before a boisterous crowd at the Wornen's Building.
The Orangewomen opened the match like a fire burning out of control as they quicicly jumped to an $11-0$ lead. A few minutes later, after some great plays by genior Kathy Killoran, they won the first game, 15-6.
The second game was a lot closer, but SU prevailed 15-11. Freshman Elaine Morry, who was playing her first intercollegiate match, stopped two spikes late in the game to keep the Orangewomen in the lead.
The third and fourth games saw a very tough Cortland team at its best as it
With the acore tied at two, the players were tense as they the players were tense ast they deciding game. Cortland deciding game. Cortland jumped out to a quick $3-0$ lead, buck behind the great play of Kack behi
"Kathy did a auper job tonight," Goldband said. "She's not as tall as some of the other girls, but she comes up with the big play at the right times:
It was appropriate that Killoran aerved the last paint of the game and match to clinch the first win of the 1978 Theng 0
The Orangevwomen traval to Oawego tomorrow and riturn home next Friday night when theyll equare off aqainst Rutgers and Genceeo.

Syracume women's fleld hockey coach Kathlean Parker (above) got her first taste of dofeat yotterday as SU lost to Hartwick in overtime.

## Syracuse no longer unbeaten

The SU women's field hockey team lost its firsi match of the season yesterdiay afternoon, falling to Hartwick $3-2$ at Lancaster . Field. Hartwick won the match on penalty shots after the teams had tied $2-2$ in regulation and could not score in two seven-and-a-half-minute overtime periods. Jenifer Peplingki and Deriods. Jenifer Pcoped for SUT, which is now 1-1. The IV team defeated its Hartwick opdefeated its Hart ponents 1-0.
The field hockey team travels to Buffalo to meet the University of Buffalo Saturday at 1 p.m. The Orangewomen are home again next Tuesday afternoon when they meet Oneonta at Lancaster Field at 4 p.m.

## Clubs start tonight

There is a mandatory meeting tonight at 7:30 in 117 Lyman for all SU- students interested in playing hockey for the SU for all SU- students interested in playing hockey for theide hockey cub. For further
If pugilism is more your style, the SU boxing club is also holding ammeting tonight. Allinterested persons should meet holding armeeting tonight. Alinterested persons should meet at 7 p.m. in the Wresthing Building (in front of Mapley Field fouse) or call Coach
further information.

## You're gonna pay

Admisaion will now be charged to indoor women"s sports events of volleyball, banketball and Ewimming and diving. The price will be $\$ 150$ for acdults, $\$ 1$ for atudents and admision will be free for SU atudente with athletic anictivity cards and for childrem tunder 12.

## 

## Editors question Eggers on stadium, student union

"Editor's note: Thomas Coffey, Daily Orange editor in chief, and Jacqui Salmon, DO news editor, held a question-and-inawer session earlier this week with Chancellor Melvin A. Eggers. Today, in the first of three parts, the chancellor discusses the new stadium and the proposed student union building.
Q: There have been cost overruns on many domed stadiums brilt arourd the country. How can Syracure avoid that problem?

A: We have estimates by reliable construction managers and at this stage we're confident we can write a contract in the range of $\$ 25$ million to $\$ 26$ million, where the construction manager will bond for that amount.
$Q$ : If he's borded then he's responsible for any cost overruns?
A: Yes. He bonds, then he will deliver for the price he contracts for. That's the purpoae of the borid. Any overruns, will have to be paid from the bond.

Q: Another question people have about the stadium is parking facilities. Will there be enough? Where will they be?
A: Well, in the first place we need to remember that there have been as many as 42,000 people at Archbold in previous seasons, before there werie as many parking spaces on the campus werd elsewhere nearby, 80 people do get to a stadium when they want to. In the second place, there are a large number of parking places which are readily accessible by busea.

Q: Like where?
A: Likn wheriately downtown, where they're vacant on Saturday afternoons as a general vacant There are also spaces at Manley and at Skytop. The total number of spaces within shutSkytop. The total number of spaces withim shutchbold. Additional arrangernents will be made for additional spaces, but precisely where they

Those records that will play at all the fraternity apartment and floor partios this weekend will cost more this yoar. A recent copyright law requires colleges to pay for the right to play prerecorded music or hire bande.

## Copyrights tax SU social life

By Gerard Dziuba The university's social life will cost it about $\$ 2,500$ more this year.
Because of a new copyright law that went into effect on Jan. 1, the university is required to obtain a license from three performing rights agencige, oo that students can play pre-recorded music or hire Wands.
Under the old law, ñon-profit organizations, including behools; werce exempt, from paying the feos.

Melving C Mount, vice
president for student 'affairs, said the university has made an agreement with one performing rights agency and is working out contract detaila with the other two.
The three agencies are: the American Society of Composers, Authors and Publiahers (ASCAP); Broadcast Music, Inc. (BMI) and the Society of European Stage Authors and Composers (SESAC).
Moet major performing artints have a copyright under
one of the three agenciea and
any fees collected are paid to Mhe artist.
Mounts said the university will have to pay SESAC $\$ 320$ for a contract that runs from July to December. He said the money has been placed in an escrow account while contract details with the other two agencies are being worked out.
He Baid ASCAP will be paid $\$ 1,000$ for a year-long contrect and BMI will receive $\$ 900$.
Because - the amount is relatively amall, the univeraity ie picling up the tab, Mounta construed on poge

## SA results are in: 17 seats still open

Additional winners in last week's Student Association Assembly elections were Stacey Winnick, Watson; Carol Horne and Patty O'Donnel, Haven; Palmer Smith and Allen Mittleman, Kimmel/Marion; Anne-Marie Luccesi, Area housing; Doug Flewelling, Sadler; Mack Frederick, Brewater/Boland; David Kearns, Kathy Dweier, Greg Palmer, Ed Nahony and Dorris Hombly, Greek housing; Tracy Matlick, Valerie Bricco, Randi Citron and Cheryl Bernstein. South Campus housing; Martha Citron and Cheryl Eernstein, South Campus housing; Martha Pichey, Chris Lala, Audrey Sidiauskas, Fony Rizzo, Pau FeVitPatty Dowling, Mike Von Hendy, Rita Giordano and Todd BierPatty Dowling, Mike Vo
An additional 17 assembly seats havenot been filled, said JorAn additional 17 assembly seat
One position each is available in Haven, Area housing and Greek housing, with 14 geats open in off-campus housing.

Anyone interested in filling these seats must give SA a petition With 50 signatures from residents in his living area, Dale said. The assembly will then vote on the candidates' approval.

## Ex-chancellor Tolley gives to SU Press

By Marsha Eppolito Hel ping to celebrate the 35 th anniversary of the Syriacuae Unniversary of the shrmes SU Chancellor William P. Tolley yesterday donated $\$ 10,000$ to its $\$ 1$ million endowment fund. Tolley, speaking before about 50 faculty, members, E.S. Bird I administrators in E.S. Bird Library, Baid, "I'm enormously proud. We had such a madest beginning.'
Tolley who was chancellor. from 1942 until 1968, founded the press in 1943.
The press now publishes 20 new titles a year and sells its books throughout the world, including the People's Republic of China and the Soviet Union.
Arpena-Mesrobian, director of the SU Preas, said an additional $\$ 5,000$ was received from an anomymous donor Wedneaday night.

John J. Prucha, vice chancellor for academic afpublishing of scholarly books is not a money-mating venis not a money-maining venture ${ }^{\text {neded. }}$
needed.
The press has had books adopted for 1,800 courses in 800 - colleges and universities throughout the world in the last four years.
Tolley, reflecting back on hia chancellorship said, "Aretired chancellor is one who has lost his faculties. I got out just in time, before the insanity of 1969."

The university was shut down for about two weels in the spring of 1970 because of a student strike over the Cambodian invarion.
He added, "I'm delighted to see aigns that SU is returning to sanity, a boliof in standards and the desire for excellence."

## Letters

## China Day: a cultural exchange

To the editor:
On behalf of the committee for China Day, we wish to respond to the letter appearing in the Oct. 4 Daily Orange entitled, "What's Behind China Day?" Written by a "name withheld" Syracuse Univer" sity student. We will clarify this is sue by stating the following thiree pointe:

1. China Day is initiated by the SU Chinese Student Association and expanded to the Syracuse Chinese community. A special committee was formed recently to be in charge of this event. This committee con Amberican citizens and Chimese American citizens and Chines It is It is true that Oct. 10 is a National Day of Nationalist China. As usual the Chinese Student Association will celebrate its holiday by having a special sports tournment and dinner party; these activities are only limited to the Chinese.
As a Committee for Chinese Culture Featival, we feel it is not our intention nor our desire to bring politics into the cultural events Therefore we strongly believe it is not necessary to publicize this isaue to those not involved or interested. Our only purpose is to promote Chinese-American culture exchange, mutual understanding and fellowship locally.
2. Most of our members in this apecial committee cance from Taiwan. We are proud to identify Taiwan. We are proud to identify ourselves as part of the Chinese culture from the Repubic of China Taiwan. If we are going to conduct Chinese cultural events, itis natural that we look for information and help from the Repablic of China Taiwan. We made a great effort to arrange the Chinese Calture Variety Show which is made up of 16 talented and specialized college students who are representatives of Chinese divergified caltural backgrounds and Youth Good-Will Mission of the Republic of ChinaTaiwan. They will come to Syracuse, although it is not on their original achedule, and will perform dance, music, opera and dramas.
In addition, ai sroup of Chinese fashion deaigners from the Fashion Institute of Technology of New York City are invited to demonstrate Chinese, costumes and fashion Cresses.
We admive and respect their tplents and mpecialtion. Should a
"concerned Chinese student" take away their opportunity to present their talents by injecting his political insinuations? Can we as a civilized person temporarily forget our political preferences? Let's ap preciate their cultural talents together.
3. The committee for China Day is a non-profit and non-political af fliated organization. It is an independent organization es tablished only for this event. It started with great enthusiasm and determination to create cultural plans, with no budget (but an excellent fund-raising team).

We would like to take this opportunity to show our gratitude to portunity to show our gratitude to the following sponsors for their kind contributions which made this cultural event possible. They are Carrier Corp. American Telephone and Telegraph, Syracuse Univeraity Graduate Student Association Syracuse Minority Group, First Trust and Deposit Company, Syracuse University, Syracuse World Affairs Council, Everson Museum of Arts, Landmark Theatre, etc.
We really feel disturbed that socalled "concerned Chinese student" is questioning the intelligence of the Chinese community in Syracuse and the above-mentioned eponmore to distinguigh whether the program of the Chinese Colture Festival is a cultural one!
As a concerned Chinese student," why not get directly inrolved in our activity to learn firsthand of our Einancial sources rather than speculate from incorrect information? For instance, our budget is more than you mentioned in the is more than you mentioned in the Daily Orange - ${ }^{* 4} \$ 4$,
you get this figure?
Our dear "concerned Chinese student," Wemay fully disagree with what you said but we will defend your right to say it. You may have your own political value, and Bo do - e. Please do not dictate others.

Finally we would like to conclude this letter with many thanks for the pinblicity that has been senerated for us by the "concerned Chinese atudent." We welcome your participation in this gallant event.

Larry Hau
Larry Hsu and George Chang are chairmen of the Ad Hoc Committer for China Day.

Price hike for coffee aids victims

By Enis Etomborm The Orange Place at Comm munity House and People'a raised in Hendirisa Chapel raised about $\$ 115$ to help victims of a recent earthquaze in Iran by temporarily raising the price of coffee from 20 cents
to 25 cents a cup. to 25 cents a cup.

An additional 395 was collected during Protentant serviceer in the chapel on Sun day, raising the fund a amount to \$210, according to Desin John H. Mchambe Of Hapel. Mç Chapel
McCombe initiated the twoweek drive as part of a "very modest fund-raising campaigr."

About 25,000 people were believed to liave been killed after the earthquake atruck northeastern Iran on Sept. 16. It destroyed the cify of Tabas and flattened entire villages and cities.

McCombe said that even though Iran is a wealthy nation and has not asked for sasistance, the fund represients a "token of our caring.

McCombe was a visiting professor in psychology three years ago at Pahlavi Univeraity in Shira, Iran.

## Beer $\mathbb{E}$ Cheer add spirit to Watkins Glen

By J. T. Brady and Rachel Finkel
Ten grinning men dressed in flannel shirts, sweaters and dusty jeans stood near the entrance to the race track at Watkins Glen and passed out free beer. They were surrounded by a slew of trailers, rumpled sleeping bags and the trailers, rumpled sleeping bags andite :- "Hey-hey-hey-free beer," they shouted in chorus when a group of people or cars came ambling up the hill. Laughter rang through the woods as they distributed cup after cup of cold brew to race fans from all over the world.
The fans were among more than 25,000 who came to take part in the 25,00 who came to take part in the biggest racing event of the year-the United Staites ota Grand year of the United States. A highlight of the Grand Prix was a show of the world 26 top drivers in a 59 -lap race (199.9 miles) around the Glen circuit. Driver from various countries represented companies such as Goodyear, Lowen brau and Kendall Motor Oil. The race held Sunday, was undoubtedly the biggest attraction of the weekend. However, countless other incidents led up to the grand event.
The scene at. "The Bog" was one of them.

The Bog is a large, grassy gully near the track, named for the swampy qualities it assumes after it rains. Every fall, thousands of persons camp at the park surrounding the track, some to watch the race, others to worship The Bog.

The Bog has an insatiable appetite for the cars its worshippers feed it as a sacrifice in a bizarre and violent ritual. Vehicles traveling the dirt roads on either side of the huge gully were stopped by a fanatical mob, the drivers forcibly extracted and the cara rolled into the gaping maw of the swamp The zealots then surarmed around the helplese machines, doused them with helpless machines, doused them with gasoline, clubs and rocks. clubs and rocks

A charred auto rested in the grass, now a cold, lonely monument to The Bog's hunger. A handful of curious but disrespectful mourners examined the remains, gossiping like spectators at an open-casket wake.
"What was it?" asked one man, as beer bottle in hand, he punished the heap with a vicious kick.
"I don't know, it's hard to tell"" a voice answered. "I think it was a Plymouth.
"Naw, it was a Cordoba," another answered with a tone of certainty. "Where the hell is Ricardo Montalban? We'll burn him too!'
We'the Bog lives, The Bog lives," screamed the mob. "The Bog is hungry, it wants more food."

A long-time devotee stood off to the side and shook his head akeptically, obviously unimpressed. "Hell, this ain't nothin"," he complained. "Last year, we had a whole goddamn bus down here, an' we burned hell out of it. This year we ain't had nothin' but small shit."

Phato by Joah Sheldon

Away from the desecration of The Bog was another type of commotion. The track was burwing with anxious fans, well-equipped photographers, and Grand Prix volunteers darting from one office building to the next. Souvenir row displayed racing capa, Watkins Glen posters, T-shirts and aki jackets.

A large crowd gathered to watch the A large crowd gathered to watch the of old cars dating back to 1934. A few membera of the group claimed they hadn't missed a Grand Prix since the

race opened
One such person was "Chuck," a Watkins Glen resident, decked in a red Toyota cap and yellow jacket, covered with various patches from past Grand Prixes.
"Those were the days," he chuckled, as he spoke of his earlier experiences at the Glen, "When the family would come on a Sunday with a basket of chicken and sit on the hilltop."
A frisbee flew overhead and two men began to play football along a hilly area near the track. The field was decorated with people taking each other's pictures and playing guitars.

Chuck referred to this area as the wilder section of the Glen." Onecurlyhaired man, seeing a girl walk toward the race, got down on his knees, motioned to his tent and said, "Come on, you got to help us. We're four guys who don't know how to cook.

During the Grank Prix, the crowd gathered trom every corner of the park sitting in tree branches, leaning againat fences and picmicking on the hill. Argentinian Carl Reuteman won the race with an average apeed of 118 mph.
Disheveled people armed with blankets and empty water coolers filec oft of the Glen in an exodus. Cars bear ug licenge plates that ranged from Colcrado and Canada to Indiana stood still in traffic.
Far some, however, the party was just beginning. A group of bear-stained men danced to lond tumes from a radio they set up on the grass. They wraved and whistled to the departing mace fans. The epirit of the Gien lives on.

## 'Clockwork Orange' has ultraviolent view of future

FILM ON-CAMPUS: "A Clockwork Orange," tonight and tomorrow, Brockway

By Thomas Coffey
There was me, that is, Tom, and three of my drooge-friends, you would call them-and one fine nochy-evening, that is. We decided to go forth on a venture. Our travels took us to many places, but inally we arrived at a movie theatre where we saw a movie that was a real hor corshow-good, you would call it.
Your hurnble narrator is speaking of a ilm called "A Clockwork Orange." It was directed by a Malchick named Stanley Kubrick, a bloke noted for his many ansbitious efforts, like the horrorshow comedy, "Dr. Strangelove." Mr. Kubrick,

## Film

 thy dear friends, adapted the picture froma novel by Mr. Anthony Burgess, the hovel being a vision of a future society. future society.
The movie itself concerns a malchick named Alex. Alex, an incorrigible youth not unlike your humble narrator, and his droogs do multitudes of nasty things to innocent people, -what Alex calls nocent people, -what Alex calls house they invade. They beat the writer and his wife and then force the writer to watch while they rape his wife. Oh, my
friends, it was a thing of beauty
But Alex, a great disappointment to his parents and parole board, eventuaily goes to prison. In an attempt to get out, he volunteers for an experiment. Poor, poor Alex is then turned into what they call "a clockwork orange"-any violentor sexual emotion he shows produces a revolting reaction. Then he falls into the hands of his past enemies, like the writer, who tries to force Alex to gnuff it.
I could go on, but your humble narrator does not wish to ruin the ending for you, oh my brothers.

The movie, in case you did not already know it, is real horrorshow. It has what some of our smarter brethren would call 6ocia
us.
us. Some other parts of the movie also make it wonderfully fine. A malchick called Malcolm McDowell has the role of Alex. He does well, my brothers, showing Malcolrn for the kind of bloke he is-a violent, oversexed bastard. But he also shows the terror Alex feels as he falls into thews the terror Alex feels
Mr. Kubrick, the director, is superb, of course. In scene after scene he is able to convey the mood he wants to strike into you, my faithful audience. The music aiso helps to set the mood, as motion picture critica would any.

And so, my droogies, I say you should see "A Clockwork Orange"-it will be a horrorshow nochy.

# Two musical sisters b to War Memorial stag 

By Brent Marchant
Heart, one of the music industry's most aucceasful pop groups, will appear in concert tomorrow night at 8
The group, led by one of the music in dustry's most vivacious aister acts, Ann and Nancy Wilson, has a fresh, lively sound that resembles Led Zepplin. What differentiates Heart from its British model is the replacement of Robert Plant's screeching vocals by the smooth, con-
troled singing of Ann Wilson and the ad-

Happenings
dition of a backing synthesizer. Lyrically, he band. is also different from Led Zepplin, featuring lines that tell stories of romantic fantasies, lost lovers and tales of energetic sound found nowhere else in the music industry.

## Fast start

Heart got its start in the Pacific Norhawest in the early '70a, playing in nightclubs in Seattle and Vancouver. In hese nightclub stints, Heart performed ts own material as well as a variety of songs by other popular artists, such as Harry Nilsson, Kiki Dee and, of course, Led Zepplin. Shortly thereafter, the band's fresh new sound won it a recording ontract with Mushroom Records
Heart's debut, album, Dreamboat Annie, was released in Canada in 1974. The LP was a loosely woven concept album about he life of a young rock groupie who Musicntly followed her musical idols. Musically, the material had a hard-rock base and featured inflences from other numiniocent su such asil on ute solo "Sing, Child, Sing"
The popularity of the album across the border led to its American release in the fall of 1975. Dreamboat Annie was an instant success, resulting in large sales and the release of two hit singles, "Magic Man" and "Crazy on You."

## Heart trouble

Riding high on the success of its first album, Heart went back into the studio in

## SCOPE

## 'Heart' and soul omorrow at 8 p.m.

The album that Mushroom Records released at the time of the court decision was the first of three versions of Magazine released to the public. On all three versions, the contents remained the same-six studio tracks and three live cuts from the Aquarius Nightelub-but the arrangements were changed on the different versions of the album.
Dissatisfaction with the result of the lawsuit and the quality of the studio
tracks led Heart to go back into the studios to re-record the six studio tracks. As long as the album was going to be released, the group decided the songs might as well sound the way they were intended. So, in the spring of this year, the re-recorded version of Magazine was released. The only difference between this album and the original was a jazzier sound on some of the studio tracks, A third picture disc version was also recently released, keeping up with the current fad
Having resolved all of its contractual disputes, Heart went back into the studio Dos and Butterfly, which is a mellower and rather pretty album
Heart's current line-up features a fine cast of musicians including the Wilson sisters (Ann on vocals and Nancy on coustic guitar, Koger Fion guitar, Steve Fossen on bass, Michael keyboards.
Opening for Heart tomorrow night will be Walter Egan, whose pop sound has gained recognition quickly over the past year. Egan released his nrstalburn, Basic Rock and Fundamental Roll, in the spring of 1977. thanks to the moral and financial support of Fleetwood Mac members Lindsay Buckingham and Stevie Nicks. Earlier this year, Egan released his follow-up LP, Not Shy, which has sold well and has received a great deal of airplay on FM radio stations.
General admission tickets for tomorrow night's show are now on sale for $\$ 7$ at the Onondaga County War Mernorial box office. For further information, call the box office at 425-2660.

"competition?" Can you ignore corruption if you profit by it? How far will you bend Your morals to go along with the crowd? Should you pay lip service to beliefs you could jeopardize your social status or personal safety?
"A Man For All Seasons," directed by Rick Hirachoff, and playing at the Salt City Center for the Performing Arta, is the story of Sir Thomas More, a man willing to give up his life for his moral integrity. The play is based on More's life as a well-respected English scholar, lawyer, author and statesman who rose to the of King Herd Chancellor of England under King Henry Vill. His dilemma arises When King Henry asks More, a devout Chutholic, for help in convincing the Catherine of Aragon (who could not bear
him a son) so he could marry Anne Boleyn.
Joe Lotito gives a convincing perMormance as the wise and compassionate More, who cannot sacrifice his moral con victions stake.
One of the most eloquent passages of the play is that between More and his long ime friend, the Duke of Norfolk, played by Daniel Posniak.
Norfolk beseeches More to save himself and take the oath along with the other English statesmen.
"Can't you do what I did," he pleads
Harry Fallen Hodge is Thomas Cromwell, the cumningly unscrupulous lawyer who aids King Henry in his lawyer who aids K
persecution of More.
Cromwell persuad Master Richard Rich (William D. West) to Master Richard Rich (Winam D. West) to help fimally entices Rich to lie against More in return for an appointment as At-torney-General of Wales.
Doug Carver energetically portrays The Common Man, who draws the audience into the play with his "man of he street monologues and cutting wit ively dialect make his characterization he crafty but unprincipled simple mat one crafty but,s highlipled The charming antiquity.

George Incas" "American Grafiti" is one of the most Cripular films of the '70s and popuiar films of the 708 and to cinematic art.

Califormia Dreamin'
The movie takes place in a mall California town in 1962 . small California town in 1962 . It depicts the trials and tribulations of a group of teenThe high-school graduates hare in many. new experiences, such as a first romance, a heartbreak, and
the first time getting drank.

## Award Winners

 Academy Award winner Richard Dreyfuss and stars Ron Howard, Cindy Williams and Mackenzie Phillipe are excellent as the innocent, maive youth of the early 1960 s. The youth of the early 1960s. The characters portray the last traces of this innocence, since the fim was set right before drug culture Viet-Nam Wer drug culture, Viet-Nam War Knd Watergate corruption.Kathleen Quinlin alao had a minor role in the movie. and later received an Oscar nomination for best actreas in "I Never Promised You a Rose Garden."

Technical elements of American Graffiti are of superb as the acting. The movie contains smooth tranmitions between scenes. The interplay of musicin the film is another asset. Songs such as another asset. Songs buch as tilly Lace" are playnthroughout the are played it even more enjoyable to wat-
ch.
Tender Portrait Lucas paints a tender portrait of the end of an era for the teen-agers. The movie is humorous, yet at the same time thought-provoking.
Moviegoers can expect an evening of warmsh, fum and entertainment.

## $\star$ Eggers

Continued from page one
are going to get a
student center, to student center.
Q: When
Q: When you spoke to the
freshman class in early freshman class in early September, you said they would have a student centerby the time they graduated. Do you still hold to that?
A: Yes, But that's a four-year period, so I have a little while to work out the details.
Q: How much has the Capital Campaign raised for a student center?
A: Well, I don't know how much precisely. I think the number is somewhat less than half a million dollars.
Editor's note: OnMonday, in he second part of the series, Eggers will talh about the university's plans to construct three new academic buildings during the 1980 s .

## Abortion adyocate speaks to SU class

ABY Misay Cid
"IVGbern labeled a menace to Bdeiety, Bill Baird, an outspoken abortion advocate, proudiy, oonfegsed. "I have been accused of singlehandedly being responsible for making whores and pros titutes out. of women."
Baird's: direct support of woman's right to an abortion has made him a ready target for , anti-abortion organizations across the coun-
${ }^{\text {try }}$ He defended birth control methods and abortions at professor Sol Gordon's class on Human Sexuality Wednesday night.
"I'venevermet a person who ever dreamed she'd need my evel "Baird said. However, he said he has helped "over 50,000 women personally."
Baird operated non-profit abortion clinics in Hempstead, N.Y. and in Boston before abortions were legalized. He was arrested several times.
He was instrumental in the 1973 Supreme Court ruling that legalized abortions and was based on the individual's right to privacy.
Baird said he is worried that the Pro-Life movernent is gaining momentum which may lead to a reversal of the Supreme Court deciaion. Thirteen states have already passed laws that claim a person exists from the moment of conception, which implies abortions may be illegal, he said.
"No one can prove to me that we should deny women this human right," Baird said.
"How can anyone call an embryo a person?" he asked.
Baird emphasized that his message is not pro-abortion. He said he believes it is every woman's right fo have an abortion if she wants to. He added that this ripht must also beex. tended to minore
'Don't you dare force women to go back to the use of coat hangers and knitting needles": he warned.

Baird said he was also responsible for the Supreme Court ruling which allows minors to make their own decisions about whether or not to buy contraceptives.
Baird has been imprisoned eight times in five different states- In 1965, he was arrested in Hempstead after he taught birth control methods to low-income people.
The Catholic Church has called him a devil and a "peddler of death." Baird said. He is now suing the Church for $\$ 1.5$ million for libel and slander. "If you're going to call me the devil, you better prove it," he said.
"The Church has to prove -nrgt, that the devil exists, and second, that it's mé" He said. Baird has not lost a lowauit in 15 years.

If he wing, Baird agid he will use the money to establish free Catholic abortion centers.
"I'm, angered at a religion that can instill the seeds of hate that they do,"Baird said.

## Hurley hopes to crack SU's losing streak

## Syracuse star <br> retums to a

 gloomy stage
## By Geoff Hobson

 He's back.Lacking only a cape and a telephone booth, quarterback Bill Huriey will attempt to stop SU's aecond worst start (0-4) in 88 years when he leads the Orange bgainst the Weat Virginia Univeraity Mountaineers (1-3) in Morgantown, W. Va, at 1:30 p.m. tomorrow. Hurley, the mast prolific passing and rushing quarterback in su history, returas after seventh play of the geason in teventh play of the season in
SU's 28-0 opening-day loss to Florida State.
Hurleystribs, perhaps the most talked-about bit of anatomy on campus since Chery tiegs B issues in Sports a rubtrated, will be protected by a rubber pad located on his ient
side.
I can do everything I did before," Hurley said. "The before," Hurley said. "The only thing I haven't done is taken a hit, I don't know how it will react, I'll ju

When it comes to directing SU's offense tomorrow, the injury will not limit the aenior's repertoire of option plays and roll-out passes.
"I can throw with no
problem since it's on my left problem since ita on my left opportunity to run, I'll takeit. I won't get rid of the ball more. But I'll be protecting myzelf more and if i see I'm going to get popped, I'll go down.
But Hurley's return will not solve the main Orange statistics look like a tuition check the defense haviong surrendered 1,784 total yards

( 1,115 rushing and 669 pasping) and an average of 33 points a geme.
"People think Hurley's return will euddenly reaurrect Ms," said SU head coach Frank Maloney. "But it won't, the defense has to do it for us."
The defense, will be facing a Fountain of Youth offense in the Mountaineers. At one point in last week'e $28-21$ loss to the Univeraity of California, WVU coach Frank Cignetti had two backfields. one of four freshmen and another of four gophomores.
"We lost our poise on offense in the fourth qua-ter," Cignetti said. "We're very young."

Starting in the backfield will be sophomores Robert Alexander and Fulton Walker Alexander, WVU's leacing rusher last Beason, has miseed the last two games because of bruised knees but will get the nod tomorrow.
Sophomore quarterback Dutch Hoffman has had trouble generating the WVU offense, which has averaged only 240 yards a game. Hoffiman, who wat taken out last week in the fourth quarter but will most likely start, has thrown for a touchdown and 322 yards, but has also tossed Give interceptions.
When he'e not throwing the
ball to the other team, he7l be looking for serior co-captain and receiver Steve Lewia. Lewis, who needs only 22 cat ches to break WVUs receiving record despite missing most of last season, has 10 catches for 96 yards.
Maloney hopesthedefensive unit will get better with time an only three players (cornerbacks John Patterson and Warren Harvey and free safety Terry Oreary) are playing in the positions they played last year. The others have been switched in the new defensive alignment or have come back from an injury.
On offense, the Hurley-lese

## Orange second fiddle

Betsy Malkovsky

## plays winning tune

pressure is on the team, not on individuals."
Last weekend, Malkovaiky lost a singles match at Pittsburgh, spoiling a perfect $7-0$ record. Head coach Jesae E. Dwire thinks Malkovaky is a very aggreasive player who doesn't give up.
"Right now, it looke as though she's ripping the cover right off the ball." he said. Of the court, Dwire calls Mallovaky "a conch" dream. She always has a smile for you. Whatever you ask her to do, she'll try."
ask her to do, Gheil try. start playing tennis until she was Playing tennia until she was
14 , when ahe began playing 14, When ahe began playing doubles on the Ramapo High School tenuis team as a freshmar. As a sophomoxe ahe gwitched to eingles, and during her junior year ohe was named captain. In 1974-5 and 1975-6, Malkovaky was noted MVP on a team that won the state championahip. At 15, Malmovely fitarted playing in the 16 -and-onder New Yort Circuit, which in cludes top playere from New Jersey and parta of New Yorik and Connecticut.
Playing the New York Cirw cuit made Malkovslcy realize that tenni wan't her main soal in life.
The kidil were to tennit oriented that they fidn't have any life outaide of tenninve any mid. "Ilook hacir on min, ehernid. Itoothacizon high school as a fin time. But, if they want to bat tha bent, Pd imagina that hat how

Malkovsky plans to go into recreation and coaching "Maybe I could just specialize in tennis, though.i want to get involved in a lot of epports.

