\section*{March to advocate safety, end to domestic abuse}

BY BETH BRAVERMAN Staff Writer

Take Back the Night, an event calling for safer college campuses and neighborhoods, will be puses and neig.

Comprised of a march starting at Hendricks Chapel and continuing through campus, a speaker and a media-free "speak-out," Take Back the Night speaks "to raise awareness and help people feel awarenes and Kelp people feel the Syracuse University's Panhel lenic Association.

Panhel, representing 11 SU sororities, will participate in the march.

The event's coordinator, the SU Rape: Advocacy, Prevention and Education Center, is hosting a media-free speak-out because they do not want people to feel uncomfortable telling personal stories, Korf said.
\({ }^{4}\) I think what that means is there won't be T.V. cameras there," there wont where won't be repore, there. People will be able to ex-
press themselves without it being reported anywhere - it's basically a safe haven for people to speak.
"If someone was raped, they could stand up and tell their story as an inspiration to people that as an inspiration to peo

Several SU students voiced their own concerns about violence against women.
"I think there is somewhat of a problem," said Jennifer Brown, a freshman child and family studies major.

She added that people seem more angry now then in the past and they cannot find outlets for all of their emotions.

This causes them to resort to violence, she said.
"It is bad and something should be done," said Danielle Kubilus, a freshman economics major. and not everything is reasolved and 1 think we need to tare reported. Ithink we need co take ac-
against domestic violence.
oadcast journalism major sai broadcast journalism major, said
violent behavior begins early and
children need to be taught at a young age what is right and wrong. feel it is increasing yearly, he added. Thas to do with the lack of education and it stems from the need to employ more supervi-
sion of kids at early ages." sion of kids at early ages.

Students reported 74 cases of assault last year, according to the RAF.E. crter. 67 in 199858 in 1997 and 30 in 1996, the report 1997.

Forty-two students sought help at the center for sexual assaults that occurred last year within the SU community, according to the report.

Nate Moradito, a freshman broadcast journalism major, said he agrees that action needed to be taken against domestic violence.
"It is not right for any man or woman to think they have the right to abuse cach other," he said. I think that needs to be at the forefront of the criminal justice system."

\section*{Diplomatic discourse}

Jalme Daremblum, the Costa Rican ambassador to the United States, speaks to an audience in Eggers Hall about his Country's history. Daremblum has also been a gurest speadkel ot the white House, as wall as other universities and fornms worldwide.

\section*{University helps high school find focus}

\section*{BY KEVIN TAMPONE} Asst. News Editor
U.S. high school students are "bored out of their minds," said Neil Driscoll, spakesman for trict.
\({ }^{\text {"On }}\) One of the biggest criticisms of American education is that the kids are bored to death," Driscoll said. "We've got to begin developing programs to attract people and get people to stay in the city of Syracuse.

The staff of Fowler High School and members of Syracuse University's L.C. Smith College of Engineering and Computer Science are joining forces to develop programs to accomplish that goal.

This fall, Fowler will begin a program to trans form itselfin to a school providing a focus in math, science and technology education

\section*{PROTEST}
continued from page 1
dents attended non-violence and shared tips for what to do ir confronted by police, he added.
"All we can really do is offer certain techniques that will lessen the effects of tear gas, like dousing your face with lemon or with vinegar, stuff like that," McCord said. "There's just local things you can apply to lessen the effects of tear gas."

Most students left Thursday for the protest, he said.

McCord said there were about 15 people he knew that left already. There are about 100 local students going to the demonstration from SU, The State University of New York College of Environmental Science and Forestry. Le Moyne College and local high schools, he said.

The groups are taking advantage of the Internet to get the word out and plan events like this trip, MeCord said.
"There's an activist community in Syracuse that's pretty tight," he added. "So when things happen, like the D.C protest, we manage ther
gether pretty quickly."

There is no set time for when local students are returnWhen tocal students are returnbecause different people hav different plans for the event.
"Some people may well ested and stay until they get out of jail," he said. "Some people are staying throughout the weekend and some people are coming back Monday.

McCord said he is planning on leaving today, but because he is a teaching assistant in the SU English and textual Studies program, he is prevented from staying as long as the other students.
"I have to be back in order to teach," McCord said. "I'm just going to go to offer support to my colleagues there at D.C. I'm going to offer food to people and medical attention if I can."

There are also capital-area activists that are making their Mouses available to protesters McCord said.

Others are camping out in various places around the city, including at university campus. es, he added.

Lod different jobs were all as: signed out food to administerins medical attention to injured protesters, McCord said.
"We've split up the labor and we've organized it so everyone has a job and everyone's helping each other," he said.

Some students, however. were prevented from making of school or work obligations.

GCOOL member Nick Sil-
for its students, said Jaime Alicea, the school's principal.

The \(\$ 100\) million program was funded in this year's Syra cuse City School District budget by Superintendent Stephen Jones and involves funding staff train and in the new subject areas and purchasing new materials for the purchasing new materials for the city's budget was reeased Monday and includes the full amount of funding for the school district and the Fowler program.

Last January, Alicea said he met with members of his staff to review the schools status and how to improve its acadernics.
"We feel it's our responsibility to provide our kids with the skills they need to succeed in life," he explained. "There's a lot of job opportunities out there in the field of technology."

The new program will involve a partnership with faculty
a, a sophomore economies major, said despite the fact he could not join his fellow protesters protests in Syracuse will contin
"Basically, we're just going
members from SU and Onondaga Community College who will do some of the teaching in the new program and provide mentoring and guidance for the students. Alicea said.

SU staff members involved with the program could not be reached for comment.

Students will also have the opportunity to participate in internship and shadowing programs with local professionals in careers based on math, science and technology, he added.

Fowler's new initiative will concentrate on four science-related career fields to give students a solid pre-professional grounding, Alicea said.

The school will offer concentrations in health, biochemistry, engineering and computer science, in addition to all the other subject areas the school currently teaches, Alicea said.
to be standing behind every-
body that's in D.C." Silva said. "Some of us, we can't make it to D.C., but we're going to show our support by camping out and staying out as long as we can." In addition to circulating
"This is going to take a commitment from the whole staff," departments to find ways to integrate technology into all the subjects they teach.

Driscoll said Fowler's innoation will allow interested students to receive a more thorough ducation within the subject arcas the school will focus on
"It lets the classes accelerate n those areas that the kids are interested in," he said. "Not every kid is interested in math, but others are."

A recent boom in alternative forms of education, such as char ter schools, is forcing public shools to concentrate on finding inventive ways to keep their students interested and enrolled, Driscoll said.

Charter schools were recently made legal in New York state and generally provide educational
alternatives to public schools such as a longer school day or a focus on specific subject areas Syracuse's first charter school the Central New York Math and Science Charter School, will open this fall and focus on similar areas as Fowler's new program With the charter school movement, public education is in direct competition," Driscoll said, "It lets them tocus in areas they're primarily concerned with."

Alicea said that although the main goal of the program is to improve gcademics and achievement for Fowler students, the idea that other students may be attracted by the program is an added bonus.

OOnce we establish a solid academic program, if other kids want to come in then that's great," Alicea said. "The doors will be open."
petitions, the group has been camping out in tents on the SU Quad since Tuesday night. The shop, covered with anti-sweat manned at all times by SCOOL and Student Environmental Ac-
tion Coalition members.
"We're going to spread the word so that people are very aware of what's going on," Silva said.

\section*{JUDICIAL}
continued from page 1
citizenship," she said. "It's a pretty positive report.

Violation of the university's alcohol policies, however, restilted in 12 greek chapters charged with breaking the SU Student Code of Conduct. Four of the campus chapters were chand not responsible while two
chapters were found responsible.

Those responsible faced restrictions on social events and were required to participate in alcohol education and community service, Urtz said.

SU Panhellenic Association President Sarah Korf refuted Urtz's claim that Rush contributed to the number of citations.

Rush is a bi-annual event that invites students to tour greek houses and join one of them. After they join, or bid, students go through a period of greek community education or pledging
"There's no alcohol involved in Rush or pledging sol don't tribute." Korf said.

Alpha Omicron Pi sorority closed last week after its national office found evidence of hazing within the house.

Seven chapter cases regarding alcohol violations remain under investigation, Urtz said.

As violations within the greek community rose, alcohol violations from off-campus dropped, according to the report. Urtz indicated that this drop showed greek life was replacing off-campus parties as a social outlet for students.

Urtz said changes in the SU Office of Greek Life and the nature of misbehavior caused the rise in greek violations from earlier in the year.
"We don't see as much hazing and there's a lot more attention to alcohol violation," she said. "There's continued difficulty in the greek houses in dealing with alcohol."

OGL also operated without a director for more than a year and different people have been working in the office, Urtz said.
"Different people have looked at these issues in different ways," Urtz said.

We don't see as much hazing and there's a lot more attention to alcohol violation. There's continued difficulty in the greek houses in dealing with alcohol.

ANASTASIA URTZ Judicial Affairs director

Any reputation the greek system has, it gave itself, Korf said. But she said she is curidown of violations within other groups.

What happened, happened," Korfsaid. "Putting something like that in the report isn't giving us a bad reputation. I'm just curious if we are the only group where there lies a problem, or what they deine as a problem.

She added that she hopes administrators realize the good things greeks do for the community.

We're doing anything we can to be proactive and educate students," she said. "I hope that's recognized."

\section*{Residential conflict}

The residence hall with the most violations was Flint Hall with 53. Day Hall had 45 and Sadler had 43. Off-campus locations had more violations than the residence halls, with 69.

Kimmel and Shaw halls were the lowest on the list with one violation each.

Alcohol and drugs were involved with most of the violations, 202 out of the 308 . Judicial Affairs reported an in crease of 15 percent of alcohol violations from October to December, but an overall decrease from September to October when there were 396 cases related to alcohol or drugs.

Officials in Judicial Affairs attributed the decrease in violations to student awareness.

The first violation involving alcohol results in a warning or disciplinary reprimand and an education program.
A second violation results in disciplinary probation and a

There's no alcohol involved in Rush or pledging so Idon't know how that could contribute. \({ }^{5}\)

SARA KORF
Panhellenic Association president
substance abuse program while a third violation results in indefinite suspension from the university for a minimum of one academic year, according to one academic year, according to

Kristin Sheehan, a sopho nore speech communications major, said she feels the sanc tions are too harsh.
"If someone is 20-years-old and has a beer, they have to do community service and Alcohol Awareness 101," she said. "College students can be responsi ble for themselves."

Of the total 308 cases, ille gal drugs were present in 31 cases. Although a decrease from last quarter's 46 cases, drugs are still a major concern, Urtz said.
presence of drugs in Judicial Affairs cases indicates that there is a larger propor tion of students using drugs and that buying illegal drugs can also pose a risk to students who are not involved in the deal, she said.
*A few years ago, alcohol was the main choice for stu dents," she said. "We're start ing to see some competition in drugs.n

The report also mentioned several violations of the code of conduct while students were away from the university. Some violations included arson, pos session of a false identification card and marijuana use.

The arson resulted in the students' indefinite suspension from \(S U\) and the student with he false identification received a disciplinary reprimand and completed an educational prodismissed because of a lack of dismissed vidence.

Urtz said that Judicial Af-

added
Quayle will hold a press conference at 4:30 p.m. Monday in Room 304A of the Schine Student Center. He will have a book signing at 4:50 p.m. in the SU Bookstore.

Quayle wrote "Worth Fighting For" in June 1999. The book addresses American
"There was a time when black athletes spent time with black folks." Grinner added that the football players are not solely responsible for their alleged alienation, but university administration is also to blame.
"My beef has never been with the football players or athletes," Grinner said. "It's with the administration. They give you guys privileges that most students don't have."

She cited the March 25 incident in which members of the football team and members of Omega Psi Phi brawled at a dance hosted by the fraternity

Police arrested two football players, center P.J. Alexander and cornerback Will Allen

When a skirmish takes place, the players aren't going anywhere, but the fraternity gets campus," Grinner said.

Emerson Kilgore, an offensive guard and a junior child and family studies major, countered by stating that it is a myth that football players receive special privileges that other students do not.
"Everyone thinks we get so much for free," Kilgore said. "We pay for everything just like everyone else. I'm a student just like everyone else."

Running back Kyle Johnson, a junior producing for electronic media majar, said that while the players receive full-tuition scholarships to the university, they have to work hard to keep their positions.

They're going to get every penny of that 30,000 dollars," Johnson said. "I think a lot of people don't understand the situation an athlete is in.

Many people at the formm agreed that money plays a key role in shaping black students* role on
sponses to them.
He will have dinner with members of the College Republicans and local political figures after the book signing.

attract about 500 peopected to
campus.
Fullback George Scott, a freshman in The College of Arts and Sciences, said the influence of money is not just a factor at SU, but nationwide.
"That's America," Scott said. "It's money running this thing."

Another common myth about the football team is that they are untouchable by authorities, said wide receiver David Tyree, a fresh man in The College of Arts and Sciences.

He added that in many cases, their punishment is worse than a non-athlete student.

We are totally touchable," Tyree said. "The average guy can fight and it just gets broken up We fight and we get suspen
e're far from untouchable."
"The first thing everybody's got placeable, said tight end Aaron Leering major.

Alexander, a junior information studies major, agreed that in many cases, SU administration many cases, against the players.
works against the players.
-There's a list of people they're trying to throw out of here," Alexander said. "Some people are out to get us."
The administration, however. works against all minorities, whether they are athletes or not, Grinner said.
athletoure black whether you're she said.

\section*{Fitting in}

Alexander argued that the players do not mean to alienate themselves, but simply go where they feel welcome.

That's not how we try to act, Alexander said. "I try to go about don't have a problem with any-
said. Tickets are avaitable at the Schine Box Office. The cost is Schine Box Ofice. The cost is
\(\$ 2\) for SU students and \(\$ 5\) for non-students.

Quayle's message should interest everyone on campus Burns said.

II think SU students are going to be impressed," Burns said. "He has a message stu-
body." He added that while the football team may not partake in many organized activities in the black community, they are not try ing to insult the community.

We are separated to some extent," Alexander said. "But it's be cause we're with each other so much it's like a family.*

Since the members of the football team come specifically to SU to play football, it is difficul or them to get involved in other activities, Alexander said. As duced to the routine of living and uced to the routine of living and orking as a team, he added

We're already segregated hen we come," Alexander said.

This team image often conributes to the stereotype that ootball play the are separate from ne rest of the comm said.

If they've been acting like we've been seeing at the last couple parties, you're going to get ple parties, youre going to get

Mayo attributed the continued problems between Omega Psi Phi and members of the foozbal in the black community.

Members of the team, howev er, said that the pressure to be trong athletes and students out weighs the expectation to become nvolved with the black communi ty.
"I want to be the best football player I can be and the best stu dent I can be," said linebacker Morlon Greenwood, a junior health and exercise science major. It's very hard as a student athlete to master both and be expected to join an extracurricular activity."

\section*{SU junior composes rock opera 'The Wall'}

It's not uncommon to be inspined by music. Nicholas Alexander Cotz was.

Cotz, a junior drama major, loves Pink Floyd. During his junior year in high school, he one day carefully listened to the lyrics Realizing that Floyd's lyzics are Realizing that Floyd's lyzics are ry, Cotz said he had a flash of inry, Cotz sa
"It was when I was listening to 'Comfortably Numb' that it hit me," he said. "I could hear that the lyrics were really people speaking to each other. So I screwed
with a scene in my head."

But Cotz did not stop with But Cotz did not stop with
one scene. He took the lyrics from one scene. He took the lyrics from the entire album and turned them into dialogue, creating the rock at \(7 \mathrm{p} . \mathrm{m}\). and Saturday at 2 and 7 p.m. in Goldstein Auditorium.

The story - not related to the 1982 movie, "The Wall" - is set in the 1950 s United States, when the Beatnik movement
supporters were on the verge of revolting against the federal government.

In an attempt to eliminate all the "bleeding hearts and artists," the federal government created a project to raise and mold a newborn child to be "America's Hitler.

FBI Agent Mortar, played by senior drama major Joe Mazzella, raises the child, appropriately named Pink Floyd, played by John Jeffrey Martin, a senior musical theater major.

Pink grows up as a disciple of the government and becomes a rock star. He leaves his mother, played by junior drama Stephanie St. Hillaire, and marries Vera, played by sophomore drama major Emily Hope Hunter.

The show's
orchestra"/rock band is lead "pit guitarist Chris Heels, a former SU student, who Cotz said is "arnazing."

Pink is living within the walls set up by the government and eventually discovers that he, walls for himself. Throughout the

\section*{co}
"The Wall" is playing tonight at 7 p.m. and Saturday at 2 and 7 p.m, at Goldstein Auditorium in the Schine Student Center. rlckets are \(\$ 3\) for Arts Adventure subscribers, \(\$ 5\) for students and \(\$ 7\) for the general public.
show, he struggles with his own feelings and tries to escape.
"This is worlds away from anything else I've ever done during my acting career," said Martin, who admitted that he was never a big Pink Floyd fan until he met Cotz. "Most of the stuff we do, the actors live in a happy world on stage and they never really challenge the audience to think or change. Pink is trying to
break the fourth wall. This in-
spires change."

\section*{Behind the scenes}

Cotz began working with his four main actors the week before Spring Break. The cast and crew of about 50 have been working ever since to get things "exactly right:"
"This isn't like a regular script, "he said. "This is like Shakespeare. It's high poetry, full of subtexts. It's very difficult to pull off, but theyre doing such a great job."

In addition to coordinating the actors to the musical and lyrical complexities, Cotz had to coordinate the stage's look and feel.
"There's no set, really," he said. "There are five huge video screens where well project still and video images throughout the show. This is thousands of dollars of technical equipment

The total cost of the show is almost \(\$ 21,000\). Five thousand of which came from the Student Government Association and the rest came out of the Arts Adventure budget.

Martin sa:d the set makes
the show even more impressive. I'm almost certain that never in my career will I get to play a role or be in a production with this much gut-wrenching emotion and this kind of incredible set, he said. "I just can't believe how powerful this show is.

Even for those who aren't familiar with or do not like Pink Floyd's music, Cotz encourages attending.
tricd tom a very big fan, but 1 thicd to make this so that even if you don't know anything about the music, you will still under stand the show and it will be just as powerful," he said. "And this is a good way to introduce people to Pink Floyd's music."

After more than a month of hard work, Cotz said he is proud of the work he and his cast and crew have put in, and he is very confident that his show will be a hit.
"It's really amazing," Cotz said. "I sometimes just want to cry when I see something I made come to life on the stage. It's go ing to be like nothing else."

Dave Matthews Band for the 15 or so patrons that are already saddled up to the bar.

This is exactly the kind of activity to which Burak hopes students will find an alternative. She said she hopes the tive. She said she hopes the some eyes to a healthier lifestyle.

Burak compared the tournament to "Field of Dreams," a movie in which Kevin Costner stars as a corn farmer who plows under his fields to build a baseball diamond and ends up magically tapping into a cosmic love of the game.
"If you build it, they will come," Burak said. "Maybe other people will decide they want to get involved, too."

Student Liz Gebler, a senior graphics major, said she has found a way to reconcile alcohol and karate. She enjoys being fit and sees karate as part of her fitness, but also enjoys partying, she said.
"Drinking is an enjoyment thing," she said. "Some people drink, some people work out, some people do yoga."

Body and sonl
Back at the Women's Building, the beginner class has ended and now the advanced students are warming up. Keller takes a break to discuss his unique take on the matter of karate and alcohol.

Keller has been a bouncer at four bars on the Hill. He is also an SU graduate.
"In my undergraduate days, I was known to tip a few," Keller said. Nowadays, he said, he mostly socializes with other people he knows from karate. They are not teetotalers, he
said, but not heavy drinkers as well.
"You just can't abuse your body and do the things we do in here," he said.

Tonight, Keller put his advanced students through a workout, then gave them last minute tips for the tournament. Most are competing. Keller runs them each through the katas they will perform. Katas are an extended series of rehearsed moves that demonstrate their level of skill.

The katas are intense. Student Liz Ely, a senior environmental and forest biology major, is practicing one called Hung Gar. Everyone is gathered around in a circle as Ely begins her kata with a shout.

She is a study in concentration as she swings her body through lightning quick strikes and slow, powerful arm strokes. The quick motions yield loud uniform. The slower ones,
called tension moves, earn a deep exhalation and she moves as though her arms and legs Jell-O ratherg thin air.

Minutes after she has tnished, she still struggles to regain her breath.
"That was designed to completely wear you out, \({ }^{\text {Ely }}\) said after class. The Hung Gar in its original form was its original form was a
complete workout in itself, she said. She has been prac she said. fore has been pracmonths and will perform it on Saturday.

But for Ely, a longtime gymnast before she began karate, it was the spiritual side of karate that attracted her.
"With
you're training yourself to be disciplined," she said, "That transcends into the discipline you need for the rest of your life."

\section*{WOMEN}
continued from page 20 from our effectiveness.

The showdown with BC , originally slated for Saturday night, was bumped up to Friday afternoon at 1 p.m. because of a conflict with the Eagles' spring football game at Alumni Stadium.

Miller said the team worked primarily on maintaining offensive pressure and shooting with a sharper eye during Wednesday's usual two-and-a-half hour practice.

SU lit up the Eagles for 20 goals last season in an April 17 win, firing 36 shots at the BC cage. Senior tri-captain Lauren Brady, an Acton, Mass., native, ignited the charge with three goals and an assist in the 12 -goal win.

Tallying nine goals over the past two games, Brady has established herself as the current go-to goal scorer, freshman goaltender Carla Gigo said:
"Lauren is just on fire," Gigon said. "She's been playing awesome, and she has a tremendous shot that's hard as hell. She's got great placement on the ball, and she can find the back of the net anytime."

SU's largest challenge Friday may come in shutting down the Eagles' top three snipers. Lauren Miller leads BC in points with 21 goals and 32 assists, and Susan

lofty 30 and 26 goals, respectively.
"They're a good team with some good players, but we always try to run on them and see if they can stop the breaks," Miller said. "We're going to try to shoot a lot and try to take their big three out of the game."

Gigon, who made her first start last Saturday at Rutgers, will be in the net Friday, playing in front of family and friends making the venture to Chestnut Hill from Hingham, MA.

I'm very excited and happy to help the team out," said Gigon, whose sister, Cristi, captains the Brown University team. "It will be exciting to be playing back home with my parents and so any friends in the stands.

Gigon's recent emergence as a legitimate Division I netminder came as she learned the finer points or and learging to angles on hookers in learing to step to atsave, Miller said.

Last year against Fairfield on April 25, SU beat the Connecticut team handily, totaling 33 shots en route to a dominant 14-3 victory.

Although Miller said she knows little about this year's Stags squad, she is anxious to see how her group executes in the early stages against a less-formidable opponent.
casily both times
them," Miller said, "but that is not to say we'll underestimate them. The question with them is Will we play our game effectively and not lose our focus?

Miller credits team defense to the tune of nirre goals against in the their last two outings - as the prirnary source of the Orangewomen's confidence entering another weekend that is crucial to their playoff chances.
"I think our defensive unit played very well last weekend," Miller said. But our transition game came in spurts. We played a half against Rutgers and a half against George Mason

We have a tendency to stand around and stall on offerse. We were trying to correct that yester:-
day and work on better shooting." Sophomore defender Carrie ults, a catalyst to that defensive success, said the team will not allow its six-same win streak to af fect its focus Consistently doine the littlo things to win rames and the little things to win games and should translate into two victories Shoult Soults added.

We're pretty confident after the Gearge Mason win," she said. "But we have to respect our opponents because you never know if something we didn't expect. That shouldn't be a problem because we've been working on everything all season long. We can't let a bad performance take all that away"

Katina Hable and the Syracuse Orangewomen will play the games this weekend. On Friday, they travel to Boston College for a 7:30 p.m tilt. Sunday, they retum home for a \(\mathbf{2 : 3 0}\) matchup with Fairfield.
\(I\) soant everyone to know that it vacu the people that made me stay here as long as I did. You hove all helped to make me the person I am and I hope that in some small wacy I have done the same for you.

\section*{My peeps in design}

Billy - Come with me into a
world you've never known...no not that! Just a world outside the Daily Orange. Thanks for everything esp. the job:)
Tommy - I miss you.
Elaine - Thanks for helping me bridge the age and stairs gap
I'll miss your giggle.
Tito-ALLENTOWN! Keep the tradition alive.
Tom, Clifton, Claude, my pal for \(20+\) hours of sraveling. I'm glad you didn't ger bumped. You are one of the only people 1 now that can follow an idea to the finish. You're an amazing person.
Melissa - I hope you are well and happy in all you're doing.

Photo - you collecrively weigh 2001bs. I wish we had played painttball in departmental teams. Tom "The Weave" - I'm not going to Denny's EVER again. Copy - always a lot of character in that department...Christian, Billy,
Lene, Fooks, Brendan all
crazy in good ways. Prabucki -
"I'm a little rugger...
Sports - I love all my sports boys present \& past, 'cept you Passan D.C. - you deserve more sleep Jilory - Little yellow different Sapna - Thanks for laughing at my jokes.
Corcy-I'm still waiting to go to Paris, so ler me know when

\section*{KNIGHTS}
continued from page 20
New Jersey.
"We've got to build as a team," he said. "I wouldn't want to be Rutgers on Saturday night at 7:30. We're going to work our tails off all week.

Powell and the Orangemen attack should find little trouble dissecting the Rutgers defense. The Scarlet Knights (2-6) surrender almost 14 goals per game, including 17 against Virginia and 15 to struggling
Delaware.
SU's senior attacker, who tallied six points in the loss to Cornell, continues to sit atop the national scoring standings with 27 goals and 25 assists. Last season, against the Scarlet Knights,
he scored four goals and added six assists.
d, At the other ts close defens around silencing Cromwell. But
Rutgers also boasts Scott Massey, a University of North Carolina transfer who scored five times in the victory over Stony Brook.

Freshman Mike McLaughlin, a West Genesee High School graduate, serves as the point man on offense. He leads Rutgers with 16 assists.

Although its extra-man unit scores at a 43 percent clip, good for sixth in the country, the Rutgers attack averages only 9.6 goals per game. De spite the numbers, Cromwell
still worries the Orangemen. Rutgers has a fairly young team," Desko said. "Cromwell is an excelient lefty attackman whos hurt us in the past. Well need to play better against

All season, SU's dominance in the face-off circle spurred its high-powered offense. Face-off

\section*{ \\ Conference}

This Season Head Coach
Key Players

The scoop

Syracuse Orangemen Syracuse plays Rutgers at \(7: 30\) p.m Independent
7-1, No. 1 in the nation
John Desko (2nd year, 196)
A Ryan Powell ( 27 g. 25 a). \(M\) Josh Coffman ( \(8 \mathrm{~g}, 16 \mathrm{a}\) ), G Rob Mulligan (. 622 save pct., 8.05 GAA)
Three days ago in thaca, Comell pinned Syracuse with its first men's lacrosse loss in more than 10 months. In rough weather conditions, the Big Red's patient and inverted offense flustered an aggres sive SU defense, and Justin Cynar made five key fourth-quarter saves in the Comell net. A couple days of intense practice, sparked by Powell and his fellow seniors. likely whipped the Orangemen back into shape. The SU attack should exploit RU's weak and inexperienced defense, which gives up 14 goals per game.
specialist Chris Cercy ranks first in that department in the most recent NCAA statistics.

Joined by wingmen Sam Bassett and Joe Ceglia, Cerey struggled at the beginning of the season. In SU's 13-12 overtime win at Virginia on Mar. 4. he won just 12 of 29 draws.

Since the opener, the unit began to control the game's tempo by scooping two face-offs for every one the opponent recovered. Through eight games, Cercy owns a 67.4 percent success rate in the circle.
"We're getting more pos-
sessions," Desko said of the unit's play. "Were playing less defense, and we're putting pressure on the other team's defense.

Rutgers' midfielder Brian Fisher wins 62 percent of the draws he takes, good for tenth

The Scarlet Knights also

Saturday ar Yurcak Field.

\section*{ECAC}

2-6. 1-2 ECAC
Tom Hayes (26th year, 193-151)
A Keith Cromwell ( 24 g. 16 a). A Mike McLaughlin ( \(10 \mathrm{~g}, 16\) a). G John Martino (.527 save pct.. 13.5 GAA)
Tom Hayes deserves better. In October, he announced 2000 would be his last year at the helm of Rutgers, conctuding an illustriaus 26year career that includes five NCAA Toumament appearances and 24 Top 20 finishes. But his young Scartet Knights, expected to be a factor in the newty-formed ECAC, struggle on defense and own losses to Delaware, UMBC and Yale. However, SUl lost 12 10 in its last trip to Yurcak Field in 1998. The Knights won their last out ing as well, besting Stony Brook, 13 10. on Tuesday.
carry a veteran goalkeeper in John Martino. The senior made 19 saves in an RU victory over Radford and 22 in a battle with No. 4 Princeton.

Beyond his talents in the crease, Martino possesses the ability to start a rush himself. He starred as an attackman until his sophomore year of high school and displays stick
skills far superior to the typiskills far superior to the typical collegiate goalie.

Martino's opposite number, SU junior Rob Mulligan, watched a season-high 13 goals sail past him in Ithaca. After a three-game streak where the

continued from page 20 linebacker to accommodate the Orangemen's defensive needs. Bulluck, at 6-foot-3, 232 pounds wressed 46 40-yard dash, has impressed experts like kuper Jr., play the play all three linebacker posiPro Football

Pro Football Weekly's draft analyst Joel Buchsbaum, who ranked Bulluck as the No. 5 outside linebacker in a category that includes Lavar Arrington of has first-round ability.

\section*{Hosts Needed!}

The Office of Admissions is looking for volunteers to host high school seniors admitted to Syracuse University for the fall. These students are visiting campus to decide whether SU will be their home for the next four years. Each will be staying overnight two nights, ideally in a residence hall with an SU student, like yourself, as their host.

We need you! If you would be interested in hosting one student from this Sunday, April 16 through next Tuesday morning, April 18 (including Sunday and Monday nights in your room), we'd love to hear from you.

Please contact David West at 443-1594 (or dwest@syr.edu) today to sign up: Dave would be happy to fill you in on the specifics. Participation is limited, so please act now.

You're loving the SU experience! Help someone else realize how great SU can be!

Bulluck also plays like a firstround pick at times, but remains inconsistent, Buchsbaum said.

Bulluck's off-field record includes an arrest for Driving While Intoxicated, but it never seemed scare away NFL scouts.
Kiper Jr. predicts the Kansas City Chiefs will select Bulluck with the No. 21 pick. The Chiefs need defensive help after losing All-Pro linebacker Derrick Thomas, who died in an automobile accident in January.
"He's an expectant athlete," Kiper Jr. Sadd about Bulluck on ESPN. He has instincts to locate the ball and is a tough enforcer in terms of the tacking ability that he brings to the derense. If you in a very versatile all-around linebacker."

Spotwood agreed.
"Analysts expect him to go first-round," he said. "I'm happy for him. He's getting his due. He's worked hard for this and he deserves it all."

The former SU receiver may join Bulluck on Sunday afternoons next year.

In 1997, Spotwood tore his anterior cruciate ligament, rendering him ineffective that year and placing a damaged label on the speedy wide receiver.

But he came back in 1999, showcasing his versatility by fielding punts and playing wide receiver. He led a team without consistent quarterbacks in receptions with 32 while finishing second in receiving yards with 380. He also scored three touchdowns.

Despite a post-injury 4.6 in the 40 -yard dash, the 5 -foot-10, 189-pound wide receiver said that hrings went well for him at the NFL combine.

If one thing stands out for my Syracuse career, it would be mf thines can change when. A lot iniured But you wave youget what life gives you Everythis what work cut"

Despite a
Despite a tragic stabbing incident that prematurely ended his senior season, David Byrd contin Smake pre-draft waves.
Speed remains on his side, with a 4.55 in the 40 -yard dash 193 pounds, making him big asough to cover receivers in the NFL, Buchsbaum said.

He added that Byrd is a developmental NFL player, but his size and speed ratio will make him an asset come draft day.
Two former Syracuse offensive lineman also hope to find employment at this weekend's draft.

Pro Football Weekly's Buchsbaum rated offensive tackle Mark Baniewicz as the No. 13 tackle in the draft. He possesses intangibles like intelligence and a 4.0 undergraduate GPA, the draft analyst said.
For Baniewicz, the combine wasn't as tough as the psychological testing. The New York Giants even administered a one and one-half hour test to gauge players' sanity. It included questions like: "Do you take showers or baths?" and "If you were an animal, would you be a cat or a dog?"

The 6-foot-5, 303 lb . ineman draws comparisons to the Giants' Luke Pettigout and started every game for three years as an Or-

"I'm really happy to have the ability to play at the next level," said Baniewicz who many project as a fourth or fifth-round pick. "I can't be picky about what team I want to play for. I'm just grateful to have the chance."

His fellow linemate Jeff Pilon didn't participate in the NFL combine but still worked out for professional scouts. His workout assessments would have matched up well with offensive linernan at the combine, Pilon said.

Pilon, who has already been drafted by the Winnipeg Blue Bornbers of the CFL, is projected by The Sporting News to go in the fifth or sixth round.

If the NFL doesn't work out, he will give the CFL a shot, Pilon said from his home in Nepean, Ontario.

SU's complicated offense can only help Orangemen like Banjewicz and Pilon compete in the NFL, Pilon said.
\({ }^{4}\) In our program, it's a hard offense to learn," Pilon said. "It wor't be as hard when we have to take it to the next level. We will already be able to understand a complicated offense."

Longer shots for Syracuse include former linebacker Vernon Banks, former tight end Stephen Brominski, former defensive back Ian Mintosh and former defensive end Derrick Corley.

Draft day is less than 24 hours away. For two days, a tiny den Theatre will hold the fate of den Theatre will hold the fate of several former Orangemen.

I think anxious is probably the best word," Baniewicz said. I'm excited to see where my new home is going to be."

cinemaniacs
and well say it again, this was a parade of stars.

Not just any stars, they were predominately from the rap community, along with a pro basketmodel and a faw rich Lids ther, a in. in. \(A\)

An ensernble cast does not have to be a parade. Not all filmmakers can get this through their heads. Some can like the Coen Brothers and Paul Thomas Anderson, but Method Man Raekwon, Allan Houston, Mil Raekwon, Allan Houston, Mike Phillips and Brooke Shields (breathe) couldn't save this picture from the plot - or lack thereof - that sunk it faster than the Titanic.

Not the film, the boat, kids.
We all know that film had the box-office receipts to resurrect that damn boat in more ways than one.

The plot to "Black and White" is not in black and white. Not even in script format

It follows the story of innercity kids, both wealthy and poor - gangsters, legitimate business men, scholars and a documentary filmmaker who runs into them all with her alternative-lifestyle

Yeah, it is a mouthful. And it's an eyeful.

This expanse and the pace at which it treats it add to the overall lack of focus.

For half the film, one sits there and says: "Who is she?" "What's going on?" "Is this a weekday?

\section*{Meet the stars}

The resident race expert in the film is a conniving sociopath whose senior thesis is almost claim to her knowledge of the It's kind of wondy we know.
hey, it's in the flm kno but hey, it's in the film.

She is played by Claudia Schiffer, of all people. We're sorry, we just can't see her being an expert on much more than magic and modeling.

But the other part.
Next we have Brooke Shields, the filmmaker who is searching for the truth, but wont even recognize her own husband's homosexuality, although she thinks she may find it in a group of white rich kids.
These rich kids are led by Bijou Phillips.

Young is, in our hearts, quite annoying in this film, but
ter when he takes on a key role ter when he takes on a key role in the newly film-adapted J.R.R. Tolkien series.

Bjou, Wood and crew all shoot their mouths off about hiphop life and its influences on them, and pride themselves on their direct relationship to infamous inner-city gangsters.

One such gangster Rich. played by Power, tries to go legit and legally make hip-hop records for the rest of his life with his franchise rapper Cigar, played by real hife Wu-Tang member

Not the only rep from th Wu, Meth alongside Tyson and Wu, Meth alongside Tyson and Houston all provide interesting ays on the big screen.

Tyson specifically is quite entertaining, giving an honest portrayal of himself.

Ben Stiller also has a bit part as the victim of Schiffer's sociopathic character, resulting in a confusion of values

This basically sums up the film: a confusion of values. talks about important race issue but somehow doesn't say anything.

\section*{The Verdict:} Erie "Gray"
Rosenthal:
Black and
White" carne in with so much potential, and for the first half was but halfime led into a letdown because the plot ran in circles and he film failed to ackle the impor. ant issues sufficiently. Hopefully, the game plan for next time will be a winner.
Matt "Gray"
Bray: Although
it's an interesting dea, and has unorthodox editing, for Hollywood at least, "Black and White" lacks. Watchable, but not great

\title{
[sports Dave Curtis, editor
April 14,2000 0 SU hopefuls await NFL Draft
}

BY GREG BISHOP
Asst. Sports Editor Asst. Sports Editor

Last year, it was Donovan McNabb.
Arguably the greatest Syracuse signalcaller to ever grace the Carrier Dome turf, Mc Nabb found a home with the Pila gles after they chose him with the No. 2 pick in the NFL draft.

In 1957, it was one of the best running backs in NFL history, Jim Brown.

And, like a broken record, the list goes on.

When the snow in Syracuse melt each spring, \(S U\) gridiron stars from Ernie Davis, to Floyd Little
to Art Monk, to Daryl
ston - say goodbye to the Hill and hello to a job in the NFL.

This marks the next class of Syracuse seniors hoping to find a new home when the an nual NFL draft kicks off at 12 p.m. Saturday in New York City. Potentially, six players from Syracuse could be drafted. But the number could also be as low as one or two. 'I'm going to get a job," former SU wide re ceiver Quinton Spotwood said. "I expect some one to notice my talent. I'm looking to play at the next level. How high I rank does not matter, Im just trying to get a job.

Spotwood joins a large Syracuse se nior class looking to see their names on the draft board during the two-day, sev en-round bout.
For Syracuse, the sure-bet is Keith Bulluck. The former SU linebacker has been com pared to current Denver Bronco Bill Romanowski and is ranked by draft guru Mel Kiper Jr. as the eighth best prospect in this weekend's draft.

Last season, Bulluck lead the Orangemen
with 135 tackles, 89 of which were unassisted The captain also tallied two sacks, using his sideline-to-sideline speed to track down wouldbe ball carriers.

He also switched from middle to weakside See DRAFT page 16

\section*{Orangemen battle Scarlet Knights \\ BY DAVE CURTIS} Sports Editor

It took thousands of dedicated soldiers to take out the great empires of the world. But Syracuse head men's lacrosse John Desko said he worries one scarlet assassin could bring down the top-ranked Orange-
men. Keith Cromwell, Rutgers' leading attacker for the past three years, heads an apainst Syracuse (7-1) at 7.30 pm Satur day at Yurcak Field

The RU junior
The with 16 anior leads his squad this which came in a 13-10 win over Sto of Brook on Tuesday.

He began last season with a three-goal in the Carrier Dome. He finished the year as the nation's leading sophomore scorer and, barring injury, should shatter his school's scoring records sometime next season.
"For my money, Keith is the best attackman in the country," 26 -year Knights coach Tom Hayes said. "He's the best attackman I've ever coached.n

Even with Cromwell's scoring skills, the Scarlet Knights' hopes at shocking the Orangemen look bleak. SU not only possesses more talent but carries the fury of its first loss. Tuesday's \(13-12\) setback to No. 9 Cornell. After the defeat, the Orangemen
ripped their effort and blamed the loss on

SU faceoff man Chis Concy leads the mation in faco-off percontagis. He won 97 out of 144 faceoffs so far this season, Efood for 67.4 percent. Cercy and the Orangemen travel to Rutgers
on Saturday at \(7: 30\) pam. to continu a fourenme noad swing on Saturday at 7:30 p.rn. to continut at fourgemo noad swing
lack of emotion Senior attackman Ryan
Powell, who might join Cromwell on this Powell, who might join Cromwell on this
season's All-American squad, promised in-
tense workouts leading to the matchup in See KNIGHTS page 15

\section*{Syracuse} sharpens attack for weekend

\section*{EY CHRES SNOW} Staff Writer

In any sport, it seems only reasonable that athleticism should win out.

But clearly that is not always the case, which is why the Women's lacrosse team spent it Wednesday practice fine tuning should-win in pres at Boston Col lege Friday and at home apraing Fairfeld on Sunday. Fairfield on Sunday.

Against both, we would like to run and air the ball out," SU head coach Lisa Miller said to see movement to open thing up. We need to stretch the field and take advantage of our athletis ability on the attacking side. \({ }^{\text {"If we limit our space and }}\) don't manetrver well, we subtract See WOMEN page 14

\title{
Stabbing trial ends, Edwards innocent
}

\section*{BY EMILY KULKUS Managing Editor}

Three-year-old Nyshia Edwards got her father back Thursday afternoon

The girl is the daughter of Corey Edwards, the man charged in connection with the stabbing o yracuse University Byrdin a fig

Byrd suffered severe stab wounds to his shoulder and neck that placed him in University Hospital's critical care unit for almost one week.

But a jury Thursday found Edwards not responsible for those injuries.
"I'm happy it's over," said Edwards' mother, who declined to give her first name. "Now he can look for job and move on with his life.

Edwards, 21 , was charged in connection to the incident on counts of attempted second-degree mur der, first-degree assault and third-degree criminal possession of a weapon.

On April 4, Trequail Stackhouse, of 218 McLen nan Ave., pleaded guilty for his involvement in the brawl, landing the 22 -year old in a New York state prison for seven years.

Stackhouse's actions were directly related to in uries sustained by Myles Thomas, a high schoo riend of Maynard Duke" Pettijohn, a starting defensive end for the Orangemen, who
cuts to his head and ear in the brawl.

Giovanni DeLoatch, a reserve offensive tackle,

\section*{Moore decision nears}

\section*{BY NICK SERRANO}

\section*{Staff Writer}

A University Senate committee may conclude this week a report of its findings and recommendations for two grievances made separately by student Zac Moore and the professor he is accusing of plagiarism.

Moore, a former Graduate Student Organization president, filed his grievance Feb. 11 to the USen committee on academic freedom, tenure and professional John Rennie Short plagiarized his work in a book and mistreat ed him in a class

Short said he filed his own grievance two days earlier, ac cious, slanderous and libelous claims against him.

The committee combined the two grievances and gave the case to a three-member sub-committee for investigation, said Diane Lyden Murphy, the committee's chairwoman

The sub-committee reported back to the full committee, which Murphy said is now writing a report of its findings and recomDeborah Freund.

The report might ask Freund to take further action, Murphy said.

Moore claims that Short expelled him from a GEO 815 class in the spring of 1998 and plagia-

\section*{Thousands protest in D.C.}

WASHINGTON, D.C. -Thousands of demonstrators failed to shut down a meeting of world the city and gucceeded in airing their loud cry for global justice \({ }^{*}\) Sunday. Police banned traffic from 90 downtown blocks and the streets filled with a raucous mix of puppet parades, dancing in interpections and demonstrators chained togetherin blockade lines.

For much of the day, the protesters occupied 18 intersections around their targets, the World Banl and the Intermational Mona
tary Fund. D.C. police made more than a dozen arrests in isolated confrontations with demonstrators, while a legal rally drew thousan

Thene wers scattered scuflies with police. Officers fired small amounts of pepper gas to disperse crowds. Witnesses said police also bit demonstrators with batons in at least two confrontations. Police said the othicers asked permission to fire tear gas after they were pelted with rocks and bottles by protesters, but supervisors did not give their approval.

The demonstrators largely
kept their promise not to resort to violence or property destruction, but some individuals threw bottles and pulled parked cars into the street, smashing a window of oneProtesters also erected barricades with trash cans, newspaper boxes and materials ripped from a construction site. Others spray painted graffiti along some walls and some vehicles.

The demonstrators declared victory, despite not achieving the long-stated goal of shutting down the spring meeting of the IMFS Sunday. The World Bank'a meeting is Monday.

\section*{national news}

\section*{Elian's dad criticizes kin}

MIAMI - Elian Gonzalez's father lashed out at his Miami relatives on Sunday, accusing them of "child abuse" for turning his son against him and insisting that the 6-year-ald boy wants to retura to Cuba.

With the boy's fate still before federal judges, Juan Miguel Gonzalez said on CBS" "60 Minutes" that he didn"t believe a video taped at the relatives didn't want to go.

He also accused the relatives of manipulating his son to believe that his mother still may show up someday - in this country.

Since he arrived in the United States on April 6, Gonzalez ass spoken with Elian three times - all by telephone. He in sisted that his aon has told him he wants to retura to Cuba.

At the home of I-azaro Gonzalez, where Elian has lived for nearly five months, protesters prayed for divine holp as Eastar week began, waving palm fronds and posters of the Cuban boy and Jesus. Priests joined the crowd of at least 150 to offer a religious service.

\section*{FAA suggests redesign of 737}

WASHINGTON, D.C. A Federal Aviation Administration engineering borard will recomrudder control syatems.

The recommendation will be made in sesponse to tests that indicated the system could fail in several ways that, however unlikely, could cause

One previously unsuspected failure could involve a small buildup of ice in one controllink

Both the FAA and Boeing Co. tressed that the possible failures are so unlikely that no immediate mechanical fixea are necessary but that, pending redesign or modincation of the rudder, they ane following the board's suggestion to come up with new pilot emergency procedures, new mechanical inapections and new training for pilots and mechanics to alert them to the early eigns of rudder problems.

The paper noted that the 737 is the most numerous jetliner in commercial aervice, with 3,630 built ao far, and that they have compiled one of the best safety records in aviation after 99.7 mil-
lion flight hours. lion fight hours.

\section*{Campus march decries sexual violence \\ BY JOHN ARWEILER \\ - even if the law says it is, Wod- \\ In her speech, Wodnick \\ march." \\ poses. Those in attendance voiced}

Staff Writer

More than 100 students marched across the Syracuse Unimarched acmpus on Friday night in defiance of sexual violence.
"It was symbolic of us raising our voices," said Sara View, a senior women's and policy stud ies major. "We're not going to be silent on this issue anymore."

The march was a part of Take Back the Night," a nationwide program aimed at ending rape and sexual violence arainst women.

The event also acted as support for victims, said Beth Wodnick, a senior photography major.
"We are letting them know the things that happened to them weren't their faults," Wodnick said. "It wasn't because of what they were wearing, how much they had to drink or whom they were hanging out with."

Many women have endured sexual violence but do not consider what happened to them as rape
nick said.

Before the march, supporters met at Hendricks Chapel to hear speeches from event organizers and Dan McPherson, a former SU quarterback who later played for the Philadelphia Eagles. Local sang inger Anadara Farmer also event.

McPherson is a member of the Jenna Foundation, an organization encouraging men to help end sexual violence against women.

Former SU employec Janice Grieshaber and her husband began the foundation after the 1997 murder of their daughter, Jenna. The organization also manages a mentoring program in Syracuse school districts.
"They've turned a tragic incident into a loving endeavor, ensuring what happened to their daughter will never happen again, McPherson said.

McPherson called for those in attendance to do the same.

\section*{VERDICT}
continued from page 1
suffered cuts to his arm, head and back while a fourth man, Daniel Moore was treated and released from St. Joseph's Hospital immediately following the brawl.

But the SU football players \({ }^{\circ}\) injuries far overshadowed the wrongful charges against her son for his involvement in the incident, Mrs. Edwards said. While she admits her son was at Sadie's on Oct. 31, 1999, he did not participate in the stabbing, she added.
"He just said he didn't do it," Mrs. Edwards said. He's going o stay out of bars.

With her son facing a possible 25 years in prison for the charges, the last five months have been difficult for the entire fami\(y\). The fact that the wictims of the stabbings were high proflie football players added unnecessary pressure for her son, she said.

I think if it had been just regular kids fighting and they got stabbed it wouldn't have turned into this," Mrs. Edwards said. "No way it would have been all over the news the way it was."

Byrd testified Wednesday regarding the specifics of the night and was unable to identify Corey Edwards as the cause of his injuries. Byrd could not be reached or comment.

Pleased with the jury's decision, the Edwards family left the courtroom immediately, but the trial will far outlast any decision, she said.

What happens when he goes to search for a job and everybody's got his own opinion about
him already," Mrs. Edwards said. "What about Byrd? He's going back to play football and my son would have been in jail for 25 years."

Byrd was a strong contender in this past weekend's National Football League college player draft but was not selected.

\section*{Gang accusations}

Edwards' friends include Stackhouse and Cheiron Thomas, but they are not members of the rumored "Boot Camp" gang, his mother said. Thomas trial is expected later next month for his involvement in the case.

In early November, members of the Syracuse Folice Department claimed that Thormas, Stackhouse and Corey Edwards were all members of the gang, a group of 10 members known to the Syracuse's west side.

However, references to the gang were false, Corey Edwards' mother said. The name originated when her son and his friends were approached by police while standing on a corner. The kids were "hanging out" wearing army fatigue clothing when police officers told them they looked like they needed to go to boot camp, Mrs. Edwards said.

If all of David Byrd and his friends hang out together are they a gang? she said.

\section*{Moving on}

Surprised but understanding of the jury's findings, Cliff Lehman. Byrd's high school football and track coach, said he is satisfied knowing his former stu-dent-athlete is doing well.
I could imagine how difficult a case like this would be if no one

rized his class work in the book, Globalization and the City." Short wrote the book last. winter with Yeanc-Hyun Kim, who was a with Yeong- Hyun Kim, who was a the time.

Both Short and Kirn denied Moore's accusation of plagiarism malicious"" Short said. "It's clearly unfounded. It's untrue simply not true."

Moore could not be reached

\section*{for comment.}

Meanwhile, the "Professional Geographer" is holding an article submitted by the GEO 815 class until it is notified of USen's decision, said Stuart Aitken, co-editor of the scientific journal.
"The article is sitting in our filing cabinct," Aitken gaid. "Publishing is the lifeblood of academia, and plagiarism is a very serious thing Academia takes this very, very seriously."

The article was set for publication in the Novernber 2000 issue of the "Professional Geogra-
pher," but way pulled because of Moore's accusations, Aitken said. The next issue where the article could appear is February 2001 because the November 2000 Aitken said

Armando Boniche, one of three graduate students in the GEO 815 class, said he is disappointed that Moore's false accusations delayed the article's publication.
-These are really outlandish claims," Boniche said. "They have no basis. It's something
that could have been resolved person-to-person and yet Zac continues to circumvent the professor, the geography department and the students.

Boniche said Moore waited longer than a year to make the accusations so the involved people would not be around to refute the claims. Boniche and Kim are no longer at SU.
"It upsets me a lot that he goes off and does this, doesn't consult the professor and then comes out of nowhere with this." Boniche said. "We tried talking
to him during the semester and then he just kind of fell off the face of the planet."

Moore went on a three-day hunger strike and sit-in at the Maxpell School of Citizenship and Public Afraits dean's office Feb. 1 to Feb. 3 to protest the alleged violations.
"This is a little squabble between a student who's upset at a professor," Bonichesaid. "It shouldn't be such a symbolic protest."

\section*{Police must know area they protect}

It only takes one ugly incident to shatter good relations between law enforcement officials and minority residents.

In Syracuse it's allegations of police brutality against Hispanic fraternity members following the Livingston Avenue riots. In New York City its an unarmed immigrant gunned down in his doorway while reaching for his wallet.

A continual and frightening theme ernerges from heated court trials and bold newspaper headlines nationwide: racial profiling.

Police make assumptions based on dozens of characteristics - race, age, sex, economic status. Sometimes, analyzing these characteristics yields helpful information. But they can also lead officers to draw unfair conclusions and make rash, snap judgements. A young black man is no more inherently dangerous than an elderly white man - even if some crime statistics indicate otherwise.

Officers must base their actions on experience - this is a given, and perhaps the most effective way to work their beats. But presumptions become dangerous when it means pulling over every minority sitting behind the wheel of a pricey car for fear they're running drugs.

In order to adequately serve and protect a community, police must have knowledge of the area that transcends the fine details of a road map.

The efficacy of officers is determined only by the amount of trust they build within the
community they police. Good cops don't just show up in the neighborhood when trouble is going down. They stop by on sunny Saturday afternoons to watch a game of sandlot baseball. They take the time to learn the names of neighborhood kids and talk with them about their hopes, dreams and fears.

White, black, red or green - race shouldn't matter when the face that arrives on the crime scene is a familiar one.

Packing preconceived notions when responding to calls threatens the already tenuous web of relationships between victims, perpetrators and law enforcement officers.

\section*{opinions}

\section*{Columnist searches for validation of profession}

Sometimes I feel like I'm in the mood to write. It's difficult to produce ingenious ideas every week, but I try. Friends and acquaintances often ask me at cocktail parties, "Why do you write columns in the newspaper?" I wish I could reply degenerately. "I do it for the money." But since I'm not paid to write for The Daily Orange, I have yet to come up with a more convincing answer.

There are indeed many ways that I can respond to this question. Knowing that there are few people who can communicate logical, coherent thoughts in writing, I have decided to sacrifice my time and skills to fulfill this sacred social responsibility. As I eloquently illustrated in last week's article, there are many appallingly bad writers among us. Therefore, I write because I us. Therefore, 1 write b

Perversely speaking, I write because I want to ruin people's
HENRY Y.
CHUNG appetite. For instance, the following is excerpted
from a hilarious e-mail I received a few weeks ago: from a hilarious e-mail I received a few weeks ago: "There was a time when i enjoyed eating my lunch (by myself, for I have no friends) and readin
fine daily newspaper. But after reading Mr. fine daily newspaper. But after reading
Chung's article today, I'll have to turn to human companionship for my lunchtime entertainment." That, to me, is a compliment - I mean, what grat ifies a columniat more than knowing that his columns have profoundly changed someone's life?

One of my columns* major dissenters once said, "Your columns have pissed me off tremen-
dously, but I find myself coming back to read them dously, but I find myself coming back to read th every week. This confirms Freud's belief that
when people get upset, they desire to get more When people get upset, they desire to get more
upset. I'm proud of helping these people achieve upset. Im proud of hel

Evidently, my ultimate objective of writing columns is to impress chicks. I want to know how many vulnerable girls actually dig my lopsided arguments. Luckily, my finding is quite promising. I've had girls point me out in Archbold Gymnasium and No Borders, No Boundaries as they whisper, "Look, that's the bad-ass Asian guy Who writes those ridiculous columns in the
I wonder how these girls can identity me in I wonder how these girls can identity me in am a little skinnier and wear glasges in real life

Thanks to their encouraging words, I feel famous at times. My friend Sarah Jane Morgan says to me, "Henry, you feel like a celebrity, even though you're not a rock star." I know what she means.

And I don't care what guys think about my columns. Not at all.

Close readers of my work should remember that I have written on a wide range of topics such as campus activism, voting rights, cyber-culture, China-Tibet conflicts, coffee and jazz, eccentric people and the enjoyment of life.
My most critically acclaimed column is entitled, "Discriminating wine lovers need perfect music," in which I suggested music and wine have intercourse on an intellectual level. Though many readers claim that they know my character through my witty and insightful articles, in reality, 1 am a completely different person.

Sorry to disappoint my fans, but I'm a far cry from my columnist's persona. I don't pick up supermodels with my friends on West Broadway. I don't have the habit of donning basketball sneakers and blowing my harmonica when 1 feel depressed. My Boy Scout career was not all that unsuccessful. I don't go around and preach Chinese nationalism and Communistideologies to impressionable NYPIRG people. But I do know how to use a can opener. And the only items I care about are women, red meat and used G.I. Joe figures.

Perhaps my most autobiographical column is the one in which I glorify the Slimer character from the "Real Ghostbusters" cartoon. I admit that I collect out-on Sime runs of Slimer episodes. Also, Slimer's honesty and straightforwardness serve as my inspiration. I am
the human version of Slimer, but with much less the hu

Returning to the question of why I write, Nietzsche would answer, "Because I haven't found a method to exonerate my thoughts yet. Here I borrow Nietzsche's words to accurately express my sentiments. But 20 years from now, if you asised "Because I do it for the money."

Henry Y. Chung is the first-year student at the College of Law. His columns appear Mondays in The Daily Orange. E-mail him ot hechung@syredu.

\section*{Soapboxes for rentI If you've got something to say, tell us ... and all of Syracuse University.}

The D.O. is soliciting inspined opinion columnists for next semester. Whether you're the quiet kid scribbling furiously in your journal under a tree on the Quad or the gutsy crusader yelling on the steps of Hendricks Chapel, we've got a place for you. Please submit two 400- to 500-word sample columns to Editorial Editor Holly Auer at The D.O., 744 Ostrom Ave., by 5 p.m. Monday, April 24. Be sure to include your name, year and phöne number. \section*{CHANGED}

When I was seven, my mother needed to divorce my Paranoid Schizophrenic father for our own safety. After that, my farnily contirued to suffer because of extreme poverty. Growing up without a dad made me very angry inside. My mom told my three siblings and I tha God was the best father we could ever have, but I tended to disbe lieve that. At a young age I started to use weed and drink alcohol with my friends. I listened to popular gangsta rappers and they told me it was okay to smoke blunts, get drunk, and fiend for money. Thug life appeated to me because it was me against the world and it
thought there was nowhere else to turn.

My senior year in High School began and I saw how unsatisfying my life really was. I was ready for a change. but I was afraid to tet go of the old habits of street life. A neighbor invited me to go on a youth group trip to Niagara Falts with a tocal church. She said that she would pay for it and I felt obligated to go, even though I did not want to. However, the first night there, I heard a speaker talking about his ife growing up in the ghetto. His testimony about a fatheriess life of poverty really related to me. He said that it all changed when he gave his life over to Jesus Christ.

He asked anyone in the audience if they would like to come down front and pray that Jesus would come into their life and give them eternal peace and happiness. I responded to the attar call, along with 600 other teens. I got on \(m y\) knees and asked Jesus to change me. Before I knew it, I was crying uncontrollably and repeating something over and over. When I realized what I was saying, it was:Thank-you Jesus, thank-you Jesus." As the tears ran down my face I feit cleansed. I felt a million burdens being lifted off of me-my sins being washed away. I was forgiven.

Since December 27th, 1998 I have been a new creation. God took away my desire to \(\sin\) and He filled me with His love. My broken heart was mended and I realized that only He could fill my empty spirit - not weed, alcohol, or money. Earthly relationships could not satisfy my longing, and only His mercy could save rre from hell. After that, God blessed me with ample financial support to afford college. I started to fill my head with the truths of God's word by reading the Holy Bible everyday. I will forever praise Jesus Christ for changing me and setting me free from the bondage of sin and death.
studying who gets them," Richardson said.

If the rewards of globalization are distributed fairly, the majority of the population will benefit, he said

Benefits, however, are not distributed equally, Richardson said. The people who receive the fruits of free trade are the edu cated and the skilled, he added.
"But not everyone is edu cated, not everyone is skilled, not everyone is mobile, not everyone has choices," he added.

This problem is not solved by "some global apparatus" like an umbrella government, he said, but rather by distinct policies at a subnational level.

He outlined several proposals to achieve the roal of equal benefit distribution.

The first is a worldwide anti-trust policy, much like policies the United States alread has, Richardson said.
"This will pull small firms into the benefits of globalization," he said. "It will pull forglobalization, pull users of products into the benefits of globalization."

Richardson also suggested that there be a worldwide workers' union.

Howard Lewis, former vice president of the National Association of Manufacturers, atmeeting during which 70,000 people gathered in protest.

On the final day of the meeting, the ambassador of Japan expressed his disgust in the actions of U.S. delegates, Lewis said.

He blurted out, what was the equivalent of, 'Is the U.S. nuts? You people get all the benefits of a global economy and you still complain about it," said Lewis, who now works for the Institute for International Economics.

The United States is not "nuts," Lewis said, they have just being doing the largest amount of adjustment in the area of trade flow and are just "a little antsy," about it.
"We may be through this period of adjustment," he added. "We all may be able to deal with this better in the next 20 years."

But Bonthius questioned Richardson's proposal of a worldwide union because it may cause a halt to international trade if the workers in that union strike.
"Striking is the last thing unions want to do," Richardson responded. "They'd much rather
egotiate first, and strike last Union membership in the ion's already large membership ions already large membership W 135 countries, said Jayashree Watal, a representative from Economics. "And there are 30 more in the pipeline waiting to join, Watal said. When you have tha cind of membership. how to you

Decisions are made in conference rooms by a consensus, she said.
"That means that nobody objects to what goes on - not that they agree with it, but they do not stand up and object," she added.

Few countries take part in the closed meetings, only the major players, said Watal, India's negotiator in the WTO.

Whomever wants to participate can, but many countries management, she added

African and Caribbean countries both protested all that occurred at the Seattle convention.

They said, We did not com to Seattle to sit and drink coffee outside. We came to be part of the decision making,"" she said.

Like, Richardson, Watal suggested several improvements to the current WTO setup, that she said would improve decision making and the representation of smaller countries.

Although she did not feel that the consensus ruie should be changed, Watal did suggest that the number of parties participating in that consensus should not exceed 20.

Instead of individual countries coming to the table, there would be groups, she said.
"Several important players will lose individual representation," she said. "I don't think my government will like this proposal very much.

In fact. Watal added, every country she has brought this proposal to has rejected it.

Puck Tsai, a junior television, radio and film major, said he learned from what Watal and the other panelists said, but added that he wished more people had attended the forum.
"The truth comes a lot clearer when you have debates, discussions," Tsai said. "I don't think a lot of students know what's going on. Education and understanding are a big part of a democratic society."

\section*{Shepherd gives youth new sound}

Chris

\section*{Piazza} off the record

Youth dominates today's music. Whether it is the squalls of rabid Britney Spears and Backstreet Boys fans outside MTV studios every day or the obscene 2.4
million copies of ' N Sync's new album sold in its first week, teen bubble-gum pop is everywhere.

Unfortunately, the collective talent of these musicians isn't, in any logical sense, equivalent to their popularity. I admit that Christina Aguilera has a lovely voice, and that the boy bands can really dance, but they cians. Most teeny-boppers, with some rare exceptions, dan't write their own music they do what producers tell them to do.

The only thing Kenny Wayne Shepherd has in common with today's popular acts is his age. A far cry from the synthetic beats and saccharin ballads of his pop counterparts, Shepherd prefers good old-fashioned blues-rock. The 22-year-old helmsman of The Kenny Wayne Shepherd Band writes, arranges and performs all of his own material.

The band's new album, "Live On," doesn't offer much variety. However, the lack of variation is more than made up for with Shepherd's energy, audacity and pure, raw skills. "Live On" provides over a dozen rock-

\section*{RACE}

\section*{continued from page 8}

In a survey of New York state residents, 23.7 percent of whites responded that they perceived police brutality in their neighborhoods, while 44.6 of blacks and 35.6 percent of latinos reported that according to the study.

More than 60 percent of white respondents approved of police striking citizens, whine only 37.6 percent of Latinos approved, according to the study.

Data for the study was collected from two surveys in New York state during the election period.

Although the brothers did manage to board the bus, Mark Samuels said the in

The officer was wrong to stop them, but his reaction was "It's easy to lash out blindly," Samuels said. "You have to think about why."
Samuels was initially ised in a predominantly Jewish neighborhood. But over the years, the once-plendisplayed in his neighbors windows disappeared, he said.

\section*{The Daily Orange}

It was the most blatant example of white flight," Samuels said.

The neighborhood has since deteriorated and police patrols have become a common sight, he added.

They go after people regardless," Samuels said of the police. "They don't try to analyze whether you're innocent or not."

Rachel Clay, a freshman in The College of Arts and Sciences, said she and other family members have been pulled over by the police nutown of Chicago.
"Pretty much, I've lost all respe

On a recent occasion Clay, her brother, sister and cousin were driving on Chicago's South Side in their blue Corsica when they heard she said.

When they pulled over, the officers asked to see the car's registration and said they just wanted to know if the car was stolen, she added.

An April 9 New York Times report found that rampage killers are overwhelminglymale, white and are generally older than typical murderers.
"I think they need to look
tics," Clay said of the police. I don't see middle-age white males being tailed."

While he has not been pulled over by the police, freshman Christofer Atkinson, a food service management major, said that he faces racial discrimination on a general basis.

Atkinson - whose father drives a Mercedes - attributed these debilitating atti-
tudes to stereotypes: black people are not supposed to be educated, speak well, dress a certain way or have nice cars, he said.
"I feel that I'm looked at secause of the "I have to prove myself."

Case after case
After 41 bullets and four acquittals, thousands of protesters poured into the streets of New York City, angered by what they saw as a fatal example of racial discrimination.

Guinean immigrant Amadou Diallo was shot Feb. 4, 1999 as hestood -unarmed - in front of his apartment building in the Bronx. York Police Department - all white - were acquitted of charges on Feb. 25.

The Diallo case followed the Aug. 9, 1997 attack of

\section*{Cater to the 箅 baby in you. \\ Spybaby Boutique offers the most unique, fashion-forward look in upstate New York.}

Haitian immigrant Abner Louima by NYPD officers. Officer Justin Volpe rammed a stick into Louima's rectum and mouth while Officer Charles Schwarz held Louima down in a police station bathroom.

Volpe pleaded guilty to the assault and Schwarz was found guilty of assisting him. Three cleared of charges.

But race is not necessarily a factor in these cases, said freshman Naemeh Shi: razi, a fashion design major who hails from New York City.

Police hold tremendous power over citizens, regardsaid.
"Whether we're black or white, we're inferior," Shirazi said. "If that's their mentality, we're all in danger.
In Syracuse, relations between police and minority communities are very strained and are characterized by mutual lack of respect, said Donna Reese, president of the Onondaga County chapter of the National Association for the Advancement of Colored People.
"What happened in New York City can very easily happen in Syracuse and other places," she added.

On Feb. 4, more than 100 Syracuse police officers - all white - lined both sides of the hallway leading to the city courtroom. They said they gathered to express support for Officer James Mullen, who was charged with hitting l2-year-old Danielle Currier with a
nightstick on Dec. 12,1999 .

Passing through this hallway was "unnerving, to say the least," said Reese, who accompanied Currier's grandparents to the trial.
tice these antics," she said, there's a price to pay."

Syracuse Police Chief John Falge has begun dialogues with community members, but the police depart ment has yet to send a message to all its officers on what is acceptable behavior, Reese said.
At the same time, citi-
zens should work to hold the ald work to hold police

Most folks don't understand that the power is with us, Reese said. Ithink we all could do better.

Lt. Michael Rathbun of the Syracuse Police Department declined to address the ase of the 12 -year-old girl. It's hard to say," he said. It depends on who you talk to."

While Rathbun did acknowledge that "there is going to be general distrust of the police," he said relations
between minorities and police have been never better.

The police are trying to recruit more minorities to join their ranks and have instituted a number of commu-nity-based programs, Rathbun said.

The police will begin a program May 1 directed toward the Hispanic community on the city's west side, he said. Community members will be invited to a two day workshop to learn about the ethics, he added
"We've got a great police department," Rathbun said. "The city is very lucky.

Beyond black and white But racial discrimination of Asians by police is often gnored, said freshman Nicole Medrozo, who is Filipino.

The study by the Center for Urban Research and Policy at Columbia University categorized respondents as "white," "black," "Latino" and "other."

When you think race, you think black and white, said Medrozo, a policy studies and public relations major. Asians have no voice at all.*

Many Filipinos subscribe to the hipdressing in baggy jeans, FUBU wear and backward hats - and feel more comfortable with black people, she said.
Sometimes they act real ghetto,'" Medrozo said

Medrozo said her brother, Jon Medrozo, a 1999 SU alumnus, was pulled over by New Jersey police two years ago while he was driving with a group of his friends in sports cars and SUVs.

They were stopped and searched "just because (the police) have nothing better to do," Medrozo said.

Her parents were not surprised by the incident, she added.
Since she was young, Medrozo said her parents warned her not to go to the mall with a big group of riends "because people are going to look at you and wonder what you're doing.
"I think it all depends on how you present yourself," she said. "You have to keep in mind where you are.

While Chinese are seen as "modest and respectful," Filipinos tend to "imitate more of black culture" and are treated accordingly, Medrozo said.

Many of her black friends have also had experiences with police that they felt were racially motivated, Medrozo said.

The sad part is that they're not really angry," she said, "because they kind of expect it."

\section*{Orangewomen run win streak to eight \\ BY CHRIS SNOW \\ out and playing a perfect game. \\ who turned in one of the best per- \\ Junior attacker Phoebe \\ win at BC on Friday.}

Staff Writer

Syracuse's women's lacrosse team enjoyed several advantages heading into Sunday's meeting with Fairfield.

The Orangewomen owned a more powerful offense, a wealth of quality reserves and a successful Women's history against the Stags.

After defeating Fairfield 19-6 two seasons ago and \(14-3\) last spring, SU rode goals from 11 players to an 11-0 halftime lead and 17-3
win on Sunday at the Carrier win on

Entering the game aware of the mismatch, Syracuse coach Lisa Miller challenged her players to execute a flawless game plan and motivate themselves on the field.

The coaches were a little quieter today," junior standout Katrina Hable said. "They want us to step it up, talk more and take more leadership. They expected that today, and weve been
working on getting the glitches

\section*{COAST}
continued from page 8
Caione's dominance of Rutgers defensive midfielder Dave Rough sparked the early surge. strength," Caione said of his dodging. "I haven't done a good job with that the last few games. I really wanted to get myself going early."

At the other end, Syracuse defense overwhelmed a young Rutgers attack unit thatin-
cluded Orange killer Keith Cromwell.

The Scarlet Knights managed just five first-quarter
shots and only 11 by halftime. Only two first-half shots beat

Peppering the Stag cage all afternoon, the Orangewomen outshot the visitors arkable 20-1 edge in draw controls. In the Fairfield in sophomore Anne Gormley turned aside 21 shots, including a handful of free position opportunities for SU.

But not even a hot keeper could prevent Syracuse from piling on the offense. Katrina Hable coming off a seven-goal, two-assist performance on Friday in a 19-6 win at Boston College - followed her career-best outing with a three-goal day.

Hable's third tally of the afternoon marked the 99 th of her career, bringing her one step closer to becoming the first-ever Or angewoman to reach the century mark.

Hable opened the scoring three minutes in and punctuated SU's first-half charge with an acrobatic goal midway through the period.

Freshman Jessica Trombley,
SU's Rob Mulligan, who saved seven others in the half.

To make matters worse for the underdogs, Rutgers lost 10 of 12 first-half face-offs. With out the ball, Cromwell could do nothing besides watch SU's attack decimate his defense.

You look at the scouting reports, they're great individual players, he said. "But we didn't get the possessions we needed. We needed to slow it down, bang it around the horn a couple times.

On the rare occasions RU gained possession, the Syracuse defense wrestied it away way. SU won the ground duel 33-17 over the first 30 minutes.

The Knights went score-
formances of her young college career with one goal and two assists in her first start, set up the junior.
the far ley's pass and Hable took Gormbackwards over her right shoulder and into the top corner of the net togive SU a 9-0 lead.
"I love doing behind-theback shots," Hable said. "But in girls' lacrosse it's really hard because you don't want to hit the girl and get called for illegal stick. I had a perfect pass, and it worked out."

Senior Lauren Brady picked up all three of her goals in the first half, scoring her team's second goal as well as its seventh and eighth.

Both Hable and Brady, who lead the Orangewomen in points and goals, respectively, said the play of some of their more inexperienced teammates keyed the in.
All told, 24 Orangewomen saw time Sunday, while four players picked up their first
points of the season. points of the season. Burns tallied her first goal and assist while Erin MacDonald broke through with two secondhalf scores. Fran Annasia notched her first score, while Katy Mueller registered her first assist on the goal.
tives was to be primary objectives was to be able to get our other players out there because they work just as hard as all of us in practice," Brady said. "It's good
to see them out there, and they to see them out there, and they maintained their focus.

With the thought of a shutout easing its way into freshman netminder Carla Gigon's head come early second half, Fairfield's Jessica Jordan illustrated tremendous individual skill in tallying three scores in the closing 20 minutes.

Maintaining movement on attack and keeping good habits should bring victories in upcoming regional games and possible postseason action, Hable said

\section*{Beantown blowout}

Katrina Hable scored seven goals and 10 Orangewomen
less for the first 23:23 of the game, until Cromwell spun right against Marshall Abrams gan.

Rutgers' junior All-American finished with two goals and two assists, but his efforts wilted in the shadow of SU's balanced offense.

Eight Orangemen scored goals, led by Caione and Coffman with four each. Byrnes and attackman Liam Banks also scored, adding two apiece.

For the first time all season, Powell and Springer failed to score a goal. The sophomore for up freshman Mike Smith

Powell, meanwhile, assist
ed on three others, a total that
might have grown if his teammates finished a handful of stellar feeds.

Despite the scoring struggles from Springer and Powell, SU appeared ready for a douKnights rallied late, slicing the deficit to as little, sis sixing a Steve Snider goal with 7:48 remaining.
"We played a lot of freshman, a lot of young lads out some unforced errors and made some metal mistakes. But we showed a lot of courage and character in the second half."

Hayes, young squad caught an Orangemen squad yearning to avenge a \(13-12\)
loss to No. 9 Cornell on Tues-
dium featured Massachusetts natives Lauren Brady (two goals) and Gigon, who played in front of a pack of hometown fans. Boston," Gigon said "The back in Boston," Gigon said. "The team played awesome, and Katrina was unreal. In the first half, everything was just flowing."

Wednesday, the team travels to Cornell for a regional contest before returning home Sat urday against Boston University Last season, Syracuse de-
feated BU in the ECAC Tournament.

While the weekend victories boosted SU's confidence, Hable said the key contests remain in the future
(Friday) was a game we knew we should win," she said We went in saying, 'Hey, let's work on what we need to and on putting them away
we wanted to put eves were one we wanted to put everything together in so wed be ready

day.
After the Big Red loss Syracuse players chastised their efforts and promised things would change.

Mulligan said practices Wednesday and Thursday refected a new dedication and intensity. After Bassett's errant toss eight seconds into ac rant toss eight seconds into ac-
tion, SU took advantage of its opportunity in New Jersey with crisp play and a 16 -goa showing.

The team felt it had to prove a lot," Caione said. wait a week. We could prove to the country we could get right back on the horse after getting knocked off.'

\section*{Bulluck goes to Tennessee in NFL Draft's first round}

\section*{Staff Reports}

After a restless Saturday afternoon at his home in New City, Syracuse linebacker Kei th Bulluck fulfilled his dream of latching on with a National ootball League team.

The Tennessee Titans, the defending AFC Champions, grabbed the former Syracuse linebacker with the 30th pick Draft in New York City.

3, 237 pound defender, led the Big East with 138 tackles this season.
Draft experts and pro scouts lauded Bulluck's ability to cover the entire field

After beginning his caree as a safety, he hopped to outside linebacker and eventually to the middle. He moved back to room for SU freshman Clifton Smith.

A mere 217 selections later the Jacksonville Jaguars picked former SU tackle Mark Ban

iewicz. In Northern Florida, Baniewicz will join former Syracuse teammate Donovin Darius, who starts at safety for the defending AFC Central champs.

Baniewicz impressed scouts with his durability after starting 36 straight games for the Orangemen. The Rhodes Scholar candidate also showed a superior knowledge of block-
ing schemes and angles. A slew of other former SU stars went undrafted in the sev-en-round event.

Star wideout Quinton Spotwood, tabbed by some to be picked in one of Saturday's three rounds, should join an NFL squad as a free agent.
failed to become Byrd

Sound familiar? tains dise around, the captains decided that Rutgers
would be different. would be different.
There was a lot said," SU goalie Rob Mulligan said. "It
was up to us captains to get the was up to us captains to get the up this week and got after each other in practice.

It took a tough loss to an even tougher Cornell squad for Syracuse to regain some of the edge that made it the nation's No. 1 team. It couldn't have come at a better time, with
games against Penn and No. 4 games against Penn and No. 4 end.

It didn't take long either. Only \(2: 11\) into the game, midfielder Matt Caione spun right past the Rutgers defense netting SU's first goal.

When Powell received a vicious stick to the neck, only to
spin away from three defenders and hit wide-open Pat Kennedy for another score, Syracuse owned a 7-0 lead and any confidence it may have lost.

With wins over then-No. 1 Virginia, Johns Hopkins and Loyola, the Orangemen - while not complacent against Cornel to did not bring their top game to tha still left to play the sump son still left to play, the bump will be a national championship came at the wrong time for the Scarlet Knights.

With the midfield taking
some of the blame for the loss by not adding much in the scoring column, it brought more focus to Syracuse's practices leading up to Rutgers, Caione said., Caione said. "The intensity had been high all year, but I wouldn't say we were cocky. Then we got upset by a team that no one humbling

\section*{The loss also comes at a de-} cent time for the Orangemen. While they probably will drop in the polls this week to a Cavalier team they have already beaten, the Cornell upset came with enough time for Syracuse to post quality wins before playoff time. The Princeton matchup remains, along with a home date against No. 5 Georgetown. Finishing in the top four is all that really matters anyway, for Syracuse in the first-round of the postseason. the postseason.

Judging by last season's standards, when Syracuse bereach the title game, that may not even matter.

What matters more is the resiliency that SU showcased against Rutgers. It was like the Orangemen had gotten a bad grade on a test and went home to beat up on their little brother. They made a statement. They said that, in case anyone was

The Rutgers win obviously won't make or break Syracuse's season. The Cornell loss won't elther. But there was someon that rainy Saturday night in the swamps they call New Jersey.

Something that showed Syracuse could bounce back. Something that said to forget about the loss on Tuesday. Something that said Syracuse has the ability special

Something that forecasted a sign that read watch out for this team come late-May.

Greg Bishop is an assistant sports editor at The Daily Orange, where his columns appear regularly.

\section*{HOME}
continued from page 8
wasn't surprising.
And one could only woner, with Long Island a 45minute drive away, what fuRutgers on that rainy Saturday night.

A lot of the Long Island guys can make the short trip,"
SU goalie Rob Mulligan said. The game here is where I saw SU for the first time. It was a loss. But to see them play in person and to see theirmyshen watching them on televi sion." The next Mulligan may have seen the goaliemake 10 saves in SU's 16.8 win.

Hailing from Farmingdale, NY, on the Island, Mulligan ranks fifth in the country in in save percentage.
He isn't the only SU star that began his lacrosse career on that thin strip on land that stretches 110 miles.

Captain Tim Byrnes comes from Baldwin, NY, also on Long Island.

The midfielder's family has to travel 450 miles to watch him play at Syracuse, but less than an hour for the Rutgers game.
Syracuse, and Byrnes, didn't disappoint.

With \(11: 24\) remaining in the first quarter, the midfielder slid across to the field, driving from right to left, and netted SU's second goal.

He also tallied the first goal of the fourth quarter, a low ronning shot passed Rutger Syracuse up 12-5.

Players like Byrnes and Mulligan grew up close to Rut gers, but chose to come play at Syracuse instead.
"Lacrosse has grown so much now that it's not regional anymore," Hayes said. "It's just a matter of programs against programs. If we have success helps our recruiting whether helps our recruiting, whether they're from New York or Mary land, Virginia or anywhere." And for the No. 1 team, sucWith SU's perennial success, the Long Island-to-Syracuse pipeline doesn't stop at the Syracuse goal.

Sophomore attacker Liam Banks is a Ward Melville product. He ranks third on Syracuse in scoring with 18 goals and 15 assists, including two scores
Knights.

The nation's top face-off man, Chris Cercy, is another in the long line from Long Island. hool at Bethpage, the same high school that produced Brian Solliday, a midfielder that is sitting out this season due to academics.

Cercy helped the Orangemen to win 18 out of 24 faceoffs against Rutgers, allowing the offense enough possessions to put 16 goals on the scoreboard.

Throw in Mike Smith, who tallied his first collegiate goal with 3:40 left in the second the most minutes for a freshmen, fellow frosh Keith and Rich MeKeel, senior attacker Ethan Mills and starting defender Billy St. George, and Rutgers may as well have been a home game for the Orangemen.
"This is definitely one of the hotbeds for recruiting," SU \({ }^{\text {"We enjoy }}\) the opportunity to

\section*{Experience the Thrill sKYDIVE \\ TANDEM FINGER LAKES SKYDIVERS INFORMATION \& RESERVATIONS 1-800-SKYDIVE}
come down and showcase our team. They don't have too many chances to see us play, so it's good to come down and play well and win

In addition to SU's presence on Long Island, local New Jersey products Mike Springer and Sam Bassett chose to leave home and come to the Hill.

While Mike's younger brother, Ken, was the only Springer to tally a goal on Saturday, Bassett provided the Orangemen a score with \(5: 54\) reeruption from the bleachers ruption from the bleachers.
inton, NJ, home where the Orangemen dined on steaks and seafood Friday night.

One New York native that didn't join them was Keith Cromwell, Rutgers' Scarlet assassin, who scored two goals and dished two assists against Syracuse.

Recruited lightly out of high school, Cromwell helped shock Syracuse 12-10 only two years ago.

With Syracuse continually taking top recruits and whisking them out of the area, a good No. I squad can only help. A 16-8 loss may not, Cromwell said.
and she wanted to come out and show a good performance like we have in the past against these guys," Cromwell said. "It definitely helps kids coming out to the game, showing that were a competitive team. At

\section*{EYAL}
continued from page 16
Sherman said, in between frantic note-taking. "He some times falls asleep in the other

Eyal is the first to admit that it gets tough to pay at tention in classes, espeerals function properly or a teache has a thick foreign accent that he must strain to understand.

Eyal communicates by moving his lips and mouthing words.

During that night's lecture, Eyal's headphones stopped working, and he had no choice but to go through the lesson without them.
in class I have to stay in focus so I can take everything in, he said. Some people pends on the situation
pends on the situation." Eyal likes to let his mind wander.
"I do wonder what my life would be like if the situation imagine that I would be able to move and think 'I want to be like Mike.'
ulls ene is former Chicago one of guard Michael Jordan center Ftan heroes.

During practically every SU home game during basketball season, Eyal can be found sitting on the floor of the Car rier Dome with some of the best sports journalists in the Whes.
When he was in high school, Eyal entertained ideas of becoming a sports journalist because of his deep interdays he isn't so sure about his career path.

Basically," he said, "I want to get some kind of de-

\section*{Home sweet home}

On a recent weeknight, the Sherman's home on Kimber Road is a hub of activity. Eyal fiddles with one of two computers in the Sherman's family room while his littie sister, Nitza, 13, rushes to a community play with friends. His younger brother, Erez, 17, flips channels on the family's television - he and Eyal figame

A detailed painting of a bright yellow sunflower patch, contrasted against a cobalt sky, sits above the television
set. Using a mouthstick. Eyal set. Using a mouthstick, Eyal painted the spring scene in the
dead of winter last year, his dead of wint

Eyal is proud of his art, he added. Other paintings are scattered on the room's
shelves, along with a sketch of Shelves,

Sometimes there's nothing to do," Eyal said. "It keeps he busy:

He keeps busy in other ways, too, like reading ESPN Magazine or Sports Illustrated, and sometimes "Playboy, a smile.

Using a device created by the Center for Really Neat Research, 500 University Place, Eyal is able to work on the computer. The device, which works like a video game joy-
stick, is navigated by his stick, is navigated by his outh.

Each night Leah Sherman spends at least an hour helping Eyal complete his homework and going
"I don't like to think about
his being difficuit," she said If it wasn't this it would be something else."

An upbeat mother of five with a masters degree in higher education, Leah said she gets annoyed with her pres ence in class.
"It's no problem for me," she said. "It's sort of an un usual situation that he's put in. In some ways, it's embar rassing for him.

But Eyal shrugs off his mother's concern.
"It's nice having people way. 004 . people crowded into the con people crowded into the Con Servative Temple Adath
Yeshurun's sanctuary as Eyal Yeshurun's sanctuary as Eyal
became a bar mitvzah, the Jewish rite of adult passage Jewish rite of adult passage
for young males.

The ritual, which means "son of the covenant" is com manded for Jewish boys on their 13 th birthdays. Boys are required to recite a passage rom the Torah for the entire congregation. Afterwards they are recognized as an doult by the faith and can be person prayer service.

As the son of the congre gation's spiritual leader, Rab said he insisted on a typical bar mitzvah and not a private ceremony.

The bar mitzvah was made possible by using video cameras to project Eyal's face on a screen, Leah Sherman said. The screen showed the text of Eyal's reading, en abling the congregation to fol-

rom roint from going to services every
week, said Leah Sherman,

\section*{combination of traditional blues} acoustic guitars with more hard edged electric guitar make for an invigorating juxtaposition.

Shepherd channels John Fogerty in his frequent breaks for solos throughout "Live On," but he is such a skined musician that these aside feel less like artistic in rare treat.

There are at least a halfdozen up-tempo, rollicking guiworthy of mention "Shotgun Blues" brings back memories of "Bad to the Bone" by George Thurgood with its reliance on harmonica and tight, syncopated beats. "Oh Well" gradually ed beats. Ondos from a standard guitar and drum tune into a

\section*{full-tilt jam session}

Also present on "Live On" though, are slower blues tracks. "Last Goodbye," slightly remi niscent in style to Hootie and the Blowfish, is an ingratiating guitar-lead ballad. The title rack, "Live On," even incorporates a little gospel, especially

Last but not least
Last but not least is "Elec tric Lullaby," the album's final rack, which more han a dreamy lour-minute gui-

These songs are more variations on the formula than en tirely different styles. Most of he songs on "Live \(\mathrm{On}^{\prime \prime}\) sound a ot alike. Usually this is an artist's downfall - a lack of variety lets their shtick become stagnant too long before the al-
who home-schooled Eyal in Hebrew. "We were very surprised.

\section*{In the beginning}

Until he was four years typical toddler, he said.
unlike his peers, terized by mysterious respiratory illnesses, whose cause eluded his pediatrician.
"With hindsight," Eyal wrote on his web page, it was desperately wrong."

In the winter of 1986 , doctors discovered that Eyal had a golf ball-sized tumor lodged in his brain stem - he was not expected to survive more that

But in August of that year, Eyal was well enough to undergo surgery at New York University Hospital to have the tumor removed by Dr.
Fred Epstein, chiefof pediatric Fred Epstein,
neurosurgery

\section*{Several}
surgery took place, Eyal the surgery took place, Eyal suffered a brain stem stroke, leaving him in a coma for tellectually. He emerged inpletely quadriplegic.

Thirteen years later, Epstein still remembers Eyal. lost touch with the Shermans, Epstein attended Eyal's bar mitzvah in Syracuse.

He described the event as something out of the Bible.",

Eyal is an amazing case, Epstein said from his New York City office. "He shows how a person can adapt to a severe handicap that most people could not even survive. It's a testimony to his family that they have held together.

Although his childhood

April 17, 2000
was riddled with medical ob-stacles-Eyal was a Make-AWish Foundation recipient in 1990 - Eyal said he always expected to go to college.

The deal has been sealed since he wadded. he added.
expected all our kids, it was loge," Lealh Sherman said - We knew it would not be different for Eyal.

While he also considered going to LeMoync College, Eyal chose SU mostly because orits accessibility, and of he said. The basketball team, minutes from his home.

Eyal described college ife as a step up from his alma mater, Nottingham High
School, 3100 E. Genesee St. There aren't baliways jarnmed from wall-to-wall with people, making it difficult to get to class in a wheelchair, and the accepting of his disability, Eycepting

I don't wish that I lived n a dorm because I like my peace and quiet at home," he the same if mot experience is

In Hebrew class, Ey
he is most in his element. The mall class is made up of six students and allows Eyal a chance to show off his skills in a topic with which he has been familiar since childhood.

But every now and then, Eyal said he feels as if \(S\) students don't really see him ence on campus
would wish that more people chance to read my lips," Eyal said. "They would realize that they can 'see'me loud and clear."
bum is over
This isn't the case for "Live On." The 14 tracks sound a lot alike, but they are so impeccably produced, arranged and performed, it is nearly impossible complain.
Shepherd carries "Live On" on his very capable shoulders. If word gets out about his ample well be another Springsteen or Clapton. For a man as young or Clapton. For a man as young as deep and disciplined, especially considering he is competing considering he is competing work. Shepherd's lyrics have a work. Shepherd s lyrics have a ("I can't sing, I ain't pretty and my legs are thin," he says to in troduce "Oh Well") that is rare of rockers today.

But then again, there is nothing typical about this 22 -year-old. While most musical acts his age are trying to harmonize and perfect their dance steps, Shepherd is trying to revive old-fashioned blues-rock. Maybe such a goal won't sell
many records nowadays, but at many records nowadays, but at least Live On lets us know that there are still talented, cians in the world.

> SU freshman Eyal Sherman struggles to succeed in college and life despite a life-altering condition.

BY MAGIN MCKENNA
Asst. Lifestyle Editor
he human ear cannot hear Eyal Sherman speak. A quadriplegic, his vocal chords have been frozen since the age of five, and he is attached to a ventilator 24 hours a day. Most days though, he is just trying to make it to class on time at Syracuse Uniby steep hills with his mother in tow and bin pleotric wheelchair that he mavi cates with his mouth.
tes with his mouth.
It's hard, but I stay positive just by aughing a lot," said Eyal, a freshrnan in could have worse."

On a recent weekday, Eyal's mother, Leah, pulls up in front of Heroy Geology Building in the family's weather-beaten Chevy Conversion van for his last class of the day, PHY 106: Science for the 21st Century.

Light April snowflakes fall from the sky onto Eyals face, and he ghivers as his mother unloads him from the car. He linches at the chill, and Leah Sherman sroooths a down jacket across his chest.

Beneath it, Eyal, 18, wears an SU sweatshirt, blue jeans and a pair of clean Air Jordans.

From the parking lot, he sets off for the Physics Building. This day, his course
is tricky and he veers off path several times, getting a few odd looks from passing students.
Eyganceinside the Physics Building, Eyal heads for the basement and makes his way through a supply closet, littered with unkempt boxes and loose supplies.

It usually isn't this messy," Leah Sherman said, as she reaches to move a box oufter yaw way. utes, Eyal enters an empty Stolkin Auditorium through a back door.

It's a quarter to six - fifteen minutes before the class starts - and Eyal has just enough time to get settled. Leah Sherman places headphones over his ears so that he can hear his professor, Ed Lipson, lecture the class.
and Soon a handful of students trickle in and class begins on time.

By 8 p.m. the class, which lasts for almost five hours, breaks for a hands-on lab session - the topic is gene mutations.

It is a complex subject topic of study and elicits groans from the numerous adult students in the class. But Eyal is keenly interested.
"He's wide awake in this class," Leah

City denies permits for block party
}

BY BETH BRAVERMAN

\section*{Staff Writer}

Last spring, about 1,000 Syracuse University students clashed with riot police during the annual Livingstock block party, resulting in damage.

Fearful of a sequel, city officials said tast week that student residents on Livingston Avstreet for such a block party this year

Students will still be able to have parties, however, just not events that will close any streets in the area, said Harry Lewis, president of the South Eastern University Neighborhood Association.
\({ }^{4} 1\) understand that kids like to have a good time, but we are not going to allow such an event to take place as the one that happened on Livingston Avenue last year," said Joe Nicoletti, director of operations for the city of Syracuse.

In order to receive a permit, interested residents must fill out forms indicating the place and time of the event as well as the presence of chaperones or alcoholic beverages,

\section*{Panhel votes to ban fraternity house mixers}

BY HOHN ARWEILER staff writer

Syracuse University's Panhellenic Association voted Mon. day to ban campus sororities from co-sponsoring alcoholirelated hel President Sarah Korf said hel President Sarah Korf said.

Greek community members, however, still need to work out Korf added

There
There was absolutely no diacussion, she said of Monday's Vote "It was pretty much a chat
uch explanation because the issues were discussed at a mecting last week, she added.

But greek presidents noted some opposition to the vote and two of the 11 sororities voted against the ban, Korf said.

It comes with some resistance," said Leslie Weiner, president of Alpha Epsilon Phi. "But you have to abide what national and what Panhel mandate."

Sororities had to comply with a mandate by the National Panhellenic Conference's regiona onvention in 1998.

Some sororities' national ofices have already adopted a verand of the recommended policy will not be afferted by thapter laws.
laws.
tier" basonference advised a "tier" based policy, said Heid

Holzapfel, president of Alpha Gamma Delta. Sororities under the first tier would not be able to participate in any event with a fraternity whose facilities were not dry, she said.

Second-tier sororities would be able to attend functions with fraternities as long as there was no alcohol present at the event. The third tier of sororities would support the other sororities decisions whinout making a stance of their own, Holzapfel said.

Where a sorority falls in this tier system depends on their national's decision, added Holzapfel. Panhel must discuss an SU social polity so a plan to impleinitiative can be agreed upon,

Korf said. That way, sororities at SU will be on a common social jevel.
"It's not worth fighting over," said Katherine Biro, president of Alpha Chi Omega. "It's something we don't have control over. We can still have the "greek life, but fraternities don't have the same liability."

With the new policies, if a sorority sister became sick during a party, the fraternity would not be responsible, Biro said

This is because social functions with alcohol would be at Theta Chi President Ryan Walsh said.
said.
The changes are effective with the 2000 Fall Semester, she
added.
I agree with it because of the safety issue. But of course, it's something nobody wants," Biro said.
The Interfraternity Council voted unanimously Monday night on a resolution supporting the sororities' decisions, Korf said.
said he dis agreed with the reasoning behind the initiative
"I don't think that it is really air," Walsh said. "Dangers lie ahead. Tm sure there, are sick in idents of people getting sick at a rgister for at a bar where nobody knows about it. \({ }^{-}\)

Nicoletti said. The forms must then receive approval from the Department of Public Works, Parks and Recreation, the police and fire departments and the mayor's office.

Although students filed the appropriate papers, the city simply denied them permission, Nicoletti said.

The city administration decided after last year's events that it would not issue permits
for block parties to any groups if the party has the potential to become disruptive, Nicolett said.

During the alcohol-fueled riot, students lit bonfires in the streets and many defied firefighters and police.

Nicoletti called the incident "unfortunate," but said the word riot may be too "inflammatory" to describe the events.

\section*{INTERNSHIPS for CREDIT}

FALL SEMESTER, 2000
Early applications for local Fall Internships will be sent to organizations NEXT WEEK.

Visit SUIP now and apply for the Internship of your choice!

Further information from:
Syracuse University Internship Program 113 Euclid Avenue, ph. 443-4271

Rather than ban street closings, the city should increase security, said Maureen Switalski, a freshman in The College of Arts and Sciences.

She compared last year's riot to Pennsylvania State University's 1998 Arts Fest, which ended with fires and vandalism.

About 1,500 people crowded the streets near the university, prompting police to use
teargas and nightsticks to break up the crowd, according to reports.
"That was a really bad riot, and they are still having Arts Fest every year," said Switalski. "They are blocking off the streets still and everything." But Nicoletti notes the support of the community, including \(S U\), in denying permission to close Livingston Avenue.

\section*{ \\ University Shipping \& Storage www.shiprite.met \\ -FREE Boxes \\ -FREE Pick Up, Delivery \\ -Save \(\$ \$\) over the SU Auth Svc. \\ -Authorized UPS Shipping Outlet \\ INTERNATIONAL SHIPPING TO ALL cities ... Main St, Syracuse } \\ 452-0762\end{gathered}\)}

The effort has nothing to do personally with the residents, hesaid, adding that most of this year's Livingston residents have proven themselves respectable.
-It would be foolish to risk arrest or a mark on your record or get in trouble with the university," Nicoletti said.

Nicoletti, a former SU student, said he sympathizes with the residents looking to party, but said the behavior displayed last year was appalling.

He blamed the riot on "mob instinct."
"One person does it and the next person does it," Nicoletti said. "By not having the block party, small things wilin no

The city is justified in denying the street closings said Rob Zanzi, a freshman in ternational relations major But the community needs to maintain tradition when possi ble, he added.
"If there is enough security and the police watch what the kids are doing and there are not too many alcohol-related problems, if it can go off withouta hiteh, then I don't think it is a problem," Zanzi said.

\title{
here's your chance to really go somewhere.
}

Congratulations. All the cramming, insomnia and junk food breakfasts have paid off. You're in college now - and soon, you'll be facing questions about your life. Like what to do with the rest of it. One thing is for sure, if you're a student of color, with an INROADS internship you could have a serious job every summer while you're still in school - making contacts and gaining experience in your chosen field of study. Hey, it won't be easy, but then again if you wanted it easy, you wouldn't be reading this right now.
web site _ www.inroadsinc.org

You got this far. Now go farther.

\section*{PROTEST}
continued from page
Seattle's chief of police later resigned under criticism of his management during the "Welcome to the battle of Seattle, Part Two." said Minhael Moorer, fim director Sunday rally

The IMF provides money hrough the World Bank. Crit cs say the IMF strips countries of their right to rute and exploit Third World countries.

1MF leaders were scheduled to meet April 16 and 17 in
Washington, D.C and protestto shut down the gathering.

SU freshman Joshua Katcher was one of the protest-

The hend of the Student Anti-anthropocentric Reasonhu org foor Sunday night, trying to nap during an organizalional meeting for the SU contingent.

He volunteered as a protest medic and said if any physical harm came to his fellow protesters, it was his job to aid his fallen comrades.

Katcher, who had been atlending meetings for months in Syracuse to prepare for the protest, Eot his chance Monday.
U.S. National Guard officers and Washington Metropol ticks resembling baseball bats, opened fire on protesters with pepper spray.

The incident oceurred at

8:33 a.m. Monday, as protesters gathered at Farragut Square. Several protest groups marched to pulsing drums, bringing banners, gas masks and chants
"Hey, hey! Ho, ho! The IMF has got to go!" protesters cried.

Police barricaded the area, trying to keep protesters in one place. Plain-clothes officers, whom protesters dubbed undercover officers, filtered through the crowd, asking the demonstrators to keep the sidewalks clear.

After the National Guard broke from its formation to join Washington, D.C. police, the crowd's energy increased. They began singing we Shall Overcome," and one protester blasted John William's "Imperial March" from "Star Wars" through his portable tape player - alluding to the perceived Evil Empire.

After the music subsided, police putled on black rubber gas masks While Washington, D.C. Police Chie
Ramsey looked on

Earlier Monday, Ramsey told a radio audience how proud he was of the way his department performed, especially in the world's spotlight.

As of Monday, there were no reports of tear gas, unlike the Senttle protests.

The crowd reacted calmly during protests, yelling, "the police are putting on "\&as of an impending attack

Shortly after, police sprayed pepper spray into the crowd.

An elderly man close to the barricade caught the full spray. His face grew red and he winced in agony as mucus poured from his nose.

A protester brought him to the side, where Fatcher and two other medics waited. Katcher and the others tried calming the victim down while padding him with rubbing alco-

\section*{Shut down}

Police had to block several major streets and closed Metro stops in downtown Washington, D.C, during the weekend.

On Sunday they told protesters that if they were in groups of more than 20 people they would be arrested, citing fre code violations.

I think that is probably normal operational procedure whenever there's a fire code violation three dozen police officers ghow up to fix the bad
wiring. Moorer said sarcastically.

Sunday's scorching 90-de-
gree heat had protesters and police officers sweating under the sun's bright beams.

Riot police, outfitted with bulky helmets and several layers of black, protective clothing chugged bottles of refrigerated water.
shift frore here for only one said one officer

Officers were not allowed to give information out to the public. Instead, civilians and protesters alike hadto find public information officers.

SU students woke up early Sunday morning, sharing the ame goal. Students formed a human barricade, linking arms, a George Washington Univerity parking lot. They said they hoped to prevent IMF officials rom attending their meetings.

We stopped WTO President Michael Moore from going to the me eting, so that was a success, sam keegan Cox, a
SEAC member and ESF graduate. Moorer added his own opin-
ion. "(The IAF members) are all down at Krispy Kreme having a couple doughnuts trying to find out what to do next," he said.

The smell of vinegar domi nated the Ellipse, the aren around the Washington Monu ment, where Sunday's official protest took place. Protest orga aizers had ralliers sonk handkerchiefs in the vinegar to essen the effects of teargas and pepper spray, which were used by Seattle police in last November's protests.

The Ellipse held a festival atmosphere. Tents and booths cluttered the green lawn and variety of activists handed out propaganda. One group had a cardboard trojan horse with a gift tagreading "From: The was Underneath the horse homeless man with a shopping cart.

The more creative the protestersare, the better, said Roopa Gona, a University of Pennsylvania sophomore.

Presidential candidate and Green Partymember Ralph Nader also spoke with protesters. Nader visited SU las week, addressing such activism. nore think protesters are even eporteriedgeabie than most complemented the protesters that braved the hot temperatures.

epper spray.
sentative betwe a repreand police.

Pratesters came close to opting for a mad dash at the police line, an approach that some of them argued would leave many people hurt.

At one point in the nego tiations, Bull asked about 10 protest organizers to vote on
ganized Sunday's events. They stress non-violence and even ask protesters to undergo nonviolent seminars, according to the group's Web site.

But even with workshops, skirmishes between protesters and police turned physical. Monday morning, a group of pratesters marched across the street from the World Bank young man, was hit with pepper spray.

He was saying stuff to the police, one protester said.

Shortly after, the entire crowd, including press were sprayed from all sides by Metro police.

Most of the SU group left Monday to attend classes, which was the topic of discussion Sunday night.
which drivers are willing to
whether to get arrested peacefully or violently.

The vote was 6 to 4 , in faof peaceful.
"It's not about confronting the police, "college student Ina Howard said. "It's about trying to send the word to people everywhere.

Bull cut a deal with police that the demonatrators would walk in orderly groups of 10, arms linked, and face the charge of crossing a police line.

Grainer turned to his officers, who earlier had pulled on gas masks, and urged a calm resolution.
"Let's take our masks off," he said. "We're de-escalating this thing.

Unlike other confronte tions which ended in violence, Grainer welcomed the protesters with high fives as they crossed the police line. Officers ciapped plastic restrain ing ties around the protester wrisis and shuffled them into waiting buses, were they wer taken elsewhere and detained As forecasted, the threat of viclence hung darker than the rain clouds over the protest. But communication between the
mained open.
D.C. Police Chief Charle H. Ramsey told reportera that H. Ramsey told reporters that he was making an effort to continue talks with protest. Officer Stephen Jackson
at the D.C. public information desk, however, refused to say where the 1,250 protesters ar rested this weekend were be ing kept or how long they would be held.
stay a day, a week, a week and a half,"said Brian McNamara, a senior from Melrose, Mass. "There's a good chance people could be arrested tomorrow.

In anticipation of arrests, proteste
"It's our job to observe any police brutality and document it," said John Pheney, of St. Petersburg. Fia.

Though the IMF and World Bank meetings were not cancelled, Kelly Nagy, a member SEAC who went to Seattle, said it was positive experience. "Sure we didn't gain the same type of success than Seattle, said Nagy, an ESF stu dent. We did our job, made alD.C. shut down and that's insane.
"If you don't say this is suc-

GSO
continued from page 1
Senators also approved giving the Graduate School a \(\$ 10,000\) conference fund from its roll-over funds, the part of past years" budgets that went unused

The Senate voled to reject the Finance Committee's recom mendation to deny funding for Nexus - a journal produced by gocial chance and decided to al ocate the joumal 03000 The jour for Nexu
us was de GSO's special pro cramming fund.

The Finance Committee com pletely rejected Nexus' request for unding "because publications can't be done halfway" said Eliz abeth Skewes, co-chairwoman of he committee and a mass communications student.
"You have to pr
". St have to print or not
Since Nexus targets subcribers beyond the SU campus, GSO should not fund the journal sadd Bernie Schule, a member of the Finance Committee and a public administration student.

1 don't think this is a wise investment," he added.

The first issue of Nexus, which was published in January, ncludes 16 articlex, nine of which were authored by SU students.

GSO, which has funded vexus for four years, has just been "dumping money down" because the journal does not include natural science students, said Senator Darryl Smith, a physics student

Nexus' goal is to build up a 300 -persen subscription base in wo years so it can become selfsufficient, said Brian Blancke, a social science student who represented Nexus at the GSO meet-
ing.
We don't want to come back to GSO every year to ask for funding." he said.

But until then. Nexus needs funding for the next two issues, Blancke added.

Currently, there are 20 to 30 students working on the journal, he said.

IIf 800 people want to be involved with pexle want to in merrier," Elancke said.

Denying Nexus funding is a very provincial standpoint, said Enver Falimanov, vice presidentelect and an international relations student.

The journal represents Maxwell School of Citizenship and Public Affairs students to other universities, he added.

The Finance Committee's recommended salary of \(\$ 750\) for the Forum editor was also questioned by several senators. The Forum is a newsletter - usually managed by a GSO mermber - for graduate students.

Communication between GSO and the larger graduate stadent body is inadequate, a problem which the Forum can ameliorate, said Senator Andrew Saldino, a religion student.
"That's why I joined GSO." he added.

Increasing this token salary" for the forum editor would attract more candidates, he said.

But working on the Forum is primarily to augment the editor's portfolio, said Skewes, and is not a question of salary. GSO can also try to recruit an editor from outside the Senate, she added.
"There is a cost," Skewes said. "You cante just take it out of magic money.

A motion to increase the Forum editor's salary to \(\$ 2,000\) was
rejected.
Several senators also contended the Finance Committee's \(\$ 40,000\) recommended allocation for the inn Complete, a gradumte student bar located on South Campus. The allocation is the largest single expenditure in the budget.
" think it provides a great social outlet for every organization represenced, honestly think this is a valuable The Finance.
The Finance Committee also recommended a \(\$ 37,897\) budget student legal services.
But legal services are more important than "subsidized beer, said Senator T.J. Lankin, a la and public relations student.

The allocation for services, including funds for the inn Corm plete and student

The Finance Committec looked deeply into the issues, so its recommendations are best followed, said GSO President Eric Hunn, a law and public administration student.

1 was really happy with the outcome because 99 percent went as the Finance Committee suggested."
In other GSO news
The Student Activity Fee for graduate students willin crease from \(\$ 66\) to \(\$ 70\). Graduate students will pay \(\$ 76\) each. with S6 of the fee going to the Nen York Public Interest Research Group.
- Senators voted to support the efforts of the Student Coali tion On Organized Labor to pres sure SU to join the Worker kights Consortium.

The WRC really gets to the root of the problem," said Mariki

Wissink, a SCOOL member and senior music major, to the Senate. It has exploded in the past few months."

The Senate appraved giving ten students \(\$ 140\) each and eight students \(\$ 75\) each for travel ands. The money comes out of a February to April. February to April.

E The Senate approved a motion to purchase a new photocopi-
er for the GSO office. The old one, which has worked poorly for years, could not sort papers and always jammed up after making two or three copies, said Comptroller and President-elect Francine Carter, a chemistry student.

The cost of the copier, \(\$ 9,100\), will come from the roll-over fund in the next three years, she added.

\section*{continued from page 10}

GW residence halls were closed to visitors this weekend in an attempt to deter students from housing protesters, Sehgal said.

Nora Cochran, an American University sophomore who works in one of the residence halls, said the staff took many precautions to prepare for the protesters.

Students were required to egister any visitors staying for he weekend, said Cochran, a resdent of Columbus, Ohio. The vistors were given an identification card to show when they entered the halls, she said.
"They seem very peaceful." she said of the protesters staring in the residence halls.

GW sophomore Carissa DiMargo, however, said she thinks many of the der ( 1 strators are not educated about the issues they are fighting ©or.

A lot of people are just jump ing on the bandwagon," said DiMargo, a Poughkeepsie, N.Y. native.

Students at American University also agreed that many of he protesters do not seem well informed about the issues being debated.

Sophomore Dilinda Vaz said she did not join in the protests because she did not think she knew enough about the issues.
"I just don't want to be one of those people who jump on the bandwagron," Vaz said. "I'm aware of the issues but I feel when these things happen, college students get all riled up.

Many of the demonstrators stayed in American University residence halls, sophomore Jason Ranc said.
-I hate the fact that I'm paying \(\$ 32,000\) and they're taking over our dorms, our lounges, ou study halls," said Ranc, a Philadel
phia native. "I have work to do. Say what you want, but when you're prohibiting people from getting their work done, that's a different story.
"Personally, I have no problem with the IMF and the world Bank:

The protests have divided campus communities, leaving stu dents to battle their friends, professors and neighbors about the issues, Sehgal said.
"They're not respecting our viewpoint." she said. "I think not protesting is just as much a statement as protesting."

The GW Delta Tau Delta fraternity chapter displayed its opposition to the protests by hanging banners from its house behind a parking lot where more than 20 Syracuse University students demonstrated Sunday morning.

Signs read "GW Delts American capitalists and damn proud of
did not come without a cost. Re spect your right to free speech Thank a veteran.

Several Georgetown students said they were not aware that the protesters would be in town this weekend

Freshman Liz Ford said that the campus has been quiet and, aside from a lacrosse game being cancelled, her life has continued undisturbed
"In terms of schoolwork, I don't think they did anything," said Ford, a Boston native. "It's mone of a convenience thing."

Ford noted, however, that Georgetown's annual Diplomats Ball was cancelled becallse of the protests.

In cases such as the protests when students are affected, university administration should inform the student body of potentia dangers, freshman Parvaneh Daneshmand said
"Honestly, I didn't know a
whole lot about it," Daneshmand said. "I had no idea it was going to be this bad. Being up on the (Georgetown) hill, we're kind of secluded.

That would be really awesome to inform us about what is going on in our environment. It's strange walking around and seeing groups of cops.'

While many students said they felt their lives were disturbed by the protesters, others, neluding Georgetown freshman essica Duncan, said the demonstrators made her more aware of what was going on in her city.

It reany makes you think. said Duncan, a New Jersey native.
Theyre so adamant about it.
Duncan added that Georgetown's relatively isolated location gave the students a unique perspective on the demonstrations.

We have an outside perspec tive We can see both sides."

} \\ \\ Protesters converged on the nation's capital
}
last weekend to knock on the doors of the International Monetary Fund and World Bank's annual meeting.

The two bankrollers combine to provide the world's largest source of financial assistance to developing member nations.

Aid packages from the institutions, which are tied closely to corporate interests, come with a stringent batch of stipulations. The acceptance of loans often requires nations to conform to industrialized countries' environmental guidelines and governmental structures, which many Third-World nations aren't prepared to tackle.

While fair labor conditions and environmental issues are important issues to bring to the IMF and World Bank table, they're irrelevant until member nations can successfully feed, clothe and employ their citizens. And today, that notion is a far cry from reality.

True relief doesn't come by cutting a fat check to impoverished nations. Only through localized guidance can developing nations truly realize their potential. Taking power and funding from high-ranking IMF and World Bank officials and putting it in the hands on non-government organizations and charity groups is the best way to affect real change.

Some protesters call for a complete cancelation of debts incurred by Third-World nations, in order to give them greater spending power. If debts were alleviated, developing countries would be able to pour more money into education and health care. But pardoning all debts would alter with the World Bank's setup as a lending organization, and potentially strip them of funds that could be used to aid other countries.

As international lending bodies, the IMF and World Bank have little recourse for recouping loans when nations default on repayments. But if they worked to ensure proper intervention in helping nations set up fair repayment plans, larger portions of debts would surely be repaid.

Sweeping change won't come overnight. Both the protesters and the IMF and World Bank officials must understand the unique constraints developing nations face in building successful polities.

\section*{Globalization traps nations in cycle of poverty}
(U-WIRE) LOS ANGELES - The protest against the World Trade Organization in Seattle last December ignited a nationwide spread of awareness regarding the evils of globalization and the free trade market.

Globalization is the push by First World countries such as the United States, Japan and the United
Kingdom for an open international economy. The First World serves as the economic leaders and decision makers
of the market, while developing countries are exploited of the market, while developing countries are exploited and forced to provide products and services in order to earr profits for wealthier nations.

This past week in Washington D.C., the protest conLUU DOAN tinues, this time against the World guest column Fund. These organizations reside on lond the financial branch of neo-liberalism by lending money to deeply indebted Third World economics under the guise of economic and. In efforts to stop corporate domination of the international market, thousands of people from labor unions to student activists will continue the fight started in Seattle.

During the 1970s, money was imesponsibly exchanged between commercial banks and undemocratic oreign governments, many of which no longer exist.
sed down by the older generations, but have been passed down by the older generations, but have been the IMF and Word Bank get their power. In attempts to alleviate their debts and avoid growth by further interest, developing countries are forced to take out loans from the IMF or World Bank. These organizations happily pass out the money, on the condition that the receiving country accepts some financial "advice." These forms of advice, or rather implementations, are known as Structural Readjustment Plans,

What is a SAP? Once a country accepts money from the IMF or World Bank, it must allow the lending powers to change and restructure the borrowing nation's economy and national organization.

This means the country must cut a drastic amount of its public spending in order to pay back the debt. The result is higher fees and less accessibility to health care and education, trapping the nation's population and future generations in a cycle of ignorance and poverty. Many of the nationalized rosources and businesses become privatized, meaning services and products that used to serve the domestic population and keep wealth inside the country are now open to foreign investors. These investors raise prices outside of the domestic reach
and direct the nation's products and resouroes toward international export.

The sustenance of the community becomes controlled and manipulated by foreign buyers. SAPs reduce government spending in the area of legislation as well. Some nations cannot afford to implement laws governing the safety of their workers or the environment. Many external corporations take adwantage of the lack of environmential and labor laws to make their products cheaply and quickly compared to what they can do in their First World
homes. This is why many corporations thrive by having their merchandise produced in sweatshops.

The climination of tarifls is another devastating part of SAPs, as it allows foreign products to enter the country and domestic market at no charge, making it nearly impossible for local business to compete and keep wealth

Farmers and producers, traditionally accustomed to doing business within the community, now find their consumers in the hands of foreign producers. The SAP. imposed reduction of government expenditures also eliminates subsidies, which previously allowed citizens to afford basic products while simultaneously allowing firmers and manufacturers to make a fair profit.

The World Bank and IMF are two of the most important tools in the push for globilizition. They use tactics of caught in the struggle for stability. These anti-democratic caught in the struggle for stability. These anti-democratic organizations take upon themselves the complete respon
sibility to rcorganize the structure of another economy. The restructured conomies have inttle say in their "makeover", since the weight of the votes of each country depend on their financial contribution to the organization.

As a result, developing countries are caught in a cycle of exploitation and poverty. Their people's right to be edu nation's resources and to have a self-sustaining society have been sacrificud by First World greed. They have been raped of the joys of life in order to provide the frivolous necessities of the corporate world

As human beings, we have a responsibility to each other to fight against a common enemy, that of globaliza, tion, which sacrifiees the basie rights of our international brothers and sisters in under to cultivate the growth of their dollars.

\section*{SU fails to recognize means to true diversity}

To the Editor:
This past Saturday night, I was walking to Hillel, en route go bowling. From a distance, I heard some very loud music comwas not Hillel members preparing to go bowling. Rather, it was the to go bowhing. Rather, it was the sic of the Black Celestial Choir Ensemble.

Now, do not get me wrong - I am rarely mistaken to be black, and never mistaken to be Christian, but when I walked into that Chapel (which also, ironically. serves as a synagogue during the

Jewish High Holidays), I was feeling the love. I felt as if I walked straight into the scene from the Blues Brothers" when they
doing flips down the aisles.

The place was not filled to ca pacity, but in combination with the music, it had enough people workd up into a hand clapping worked up into a hand-clapping, foot-stomping fervor. It was on he most awesome momen seen on this campus.

I guess I felt compelled to write this letter because I saw no mention of the event in Monday's Daily Orange. But more than that 1 felt compelled to write this letter because what I saw for thirty minutes Saturday night was something I rarely see on the Syracuse University campus.

Straight from the black Bap-
tist tradition, on Saturday night, what I got caught up in was a passion so intense, emotions so great, than the acclaimed SUPuch more than the acclaimed SU Pofice Reports. For those 30 minutes, 1 was able to pretend that this carnpus does not self-segregate into different racial groups. I was able to appreciate a black cuitural tradition as a product of SU's famed diversity. It was a moment where you
wish you could freeze time and wish you could freeze time and

So, Chancellor Shaw, the next time that you want to spend millions of dollars to re-roof the Car rier Dome, how about thinking campus instead? really unite this campus instead?

Eric M. Colchamiro

\section*{SEATTLE}
continued from page 10 Seattle prison where jailed protesters were being held and linked arms around the jail to demand their friends' releases. and just as I got to the conthe and just as I got to the conprotest down the street a few protest down the street a
thousand strong," Rota said.

A convergence site is a prodetermined place where groups deter to plan and collect them gather to plan and collect them streets, protesters said.

Rota said there were not as many protest sites when he ar many protest sites when in Washington, D.C.

When I got here Thursday morning, I really didn't know of any protests going on,", Rota any protests going on, Rota number of demonstrators and energy there was in Seattle.

Rota, a University of Buff flo student and member of the university's chapter of the Student Environmental Action Coalition, said he has had minmad run-ins with the Washing on, D.C., police, but came close when the house he was staying n was raided by city police ear y Thursday morning.

The police confiscated 160 lockboxes, used to construct human chains, Rota said.

They also arrested two of my friends," he added.

But despite the raid, Rota said police seemed more ready to manage the protests than Seattle police were.
"Seattle was a lot more intense," Rota said. "The cops here are a lot more restrained, more professional.

In addition to Rota's house, the protesters' convergence site was raided by city police, protester Sara Koch said.

About 60 people were at the site, making puppets and planming their actions for the day when the city fire marshall walked in at about 9 am
"He didn't try to engage in civil conversation, he

That kind of approach does
not work with the type of peopile the protesters are, she added.

In protest groups, there is no leader, Koch said. Decisions are made by consensus, she said.

That kind of thing in a consensus environment is what incites riots," Koch said. "To try to tell a bunch of anarchist consensus people to 'Get out now,' you just don't do that."

Police and other law enforcement officials refused to comment during the protests.

Koch, a self-described "professional agitator," which she said means that she is "homeless, unemployed and goes to a lot of protests," agreed that Washington, D.C., was "a lot more low key."

Many protesters seemed bent on recreating the experience of Seattle - something that was unattainable, she said. that it was a failure, she quick\(1 y\) added.

It's obviously bound to be different," Koch said. "People process it as disappointing because it's not the same. It's not to say that it's not wonderful and powerful - just different, very different.

Police also seemed more in tune to what was going on, she said.
"Cops here obviously know more what to do because this is what people do in the country's capital - they protest," Koch said

Also the Washington, D.C., police are less nervous and more assertive, Koch said.

The Seattle police never raided the main convergence site, she added.
"I guess that makes (the Washington, D.C., police) more unconstitutional, she said. Technically, they got through the loophole of the fire marwho who's the one city official who can close you down without a warrant

\section*{Risking arrest}

The commitment of the pro-
testers was stronger in Wash-
ington, D.C., than in Seattle Koch said.

At planning meetings prior to her Thursday arrival, about 1,500 people had committed themselves to risk arrest. That was before the majority of protesters had arrived, she said.

There was also already three times the number of peaple willing to risk arrest the night before the Seat tl protests, she added.
"It might be less in numbbors overall, but we have more direct action, arrestable people than in Seattle," Koch said.

But Kelly Nagy, a member of the Syracuse chapter of SEAC, disagreed that the protests in washington, D.C. those she participated in during Seattle's events
"It was similar," Nagy said. There were massive protests and legal rallies every day in Seattle."

Washington, D.C., police were also more aggressive that those in Seattle, she added.
"But police never poured peoples' bottles of vinegar out in the streets, that's for sure, Nagy said.

Vinegar and lemon juice are both used to soak cloth to put over the nose and mouth to avoid the effects of tear gas and pepper spray.

There was more violence by police in Seattle," Nagy said Police weren't as prepared as they are here.

Police corralled a group of more than 80 protesters under the overhang of a building Sun day morning. The protesters were herded, handcuffed, photographed and led onto several school buses parked in the mar row street

About 15 protesters were pulled aside and sat on the sidewalk because police believed them to be juveniles.

A magenta-haired girl repeatedly yelled for a lawyer and refused to tell police any information. A group of three le gal observers from the National green hats atop their heads, ar-
rived on the scene.
At first, police refused to let the legal observers - law students from local universities talk to those detained on the sidewalk, but after continued protests from the girl and orth ers in the crowd, observers Cal Wolfe and Benjamin Zawak were allowed through the po lice barricade.
"They haven"t let us in to talk to people all day," Wolfe said. "They want to get infornation out of them."

Police told legal observers that the protesters were arrested for spilling out onto the streets during their march, Ra fused to tell him of the exact charge, he said

Zawaki said he suspected the charge to be unlawful assembly.

But protesters claimed they stayed on the sidewalk the entire time, he added
"Take your pick as far as what the police have done al week," Zawaki said. "The kind of pretenses under which they've been arresting people all week have been tenuous

One of Zawaki's fellow legal observers was arrested along with the protesters. But Zawa ki said his colleague, Justin Jones, had no part in the protest. Jones was simply caught up in the fray, he said.

Lawyers Guild members are not allowed to take part in the protests - only offer legal advice to those who do participate, he said.

It's kind of good in that he can document from the inside for a lot of the suits," Zawak said.

\section*{Medical attention}

At about \(4 \mathrm{a} . \mathrm{m}\). Sunday, more than 150 protesters as sembled near the International Monetary Fund building to attempt to block delegates from entering their meetings, said Charlotte Joss, a member of "There were cops with billy clubs smashing peoples' faces," Nose said.

Protesters successfully blockaded a van of delegates blockaded a van of delegates she said. There was a police of facer sitting on top of the van, kicking protesters in their faces as the vehicle pushed

Most protesters tended to in a medical tent set up Satur in a medical tent set up Satur ament were treated for minor amenities, said Steve Landau, part of the medical help team.
"There's a fair mount of heat," Landau said. "People needed antacid, sunscreen."

Dehydration and fatigue constituted most of the tent's business, but there were occasional pepper spray burns, in addition to some more serious injuries, he said.

Police hit one woman in the face with a baton, Landau said.
"She was bleeding from her nose," he said." Her nose looks crooked. She's really panicky and nervous, but she's walking and talking so it's not that bad.

The nature of the assault was not "completely clear," he added, but he was trying to go to her aid despite the heavy roadblocks.

Another man had a cut to his head earlier and needed sur tures, added Robert Reck, a physician standing beside Lan au, crates of water jugs piled behind him.

Wolfe said he wished that police had used more tear gas in place of batons, because the gas has a temporary effect, while batons have the potential to cause more serious injury

There were particularly bad cases of police brutality on the corner of 17 th and I streets, just blocks away from where he provided legal advice to the group of juveniles. eoplere were four or five people on the sidewalk with bleeding heads and bleeding noses," he said. "One guy had been dragged, gassed and beaten.
"He was a mess."

\section*{Monkey do}

Monkeys apparently are perfectly happy to lend each other a hand, but only if they think they'll get rewarded for their efforts. Frans de Waal of the Yerkes Primate Center at Emory University in Atlanta studied capuchin monkeys, small but large-brained primates found in South America. De waal and colleagues observed pairs of brown
capuchins in a special laboratory chamber in which two monkeys had to work together to get a bowl of apples. When they succeeded, they always shared, the researchers reported in the Aprit 6 issue of Nature. When the monkeys could get the food without help. they were much less likely to share.

\section*{Try again}

A fossil once described as a possible "missing tink" between birds and dinosaurs is actually a composite of at least two unrelated animals, according to the National Geographic Society. A team of consultants gathered at society headquarters recentiy to compare last year's "archaeoraptor" with the fossil of a predatory species recently discovered in China. The panel concluded unanimously that what was thought to be the tail of an archaeoraptor was in fact that of a small predatory dinosaur called dromaeosaur, while the leg bones might have come from several other species.

\section*{Don't ask}

The census has caused anxiety even anger in some quarters - with its questions about everything from income to plumbing. But there is one major aspect of American life it faits to cover: religion. Congress barred the Census Bureau in 1976 from compelling people to reveal their religious affiliations. As a result, America's religious landscape remains surprisingly ill-defined. Some of the most fundamental presumptions are based on educated guess work. suspect science or leaps of faith.

\section*{City offers unknown treasures}

You've all been snickering at the groups of Otto-stickered prospective stu dents all carrying their orange bags, haven't you?

Out of their element and utterly clueess of what theyre getting themselves into with this whole college thing, these prospective families are a lot like yours and mine not so very long ago. Lucky for me on my April tour nearly two years ago. I found the recruiting table set up by The Daily Orange.

This is also my goodbye for the semester. Next week is my last column, and I'll
be too busy talking about a
Beisser local band to do so. As the
Beisser O.O.s "media freak" - a title I never really liked this past semester, I've
freak \(\quad\) tried my damnedest to point out what I felt were the better things about movies and TV, as well mention the coolest things to do in this dead city and on this kooky campus.

Along the way I missed pointing out certain spots that I didn't get around to fully covering in-depth, but I wanted to mention a few.

\section*{Columnist's picks}

The Syracuse Skychiefs Assistant General Manager Tom Van Schaack wants you all to come out to the see his team play. The 2000 season just began last week and, despite the terrible weather of late, the show must go on for the boys of sumlet for fans of the national pastime in these let for fans of the

The Skychiefs, a Triple A team, even has a deal every Thursday for college kids Just show your school ID and you'll get 2 for 1 general admission. You can't beat that for value, especially if you're as broke as I am. The most you'li ever spend for a ticket is seven bucks.
"It's caliber play right under the pros," Schaack says of the Toronto affiliate. "And Schaack says of the Tore

The team is shooting for their third winning season in a row. Help keep the trawinning season in a row. Help keep the dition of Syracuse baseball going - it's been played around here since \(1885-2\) Tex Simone Dr., to catch a game before yo take off for summer vacstion.

If you think sandwiches served on long rolls are called subs and not hoagies, you're dead wrong in my book. If you think saying steak and cheese in reference to a cheese steak is proper, than you deserve to get hit. If you're from the Philly area like I am, you know what I mean. Were insane over our sandwiches for some reason or another

Taste of Philadelphia on James Street is a little out-of-the-way hole in the wal that knows what's going on. The bread wasn't up to par, but the meat itself wasn't too bad. It's nowhere near the original Philly steak places like Pat's or Geno's, but it was 50 times better than other restaurants around here.
"Everyone from Philadelphia will come in being very skeptical and ask a lot of questions, but they all end up calling back," said manager Kathleen Mack.

Let's go Flyers!
The Comic Zone located on South Main Street has it all if you're a big 10 -year-old at heart. Although it's filled mostly with comic books, the store does have all the other products that We children at heart fantasize about, too. You'i find tons of ather atuff at the Zone that voucan other stur at the Zone hat you can waste just like the good old days back in middle just. lik

\section*{INVESTING}
continued from page 13
es all drastically affect how a person should invest.