Malkoveky credits a lot of her success to her parents. They gave me the op portunity to be zas good as I wanted to be." Although they paid a coach $\$ 75$ a week to instrnct her, Malkoviky recalled that "if I didn't wank to play, they"d say "ine.

Malkovsky is on a full academic acholarship, a rarity in SU women's sporta In fact, she didn't receive the scholarship until her sophomore year, because" "I didn't know Acholarshipe went on ability. I thought they went on need.

The success of the tennis team (6-0) has Ied to added pablicity, which Malkovaky feels lifts the team. "Last year, one or two meople would come to some matches. Due to pablicity, a lot of people are coming out to support us this year."

The long tennis season take a lot out of Malkovaky, both physically and acadernically. Right now, my body is mare. By the end of the season, I'm exhansted. Beandes, Ihaven't picked up* book in a week. Tennis and academice just dan't min. tho maid.

Urifortanately for her op ponente, however, tennis and hoving ravaly miz for Betay Mritrovity.

Orangernen have had trouble finding the explosiveness of last season, averaging only 267 total yardia a game. But Maloney does not think the fault lies entirely with the offense.
"We've been doing a good job on offense," Maloney said. "We're moving the ball con. siatently, but the defense doesr't get us on the field"

Maloney feels SUTB offengive line played its best game of the line plisyed its best game of whe year against and backfield of Hurley, Art Monk, Dennis Hurley, Art Monk, Dennis Hartman and Joe Morris will give the Orange a
doun running atteck.

- The freshman Moris; who ran his way into the hearts of Archbold fans last weel with an exciting 119-yard per* formance, should see
playing time tomorrow. which was annihilated by Oklahoma 52-0 three weeks ago, boasta two All-Dast performers. Highlyregarded middle guard Joe Jelich will play tomoriow .. despite a bore shoulder while senior Jeff Macerelli will beat one of the linebacking apote.

However, Hke SU, which beat. WVU $28-9$ in the geason Gnale last season, the Mountaineers were decimated by graduation in the secondary. Three of four starters are newcomers, which may open up the SU prissing' game. The Mountaineers have played well the last two weeks, played well the last two weeks, Cat still loat to both Norta and California (one loss) in the and California
"We're like Syracuse in the reapect that we can't keep on making miatakes," Cignetti said.

Despite the Orangemen's second woret start since the daya of Grover Cleveland (the president, not the dorm), Maloney is not pushing the panic button.
I can't get down on them." Maloney. geaid. whey take losses hard and that's the only way you ahould take them. Bill will be an inupiration tamorrow tand hopefully this will apread to the entix team."

## Art, equipment stolen out of Crouse office <br> \section*{By Thomas Coffey} <br> Since a large coffee table was also

- Four paintings and $\$ 1,540$ worth of office equipment were stolen from the Visual and Performing Arts late Thursday or early Friday.
dayor eatly Friday. Alfred director of the university art collection, refused to reveal how much the paintings were reveal how much the paintings were worth. "I'm not publicizing it," hesaid. pany not to do that."

In addition to the paintings, the burglars took an electric typewriter, a coffee table, a coffee urn, two desk clocks, a vase and three desk lamps.
The theft was discovered Friday morning by Gerald F.. Reidenbaugh, associate dean of VPA. Reidenbaugh notified Syracuse University Safety and Security.
According to John Zrebiec, director of security, there was no sign of forced entry. The office was locked at $5: 30 \mathrm{p}-\mathrm{m}$. Thursday by Reidenbaugh.
It was still locked at 5:30 a.m. Friday when Richard Rahr, a janitor, opened the office and noticed that a painting and a coffee urn were missing. Rahr did the items had been moved from the office, Zrebiec said.
There are a few clues in the case, Zrebiec-said.
"There was a long indentation in the ground under the north window," he said. "We think the largest painting was removed through the window."
stolen from the office, he said the burglars must have used a truck or van. The four paintings all belonged to the university's art collection. The most university a art collection. The most color by Charles Burchfield, an American artist, entitled "August Evening."
Another painting. John Clem Clarke's "Expulsion.", John Clem also valuable, Collette said. Two other works, "Spring Image" by Richard Koppe and an untitied lithograph by Hans Erni, were also stolen.
"I'm imploring the people who stole them to give them back." Collette said. "There will be no questions asked.'
Collette asid it would be very difficult for the burglars to re-sell the paintings. "These are registered paintings," he said. "We sent a theft notice to the American Art Dealers Assoćiation."
A theft notice means all art dealers have been notified that the paintings have been stolen.
The burglars left several paintings still hanging on the office walls, said Michael Chaprnan of the Syracuse Police Criminal Investigations Division.
"I would say these (the stolen paintings) are unusual paintings, so we're dealing with people who know what deanng with people who know
they're doing," Chapman said.
But Collette disagreed. "Art thieves wouldn't take office equipment," he would
said.

## Eggers, editors discuss plans for buildings

Editor's note: Early last week, Thomas Coffey, Daily Orange editor in chief, and Jacqui Salmon, DO news editor, held a question-and-answer session with Chancellor Melvin A. Eggers. Today, in the second of three parts, Efgers talks about the untiversity's plans
to construct three new academic buildings during the 1980 s .
Q: In addition to a atudent center, the university also has plans to construct some new academic buildings. Which buildings are going to be constructed?
A: First I want to say which academicareas are improperly housed. There are several buildings that cannot be restored. One of them is the Continental Can building that houses a program in the arts school-the sculpture program and a couple of other thingg, Second one is Huntington Hall. It is really beyond reconstruction, so. we have to provide different housing for the School of Education and the department of paychology.

 copionelof to tind retar to diean ef the muttifeith. Hervificice Chepert.

Third, there is congestion in Slocum Hall, becanse it has the headquarters for the School of Architecture, for management and for the College for Human Development. Each of those schools has parts of its programs housed in framestructures at the periphery on the east side of the campus. Those are not perfor the univergity Wepropose to heve anew structure for the univeraity. Wepropose to haveanewstructure for the School of Management and then, by taking their programs out of Slocum, making room in Slocum for the programs in the College for Human Development houged outside Slocum. We can also take some of the programs in the School of Management that are in temporary structures and put them in the permanent structure.
A: We don't know for certain where it will be built, but the two places that are under consideration are on the hill overlooking Onondaga Valley, near the College of Law building, or perhaps on the corner of

Crouse and University Place. We'll go on the space overlooking the valley unless that space is needed for an expansion of the College of Law.

Q: Iunderstand they need to expara.
A: They need additional library apace, which cannot be constructed within that present building. We have to do something for their present needs.

Q: Isn't therea third building under consideration?
A: Yes, there's one other one. What that extra building would beis not yet clear. We know that two structures would not be enough because there are some programs, like those of the Maxwell School, that are over on Ostrom Avenue. They're not only far away but in some cases in structures that cannot be perbut in some cases in structures that
So we'll have to have another building, but precisely what it will be, where it will be, and what other adjustments will be made as we provide adequate housing for those that would not be taken care Continued on pege olever

## To all who come to Hendricks McCombe adds togetherness

## By Carolyn Beyrau

In the Hendricks Chapel Dean's office, all religions come together. Filled with banners representing various. religious denominations, the office is the home of the Rev. Ofnce is the home of
Part of McCombe's job as dean is to help each portion of this religious alliance express its faith through worship.
We have one of the largest Hillel organizations in the world, the largest Newman Asoociation of any non-Gatholic univeraity in the United States and, with its quota of chaplains, one of the largest Proteatant endeavors in the country," mays the 1948 SU
graduate. graduate.

McCombe, who came to Hendricks Chapel 11 years ago, notices that students are once again worshiping in large numbers. He thinks this is partially due to the changing role of science in a person's life. "Students are discovering that science doesn't have all the answers," he explains. "Science by itself never gives us the full potential of what it is to be human.":
Compared to $f$
Compared to five years ago, there is a much more obvious interest among students in becoming familiar with religious tradition and the Mractice of religion notes the National University of Cusce in Perv.
"I take this to mean that in our midst there is an ex. citement, a hunger, a deaire to know religion," McCombe said.
Attempting to satisfy this hunger is another part of McCombe's job. Through the use of geminars, fireside use of seminars, fireside dialogues, study groups and Chapel helps students become Chapel helps students become aware of the wisdom to be graned from
In additi
In addition, SU's religion department has one of the largeat enrollments in the country, says McCombe. We have an outstanding program and autatanding teachers.

## The pennant race: turning back the clock

The baseball season has been over for me ever since the New York-Yankees pulled out that thrilling playoff win-over my beloved Boston Red Sox at Fenway Park But, the mind atill floats back through those Park But, the mind aus, disappointing, exhilarating and frustrating last three weeks of that clasaic pennant race.

For the firbt time in a millenium, the talk of the

## Geoff Hobson

agents; long-term contracts, greedy owners or brooding players.
Instead, it was of clutch hitting and gutsy pitching, double plays and sacrifice bunts, of starters and reind New York.

There is nothing-in the world quite like a baseball pennant race that stretches to the final day of the season. Its excitement and drama absorbs everyone.
There is the professor who sees the student with the newspaper before class. "Hey, how'd the Red Sox do last night?"' For once in the semester, Yastrzemski takes precedence over Shakeapeare.

There is a new hero every day. Jim Rice, the most awesome slugger in the game, Ron Guidry, the Sandy Kwesome giugger in the game, Ron Guidry, the Sandy Koufax of his era, and Cari Yastrzemski the Red Sox captain wh

There are old heroes from pennant races gone by. Jim "Catfish" Hunter and Louis Tiant regain the form that made them the money pitchers in the Heague a few years back. There are new heroes. A new r20-game winner for Boston named Dennis Eckersley regrins his June form in the last month and Brian Doyle and Fred "Chicken" Stanley fill the void of the injured Willie Randolph for the New Yorkers.

The Red Sox keep winning, but like the champions they are, the Yankees do also, until the final day when "The Cat" gets hammered at the Stadium and El liante spins his magic one more time at Fenway
to, almost unbelievablely force a play-off for the to, almost unbelievablely force a play-off for the
Eastern Division championship. For only the fourth Eastern 190 penimant races in the long history of the time in 190 penmant are two teams in a dead heat at the wire.
But it was the only way this true baseball season could have ended. A season that saw the Red Sox take tia seemingly invincible 14 -game lead in the middle of络

## 1437: Farewell to freedom

"If we don't fight it now, tomorrow it might be illegal."
These words were apoken at an open forum two weeks ago aponsored by the American Civil Liberties Union. Lakeshore Alliance member Dave Stern was American Civil Libertes Union. Lakeshore Alkance member Dave Stern was talking about a bil, already passed by the senate, that would give police the power to arrest protesters, disperse public
vassing and parading at their discretion.
The bill, $\mathbf{S}, 1437$, is a deacendant of the Nixom-Mitchell version of government and severely limits many of the freedoms guaranteed Atnericans by the Bill of and severely limits many of the fre
Fights. This repressive bill would:
-Make it a felony to mail out information about abortion-including letters, ads, books and pamphiets.
-Allow the use of any "relevant information" to be wed in sentencing proceedings, even if it was obtained illegally.

- Authe labor strikes as a form of blackmail. sources.
These are but a few examples of how $\mathbf{S . 1 4 3 7}$ can restrict or deny the freedoma that used to be guaranteed rights.
Sens. Edward Kennedy (D-Mass.
Sens. Edward Kennedy (D-Mass.) and Strom Thurmond (R-S.C.), co-sponsors of the bill, maintain that this revision of the federal criminal laws is long overdue, and are pushing for rapid passage of the bill. Once made law, proponents any. "problem sections" could be studied and the law amended.
In this rush to get the bill passed, some charge that the bill was "streamiolled" through the Senate. Frank Willinaon, national director of the National Committee Against Repressive Legialation, baid no advance notice was given concer ning when the bill would come up for a Senate vote. As a-result, almost all the senators were "taken by surprise," and the bill vent through without meaningful debate.
Before the bill becomes law, it has yet to be approved by the House of frepresen. tatives. The "meaningful debate" lacking in the Senate proceedings can be stimulated by public pressure.
Since the House of Representatives is due to adjourn in one to two weeks, it is essential that citizens act without delay to prevent this repressive bill from becoming law. Reviaing the criminal code ia indeed a pressing issue, but hasty passage of a Iaw that threaters rather than protects citizens is not the answer. Letters should be written immediately urging repregentatives not to bring up the bill this sebsion, and to wait until extensive hearings on the criminal code can be thoughtfully conaidered.
Write to Committee Chairman Peter Rodino, House Speaker Tip O'Neill or your local representative to protect your freedom and ingure your rights. Letters ahould be addressed to the House Office Building. Washington, D. C. 20515 .

Sy Montgomery for The Daily Orange

## The Daily Orange

## 

July, only to see the Yankees make their patented September run and take the lead by $3-1 / 2$ games on September 15. But the Sox do not die, finishing with a pressure-pan whing their last eight games of that season at the home of the Green Monster.
The Yankees won, but try as I might, I couldn't feel sad. The whole episode was a tribute to the ageold spart. It was a throw back to the old days of the Dodgers and Giants. Of Erskine's curve, Robinson's Eire, Mays' grace and Maglie's stare. Now the names fastball, Yastrzemski's clutch play and Rivers' epeed gracing the autumn aftermoons. Instead of Robinison stealing home, we have Burleson diving and crawl-
ing on the basepaths. Instead of Hodges" quiet manner and exploaive bat we have Reggie's explosive mouth and equally aldilful bat: Instead of Branca delivering the home run pitch to Thompson, there is Torrenz's pitch to Bucky Dent.
It was sad, almost brutal (like a elap in the face) to see Yaz pop up to prolong his agomizing quest of a world championship. But, the season and The Game Was reassurance that baseball Will still have her dramatic finishes and heated rivalries. She will always capture the herart of the public and remain
THE GAME. With teams like the Red Sox and Yankees-it can oniy help atay that way.
Now let's see-the Sox should be going to Spring Training around Feb. 27....

## Letters

## Reorganizing AAS: concepts and concerns

To the editor,
I am writing in response to an article that appeared in the Sept. 29 isaue of the DO, entitled "Problem for AAS: declining enrollment"

While there has been a decline in the number of students majoring in AAS, the average number of students enrolling in AAS courses is increasing. Rather than attempting to respond to all the other points inwould like to state individually, I would like to state my views on eorganization a little more clearly.
Isupport the concept of reorganizing AfroAmerican Studies as a department in the College of Arts and Sciences. My reasona include: a) That as an mppendage to the academic structure, AAS is at a cisadvantage, and in my opinion more vuln
b) A survey of other AAS/Black Studies programs around the country revealed that many of the more succeasaful programs have secured homes in more permanent academic structures:
c) To increase the nuimber of students taking AAS courses, we have had to depend upon croes-lis ting courges with other departmenta. Becoming a department in Arts and Sciences would alleviate much of this problem, because students would get Arts and Sciences credit for taking AAS courger.
Although I support the concept of reorganization, there are certain
conceras that have to be resolved before I would support the reality. Some of my concerse include:
a) AAS being incorporated into the Standard Plan;
b) AAS courses receiving approval as A\&CS cotrses;
c) That some type of agreement be established that recognizes the emphasis placed by AAS upon effective teaching, academic counseling, Iocal community/umiversity support and scholarly research in promotion and tenure decisions. Since AAS is interdisciplinary, traditional criteria cannot be applied to the faculty as a whole.
I believe we have the type of base from which a strong academic program can be built. Vice Chancellor Prucha has stated that he would not encrifice AAS just to reorganize it into Arts and Sciences. The faculty is evensaronger with the
addition of two new faculty
members with excellent academic credentials. Preliminary contact with faculty and administrators in With faculty and administrators in Arts and Sciences has been sincere
and positive. Finally, students are and pobitive. Finally, students are involved in the planning process, and additional input is encouraged from both stuclents and faculty in other academic unita who have an
interest in AfroAmericar Studies.
Spurgoon M. Stampa, Jra, Ph.D.
Dr. Stompsis acting director of AfroAmericar Sturdies.

Michael Harrington, one of the nation's foremost tocializts, told an budience Thursdey night in Grant Auditorium that modern society is in crition, partly becatse of a lack of fisith in God.

By Carl Johngon
Is God dead or has he jugt disappeared?
Michael Harrington, ong of the natión's foremost socialists, spoke Thursday in Grant Auditorium about the problem's of today's society, but he asked more questions than furnished answers.
"We've come from the JudeoChriatian tradition to Hugh Hefner:" he said.

Harrington painted a dark picture of religion in today's. society. The key to the modern crisis of society, he told his audience, is the "disap. earance of God as a working earance of God as a w
Harrington is chairman of the Democratic Socialist Organixing Committee and author of "The Other American" and the "Twilight of capitalism."
God, "the quintessence of the philosophy of mosi people," is dying, Harrington said.
And religion, which gives meaning and coherence to life, is being destroyed, he said.
"God is dying, but there's no substitute. there are no new servitudes," he seid. He noted that this is something that has never happened before.

## Hendricks dean

Continued from pege ond
Counseling also plays a major role in McCombe's work. Three years ago it was computed in a suryey that the stafi and chaplains of Hendricks Chapel did as much counseling as all other counseling services at SU combined.

Students come to McCombe and his staff with problems ranging from alienation and loneliness to vocational indecision.
"Not that we have all the answers," he explains. "But sometimes a litile listening is part of the answer that an individual finds.

McCombe finds counseling to be one of the most rewarding experiences he has undergone as dean of Hendricks Chspel
"Being with a student who moves from despondency, dis couragement and confurion to affirmation clarity and as aurance is the kind of personal encounter that tells of personal really all about," says Meally all about."
McCombe.
However, one of themore difvicult aspects of his job in volves fund raiging for the renovation of Hendricks Chapel, an operation which will require $\$ 500,000$.
well as for last six months as wall as for the next year and a half, 40 percent of my time and energy will be apentin helping to aecure the meeded money." says MeCombe: "I do this will. ingly ; but at the eamo time it's hand on me not to be havines an much time for: pastoral concernin. ${ }^{\circ}$.
studying. However, several years ago, residents constructed walls that divided each suite into four separate roome.

The partitions will be seven feet tall and Lrshaped. The in. sulation materiala will be covered with burlap and the partitions will be framed with wood.
One set of partitions will be on each side of a suite, said Nancy McCue, dorm director of Brewster/Boland. This will create three bedrooms and one living room for the three residents of the suite.

Dean said the idea of the partitions came up last year. He said ORL was looking for said Ofic was looing for physical limits of the room and physical limits of the room and
would give the students what would give th
they wanted.
Dean said that, ironically, the commercial name for the new walls is, "Brewater partitions."

Harrington aaid man's honesty, a fundamental part of the Jndeo-Christian tradition, is also being lost.
Capitalist society can only work if people have respect for each other that goes beyond contract and business obligations, Harrington said. He said society is corroding the reasons we all once had for respecting one another.
${ }^{\text {"Both }}$ faith and anti-faith are in crisis," Herrington stresged. "We don't believe in atheistic humanism and we don't believe in God; we don't believe in anything."
"What's the way out?" he asked. "I have no idea. Anybody who thinks they Anybody who "The Way Out' ie a fool." have The Way Out in a fool.
Buid there are approaches to anarwers. Hesaid if proaches to antroters. Hesaid if production, one can end that production, one can end that part of our bewilderment that is rooted in our social life. This crestes the possibility of
decent human relations decent human
However, Harrington emphasized that socialism will notsolve the human condition.

I am totally convinced that capitalism is going to end," Harrington said. "I am not eo sure that socialiam is going to
replace it. I will guarantee that collectivism is groing to replace it."
He said he believes the greatest challenge to a socialiat society is to begin to fll the void left by the deatin of God without becoming another religion.
There are limited thinge we can do to make a more ethical scciety. Harrington said. He warned, however, that "there is no maric."
"We have lived morally in societies of acarcity since the beginning of time," he said, emphasizing that the problems of the world today problems of the worid today are not entire
"Why not collectively paidfor milk, collectively paid-for medicine?" Harrington asked. medicine? Harmigtonagked. I think that if possible. ... think if we did, then human nature would begin to change.
"People would become more "People would become more
Harrington was the first speacer in a program titled, Moral Man and Immoral Society," which is sponsored by Hendricks Chapel, The Maxwell School of Citizenship, the Honors Program and he University Union Speakers Board.

## Hurley hurts only WVU

MORGANTOWN, W. Va-The morning newspaper knew it. Weat Virginia Coach Frank Cignettiknew it. The Syracuse foot: ball team knew it.
Bill Hurley is back. Saturday's Pittsburgh Post-Gazette headine: More bad luck,

What was bad luck for the Mountaineers was good fortune for the Orangemen. Hurley returned to the lineup to provide Syracuse with physical, Orangemen's 31-15 victory on Saturday. "Bill plaved extrernely well," said lot better."
"We controlled the ball well, eapecially in the first helf, because we had a good game plan and Bill can executeso well. He Maloney added.

Hurley, who was being physically and verbally abused by the West Virginia defense throughout the game, carried 28 TheW 1 y
They (the West Virginia defense), were thelling me they were going to get me," said the ref and $I$ told him that I didn't mind clean hits, but $I$ didn't want them twigting clean hits, but turning me after every play."

Hurley took one really mean bit late in the first half. He was struck from behind by defensive end Delbert Fowler, a shot which knocked the wind out of the quarterback. Weat Virginia was charged with a personal foul.
"I personally felt that he (Fowler) was going after him," Maloney said. "It was an awful cheap shot.'

Hurley said he just laughed when he heard some Mountaineers yell, "Get his ribs!"
"It hurts quite a bit right now," Hurley
Maloney baid Hurley will be examined this week to evaluate his status for future games.
"It is great to have Bill back," said

## B\#ll muriey

played just auper and gave us a big mental upliff. He is tough, too. He came back to the huddle a couple of times hurting so bad that he couldn't even speak.
The fact the offense was able to control the ball also helped to keep the defense rested. "He lifted the whole team," said linebacker Jim Collins, "and he kept the defense ready and rested."
Although he ran very effectively, Hurley appeared to be laboring during passing situations. He completed only two of nine attempts and seemingly ran during several plays that were originally called as passes.
"My footwork wasn't what the coaches may like", he said, "but we won the game and that's what counts.
After the game, West Virginia Coach Frank Cignetti spoke of his respect for Hurley. "We know Hurley well," said Cignetti, "and we were afraid of him."
Bill-Hurley is back. And everybody
knows it.

As Bill Hufley goes, to goes the Syracuea Urivergity Orangemen. Hurley's return after recovering from three cracked ribs sparked SU's first 1978 victory Saturday tes the senior quarterback had his
best rushing dsy ever, racing for 147 yards.

## Fall lacrosse

## Improved Orange up

By Joel Stashenko
A new version of the old adage "if you can't beat them, join them" got its first. test Saturday at Coyne Field for the Syracuse lacrosse team. The debut was a resounding $11-7$ win over Rutgers for SU in its first fall lacrosse match of the year.

The Orangemen unveiled a new offenase in the match, one which is patterned after that used by upstate rival and frequent national champion Cornell. The new offense, implemented by SU assistant coach Eamon McEnaney (who was an AllAmerican for Cornell) combines with a Cornell-like defense developed by Jay Gallagher, another Big Red player turned SU assistant coach
Saturday the new offense and defense combined to outlast a Rutgers team which was ninth-ranked in the nation last year and which was rated as one of the top five tearns in the country in the preseason poll
for the short fall season for the short fall season
"We've had a rugged fall conditioning program," said Syracuse head coach Roy Simmons Jr. "Ifelt before the game that if we could stay even with them early then we could pull-away later in the game. They don't have the legs we do."

Simmons' hopes were answered later in the game as the two teams battled to a 5-5 tie after three periods. In the fourth quarter, however, Syracuse outscored the Red Raiders 6-2 to win the match going away.
"This is one of the teams we are going to have to compete with for a playoff apot in the spring," Gallagher exid. "They (Rutgerg) have to come up here in the spring. to play us again ao it's not an advantageous thing for them to lose."

Through it all the SU offerse ramained a aource. of bother for Rutgers. The new configuration is a pattern of three SU midand rotating around the enemy goal. The aystern appears to be an improvement
over last year's offense which was mor a free wheeling, long-shot attack
Rutgers was able to avoid making m takes against Syracuse until the in
quarter, when SU broke the tie ai Rutgers' spirit with its constant pressuf: Ten seconds into the period Ker O'Donoghue fed Tim O'Hara, who flich a shot past Rutgers goaltender Ste Kahn for a $6-5$ SU lead. A minute and.
half later O'Hara scored again (his fout half later O'Hara scored again (his fourf
goal of the day), whipping a hard sh goal of the day), whipining a hard sh past Kahn's left ahoulder.
Freshman Brad Short scored next SU with 4:04 gone in the quarter and half a minute later Steve Flanag alipped around the corner of the net score past the shellshocked Kahn for $a 9$
Syracuse lead. SUT won de
SU won despite playing without thr key staxters: Greg Cunningham (who

aying soccer for Syracube), John (who has a broken leg) and goalie Molloy (who is spending a semester in Amsterdiam).
all right Jamie is enjoying at all in goal today. Steve played a ame.'
e Gorman was impressive in his er varsity start
fid I was going to hold them to five said Gorman, who nearly lived up prediction." This is our big game of 1 and we were ready to play them." man did have a word of warning for , one of his closest friends at SU. telling you, it's going to be tough mie (to get back in goal) when he back,"Gorman said. "I wouldn't lie a thing like that."

A 36-yard kickoff return by gyrating Joe Morris set the stage for the return of Hurley. Employing poise and a smooth ability to execute. Hurley ran on three of the first four plays, gaining 43 yarde and positioning the ball on the West Virginia 13.

Four plays later, fullback Dennia Hartman plunged over from the one to give the Orangemen a 6-3 lead. Dave Jacobs hit his 51 ist consecutive point after as a slight rain began to fall.

The rain wasn't all that began to hit the Astroturf. John Cameron sacked quarterback Dutch Hoffman on the first play of
the next drive. Agressive defense by Tom

Siebert and Terry O'Laary on the next two plays forced the Mountriineers to punt.
"The defense made a strong comeback this week." said Coach Frank Maloney. "They played with a lot of emotion."
After a 12 -yard Art Monk punt retarn, Hurley and the offense began to roll from heir own 41. After being swarmed for a one yard loss on the first play Hurley followed by gunning a pass to joe Zam buto for a nine-yard gain. Joe Morris exhibited his blocking slaill on the Zambuto reception as he took out-two mountainous Mountaineers while protecting the tender Hurley.

Hurley then twisted and faked to the

Mato by Richera repeated that run to the left for 26 yards. He then rolled right and connected with Axt Monk bringing the ball to the one.
Hurley himself dove over the right side, Jacoba converted the tick and Syracuse led 14-3, Etill in the first quarter.

The two teame exchanged the ball soven tirnes late in the first quarter and early in the second quarter on various turnovers and outstanding defensive plays.

Weat Virginia quarterback Oliver Luck (who replaced starter Dutch Hoffman and was later replaced by Hoffraan because he was "dazed" by a hit in the second half) was the victim of the defensive play of the grame.
After the Mountaineers had recovered a Bill Hurley fumble, they had the ball on the Syracuse 10. Luck dropped back to pass and freshman Guy Ruff stormed upon him, sacking him for a 15 -yard loss.

Sinclair then missed a 41-yard feld goal attempt.
"That was a tremendously big play," said Coach Maloney. "Guy and some of the good young players came up with some very big first half playa.

After the missed field goal, Syracuse drove 75 yards in 13 plays to set up an Art Monk touchdown with 45 seconds remaining in the first half. They were the gamewnning points.
After the first half, Syracuse had already netted more than $200^{\circ}$ yards rushing. Monk, who finished the game with 77 yards, rushed for 49 in the first half. Morris gained 36 of his 99 yards before the intermission.
"We came out mentally ready," said tae kle Craig Wolfley. He and Larry Archis separated the West Virginia line countless times during the contest as Hurley constantly favored rushing to the right side.
"There was a point in their defenae that we were taking advantage of," Wollley said, "we could une it because of the overThe second half began in a similar The second har began in a bimiar fashion to the way the grat half ended. It took three turnovers before the
drove for their fourth touchdown.
Finally, after an interception by John Finally, after an interception by John Hurley engineered a 10 -play, 85 -yard drive Hurley engineered a 10 -play, 85 -yard drive Mat was aided by some gutsy running by Morris and an interference call. Hurley scored his second and Syracuse 3 hnal
touchdown to give the Orange a $28-3$ third touchdown to
Jacobs added a 36-yard field goal in the fourth quarter and Hoffman passed for a couple of meaningless touchdowns to complete the scoring.
Only the future will be able to reveal if Syracuse will be competitive and feel "The Look" as they gaze through their helmets. One thing is certain. When opponents look through their facemasks they will see Bill Hurley and a reborn Syracuse offense.

SU's Mercury, Joe Morris (abovel. ccampered for 99 yerds againat the Mountmineers to become Syractige is leading rusher thif season with 289 yards in the last three gemes. The explosiveness of Mortis and the rest of the SU offonse also spariked the defense (below), which forced six turnovers and held WVU to only three points in the first three quarters.