After deciding on the purpose of the investment, the person needs to build an understanding of the different types of anvestment options availabive aspects of each.

Different types of investments offer different levels of return and risk, relative to one another, Madden said. Common stocks are the classic investing example, where an investor purchases shares of ownership in a company. Bonds are safer but have a lower payoff potential, while money market accounts are even safer, with low rates of interest.

Mutual funds generally contain both stocks and bonds and allow investors to buy into several companies at once, spreading the risk. Other longterm investments, such as Individual Retirement Accounts (IRAs) or company \(401(\mathrm{k})\) plans

The Daily Orange
offer alternative investment choices

After deciding on the type of investment, the person shauld research specific compa nies or funds to make their final investment choice.

\section*{Close to home}

One of the best resources for Syracuse University students interested in expanding their investment knowledge is the SU Investment Club (SUIC). It states its motto as providing students with the financinity to gain real worid ence."
"The best way to learn is by doing," SUIC president Seth Davis said is the rationale for the club's existence.

But the SUIC, said treasurer and president-elect Shelby Williams, "gives students the opportunity to invest with real money without risking their own money.

SUIC is open to students in all majors and with any level of
experience, said Davis, a senior accounting and information studies major.

Some students are apprehensive about getting involved if they don't know anything about investing," he said. "But that's the whole point - we want people who are interested in learning."

SUIC has a one-time dues ee of \(\$ 45\). Its web site, www.som.syr.edu/som2/invest, provides information on the club. It also contains a list of links to Internet resources for both novice and veteran in vestors.

Other online resources for investors of all experience levels are www.fool.com and www.investoreducation.org. These sites offer everything from basic investing glossaries and FAQs to advanced investing strategies and information.

\section*{Spare change}

Another site, www.vanguard.com, offers an investing primer at its "University of Money." This section of the site
offers an example of the benefits of early investing. Time creates a significant incentive to investing early. The site gives examples of two hypothetical investors, Christine and Paul.

At the age of 30, Christine begins investing \(\$ 1,000\) per year for 10 years. With an 8 percent return, her initial is 10,000 investment will grow to \(\$ 107,100\) by the time she is 65

Paul waits until he is 40 to begin investing. He also invests \(\$ 1,000\) per year, but he contributes for 25 years, not 10 . With the same 8 percent return, Paul's \(\$ 25,000\) investment has only grown to \(\$ 79,000\) when he reaches age 65.

So although Christine contributed \(\$ 15,000\) less, and for 15 fewer years, the value of her investment is \(\$ 28,100\) more than Paul's, because she began her contributions earlier

Saving for investment can almost be thought of like saving for a stereo. Putting away a little money at a time adds up in money in the stock market, and
chances are you'll end up with even more money with which to buy a better stereo.

When a person decides to make an investment, he also has a range of brokerage houses from which to choose. Traditional brokerage houses allow investors to speak with and obtain advice from a broker. Online brokerages generally charge lower fees, but are less established and do not provide the personal service that traditional brokerages do.

Those thinking about investing through an online brokerage can visit www.gomez.com. where over 20 different online brokerages are evaluated. Usage fees, ease of use and the availability of frnancial information are among the criteria used in the evalua tions.
"The Internet is a wonderful tool for investing," Davis said. And because it allows a wealth of information to be accessed amost instantaneously, the Internet, is bringing invest ing to everyone."

\section*{at the Zone.}

Yes, I'll admit it to you I'm a gigantic loser. I may not be as big of one as when I was growing up, but the signs are still there. Comic books stili amuse me, although I only sporadically stop by a store to pick radically stop by a store to pick ularity of director Kevin Smith's

\section*{CHANGED}

Hi. Some of you may have seen me and my purple hat out and about on campus. Let me tell you a little about myself. I grew up going to church because my grandparents were both ministers and my mom had been one too. Basicaliy. I was just going through the motions. Then, in 1994 I got serious about my relationship with God and confessed that Jesus Christ was my Savior from sin and truly believed that in my heart. I wish I could tell you that everything in my life has been wonderful but that would be a lie.

Dave Hopping
Sophomore- Film Major

For more info about how to have a personal relationship with God email nick.decola@uscm.org or call 449-1027

Sponsored by Campus Crusade for Christ

My senior year of high school I really got caught up in
extracurricular activities. I was popular and had a lot of friend extracurricular activities. I was popular and had a lot of friends.
With all that was going on in my life I spent less time developing With all that was going on in my life I spent less time developing
my relationship with God and moved further and further away from the Christian life. I had big plans of writing and performing for "Saturday Night Live". On the outside things were looking good, but unfortunately, on the inside, I was really depressed and not really happy.

In August. just before school started. while at a farewell party for my aunt, I went to a Supertones concert (a ska band). She too was training to become a minister. Yes, my family seems to be ful of ministers. In fact, everyone asked me if I was going to become a minister. I thought that would be a stupid choice for my life.

While I was at the party, something odd happened. I was sitting there minding my own business when all of a sudden I felt God's presence. It was real; a very powerful moment in my life that I wish I could put into words. Immediately my life tumed upside down. I knew at that moment that God wanted me to stop going in the direction I was heading and start to follow his will for my life. Now I have gone from wanting to do "SNL" to wanting to minister to others full-time. I don't know exactly where the Lord will lead me but I would love to incorporate my comedy skills into helping others understand that a relationship with God is reatly important.

Because of God's love for me. He brought me back even though I had strayed away from Hirm. I know now that He is guiding my life. Though 1 still have struggles, I no longer need to live in depression and despair
tance like some self-absorbed columnists have incoherently done in these same pages docently. This is how I would talk to a group of friends if we were all sitting around having a fun conversation.

If you've stuck with me and read each week, let me say thank you all for being my per-
sonal confidants. I promise to be back to amuse - or annoy you next semester.

"It's pretty depressing right now, talking about our upcoming games," Brady said. season games left, and it's hard to realize, but it's a reality."

Brady said she wants to end her Syracuse lacrosse career with a bang.

Going into Wednesday's game at Cornell, Brady leads the team in goals with 26 and is second in total points with 31 , behind All-American Katrina Hable. For her career, the captain has 76 total points, tallying 66 goals and 10 assists.

Over the past weekend

\section*{ALUMNI}
continued from page 20 head coach Kathleen Parker's home before the tournament, Lewis said.
Other retumees included Kacey Croft, Molly Koons, Welly Larkin and Amy Weller Both Koons and Larkin got to team up with and Tracy.
cy Lerkin said "It's definitely different playing on this team different playing on this team back."

The seven seniors on the roster stood out from the rest of the players in uniform by shirts bearing the No. 7 logo.

Assistant coach Mary McCracken took notice of the way the two teams complemented each other.
"They all play some of their best hockey when they come back because they're so
relaxed," she aaid. "They've had sorne time to process the

Brady stepped up her game even further, putting up two GOals against Boston College on Friday and three more atainst Fairfield on Sunday.
The contributions Orangewornen to two convinc ing wins.
\({ }^{\text {ung }} \mathbf{I}\) just try to get in there and place the ball," Brady said. "I have had a lot of shots said nehave hada lot of shots the net," Brady said.

In Sunday's garue against Fairfield, Brady scored three times in the first fifteen minutes, including the final two on consecutive possessions. In both instances, Brady cut into the middle of the circle, caught a Stacey Brown pass. turned and fired the ball into the back of the cage.

Last weekend's trip to Boston College served as a homecoming for the Acton, Mass., native.
"It's pretty cool. My par" ents were there, and there are some local names that sound farmiliar," Brady said.
game and they understand it. So it's fun to see the young and the old play.
agreed. agreed.

It's always fun to play against old tearmmates, she said.

Prior to the event, the Orangewornen held their anEual banquet on Saturday. Each of the seniors gave a speech, followed by award presentations. The gathering listed a record four and
hours, MeCracken said

Although the tournament offered plenty of entertain ment, the event served a more serious purpose for the younger players.
a fun thing," said junior Rachel Hitchocock. "Theyplay on the alumni team so they're just out in it for fun. But for us, it's more competitive because two of the teams here (Colgate and Albany), we're going to play in the season. We also want to get the most out of it because it's our

With only four games left plus the post season, the biologymajor doesn't know what her plans are beyond the summer when she plans to go to Europe.

Beyond that, Brady eventually plans on going to grad. uate school

Before thoughts of graduation entered her mind Brady sat on the bench for year. Now beiner sophomore elder stateswoman on the team, she said she knows team, she said she knows
what it was like to be a younger player and hopes she's helped them.
"It's tough for them to sit on the bench for part of the games," Brady said. "We do have some starting freshmen, and they have to look to the future. It's a matter of time until they come around."

Brady's teammates look up to her, giving the tri-captain the respect her career has helped her earn.
"She's a very good
spring season.
The Orangewomen who have practiced and played without the senior view of what ta expect for the follow of what ta expect for the SU players
hope to use the spring to pre

\section*{FREE AGENT FIESTA}

When the NFL draft reached its conclusion late Sunday night, only two former Syracuse players had found a new job.
Former linebacker Keith Bulluck was taken by the Tennessee Titans with the 30th pick in the first round, and former offensive tackie Mark Baniewicz went to the Jacksonville faguars with the 247 th overatl pick.
For both players, the wait was tonger than expected, but each finally fulfilled a lifetong dream.
Oraft day didn't end the hopes of several former \(S U\) gridiron stalwarts, though, as several signed as free agents with teams that dion't pick them in the draft.
David Byrd - Buffalo Bills
Height 5-foot-11
Weight 193 pounds
Position Defensive Back
Prospect: Heading into draft day, the Bills had a cornerback in mind for a first-round Dick. But when Arizona State defensive end ty. In steps defensive back Byrd, whose draft stock dropped after y. In steps defensive back Byrd, whose draft stock dropped atter a stab wound ctit his senior season short. With starting left co nerback Antoine Winfield aiso listed as second string night corespecially with the former SU cornerback's blazing speed.

Steve Brominski - Detroit Lions
Height E-foot. 5
Weight 256 pounds
Position Tight End
Prospect: Encouraged by the fact that the Lions didn't draft another tight end, Brominski is happy with his chances. With David Sloan, Walter Rasby and Ed Smith sitting on Detroit's payroll as tight ends. Brominski will either have to beat one of thern out of spot or prove his worth as a fourth tight end. Most anaMcNabb pass to beat Virginia Tech in 1998 - as NFL material.

Quinton Spotwood - Miami Dotphins

\section*{Height 5-foot-11}

Weight 189 pounds
Position Wide Receiver
Prospect: Spotwood was never able to overcome an anterior crucial ligament tear that he sustained his junior season. In his senior season, he led the Orangemen in receptions. and his speed attracted NFL scouts. Miami did not choose another wide
receiver on draft day. but O.J. McDuffie and Tony Martin are proreceiver on draft day. but O.J. McDuffie and Tony Martin are pro-
jected to start for the Dan Marinoless Dotphins. Spotwood's abil jected to start for the Dan Marino-less Dolphins. Spotwood's abil-
ity to return punts and kickoffs might help him find a spot of his ity to return punts and kickoffs might help him find a spot of his own in Miami.

\section*{an Mcintosh - Washington Redskins}

Height 5 foot-10
Weight 172 pounds
Position Defensive Back
Prospect: The Redskins selected two other defensive backs in
last weekend's draft. They took North Carolina State's Lloyd Harrison in the third round and Quincy Sanders fram UNLV in the fifth. Throw Champ Bailey, Darrell Green, three backups and possibly "Neon" Deion Sanders into the mix, and Mclatosh has a lough road ahead of him.

\section*{GRIDIRON}

\section*{continued from page 20}
in the two-hour scrimmage. All four quarterbacks made good and bad plays.

Williams looked the best, as his passing was accurate, save for a single interception. ollowing a penalty, he faced play to develop and hit wide play to develop and hit wide middle of the field for a first mown and more.

Nunes was his normal solid but unspectacular self. Of the four, he still appears the most comiortable with the complexity
of the offense.

He escaped some defensive
ssure and turned an apparen pressure and turned an apparent sack into a five-yard gain, which dinator Chris Rippon.

Elliott showed tremendous strides. Twice he rolled outonce each to his right and left and completed a pass downfield. However, he is not crisp in run ning the option, which will plague him in the Syracuse system.

Anderson had the worst day

\section*{EXECUTION}
continued from page 20
Buffalo (5-23) played more like the Bad News Bears early on, dropping two infield fly balls to put Syracuse runners on base. Fresh-
man catcher Cheryl Julicher reached first in the second when UB shortstop Lisa Cox tripped and couldn't grab a pop-up.Julicher scored the first of three SU runs in the inning.

Park, who had not played in ting hit in the eye by a ball in the Carrier Dome batting cages, returned to action with an RBI dotible. Freshman designated hitter
of the four. Andre Brinson picked off a tipped pass. Anderson also let backup kicker and defensive back Peter Ferris make an open field tackle on him, when he was only two yards shy of a first down.

The redshirt freshman also struggled throwing the ball. He never got into a rhythm, and his passes were way oft target.

Combined, the fourget. nal callers threw four INTs and not allers threw TD.

It's not going to change all that much in the spring," Nunes said. "It might change a little bit Everybody's getting equal reps Were trying to learn the new stuff we're putling it into the offense, and remembering the old stuff from last year. Everyone is just trying to get better for the summer.

\section*{Good News or Bad News?} Friday afternoon's practio should tell us sornething. But we're not sure what.

In successive drills, the defensive line overpowered, beat and crushed the offensive line. In the first drill, a blocking dummy stood in the place of the QB , and
Julie Dunn drove in the other second inning run with a single.

Freshmen Jackie Herrman, Lindsay Richards and Julicher slapped RBI singles in the fourth inning. Tara DiMaggio pinch hit for Shanna Newell and closed the scoring with a two-runsingle with two outs for her first collegiate hit. The Orangewomen had 13 hits in the game.
"We clicked, we executed, we got what we needed to get done," Dunn said. "We got some key hits in big situations to drive runners in."

Bieman struck out nine bat-
ters to even her record at 8-8.
Things did not look good for
the offense had to protect the QB from a rushing D-line.

The defense easily beat their counterparts, reaching the blocking dummy in times as quick as 2.13 and 2.18 seconds.

The following drill added running backs and living, breathrunning backs and Thing, breat ing signal calers. The ball was had to run the option and score. had to run the option and score. Against the frst team defense, thances to scown and Mungro chances to score equaled PJ Alexanders prospects of being back.

When the debacle was over, ffensive line coach DeLeone pulled his lineman to the side pulled his lineman to the side and yelled, "That,"

The question is whether the slaughter was a product of an offensive line in transition or a defensive line proving to be one the top in the Big east

Senior Rickie Simpkins led the defensive charge from a tacke spot. He showed unbelievable quickness for a 286 -pounder. Flanking Sirnplins at the other tacke will be big Enic Downing.
Duke Pettijohn's production
the Orangewomen from the start of the second game. DiMaggio walked leadoff batter Stacee Madden, who scored three batters later on an error by Richards. The calamity continued in the bottom of the frame when center fielder Christina Holowich was tagged out in a rundown between second and third base.

Two Syracuse batters were called out for interference on bunt attempts in the third and fifth in nings, a glitch in fundamentals that head coach Mary Jo Firnbach said should not have happened.

We work on this stuffall the time," Firnbach said. "We won
has been well chronicled, with his team-high 10.5 sacks in 1999 and a spot on the All-Big East first team.
"We're kind of on track," defensive ends coach Jerry Azzinaro. "Those guys played last year. Duke had a good year, so he's moving along pretty well."

The pleasant surprise of the bunch has been defensive end a hand injury in the season opena hand injury in the season opener at Toledo, he played last yea exclusively in pass-rush situations. Freeney showed signs of brilliance in his brief opportuni3.5 sacks.

Now that Dinkins is Iooking for work in the NFL, the door is wide open for Freeney to dominate on a regular basis, as

The junior caused all kinds of problems for SU's four signal callers, disrupting their throwing hythm and chasing them out of he pocket. He also penetrated option pitch.

The only way the offense could control him was when tight end Aaron Lewis drew a yellow
that first game, so if anything we eren't coming out ready to go." DiMaggio nashed a little leather in the second, dropping to her knees and scooping a Tina Breakell pop-up off the dirt. However, her good fortune did not last past the next hitter, as Kim left field to give Buffalo a 2-0 left field to give Buffalo a 2-0
Herrman hit a solo homer in

Herrman hit a solo homer in the fourth, the second in team history, but Buffalo pitcher Andrea Sage recovered and shut Syracuse down the rest of the way. those are going to kill you every
time you have that," Firnbach

\section*{hanky for holding.}
'We're looking to have great unity," Azzinaro said. "Great unity. There's no question as far as our ability as tough guys. What we're looking to do is pay attention to detail and execute every play."

\section*{In otice happenings:}

Quentin Harris lining up at the safety slots and Will Allen having a lock on one cornertuack spot, the a lock on one cornertack spot,

With the NFL draft now a memory, the NBA
becomes the next profes sional league to pick from the collegiate talent pool in a recent CNN/SI draft projection, former Syracuse center Etan Thomas is player in the June 28 draft.

Thomas, who sent more than his share of opponenthan his share of opponen\(t\) 's shots into the Carrier Dome seats, may have to adjust the professional game
said.

SU's sultan of swat fell behind Cincinnati forward Kenyon Martin, Iowa State forward Marcus Fizer, Texas center Chris Minm Texas center Chris Minm high school senior Darius
Miles, Fresno State guard Courtney Alexander, and Miehigan State guards Morris Peterson and Mateen Cleaves.

In addition to his 107 blocks. Thomas also led Syracuse in scoring with 13.6 points per game and rebounding with 9.3 boards a contest.

The ex-Orangemen led SU to a Sweet 16 appear ance in March and a 24 win regular season.

\section*{sports trivia}
Q. Who coined the term "The-Big Dance?"
yesterday's trivia Q. Before Saturday, when was the last time the first two picks in the NFL Draft came from the same school?
A. In 1984, former Nebraska Cornhusker's Irving Fryar and Dean Steinkuhler were selected Nos. 1 and 2.

\section*{Defense controls practices}

For the sccond time this spring, head coach Paul Pasqualoni's Syracuse football team put on pads and Pasqualonis Syracuse footbail team put

On the first drive from the 10 -yard line, Made Williams orchestrated the opening score on an option pitch to James Mungro.
Troy Nunes matched his counterpart at quarter back with a similar looking option to sophomore Chris

Davis, who ran for the touchdown.
On the ensuing snap, Dee Brow fumbled the handofl from Chad Elliott and the series ended there. Anderson followed Elliott's lead and could not get ball notebook the Orangemen into the end zone. "We got four guys trying to get to get four guys reps," oflensive coordinator George DeLeone said. "In a 16-play team work period, the QRs are only getting four snaps. Coach \(P\) is trying to go two groups to get them more snaps.
The latter two series were indicative of how the Orangemen's offense stood up against a stingy defense for the rest of the sunny Syracuse afternoon. SU could not sustain any long drives, but the defense gave up some long plays.
SU's only other score was a 60-yard burst up the
middle by Mungro. The offense loo

\section*{Orangewomen split with struggling intra-state rival}

BY JASON REMILLARD Staff Writer

The Buffilo Bulls came to the Softball Stadium at Skytop on Friday with a 4-22 record in their first season since 1986

In the first game of a doubleheader, everything went according to plan, as Syracuse hammered them 9-0.

By the time the second game concluded, however, it was the Orangewomen that looked like the struggling program, losing a mistake-marred 2-
ldecision
"In the
who the the first game, we came out not knowing
game," freshman second baseman Rachel Park said. The second game, we realized we were better, and when we got down, we just started pushing too hard."

The Orangewomen (17-20-1) clicked in all as pects of the game in the opener. Pitcher Missy Bie man toyed with the Bulls' batters, tossing a onehitter. The umpires evoked the seven-run mercy rule after SUs five-run fourth inning gave them the 90 final score.

Buffalo had one last chance to cut the lead and extend the game, but Bieman capped her gem by striking out the side in the fifth.

\section*{1 City Affairs}

Mike Cunningham, director of tie Onondaga Lake friprovement Project, explains the status of programs aimed at cleaning Onondaga Lake to the Syracuse Common Council on Tuesday night in City Hall.

\section*{Common Council reviews lake cleanup plans, costs}

BY Nicholas steffens
Staff Writer
After weeks of hearing rumors and focusing on only a few controversial construction sites, the Syracuse Common Council examined the current status of day.
Mike Cunningham, the project's director, and Sue Miller, deputy director of the department of drainage and samitation, gave an update at the session.

The mecting was a joint meeting of the Public Works and Neighborhood Preservation, Downtown and Metropolitan Planning commitlees.

In contrast to rumors circulating in the commu nity, the project is moving along close to schedule and within the allotted \(\$ 380\) million budget, Miller said.

If the projects are not completed on time, howev-
er, the county and the city will be fined, because a federal court ordered the project, Cunningham said. There are also community-based reasons to meet the deadlines, he added.
"Making the ade milestones on time will affect the health of the community and the lake," he said. The council also inquired about the project's current funding status. Walsh (R-Syracuse) has already reon to help pay for the cleanup. Walsh and U.S. Senators Charles Schumer and Daniel Patrick Moynihan are in the process of attempting to secure \(\$ 50\) million more, Cunningham said.

New York state will pay another \(\$ 160\) million through aid packages, although the state still has not budgeted \(\$ 85\) million of those funds, Cunningham

\section*{Brawl prompts Denny's to end late-night dining}

\section*{Staff Report}

After a violent altercation early Tuesday morning sent one woman to the hospital Denny Restaurant, 2863 Erie Blvd., will temporarily cease to operate 24 hours per day.
"We have a number of strong security procedures in place, said Debbie Atkins, a Denny's spokeswoman. "This is in the best interest of our customers and employees."

The decision - effective

\section*{SEWAGE}
continued from page 1
said. Project organizers are optimistic that the money will come from the state's Environmental Benefits Program, he added.

The rest of the funding, about \(\$ 120\) million, will be paid by those who use the sewer system that is being renovated, Cunningham said. During the next 12 years, city and suburban residents' taxes will be raised about \(\$ 10\) a year to cover these charges, he said.

Councilors also used the meeting as an opportunity to raise their concerns about the project's effect on the city's economic development
"Are we jeopardizing the millions of dollars being spent on economic improvement?" asked Councilor Van Robinson, chairman of the Neighborhood Preservation, Downtown and Metropolitan Planhing Committee.

Robinson and other councilors are concerned that the project would disrupt the community and create visually unappealing and odor emanating facilities that would hurt the effort to establish an economically prosperous area by the lake.

Plans for homes, stores, an amphitheater, an aquarium, restaurants and the extension of the Carousel Mall near the lakefront could all be negatively affected by the cleanup plan, Robinson said.

All the plans involved with the lake cleanup will take these issues into consideration, Cunningham said.
"We want to make everything inoffensive," he said. 'There should be no odor, generally.

The potential for a pungent stench near the Metropolitan Sewage Treatment Plant is particularly worrisome, Robinson said.

Even after Cunningham explained the projects' commitrnent to eliminate odors, Robinson was still not satisfied.
"There's still no guarantee that there will be no offensive odors," Robinson said.

The possibility of the projects'

Thursday - to close the restaurant for late night hours comes after a 2 a.m. fight erupted in the Denny's parking lot and then Atkins said.

A 40-year-old Syracuse woman was hit in the eye with a beer bottle during the fight, said Sgt. Joe Sweeney, a spokesman for the Syracuse Police Depart ment.

The woman was transported to Upstate Medical Hospital, 750 to Upstate Medical Hospital, 750
E. Adams St., and released later

Tuesday, Sweeney added. "She had a severe injury to her eye," Sweeney said. "We were told that at the time she was taken to the hospital, she had a good chance of losing it." reached for comment.

Police were called to Denny's when about 45 people beny's when about 45 people began violently throwing tables, chairs and cooking utensils across the restaing Sweeny added, noting that no arrests
were made.

\section*{added.}

The community must be made buildings being the tallest structures in the area would leave many city residents unhappy, Council Minority Leader Steven DeRegis said.

Cunningham calmed DeRegis' fears by guaranteeing that no building taller than two stories would be built on any project site.

There are also concerns with in the community that elinton Square may have to undergo con struction as part of the project Councilor Joanie Mahoney said, Most residents currently oppose the square becoming a construction site, she added.

Mahoney nodded approvingly when Cunningham said that there were no plans to do work in Clinton Square. There \(S\) il be ino visible work in Armory Square either, he aware of these issues, as well as how their neighborhoods are going be affected, Robinson said.

It is still too early to know when certain neighborhoods will become construction sites, Cunhas already begun speakinger with has already begun speaking with local businesses and community organizations so work can be sched uled on days that will hurt the area least, he said.
formed residents need to be in formed of what will happen and how long it will take," Robinson
said. "Think carefully about it."
"When the officers arrived on the scene," he said, "everything had pretty much died down.:

Ten Syracuse University students filed suit in 1997 against Denny's after they were allegedly denied service because of cheir race. Aiter leaving the they were beaten in the parking they.

Denny's will close Sunday through Thursday evenings at midnight and reopen for break-
fast at 6 a.m. On weekends, the restaurant will close at 1 a.m. and reopen at 6 a.m., Atkins said.
"We will continue to work with local city government leaders to develop a resolution," she said.

Other area Denny's will con tinue to operate with the restau rant's normal hours, Atkins added.

\section*{NAMES}
continued from page 1
to Urtz and the national Student
Press Law Conter, not one private Press Law Center, not one private university has ad
relcasing names.

This is the interplay between personal rights and community rights, between personal responsiand whose interest prevail," Urtz said.

At SU, a committee made up of students, faculty and staff will discommittee's chairwoman, said the group will conduct open forums in the fall to gauge student opinion. Other universities, such as
Colgate University and the State Colgate University and the State
University of New York at Cortland, are also creating committees to discuss the issue.

The conllict over the release of names often pits college administrators - who say opening up disciplinary records violates students' pri-
vacy with few benefits for the comvacy with few benefits for the com-
munity - and freedom of informamunity - and freedom of informathose records provides a better picture of campus crime and ensures a fair judicial process.
"If you don't have names, you have to rely exclusively on what the
school tells you," said Mark Goodschool tells you," said Mark Good-
man of the Student Press Law Center. "There is no way to independently verify what they tell you. We know from experience that that is a problem.'

Goodman said some colleges have a tendency to downgrade stu-
dent violations handled in campus dent violations handled in campus courts, distorting the picture of crime. At some colleges, there is a question of preferential treat
"I think those questions about fairness and credibility really hurt
the disciplinary process. They can be the disciplinary process. They can be process was public," he said.

In addition to handling cases that violate university policy, SU hears cases of underage drinking, minor drug violations, vandalism and disorderiy conduct - cases

Last academic year, for exam-
Judicial Affairs reported about ple, Judicial Affairs reported about tions in the university's residence halls. But from 1996 to 1998, only six students were arrested because crime statistics. No student was ar rested for underage drinking during that period. Except for serious instances,
the case is heard through the university, where names and detailed information about the case are kept
private, said Judicial Affairs offlprivate, said Judicial Arrairs ofl
cials.
In December, SU dealt with a case involving a student setting several very senous fires" to homes
while the residents lay asleep, acwhile the residents lay asleep, ac-
cording to a Judicial Affirs report. Although the crime occurred off university property, the student was removed from university housing and suspended, the report said.

In another case, three students stole the goal post padding from a university practice field. They received a disciplinary reprimand -a formal warning from SU - and wrote a five-page paper and a letter of apology the report added.
the report added. lege student that they have the option of a secret proceeding," Goodman said.

But administrators say campus fective than sending students to the local courthouse.
"Hopefully it makes them look at what they've done and the im-
pact of it and what they learned pact of it and what they learned
from it so it won't happen again," said Jim Hendrick, assistant dean at the SUNY Cortland.

\section*{No disclosure}

Since the 1970s, a federal law known as the Bucicley Amendment has prohibited colleges from releas ucational records, including disciplinary records.

Increasing crime on college the demand from campus safety groups for greater access to campus crime information, prompted Conress in 1998 to allow schools to release the names of students found guilty of crimes of violence.

[editorial] \\ \\ SU must disclose \\ \\ SU must disclose criminal identities criminal identities \\ \\ Criminals should not be able to hide under-
} \\ \\ Criminals should not be able to hide under-
}

The Daily Orange
April 19, 2000
neath Syracuse University's comfort blanket anymore.

A 1998 federal law allows U.S. universities to release the names of certain violent criminals and non-forcible sex offenders

Syracuse University would do well to come out from behind the shield provided by the 1970 s Buckley Amendment, which prohibits the release of most educational records, and post names of offenders. To date, SU has not.

Keeping this information from students consistently puts them in harm's way. Vague, semiannual statistic reports do little to inform students about real dangers on campus.

A woman has a right to know if a convicted domestic abuser lives on her residence hall floor. Likewise, if an arsonist is running rampant throughout university neighborhoods, students should be informed that he might show up on their doorsteps.

Currently, students snagged by the university's guilty-until-prover-innocent judicial process aren't threatened by having their names released to the public. Doing so, however, would be a more effective deterrent to crime than a weekend of community service and other lax judicial affairs sanctions.

If SU truly aspires to fairness and protection for its students, its judicial system must reflect that of the nation. Laws and procedures set forth by local, state and the federal governments seek to protect all citizens. Paying the university \$31,000 a year doesn't give it the right to make new rules that they believe will keep us safer.

When students are arrested by police, their name immediately appears in the public record, and could potentially end up in any newspaper the following day.

But university judicial affairs privacy rules coddle violent offenders and keep their ugly secrets safe. It's a dangerous practice for students all over campus.

It's time for SU's Office of Judicial Affairs to get a taste of the real world.

Students, stand up for your rights: Demand to know who lives next door to you.

\section*{Cartoon protest leaves lessons, self-awareness}

One year ago today, more than 100 angry students stood on the front lawn of The Daily Orange in the rain for more than two hours and screamed racism.

The devotion to their cause was in their eyes and voices. It is a sight and sound I will never forget. If that was th

The backlash resulted from an editorial cartoon
published Friday, April 16 that too

\section*{EMILY}

KULKUS pubished Friday, Aprit 16 that too merogatory depietion of blacks popu larized in the early 20 th century. Protesters demanded an apology and we responded. But the tables had turned - we were forced to report on ourselves and other media were asking us the tough questions. And rightly so. But the reporters were not the only ones asking questions.

We began questioning ourselves. We wondered if what was said was true. Were we racists? It is a questioning that has continued at the D.O. since that day, to ensure that we are recognizing the fault of the comic: ignorance.

We were wrong, but not intentionally. Because of our ignorance, we burnt bridges with a large percent age of the Syracuse University student population.

However, I didn't realize the total implications of the strained relationship until a conversation with a freshman I met early this year. She had visited campus the day we printed an apology for the comic, which meant her first encounter with the D.O. Was one of accused racism. But instead of writing us off a racist publication, she came to our dilapidated house during her first

On a cold walk back from covering a campus meeting with her, she told me that by working for us she somehow felt she was copping out - betraying her fellow race.

Those words, uttered by a month-old SU freshman, tripled my worry and concern about the comic incident. I became determined to make sure this didn't happen again. This student and the hundreds that stood in the rain for hours a year ago helped me see a part of myself that I didn't know existed. The toughest part about ignorance is that you don't know it's there.

I had never heard of "Sambo" before and I don't blame anyone for that but myself. However, from that day on it was up to me to change that part of myself.

Things are not perfect at the D.O., but we are trying. Opening channels of dialogue with all students on campus is a priority and we have made ourselves open, perhaps even vulnerable, to student input, critiopen, perhaps even thinerable, to
cism and opinion in the last year.

The discussions we have had together and with other members of the student body could not have happened had we not been forced to address the issut We are here to serve you, but because we are students. too, we can't do it without your help.
too, The student I mentioned doesn't work for the D.O., but I see her occasionally and she says hello. Our skin color may be different and unfortunately, that divides us. But that cannot change if one of us does not try to reach out to the other. She came to me and \(I\) applaud her for doing so.

This campus remains segregated and riddled with more stercotypes than there are Mt. Olympus stairs, but if we chose to accept that, nothing will change - it will only get worse.

I have been to race dialogue meetings, racial profiling forums and have viewed the film "Ethnic Notions," in an attempt to counteract my ignorance. These have all helped to shed light on a topic that I am keenly interested in learning more about. However, when I look around at the people joining me at these events, they are not the people who need to if we do all need to knowr ignorance will shine if we do not care to try, our ignorance will shine
hrough in damaging ways.
There are students and student organizations on this campus that will never look at the D.O. the same way again after last April. I would be lying if I said I didn't experience that every day I step on campus. But at least I am aware. I could have chosen to ignore the criticism, but luckily, it was too loud. I am trying to ing to take a few people with me. But I am only one voice in a sea of skepticism built by years of preconceived notions.

But at least I know some good has come from that painful rainy April day:

\section*{Caribbean writers share works in native tongue \\ BY CAROLINE CHEN \\ thereby expanding the countries represent-}

\section*{Staff Writer}

Many students found more than they bargained for Tuesday night when they walked into Gifiord Auditorium for a lecfiction writers.

The lecture was entirely in Spanish.
Out of the original 50 -member audience at the lecture's start, less than 30 remained for the entire duration.

The vagina, described in detail from a young man's perspective, was the centerpiece of Viriato Sencion's short story.

Sencion, a native of the Dominican Republic, read about elbowing a woman's legs apart to look at the vagina, the essence of how to use the tongue and shining a spotlight into the vagina for a closer inspection.

Standing behind the podium with his eyes focused on the book, Sencion managed to keep a straight face during the reading unlike the audience.
Even fellow author Pedro Juan Cabiya smiled in response to Sencion's story.

Cabiya, a native of Puerto Rico, later leaned over the podium as he told a short story about a white rat that could not be rapped.

Cabiya's Spanish syllables, accented with an occasional onomatopoeic "clunk" or "plink", elicited occasional giggles from the audience.

During the readings by Sencion and Cabiya, Cuban author and poet Mirta Yanez sat with her lips pursed and flipped through a book.

When it was her turn, Yanez remained seated and put on reading glasses as she began sharing her poetry. The poems included one dedicated to Uraguayan-born author

A writer shares his stories with about 30 student Tuesday in Gifford Auditorium.

Horacio Quiroga and another that referred to Dante's Divine Comedy.
"I don't know if I like the poems," said Otilia Cortez, a former Spanish instructor at Syracuse University, who said she attended the lecture to find out more about these contemporary writers.

She said she prefers poems that are not as transparent but more challenging. short story, entitled "La Version Original," shout a homosexual couple. She said she originally intended to read a story about originally intended to read a story about Cabiya preceded her with his rat story.

The half-hour long readings, sponsored in part by the Latino-Latin American Studies Program, were followed by a discussion period.
"Les gusto?" - or "did you all like it?" asked Silvio Torres-Saillant, director of the Latino-Latin American Studies program at SU.

The audience responded with a unanimous "sin" -- "yes"

The lecture, which took three months to plan, began with a decision to invite Yanez to the SU campus during her North American tour, Torres-Saillant said.

Cabiya and Sencion joined Yanez,
ed across several Caribbean islands, he added.
-i think it actually came off quite well," Torres-Saillant said. "The attendance was good."

Many students left during the lecture because "students don't take well to thes language things," Torres-Saillant said.

But the quality of the exchange was excellent, he said. The three Caribbean authors formed better inter-island communication of culture during their meeting in Syracuse, he added.
"I think it's a good thing to bring more culture to Syracuse," said junior Alicia Crowd, who added that she thought the authors were talented.

But Crowd - a Spanish major - ad mitted she had difficulty understanding hem.

Freshman Chris Ellis said he arrived at the lecture intending to take advantage of an extra credit option for his Spanish 102 class, but he lef after the first reading.

While the lecture sounded like it could have been interesting, two semesters of Spanish were inadequate preparation, he ded.
"Being in 102, I really could not understand at all," said Ellis, a public relations major. "It was completely over my head."

Even Carlos Oscal, a native of Guatemala, said the authors spoke very fast, especially Puerto Rican author Cabiya.

The lecture overall was interesting
But the varina story-which major. ond in the series of readings - made the strongest impression, he added.
"The second one caught my attention," Oscal said with a laugh.

tournament to Syracuse after speak ing with a society member wh works in the S.I. Newhouse Schoo of Public Communications, she said.

An employee at the school contacted greek leaders and spoke at a meeting with council presidents Blood said.
"It kind of just clicked," she said. "It was like wow, this would be some thing really great to do."

Both Exley and Blood agreed that participants in the event appeared to enjoy the games, and even got a little competitive.

Alcohol-related violations have also decreased since the standards were implemented, Urtz added.

During the 1998-1999 acadernic year, the office heard 1,601 cases
of violations. This year, that number decreased to 1.122 , with more than 500 of those incidents occurring during the first five weeks of class, she said.
Urtz attributes this decrease to the interim sanctions
"Under the circumstance, our data that weve seen is improving. Campus seem satisfied."

After a complaint is filed
ainst a student for a violation of the Student Code, they will then be assigned to a case manager who will work with them to understand the nature of their violation and the possible degree of punishment, she added.

The student can then plead guilty to the charge, file a countercomplaint against the prosecutor or Review Board, Urtz said

Laura Madelone, a case manager for Judicial Affairs, said discussing violations with students gives both sides an opportunity to voice their concerns.

First-time Violators are re quired to participate in a communi ty service program called Project The program t
dents involved in a cos to get stu ject that is related to their interests or field of study, Project Director David Fiacco said.
"Essentially we try to find places where the students can in teract in the cornmunity, \({ }^{\text {n }}\) he said. tablished this fall, it operated with out the guidance of a central direc tor, Fiaceo said.

Students criticized the pro-

Everyone seemed to have a great time. It was a lot of fun," Blood said. "People from the Huntington's Disease association also came out. The members were there helping out - handing out pamphlets, bumper stickers, T-shirts they made."

The presence of members from the society was one of the best parts of the entire event, Exdey said.
(Gireeks) got to see that these are the actual people you're helping out," she said. This is the affliction they have, right in front of you. It put in touch what they were playing basketball for."
gram becavise they said it focused too much on working in university offices instead of venturing in the community.

Although they may seem like very mundane tasks, they have ty," he said. "I hear those concerns, but it's not like we're trying to sanction people to work for our labor pool."

Many of the service projects do involve community interaction outside of the university at placements Center, the Syracuse police and fire Center, the Syracuse police and fire University Neighborhood Association, he said.

The primary goal of the program, however, is not punishment, but to get students involved in the community, he added.
"Educate" Fiaceo said. "That's the general theme of the Judicial Affairs Office. \({ }^{\text {. }}\)

Some students who have parAicipated in the program, including School of Managateshman in the gram lacks focus and is more of a guisance than a learning experi ence.
Katz said she was cited for being at a party where minors were drinking.

At first. Judicial Affairs in formed her that she would attend date rape awareness meetings, but the Parents' Office in preparation for SU Parents' Weekend.
said. "All was just annoying," Katz said. "All I did was address envelopes, stuff envelopes and alphabetize things. That really doesn't make you think, wow I did some thing wrong.
hink it helps that many people."

April 16 to 22 is National Tissue and Donor Awareness Week. Designated by Congress in 1983, the week is the third one of April each year, and is celebrated to raise awareness of the critical need for tissue and organ
donation.
The week also encourages individuals to share their decision to donate organs with their famihonored.

Currently, 68,000 people in the United States need organ transplants. Though donation rates hovered around 21,000 in 1998, this is not enough. Everyday, six to 10 people die while on the waiting list as the same amount are added, said Elana Henner, senior coordinator at the Finger Lakes Donor Recovery

Network in Syracuse
"We don't get very far very people in
People in need of kidney transplants make up more than half of the waiting list, according Sharing. Bob Spieldenner, the spokesman for the agency, said that there are 44,000 people waiting for kidneys. Livers come in second, with 15,000 waiting for a ransplant.

Seven organs can be donated - the heart, liver, pancreas,
lungs. More than organs, however More than
can be donated.
can be donated.
"One donor can help up to 50 people through organs, tissue bone, tendons, skin and corneas, Spieldenner said.

\section*{The point system}

Everyone whose name appears on a waiting list automati cally registers with UNOS. The waiting list is based on a poin
system. Placement on the list de

\section*{Poet examines life of working class}

BY RON DEPASQUALE
Staff Writer
The scarred hands of Sean Thomas Dougherty tell the story of a working class man who climbed his way out of the factories of New Hampshire to become a poetBurned by scalding hot waters as an 18-year-old dish washer, Dougherty now carefully crafts poems that verbalize his bluecollar experience.

Dougherty described a cifferent New Hampshire than the traditional local poets, who wrote about cows roaming the countryside.
"There was a cartoonishness to that idea of local New Hampshire poetry, to try
to write about a life that never was and to write about a life that never was and town cliché, nostalgia and sentimentality. To me it's a big lie.

The Syracuse University writing instructor and author of two published books of poetry has his own standard for what constitutes a great poem - one that taps into a moment and says something in a way
that no one else can.
The practice of holding certain writers up in a literary canon as the best of their time reflects mare on who those people knew than what they said.
"Canonization," Dougherty said, "is a
The forces of production limit what gets produced, and even if a writer gets published, there are no guarantees of readership, Dougherty said. He bucks the system of idolatry and keeps a list of books, some published in the 1960s, Which he was the firmmares throueh bookstores frary, and

One of his
One of his biggest influences came from a book that cost him a dollar, which a bookstore in Boston of a bargain box at Snow," a 1973 release by Gene Ruggles. The title poem depicts a lifeguard who returns to a lake frozen over by winter ice after failing to save a young swimmer's life. Dougherty remembers a line from the poem, "a girl who the water carved out of
my arms forever." "The poem floored me and \(I\) was like 'Who the hell is this guy?" he said.

Some research told Dougherty why Ruggles was literally buried in the stacks by other authors - he was an alcoholic, far left-wing writer who the social network left behind.

Dougherty, while a small-press writer, has not been left behind. Patrick Lawler, a published poet and writing instructor at the State University of New York College of Environmental Science and Forestry, called Dougherty an activist, one who would heve cavpriwn other through organizing readings and poetry slams.

Known for performing poetry as much as writing, Dougherty reads tonight at 7:30 p.m. in the Hall of Languages Room 500. He performed at Lollapolooza in 1994 and is featured in the anthology "American Poetry: the Next Generation." His
most recent book, "The Body's Precarious

\end{tabular},
the line of officers in riot jear
There's a common concep ion about protesters, the temptation to call them all a bunch of "hippies." But I won der, is this perhaps a misconception? Is there something more to protesting than an excuse to wear Birkenstocks and skip a shower? Is protestand skip a shower? Is protest every college student goes very ch or is there somet fundamentally important lurg undamentaly important lurk
ng behind
My experience this weekend compels me to think there latter possibility

Sitting on the Mall between the Washington Monument and the White House on Sunday afternoon, I couldn't help thinking, "This is
posed to look like" - well, besides the national monuments and hovering helicopters. I was specifically thinking of students struggling to fight the system, learning all they could about exploitation and screaming for it to stop, and above all, caring sbout something other than themselves.

I tried to absorb all the bright signs, colorful clothing, the chanting uniting you and the stranger next to you, the movement, the banners, the parade - at times it felt like a festival. This is the source of the stereotype that protests the stereotype that
are all in good fun.

A jogger sat on the marble steps of a building, glaring at steps of a building, glaring at the thousands of protesters as they marched by.

Nobody in this parade knows what the hell they're talking about," he said. Truthfully, I think most of these people have no idea what the IMF is

Actually, the "IMF" is the International Monetary Fund

He said he was an econom ic expert in the Washington, D.C., area
"I think they're protesting for the sake of protesting rather than having an actual

Keri Logan, an editor at a medical journal in
Charlottesville, Va., had a reason for protesting.
WTO What the IMF and the Wro are doing to the world is criminal," she said. "People are dying."

Logan said she thinks most of the nation is apathetic because people don't know how get information or how get involved. They don't think they can make a diference ecause they never see any hanges," she said. "But people don't realize that corporations only have so much power because we let them

\section*{Placing blame}

It's easy to point the finger, like the jogger sitting on the steps who said, "If you have nothing else to do on sunny Sunday afternoon, why not protest?

In fact, it's too easy
After hearing the SU students voice their concerns in the basement of the church where they were staying, protests didn't seem like' a joke anymore.

There was a real threat.
I realized how much stu dents were putting at stake when Joshua Katcher, the
sitting in the street. Would you have the courage to stay put in order to protect every hing you believe in?

Before you label someone else, you should question your self.

Jane Rushmore is a junior magazine major. Her cofunm appears Wednesdays. E-mail

Win the trans plant team thinks the donor is too old or has questionable medical history, they can reject the organ and wait for a better match," Spieldenner said. "Or maybe the recipient has a cold, and his would prevent the transplant from taking place.'

Time is essential when it comes to organ donation. Celis start dying once the body does. Freezing the organ or putting it in solution can only stop the deterioration for so long. An organ that has been out of the donor's body for more than 12 hours is usually rejected by the recipient's body. For this reason, organs re rarely transplanted nationally, Spieldenner said.

The majority of organs used o be recovered after automobile accidents. However, with the rise of car safety such as seat belts and air bags, most organs are recovered after cerebral stroke, Spieldenner said.

The number of older donors has increased as the number of
younger donors has decreased, he added.

\section*{Distrusting doctors}

Many people have misconceptions about organ donation. They feel that their healtheare may be compromised, Henner said.

Spieldenner agreed. "People are scared that the doctors will let them die so that they can use their organs," he said.

In 1998, 4,837 died waiting for a transplant. Each year, this figure increases by about 500 people, Spieldenner said.

Anyone who dies can become a donor, even foreigners visiting the country Signing the back of a driver's license or expressing donation wishes in a will is a step in the right direction, but is not enough, Herner said. consent with the next of kin. we will not override their decision, whe said. "That's why your nee to tell your family of your wish-
talking about how to react to violence.
"I know it's your instinct to run, but you have to remem ber that the people locked down can't use their hands," he said. If you are part of the support group you have to remember to put up their bandanas when pepper gas is sprayed and to cover their heads when police get their nightsticks out.

Monday morning, standing in the rain, staring at those nightsticks, I fully realized how much these students were putting at stake.

Those men in black are no longer police officers - they put on riot gear and take off their personalities, becoming one massive form that follows orders

I am not too proud to pretend that I would have the strength to stand my ground if those officers started moving into the crowd. I admire these people for having the courage to fight for what they think is right.

So before you open your mouth to label a protester as a "hippy," I ask you, for just a split second, to picture a cop storming through a barricad to beat you down for peacefully her at jrrushmo@syr.edu

face and
\end{tabular}
harder than any human should, those records were my first taste of truly great music.

Tuesday night, the 53 -year-old legend brought his timeless show to Syracuse's Onondaga War Memorial for the first time in 28 years, where he played to a sold-out crowd of 8,000

My tenth-row ticket cost me \(\$ 80\) - purchased at an online auction to benefit the Elton John AIDS foundation -
and even though I'll wince over the figure when my credit card
bill comes, I revel in knowing that I just saw a concert that would even make my most of parents' friends crazy with jealousy.

From the two men who sported nappy mullets and breathed Coors Light down my neck for the entire three-hour show to the elementary-school girl jumping up and down on her seat in a XXXX-L Elton John concert T-shirt, the attendance at Tuesday's show truly proved that John's musical appeal transcends any generational boundary.

I was close enough to see the sweat dripping off the tip of his nose. He wrung the sound of three decades out of the keyboard with his pudgy ingers. It will be a long time before the notes fade from my ears.

Awash in a bath of purple lights, John stepped onto the stage in a sequined black suit and took his place behind a patent-leathery grand piano. a minimal backdrop of pat-

continued from page 9
Balance," is published by Red Dancefloor Press.

To Lawler, who also performs tonight,
well deserved.
"He has

seemed tiny underneath an
elaborate metal octopus of col elaborate metal octopus of col ored lights.
"It's great to be back here
after all these years," he said over the raucous audience cheers. "But tonight, it's just me up here with this big, black piano, all alone."
But you wouldn't have nown it.

Without the benefit of a single back-up singer or instrumentalist, John took the notion of a one-man band to new height. From the little-known "Harmony" from his "Yellow Brick Road" album to the rip" roaring favorites "Honky Cat" and Philadelphia Freedom, like nothing I've ever seen.

Betwing ive ever seen
Benes, John paused to sip from a duct tapecovered soda can and chat with the audience. Before his performance of Someday Out of the Blue," Disney's "El Dorado"
theme and his newest single, John joked about the drudgery of his recent press tour pro-

ing water for a year, which scarred his hands for life.

After returning to school to graduate, he worked in factories and warehouses, lis tened to people who had been around longer and struggled to get by. He wrote a lot of bad poems, he said, and at 23 , wrote what he calls his first
cal score
"That stuff is so boring," he quipped. "I'd much rather be here playing for all of you." After leaning over the edge of the stage to autograph programs, old LPs and even baseball caps, John launched into a tribute song he penned for his late friend and fellow British rocker, John Lennon. Snapshots of Lennon - from his days in the strawberry fields with the Beatles to boat rides with his wife and son shortly before his death John paid homage to his John paid homage

I found myself blinking back tears at what might have been.

Several times during the show, John paused to recognize the partnership with his longtime lyricist, Bernie Taupin, the man who wrote words that brought life to some words that brought life to some
of John's most successful musical arrangements.

During an encore perfor-
real poem, "Across Canal Street" about children'slaundry hung on a porch line.

The simple poem, which attempted to understand the lives of strangers, started Dougherty on a life's work of trying to figure out people who are different than him And rather than being poetic
and self-absorbed, he said he responded objectively to something he saw
\({ }^{\text {"Part of being an artist is }}\) what you have to say can be inconsequential," Dougherty said. "You listen and then you speak. I think too many young college writers miss that, because they don't work, they don't go out into the world, they don't see stuff."

Now, like a painter who moved from depicting subjects simply as they are to more abstract ways, Dougherty said he is evolving into a more complex writer.

He is in the process of finishing two poetic manuscripts and is delving into prose to write a collaborative memoir with his African-American

Love Tonight," the theme from Disney's hit film "The Lion King," I noticed something that surely wasn't present the last time John played the War Memorial. A tweed coat-clad man had flipped his cell phone open and was waving it wildly above his head in time to the song - apparently he wanted the friends and family back home to "feel the love," too.

Here's to hoping we won't stop feeling it anytime soon From vinyl 45 s to cell phone-broadcast concerts, John's musical influence has withstood the harshest battle any performer must face - the est of time. Though John may have mellowed a bit over the years, hell never be too old to and get a crowded house on its and

Seton Hall was a completey different team from when we faced them before," Richards said. "They're a good team, but the way we've been playing the last few games, we didn't show them anything."

Sunday's action against Rutgers marked the first tie in Syracuse history. A torrential downpour in the bottom of the seventh put an end to play with the score knotted at 3-3.

Freshman Tara DiMaggio was SU's workhorse against the Scarlet Knights. She pitched five and two-thirds innings in relief of Bieman, who gave up ning in the first chme or an inning in the first game. DiMaggio struck out seven and held Rutgers to only two runs the rest of he game.
e SU runs came in the second inning. After moving
from the pitcher's circle to right field, Bieman plated Julicher and Richards on a double to right-center. First baseman with a single

Herrman led the Orange in game two with two RBis on first-inning single. Rutger scored three in the fourth to tie the game. DiMaggio had thre strikeouts when the rains came

The two twinbills pitted Syracuse against opposition it will face more regularly starting next season when the Orangewomen join the Big East Confour contests won its previous four contests against Big East foes, including the first Seton Hall game, before the collapse in Jersey.
"The Big East is going to be tough and I think we're gettin a good inclination of that," SU
head coach Mary Jo Firnbach said. "These teams are ready to play, they're more experienced. The Big East is getting more oversaturated with talent. It's not two or three teams dominating the conference anymore. I think now that we're being faced with some better competition, we're getting chalenged a little bit.
We realize now that we can't make some of the mistakes were making in order to win some ballgames.

Firnbach has her team working on fundamentals this week to ensure that another meltdown like last weekend does not happen again
"We have a lot of games left this month," she said. "Hopefully, we can end on a good note and start playing some good ballgames. Even if we lose and
play a good ballgame, I'll be a lot happier than the way we have been losing games that we shouldn't have.'

The Orangewomen return to the road Thursday and Friday for doubleheaders against Siena and Albany, respectively. SU was slated to host Albany on April 10, but that twinbil was snowed out. An attempt to make upa rained-out pair at Colgate was canceled again Tuesday.

Richards said the team needs to forget about the past five games and focus on the ones at hand.

We really had no excuse last weekend to play like we did," the shortstop said. "This weekend's a new weekend, so hopefully we can come back
with four wins."
opponents to fewer than six goals per game. Earlier this season, BU shut down now-No. 6 North Carolina in a characteristic 7-5 victory.

SU's second-half play against George Mason in an \(8-7\) win March 10, however, indicates the Orangewomen possess the poise needed to pull out a win in an anticipated low-scoring outing with BU, Miller said. Syracuse successfully fended off the Terriers last season in two one-goal contests. The Orangewomen beat BU \(10-9\) last April 5 before knocking them out of the ECAC Tournament with a 9 - 8 overtime win May 8.

We've handled the pressure of low-scoring games before," Miller said, "and we know that if we get into a one-goal
game with
up one goal.
BU graltender Brooke Barleads all of Division i with a 4.88 GAA. The team's most legitimate offensive threat comes in junior midfielder Chrissy Lombard, whose 23-goal, 11 -asist total through April 10 led the Terriers.

With the Orangewomen hovering around the same loca tion record-wise as last season Miller said teamwide execution is at an all-time high.

I think the tearn is playing good team lacrosse," she said. Our leaders are stepping up and we are playing great defen sively. We are taking a lot of shots, and Katrina and Lauren (Brady) are stepping it up."
showing in which she placed behind her best friend and former Cal State-Northridge teammate, Christina Tolson.

But a personal best is a personal best, Hicks said, and Relays should prove tougher this scason.
"The cornpetition is going to be better this year," she said as I didlast on doing the same

\section*{Tough trip to Jersey stifles hot Syracuse}

BY JASON REMILLARD Staff Wrter

The Syracuse softball team went to New Jersey on Friday night with the memory of falling apart against \(5-23\) Buffalo that afternoon still fresh in the players' minds.

The letdown continued for the Orangewomen when they arrived in the Garden State to face Seton Hall and Rutgers, losing three games and tying one that was rain delayed.
"We just didn't play to the level we have before," freshman third baseman Jackie Herrman said. "It wasn't so much that they beat us. We sort of beat ourselves."

The Orangewomen (17-20-1) faced a Seton Hall team that improved greatly since SU spanked the Pirates 13-3 on March 18 in Clearwater, Fla. On Saturday, ly hitting and strong pitching to beat the Orange 3-2 and 6-0. Neithor se 3 -2 and 6 .

Neither squad scored until the fifth inning of the opener, when the Pirates struck first on an Amy Efchak sacrifice fiySU's first run in the sixth on an See SOFTBALL page 15

\section*{Hicks sets SU shot put record} BY JEFF PASSAN
sst. Sports Editor
Nothing new for the Syrause track team last weekend. The SU freshmen continued Cheree Hicks broke anoth record.

Ho-hum, ho-hum.
Hicks bested her own SU shot put record with a distance of \(56^{\prime} 6^{\prime}\) at Mt. San Antonio (Calif.) College. The mark placed her fifth in the open invitational her fifth in the open invitational sional and collegiate athletes and surpassed the previous best of \(56^{\prime} 2.5^{\prime \prime}\).

Hicks also competed in the discus, which she regards as her best event. Her throw of \(177^{\circ} 6^{*}\) was good enough for eighth place at Mt. SAC. She finished sixth in the discus two days earlier at Pomona in California.

And, as usual, the perfectionist and hopeful Olympian said she felt she could better her results.

I know I have a lot more, she said, specifically noting her discus throw needs improvement. "I need to hit my positions and be more technical. I know I can hit the big throw."

Hicks would not specify what "the big throw" in shot put is - she is superstitious - but said it is less than 60 feet.

Freshman Tim Adrian folowed Hicks lead in SoCal, posting a personal best in the shot put.

He threw 5I' 11.75", break ing his personal record by two
feet and qualifying for the ICAA

Cheree Hicks, a self-admitted perfectionist, set a school record with a shot-put throw of \(56^{\prime} 6^{\prime \prime}\) but still is not content with her distance. Championships. His throw the best place to cultivate his placed him 10th in the open college heat, a level below that in which Hicks competed.

The 6-foot-4, 275 -pounder said he has dedicated his life to track since coming to Syracuse. dace Roberts with his improvement and cited her as a maior reason in coming to SU.

Adrian came to the Hill from Moorpark, Calif., focusing on track instead of football, a sport at which he excelled in high school. He even visited Florida State and met football coach Bobby Bowden about possibly pursuing a two-sport ca-

Shadiow, who was often picked by friends to escort them from off-cam. pus locations also called for a program to give students the option of calling someone for a safe way home. *was always the one who made sure everyone got home," he said. think there should be a program to helpget students home."

\section*{- Student Government}

\section*{Assembly}

GY STEPHANIE SHLVER Staff Writer

Student organizations must cite "Student Activity Fee" on their campus publications and advertisements or face fines from the Student Government Association Finance Board.

The Finance Board's Determinant Logo and Enforcement Code states that the phrase "Sponsored with the undergraduate Student Activity Fee" must be "blatantly" placed on all Student Fee-funded advertisements and publications a minimum 16-point font size

The Assembly passed a revi sion to the code, including the allowance of fines at Wednesday's GGA meeting.

While a 16 -point logo has always been required, SGA has done nothing to enforce it, ParliamenLarian Jonathan M. Taylor said at the meeting. A Mne, detexmined case-by-case, will now be imposed

\section*{on groups abusing the code.}

He cited a University Union concert advertisement for Black Party 2000 as an example of an advertisement ignoring the code and SGA not being able to do anything in response.

Comptroller Chris Greiner said, " \(\$ 80,000\) was allocated to them for this event and they couldn't get larger than a 3-point font."

UU President Lisa Stone said she understands the importance of having the logo on fliers, but SGA should be more understanding to the actual size of the advertisement itself.
"There is a lot of information on that flier and most of it is in small font," Stone said.

A logo-to-advertisement-sheet ratio requirement would be more practical, she added

The cover of the April Fools 2000 issue of The Student Voice was also mentioned as a misuse of
oro was visible, it was followed by he phrase "F@cking with you.
rt's more of a joke than a repesentation of funding." Taylor said.

But The Student Voice did not do anything wrong according to the code, he added.
"The code itself is just too flexible," he said. "And if you want them to follow the code, we have to enforce it."

SGA President Jamal James said at the mectint that he ap proved the newspaper cover be proved the not violate anything He added that he thought it was He ad

The monetary sanctions are "a bit strict." said Kimberlea Klein editor in chief of The Student Voice "A reprimand will be sufficient," said KIein, a junior broadenst cient, saism majo wThey shouldn't journalism majr. away our hard bermed money just because a group earned moke a little fun at SGA \({ }^{n}\)

Marti Clark, senior editor of The Student Voice, said the issue in question was a "parody on ever thing' and was not malicious.
trust that SGA is responsible enough to apply the rule where necessary," Clark said, She said she also has confidence that student groups are responsible enough not to misuse or vilify the logo.

The logo regulations could limit the extent to which student groups can be creative SGA Assrouplyman Dwight Williams said. Whe way the logo is used reflects the personality of the organizations," said Amber Dowtin, a freshman advertising major who attended the meeting.

If it is the same logo everywhere people will stop noticing it, she added.

Taylor, however, said the logo is necessary to further SGA cause of serving students.
"Students paid for it and we're making sure that they know they
paid for it and that they know were working for them," Taylor said. "m not saying no more jokes, they just need to know that there will be a fine."

\section*{In other SGA news:}

Two of the voting members on the 10-person Finance Board must be SGA Assemblymembers, according to a bill that was unanimously passed at Wednesday night's meeting.

Four additional Assemblymembers may also be elected to the board as long as they are nonvoting members.

Assemblymembers must elect the board so they can appoint six SGA members if desired, said Taylor. He said that he wanted the Finance Board to become independent from SGA because finance issues have come to dominate all of the Assembly's time.

CMS cuts student's Internet connection, prompts questions of overuse
}

Computing and Media Services administrators cut off a Syracuse University student's online access this week after it was discovered he network bandwidth

Bandwidth is the amount of data that can be transmitted in a fixed amount of trane If a person uses an excessive amount of bandwidth, other students may have difficulty downloading files
\({ }^{*}\) Apparently this person had
been warned a few times," said David Butler, director of Network David Butler, director of Network shut him down."

Butler declined to give the name of the student.

Cases like this are not unusual, Butler said, and may occur several times during a semester. They are not necessanily associated with excessive use of the music file download program Napster, however free membership, he added.

The Record Industry Association of America sued Napster in De cember on behalf of record labels and recording artists, alleging that the site is facilitating the trade of illegal copies of songs.

SU officials have no intention of shutting down Napster, as several other universities have done in re sponse to the lawsuit, Butler said The university, however, may later consider shutting down Napster de pending on the mecult of the case he pendint

It is currently unknown for what purposes the student was using the network, he said.
"We don't know exactly what he was using all that network band width for," Butler said. "f I had to width I would bay he was iup to to guess,

The student, however, is not being prosecuted. A student who gets shut off from the networis for using too much bandwidth is not dicial Affairs uless that person is
shown to be doing something illegal or against university policies with the network, he said

The student may have the chance to regain his network access, Butler added.
'We'll probably just grill him and ask him to convince us he won't do it again."

\section*{Off-campus crimes must be reported}

Numbers don't lie.
But at Syracuse University, they don't tell the whole truth, either.

The 1990 congressional Campus Security Act requires all universities to report on-campus crimes. A subsequent amendment to the act also forces colleges to disclose statistics of certain offcampus crimes, too.

But loopholes in the law leave colleges to their own discretion in choosing what crimes to report. SU's Department of Public Safety takes dangerous liberties when deciding what numbers to publish.

Although they do disclose certain violations occurring on portions of nearby Marshall Street and Comstock Avenue, Public Safety is murn on crimes that take place in other university-area neighborhoods - neighborhoods where students have recently been beaten and robbed at gunpoint.

Reporting only half-truths is harmful and misleading to SU students.

It's an undeniable fact that attending college in Syracuse poses some threat of danger. It's the unfortunate trade-off that often accompanies urban living.

But that doesn't mean students should be denied access to the raw crime data about the place where they make their homes for four years.

SU attempts to run a slick campus safety public relations campaign. It's failing miserably

Administrators have stepped up to save face with angry area residents by establishing the Neighborhood Patrol Initiative with the Syracuse Police Department. And after meddling in off-campus student affairs on weekend nights, Public Safety is left with a fat pile of data about crimes involving students.

But instead of using it to clarify campus safety information, the department abdicates responsibility and files the ugly numbers away in a drawer.

An accurate reflection of student life at SU must include a picture of even the harshest reality. Students deserve to know what they're up against when they step out from underneath the university's thumb.

\section*{opinions}

\section*{Students deserve better than unethical, lazy landlord}

With a name like Seemann, I should have been ready for sticky situations.