}

If you've ever needed extra protection overnight. . or on days when your flow is heavy, you'll think Super Plus Tampax tampons were designed just for you. And they were.

Super Plus Tampax. tampons give you longerlasting protection because they're far more absorbent than the average super. Yet they're still surprisingly slim and comfortable. A rounded tip and smooth. highly polished applicator make them extra easy to insert, too.

Now, when you need something more, or when you can't change tampons as readily as you like, switch to Super Plus Tampax tampons. You'll feel more secure during the day. And overnight, too.

\title{
Speech by Indian missionary highilights Maxwell conference
}

\title{
Wil: By Cara Echmidt
}

Almoet a century of history vinited-Syracume University Saturday as part of the 1978 NewiYork State Asian Studies Conference; sponsored by the Maxwell School of Citizenship attd Public Afrairs.
A speech by Charlotte Wiser 90 -gear-old author and mismionary who apent more than \(50^{-}\)years studying the langrages and customa in indin, highlighted the confarence.
In her speech Wiser described her experiences as a Preabyterian missionary in Karimpur, a village in North India.

After living in Karimpur for more than 30 years, Wiser has collected numerous obser vations about the village.

There are 13,000 people and 230 households in the village. According to Wiser, the com. munity is poor, but the people do not starve.

Their whole attitude is different," Wiser said. "If they have enough to eat they don't spend money on furnittare or

While she lived in India the misaionary lived in a tent with missionary hived in a tent with a lantern as her only source of light As the years passed, mud encloaures were erected. These structures repreaented the change in Indian life
Wiaer discussed these changes in her best-gelling book, "Behind Mud Walls." The book, co-written by her late husband in 1930, is considered to be one of the most widely used Indian publications in America today. In the book. Wiser noted, What they (Indians) wanted most of all were walls of baked brick for their houses. No longer did they feel a need to build barriers...They wanted them, not for better hiding, but for better living.

Along with construction of the home, change was evident in areas of agriculture, education and the caste system. While she was in India, Wiser worked on a social project to implement irrigation: Practically all the work was done by hand until tools were introduced. Now the tools were introduced. Now the self-gufficient except for a few plows that are imported, ac cording to Wiser.
Education represente another area in which life in Karimpur is advancing. The first master's degree in the village was granted six years. ago: and there are now a few more degrees baing earned.

While progreas has been rapid in agriculture and education, change has not been as drastic in the caste syatem.
According to Wiaer, Karimpur still abides by very stringent bocial policies. Marriages are arrauged by parents and women muat marry within their subcaste.
A more detailed description of the family was given in Wiser's most recent book. "Four Families of Karimpur." The book, published last March by the Maxwell School, is a study of three generations of four different families: farmers carpentera, laborers and priests.
Besides being a renowned author, Wiser has been ac quainted with dignitaries such ge Mohandas Candhi, Nehru and Nehru's siater Pandit
When she was not working in India, Wiser returned to the U.S. approximately to the aeven years. While here, she earned a bachelor's degree in earned a bachelor 8 degree in sity of Chicago and a master in nutrition from Cornell in nutrition from Cornell University.

In recent yeara. Wiaer has been traveling and speaking to groupe about the Indian customa. She currently lives in North Carolina.
Although Wiser claims, 'I'm not only falling apart, but I'm going deaf," her mind is still astute. She may be one of In dia's most learned scholars.

The grape harvest is virtually over now. Yet the job of making wine has just begun. At.the De May Winery in Hammondsport, grape pressing is a family venture. Eventually, after weeks of work and months of aging, a finished product is ready for sale.

\section*{Need for aid inflates with tuition increases}

Editor's note: This is the first in a and at SU.

By Maxreen Devine
The haggerd-looking woman leans over the reception desk at the Syracuse University Financial Aid Office and anxiously questions the secretary.
"But tmy BEOG has been turned down. Is there anything else I can do?" she anka. "T've tried TAP and have ap-
Sed for a losn. What else can i do?
She peppers the secretary with questhe desk fut as the serretary repeats the desk. But as the secretary repeats that no one is in the ome band suggests day, the woman finally explodes.
She storms out of the office, stopping mily to say. "This is ridiculous-every Americanhas a right to financial aid! \({ }^{r}\)
Her anger typifies much of the frus-
ration that Americana feel when they tration that Ampricana feel when they sity tuition bill and their bank account.
Every American has the right to an education, we are taught, but whofootg
the bill for a univerbity or college education?
Nationally, aid to college students in creased from about \(\$ 100\) million 20 years ago to an estimated \(\$ 8\) billion last year.
And more than 3 million students received somye forma of grant, loan or gcholarship last year, compared with 20,000 who received aid in 1956.
At SU, the growth in dollars and numbers has been ust as dramaticas Tine national grown In ind with oue Funancial Aid OHfice opened with on Thime stali mencer and two Clerlit. Hhis year, the okice employs 10 rull deala with between \(\$ 25\) and \(\$ 25\) aillion deala indergredoate and eraduate aid
each year.
Between 70 and 80 percent of \(S U\) students received some type of gman cial aid this year either directly from SU, or from the state or federal government, says Arthux J. Fritz director of financial aid.
But with eatimated expenses of about \(\$ 6,500\) a year, many more SU student need aid than receive it.
According to Fritz, only about 60 percent of atudents who apply for financial aid receive help from SU.
Financial aid has developed over the years into a patchwork of loan and Brat lik trying to sew an old pair jeans sometimes the patches don't cover everything
Basically, financial aid comes from several sources: the federa government the state government private acholarship funds and th uni versities.

The different types of aid can be divided into granta, loans, scholar ships, and work study jobs.
SU provides about \(\$ 3.3\) million in ocholarships. The money comes from two sources-SU'a operating budget and contributions that are epecifically designated to be used as scholariahips, Fritz says.
But the bulk of financial aid comes from the state and federal government. The largest and most widely used program ia the Guaranteed Student Ioan Program. It is a federally funded, deferred interest program that allows a gtudent to borrow money at a 7 percent interest rate
ndergraduates can borrow up to \(\$ 7,500\) and graduates can borrow up to during their college careers.
At \(S U\), about \(\$ 8\) million is distributed Continued on pege six

\section*{Official cites apathy as cause for his resicuation from SAS}

Bank error

\section*{to whose}

\section*{advantage?}

By Steve Pasto
Bank officials are 日till: wör. king to clear up a "freaks? king to clear up a rreatis aupication of some recently assigned savings Bccoant numbers at Marime Midiand's Eniversity branch Adams Street. Office ion Jim Lamana, pablic relations ofincer for the bank, said the duplications were detected rightaway, and abont 20 accounts were involved: if Sue Goodfellow; branch manager of the universityioffice, gaid that when affected depositors come in they are usually intercepted at the teller window and assigned a new account number.
"I don't know if this was a computer error or what," Lamana said. "The university branch is a high volumeioffice. The important thing is. that nobody lost anything."
Citing security risks and the right to privacy of any, personnel who were directly insomnel who were directiy inwere reluctant to go into detail on the reasons for the duplications.

Apparently, the blitz of new accounts at the beginning of the school year caused some account numbers to be assigned to two people.

Goodfellow said the university branch office has two iden sity branch office has two iden212, which preface its cus212, Which preface its cusAfter the 211 numbers were used up, the branch started using 212 numbers Butwhen the 212 numbers ran out, the 215 numbers that had not passed out of use were used again.
- Lamana said the 21 numbers that were still in use had not all been filtered out of the syatem before they were used again.

\title{
The Delly Orange \\ October 10. 1978 \\ \\ ERA extension: fanning the flames
} \\ \\ ERA extension: fanning the flames
}

Since the 1800 , it has been moldering, sparling. nickering tinguigh is and smother it, the fire hat never been stamped out.
The ribject of the controversy that has ritged for over a century is now em bodied in- 23 worda:
"Equality of rights ander the law ahall not be denied or abridged by the United Staten or any atate on account of sex."
Last Friday, the flame endured yet another attempt to douse it. Facing its most crucial fight yet, the ERA was five monthucial away from the likelihood of monthe away from the Likelihood of death. it was given a meven-yes deadinie for ratification by 38 states. At frrt, the amendment was greeted At irst, the amendment was greeted
with enthusiagtic support, and 35 tates ratified it soon after its passage by congress: but in later years, successes were slowed by violent op pocition such as the Stop ERA movement headed by Phyllis Schlafly Is looked as if ERA was doomed until Friday, when Congress, in an unprecedented action, extended. the ratification deadine by 39 months,
from March 22,1979 , until June 30, from

Though the extension was met with jubilation from ERA proponente, this is no victory. The battle is only prolonged, not won. While backers of the amendment predict new momentum to the equal rights movement, the iniflamed opposition will counter with fortined registance. And their weapon is a powerfill one: illogical fear.
ERA opponenta have convinced many Americans that this amendment

Will drastically damage the American lifestyle. They claim that a rash of abortions and co-ed bathrooms will sweep the country; the American farnily will self-destruct as mothers go marching off to war if the amendment becomes law.
The arguments of the Stop ERA organization are as far removed from reality as the Congressional opponenta whosay women have already achieved equality in America.

One only needs to look at pension
and pay-scaledifferencea between men and women to see.that this is not true. Statistics show that drastic pay differences for the same work done and the eame background are rampant in Amnerica in 1976, the average white male made \(\$ 14,071\) a year. The average yearly income for a white wornan was \(\$ 8,285\). For minorities, the difference was equally staggering: 510,296 average amnual income for a minority male, compared to \(\$ 7,025\) for a minority female.

Crirently, women who have been married for mevernil yearn, get divorced and apply for credett in their own name face enormous obwtaclea. Becanter they anve not had a crood Eredit ratina before, or any credit rating for tha matter, they find it dificicult to get credit. Yet, many of these same womex were the one who balanced the checkbook, Fegrulated household es penaes and stretched the oreadwinner's check every week.
Also, woricing women with worlcings husbands find it hard to got such things as credit cards in their owim name. Many banles much mofier that nome. Many ban recurest the medit card ms Mre Jobn Doe ingtend of as Me Erelan Doe But this blatent as Ms, Meien Doe But thin the problie eye not escaped the publice eye.
in a recent Galiop poll, over 75 percent of the American people said they favored ERA. And as our representatives in Congress have ohown us, their sentimente are not be
gRA in a not have equality and the ERA is not radical. It will only ingure that whenever sex cascrimination oc curs, the person afficted will have the power of a constitutional amendment behind them. The ERA. will open up the eyen of the country even more. The courts, businesses, organizations and every American individual will be forced to look atour prectices andjudge whether or not they are discriminatory The magnitude of a constitutional amendment can fan the flames of the fire, illuminating a true vision of equality

Mareha Eppolito and Sy Montgoumery
tor The Deily Orange

Syracuse; if you believe that it can better relations; if you believe that something meaningful can be gained, then please participate. This appeal is directed mainly at new students, but the program is not limited to these students. If you'd like to know more, please contact Student Aseociation at 423-2650, Monday through Friday with any queations that you might have.

Bob Farr
Bob Farr is SA vice president for university and commumity relations.

\section*{Towards a time of action}

To the editor:
In "No ado about nothing" (Oct. 4 DO). Editor Thomas Coffey expressed the idea that "there really aren't any issues anymore-at least not the pressing onee of the late \(60 \mathrm{~s}-\mathrm{and}\) there wont be untik we care about something." True, absent are the protest marches and allies of the '60s and early '70a. But does this necessarily mean that we care about nothing?
Those protests may have shown great unity of purpose and concern, and generated much verbal oppostition to certain situations. But What actual problem-solving did it accomplish?
Perhape etudents today would
rather invert their time and effort in atudying the world's problems, and increasing their knowledge of what makes thing go wrong, in orcier to take an activegtance toward molving these difficulties.
The lack of anity in facing ineues may be meen as apathy. But it appears that we are moving out of an era of verbal protest and into a time of action-of atepping into the problems and working them out. This approach may not be of as high a profile as the proteat marches of the ' 60 s. But ifit is being carried outs, the reaults will be much more concrete.

}

\section*{The Daily Orange 75th Anniversary Issue.}

\section*{Culture fills Chinese}

By Robyn Soars
Authentic costumes, brilliant colors, conging and dancing were part of China Day festivities at the Syfiacuse Area Landmark Theater Saturday night.
The Chinese Student Association concluded China Day activities with a presencollection, a fashion show and collection, a faghion show and a Chi
The fashion ahow, presented by the Chinese design group of the Fashion Institute of in three parts: "Fragrance of the Ancient," "Funky Disco" and "This is China."
The slightly conservative dresses in "Fragrance of the Ancient" were brought alive by the bright colors. As the dresaes became more decorative and elegant, the appreciation of the audience increased.
"Funky Disco" took the typical American disco look and gave it a new twist by adding a Chinese touch. This disco look featured straight
leged pants and A-line skirte
slit at the rides. A Chinese flair was added with silk jackets called pakes. The jackets, in various lengths, came in all kinda of vibrant colore.
"The clothing modeled in "This is China" was softer and more femininelooking. Many of the dresses featured in this section were slit at the sides atraight-line and high at the neck.
The Youth Good-Will Mission of the Repuiblic of China presented the variety show. The group is compoaed of 14 college graduates from professional entertainers.
The program was designed to promote "t mutaml understanding between the Chinese and Ampericang," said You-frain Chien, master of ceremonies and director of the miasion.
A "welcome" dance by two "lohans' (disciples of Buddha), started the program. The lohans, with huge heads and averexaggerated Chinese features, were men in Chinese myth who were supposedly transformed through
festivities
A lovely Chinese girl dressed in an ornate black and white costume performed an exciting sword dance. Silver swords flashed and twirled in the air as the audience quietly watched the dangerous per-
formance.
The girl, dressed in an ancient Chinese costume complete with a headdreas and a fan of peacock feathers, performed a graceful diance and sang tender love songs.
"Heavenly lsland," a traditional Chineae dance. featured long atrips of silk that created spectacular patterns when whipped through the aix. The cloud-like patterns of the cloth gave the impression of fairies dancing around the lovely Chinese maidens.
The show concluded with American Folksonge popular in the Republic of China. "We wish to ging American iolksongs," Eaid Chein, "hop ing in this way to exprees a hundred years of traditional friendship between the United States of America and the Republic of China. A unity in
friendship is what we seek."

among 0 on sion sudent timated t,000 sindents etudent loen program, Friti sayz.
Another federal loan program is the National Direct Student loan, which is distributed directly by SU. About \(\$ 3\) million a year is dietributed through this program. Last year, about 2,540 students received the loams. Students can borrow up to \(\$ 3,500\) for their first two yeara of college and another \(\$ 3,500\) in their last two years. Graduates can bor row up to \(\$ 10,000\).
Another widely-used federally-funded program is the College Work Study Program. About 2,384 SU students hold jobs botio on and off campus through the workstudy prokram. Wages range from \(\$ 2.30\) an hour to \(\$ 3.38\) an hour. The federal government paya 60 percent of the ployer pays the remaining 40 percent.
Besides loans and jobs, there are various non-repayable granta funded by the state and: federal government available to atudents.
The largest is the Basic Educational Opportunity Grant, which about 2 million Btudents across the country receive. About 1,488, SU receive. About 1,488, BFQU grants last year.
BEOG is generally available to students who come from families with a yeariy income of less than \(\$ 12,000\). The grants range from about \(\$ 200\) finh neisl need.
A newer grant program is the Supplemental EducationalOpportunity Grant, avaiIable to students with "exceptional" financial needs, and admimintered by \(S U\) ine maximum a student can receive Last year, about 1,040 atudents received SEOG grants.
On the state level, about 4,230 New York State residents attending SU lant year received aid under the state's received aidion Assistance Program. TAP is available to students from families with amnual in. from familues with annuat in comes of under \(\$ 20,000\) and ranges from \(\$ 100\) to '\$1,000, yepending on

Financial aid is not based on income," Fritz maym. "It is based on need." The Firusncial Aid Form, which is sant to the College Scholarahip Service in Princeton N. J. inclucies about 80 differtht areas of con sideration. They include the Parent'e sand mandentr incomeri the family"s gesetw; "uidd whether the paranta are separated or divorced.

11 After the March 1 deaciline, all the applications axe then fed into a computer; which categrarizea the stradeunte and ranlie them according to need. Fritz says

Despite thim, only 60 percent af the 10.471 studerst who ap plied last year received aid. Frity claims the main problem is that more money it meeded.

On Tharsday, the serice will take a leoh at the finameial aid bille cturrenty in Corgreet.

\title{
Chancellor discusses goals and leadership
}

Editor's moter Erarly lant weik, Thomare Coffey, Daily Orainte exitor in chitef arid Jowitu Sabmon, DO news editor held a question-andarawer win Meluir A Euith Toingy in the last of there. Toclay, in the last of threse parts, the chamcellar talks about his soals for the university, hiv style of leaderwhip, his increased emphasis on academics, his support for tuition tax credits and his feelings about faculty urtionization.

Q: You are due to retirein about three years. Now that you've got the money for the youve grot the money for the
stadium, what do you want to stakium, what do you want en
do for the next three years? do for the next three
What are your goals?
What are your goals?
A: Well, the general objective I kave is to make sure the university is as well-prepared for the future-the 1980 g and beyond-as it is possible for us to malse it. That meanas that all academic programe be healthy, strong and properly supported with adequate howning. That means we atill have aome work to do, and that we make sure other support aybitems are ap-to-date and functioning properly.

Q: Which mearss A. The financial system, the stucient records system, the total area of the Physical total area of the Phyrgical Puant that we have a wellfunctioning placement center
and obviously that we-have a and obviously that we have a
student center, and that we have, a strong personnel program 80 that people are happy to have their work life devoted to the univer-sity-those kinds of things which rmake for a strong organization. It has to be strong in all respects and there are still some areas that need attention.

Style of leaderghip
Q. How woicld you desiribe your style of leadership?

A: Well, the major emphasis is on encouraging the individual academic unite within the univer-gity-colleses and departmenta within colleges-to develop through their own imitiatives. I believe the faculty within individual units are better prepared than adminiatrators to aee where they are, where they can go and what their major needs are So i believe that a primary responsibility is to facilitate, to encourage the initiatives of individual units, not to direct then, not to gubetitute my indgment for theirs in the directions they ought to go.
In the recent past I've pressed further than \(I\) should have this concept of decentralization, and I am now trying to End ways in can keep in closer peraonai touch with the faculty, becoming more clearly acuity, becoming morecieanly
aware of their intereats, aware of their intere

Gmplansis on academics
Q: You have said on several recent occasions that you want to start emphasizing acadernics, How do you go cbout doing this?
A.: I want to say that we're not going to atart emphagizing it; weye going to increase the emphasis on it. We've been em. phasixing it for some time, but some matters in the anivergity have received more attention than the academic side recentys.

I'11 mention a couple of things that are early indications of pur effort. Within the campus itself there will be additional recogrition on the occarion of publication of books or tise opening of art shows or things like that:

Q: Why are you doing this now?

A: I think that it's for two reasons. We can't do it any sooner, but aside from that the
linds of thinges that have received attention in cave prees elsewher beside Prees eisewhere benae: comcerns have been on figcal concerns in higher education, and it't in higher education, and it: relatively eagy to bring atten:
tion to a campus whan it gets a tion to a compus whenit gets a
new stadimm or when it's new stadium or when it's constructing a new building.
Mose are visible and concrete Those are visible and concrete concerne, but it takes a greater effort to continue to focus Attention on the encademicaide. So now that we have gone beyond aome of the most urgent concernis about the ad. ministration of the univeraity we hope to move on to another level of concern.

Tuition tax credita
Q: Why are you supporting tuition tax credits as opposed 2o President Carter's propogal to increate loans and grants to studerts?

A: I'm not really opposing the increate in regular forms of financial aid. Those forma of financial aid do not extend to an important income croup - middie-income familes whose sons and daughtera attend private inatitations. 1 thing even a modest tuition tax credit would remove some of the burden of their attending an institution like Syracuse University.
Q. Hoan't one of the objections to tuition tax credits been that uriversities will raise their tuition?
A: We have to raise thear anyway; it'll be a question of who can afford them. Even if we did raise our tuition in reswe did raise our tuition in res that would gimply enable us to do a better job of education.

Faculty unionization
Q: What do you think of the proposea
facklty
unionization?
A: In general, I think it would be unfortunate to have

\section*{Chancellor Melvin A. Eggers}
unionization of the faculty. Q: Why?
A: It changes the whole relationship between faculty and the admainistration, and I think it changes it in an undesirable way. I'm not disposed to go into this at great detail at this time, but I don't mind indicating my basic position on it

Q: In a unionization case

Yeshiva University argued that professore were part of management. Do you regard SU professors as part of management?
A: Yes, I think the Yeahiva case would apply also to the Syracube University situation. Q. Would the ctriversity fight unionization in court? A: I don't want to may anythng about that at this time.

\section*{Voters drive is successful for NYPIRG}

By Myra R. Aroneon
Results of a recent voter registration drive by the New York Public Interest, Research Group ahowed a significant increase over last year.

In the Syracuse area, 538 people registered to vote and another 330 applied for absentee ballots. Last year, NYPIRG registered 207 people while 225 applied for absentee ballote.

Matt Nelson, organizer of the drive, said its success was probably due to the fact that it is a gubernatorial election year- In addition NYPIRG was, better stafied and made the registration tables more accessable to the atudents. Nelson said.
The applications will besent to county afticee by Friday, and applicants should begin receiving their absente
ballots nometime next week.

\section*{ESF will end admission of frosh, sophs by 1980 \\ By Russell 8. Lockwood \\ York to fill a past, he ex-}

This, year marks the last time a freshman class is to be admitted to the New York State College of En. Vironmental Science and Forestry, part of its transition to upper-division status.
The freshman and sophomore phase-out, which recerved the go-ahead in April 1976. Will be offaet by an increase in the number of junior transiers accepted, said Rod coctiran, assista

The transition will be complete by 1980 , when no freshmen or sophomores will be in the school.

Cochran said the phase-out was first discusged 15 years ago, when State University of New York officials criticized the ESE-Syracuge University arrangement. ESF pays SU \(\$ 112\) for each credit hour taken by ESF atudents and also pays SU for non-inatructional ger-
vices, such as gy
mitory privileges.
Because SUNY officials did not like the ESFSU arrangement, the college had been receiving yearly budget cuts proportionally higher than other SUNY schools. Since the fall of 1976 , ESF has been submitting a "atructurally different budget," Cochran said.
ESF's proposed fiecal 1978 79 budget of \(\$ 9.8\) million contained a 2.6 percent increase over the 1977-78 budget. Cochran said ESF actually received closer to \(\$ 10\) million because of union-negotiated salary increases.

Included in the budget were six new faculty positions, but because of a ptate-wide hiring freeze, they have not been filled, Cochran said. During a freeze, special authorization is needed from the Bureau of the Budget of the State of New

\section*{International Wives helps take fear out of newcomers' hearts}

\section*{By Naunhad Mehta} Leaving one's home country to replant roots in an alien culture is an unnerving experience. The sudden change in the way of life often leaves the newcomer feeling lost and frightened. International Wives is an organization that has realized this problem and helps women in auch situations adjust less painfully to the American lifestyle.
International Wives was founded in 1960 by a group of women who were concerned for wives of Syracuse University students from foreign countries. The group promotes friendship and understanding among women of all races, deologies According to Bar deol Sulliven publicity chief the organization also serves as he organizationalso servesas formation center for foreign formation center for foreign visitors. Although the organization's name suggests
that it is only for married women, single American and non-American women are equally welcome.
International Wives has a membership of more than 200 people and is run by two cochairwomen and a 10 -member board of directors that helps plan the programs and raise punds.

Helping a newcomer feel at home may include taking her shopping, orienting her to Syracuse, assisting in buying equipment for her children and dealing with any problem that eang arise for a foreigner The arise for a foreigner. Tha organization has copresenta that a newcomer is aided by someone of her own s aided by someone of her own nation.
The organization meets First Second Tuesday at the First Universalist Church, on Road corner wor Nothingham Road and Waring Road. The rext meeting is scheduled for tomorrow at 9:30 a.m. Women

"We hope to phase them in during the year." Cochran said.
In addition to the operating budget, there is a capital budget of about \(\$ 700,000\) for the repair of structures, Cochran said.
There are 41 scheduled repairs for buildings located both on and off the main campue, Cochran said.

According to Cochran, the significant main campua renovations are for landscape shall Hall spaces in Mar shall Hall, envíronmental and resource management apaces in Bray Hall, and the biology section in Hlick Hall.
Annew clasgroom ia also be ing built in Heiberg Forest at Tully, and a ranger achool at Wanakena in the Adirondacks is being renovated, Cochran said.
may bring their children; babysitters are provided at each meeting.

International Wives also orcanizes a wide range of activities planned to enlarge and enrich the understanding of various cultures as well as ways of life in America. These include slide shows, panel dis-cursions,- lectures, by guest opeakers and other topics of nterest. It is a sharing experience. Sometimes, women from a similar country may arrange a presentation for the rest. Cooking classes, English classes and sewing sessions are also part of the organization's activities.
Neighborhood groups have been organized to generate more personal involvernent. Small groups of women who ive in the same area get ogether in one another's homes. Small neighborhood groups exist in Liverpool, DeWitt, Fayetteville, East Syracuse, on the SU campus and in other areas around

Members also receive a monhly newsletter which includes the minutes of the last meeting and the programs planned for the future.
In an effort to reach more women who may need its help, the organization places ads in the daily papers, and contacts the International Student Of fice of SU and the Upstate Medical Center.

Holden Observatory will have its dome replaced in the spritg.

\section*{Observatory's dome to be replaced sooni}

By Chuck Obuchowski Everyone knows the Hall of Languages is getting a face lift, but few people are aware that its long-time neighbor is also undergoing repairs.
Holden Observatory, which was built in 1887 and is the second-oldest building on cam pus will haveits dome replaced in the spring, Kenneth W. Mitchell, director of facilities planning, said.

In the meantime, a faculty hatch cover, which gives the observatory's telescope access to the aky, will be repaired this fall, said Harvey H. Kaiser, vice president for facilities adminjistration.
Kaiser said tentative es timates indicate repairs will cost about \(\$ 5,000\). The money will come out of a maintenance repair fund, he said.

Meanwhile, Gunter K wessle, physics and astronomy professor, is keeping the stargazing facility closed. The observatory had been open on Monday nights.
Wessel said, he was disappointed about the closing but said the telescope was not mandatory for field-work for his 700 astronomy students. "The building can only hold 15 or 20 people at a time," he said.
The only other observatory in the area is in Vesper, 30 miles from campus, where the Syracuse Astronomical Society ia located, Wessel said. Holden Observatory. between Maxwell and Heroy halls, also houses the Univerhaity Information Center. The center is operating on its center is operaking on its repairs to the observatory.

"Bill Hurley doesn't have a melfinh bone in his body." SU head coach Frank Maloney said yesterday in praise of his prize quarterback's gutay, lu3-yard ruahing performance againat Weat Virginia Saturday.
If Hurley's bones were as healthy as they are unselfish, Syracuse football wouldn't be in such a precarious position as it will be againstan imposing University of Maryland squad this
Homecoming Weekend. Hornecoming Weekend.

Although the senior quarterback's three cracked ribs were mended when he returned to the team in Saturday's 31-15 victory, they sustained considerable punishment and may yet sideline. Hurley for the remainder of the 1978 season.

The accolades Hurley has received for his play Saturday, including recognition as the ECAC's co-offensive player of the week, are mixed with intense, excruciating pain.
"Right now he is pretty sore and is experiencing extreme discomfort from his original injury (of Sept. 9 against Florida State)," team physician Bruce E. Baker said yesterday. can't say yet. It will have to he a day-to-day thing.'

If Hurley does not play against Maryland, red-ahirting him until next year is no longer an option avainable to Syracuse. Instead, SU could apply to the NCAA, after the season has

Under the hardship rule, Hurley could play
next fall if \(\mathcal{S U}\) could prove to the NCAA that his injury prevented him from playing this year. To qualify for hardship status, a player can appear in only two ga
of the season.
Hurl made the deciaion last week to play Hurley for the rest of theseason,' Maloney said. way in the wim to play thia Saturday in the worst way in the world, but we can't put our coaching interests ahead of Bill's personal intereat. It's strictly a medical decision, which will be made primarily by Dr. Baker.'
Praising his quarterback's team-oriented nature, Maioney pointed out that Hurley was still in pain going into Saturday's game, but that he played "because he, knew we were in trouble and wanted to help.'
During the garne, Hurley had such difficulty breathing at times that his offensive teammates could barely hear him calling plays in the huddle. Several times in the first half, Maloney said, Hurley motioned to him that he couldn't carry the ball, prompting the coach to call more hand-off plays in the second half.
According to Baker, Hurley received "substantial hits"' 28 times in the game, plus a ting defenders.
If he does play Saturday, Hurley's ribs will likely be bull's-eye targets for Terrapin helmetsBut whether he plays and gets hurt or doesn't play and declares hardship, the consequences team for the remainder of 1978 .