My Jandlord, Dale Michael Scemann of Jamesville, ak.a. Mike," and i do not share a storybook relationship. Seemann rarely returrs calls and he promises work that he gets to only at his leisure.

My only defense was to withhold rent. That didn't help matters between us.

\section*{ASHOK}

\section*{SELVAM}

I thought I had been thorough
looking for an apartment last year looking for an apartment last year, but
now I know I got suckered now I know I got suckered.

Heck, I'm not even sure how to spell his name- city rell
spelled Scernan, as well.
"Everyone gives it a shot when
they try to spell it," he said, white waiting for me to write him a check. It he responded in a timely manner. He always seems to act promptly when money is involved.
od-bye to resident advisers and shared bathrooms. campus housing has detractors, but students want to leave the dorms so bad that they fail to see the downsides. They fail to research landlords.

Seemann sweet-talked us before we signed our lease. He said he would paint the house during the summer. He said he would act quickly on service calls.

I came back in August to find my apartment unpainted and fithy. My roommates and I spent a cool \(\$ 100\) on cleanin \({ }^{\prime}\) supplies and subsequently, two days tidying up.

Fall came and went. New York state law mandates andlords to provide heat for their residents from Oct. I to May 31. Once it grew cold in late September, we gave Seemann a call. We left messages on his machine and with his wife. Nothing. So I gave the man at Sears a call. He came over to light our furnace's pilot. He looked at our urnace - - a rusty, spider-ike contraption - and cringed.

He told us he couldn't light the pilot because he was
fraid that if he did, the entire building would explode.
We stuvered in strock. We called Niagara Mohawk take a look at our furnace. On Oct. 10, ten days after
Seemann should have had the heat on, our furnace was red-tagged for a faulty gas valve. Seemann was contacted by NiMo and shortly replaced the thermostat and had someone fix our furnace. To his credit, we haven't had furnace problems since.

But when I went to court on April 11, it was to battle over our security deposit - two month's worth of rent I've heard stories of him holding on to security deposits for hinself

After my "day" in court, which lasted less than one minute while the judge said there was nothing I could do, I asked Seemann why he had three cases in one day. "Because 50 percent of the adult population breaks
the law", he mused. He said it was his job to uphold the the law;" he mused. He said it was his job to uphold the law.

I guess that 50 percent includes Seemann

According to city records, nine of Seemann's 13 properties have code violations. The problems run the gamut from dangerous stairs to illegal use of land.

Seemann defended his court appoarance.
Scemann said. The other residents don't have a problem with me."

That point intrigued me, so I walked to 501 Clarendon St., home of one of the four properties without open violations, where I met Stacey Brown, a junior cdu

Brown said that, reported problems where no code wio lations, she and her roommates had to remove a dead bird from their fireplace and when they moved in, one of the from smeirelied like "cat piss."

In fact, tenants from 12 out of the 13 properties had problems. The exception had no cornment.

Many refused to give out their names, fearing that Seemann would take their degosits. Some of these students have to rely on large financial aid packages, and can't afford to pay an additional two months of rent.

Rich Cohen, who lived at 718 Euclid Ave. last year, alleges that Seemann took his apartment's entire deposit, including \(\$ 75\) for a broken coffee table that actually belonged to one of Cohen's roommates.

I thought I could avoid this by having Seemann take the rent out of my deposit. He balked at the idea. The day after, a city marshal served me with a court summons.

On court day, Seemann was waiting, wearing khak; pants and a sheepish grin. Seemann's legal calendar induded two additional cases regarding withheld rent.

He talked with a stringent tone. His country charm he had before singing the lease was gone - he was out for money.

Meaghan Polansky was one or four girls in court. She and her roommates live at 718 Livingston Ave.
"Basically (Seemann) told us we can put down the twomonth security deposit and use it on the last two month's rent". she said. "We had an oral agreement, but then he said you girls have given me a lot of trouble
"Get everything in writing or hell screw you." The "mature" adults of Syracuse, like Seemann, frey on students. They have no fear that

Take last year's Livingstock debacle - the neighbor hood has no faith that students can act civil.

Well, I'm sick of it. If I don't get my duposit from Seemann, Ill be in court this summer. And durime Block Party weekend, you'll find me standing on Living:tion venue with a back pack full of beer, relaxing civilly: But I shouldn't be the only one. Let's show the neigh borhood that they'me wrong. And Mr. Seemann, I hope you'li get your conceited act together-- cither sell your properties or give your tenants the proper service they deserve.

will bring.
Some companies will have to leave Central New York for regions with cheaper labor, said John Rooncy. president of the Aspen Group, a business consultant company specializ. ng in small business.

A more skilled workforce has to be developed in order to keep industries in the area, he said.
"f our lifestyle is to be pre* served, government has to work on increasing the produc tivity of its people," Rooney said.

Small businesses create neighborhoods that are secure and livable, he said.

Telecommunications have to be improved and made available to local establishments so the businesses may compete and thrive, he added.
*The Internet is critical to longterm economic vitality," Rooney said

But businesses cannot harm the natural environment for the sake of economic growth, faid Ross whaley, president of the State University of New York College of EnVironmental Science and Forestry

Urban sprawl is a major problem for many U.S. cities, including Syracuse, that can contribute to negative effects on the environment, Syracuse Mayor Roy A. Bernardi said.
mize our existing infrastructure and not go into our green ture and not go into ou
space,* Bernardi said.

Bernardi called for brown field sites, places that busifield sites, places that busi nesses have abandoned, to be used for new industries.
sed for new industries.
urban growth boandaries reate real city neighborhoods and inward growth," said Rhea Jezer, chairwoman of the SierJezer, chairwoman of the Sierra Club's Atlantic Chapter of
the New York State Conservathe New York Siate Conservatee. Bernardi's redevelopment plan would protect wetlands plan would protect wetiands region, who have been forced to sell their land to companies looking to come to Syracuse because of economic hardships Jezer added.

The community task force will evaluate local governments' ability to manage proposed plans after all the meet ings are completed. It will re port its findings to Pataki on Jan. 31, 2001.

Donohue thanked those in attendance for voicing their concerns and suggesting ways to improve the community.

Open and candid sperech is an intricate component of these roundtable discussions," Donohue said. "t rives us a clearer sense of the work that lies ahead."
because the panel hearing the complaint would have consisted of only faculty nembers.
-As long as no students are in the process there is clearly not going to be fair treatment," Moore said. Another one of Moore's clams to the USen committee is that Short violated his academcfreedom and professional
produced by the class for publi cation in the "Professional Geog rapher, a scientific journal without Moore's permission

The "Professional Ceogra pher" is holding the article until USen makes its decision. The soonest the article could be pub lished is in the February 2001 issue.

continued from page 1
Congress amended the law in 1998，making colleges report＂off campus＂crime to give students a their schools．

At Syracuse University，for ex ample，officials will now have to re－ port crime on streets bordering uni－ Strect，Cometock Auch as Marshall of Ostrom Avenue．

Crimes on Ackerman Avenue and Thornden Park－where as－ saults and robberies have occurred this semester against students－ will not be reported because the area is too far off campus．

The new reporting standards responded to concerns that colleges
were covering up crime by legally moring it near campuses． In 1996，The Philadelphia In－ quirer discovered the University of Pennsylvania was excluding crimes crisscrossing its urban Philadelphia crisscrossing its urban Philadelphia campus．Also in the 1990 s，the U．S． Department of Education investi－ leges were excluding certain crime statistics．

Although the law makes col－ eges responsible for reporting crime near their campus，they are not obligated to disclose crime in off－ campus neighborhoods where up－ perclass students may live．

Safety advocates and SU offi－ cials said that is the way it should be．
＂When you move off campus
you say to the university＇I＇m done with you，said Robert Robinson， Safety． ident for Security on Campus，said to make colleges accountable for crime occurring off campus is un－ reasonable．
＂The areas that are intended to be included are those that a normal rational person would consider campus，＂he said．

But some students who live off campus said SU should inform stu－ dents about how safe their neigh－ borhoods are．

IIf the school is not going to tell students statistics for off campus， how are we going to know what ar－ eas are unsafe？＇asked Kate Dumb－
rys，a senior who lives on Ackerman

But Robinson said there are factors other than crime statisties to consider when judging the safety of a neighborhood，including whether students are committing crimes against other students．

Robinson added that non－stu dents

\section*{Risly area}

In October，ABPnews．com，an online publication focusing on safe ty and crime issues，ran a series on the 25 highest risk college campus－

\section*{es．}

The news organization，work ing with CAP Index Inc．，a crime data consulting service，analyzed the crime risk for every four－year col－ lege in the United States．Instead of measuring actual crime rates，APB－ news－com predicted crime for the coming year using socioeconomic data，such as family income，level of education and housing values．

Although SU was not one of the 25 highest risk campuses，APB－ news．com gave the university area a crime risk rating of 7 on a scale of 10，with 10 being the highest risk． For Ackerman，Sumner and liv－ ingston avenues and

The area＇s risk of violent crime was less than the national average， was greater than the national aver－ age．
the Carter called that analysis worst example of the probiom．＂
＂That totally goes against what the Campus Security Act is
intended to look at，＂he said，adding that Security on Campus was asked to be part of the analysis by APB news．corn，but it declined．

Security on Campus pushes for schools to report crime on streets bordering the campus APBnews．com，however，predieted crime rates that surpassed this area， where university public safety does not have jurisdiction over，he said．

Because SU is located in a somewhat urban area，students who decide to move off campus are taking a risk，Robinson said．
＂Whis isn＇t utopia，＂he said． ＂We don＇t have a fence around our campus．＂

SU Student Government Asso－ ciation President Jamal James agreed．
said＂SU is not a bubble，＂James said．＂When you come to SU you have to come to the city．You have to accept the university and the city．＂

Although the new statistics are supposed to give students and their parents a more accurate pic－ ture of campus crime，public sarety officials said that remains to be seen． difference，＂said Bill Pesesky，from the public safety division at the the public safety division at the Cortland，whose campus is located in a residential area．

Pesesky said that some of the new reporting arens on his campus include streets where both students and city residents live，blurring the line．
＂Then they become kind of meaningless at that point，＂he said．

\section*{USEN}
continued from page 1 ports issued by library workers． During that time period，sever al library workers reported get brary．

Causes of the sicknesses are speculated to be poor venti－ lation and circulation of air．

History professor David Bennett，chairman of AdOp， said he does not see a reason for further study．The Agenda Committee apparently did not not trust their actions，he added．
＂Why would you reject ac－ tions that were voted unani mously on？＂Bennatt asked． ＂We thought we had done the study with responsibility．＂

Carter responded to Ben－ nett on behalf of the Agenda Committee．
＂We have not yet taken the task of appointing another com－
mittee，＂Carter said．＂We have mot taken any action as of now．＂

Diane Murphy，a member of the Committee on Academic Freedom，Tenure and Profes－ sional Ethics，said it is disap－ pointing that AdOp does not want to continue investigating the situation．
＂The paint is it hasn＇t been handled yet，＇Murphy said． ＂People are getting sick．＂

Many USen members，in－ cluding Chancellor Keaneth A Shaw and Vice Chancellor Deb orah Freund，said they agreed with Murphy．
＂don＇t think this was meant as a knock，＂Freund said ＂My first reaction was that we needed a professional study，a call for a different kind of ex pertise．＂

Shaw agreed with Freund， adding that he thought AdOP did as much as it could do．

Bennett said he believes that the Bird employee＇s com－ disgruntled workers．
＂There are people unhappy all over the campus，all over the state，all over the country，＂Ben－ nett said．

It was not the Agenda Com－ mittee＇s intent to come up with an answer that pleases one side or the other，Carter said，and AdOp should take no offense to its decision．
＂feal personally insulted，＂ Carter said．＂The committee was not rejecting the report from AdOp．

典 An SU student discovered 560 in change missing from his apartment Monday afternoon, according to a police report.

The student reported that a burglar entered the apartment. hrough the front door on the south side of the building and stole \(\$ 30\) in change from a jug in his betroom the report said.

The student's roommates also ound \(\$ 30\) in change missing from everal other rooms, the report added.

One roommate, an SU sophomore, reported that the burglar went through her underwear drawer, but did not take anything, the report siad.

The sophomore told police that hen she left the apartment that day, she encountered a man wearing a green and white coat standing on he front porch inquiring about renting the ropartment, the report few questions, the report added a

The case is open pending fu ther information, the report said.

E A car parked on Ostrom Avcrue belonging to a senior broadcrue belonging to a sentor broadized twice in two months, according to a police report.

The senior found her car set on cinderblocks with the tires removed report said. The tires were not taken, but ploced near the car, the senior said.

On April 1, she found two large rocks under the front tires, sticks in the rims, mud in the keyholes and under each door handle and shav. ing eream all over the car, the report said.

Both incidents occurred after 3 a.m. when everyone was asleep, the senior said.

Whoever is doing this is very careful not to damage my car," she said.

She added that she had to pay to replace the hubcap.
The senior said she was not sure whether the shaving crearn spelled out a message because it wa
partially washed away by rain

The acts were probably.
The acts were probably comcame prepared, she said.
"don't know if they're doing it for fun or to make a point," the se nior said. "don't have any enemies."

After the second time her car was vandalized, the senior said she went to file a police report at the Syracuse Police Department Public Safety Building, but had to return a second time because the police did not record the first report. The Syracuse police are not the easiest people to deal with," she said. "would love it if some Public Safety guys sat in my driveway Sat unday night"

A 1993 Jeep Cherokee, belonging to SU junior Jason Chung. longing to SU juruor Jason Chung, block of Ostrom Avenue, according block of Ostrom A

The faceplate of a stereo valued at \(\$ 350\) and four CDs were stolen, the report said.

The passenger side window, dashboard, air vents and wood pan: eling were broken, the report added. The damage totaled about s900, said Chung, a computer engineering major.

The jeep was also broken into last summer, he added.

Chung said he will not leave the stereo in the car anymore - not even in the glove compartment and will begin locking his garage door.

A student in the College of Law reported a missing package that was sent to him March 30, according to a polico report.

The law student's parents sent an overnight package ineluding his taxes and a copy of their tnxes, the eport said.

A UPS tracking report said the package arrived and was left at the door of apartment on the 1000 block of Lancaster Avemue, but the law student said he never saw it, the report said.

He said he feared that someone would use the recordis in a fraudulent way, the report added.

The law student could not be reached for comment.
- An SU sophomore lost \(\$ 400\) worth of traveller's checks March 30 , but was denied restitution when she filed a claim, according to a police report.

The sophomore, a retailing major, said she intends to sue the traveller's check company.

She added that she reported the loss within 20 minutes.
t was just ridiculcus," the sophomore said. "just want to get my money back"

After leaving the Phantom Club, 414 S. Clinton St, on April 9, an SU student discovered her car windshield smashed, according to a police report.

The student, a graduate in the School of Education, was uncertain whether the damage was an act of vandalism or an accident. The stadent had the windshield repaired the report added.

W During on April 8 party at 200 Walnut Place, an SU junior had his jacket, valuing more than \(\$ 100\), stolen, according to a police report.

Jason Waldman, a junior broadcast journalism major, left his Pro Player Pittsburgh Steelers winter jacket in a bedroom that was be ing \(u\)
said.

There was also a Pittsburgh

Penguins hat and a pair of black gloves in the jacket pocket, the report added.

When he prepared to leave the party around \(2: 30\) a.m., the coat was gone, Waldiman said
checked all over the place." hee said. "was pretty mad because it's a pretty expensive jacket."
- An SU junior reported Monday a dispute between hirnself and two other SU students, acoording to a police report.

The junior told police that he had been confronted by two friends about a damaged stereo system, the report said. The junior said he had been intoxicated at a party at the friends* apartment when he ensued in a fight with the other two men. the report added.

Give SU seniors, all residents of 721 Euclid Ave., were cited Sat urday for a noise violation, acconding to a police report

More than 300 people were at the party, the report said.

Joseph Ingram, Joseph De Martino, Lawrence Mt. Fleming Joseph A. Mastiailla and George D. partino recach fund Martino major.

He added that the case will be reciewed by the SU Ompe of Judicia Afrirs.

\title{
College Democrats elect new executive board
}

\section*{BY KEVIN TAMPONE} Asst. News Editor

Syracuse University's chapter of the College Democrats elected a new executive board last week for the coming academic year.

Ben Riemer was chosen as president, Tim Schlittner as vice president, Jason Volack as trea surer, Mandy Breitenbach as secretary and Rachael Pearistein as director of public relations.

Schlittner, a freshman political science major, said the Collcge Democrats are committed to bring ing the Dernocratic message to as many SU students as possible.

When push comes to shove, I really believe that there's a lot of De mocrats on this campus we can get to come out and vote," said SchlitCollege Democrats after working College Democrats after working Bradley's presidential campaign.
"What we are trying to do to turn the student apathy into a motivated campaign."

Encouraging campus Democ-
rats to vote in November's elections is key to the success of the Democratic Party as a whole and a central goal for the new board Schlittner said.

This is a huge campus There's 10,000 students on this campus," he said. "You would think that is would not be a big deal for a campus to vote one way or the other. But it is a big deal." Every vote the group can gain for Democrats running for office will be important, Schlittner said. If the organization can convince the campus population to vote Democrat in the fall, then they will have done part of their job, he added.

Christina Hinchey, outgoing College Democrats president, said she is optimistic about the new of the new members are freshman of the board's enthusiasm will make up for any lack of experience, she up for any lack of experience, she added. Hinchey said. "t's going to be an exciting year for them and for stu-
dent involvement in gen
the elections coming up."

The new executive board also plans to build on the success of this year's organization and continue to bring many prominent Democrats to campus, Schlittner said.

Speakers such as first lady Hillary Rodham Clinton, the Democratic candidate for New York state's seat in the U.S. Senate and the College Democrats' main speaker this year, will help to spread the message of the Democratic Party to students on campus and members of the community as a whole, he added.

Clinton is the clear choice for the Senate seat over her Republican rival, New York City Mayor Rudy Giuliani, Schlittner said.

Hillary Clinton has been in Upstate New York talking about the issues New Yorkers care about," running a campaign of mud slingrunging a campaign of mud slin

system today.
Doctors all think is irrational to treat a patient contrary to the family's wishes," he said. fundamentally wrong."

Freer also noted that the political squabbles between democrats and republicans in the legislature is a big reason why this bill has not passed yet.

The Repubican shat leadership doesn't work well with the Democratic Assembly leadership," he said. "There is a percep tion in the Senate that there is simply no point in discussing this particular issue as long as the Catholic Conference is opposed since it will not go anywhere."

\section*{Religious right?}

Powerful religious organizations, such as The New York State Catholic Conference, are also costing many families more pain and disdain than needed. They contend that no proxy, even if instructed by the patient. should have the right to withhold or withdrawing treatments such life-sustaining treatments such as nutrition and hydration. In their eyes this is Kevorkian-like vidual's decision to end his or ho vidual's decision to end his or her own life takes precedence over the common good of society and life.

This is a direct infringement on individual autonomy. If a person prior to being in a vegetative
state, stated in writing they wanted life-sustaining treat ments removed, their choice should be respected. It is also absurd for the NYSCC to take this position considering other religious groups, similar in religious groups, similar in nature, back such legislation in within the state support this act

In support of the councils in support of the counclis position Ruchard Barnes, legisla for the conference stated that they support the right for famithey support the night for families to make decisions for thei loved ones, however, when th compassion is not clear, this act would not be tolerable.
"We have been committed to the principle that this state should not pass a law which per-
mits euthanasia practices and, thereby furthers a night-to-die mentality," he said

Kathy Faber-Langendoen, a professor of biocthics at Upstate Medical University Hospital, stated that organization is the key to passing this bill.

There has not been organized, well-funded advocacy for the bill. Patients are voiceless, and families are very stressed, often wanting to quietly deal with their personal tragedies outside the limelight."

She also noted that the NYSCC is the largest factor for the bill not passing.
"The legislators I met with in Albany very much said that the Catholic Conference's opposithen is key to the Senate Health Committee's unwillingness to act

April 20, 2000
on the legislation," she said New York state is being intimidated by a single organiza tion, infringing on the rights of others statewide that would benefit from the FHCDA. Tho :gh there hasn't been enough of a public voice on the issue, legisl tors should not pass this off as complacency on the part of its cit izens. There is a wide base of people and ormanizations that support this bill gettine them orpanized as a single voice is essential to making this bill a reality.

Coney Hann is a junior pre medicine and philosophy major He is also an assistant lifestyle editor. His colımn appears Thursdays Exmail him at cthann@syr.edu.
environmental conditions to exist such as the Lyme disease ticks may creep northward to Centra New York, Hall said

Global warming is not going away either, Hall said. Carbon dioxide does not break down once it is in the atmosphere, it accumu lates instead. Now that more Americans rely on cars, there is little hope that carbon dioxide levels will decrease.

And because more damaging gases are in the air, more of the ozone layer is being destroyed. Residents of Australia and northern Canada, where large areas of the ozone layer have been dethe ozone layer have been de troyed, face potent radiation. Sci entists at the University of Ot awa even observed increased occurence of cataracts among inuit northern Canada, Hall said.

As mother's day is for mothers, Earth Day is a chance to ap preciate the planet, said Eric Wild project coordinator for the New York Public Interest Research Group, a co-sponsor of Earth Day XXX Syracuse!

The celebration, which is sponsored by the NYPIRG, the Student Environmental Action

Committee, Students Anti-Anthropocentric Redasoning Organization, the Graduate Student Organization and the Student Coalition on Organized Labor, aims to heighten local awarencss with a day in Thornden Park.

From noon to 6 p.m. the festival will feature environmental workshops as well as music from Mecca Bodega and Gordon Stone Band.

Earth Day has been my baby," said Ben Tevelin, Earth Day coordinator. Tevelin, a senior geography major, has also organized the past two Earth Day celebrations.

Tevelin considers now a crucial time for the environment, he said. Americans are facing the aftermath of the pre-ecologically savvy 1980s, realizing the limit of resources and taking notice of the future, he said.
"We don't have to worry about the planet. The planet will
renew itself once (humans) are all gone," he said. "We have to worty about us.'

But he is confident in the awareness of his generation and considers the environmental movement stronger than ever

Cindy Davis, NYPIRG's environmental projects coordinator, believes change will require lifestyle alterations. People are often unaware of the way they harm the environment, she said. If more people used fewer plastic bags, choose walking instead of driving and thought about what they used, damage could be slowed, she said. But change may be difficult for America.
"We have a consumer-based society," said Davis, a senior geogsociety, said Davis, a senior geog "Everyone is buying and buying and buying."

Ringler said that while there are many ervironmental probare many ervironmental prob-
achievements. He noted the im provement in the quality of water in Central New York as weil as the rest of the country. In streams certain types of fish abound tha were previously scarce.
treams in both Maine and Massachusetts are also cleaner than they once were, thanks in part to sewage treatment plants said Hall. This is not the case for most of the world, he added

Technology and science has also lead to less-damaging pesticides and cleaner methods of making paper, Hall said.

Along with those improvements, NYPIRG has lobbied suc cessfully for policies that call for cesologically-sound pesticide use ecovogically-sound pesticide use, only the beginning.

Think more long-term and more broadly," Davis said. "Think globally and not just about people globe."
cance. The show focuses on the evolution of trish dance and its similarities with, and influences on, other cultures. The phenomenon of Riverdance draws on Irish traditions and combines the richness of the music with the magic and sensuality of the dance. Performances are 7:30 p.m. tonight, 8:00 p.m. tomorrow, and there will be two performances at 2:00 p.m.and 8:00 p.m. Saturday and Sunday at the OnCenter Complex, 800 S . portunity to recover offensively. Freshman goalie Carla Gigon started in her fourth game of the season. She held off the Cornell attack by recording nine saves, ty ing her mark posted in a victory against Boston College last week

One of her early saves came at the 18:14 mark, as she stopped a Colacicco shot to keep Syracuse ahead 4-2.

That domination continued to keep Cornell scoreless, giving Syracuse an 11-4 advantage at halftime.

But entering the second half, the Big Red burst out the gate by scoring three consecutive goals almost immediately.
"We got a little rattled at the beginning of that half," Healy said. "But once we pressured them out hard, doubled-over and then they started turning the ball over."

As SU head coach Lisa Miller pointed out, Healy's ability to control such situations has helped improve the team's play.
"Karen's been very poised," Miller said. "She's a great, smart athlete. If she stays under contro then we know we can handle the pressure pretty well."

Cornell head coach Jenny

Graap, who is in her third season, noted the Orangewomen's efforts.
"I was very impressed with their No. 18 (Soults) on defense," Graap said. "She seemed to check us constantly, picking our pockets left and right, one-on-one." m's scorin with out the team's scoring with two goals. the second half but pathered the the second hand later and scored with a fiery hho near the soo Cornell's offense soon found
Cumable to perform in the lat it parts of the pame er parts of the game. needed to do - they what they in the attacking end" Graap said. "I think if we had more possession time we might have been able to find some weaknesses in their defense and in their freshman goalie."

Meanwhile, as the minutes ticked by in the remaining half of the game, goalkeeper Gigon continued to block numerous shots for Syracuse.

She looked solid, deflecting each shot and denying any second chances.

The arsenal of aggressive scoring throughout the game was
led by Healy's four goals
Syracuse also added two freeposition goals by attacker Lauren Brady and Soults.

After her assist to attacker Lauren Brady, Healy knocked in her fourth goal to extend the Syra cuse lead to 16-8.
"Going in my first instinct was going to the cage hard "Healy said "I just watched the defense saw what they did and played of that."

Several errors and overthrown passes by the Big Red made for a frustrating end to the game. Their offense could only muster one final goal fired by Colacicco.

That only propelled the Or angewomen to apply more defense at full strength.

Even more impressive is that Syracuse has held its opponents under ten goals in nine traight wins. This includes the April 16 win over Fairfieid, which they dominated, 17-3.

Going into the game we knew what we wanted," Soults said. "We got a little stuck on our heels but then we picked up our momentum and were able to get it done."

sticks－and heads－again as the No． 2 Orangemen and No． 4 Tigers clash at 1 p．m．a Class of 1952 Stadium

Meylia all been up gles，＂Ceglia said．＂Hopefully I can slow him down a bit opefully，i can catch up to him on derense and tire him ut．Any bit of rest 1 can get against him will be well－ap preciated
＂He＇s got a lot of gas in his tank，and he can bring it．
this has brought it big ime this season．The 6－foot－2 os－pol ind quad ingoals with 20 and assists with 11.

He＇s a two－time first－tearm All－American with intimidat ng speed and captivating tic

Ceglia＇s no slouch，either He gives up six inches and nearly 35 pounds to Sims，but his stick－checking ability and waterbug quickeness allow， iost includine John Hop est，Mcludine Johns Hop kins＇A．J．Haugen and Virgini ＇s Jay Jalber

But，Ceglia said，taming his tenacity against Sims is mportant．

If Ceglia happens to get ancy with his Iong pole，he aid Sims could dart right by him and cause a costly ripple \(n\) the rest of the defense

I need to do the little hings like poke checking and not trying to go over his head，＂ Ceglia said．＂I＇m not trying to beat him．＇m pretty much topping him from beating us And if I can contain him，I＇ll
be more than happy．\({ }^{\text {m }}\) Said Princeton head coach Bill Tierney：＂Joe Ceglia is one heck of a defender．He＇s the best checker on the move the nation．

SU head coach John Desko owns equal praise for Sims．
＂You have to know where he is，＂Desko said，＂because he can＇hurt you in so many ways．＂
The Orangemen（8－1）also know the Tigers（7－1）run thin in scoring options after Sims．

Sophomore attackman B．d．Pragerhas netted 22 B．d．Prager has netted 22
goals while junior attack Matt goals while junior attack Matt triebel assists on

Princeton＇s top five scor－ rs have combined for 100 points this season．The Or angemen＇s fearsome fivesome Springer Liam Banks，Josh Springer，Liam Banks，Josh Coffman and Matt Caione have scored 172 points．

It＇s tough to talk natchups with them，＂Tierney and．We play a totally differ ent style．With Syracuse，you ever know what you re going o get because they just come ut and run

Both teams will run with a little less vigor Sunday，as each plays a Saturday game in the traditional doubleheader veekend．

This will be the last year of the two－games－in－two－days chedule，Tierney said，with facing Penn（5－7）and the Tigers taking on No． 7 Cor nell on Saturday

Cornell samd he regard the Cornell game more impor
tant than Sunday＇s showdown against the Orangemen．

The prize in the Prince－ ton－Cornell matchup is the Ivy League title and automatic qualification into the NCAA Tournament．Princeton won the last five．

For SU，though，the prize lies in a victory against Princeton，another quality vic－ tory to add to the Orange－ men＇s already stellar docket．

Looking past one game （Penn）and to another（Prince－ ton）is a cardinal sin，but，
Desko said，＂I don＂t know if Desko said，＂I don＂t know if you can avoid it．

Syracuse captain Tim Byrnes said the Orangemen
learned their lesson of over－ looking．He and other team－ mates admit they slacked in their lone loss of the season，a 13－12 defeat at Cornell．
＂We can＇t take any team lightly，＂Byrnes said．＂You can＇t come into a game think－ ing，＇Oh，I＇m going to roll over you guys．＇Now we realize any given day，any team can beat any team．We knew of that．I don＇t think we understood it．＂ A weekend sweep would buffer the confidence the Or－ angemen derived from their
\(16-8\) slaughter of Rutgers last 16－8 slaughter of Rutgers iast weekend．
＂If we pull this weekend off，we passed a test，and tests
come with rewards，＂said Chris Cercy，SU＇s face－off man．＂The reward is that we can stay focused in tough sit－ uations even like this one， where we have to play a dou bleheader Saturday－Sunday against two quality teams．＂

\section*{The Daily Orange}

\section*{BREAKDOWN}
continued from page 20
and a Cornell timeout
After a goal by Jamiee Reynolds put Cornell back to within two, SU junior captain Katrina Hable scored her looth career goal on a fallingdown shot. The tally started a 6-1 Orangewomen run that ended with another Hable goal with 8.3 seconds remaining in the half.

SU held an 11-4 lead at halfime but came out sloppy in the second half.

In the opening minutes the Orangewomen offense hi a wall. Shots by Healy and Stacey Brown went wide, and the defense struggled to clear the ball.

Cornell sophomore Ginny Miles started the second-hal scoring barrage with a shot past Gigon \(2: 25\) into the half Reynolds connected for a Cor nell goal on the very next pos session.

The Big Red broke down the Syracuse defense again a Miles trickled past Gigon and into the net, cutting the
lead the SU lead to four "Cornell got a little pumped up, and I think we got a little rattled " Gigon got a littie rattied, Gigon away on offense, and they had the first couple towards the goal. That got us shaky."

SU countered with two free-position goals, and Brady picked up two more during a two-minute spurt to push the lead to 15-8 with 12:30 remaining. That goal, her sixth of the contest, knocked Giancola out of the game.
cormy leam showed up very scared and very tentative, Gramp said. "Unfortunately, my goalkeeper decided to have her worst game of the season. That's not like us, as normally our goalie and our defense are our strengths."

Brady continued her campaign for All-America honors With the strong performance. Two of the goals came in the spending much of her time battling through the Cornell defense. "She was getting beaten
ong," SU head coach Lisa Miller said. "She handled it and still managed. A lot of players wouldn't be able to till respond the way she does."

Brady \& Co. head back to he Carrier Dome on Saturday to face No. 10 Bogton University at 2:30 p.m.. The Orangewomen swept BU in two games last season, including an overtime win in the ECAC Tournament semifinals.

But after the Cornell victory, the Orangewomen move a step further towards the team's goal - the school's first-ever NCAA Tournament berth.

It continues to put us in a position where if we chip away and do what we have to do, were still in a position to make the to day) would be devastating day' would be devastating. that is right behind us in the polls, and we beat them convincingly. We're playing well right now."

\section*{Linebackers stand out as SU's strength \\ The Syracuse defense is far ahead of \\ games. \\ Jackson returns to the Orangemen \\ Orangeman who did not see much time}
the offense at this point of the spring. and much of the success sterns from the trio of returning linebackers.

Morlon Greenwood is the vet of the group, placing third on the team in tackles last season.
J.R. Johnson will replace the graduated Keith Bulluck, a first-round pick with the Tennessee Titans. Johnson, who surfaced in the Orangernen lineup as a dominating gunner on the punt cover-
Eric Nathan Spring
Football
Notebook age team last season, is ready to add startresumé.

He earned Big East Special Tearns Player of the Week following his five-tackle ance in the Carrier Dome against Michigan - the Grrt player to win such an honor without touching the football.

Now at linebacker, Johnson made taches all over the field in saf a Troy Nunes pass.
"We're progressing, slowly but sureIy," defensive coordinator Chris Rippon said. "Making strides in getting chemistry together, which is very important rid like to see how we can finish it out. Can we put it all together?"

Sophomore Clifton Smith, however, will anchor the Orange defense. Smith has taken over as the leader and signalcaller at the ripe age of 19 , staying in the middle linebacker position he manned last season after Vernon Banks was injured.

Bullucic shifted to weakside linebacker, allowing Smith to make an easier transition. But with the 240 -pounder's left by Bulluck's 141 tackles in 11
and last season, Smith made 66 stops and forced a pair of fumbles in 11 games.
His tenacity quickness and size ( 6 -foot-2, 240 pounds) should allow him to adust to running the defense without much of a drop off.
"What he brings is a big linebacker," Rippon said. "Clifton's a young guy that is still learning, and he brings his 250 pounds. He's real focused. I don't know if he's a real good player, yet. But he's going to be."

\section*{Wide receiver look}

One redshirted Orangeman that showed promise was Jamel Riddle. The 5 -foot-10, 180 -pound wideout beat defensive backs down the field for big gains. "Jamel is the kind of guy that gets better with reps," wide receivers coach Dennis Goldman said. "He redshirted last year and doesn't really know the this spring. He had a nice scrimmage on Saturday.

Riddle's productivity made up for what was not exactly an All-State Insurance advertisement for good hands. Receivers dropped many passes from the four Orangemen quarterbacks who appeared.

The three biggest culprits were sure-handed wideouts upon whom head coach Paul Pasqualoni depends.

Malik Campbell, Pat Woodcock and Maurice Jackson each had the ball hit and bounce off their hands. Perhaps they were feeling pressure in the presence of SU's top recruiting gem, Johnnie Morant, who made the three and-a-halfhour drive from Parsippany, N.J., to watch the scrimmage.

The wide receivers are working very hard," Goldman said. "We got a good group. We don't have a receiver gron runs worse than a 4.5."
after a year off at Monroe Junior College in rochester. The junior was academical ly ineligible to play at SU last season. he has two years of eligibility len at Syracuse.

In 1998, he proved one of Donovan McNabb's favorite targets after Quinton Spotwood's season-ending knee injury. Jackson possesses the ability to stretch the defense down the field with his lightning speed.

During his last season with the Orangemen, he hauled in 11 passes, averaged 18.5 yards per reception and scored two touchdowns. One of the scores, a 62 -yard bomb from McNabb, was SU's lone touchdown in its Orange BowI loss to the Florida Gators.
"Maurice is a pleasant surprise," Goldman said. "I think a lot of the offense stayed with him. Its not like we're starting from square one with him. He hit the ground rurining and picked it up early."

Also competing for playing time wi be David Tyree, Adonis Kinsey and junior-college transfer Kwazi Leverette. The latter corralled one of quarterback Chad Eliott's roll-out passes.

Some of the drops were tough catches, but others were catchable and should have been hauled in for long gains.
"I'd like to think it's not a problem, but if it continues it will be a problem," roldman said. Some of cee balls that were dropped were not catches, so well continues, it will be dealt with as a problem, and we will do more catching drills."

\section*{Surprise, surprise}

Saturday scrimmage on the grass of Ben
on the field last year.

Keton Walker, making the switch rom tailback to defensive back, had a huge day. In the opening drills, be blocked a Mike Shafer punt, coming in untouched from the left side. The sophomores last blocked kick came in
During game-time situations
Dumber
During game-time situations, a corner blitz he sacked redshirt fresh. a corner blitz, he sacked redshirt freshman quarterbac

Walker's biggest play came off a bad snap. Afer Anderson fumbled the center snap. Ater Anderson fumbled the cente exchange, waker gobbied up the toos other way for the defense's only score.
her way for the defense's only score.
"He's doing pretty well," senior corerback Will Allen said. "There are some nerback whan't learned. As far as the trangs he hasn't hearnedi As fa

Defensive end Josh Thomas also showed versatility. Redshirted last year showed versatility. Redshirted last year rushing the passer and an ability to drop into coverage.

The lanky, 6-foot-6 Orchard Park native stuck out one of his big paws, tipped a Madei Williams pass in the air and recovered to pick it oft.

Thomas, who carries a 3.7 GPA, nearly pulled off the same stunt in the next series. This time, dropping 20 yards back into the secondary, he deflected a
"Josh is a young guy who is learning the position," defensive ends coach Jerry Azzinaro said. "The thing that is encour aging about Josh is that he is a smart guy. He's a high-motor guy and plays with high energy. It shows up in scrimmages, but he's got a long way to go."

\section*{Top gun}

After men's lacrosse mer Sy Wednesday, forPow ry long-standing dette a which Orangeman has the fastest shot.

Standing only two feet behind the net as a crowd of players launched rockets from about 10 yards out, Powell was able to gauge the speed of virtually every member of the Syracuse team, including some of the goalies.

Not surprisingly, Mike Springer and his cannonlike shot finished fastest at 102 miles per hour. Close behind him was defender Solomon Bliss at 100 mph and Powell's younger brother. Ryan, who finished at 98 mph .

Most Orangemen finished with speeds between 80 mph and 95 mph, with a few slipped shots that fell into the 7Os, drawing laughs from the crowd of players.

\section*{Dayton dilemma}

The NCAA put Dayton's men's basketball team on three years probation yesterday.

Violations included loans from a university trustee to the father of a recruit.

Dayton - which lost to Purdue in the first round of the NCAA Tournament last season - now has stricter limits on scholarships and recruiting visits, and penalties may include a ban from television and postseason play.

\section*{New Cougar coach}

Ball State head coach Ray McCallum accepted the head coaching job at Houston, vacated by Clyde "The Glide" Drexler. ESPN.com's Andy Katz reported.

MeCallum has taken the Cardinals to the NCAA Tournament twice, inclucing last season. Drexler resigned on March 30.

Appalachian State's Buzz Peterson withdrew from consideratio
Tuesday night.

\section*{sports trivia}
Q. When was the last time Syracuse won a national championship that wasn't in lacrosse? yesterday's trivia: Q. Who was the Orangeman to declare early for the NBA draft? A. Billy Owens declared in 1991 the year after he averaged 23.3 points and 11.6 rebounds per game.

\section*{[sports] Dave Curtis, editor The Daily Orange April 20, 2000 20 SU trounces Big Red}

Staff Writer
ITHACA - On paper, the score should have been close.

Both No. 15 Cornell and No. 13 Syracuse owned identical \(8-3\) records and were vying for berths in next month's NCAA Women's Lacrosse ournament. afternoon ended any chance at a Central New York barnburner, as 17-9 on Wednesday afternoon at Berman Field.

Syracuse broke open the game late with a 6-2 scoring run during a second half that Cornell head coach sive breakdowns."
"They outhustled us," Graap said. "They got more draw controls. They got more groundballs. They started beating usin almost every aspect of the game.-

The Cornell attack dominated possession early, and the Syracuse ers open shots at freshman goal tender Carla Gigon.
"At first, we weren't really stepping up to the ball," said Brady, who seta career high with her seven goals. "We were just letting them pass it around and move the ball, taking some time off the clock, which
is what they wanted to do to slow our is what they wanted to do to slow our game down.

After trading goals for the first nine minutes, SU goalkeepers coach Chris Lindsey ordered the SU defense to apply more pressure and place their sticks in the faces of the Cornell attackers.

The pressure stifled the Big Red offense, and the Orangewomen forced two consecutive turnovers, leading to easy Syracuse transition goals by junior Karen Healy and freshman Kim Wayne.

With 18:06 remaining in the first half, Syracuse continued its tight defense with a block by Gigon leading to a Healy fast break. Healy Carrie Giancola for a \(5-2\) SUG lead See BREAKDOWN page 16

Four of the nation's most wellendowed fourdations annournced a joint \(\$ 100\) milion truestment Monday to help reform and revitalize high er education in select African courties in the targestever coordinated
U.S. philarthrapic effort U.S. philartithropic effort on the continent.

Leaders of the Camegfe Corporation along with the john D . and Catherine T . MacArthur, the Rockefelter and the Ford foundations -- said they will coordinate with one ancther as well es with African educational teacers to focus grants that will strengthen universt ties that alreacty have shown creative promise in their efforts to reform and expand.

The new thrust is designed to support high er efucation in counvies where economic and political decentralization efforts are underway and to help expand the pool of Africans equipped to cope with the cortinert's marry pressures, incluat ing the HN epidemic, the fragnity of democrecy and the speed of the global econormy that hes lantehy passed Africa by.

\section*{Youths shot at National Zoo}

WASHINGTON, D.C. - Six youths were shot at the National Zoo yesteriay when a dispute escalated into gunfire, creating panic among visitors to one of Wash ington's premier tourist attractions at the conclusion of a day dedicated to celebrating the African American family.

One of the six, an 11 -year-old boy, was shot in the back of the head and was in extremely grave condition at Children's Hospital A police source said he was brain dead but was being kept on life support so his organs could be do-
nated. Earlier, police had said he
was dead. The other youths* wounds were not regarded as lifethreatening.

Some of the ahots apparently were fired several hundred yards inside the zoo, possibly near the visitor center, D.C. police asid. They aaid abcoting alse broke out near the entrance on Connecticut Avenue NW, which runs through some of the city's most affluent neighborhoods.

No arrest was reported last night, and police said they were looking for one suspect.

No clear motive was immediately identified for the dispute
and ahootings, which took place on a day when D.C. schools were still on spring recess, and apparently involved two groups of youths. D.C. Police Chief Charles H. Ramsey said he understood 200 security officers were trying to expel youths from the grounds when the ahooting began.

Police described the suspect they were looking for as a black they were looking for as a black
teenager whose hair might have teenager whose hair might have a been plaited. He was wearing a black jacket and black shirt with baggy bluejeans. Police aaid he
was last seen headed south on Connecticut Avenue.

\section*{Labor association counters criticisms}

BY ASHLEIGH GRAF Staff Writer

During the last three months, Syracuse University students have streaked across the campus Quad topless and have spent the nights there in tents. They held candle lit vigils and stormed the chancellor's office, all in the name of the Worker Rights Consortium.

Students nationwide are oining their protest against sweatshops, attempting to coerce administrators to leave the Fair Labor Association and join the WRC, a watchdog group that implores clothing manafactures the
disclose We have said as a whereabouts and group, we will look at the conditions of WRC. We want to be pro their factories

The FLA is duced in a safe, fair, an organization humane environment. \({ }^{2}\) wimilar to the WRS but the WRO, but in volves corpora- Chairman of SU's Trademark ing the facilities
\(\qquad\) Licensing that produce \(\qquad\) their owm members' apparel.

Sam Brown, exectutive director of the FLA, calls the receat criticism of his organization a diversion" from the real issue sweatshops.

But WRC supporter Marika Wissink said the issue is the FlaA and its allegiances.

Our problem with the FLA is that we are running creditability to an organization that supports Nike and Kathie Lee Girford, \({ }^{\text {, }}\) said Wissink, a senior in the College of Visual and Performing Arts and a member of the Student Coalition On Organized Labor. illeged was sued in 1938 aiter anegedy producing its apparel in 1997, it was revealed that the Wal-Mart clothing line of televi-
sion personality Kathie Lee was being manufactured in an illegal sweatshop.

But Brown contests the criticisms of the FLA, calling them unfounded. He added that his organization began in September and has not had adequate time to begin monitoring.

At the WRC's first founder's meeting April 6, members discussed definite policies for the organization. But the consortium does not monitor the facilities and instead employs non-governmental oryanizations.

It is just going to tell everyone that there are terrible conditions," Brown
said. "We know that."
WRC representatives could not be reached for comment after more than a dozen

The FLA grants the facilties making its members' apparel two to three years to improve employee conditions, according to its web The association will tag the spparel that meets its standards and those that do not pass will be stated in a yearly report.
The WRC, however, will leave it up to the universities to take action once a factory is cording to its Web site. The consortium is concerned only with university apparel, whereas the FLA monitors other textile manufacturers in addition to its collejiate members.

As the WRC works with employees and non-government organizations to encourage corporations to release facility information, a code will be imple-

\section*{Students across nation call for WRC involvement}

\section*{aY ASHLEIGH GRAF} Staff Writer

Dressed in Hawaiian shirts and sunglasses, a group of Harvard Univergity students in December stormed Harvard Square's Gap and Abercrombie and Fitch stores, protesting their alleged use of sweatshops.

About 90 miles west of the Syracuse University campus, a group of University of Rochester students began camping out last week on their quad in tents made of cardboard- similar to recent demonstrations by SU protesters.

The Rochester and Har vard students are asking college administrators to join the Worker Rights Consortium, a group disclose the wherporations to employee conditions of their facemploy

For the past year, students nationwide have been using quada and administration buildings to protest their
mented that protects the rights of workers, the Web site said.

As colleges join the consortium, apparel contractors like Nike will have to change the conditions of their facilities if they are caught operating under sweatshop conditions, the Web site added.

\section*{Universily tag-of-war}

As the debate rages over the two labor groups, SU Chancellor Kenneth A. Shaw questions which organization is better to evaluate facility conditions.

There may be more than one way to ensure that these products are made in safe conditions," Shaw said.

For the past year and a half, President Bill Clinton and his
school's membersh
Labor Association.
The FLA is is an organization with a mission similar to the WRC, but who ask corporaion representatives to help manage the monitoring of its members factories.

Student protesters nation wide, including those at SU, ar gue that the FLA is not doing enough to monitor sweatshop conditions at factories that produce college apparel.

Forty-ive colleges have oined the WrC, including 10 University of California schools. Only several on those colleges however, have completely pulled ut of the FLA.

Brown University has affiliated itself with both watchdog groups, creating a potentia problem with its ice hockey appidiary of Nike, said Mark Nickel director of news ark vices for Brown.

\section*{Brown, ho}

保
administration have pressured all the nation's colleges and universities to join an organization that would ensure their goods were not manufactured in sweatshops, Shaw said.

But although some students are now pushing for SU to withdraw from the fLA - which it joined last year --maw said he is not going to rely on these protesters' whims.

In the last analysis, I have to do what 1 think is right, he said. This isn't a place that is run on referenda.
"Ultimately, like it or not, I accept the responsibility for making decisions.

Shaw said despite student opinion he still stands by the university's position, publicized
haid "As long as both organizations are focused on the task at hand, we would support both o them," Nickel said. "The overall goal of Brown is to keep fo. cused on the task.

Nike representatives could not be reached for comment.

Harvard has also remained in the FLA, igniting several large campus protests since the spring of 1998, said Benjamin McKean of Harvard Universi ty's Students Against Sweat shope.

We're completely opposed to any membership in the orga nization," McKean said. "Our position right now is, we're advocating Harvard to join the
WRC.

HSAS initiated rallies including demonstrations in front of incoming freshman to reflect on their experiers. McKean added.

See NATIONAL page ?
March 23 in the wake of protest. The university is not refusing to join the WRC or pledging to remain in the FLA, but instead is taking the time to consider all options before malking a decision, according to the announcement

When SU joined the FLA in May 1999, however, the organization was still a poor choice because of the large role corpora tions have in its monitoring process, Wissink said.

There were not many options available at this time, Wissink ad mitted, noting that changing the structure of the FLA was possible. But as the organization expands. change becomes less likely, she added.
\({ }^{4}\) I pretty much realized there

gin, an SU graduate student in the environmental forest biology program.

The money was taken from a jar in a roommate's room, Virgin said.

The burglar kicked through the rear door of the apartment. the report said.
"My room was open," Virgin said. "My girlfriend left her purse on my bed. They went through it on my bed. They went thr
but didn't take anything."

Virgin added that after porting the incident, it took 90 minutes before police arrived.
"We don't feel safe here anymore," he said.

Mike Murabito, Virgin's roommate, said that during two separate incidents earlier this year, two cars were vandalized in the parking lot by their house.

It never seems like there's anything any of the authorities can do about it," said Murabito, a graduate student in the environmental policy program. "You never see any results.

In a similar incident early

Wednesday morning on the 300 block of Comstock Avenue, an unidentifjed person damaged the door to an apartment belonging to another SUstuden a police report.

A neighbor told police that he noticed the damage, but did not see anyone near the apartment. the report said.

Sunday afternoon on the 200 block of Comstock, an unidenti fied person burclarized a car be longing to an SU student, accord ing to a police report

The thief took the student's driver's license, her pocket book. her wallet, a debit card, books, a book bag, a leather jacket, computer discs, CDs and \(\$ 40\) from her 1999 Honda Civic, the report said

The back window of the car was smashed and the back door to the car was pried open, the report added.

EFallowing a reggae concert early Saturday morning at Planet 505 at 505 Westcatt St, police arrested Adam Wells, an SU junior, for public disturbance and resisting arrest, according to a police report

Police reported to the scene
on a stardard cherk and found large crowd of people pushing and shoving outside of the bar, the report said.

People flooded into the street and blocked traffic, the report added.

Palice ordered the crowd to disperse and most obeyed except for a small group of people, the report said.

Among them was Wells, who told police to "ruck off" when asked to leave, the report added.

When police ordered Wells to ut his hands behind his head, he \(\operatorname{ran}\) away, the report said. An officer pursued him and arrested him about 30 feet from the bar, the report added.

Wells declined to comment. He was released later Saturday after his roommate, George Littles, posted bail, Littles said.
"I just went down to get him out," said Littles, a non-SU student. Ul don't know what transpired the whole situation."
- An unidentified person broke into an apartment Thursday night on the 700 block of Osrom Avenue, according to a police report.

The burglar stole \(\$ 160\), two personal stereos valuing \(\$ 100\) and 580 each and a watch valuing \(\$ 30\), the report said.

The report said.
Thouse was otherwise undisturbed, the report added.
- An unidentified person broke into an apartment Satur day night on the 700 block of Euclid Avenue and stole a \(\$ 2,500\) Dell laptop computer. according to a police report.

The residents came home late Saturday night and found their front door open, the report said. The residents told police they were not sure if the door had been locked, the report added.

The computer, along with an SU class ring and \(\$ 30\) in coins, was missing from one of the bedrooms, the report said.

Saturday morning, an unidentified person kicked in the front door of an apartment on the 300 block of Euclid Avenue and stole a bike valuing \(\$ 100\), accord ing to a police report.

Nothing else was missing from the apartment, the report
added.
[ An SU student's \$300 Guc ci wallet was stolen after she len a movie early Sunday mornin a the Carousel Center, according to a police report.

The student decined to com-
She told police that she did not realize her wallet was missing until the following morning, the report said.

The student contacted Hoyts Cinemas who told her that the wallet had not been turned in. the report added.

T On Sunday, an unidentified person broke into the Alibrandi Catholic Center, 110 Walnut Place, and stole \(\$ 800\) in computer equipment, according to a police report.

The center does not have an alarm system and many people have keys to the facilities, the report said.

Facility personael could not be reached for comment.

\section*{Cuban boy makes poor political pawn \\ A pint-sized Cuban boy stretches across} the Atlantic Ocean between the United States and Cuba.

The conflict he created represents the very worst of both nations.

Attorney General Janet Reno's attempts to reconcile Elian Gonzalez's Miami farmily members with the boy's father on neutral ground backfired Saturday and ended in the early-morning surprise raid on a tiny house in Little Havana. More than 130 armed Immigration and Naturalization agents stormed the house and snatched six-year-old Elian from the floor of a closet.

Tensions between Cuba and the United States extend back decades. Unfortunately, Elian is only the latest, most convenient bargaining chip in the United State's crusade to pummel the communist island.

But he is just a small boy, lost in a torrent of government propaganda. The war pits capitalism and democracy against communism and loses basic common sense in the battle.

Calls to heed Elian's mother's posthumous wishes to keep Elian in the United States is just a politically correct way to gloss over the United State's self-serving twisting of Elian's fate. The United States missed the boat on the boy's "best interests" three months ago. If he had floated ashore from Canada, he would have been shipped back to his father where he belongs - before he could suck a single dime out of \(U\).S. social services coffers.

When Elian returns to Cuba, he'll undoubtedly be deified by Fidel Castro's regime and touted as a symbolic victory over the evils of democratic government.

Without government slip-ups at every step. of the negotiation process, this unfortunate eventuality could have been easily averted.

Even though Elian has been reunited with his father - albeit in the United States - the remnants of the senseless tug of war will continue to rage on U.S. soil. The issue will spill over into the November presidential elections and sop up air time that candidates need to devote to larger, more pertinent issues.

Elian Gonzalez is a hapless child, not a tool for strong-arming other countries into the American Way.

\section*{opinions}

\section*{Fans defile athletic spirit with inappropriate cheers}

The Atlanta Braves fans are a bunch of bumbling
They sit in ultra-friendly Turner Field, a stadium built by a media mogul bent on brainwashing the entire world with his own brand of bland television programming. They raise their arms like a bunch of axe-wielding psychotics with their "tomahawk chop," chanting a
cacophonous mantra that is as tasteless and as witty as

\section*{ASHOK}

SELVAM Atlanta-sports groupie Hammer's last record.

Oh, yeah, and last week they gave a bigot a standing ovation.

Good ol' John Rocker came back from his two-week suspension greeted by thunderous cheers from the Braves Gathful. This winter, the Atlanta pitcher showed us in an interview with Sports Illustrated that he is a racist and homophobe. He lacked the compassion and tolerance necessary
to be a human. He even called a black
teammate a "fat monkey" to be a human. He even called a black
teammate a "fat monkey"
But because he can throw a round, white, leather-covered sphere really hard, all's forgiven by management and fans alike.

Now Yor Atlanta.
New York Mets fans are preparing for Rocker's return to Shea Sitadium. The Big Apple crowd plans John Rocker Battery Night for June 30. They will pack their Energizers hoping to pelt Rocker and show their true feelings.

Maybe Rocker did his time and he should be forgiven, but is giving him a thunderous ovation right? What if season? Would the Braves' management be so eager to cure this monster?

This hypoctisy plagues all of sports. Management tums the other cheek when wife-beaters and junkies alliee offer their services on the playing field. Big league sports tolerates losers like no other profession.

If only you and I could have seven tries for redemption, just like New York Yankee pitcher Steve Howe who as reinstated after seven drug-related suspensions.
How many times will owner George Steinbrenner give Daryl Strawbery, just because the Yankees lack left-handed pop off the bench?

But let's blame the media for giving us a more accu-
rate picture of the players. Back in the day, Rocker would have no one except his close friends and family to share his views. Now we all know that he carries racist, homophobic baggage. Maybe he's not the only player who does. Maybe this problern is rampant. Wouldn't you want to know?

But you can villianize the media. You can call reporters invasive.

Poor Rocker, victimized by those dangerous men and women with notebooks. He's just a defenseless little pup, pillaged by the media. Rocker has said little since his return. He feels violated by the media, who he feels has blown his comments into a firestorm.

But the Sports Illustrated reporter wasn't doing an investigative piece. Rocker freely answered the reporter's questions. He knew he was talking to a reporter. If he didn't want anything to go to print, he could have kept his mouth shut.

We should actually be thankful that Rocker spoke his mind. Why would I want my 8-year-old nephew wearing a Rocker jersey if the pitcher's a jackass?

Rocker has a right to privacy, but fans are entitled to know about players off the field. Im not talking about whether or not a player snores or what his undergarment preferences are, I'm talling about their personalities and hobbies. Since cans buy ickets to the garne and purchase all so

We're rooting for more than the players on the field. We're rooting for faunily men and women. We're rooting for players coming from broken homes. We're rooting for media darings. I can't separate the players from the per sona. Its just too difficult.

If we allow ourselves to value athetic accomplishments over
letic spirit.

Condoning Rocker's actions with undeserved applause is horifying. Atlanta fans should have shown better judgement.

Everyone loves a winner and sometimes victory comes with a cost, but how far are we going to go? Have we forgotten that the journey is often more satisfying than the destination?

\section*{Title IX proportionality takes opportunity from men}

\section*{To the Editor:}

When are we going to stop wag ing war on boys in our society? We. 10 children on ritalin are male), they commit six times as many suicides as giris and boys are 50 pervent more likely to flunk a grade. Another atroc ity against boys is being perpetrated by government bureaucrats. They have taken a law which was intended to prevent sex discrimination in schools and shaped it into a force which tase been destroying sports op portunities for our boys.

Title IX was a well-intentioned law passed in 1972 . Much to the harm of boys, it has been revised extensively by special interest groups
over the years so it now functions as a strict gender quota law in our college athletic programs. Unfortunately, schools today are complying with this quota primarity by eliminating male athetics.

We would not tolerate eliminating giris (for the sake of a senseless guota) from band, drama or dance, where females are the majority. We would say it is absurd to limit the number of girls allowed to be in chorus to the number of boys who wanted to be in chorus. This is precisely What is being done to male athletics. Taking opportunities from males is o no bencit to females. It is a power game played by radicals who could care less about boys.

This is what is happening to males at Syracuse University for years, Syracuse University's
wrestling program has been on the this gender quot called beconuse of ality, Curcenty, there ame five recent

SU graduates who have a legitimate chance of making the 2000 Olyrnpic wrestling team in Sydney; Australia Without their chance to wrestle at SU, they never would have had the opporturnity to pursue their dreams.

The state of New York has 12,095 high school wrestlers and only 250 varsity college wrestling opportunities. It would be a terrible injustice to take away any of the few remaining opportunities from these male athletes simply to meet a gender quota.

All citizens of the state of New York must take a firm stand to errsure that \(S U\) continues to maintain a wrestling program. Keeping wrestling will help secure an opporturity for all young malo and fomale athletes to achieve their athletic aspi rations at the prestigious SU .

continued from page 1 dents are doing. Students are really taking a lead," said Laura Bogle, a representative from Central New York Labor-Religion Coalition. It really is a moral issue.
"Students are standing up and holding their administration accountable for workers around the world who are being exploited."

Students from SU and the State University of New York College of Environmental Science and Forestry have been urging SU Chancellor Kenneth A. Shaw and okher universik ofrcial for months to join the Worker Fights Consortium.

The WRC is an organization that investigates corporations who are suspected of utilizing sweatshops
the pressure just trying to keep
member Patrick O'Leary, a sophomore in The College of Arts and Sciences, of Monday's protest.

The university is currently a member of the Fair Labor Association, which Shaw said is more established and organized than the consortium

Students, however, maintain that the FLA has a conflict of interest because the corporations it moniloss have inalucto

"Over 40 universities, including Cornell University, have joined the Worker Rights Consortium," Bogle said. "Why would such a good, prestigious school as Syracuse University want to associate itself with child sweatshop labor?"

Nike, a company that manages much of Sy's apparel production, allegedly takes advantage of sweatshop labor.
"SU has blood on his hands and were trying to wash those and scream is holding on kicking said.

Bartie Gewanter, executive director of the Centrai New York Council on Occupational Safety and Health, said his organization oined in the protests because cal and international Gewanter and
mbers noted the Thursion membine accident at Bird Libray morning accident at Bird Library in which an electrician contracted started inas an electrical box here started in an electricalbo

That incident wa
example of the unsafe environ example of the unsafe environ-
ments workers around the world must deal with, union members said.
"We have solidarity," Gewanter said. "We work for workers' justice."

\section*{SWEATSHOP}
continued from page 3 would be no changes that would be really effective," she said.

Finer details
The FLA currently has a membership of 130 colleges. Brown said. Its monitoring is not nil and footwear companies, he added.

Companies that have agreed to the organization's standards stated in the FLA Charter Agreement, include Nike, Kathie Lee Patard, Levi Strauss and CO and

This he added. parel companies have said that would work down to sactory they els," Brown said wThere are a lot of factories we are trying to sort out."

For the "initial implementation" period, lasting two to three years, monitoring of 30 percent of the company's facilities will be done by officials unrelated to the corporations, according to the
charter.

The number of facilities monitored will then be decreased to beween 15 to 5 percent of the factoperformance durine company's implementation the charter said

The company under inspecwill subrmit a recormmendstion will subrnit a recormmendathe charter said The Elitored, negotiate to alter the list of sites if negociate lo alter the hist of sites if risk requirements, such as the record and size of the facility and record and size of the facility and the sweatshop-history of the host

SU's Trademark I.
SU's Trademark Licensing Advisory Board investigated the FLA before deciding to join and is now looking in to the WRC, said

Peter Webber, the board's chair man. The board, however, was not established to deal with the issue of sweatshops and began as a mechanism to review companies producing SU apparel, Webber said.

When the FLA was first inroduced to the university, it was the only option availabie to monitor the factories that make SU apparel, Webber said.

Members first joining the FLA are also able use an addendum to their agreement

SU's licensing board asked the FLA to target women's issues in the workforce - such as birth control and pregnancy testing and to disclose the locations of SU appare! factories, Webber said.
"We have demanded that all factories disclose." he said. "A lot of movement was made."

The board includes two student representatives, Wissink and Student Governmert Associntion President Jamal James.
"We have said as a group, we will look at the WRC," Webber safe, fair, humane environment."

As the battle continues beAs the battic continues beween the two orginnizations. SU fight against the FLAA. "We have to join the WRC to stop sweatshop exploitation," Wissink said.

Shaw said he welcomes student opinion - as long as it is within university protocol,
"You've got to respect the work they put in," Shaw said of the student protesters. "I went through the civil rights changes, I went through the Vietnam War
"If you feel strongly about something, you have every right to express it."

\section*{The Daily Orange}

Too much red tape, not enough human rights.

As administrators refuse to respond to this campus concern the students are determined to continue their plight, he said.
"We're hoping to keep the pressure on," Scirto said.

At the University of Pennsylvania, the Pean Students Against Sweatshops surrounded them selves with chicken wire on th gelad warlier this wonth the gewed clothes in shifts while sewding out sweatshop informa tion, said dinator of psis dinator of PSAS

At the beginning of the school year, the group assembled a "redense fashion show," in whicl sturally for full public disclosure by

NATIONAL
continued from page 3
Rochester students designed a postcard campaign, where each student signs a postcard with the desk of the university president, said Kirk Scirto the publicity, manarer of the pochester Students Abainst Sweatshops.

Students also began a sweatshop fashion show, where models strut through crowded dining halls wearing clothing allegediy made in sweatshops, such
Gap and Nike, Scirto said.

He added that students last month protested outside of the ad ministration building with their hands tied behind their backs with red tape and signs reading:

Penn clothing manufacturers she said.
Although U. Penn did leave the FLA, they have get to join the WRC.

Cormell University, one of the founding members of the FLA, joined the WRC at the end of March while retaining their membership in the FLA
it is important for the ad ministration and student activists to keep an open dialogue on this io keep an open dialogue on thi issuc, Corneh University Relations Henrik Dul lea said.
"We feel that the FLA has made very good progress in moniaround the world. Delay said. around the world Delay said "We'll see what the WRC does"

ESF only has academic buildings so they should be an exception to that," said Manning, a senior environmental studies major.