Photo by Glon Eltman
Like the Dow Jones, stock in Bill Hurley (5) has been rising and falling all seapon. After taking a plunge when SU's star quarterback sustained three broken ribs against Florida State, the Huriey average shot up Saturday in the Orangernen's 31-15 Win ovar West Virginia. However, team physician Dr. Bruce E. Baker (teft)
saya Huriey may not play this week against Maryiand or even the rest of the year

\section*{By Drew Schwartz}

Although SU's cross country team suffered its fourth straight lose last Saturday at Manhattan College, Coach Andy Jugan isn't ready to run away from his team. However, he wound like to devise a maturing process fo "Irunners because the future isn't now.
Things might get worse before they get bunner, Rich Wojtowicz (26:16), finished eleventh in a field of runners from Manhattan, University of Connecticut and SU, Sophomore standout Charlie Bevier finished
14th (26:35) despite a fever and headache. Chris Sommo (26:21), Jerry Josaelyn (26:44) and Don Bossardet (26:45) completed the list of SU's top five runners in the meet.
Josselyn, a jupior, is the only one among the Joaselyn, a jupior, is the only one among the
group who doesn't have three remaining years of eligibility.
"We'rein a difficultsituation,"Jugran said. "We're a year or two away from beating these
teams by the same kinds of scores we're losing to them now. But we're expected to win and we're going to try and win now rather and were going to try and win,
Jugan wasn't happy with the team's per formance, although he wasn't shocked by the results. "We knew all along we couldn't run with teams like Manhattan. We probably ran over our heads againgt Army and Cornell and we had to level off somewhere," Jugan explained.
The decline, Jugan said, í comparable to a football running back who runs for 200 yards in three consecutive games and then has a 100-yard game.
"The fans may be disappointed, but for the people we have, we ran well last Saturday Our times have been similar to those our 11-4 team ran two years ago in the ICAA's and they haven't even peaked this season yet," Jugan said.
Despite the team's difficulties, Juganis op
timistic about the current season. "Timewise, it's the best SUrrent seas run at Van Cortland, but a couple of guys had bad races and that's why the score looked bad," he
said. "We've run much better than the scores said. "We've run much better than the scores reflect, but it's dangerous to find too many SU' things in a loss.
Sus runners were disappointed by their Jugan buid not by the outcome of the race; Jugan said. "They're objective as they conld possibly be about their performances. They ran hard, and ran good times, but they know they can still go faster. The honesty about the evaluation of their performances only "ugests good things," he added.
The good things probably won't come this Saturday becauge SU faces Navy and the Maryersity of Maryland in a tri-meet at Maryland. "Maryland is probably better than Connecticut, and Navy is definitely better than anyone we've faced all year:" Jugan said.

Syracuse soccer player Greg Cunningham (15) and his teammates didn't fare as well against Boston Univarsity Saturday as thoy did here against Niagara in the Orangemen's triumphant home opener. SU is in action next tonight at Coyne Field when they host Buffalo at 7:30.

\section*{Ticket exchange}

All students with athletic activity cards can pick up their tickets to Saturday's Maryland-SU game today. Wedmesday and Thursday at Archbold Gym or Manley Field House from 9:30 a.m. to 4:30 p.m. No tickets can be exchanged on Friday.

\section*{Syracuse booted in Boston}

\section*{By Doug Leasells}

BOSTON - Riding the crest of a three-game winning streak, the SU soccer team wiped out last Saturday losing 4-1 at Boston University.
BU, ranked 12th in the nation earlier this season after a win over Eastern power Brown, caught the Orange flatfooted for two quick goals less than 11 minutes into the game.
"In the first 20 minutes, we were spectators more than players," said SU astators more than players," said SW asheard so much about how good they heard so much about how good they
were, we were watching them to see were, we were watch
what they would do."
What BU (6-2-1) did was take ad vantage of SU's loose coverage to grab a \(1-0\) lead with just two minutes gane, when Mike Pilger found room between two Syracuse defenders for a one-onone situation with Syracusegoalkeeper Eugene Leonardo.
The Orange, now 4-3-1 and 12th in the state in last week's ratings, were still settling into the game nine minutes later when BU struck again. This time right wing Glen Davis got free in the corner for a cross to unguarded Tim Lausin, who took the ball on the run and scored.
Adding insult to injury was the fact that Davis, a.freshman from Chatam N. J., was heavily recruited by SU and seemed Syracuse-bound until a last minute trip to Boston changed his mind.
"One of our problems this year has been a low cancentration level at the beginning of games," asid SU midfielder Ted Hollenbeck. "We've been behind in all but one game. It's asifour team isn't ready to mark anyone that team isn theady to
"The fir 20 minuten is cruciatin any match." ghattuck agreed. "That timp: seta the tone for the reat of the crame.
marking tightly, winning loose balls and fouling freely. All told, the Terriers racked up 32 penalties, including two yellow cards (warnings) and one ejection (Davis, who was thrown out of the same late in the first half along with SU's Faisal Ahmed for fighting.)
With both teams playing a man short. Pilger scored his second goal short, Pilger seored his second goad with less than two minutes from Greg half, on a
The Orange defense finally stiffened after intermission. With Mike Westcott after intermission. With goal, replacing Leonardo, Syracuse in goal, replacing Leonardo, Syracuse controlled much of the play but had to settle for an exchange of goal
John Stather put the hosts ahead, 40,15 minutes into the half, with a 10 yard drive-off Pilger's cross, before Gary Anderson prevented a shutout, drilling home a Syracuse free kick midway through the half.
"We had heard that Syracuse is strong down the middle," axid BU wings and SU's wing fullbacks couldn't handle it. Defensively, we marked two of their key men (midfielders Gary Anderson and Othman AbuBakar) out of the game.'
"They were marking very tightly," agreed Anderson, a freshman who doubles as the back-ap place-kicker' on the SU football team. "Othman and I couldn't turn and check beciause they were right on us the whole game. And our defense wasn't able to contain them. They took advantage of ne on the wings where they often had yards of rooms."
Syracuse takes on the Univeriaty of Buffalo toright at 7:30 at Coype Fiald and then hoetn Armyin a key gemapy day nisht at 7:30.

\section*{SU extends lobbying as government grows \\ the New York atate Legislature and to}

When the legislators in Albany recently aigned away \(\$ 15\) million for Syracuae University a new stadium, at least one " lawnaker commented; "What's Eggers doing back here at the trougra
Chancellor Melvin A. Eggers and Molly Broad, special assistant to the chancellor for goveramental relations, encounter thia "what-are you-doing-back-again?" attitude because of their extenaive lobbying activities.
The university's lobbying is ircreasing as quickly as government is expanding. Currently, 35 to 40 percent of SU's financing stems from state and federal government money.
Administrators not only have to lobby for funds, they must also help to defeat public policy that might adversely affect private colleges.
In his corrfortable administration building office Egigere andi," Where we are mont aygreamive depencianoubthe. gue Wha have to makeaupe pinblic policy is supportive of out jinterratis.
This concern takes Eggeris from this quiet office to rikyorous hoor debate at

Wectic committee meetings in Washington, D.C.
Eggers tertified before the House Ways and Means Committee in Feb ruary and the Senate Finance Committee in January in fa vor of the tuition tax credit bill.
A Semate, and House Conference Committee voted Sept 28 to give a 35 percent tuition tix credit to parents of college students.
But the SU adminiatration is lob bying harder for programs such as the New York State Tuition Absistance Program, a state grant program, and the Bundy program because they have greater impact on SU, Eggers said.
Ergers aggresaively gupported the \(\$ 300\) TAP increase which began with this year's freshman class.

The chancellor is also known as one of the strongest advocates of the Bundy progeamer The program, implemented progeamer, ine program, implemented independent inititations on the baris of how many' degriees they bestow. Syracuse receives \(\$ 940\) for Continued on:pese wixamen

\section*{Infectious hepatitis case reported in Sadler Hall}

By Andrea Abrahame
Some Sadier Hall residents have been receiving injections thile week as protection against a reported case of infectious hepatitis in Sadler.
A. Sadler resident wras treated recentiy for the disease by the Syrracuse University Health Center- Health Center officials refused to comment on when the case occurred. No additional cases have been reported, Susan Feit, administrative assistant for the center, said
There is no danger to the public health at this point," she said.
Feit said the student is in very good condition and is recuperating at home.

Hepatitis is an inflampoation of the liver, usually caused by a viral infection or from toxic agents such as induntrial chemicals.

All people who may have come in close personal contact with the student
have been advised by dorm officials to receive the shots.

Feit said the disease can be contracted by using contaminated bathroom facilitien or utensile or by hieuing an infected person.
She said that the bathroom facilities on the atudent's floor "bave been
sanitized," and that all dining hall utensils are routinely aanitized, so no specific precautions were taken.
Feit said she does not know precisely how the student contracted hepatitis.

Sadler director David Waldiman said he has no additional information regarding the case.-I put my full trust in the actions the Health Center has taken," he said.

Cindy Casgiano. production supervisor at Sadler Dining Hall, anid to her knowledge "nobody has contacted us whateover regrurding the case."

If I "If I were the the Mayor"
putting out more trashcans. I would sold stop crime pollution by money to old and elderly. I would open pools earier and close later. I would give money to schools. I would fix the roads. lower taxes I would make more parks with pools and toys. I would prevent people from getting hurt.
by Amy spitzer

The other day，my mother received a lettex from the Syracuac Univer－ sity Bursar＇s Office notifving her that I was beink billed an additional
\(\$ 248\) as a＂tuition adjustment＂for gdditional academiccredits for which I was signed up．
The notice emphasized that if the \(\$ 248\) waen＇t paid within 10 days，I vould be billed an additional＂late fee＂for my tardiness．
The university was making it elear，in no mincertain terms，that it anted its money promptly．Which is a eound business principle．
But when \(I\) tried tocollect somemoney the univergisyowedme，the rules were apparently different and legs clearly defined．SU seems to be follow－ Were apparently different and less clear y del
ing a policy of don＇t bill us－we＇ll bill yous．＂
Ihad switched from the crapus to the on－the－go meal plan during regis－ fration and was entitled to a \(\$ 139\) refund．I was told that，after a few weeks tochear up neceasaxy
be mailed my \(\$ 139\) ．

Earlier thys week，when I telephoned Food Service to ask about the whereabouts of my，check，I was informed that meal card refunds are not automatically mailed out，as was the case a few yeare ago．Today，unleas a student drope by the Food Service office tospecificallyrequestarefund， a student drope by the Food Service offce tospecincanyrequestarefund， next semester＇s board．

The money accumalates no interest the univerenty can collect，nor is there any sinister motive behind the Bursar＇s Office holding onto the money．
What
What does exist is ain inconsiderate lack of communication and a system of misinformation that makes it difficult forstudenta to collect the money the university owes them．
Money the university owes them－Michaels，a Food Serve sectetary for board，acknowledges the problem．：The，problem is that work－atudy students work at regis－ tration sand they，don．t know any better when they tell a student he will automatically get his refund．，Michaels asid．＂Therefore，we have tudents waiting for money that＇s not going to come．＂
The solution seems obvious－and simple．Food Service should malke atire that its registration workers know what theyre talking about．
Waiting for a refund that never comes may aeem like an insignificant problem．But \(\$ 139\) is no inaignificant sum to many atudents．The next time the university says it will send you Eome money it owes you，you can threaten to bill it a＂late fee＂if the check doesn＇t arrive on bchedule．

She alovely reached acroes the wash－ ing machine with her thort armeras her dirty portion of the machine．Shae ad．
justed her glasses as she acrubbed justid ther ginases ath she werubbed dean as whe could The machine tiny woman， barely \(t\) fent tall，stood a few inches

\section*{Joe Grande}
above the washing machine rinsing out her soapy washrag．
It was the beginning of another work Heck，another day of cleaning and
mopping for the 52 year old woman．
The long day beging at 8 a．m．While many studenta are asleep，she atteads to her first duty，the daily laundry room cleaning．The laundry room，which poses problems on occasion，was no
trouble for the housekeeper today． trouble for the housekeeper today．
＂Monday it＇s usually pretty measy，but today it ien＂t bad since everyone went home this weekend，＂she said．
After removing her glasses，she grabbed a broom to aweep the dryer lint that had covered the laundry roora floor．Surprisingly，just moments later， she had completed her laundry room duties．Which included sweeping the noor and scrubbing the washing machine．
Her small hands grabbed hold of a little carriage that carried her easential cleaning iterns for the day．With a slight limp．she slowiy roade her way to the elevator that would take her to
the fecond noor，one of the two floors for which she is responaible each day．
－Upon her arrival，she viewed what she had expected．＂lit＇s messy as
usual．＂the said．＂Thia lossere is always mesay because of the TV set be－ ing here，＂she remarked．In her usual slow manner，nhe walked around and
tidied up the area．＇I get oo tired somedimes from all this walking tired sometimes from all this walking，she I＇ve done all the walling I want to．But 1 ve done all the walkng I
1 jave ta keep soine：
She attributea herimizating problems partly to her age and to a birth defect called cleft feet Ihadepretty dull life because of that，＂she said．＂Back then there wasntenoughroomin oneschool
to handle all those that were han－ dicapped．There was a separate school of uspand in the end we were separated from and in the end we were geparated from everyone else，＂she added．She
attended school up to eighth grade but attended school up to eight．

The SU houselceeper had a dream

when ahe was young－＂This job isn＇t the best in the world． 1 really wanted to be a nurse，＂she admitted．＂But they always said，＇You couldn＇t be a nuree with feet like that．＇I was never encouraged to do anything，＂she said regretfully．

When applying for a job，she noticed on several occrasons that certain em． ployers had a type of＇handicapped prejudice．＂＂People didn＇t want you around if you had a disability then，＂ she raid．
Despite her beveral job rejections，bhe managed to find a job as a family housekeeper and as an elevator atten－ dant at a local hoopital before coming to SU as a housekeeper 12 years ago． She confessed that the students of her dorm－＂my kids＂play a big role
in her life．＂The kids who live on the in her life．The kids who live on the foors I work on are a good growp，＂ehe and．Some of them have to grow up a nitie，but for the moat part
and inno they Hice me．＂

For this tiny，mweet SU housokeeper， the luxuries aren＇t easential to her life Hight now，and without them nhe is more thap satisfied being a＂happy old Woman．
She agid．＊I look back at that hoapital
where I used to work and all the pegple where I used to work and all the people that were worge off than me，and how grateful 1 am for what I have．＂

The bar was dark and dingy．Wilson Buter and Marchal welked in and slowly made their way toward the berr． Eyea turned toward the three men in blue jeant with－T－thirts variously proclaiming Adidan，＂＂89，＂and ＂Diaco Sucks．＂Several strudents sat clustered around the bar．smonoling marijuana and ntuffing green
chernicala in their aman．One of them，

\section*{Kevin Knabe}
lanky young man with a bone through hie nowe，turned toward the girl neat to him and inaid，＂Look at these old trubs．＂ The topless girl＇s bremata jiggled as she aughed．
As they edged their way toward the bar，the three men cocile hear a conversation poing on betwrean a nude
man and e pirl writh blue hair．The nude man and e girl with bluc hair．The nude giblo to divime a bruah breath of paint？＂ Ho trutifd a smanl rod caperio up hia noee，them continined，＂Mpybe only if you didn＇t pat anything in the vape．＂ but ham hath bloe hair replied．＇Yes， need tor＂

"Werch for spocial Oktober happenings on campus all this woelf: - -

SA adopts resolutions at meeting

By Carolyn Reyrari After a 45 -minuto debate, the Student Association Assembly approved a platform liating SA'a objectivea for the yoar at Monday's xneeting.
The platform's objectives included making all Syracuse University meal -plans available to every student, longer library hours and the publication of a course evaluation catalog.
In addition, the platform suggests that SU Liberalize its suggests that SU inderalize its
housing policies and release a housing poircies and-release a more student input in the budget procesas. It also suggests that co-ops and small residence units should not be closed without a thorough study: and that all students who want to should be able to vote in Onondaga County elections.

The assembly also approved a resolution by Assembly member Frank Slazer to :include a student union building as a goal of the platform.
In other assembly business, SA representative Tom Hoffman questioned Kathy Courtney, SA. vice president for student programs, concerning a letter aubmitted by the association's executive branch to the University Senate Sept. 20.

The letter, one of several evaluationa solicited by the Senate Administrative Operations Committee, contoined SA's opinion of the performance of Cliffordly \(L\) Winters Jr., vice chancellor for administrative operationis.

The letter claimediethat Winters' refusal to meet personally with SA officials to discuss SA-related isaneswaívan extremely frustraiting situation.
-When an administrator turns down student. requests and then refuses to meet face to face with the students he has turned down, it is inevitably the cause of extreme student "tissatisfaction," the lefter seid.
The evaluation also giscussed SA's views of Wiptar's cussed SA s viewa of whaten professionaliam.
eqquestion the practicejon the part of an administratoç of resorting to mame-calling in reference to istudent leaders, It stated.
During the Ostrom sit-in lẳst apring, Winters called SA President Arnie Wolsky, a pipaqueal
"SA is not at all satinfied with Dr. Winters performance in office," the letter concluded. Sorne Aasembly members felt their - views: were misrepreanted Bince the Assembly did not vote on the letteri'a content: However, Courtney pointed out,that the Aseembly had not been elected at the time the letter was submitted.

The assembly also approyed a resolution ursing studentit to regard Bird Library as a place of etudy and to keep converof atudy and to keep conke
sation as quiet as posable.
During his report; SA Comptroller Cari Kliedmanin formed the assembly that SA currently has' \(\$ 15,000\) in Sits emergency contingency fund. He warned that this amoint muist last until June 30 .
However, the assembly pproved a 3 I50 allocation to fhe SU International-Filk Dancers, a \(\$ 129.50\) allocmen to the SU Scuba Club, and. after lengthy debate, a 350 allocmaion to Chinéplyaderts for China Day

\section*{SA's bail money gets students out of jan? \\ By Ampette Licitra \\ cretion in casain Hke these, but \\ Byrib catimated that BA keeps}

SYracuse Univernity studente who find thamielve in jail, but without the money to hail themeelvo out, can umually turn to Sean Byrne, Student Astociatioñ bailbondeman.
Byrno said there haven't been any calla this semester to bail studentar out of jail, even though mont atudent arreata unually occur at the beginning and end of each memegter.
The chargea that land moat SU students in jail are "unually. nothing really gerioun," Byrne axid. The charges include drug possescharges include drug posses driving while intoxicated, he said.

Depending on the seriousness of the crime, there in a limit on the amount of bail the bailbondsman can post. All misdemeanori are covered by the mervice. Byrne said Class C felonies, such as thirddegree arson, and Class \(D\) felonies, such as third-degree burglary, are usually the cutoff point for involvernent by the bailbondeman.

Clase \(B\) felonies are covered by the service only if they are drug-related. The bailbondsman uses his dis-

Byrne maid he would probably bail out a etudent who hat been arreated for pomeretion of drage.
Howrever, he said that he would never post-bail for a student charged with a violent crime such an agault with a deadily wreapon.
The bailbondeman can-be contacted by several nources. Byrne anid. These include the SU administrator on call at the time of arrest, the student's lawyer, SU Safety and Security the Office of Student Affairs or by the student Affair:
himaelf
According to Ulysses J.Connor, director of stadent ac tivities, it is beat to call the bailbondsman directly. If thin is impossible, Connor suggented contacting the Of fice of-Student Affairs: or "whoever can put that person in contact with Sean Byrne." Once the SA bailbondsman in notified, he checks whether the arrested person is an SU student and makes sure the student has not already been freed on bond He then goes to freed on bond. He then goes to bail monoy is kept, to get the amount of bail money needed.
*2,000 to \(\$ 3,000\) on hand to tero as bond.
After the bailbondieman pays the tudent's bail, it is refunded to SA when the etudent is - arraigned. Arraignment generally tale place the morning after the atudent's arreeti At thin time. the bailbondeman and the atudent' lawyor; often provided by Student often Bervicea, appeari in court.
The etudent paym a percentage of bail ant paymice pharge. A court bail that ueually mat. ches the palice bail is then met, ches the police bail in then met, Byrne aid. Since SA does not pay conrt bail, the bailbondeman turns his duty over to a
bailbondsman.
Byrne wan appointed bailbondsmán last apring by SA officials. He is almo serving as chief juetice of the University Judicial Board. Even though he has yet to post bond for any students this fall. Byrne said that about 18 to 21 students were bailed out of jail by SA last samester.
The number of SU etudents arreated each semester is unpredictable, Byrne said.

Photo by Pete Halpoir' Atthouph he has not bailed anyone out from jail thins semiestert Sean Byrne. atudent aspocibtion bailbondamen, eaid 18 to 21 students used the sorvice last eemester.

\section*{French film satirizes civilized men as fools \\ FILLI ONCAMPUS: "Plack and}

White In Coldor" tonight at 7 anda, Fifromit Aadioniom, sabtitied: Film Foramiz: Sabritied:
=-itBy Steven Titch
Mrack and White In Color:" winnér of last year'a Omcar for bemt fozelgn film, is a savage satire of war and colonialization.
Finmed on location in the Ivory Coast, the movie conoerns the activitiea of eight colonists in the Freach West African settlement of Fort Coulais in January 1915. When these loyal Frenchmen recejve news that the motherland is at war, they immediately feel it is their pat. riotic duty to lanach a surprise attack on nearby German setulement.
Like "King of Hearta," the fim auccessfuily shows that the bulk of civilized men are foois. Unlike "King of Hearts," which has. light humor and endearing. characters, the humor in "Black ind White In Color" is hawah and und andikable. are When the French launch their invesion, they enlist the Iocal natives as soldiers. For the Frenchmaen, the battle if Iiterally a pienic. They nitatop a hill eating lunch while the by the heavy German artillery. Finding the Germana are tal: ing the war go beriously as to use machine guns upsets the pettlers to no end, only because the blood and gore has ruined the blood and gore

The only characters who remain unscathed are the natives-probably because in Frunch West Africm.
colonints think. As a group of Africans carry two miasionaries through the brush, they ring among themsel vesin their native language, "Your white man is heavier than mine, but mine has amelly feet", One mine has sionary, comy pletely ignorant of ine language, commenta. "How I love this song." The fim, directed by Jeani Jacques Annaud, is thoughtprovoling yet irfitaking. Rather tinan macing its point by hitting the, audience over
the head with, a sledge

The winner of on Acmdemy Àvard tiant year for the beat foreign intm, "alack and White in Color" demie with wer end colonization
hammer, "Black and White In Color" gets under the viewers skin and bexinu to gnaw away. The performances by the French cast are excellent. Jacquea Spiesser plays Hubert Fresmoy, a geographer who becomes mineographer mitary maitinet over Fort Coulais. He ia the most aympathetic of the white characters, mainly because he know the only educated person in ing the only educated permon in the settlement, he is the only one capable of assuming leadership. Spiesser givea a
portrait of a man who really

\section*{'A Boy and His Dog' explores sci-fi sex, violence, holocaust}

GILM ON CAMPUS: "A Boy and Hia Dog." Sun-
day, October 15,6, 8, and IOp.m., Gifford Auditorium, \$1.io. University Union Cinems Infinity.

\section*{By Steven Titch}
"A Boy and His Dog" is superb science fiction and a fun movie.
\(\because\) The setting is North America in 2024, not long after World War IV (which lasted five days) has leveled everything into a giant, dirt-covered plain.
Roaming the duaty terrain is Vic (Don Johnson), a young man in his early 20 s , keeping himself alive by geeking out stockpiled food and avoiding roverpaka gange of killers and thieves) and screamers (radiation-diseased mieves)

With him is Blood, a grey mutt that Vic employs to smell out women. Our lad, it seems, has an insatiable sexual appetite.
Blood Besides being is nothing oweet about Blood Besides being a vicious fighter (from which he undoubtedly derived his namae), this dog is arrogant and obnoxious. He may be the
firat truly cynical animal to appear on the screen.
Blood's unique characteribtic is that he can talk to Vic telepathically. This talent leads to anime dral.
"Come on, find me a piece of asa!" Vic demands.
"You're funny when you're sexually frustrated." Blood answers.
"Find! I ain't kiddine." says Vic. "Not 'I ain't kidding. 'I'm not kidding," Blood admoniahes.
Despite his testiness, Blood finds Vic a girl. In this esse it is Quilla June (Susamne Benton), a sexy young lady who is able to service Vic well. Too well, perhaps, for Vic becomes infatuated with her. Quilla June succeeds in luring bim "down under," to a aibterranean ert-
tlement that looks like a typical Kanaaif farming town. There are marching-band parades, church meetings, and everyone wears overalls:
The film is based on Harlan Ellison's awardwinning novella of the same name.

Personnel dept to reorganize

Nevoly appointad Personnel Director Joan A. Carpenter believes her ataff is "eonfident arid capabte" of handling ite acted duties.

By Falecta Konrad Besiden increased involvement with the gtata in its search for fondis'Syracuse Uniqersity is turiving ith eyes inward and talinich bipes -look at ita owim employee siturtion.

The Persoinnel Departmient plans a major' reorganization involving improvements in employee benefits, increased personnel support and a strengthening of teaching and research effectiveness.
Chancellor Melvin. A. Egsers made the announcement in a recent address to university faculty.
Eggers recently told a group of community leaders be was bothered that an' unsophisticated personmel department was part of "an ingtitution so.concerned with people."
- Currently, there is no orien. tation program for new employees. This will be a main function of the department now, said Jim Gies, assistant to the chancellor.
The department also needs to concentrate more on educating the employee, *heluing them up the career ladder," Gies said.
Joan A. Carpenter, newly appointed personmel director anid the main function of the department would be to respond to freulty concerns effec pively. She also said employment benefits bhould be ployment benefits showid be revewred to enstire the
adequate at every level.
"We want the employees to be happy," Carpenter said.
Egappy, Carpenter said.
Eggers said the departiniont will also report to the government on the thiversity's progreas in auch social mandated programs as aid for the handicapped and. afIrmative action.
Carpenter eaid her_gtafi has nive people who agidef from their additional ies. ponsibilitien, also deal with personnel administration insurence and benefits, training and development. wages, Balaries and labor relations.

Carpenter will report direcHy to Cliffond \(L_{\text {. Winters }} J_{J_{\text {. }}}\) vice chancellor for adminietrative operations. Previously, the director reported to the vice president for bugineas, who in turn reported to Winters.

\title{
Prewrules alter sorority rush
}

By Juile Suavedre A fuling last apring by the changed Trih pounce ures hat changed rush procedurea hat Syrneuse reactions frim gororities. sorority rush to 10 days and efirininated apring rush in an effort to build up the smaller Bororities
Terry Novak, vice president of Alpha Xi Delta raid "It has got its good points and its bad points. The new syatem in cood in that it's rétiony more people in the fall. It's bad in that some people who don't get intereated in rush until afer it's over havern to wait till the next fall." Tave to wait thil the next council also crested smaller, more informal meetings where ruahes could get information and ask questions about ruah. Open houses were miade mandatory and rushees were encouraged to tell the houses if they could not ettend.
Open bidding, a form of pleding after the formal rush geason is over, was extended through the spring.

However, only the sororities that did not reach "quota" the maximum number of pledges allowed to each house - are permitted to take open bidders.
Sue Vonsothen, president of Pi Beta Phi, said she thinks the changes have helped a great deal. "We're the smallest house on campus," she said. "The Whole new ruah is to help the small housea."
"What's the uge of having big and small houses?" she asked "All the Greeke showld bé equal and united:"
But Maxi Haeflein. preaident of Gammà Phi Beta, said "I'm

more concerned that the Greek life is kept going. The new system --generally. protects Greek life rather than one or two people. But Idon't think it has hel pedthe small sororities. It has taken away the chances of the bigger sororities while ampller bororities had less rushees to choose from."
Although about 320 women regiatered for rush, only 156 showed up for the mandatory ko, Panhellenic president, said this may be because of the as saults on campus.
The high dropout rate reduced the quota to 13 pledges per sorority. The quota is the nurnber of women who go through open house divided by the number of aororities on campua.
The sisters of Kappa Kappa Gamma sent a five-page letter to Tina Foley, Fanhellenic adCouncil, objecting to several aspects of rush.

The letter said individual cir* cumatances - illness, job com-
mitment, and personal problems - were not dealt with properly. One rush counseior brought a rushee to four houses, although the cir? was so ill ghe womited at each one; another rushee whocalled two days in advance to notify the house of a job commitment was told to drop out of rush and open bid. Exarnples like these open bid. Examples like these the structured rush led to a high dropout rate, the letter said.

Kappa also expreseed concern over the growing competitivenesi among the sororities; the length of the mandatory open houses (** 13 hours of parties in three days in too taxing*'); the clogeness of rush to the beginning of school and its interference with classes and jobs; and the limitation of 55 sisters, excluding pledges, to each sorority. pledges, \(\%\) each Despite the criticism, Sarnenko said 80 percent of the pledged.

\section*{Will SU stew the Terps?}

Before Ty Dreadiy Belawartz Hurley was thé focta of tallt then Bil Hurley was the focter of tall that SU image, has bean clouded by three badly bruiled ribs: New, aff ayes looking for an upate must focus on the now-you-see himnow-you-don't image of sophomore quarterbacir Tim Wilson, Hurley's xeplacement at quarterback Saturday.
"I didn't expect to play for the raet of this season after the Weat Virginia ceally ixteresting not only for the to be but for the coaches and the fanm, Everybody \({ }^{\prime}\), wondering how I'm going toda
Temporarily, anyway. Just as Witan faded from the ricture when Hurley returned to act
"I want to play this season more than anything," Hurley said. "When I'm physically able, IIl be back. Well take it on a week-to-week basis. But for now, I feel hel pless."
"The riak of reinjuring his ribs is too great, and he can't even lift his arm properly," Coach Frank Maloney anid of his star quarterback.
Joining Hurley on the sidelines will be center Joe Hodges (pinched nerve) and most likely Tim Trappasso (knee injury), and outside linebacker Bō̈ badly," says Maloney whose five open ing day starters have temporarily turned into sideline cheerers.
Maloney has even more reason to worry about Saturdary's rame againet the Terrapins (who axe 10th ranked by the AP poll and 5-0 this season). The Orange conch feels he'd rather attack any other defense in the country rather than the stingy Maryland unit which has allowed its opponentes a paltiy average of 226 yards per game (110
through the air and 126 on the ground).

Maryland's ability on defense to give its offense the ball with good field poaition may be due to the defense's
wide tackle six alignment that wide tackle six alignment that Maloney calls "very unconventional." This setup has two limebackers, in ad-
dition to the four defensive linemen on the line of scrimmage.

You usually see patterins in the other tesm's defense, but not causes alot of pain-in-the-neck adcauses alot of pain-in-the-neck,
However, Maloney is confident that SU can move the ball on offense even without Hurley. The coach said
although Maryland is notorious for coming up with big playe on defenne it is also known to occarionally, give up the long yardage grainex.
"You can't consiatently drive up and down the field againat Maryland, but they have given up the long past or run," he waid. "Tim Wilaon's bic play capability is the reason why hets atarting."

Wherean SU's offense will attempt to Ho for broke Maryland's attack is exac tly the opposite.
Utilizing an offensive line which features three 400 pound bench pressera, the Terrapins are graduates of the grind-it-out achool of offense Steve Atlins are the ball carriers for this bxead-and-butter attack
"They punch at you with a powerful running game and then hit you withian occasional play-action pass," Malones
said. "They are a ball-control team."