A voting station was avail ble at ESF"s Marshall Auditoriumfor last fall's SGA presidential elections, but only 30 students went there to vote, Board of Elections Chairman Matthew Oates said.
"That's the only time there's been a table there," he added. In addition to determining

\section*{The Daily Orange}
how NYPIRG will receive its funds, the referenda will decide if SGA changes its name to The Student Association, reducing the number of Assemblymembers on the Finance Board and establishing an events promotions board, as well as raising the Student Activity Fee proportionally to tuition incr

ESF students argued that the two student government organizations should work harder to open the lines of communication between the two campuses. By not operating a voting station on ESF's campus, "it's like not allowing 1,200 students to vote," said Roanne Bosch, an ESF junior en-
vironmental science major *Our students use NYPIRG and we feel like we're being excluded," Bosch added.

Some Assemblymembers said they felt it was "absurd" to have a polling table available in one acsdemic building and not others.
"Let's have fairness," said Assemblyman Joe Burns, who is also the College Republicans chairman. "I have to drag my ass down to Schine and what's good for me and the rest of the students at SU should be good enough for everyone else."

ESF students do not eat in SU's dining halls or live in cam-

\section*{PASSAN} Syract Lacrosse Week in Review! \({ }^{+*}\) says the talkinghead, dressed in an outdated suit and white sneakers. "This is where we go
over the highlights, the owlights, the bright lights, the night lights - just kidding. folks! - of the No. 2
Orangemen.
A clip of Mike Springer's \(100-\mathrm{mph}\)-plus shot rolls
"Here's a great shot by
Mike Springer:
Another of Ryan Powell, who could finish his SU career as the school's all-time leading scorer, passes through the air-
waves. Powell dodges three Princeton defensemen and sets up Springer with a picture-perfect feed.
"Ryan sure knows how to throw that ball!"

Joe Ceglia winds up and whacks the Tigers' Josh Sims with a vicious stick check ... "Wooooo-eeeeee! That's gotta hurt!"

Pause it. Please.
This could happen. Very easily.

Anyone can be guilty. Broadcasters, fans ,.. whoever It's a veritable who's who of Keyser Sozes.

Here's the crime:
Overlooking the story of this season's Syracuse men's lacrosse team.

Yeah, yeah, they're No. 2 in the country. And they're the predominant spring sport. They've got their six national championships, scads of AllAmericans and legions of fans. But look deeper and you'll see something.

This team doesn't have a flaw.

And it showed in SU's 16-4 victory here against Princeton on Sunday afternoon.

The Orangemen ran their offense without a blemish. Their defense hounded the Princeton attackmen like INS agents chasing Elián Gonzalez.

Everyone frowned upon even the most careless mistakes. Billy St. George lobbed a poor pass cross-field and out of bounds late in the first quarter.

SU head coach John Desko, who in the past has displayed a negative vertical jump, Vince Carter-ed into the cool Jersey afternoon. Upon landing, he grabbed his SU hat and slammed it to the ground.

It was a turnover. At the time, SU led 5-1 against the No. 4 team in the country.

Nothing less than perfection is expected.

Of course, this is Syracuse, the team with so many accolades. But these Orangemen are a different breed.

Their practice habits are compulsive and their on-field

Difections: Sale is located on Erie Blvd管
demeanor aggressive. Save an after-game tailgate with a few beers, they eat, sleep and breathe lacrosse

It shows when they play The Orangemen are not just lacrosse players. They are students of the game, and their teachers are among the best in he sport.

Simply put, Kevin Donahue is an offensive genius.

A few weeks back, after practice, he stood in the Carrier Dome with a clipboard, his creativity spilling on to a piece of paper via his pen.

He set up an offensive cheme and showed Desko. The head man just nodded, seemingly incredulous to what the 12 th-year assistant said

The players seemed to understand. They came out and rapped No. 3 Loyola 16-9. Powell scored four goals and Springer added two.
"Wow!" says the broadcast er. "Those were faaaaantastic shots!"

He failed to mention the five or six or 10 passes that set it up.

Typical SU lacrosse. And the same thing happened against Princeton.

Marshall Abrams, a close defenseman, pulled a groundball from the turf. He ray upfield and passed it to Powell on the right wing. He fed it to Liam Banks, who gave it to Springer from about seven yards out.

Trevor Tierney dove and made an unbelievable save on Springer's shot, much to the delight of the 4,743 fans at Class of 1952 Stadium.

Attack over and possession done?

Nope. Not with this team.
Powell stole an outlet
pass, streaked upfield and tossed a behind-the-back pass o Springer. He deposited an underhand shot past Tierney, riving SU an 8-2 lead

The Orangemen know when to be aggressive, when to sit back, when to go for the cill They know when to throw he check, when to substitute midfields, when to take a shot.

The savviness pays off.
The close defensemen -
Glatzel - play like they've been together four years. They play efficient help defense, double-team when necessary and intimidate with checks.

The attackmen - Banks, Powell and Springer - could ll be All-Americans. They cut at the right times, feed the ight people and play
Donahue's offense like it
should be.
The midfield buffers the front and back, stabilizing SU and dictating the team's pace.

And Rob Mullgan, the orn ng 40 yards from midfield, proce tion nd emotion. Hes eyes glange verimhere, seewe the game a milinsecon ane else.

The components are there So is the execution. Nothing is missing.

Except a remote control. That mute button sure would come in handy when the highlights roll on TV.

Just sit there and appreciate what you're seeing. The regularly scheduled program will be a lot more interesting.

Jeff Passan is an assistant sports editor at The Daily Orange, where his columns. appear regularly. E-mail him at jspassan@syr.edu

\section*{Third-quarter rally spoils Quakers' upset bid}

\section*{BY DAVE CURTIS} Sports Editor

PRINCETON, N.J. - The players denied it all week, but the pundits expected it and the head coach even resigned himself to its occurrence.

Syracuse's prophesied letdown came under overcast skies Saturday afternoon against the underdog Penn Quakers at Class of 1952 Stadium on Princeton University's campus. But much to Penn's chagrin, the letdown lasted just 30 minutes.

No. 2 SU scored six consecutive goals in the third quarter to bust open a 3-3 game and rolled to a \(9-4\) victory before 4,412 patrons.

The Orangemen dominated the first half in every statistical column. They fired seven more shots than the Quakers, grabbed six of eight face-offs and retrieved twice as many groundballs as its opponent.

Penn sophomore John Car roll's 13 saves kept the game tied at three and delivered a nervous tension to the Syra-
cuse sideline. cuse sideline.
"It did feel a little bit like Cornell," said head coach John Desko, referring to the Orangemen's loss against the Big Red earlier this season. We had a lot of turnovers, and we weren't shooting the ball as well as we wanted

Earlier in the week, Desko
hinted his team might struggle with the Quakers, looking ahead to a battle with No. 4 Princeton the next afternoon. The third quarter, however, refuted the coach's claim. The Orangemen started the second half one man down and took two more penalties early in the third. But the SU defense shut out the Quakers (5-8) for three minutes on the extra-man part of a \(22: 08\) stretch in which Penn failed to score.

In the midst of the stand, Syracuse's attack began to execute with dazzling efficiency by shooting high on Carroll. The Orangemen scored six times in a shade over seven minutes to stomp Penn's upset bid.

Mike Springer, playing just a short New Jersey Transit ride from his home in Ridgewood, N.J., tallied his third goal of the game with 10:33 left in the third to put SU up 4-3. Two minutes later, Ryan Powell beat close defender Bill Fowler and found Liam Banks, who scored the Orangemen's fifth goal.
"We were a little sluggish in the first half and wanted to turn up the intensity," SU goaltender Rob Mulligan said. "It's an ongoing theme with this team. We'll be struggling and go on one of those runs."

The charge continued 52 seconds later with SU on a man
up. Midfielder Matt Caione whipped a pass to a wide-open Powell, who beat a helpless Carroll.

Orangeman Chris Cercy then won the face-off, and Springer scored his fourth and final goal with 8:03 left in the tumultuous third.

Saturday's effort bolstered Cercy's cause as the premier face-off specialist in the country. Winning nearly 70 percent of his draws through 11 games this campaign, the junior shortstick won nine of the contest's first 11 face-offs and helped SU keep possession on its gamebreaking spurt.

When the Quakers took the ball, Syracuse's defense stuffed them. Penn scored just once in eight extra-man opportunities, and that goal served as its lone tally in the game's final 32 minutes.

Only Towson, which managed three goals in a March 25 loss, posted fewer scores against the Orangemen.
"We went into halftime and people were saying we had to do a better job defensively," Desko said. "But you look at the scoreboard and they only had three goals. We started making our shots in the second half, and we were fortunate Rob
played as well as he did."
The junior Mulligan backboned the SU defense with 16 saves, nine coming after halftime. His best stops scattered throughout the contest, from a one-on-one save against Todd Minerley in the second quarter to a point-blank rejection of Peter Janney with less than four minutes remaining.
"He made saves he shouldn't have made," Caione said of his teammate. "Sometimes I'm sitting on the sideline and someone will take a shot, and won't believe Robby saved it."

\title{
Orr leaves Orangemen to take position at Siena
}

Staff Reports
Louis Orr, a Syracuse men's basketball assistant coach for the past four seasons, accepted She head coaching position at Siena College on Monday

Orr served as SU head coach Jim Boeheirn's No. 2 assistant coach, working with the forwards and recruiting current OrWilliams allen Griffin and Da
mone Brown
He arrived on the SU Hill in 1976 as a lanky small forward from Cincinnati. Orr soon paired with center Roosevelt Bouie to form the "Louie and Bouie Show," which led the Orangemen to three Sweet 16 appearances and a 55 -game homecourt win streak.

The Indiana Pacers selected him with the 29 th pick in the NBA Draft, and Orr spent eight

seasons in the NBA with Indiana and the New York Knicks.

He was working as a Cincinnati insurance agent after retiring from the pros when Xavier coach Pete Gillen asked him to join the Musketeer staff as a volunteer assistant.

Three seasons later, he became a full-time assistant at Xavier. When Gillen left for Providence in 1994, Orr followed and stayed for two years before Boeheim called Mim back to reSlace Wayne Morgan on the Orr helped
Sweet 16 ped lead Syracuse to 98 and this past season when 98 and this past season, when
the Orangemen started 19-0 and finished the year at 26-6.

The former SU assistant inherits a Siena program that sits near the top of the Metro Atlantic Athletic Conference each year. Head coach Paul Hewitt, who left Siena to take a job at Georgia Tech, brought the Saints to the NCAA Tournament in 24-9, bowing year's team finished 24-9, bowing out to Penn State in the second round of the NIT.

At a press conference Monday in Loudonville, Orr said he leaves said he plans to instill some characteristic elements of a Boeheim tearm, such as the \(2-3\) zone
defense and a patient half-court ffense, into the run-and-gum Saints.

The departure creates a gap on the SU coaching staff. Longtime lieutenant Bernie Fine serves as Boeheims top assisthant, and Mike Hopkins fills the Before Orr assistant spot. Fine could join Boeheim in and Fine could join Boeher in off campus recruiting. If Boeheim promotes Hopk to track player on the road.

\title{
Syracuse holds off Terriers to extend streak
}

BY KEVIN LEITZELL Staff Writer

It's not exactly Syracuse versus Virginia in men's lacrosse, but it's getting close.

The Syracuse-Boston University women's lax matchup is sweeping BU in two one-goal games last year.

This season's showdown proved no different, as the Orangewomen knocked off the Terriers 6-5 on Saturday afternoon at the Carrier Dome.
"It's always a really close game, and last year we pulled two tight ones out and they told us that we got lucky twice, SU athe didn't let it faze us We went out there and played our game, and we knew we were the game, and we

The Orangewomen ignited the rivalry's flame first with sophomore Carrie Soults takng advantage of a miscue by putting in an empty-net shot for putionginad.

The Terriers came back on a free-position score by Chrissy a free-position score by Chrissy Lirst half.

After Hable netted a goal, the teams went seven minutes without a goal. BU's Kristin Abruzzese then drove through SU goalie Carla Gigon to tie SU goalie Carla

The Terriers played tight man-to-man defense, often dou-ble-teaming Hable and limiting leading scorer Lauren Brady to no goals on the afternoon.

The Terrier defensive scheme allowed Karen Healy and Stacey Brown to score with in a minute of each other, and in the half gave Syracuse a 4-2 in the

The teams traded shots for the final four minutes until Gigon lobbed a pass to defender Katy Mueller. The junior passed to Healy, who dumped a shot into the top left corner of theining with six seconds rewomen

We went in there poised and played our attack ? Hable and played our attack, Hable said. We didnt let them bothweren't even thetended they weren taven there and just played our game."

The Terriers came out firing at Gigon in the second half, but drew blanks. BU's Gabriela Juocys drove up midfield only to be denied by Gigon's quick stick.

The Orangewomen capitalized on the missed BU opportunities on their next possession.

Hable ran the feld in transition and flung the ball at Barrett from seven yards out to give s a 6-2 lea remaining.

After the Hable score, the BU defense tightened up. It forced an SU turnover and moved into transition, leading to a Kyie Rutkowski goal, cutting the deficit to three goals.

The Terriers continued to fire at Gigon. BU's Renee VanderBrug, who transferred from Syracuse last semester, fired two shots high and long at
Gigon. This proved a test for the

With 8:07 remaining, Rutkowski got a shot past en's lead to tho Orargewomens lead to two. Alter the stoppage of play, BU continued its offensive momentum. The team reeled off eight straight shots frosh stop each in turn

Hable missed a shot with four minutes remaining, and BU recovered the ball, moving into its settled attack. Lombard broke through the SU defense broke through the su defense BU to \(6-5\) with \(3: 49\) remaining. "There is nothing I can do from back there," Gigon said. "All I have to do is stay strong and make a couple of saves and just get the ball back up for the offense."

SU took the next possession, trying to wind the clack down on its slow settled attack. The Orangewomen showed off their Globetrotter weave, moving the ball around and taking time off the clock to keep the For the game BUled
For the game, BU led Syracuse in every single offensive category. The Terriers held a

\section*{SPRINGER}

\section*{continued from page 10} practice.' \({ }^{\prime \prime}\)

Tierney saw - make that. tried to see - the shot a couple more times.

Springer netted two more first-half goals, bringing his season hat trick total to eight. The day before against Pennsylvania, he scored four times.

With the No. 2 Orangemen leading 10-2 at halftime against the Tigers, Springer
refused to relent. Thirty-seven seconds after Tim Byrnes scored off a Ryan Powell feed, Springer stood at the right wing, waiting for someone to hit him with a pass.

Powell spotted the 0 -foot4 Springer from behind the net, delivering a sharp feed and allowing Springer to wind up and plant a shot over Tierney's right shoulder for a 12-3 lead.

His fifth goal, an easy three-yarder, came with 8.6
seconds remaining in the third quarter and effectively sealed any shot of a Princeton comeback.
"We played four solid quarters, and that's what it comes down to," Springer said. We onlyplayed like that against Hobart, so it was good."

Like most of Syracuse's opponents, the Tigers' defense tried a somewhat unique scheme to curb the Orangemen's offense. Sometimes,

WHO ALWAYS SAYS,

\section*{" BAN MAKE A BETTER SHOW THAN THIS"?}

\section*{HE JUST DID.}

Tune into Nibbleboxcom for the most cutting edge, innovative and irreverent entertainment. All created by students, with the help of some of the hottest names in the film and television industry like John Leguizamo, Doug Liman and Steven Soderbergh.

Springer said, a shortstick defensive midfielder covered him, a move utilized because of Springer's lack of dodging ability.

Princeton did not want to allow goals from close range, Desko said, and SU's ball movement helped the offense escape the Tigers' scrambling defense.

The designated point man was Springer. Princeton left him open multiple times, and he finished strong.
"They like you to shoot from the outside," Desko said. They want you to make two or three passes to get to the open guy, because the defense will have time to recover and get that down. Liam (Banks) and Ryan dida nice job of finding the one or two passes to get the ball there.

Said Mulligan: "A lot of teams, they don't leave him open. But (Princeton) was just his kind of defense to go against."

\section*{PRINCE}
continued from page 11
Behind the net, Powell quarterbacked the offense set to get shots for Springer. The senior All-American matched a season high with six assists, totaling 11 in the weekend doubleheader against Penn and Princeton.
"You have to pick your poison with (SU), especially when they get off to a big run," Tigers coach Bill Tierney said. "We pondered playing some jump defenses, but we just said, "Let's do what we do." They took the shots, and we haven't seen outside shooting like that all year."

Syracuse capitalized on its rare opportunities inside as well, depsite an outstanding \(20-\) save effort from Princeton goalie Trevor Tierney. SU led 82 after Powell stole a Tierney outlet pass and fed Springer for an easy goal.

Less than two minutest later, Springer caught a feed on the left wing, dodged past Ryan Mollett and beat Tierney.

The two scores, combined with \(S U\) winning 19 of the Eame's 24 face-offs, demoralized the Tigers, who suffered their worst loss in a decade.
"We were definitely frustrating them," Powell said. "At halfime, we were as jacked up as we had been alf year. If a team watches this game, they should be timid about coming to play us."

Syracuse oushot Princeton 44-27 and finished with an astounding 42-17 advantage in groundballs. But a third-quarter goal showed SU's dominance better than any numerical comparison.

Ahead 12-3, SU swung the ball to Josh Coffman on the right wing. Coffman fed Powell with a bounce pass, who hit a wide-open Springer in the slot.

The sophomore beat a helpless Tierney top shelf to stretch SU's lead to double digits.
to the ball side and collapses in
the middle," SU head coach the middle," SU head coach
John Desko said. "They hate to John Desko said. "They hate to give you any layups. They want you to make two or three passes to get to the open guy."

Even on its brightest day, the attack failed to hog the spotlight. Copying Saturday's SHutdown of Pennsylvania, a sinderense held Princeton \(t\) a single goal in each quarter

The Tigers entered the game with a low-scoring offense fractured by the loss of sophomore attackman B.J. Prager and fres

Both suffered probable season-ending injuries in Princeton's 9-5 win Saturday against Cornell. Prager tore his anterior cruciate ligament, and Lieberman separated a shoulder.

With his main scorer, Prager, sidelined, Tierney placed a larger burden on AllAmerican midfielder Josh Sims.
urth overtime last April at the fourth overtime last April at the Carrier Dome to beat the Orangemen 15-14, tallied just one goal Sunday and found himself blanketed by SU's defensive midfielder Joe Ceglia.

Ceglia played aggressive defense on the perimeter, and when Sims beat the senior on a quick dodge, close defenseman Billy \(S t\). George slid to close off any scoring opportunity
"They've got my back," Ceglia said. "We did a great job as a team today. It wasn't a personal battle, but a team battle. Now we have to contain that and take it into the playofis."

The Orangemen entertain Massachusetts on Saturday and No. 4 Georgetown on May 6 to wrap up the regular season.

Two wins assures SU no worse than a No. 2 seed and the chance to spend graduation weekend resting in Syracuse
"We needed to get this win," Springer said. "We want that first-round bye, and we know we have to win the next two games to do it."

families who live near cam－ pus let her store her belong－ ings in their homes over the ings in their homes over the take them home to Seattle．

For students not lucky enough to find free storage， however，there are two other storage options available．

One option is a company that will supply packing ma－ terials，pick up boxes and furniture and deliver them to storage spaces．There is also the less expensive option of storage in rented spaces where students must supply where students must supply packing materiais and bring the storage location．

Collegiate Storage Ser－ vices will stop at each resi－ vices will stop at each resi－ once a day until May 11．The cost of storage is determined by the＂package＂a student by the package＂a student chooses．The smallest pack－
age is three boxes for \(\$ 135\). The largest package available The largest package available
is nine boxes for \(\$ 325\) ．Stu－ is nine boxes for \(\$ 325\) ．Stu－ materials at the Schine Stu－ dent Center if they choose to use Collegiate Storage Ser－ vices．

The company is SU＇s offi－
cial storage company because of its affiliation with the SU Bookstore，said Hilary Koven， Collegiate Storage Services president．

All storage items are bonded and insured，she added．

Koven said that picking up，storing and delivery is done by professionals．

Lazy Bones Storage pro－ Vides another option to stu－ dents．The company deals wal students on an indiver ual basis and will deliver box dents need the supplies．It will also pick up packed boxes and furniture accordingto half－hour time slots，chosen by the students．

Lazy Bones charges by the box，at a rate of \(\$ 29.95\) Owner Dan Hermann said Lazy Bones is a cheaper alternative to renting space because the company consoli－ dates the space of all stu－ dents and rents one large warehouse．

Insurance is included in the Lazy Bones＇box rate，and the company will pick up and deliver boxes and furniture door－to－door．But due to uni－ versity regulations，all pick ups and deliveries at dorms
are curbside to curbside． Jordan Carver，a sopho－ more graphic design major， used a company similar to Lazy Bones and Collegiate Storage Services last year．
＂It＇s awfully far，＂he said about the prospect of taking all of his belongings home to Evergreen，Colo．

\section*{Self－storage}

Students with cars who don＇t have room for all of their stuff can choose to use storage facilities in and around Syracuse that charge by the storage space．Each company recommends a 10 － by－10 room for students who have a few smali pieces of fur－ niture and boxes．Students Who need to store couches or other harge furniture will spaces．
end students share recom－ spaces to cut cost．Students spaces to cut cost．Students musks．In most cases，the fa－ cilities sell them at about \(\$ 7\) to \(\$ 10\) each．Safety features to \(\$ 10\) each．Safety features barbed wire and alarm sys－ tems．
Stor－All，on Hiawatha Blvd．，charges \(\$ 55\) per month plus a \(\$ 15\) administrative

charge for the first month． Charge for the first month． by sending their first mon－ th＇s charge and administra－ tive fee to the company．
North Syracuse Mi
Storage，Thomson Rd．，Ci－ cero，charge \(\$ 57\) per month cero，charge 50 by 10 room and \(\$ 47\) for a 5－by－8 room．The company requires payment three months in advance but as－ signs spaces on a first－come， first－serve basis．

\section*{Good advice}

But even after students have chosen a storage option， there are still boxes to pack． farewells to friends，final ex ams and the unpredictable ams and the unpredictable before the lone trip home are characterized by stress，said Andrea Yanacheck，Dellplain Hall residence director．

Yanacheck advises stu－ dents to＂start early，＂when it comes to packing．

It also helps to be orga－ nized and plan ahead，said Booth Hall Residence Direc－ tor Eric Nestor． be asll the students should be as prepared as possible，＂ said．
When students put off studying and packing，they only increase stress，said Chris Ryan，a sophomore po－ journalism major．
＂It＇s what happens when people procrastinate，＂he said．

Ryan said he will store his belongings in the Sigma Phi Epsilon fraternity house， where he lives．He expects it will only take＂a good three to five hours
But Killian sack，he said． mut to be the key to suc－ cess in packing and sto sing cess in packing and studying． bored，＂she said．＂I always give myself study breaks， and use them to pack．＂

\section*{Speak up}

The ability to use language has long been a trait that was believed to have set humans apart from other living creatures But it's been unclear exactly what abilities humans possess that animals do not. A team of American and French researchers conducted a series of experiments in which 20 sentences in Japanese and 20 sentences in Dutch were read backward and forward to 32 newborn human babies and to 13 cotton-top tamarin monkeys. By carefully monitoring their reactions, the researchers concluded that both had the ability to tell those languages apart even though neither actual ly understood the words.
Remains of the day In 1977, archaedogists unearthed a tomb that contained the remains of a cremated man and woman in Vergina, Greece, the site of the ancient Macedonian capital Algai. Researchers at the time identified the remains as those of King Philip in, the father of Alexancer the Great, and Philip's wife. The find created excitement because during his 336 B.C., Philip con336 B.C., Philip consolicated power in Mantrol of Athens and control of Athens and Thebes, setting the sone formis his vast empire New vast empire. New has concluded that has comains were the remains were of Alexander's half brothers, a much less brothers. a much ie the royal lineage of ancient Greece.

\section*{Students graced with summer storage have} various options.

\section*{BY ERIN HOBDAY} Contributing Writer

Despite the sunny days and rising temperatures, the extended spring days sometimes seem short to frantic students, whose neverending ro-do lists keep growing. Between review sessions, before flights home are booked and after gathering friends summer phone numbers, yracuse University students have to find summer.

Storage is the answer for many students, especially those who can't take their belongings home by car, said Sadie Kilian, a junior broadcast journalism and political science major, who used storage last year. She added that she won't be using storage this year, because she's driving home.

Jessica Ryzenberg, a sophomore magazine and medieval/Renaissance studies major, can't take all of her furnishings horrie to Boca Raton, Fla. She used storage last year and will use it again this summer, she said.
"It was safe because I bought insurance," Ryzenberg said, adding that the rates can get "expensive."

Most insurance rates are included in storage costs and are determined by individual companies.

Nicole Tarver, a sophomore photography major, said she was turned off by storage because of the expense-

ESF students surpass required voter turnout BY TIFFANY LANKES
Asst. News Editor
As dozens of New York Public Interest Research Group members campaigned Tuesday outside the Schine Student Center, students stepped up to the polls to determine the source of the group's funding.

The vote, part of the referenda, will continue today and Thursday at polling stations in Schine as well as in Sadler, Brockway and Graham dining centers.

About 240 students at the State University of New York College of Environmental Science and Forestry voted Tuesday, said Student Government who operated the polling station in ESF's Marshall Auditorium.

The turnout reflected about 20 percent of must have a 10 population. Both So andesF make the aforenda legitimate Voting numhers for SU will not be available until Friday.
"I was very surprised at the turnout," said Duffy, a freshman political science major. "It Deems ESF is a very politically-minded school. They seem to be more in tune with what's going on on campus."

SGA President Jamal James said he was surprised so many ESF and SU students voted.

K know a lot of people voted in the Schine," said James, a junior musical theater major. "It's more than I expected. I didn't expect anyone. It's great that students care."

Chris Ryan, chairman of the SGA Board of Elections and Membership, said SU voter turnout was moderate and there had been no problems at the polling stations.

\section*{Pan Am prosecutors ask for trial delay}

With the Pan Am Flight 103 bombing trial scheduled to commence next week, the prosecution team on Tuesday pushed for an extension in the trial's starting date after seeing the defense's 119 -person witness list.

The list includes witnesses ranging in location from the United States, Mal ta, Switzerland and Germany. The prosecutors said two weeks is not enough time to investigate the new evidence in the trial against two Libyans suspected of sneakin
Pan Am Flight 103 .

The prosecutors need time to investigate the backgrounds of the de fenses witnesses, whin includes trav eling to other countries to gather
enough information to properly interrogate the witnesses during the trial. "I will openly support anything that will enable the best possible case against the suspects," said Bob Hunt, whose daughter Karen Lee was one of 35 Syracuse University students on the fight when it exploded Dec. 21, 1988, over the Scottish town of Lockerbie.

The flight's 16 crew members and 243 passengers died in the blast, and two Libyan intelligence agents are currently in custody after being charged last year with the bombing. The agents allegedly slipped a small bomb into a cassette recorder and then onto the doomed flight.

Study links diet variety and death

Women who eat a wide variety of healthy foods may significantly lower their risk of dying from such things as cancer, heart disease and stroke, a study suggests.

The findings might sound familiar, but this is the first time that the health effects of overall eating patterns have been studied, researchers said.

They found a diet that includes plenty of fruits, vegetables, whole grains and lowfat meat and dairy products reduces a woman's chances of dying from those illnesses, by as much as 30 percent for women who had the healthiest diets compared with those having the most unhealthy eating habits.

\section*{U.S. to let Elian's friends visit \\ Vermont OKs gay marriages}

WASHINGTON, D.C. Elian Gonzalez and his family moved Tuesday to a private home at the 1,100-acre Wye River Conference Center, 70 miles from Washington on Maryland's Eastern Shore. The State Department said it will allow at least four of his playmates from Cuba to come to visit him.

Traveling in a caravan under guard by U.S. marshals, the family left Andrews Air Force Base, where it has stayed since Elian arrived from Miami Saturday, just before 1 p.m. Its new home is at Carmichael Farm, a residence along the Wye River described as comfortable but not opulent, located at the edge of the secluded conference center property.

The conference center is part of the Aspen Institute. The Gonzalez family, including Elian's father, stepmother and infant halfbrother, is believed to be staying in one of the farm's guest cottages, where it is expected to remain until the end of legal challenges to Elian's return to Cuba. cations are (Elian) is doing very well."

MONTPELIER, Vt. Vermont lawmakers gave final approval Tuesday to a bill that would make the state the first in the nation to give gay and lesbian couples the benefits of marriage.

Gov. Howard Dean has promised to sign the bill and may do so by the end of the week. The first civil unions ceremonies
could take place after July 1 .

The final House vote on ac cepting Senate amendments was 79-68.

Opponents made one last attempt to derail the bill before the final vote. A Republican representative proposed delaying fall elections but the move was fall elections, but the move was defeated 84-63.

The bill would create civil unions as a legal framework parallel to marriage.

Same-sex couples would be able to go to their town clerk to abtain a civil union license, just as opposite-sex couples obtain marriage licenses.

The civil unions then would be certified by a justice of the peace, judge or member of the clergy, just as marriages.

\section*{Clinton vetoes nuclear waste bill}

WASHINGTON, D.C. President Bill Clinton confirmed Tuesday he will veto a bill that would have allowed tons of nuclear waste to be stored in a Nevada mountain, again leaving the nation at an impasse on how to deal with spent fuel rods that will remain radioactive for thousands of years.

White House aides said the president will veto the bill at a subdued ceremany at 6:20 p.m. Wednesday. TV cameras will not be allowed at the signing.
Under a 1982 law, the fedUnder a 1982 law, the fed-
eral government was supposed eral government was supposed to have assumed control of spent fuel from nuclear power plants by January 1998. But years of often-bitter debate have Meanwhile the radioactive waste remains in temporary storage sites at nuclear plants throughout the nation.

The U.S. House last month gave final approval to a bill that would have created a permanent storage site at Nevada's Yucca Mountain, a remote area 90 miles northwest of Las Vegas.

} that spends its Student Activity Fee allotment so wisely and works so hard to address campus concerns.

The New York Public Interest Research Group - a 27 year-old institution at Syracuse University - is one of only a few examples of such groups.

Vote yes to keep NYPIRG on campus during this week's Student Government Association referendum.

Under a contract between the Student Government Association and NYPIRG, \(\$ 6\) of each student's \(\$ 106\) annual activity fee goes directly to NYPLRG - if students approve the allocation in a campus-wide referendum every four years.

NYPIRG works hard to earn your \$6. As part of a statewide web of 19 university chapters, NYPIRG employs a fill-time campus coordinator at SU, who orchestrates year-round service and public advocacy projects both locally and across the state.

Some SGA officials contend that NYPIRG should receive its funding the same way other student groups do - by crossing their fingers and wading through the cumbersome budget request procedures.

But NYPIRG's set-up requires an unusual direct-funding arrangement. In order to be most effective and plan year-round events and campaigns, the group must receive its money up front each year.

SGA charges NYPIRG with failure to establish a well-known presence on campus. In fact, group members organize voter registrations each year, run lobbying campaigns for higher education funding and collect food for homeless, hungry city residents.

Some fault does lie with NYPIRG for not being aggressive enough in attaching its name to its advocacy efforts. But its vigilance in updating SGA on its progress throughout the year and its willingness to provide full refunds to students who don't support the NYPIRG mission speak volumes about their dedication to the campus community.

SGA has called this unscheduled referendum in hopes of squelching a strong student group through legislative loopholes.

Don't let it.

\section*{University follows law in reporting crimes}

To the Editor:
This letter is in response to the April 20th Daily Orange editoriale
titled ported"
The Department of Public Safety reports crime statistics pursuant to the requirements of the Campus Security Act of 1990, now known as the Jeanne Clery Disclosure of Campus Security Policy and Campus Crime Statistics Act. The following are the geographic categories deined in the
Act for which we must report crime Act for wh
statistics:

Campus - Any building or property owned or controlled by an institution within the same reasonably contiguous geographic area and used by
the institution in direct support of, or

\section*{opinions}

\section*{Columnist reflects on four years of 'favorites'}

Those of you who read my column regularly have had to put up with a lot of complaining lately, and since this will be my last published piece in The Daily Orange, I figured that I would go out on a positive note. I'd like to present for your reading pleasure: The Ten Things I Love About Syracuse.
10. Bars on the Hill. When I go out, I expect certain things from a bar. Clean facilities, fair prices and a friend ly clientele are three that top the list. I can think of no
establishments that embody these three concepts more

\section*{MATT}

WALTON
in keeping its students healthy. And with SUpercard, it's like you're not even spending real money.
5 . The gneek system. Our much maligned sororities and fraternities have truly made a positive impact on this community, Most importantly, they have single-handedly kept all of the bars on the hill open. Also, the constant need for new SUV automobile market in Syracuse.
4. Schine steps. Imagine my despair at leaving Syracuse to study abroad my junior year, knowing that I would go 12 long months without walking on the exquisitely designed steps leading up to the Schine Student Center. Now imagine my excitement upon returning, when I discovered that the university had built even more of these steps in the unused space between Schine and Newhouse. Where can I find the architectural genius behind these babies? I want him to build my dream house.
3. The Administration. We are lucky to attend a university that cares so much about its students. Witness the extended public safety patrols that keep us from partying too much and damaging our livers through the consumption of alcohol. Witness the thorough consideration given by the chancellor to the recent issue of SU's membership n the WRC. Witness the concern shown for the preserva tion of our values in the decision not to allow the WWF to come to campus. It's good that the administration has taken most of the pressure of decision-making off of us students. I mean, it's hard enough just being a kid, right?
2. The weather. You know those summer days when it's so hot that you would give your right arm for a little snow flurry to cool things off? In Syracuse, you would get that flurry. And about twelve more inches to go along with it. So what if children growing up in Syracuse need vitamin D supplements to make up for the lack of natural surlight. You know how evolution works. In the event of a nuclear holocaust, all of these years spent living in Syracuse will make us immme to most of the effects of adiation. It'll just be us and the cockroaches.
1. The Students. Why, you ask? Because we're simple. We fit conveniently into stereotypes, are perpetually sullen and moody and don't ask for much. Nor do we real y expect that much. We're perfectly happy going to a mediocre school in a dead-end town. But we're still very mart. Smart and perceptive.

By the way, I'm being sarcastic.
Matt Walton is a senior music composition major. His colurnn appears Wednesdays in The Daily Orange E-mail columin appears Wednesday

\section*{letters}
in a manner related to, the institution's educational purposes, including residence halls. It also includes any building or property that is within or reasonably contiguous to the area identified in the preceding sentence that is owned by the institution but controlled by another person, is frequently used by students and supports institutional purposes (such as a ood or retail vendor).

Non-campus building or property - Any building or property owrred or controlled by a student orpanization that is officially recognized by the institution. It is also defined as any building or property owned or controlled by and institution that is used in direct support of, or in relation to, the institution's educational purpose, is frequently used by students and is tiguous geographic area of the institution. Public property - All public
tares, streets, sidewalks and parking facilities, that is within the campus or immediately adjacent to and accessible from the campus.

Simply put, we report crime statistics according to the law. To do otherwise would be arbitrary, at best. If we decided to extend beyond streets that are irmmediately adjacent to an accessible from the campus, the ques tion becomes: Where do we stop? Where do you draw the line? To our east, would it be at Livingston Avenue? Sumner? Ackerman? Lancaster? To our west, would it be at Al mond Street? South McBride? bownsend? Simply put, our reporting of crime stabistics in the geographical categories described above minements of the Campus Security Act.

Fobert T: Roinison
Asst. Vice President for Public Safety

\section*{April 26， 2000}

\section*{The Daily Orange}

\section*{PAN AM}
continued from page 1
emester abroad in London．
Eleven residents on the ground were also killed in the
flight＇s Dec． 21 ， 1988 ，blast over flight＇s Dec． 21,1988 ，blast over
the small Scottish town of Locker－ the
bie．
．The trial is scheduled to be－ gin May 3，but the prosecution team on Tuesday appealed to the Scottish court to extend the trial＇s starting date．

The prosecution is expected to take at least a year to present its case，which includes more than 1,000 witnesses from 70 countries， 35,000 photographs
and more than 18,000 pieces of and more than 18，000 pieces of physical evidence．The physical evidence will include pieces of the plane，Juggage and a piece of the bomb believed to link Libyan Anti Al－Mence agents Abdel Basset Ali Al－Megrahi and Lamen Kha ifa Fhimah to the explosion．
＂It＇ll be like watching paint dry，＂said SU freshman Melissa Dios，whose aunt Suzanne Miaz－ gawas one of the SU students killed in the bormbing．＂There is so uch evidence．＂

Security for the trial is ex－ pected to be tight and a bullet－ proof screen will be added to pro－ pects and lawyers，she added．

\section*{Puzzle pieces}

Two years after Pan Am Flight 103 exploded over Locker－ bie，a person walking with his dog stumbled upon a crucial piece of evidence for the prosecution＇s case，said Donna Arzt，an SU in－ ternational law professor．

The discovery was a piece of the bomb，Iaying about 100 miles from the crash．
＂It was smaller then a fin－ gernail，＂Arzt said．

The prosecution in the up－ coming trial will argue that the bomb piece can be linked to ma－ terial once sold to the Libyan government，she added．

Prosecutors are also expected to show that the suspects had ac－ cess to the Iuggage in which they think the bomb was planted．

Investigators analyzed pieces of the fragmented plane and Iuggage involved in the crash and were able to pinpoint the cargo bin in which luggage was traveling．The luggage originated from an Air Malta night，where
both Libyan suspects worked．
The suspects allegedly plant ed the bomb on an Air Malta flight to Frankfurt，which was later transferred to a connector night for Pan Am 103．The con－ nector fight＇s luggage was then transferred enroute to New York City．

But this small piece of evi－ dence would have never been found if the Pan Am 103 flight Was not delayed that December night，Dios said．

Because of the delay and the high winds，the plane ascended quicker then usual，altering the location that the alleged bomber had planned for it to explode over the North Sea．

The altitude－sensitive bomb was intended to explode when the plane hit a height of 3,100 feet．

\section*{Neutral territory}

Although the two Libyans were indicted in 1991 after inves－ tigators connected them to the bombing，it was not until 1999 that Libyan leader Moammar Gadhafi agreed to hand over the two suspects for a trial in the Netherlands．

At the time of the indict－ ment，an extradition treaty did not exist between Libya and the United States，Arzt said．But the United States and United King dom＇s muscle on the Linited Na－ tions security team pushed through a resolution demanding that Libya release the two sus－ pects．

Bu：Gaihat continued to re－ sizt．Finmanimg that the wo sus－ peri far a＝ial in Libya and re－ ís：边：

A sta！艹as made in 1999 be－ tween the Linited Libyations and Libya by placing the Scottish tri－ al in a neutral country，serting a precedent in international law． The trial is the first time the court of one country will conduct proceedings in another．

The deal was made because Gadhafi would only release the suspects to the Netherlands，a neutral country，said Helen En－ gelhardt，who lost her husband in the explosion．

The Scottish have also by－ passed calling a jury because of the trial＇s length and distance from Scotland．Instead，four judges，including one alternate，
will hear the case，she said． An old U．S．military base in the Netherlands，called Camp Zeist，has been transformed into a Scottish court and prison for the two suspects，said Dios，a fresh－ man business major．

The military base＇s hospital basement was transformed into one of the most secure prisons in the world for the two suspects and its school was transformed into the courtroom，she added．

But the official deal made by United Nations Secretary－Gener－ al Kof Annan worries
lies of Pan Am victims．

The families are concerned the deal made between Annan and Gadhafi protects the Libyan leader if evidence released in the mind behind the bombine
nind behind the bombing．
Gadhafi called the shots，＂said Gadhafi called the shots，＂said Bob Monetti，whose son Richard died in the bombing．＂It would be really nice if the evidence led to him．＂

But it is not likely that Gad－ hafi will ever be brought to the stand，Arzt said，noting that world leaders like Chilean Gen． Augusto Pinochet and Slobodan Milosevic，president of Yu－
goslavia，have avoided indict－ goslavia，have avoided indict－
ment．
＂Look at Milosevic，＂Arzt said，\({ }^{-H e}\) is still sitting pretty in said，＂He is

The head judge in the trial， however，reassured family mem－ bers that any deal between An－ nan and Gadhafi would not affect trial＇s proceedings．
But even if evidence did point to Gadhafi，Engelhardt said it would be＂impossible＂to get the leader to take the stand． She added that a different grand jury would have to investigate the allegations before a separate in－ dictment is made．
－Even if one or two guys spills the beans it does not mean he will go to trial，＂she added．

Libya＇s suspected motive to bomb Pan Am 103 allegedly stems from U．S．President Ronald Reagan＇s 1986 attack on Tripoli， where Gadhafi＇s adoptive daugh－ ter was killed．

Blame has also been pinned on the lranians，claiming the Pan Am attack was in retaliation to a 1988 incident where the United States accidentally shot down an Iranian passenger plane． Another possibility may be that

she said．
＂They learned to live with that，now I may have to，＂she said．

The year leading up to the trial，however，has not been with－ out complications．

The British Broadcasting Company appealed unsuccessful－ ly in March and April for the right to broadcast the trial．

The United States，during the past month，has increased in－ terest in resuming ties with Libya －a step that angers farnily mem－ bers．＂They can＇t wait to open ne－ gotiations with Gadhafi，＂Engel－ hardt said．

Looking toward Libya＇s booming oil industry，U．S．Secre－ tary of State Madeleine Albright has been reportedly considering has been reportedly conside U．S． travel to the North African coun－ travel to the North African coun－ try．The ban was implemented in 1981 after Libya＇
terrorist attacks．
＂Why are they doing this now？＂said Bob Monetti，who lost now？＂said Bob Monetti，who
his son Richard in the blast．＂Why can＇t they waiti a couple of months can＇t they wait a couple

The United Kingdiom recent－ ly lifted a similar ban last year af－ ly lifted a similar ban lastyear af－
ter the suspects were taken into ter the suspects were taken into
custody． In F
In February，the trial＇s head prosecutor，Lord Andrew Hardie， stepped down－igniting a firestorm of rumors in the media that the change in leadership ymbolized a weak case．

But Hardie said he left to be－ come a judge．Scotland＂s solicitor－ general Colin Boyd became the head prosecutor．Bayd in March attended a Boston meeting of the
Victims＇Families of Pan Am 103 Victims＇Families of Pan Am 103 to reassure them that the change in leadership would not we the trial．

Despite these complications， Engelhardt said she is encour－ aged by the efforts of the Scottish． ＂They are turning their lives upside down，she said． very overwhelmed with the way they are treating this event． cluded in this and peopendine zil－ cluded in this and spending zil－ lions of dollars to make sure jus－ tice is done．＂

\section*{TRIAL}
continued from page 1
Eleven Lockerbie residents on the ground were also killed in the explosion.

If the trial - the largest in ternational criminal investigation ever - is bumped back several weeks, it will mark the third trial delay since the Libyan government handed over the two suspects in April 1999.

Both delays were granted on the behalf of the defense, pushing the original June 7,1999 , starting date to December 1999 and then to this May.

If this trial delay is granted, it will affect family members planning to travel next week to trial viewing sites in Washing-
ton, D.C., New York City or to the trial in the Netherlands, said Joan Dater, whose dauthter Gretchen was an SU student and bombing victim.

Although Dater said she may have to change her plans to travel next week to New York City, she supports the inconvenience if
it provides the prosecutors more it provides the prosecutors more time to investigate the new witnesses.
"W only makes sense," she said. We want them to do a good job. It's nothing negative, only positive."

The Scottish court is expected to rule Thursday on the proposed extension.

Slim pickings This year, with its football team in the Sugar Sowl and interest boorning in its high-tech speciatties, Virginia Polytechnic Institute saw its applications surge by 12 percent, to a record 18,397 for a mere 4,250 seats. Tech's upswing is a pleasant turnabout for a college that for years was looked down upon by some Virginians as the poor rural cousin to the state's pash public institutions, such as the University of Virginia and the College of William and Mary. Now, with more - and more-qualified - students vying for admission. Tech can be choosier than ever. But this spring, the students offered admission had an average 3.65 GPA , nearly an Aminus and 1,212 SAT scores.

Fallen king Bill Gates, the builder of the Microsoft empire, is poised to tumble from his once. unassailable perch as the world's richest man. Since the mid 1990s, Gates has ruled as king of the multibillionaires, but the plunging price of Microsoft stock in recent months, combined with vast gifts to his charitable foundation, have reduced Gate's astounding \(\$ 90\) billion holdings in Microsoft stock to a merely awe some \$49.4 billion. He is likely to be supplanted by another software titan, Oracle Chairman Larry Ellison, a rival who has delighted in bashing Gates over the years.

\section*{Broken pledge}

Last week, a "wellplaced source" at the Nike Corporation contacted a University of Oregon representative to inform school officials that Nike President Phil Knight, a \(U\) of \(O\) alumneus, had withdrawn his informal pledge to cover \(\$ 30\) million of the football stadium's renovations. The move is the latest in a series of shots the apparel giant has taken at the Workers Rights Consortium, a grassroots sweatshop monitoring group supported by student sweatshop activists and organized labor.

\section*{BREAK A sweat}

Students work out under the summer sun. See Lifestyle Thursday.

Block Party 2000 has a new look and sound, and the concert sponsors and promoters are convinced that everyone is going to like
it. "We wanted a diverse selection of performers this year, ones that would appeal to more students," gaid Beth Stellato of University Union Concerts. "Before, it was hard to fit in what everyone wanted to hear into one afternoon."

Stellato and other event organizers decided to expand the usual Block Party and make it a four-day event at various venues, with several genres of music. Each night will have a different theme, featuring both local and national acts.
"This gave us a lot more freedom and the opportunity to showcase more music," Stellato said.

UU received a budget of \(\$ 80,000\) from the Student Government Association, based on the previous format of Block Party

Mary Lou Lord (topl and the Piffers heradine Thurs day's and Fiday's Block Party concerts at Club Abyss in the Schin Underground. Events continue throughourt the menkend.
"We worked within our budget to bring what the students want," Stellato said.

UU Concerts had some help, however, from other campus groups.

UU Speakers Board also pitched in, sponsoring the creators of "The Blair Witch Project," scheduled for 8 p.m. Sunday. The Residence Hall Association is sponsoring a benefit concert for Community AIDS Resources, featuring SU's The

Music Industry "all five artists for Withsday's "An Intimate Evening With..."

All the women are just so talented," Stellato said. "They pretty much show what female music is all about."

Virginity offers overlooked benefits

There are a lot of virgins on this campus, and I am not talking about manifestations of the Sacred Mother.

That's right, I am a resident of the "state of Jane \(\quad\) Virginia
sometimes I Rushmore feel as though
carefree philosopher feel as thoug exiled ther may own ideals Virgins get a had rap. We are stereotyped as one of two extremes. Some are one of two extremes. Some little girls who are too utterly clueless girls who are too utterly lueles sexual organs are for. That is, the ditzy dork - sweet, but weak.
the uptight women waiting for Prince Charming to whisk them off to the white castie and 'deflower' them in the noblest deflower' them in the noblest foshion. Alias: the prude who doesn't know how to have a good sive and vulgar mannar

Either way, you lose. These are not very attractive things to are.

Well, I am here to say that I don't fit into either of those categories, and neither do most of the virgins I know.

I don't personally have an issue with my virginity, but a lot of other people seem to.

I consider myself to be imultaneously strong and aweet on a good day, a combination those stereotypes don't
seem to allow.
When I came to this campus I expected to be a minority because of my sexual status. But I am not as alone as I feared I would be. There are a lot of girls on this campus who "reside in Virginia," and some of them were willing to talk to me.

Julie, a sophomore in the
College of Visual and
Performing Arts, said coming to college as a virgin wasn't really an issue for her.
"I don't feel pressure to lose my virginity, either from myself or from anyone else" she said.

Erica, a sophomore design major, said the transition from a high school sexual atmosphere to a college one was not difficult for her.
"I've always known where I stood on the matter, and other people around me having sex has never had much of an influ ence on me," she said.

So why is it that virgins who have strength in their convictions are viewed as being unable to "loosen up" and have a good time, especially considering the fact that virgins on this campus are not as rare as one might suspect?

\section*{Why virginity?}
am not waiting for Mr Right. I am not even waiting for Mr. May-possibly-be right. I am ust waiting for Mr. I-care gbout-you-enough-to-make-you-

See JANE page 10

\section*{10 \\ April 26, 2000}

\section*{JANE}
continued from page 9 breakfast-in-the-morning So I want to make sure I am actually interested in my sexual partners and vice versa before I decide to rumble between the sheets. What's the big deal?

Julie seemed to think
along the same lines.
marn not waiting until I huge relationship. I think

\section*{The Daily Orange}
when the time is right, it will ust happen," she said "its more or less waiting for the right opportunity than a matter of not wanting to have sex The right opportunity means different things for different people, though
\({ }^{\text {II }}\) I have had plenty of
opportunities to do it with people that I've really cared about, but I always knew that they didn't care as much as I did," Erica said.

For her, this was a good
enough reason to wait I don't want a relationship to become sex," she said There is so much more in a relationship to develop, and the sex may become more important than the emotions behind it. That's not how I want it to be.

I found myself silently agreeing with her as she spoke.

When it comes to intima cy, we all play the same gam
own rules. Everyone has their own definition of "relationship," their own criteria and their own sense of "timing.

Once all these things come together, 1 will be moving out of "Virginia.

Now, the whole campus knows my sexual status, or lack thereof, and I have probably scared off every guy who even remotely thought of approaching me in the hazy basement of a house party. I hope this column was worth
something
hope that those of you who are sexually active can see virgins as being siraultaneously strong and sweet people who don't object to getting some booty - when their hearts are in it.

Jane Rushmore is a junior magazine major. Her column appears Wednesdays in The Daily Orange. E-mail her at jrrushmo@syr.edu.
she is not nervous to be singing - she will be too busy thinking about her upcoming recital on other performers.

This is one of the biggest shows I've ever done," she said. "And when you're up there, you And when youre up there, you thare are. It makes you others are. It makes you more

Hitting home
Stellato said she wanted to look for more local talent this year because people always like to see people they know or have heard of. Ualso booked for Block Party SU ska-punk bank Short Round and previous SU band Douglas Leader, formerly known as the Douglas Leader Orchestra

Short Round's Dan Hauser a senior education major, said he is honored to have been invited to Block Party.
"It's a neat tradition and we thought it would be good to get in on it," he said, adding that it is a iittle strange and exciting to play on campus in front of all their friends. "Hopefully, we get some new fans."

Short Round and Douglas Leader open for the Pilfers on Friday night in "Rock Block."

The main Block Party at traction - the free, day-long Skytop Field concert that used to be the entire event - will be held Saturday from noon to 5 p.m. The Lox will headine the Show, supported by Mos Def and Common. Later Saturday mght, Kid Capri will perform in Goldstein Auditorium
've hip-hop names that we've been getting are big
names, "Stellato said.

Stellato said that while this is the trial year, she thinks everything will go well and set the stage for future Block Party events. She hopes to make this new format the tradition from now on, she added.

We try to offer the best that each musical genre has to offer," she said.

\section*{Block Party 2000}

Thursday - "An Intimate
Evening with...
p.m. in Club Abyss, the Schine Underground.

\section*{TRACK}
continued from page 16
meter dash with a time of 25.4 seconds, beating out team. mates Shaunte BeauchampSherard and Allison Pompey, who took home second and third place, respectively.

The victory was unexpected for LaPointe, as the SU runner has focused on distance events throughout her career, as shown by her participation and success in the cross-country season.

In a more familiar setting, LaPointe also took home a victory in the \(1,500-m e t e r ~ r a c e, ~\) finishing with a time of 4:47.42 econds.

The Orangemen's versatility led to success, with SU winning five events at the neet.

One of the most impressive victories on the day came from freshmen Matt Troha. Competing in only the second event of his collegiate career, Troha beat out veteran teammate Marc Gagnon in the high jump for the first-place finisth.
"Winning helps my confidence a lot," Trohas said. "Even though I didn't jump like I wanted to, the pictive going me something positive going
into the Big East (Championships) meet.

Troha didn't join the team until earlier this year after transferring from the State University of New York College of Environmental Science
and Forestry to SU.
The newcomer's last competition was at the Empire State Games in the summer of ' 99 before making the trip with the Orange to Virginia for the Lou Onesty/M.G. Abramson Invitational on April 15.

We are a good team, but we just are not at the next level yet.

\section*{MAC GIFFORD \\ U tennis coach Mac} Gifford, after the Orangewomen finished third in the Big East for the third consecutive season.
in his first meet as an NCAA athlete, Troha finished sixth, amid competitors from top schools all over the countop

Troha credits his performances to both his work ethic as well as the coaching staff at asw.
SU.
"Coach (Llewellyn) Starks is great in that he knows a great deal about all of the jumping events and he has put me on the right path," Troha said. "If I follow his advice, I know I will improve. I've worked real hard at it, and I think it has showed and I hope that if I keep training and getting stronger, I will be a valuable asset to the team."

Other winners on the
men's side against Albany included senior Graig Lundy in the pole vault, freshman Tim Biever in the discus and fellow first-year standout Samuel Prescod.

Prescod, a Barbados native, competed in three separate events and claimed victory in the javelin.

The lone victory on the track for the Orangemen belonged to freshman Eugene Giles, who narrowly beat out another first-year teammate, Sean Burnett, in the \(400-\mathrm{me}\) ter dash.

The women racked up two other victories on the day in addition to the feats of Daniels and LaPointe. Junior Alicia Crowd beat out sophomore Alison Culley and the Great ison Culley and the Great SU duo took the top two spots in the event.

Fellow junior LaToya Redden won her second event of the spring season, triple jumping 38' \(8.75^{\prime \prime}\).

The next meet for the majority of the SU harriers will be this weekend at the Penn Relays, before they head south o Rutgers University for the Big East Championships held May 5-7.
"Despite my victory, I'm hoping for a much better meet this weekend," Daniels said These next two meets are real big and as a group. We all have a common goal to continually improve."

\section*{TENNIS}
continued from page 16
from senior co-captain Shareen Lai. The nation's No. 94 singles player defeated Miami's Alanna Broderick 7-6, 6-2.

Junior
Michelle
Neveklovska was part of the final singles match of the day.

She battled back from a loss in the first set to win the second. But Miami's Katie Bogomolova held off Neveklovska's surge and

Syracuse not only had to deal with the siff competi deal with the Mirmiompetition fom the siamiplayers Florida Gifford said the nom had one day to practice in the sun before the tourna. ment began.
"I think the heat affected our players more mentally than it did physically" Gifford said. Miami is used to playing in that sort of climate and we aren't, so they had an obvious advantage. I would love to see the tournament played at a different site in the future."

With the championship out of their hands, the Orangewomen still had one more match to play for third place. Lai and Gifford agreed that it was tough to get up for the consolation match.

But they still managed to do so. For Lai and fellow senior Anna Khvalina, it was
more than just another match - it was the final match of their college careers.

Both Lai and Khvalina lost their singles matches to Seton Hall, but later rebounded as doubles partners to win 8-4 against SHU's Lauren McCracken and Kyli LaSalle.
"We both knew it was the final match of our careers, but we didn"t want to talk about it, hai said. We knew we just had to go out there and win."

Even though the season ended last weekend, Lai will look to keep busy from now until the summer. She plans on playing in numerous amatene tourmaking it to the professional level.

Gifford said many coaches at the Big East Tournament were interested in Lai's future plans. Many have said that she could make it at the next level, Gifford said.

As far as Syracuse's future goes, the Orangewomen look to fill their top two singles slots, having lost Lai and Khvalina to graduation. Gifford said four freshmen will join SU next season, and each immediately will vie for a starting spot.
"I am looking forward to next season," he said. "No position will be a sure thing, so everyone will have play hard and be competitive in practice. This is only going to help

continued from page 16
"He's unbelievable," Hopkins said. "He's like a kid in a candy store. He loves being around him. It's like he's a proud father.

Fatherhood has caused hanges in Griffin, Hopkins aid. Griftin now works even harder on the basketball court and in the classroom so he can one day provide for Allen Jr.

We use his son as motivation," Hopkins said. "With all the stuff he was going through early in the season, his son helped. He could say, 'No matter how bad it gets, look how beautiful of a son I have.

If Will Allen finds some free time during the day, he doesn't need to think about how he is going to spend it. He immediately rushes to his off-campus apartment to spend time with his wife and little boy.

The junior defensive back married his wife, Roshanda, last May, and his son, Will Jr., was born in October, right in the heart of football season. "It was a lot all at once,"

GYou can't really believe that it's happening. A human being just came out of there. \(\quad\)

WILL ALLEN
SU cornerback, on the birth of his son, will Jr.
t's the best thing that has happened to me so far, more so than football, anything.

The different aspects of Allen's life have conflicted with each other just once.

His pregnant wife had a false alarm while the Orangemen were in West Virginia, and Allen laughs as he remembers the panic that set in as he rushed to the nearest phone to call home.

Fortunately, it was a false alarm, and when it came time for the real thing Allen joined his wife in the delivery room.
"A lot of people say it's gross and nasty, but I enjoyed it," said the 21 -year-old Syracuse native. "You can't really believe that it's happening. A human being just came out of there."

F-NOTE FROM THE DAILY ORANGE: As alwiys, platase use caplion when replying or being reppied from ary ackervisement in aech issue, for The Daity Orange does nol take ra-
sponsibitiy for any misconduct resuting in contrac botween yoursert and advertiser.

Although parenthood and marriage place time constraints on an already demanding schedule, Allen's wife and son offer him a welcome distraction from the monotony of a football player's schedule, he said.
"If I'm always down (at Manley Field House), and I don't have anything else to do, I'm going to get tired for a while," Allen said. "When I'm there, it's all about football, but when I go home, I don't even want to think about football.
"When I go home, it's like breath of fresh air.

Huddled in a corner of the Syracuse men's basketball lock er room, Damone Brown sat on a stool in front of his locker holding his son on his lap.

The junior forward gave the young boy an affectionate squeeze, and both father and son smiled.

Two-year-old D.J. is just as popular with the other players as he is with his dad, Brown said.

When he's in there, he knows most of the players, so everybody just comes in and picks him up and stuff like that," Brown said. "He's a pop-

April 26, 2000
ular kid."
Siena head coach Louis Orr, an ex-SU assistant, is no with children, but he said it can be shooking to others.
"You don't see these guys show affection a whole lot," Orr said. "You're not in that environment where they show a
whole lot of affection. They hug and things like that, but to see them with a little 1- or 2-yearold baby, it's something you don't see them do all the time."
D.J. made several appear ances in the locker room during the season. D.J. lives in Buffalo with his mother, so it's close enough to SU that Brown was able to see his son once or twice a month despite his time constraints with basketball and classes.

In the offseason, Brown works harder during the week to get everything done so he can travel home to spend weekends with his son.

Orr works closely with Brown and said Brown's priorities changed because of D.J.

He needed to be a good role model to his son," Orr said. "He needed to put the time in, and he needs to be more serious about school than basketball so he can provide for his
son. It's not just him anymore. He's got a little one to worry about. \({ }^{\text {. }}\)

Although coaches and teammates understand the situation, none of the athletes can be given special help.

The only resources available to them are those offered to any Syracuse athlete - an academic support system and the emotional support from teammates and coaches, men's basketball head coach Jim Boeheim said.

Instead, the athletes draw strength from each other. These are just four of an ever-growing number of Orangemen with children, and it often becomes a topic of locker room conversation.

Some players even put pictures of their children in their lockers as reminders.

Well laugh and joke about it, that they should open a day care center for us,"Johnson said. "In a way, that draws certain people together. But in a way, it's like I gotta go home, I gotta go see my family. The little bit of free time you do have, you get pulled in separate directions.

\section*{Orangewomen place third in BE tourney}

BY JASON SACKS
Staff Writer
As the saying goes, "The third time is a charm."

A third-place finish in the Big East Tournament for the third consecutive year, though,
wasn't quite the tenis
charm the Syracuse tennis team was looking for.

Syracuse, which
finished the year 16-6,
defeated Seton Hall 5-2
on Sunday to finish in
third place in Miami. On Fri-
day, in the semifinals, the No. 3-seeded Orangewomen lost to eventual Big East Champion Miami 5-1.

The Hurricanes upset No. 1 seed Notre Dame 5-2 in the championship match.
that wht this was the year that we were going to do ford said. We are a good
team, but we just are not at the next level yet."

Last year, the Orange women lost in the semifinal round to eventual champion Notre Dame.
"We are going to need a good recruiting year to get over to the next level with Notre Dame and Miami," said Gifford, SU's first-year head man. We need to set our goals early in the geason
then work toward them.

Under the Big East Tournament's team championship format, each singles and douc. 3 m match is worth one point, and it ends when one team wins five points. The Orangewomen fell behind quickly when Miami won singles matches at the No. 2, 4,5 and 6 spots, all in straight sets.

Syracuse's lone victory against Miami fittingly came

Corinne Smith clutched a stack of envelopes and papers sevstack of envelopes and papers several inches thick and then
dropped the load on her desk with a thump.

The pile of papers is all that exists of what will become a new college at Syracuse University a merged school that will combine the College of Nursing, School of Social Work and most of the College of Human Development starting in the 2002 Fall Semester.
"The faculties are a little upset because they want to know where their offices will be," said Smith, School of Education associate dean and co-chairwoman of
the merger's planning committee. "We're trying to make as many decisions as we can as quicidy as possible to get rid of some of the meertainty.
his foll, we time students return this fall, we should have a pretty good idea of what the school will
look like." The
The merger will cause the College of Human Development's retail management and design echnologies program to relocate to the School of Visual and Performing Arts.

It is the only program that does not fit into the new school's human service theme, said Rachel Feldman, i sophomore retail major.

Feldman said she is worried See MERGER page \(\sigma\)

Police Reports:
Car burglar arrested at the scene of crime

\section*{Staff Reports}

Police arrested Syracuse resident Larry Robinson on Wednesday morning after they caught him breaking into a 1997 Jeep in Theta Chi fraternity's parking lot, according to a Syracuse Police Department report.

Officers arrived at the house's parking lot on 403 Comstock Ave. responding to a possible breakin in progress, the report said. They searched the parking lot, the report said, finding Robinson hiding behind the Jeep. The car's owner, Syracuse University student Gregory Brons, said he slept through the ordeal and was woken up by police sirens.
"By the time I was woken up, police were apprehending the suspect," Brons said.
After handcuffing Robinson, police found a Philips Magnavox compact dise player on him that belonged to Brons, the report added. "Nothing was damaged," Brons said. "He
went through the soft top of my Jeep."

\section*{Court weighs Scouts' stance \\ WASHINGTON, D.C. - \\ as to admit Catholics, Justice}

Supreme Court justices strug gled Wednesday over whether to let the Boy Scouts bar homosexuals from serving as troop lead ers, role models in an organizabe "morally straight."

Without saying how they ices voiced skepticism about how far the court could go to force open admissions upon private organizations.

In your view, a Catholic or ganization has to admit

Stephen G. Breyer told Evan Wolfson, the lawyer for James Dale of New Jersey, a former asthe organization learned he is gay. Dale subsequently filed suit against the Scouts.

Justices Sandra Day O'Connor and David H. Souter zollowed Breyer's line of questioning, asking Wolfson whether his argu ment meant the Scouts could be required to admit girls.

Justice Antonin Scalia way.
"They think that homosexuality is immoral," he said, asking why the Scouts must accept as a leader "someone who embodies a contradiction of their message? \({ }^{\prime \prime}\)

Founded in 1910, the Scouts have an oath and law that long have required members to promise to be "clean" and "morally straight." But no written rule specifically addresses homosexuspecify.

Wolfson said the Scouts are not primarily an "anti-gay orga nization" and therefore Dale's presence did not burden the group's message.

\section*{national news}

\section*{Gun makers plan lawsuit}

WASHINGTON, D.C. Seven gun manufacturers sued Seven gun manulacturelopment Secretary Andrew M. Cuomo and Secretary Andrew M. Cuomo and a group of state and local governments Tuesday, accusing them of lice to buy guns that comply with lice to buy guns that comply with most gunmakers.

The court action, filed in U.S. District Court in Atlanta, seeks an injunction that would stop the Clinton administration and a coalition of state, county and municipal governments from requir ing law enforcement agencies to purchase guns only from manufacturers that have signed a safe-ty-oriented distribution and design agreement. So far, Smith \& Wesson is the only gunmaker to sign the deal.

Glock, Beretta, Colt, Browning Armos, Sig Arms, Sturm Ruger and Taurus International sell the majority of firearms used in law enforcement. Since the Smith \& Wesson agreement last month, they have been contacted by elected officials and police departments asying they may have to buy Smith \& Wesson guns instead.

\section*{world news} Thursday.

Kosovo, which is part of Yu-

continued from page 1
Police booked Robinson because he was intoxicated and also to prevent him from committing more crimes, the report said.

Brons, a senior physics major, said there has been only one other car break-in at the Theta Chi house during his two years there.

EAn unidentified man broke into the Sigma Phi Epsilon fraternity house at about 8 a.m. Tuesday and stole money from an SU sophomore, according to a police repart.

Fraternity representatives were unable to be reached for comment.

The sophomore awoke to find the suspect in his bedroom, the report said.

When questioned, the suspect told the sophomore he was looking for the FINI sorority," the report added.

The man lert immediately, he report said. The sophomore got up and noticed about \(\$ 20\) missing from his wallet, the report said.

The suspect is a black male, aged 25 to 30, with a medium build, baid and with a goatee, the report said.
* An unidentified suspect broke into a 1993 Toyota Corolla late Sunday night on the 100 block of Walnut Avenue, according to a police report.

Costs of damages and thefts totalled almost \(\$ 3,900\), the report said.

The suspect broke the rear vent window, the report said. Wiring to the car stereo and directionals were also extensively damaged. Costs of repair are esimated at \(\$ 2,000\), the report dded.

The car's owner, an SU freshman, parked the car on the street, he report said. The thief stole the car CD player, amplifier, \(\$ 500\)
worth or CDs and ractar detector. the report said

Costs of the CD player and amplifier are valued at \(\$ 750\), the report added. The radar detector cost \(\$ 470\), the report added.

This is the second time in two months that the freshman has had her car broken into, the report said.
(Wn SU junior had his 1991 Ford Explorer broken into by an unidentified person this week in the parking lot on Madison Avenue, according to a police report. The thief broke the driver's side window and stole a cellular phone, the report said. Damages to the window are estimated at \(\$ 500\) and the cell phone cost \(\$ 50\), the report added.

It is the seventh reported break-in at the Madison lot this academic year, the report added.
- An SU junior reported his cellular phonemissing, according to a police report.

The student either lost the phone or had it stolen from his car, the report said. The junior other phone, the report added and someone kept hanging up on

The student has insurance for the phone, the report said.

here's your chance to really go somewhere.
}

Congratulations. All the cramming, insomnia and junk food breakfasts have paid off. You're in college now - and soon, you'll be facing questions about your life. Like what to do with the rest of it. One thing is for sure, if you're a student of color, with an INROADS intemship you could have a serious job every summer while you're still in school - making contacts and gaining experience in your chosen field of study.

Hey, it won't be easy, but then again if you wanted it easy, you wouldn't be reading this right now.
web site _ www.inroadsinc.org

You got this far. Now go farther.

INROADS

BY NICHOLAS STEFFENS Stat Wher

Campus officials and journalism students debated Wednesday night whether or not college administrators should release inin criminal investigations.

About a dozen students at Abouz a dozen students at-
ended the forum conducted by

\section*{the Society of Professional Jou} nalists.

Anastasia Urtz, director of Syracuse University's Office of Judicial Affairs, Student Government Association President Jamal James and Dave Levinthal, editor in chief of The Daily Orange, served as panelists. Lynne Flocke, an SU newspaper professor, moderated the forum.

\section*{J. CREW}

WAREHOUSE SALE May 3-7

Former Rx Place
Ames Plaza
3405 Erie Blvd.
DeWitt, N.Y. 13214
Motivated Workers Needed Am/Pm Shifts Available \(\$ 7.50\) per hr. - 4 hr Shifts

The 1974 Buckley Amend ment does not allow for informa tion in a student's record to be released without the student's permission. If a school does not follow this rule, it could lose federal runding that helps pay for feder al grants and work-studies, Urtz
sxid.
"That's they way they keep you in compliance," she added.

The university community would be better offif information about studenta who have been made available to the press, said Levinthal, a junior newspaper and political philosophy major. When courts release students; names, more information may help make an article more informative, he added.

For example, Syracuse poHice found former SU footbail player Vernon Banks April 8 outside of Harry's Bar and Tavern acting violently and suspected to He was transported to a local hospital for treatment.

Banks later denied the allegations that he was under the influence of a narcotic.

Coverage of the incident would have been better if more information was available about Banks, Levinthal said.
nformed want to get as much is we cormation about Vernon Banks "We'd could, Levinthal suid. drug problems while he was at sur.

Levinthal did admit, however, that not all information should be released, like a student's grades.
fine line," he said. "You don't
want to release something that want to release something the James said he disagreed with Levinthal's belief that students' names and personal infordents names and personal nhile an investigation is in progress. The fact that students could be ostracized for something they ostracize have done is resson mayough to withhold information he said.
II think it can go too far and get too personal., said James, a junior musical theater major. "It could have an effect on the educational process of the student."

James also said he disagreed with the belief that releasing pertinent information might be beneficial to students.

The university does not release this information because the role of Judicial Affairs is to educate the violator, as well as to protect the student body, Urtz said.
"Obviously, students should be able to come to school and learn from their mistakes," she said. "We do what we do as an effort to make them better students."

The vast majority of crimes hat go through the office are ally dopmental crimes" that usuas, she not lead to greater offenscomme said. The students who serious threat to the university and the surrounding community. and therefore their names should not be released, she added.

The current university policy of releasing eriminal information does not reflect societal norms and this should be changed, Levinthal said. State and city police stations make
their police reports available to be viewed regularly by the public, he added.

That will help make Syra cuse University safer," he said. cuse University safer, he said. know. It affects my life.

Sames disagreed, saying the way SU handes criminal records states do not do a good job.
"People will become guilty in the public eye and have to work really hard to cleanse themselves," he said. "It's not a law most people are satisfied with?

The university reports all of the cases that may be in violation of city, state or federal law to the appropriate police force, she said.

Most times, petty crimes are hrown out when they get to court, Urtz said.

The students who go through the university judicial system and are not expelled should be allowed to re-enter the student body unscathed, she added.

We don't think that the people we're allowing to stay here will up the ante and do something more dramatic," she said.

The Chancellor's Advisory Committee on Campas Security will be examining this issue in the fall, Urtz said. The commil students, three faculty members and three staff members. State law mandates that universities have a committee dealing with campus safety, she said.

The panelists all said at one point during the formm that the ammes of studenta who should be released, Flocke said.
"I think we actually have some agreement," she said.

\section*{Vote 'no' on SGA structure changes \\ The Student Government Association} wants your support in their latest halfbaked scheme to "defend the students."

Don't be fooled. Serve your own interests the right way - by voting against the constitutional changes proposed in the SGA referenda this week.

The logic behind the bill - which seeks to strike "government" from SGA's name, add a "promotions" board and eliminate one of two assistant comptroller positions - is warped. SGA contends that the new promotions board would assist and advise student groups in events production planning. Doing so serves only to duplicate a role that University Union has already honed to a science.

The time SGA will need to spend training new promotions board members next semester is hardly worth the effort. Ironically enough, it will probably have to seek the expertise of UU's members in order to properly set up their own promotions wing.

And although SGA claims the promotions wing will give students the benefit of "one-stop shopping," it also undermines the autonomy of these same groups. SGA would potentially have the power to impose precise, perhaps cumbersome, stipulations for each stipend it doles out for events production.

SGA has bit off far more than it can afford to chew. Even after reshuffling Assembly representation from student residences to home colleges and slashing the number of available Assembly seats several years ago, dozens of Assembly seats remain vacant.

If the organization really wants to maximize their efficiency and serve students, it would be far wiser to step up recruiting efforts to stack the Assembly. Only once SGA's present structure has a thriving membership should it begin to think about adding additional posts.

SGA is also asking you to approve a carte blanche increase of the Student Activity Fee, in proportion with annual tuition increases. The fee hasn't been raised in years, and with a record number of student groups competing for a piece of the pie, it's time to add a few bucks.

But fee increases should be allowed only through direct referenda, and after presenting a solid plan for how the additional funds will be used. A vote of "yes" for a student fee increase this week allows SGA to reap the benefits of any tuition increase without being directly accountable to the students.

Although payment of the fee is mandatory, it's a powerful leverage tool with SGA. Each student's \(\$ 106\) annual fee is all students can really hold SGA accountable for. It must be protected at all costs.

Established in 1903, Independent since 1971

\section*{opinions}

\section*{Year's movies represent cultural accomplishment}

Trying to write my final column of the semester was sort of like being a one-legged man in an ass-kicking conest. No matter where I aimed, I was pretty sure to fall.

Some suggested I announce the first annual Hoban Awards. So I contemplated categories like citizenship, a winner for Most Recreational Drugs Consumed By a Presidential Candidate, I decided that the whole idea was a bit too self-important. Plus, I couldn't afford little bronze "Hobans" for the winners, so it was back to the drawing board.

\section*{THOMAS}
hoban

The next idea someone gave me was "Column-bine," a stream-of-consciousness piece about killing all the other D.O. columnists. Though satirically tempting, this vision was clearly too gruesome and in very poor taste.

When someone else suggested I just pick an issue-of-the-week and write my usual leftist rhetoric, I firmly decided that my last column for the sernester had to be a little more than just that. I needed to carefully select a
topic that I really felt was important topic that I really felt was important.
Finally, it came to me. The 1999 2000 school year was not very exciting in political circles. The so-called economic boom the American upper-middl class is experiencing didn't excite me very much either. more froundbreaking than almost anything else in our more groundbreaking than almost anything else in our "American Beauty", "Fight Club" and "Magnolia."

I was skeptical when I saw the first trailer for "The Matrix" It looked pretty cool, but Keanu Reeves?
Needless to say, my fears were totally unfounded. In "The Matrix," the Wachowski brothers have raised the bar for action and science fiction films. In perfecting the type of comic-book action sequences to achieve for decades, "The Matrix" revolutionized special effects and computer manipulation of film in the process.

With a technique known as "bullet time," developed especially for "The Matrix," filmmakers can now manipuLate real and computer-animated objects in time as well a film. Though it gare complete many technical awards for this achievement, I believe its contribution to American film has gone highly under-recognized.

The next big one was Oscar winner "American Beauty." Though best known for the scene where Kevin Spacey masturbates in the shower, "American Beauty" has almost entirely reinvented the mythos of suburbia. Primarily exploring the theme of what people project as themselves as opposed to who they really are,"American Beauty" delivers outstanding performances, incredible drama and a fierce evaluation of our society.

Just when I couldn't be happier with Hollywood, rushed out to see David Fincher's most recent picture, "Fight Club." Though many people expected it to be a movie about fist-fighting, and still others just wanted to see Brad Pitt shirtless, "Fight Club" is one of the most remaricable films of the 1990 s . Re-exploring Jungian notions about the duality of man in the culture that created Starbucks, Fincher gives us the post-modern "Rebel Without A Cause." Fight Club"' is both an indictment of disposable culture and an evaluation of man, as an animal, in the information age.

But quite possibly my favorite of all of these incredible films was Faul Thomas Anderson's "Magnolia." Amidst staggering performances and an incredible, albeit lengthy, screenplay, "Magnolia" contains one of the most complex and carefully woven narratives in cinematic history. In an ensemble of delicately complicated and intricately related characters, Anderson's film begs one of the most important questions in 21st century America. What has to happen for people to start relating to one another instead of seeking refuge in drugs, alcohol, television, sex, religion wise up? The amphibious answer is of Biblical propor wise
tions.

I don't feel it is an overstatement to say that American cinema has been changed dramatically in the past year. These bold filmmakers have tread new ground our time Far frir place among some of thwod has been spewing in recent years, these four films, among several others, have truly set a new standard in American movies

It may be too early to tell whether this means the downfall of over-hyped, over-budgeted nonsense like Titanic," but it's a start

Goodbye Gumap, hello project mayhem!

\section*{NYPIRG must receive funds like other groups}

\section*{To the editor:}

The students of Syracuse University deserve to know that their student activity funds are actually being spent on student activities, not lobbyists in Albany. The New York Public Interest Research Group is certainly not a run-of-the-mill student activity.

While it was founded by students in the early 1970s, NYPIRG has grown into one of Alhany's biggest lobbying groups. Sure, their membership has Their lawyers and lobbyists in Albany have pushed for larger in-state atu dent foans, lesger ATM fees and toy safety measurea.

But the local NYPIRG chapter is home to radicals whose members have disrupted the lives of Centra New Yorkers.

On December 4, 1999, members ofSU's NYPIRG chapter were thrown off the property of the East Syracuse Wal-Mart when they placed their
Saabs, Jeeps and Acuras in the way of local shoppers in search of discount goods.
Mart'sey demanded a list of WalMart's manufacturing facilities abroad. Of course, the local manager was unable to meet their ultimatum,
so the protesters moved their hunso the protesters moved their hunpriced vehicles around the parking priced vehicles horns blaring

Such an organization does not deserve a contruct for our Student Activity Fee.
NYPIRG Board of Trustees Chairwoman Michelle Stern, who is on campus this week from the State University of New York at Albany actively.
soliciting votes for her group's fund. soliciting votes for her group's fundelected representatives who pushed for this vote, saying they were trying to "screw" with her money.
To those of your who have not yet
voted, I submit the following:
It is hypocritical that an organization that strongly supports cam paign finance reform - to keep mon our money to fund its own campaign for sclf-preservation.

It is hypocritical that such an en-vironmentally-friendly organization would cause our campus to be litterex with multi-colored flyers which wil likely never make it to county recybe environmentally conscious when it' in your group's best interest.

It is unfair that any group with a political agenda gets our money up front without scrutiny from our elect ed officials. It has to stop. NYPIRG, if it receives student funding, must do so in the same way every other student organization gets our "activity" money. ON Make sure today you vote "NO

\section*{MERGER}
continued from page 1
the retail program will lose its family atmosphere.

I'm worried that we'll lose the personal touch the college is known for," Feldman said.

Kristen Amato, a sophomore retail major, said the program does not belong in VPA. VPA Retall is getting thrown into lege," Amato said. "It doesn"

The Daily Orange
make sense to put retail in VPA because we are a business program, not an art program. Ifeel like we should move into the business school."

SU is planning to combine the budgets of the three individual schools and funnel the money into the merged college, which will be built at an undecided location, Smith said.

Starting July 1,2000 , the derged schoois will have one

William Pollard. The moncy from the salaries of the two eliminated dean positions will stay within the newly formed college.

All three schools are under a hiring freeze until the planning committee knows what faculty will be needed for the merged school, Smith said.
"This isn't going to take any money away from the schools, Smith said. "We're not really plan ning on cutting jobs. Everyone's already overworked. We'll proba bly end up dividing work in dif ferent ways.
"There will definitely be some job shufling."

College of Nursing Interim Dean Cecilia Mulvey is leaving her post for personal reasons in July after taking over in 1998 when former Dean Grace Chick adonz stepped down.

In 1998, the College of Nursing discovered that it had an unregistered family practitioner program with 66 students en. olled. But SU Chancellor Ken neth \(A\). Shaw said the merger is not related to the nursing school's past registration problems. In March 1999 , it became registered, but a lawsuit by the students against the university is still pending.

Kay Wiggins, a retired pro-
fessor and former College of Nursing dean, will become dean again for a year before Pollard takes over the merged college.

Lois Schroeder, interim dean at the College of Human Development, could not be reached for comment.

This is not the first time SU has merged separate colleges.

In July 1992, the College of Engineering and School of Computer and Information Science were combined to form the College of Engineering and Computer Science

Edward Bogucz, dean of the College of Engineering and Computer Science, was a faculty member when the 1992 merger took place.
didn't petition for this merger. It was imposed on the faculty, students and staff," said Bogucz, cochairman of the upeoming merger's planning committee.

The melding of the engineering and computer science colleges occurred in a similar manner to the upcoming merger, with both the vice chancellor and chancellor initiating the process, he added.

It is my very strong belief that for the College of Engineering and Computer Science the merger was a great thing," Bogucz said. "The merger, and the work we've done in the last eight years, have really strengthened all the programs."

It will take time for the three schools to stop acting like separate programs and become unified, but the faculty can help the transition run smoothly, Bogucz said.
ere My hope is that the new colas will find a way to as quickly asips can establish new relationships with people from other departments," he said. "The faculty and staff need to mix and interact with one another."

One reason for the merger is because the course curriculum for students majoring in social work, nursing and human development often overlap, Smith said.
"Each of these programs are concerned about human needs," she said. "We are creating a teamteaching situation where students can learn from each other and an extended faculty. Every student will have a richer experience through this cross learning."

The course requirements the three separate schools will not change for the students and the idea behind the merger is to not weaken each progran, Pollard T
The integration of the three schools will give students an advantage when entering the work
force, said SU Vice Chancellor Deborah Freund, who is oversee ing the planning committee
"These disciplines all work together in the working world," Freund said. "We saw how much the disciplines had in common, how much they could and should work together. We saw real potential to allow SU and students to have something on the cutting edge."

By combining these schools, students will have the opportuni ty to take electives in each of the three different disciplines, but their core curriculum will remain largely unchanged, she said.

\section*{Student-centered}

Sophomore nursing student Jennifer Salinger, who will be a senior when the merger goes into effect, said although she was initially worried about the merger she changed her mind after at tending informational meetings.

I'll get to take classes in the other colleges. All of those areas apply to us," Salinger said.
"They said we'll get a bigger college, closer to campus and they won't change our graduation re quirernents. That sounds good to me."

But some School of Social Work students said they are not as excited about the changes.

Connie LaPrarie, a senior social work major, said the impending merger could have both posi tive and negative effects on her program.

I understand the dynamics of why the university wants to do this, and it has merits, but I'm afraid the School of Social Work will lose its individuality in the process," LaPrarie said. "The social work program doesn't take care of its students now, if the merger happens, I don't know what will happen.
"I think each of these separate schools need to get their acts together before they can combing together before they can combin

But Shaw disagreed that the merfer will have an adverse effect on the students.
"If you made it a rule that you can't do anything until everyone has their act together, you'd never do anything," Shaw said.

It is difficult for three relatively small programs to achieve prominence on their own, bu combined, they are more likely to be successful, Shaw said

What we have are three relatively small units," he said. "As stand-alones, they can't take advantage of the natural synergies that will exist when they combine. The faculty in the merged school will be drawing upon the strengths of one another in a way that makes those strengths stronger. That then has a trickle down effect to the students.

One way SU hopes to take advantage of the merger is by combining clinics, where students gain hands-on experience in their chosen fields. The nursing, sacial work and human development students take these clinics as graduation requirements.
"I think the clinical - practicing together and therefore learning together and the application of learning and research can be intertwined successfully," Mulvey said.

Geriatrics is an example of the importance of interdisciplinary learning, she said. It often takes a social worker, a nurse, a nutritionist and others to provide care for the elderly. The merger will put SU students at an advantage because they will have had practice in dealing with professionals from other disciplines, working with the patients" best interests in mind.
"The vice chancellor has made a commitment that the college will be not just a merger, but a new college, a co-mingling that will strengthen each area," MuIvey said. "This merger is not about cost reduction, it's about creating a college that is state of the art.'.

\section*{Author condemns milk as a health danger \\ BY CAROLINE CHEN \\ are doing exactly the opposite, he \\ television show "Dawson's Creck," \\ the stomach, causing a buffering}

Staff Writer

Imagine a delicious chocolate brownie, washed down by a 12 ounce glass of ice-cold milk, antiounce glass of Ree-cold mikk, anti-

Then consider drinking dog milk, pig milk, horse milk or even human breast milk instead, he added.
'You'd say 'yick' to every single one," Cohen said to about 70 gle one. Wohen said to about torium. He recently authored the book, "Milk: The Deadly Poison."

On average, U.S. citizens consume 29.2 ounces of milk daiwhat the average U.S. citizen eats is milk and dairy products, he added.

But drinking milk is dangerus and insensitive of animal rights, Cohen said.

Milk can legally contain 750 million pus cells per liter, he added.
"The same thing that comes out of your zits is in milk," Cohen said. 'I say to myself, 'pus.' Pus is what it is. With hormones and the glue."

Cohen linked the 59 naturally occurring hormones in milk with various health ailments including irritable bowel syndrome, heart disease and diabetes.
"That's what milk is, it's a hormone delivery system," he said. "You're taking milk, you're taking hormones."

The hormone Insulin Growth Factor 1, which is found in both cows and humans, is causing girls to mature and develop breasts at increasingly younger ages, Cohen said.

The Japanese did not traditionally consume milk and dairy products, but as they increased their consumption over the years, the average Japanese girl has grained 19 pounds, grew four-and-a-half inches, and got her first period at a younger age, Cohen said.

Milk is fattening because when it is filtered in the process of homogenization, fat molecules become small eriough to go through the walls of the intestine into the blood, he said.

Cohen said there is a link between this obesity and poverty.

Many inner-city black children receive free lunch - which said.
"Drive by the school and look at how fat the kids are," Cohen said.

Because milk slows digestion, children cannot concentrate after drinking it, he said. This takes away their ability to learn, Cohen said.

But these ideas are not well thought out, said Mike Kent, a sophomore magazine, policy studies and political science major.
"I don't think black people should be specifically considered a target for him," Fent said. "It seems it could be an issue for all children."

After being brought up on milk, Parker Deay said Cohen's words were shocking.
"I was pretty surprised," said Deay, a sophomore broadcast journalism major. "I'm still not totally convinced, but I'm definitely going to think about it the next ime I drink milk."

Aside from health concerns, animal rights abuses are another incentive to stop drinking milk, Cohen said. When cows are no longer suited for milking, they are packed off to the slaughterhouse, he said.
"The crying you have on a farm is the most horrible thing, Cohen said. "These are horrible death cries."

At the slaughterhouse, entire cows are turned into McDonald's hamburgers, he said.
"What do you think happens to the udders?" Cohen added.

Dairy farmers are hardwork ing people and think they are pro-
ducing "nature's perfect. food," but
said.

But these allegations are not true for small farms, said audience true for small farms, said audience men a Casar County Cayuga County.

Our cows, we keep them as long as possible," she said.
The dairy farm Batty works for has about 90 milking cows each of which has a name, she said.

Batty said she would like to try to go without eating milk and dairy products.
ubut I love milk, I love cheese, I love meat," she said.

\section*{Industry antics}

Cohen said he has worked as a scientist in laboratories, but a scientist in laboratories,
now rejects that line of work.
rejects that lime of work. entists know that research is no good."

Cohen also denounced the dairy industry's "Got Milk?" advertisement campaign as misleading and morally irresponsible.
"We've been brainwashed," he said. "I've found out everything they ve been saying is untrue."

Josh Jackson, an actor in the
appeared in a "Got Milk?" advertisement with a caption that implied drinking milk would help atplied drinking mik
tract older women.
"The calcium helps bones grow strong," the caption read. "Considering 15 percent of your adult height is added when you're a teenager, that's good to know Especially if you want to impress, let's say, an older woman."

The advertisement is encouraging statutory rape, Cohen said. aging statutory rape, Cohen sot really pissed when I saw that," he added.

Another advertisement is essentially selling sex by featuring television personality Daisy Fuentes in a gold dress that looked like it had been "spray-painted" on, Cohen said.

President Bill Clinton posed with a milk mustache, Cohen said even though the president's milk aven though the president's milk an epileptic seizure and die which wouldn't be such a bad thing. keting from

Taking action
Milk decreases the acidity of
effect in the digestion of food, Cohen said. Consequently, protein and cholesterol survive digestion. he said.

To test the adverse effects of milk, Cohen suggested that people eat the same dinner for two days in a row, but finish a meal with a 12 -ounce glass of milk on one of the nights and note their rate of digestion.

He passed around a beer bottle and told the audience that the label on the bottle was glued on with a substance called casein

Casein - which produces mucus when it is consumed - constitutes 80 percent of the protein in milk, he said, and urged the audience to read labels to check whether products contain casein.
"The average American is walking around with about a gallon of mucus they got from milk lon of mucus they got from milk

People should omit all milk d dairy products from their diet for one week, he added.
"Get it out of your system," Cohen said. "Try it yourself. The change is dramatic."

He also suggested that audience members ask other poople
about their bowel movements.
"If you've got sludge coming out of the other end of your body. where do you hink all that mu cus is going? he asked

Cohen also asked the audience to raise their hands if they ate pizza or ice cream. Most of the audience members stretched their hands into the air

David Schechter, a senior English, physics and women's studes major, was one of the peodairy products

Schechter arrived at the lecture with a slice of pizza in a Styrofoam carry-out container, but said he will not be drinking milk anymore.
"It's definitely changed my opinion," he said.

The lecture was well received by the audience, said Stephanie Jackson, a sophomore public relations major.
was absolutely amazed and appalled that milk could be such a hazard," said Jackson, who such a hazard, said Jackson, who hen's experiments.
"I don't want to ruin drinking milk," she said. "But I'm glad I milke,"

\section*{- Multicultural Affairs}

JSU plans shortened Holocaust Remembrance Week

GY KATE STEVENSON Asst. News Editor

In the interest of catering to final exam schedules, the Jewish Studert Union has scalcd down this year's Holocaust Remembrance Week
events.
With just three events chere is less of a time commitment for people who wish to at tend but also need time for studying, said Sofya Peysakhovich, one of the program planners.
"There's less of an effort," said Peysakhovich, adding that the lighter schedule was chosen "rather than having movie nights and five speakers coming in."
ing The national Holocaust Remembrance Week usually falls
earlier in April which avoids busy pre-exam schedules, Peysakhovich said.

But even with fewer, less time-consuming events, Peysakhovich said she is not sure how this year's turnout will be, but added she hoped it is "relatively large."

ISU is hosting a poster exhibitat 8 p.m. Saturday, with prints ordered from the Museum of Tolerance in California. The group ordered the artwork - collages of pictures surrounded by quotes and accompanied by explanations - and matted them to give the exhibit a "museum" feel, JSU President Laura Gottlieb said.

The posters will also be on display in the Schine Student Center atrium all week, she added.

At \(9 \mathrm{p.m}\). Saturday on the Quad, Hillel is sponsoring a special Havadallah service to remember Holocaust victims, said Peysakhovich, a sophomore political seience major.

Milton Katz will give a preseatation at 8 p.m. Monday night in the Hall of Languages, Room 207, regarding Holocaustrelated art. Immediately following the lecture, JSU is hosting

\section*{ALL FEDERAL PERKINS LOAN RECIPIENTS}

You are required by Federal Law to attend an EXIT INTERVIEW if you are:
*Graduating May or August of 2000
* Transferring by the end of May or August 2000
* Taking a leave of absence from Syracuse University

\section*{ONLY THESE ABOVE STUDENTS SHOULD ATTEND AN EXIT INTERVIEW}

At this interview, your rights and responsibilities as a borrower will be explained. Bring any questions about repaying your loan.

In order to prevent overcrowding, please attend on the correct day indicated by the first letter of your last name (see below). You may attend any interview session during the assigned day. If you are unable to attend on the assigned day, you may attend any session on the other day

Wednesday, May 3 9:00am, 11:00am, 1:00pm, 3:00pm A-K
Wednesday, May 10 9:00am, 11:00am, 1:00pm 3:00pm L-Z Group sessions will be held in Stolkin Auditorium of the Physics building.

Presented By:
The Office of Student Debt Management 443-1101
a candle light vigil on the steps of Hendricks Chapel.

The vigil is the biggest part of the event, said Gottlieb, a sophomore political science and public relations major.
"Differcnt people remember different ways but a candle light vigil is something very power. ful that everyone can relate to, she said.

All students are invited to atterd and help light the 600 candles or listen to the poems and stories that will be read during the vigil, Peysakhovich said.

Ilana Kramer, a freshman psychology major, said she was particularly interested in at. tending the vigil.
"It's important to remem ber things like that in history when you're connected," Kramer said.

All attendees of the events will be asked to sew a bution onto a quilt, Peysakhovich said. JSU aims to collect 6 million buttons - one for every Jewish person who perished during the Holocaust, she said.

The group has been collecting buttons for about five years, Peysakhovich said, and currentIy has 200,000 to 300,000 .

Both Gottlieb
Peysakhovich expressed their desire to attract non-Jewish as well as Jewish students to the event.
"The burden of remembrance has been placed on the Peysathovich said "I feel that it shouldn't be just that. It can' be just a Jewish concern."

Even people in the Jewish community feel that the Holocaust is just their concern, she added.
This is kind of like a two fold goal," Gottileb said. "The first is to celebrate the Holofirst is to celebrate the Holo-
caust, to remember the 6 milcaust, to remember the 6 mil6 million."

The second soal of the event is to raise awareness among people who may not know very much about what occurred during the Holocaust, she added.

Krarmer said she agrees with Gottlieb and Peysakhovich that the event should not just involve Jewish people.
"lt's not even just a Jewish thing," she said. "I think it's important for everyone to recognize and remember it as something important that should never happen again."

The issue of tolerance is es pecially
pertinent, Peyaakhovich added, because of recent incidences of ethitac cleansing and racism. She cited both the war in Bosnia and the racial and clase warfare during the early 1990 s in Rwanda.
"It's kind of a concept of never again"," she said. "Awareness has to be brought to the issue."

pletely unfounded.
"Starbucks doesn't care," he said. "I think they have enough business not to worry about it."

Molloy snid Potamianos' letter came in response to an April 17 letter she sent to him.

In that letter, Molloy asked him to fix fire code violations, replace all the shop's windows and reduce the rent.

Potamianos has not addressed the fire code violations since No Borders moved to Marshall Street in 1997, Molloy said.

The city' has requested that he repair those volations several, several times over," she said. "We've been having these on-going problems."

Some of the code violations include replacing broken sprinkler heads and bad electrical wiring. Molloy stid.

City officials could not be reached for comment.

It is the duty of the tenant, Molloy, to repair damages and violations, Potamianos said. He said the building was up to code when Molloy moved her business in, but because she used the space differently from prior tenants, she caused damage to the space.

She opened up her own can of worms up there," he said.

The main reason Potamianos said he wants to evict No Borders is because he foresees an inability of Molloy to pay the rent.

Molloy cither does not pay her rent on time or does not pay in full each month, he said. And because she was requesting a reduced rent, Potamianos said he was not willing to take the risk of losing money.

Although no defmite decision has been made, both parties suspect that No Bordors will either have to relocate or close completely, Driscoll said.

A 'fannily' matter
Driscoll sidid he began working at No Borders since the summer of 1998, after moving brack to Syracuse where he found few friends and little to fill his time.

I wasnt into the whole drug, drinking scene," Driscoll said. "I stumbled upon this coffee shop. It became like a second farnily to me."

Driscoll said he began spending all of his free time at No Borders and began hosting open mic nights every Wednesday.

Other students have found the same "family" at the shop, Chang said.

The coffee house is a popular gathering spot for SU students seeking an altermative to the "trendy" ambiance of the Schine Student Center food court, Chang said.

Chang said she discovered the shop only a few months ago, but ggot really addicted to this place."
"People just seem more accepting of differences here," she said.

She said she was also very surprised about the local talent she found performing at the coffee shop.

Driscoll said the performances at No Borders have been well received, especially one band. Fat head, which will have their final show May 4.
"We don't know when we're closing officially," Driscoll said. "That's going to be our last hurrah."

Lawrence Harlan, a senior mathematics major, agreed with Chang and added that he is concerned that corporations, such as Starbucks, will take over Marshall Street.
There really is no place if you don't want to go to a bar," Harlan said. "Soon there are going to be corporate bars."

\({ }^{\text {BHit }}\) this will definitely help us provide a strong recommendation."

Durkee, who works full time as vice president of public affairs at Princeton University, said the WRC has several important is sues that it must address in its policies before it can be legitimate.

One problem with the WRC is that it focuses its monitoring efforts exclusively on its members' apparel factories, Durkee said. The FLA aims to ensure there are good working conditions in factories that produce all university merchandise - from key chains to coffee mugs, he added.
"The Worker Rights Consortium has a fairly narrow focus, he said. "What we said from the beginning is we wanted to focus on all our licensees."

The FLA, however, primarily deals with apparel and has specific clauses that allow companies to exclude inspection of certain product manufacturing, said Marika Wissink, a senior music major.

By limiting to college apparel, the WRC is being more realistic," said Wissink, a member f the Student Coalition On Organized Labor and the Licensing Advisory Board. "You can't tackle everything at the same time. It's not like the WRC is narrowing its roals for the long run."

Local students formed SCOOL and joined other campus protest groups during the last three months in an effort to encourage SU Chancelior Kenneth A. Shaw to sign the WRC.

The FLA's monitoring efforts for member companies cen ter around a certinication process. All factories that participate in the association must have 30 per cent of their total factories inves igated by an FLA-approved, in dependent monitoring group in order to receive initial certifica tion, Durkee said. The initial monitoring takes place during a wo to three year period, according to the FLA.

The association's charter sets guidelines for deciding which fac tories to investigate so that the group will investigate the facto ies where abuses are most likely to occur, Durkee explained. Some criteria include the location of the factories and any past offenses a company may have, he added

Once a company receives initial certification, a monitoring group investigates only 10 percent of its factories each additional year to maintain the certi fication, he said.

The logic here was if a company has factories where abuses are less likely to occur, it wouldn't be a wise investment to focus on makes sense to look at those with the ereatest likelihood of havi probreatest inkelihood of having problems.

The WRC currently requires no set monitoring percentage for the factories of its member companies, he added.

Wissink explained that the WRC currently uses surprise inspections in its monitoring efforts and relies on third parties to bring complaints to the organization. The type of scheduled, announced visits that the FLA uses, however, can give corporations the opportunity to hide abusive conditions.
"There's no way you can inspect every factory and ensure that their entire line is sweatfree," Wissink said. "That's why spot-checking is so important.
"It requires companies to bring up the level of all factories because they don't know which one's going to be inspected."

The only punishment the FLA currently has in place for violators of its conditions code is to not re-certify a company from year to year or to de-certify them, which results in the company being removed from the association without hope for readmission, Durkee said

That threat is sufficient to deter potential violators from maintaining poor conditions in the 90 percent of the factories the independent groups do not investigate each year. Companies are also expected to do their own monitoring in those factories and provide evidence that they have done so, Durkee said.

But Durkee acknowledged that the companies' monitoring efforts were not as credible as independent efforts.
"If a company has elected to be part of the FLA, why has it clected to be part of the FLA?" Durkee asked. "I think the answer is it wants to demonstrate its commitment to the issue.

Whatever their opinions about the FLA, the students lobbying universities nationwide deserve credit for their efforts to improve factory working conditions, Durkee said.

Without their efforts, universities would not pay as much attention to the conditions in the factories making their apparel, he added.

The protests and the student interest in general has real \(y\) put this issue on the map, he said. "It's made a lot of universities take this issue more seriously."

Fist baseman Leah Hansen is hitting .244 for Syracuse this season. Providing some pop, she has Knocked in \(t 4\) nums, second on the team. But her bat didn't help SU on Wednesday, as the Orangewomen scorad fust three nuns in a cloubleheader agoinst Comell.

BY KEVIN LEITZELL
Staff Writer
ITHACA - In a team's inaugural season, each game is a learning experience.

When the Syracuse softball team lost to Cornell 5-1 in September, the brand-new Orangewomen squad accepted their differences against a more experienced Big Red team.

So when Syracuse split a doubleheader on Wednesday with Cornell at Niemand-Robison Field, SU head coach Mary Jo Firnbach expressed mild satisfaction.

They're doing well in the Ivy League and they beat us in the fall pretty handedly," Firnbach said. II think it was a good thing to come back. Our team is a different team ly could have gone home with two wins."

Coming off a no-hitter on Tuesday afternoon at Buffalo, SU fresh man Tara DiMaggio had another impressive outing Wednesday what against the Big Red.

DiMaggio mowed down the Cornell offense through the first four innings, allowing only one baserunner through the first four innings. After Annette Sheppard singled in the fifth, DiMaggio retired the next nine Cornell batters.

As Dimaggio cruised by the Cornell lineup, the Orangewomen struggled offensively. Cornell pitcher Nicole Zitarelli kept the pitches rown to women to hitcing slow groundballs tha Bidnt leave the infeld

\section*{Transfer Elliott fights in four-man battle}

BY ERIC NATHAN Staff Writer

More gasoline was thrown on the Syracuse quarterback controversy fire this spring.

The diesel fuel arrives in the form of Chad Elliott.

Elliott faces a trio of returnees in the battle for the starting job. Troy Nunes and Madei Williams took most of the snaps last year, and redshirt freshman R.J. Anderson joins the incumbents for his joinst season.

Elliott's biggest problem in competing with the trio is their understanding of the complex Orange attack. After recent late-April practices, he is slowly beginning to get the rhythm of the offense.
"In the spring, I'm just trying to learn the offense," Elliott said. "Right now, I'm way behind the other guys as far as little things like cadence and just knowing who to hit at the right time. But I'll catch up."

Elliott's story began near the beaches of the Pacific Ocean before he landed in Central New York.

Born and raised in Grass Valley, Calif., near Sacramento, he led Grant High School with staggering numbers.

In his senior year alone, Elliott threw for 3,175 yards and 47 touchdowns with only three interceptions. He was an All-State selection and an honorable mention USA Today All-American

The 6 -foot-3, 200-pound QB took his impressive résumé and talents to Arizona State. He redshirted in his first year He redshirted in his first year
with the Sun Devils, but with the Sun Devils,
played for them in 1998.

Elliott put up solid numbers in parts of nine games, going 39 -for- 73 with 375 yards. He started a game against Pac10 foe Stanford, passing for 157 yards and a TD while leading ASU to a 44-38 win.

But Elliott said the politics of Division 1 football caught up to him, so he transferred to American River Junior College back in his homenior C

He said he felt like ASU never gave him a fair shot to
compete for the starting job.
"He came in a class behind a home-state favorite son," American River head coach Don Dillon said. "(Elliott) thought he won a chance to be the guy. When the Arizona kid came back, they awarded him the job. Chad wants to play.

Instead of transferring to a D-I school and taking another redshirt year Elliott chose ro play at the JUCO level. He o play at the JUCO level. He did not disappoint in his one
ester thore last fall
He recorded numbers reminiscent of his senior year of high school statistics. At American River, Elliott threw for 2,843 yards and 19 TDs, while completing 53 percent of his passes. He also rushed 89 times for three scores in an offense Dillon said is similar to SU's attack.
"It was really important to go to junior college because I didn't have to sit out," Elliott said. "If you transfer to a Division I school from a Division I school, you have to sit out, so school, you have to sit out, so it was."

In a span of only a few months, he went from the firstclass Pac-10 to a Domino's Pizza delivery boy. He worked at the pizza joint on summer nights for some extra cash to pay for his apartment.

His one season at junior college attracted the likes of Tennessee, Clemson and Kansas State, who all actively recruited Elliott.

But when January rolled around, Syracuse proved the best fit for Elliott, who never best fisited the East Coast.

Signing with SU thrusted Elliott into the middle of the dreaded quarterback controversy.

Despite his big-time collegiate experience on the Left Coast, Elliott joined the Orangemen at the bottom of the quarterback ladder. He has made strides in recent practices.

While he struggles to learn the complexity of SU's offense, his position-mates try to help him adapt.
\({ }^{4}\) Troy and Madei are doing the same thing (for Elliott)
they did last year (for me)," Anderson said. "We're trying to help Chad out and get the things down."

For now, Elliott must catch the three returnees. Recent depth charts have Elliott sliding up to the third QB slot,
behind Nunes and Williams. If - and that is a big if he can learn the \(S U\) playbook by autumn, Elliote becomes a better candidate to receive Syracuse's first snap of the year.
"I like what they offer,"

Elliott said. "They're a program that's good and competes hard every year. I like the coaches. We're bringing back a lot of good players on both sides of the ball, which is going to allow us to have a good ing to all
season.

\section*{Demoted Ewing perseveres on SU bench \\ \section*{BY CHRIS SNOW}}

Staff Witer

Her career nurnbers speak for themselves. Her leadership is invaluable. Yet Orangewomen senior goaltender Clothilde the pipes not between the pipes.

Three weeks ago, freshman Carla Gigon replaced Ewing, thought to be one of the key comNCAA Tournament run

Ewing struggled of the ge citing the outor's gening rames as three of the poorest performances of her career. Meanwhile Gigon caught fire, earning her first start on April 8 against Rutgers and compiling a 6-0 record since.

Despite her new role as teacher rather than head coach Lisa Miller's prized pupil, Ewing accepts her responsibility to serve as a leader and support system. It's definitely different playing and being on the sidelines," she said. "But I'd be disappointed in myself if I gave up. It's one of those things where you just have to take on a different role on the team, I still feel like I'm out there".

Since Miller first notified Ewing on April 7 that Gigon would start the squad's next game, the relationship between changed, Ewing said. changed, Ewing said.

Its think it because a lot of people think it would change and think it has, she said. "People look to see how 1 ve reacted and shells?' I don't think that the coaching staff tronged meor any thing like that
"I was not playing well, and we need to win. I want our team to win and if it means me not playing, I understand that and I respect that decision."
Whether Ewing directs the defense from inside the goal crease or offers instructions and morale from the sidelines, she remains vital to the Orangewomen's success, junior All-American Katrina Hable said.
Additionally, the senior from Shaker Heights, Ohio, provides the tutelage necessary to speed up Gigon's maturity process, Hable added.
"From the beginning, we looked up to her for her leadership as the older one on the team," said Hable, who arrived on the SU Hill three years ago for the school's first season of women's lacrosse.

We all came into this new but she came in with a great attitude about everything. She's very understanding, very easy-going and she always seemed to find some way to step it up in the games. We just adopted the way she played."

While anyone with the competitive spirit Ewing embodies would atruggle not being on the Gield, the weathered backstopper makes the best of her new role, Hable said.

The ease with which Ewing moved into her new role offered the team an example of the unselfish nature it takes to win, Hable added.
well, 'I think she's handled it very well," she said. "That's the kind of person she is. She doesn't let it bother her, and she knows that she still has to stand up and be a leader. We all need her in that part, and she's done that very
cll.

Accepting that her lacrosse career is nearing its end, Ewing said the relationships she developed with her teammates made Those en easier.
er to depart \(S\) bonds will allow mernories, she said.
"I'1l remember the team the most," Ewing said. "Ill definitely remember what we accomplished together and how we jelled. These are my best friends here, and my
experience at Syracuse wouldn't be what it was without them. Ten years from now, ill remember how special the team was to me.

Ewing now focuses primarily on schooling Gigon in the rigors of collegiate lacrosse. Playing her way to an undeteated record, Gigon said she takes full advantage of Ewing's presence in practice.
"She's been so supportive since day one," said Gigon, who boasts a save percentagion a .552 and a goals aganst averin, she welcomed me with open arms. And she's encouraged me every day in practice and in the games." Offering advice while observing the freshman protége improve, Ewing said she sees Gigon's potential to become one of the nation's top goaltenders.

Quickness, confidence and an aggressive nature should bring Gigon continued success, said Ewing, who said she possesses the utmost confidence in the Hingham, Mass., native.

A broadcast journalism and political science dual major, Ewing will seek a position in the televi-
sion industry this fall.
Before then, she and senior attacker Lauren Brady plan to spend tw

Despite the fact that her career may come to an end on the sidelines, Ewing said she will always value the privilege of being the first goaltender in Orangewornen lacrosse history.

Leading her teammates to an Eastern Collegiate Athletic season, Ewing compiled an 18-6 record over her three seasons, posting a .551 save percentage and a 7.85 GAA with one shutout. "It's a great feeling to know I was here from the beginning, and I'll always treasure that,"
she said. "I'll always be in the first picture of the Syracuse womn's lacrosse team, and that's great.

I guess in 20 years I'll feel really old because 1 can say, was on the first team.' That will always be something that will be special to me and the rest of my teammates.

continued from page 13
you face different hitters, it's a big change, SU head coach Mary Jo Firnbachsaid. "I have very high expectations for everyone in this program, and Tara is definitely fulfilling a lot of the expectations I had for her--

The Orangewomen struggled to score against the Big Red, winning the game in the first extra inning. However, the team felt comfortable get on base, let alone score.

DiMaggio, a Hopewell Junction native, struck out 11 Big Red batters while going all eight innings for her 13 th win of the scason. She did not give upa hit untila fifth-inning single by Annette Sheppard. After a leadorf bloop sin-
gle in the bottom of the
eighth Dimageio settled eighth, Dimaggio settled striking out the final two cornell hitters.

We're very confident playing with Tara; said Treshman catcher Cheryl DiMaggio's recent streak
from behind the plate. "Hitters don't dowell against her, and we know that. We kind of take that for granted sometimes."

DiMaggio was one of the top three high school pitchers in New York state, leading wohn Jay High School to a \(91-12\) record in four years. cluding four in a row, and cluding four in a
two perfect games.
two parly in her first collegiate season, Firnbach's giate season, Fifritachs yecting on her pitches, which include a low riseball that
spins well and a dropball that is devastating when she commandés it.

DiMafgio broke out for 14 strikeouts in the SU's home opener against Binghamton on April 6.

Since then, she holds 6 2 record and stands at 13-10 overall with a 1.39 ERA. Dimaggio has fanned 20
ters in \(1752 / 3\) innings
ters in a point about a few weeks ago, she was struggling a little bit," Firnbach said. "I think she knew that. so she's been working harder so making changes and a few adjustments in her spins.
"She's really kind of riding with this confidence right now, and hitting her spots. She's starting to learn the game a little bit more."

Dimaggio said the large number of games that were cancelled recently due to weather hurt her momentum after the Binghamton game. Now that the orangewomen are she caid thines are startly, she said, things a
ing to fall into place.
ing "I feel like I"ve gotten a lack of work just because of the fact we've gotten rained the fact we ve gotcen rained.
out somuch," DiMaggio said. - Now that we're playing some more games, it's easier to get into a groove and start throwing well."

The ball began rolling for DiMaggio when she pitched shutouts in both games of a twinbill at Siena last Thursday.
gave up three hits in a \(2-0\) win in the opener and fol-
lowed by mowing down 11 Saints in the 6-0 nightcap allowing only four hits.

The Bimaggio Express picked up steam with her nono on Thesday. Fimbach said the Syracuse defense figured something magical wask because there weren't many balls hit to them.
* It doesn't surprise me at all. Firnbach said. "She was due, and against a team like Buffalo I think it was good that she didnt play down to their level. She was definitely more advanced than some of their hitters.

The players in the field probably knew what was hap pening. but the Dimaggio Julicher battery tandem was unaware.
"I didn't really think about it until the end when we were told, Julicher said She's been on a great game Shers been on a streak rately so hey, let's keep it going." With junior Missy Bie man also in the rotation,
DiMagio does nothave to Ditch every game. However now that DiMaggio has overcome her early struggles Fimbach said the freshman is ready for \(D-1\).
\({ }^{4}\) I thought she would struggle early on," the coach said. "I didn't know how she'd respond to it, but she's a tough kid. She's a competi tor.
She She doesn't like to lose. Ghe knows she's a lot better ina what she s been show through."

\section*{The Daily Orange}

April 27, 2000
I started my career with them," Byrnes silid, "and now them, Byrnes sand reer with them."

However, a Syracuse lacrosse career void of a nareer unfulfilled.

And although he may not have the hardest shot or the fastest legs on the team, Byrnes might help lead the Orangemen to their first title in five years.
"He just puts his heart on his sleeve," Ceglia said. "He's a guy you can depend on." up in the second half of the season," Desko said. think he was going to be denied."

Recent opponents have tried to focus on slowing down the Syracuse attackmen, making offensive production from multiple midfield lines even more crucial. The strategy benefits Byrnes, who scored six of his 11 goals in the last four games.
"It's just really easy to play with him because he brings, a very good comfort level," said Smith, who is also Byrnes' roommate. "He is a good friend of everyone on
the team."
Byrnes says he always wanted to play for the Syracuse team, but not only in lacrosse. He also was a big knowledging its storied past. "It's just a tradition I wanted to be part of," he said. Byrnes earned four varsity letters in each sport at Baldwin Senior High School. As a result, he knew he wanted to attend Syracuse at an early age.

Although Byrnes grew up dolizing Orangemen legends Gary and Paul Gait, it was teammates such as Casey

Powell and Rob Kavovit who took him under their wings and kept him headed in the right direction during his tude motivates him to help the team's newcomers.

Among this
ounger players are two of Byrnes' former high school teammates from Baldwin: sophomore starting defender Billy St. George and freshman midfielder Mike Smith.

Byrnes helped bring those two players to Central New York because besides starring in lacrosse, they are also good people, he said.

\section*{ \\ SUNY BROCKPORT.}

\section*{SPLIT}
continued from page 13 eighth with a single up the middle past a diving Big Red shortstop Joanne Keck. With one out, Richards bunted Collins to third.

Third baseman Jackie Herrman then smacked a single to right field. Before right fielder Kelly Olino could throw out Herrman at first,

The Daily Orange
scored the go-ahead run. DiMaggio closed the game in the bottom half of the inning to give the Orangewomen a 1-0 win. She finished with 11 strikeouts, including four innings with two Ks .
"She's been pitching great lately," Herrman said. "If we didn't win that game, that would have been our fault because she's pitched awesome."

SU struggled at the plate
on the afternoon. While DiMaggio dominated in game one, Syracuse did not have the luxury of its ace for game two.

Syracuse took a 1-0 lead in the top of the third inning as Collins grounded to Keck, who threw the ball over first baseman Drew Martin's head and into the Cornell dugout.

The error enabled Collins to advance to second with no outs. After a Park groundout

and a Richards walk, Herrman hit a sacrifice fy, giving SU the early lead.
Cornell answered in the bottom of the inning, as center fielder Eva Nahorniak singled up the middle. After a Keck bunt moved Nahorniak to second, SU pitcher Mis sy Bieman got wild.

She walked one batter and hit the next two, loading the bases with only one out. Bieman struck the next batter out, but sheppard followed porniak from third base.

Cornell scored a second run as designated player Christina Trout followed with a single to put the Big Red a single t
ahead \(2-1\).

After retiring the Orangewomen in order in the fourth, Cornell got an insurance run in the bottom of the inning on a dropped third strike by catcher Chery Julicher. The miscue allowed Nahorniak to score from third.

Richards opened the top of the sixth inning with a single to center field. After a Herrman bunt moved Richards to second, Julicher laced a double to the gap in Richards and pull SU to with
in one at 3-2.
"I had been struggling all day. Hitting hard, just at people," Julicher said. "I got it through in the gap. It's our job and we expect everyone to do it so if it wasn't me, it should have been someone else."

The Orangewomen had another chance in the top of the seventh inning. After left fieder Shanna Newel sin gled to start the inning, Park But Richards was unable to bnock in the run eround knock in the run, grounding out "It"s
"It's a bunting game," Firnbach said. "We have to execute and we had the situation set up the way we needed. Lindsay has been hitting the ball well and hitting it into the gap, so we would have scored her. This time, she just didn't come through."

And a day after the Orangewomen scored 17 runs in a doubleheader against Buffalo, all they could manage against Cornell was three.
against Corme out a little slow in the second game," Julicher in the second game, Julicher said. We didn't really get it
done. Our offense kind of struggled in the first game struggled in the first game but we came back and got it just didn't execute.*

continued from page 24
gin to twitch. She's tired
I wonder if you're going to son say
"Ill be fine," says Marciano, a bit peeved by the interrogative.

It's the defiance, the will to ecover, that Marciano says drives her. Rehab is no joke. Many patients fall into a vicious cycle where they corae to the center, stay for a year, go home and return the next year, says Cheryl Wolgamott, a physical therapist assistant.

Marciano is different, Wolgamott says. She works hard and dedicates herself to the weight raining.

When Marciano started veight training in rehab, she could pull a quarter-pound weight on the nautilus unit. Today, she pulls 40 pounds.

Marked improvement is crucial, Wolgamott says, if the patient want
ble.
"You can't use your legs, so you have to lift your entire body weight. It's very exhausting,' she says. "It's like somebody strapped with a sack of potatoes. It's dead weight. You feel really heavy"

Marciano chimes in: "Then there's the emotion and depres"You deal with everything," Wolgamott says.

A reserved yet ambitious small-town girl, Marciano came to SU from New Market, N.H., her latest stop in a whirlwind childhood as the daughter of a military man.

When applying for colleges, she figured she would stay sominewhere close to home - maybe the University of New Hampshire or the University of Massachusetts. But her high school guidance counselor told her she needed to apply to an extra school. er on the brochure," Marciano
says, "and I kinda picked it at random."

After a successful campus visit, Syracuse was the choice. After spending four years at SU - she took a semester off after a car accident - Marciano was pearing up for a fifth, during which she would earn her degree in aerospace engineering.

Life was going to be fun. You could read it like a map: Earn a degree. Get a pilot's license this summer. Go to pilot training within a year. Become a fighter pilot.

I basically had my life planned out, everything I wanted to do, and it was actually attainble, Marciano says, sipping a latthem Starbucks. And I felt like threw it all away over a stupid

A day later, with Marciano in somewhat-stable condition, a hospital administrator told The Daily Orange, Is she going to die?
Probably not. Is she going to get Probably n
well? No."
"I woke up," Marciano says, and I realized I was in the hospital with all these people around me. I saw all the machines. And I didn't know what happened at ion beca. It was more of a confuhappened.
ith tubes down her throat and her body numbed by drugs,

I basically had my life planned out, everything I wanted to do, and it was actually attainable. \(\bar{y}\)

\section*{LESLIE MARCIANO}

Marciano could barely communicate with the doctors, Wieners and she managed to mouth sors says, when sheged to mouth something When she awoke, something insible paralysis. Marciano said
"If I could," Marciano says, "I would instantly go back to the way I was. I can say, 'Oh, I'm better now that I have the knowledge.' Yeah, but I would rather be ignorant and the way I was before.
don't think about it and don't re e hardest part was not dwelling on it.

Marciano admits she drowns herself in self-criticism. Why this? Why that?

Why me?
"Put yourself in that position," Wieners says. "You're living a dream. You're at an elite uni versity. And then it's taken away."

The Daily Orange
After the initial surgeries, Marciano realized she could recover. She didn't know how much movement she would regain, but she wanted to locus on one those Foals: getting back into the Air ree.
ROTC duringo registered for ROTC during the second semes-
ter of her freshman year. She "got into it" during her sophomore year, joining the Arnold Air Sociyear, joining the Arnold Air Soci-
ety, an ROTC service organiza She stood out among her She stood out among her sistant position at Lackland Air Force Base in San Antonio las summer. Marciano ran boot camp for 25 incoming cadets, yelling and screaming and disciplining them.

But after the accident, Mar ciano does not know if her physical fitness level will suffice for the Air Force's strict standards. Spinal chord injury patients, Johnson says, usually take one to one-and-a-half years to fully recover.
"I don't want to be too hopeful that the Air Force will take me back, but in a way I do," Marciano says. "I'm going to give it rny best back, I won't be ingers don't come physical stuft"

Marciano says her C-7 verte bra sustained the worst injury bra sustained the worst injury The extensors on her hand do not fully function, she says. Marciano cannot shake a hand or complete ly grip anything.
When picling up her veggie burger at Bakers Square, Marciano maneuvers her hands un derneath and tries to pinch it with her forefinger and thumb.

Her mother is there to helplike always. When Leslie Marciano's backbone wasn't function ing, Mindy served as an interim.

And even as Leslie improved - alter the latest surgery, he back is stronger than it was pre injury, Wieners says - mom is the constant.

Weeks before Marciano's fall, Mindy and Leslie's father, John separated. He now lives in Mass

\section*{April 27, 2000}
achusetts, and Mindy moved here, a 20 -minute drive from Rancho Los Amigos.
"It's hard," says Mindy Marciano, a tear streaming down her left cheek. "Sometimes, I don't Sometimes, I'm thinking, 'How did Sometimes, I'
we survive?

Leslie Marciano sits in Rancho Los Amigos, stretching her knce. A patient rols up and greets 1er. Marciano shimmies her legs what she's been doing lately.
"Look at this," he says, looking down. His legs flinch, ever-so slightly. "They're moving. A little."

The man has full movement in his upper body - which he has sculpted rock solid - but his injury is complete. His hopes of walking are almost zero, Marciano says.
"I see the new patients coming in, and they're so hopeful that one day they'il walk," she says. "You don't want to be the one to ell them they probably won't."

Marciano has been there. She knows about the doubts, the regrets, the seli-pity. And she has paralysis.

Upon her return to SU, Marciano will live in the Center for Really Neat Research, 500 University Place, which will help re-acquaint her with the normal life she so desires.

She'll grow her hair back and go to Bruegger's Bagels with \(h\)
friends and watch

She'll be on her own, trying to do the little things all over again. I'm going to have to do stuff on my own, and in a way it's scary, Marciano says. But have to suck it up and deal with it. Its going to be a challenge. 1 m And kid'sing anyone about that. because I'm not very independent at the moment.
"But I don't see it as a longterm problem. The more I do stuff, the better I get."

\section*{BY JEFFF PASSAN}

Asst. Sports Editor
LAKEWOOD, Calif. - It's a constant struggle, Leslie Marciano says, to do the little things.

It took a few months to re-learn how to walk Cooking a meal is always an adventure. Taking a bath is difficult, still. Putting socks on is her toughest task.

Nearly eight months after falling off a railing on the balcony of her second-story South Campus apartment and severely traumatizing four verteveryday life, something she owned lost and now veryday lite, something she owned lost and now ongs for.
and, she says, her happiness lies in a return to Syracuse University
"I miss knowing where everything is," Marciano says. "My life there. The academics. The ROTC. The worst is being stuck in a bed with nothing to do except watch five channels on TV."

Marciano plans to book a flight to Syracuse for May 10 or 11 so she can watch her friends graduate, says her mother, Mindy

The 22-year-old will then stay at SU for the ummer to take a course or two and work herself back into a normal daily routine

Less than a year ago, Leslie Marciano was completely paralyzed with no hope of recovery, and doctors gave her a five percent chance of walking again.

Now, all she wants to do is fly - Literally and figuratively.

Does it feel like it's gonna break?' asks Renée Johnson, twisting and kneading Marciano's left knee as if it were a piece of dough

Uh-huh," is all Marciano can say
Welcome to rehab
Marciano comes to the Rancho Los Amigos Medical Center in Downey, Calif., every Monday, Wednesday and Friday, usually for a couple of hours.

Today, her usua therapist, Leslie Porter, is off, so Manciano works with Johnson, in her IIth year at the hospital.

Looking around the room, 22 wheelchairs, some primitive and some containing video-game-like joyticks, clutter up one corner. In another corner sits man with complete paralysis - in layman's terms, he has no chance of adidional limb movement with a breathing tube affixed to his throat. A man in his sixties sits about 10 feet from Marciano, slowly pedaling a stationary ekercise bike with the help of two family members.

Former soccer star Gabriel Gervais now runs with the Rochester Raging Rhinos in the ALeaglue, one step below the MLS. The forward helped pace a Syracuse attach last season that fed the tram to its first Big East semifinal appearance since 1990.

\section*{KICK ITUP A NOTCH \\ - Gabriel Gervais conquered Big East soccer. Now he tries to do the same in the A-League.}

\section*{\(\left[\begin{array}{l}\text { BY JOSH LUKIN } \\ \text { STAFF WRITER }\end{array}\right]\)}

Keith Bulluck waited 29 picks before NFL. Commissioner Paul Tagliabue called his name.

Jason Hart and Etan Thomas will sweat it out until the NBA picks its rookies in June.

But for one Syracuse star; the not-as-bright lights of his draft already passed.

Gabriel Gervais, a forward on the SU soccer team last season, was selected Feb. 9 by the Rochester Raging Rhimos of the A-League.

The A-League is only one step below the level of Major League Soccer, and the Rhinos made.the former SU star their first pick in the ciraft.

Earlier in the year, the Montreal Impact of the Na tional Professional Soccer League picked Gervais in the league's territorial draft. He turned down the invitation, however.

Gervais is now Rochester-bound, finding himself
in a position of which he has always dreamed. "I definitely wanted to keep playing after graduation." Gervais said. "Ever since I came to SU, I wanted to play proball, and I couldn't be in a better pasition righit now."

The Rhinos are one of the premier tearns in the ALeague and won the U.S. Open Cup this past fall. In addition, a new soccer stadium awaits the team in the near future after the New York State Legislature passed a bill this past'Aprif, allocating \(\$ 15\) million to build PaeTec Park

The competition to stay on the Rochester roster is fierce, but Gervais said he feels as if his years at Syracuse helped prepare him for the moment.

The Big East. is one of the best conferences in the country with a good mix of techmical and physical players, Gervais said. But Im most thanidul to the coaches. They worked real hard to make me a more complete player, and they weren't afraid to point out any aspects ineeded to improve.

The coaches downplay the role they had in his success but said Gervais has the talent to sompete in
the A-League right now - and the potential to reach the MLS.

Gervais first found out the Rhinos chose him via the Internet. The draft was posted on the Web as each selection was made, and as Rochester decided on Gervais, his name appeared on screen.

Within minutes, Gervais said, he received calls from almost all of his teammates which he regards as the highlight of the day and a true mark of the Orangemen.
"The fact that they all called really gives a good idea of how this team works and how ungelfish everyone is," Gervais said. "Everyone is concerned with the success of their teammates, and I've really beeni able to make some great friends because of it:-

Gervaib; whio grèw up in Brossard, Quebec, transferred to Syracuse after one season at McGill University. in Montreal.
achicution to the high levels of academic and athletic achievement present on campus, Gervais credits

rincess despises running.
She hates the Syracuse winters that force her to train inside mearly half the year, and she takes exception to the jokes her teammates crack bout her newest shatiered record.

Oh, and if you're reading, dad, don't bother calling anymore. She hates you, too.

Heed the warning, because the last thing you vant to do is tick Princess off. After all, she spen he bulk of her college career outlifting wide te ceivers on both coasts.

For fun, Princess grabs a one-kilogram discus whirls herself three times and chucks it more than 60 yards

When that bores her, she lifts a four-kilo shot to her right cheek, shifts her 225 pounds from her right foot to her left and puts the heavy ball 56 feet.

Those heaves place Princess in the top 10 in the United States in the two events and make her a contender for a spot on the Uaited States* 2000 Olympic team

She might not block jump shots into the sixth row or scramble for 12 yards on a critical third-and-eight, but the five time Al-American ranks as the most decorated athlete on the Syracuse cam-
pus.

Just half a decade ago however, the 6-foothigh schooler appeared ticketed to a Division III career
Everything changed with a phone call and a ballet ciass.