Atkins has averaged 5.2 yands per carty while maddox has run at 4.6 pace each time he has received a handoff. It in Atrins, however, who is the main Terrapin threat.
The last time he visited Archbold, Atkins ran over, through and around the Syracuse defense for 215 yards in 29 carriea. He scored three touchdowns (including a 76 yards scoring run late in the game) duripg the Terp's 42.28 Win. Lagt season in Univerwity Park, rushing for 92 yarda.
"In order to win, we must hold him (Athins) to under 100 yards and force Maryland to pass," Maloney said.
Forcing Maryland to throw may not Worl either since quarterback Tim \begin{tabular}{l} 
passes for 651 yards The senior \\
\hline
\end{tabular} Maryland Coach yards, Claiborne sior that the genior quarterback who has grown only oneinterception is the mas-
Maryland's aseets seem to expand to all phases of its game. Maloney said its special team's coverage 'is as good as any other college teann's in the country." "We must be auperbin the kicking iinc." Maloney said.
If SU is to win they must be superbin all aspects of the game. Without Hurley and four other starters, the chance of this image turning into reahty has oractically faded.
NOTES - Today ia the last day for students with athletic activity cards to get tickets to Saturday's game. Both
Archbold Gym and Manley Field Archbold Gym and Maniey Field House will be open for ticket
from 9:30 a.m. to \(4=30 \mathrm{p} . \mathrm{m}\).

Itmayb Mire Stanton black clond.
When the Orangemen take the field in Archbold on Saturday to face the University of Maryland Ter raping, Tim Wilson starting at could be a bleasing in disguiae.
If you believe in biorhythme, the According to the Atlanta-based Biorhythms Research, Inc, which charts biorhythmes for college foot : ball players, Syracuse may be better off Saturday with Wilson and without Hurley.
Which may seem like telling the, man beneath the guillotine that he will probably be better off without his head than with a life term in prison.

Biorhythma, for those persons who don"t believe in the crystal-ball theory of forecasting football games, are rooted in the theory that rotating series of three cycles-physical, intellectual and emotional-that begin with the day
The point a person is at in each cycle determines whether his physical emotional or intellectua capabili
or sink

There was an article last year saying my biorhythms were bad for the Oregon Stata rame, but I had a good game," said Hurley, who was
necalling SU's \(21-3\) victory two years
ago in which he ran for 73 yards Despite Hmpley's 日liepticism, he encted enthusiaustically when in formed that Tim Wilson's physical and intellectual rhythms. Will be soaring on Saturday. The sophomore's emotional rhythm is in the resting etage now, according Reseathy Corley of Biorhythm climb on Saturdiay.
As for Huriey, was it mere coincidence or the work of his worhythmis that Tuesday, the day it was announced he wouldn't start Were bruiged his physical rhythra was in a critical stage? Or perhape his coach. Frank Maloney, was aware Hurley's intellectual xhythm is Bcheduled to be at rock bottom
But maybe the most telling hythm was plotted by Corley, who was unaware Hurley had cracked his ribs Sept. 9 against Florida State when she calculated it

On Sept 9 his physical cycle was at a critical stage," she noted.
Of course, biorhythm believers houldn't start puahing Tim Wilson for "the Heisman :Trophy just because his rhythms will be peaking Satorday. Biorhythms are statigtical probabilities;-not touchdown passes.

But when you're 1-4 and have to play the nation's 10th-ranked team, biorthythms aren't śuch a bad silver lining to look forward to.

\section*{SU kicks Buffalo to extinction}

The SU By Paccer teati Orsini The SU soccer team unleghed a sevenigoal barrage Iuesday night at Coyne Field againgt The win raised Syracuse's. record to \(5-3-1\).
The win raiked Syracuse's record to 5-3-1.
Gary Anderson, football placelkicker and part-time soccer player proved his soccer abilities by acoring four goals for the Orange
against UB (3-6). Three of the scores came duragainst UB (3-6). Three of the scores came
We were playing the long ball, taking the long pase", Asaiatant Coach Jape Shattuck depth, they played too far up. So we pasaed the depth, they played too far up, So we passed the
ball between or over the defendera and ran it ball betwee,
past them." itsecoring streak early. After only \(2: 47\) of play. Tom Salmon passed the ball down the middle of the field to center forwand Greg Cunningham, who beat the UB defense for the Grst goal.
SU kept the pressure on, but Buffalo penetrated the Syracuse defense long enough for right fullback George Olsen to foul the hall in the Penalty area. Buffalo wras hwarded a penalty ahot for the handball, and forward It wasn't:even evemed the bcore.
It wasn't:even for long. Leas than 1:30 later Cunningham headed the ball to Salmon, who booted the ball past gralie Maric Preston to give the SU team a lead it never loat.
With \(7: 03\) loft in the first half, Andernon gicored hil firet goal of the might, talining pata from-Kria Griger on a play aet up by Salmon.
Syracuece went in to the mecond hall with a 3-1 lopd, bat it dhan't meem to wrant to hroep it The
and after 14 minutes Quartey scored his sencond goal of the night, a shot that was deflected off of SU halfback David Glies into the left corner of
But then, writh the outcome of the game in doubt, Anderson switched from center halfback

\section*{We're playing the long} ball, taking the long pass!

was \(6-3\) and the Buffalo players didn't know what had hit them.
Othman AbuBakar contered a pass to the Buffalo net and a scramble in front of the goal reaulted in Anderson's second score of the night. He scored gegain 21 esconids later, this time on \(a\) pass from John Springer who brought the ball up from the left side of the field. The next goal, a one-on-ape with Preston, came just four minutes later.
"They were vulnerable ap the middle the whole nixht, so I took mdvantinge of it," Anderson maid.

But the scoming wasm't over yeit. With 45 seconde rwimbining, Salmon scorred the lat roal of the game, bringing the final ecorie to \(7-2\) T'm kroud of tha tome coach' Bill Goettel

\section*{By Howard Mansfield}

The Hall of Languages as it srands today, with its interior being reconstructed, represents Syracuse University. The building, completely demolished inside so there is "nothing left but the four walls," is being recreated. When it's finished inside you won't be able to sense the age or tradition of the university's oldest building.
It is
it is as if SU were surnmed up in a physical symbol. Although this is an old university, well over 100 years. you do not sense the traditions of the past. You don't get that feeling of something important having gone on before, tike you get when walking on the campus of a Harvard or a Cornell.
Every year the university recreates itself and in doing so we also lose something - as in the way the Hall of Languages is being recreated with "efficient" low ceilings and pebbly white walis to fit what this generation of administrators think is a proper building. And every day this past summer, truckloads of imprinted tin ceilings, torn wood and crushed porcelain door knobs were carried away; the shipwreck of a past generation's ideal of a proper building The same process, although less graphic, has occurred this fall as it has for more than 100 Septembers and Octobers. This fall close to 3,000 freshmen have unpacked and each has brought with them their own idea of what a university should be. When they act on it, the university changes just a bit
Everyone, from the chancellor on down, has his own idea of what SU should be. Although the Chancellor and professors may stay longer than she freshmen. the university does not belong to them more. The university is loaned to all of us for a time and we are its caretakers and stewards until we move on
Even for a chancellor of 27 years, the university Even for a chancellor of 27 years, the university
offers a strange combination of immortality and offers a stra
anonymity.
Mos? people think institutions are venerable and static. They see universities as supermarkets, not deas. They pull from the shelves some brand-name course and then try to wheel their wagon around to best advantage, trying to get out on the shortest line.
But the university, like any institution, is an dea, a different one from person to person, from vear to year. The character of a university belongs to the era it's in. When we move on, the university will be recreated. So today SU is lice a completely renovated Hi, it is a new idea of a university in an old shell.
The 50's idea is different from the one in the \(20^{\prime}\) s or the 70's. And that is what is roughty chronicled in the selections from the \(7 \$\) years of Daily Orange's that follow. Each page is a year's news, with the three biggest stories and a summary looking back It is easy today to scorn or ridicule past activities, but they were proper at the time. They had something to offer in the sense of community they ostered. The students and faculty were creating wh they thought college should be. In the first years of the century it was a fierce pride for the alma mat
class songs, colors and rivalries, salt rushes, flour rushes and mandatory chapel attendance. The students stood together as a class. In the 30 's and 40 's it was tood together as a class. In the 30 s and 40 s it was Iraternities and sororities, "getting pinned," dances
and hops, cokes and hamburgers. In the 50 's it was and hops, cokes and hamburgers. In the 50's it was foot ball, beauty queens, scalpings and pranks. Football filled the fall; imbuing the week with expectation, the weekend with excitement, bonfires, Thes and dances.
Through it all there was a joyous sense of being at a country club, a borscht belt retreat a little off
the beaten track. When the pranks and celebrations the beaten track. When the pranks and celebrations got out of hand, the students "were just kids," as of the SO's that police offer had to break up. Even in the Depression, when 40 percent of Syracuse was on relief, only 2 percent of those attending defaulted on their tuition. The late Barney Jacobs, Marshall street mer chant, recalled the depression as his favorite time at Su "Campus life seemed more exciting then. Sororities and fraternities intermingled more, there were parties dances, banquets, always something doing." The Hill has seemed to be a place unto itself.
The stories that follow and how they were or weren't reported form a pattern that could be the front page to "Our Town": controversies, careers marriages, deaths: all form a procession of events
like any other town. Our football stars are our smalltown heroes, our odd professors are our town characters. Sorne people's entire lives wind through the pages that follow. William Tolley is one. He the pages that follow. Wiliam Tolley is one- He
arrives as a freshman in 1922 , returns to his alma mater in 1942 to become a chancellor and is still here in retirement. Unlike Thorton Wilder's town, no one is in retirement. Unike thorton Widers town, no
born here and that may be the reason for all the born here and that may be the reason for all the
traditions - to quickly set down roots. The hon is everyone's, the uriversity belongs to no one.
But something changed in the last ten front pages. the last ten years, The university changed from being Piety Hill, our town, to SU, the corporation on the Hill.
What happened was that SU achieved what it has constantly pursued almost since its founding: to be big, to be first and therefore to be the best. This was the credo, from Chancellor Day's obwession with growth to Tolley's update on that philosophy 20 yeare later. During Day't 29-year reign he built 11 buildinges and increased the enpollment eight-fold. The growth wat mimost canceronie, strining the univernity/a

assets to the point of instability with a \(\$ 1.5\) million debt in 1921. To Tolley in the 50's SU "had to get bigger to survive. Loley gambled with federal loans to build most of the campus as we know it today replacing small cottages and co-ops with big dorms, replacing groups of 24 students with 400 . Small living enters became dorms and towers. It became a town with more hotels than homes, creating visitors of its students. A four-year stay, check out with a ceremony and many will forget. It became a town without a town hall, a central meeting place. An unbuilt student union remains a 52 -year tradition. From a student un book co-op in 1910 to a bookstore that makes 1903 to \(I 2\) gchools, from a home to a corporation.
As one professor wrote in the DO last gemester: "I emember when I was in college: when we were roung and easy under the pine cones; when we had real baseball and tennis teams, and long days in warm May and early Jurte; when we were not sent home before "trouble began" but knew each ather school inside out; when the graveyard was hom
Today's idea of SU is a slick package designed to service the needs of anyone with money. It is a brochure maker's university; everything attractively packaged for sale. It is important to get hose big research grants, those IBM execukive training sessions.
It is this view of the university as a multiversity" that students felt stifled by and protested in the Free Speech movement at Berkeley in 1964. A demonstration generally seen as the birth of student protest. Students expressed their anger with the university for taking big military and chemical contracts and not doing more for the community
That was the end of the university as home. with the administration playing the parents. In the 60 's students cast off traditions and with them the bonds of community. It was a time when studentr realized, more than ever, that the university was an idea that could be recreated. But, unfortunately, when student activism diffused, nothing ever arose to take its place. No dialogte was ever established with the administration. Ask an administrator what the student protests were about and hell say it was an aberration or students behaved like a child that needed spankirg. Although we were liberated from the administration as parents, we never went a step furninistration as parents, we never went a siep at a middleground between actiyism and tradition. The administrators stopped talking to us. They are off somewhere raising money. We meet them in bargaining if we are staff or see them through the institutional services that have shot up like dandelions around the original idea.
At the start of the \(70^{\prime}\) 's SU library employees went on strike, faculty considered uruonizing and tudents protested poor service in housing and food. And all were referred to as "personnel" by the dministration.
Today, SU is described in a college guide as being "cold" and "unfriendly" place.
And that is some of what has changed at SU since September 15, 1903, When the first Daily Orange was printed and delivered 75 years ago to the few building on campus, including HL.
The new Hall of Languages will open next fall, sleek, slick, homogenized. But for the class of 1983 it will seem a proper part of their memory. They may vaguely semse having missed comething. But, HL will fit the current corporate iden of SU and the campus will be a little lean unique. That'o the trouble with this towrs this corporation on the IHII.

1973 A new conci - Maloney - protenmex buwl game by 1974. Five hundred arudenta forced to live in motels due to Skytop delays.

About a month ago Chancellor Day sent Doctor James D. Thaips, the tial to see Mr. Carnegie and, if possible, interest himin the work of the University. Doctor Phelpa saw Mr. Carnegie's eecretary and through the University, ita size, work and needs. As a reault of this visit and subsequent correspondence, Mr. Carnegie has promised the Universaty a
\(\$ 150,000\).

\section*{Thu Now Building}

The new building will be first class in every respect. The Chancellor has had plans drawn for such a building for two years, so no time will belost in making architectural arrangements. the new building will, probably be located just west of the present grandstand, although definite ar rangements will beleft to the Board of Trustees. The building will face to the north. It will be about 160 by 150 feet in dimensions, and will be arranged to accommodate three or four hundred thousand books. There will be a basement, half above and half below ground. It is probable that the build-
ing will be constructed of atone and ing wi
The plans in the hands of the special purpose of deaigning a first class college library, modern in every respect. It will be especially adapted for the library courses, and will allow the best facilities for instruction in
this work. There will also be geminar this work. There will also b
rooms, reading rooms, etc.
Chancellor Day stated that it is imposaible to bay izactly when work will begin on the new structure. The University campus will be the scene of much building activity this opring with the new etadium, the Natural Hintory building, and the engineering building in the process of erection. For these reasons no definite plans as to the work of construction have as yet been made.
The brilding is to be one of the quadrangle which is to be formed Located, as it will be, near the center of the campua, it will make an ideal spot for a library. As the University will not need to purchase land, the entire gift of \(\$ 150,000\) will be putinto the building itsolf.

The present library building will be refitted and refurnished throughout and used as an Administration building It will contain offices for the Chancellor, his becretary, and other officials of the University.
In April 1887, the great historical
library of Leoppold Von Ranke was purchased by Mre. M. Reid and presented to the University. This anddition started a movement for a library building, which was accordingly erected and dedicated June 24,1889 . It has aince borne the name of the Von Ranke Library.

\section*{GROWTH IS THE WATCHWORD FOR CAMPUS}

\begin{abstract}
Cooking Back at 190 It had come as "a great surprise" when Andrew Carnegie donated \(\$ 150,000\) to erect a new library at the center of campua. So much so, that the editors of The Daily Orange had to race back to the office and put out an "extra", the second paper for the day.

There were many new buildinga going up on campues and each one was a source of prideand a rallying point for college epirit.
John D. Archbold's donation invoked the most pride on campus. He gave the campus a stadi um that was to be made of the "beat materiala". The atadium was to be built in the natural ampitheatre behinc the Steele. Hall Phybics BuildingGrandstands wire plamned to surround for a new gymanasinm that, as Chancellor Daysaid, is bound to come.

While the campus was waiting for a new gym, several other new buildinge were under conatruction. Lyman Smith had donated a second building for the engineering college. A labratory of Natural's \(\$ 200,000\) bequest. The building was to be ornamental with a two story tower over the extrance and a memorial hall in marble indide.
And, the Class of 1905 made a amall donation. It's memorial gift was a sidewalk that ran from HL to Univeraity Ulace.
Under Chancellor Day, Growth was the from \(\$ 19,000\) to \(\$ 112,000\) per year the from \(\$ 19,000\) to \(\$ 112,000\) per year. the
student body grew from 645 to 2,500 and the faculty numbered nearly \(\mathbf{2 0 0}\).
If new buildinge were not the cause for celebration, sporta were. When the foot ball team suceeded in scoring 9 point
\end{abstract}
agaipet Yale, the students were granted a hoinday by the chanceliorand dean, (Evem though
To win the next game, a new approach in training was tried. The Varsity yquad was taken to Constantinia to bunt, tramp and indulge in "muscle-making" sporta for three days.
spinit. The city newspapers caused college spirit. The city newspapers caused a stix
on the Hill, when they printed a sen sational story disapproving of women attending college singe and the upcoming student body wanted the wornan to attend the events and criticized the city papers fo practicing yellow journalism and being untrustworthy and unacruplous.
The studente supported the teama all the way and toasted them when the season
ended. A crowd of 550 attended the firs college dinner to honor the football and crew tenm. There were songs, npeeches cheers and the crew team was presented with a cup with it's victory at Poughkeep aie the past apring.

The campus liked the feeling of citory and with the profits from the annual fin Arys Fakirs show, a statue of winged vic
tory was brought for Crouse College. The Falirs of The Fine Arts Department put on a rhow that emphasized "fakeiohness" and itony with elaborate decorations ex echibits, shown and costumes.
As many new buildings wers going up on campus, the university's oldeat build ing narrowly eacaped destruction in a fire.
The fire spread acroas the freshly oiled The fire spread across the freshly oiled
floors of HL threatening records in the brusars office, and coming dangerously close to the chemistry thbs.
Groundskeeper "Doc" John Cunningham Groundskeeper "Doc" John Cu
brought the fire under control.

\section*{JOHN D. ARCHBOLD GIVES UNIVERSITY \\ a STADIUM}

Chancellor J ames R Day announced in chapel of the College of Liberal Arta that John D. Archbald, president of the boarc of trustees, had decided to give the UniverBity a stadium. The only facta that the Chancellor gave out regarding it was that it was to be located in the natural depresHall of Physics and that it was to be of the beat and built for time.
After the chapel exercises he announced that arrangements had already been made for the grading and exceavation which would begun as soon as the frost is out of the ground. The preliminary survey for the new field was made last year by the clase in civil engineering. The final aurvey will The made as soon as the tnow melta. ing of the intended gift. When Mr. chbold was at thie mid-year meetiag of the trustees and the matter of atadium was be ing discussed he showed a great deal of interest, inquiring a bout the coat and other detaila. After the meeting he went with the Chancellor and looked over the ground New York alumni and other sources that Mr. Archbold intended making the Univeraity a gif. The letter authorizing the announcemant chme to the Chancellor Monday morning. The announcement was received with enthusiaam by the students, who applauded for meveral minutes. The chapel exercises were not very largely anything of an axceptional nature.
Thim it not Mr. Archbold'e frat venture in an athletic field The Univernity oweo it Previont to 18 and the Fiold wea rough and
directed that the field and track be put into the best possible shape at his expense. This was done in the following two years. in 1896 he had the grandstand grandstand was formally opened on June 8 , 1895, with George \(H\). Bond ' 94 master of ceremonies. The donor refused to let the field be known by his name, so it has always been called University Oval. Mr to the University in other ways.
The new field and stadium will be one of the best in the country. No institution of the size of Syracuse has one, and in fact but few of the larger colleges are ao pleted less than a year ago.
The new structure will have geats on three sides of the field and at the head (north end) space will be left for new gymnasium which the Chancellor says"is bound to come." It will be built in the natural amphitheater to the aoutheast of Steele Hall. Although work is to begin right away, the field will probably not be readility of being able to locate next sibility of belag able to locate next is to grade the feld and let the ground settle for ten months or a year before finish ing up the work. This would mean com pletion about June, 1906.
The campus will be a scene of activity will be resumed on the new Smith College laboratory. excavation begun and foundation laid for the Hall of Natural History. and excavation made for the etadium and field; more building than has been done on the campoe in any three previoun ywark

\section*{UPPPERCLASSMEN KEEP '09 IN LINE \\ Draw Up Rules To} Command Respect

\section*{Looking Back at 1905
by Gisela von Waldow}

Early in the achool year, upperclassmen were agitated by the lack of respect they received from underclassmen. To correct the matter, representativen of the upperclasses met to draw rules to beobserved by freshmen could not smoke outside their rooms and that they must wear diatinctive rooms and that they must wear caps, which were to be removed on meeting upperclassmen. Sophomores were also required to wesr caps, which had
to be touched to acknowledge passing upperclassmen. Underclassmen were to give precedence to upperclassmen upon entering or leaving college buildings and rooms, and underclassmen were prohibite

Rivairy between classes continued throughout the year. At one point, violating old customs, such as holding their banquet before the end of football season, calling the police to rescue
freshmen who had ligitimately been captured by gophomores, and for inviting armed officers to campus to eacort freshmen to the banquet. Even Chancellor Day condemned the freshmen, who were apology, which was accepted through the can.

College spirit was high early in the century when meetings were herd to discuss coliege cheers and alums were called upon were popular on Crouse College Hill, where students sang praise for their alma mater.
Afterwards students escorted SU teenins to Afterwards students escorted SU teams to to away games.
The DÓ helped raise school spirit by extensively covering the teamsdaily. For the
big SU-Yale football game, the DO provided a wire service which sent direct bulletins from the reporter's bench at Yale
to eager fans in HL. This service was repeated for other major tismea.
Even the debate received strong gupport. SU Debate Team faced Wesleyan
before an audience of 1000 . The teama debated the question: "Resolved, That a Federal Commission with power to fix. upon complaint, and to enforce, aubject to appeal to the Courta, a future maximum railway rateis desirable." A oplit decision favored Wesleyan.
The increasing
The increasing popularity of the Greek Syatem was a aubject of concern for the ad-
ministration. \(A\). meeting between Chancellor Day and Greek members was held to discuss rules for social functions. Both groups were happy with the reached, deciding that no Greek organization would hold more than two formal socisil functions, and these were to close at \(11: 30\); informal parties were to close at 10:30. No unchaperoned girls were to visit a fraternity house, and all viaitora had to leave boronty
could be out by 10:30.

Due to this popularity of Greek organizations, several new fraternities and sororities, including Mu Phi Epeiton Sigma Phi Epailon, Sigma Nu, Tau Deita on campus.
October marked the beginning of several construction projects on the Fill. Pland for a "mammoth new stadium, which when Completed will be second to none in the College world" were drawn. The stadium dard Oil magnate, who aligo gave \(\$ 200,000\) for a new dormitory.
The purchase of Yates Cagtle and its land at the foot of the bluff where Crouse College stands gave a total of 100 acres. College of Pedagogy by the Board of Trustees. YATES CASTLE TO BECOME SCHOOL OF PEDAGOGY

Board of Trustees Holds Mid-Winter Meeting--Men's Dormitory and Chemical Laboratory Sure---Committee on Fraternities

One of the most important meetings of the Board of Trustees of Syracuse University held in several years took place yenter-
day morning, with John D. Archbold of New York City presiding.

Chancellor Day reported to the board an incresse in attendance at the University of
325 over last year and the purchase of the Renwick Castle. He recommended that immediate action be taken on a new immediate action be faken On a new
chemical laboratory for the University,
and also told of the need for new and also told of
Plans for a men's dormitory on College Place to cost \(\$ 100,000\) were presented to the board and accepted, and it was voted that contracts be let and work begun at once on
the new building.
It was also decided to expend \(\$ 100,000\)

It was also decided to expend \(\$ 100,000\) for the erection of a new chemical and it is desired that the building be completed as soon as possible.
By a vote of the trustees it was agreed that the Yates Castle be converted into a will be remodeled to meet the needia of the University and the new college will be opened next fall. A faculty of teachera will be engaged and work in this new department of the Univeraity will be embarked upon. All the courses in pedagogy in Liberal Arts College and the Normal will now beçome a part of the new College of Pedagogy.
Plans were presented to the board of
trustees by the alumai showing the trustees by the alumani showing the
proposed alumni auditorium and hall. proposed alumni auditorium and hall. truatees to consider the relationso of frater mities to the University. It is probable that this committee will formulate certain rules as to the government and rules to be ap-
plied to the various fratarnities of the University.

Nothing was done at this meeting with regard to the new Eymanaium. The matte was left open until the June meetingThe question of football in Syracuse University was discussed at some length by the various trustees, but no defimite stand was taken in the mattar, as they deemed it advisable to await the action of

\section*{MACBETH PRODUCTION SCORES GREAT SUCCESS}

The opening night of the Macbeth production may well be classed among the leading events of the year in the life of formance was ran off quickly and smoothly and was a credit to Profeseor and Mra Losey, B
participated.

That so heavy a production an Macbeth could be made interesting when given by a company of amateurs had been queationed by many, but the enthusianm-and left little to be doubted on this scome. There were but few dull moments. Almont notime was taken between the rapidly abifting scenes.
Profestor Loaey's interpretation of the character Macbeth was in itself a metudy. The atages of development tracied in the mind and ambitiont of Macbeth weare ing part of the production was the reader

Mra. Losey. The sleep-walling acorse was in which Lady Macbeth, detarminee upon the plan of murdering Duncan.
The other characters were for the most part well portrayed. Clifford Walker as Banque did well and the acting of W,C. Cronch as Macdufi was comimendable, particularly in the inword conteat with Macbeth. The portrayal of the witch scenes was also worthy of note.
Oine or two amusing incidents Ohe or two amusing incidents occurred which will no donbt be remedied at
tonights, performance. Owing to tho tonight's performance. Owing to the andience was aomewhat amused to mea been murdered
The sast saly for tonight has bean lariser than for lapt might sinatwith the Fracopea scored in the prodection of the play laft fuil cappacity tonight.

\section*{PSI UPSILON HOUSE WRECKED BY FLAMES}

\section*{Sorme Students Rendered Homeless by the Partial Destruction of}

Their Chapter House

Twenty student members of the Pai Upailon fraternity are rendered homeless by fixe which broke out in the third atory of their chapter house a
yostercay arternoon.
The fire was discovered by Joseph Allibone, who saw smoke and flames issuing from the top story of the structure. An alarm was turned in inmmodiately, and Fire Companies 7, 10 and 1 reaponded to the call. But three men were in the Pai Upailon house at the time of the origin of the fire, but this number was ann augmented by half a hundred students Who were attracted by the smoke and with the \#lames and organized squad of college men began the work of clearing the two lower noors of the house before their contents became soaked with water. Furniture, personal effects and everything movable was gotten out of the first two fioors. The fire was checked about 3 o'clock.
Nothing is known about the origin of the blaze. It is supposed that it started from a defective flue in the south room on the
upper floor. The furniture which was upper froor. The furniture which was taken from the burning buiding was stored in the
D.K. house.
The heaviest losers in personal effects who Charles Packard and Burton Fowler. who occupied rooms on the top floor. Each personal effects that were totally detroyed by the flames.
The two upper stories of the atructure were wrecked by fire and the lower floors
were drenched with water which broke were drenched with water which broke remodeling of the house necessary. A large part of the books of the various members of the fraternity are ruined by fire and water. W. 'C. Pendell, in the excitement lost his watch and several
other valuable pieces of jewelry other valuable pieces of jewerry disappeared in the excitement.
The loss to the houge proper will exceed \(\$ 7,000\), all of which is covered by cannot be estimated. Much of the furniture that was saved was badly scratched or broken in its hasty removal from the

bailding. A large part of the roof of the house is burned out, and amoke and water have ruined the woodwork thronghout the entire house.
The Pad Uprilon chapter house was rected in 1898 , and occupies a commanding elevation overloolingt the campus. Recently improvements have the manount of \(\$ 5,000\). The property is the amount of \(\$ 5,000\)
estimated at \(\$ 35,000\).
Until a late hour lasi night the mernbers of the fraternity were busy segregating and putting under shelter the furniture and personal effects gaved from the Games. Hundreds visited the scene of the Tre, and there were many helping hands. The various members of the fraternity are located at the D.K.E. house adjoining, with city members and in other chapter houses on the hill. No plans have an yet been made for the repairing of thedamage probable that carpenters will be put to probable that carpenters will be put to
work within a few days to make the house once more tenantable. -February 14, 1907
COLLEGE SPIRIT IS MAIN GOAL

\section*{Looking Back at 1906 \\ by Thomas Coffey}

It was a different era. At times, it aeems academic year was totally unlike anything academic year was totally unike anything day has experienced or can imagine. organization, its physical apperrance all these things were different during this century's first decade.
School spirit was the main concern of the day, and The DO issued editorial after editorial trying to promote this elusive goal. On October 8, the pkper came right
out and gtated its views on this subject: out and gtated its views on this subject: columns in days gone by about college columns in days gone by about colfege spinitand the waysin whichitcan be made
manifest. In fact. the promotion of a manifest. In fact, the promonon of a this paper since its establishment."
Sports, of course, was the major way of promoting the proper apirit among the student body. The DO publiahed many editorials calling for support of SU's athletic teams. And sports news
dominated the paper'anews coverage. For dominated the paper'a news coverage. For example, the last eight issues of the academic year had sports stories on the
front page, and one isaue - May 23,1907 front page, and one isaue - May 23,1907 page one.
Su's eports program was growing. The football team was gaining remown throughout the East, and new eports such were either established or proposed. All of these developments were duthfully hailed by the DO.
But sports was not the only thing expan: ding during this period. The university itself was growing. Yates Castle was a recent \(S U\) acquinition, a new footbal stadnum was being, and, variety of buildings were under construction. Bowne Hall was alated for use as a chemintry lab, Sims Hall was going to be uaed as a maen's dormitory, exterior work on the Lymen Hall of Natural History neared completion, and Carnegie Library made ready to open its doors. Chancellor Jamear. Day had many reasons
But Day did find eome things to be concerned about. In his address to the senior class, he warned that the
 judicial and legialative order is dirappearing in a form of oligarchy named com missions withan antrocracy atits head as over lanown,

\section*{MANY HURT IN FALING BLEACHERS}

\section*{A Serious Accident Occurs} During Saturday's Game

In the second half of the garne Saturday afternoon a section of the old bleacher ing some three hundred people with a masa of troken timbers twenty feet to the ground below. In all about one hundred and fifty were injured and fow escaped without a cut or bruise.