New to the college coaching ranks in 1997, Can dy Roberts wanted a star. She won the Pac-10 dis cus championship as a UCL.A. Bruin three years ear ier and started coaching at Cal State Northridge afker graduation.

Talent dipped a bit from premier track and feld program to Northridge, a Big Sky Conference school. Roberts worked with a handful of skilled throwers, but no one whom she could push to the top.

Down the road at Littlerock High School, Cheree Hicks transformed herself from awkward basketball center to track and field star and school Homecoming queen.

She wron the discus at the Southern California sectionals her genior year, but only nearby Sacra mento State offered her a Division I scholarship.

Until the phone call
Littlerock track coach Jim Bauer told Roberts about his improving thrower. Hicks and her mom,

Tina, then visited Northridge, Roberts cendered ascholar. ship and Hicks found herself a college.

Roberts, meanwhile, found herself a gangly, uncoordinated technique.
"Cheree's abig
girl," Roberts said. "We tried to develop her motor coordination. In highly technical movements, she struggled a little bit."."

In Hicks' first semester at Northridge, Roberts enrolled her in a ballet class. A popular option for agility, the new training brought the freshman from pushover to prodigy.

Hicks became more consistent with her technique. Instead of toppling over in the middle of her three-spin discus approach, the motion became fuid, and Hicks' distances started to multiply.

Ballet class taught me to concentrate on individual parts of my body," she said. "I could get them to do what I want to do. The throw is only 10 seconds long, and I can feel everything I'm doing wrong and everything I'm doing right.

By Memorial Day 1997, Hicks became the first freshman All-American in Northridge history. After that season. Roberts confronted Hicks about dedicating herself to bigger longterm goals.

The talk of national titles and Olympic appearances electrified Hicks, and she allowed Roberts to mold her into a champion.

She regretted the choice almost immediately. The workouts got too tough, the weight sessions so ifficult she would whimper between repetitions Hicks' early trouble earned her the nickname that ticks today.
"She called me 'Princess" and told me I was too prissy to be a thrower," Hicka said. "Roberts rode me all freshman year. She told me I'd never be \(a\) good thrower."

Hicks continued to train under Roberts, but a ream of attending school outside California suraced in her mind. Roberts leaving Northridge to take a job at Syracuse sealed the deal.

Hieks had always dreamed of leaving California o attend college. She checked out North Carolina and Wyoming before narrowing her choiees to UChe and Syracuse. At the last moment, she followed Roberts to New York.

UCLA was right around the corner from my house," ghe said. "They had a great coach, but I'm a person who likes to stand out. I wasn't going to ump on the bandwagon and go to UCLA.

Leaving Northridge meant leaving home, where her mother served as a constant calming infuence Hicks* brother George, 26, promotes up-and-coming

Dad, however, no longer factors into Cheree's
daughter turned 15 .

With Chried 15 . and took off just aiter his ( sional surprisc blone call But her with the occa bitterness towe phone call. But herlove for mom and the door every time.
"He's always trying to call," she said. "l'dl talk to him when my luck is down and I have nothing to contribute

With dad a bad memory and mom 3,000 miles away, the significance of the relationship between Hicks and Roberts becornes magnified.

Roberts mentored her protégé through a rough first year at SU. Hicks needed to take six classes each semester to bull her way through the introductory courses in the S.I. Newhouse School of Public Communications, where she studies public relations.

Hicks also needed to adjust her training regi men, moving inside to avoid the winter's cold aod snow. Instead of practicing on the fieldaround New Year's, Hicks fired the discus into the net, and her early performances fell short of her past throws

Roberts encouraged a frustrated Hicks and en sured her that the throws would improve. In Feb ruary 1999 , she shattered the Big East record in the shot put, and a month later she finished fourth in the mation in that event.

The bonds built that first winter in Syracuse hold today and help boost Hicks to her highest potential.
"You can't do what we do without having com plete trust in your coach, said Tim Adrian, a SU freshman who works out with Hicks. She doe every single thing her coach tells her and a thed all pomers She rolled through the eenson ished ald throwing events Those performances sparked the ribbing from her teammetes that Hicks wishes would stop.

At the NCAAs late last spring, her best diseus toss merited her a third-place finish. She ended up sixth in the shot as well and garnered All-America honors in both.

This season followed a similar pattern of excellence. She placed second in the shot at the Indoor NCAAs at the University of Arkansas with a throw of \(55^{\circ} 7^{\prime \prime}\).

See HICKS page 10

Pint-sized Shannon Perry remained a rebounding force to be reckoned with, especially on the offersive glass. The freshman guard was named to the AlfBlg East Roofie team.
\(\left[\begin{array}{l}\text { BY CHRIS SNOW } \\ \text { STAFF WRITER }\end{array}\right]\)

Today, the 5
\(t\) the tender age of 10 , Syracuse wornen's basketball player Shmmon Perry first stepped onto the court at the Fox Point Boys and Girls Club in Providence, R.I., with players three years her elder.
Today, the 5-foot-8 freshman phenom overcomes her lack of collegiate experience and height with the same enthusiasm and dogged determinism.
"She is just a really neat kid," SU coach Marianna Freeman ain. dition to us as a youngster on the noor with a certain maturity to her that players a few years in sometimes don't have.'

The shooting guard earned her introduction to the sport from her brother Derrick, who is three years older. Playing orgastoud out as the only female and one of the strongest-willed players on the team.
*There really was nothing else for her to do coming from a amily of all boys," said Perry's mother, Robin. She did what they did, and I was somewhat surprised. But she really had a passien. There's a drive I see in her, and it's something that she has always lund."

Perry averaged 11.0 points and a whopping 7.3 rebournds per game this season in just. 29-plus minutes per contest.
Snatching the Rhode Island star away from Providence College, Notre Dame and Temple last winter marked no easy task for SU, though.

A significant component to Perry's decision sprung from her relationship with former Orangemen assistant basketball coach Louis Orr. Orr's daughter, Monica Mack, played Catholic Youth Organization basketball with Perry at Holy Name in Providence.

In her senior year at LaSalle Academy, she averaged 25 points, 15 rebounds and seven steals and led the Rrams to a Division I Rhode Island state title. Perry never lost more than 20 games total - including youth leagues - prior to entering SU. she said.

So the agony of stomaching defeat with bothersome regularity this season left the 20 -year-old searching for answars. The Orengewomen's 10-18 record and afirst-round loss to Georgetown in the Big East Tournament should never have occurred, Perry said.

A 76-73 early-season loss to Lowa in the Hawkeye Classic plagued the team throughout its season, she said, Failing to shake the loss, the Orangewomen lapsed, after a 7-3 beginning, with a 3-15 finish

The season-ending skid included two losses to an inferior Se on Hall squad, one to last-place West Virginia and a defeat at the hands of a Viilanova team SU already had beaten.

A rival and a reconstructed mental approach should cey a revival of SUs program next season, Perry said, who noted poor communication during rocky times as hindering team development.

\section*{\(\left[\begin{array}{l}\text { THE YEAR } \\ \text { IN SPORTS }\end{array}\right]\)}

Alen Griffin lost his starting spot to Tony Blamd last season but carre back in the NCAA Toumament to score a team-high 1.4 points against a stingy Michigan State defense in SU's \(75-5 S\) Sweet IG loss.

\section*{- A newfound maturity gives Allen Griffin the moxie to take over the men's basketball leadership.}

\section*{\(\left[\begin{array}{l}\text { BY JEFF PASSAN } \\ \text { ASST. SPORTS EDITOR }\end{array}\right]\)}

Allen Griffin and his boys on the Syracuse basketball tearn had a newfangled idea.

They would wear Nike headbands as a show of team unity, 日 show of togetherness, a show of the fisture.

They called themselves the Four Amigos. It was 6-foot-1 A1, a starter-turned-bench player, Damone Brown, the explosive starting forward, Tony Bland, the mercurial starting shooting guard and DeShaun Willisuns, the sharpshooting freshman.

Grifina, a junior, was the de facto leader of the foursome. A point guard with a shooting guard's mentality - he started at the two his sophomore season - Griffin was the honcho of the headbanded.

After Jason Hart graduated, AG would be the man, the floor general, the one in charge. He wore the hendband with pride and dignity during the first half of the Orangemen's game against Georgetown on Feb. 27.

But as he left the locker room and jogged onto the Carrier Dorne court in the second hati, the headband was conspricuonsly missing

I tool it off because I was sweating," Grifin
now says, with a sheepish grin, "and DeShaun picked it up and put it around his wrist, thinking it was a wristband.

OK, so AG was off his game that evening. It happens. And it's part of the whole package he presents.

This is Allen Grifina: part goof, part hoop junkie and an integral part of Syracuse's chance at success next beason.

Griffin started playing basketball seriously when he was 12 years old \(A\) multi-sport athlete, basketball gripped him. While others in his Brooklya neighborhood depended on drugs, hoops remained Grifin's vice.

And each day, like clockwork, AG headed to the streets.

There were grys out there who were as good as you, or even better, he said. "In order to gain respect, you had to compete against those grys. And I did it day-in and day-out.

He knew he could play, and play awfully well. Griffin's first tattoo, a bald eagle - he was nicknamued "Bird" because his friends thought he looked like one - has a yellow claw gripping an orange basketball.

Basketball served as a distraction from

\section*{Starting over}

After teaming with Jason Hart to form SU's starting backcourt two seasons ago, Alten Griffin saw his time on the court shrink considerably last season.

This didn't limit the contributions from the junior guard, though, as the stepped up when Hart was in foul trouble against Boston College and played well at St. John's in a 75-75 Orangemen loss.

In the seasom-ending defeat against Michigan State, Griffin played his best game of the season, scoring 14 points off the bench. His 10 firsthaif points helped spark \(5 U\) to a decided 34 24 lead at intemission.

With the graduation of Hart, Griffin hopes to earn playing time similar to his sophomore-season numbers when Syracuse takes the court next season.

When Mary Jo Firnbach arrived at Syracuse University in July 1998 to coach the new Orangewomen softball team, all she had to work with House office.

Today, a prominent decoration sits on a shelf by that same desk - the trophy from her team's Girst tournament victory, last month in the Southern Illinois Salnki Invitational.

The 17 players who wear the orange and bue raade history again April 6, when SU swept Binghamton in a doubleheader, the first regular season home games ever at the Softhall Stadrum at Skytop.

Construction of the stadium had not yet begun when Firnbach moved to Syracuse from Ilinois State, where she served as an assistant or the new coach grve her input on the building process, much like how she cyersaw the process of
creating the first Syracuse softhail team
It was a huge move because I was a litule nervous and also excited about the chance to have my first head coaching experience," Firnbach said. "It was a whole new environment. The biggest challenge was sitting at this desk and coming in night after night, making phone call and trying to tigure out
ask with the same zeal she poor her Southe playing third base and captaining her Southernilinois bquad to the

So far, the dedication has paid off. The Orangewornen stood at 21-20-1 through Tuesday, exceeding the goal of 500 Firnbach set before the season.

We've had our ups and downs, but we all know what we're capable of," junior pitcher Missy Bieman said. That's maybe why we expect a lot of ourselves because we know that we're a really good program and that we're capable of being up there
the top teams.
the

Spring Break, the team also endured a topsy turvy trip back to Syracuse. The Orangewomen's uggage was lost and damaged, and the players slept overnight in Atlanta International Airport The team responded by rattling off nine wins in 12 games, including four victories in the Saluki tourney. With every subsequent achievement, the Orangewomen add to the first chapter of their sto ry.

I think they've sumprised everybody, includ ing the coaching staff," SU Director of Athletics Jake Crouthamel said. "They're certainly competiteam, no with the exception of one or two on that before \({ }^{w}\) one had played intercollegiate athletics

In addition to teaming together, the Syracuse players quickly became the best of friends. Firmbach hosted a cookout at her house before achool started and saw that it took the players a little while to mingle and ovencome initial apprehenssion. Once classes started and the team began practice, however, the 17 players - hailing from

One of the fastast players in the Biz East senior forward Kelly Hambleton earned second-team Al-America status. She had 17 goals and sever assists to lead the Orangewomen to the Big East finals.

\section*{graduating \\ }

Their personalities may differ, but Kelly Hambleton and Tracy Larkin brought the same fire to Syracuse field hockey.

The last thing Tracy Larkin wanted to do that day was talk to reporters.

Trying to hold back her tears, Larkin quietly reflected on Syracuse's 2-0 loss to Connecticut on Nov. 7 in the Big East Field Hockey Championship game at Coyne Field.

The usually jubilant senior co-captain looked as if her greatest treasure was lost forever. To Larkin and the eight other seniors on the Orangewornen squad, it was.

Larkin and feilow senior kelly Hambleton were the leaders of the squad, emotionally and statistically. And when they lost that garse, they lost their last chance to win a Big East Championship.

There was a lot about pride with thern," juior defender Colleen Cech said. They both put everything on the line in the last garme against

UConn. They really knew the potential of this program, and they wanted to be the ones to get us there. We came pretty darn close though."

The hollow feeling exhibited by Larkin and Hambleton showed the intense emotion the two seniors hold toward SU field hockey. Each has dedicated four years to a program, and both say it has been a major part of their lives since well before they first stepped foot on the Hill.

Living only an hour from SU in nearby Greene, Larkin frequently visited Syracuse athletic events. Her father is a graduate of SU as is her older sister, Felly, who was an AllAmerican on the 1991 field hockey team.

Larkin saw every SU field hockey home game since her sister first zook to the Coyme Field turf. Her decision to attend SU was simple.
"I was born and raised an hour away from here," Larkin said. "It's in my blood. Tve been followigg the sport since I was 11 . There is a larg-
er connection for me to the tearn than most people come in here with.'

Hambleton's journey from suburban Philadelphia to the Salt City rode a similar course. Both of her parents and an uncle attended Syracuse, and her father lettered in foothall from 1971-73.

Like her teammate, there was no other choice for Hambleton but Syracuse.

Before I came here, Syracuse was my parents" place," Hambleton said. "For the last four years, it's been my place. Field hockey has been like a farnily to me. Coach (kathleen Parker) makes fun of me that my blood bleeds orange, and it totally does.

The orange blood that pours out of Hambleton's and Larkin's veins is the type Parker likes to pump. She tries to recruit players with the love for the school and program that Hambleton and Larkin possess.

We saw great competitiveness in them,"

\section*{Pointed Comparison}

Undoubtedly two of the best players in Syracuse lacrosse history，Ryan and Casey Powell have enjoyed a great degree of success on the Carrier Dome turf．Both are All－Americans，both were or are regarded among the best play ers in the country，both wear No．22．And they remain best friends．

Along with the Gait brothers，the Powells rank as one of the top two brother combinations to ever don the orange and blue．

Current Orangeman Ryan matches up statistically with professional lax player Casey and is gaining ground on the Syracuse career point leader with each passing game．

Regardless of where the two end up on the scoring charts，they will be remembered for the indelible mark they left on the program．Remember， Ryan＇s career at Syracuse will go for two more regular－season games，plus the postseason．
＊＊Numbers in parentheses denote rankings on all－time SU lists

傢逗 RECORD

SU senior Ryan Powell is geining on his brother Casey＇s alltime points record．More elusiva to the captain， thoush，remains a national championship，one of which Casey owrss and Ryan doesn＇t．

> Senior Ryan Powell leads the nation in points per game．But he＇d trade all his awards for one national championship．

\section*{［ BY GREG BISHOP ASST．SPORTS EDITOR}

With only two regular－season games and one NCAA Tournament remaining in his storied lacrosse career，Ryan Powell has scored 121 goals．
In four years at Syracuse，between 1995－98，his older brother Casey tallied 158.

Total points read similarly：Casey 287 （No． 1 all－time），Ryan 259 （No． 5 and climbing）．

And while younger brother doesn＇t hesitate in making sure older brother knows he＇s gaining ground，Ryan Powell desperately wants something Casey has， something that would maike all the hard work worth it－something that would finish shaking off Casey＇s All－American shadow．
＂He calls me up，＂Casey said，＂and will say on my answering machine after a big game，＇He＇s coming，or something ike that．I＇ll just call him up later and tell him he shouldn＇t talk to a national champion like that．

When the brothers see each other Casey doesn＇t greet Ryan with a tradi tional wave．The ring－the one from SUs national championship in 1935 － the Orengemers captain．
he Orangemen＇s captain
Every time I see him，he flashes it 0 me in front of my face as a greeting， Ryan said．＂I tallk to my brother all the
time on the phone，and he＇s rubbing it in about the ring on his finger
＂My brother and I are very close， and we＇ve just been so competitive throughout our lives．That＇s something that I want to stick back in his face．I want to show him that \(I\) was capable of getting one，too，and leading a team to one of these．＂

\section*{Brotherly love}

For the Powell brothers，winning a national chanpionship has always been the first and foremost goai，dating back to when Casey was in sixth grade and Ryan in fourth．That＇s when the broth ers picked up sticks for the first time．

Growing up in the small town of Carthage，a normal day had a certain rhythm to it，beginning and ending with lacrosse as top priority．

The brothers，who were the first in their town with lacrosse equipment would sleep with their sticks the night be－ fore a game and bring the precious pos－ gessions to school．They would play wal ball at the elementary school next to their house and turn on a spotlight when it got dark to practice more，Ryan said．

The backyard consisted of a dirt field and served as the Powell battie ground． Fights would occur almost weekly， Casey said，as the brothers honed what would become All－American lax skills behind the house．

\section*{Police, students prepare for \\ riot anniversary}

BY ASHLEIGH GRAF Staff Writer

As the anniversary of last year's Livingstock block party riot approaches, Syracuse Police Department Sgt. Joe Sweeney said more patrol cars will be added to the off-campus area.
"We're trying to make everyone aware that these things aren't going to be tolerated," Sweeney said Thtirsday. "We don't want to break parties up. We're not going to go looking for action."

More than 1,000 students tried to prevent police officers from ending the annual block party on May 1. Students were destructive, igniting bonfires and throwing bottles at police officers, firefighters and city vehicles. Dozens were arrested and more than \(\$ 20,000\) in damages were reported.

A request early this month for a permit to close Livingston Avenue for anothblock party was denied by the city.
Although police said they are nat targeting parties, they will not hesitate to reprimand students if one becomes out of control, Sweeney said. This includes if a party becomes too noisy, if students overabundance of intoxicated students in an area.

Police will first inform atudents of the laws they are violating before making arrests and breaking up the party, he said.

\section*{Officials plan mock raids}

WASHINGTON, D.C. - A cadre of federal agents, professional actors, presideritial cabinet members and local oniciais wir ism raids and counterternorism responses to the use of weapons of mass destruction, in Washington D.C., Prince George's County, Md.; Denver and Portsmouth, N.H. during 10 days in May.
Federal offials said Attorney of Health Director Donna Shalala, and other senior leaders from the Depart ment of Defense, the Federal Emergency Management Apency the FBI, and state and local gov ermments will participate. The ex erciges in Colorado and New Hampshire were mandated by Congress, which provided \(\$ 3.5\) million for the drills. Professional actors will pretend to be victirns, testing the readiness of local hos pitals and emergency medical teams to address a major terrorist attack.

To minimize the risk of public panic or fear that an actual be uged and traffic laws will be obeyed.

\section*{Giuliani stricken by cancer}

NEW YORK CITY - New York Mayor Rudolph Giuliani announced Thursday morning waid he has prostate" what effect if any, the diagnosis may have on his high-profile campaign for U.S. Senate against first lady Hillary Rodham Clinton.

A relaxed and smiling Giuliani joked with reporters at a Gracie Mansion news conference and said doctors had detected the disease at an early, and thus highly treatable, stage,

Asked whether he would continue his carmpaign, the 55 -
year old mayor said: " don't think it's fair to answer questions about the Senate race right now. Hillary Clinton's campaign released a statement this morning wishing the mayor a quick recovery.

Prostate cancer is the second most common form of cancer among American men and, when caught an early stage, the recovery rate is very high. Treatment options include removal of the prostate gland and radiation therapy.
Giulianismadit may take up
o three weeks before he and
his doctors decide on a course of action and noted that some forms of treatment might require him to take time off, something that could affect his campaign.

Doctors diagnosed the cancer on Wednesday following a biopsy of Giulianis prostate gland. The biopsy came arter earlier blood tests of mayor had elevated levels of prostate-specific andigen, a
protein commonly called PSA.

The mayor noted his father died of prostate cancer in 1981. before the latest screening tests.

BY DAVE IEVINTHAL.
Editor in Chief
Syracuse University is Hillary Rodham Clinton territory, according to the pocketbooks of university employees.
Vice A roster of notables, including Vice Chancellor Deborah Freund, former Vice Chancellor Gershon Vincow and two college deans, have donat's US Senate campaign thmourh 1999, acoording to Federal Election Commission records.

In contrast, \(S U\) employees have yet to donate a single reported dollar to Republican rival Rudy Giulinni. The New York City mayor may be winning the overall campaign finance battle - Giuliani boasts more than \(\$ 19\) million in campaign through March 31 - but the Demo cratic first lady remains queen of the Hill

Clinton officially announced arlier this year a bid for the U.S. Senate seat being vacated by fourterm Sen. Daniel Patrick Moynihan (D-N.Y.) Giuliani, who announced Thursday he has prostate cancer, has all but officially declared his candidacy. He is planning to visit Syracuse on Monday, press spokeswoman day via e-mail.
"Im very surprised about the gap," said Mary Evans, acquisitions editor for the Syracuse University Press, who in September donated \(\$ 375\) to the Clinton campaign. This is a Republican stronghold.

Fourteen SU employees donated between \(\$ 200\) and \(\$ 500\) to the Clinton campaign, each being made between Aug. 30 and Sept. 9 , according to FEC records. Information on obtained from the FEC.

The donations coincided with he weeklong vacation of Clinton President Bill Clinton and daughter Chelsea Clinton to Central New York- It

It was at a posh outdoor fundraiser, hosted by prominent lawyer and SU Trustee Edward Green on Sept. 5 at his lakeside Cazenovia home, where several SU employees farst family.

Freund donated \(\$ 500\) to Clinon's campaign to attend the event. Although Freund said she "wasn't inclined to go," and had just relocated to Syracuse, she accepted the Cinton campaign's invitation. At the event, Freund briefly spoke with Bill Clinton, she said.
"If there is one for Mr. Giuliani, IIl go to that, too," Freund said, noting that she was advised by Chancer appearances at political events. -I muess it's a very strance position to be in."

The reasons vary as to why SU employees made contributions to Clinton's campaign. Some like Clinton's political ideals, others consider themselves loyal Democrats, still others simply do not want Giuliani representing them in the Capitol

Vincow, now a chemistry proputing and Media Services employputing and Media Services employdee Arny Devey, who to comment.

William Pooler, a sociology professor who donated \(\$ 250\) to Clinton's campaign, said the university administration never pressures employees to donate to a particular candidate. Pooler made his donation because he is a good Democrat, and believea

For Carol Schmuckler, senior publications coordinator for SU publications coordinator Clinton's News and Fublications, and message of family issues and health care that compelled her to support the first lady. Schmuckler donated \(\$ 250\) to Clinton's campaign and attended the Cazenoria fund-raiser.

While there, she said Clinton spoke eloquently to the hundreds of peoplitical topics including health care, education and poverty.
"Mrs. Clinton made a real effort to engage people in conversation," Schmuckler said. "She was charming and sincere. But I find her a ver'' intelligent woman who has
suffered publically from the backlash suffered putwith being an intelligent woman.
orous. What the hell - it was plamorous. It was a party, it was a scene, it was great.
Mary Karr, an English professor who donated \(\$ 250\), said she appreciates Clinton's familiarity with Central New York issues, like transportation and education
as ive in Upstate New York. Kmas stingy and selfish as anybody," fly from Syracuse to Philadelphia." Besides, Karr added, \({ }^{*}\) Rudy Giuliand is a horror show"

Not so fast, SU College Republican Chairman Joe Bums said.

The reason why academics are donating more money to Clinton's campaign is because academics predominately support Democrats, ever that Giulimi's compaign is in jeopardy

It just proves what conservalibes have said for years: there is a learning," he said.

Or at SU, a Clinton bias.
-It has an impact when someone is informed on the issues that concern you," Evans said of Clintan. preciate Clinton's message and preciate Clinton's mose to support her"
choose

\section*{Internships make best use of summer}

Finding a summer internbut can seem a bit daunting seems. After having recent accepted an internship with NBC's finance department, I've learned a few tricks about how to jump-start the internship search and application process.

My benefits package at NBC inciudes housing at Columbia University for the
entire summer as well as a weekly salary. Many of my
friends ask me
David how i got such Summerhill The single most important piece
of advice that \(I\) of advice that I give them and anyone else looking for an internship is this: Start early.

Last school year I learned my lesson. After starting my internship search in April, I realized that i had already missed many of the deadlines I had fell through.
Consequently, I spent the summer selling vaguum cleansummer selling vacuum clean-
ers door-to-door. I even got bit by a dog while doing it. I did well, but I told myself that I would never wait until the last minute again - or get bit by another dog again, for that matter.

When I returned to school in the fall, I started my internship search by going to
every job fair on campus. every job fair on campus. I
handed my resume out to almost every company I came across. I was determined to get something. The last thing anyone should do is be afraid to attend job fairs. You have nothing to lose - the worst they can tell you is, "Sorry, we don't have internships for the ummer.
They're especially helpful because they give you practice presenting yourself to people back from companies just because I took the time to give them my resume. The Center for Career Services is probably one of the most valuable resources on campus - and an often overlooked one.

I picked up the center's weekly publication "Career News" and found the companies that would be in town doing interviews. It was through this publication that I submitted my resume and got internship position I had internship position. I had my first interview here at the Called to New York was later called to New York City for a second interview, all expenses Christmas break that I was one of six chosen for the position.

There are a few key moves I made that I think anyone can learn from. I had a no-fear attitude to the internship search, which is vital. I gave my resume to as many compa-
nies as I could and I went numerous interviews. The companies held informational meetings before each inter view, and I made sure to attend them all so I could make early contacts.

Finally, I was persistent throughout the entire search. I did not let any setbacks discourage me from pursuing my goal. It doesn't hurt to call a company to find out if they cially if you haven't heard back from them yet heard to know that to know that they got it than you stand. portant part of securing job for the future. Why not spend your summer getting valuable work experience that could possibly lead to bigger and better things?

I'd rather do that than knock on doors in 90-degree weather and get chased by ferocious, man eating dogs. Okay, so it was just a little was mean Nomethout it sure glad to be moving up in the world.

Da

\section*{[editorial] \\ Allegations warrant nullification of votes}

This week's Student Government Association referenda is a sham.

SGA didn't like what the ballots said, so it danced around the rules and figured out another way to win its battle.

SGA Election Commissioner Chris Ryan on Thursday night charged the New York Public Interest Research Group and Assemblyman Adam Duffy with violations of SGA's Code of Statutes in this week's referendum, including illegally tampering with election materials and behaving in a threatening manner toward SGA officials throughout the referenda

In his haste to find fault with NYPLRG's actions, Ryan's written statement about the violations even implicated himself as being in violation of election codes by answering voter questions at polling stations.

The validity of Ryan's charges is highly questionable. But several serious questions spring from his statements, leaving doubts about the fairness of the entire referenda. Doubts this significant are enough to warrant a nullification of the whole referenda.

In better days, SGA maintained an impartial Elections Cornmission to oversee all voting processes. Today, however, with plummeting membership, SGA has no hope of attracting a board to run elections.

Consequently, biased SGA members man polling stations - a direct violation of Article IX, Section B of the SGA Elections Code, which states: "Polling stations shall be staffed by neutral individuals."

Voting Assemblymembers have no business running polls, force-feeding voters opinions by "answering questions" and skewing the voting habits by plastering across the tables informahabits by plastering across the tables informa tion refuting D.O. editorials - an action that mocks impartiality It also seemingly violate
Article IV, Section D of the Elections Code, Article IV, Section D of the Elections Code,
which prohibits campaign materizl at poling places.

SGA can't campaign for itself, and is bound by the election laws its members wrote.

If nothing else, this referendum has been tainted by mistrust, hidden agendas and backhanded allegations of misconduct.

The truth may never come out. But the fact that so much has been called into question justifies burning the ballots.

\section*{opinions}

\section*{Columnist reflects on merits, drawbacks of Syracuse}

An advantage of getting this column published on the last day of the newspaper's regular production is that I've got the final word of the semester. Since this is my last chance to bash Syracuse people and things, it is actually my column will be printed in the next few months. Incidentally, this is also the last time I pen for the The Daily Orange, for I will be attending a prestigious Jaw school in Washington, D.C. starting in August.

So what have I learned after my eight-month tenure as a columnist? First, I have perfected my style. I have been immensely successful in coming across as an igno-

HENRY Y.

\section*{CHUNG} rant, arrogant bastard who cares about nothing but his own perverted
worldview.

For instance, a few weeks ago, I received an email from a female colleague who is a sef-proclaimed writIn the message, she criticized a clichéd sentence that I wrote"Women are god's gifts to men"- as being "deliberately sexist and violative
of the Separation of Church and State of the Separation of Church and Stas
principle. She then amends the principle. She then amends the ness: "Wornen are the Supreme Being's gifts to bisexual omen and heterosexual men." I was enlightened.

Of course, in addition to labeling my columns as "condescending" and "pompous," my all-time favorite response opinionated." Well, if this person could actually read, he would have realized that this is indeed the "opinions" section of the newspaper. This situation is not unlike that of a college professor accusing a high school sophomore's behavior of being "sophomoric"

I hope these two individuals are unrepresentative of the Syracuse population.

So what have I really learned? Frankly, I have learned to be cynical about all things. I am cyrical to a point where I despise academic jargons such as "doctrinal theoretical underpinnings" and characterized statutory itive purpose of trapping us in a suffocating scholastic atraosphere.

Moreover, if I were to write a book about legal sub-
understood by both lawyers and lay people. The key convey thoughts is not to convuse, but to elucidate. I my articles.

But most of all, I have learned to love Syracuse, though I still believe that it is not a city. I enjoy those lazy afternoons when I stroll along the promenades of Armory Square and greet my friends who are having lunch at The Phantom Club. I cherish those moments at Hooters when my male friends and I chew the juice out of the chicken wings, talk superficially about basketball, and stare at the exotic waitresses who bring us margaritas. I entertain myself tremendously reading "Litle wornen and "Fieidi" interchangeably while sipping the Costa Rica blend at
Nancy's Coffee Cafe.
Thave also left footprints all over the Faculty Lounge, Bue Tusk Wine Bar, Pastabilites, Cosmo's, Kimmel Food Court, Westcott Cinema and Taps Bar, not to mention

Peopls Club. These are places I like.
People 1 admire include Jim of the Regatla at the Sheraton Hotel, Catfield Sinski of Marshall Street, Sara, the owner of No Borders, No Boundaries, the incredibly friendly card-swiping lady of Brockway Dining and the happy, hippie employees at Sound Garden Record Store.

Here comes the quintessential question: What will Syracuse turn into without me? First, Syracuse will also lose its chief advocate against the misconduct of the Offico
of Judicial Afairs. The Beastic Boys song, "Fight For Your of Judicial Affairs. The Beastic Boys song, "Fight For Your Rights should serve as al students motto when they face oppression from Uudiciail stairs and other administrat rights will Syracuse truly be a "student-centered" university.
Second, Syracuse will lose its premiere artificial tanning center abolitionist. I hope that a coalition will be formed to specifically boycott these centers until they all un out of business one day.

Finally, Syracuse will miss one of its most prominent, desirable, young celibate males. There will surely be fewer discussions about sorority girls, bad grammar usage and side is, quoting from "Casablanca," that we'll always have Paris.

A Syracuse University sophomore jumped off a Route 635 bridge and to her death on the night of Sept. 19, 1999.

Earlier this semester, a fourth-year forest biology and resource management major at the College of Environmental Science College of Environmental Science a shotgun , fined himself with Chevy pick -up truck into a car on Route 5.

Despite these two incidents, the SU and ESF community is normally below the national average for college student suicides. said Dr, Rebecca Dayton, clinical psychologist and director of SU Counseling Services.

The U.S. average for students aged 15 to 24 is about 1.1 a year per 10,000 students, according to the national Chronicle for Higher Education, a weekly journal. The two suicides this acade. mic year are the farst in more than seven years on either the SU or ESF campus, Dayton said.

Suicide is the third leading cause of death for college-aged students, more than any natural cause, reported the American Foundation for Suicide Preven tion.

Women on campus, however, attempt more suicides than men, Dayton noted.

SU's Mealth Services tended to eight suicide attempts last semester -all reported by wornen, Dayton said. There were only four attempts last academic yoar, she added.

More females exhibit suicide ideation, or thoughts about wanting to hurt themselves," she added. "The grood news is \(S U\) is below the national average"

The American College Health Association reported that the national four to attempts is four to eight a year per 10,000 students

Seventy-five to 80 percent of student suicides are those of men because they are more in situations yet mare women make the actual attempt, according to the health association.

\section*{Rumors to rest}

Although highly competitive schools such as the Massachusetts Institute of Technolocy and Cornell University are often rumored to have high suicide rates, school officials strike down these suggestions.

We think the rcason that the fumor is out there is becaus dents jumping off of bridges into gorges nearby campus," said Sharon Dittman, associate director of community relations at Gannett: Cornell University Health Services. "That is an unusual and more newsworthy sitwation."

Five undergraduate and five graduate Cornell students killed themselves in the past decade, said Linda Grace-Kobas, director of the Cornell News Service.

But there are about 19,000 undergraduate and graduate students attending Cornell, bringing its suicide rate below the national average, Grnce-Kobas said.

There are a variety of aupport gervices available at Cornell, including counseling and psychological services, crisis management and a iree peer counseling service to help studente deal with personal problems such as stress, loneliness, sexuality issues and relationships, she said.

We consider student suicides to be a very serious isaue." Grace-Kobas said Every student suicide is a tragedy."

Last month at MIT, a stu-

\section*{suicide rates below national norm}
dent took his own life, marking the third such incident this academic year.
"Nationally, rates have been going up over the years." said Dr. Robert M. Randolph, MIT's senior associate dean of students and undergraduate educa tion. "Suicide is high on the list of causes of death. Our suicide rates have remained fairly constant.
-We average 1.2 suicides per academic year over the last 40 years," he said. "Some years with more, many years without any."

MIT suicides attract more media coverage because of its academic reputation and location in Boston, Randolph added.
"The good news is we get lots of attention." he said. "The bad news is we get lots of attention.
"Don't belleve everything you read in the papers, unless you write it.'

Fighting pressure
Locaicampus counseling services sometimes do not see students with suicidal tenden-
cies until it is too late, Dayton said.
"There's a stigma associated with mental health," she said. -Most people don't let others know when they're feeling suicidal."

When a local student attempts or considers suicide, the university sends the person to the emergency department at

Crouse Hospital, 736 Irving Ave, and then to an area mental hospital if needed, she added. "There are so many different circumstances surrounding a suicide," she said. "The university takes every step possible to take care of the person."

Depression, anxiety and relationship problems are the three lationship problems are the three
mosi common issues involving thoughts, Dayton said.

Students contemplating sui* ide undergo a full interview and a screening for abuses, espe" cially substance abuses, by the Counseling Center at SU Health Services, Dayton added.
"We employ anything we can do," she satid.

Department completes energy savings project

A 4-year-old campus energy conservation project is nearing its end, said Timothy Sweet, director of Syracuse University energy and computing management.
"We've been going through campus, building by building, and identifying energy conservation projects," Sweet said.

Most of the building inspections are complete and teams found about \(\$ 1.5\) million in potential savings, he said.

The university previously spent about \(\$ 8\) million on energy each year, Sweet said. With the conservation project, SU will gave about 10 percent, he added.
"That's pretty significant if you look at the whole university." he said.

A large portion of the money was saved in installing more efficient lighting, he said. There were no specific buildings that were energy-wasters, although science buildings used more energy than others, Sweet said.
"But that's to be expected,"

Sweet added. "I wouldn't say they're an energy abuser. It's ust the nature of the beast.

SU spent about \(\$ 12\) million to implement the conservation project, a sum that is well worth paying since the university will save more money in the long term, he said

Now that the project is near completion, the department is ooking for more ways to further the efficiency of the university,
weet said.
"It's always a constant process," he said. "We're constantly looking for new opportu-

Sities." received three grants from various state agencies to explore additional ways to conserve energy after the project ends.

The first grant is to help explore energy-saving alternatives in the chill water plant, across from Interstate 81, that provides coolant for the university's air conditioning systems, he said.

The second grant is intended to aid SU research and compare prices of energy providers. pare prices of enell help the uniThe last grant will help the uni-
versity look toward the future and help maintain savings from the project, Sweet said.

In addition to fostering monetary savings, the reduced energy consumption is good for the environment, Sweet added.
"Most figures do translate to nitrous oxide and sulfide and various pollutants in the air, he reduce, that has an effect on the oxides produced."

While working on the project, Dan Deinhoffer, an electrician for Emerald Electrical Contractors, Inc., suffered second face, chest and arms April 20
when a fire broke out in an elec trical closet he was working in at Bird Library, He remains in fair condition at University Hospital 750 E. Adams St

Despite the incident, Char lotte Noss, a member of the StuCont Environmental Action o reduce their energy consumption and expenditures.
"I've definitely heard of other universities doing this and saving 50 percent on their ener y bills," Noss said. "And it's much more environmentaliy friendly."

There is still, however, a arge amount of energy that can be conserved, said Noss, a junior nvironmental and forest biology najor at the State University or New York College of Environ mental Science and Forestry.

She said she recently heard of a New York City office building constructed to rely mainly on solar energy, with a small fuel cell in the basement.
"I don't know if it's feasible or the university to do that, Noss added. But I definitely hink that any new construction hat goes on should be researched that way."

months ago, after becoming disen hanted with his job with an infor mation technologies consultant group.
watchinated it," he said. "I was vatching young kids making mil ion of dollars on the Web.
Hoping to cash in on this venture, Knezek said he contacted his friend Golubitsky and pitched the idea for a Web-based business. The original idea, however, was m
different from the final product.

Knezek first suggested establishing a resource site for informa tion technology professors. But once both entrepreneurs realized that their new business would cater to a ery limited audience, hosy decid the Intemet - college students. "I wasted so much tirne in Bird Library," Knezek said. "One time on he site can save you four or five hours of time."

Knezek relocated to Golubit sky's hometown of Cleveland to 30 to 40 colleges are within a five hour drive.

Charking a \(\$ 20\) fee per semes ter is not the only method the SU graduates will use to make a pronit They said they plan on selling space orad by product information compa nies. «But the fee is also a way to keep the wri-is people off the site,

Golubitsky said. We want serious students looking for serious an swers.

The partners said the fee will not deter students from using the site, even though users have free ac cess to the Internet. If students however, are in a financial bind and unable to register, the company may waver the fee.

Five dollars a month is not that big of a deal for college kids, Rolubitsky said. "But we may start a scholarship program for kids who are really finoncially strapped."

Both Knezek and Golubitsky said they can not guarantee that every posted question will be an-
swered. Since the site went on the Web two days ago, about 8,000 stu dents in Cleveland and 200 stu dents at SU have registered, Golu bitsky said. Registering students do not have to pay until the services are made available in August.

But Deb Reitan, an SU junior marketing and television, radio and foin the site because she prefers to conduct her own research. It is also unfair if some students are working hard to research while others are using the site to do work for them she added.
if students sign up and use the site as a research tool for reports," she said, "it will be detrimen tal to their education because others are doing their own researrh.

\section*{A.S.I.A.}

By kate stevenson
Asst. News Editor
Though Asian Students in America elected its new executive board on April 7, two board positions still remain open, said Suzie Lee, the newly-elect-
d vice president.
The positions of treasurer and events coordinator are still empty. But despite what some need not be Asian to be, members of \(A\) A or to run for bersutive board positions 1 said.

I don't know if they feel inimidated, from becoming involved with the organization.

She invited any interested students to join in the group's end-of-the-year celebration dinner at 8 p.m. tonight at Panda West restaurant, 135 Marshall St.
"We just want to educate people on Asian culture and break down stereotypes of Asians." said Lee, a sophomore nclusive elementary education major.

Even with the vacant positions, both Lee and newly-elected President Aaron Eng said they feel optimistic about the

\section*{prepares for sucessfull semester}
next semester. They agreed that the main goal of A.S.I.A should be to unite all campus Asian groups toward a common goal.

Oificers are hopeful that A.S.I.A. will soon serve as an "umbrella organization" for other Asian organizations, Eng said. Once the groups are unit ed, it will be easier and more cost-effective to plan events, he
added.
"I want to do a really bir show for all Asian organiza marketing Eng, a sophomore group together and pool re sources and do one big event for the entire campus to show case Asian culture and stuff, fun stuff."

Eng said he has "really big hopes" for next semester, including a concert. But he added budget will allow those plans to reach fruition

But Lee said she has grea expectations for whatever the group does next semester thanks to the new executive board.
"We're off to a better start," she said. "We're able to put aside our differences and work to become a stronger organization."

Recently-elected A.S.I_A. executive board members
\begin{tabular}{lll} 
Name & Position & Year \\
Aaron Eng & president & sophomore \\
Suzie Lee & vice president & sophomore \\
Tracy Luk & secretary & freshman \\
Nicole Medrozo & co-director of public relations & freshman \\
Nick Yang & co-director of public relations & freshman \\
Jeanine Wong & cultural director & freshman \\

Pride Union elected a new executive board during their Wednesday night meeting.

The new head coordinator of the Syracuse University gay, lesbian, bi-sexual and transgendered student group will be Khristian Kemp-Delisser, a junior newspaper journalism and English and textual studjes major.

The head coordinntor acts as the group*s president, Kempelisser said.

We like to think out of the box, 50 we came up with non-tra-
ditional names. aid of the title head-coordinator

\section*{WRC}
continued frompage 1
He met with the board for an hourlong question and answer session regarding the WRC, following the press conference.

The advisory board will meet next week to vote on that Chancellor Kenmmenc Shaw allows the university to become a member of the con. sartium, said Marika Wissink, one of the board's student representatives.

SU currently uses the Fair Labor Association monito: conditions in the factories where its apparelis made. Students, led by mernbers of the Student Coalition On Organized Labor, have protested for several months to persuade Shaw to switch SU's member ship from the FLA to the WRC.

The students contend that corporations play too much of a role in the FLA for the association to be effective

Wissink, a SCOOL member, said she thiaks Shaw will chose to have the university become a mernber in both organizations.
"I'd like to see SU pull out of the FLA," said Wissink, a senior musicmajor. "Eut 1 would be thrilled if they signed on to the WRC."

Charles Kernaghan, executive director of the National Labor Committee, is one of the leading organizers of the WFC, Unger added

Kernaghan came to campus in March to speak about his role in exposing the alleged for the Kathie Lee Gifford apparel line in the early 1990 s.

The WRC formed agov
ning board of nine directors erning board of nine directors Founders. Conference in New York City, Unger said.
"I'd like to think that there is a possibility that both groups can coexist," said Peter Webber, SU director of aniliaty aer vices and the advisory board's chairman. "The most important thing to know is that these clothes are being manufactured in a safe environment.

The WRC expects to begin monitoring factories within thenext six months. Unger said.

The Flan was foundeatin 1998 as a result of a White House initiative to combat poor working conditions in factories throughout the world. A representative from the FLA said Wednesday that the association plans to begia actively monitoring the factories by the end of the summer.

orning about his association. While the FLA seeks to ensure that there aresafe working conditions in factories merchandise, according to its 25 -page charter, the WPC only monitors the working conditions in factories where university apparel is made, Unger said.

But Wissink urged SU administratore to join the WRC eo that the university can influ ence the organization in its early founding stages.
"We'll have some input into how the wic will develop. Wiasink said. "t's so important to sign on early because we can really make a difference."

SCOOL may organize a demonstration next week to pressure university adminis tration to join the WRC, Wissimk said.

About 30 universities across the country have joined the WRC, including Cornel University, Brown University and Duke University
"The WRC is the only true way to change sweatshop historyf Unger said. Even though is
is in its founding stages all universities to jump on and all universities co jump on and give it as much support as pos
\(\qquad\) Unger said that the WRC does not Want to be an antago nist to the FLA, but added that the latter organization does a poor job of monitoring labor practices because of loopholes in its charter.

A major criticism that members of the WRC make of tion is ran by corporate interests.
"Eventually the WRC will show that the FLA is ineffective," Unger said. "The WRC was created by people who have extreme experience in workers' rights.

They are people who are concerned with workers. In the past three years every gain for workers has come by these people exposing light onto the industry

According to the FLA's charter, the association is more consumer oriented, and less concerned with the plight of international workers, Unger said.
'It doesn't say that its basic principles are to improve Workers' rights," Unger said. burs conden co zive con sucts they are buing It's in the company's beet interests to the companys beat intereats ceep the consumers happy,

ploys "spot-checking," or sur* prise visits to factories, and re. quires no set monitoring per. centage, Unger said.

Once it is determined that a factory uses unfair labor practices, however, the WRC will employ systematic visits, Unger added.

Because the FLA uses systematic monitoring of its member companies* factories, there is a possibility that unfair labor practices can be hidden because factory bosses are notified of the visits in advance, Unger said.
"Systematically checking a certain amount of factories is a fawed system," Unger said. There is not a true independent external body."

But Webber said it is unfair to criticize the FlA for its monitoring practices, because it uses independent non-gov* ernmental organizations

II certainly think you want to provide as much monitoring as possible," Webbersaid. andossible, you look at the differences between the two elements over what the WRC and the FLA whint."

\section*{REFERENDA}
continued from page 1
NYPIRG should continue receiving its Fee or ir directly from the Student Activity Fee or if it should be subject to the same budgetary

The referenda also posed the issue of an SGA constitutional revision that would change the name of the group to the Studen Association and add a promotions wing

Ryan's charges question Duffy for re leasing voting totals which appeared in an Apaid that he did not actually count the votes in the box, but estimated the number of students who voted from the book in which students' names are recorded when they come to the polls.

Duffy prajected that 20 percent of the State University of New York College of Environmental Science and Forestry voted in of the requirement that 10 percent of bath ESF students and 10 percent of SU students must vote for the referenda to be legitimate.
SGA President Jamal James said Thursday that SU also will most likely reach its 10 percent quota.
"The election commissioner informed me that we reached our 10 percent," said James, a junior musical theater maj,
very happy the students turned out

The SGA Judicial Review Board will review the case at \(6 \mathrm{p} . \mathrm{m}\). tonight. Its decision, which will be announced at the SGA meeting May 1, will determine the legitimacy of the vote, Chairman of the Board Bryan Legaspi said.

Though the final results of the vote Were scheduled to be released by noon today,
they may be delayed because of the review

\section*{Charges brought against NYPIRG by SGA \\ Elections Commissioner Chris Ryan}

\section*{Volu}

When atudent valunteers planned the first Comstock Kidfest in 1991 , they had in mind a small carnival-type event for Kidfest has become bigger than anyone expected.
than 500 kids this year more Kalpana Fernandes, co-chair of the Student Volunteer Organization and co-planner of the event. "It's going to be the biggest Kidfest by far."

Organizers and members of the Syracuse community say the event strengthens relations between the university and the city, helps foster campus aclivism and gives students a chance to give back to the community.

Originally held in the Women's Building, the Kidfest attracted 70 children from local
non-profit agencies in 1991, said Fernandes, a senior policy The kids played pames and visited booths sponsored by stuited booths sponsored by stu-
dent groups on campus. The dent groups on campus. The event lasted just thrae hours community, she added.

The growth of Kidfest scheduled this year for 4 p.m.
today at Manley Field House today at Manley Field House -
has corresponded with increasing involvement between the university and the community, said event co-planner Brian Howells, a senior policy studies major. The number of community organizations participating in the event has increased steadily since the first Kidfest in 1991, he added.
"It has constantly expanded with more and more kids coming every year," Howells said, adding that the popularity of the event has become a
mixed blessing. "The more kids.
that come, the more it costs to put on. This year it should cost in the neighborhood of \(\$ 2,000\)." To cope with the growth of Kidfest, SUVO organizers Kidfest, SUVO organizers
moved the event to Manley moved the event to Manley
Field House in 1993 , Howells Field Gouse in 1993 , Howells tracted 100 kids and 20 student groups which sponsored arts and crafts and game booths.

Since then, the organization of Kidfest has become a more daunting task every year, Howells and Fernandes said. Aside from arranging for local agencies to bring the children to SU, taking care of liability is: sues and recruiting help from student groups and the Greel system, Fernandes and Howllls have to take care of all the Hittle things" - like getting 900 hot dogs to feed the crowd and arranging for entertainment of all kinds.

Larry King, neighbortood center director for the Bishop

Foery Foundation, said Kidfest is a positive experience for the children and fun for the adults as well.
"First of all, anytime the kids get out of the neighborhood, they love it." he said. "It's a great event - weve gone every year we could."

King added that in the past Bishop Foery has brought all 65 children in their program to the event, and that he plans to bring approximately that number this year.

It's an event that as an organization you look forward to every year," he said. "I haven't had an experience where I've seen a negative attitude from anyone connected with the event."

\section*{FASHION}
continued from page 15
hems, that's what I love about his work," she said.

Scarves, chiffon, gauze, lace pastel blues, light purple and lemon yellow - these are the focal points of Obata's collection. The fabric, "see-through" as she de scribes it, is evidence of the Rojas influence.
"But my color is different," she said. "He uses lots of dark colors, the hunter green and cranberry, the slate gray and black."

Obata is unthreading huge kimonos her grandmother gave her in order to use the fabric for her collection. Her collection includes a lot of camisoles with lace trimmings and skirts in pastels.

\section*{Repeat performer}

Obata participated in the show as a junior as well, submitting a gray skirt and a purple camisole for the first halror the features 100 pieces of various underclassmen entries.

For the juried section, students are given a certain category (career, evening, sportswear) said. "The projects follow along with the technique they are learning in the class.

This part is called the juried section because students must submit their work for approval from the professors before the show.

There are quite a few criteria for evaluating the work. First of all, design elements, fabric, color, construction, wearability, appropriateness to the season, fit, Conover said. "Every piece has its own criteria.

Bascue, who participated last year, knitted all the fabric for her work and then pieced the article of clothing together.
"Everything must be done in class so that the professors can be sure it was the student that did all the work," she said.

Bascue completed her wor in her knitting and weaving class. get a lot of my inspiration just from fabric, she said The conception of a piece can change when working on it. tion the fabines during construc you want it won't drape the way stantly revise your ideas," she explained.

In a poem Obata wrote about design she says, "I raise my eyes from the needie and pincushion and, outside the window the stars are gittering, lonely. Now only the sewing machine and I are left. It's just a little nicer than being left all alone."

Her poem will be published on the program at the show. The tickets are \(\$ 25\) for the floor and \(\$ 15\) for the upper-level. Last year about 1,200 people attended, and the show just barely broke even. Production costs are high

Bascue's goal is for her gar ments "to read well on stage. I want people to see where I am coming from through my fashion."

For Bascue, fashion means more than simple aesthetics or material things.

I guess I would relate it to sculpture. It's another way of presenting the human form." she said.

Style is essential to fashion, Obata said. She described style as something that makes you feel happier and more confident.
cou feel so natural in your lothing you don't have to think about it," she said. "Because sometimes you wear something you thint think, 1

Bascue gives the following tip to keep in mind: "Never buy the whole outfit from head-to-toe off the mannequin."

She said that style doesn't need a good body or brand names.

It's more about having a good sense of color, being comfortable, about looking like you aren't trying too hard.

\section*{Field Hockey}

Only two words could possibly describe this year's Syracuse field hockey squad - senior leadership.

The nine seniors dominatcd, from the top defensive player to the team's leading corer,

The Orangewomen received much of their offensive production from senior Megan Koons, who despite missing parts of the first three games because of an injury, was third on the team in points and goals cored.

Senior defender Meredith Keeran helped guide the defense with Tracy Larkin. Marisa Hand and Kristin Haey provided veteran leadership on a young bench.

And while they were injured for much of the season, co-captain Gemma Ormonde and fellow senior Laura Fitzpatrick provided the Syracuse bench with charm and leadership the younger Orangewomen could follow.

Staff Writer Kevin Leitzell covered the SU field hockey team during the 1999 season

Volleyball
Most teams can pinpoint a loss that sets them in motion toward turning a season around.

For the Syracuse volleyball team, the loss came in the swamps of New Jersey against Rutgers on Oct. 10. It cast a shadow of doubt over the Orangewomen's Big East Tournament hopes.

The setback sparked a five-game winning streak, including a weekend homestand sweep over Connecticut and St. John's two weeks later. Head coach ling Pu's team improved what was once a dire situation into a comfortable one.

The hustle and determination with which the Orangewomen played during this stretch was characterized by Noreen Carroll's effort at home against St. John's.

The sophomore setter knocked a near-impossible get back into play an instant before crashing into the stands. The Orangewomen reset their attack and slammed the ball past the Johnnies' defense for a sideout, and Carroll brushed
herself off and went back to her spot on the floor.

In theirfirst Big East tourney appearancesince 1997, the Orangewomen fell to Georgetown in the semifinals. But Pu loses only two players core will return, and a strong core will return.

Staff Writer Jason Remillard covered the \(S U\) volleyball team during the 1999 season

\section*{Track and Field and \\ Cross-Country}

With all of the greed and corruption in sports, it has become increasingly difficult to remain a die-hard fan.

Players are traded on a daily basis, arrested almost as often and championships have become a bargaining tool in negotiations.

But just as I was ready to throw in the towel and trade in my Mark McGwire memorabilia, I found myself falling back in love with the aspects that first attracted me to the games and their stars: the tradition, the competition, the desire, the dreams.

And I found them in all
their glory as I covered the Syracuse cross-country and track and field teams throughout this year.

I watched Adrian Woodley take home two Big East Indoor titles in his last competition inside the Carrier Dome.

I watched the incomparable Cheree Hicks, as she constantly outdistanced competitors in the discus and shot put, striving toward Olympic ireams.

And when I watch the Olympics this winter, hopefully, I will see many of the faces came to know over this past year. I want to wish them well and thank them.

Staff Writer Josh Lukin covered the \(S U\) track and fietd and cross-country teams during the 1999-2000 season

\section*{Tennis}

It wasn't as long as the basketball or lacrosse teams' winning streak, but it was a winning streak nonetheless.

When it was over, it left a bad feeling in the stomachs of all involved.

The Syracuse tennis
team's six-match winning
streak was snapped when it lost to Miami 5-1 in the semifinals of the Big East Tournament. Following this loss, the Orangewomen defeated Seton Hall \(5-2\), which gave them it third-place finish in the tourney for the third consecutive season.

This is not quite how the Orangewomen envisioned their season ending, but what they did accomplish this year was something to be protud of When they walked off the court for the final time. hive were the No. 64 team in the nation.

Once Syracuse started to put together its streak, the squad moved in the rankings, this time jumping to their sea-son-ending ranking and earning a No. 3 seed in the Big Enst Tournament

Senior Shareen Lai, at one time a walk-on, finished her fantastic four-year career ranked for the first time, as the country's No. 94 singles player.

Staff Writer Jason Sacks during the 2000 season

I really wish I would have started at The Daily Orange sooner, but I'm glad I spent part of my last year at SU here.
I just hope that wherever I work next has a concept of the word DEADLINE!
Boyle-Should J thank you or tackle you for telling me about the job here? Always remember. "I'm a little rugger..."
Ron and Paige- Thanks for hiring me.

Dave and Em-Thanks for rehiring me.
Em- I enjoyed our little talks about what a hottie Brent is. Keep scoping him out for me. Dave, Brendan, Ron and Tiff-BUFFALO RULES!! I'm glad that there were other people around that understand the crap up here is not really Buffalo wings. One of these days, our sports teams will win a championship.
COPY- I hope the porch doesn't fall off the house. Even though few people recognize and appreciate us, remember that this paper wouldn't exist without us. It was fun to be always bangin til 4 a.m.
Fooks- You definitely added some life(and the smell of stinky feet) into the copy porch. There was never a dull moment with you around. You are the true copy pimp.
Jill and Marisa-What wiil you girls do with out me next year?! Even though it's bad for
your health, keep our "club" going.
D.C.-I can't wait to see you drunk...you definitely deserve to kjick back and have a couple beers.
Passan- See you in Buffalo this summer And postseason is ONE word, not two!
Bishop- The only male member of the smoking club-Watch aut for flying beers!
Adeet- You are one sexy bitch. Thanks for looking so hot all the time.
Sapna-Good luck with Jeff...oops I mean Pyg. Corey-It was great to have another rugger around. Watch out for those sex-related injuries!
Holly-Sorry that I never went to edit board. I'll miss our little chats thru the broken window. Tampone- Buena suerte! See you in my dreams!(JK)
Justin-Thanks for making my last few nights here hell. Oh wait, you made this whole semes ter hell. JUST KIDDING!!!
Bill- I'm happy that I got to meet Billy Celuck's brother.
Tito- I'l come back and visit next year so I can serenade you with dirty rugby songs.
Ashok- The briefs page wauld not have been possible without you. Thanks for writing all of my headlines.
Renee and Jenmet- I'm finally free!! You gais better want to go out. 787 forever!!

He played with Doc. Wheels Noodles and Fudgie. With Prince and PK, Tree and Tiny. He defended \(B\), boxed
out Chief and drove past some guy they called the Trimmer for an easy deuce.

Some scored more points than he. But no one beat him. No one outworked him.

Soon nine strangers stroll on to the court for a nervous shootaround. Few talk, and no one cracks a smile, as if the notion of enjoying the game violated pickup basketball chivalry.

Five of the nine sink foul shots, and play commences

He meets his defender, a tallogre named Brad with lackluster shaving skills who smells worse than an exhumed corpse. The big man replies with a cold stare.
It says you won't beat m tonight. You'll never outwork me.

From the first check at the top of the key, the game takes on a life of its own. It boasts a culture and a language found nowhere else in the world, save a 94-by-50. foot court with hoops at ei ther end.

It takes time to penetrate the secret society, to comprehend the lingo that accompanies it. They call picks, shout encouragement after baskets and bicker over blown defensive assignments.
The court seems no place for dissertations - confi dence and condemmation come in short, declarative bursts. The one permitted question revolves around the focus of the 10 gladiators the count.

It runs from zero until 15 in one-point increments He accounts for most of his squad's points in this battle.

Filling the lane for a layup and point No. 3, knockng down a runnerin the ane for No. 8, he fights off the awkward, smelly goon each time down the floor.
The game winds to a
scarce as sweet strawberries in January. At 11 -up, a mate's long-range shot bangs off the rim.
shot takes the same path a in took three hours before in a ionely gym, and he outruns a foe 10 inches his junior for the offensive rebound.
Fivetrips later, with a 13-12 lead, the same mate gets stripped.

He can't get beat. He won't get outwarked.

Three strides and a headfirst slide later, he flings the ball back into play, saving the possession.

The teams trade baskets, and at 14-13, be brings his menacing man down to the pivots. He left foot toward pivots on his left foot toward His defe

His defender sealed, he catches, and faster than a Witness can utter "Lew Alcining he cans a game-clinchThe nam.
The names change, the faces change and the voices change four times throughout the night. But he never all comers to the sidelines A half-hour before midnight, a man yells for lights out. The strangers shuffle away, but he stays, for one, five, 100 more shots. He swishes most, but the ones that clang off the iron get chased at top speed and retrieved.

At the last instant, he packs the sweat-soaked clothes in the gym bag and sprints again, dodging Centros and hurdling puddles.

The next afternoon, the process will repeat. Monks attend vespers, editors attend news meetings.

He goes to the courts.
Because no one can beat him. No one can outwork him.

Dave Curtis was the sports editor of the Daily Orange in 2000 . He's got his five and wants you to take the ball out top.

\title{
Freeman's girls need to produce, stop talking \\ There's something wrong
}
with the Syracuse women's basketball team, and nobody wants to talk about it.

Every year, expectations give way to disappointment, and the results on the floor never seem to change.

GREG BISHOP

In Freeman's first season Syracuse went 5-23. The next year, in 1994-95, Syracuse went 7-20. The Orangewomen's best record during Freeman's tenure is 14-14, and despite reachine the .500 mark, Syracuse stili lost in the second round of the Big East Tournament.

Against the Big East's big Nour - Connecticut, Rutgers, Notre Dame and Boston College poorly. The

Orangewomen's biggest win against these teams was a 62-59 shocker against Was a 62-59 shocker a
the Huskies in 1995-96.

Since that win, Syracuse has gone \(2-26\) against the big has gone \(2-26\) against the big
four, with its two wins against four, with its tw
Boston College.
"The frustration comes from four seasons where we talk from four seasons where we talk about change but never tak
step further," McFhee said.

Op further, over any of these teams.

Last season, Syracuse had a chance against Rutgers. With three minutes remaining in the game, the Orangewomen led the No. 8 Scarlet Knights 51-40. RU then demolished the Syracuse quicker than Virginia Tech beat up on the football tearn.

SU's recurd in the Big East Tournament is even worse than its regular season results. Since Freeman's reign began, Syracuse is 2-7 in the conference tourney. Since Record was a freshman, SU has gone 0-3.
"There's nothing left that we have to say," Record said. "We've said everything else. We've said everything we wanted to in the beginning years, and we haven't gone out and done it. It's now a matter of us putting words into action and just doing it."

Next season, things look brighter for the Orangewornen.

Ervin gained another year of eligibility and will return. Record, James and forward Leigh Aziz will be back as well. Paula Moore - leading scorer and rebounder in 1998-99hopes to return from injury, and Arizona State transfer Leaf Newman can play after sitting out a season

Besides McPhee and graduating classmate Erin Pratt, they lose only seldom-used Missy Grossman, who jumped to the field hockey squad.

Another media day will come in the fall, and there will be more talk about potential. But next year, the Orangewomen need results, not words. "The talking really does have to stop," James said. "I
don't really want to comment on next year because it seems like everyt ime we talk about the year to come, our record is still the same."

Who knows what will happen next year? Either way, don't hold your breath.

continued from page 28
ask me, it's bullshit," Cannella said. "Those penalties, from our own fans, cost us the game last year. They were
like a bunch of idiots."
When No. 20 Massachusetts (5-6) travels to the Carrier Dome on Saturday for a 4 p.m. tilt, Cannella and the ry about oranges falling from ry about
the sky.
the Ify. biggest problem.
Syramass encounters a No. 2 Syracuse (10-1) team with more guns than a National
Rifle Association member from Rinkansas.

First, there's the SU of fense. Powell leads the nation in points per game with 6.17 he's not even the team's leading goal scorer.

Sophomore Mike Springer has netted 34, while Banks has tallied 22, and a host of others chip in with regularity.

Then there's the midfield, starring captain Tim Byrnes Matt Caione. Much of the Syracuse offense is run through the middies, with sophomore Josh Coffman serving as a premier playmaker. Cannella said.

Hold your horses. It's not over yet. over yet. defensive unit only allowed eight goals in last weekend's doubleheader against Penn and Princeton. And the close defense unit consisting of Marshall
Abrams, John Glatzel and BilIy St. George, kick started SU's vaunted transition game in New Jersey.
"Everybody talks about their offense, Cannella said. "But their defense is really strong. Guys like Abrams and St. George are great at pushthe attack. We have to atop them from doing that on Saturday."

The list goes on
Syracuse goalie, Rob Mulligan - whose friends Chris and Keith Gabrielli play for UMass - is second in the nation in save percentage and goals against average with 65 percent and 7.1, respectively.

Chris Cercy leads the nation in the face-off " \(X\) " with a dominating 68.4 winning percentage. Sam Bassett and Joe Ceglia scoop high percentages of groundballe from Cercy, giving the SU offense more opportunities to score.

To recap: SU's best attackman leads the nation in points per game, its premier face-off man ranks first in his craft and its goalie ranks No. 2.

Then there's SU's 16-4 annihilation of then-No-4 Princeton last weekend, as if UMass didn't have enough to
worry about. Minut don't discount the es and players yet, SU coachsaid "They can play," Mulligan said. "Their record doesn't really reflect how good they are. They just went 19-18 with Georgetown, who is the No. 4 team in the country. We've definitely got to be ready for
them, and we can't look ahead them, and we can't look ahead
to the next guy." Led by four native New
Yorkers, UMass has lost a few Yorkers, UMass has lost a few
close games this season, and close games this season, and
the Minutemen upset Harvard \(10-9\) and crushed Boston College 17-5.

Ward Melville product Rich Kunkel leads the team in scoring with 21 goals and eight assists.

Close behind Kunkel is John Madigan, with 17 goals and seven assists. The attackman hails from Latham.

Keith Gabrielli is third on the team in scoring with eight goals and 14 assists, while Alex Racioppi has netted 16 Alex
goals.

Another Long Islander is UMass goalie Chris Campolettano, who has a 54.1 save percentage and a 10.02 goals against average. SU head coach John Desko said Campolettano played well against the Orangemen last year.

Jfeff Seals, who takes faceoffs, trails only Cercy in win-
ning percentage at 63.9 percent.
"It will be a great test for Chris," Desko said. "He's been having good success against good face-off guys. It will be a real battle and an added in centive for him

While the Orangemen are concentrating on the Minutemen for the moment, another home date with Georgetown looms one week later on May
6 at \(2: 30\) p.m.
This will be the last game under the bubble for the Syracuse seniors, as they conclude their storied lacrosse careers. goin The Georgetown game is going to be a very emotional one, little chill down my spine to little chill down my spine to realize we
games left." games left.

For now, the Orangemen are feeling spring fever, knowing the playoffs quickly approach, Mulligan said. that midseason lull," the junior goalie said. "You get tired of the monotony, of everyday practice, Coach being conpractice, Coach being stuff like that.
"Now, once the weather gets good, you start talking gbout playoffs, you kind of get about playoffs, you kind of The team starts looking snappy. We're really just looking forward to the playoffs, and it has brought new life to this team mentally."

Bassett

Bassett, the blue-collar player with gold hair, isn't man to get dirty. The huond creaner with 107 groundballs this season. To put things in perspective, the next closest on the squad is Joe Ceglia with 57.

But the statistic that matters most to Bassett is wins and losses. And the most important win would come on Memorial Day weekend in Maryland at the national championships.

That's his last chance to complete the collage.
"As long as we win," Bassett said, "that's all I really care about."

\section*{CEGLIA}
continued from page 28
tential and he didn't want to see me waste it"

Most students graduating with him probably can't remember the year when he the Orangemen.

Orangernen.
Out of high school, Ceglia attended Gettysburg College in Pennsylvania. He said he wasn't reDivision I programs like Syracuse because he "didn't have the politics behind him."

He never came off the field for the Bullets, who lost in the Division II Final Four to Washington Coltege, the eventual national champions.

His freshman success found him a spot on the Syracuse men's lacrosse squad at the start of his sophomore year and with it a chance to contend for a national cham pionship title at the highest evel of college lacrosse.
"The thing that sets apart Syracuse lacrosse is the tradition you assume right away by playing with hem," Ceglia said. "When I was a senior in high school, never in my wildest dreams if you told me f was going to be igning autographs would

Cegou.
Ceglia* position on the reld is not one to achieve in dividual glory. On defense, he marks the opposition's best midfielder, checking stars such ag Virginia's Jay Haugen and Princeton All American Josh Sims

Ceglia also works with Chris Cercy and Sam Basgett on the nation's best face off unit. The benior has scooped 57 ground balls, good for second on the sec-ond-ranked Orangemen.

Former lacrosse coach Roy Simmons Jr. once called him the "junkyard dog" because he picks up all the slack on the field.
"I have a tendency to do the little things," Ceglin said. Im a hard worker and I get the job done.

Cegila's trademark in
practice tends to be his intensity and desire, his teammates said.

Competing for one of the strongest lacrosse programs strongest lacrosse programs in the country is not the only He participates in the Student Athletes Council and the honors fraternity phi Kappa Alpha

A history major in the College of Arts and Sciences, Cegliaqualified for the Athletic Directors Honor Roll and wass a nominee for the 2000 Doris So-
laday Award the highest award given co a Syracuse stu-dent-athletes.
tandirking outcanding lacrosse players may be a career highlight for some players. Ceglia, howev er, finds traveling the East Coast for games to be just as special.
"It's really opened my eyes to everything out there, Ceglia said.

His family always supported him, so on away trips he makes sure to put his sister's college 'T-shirt and his other sister's college hat in his game bag.
ot end with superstitions do not end with shirts. Follow ing a set routine, including eating pasta two nights before a same and drinking a lot important to Ceglia.

Following graduation on May 14 and a possible berth in the NCAA Final Four on Memorial Day Weekend, eglia is unsure of his future. Several corporations offered him sales positions, and he said hemight accept a position at a university. position at a university. "m not too worried." he said. "1ll find something or something will find me."

For now, though, Ceglia only focuses on the rest of Syracuse's season. He may be small; but he and his immeasurable heart have left a big mark in Central New York.
somepple look to him to do bomething spectacular," fellow longstick Jay Abendroth said. He is a feisty player with a big heart.

\section*{Orangewomen host struggling Buckeyes \\ her team possesses the balance}

When it was time for women's lacrosse practice on Tuesday night, without any coaches in sight, junior defender Katy Mueller stepped onto the Carrier Dome turf and asked her teammates, "Are we passing or socializing?"

That approach, at the very heart of the team's 10-game unbeat-
en streak, places the Or en streak, places the Ortheir first-ever NCAA Tour nament appearance entering their first-ever meeting with Ohio State on Friday at 8 p.m at Coyne Field. good (at not all been pretty down)," SU head coach Lisa Miller said. "When you'rea player, you celebrate a win and move on. This team is good at celebrating for 24 hours and the next day, saying 'OK, who's our next opponent? Were ready on a win streak." on a win streak.

Syracuse, ranked No. 12, entertains the Buckeyes and
then No. 2 Dartmouth on May then No. 2 Dartmouth on May home. Two wins nearly guarantee the Orangewomen a spot in the Big Dance, while one miscue places them on the bubble as an at-large selection from the North Region.

Only the winners of the Ivy League and Colonial Athletic Association receive automatic qualifications to the Tournament, With Dartmouth and Loyoha aready capturing their respective league titles.

Su enjoyed a rare opportunity to tighten up its overall
game with an open schedule game with an open schedule games in only eight days, the games in only eight days, the tion and fluidity.

Working to stretch the field, recognize doubles teams and share the wealth on the attack marked the main themes in practice, Miller said.
to attack opponents from many of weaponry. Encouraping aniety or weaponry. Encouraging lowtake the ball to the net to make opponents pay for the emphasis placed on Katrina Hable and Lauren Brady will key a two-game sweep, Miller added.
bine yo Buckeyes com-
bine youth with offensive firepower, boasting five \(20-\) plus goal scorers. Junior Celeste Cianfrani
leads the charge with leads the charge with 24 goals and 20 as-
sists while freshman Sists while freshman Shannon Boundsand Lauren Cochran bring 25,24 and 23 tallies, respectively, to the table.

The Orangewomen counter with balance, scorching opponents for 12.4, goals per game over the team's 10 -game winning stretch.

II think their having so many top scorers is definitely a ocus," sophomore midfielder Devon baer said. I guess we bers that shoot. The defense has played well with both thse has played well with both goalies, Gigon) has been playing Carla ievabl has been playing unbeBetw
more Megan Barnett, OSU's alltime saves leader with 258 , attempts to withstand SU's offensive barrage, led by Brady's 36 goals and Hable's 31. Barnett enters the primetime showdown with a 9.30 goals against aver age and a 471 save percentage. Before season's end, both Brady and Hable should sur pass the previous single-season season by midfielder Jenna Szyluk. S
Shooting early and ofter tops SU's to-do list on Friday ts Aer said. The team escaped Boston University witha \(6-5\) win, sending only 12 shots at the Terrier cage. Entering that regional contest, Miller.

With little work and two weeks until the big day,
seniors
tie up the loose ends to their college

By Emily kulkus Managing Editor

The tests are over. The computer is turned off. Even the money from what you got for selling your books is dwindling. Grill and get dressed for Marshall Strect the grill and get dressed for Marshall Strect. - when SU's oldest bunch finishes the las of their academic schoolwork and anticipast of their academic schoolwork and anticipates commencement. But Orangemen typically have to wait a week bom the time they hin ish their schooiwork before they walk across the proverbial stage in the Carrier Dome.

This week is traditionally chock full of barbecues, happy hours, sentimental memories and an occasional naked tromp through the Quad. But it is more than just drunken fun, said Steve Scarnecchia, an SU spnior elevision, radio and film major.

I don't feel like Im getting off easy though because I've worked really hard up to this point, Scarnecchia saiding plans ter consisting of four classes, only two of ter consisting of whout the senior is ready to put a few back about, the senis is ready to put on Marshall Street

But even after eight semesters, at least 120 credits, several all-nighters and more dining hall dinners than hed like to remember, Scarnecchia said he would not mind more time at SU.
school is fun" he soid school is fun," he said

Scarnecchia planned his semester and his work schedule so he would have little to do for his classes and the funds to back his extracurricular activities, he said.
"1 might have one final and one paper, but even that's a joke. So other han "that \(m\) done," Scarnecchia said. Im just going to go to the bar every night.
"It's a good time to catch up and see everyone you haven't seen in a couple of years."

The change of pace from a college atmosphere will be the hardest Scarnecchia said he is not yet ready scarnecchia said he is not yet read looking for a job he said he will looking for a job, he said he will
"A lot of my frimer
friends from last year got jobs just weeks out of college and now they re so miserable, he said think it's roing to be an extonded party until next fall

And althourh he walles by the senior count down on the steps of Hendricks Chape daily Scarnechia said he atill cannot be lieve he is a senior
"It hasn't really set in yet, but I think it will the last week," he said.

The realities of leaving SU might come little sooner for Juliet Bock, senior chemistry major who will have to move out of the house she and her roommates have lived in for two years.
"We are going to be packing up the house "Bock said "Were's so much furniture and there's going to be all kinds of vans and people. It's going to be crazy."

But her schedule will also include several trips to the bars and spending time with friends. Her excitement for eraduation though has frown into anriousiess for an impendinc career Bock said impending career, Bock said.
w I'm just nervous about getting a job and stuff," she said.

\section*{Manley mayhem}

Bock said she plans on attending Senior Celebration, a video dance party for seniors on May 11 at Manley Fieldhouse. The annual Student Activities Office-sponsored event includes food, drink and beer and champagne for sale. The sale of alcohol is imited to four drinks per person throughout the dance, which rans from 9 p.m. to 2 a.m., said Chris Johnson, an organizer of the

\section*{Office of Residence}

\section*{Life makes room for parents}

\section*{in residence halls} during graduation weekend.

Staff Writer
Even though they don't have swimming pools, room service or "magic fingers" beds, five Syracuse University residence halls will be moonlighting as five - or fewer - star hotels for family and friends attending Commencement 00.

The Office of Conference Services estimates that over 500 visitors will be reserving weekend, and students should expect to see a few new faces sliding their IDs through card readers beginning Friday, May 12, at \(5 \mathrm{p} . \mathrm{m}\).
"Parents can sign up for the room by mail, over the Internet, through cash operations
or here in Conference Services," Sheryl English, Office Coordinator for Conference Services said. "We've had a tremendous response on the Internet - about 75 percent have done their reservations online with a credit card."

Each year, different dorms are picked for incoming guests. This year, Flint, Dellplain, will be opened for family and friends. Conference Services friends. Conference Services but now expect to exceed that but now ex number.

Let's say we'll be getting about 550 this year," English said.

Families are required to pay for their stay at the rate of \(\$ 24\) dollars per person, per night, she added.

We have an option of two nights. Around 60 to 65 percent will stay both mights, maybe even 75 percent, English said. Accommodations are available in single and/or double occupancy with bed linens, pillows, blankets and towels included. Freshmen are out of the dorms by that time, so no one will be kicked out, English said.
weekend resident directors

Sadler and Lawrins on halls ave two of the five nesidence halls where parents of graduates will be stayng during commencement weekend.
will be living in the halls to check in visitors and generally watch over the building.
"This is my first year doing this," Sadler Resident Director Dave Rosch said. "I think it's a good idea."

Rosch and resident advisers staying during commencement expect somewhere between 80 and 120 guests.
"The visitors will have free linen services a service that the students do have, but not free," he added. "Just like students, they will have keys and temporary IDs that will work in the card reader durg the weer.

Rosch added that the five residence halls will close for everyone on the 14th at 6:00 p.m. "That"s after the graduation ceremony, and it gives everyone enough time to go out to brunch afterward.*

\section*{Hakimg room}

Flint will be opening its doors to more guests than in previous years thanks to a new sprinkier system that will be installed dent Director Rachel Alldis.

Despite an overflow of visitors, Alldis and

Flint RAs said they are not concerned with the heavy weekend traffic flowing into the building. Alldis expects to check in and distribute keys to around 200 parents, she said.
"It's not really a hassle to us, it's more of a hassle to housekeeping," she said. "By the 14th, parents have to leave by noon so RAs can check the dorms so they can be cleaned and then close them for the summer."

Housekeeping Services is looking forward to the commencement craze, said Manager Kay Farrell. Compared to last year, Commencement 2000 weekend should go smoothly
"Last year, we had 750 parents," Farrell said. That's a little bit more than we can handle. We ee least wind of a hall uation spe wan do after four years to make gradation special.

Last year, Syracuse and the surrounding Cities suffered a hotel shortage due to the Onondaga Community College commencement,

Golden Glove and bowling conferences.
Reservation numbers have gone well over housekeeping will be ready for the flood of newcomers.

perspective. Personal growth can't be graded on a 4.0 scale - numbers and letters are less important than smiling through life. Four years of college, or 22 years of life, can't be summarized on a single sheet of resume paper And questions are more
important than answers
It's one thing to say these things, another to believe them. But senior year is a magical time. If you believe in yourself, no matter what, anything can happen.

\section*{Life lessons}

The most important thing ive come to underin life are self-imposed. All the mistakes I've made, all my failures, rejections and defeats, I've learned from them - more than from my
successes. And l'm proud to say that, while living in the most consequence-iree environment possible, lve neve made the same mistake

Luckily, m
Luckily, my friends have bailed me out during all my screw-ups. Over the past fou years, I ve had friends tell me truths about myself that would never have discovmiss those random deats have at 2 m on Tuesday ust because In one year you'll forget about your \(8 \cdot 30\) a.m. statistics class but you will statistics class, but you tion. So screw the class priorities.

There are relationships I wish I had developed more whether with a friend, a proessor, classmate or that girl fom freshman year. But this closely the relationships I have built. They, along with
my fuzzy slippers and my coffee thermos, enabled me to make it through the past our years without succumbing to madness.

SU has much to offer. You'd be crazy not to take full advantage of as much as possible.

Many professors' best essons have nothing to do with the subject they teach in the classroom. That's why 've walked exist. Every time ve walked into a professor's for having done so

Some of the classes I went into knowing the least bout are the ones glad to have taken. Art histo ry and economics are two such classes. On the surface the two are opposites, but both shape your everyday life and I believe both should be required classes.

Remember that your tuition pays for six classes
worth of credits. And you don't have to be ambitious to audit classes like ballroom dance, wine appreciation or karate. If you're fecling especially scholarly, check out the fifth floor of Bird Library. That's where you'll find all the best books. 1 won't miss the monotony of Marshall Street or snow in April ro those remaining, I recommend a pint of Guinness at
Coleman's on Tipperary Hill solve both problems. Iven though overwhome Even though overwhelming amounts of beer, poor air cir ulation and the orange \(T\) shirts invariably left me na seated by the end of each game. I'll miss Wegmans. punch in the lobby during commencement weekend.

A lot of work goes into this event," he said. "It's one of our busiest days of the year."

\section*{Epentan Businesses}

Abe Naddaf, owner of Aladdin's Natural Eatery, 163 Marshall St., agreed that his business increases greatly dur* ing the graduation period. To prepare for the weekend, Naddaf said he makes sure he has enough inventory to feed a large number of customers,
hires new help and increase employee hours.

During the weekend, Naddaf explained how a clien tele of mainly SU parents and students often wait outside the restaurant for a table. Because they can't hold tables, cus tomers aren't able to make reservations during this time.
"Sometimes we get 20 or 30 people who come in and want a table, Naddar said. All we can do is to try to please everybody as soon as possible.

Despite the increased workload, Naddafsaid that graduation weekendis business hage benefr for his business.
"Times like these allow me to catch up," he said. "It makes up for the slow times in months like January, and I am able to pull out of the debt caused by the slow winter season.

When they are not eating or participating in the weekend activities, many out-of-own gueste decide to stock up on SU paraphernalia for perhaps the last time. Manny"s, 151 Marber of people and a huge num amount of merchandise out of the greek shop during graduathe greek
tion time.
"It's great for us," said Bill Nester, manager of Manny's. "1 couldn't ask for a better clientele."

Nester said that gradua tion weekend ranks third, be hind Homecoming and Parents Weekend, as the busiest time of the year. He described how a steady stream of parents. grandparents, brothers and sis ters make purchases from Manny's because they want to buy uthentic SU apparel.

After 51 years in we are where the people go," he said.
To broaden the selection, Nester said that he brings in a lot of spring and summer items tomers.
omers.
ts, Nester increasing his prof
ward to graduation time fo other reasons as well. He de scribed the whole weekend as a celebration.
"I look forward to seeing parents and talking to all of the customers," he said. "Door are open, people are talking and langhing and it's just a great time."

Nicoletti agreed that de spite the extra work, the grad uation is very beneficial for the city.
"SU is a good neighbor," he said. "Graduation is a positive event for the economy and the ommunity. It brings the eye Syracuse."

Learning about yourself and about those close to you is all part of the college experience, Delar said.
and what you are all abou you are a Here done complete 180 de
grees since the first day I walked onto npus fresiman year"
DeTarsaid that college has been so enjoyable mostly because of the friends she has made and kept throughout her time here.

111 never be able to replace my friends," she said. "You just become so close, so fast. They are like your new family"

And while DeTar is looking forward to graduating and beginning over in a much warmer place, she said she is still sad to leave her home for the last four years.

Tve had a lot of interviews and stuif I would still be here if I could do if I would still be here if \(I\) could do things over, she said, And I say absolutely. I would do everything over

\section*{Memorable moments in commencement history}

1872 - Syracuse University's first com. mencement, 19 graduate.
1907-25,000 seat Archbold Stadium opens and becomes regular site of commencement.
1943 - Outbreak of World War II forces university to have spring, winter, and fall graduations.
1957 - Former President . John F. Kennedy. speaks at commencement.
1960 - Valedictorian and future novelist Joyce Carol Oates is determined not to give the traditional student address at
Commencement. SU officials tell her rain will be her only excuse for not speaking at the outdoor ceremony in Archbold Stadium. Commencement arrives, and so does the rain.
1970 - Commencement occurs eartier in the semester than ever. The protest of hundreds of students demanding SU pay \(\$ 100.000\) to the Black Panther Defense Fund to bail out jailed president Bobby Seale. After more than 24 hours, the demonstration ended quietly. Administration officials cancelled the final six weeks of classes as a result. forcing commencement to be about a month early.
1981 - The Dome becomes the traditional venue for commencement ceremonies.

Alumnus and host of "Nightline," Ted Koppel, speaks for the first time at SU.
1978 - Beth Whyszkowski, a 1978 graduate, designs and creates 17 sets of banners representing each school and college
1994 - Tradition of moving tassels from one side of graduate's motorboards when degrees are deferred is introduced.
2000 - Ctass flags, carried in by a class marshall, becomes a regular event.

Compiled by: Asst. Lifestyle Editor Corey Hann

The SU Quad, as it appeared in 1941, when much of the main academic area was not yet bufft or still under construction. During commencement exencises, students made their procession around The Quad.

BY COREY HANN
Asst. Lifestyle Editor
Change has become the usual state of affairs at Syracuse University's commencement ceremonies, and this year is no different.

Aside from the usual procession, this year, one of the class marshals will carry a flag representing their class, Mary Jane Nathan, director of special events at SU, said. Each entering freshman class will be presented with their own flag during their fall convocation from now on, to be hung alongside the Class of 2000's during their graduation.

The fag represents all members of the graduating class," Nathan said. "It will be then hung high on the third tier of the Dome during future commencements.

The procession will be followed by the seating of each college, lead by their school or college marshall, in the order of the college's founding.

The school and college marshals lead their particular college," Nathan said. They also present a banner representing their college, which is then placed in a stand, forming the backdrop for the commencement stage." \({ }^{\text {p }}\)

The college flags were first introduced in 1978, due to the efforts of Beth Whyszkowski, a 1978 graduate, who designed and created banners for who designed and creat

The background colors of the banners, as well as the tassels on the
black motorboards worn by the degree candidates, distinguish the schools and colleges, according to the 1981 and colleges, accordi.

For example, The College of Arts and Sciences banner is cloaked in white and gold coloring with three stars representing the humanities. the social sciences and the natural sciences. The College for Human Development, on the other hand, is dyed in maroon, representing the growth of individuals likened to the warmth and reach of a flame, the register reported.

The caps, gowns and hoods worn at commencement often spur curiosity amongst some who are not familiar with the storied tradition of academic regalia.

\section*{In the beginning}

This pageantry was apparent even for the first commencement, in 1872, when only 19 individuals were awarded degrees. Total enrollment went up from a meager 41 students that year to well over 6,000 by 1922, according to the university's Web site.

By 1943, however, World War II had taken its toll on enrollment and commencement. SU administration had to devise a plan to help students graduate before they were drafted into the war, the 1944 edition of the Syracusan reported.

There was a very upbeat feeling that day," said Lewiston Ponder, a 1943 graduate. "The loss to the Japanese at

Pearl Harbor had bottomed out and most were happy to go into the war and get it all over with."

Former Chancellor William Pearson Tolley proposed three seasonal commencements in 1943, in fall, spring and winter.

Three years of rain forced the ceremony into the small confines of Hendricks Chapel, much smaller than the 25,000 -seat capacity of the former Archbold Stadium. These were minor inconveniences in comparison to what would occur 30 years later during the 1970 commencement.
"The centennial graduation was suppose to be a time of joy" said Mary O'Brien, assistant archivist at Bird Library.

The deeply-rooted student protes of the Vietnam War, however, created an air of hostility, forcing the adminis tration to cancel the last six weeks of classes, the university Web site reported. In fact, many students did not even attend the graduation, opting to have their diplomas mailed to them.

Ken Bookman, a 1970 graduate, said he did not attend his commence ment but said he does not regret his mentions.
"I don't consider myself a wide eyed radical," he said. "However, when push came to shove \(I\) didn't think it was appropriate to attend the commencement - especially with Nixon being the scheduled speaker."

O'Brien noted that the university See HISTOMY page 11

\section*{- Pan Am Flight 103}

\section*{Families prepare for trial}

\section*{BY JOY DAVIA
Special Projects Edit \\ Special Projects Editor}

One parent of a Pan Am Flight 103 bombing victim described the first week of the trial as an emotional roller coaster.

After waiting more than 11 years for the world's largest criminal investigation to come to the trial phase, victims family members were the Netherlands, said Bob Monetti, whose son Richard was one of 35 Syracuse University stuRichard was one of 35 S
dents killed in the crash
"We fought like hell for this trial," he said. "And it's finally happening."

But a more subdued atmosphere prevailed once prosecutors began to present their case, he family members of the bombing victims, viewed the first days of the trial from a satellite site in New York City.

During the opening days of questioning, Scottish air traffic controllers testified about the airplane disappearing from their radar screen before the crash and eyewitnesses described the resulting horrific scene throughout Lockerbie, Scotland.

One Lockerbie resident also described the fallen bodies and debris that covered her yard he same yard where Monetti's son landed after uIt was exploded
It was kinda gruesome," Monetti said of the yewitness accounts. "The elation wore off once you heard this is how they died."

The Dec. 21, 1988 explosion killed all 259 passengers and crew members of Pan Am 103 and 11 people on the ground of the small scottish town. The Libyans accused of the bombing, alleged intelligence agents Abdel Basset Ali alMegrahi and Lamen Khalifa Fhimah, have been in custody since 1999 and have pleaded not guilty to charges of murder, conspiracy to murder and violation of the aviation security act.

The prosecution is working to prove that the accused Libyans planted a tiny bomb in a casMalta, which was later transferred to the Pan Am flight in Frankfurt en route to London and New

\section*{Power loss troubles exam week}

\section*{BY CAROLINE CHEN \\ Staff Writer}

A power outage Sunday brought down the Syracuse University computer network and darkened 10 buildings for several hours, frustrating students who nal exams.

SU Vice Chancellor and Provost Deborah Freund issued a campus-wide e-mail Monday asking faculty to be understanding of students because of the inopportune timing of the outage.
"I am confident that in the aftermath of (Sunday's) event, faculty will remain sensitive to students needs, the said in the e-mail. And I leave it in use their good judgrnent in determining whether extensions should be granted to students."

The cause of the power outage has not yet been determined,
Morrow, an SU spokesman.

Freund said that while she did not receive any complaints, she wanted students to know that she is concerned.
"It's a very unusual thing at a very stressful time of the year," she added. Philosophy professor Laurence Thomas, whose Ethics and value \(12: 30\) p.m Monday, said he did not make changes because of the power outage.
cause did take it into account because no one made it an issue," he said. "Nobody even told me about it."

The northeast quadrant of the main campus, which includes Machinery Hall, five other academic buildings and four residence halls, went without powe
from \(5: 30\) p.m. to 9 p.m., Morrow said.

The SU computer network went
down when the back-up power source for Machinery Hall, the brain center of university computer systems, failed to act e, he said.
SU Computing and Media Services technicians worked throughout the early hours of Monday morning to restore software, Morrow said.

The system went back up between midnight and 3 a.m., said Pat Morley, a senior consultant in the Kimmel computer cluster.

Of the students working in the cluster before the outage, most were understanding of the situation, but others reacted angrily when the 80-computer cluster was closed, said Morley, a senior
engineering physics major.
"It was pretty busy" he said. "It af-
fects a lot of people. I was just lucky I

York City.
But Monetti said the defense is attempting to accuse a Syrianbacked Palestinian extremist group, the Popular Front for the Liberation of Palestine-General Command, of slipping the loaded suitcase onto the doomed flight in Frankfurt.

One senior police officer confirmed under defense cross-examination Friday that the Palestinian group was initially suspected in the bombing.

You can just tell by the kind of questions they're asking," Monetti said. "But we have been told by the prosecution that they have the evidence. So we'll just have to wait and see.

If they don't have the evidence then they've been lying to us."

As the prosecution continued to build its case this week through its evidence, the defense challenged the validity of testimony from detectives and police officers involved in gathering the evidence.

The defense contends that the methods used to classify the more than 18,000 pieces of evidence were unreliable, with police witnesses admitting that the volume of debris from the explosion sometimes left experts puessing where the evidence was found.

The evidence expected to prove the two suspecrs' guilt was prove the two altems included bits of a suitcase items included bits or a suitcase bomb, pieces from a tweed jacket that allegedly filled out the suit case and a frayed cassette caserand frayo manul that recorder instruction manal hat apart by the blast. part by the blast

\section*{College of Law manages secret Web site to provide trial updates}

BY holly auer
Editoriat Editor
Half a world away from the events unfolding in a Netherlands courtroom, a Syracuse University College of Law Web site pro ject provides homebound families of Pan Am Flight 103 bombing victims up-to-date infor mation about trial proceedings.

The password-protected Web site details daily trial updates, legal analysis, an "elec tronic scrapbook" of archive information and an Internet chat formm, said Barbara John son, the Office for Victims of Crime's coordinator of aid to Lockerbie families

Scottish courts, in an "unprecedented manner," granted SU access to trial tran scripts to be posted each day orl the Web site, said Andrew Greenberg, a 1989 SU College of Law graduate who now practices criminal and civil litigation locally. Greenberg serves as the associate director of the Lockerbie Trial Families Project, which is funded by a \(\$ 100,000\) U.S. Department of Justice grant.

College of Law students, Sara Sheide man and Abby Horrigan, help Greenberg peruse the transcripts daily and write more digestible summaries of the proceedings for the family Web site.
"Our job is to translate all that 'legalese' and 'Scottishisms' into a language that is un: derstandable to all the family members," Greenbers said.

The Dec. 21, 1988 explosion over the small Scottish town of Lockerbie killed all 259 passengers and crewmembers of Pan Am Flight 103, including 35 SU students retuening from a semester abroad in Loncion. Eleven residents on the ground were nlso killed.

Two Libyan intelligence agents, Abdel Basset Ali al-Megrahi and Lamen Khalifa Fhimah, are accused of planting a bomb in a suitcase in Malta on a flight to Frankfurt that connected with the Pan Am flight traveling to London and New York City.

The first few days of the trial were devoted to monotonous testimony from dozens of aviation experts and Scotland residents, to prove that Pan Arn Flight 103 was over Scotland when it crashed, he said.
"They're spending a lot of time dotting all the 'i's and crossing all the 't's," Monetti said. "It isn't even as exciting as the O.J. Simpson trial, and even that got pretty dull at
times."

As the trial continues, the media will slowly become bored with the case, Monetti added.

But the Web site project staff guarantees amilies accurate coverage throughout the rial, even if television news crews and news paper reporters drop the story, Greenberg said.

The general media is going to stop tallsing about the trial in about a week, but well be there providing information for the whole rial, no matter how long it goes on," he said.

The Scottish government's cooperation in releasing the trial transcripts is a "huge step" in revealing the trial's intricacies to fanilies, Greenberg said.

He noted the contrast between Scotland's closed-door judicial proceedings and the United States' open court system, where televi sion cameras are often allowed in court rooms.

Melissa Dios, a freshman bıafiness major whose aunt, Suzanna Miazga, died in the blast, said she started consulting the Lockerbie Trial Families Project. Wtil site for trial in
formation when it went online several months ago.

The site is clear and easy to navigate, she said. The concise information and analy sis is vital for older farnily members, many of whom are in their late 60 s and early 70 s and might not understand the media's condensed version of trial news, Dios added.
"All we want is the truth," she said That's all we want. We've been waiting for 12 years."

Designing and implementing the site, which runs off of a server separate from SU's network, was unlike any Web project Ronald Denby, the College of Law's director of the Department of infornintion Fechnology Ser viees, said he has ever worked on

Because the site is private and only accessible to family members assigned to one of the Justice Department's 700 passwords, Den by said project leaders must be careral when updating and monitoring the system

Trial Fami lies Project is possible, but Denby's staff keeps a close eye on any suspicious activity in the site logs, including users repeatedly trying to unsuccessfully access the site

The URL for the site is not available through any Internet search engine, he added

Limiting access to the trial transeripts is the best way to avoid media spin that may distort facts, Dios said.

If every single detail is released to the media, they'll eat it apart and find all these holes in it," she said. "We want the straigh facts and we want them daily. TV and news papers won't necessarily tell us the truth, bu that's what we need."
argument, said Chester Phillips,
whose son Frederick was an SU Pan Am victim.

Under Scottish law, the origins of all evidence must be established before it can be used to incriminate someone.
"I think most of the evidence is just leading up to the actual
bumbing," he said.
As a result, Fhillips said he is waiting for the prosecution to begin their argument against the Libyans before visiting the various viewing sites or the trial at Camp Zeist.

Helen Tobin also has not yet traveled to any of the viewing
sites, noting a busy schedule and a reluctance to relive the explosion that took her son Mark's life. Mark was the second youngest child out of seven siblings.
"I don't think it is good to open up old wounds," she said

But Tobin will make the trei
cust, to accompany her youngest son to the trial.
"I'm not looking forward to it" she said. "But I couldn't have him go alone."

\section*{Now that you've gotten into college,}

\section*{here's your chance to really go somewhere.}

Congratulations. All the cramming, insomnia and junk food breakfasts have paid off. You're in college now - and soon, you'll be facing questions about your life. Like what to do with the rest of it. One thing is for sure, if you're a student of color, with an INROADS intemship you could have a serious job every summer while you're still in school - making contacts and gaining experience in your chosen field of study.

Hey, it won't be easy, but then again if you wanted it easy, you wouldn't be reading this right now.

wittingly opened an e-mail attachment fite containing the virus at 8:10 atm. May 4, said Deborah Storrings, systems administrator at ESF:

The ESF server was immediately shut down to prevent the virus from spreading. Storrings said. At 8:45 a.m., a campus-wide voice mail warning about the virus was issued, she added.

Whe were lucky enough to ed,"Storrings said.

Administrators restarted the system about 45 minutes after it was shut down, she said. Of the 500 people on the ESF server, about 25 opened the attachment containing the virus, Storrings said.
"We picked it up before it became a problem," she said. "It came a probiem, she said. It
wasn't toobad. It could have wasn't toobad
been a disaster."
Thevirus caused the SU, School of Information Studies, computer server to go down for most of the day, the schools computer consultant Michael Fudge said. About 10 people there opened the attachmen
ing the virus, he said.
ing the virus, he said.
and spreading through e-mail, the and spreading through e-mail, the
virus replaces various files - invirus replaces various fules - including picture and MP3 sound
files - on the victim's hard drive

\section*{with copies of itself.}

As of Monday, Fudge said he was still trying to recover server files that were replaced by the virus.
"But for the most part, everyone is up and running." he added. The virus hit at least 45 mil lion users in at least 20 countries last week. Sixty to 80 percent of U.S. companies were infected, as well as several U.S. government agencies and more than 100,000 servers in Europe, according to reports.

Total damages are estimated at s10 billion

Mside from the downtime, time to restore, loss of productivity, sone of the damage hasn't
even begun to be totaled, said Cynthia Sucher, director of corpoCyntha Sucher, director of corpo-
rate communications at Floridabased CyberGuard Corporation. "How do you put a price on irre. How do you put a price
trievable information?"

While authorities have honed in on a suspect in the
Philippines, no arrests have been Philipp

\section*{Operating mode}

The virus and its variants circulate by self-propagating copies. In the original version of the virus, the computer is infected when the user opens an attachment titled "LOVE-LETTER-FOR-YOU.IXTVBS.

Every entry in the user's address book is then sent a mes-
sage containing the virus with the subject line ILOVEYOU," according to reports.

CMS introduced a filter Thursday that blocked all messages with the subject "ILOVEYOU," said Randall Grimshaw, CMS information technologies engineer. Variants of the virus with the subject lines "Mothers Day Order Confirmation," "fwd: Joke" and the Lithuanian variant "Susitikim shivakara kavos puodukui..." are also being filtered, he added.

The filters will stay on through the end of the semester because the university is still receiving several hundred messages daily containing the virüs, Grimshaw said

Not agood thing to let through during finals week," he said. "It's just better that we block all those"

The virus only attacks Microsoft mail programs such as Outlook and Outlook Express. Telnet addresses were not affected by the virus because they do not have address books, Butler said.

But the virus can overwhelm systerns by creating a barrage of messages, he added.
"It just keeps piling up on each other many the system goes down," But-

The
load a passw also tries to download a password stealing pro-
gram from the Internet, but SU computing administrators blocked access to the Web site as soon as they found out about it, Butler said.

The virus spread rapidly in part because of the explosion of Internet use, Sucher said. But its proliferation in the United States was minimized by warnings from countries that were first hit by the virus, she added.
"When we got into our offices Thursday morning, we already knew not to open 'ILOVEYOU' messages," Sucher said.
A rash of computer viruses forces internet users to protect their computers and educate others about what they should do.
she said. she said.
ainly mare secure but it is unlikels that there will ever be a fail-safe method of securing all data from damage," Sucher added. "We all play a role in computer security."
Computer users should buy anti-virus programs, update antivirus software regularly and read about new viruses, she said.

Sucher also recommended that computer users never open email attachments from unknown sources.

Even ir it's an attachment from someone you do know, use your head and if it looks or feels 'unusual,' don't open it," she said.

\section*{Unsuspecting victims}

Faced with a psychology final and a public relations paper, the last thing freshman Robyn Smith ba laptop to catch the Love Bug.

But she inadvertently set loose the virus when she opened an infected e-mail message at tachment April 29, she said.

Smith, a public relations major, said the problems cropped up when she turned on her com puter the following morning.

She received a file corruption message when she clicked on Microsoit Outlook. She tried clos ing open windows and restarting
the computer, but got no response he screen went dark, sh said
Smy computer doesn't work th said with a short laugh.
Soon after she realized he computer had contracted a virus she said she saw a television now report about the Love Bug.
"I'm looking at it, and I go 'Oh shit,' Smith said.

Once she saw the news report, Smith said she called her family members - the only people in her address book - who told her they already knew about the virus.

Smith said she had to borrow a friend's laptop to write her papers.

It was just a big inconve. nience," she said. If this had happened earlier this semester, I would have been seriously screwed."

Smith, who plans to take her laptop home and try to get it laptop home and try to get it
fixed, said she grew upusing compuxed, sa
And now all of a sudden don't have one," she said. "It gave me a new perspective on things."

Lucy Chien, a freshman computer engineering major, said she was checking her Hotmail e-mail account last week when she
opened an attachment containing opened an

Her computer froze, and when she restarted it, Chien said she noticed that her icons would hide at the bottom of the window She lost 330 MP3 files and 50 picture files stored on her com puter, she added.

Soon after her computer contracted the Love Bug, Chien said her mother called to warn her about the virus - but by then it was too late. The computer had to be completely reformatted, she said.
said "It pissed me off," Chien said. "I'm never opening attachments again."

\section*{Real World leaves imprint on students}

The dreaded "Real World" came to visit Syracuse University this year

It landed with a thud on top of the SU Hill and pierced the protective bubble that seemed to surround us.

The Real World carried a mixed bag of lessons for students on the Hill.

It brought an impressive handful of notable political figures to the university and the city around us. From first lady Hillary Rodham Clinton to Ambassador Alan Keyes to leaders of the Worker Rights Consortium and the Fair Labor Association, students didn't have to walk far to listen to politicos spewing ideology from all sides of the political spectrum.

Not all college students are so fortunate. SU students are better prepared to vote in this autumn's election than some of the most educated adults in the nation. Choose wisely

It was a decent year for SU athletics. The football team finished the season with a string of impressive victories over Kentucky and Pittsburgh. The Orange hoopsters played in the NCAA's Sweet Sixteen, and the campus rallied fiercely around their success.

But something lurked in the shadows that zapped the feisty spirit from SU fans. It stole away their attention to the game and made them realize how precious each second really is.

Last fall, football players David Byrd and Giovanni DeLoatch were stabbed outside of Sadie's Place, a South Side bar. Even SU's athletic stars aren't immune to the world's horrors.

And as the year slipped away, silent predators prowled the streets of off-campus neighborhoods. They assaulted, beat and robbed our friends and classmates. It seemed no one - not the Syracuse police, not the university public safety officials - could stop them.

It frightened us to watch.
No one invited the Real World to come. But we must be aware that it did. It brought us some priceless lessons - ones we'd never have learned in any classroom.

\section*{Senior takes stock of satisfaction with college career}

It's human nature to never be satisfied When I'm at Syracuse University, I want to ege friends were sharing the Windy City with lege
me.
Now my eyes quiver looking squarely at the skips a few beats and my palms perspire - even Peter Pan needs to leave Never Never Land sometime.

\section*{ASHOK}

\section*{SELVAM}

After waiting what seemed like an eternity in Shaw Hall's parking lot, a wide-eyed teenager emerges from his parents' car with suitcases in hand on a sticky August day in 1996. He stretches his legs and cracks his neck, eyeing his new surroundings. bastic four-year vor of the bombastic four-year voyage that will follow. like He has heard oxymorons like "greek unity." Tell that to skimp on the elitist musing if you won't.

For four years, this cynical journalist/bastard has seen black students forced to act "black" and white students forced to act "white," leading to a assholes.

He's felt the pulsating member of the admin stration bending him and his fellow students over. I guess \(\$ 30,000\) a year won't buy compas sion or a ticket to a Dome event in the land of competition. Apparently "www.syr.com" was taken.

The four years of toil are up and I suppose it's time to move on, but I was finaliy getting used to the routine.

My head spins as images and emotions rush through my skull. The presentation of a piece of paper that reads "I am educated" will supposedly ease my mind.

Over four years some have developed a new fashion sense. Some have found and lost companionship. Others have survived the never-ending Syracuse winters, yearning to pursue some vague notion called a career." Others still are left lost, while others don't care.

Gone will be the Sunday afternoon ritual of picking up the pieces of a lost weekend, aided by the sizzle of Cosmo's grill in the background. Gone will be ridiculing those female clowns wear ing too much makeup and black pants while vasing away ing at the cluster learning to be a professional ing at the clust

We've braved the eye of the "derecho." We've seen home run champ Roger Maris relegated from legend to just another asterisk.

I thank the bars on M-Street and the stereo
in the Archbold weight room for helping my toler ation for sub-par music. On a related note, what would you say to big pimpin'? Dave Matthews and Jay-Z are still far worse than mediocre. College has proven that for 95 percent of you your favorite bands or performers lack any tal-

\section*{But enough bitterness, I'll wear the sappy}

Everything before college was an empty can vas. There may have been a few scribbles, but nothing was etched, nothing was drawn in per manent ink. Four years have passed, and recess is over. We now come armed with experience at the expense of innocence, plowing through apple cores instead of orange peels on the way back from classes. Our pencils have dissolved like grains in an hourglass. We're more careful on how we use our strokes, fearful that without an
eraser, without time to retrace our steps, that eraser, without time to retrace our steps, that we're locked onto a path we don't want to be on.

After only a blink between ice ages, I wonder selfishly if that's ample time to leave a mark. My thoughts continue to trample over each other. Will I miss SU Public Safety patrols for no good reason? Maybe the men in blue are just folHess. Maybe ill miss the comfort of Carousel Center, a shining consumer mecca.

I'll probably miss that stuff as much as dining hall food. Do you knew how hard it is to mess ing hall food. Do you knew ine guess I'm not done with being bitter.

And if I hear some country bumpkin referring to Brewster/Boland as the "ghetto" again... I will however miss some of my friends, professors and that whimsical, creaky structure at 744 Ostrom Ave. Sometimes that house reminds me of the Temple of Zuul from "Ghostbusters." I've seen Slimer, Vigo and the Stay-Puft
Marshmallow Man. Just don't let that know-it-all Egon cross the streams or I'll return and issue a series of beatdowns. We don't want to see that.

I hear the glass shattering and I'm going headfirst. I wave goodbye to the biodome lifestyle and comfort. I wave goodbye to you, the one holding this paper.

What I have tangibly has replaced the desire for what could have been, what might have been Perhaps in another life, perhaps if we had more time. But fear not - the freedom of the unknown beckons.

As I take another look at the sweet debris of yesterday, the wood ahead diverges once more. I'm not sure what path I'm on or what path I'm going to take. I'm not sure if I'll be satisfied. But It's funny how things work out

After about 50 years of sharing space with seven other campus ministries in Hendricks Chapel, Syracuse University's ewish students will soon have a place to call their own.

A \(\$ 2\) million alumni donation will cover the bulk of costs to erect what Hillel Director Sivan Kaminsky called "an ongoing dream" of SUs Jewish community.

Construction of SU's new Hillel is slated to begin next pring. It is the third Hillel buildng financed by Karen Winnick, a 1968 SU graduate and children's book author and illustrator, and her husband, Gary, a member of Hillel's national hoard of directors.
"Young people need to have a connection to their Jewish roots, connection to their Jewish roots, whether they have a strong famiy background in Judaism or not, background by seeking other spir-
itual experiences in college," said Rosalee Zalis, director of the Los Angeles-based Winnick Family Foundation.

The Winnicks strive to engender understanding of Jewish values and traditions in collegeaged students so they can make informed choices about how to

An important palts added. An important part of dewish culture, Kaminsky said, is to have your own zone, which a free-standing Hillel house will nnally give SU's Jewish population. The building will be situated on the corner of Harrison and from avenues, two doors down from the Alibrandi Catholic Center.

All we've been able to say for 50 years is "Come to Hillel lounge and we'll give you food," he said. "That's fine, but that's not enough."

Noting the famous adage from the 1989 film "Field of Dreams," "If you build it, they will cos that the move off cian he
will encourage participation by students who might not be comfortable in Hillel's current Hendricks \({ }^{\circ}\) Chapel location. The move may even attract students of other faiths, he added.
"It's not like you're going to have to swipe your Jewish card to get in," he said. "It's like when you're a kid, and you say, 'Hey, do you want to come over to my house and play?' That's what our
Hillel should be."

The location and flexibility afforded by the proposed ry building will give Hillel mem bers greater opportunities to run programs in conjunction with oth er campus groups, Kaminsky said. He cited arts and cultara programs and community service active of the as building for sse of the new building
"There's universal reasons to be involved in those kinds of things," he said. "Jewish people don't have any special calling for vener of discussions campus con vener of discussions abo

Kaminsky said SU's Hillel chapter hopes to raise an additional \(\$ 1\) million to augment the cost of the building project, and another \$3 million toward an en dowment fund to sustain Hillel's programming once the building sompleted.

The first floor of the red brick and gray-slate roofed building will house an e-mail bar, class rooms, a small gym and a student leadership wing for Jewish Student Union officers. The lower level will feature two kitchens one meat and one dairy for kosher diming - and the second foor will include an auditorium that will lso serve as worship space and a ecture hall for guest speakers Kaminsky said

A portion of the second floor will remain unfinished and be sed only for storage in the early tages of the building project. I addition, the building will boast outdoor meetings, study or relaxoutdoor meetings, stud

The building has been de
signed by Fred Babcock of the Babcock Design Group in Salt Lake City, Utah. Babcock has become known as the nation's "de facto Hillel architect," after having worked on nearly every Hillel building project nationwide in recent years, Kaminsky said.
"If you're building a Hillel and you don't at least speak with him, you might be making a big mistake," Kaminsky said. "He is really able to translate student needs and their language into beautiful buildings."

The best thing about SU's new Hillel, said Brian Cohen, for mer president of the Jewish Student Union, is that it can be whatever students want it to be
"If people want a religious haven, it will be that," said Cohen a senior advertising major. "And if they want it to be a social place, it's that, too. It can be any thing and everything, really"
- Student Government

Officers look to fresh start after referenda

BY TIFFANY LANKES
Asst. News Editor
With a new name to commence the 2000 Summer Semester, the Syracuse University Student Association will welcome two dent Association will wel

Following the graduation of Parliamentarian Jonathan M Taylor and Comptroller Chris Greiner on Sunday, Faith Tartaglia and Mery Vieira will as sume the respective positions.
"If ever there was an appropiate time for new people to come in, it's now," said 'Tartaglia a sophomore chemical engineering major.

A name change, which elimiated the word "government" from the Student Government As. sociation's title, was approved during a referendum vote con-
ducted by the association April ducted by the
17 to April 19.

Fifty-eight percent of student oters favored the name change along with the establishment of a programming board and the cut ting of one of two assistant comp roller positions. Veira wil leave her assistant ion when she takes Greiner's role.

About 12 percent of the students at both SU and the State University of New York College of Environmental Science and

\section*{OUTAGE}

didn't have anything due."
The computers had to be turned off to avoid damage from a potential power surge, Morley said. He added that he stayed in the darkened room, where the dim lights flickered under unsteady back-up power.

I was just there, sitting in the dark and answering phones," Morley said. "We had about 55 million phone calls."

At 7 p.m. Sunday, neither juLior Dave Scordato nor his roommate had started their \(15-p a g e\) papers that were due the following day.
'Boom!' the power was out," said Scordato, a resident of

Forestry turned out to vote on the name change and the source of funding for the New York Public Interest Research Group.

Eighty-five percent of student voters decided to continue funding NYPIRG directly from the Student Activity Fee.

SU students currently pay a \$106 Student Fee with \(\$ 6\) going directly to NYPIRG unless a refund \(\$ 86\) with \(\$ 6\) allocated to the pay \(\$ 86\) with \(\$ 6\) allocated to the group.

The referendum followed weeks of heated debate within the Assembly regarding the constituWith the name change.

With the controversy regarding the referenda ceasing to be an issue, SA President Val james joins Partagla and Vieira in planning for the upcoming year.
"I'm extremely excited about working with them," said James, a junior musical theater major. not three different age. Weres not three different agendasthings." studies and marketing major, studies and marketing major, agreed that the new oflcers will work well together to improve
the association. the association.

I really feel there's going to be a new face," Vieira said. "Jamal is very charismatic. Faith is

Dellplain Hall. "We were up shit's creek with that one.

But Scordato, a television, radio and film major, said he managed to finish his history paper by 5 a.m. the following morning.
"The whole thing was pretty shitty," he said of the outage.

Kevin Liaw, a sophomore psychology major, said he finished his seven-page psychology paper at 9:30 a.m. Monday.

The Shaw Hall resident tried starting his paper at 11:30 p.m. Sunday night but had to wait until 12:30 a.m. when the power was restored.
"I was sort of mad for a little bit," Liaw said, "but then it came back so it was OK."
tery passionate and I'm very diplomatic. block and we're going to try to do he best

Vieira added that one of the goals the new officers have for the upcoming academic year is to improve communication with other student organizations.

Groups including the Resi dence Hall Associstion ESF and NYPIRG Aremong those that SA will focus on when improving SA will focus on when improving

The association
The association plans to accomplish this goal by making the SA ofnce, located in the Schine to students by adding computer
and scanners, James said. The new programming board will assist student groups with planning and budgeting events, he added.

\section*{added.}
"It will be more friendly than before," James said.

Services including increased busing on campus, a shuttle to and from the airport during Neighbor Neighborhood Wateh Program ontinue in the fall, he added Another issue the association plans to address is the lack of participation in cam
groups, James said.

He added that the association will make extensive recruit ment efforts to encourage stu
dents on campus to become in dents on campus to become in-
volved in a student organization. -We really want to get people motivated, Tartaglia said. James said he looks for the upcoming semester to be a factor in determining whether or not he will run for re-election in Novernwill
"It's possible," he said. As an assistant comptroller Vieira said she will assume Greiner's position until the nex campus SA election in November my own expectations," Vieira said.

Advisory board debates WRC allegiance
}

\section*{BY Rate STEVENSON} Asst．News Ejitor

A Syracuse University com－ mittee met Tuesday to discuss the pros and cons of signing on to the orker Rights Consortium，a cor－ porate labor－monitoring entity． aid SU senior Marika Wisain， aid committee．

Although no committee nember was adamantly opposed ojoining the WRC，several people wanted to wait in order to fur bility to patrol sweatshops Wissink said

The committee submitted a recommendation to Chancellor
tailing its opinion regarding the ssue．Shaw will make the final hecision about

Kevin Morrow，an SU spokesman，said he believes Shaw would support the committee＇s stance．But in regards to the rec ommendation，the university is not prepared to release a stat ment on it yet，Morrow said．
＂He＇ll probably say we＇re ing to monitor（the WRC）for ing to monitor（the Wre）for a while and reconsiderin three Wissink，a senior music major．

Morrow said he expects an fficial statement from Shaw by the end of the week．

The meeting followed more than a year of efforts from labor

He claims that he should never have been graded because he was not allowed to finish the course．

He originally claimed he re－ ceived a failing grade of a \(D\) in the class，but his official transcript ater revealed that he received a passing grade of C－
＂I＇m glad everything is clear now，said Yeong－Hyum Kim，who co－authored＂Globalization and the City＂with Short and was a ge－ ography doctoral student in the GEO 815 class．＂Now everybody should know

According to the committee＇s report Moore＇s absences and fail－

\section*{MOORE}
continued from page 1
ncluding the Quad and Vice Chancellor Deborah Freund＇s of fice．

Mooresaid he was upset hat not enough students sat on the committee．
Student presence could be nuch greater in all university fo－ added．

ISU students，faculty and staff Moore said he expects that SU will refund him the money for the class，despite the committee＇s decision．
rights groups to persuade the uni－ versity to join the consortium．\(S U\) is currently a member of the Fair Labor Association，a factory mon itor that critics say
vor of corporations

Shaw reasons that the FLA is more established than the rel atively new WRC and thus more deserving of the university＇s sup－ port．
＂Obviously I hope he decides to sign onto the Worker Rights Consortium，＂said Brian McNa mara，a member of the local Stu－ bor．＂But I＇m not sure if that＇s go－ ing to be his decision or not．＂

MeNamara added that he feels joining the WRC is now＂a more realistic option，＂since it is gaining collegiate support and
ure to produce written materials on time were disruptive to the cocused on was a small serminar publication

Moore said he was only ab－ sent twice，but Short claimed he missed class on a regular basis．

The committee found that he available evidence supported Short＇s version of Moore＇s atten－ dance record，according to the re－ port．Moore said that because about is no clearly defined policy about removing a student from a class，the committee could not dom or professional ethics by Short．

Moore＇s second complaint was that Short，Kim and the oth－ er two graduate students in the class clased for the paper they pro the class for the paper they pro－ the journal，the Professional Geo－ grapher，without his permission． The three－member subcom－ mittee that conducted the initial investigation of the case found no basis for Moore＇s allegation that the authors used his written ideas without attribution or permis sion，the report said．

Moore claimed that the stu－ dents and professor had no right to put his name on the paper without his permission，which they claim they did out of colle giality．The committee found that ipation and authorship，the colle
has had an opportunity to estab lish itself．

Colleges including George e University of Michi－ gan
WRC said McNamara，it＇s going great， al McNamara，a senior politi cal science and economics major There＇s a lot more support and more and more p the WRC is the ing to realz
best option．
Wissink McNamara and Wissink agreed that activists college campuses，have brought much needed support to the issue of sweatshop labor
＂I think it has
some two years，especially nation ally，＂Wissink said．＂This issue has
giality was an error in judgment but not a violation of professional ethics．

Moore said it was＂outra－ geous \({ }^{n}\) that the committee said putting his name on the paper out putting his name on the paper out permission was not a violation of professional ethics．

The committee also recom－ mended that its chairperson con tact Stuart Aitken，co－editor of the Professional Geographer，to in form him that Moore＇s allega tions about the article have been investigated and the committee found that they have no basis，ac cording to the report．

Aitken was holding the arti－ cle until the committee reached a decision on the case．The article vember 2000 issue but was moved because of Moore＇s allega tions．

Ai
Aitken said he heard abou the commattee＇s decision and the going ahead with the article．
＂It＇s great to see it on its way again，＂Boniche said．＂For it to be held up because of this incident is really a tragedy．

The committee could not con firm Moore＇s third complaint that Short and Kim used two sen tences from a paper he wrote in the class in their book．The book was published in 1999，but Moor ctainined he wrote his paper con after the spring of 1998.

\section*{'The country's}
last Bonwit Teller closes Saturday

BY MAGIN MCKENNA

BY MAGIN MCKE
Assz. Lifestyle Editor
What began nearly 100 years ago as a major specialty store designed to meet women's turn of the century ends Satur day as the nation's last Bonwit Tellar closes its doors.

All that remains now of Teller's dream to create one of the first major fine women's specialty apparel stores in the Specialty apparel stores in the picked-over sale racks, as the picked-over sale racks, as the of business sale through May 13.

Citing a failure last month to successfully market the store's upscale image to a working class Syracuse community, which owns both Bonwit and the Carousel Center-made the decision to close the store.

Bonwit will be replaced next fall by "The Courtyard at the Carousel Center."
"I think that Syracuse is on the verge of tremendous growth," said Bonwit Chief Executive Officer Murray Daitehman, who is optimistic about his store's closing. "There's a great potential to enhance the climate for business between state and federal government.

The Courtyard will keep Bonwit's original interior, while providing space for an array of small specialty retailers to come to Central New York.
"It's upward for the area," Daitchman said. "I have a lot of faith in The Pyramid Compa-

cinemaniacs
Twas the Cinemaniaes' last column Our last words for the year. We tried a different structure That might be nice to hear:

When hearing of "Keeping the Faith" We thought "how apropos As a Jew and a Cathols

We finally hit the theater
On a different Easter Day
The holidays converging
In a new and interesting way.
In the film, we find a druak Ed Norton,
Stumbling about the city;
Stopping in at a bar.
Thirsty for drinles and pity.
Catching the bartender's ear,
Norton recites his tale of two,
Strangely like the joke
About a Catholic and a Jew.
The premise is simple
A rabbi and a priest.
It sounds all too familiar.
This one is different at least
It starts out with a photo
Immediately misunderstood
"I'm the one on the rigint" he says

Try to believe it if you would."
We go back to the friendship's beginning,
Around the age of 10 ,
We see Norton and his best friends Jenna Elfiman and Stiller, Ben.

Comarades 'til the very end,
This group to always be three,
They take the Number 7 train And watch a Mets victory.

The friends take in the game While there, they are in bliss Cheering their little hearts out The photo captures this

But, Jenna's parents like Dodger's owner, The hated Walter O Malley Orag denna from N.Y. and her boys And take her off to Cali.

Now the best friends, originally three Is down to aniy two,
The boys move on, finding God's work And giving their congregations a clue
The most eligible man in N.Y.,
Stiller's always fixed up on dates,
With the daughters of his Temple's crowd Too often who are flakes.

One day in the near present,

While on the courts playin' ball Norton informs Stiller
Of one interesting phone call.
Childhood Briends reunited
Back together at last,
Jenna Elfman, the girl from the picture Hits New York to tie up the past

At 10, they were inseparable
These three peas in a pod.
But now they have religion
Following a date on which Stiller
Tbok out a talking head,
He and Elfman drop off Norton,
And together hop into her bed.
The passion between the two,
Stiller and Elfman can't deny. After starting their relationship They trap Norton in a lie.
The fact that he wears a collar,
Now comes into play
Sex was not an issue for him
Iil she returned on that day:
Ben's brother married a Catholic chick, And for it, his morn does mock. Now dating a girl who's not a Jew,

continued from page 16 pass play from Williams on the opening drive.
"Malik had a great day," wide out Pat Woodcock said. *He caught everything that came his way. He's a great, big target, and you have to remember he's only been a receiver for a year, so he's still learning the position."

Anderson, the blue team's other QB, endured a rough day against the tough pass rush. busted play that left tailback busted play that left tailback
Chris Davis alone and confused in the backfield. An alert Anin the backneld. An alert Antwo defenders for an eight-yard gain.

Anderson struggled throwing the ball, going 2 -for. 6 for minus-one yard, but he led his minus-one yard, on seven carries. Like Williams, on seven carries. the endzone. But he did come close. Midway through the game,

\section*{The Daily Orange}

Anderson underthrew an open Campbell downfield. The re ceiver made a good play to come pass interference penalty on pass interference penalty on cornerback Will Allen

I left it in the air too long," Anderson said. "You got Will Allen out there, and Will Allen is so quick to step back to it. I was thry I did a good job."

Sandwiched between the two blue series, Troy Nunes led the orange team onto the turf.
Following suit, his first snap was not a good one for the offense.

He scrambled right, looking sideline to sideline for an open receiver. Defensive end Duke Pettijon caught hirn stripped the ball, but Nunes' mates recovered.

His troubles continued a few plays later. On an option, Nunes led running back James Mungro too much on the pitch, and strong safety Willie Ford pounced on the loose pigskin.
ge squad its first score. The
unior \(Q B\) faked the option to the right and flipped the ball to streaked up the left sideline for a 65 -yard touchdown Sean Ord tounor blown. A huge beacker Clifton Smith aided Woodcock's rin.

The fans saved their loudest cheers for Elliott, the junior college transfer. The Syracuse faithful seemed to especially enjoy his first play.

Elliott, who went 3-for-6 for 64 yards, threw a deep ball up the right sideline to fellow juco transfer Kwazi Leverette. The wide out bobbled the ball before safety Andre Brinson ripped it away.
He took a few more shots down the field and connected with David Tyree for a 45-yard gain after the wideout separated himself from Brinson on a stop-and-go route.

Toward the end of the scrimmage, Elliot hit Leverette for an apparent 50 -yard touchdown. But a holding penalty ated the points
Elliott spliced down field bombs with conservative tight spirals underneath. His rhythm since his troubles at the start of spring practice. spring practice.
spring, I've been working to get better and better," he said. "At better and better, he said. At mage), I was a little shaky and I didn't feel comfortable with the offense. But once you start playing and sweat starts coming out, you get into a rhythm and things worked out better."

After Elliott aerial show, Nunes returned and hit Woodcock for 38 yards and the unit's second score.

The sophomore quarterback completed 5-of-8 for 66 yards on the afternoon. He
evaded the defense to buy time to throw and even turned one busted play into a 14 -yard scramble.

In all, the QBs hit eight different receivers and connected on 13 -of- 28 throws without an interception.

Most of the quarterbacks sluggish days, however, can attributed to the SU defense.

All-Big East defensive end Pettijohn led the charge with five stops, two sacks and a forced furnble to lead the blue team. Freeney led all tacklers on the orange team with six half of which were for a loss. He also posted one-and-a-half sacks.

More than the numbers show, the ends chased the signal callers out of the pocket and plugged apparent holes the tailbacks tried to hit.

\section*{Aye Aye, Captain}

As is the customary spring garne tradition, SU revealed its ed by their teampates, fullback Kyle Johnson Greenwood and Woodcock will lead the Orand mooncock men inta battle

The team honored the trio of seniors before the scrimmage commenced by calling each to the center " \(\mathrm{S}^{\prime}\) for recognition All three said they were hon ored because the selection comes from their peers.

Johnson said he got choked up when he heard his name called over the Dome P.A. system, and Greenwood labels the honor a privilege.
"It's very special," Woodcock said. "When you think about the guys who have been captain here before, it's very humbling. You're part of that group, and you're name goes down in history among those guys forever. It validates all
the hard work I've done,

\section*{Qinote of the Week}

Offensive line coach George DeLeone reflecting on the upcoming summer workouts: We've got to put this thing to gether. We wish we were fur her along right now, but were not. We've got to accelerate our progress in preseason camp to he point where, in some cases, ve almost have to have a year of football taking place in 29 practices.

\section*{In other happenings}

Linebacker Rich Scanlon and Clifford Snell surprised ob servers with solid efforts on de ense. Scanton finished with four tackles and a leaping pass deflection that showed his athleticism. Snell, a senior who saw limited action in his first three years, registered five tackles, tour for losses, Greenwood, who played alongside Scanion in the scrimmage, com primene did really preat job Greenwood said "Hos very fast and he picked the defense real and he ply this spring He's y quickly this spring. He'sele ated hiskamest wrappin Shafer, with a cast wrapping offs deep into the endzone. After Ws deep into the endzone. Afte however, Shafer shanked a PAT attempt wide right. On the fina play of the day, he was set to attempt a 27 yard field goal, but Mark Holtzman's snap took wo bounces before getting to holder Nunes, and Shafer couldn't pick up the ball with his bad limb. ... Although none of the four QBs threw an INT Nunes, Elliott and Anderson all fumbled snaps from the cen ter. Elliott even tripped over his napper's feet as he was drop ping back for a pass.