While no one was killed outright seven received very serious injuries some of which may prove fatal.

Rev. Christopher J. Donigan, assistant pastor of St. John the Evangelist Church, and one of the raost popular Catholic priests in the city, auffered a fracture of the spine near the neck and is yring between Professor Willism Lusic, principal of the Union (N.Y.) Free School, who was visiting his son, Ralph D. Lusi '09 at the Zeta Psi chapter house, received injuries about the bacic which, it wes first feared, would prove fatal. Mr. Lusk was resting easily Sunday morning and is expected to recover. He is being cared for at \(S t\). Miss Mildred F. Webb, 902 James St., is at St. Joseph's Hospitat, nuffering from a cuts and bruises. Her recovery is expected. Miss Webb was a member of the class of 1906 and of Gamma Phi Beta sorority. S. Gilbert Birdsall, 172 Holland St., su tained a compound fracture of the ankle and a badly aprained wrist. He was resting easily at his home last night. Mr. Birdsall wha a member of the class of 1905 and of Phi Kappa Psi frsternity. He was popular in college affairs, being the leader of St, a teacher in the Syracuse High School, sustained a fracture of her right arm. She
was removed to her home and attended by Was removed to her home and attended by Dr. Gregory Doyle.
Harry A. Paddock, of LaPorte, Ind., who is visiting friends at Baldwinaville, had his left thigh broken and is otherwise cut and bruised.
John Wegt, of Rome, suffered internal in juries which, it is feared, may prove fatal.
Mrs. Arthur Cunningham 502 Etcifid Ave., suffered internal injuries and was Ave., suffered internal injuries and was
taken from the grounds unconecious. She rested well on Sunday and her recovery is expected.

The crowds on all the stands were cheer ing the successiul attempt of the Yaraity to hold the Colgate attack and the teama whe lining op for anather scrimmage whaning. It was seen witonce that a large warning. It was seen at once that a large it seemed ion possible that some of the great crowd had not been lilled instantly. Moat of the large crowd trept their aeats and the cheering section acrosa the field kept up their singing and cheering. Thowe who did attempt to get to the acene of the accident were held back by an efficient police protection and only doctors were allowed to reach the place.

There was lithe outery and no danger of a panic The work of rescue began at once the injured away from the scene, an that in less than ten minutes everyone had been removed from the wreckage. Automobiles were pressed into bervice for removing the injured before the ambulances arrived, and in fifteen minutes play was resumed.

There were many tales told yesterday of narrow escapea and some of heroicrescue.
The general feeling is one of wonder that The general feeling is one of wonder that some of the vast crowd who went down were not killed instantly and many more hurt seriously. Most of those who were in had their clothes torn. Hats and articles that were picked up by the police can be that were picked up by the police can be
secured by their owners at the office of the Chief of Police.

\section*{SLAVE STATION NOW A COLLEGE}

\author{
Unique History of the Yates Castle Reads Like Fairy Tale
}

The Yates Castle, now the College of Pedagogy, has a moat unique hiatory Which gtudents of the University will do well to become acquainted with. Before the Civi War it was one of the stations on the line of the famous underground railroad
by which many thousands of slaves esby which many housanas of slaves escaped from the South to Canada. For halfa
century until a few years ago it has been a century untila few years ago it has been a
social gathering place for many of America's most prominent prople.
The old castle was built by General Longatreet a few years before the Civil War ata costof about \(\$ 200,000\) and used by him as a residence. The architect was Mr. Renwick, whoge New York firm is now one of the largest and best in the country, and the building was named Renwick Castle, nicknamed "Lonystreet'a Folly." Preceding and during the Civil War it played an
important part as a concealment for importint part as a concealment or
slaves, being one of the main etations on the underground rail way. In the southwees corner of the caidle is a square, tower-like buttress, and near the top of this buttress is a low, small room, ancased on all sides by solid brick. A portion of this brick can be
removed, however, leaving a hole juat
large enough for a man to pass through. It was in this room th
securely concealed.
After the Civil War the castie was exchanged for property on James atreet, com ing into poasession of Mr. Yatea and named Yates Castle. Here for years acociety held full away until after the death of its a time until it was leased by the Syractise Classical School and was finally secured by the University last fall.
The building is of collegiate gothic architecture and therefore resembles the old English colleges and great public schools. It is a rare apecimen of architectura, being perfect in all itsappointments and propor-
tions. Ita ezterior was most elaborately tions. Its exterior was most elaborately decorated by coatly mural paintings, some which will have to betained, but mosed by modern decorations. In the windows and dome decorations. In the windows and dome rarely found in modern glass colnzing.
The building is situated in the midst of \(a\) campus of sixteen acres, beautifully landscaped and wooded with rare as well as domestic trees. Many of the trees come
from Italy and some from Japan. Among from Italy and some from Japan. Among
these trees are winding drives and flower theae

The college was organized in June with the appointment of dean and faculty. This year the department of pedagogy of the normal art and normal music of the Fine normal art and normal music of the Fine Arts College have been reorganizad and
have become the nucleus of the Teachers College. Three hundred and sixteen college. havee hundred and sixtsen which is a fine begimaing

\section*{Removes Possibility of Intercollegiate Races}

\section*{COACH TEN EYCK IS RETANED}

Authorities Plan to Wipe Out Old Athletio Debt by This Means
--Rowing Tank will be

\section*{Mantalned}

The Athletic Governing Board of Syracuse University at ita last meeting voted to eliminate intercollegiate rowing from the ist of sports for the present to Poughkeepsic or engage in any regattan with colleges. The services of James A. Ten Eyck as coach will be retained, but no other money will be opent except for the necessary maintenance of the rowing plant
This action has been taken by the board after a discusmion iasting nearly a year
and han been necessitated by a financial and has been necessitated by a fingncial
problem that has long vexed the athletic problem that has long vexed the atmetic years burdened by a note given to cover old years burdened by a notegiven to cover old
deficits in the running expenses of athletica. Numerous efforta have been made to reduce the amount of this obligation but the receipts from college eports, although largely increased in recent years, have not been sufficient to meet the necesaities for enlargement of and at the eame time take care of the note. For the past six years a budget has been

\section*{COACH TEN EVCK}
carefully prepared by the Gaverning Board ench year, apportioning to each sport its proper share of the athletic revenues, and in no year has the amount
allotred been exceeded and no addition to the old debt hats been inewrred in that period. The adotpionof theoneyear mioby byracuse has anded the burnen aing frenhma teams and the general portang reanuma ceams and he genera neceeany outlay in all branches of athleties.
The endorsers of the note. Who are present and former members of the Governing Board, have made the remmonable request that they be relioved of thair obligations and the board docided lant winter to take the neomestry setion his year to wipe out the old debt.
The plan that was first considered wase reduction of expenses in old branciles of practicability of this pham was soon ap parent. It meant amaller teame, the participation in athletics of a less number of studentes and the echeduling of evente of minor importance with lower xeceipta from admiasions. Rowing, the branch of sport which which pringe absolutely no financial returne is the logical direction in which the needied temporary econorny mnt be atifected. The Governing Board expecte to clear off all the old debt and etart the nert college year free and slear of at obligntions by adoptint thim eown

\section*{CHAPEL CBOWDED FOR ADDBESS}

\section*{Chancellor James R. Day ad-} Cressed the students of the chapel of the Hall of Langrages yesterday morning. The addreas wreater part of his argument what taken up in outlining the reasons why women ahould have the right to vote. The chapel was crowded with undergraduatea
when Chancellor Day began to speak.
During the courge of his remarks he said that he believed that anyone playing such animoperation of the covemment, as a woman does, should not be woman does, should not ibe told how the woman's ability was too often undereatimated, but that the woman was coming to the place in life where shewould be recograized. As an example of
this he cited the case of this he cited the case of Mendelsahn's songs, many of
which were written by the sister of the famous composer, and of the famous composer, name because women at that period were not deemed capable
wonderful creations. Chancellor Day stated that position which a woman was thought capable of filling, but that today you will find her in that he was glad they were geel ing suffrage through peaceful channels and not resorting to brick-bata and tampering with the mailbomes as their sisters in England were.

Concerning this he agid:
"Do I believe in women's rights? Certainly I do. I was born in the home of a Prohobitionist and the State of Maine, and I know that my mother was just as capable of voting as my father. Do I believe in women voting? Certainly I do. I always have.
When? When the time for it comes and not before.
vote by thomen will not get the vote by throwing bricks throlugh the mail boxes. That's not woman's way. That'aman's way of doing thinge. Womanans will wia of doing thinge. Woman will win and she will win it by her superior ways of management Woman know how to manage and don't you l
away from you.
"Of course, there are a lot of \(80-\) called women acroas the sea who are using violent methods to might besaid that such methods mige necessary to drum a lithe common sense into the members of Parliament.
"But I hope, however, that the women of America will always be women and that it will never be necessary for them to moil our mhrough boxea, to hurl stones horsewhip our congreesimen. or "Do I believe that woman should vote? Women have just as much. right to vote a any man, and eapecially any man who takes up hin reficiemce at the ankpense of the public, and when ha is releaced from Jameavillo to

\section*{JOHN D. ARCHBOLD, FRIEND OF SYRACUSE DIES AT 3:50 0'CLOCK TUESDAY MORNING}

\section*{SYRACUSE EXPERIENCES}

\section*{THE GREAT WAR}

Looking Back at 1916 by Thomas Coffey Undergraduates Lrominent Patriotic Service read the headine in the May 14, 1917 iaGreat War had come to America and to Syracuse University. Actually, the dominant event
of the 1916-17 academic year did not receive any mention in the
DO. On Apr. 6, 1917, while SU DO. On Apr. 6, 1917, while SU was observing its
Vacation, President
Woodrew Wilson went before Congressand asked that a state of war be States-and Germany. When atudents returned to campus on Apr. 12, they found thatathlietics had been suspended because of
the war, Red Cross classes for the war, Red Cross classes for
women were slated to begin, and voluntary military classes for men were to start. conclusion of an academic year that was.fairly typical in most that was fairly typical in most received extensive coverage throughout the fall, even though
it finished with a mediocre 4-4 it finished with a mediocre 4-4
record, losing \(30-0\) to Pittsburgh and \(15-0\) to archrival Colgate. As usually happens when the toam s fortunes are not the wast; the the football team presented petition to \(\pm\) edministration asking for Coach Hollenback's resignatio
resigned.
Another big news story was the death of the university's great benefnctor, John D. Archbold. When his death was an-
nounced on December 6 , the DO devoted the lion's hare of that day's issue to eulogizing the wealthy oilman. On Dec. 19, a little item appeared in the paper
revealing that Archbold had left his entire fortune of \(\$ 100 \mathrm{million}\) to his wife and children. One month later another little item was published in the DO declarrequested that \(\$ 500,000\) gre to SU In view of Archbold's past generosity, this amount was very low and did much to upset Chancellor James R. Day.
Some of the effects of World War I also appeared in the pages of the DO even before war was declared. The paper issued many editorials calling for the es. tablighment of an Officers prouning reported on March I that students voted overwhelmingly in. favor of euch a proposal. Earlier in the academic year, during October, the DO announced the beginning of a drive to have war relief efforts. The next day Chancellor Day squelched the drive. Vaing has ispically impecthe university gave out \(\$ 40,000\) a year in acholarahips because the students were so needy, it was inconceivable that they could give \(\$ 15,000\) to any cause, no matter how worthy. Dudents did not forsee that tudents would later give. far ding the war in Furpor Begin ning in April, 1917 the BeginSyracuse University began to put their li ves on the line because their government told them to. As they left campus, SU alowly but aurely began to undergo a gréat change Education - and dary to winning the war:

\section*{University Loses President of Board of Trustees Who Served for 30 Years}

\section*{DECEASED FOR YEARS HAS BEEN MOST GENEROUS BENEFACTOR OF UNIVERSITY}

John Dustin Archbold.
president of theBoardofTrustees president of the Board of Trustees
of the University and its greatest benefactor, died yesterday morning at 3:50 o'clock at his home illness following an oparation for appendicitil.
Heroic efforts had been made to save Mr. Archbold's life, after his operation on November 21, and the five attending physicians thought for a time that he would recover. He suffered a relapse, however, and
last Friday it was necessary to last Friday it was necessary to resort to blood tranafusion. Atriough he showed increased his condition became worse Monday night. For some hours before his death Mr. Archbold had been unable to receive proper nournishment and the physicians and members of his family recognized that the end was near. He was 68 years of age.

Chancellor Deoply Affected. Chancellor James R. Day was greathy shocked to hear of the for Tarrytown at 11 o'clock Tuesday morning. He telephoned to Dean Smalley last evening that all classes in the different colleges of the University should be suepended from \(10 \mathrm{a} . \mathrm{m}\), untill p.m. on Thuraday.

In the business world Mr . chbold was very prominent, be ing the president of the Standard Oil Company of New Jersey and largely instrumental in building up that corporation's business. Although too deeply affected by the news to be intervicwed Day gave out a atatement The chancellor's statement, in part, followa: "My acquaintance with Mr. Arch bold began in 1882 , when I was pastor of St. Pauls Church in New York City. He was a faithful attendant at the
church services and I soon church aervices and I soon uparned to
-During my pastorate there 1 named Mr. Archbold as one of
the board of trustees of the chur the board of trustees of the chur
ch. In 1886 I also used my in fluence, at the request of Chancellor Sims, then head of Syracuse University, in per-
suading Mr. Archbold in fill a suading Mr. Archbold in
vacancy on the Board of Trustees of the University.

In 1893 he turned the tables on me. There was then a vacancy in the position of chancellor and Mr. Archbold urged me to assume the responsibilities atten-
dant upon the head of this great dant upon the head of this great Mr. Arct
"After Biving the matter my After giving the mater my to confer with Mr Archbold again. I said to him:'Your word is to be final in this matter: IfI go to Syracuse University will you make that the center of your beneficence during the period of my service?' He replied that he Since 1893 Mr. Archbold has Since 1893 Mr. Archbold has Chancellor James R. Day could rely for financial aid. His many gifts to the University will beax out this fact. In addition to the Stadium and the Gymnasium, valued at \(\$ 1,000,000\), he gave the old oval which, in its time, was the largest athletic neld in the country. Besidea this he not only presented the University with but he has constantly made up any deficit which has occurred from time to time.
born in Leesburg. Ohio. July 26, 1848. His father Ibrael Archbold, was a native oi virginia, and his son inherited many of the at-
tractive characteristics of the Southern people.
The strained financial cir-
cumstances of the Archbolds cumstances of the Archbolds to work at a very young age. Hia frat job was that of all-around

\section*{village of Salem. Although he} worked long hours young Ar hbold's vision was even then set beyond the horizon of the grocery store. He assiduously devoted was constantly studying during the spare moments.

Worked in Oit Fields. being made overnight in the newly discovered oil fields of Pennsylvania stirred his imagination and appealed to his ambition. At the age of 16 he left
his home town with \(\$ 100\) in his his home town with sice in his his meager earnings, and joined the stream of adventurers that poured daily into the oil fields of Pennsylvania.
It was a venturesome stroke for a boy but young Archbold had more than his ghare of courage. There was in him even then the embryo of what was later to develop into his most conspicuous quality-the ability
to grasp with lightening rapidity the possibilities of a new the pos
situation

Taken Into Partnership.
Starting as clerk for one of the largest oil dealing bouses in the region, young Archbold soon proved his mettie. Three years later, at. the age of 19, he was first savings he bought his widowed mother a home and sent his young sister to college. John Dunstin Archbold has done in the oil industry what Charles M. Schwab did in the steel industry, what James J. Thomas A. Edison did in elec tricity, what every successful man has done, namely, ripped of his coat, rolled up his sleeves jumped into the fray and applied both head and hands to the study of the buginess he wasin. Young Archbold was soon recognized by his superiors as at man who knew
theoil industry from every angle.

\section*{MASS MEETING TO DISCUSS WAR TRAINING}

Some weeks ago the Senior Chancellor a presented to the Chancellor a petition for compogether with a scheme of ex, emption that removes the possibility of any injustice being The to individuals.

FROM: The Senior Council
TO: Chancellor James R. Day Whereas: The nation ia
ngaged in a life and death conflict that bids fair to last for several years, throughout which college men will continually be called into military service. and
Whereas: Previous military training will be of advantage not onily to the men but to the Government, and
Whereas: Such training has degree of success during the part gementer in the Syracuac Unversity Cadet Corpa, and.
Whereas: The work of the Corpsicould be made much more efficient by the participation of larger numbers and the enforcement of more regular atten dance, of compulsion has failed method short to pass, be it therefore.

Resolved: That we, the Senior Council of Syracuise University do hereby respectifully petition the Chancellor of the University training beginpuing with the second semester of the present college year.

LELAND B: HENRY
Univeraity Cadet Corps. GEORGE SCHANK

> Of course, there were some casualties among the Syra cusans in the armed forces several students and alumn died in training mishaps with Force But only onefatality from France waisreported during the 1917-18 academic year: Millard Brooks of the cleas of 18, who died of pneumonia after a brief illness.
> The nniversity ms an institution managed to function during the school year, although sncrifices. On January 14, both the men's and women's gyms were forced to close becaune of a coal shortage. Eight day later. Lyman Hall was also forced to ohut its doors for the same reason. Throughout the winter, however, the DO consistently denied reports that the university was about to close to save coal and consequentiy help proceed, no matter how cold the
> classrooms were.
> The spirit of sacrifice also affected the studentr. To ahow their support for. our men overseas, fratermity men courageously offered to walk downtown to the senior ball, rather than taking taxis. The cabe, it was felt; would consume that could: be better used in defeating the-Kaiser.
> The university tried to function ats normally as possible other events did make their way onto the pages of the DO. The Prohibition crusade received much opace and editorial support. The Do.even went so far as to praise William
Jennings Bryan, whó appeared in downtown Syracuse to lecture on the topic "Alcohol Is A Poison." Honor System, a meverending topic of discrission during this period of time, also received -prominent coverage. On October 8 the DO revealed Liberal Arts had decided not to implement the eystern. Taking this decistion in stride, the paper launched an editorial campaien deaigned to swing student support behind the Honor; Syatem. Chancallor Day came out in favor for it, and on Nov. 2, When atudent elections. Were held, the Honor System received a 21 endorsement from the however, the isarue died out Despite the war, SU's aports teams prospered. The football team had good year, winning soven games and losing only one, a 28-0 shutout at the hands of Pittaburgh. BU won the Big Game, however, defeating Colgate came within one basket of an undefeated searion; ita only lose was in the latat game, a 17-16 heartbreaker to the University of Pennsylvania.
> SU celebrated a milestone of sorts during the 1917-18 achool year: Chancellor James Rloscoe Day finished his 25th yeary as
head of the university. A DO head of the university. A DO editorial praised the venerable
Chancellor in this manner: "During his regime Syracuse has grown from an ingtitution of four buildings to almost a amall city. Under his wise andefficient become one of the foremost educational institutions ip the country. We are highly proud of
our Chancellor Day.t.

But always tell the whole story of a fcotball battle. Anyway it didn' Saturday afternoon when Coach Chick" Meehan'a Orange war"
riora outplayed "Foxy" Warner's ribrs outplayed "Foxy" Warner's
touted Pittgburgh gridiron touted Pittgburgh gridiron
machine in the most apectacular machine in the most spectacula and thrilling footbail contes chbold Stadium field.
Pittsburgh was outclased i every phase of the gigantic every play made in the spirited confict proves it.
Syracuse made 172 yards by rushing to Pittsburgh's 138 . Syracuse made 27 yards by
forward passes to Pittsburgh's forward passes to Pittsburgh's Syracuse's made six first Syracuse was forced to punt but six timea to Pittsburgh's
nine. The average diatance of punts for Syracuse was 38 yards; for Pittsburgh, 31 yards.
Syracuse fumbled, but eight times to Pittsburgh's eleven.
Both teams lost, the ball four Both teams lost
times on fumbles.
Syracuse was penalized four Syracuse Was penalized four total yards lost by penalties was however.
Most of the 25,000 who braved he drenching rein and cold seats of the big, gray bowl Saturday
afternoon will say that the game belonged to Syracuse. Those who don't are merely anti-Syracusan by nature. And a few of New York's famous sportang writers
may be placed in the latter class. They apparently didn't see all of the game, judging from their accounts in the Sunday editions of the rietropolitan papers.

GAME MADE SYRACUSE
FOOTBALI HISTORY That sixteenth of October,
920 , will not soon be forgotten by Syracuse football fans, nor by Pittsburgh football fans, nor by football fans from coast to coast. history, but it has made greater history for the Orange than it has for the Panther.
The day was extremely damp. Rain poured in torrents upon the field, upon the players, upon the little leather ball, and upon the great mass of half-mad spec-
tators who were banked in every available space of the big Stadium, anxiously waiting for the tide toturnandgive Syracuse
that other tally which her superior play warranted.

Pitt Scores
Pitt started a atraigh Syracuse held twice, and once Pitt furmbled and Alexander called off, however, and Syracuse was penalized for offensive play. On the next play, Hewitt for Pittsburgh plowed through the
right side of the Orange line for a right side of
touchdown.
Ouchdown.
Odds shifted constantly dur ing the rest of the first half of the batue. gave the ball to Pittaburgh, once on Syracuse's 30 -yard line and later on Syracuse's 15 -yard line. Trials for placement kicks by Davies failed on both occasions. Gulick Scores
It was in the third period that the stands went frenzied when Gulick picked up a fumble by
Anderson of Pittsburgh and Anderson of Pittsburgh and raced down the slippery, for a touchdown. Abbott kicked the two great rival, battling machines was even-
ff their feet during all the rest of the last half and were in possers sion of the ball on Pittsburgh's 28-yard line when the final whis

\section*{IS UNSAFE FOR USE AS} UNIVERSITY BUILDING
SAY LIVES OF 1,500 HILL STUDENTS MAY GE IN DANGER IF REPORT IS TRUE

The Hall of Languages, housing the College of Liberal Arta, may be condemned and orders given that use of it be discontinued. The building is the oldest on the campus. PUBLIC SAFETY COMMISSIONER ORDERS INSPEC

Complaint against the collegg was corged with the comthat the building was ungafe to house the 1,500 stadents who attend classes there every day
Builling May be Ungafe

Building May be Onanfe The College of Liberal Arts never been rebuilt or altered, ex cept for minor repairs, according to the complaintant. According to the information which Commissioner Spencer received there arest to the top stloors. There is one stairway from the center of the building to the second floor.
It is claimed that the stepa are worn and oil soaked. The steps are alippery and many otudents report that they have taken head long spills down the stairs. The stairways are only about five feet wide, and the students, when classes are over, have to push and jam to get down or up the changes. Not Fire-Proof
It is also claimed that when the students pass up and down the gtairs they crack and give under the weight. The commissioner was also told that the floors wers soaked in oil. This,
violation of the law.
violation of the law.
The building is
high with stone exterior stories high with stone exterior. The interior is constructed of wood as fire proof The first three floors are used for class rooms only and the fourth floor is used
for class rooms and an puditorium where chapel is held every day. Fifteen hundred
students dssemble in the buildstudents dssemble in the build-
ing between 9 until noon every ing between 9 unti noon every
morning. Club meetings and other gatherings are held in the
ditorium
There are no fire excapes on the told. All of the doors open invard, it was reported to him. The total registration of the college exceeds 2,000. Smoking in the building is absolutely prohibited.

Report Band Conditions
The building is in a general atate of delapidation, the commissioner was told. Itis compon tall among the atudents and factuly on the Hill, it was that some day the structume will cave in.
It was also reported to the com missioner that the fire hydranta near the building are frequently blocked by students' automobiles parked around them. As many as 20 cara are parked around a single hydrant at times the commissioner was told.
Fire drills are never held in the college, thecommissioner was incormed. There is no system of signallin The
The college is heated by steam un through pipes from the cen rap, heating station on the cam poiler in the building.
Commissioner Spencer said that he was not aware of the conditions existing in this building until the complaint was made to him. The facts, he said, warrant which will bemade by theingpen
What the University would do condemene the building is Amergency space for tho Liberal Arts students is not available.

\section*{DRIVE REACHES CRISIS}

Corps of Workers to Comb Campus for 500 Subacriptions
Three days on the campus without the Daily Orange. Three days of confurion, misuinderstanding, and general ignorance of University acifivities and campus life. All because thestudent body of the University, men and women has failed to live up to that time-honored Syracuse loyalty and spirit. That Syracuse spirit was thought to be ever 100 pericent. But are we right?

The Daily Orange situation is at a crisis. Tonight we will know whether the crisis is passed and The Daily Orange still lives. The life of the paper is at stake. Its only salvation lies in the unqualined support of the student body. Today marks the highpoint of the drive: Every man and woman must have a Daily Orange cer tificate with him today. Everyone will bestoppedion the campus, in the classroom, in fact everywhere. Thedrive must go across by tonight or The Daily Orange dies as one of the Syracuse University ingtitutions - An ignoble death.
WILL. YOU STAND IDLY BYP--MUST THE PAPER DIEF AMOUNT OF \$1,500,000. THE THESE OBLIGATIONS MUST BE MET.
sense it is believed that the campaign the whole sipon the fulfillment of the undergraduat quota. If the Syracuse studente with the weight of colleges ex penses on their shoulders can tacrifice enough to put acroes their \(\$ 60,000\) quota one hurdired per-cent, the alumni, the Syracune busincat men, and the fail to be led by an example of layalty.
The drive begina todayl Fox one week a corps of strudentcan paigners will visit every student individually, with the goal in vievt of securing a pledge from every Hill man and wromen

\section*{DR.DAY DIES}

\section*{BULLETIN}

Dr. Day Expired last night at 10:00 o'clock after brave struggle for life.

Syracuse University, student body and faculty, todny mourns James Roscoe Day, whose logs to James Roscoe Day, whose loss to by trustees, professors and undergraduates as nothing short

limited each campus living center to two dances a year, while prohibiting dancing at \({ }^{4}\) all departmental, sectional, or other club meting
As Flint flnished his first year in onnce, former Chanceina year after retiring. His atress on courgie it has followed for at least 50 years. Unfortunately this was not the only tragic death that affected the univerarity that yearThe DO reported the deaths of two etudents-one from heart And the and one from pneumonia. And the story of the death of football captain Frank Culver's father, just, before the biggest game of the year, lends
credibility to the cliche of "rahrah" Americana. The dying man's last words: "Tell Frank to play the game.

A mort frightening reprosamtation of the attitudes of the time was the discovery of a Kumpris Klan organixation on campas, courtesy of a becrat "Informant" to the DO. A bit of inveatigative
reporing confirmed, that the
chapter hiad a memberahip of chapter had a memberstip of macrity members, tho held eecret mesting " mextced by all the displlay of the fiety cromes, hooded
figures and impressive ceremony characteristic of the orgapization.
Meanwhile, the usual crises continued to rock the campus. Financially, the university was
still ailing, eapecially since
students refused to pay the students refused to pay the money they had plodged to the Emergency Fund Drive of the previous year. In spite of this, the university began another manRive dive to raise eash for the unit. (The unit had been sent to booth the religion, education, and health of the Chinese people An ambitious idea, except at the time, its hospital facilities in China reportedly consisted of
As in all years atudentand.)
As in all years atudents found time for fedivities. There ware the "Faculty Follies" and the memorable wan a Halloween which filled aix barns.
Not even the 1922 version of the energy crisis "cowed downac threatened to ciose all fraternity and sorority howsing. A brief punic ensued, tuntil the Syracuso more cosl to the house.

Stripes, drooped at half mast as city and University alike bowed Fraternity flags likewise were Fraternity flags likewise were
lowered in honor of the man who lowered in honor of the man who longest and the best.
"It is hard to realize that he hap
gone," Vice-chancellor William . Graharn said, when informed of the death of Dr. Day in Atlanic City. Syracuae University as it stands today is his work. His interest in the University Was active until the very last. Every sympathetic friend."
Vice-chancellor Emeritus Frank Smalley, who was a student at Syracuse before the coming of Chancellor Day and who is now here to witness his
unfortunate passing, was griefunfortunate passing,
stricken at the news.
"I cannot express my feelings at this time,' he said. "It is sad at this time, he said. "It is sad
that he should be denied the that he should be denied the
freedom from the labors which he gave up so late in his life.'
"Every Syracuse student ap-
preciates the mountain of achievement which Dr. Day has Wrought in behalf of their Alma Mater" This was the comment
from Allan Woodring, president from Allan Woodring, president
of the student body, when he of the student body. when he
learned of the death of the charned of the death of the chancellor-emeritus. Every day loss and will ever appreciate his greatness.'
Hurlburt W. Smith, president of the Board of Trustees, re-gxfaculty members and atudents, \(a\) sentiment which was rife about the city late last night.
Attacked by what at first appeared to be a slight cold, Dr.Day refuged proffered medical adautobiography, for which he autobiography, for which he Dr. William M. Fox, one of the eading specialista of the city winter resort advised him to go to bed and submit to vigorous treatment. ChancellorDay reluctantly submitted. A council of the best physicians obtainable gathered and Dr. Day's special medical adviser from Syracuse. moned. They are holding almost hourly conferences, but none of them expresed the belief that them ehancellor, even with his indomitable courage, can turvive the day.
Mrs. Day and her daughter, the effects of the Etrain yeaterday, and were described as near the breating point last might. Dean Jean Marie Ficharia, dean Of fin women, was also

\section*{PROHIBITION IN OPERATION}

Significant statistics in regard to the use of intoxicating liquors by college atudents sinct the introduction of federal prohibition have
been prepared by \(F\). Gouthworth. president of Mesdville been prepared by F. G. South

A mariked decreame in drinking was noted. representing 406,162 atudents, indicated either.a decided decrease or no increase in drinking in more than 95 per cent of the institutions, aggregating 87 per cent of the total number of gtudenta The really significant consideration is, however, the appresciable falling off in the use of intoxicating drinir among etudents.
The unforunate circumatance in connection with this probiem, if it results of a distorted sense of proportion

This distorted sense of proportion accentuates the exception, and gnores the genera practice. One studentornnkis the aubiect for more newepaper copy, and rurnishes morematerial or the wez propegsan-
dite than does a whole intoxicated commanity in any other group in society.

This explains the popular misconception that college is the geat of a continuous orgy of dismpation. -November 15, 1923

\section*{THE YEAR OF THE BARGAIN}

Looking Back at 1924 1924 was the year bargain. While tuition remained the same ( 125 for the firat semester and \(\$ 100\) for the second semester) stadents were getting more for their money. The university had adopted a new housing rule which said "a separate bed shall, be provided for each student." Besides beds, each
student was given a \({ }^{\text {ath }}\) student student was given a "student
sports ticket," the ancestor of the sports ticket," the encestor of the
student ethletic pass, which student athletic pass, which
allowed admision to S ( \({ }^{\text {aports }}\) allowed
There was a catch, though. A new "general fee"- of \(\$ 30\) was re quired of each student. This of the See, prid for publication medical facilities and athletic privilegea.
Freshman were introduced to college life through a merciless
ritual of flour rushes, asit rushes ritual of flour rushes, salt rushes, and tug of war with upper. classmen. Just so freshman
wouldn't forget their iowly wouldn't forget their lowly
status they were required to status, they were required to
wear their green capsor "lida" on campus af all times. Upperclassmen weren't completely heartless though; freshman were provided with green toques to the winter.
the winter. the male freshmen were "defective" according to the results of a mandatory physical exeducation department. It seems the majority of this 65 percent were the victimas of flat or weak
feet. Ever so, football coach John feet. Ever so, football coach John F."Chick" Meehan reported tiant
freshman football candidates freshraman football candidates
were the were the "huskiest yeartings syracuse gridiron won their first game of the season against Hobart College and thair first Wesleyan. With the help of the Wesleyan. With the help of the finished thearimgs, the team and 1 record.
In other sports, the orange soccer team defeated Cornell for the first time with a score of Ito. team, intercollegiate champions for two years, was defeated by Pittaburgh University.: There were plans for a big bowling
season at Archbold as new season at Archbold as new
equipment was installed and lanes were resurfaced.
'Hennisandindooror"parlour" golf became the new campus fads. They were only exceeded in popularity by a pursuit that kept atudents busy: Crossword class-rooms and in the library, class-rooms, and in the hbrary, one finds people pouring over synonym books."
The university lañehed a "million dollar drive" in order to ease its debt burden. Students pledged their time, money and energy to raise the money for their alma mater.
Holden Observatory received a new lens to mtudy the stars and liverpool Road, through the effort of 200 furestry etudents, trees were plaw trees. \section*{PUZZLE MANIA HITS SYRACUSE TERRIFIC BLOW}

SYRACUSE STUDENTS PLEDGE COOPERATION IN CAMPAIGN TO ELIMINATE UNIVERSITY DEBT

A recent picture of one of Meehan's "husky yearlings":
degree of disgurt) that peanut butter sandwiches and pickles
were the favorite food of were the favorite food of
students. He also stated that students favored pie for breakfast
While students played havoc
with their stomschs, SU profes sors land aside theirdignity and became Vaudeville entertainers' in the third annual production of 'Faculty Follies.'
Three people from SU made it big in 1924. Florence E.S. Knapp, former dean of the college of home economics, became the GOP secretary of state. ArtherT. Hannett, graduate of 1912, Became governor of New Mexico.
Philip \(P\). Jacobs, another SU Pradip P. Jacobs, another Su graduate was knighted by
tian K. King of Denmark.
Results of a faculty survey must have given the DO ataff some reasaurance that they had a chance to make it big. The faculty were in agreement that radio would not replace newspapers.

The cross-word-puzzle epidemic has hit Syracuse hard. In fraternity houses. in clase. In fraternity houses, in clasev finds people pouring over them with dictionaries and oynornym books. The disease, however, eems for the most part to have passed over the faculty.
An enthusiastic exception to this rule is Misg Josephine Little,
secretary of the Y.W.C.A. When secretary of the Y.W.C.A. When asked yesterday for her opinion of the value of croas-word puzzles. Miss Little exclaimed, They increase your vocabulary They increase your vocabula
too. Im crazy about them."

Puzzazy about them.
Miss Katherine Sibley of the Physical Education department Physical Education department are an excellent diversion for anyone convelescing from an illneas.
Lack of time seems to be the prevailing reason for a lack of interest. Dr. Place of the Latin department says, "I have never attempted to work out a croseword puzzle. I have a number of friends who do them and who enjoy them but ao far I haven
found the time."

Prof. Hepner Opposed College H. W. Hepner of the College of Business. Adv definitely on the subject of crossword puzzles.
"II haven't any use for them. They are too hard and I neverget time to work them out. You tell them that I think that they are a waste of time which might better be spent on something more constructive." -December 6, 1924

Students of Syracuse will join with the thousands of alumni and the loyal Onondaga county friendis of the University in the great drive beginning November 17 which will geek to lift completely the load of debt from the institution.
Through their representative bodies, the Senior Council and volunteered to aid in the campaign and a committee from these two organizations is already working out the details of the campus can vass.

HOPE TO CLEAR DEBT BY JUNE. 1927

\section*{STUDENTS \\ SUPPORT MRS. KNAPP}

Cheers from hundreds of women students greeted Dean Florence E. S. Knapp, and Republican nominee for Secretary of State, when she arvecessful trip to the Republica uccessful trip to the Republican
Hundreds
elegates from students and County Republican Committen hended by a band, welcomed Dean Knapp as she arrived at s:15 o'clock lagt night and paraded to the Kanatenah Club, where a reception was given in her honor.
"It was a great struggle, but a wonderful victory," Mrs. Knapp oid a Daily Orange reporter tpon her arrival.
Women from the College of Home Economics werc prominent in the crowd, assuring heir dean of their support in the ampaign for election to an office filled by a woman.
Mrs: Knapp greatly appreciates the honor which ahe has received, but she expreases a onfidence yet, and anticipates a trenous campaign.
Mrs. Knapp received the nomination without opposition and now stands as the first woman ever placed upon the
Republican ticket in this State.

\section*{That Old Gang Of Mine}

Out for ride on Spring day are these happy Hillmen and women.

The Council and W. S. G. A. voted unanimously in favor of student participation, at recent meetings, but announcernent of this decision was withheld until
yesterday, when a joint com yesterday, when a joint com
mittee, appointed from the membership of both the Council and W. S. G. A., was named to organize for the drive.
Wniversity will be able that the University will be able to throw off completely its burden of indebtedness by June, 1927. in the campaign which opens one
week from Monday the seniors Week from Monday, the seniors declared unanimously in favor of deciared unanimously in favor of thusiasm is believed represen tative of the feeling on the cam pus.

Representatives Named President J. Winston Benfield President May Tuxill of \(W\) and President May Tuxill of W.S.G A. Were named by their respec-
tive organizations to act as joint heads of the campaign.
Exactly what part of the \(\$ 1,350,000\) estimated as neces sary to place the University in a condition of solvency by June 1927, can be expected from the students has not yet been deter mined. It was brought out at the meetings of the governing bodies, however, that the suppor of Syracuse students should b one hundred percenteven though the amount contributed by each ndividual is small.
The concensus of opinion in favors cash contributions and short-time pledges rather than short-time pledges rather than long-term promises to pay, It is asked to promise sums for more than a few months ahead

To Eliminate Entire Debt According to the alumni and the local people in charge of th drive in the county and among thinment of the \(\$ 1,350,000\) goal will eradicate the entire debt of wil eradicate the entire debt of indebtedness that will necessarily be accumulated between now and June, 1927. the time se as the end of the great carmpaign is included in the \(\$ 1,350,000\), 50 that no new burden will be piling on while the old one is being lifted.
Mem
Mernbers of the Council and \(W\). S. G. A. representing most of the colleges and other groups of students on the Hill, will from the working corps of the student campaign under the generzal mittee named by the two mittesidents. Other campus organizations will, undoubtedly join in the leadership of the dinve and the unanimous co-operation of all students is expected.
Further details regarding the organization plan for the can vassing and collection will beannounced soon, according, to Presidents Benfield and Tuxill.

\section*{The '20s: America's Last Sunny Hour}

The Twenties were an op-
timisticictital happy
period-America's last-sunny
hour." Life Magazine,
"The buginess of Americs is business." -Calvin Coolidge

\section*{Looking back at 1927}

The rapid growth of buriness proaperity to America giving many of its citizens the highest standard of living this country had seen to that time. Parties and feativities (deapite prohibition) Were in abundance. Conservatism was the accepted way of
life, business was business, and everyone knew exactly where he everyone knew exactly where he
stood. In short, the ' 20 s became almost synonymous with. "the good life. The campus version of the
good life was reported in the 1927
DO. It placed a heavy emphasis DO. It placed a heavy emphasis and sports. The front page was often filled with announcements about dances and parties, the productions of the University
Hill Chorus and Boar's Head Hill Chorus and Boar's Head Drama Club and the results of
Special social and sporting events received big coverage. Football rallies for "the Orange Eleven," a guest appearance by
swimmer Johnny. Weismaller and a big DO dance-were bome special events.

Whenever there was a threat to cut down or eliminate particular social or sporting eventa, for example, they expressed their disapproval when the University Athletic Governing Board made plans to cut out eight minor inter collegiate sports (soccer, hockey,
boxing, golf, rifle, tennis, wresboxing, golf, rifle,
Despite the abundance of cam pus aocial activities, SU , was primarily concerned with providing students with a solid, wellrounded education. Chancellor Chitries W. Flint's welcoming speech to incoming freshmen on September 27 echoed these Ben-
timents. The DO account of the timents. The DO account of the students to develop res-
ponibility, denounced hating ponsibility, denounced having
and pledged his support to and pledged his s
student government.

Life at SU reilected the conservative attitude that dominated America. Business conclaves
and speeches by prominent and speeches by prominent business experts occurred fre
quently. SU even held a model
GOP convention in March 1928. The big news atories on campus were also buainess-related: atudents started a drive to raise funde for a student union building and there , was alleged emberzlement of state money by Florence E.S.Knapp; dean of the College of Home Economic. meeting got more attention that may.)

Whenaver the DO. covered national news, it too had to do coversge was given to the Teapot Coverage was given to the Teapot Daily Orange gtrove for objec tivity, it-tended to editorialize when it covered business acandals, criticizing those who broke the rules of the honest business
ethic. The DO sensationalized the Teapot Do sensationalized the Teapot Dome trial, eaying the Fall-Sinclaix Teapot Dome conspiracy trial this week:
The conservative wey of life did.have its inhortcominga,
ralled into his own particular place and was expected to mainfor making \(a\) change. Clasa status was important and relations between students and campus organizations were usuaily formal, in keeping with the regimented campus social
structure. The DO frequentiy structpre The DO frequentiy printed engagement an"aeverances of relations" between individuals and campus organizations. In the October 17 issue of the DO, a front page notice read, "The'Interfraternity Council announces geverance-of relations between the New York Epsion chapter of Phi Delta

In short, life at SU was a dwarfed veraion of life in America at that time. College before one took a place in the world of business. People were in agreement with Edward Purinton's statement: "What is the finest game? Business. The soundest science? Busineas. The fullest education? Business. The The cleanest philanthropy? The cleanest philanthropy? Business.

\section*{Plenty Admidst Poverty?}

\section*{Looking Back at 1929 by}

Brent Marchant
One fateful October afternoon, the United States almost went bankrupt. The stock market
crash ended America's age of prosperity with the worrt economic deprestion the world
has ever seen. But, somehow it has ever seen. But, somehow it
was business as usual at SU. The was business ass usual atSU or the univeraity escaped many of the harsh realities of the depression and the studemes continued tife of ant era that was gone, creating their own wepartep peace
There was
tock market crash mation of the sion in the iseues of The deprea Orange during the 192930 school year. Notices conceining social and aporting avents still
dominated the front pages of the domper, ted they hadill throughout paper, an they
the twenties.
It appears that SU students were oblivious to America's economic situation. Students continued to liwe the carefree lifeatyle they had grown ac customed to so much so, that the
class of 1930 purchased jewel bor class of 1930 purchased jewel bor favors for the sanior ball in the spring sementer.
SU continued to gain in prominence and popolarity wen after the depressaion etruck It wao the hoet of many importan academic evenka For example.
poet Car Sandburg visited the poet Car in Mandehrg visited the
students in Crouse College. But perhaps the biggeat academic event of the year was a thret-day All-University exposition held
May \(1-3\) in 1930 . The exposition May \(1-3\) in 1930 . The expoaition
featured concerts. dramatic programs and exhibita by all the colleges in the univergity.

SU also became the site of more advanced scientificresearch. For example. SU professor Dr. Ernest Reed introduced a ring, the production of sugar nimg, the prodiction of Rugax greatiy increased amarzal yieldis. SU was also proud of the fact that Dr. Harry Allen Peck was one of the first astronomers in the countity to acknowledge the existence of "Flanet X" (Pluto).
Despite the remmants of the careblee Hife, sd controversiea There were meveral campue politieal scandala which resulted in the removal of the freghman and sophomore class presidenta Other controvervies arose over proposed stricter regulations regarding freshuman rushing new requirements for upper Liberal Arts and an allegation by the Grançe Foundation that SU maintained athletes in private and preparatory achoole
until they were ready to attend until th

\title{
When The DO Was 'A Man's Dominion'
}

\section*{By Irma Manning}

It was back in the 20's when 1 used to leave my last class and went slithering through the mud along the north side of the Stadium tolrving avenue where the Dally Orange had its own building and statif were already at work on the next morning's issue. That Righ the days before the Equal Rights Amendment and generally the less important stories. We read the copy that was brought in correcting sprelling, gramatical errors, condensing and sometimes even rewriting the story. Then there was jockeying for position on the front page with the senior editor (a man) sometimes followed by te" crumination if we did not get the promised position.

At that time there were two iournalism courses in the College of Business Administration and mont of the girls took at least one course to be eligible for Theta Sigima Phi (Now Women in Communications).
remember onc time the English club brought Amy Lowell (the mother of modern poetry) to spenk in the auditoriam of Crotise Colege. It was a bitter cold nigh warm the auditorium to some degre of coinfort. The steam or hot wrater of comfort. The steam or hot waing through the heat ducts. caming tha cacophony and clamor of caused a cacophony and clamor of
sound that. was almost frightering sound that. was almost frighteruing.
After a flattering introduction by the After a flatterimg introduction My the president of the English Club, Niss
Lowell took her place behind the Lowell took.her place behind tive
lectern. A womm of considerable lectern. A womm of considerable she drew herself up waiting for the radiators to quilet down. Finally the began her talk saying "Even the heat clamors to hear met There wan no doubt that she was one of those Lowells who spoke only to Cabotw who in turn spoke only to God. Anny Lowell incidentally. Was said to smoke cigars.

Another time, Theta Sigma Phi was instrumental in bringing Zona Gale a well known novelist to aprak at'SU. The locale for moat of her books was in the Dakota and that generill ares. We Theta Sigo entertained her at ant informal tea in the afternoon during which we had a very Pleasant and informative discumbion.
Mise Gale told us how many
tmes int rewrites and revisee her warks before mersiling theme to her
publisher. Whereupon one of our members stated, "Oh, I never rewrite, revise or change anything. I think through just what I want to say, write it and theri leave it. Miss Gale's tunate to be able to do that." College life in the 20's was very different from what it is today. Fraternity and Sorority dances usually began at seven o'clock and girls living on the hill had to be back in their dormitories before midright. Dances were always chaperoned by couples who took their responsibility very seriously. No liquor was ever served at parties but occasionally a few coupley would go out and have a little nip in a parked car. At the time few students had cars and when we went downtown to the movies or other entertainment, even on a date, we went by street car.
Smoking on campus was absolutely verboten and there were many of us who had our first cigarette and learned to mmoke in Oakwood Cemetery. Marriage was not for atudents and getting married while still an undergraduate brought about prompt expulsion.

There were girl cheer leaders at football games but they were not allowed to cheer. They could only lead in the singing of college songs. Pom-porr girls, drum marjorettes and the turning of cartwheels were unknown. The Dean of Women, Jear Marie Richards insisted that we be ladylike at all times.

Most of the Orarige staff, after graduation found their vocations in journalism, advertising, public relat and kindred fields. One who had a most "distingutished" career was J. Rosicue Drummond who for years had a columat in the Christian Monitor and was internimionally, known.
Irma Manning zoas zomen's atitor for the Datily Orrange during the 1922 term. She lives zoith her husband in Skuneatifas, N.Y.

ATailor Made Man

A Modern History of Syracuse University Is Largely The History of William Tolley's 27 Years As Chancellor

An instifution is but the lengthened shadow of a single man. Ralph Waldo Emermort

\section*{By Tim Wendel}

E
Arvery child has a guardian. A person that teachs the child discipline and makes irreversible decisions during the child's life. In many ways, the child becomes ant extension of the guardian

In the tife of Syracuse University. one its most important guardians was One its most important guardians was
William Pearson Tolley. As SU's seventh chancellor, Tolley made friends with chancelior, Tolley made friends with presidents, scholars and athetes of the school. The majority bekalf of the school. The majority
of the buidings now on campas were of the bubdings now on campas wex built during his years as chancellor. Under his direction, the Maxwell sch
and graduate levels were expanded. and graduate levels were expanded, While the Newhouse Center and Bird
Library went from the drawing table to the construction site. Syracuse also the construction site. Syracuse als became the first university in the
country to offer a degree in fine arts, country to offer a degree in fine arts, the first with a major department of special education and the first to offer a degree in mass communications. Many administrators remarked, while talking. about the former chancellor, "Syracuse University is William Pearson Tolley."

He wanted to make Syracuse
intermationally-known, says Newell Rossman, vice chancellor in charge of fund raising. He was a gambler who arrived at the right time in Syracuse University's history.
One of the major ways Tolley sotaght to make SU known was by
improving the caliber of its faculty. The former chancellor did not go ouit and attempt to tecritit profestars with an eye on his pocketbook. He was only interested in obtaining the best instructors.
\({ }^{7}\) I do mot agree that the primary administwative concern should be money. Tolley says. "The concerrn has to be a plan, a program for outstanding quality. A university should always be trying to get the best men to be its teachers." Striving to be the best is nothing new for Tolley. He believes there is nothing like hard work, because with it and a little luck one can become successful. A reader of Horatio Alger. Tolley is an advocate of the "pluck and luck" philosophy, where happiness is defined as success, power and achievement. However, later generationt at SU were not ceaders of Alger. They at SU were not zeaders of Alger. They sided with the writings of Salinger and as illogical and often absurd. Although as illogical and often absurd. Although these differences were to cause problern
later, the majority of Tolley's 27 years later, the majority

olley became chancellor in 1942 the event was a pernonal homecoming. A 1922 graduate of Syracuse Tolley not oniy paid his own way through school, but made a name for himself as well. He played the saxaphone and was the leader of a jazz group called "The Synfuil Syncopators." As president of The Boan's Head Dramatic Society, he starred in the 1921 production of "A Tailor Made Man." Also in that year, Tolley was editor of the Onondagan and a member of the debate team. He

was editor of the Oriondagin \({ }^{3}\), 1 分 member of the debite teank. HTewts president of the glee dub and offten cured with the Organize Honcit the end of his undergraduate dayeits SU, Tolley had a lint of activities \(\boldsymbol{r}\) eleven lines long under hiliname tn the yearbook. The next closedt grad hed six ines. And desplte being involved with many campus groups, Tolley had binked
\(\$ 600\) from his part time jobs. -
After becorning the youngest college president in the nation at Allegheny College and serving at Drew Uriversity, Tolley became chancellor at SU: The: country was at war and Tolley.did more than his patriotic duty by illowing about 1,200 servicemen to train on campus. After the war, the new chancellor again opened SU's doors an the university aganitted thousands of returning
und veterans.
"The returning veterans were the most mature of any students we've ever had at Syracuse, \({ }^{*}\) he gayp. "We ever had at Syracuse, he gays.
should ship all our prospective should ship all our prospective
freshmen off for a few years and then have them come to college. It would allow them to get more out of their education."
After the veterans received their degrees, SU marched headlong into the degrees, SU marched headiong into the world of bobby socks and blue suede Tolley's happiest as chancellor.
"It was the most harmonious,time," he says. "There was a sense of partnership between the students and the he administration.
The football team became an eastern powerhouse and won the national championship in 1959. Tolley was one of the Orange's enthusiastic wupporterw. He attended all home and away contesta while chancellor. Lite on camput was typical college hi-jinx. Fraternities and sororities had large membership* and waterfights were the rage every spring "I remember once the police came up o stop a big watertight on Walnut, Tolley says, a wide grin on his face. They came up the street and the kids ust bombed them. The police were pretty mad and they wanted to throw everybody involved in jail, but I talked to the chief and calmed him down. I eminded him that these were just hids having some fun." A few years ater, the police were again on campus however, this time for more serious matters.

T
he war in Vietriam was the cintalyst behind Tolley's darkest moments as chancellor. When he talks of the' Fifties Tolley has many humorous stories and often breaks into lamonoter. But when thinking back on the events of When triniming back on the events of
the Sixties, his speech is slow, soft: and thoughtful. He calls the decadier and thoughtful. He calls the decadie"a period of insanity.
"There has always been these periods in education" he eays. "They ciosed down the Univertity of Parts for thiter: yeare because of which conduct centuries ago. That is how Oxford was
started . . . The activities of the Staties were an apparition. Something that happens once or twice a century and is not likely to be repeated."

In the spring of 1964, Tolley lost his temper and truck a picketer with his cane. The picketer, Jamés Overgaard, was among several protesting military training on campur during a ROTC review. The Varwity Club geve Tolley an engraved cane bearing the wordil Thy rod and thy staff, they comfort us for the action, but the incident liwd created a break between the estabilithment and the student that never fully heiled. During the student protesto of 1969 Tolley advocated jail ecntences mis way to stifle disorder.
"Students are not fools," he sald. "So long as no one is punished why shouldn't their fun continue."

The truth is that violence will stop on the campuses of our colleget just as soon an trudents learn that they are ino longer protected by ol loco parentis" the mdded, "and thit,

they break the law." Tolley stepped down as chancellor later that year.

From fields where glory does not stay And carly though the laurel grows At wilhers quicker than the rose Runners whom remown outran Runners whome died before the man
A.E. Housman

\(\mathbf{F}\)1 rom his office window on the sixth floor of Bird Library, Tolley overlooks the university that was once his. Although the institution still bears his the university plods along without the urging of its former rider. This administration emphasizes that the budget is in the black for the fourth consecutive year, not the hiring of new faculty. Thear, not days, the university switthboard requires the spelling of the former requires the spelling of the former chancellor's name before finding his
phone nurnber. And through it all phone number. And through it all -
Tolley watches the events of the present as he reflects upon the past. From his window Tolley witmessed last spring's demonstrations and classifies them as being more like a Fifties waterfight than
a Sixties protest. \(a\) Sixties protest.
"I am incliried" to say that those activities were in the class of horseplay or spring fever," he says. "Spring hits us like a bomb every year and everyone lust goes crazy for a couple of days. Such things ire perfectly natural. One has to remember that these are kids.
". . . violence will stop on the campuses of our colleges just as soon as students learn that . . . jail sentences wait for them whenever they break the law."
- Tolley

\section*{A reader of Horatio Alger, Tolley is an} advocate of the "cpluck and luck" philosophy, where happiness is defined as success, power and achievement.

\title{
The University of Heaven
}

In what is a classic match up muckraker Upton Sinclair (The Jungle) took on devout capitalist and chancellor of Syracuse University, SU's growth around the turn of the century and the 27 controverisial years Day was at the helm.
It is a chapter from Upton Sinclair's book, The Goostep: Study of American Education. It was printed in 1922 and the copyright has since printed

W

\section*{By Upton Sinclair}
e arrive at the University of Heaven, which has God Almighty for a director.

Thirty years ago there was nothing here; now there are a score of elaborate buildings, and six thousand stmdents
Ail this has grown out of the genius of one man, the Reverend lames Roscoe Day, D.D. Sc.D., L.L.D.. D.C.L., L.H.D., chancellor of the University of Heaven. He made it unassisted gave by God.
What is Heaven - in the plutocratic sense? It is a place whose streets are paved with gold and flowing with milk and honey. It is inhabited exclusively by the elect, all others having been cast into outer darkness. It is a
place entirely under the control of the "sight people," all morthodox thoughts are barred. "chapel" is conducted every morning, and if anybody does not like the way we run things, he can go to hell.
Chancellor Day of Syracuse University is provincial and naive, representing the adoration of wealth in its primitive, instimative form. His emotions flow with child-like enthusiasm; his emotions fiow win chid-hke enthusiasm, his Marnmonism. His fervor is such that he is not ashamed to bear testimony before the world; to raise his hands in public and shout
"Money, money! Hallelujah! Amen!" This chancellor brings to the support of his plutocracy the direct personal revelation of the Almighty. When he makes commencement orations, or gives interviews to the interlocking press, or sends telegrams of congratulations to the murderers of strikers, he brings to their support the latest decisions and interpretations of the Throne of Grace. "God has made the rich of this world to serve Him. . . He has

\section*{We want to give everyone a cheap education. Tell them \\ it's a good one, and they won't know the difference.}
shown them a way to have thie world's goodis and to be rich towards God. . . God wants the rich man.. .Christ's doctrines have made the world rich, and provide adequate uses for its riches.* These are from the chancellor's book. "The Raid of Prosperity" you can find more of it quoted in The Profits of Religion."
Recently hé has published another book, "My Veighbor the Workingman." and in this book we fing God in a bloodthirsty mood. It appears find God in a bloodthirsty mood. It appears that the racicals are taking advantage of our
courts, which "assume innocence until guilt is courts, which "assume innocence until guilt is
proved." There must be "a suspension of this proved." There must be "a suspension of this
order of things," God saysin "we have found no order of things," God saysi "we have found nio,
foe more worthy of extermination." Strikes, Cod foe more worthy of extermination." Strikes, \({ }^{\text {meaches }}\) to linw; the atrike is a comspiracy and
nothing less" Yet when labor proposes to wse legal methode, God does not seem to inive it any better; we find him discussing the founding of the L-bor Party in Chicago, and speaking of the delegates as these Siminn deacendants:and just after He has made His chief complaint against strikers, that they call nom mion men bad nament God portrays the Socialist utopia The soup-box oritore, in the tramp's anclean rags, will talke charge of the banks, and the bomb-maluers can be atarted to run the factories." Oppoped to this is God's own utopia, and you may talke your choice The rich and the poor dwell together. There is divine wiodom in the plan. They always have so lived. They always will so live.
Noble characters are in both. It must be the Noble charact
divine order.

The chancellor of the University of Heaven was providentially equipped for his role. He stands about six and ahalf feet high, and brond in proportion, with the face of a Jupiter commanding the hightings. He has a matrificent rolling voice, so that Jehovahfo commande art

A side vietw of the enormows apex of the "Aged Whale Hunter" as Sinclair referred to Chancellor. Day.

He is a masterful personality: he knows instantly what God wants, and he zoes after the bacon and gets it for God, and every plutocrat, meeting him, recognizes him as the ideal person to take charge of the thinking of posterity-
No nonsense is tolerated at Syracuse; they know what truth is, and how it should be taught, and you teach it that way or you get out. the quicker the better. Early in the chancellor's administration he discovered that John R. Commons was tolerant toward free silver, and he fired him, giving as his reason that the professor was tolerant towards Sunday baseballl! Every year he discovers that several others are tolerant towards something ungodly, and he fires them. There is no "tenure" or faculty control. or stuff of that sort; it is the
chancellor who pays the salaries, and the chancellor who decides what the various men chancellor who decides what the - and he generally decides they are are worth - and he generally decicies
not worth much. He said at a faculty not worth much. He said at a faculty
meeting, "You fellows needn't think you mean meeting, You fellows needn't think you anything to me; I co
an hour and a half."

Heaven. from the point of view of college professors, is an intellectual sweatshop. I was told of a profestor of geology; who was there for twenty years, and finally got up the nerve to ask for a raise, and he goi fifty dollars a year. Another professor asked for a raise, but the chancellor discovered that this man had written a book, and he said: "A man who has written a book ought not to expect promotion; it shows that he had spare time on his hands" All contracts with chancellor's ware veris your fate. It may weem a dreadful thing to say about heaven, but the fact remains that \(a\) number of the chancellors faculty, both past and present, unite in placing him among thote college heads who in placing him among those
do not always tell the truth.

\section*{A few years ago he got rid of his} treasurex, Mr. W.W. Porter, who had werved the uriverity for nineteen years. The chancellor published a series of accusations againut Mr. Porter, and the latter replied in a printed tatement of twelve thogasand words, which I have before me. It is \(m\) dignified and frank and convincing diocument. Mr. Porter bears testimony to that mane "wristh and vindictive spirit and methods" upon which all authorities agree. He goes on to give the documento and figures of a series of petty grafts perpetrated by the chancellor: For example he states that laborers worked on the chancellor's farm, and were paid oust of the university treasirity amoutts aggregating \(\$ 710.82\); also, that the chancellor sold this farm to the university "at cost," and when the trensurer asked for propter vouchers, "he immediately Hew into a pashion, staking that his word was zufficient; purch theed a buildine, and leased it to the purchated a building, and leased it to the univerinity, to be used to a booktores at an his old automobile to the university at min
excessive price, the chancellor wold hories, wagons. harnegs, etc, at various times, to the university, making out bills in favor of himself and receipting the same, acting as both'seller' and purchaser.
The old rascal is decidely cynical amorg his intimates, fond of telling smutty stories, and willing even to joke about the educational game. His professor of psychology came to him,
telling him about the wonderfol new intelligence tests which some univeisities were using friplace of examinations. "Finel" said the chamicellor. Well use thern, but don't let them affect a'dmissions.
We want to give ever'ybody a cheiap educationi. Tell thein it's a good orie; and they won't know the difference." Conifronted by the usual trouble of raising funds, he let himself be persuaded to try an appeat for small donations rom a large number of the alumni; but the results did not equal the cost of the
circulars, and the chancellor'remarked at'd
faculty meeting: "l never went fishing for faculty meeting: "I never went fishing for mall fish with a net; I went out and
stuck my harpoon into a whale.'
In the days of his prime our vicegerent of Heaven was really a whale of a whaler; but he met with one great disappointrment, which appears to have wrecked his career. He spent kwenty years cultivating the president of the Standard Oil Company. He chiseled off the label of one of his buildings, the College of
Liberal Arts, and labeled it John Dustin Archbold College. He got Archbold to give him stadium and a gymnasium, also a mansion to live in; but he hoped for more than that, and for ten years he whispered to his faculty: "Be careful now. behave yourselves, we have a great endowment coming. But Archbold died and left him nothing, and all the family could be got to put up was half a mitlion dollars.

\section*{F}
rom that time on the chancellor's star began to wane. The university had been cunning into debt, and some time ago the banks refused to carry it any further, and the grand tukes refuged to "come across." The alumni would do nothing, for they share in the detestation with which the chancellor is regarded by the factulty and students. In order to confound his enemies, the chancellor hired a firm of professional money-raisers, who undertook to get six million dollars in thitty-six weeks for Syracuse. But before they had gone very far Syracuse. But before they had gone ver
they reallzed that no one would puttup money, so long as the chancellor remained in office; they told him so, and he dismissed of fice; they tom him so,

The debts of the university now amounted to a million and half, and so matters came to a hesd. The interlocking trustees had done everything they could think of to persuade the aged whale-hunter to resign, but all their efforts falled, so they worked out a most
ingenious acheme. One morning the chancellor operced his copy of the Syracuse "PostStandard" at breakfast, and there, to his consternation, he found himself cohfronted with an elaborate front-page article to the effect. that he had resigned. There was his picture, and there were columns upon columms of haudatory articies about himpelf, written by his leading teachers and his leading dukes and duchesses. Never was there such a series of panegryics of a \(\quad\) rimphanty All the Syracuse newspapers himd it, and what was the poor man to do? Should he dump out all that milk and honey into candal? He honed to hie fate, and the candal He bowed to in Pake, and che but inorty ifterwards Dean Peck died of ofncellor; but hortly fiterwards Dean Peck dined of heart-trouble, and our whale-hunter moved back into office. There was no one with amthority to keep him out, and he set. the university carpenters at work making altermations on his new home and made to him faculty the triumphant amnouncement: You gee, gentienen Cod has vindicmed me; He has seruck Peck downt in order that 1 may return to my poitionl" Such 緮 the Univerity of Heavers and we close with the familiar comment: Heaven for climate, hell for company."

\section*{The Short, Strange Life of Vaughn Bode}

There is a story a psychiatrist tells of a nuclear physcist who became obsessed with imagining life on Phars. He had produced hundreds of pages of naps, records, histories and plans of his imaginary universe. "He went so deep into his mind that he would actually be there
The story, from Robert Linder's book The Fifty minute hour" horrified Vaughn Bode. "Luckily they cured him of his crippling delusions. Bode wrote, After... I read the book (1) cried bike a little boy threatened in some giant darkness. I was struck, numb. that I could be 'cured' of my

Theynever"cured" Vaughn Bode during his short life. He died with his universe" intact while all arourad him his world crumbled.
Bode spent a lonely childhood in Syracuse inventing secret fantasy worlds from the time he was five years old. "At fifteen years old I had over zoo cartoon characters with islands and maps of wonderous places to go." Bode had a "spiraling desire to build another form of reality

By the time he came to SUl at age 24 his separate reality was so developed that he had created "a dual developed that he had to deal and cope with both worlds." He would dive deep into his imagination and "retreat back up to the outside world
His cartoon world was his real world. "The very reason my cartoons work so well is because they are reflected experiences of a real world other place.' The paper world of a rue artist is real and you know it when you see it." He said he ven developed a sense of smell touch, and hearing for the characters nside his head
His unique cartooning style developed whle he was a student from 1965 to 1970 studying for a fine arts degree. He was iust out of and panels appeared in the DO and and pronels apear in the the Promethean, (a weekly newspaper).
Syracuse 10 Iiterary magazine and the Syracuse 10 Iiterary magazine and the Syracuse New Tirnes.
Bode's best
Bode's best known character, The Cheech Wizard, debuted in the DO. It later berame a fixture in National Lampoon. The wizard was a small figure whose feet stuck out from under a rumpled sorcerer's hat. "It is about the student days of a character I developed while working on the Daily Orange, Bode said in 1968. Cheech Wizard is gnines to SU (Sorcerer's University). up on the old dark moon crater" which is modeled after Crouse College.

The Checch Wizard represents Bode's eaty development of his "pictograph panel format, where ballons for the dialogue ran outside and above the panels. It broke away from conventional box-shaped cartoons and was most like

\section*{nimation.}

Bode also created another of his well known characters while drawi and it detailed a lonely caveman discovering life and survival. ('If 1 see will talk to his As usual I I punch holes in it." I was primitive, brooding and alien Bocle said of how he felt when he created the character. The Man ran in the DO from October 1, 1965 to February 18, 1966.

As his art became more advanced quickly became popular. The outside world of his dual reality, the
part where he didn't 'live,' began to claim him more and more.
From 1967 to 1972 he worked at feverish pace, illustrating 11 children's books, 45 magazine and book cover and 28 short stories for national magazines. His cartoons appeared in the East Village Other (an underground paper) and he edited the first underground comic tablotd; The Gothic Blimp. Hestarted doing monthly features for Cavilier and Swank (imitation Playboy magazines) and Galaxy ran the first monthly four page cartoon leature in a science the Hion magazine. In 1969 Bode won the Hugo award of the World Science Convention as the best fan artist of the year. And in 1972 he stauted

his monthly Cheech Wizard strips in National Lampoon that earned him a cult following

Vaughn became a businessman, an administrator and an entrepreneur recalls Jim Steranko, a commercial cartoonist and friend of Bode, "Vaughn was 24-hour-a-day huster he uphis plans with a kind of perpetual determination - a complete about face tor a creative individual. He realized this was the only way
in 1973 he started performing his cartoons on stage in a one hour and a half "cartoon concert." Bode said he had become a "high concious comedian." Bode stood to the side of the stage where his cartoons were proiected and "stretched his vocal cords to produce the voices of lizards. the Cheech Wizard's Some 25,000 at colleges and conventions watched as he became his characters He was eventually invited to perform at the Louvre in Paris.

He had become "the comic book messiah" as he called himself and his short clipped hair and "applecheeked country boy look" gave way to a rock star look. His hair hung down to his shoulders in golden ringlets. His cheeks were hollow, he wore glitter on his eyelids and painted his fingernails blue. He was dressing in leather panats and body shirts. At one point his girl friend recalls, he was shaving his arms and legs. He started believing his own hype, writer Denny Oneil said.

After \(a\) decade of doing my art nationaliy 1 am more creative than ever before. I move on, learning to and frustration to do all the art there is to do in the untiverse before I am no more me. I am contimually seeking whole harmony of self," Bode wrote two months before self, Bod

His pursuit of "whole harmony" resulted in dissonance. Me divorced his wife, started experimenting with drugs bisexuality, transvestitism and bondage Hecame out of the closet in an underground comic book called "Schizophrenia." Acress the bottom third

\section*{of every page in the magazine there \\ were pictures of Bode in drag dancing}
his last days in long arguments with his new girl friend.
On July 28, 1975 Bode was found strangled in his room, dead at age 34. He was experimenting with a form of bondage-meditation that involved selftrangulation. He would hang himself with a leather strap, grasping it with woth fists until he lost conciousness and fell to pillows on the floor. The strap then loosened allowing him to breath in a natural unconcious state that Bode said brought him closer to the "laughing light."

The last time he tried it, he added a bondage mask and the leather strap never let \(g o\).

All signs are he didn't commit was totally accidental even though maybe at that last second he knew and was probably happy that that was it Ift the three years since his death there has been some talk of a memorial exhibit at SU, but nothing has ever been done
Professor David Tatham, whoknew him while he was a student here, said of Bode, "As an artist he was still growing. He was on his way. He important illustrator, beyond his science fiction work.
An exhibit at the Loew Gallery or
Everson would be a proper memorial, a retrospective look at an inagination that most of us, anchored his creative strength, he said. He spent in everyday life, will never know.

"Ya know Ceorge, even though I flunked the entire section they still think the world of me . . . That's popularity, Boy!!

\section*{Campus Receives Federal Money}

Syracxse to Benefit from \(\$ 7,000,000\) FERA Fund For Employing Studemt:

Avencere Momelify Pay
OF SIS IO Gwaruritend
Clarical, Libreary, Resourch Wort, Repaity, To Balncluded in Labor Prognmen

Posaibility of securing federal aid to finance part-time campua jobe became a reality yeaterday with the administrative an will be completed within the noxt two weeks for employment of alimited number of students on various university projects.

Characellor Charles W. Flist has been in communication with welfare bureau heads in Albany and Washington for the past two weeks, following manouncemext hat a number of American collegiate-inatitutions and thousands of undergraduatem all over the country would benefit from a \(\$ 7,000,000\) appropriation made by the Federal Ernergency Relief Administration.
Finameial Statzo In Fem quinite
According to information received by Chancellor Flint from F.E.RA. officials, jobe will be allocated to the colleges on the basis of enrollment of full-time atudents of college grade or higher, ste of October 18, 1933. A full-time atudent is one carrying at least threefourthe of the normal atudent program of courses. The allotment of jobs for each college will be equal to, but at no time above 10 per cent ofita full-time enrollment.
Jobs will be given only to atudente whose financin' gtatus
is auch that attendance would be impossible without this aid. In addition, the student muat be of good character, and judged by the waual methods of determin-ing-ability exployed by the particular college, must poserem ouch ability an to give amburanco that he will dohigh grade work in college.
Univaraity to Judege Prom jects.
Types of work eet forth by the F.E.RA. regralations axe those customarily done in. the institutions by atudents who are working their way thru college. These include clerical, library. research, and work oa buildings and groands, and in dormitories and dining halla, but excluding regular class instruction. An exception is made in that inatitution not under public cons. trol may allow construction and repair projects on nearby public propesty.

Pay to Average 815 Per Month
An average of \(\$ 15\) per monthas is fuaranteed to the students emm ployed under the new program. \(\$ 20\) for the colendar month. This means that the average amount to be earned by the students em ployed will be 345 for the batinnce of the college year and the mare of the college year and the max. will be \(\$ 60\) for the remainder of the coLegs year.
The federal regulations provide that the hourly rate of pay will be the anme as in watally paid by the University for the type of aervice mendered. The minimtum pay, however, is 30 centa per hour. No students will work more than eight hours per day, or mone than 30 hourw in any week. , -February 16, 1934

\section*{Bomb Hoax}

By Cenf F. Baytor
Monday night more than 25 members of the architecture department wrote leteir to Chanceltor Flint, now in Miami, apalogizing for their prank and stating that it was done in wholesome tun with no intention of being disrespectful. It wes sent by air mail and bore the signatures of more than 25 atudenze.
With long diatance telephone calls from anxious parents flooding the campus as the reault of nation-wide pablicity given the "funny" time borab hoax pulled by most of our 58 architecture students, at least 25 of the practical jokers are til doing plenty of worrying as to the outcome of a disorderly conduct charge lodged against them by local authorities.
And as they walk about campus with coat collars pulled close around their faces, in fear of an unexpected
press photographer, they may or may not be worrying, too, about the possibility of indictment under a federal charge as the result of misuse of the mails.

\section*{Alarm Clock Suggeate Hoax}

In working about the department on the fourth floor of Slocum hall one of the group discovered an old alarm clock with broken crystal and a missing hand. Someone suggested that they make a bomb.
Two cartons eight inches in length and one and one-half inches in diameter were discovered. They were half nilled with sugar, astured with water and packed with cotton. Then two flashlight batteries, long since dead, were found and the whole contraption were connected by old wire.
Then carne the question, Who shall we aend it to?" Professors and sororities ware auggested with varying enthusiasm. They finally agreed upon Chancellor. Flint, not realising he was vacationing in Florida.
Then the group adjourned to the Como where they unthinkingly toild the atary tif friende.

Scenes at Cornerstone Ceremony

President Roosevelt's technique in wielding the trowel and slapping down the mortar is demonstrated before a crowd of about 4,000 people as Roosevelt laid the corner stone of the new medical college building. Acting Chancelior Graham looks on. Graham and Secretary of the Interior Harold Ickes addressed the crowd after Roosevelt's speech.

\section*{Campar Issues Hold Students' Interest}

\section*{Looking Back At 1936 by Steven Titch}

Syracuse University studerits returning to campus in the Fall of 1936 found that their chancellor of 14 years, Charles Wesley Fint, häd resigned to assume the Office of Bishop of Chancell ar the follot p. Mon wis Vice-Chancellor William P. Graham. Graham was named Grabsm's first move as actin
Graham's first move as acting ohancellor was to announce construetion of the Maxwell Schoo of Citizenship
Another in the long series of Student 4 ininn drives began in October. A petition was as proswible in one month By the end of the drive, the pecition had aequired 4000 signatures, convincing the administration that SU students really wanted a union. Though several spots were considered, the basement of Slocurn Hall was Iinally selected. The administration promised the union would be open in the Fall.
In the middle of the Fall semester, debate arose over a proposed marriage course \(S U\) whs to offec. Despite the controversy, there wat great interest, on campus. and the administration felt that this type of course could contribute significantly to the future Spring for implementation in the Fall of 1937 SU's foothall team did reasorably wril the car, but lost big games to Cornell and Presidentià Cundidate Alf Landon also did well that year - on. campus. Landon, the Republican candidate led Roosevelt by 263 otes in a campus poll of 1.813 students,
Surveys taken that year indicated that drinking had become a "major problem" on campus and that the aversge student whas more anxious nbout girls and football" than
about national.and world affairs.

\section*{Here's Our Student Union An Editorial}

SYRACUSE university students have been talking about a st udent union, pleading for a student union, agitating and working for a student union ever since-well, ever since the football men wore beards or perhaps ever since Chancellor Sims* cows were pastured in the lot in front of the Hall of Languages.

It may be difficutt to believe, but after all these years a posaibility now presents itsel whereby a student union building - a temporary one, at least - can be available for Syracuse students, faculty members and alumni next fall
Yes, the Castle can be the temporary student union of Syracuse aniversity - if the student body asks for it.
Just before he resigned, Chancellor Flint suggested to the Board of Trustees that (1) the School of Journalism move into Slocum hall next fall, when the new School of Citizenship building is completed, and that (2) the Castle be made a student union caŕnpus social center, something which Dr. Flint recognized as one of the University's greatest néeds.
The Board accepted Dr. Flint's suggestion "for further consideration." The Board will meet next on Nov. 21. It's up to the student body, the faculty and the alumni-if they still care about having, a stident union - to urge the trustees to accept. whithou addfifional delay - the Flint suggestion.

Petitions are ovérworked. Granted. Nonetheless that is probably the best method of displaying to the trustees the intense interest centering in the student union project. Beginning today The Daily Orange will sponsor a mass petition.

The petitions are available at The Daily Orange office. Those interested in working to make Syracuge univensity a better place are expected to ask for petitions today

\section*{Watch Képt Thru} Night to Prevent Outbreak of Fire
Firemen who spent the sight on the demolshed roal of Lyman hall were atil wexphing the bullding's ruine this morning for telta demolsshed roai of Lyman hail were atil bearching the thruout today.
A single fire truck atood by and a lonely detall of men from Company 11 witched for new outbreaks of name atop the dankened buiding thruout the night. They, and the ruina yesterday. A small hose pourid water into the building untl aimost 10 o'clocis last night, while Iremen still worked to quench stmall fiames that ahot up in various places.

\section*{Dr. Graham}

To Assume
Post at Once
Dr. William Pratt Graham, class of 1893, became the sixth chancellor of Syracuse university today.

Soft-spoken, scholarly and popular with the student body, the 65 -year-old alumnus agreed to accept the chancellorship for one year or "until my successor shall be appointed.-

In the most exhaustive atudy of honorary conditions since 1933, John Olver, chief of the civil service department; appointed John \(F\). Ward, special commissioner of research, to direct the probe.
income and expenditures, requisitions for mernbership, records, and national status of the organizations under fire will be subjected to investigation.
Clubs and class honoraries will not be investigated it was said. Only departmental societies, local and national, will be probed.

Clase Honoraries Exempted The inquest will probably result in the introduction of an assembly resolution calling for
strong governmental control. strong governmental control.
Notonly will the legislature berequested to act, but duplicate data will be submitted to Chancellor William P. Graham and University officials for their ex amination.
A. citizens board of. three prominent seniors was also
named last night to act, as named last night to act, as referees on methodis of investigation, oral examination, and
as an advisory body to the invesas an advisory body to the inves-
tigating committee." Newell Rossman, president of the senior class; Dominick.J. Cross, managang editor of Raymend Brunner, this year's football manager. will comprise this panel.

Ward Submits Plan
With his investigating party
eady for action, Ward last migme aubmitted a prospectus of his plans. "We have been hearing for are being refused by the societies. That will be our first objective," he said, "namely, to discover the actual requirements for membership and how those members are chosen.'
Present activities will likewise be subjected to the scrutiny of the ctmmiasion. "The committee will ask every organization to outline its program," Ward declared. We want to find out if ach society does more than sold key.:
The commissioner further in dicated that his committee would not be satisfied with interviewing local officers but would delve into the recorda and check quarters. - December 10, 1938

\section*{Spirit Raises Riot}
ooking Back at 1938 by Seeven Titch
For the sixth straight year, registration records were broken as 6,601 students enrolled in September, 1938.
The year got off with a starting announcement by the social Committee of the Woman'a Stindent. Senate cancelling the
junior prom because of the Claso of \(1940^{\prime}\) 品 failure to submit a of 1940's failure to subrit a Sinancial report on their was followed up with the cancellation of the annual
ball due to lack of funds.
It was a year of trouble for several other campus, groups. In December, the Men'a Student Government etarted an inver tigation into the 58 honorary and professional bocieties on campus. The reasoning was that '60 percent of the students belonged when meat one of these societies, to be a mart of distinction to es ceptional studenta
The rivalry between SU and Colgate grew, and so did the excitement as the camo between the two drew near. During theannual pep rally a fow daya before the came, enthusiasm got out of hand and a riot broke out. Staderits ran wild through the streets naer the university, eetWainut place and dardiling a Ntreetcar. The fncident led to the cancellation of the remainder of the pre-game festivities.

Syracuse beat Colgate 70 that
While the football tearn was tallying up victories, students questioned the marching band's competence on the field. The main issue centered on the half time show during the Cornell Eame. After the Cornell band had finiahed their stirring rendition of their Alma Mater, spectatora
at Archbold anxiously awaited the SU bands reply. But instead of the expected Alma Mater, the band broke into "Alexanders Ragtime Band."
More dissatisfaction was felt elsewhere as students were becoming increasingly disappointed with Club Sahara. Syracuse's Student Umion in Slocmm Hall hasement. Ona student called it "nothing but a referred to it as "the campus jokerne"
In February, junior in the invented a Hiedetector which was a ereat improvement upon axis ting polygraph devices. It was so impresaive that the FBI looked into it.
Everyone but the FBI was called after SU co-ed Lucille Anmin was reported misaing. She had not been seen since she had left her Buffalo home to return from Christmas break. After chring, days of extanaive inare campur infirmary, where the asid she had gone because she wasn't feeling well.

\section*{1939 Syracuse Daily Orange}

\section*{An Editorial}

\section*{For Syrac̄usans Who Care}

Bcene-The. Student union.
Your roomufate speaks: "Say, what do you fellows think about this neutrility burinees? It'm nill you read in the paperm sowadays.'

Other fellow: "Aw, I never get time to read the papers." You: "I don"t know much about the whale thing. What's all the fuas about? And what can we do about it, anywrof
Thus, YOU, the average mindent, expreas the unbelievable apathy of Syracuse otudents'concerning a question which meana peace or war, life or death; which has set nownpaper wiren buxing acrise the nation: which has drawa the nation's congresamen back to Wranington legialntive hall. for an extraordinary eeasionf which has grecipitated a congresaional avilanche of letters and telegrams.
But ....
Byracuse studente don"t know anytbing about nertrality.

Byracmae tudentis don't chre anything abotit meutrality.
Syracuse students won't exert themerelves to do anything about neutrality.
Syracumana have crawled into their own comfortable little rut, bounded by classes, cokes, and dates. And there they sit. blinded by their own "don't care" attitude to the meaning of a congresaional conflict which is sure to shake them out of their srusg complacency
Yet isn't Syracuse university a progressive, up-to-date institution of learning, peopled by over 6,000 keen kninded, on their-toes students who ere applying knowledge gleaned from college to the everyday businesa of living?

No Syracuse student wants to enter the business of wholesale killing that America's entrance into the second World War would force on him. No, the Syracuse gtudent wants peace. But America's neutrality hangs in the most delicate balance, and the alightest deviation one way or the other may plunge the nation into war. And it's too unim portant for Syracusans to bother with:
Students apparently don't know or care that the President's proposal of the substitution of a cash-and-carry ptan of ahipping supplies to foreign belligerents has emboldened 24 congreasmen to step out decisively againat the idea.
Do they know or care that another group, numbering a few over 40 , has been lined off by administration backers as the absolute minimum of their streagth at the outset of what promises to be a protracted legislative battle?

They don't know or care that there are 20 -odd others - the ones who will actually cast the verdict in the end - who are torn between the persuasive arguments of the President for new methods of peace and the deluge of letters and telegrams demanding retention of the arms embargo as a eurer why to maintain this country's neutrality

Are atudents of Syracuae so far removed from this controversy which is rocking a nation?

Are they going to sit back and allow the old people to decide again whether they live or die?

Are they so far-gone in their present wishy-washy apathy that they can't enap out of it long enough to form an honest opinion one way or the other?

Is there really nothing they can do?
The answer is " \({ }^{\text {No. }}\)
A well-defined, sensible course of action is open to every Syracusan who desires to shake off the stifling mantle of indifference and ignorance with which he seems to have shrouded himself
1. He must saturate himself with information on the neutrality issue. Headlines, newspapers, periodicals, radio, lectures and forum discussionsprovide ample media for learning the truth and the whole truth.
II. He must read critically and decide digcriminately, sif ting truth from half-truth, reality from idenliam, logical debate from half-baked argument.
III. He can add to his acquired knowledge by bull-gessioning with students and questioning his professors,
IV. He is now ready to form an opinion which may be expressed constructively. Student opinion directed in the right channels carries weight and infuence. And atudents have a medium of expression which thoy refuse to use.
V. The Daily Orange is providing this medium, by sponsoring a Campus Comment contest to rum during this week. while Congrems is in mession, whereby stadents may express their convictions on neutrality methods. All the arguments, pro and con, which are being waged in congressional halls this week, may rage back and forth in the Campus Comment columns of The Daily Orange.

Fence-sitters or cash-and-carry advocates, atand-patters and interventionists - all are being given an opportunity to reveal to the campus theirideas on the best and moat practical method of keeping the United States out of the second World War.

Maybe The Daily Orange editorial deskis will be covered by a deluge of letters, Hike the deskin of Maybe Daily Orange editors will
Maybe Daily Orange editors will apend aleeplese nights seeling space in which to print the responses made by stadents to the inauguration of thile content
Maybe some Syrmcusan is interented in meutrality, after all.
-September 26, 1939

\section*{War Causes a Few Disruptions}

\section*{Looking Back at 1940}
by Maria Riccardi
It was the year atudentafinally realized the serioug effects of Worid War II.
Men between the ageas of 21 and 36 were drafted in the fras peace time conscription in United
Staten history. The draft caused Statea history. The draft caused the university enrollment drop ta ite lowest point in four drop to ite lowest point in four years and threatened thefootbail
team's hope: for a successful season.
Two profesbors were surnmoned to work for the Intelligence Divialon in Medicine organized a hospital to Medicine organized a hospital to event of a national emergency.
The univeraity directiy felt the growing crisis: The Syracruse-inGrowing crisis. he Syracuse-inChina program had reached ita land when it was deatroyed by Japaraze air attacik. It was the university.
It-wat a preaidential election year and students chose Wendell L. Willkie 2-1 over Roosevelt, who was elected to his third term in a landslide victory.
The war and its conceran were still interuptions and mot the general patiern of campua ife One of the biggest headines of the year announced that Tommy Dorsey. "the - sentimential gen-
tleman of swing" was sigmed for tleman of swing

Other social activities slao received much attention. Som York City for the sumusi Syracuse NYUT football rame A Miacuse Vyy football gemen A every competition.

Whose listening to the competition, back in Syracuse mater on the radio. The American Society of Comporeits. Authors and Fublitharis (AS:

CAP) who owned the copyright prohibited students from braadprohibited students from broadcasting the Syracuse alma mater on non-ASCAP stations, "Where the vale of 0
Students who got too involved on the social side of colle involved in the social mide of collige could be awdigned to an orientation
horne" etablished for the "Schalsestically wayward." The faculty alsoinstituted strict class cutting policies; "Three cuts and you're gone

But to a great numbes, of students aocial life did come first. The Greeks ingtituted a

program, recruiting ap program, recruitina
proximately 254 pledges. To be Greek is not to be Klorified": atreased a DO editorial, "to be independent it not to be scorned. Syracuse has mmall gold pins." If not eelected smat gold pins. If mot selected coeds were known to cry for days Some even considered suicide. -

A weekend in New York is one of those things every undergraduate has to experience before he can truthfully say he's been to college. This applies especially, of course, to the boy or girl from Upper Scudpuddle Falls who thinks Salina street is a pretty crowded thoroughfare.
Cheme individuald will
probably experience an emotional uplift upon efeing the "Gone With the Wind" sign on the Astor theater and will regard the everlasting New York city excavations as a dramatic bign of New Deal progress. Repúblicans from Long Island will realize face lifted constantly so the face lifted constantly so the Gotham cliff dwellers can be led So from \(\$ 12\) up you can have a whale of a time. Under \(\$ 12\) there's alwaya jitterbug matimee at the Paramount for \(\$ 28\), a hotdog and m roll in Grant's bar for \(\$ .15\), and a long subway ride for a nickel.
We are rpeaking for deluxe weekenders though, the kind of people who dhe game:
Bee lour game. \(\$ 12\) after you've bought
your ticiset to the game, include \(\$ 4.00\) for hotel accommodations
and \(\$ 3.80\) for a ride both waye (with some kind friend.) That leaves \(\$ 4.20\) to throw around,
which ain't much but can be which ain't muct
made to suffice.
made to suffice.
On Friday night you can get \$1, 10 or \(\$ 1.65\) geats for "Helizzapoppin," "Kind Lady," Who Came to Dinner," or "The Tho Came to Dinner of Your Life." Possibly for the newer shows including "Louisiana-Purchase" and "There Shall Be No Night." Prac tically impossible for the two VERY new shows, "Boys and Girlm Together" and "Hold On to Your Hation
Then Biffy Rose'
That leaves from \(\$ 2\) to \(\$ 2.65\) Well you can actually go to Billy Rose's Diamond Horseshoe for about \$1.65, including averyth day night. Thus you"ve had one bip evening a grod play, a night club with a awell floor-akow, and

\section*{Was Class Choice For Feb. 3 Date}
"It's Tommy Dorsey, the "Sentimental Gentloman of Swing, who will bring his entire nationally-favorite aggregation to Syracuse Moncay, Feb. 3, for the annual Senior ban, accorring to Harry Moss of the Munic Cor poration of America, who confirmed the bandis engagement ast night in a telephone conversation from New York city
Dorsey will fly East Thuraday
Dorsey will fly East Thursdey, Dec. 12 , to arrange for his appearance at the Paramount theater in New. York city Weinesday, Dec. 18. Following his theater engagement Dorsey and band will report to the Meadowbrook in New
Jerbey.

\section*{Chancellor Warns Against War Hysteria}

\section*{Faculty Demands
War Declaration \\ "We, the undersigned, respectfuliy urge you to spon-} sor an immediate declaration of war againat Germany and Italy!"
Thus, in unequivocal language, 38.Syracuse university faculty members petitioned President Franklin \(D\) Roosevelt, Vice-President Henry A. Wallace, New York State Senatora Robert F. Wacmer and James Mead, and Congresgional Representatives Caroline The appeal, drawn up trett, and Clarence Hancock. Galpin appeal, crawn up tor...eeks ago bun Freaman Galpin of the history department and Dr- Robert Steadman political science professor, was circulated among leading Galpin members over a \(10-d a y\) period ending Wednesday. Dr. signed resolution to Washington.
In a powerful p
and haif document, the 38 interven-
We are fully aware of the grave responsibilities assumed in nalang this request. The solemn gravity of these res ponsibilities, however, does not blind us to realities. . Chris gianity, Democracy and Freedom must be preserved and we totalitarian Germany andItaly
. The petition outlined a fourpoint bill of grievances against totalitarianism:
1. Germany and Italy have repentedly violated human rights, liberties and decencies.
2 . Totalitarianism seeks to des 2. Totalitarianism seeks to des-
troy democracy the world over. 3. Totalitarianism, should Britian and Ireland be defeated, will harness and develop the economic resources and man power of Europe for
4. A totalitarian vietory. wil spamp, out free trade, and enter prise along with free speech and a free press.
Explaining their demand for immediate official action, Dra. Gelpin and Steadman in
troduced their bill of grievances With: the beginning of the present world conflagration, we hoped that America migh fict continued and widened, and as one neutral state after another was brutally crushed without warning. we found that "neut rality" was obsolete"
The strongly-worded document ingisted that a negotiated peace with the Axcis powers would leave most of many "time to gird herself for the conquest of the Americas. A negotiated peace is a Hitler vic tory and this the United States has pledged itaelf to prevent. We feel that those who urge us to wait and fight alone against the combined economic and military force of the rest of the world have graver consequences.
In answer to the query, "Wiould auch a declaration mean eending Americne troopp mbroad," Dr Galpix told The Daily Orange last night, "I'm no general on this matter. The war department must decide. I'm notspeaking for anyone but myself, but I favor sending American troops acros: Concerning the ext
